Each liability policy shall provide that COUNTY shall be given notice, in writing, at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONCESSIONAIRE and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Permit, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Prior to the execution of this Permit by COUNTY, CONCESSIONAIRE shall file certificates of insurance with COUNTY, showing that CONCESSIONAIRE has in effect the insurance required by this Permit. CONCESSIONAIRE shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. ### I. Site Plan

Please refer to the 2021 Festival Map, OCR Course Map, and Trail Course Map for a resource for the general location of obstacles and usage of the trail system. The 2022 maps will be submitted closer to the 2022 event.

### Basecamp

Spartan Race will occupy a portion of the grass just west of the main park office and the overflow parking lot #9. Basecamp areas will eventually contain seven 53' trailers and a 20x40 ft tent. This basecamp will serve as the headquarters for all construction, deconstruction, preparation, and shipping/receiving for Spartan Race. All equipment, tools, vehicles, and machines will be stored here every night and there will be a guard on duty every night from 7pm to 7am to watch these items. Both diesel and gasoline will be stored in drums in basecamp to keep all equipment and vehicles fueled up. Fuel will be delivered when they run out. All obstacle materials will be pre-fabricated at basecamp and then transported to their location for final assembly. One of the trailers in basecamp will serve as command center during the entire set-up/event/tear-down cycle.

### Course

The Monterey Spartan Super course is approximately 10 km long with approximately 25 obstacles and will take place exclusively on Saturday, June 4, 2022. The Monterey Spartan Sprint course is approximately 5 km long with 20 obstacles and will take place exclusively on Sunday, June 5, 2022. The Monterey Spartan Trail Race will have 10 km, 21 km, and 50 km distance options and includes no obstacles and will also take place on Sunday, June 5, 2022. The route itself is mostly on unpaved, holly terrain, and will utilize parts of the local trails systems including Ollason Trail, Bessie Canyon Trail, Gilson Gap Trail, the Youth Overnight Area, the Environmental Center, Toyon Ridge Trail, East Ridge Trail, Vista Mesa and the Wildcat Canyon Trail. The route follows only these established trails. The route is specifically designed to be steep, rocky, and exposed to the elements in order to make the route itself an obstacle. There will be no trail blazing.

Directions will be marked by a mixture of white chloroplast signs with red arrows, white 2-inch wide ribbon with red "SPARTAN RACE" lettering, and cones and grade stakes. Extra attention will be put to marking sharp turns, single track sections, and sections where the course passes next to itself with extra signage, tape and the occasional hard barrier. There will be 6 water stations on course equipped with tables, water, cups, garbage cans. garbage bags, 1 toilet each and volunteers to help pour, hand out water and keep area clean. The rest of the obstacles will be manned on race day by volunteers and staff to keep an eye out for medical emergencies and maintain the integrity of the race.

All obstacles contain either free standing, temporary structures or are dug into the ground. Of those dug into the ground, some are meant to pose a challenge themselves, others are meant to serve as a safety precaution for falls from a height of over 8 ft.

Obstacle materials, volunteers, water, and staff will be transported around course by 4-wheel -drive vehicles operated by Spartan Staff only during build week, race day, tear down, and load out. Spartan Race will also use heavy machinery to assist in digs or other large builds. We are expecting to have ten UTVs, two skid steers, one telehandler, one excavator, one flatbed truck, four 4WD 3/4 ton pick-up trucks, and two 4WD SUVs. All machinery and vehicles will be operated by skilled and trained Spartan Race and Medical staff. Staff with be equipped with goggles, hard hats, safety vests, earplugs, DOT helmets, and gloves for their own personal protection. Only those with proper licenses and certification can operate each individual machine or vehicle. All staff will be held accountable for following all posted speed limits and going below 10 miles per hour on all unpaved mountain roads.

### **Festival**

The Festival area will be located on the badger flats picnic meadow. All traffic into and out of festival will be funneled through the center of the badger flats area, flanked by parts of the course on both sides. Festival will contain a registration/check-in area, bag/coat check, merchandise booth, food, start line, finish line, complimentary refreshments, sponsor booths, a cold rinse/changing area, a kids race start and finish corral, a medical tent, and a stage.

The beer tent will be situated close to the trees for shade and close to the parking lot to allow easy access for the beer trailer. The beer-drinking zone will be closed in by barricade fencing with a single opening manned by a security guard who will check for 21+ wristbands or check IDs if no bracelets are found. There will be tables inside the beer garden for seating. The food tent will be stationed next to the picnic tables so that patrons can easily sit and eat their food. The food and beer tents will be stationed side-by-side because the same staff will operate both booths and so that those inside the beer garden can easily buy food without having to leave the fenced area.

### Event Registration / Ticket Sales / Cash Collection

Registration and check in booths will be set up at the entrance to the festival. Tables and information will be available for those who need to sign waivers and find out their bib numbers, but most racers arrange this in advance. Most of the registration is done in advance of the event online. Although Spartan Race does same day race sign-up, this accounts for less than I percent of sign ups. In addition to same-day race registration, spectators and kids racers all accept same-day sign ups. Other areas that generate cash on race day include merchandise and food and beverage. Spartan Race will provide secure cash collection and storage during the event.

#### Access

Once inside the festival, all sides will be enclosed by fence. Any openings will be watched by security guards who will be checking for wristbands and bag check tags for anyone entering

festival. There will be a total of 4 access points. Spectators and racers who have either completed the race or are waiting their turn will be encouraged to leave festival and explore the course. All customers will receive a spectator map of the course and festival that will outline which areas are accessible for the best viewing and picture-taking.

### **Shuttles**

A maximum of 20 buses will be in operation at peak hours to shuttle racers to and from the venue. The shuttle will run continuously from 5:00 am until 9:30 pm.

### Medical

The main medical tent is situated on the north-east side of festival along the existing fence line that borders Ollason Rd. The purpose of this placement is to allow easy access for any rovers pulling patients off course and for easy access to ambulances that must stage on the road for quick exits in the case of critical transports. The particular placement near the southern most edge of the dry creek bed is due to a natural break in the fence line and because it is removed from festival to give patients some privacy while at the same time remaining visible should someone in festival suddenly need medical attention and need to find the medical tent easily. A medical incident action plan and supplemental information will be submitted with the special event medical plan. Please see attached IAP from 2021 event which will be almost identical to 2022.

### II. Communications Plan

#### Coordination of Communications

Spartan Race is responsible for coordination of all communications with involved Public Safety agencies, County Communications and all normal site communications channels for Spartan Race. The Communications Director/ Race Director (TBD) may be contacted by calling TBD for the duration of the access period

During this event Sheriff Deputies will remain on Sheriff's primary frequency. The Spartan Race Communications Director will coordinate with County Communications Dispatchers via cellphone. Any requests for additional fire, ambulance or air ambulance response to an incident at the event will be coordinated with County Communications Fire Communication Dispatch via cellphone.

The Spartan Race Communications Center will be in full operation for the duration of the access period.

### Staffing

There will be one main dispatcher (Monterey Spartan Race Director, see below for contact details) on duty for the entire duration of the event. The Communications Director / Race Director will be supported by the Build Director and Festival Manager who will communicate

with each zone of race operations. The course will be divided into 5 zones, managed by members of Spartan Race staff. Each zone will contain up to 8 stations manned by volunteers, each of which responsible for the safety and integrity of racers passing through their station. Main Festival will be divided into a minimum of 7 zones for each department (registration, bag check, merchandise, future race registration, F&B, cold rinse, volunteers). All of the communications staff and zone leaders have been with Spartan Race at least 1 year. Each member takes his or her dispatch responsibilities very seriously. Staffing levels will be maintained at a level of at least 3 dispatchers and 150 radio operators during the race day.

### **Facilities**

The communications center during the entire event will be located at the office in Spartan's Basecamp adjacent to the maintenance yard. Frequencies will be available for all dispatchers.

# IV. Parking and Traffic Control Plan

On June 4 and 5, 2022, there will be approximately 4,000 people attending and working the Spartan Race on June 4 and 3,500 on June 5 at Toro Park in Monterey, CA. All attendees excluding staff, handicapped, and vendors will be directed via advance notice and digital road signs to park at Wolf Hill / Purple Parking at Laguna Seca Recreation Area. Spartan Race will arrange for the appropriate number of shuttles to run a continuous service between Laguna Seca and Toro Park - at peak hours, moving 1,000 people per hour.

Spartan Race will hire the appropriate number of parking attendants, police officers, and security personnel to keep traffic moving, check credentials, utilize parking spaces efficiently, and respond to emergencies or accidents. Finally, Spartan Race will supply all essential materials such as cones, light towers, toilets, tables, fencing, signage, digital road signs, trash bags, and dumpsters to ensure safety, comfort, clear direction, and cleanliness for all hired staff, rented space, and customers. This plan will commence at 5:00 am and will terminate at approximately 9:30 pm.

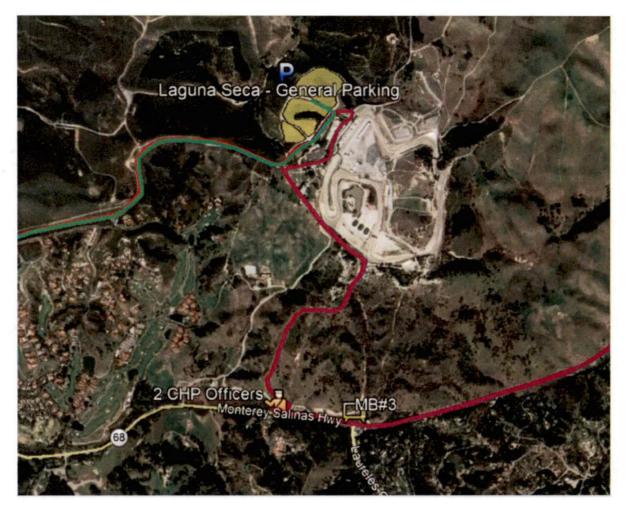

On Sunday (second race day) the plan will be identical to Saturday's plan in every way except for less attendees and it will finish at approximately 9:00 pm on Sunday.

#### PARKING INGRESS AND EGRESS PLAN

To prevent traffic back-ups on Highway 68 and to provide a gradual incline that would be safe for cars, Spartan Race has agreed to use South Boundary Rd. as the path for ingress and egress of cars to and from Wolf Hill at Laguna Seca. To access South Boundary Rd. from Highway 68, cars will be directed by digital road sign to turn North onto Canyon Del Rey Blvd. ¼ mile before the intersection on both the east and west bound sides of Highway 68. From there, they will turn right onto General Jim Moore Blvd. and then turn right onto South Boundary Rd. All cars will do the same in reverse in order to get back to Highway 68.

The shuttle buses will access Laguna Seca by turning on to A Road from Highway 68. All shuttle buses will exit this same way, taking A Road down and turning left to get back on to Highway 68 and bring passengers to Toro Park. There will be two California Highway Patrol Officers at this location to make sure buses have no trouble turning on to Highway 68 from A Road.

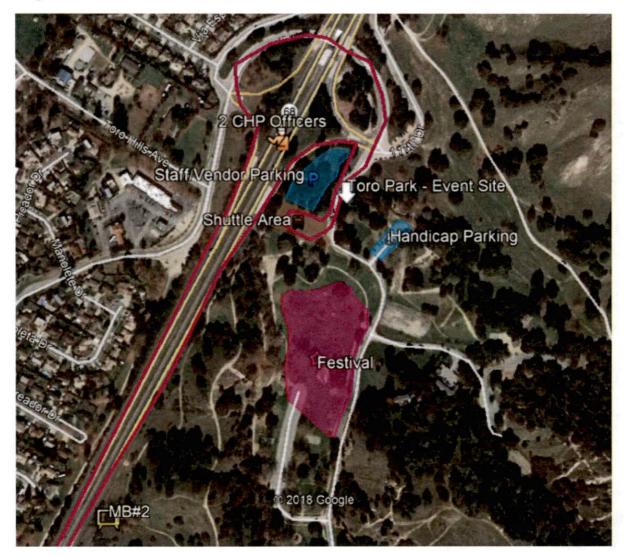

Spartan Race will coordinate with Del Rey Oaks Police Department who will arrange for one officer to open the gates on South Boundary Rd. at 4:00 am. That officer will remain on duty through the main portion of the day's traffic (expected to be 5:00 pm at the latest) to keep order, ensure back-ups do not affect major roads and respond to any emergencies. Spartan Race will work with Del Rey Oaks Police Department to make sure that all gates are locked once the last racer and bus has left Laguna Seca. Spartan Race will clear all equipment and materials within 2 days of the event.

#### TORO PARK TRAFFIC AND PARKING PLAN

To prevent back-ups on Highway 68, parking lot under-supply, and dangerous traffic near or through the race course, Spartan Race, in conjunction with Monterey County Parks, will close Toro Park to the public and only allow a small number of authorized vehicles through the gates of Toro Park. Those allowed passes will be handicapped customers with valid proof, staff, vendors, ambulances, emergency vehicles, park staff vehicles, and shuttles. All shuttles will be restricted to the first gravel lot on the east side of the toll gate. Inside the lot, shuttles will loop around to the southern side where they will drop off customers, then move 70 feet forward to pick up a new bus load of customers. Two bus captains will manage the on-and off-loading of each bus to ensure that every seat is being filled quickly and efficiently. All handicap,

staff, and vendor vehicles will be confined to the first paved lot on the north side of the road just after the toll gate.

Cars will be directed NOT to park at Toro Park by both messages prior to the event and digital road signs staged ½ mile from the entrance to Toro Park on both the east and west bound sides of Highway 68. This will hopefully prevent the masses from trying to park at Tro Park. Just in case, Spartan Race will coordinate with California Highway Patrol to supply 2 officers from 6 am to 3 pm to monitor the fate and the road for illegally parked vehicles and those walking into Toro Park. They are authorized to help direct traffic if a long line forms of those trying to park their cars in or around Toro Park.

Spartan Race will stage two parking staff from 5:00 am to 2:00 pm to check passes of all vehicles entering the park and direct them to the proper lots. Those without passes will be turned away. Within the park, traffic will be limited to UTVs operated by medical and Spartan Race Operations, large pick-up trucks, and SUVs operated by Spartan staff that are shuttling various volunteers to their positions on course, ambulances on stand-by, or needing to transport someone off site, park staff vehicles, and vendors who need to resupply their booths during the day.

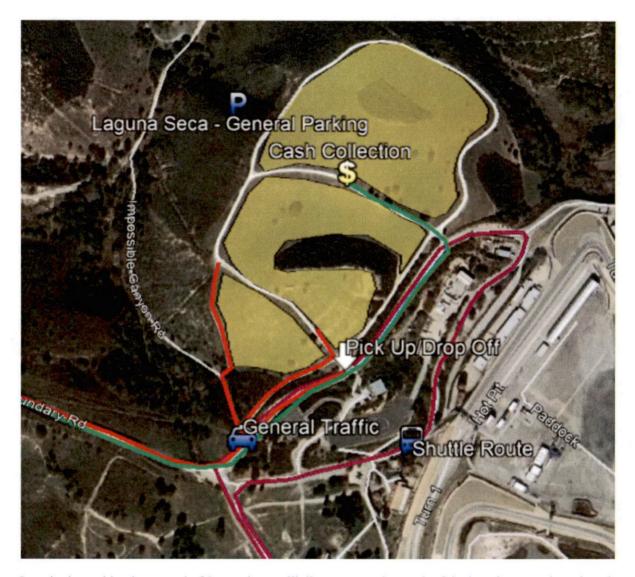

#### STAFF AND ADA PARKING PLAN 2021

All handicap vehicles will be confined to the first paved lot on the north side of the road just after the toll gate. All staff and vendors will park just North of the shuttle drop off in the area identified in the map below.

### LAGUNA SECA PARKING PLAN

At the top of South Boundary Rd., cars looking to park will be flagged left on to Barloy Canyon Rd. Cars will be directed up to the Northern-most entrance to Wolf Hill where they will turn left into the lot. <u>There is no longer cash collection at our events</u>.

Once in the parking lot, a total of 9 attendants will direct cars to the south of the lot, closest to the exit and fill back towards the North as spots become occupied. The exit will be the Southern-most path where cars will merge back on Barloy Canyon Rd. (managed by flaggers) and then turn right on South Boundary Rd. to leave the Park. Shuttles will be provided free and are the only way for racers, spectators, and volunteers to get to Toro Park as security guards will ensure that Toro Park will be closed to anyone not coming in on a bus or driving in without a pass. Shuttles will use A Rd. to Highway 68 to travel between Toro Park and Laguna Seca. At Laguna Seca, shuttles will keep right at the split when they reach Directors Rd. and head towards Purple Parking. At the entrance path for cars, they will cross the turning cars (this will be managed by a flagger who will direct cars one at a time so that they never collide with a shuttle). Shuttles will stop just before the parking exit path and will drop off customers, then move 70 feet forward to pick up a new bus load of customers. 2 bus captains will manage the on- and off-loading of each bus to ensure that every seat is being filled quickly and efficiently.

After picking up and dropping off, shuttles will drive back to Highway 68 and turn on to A Road to pick up passengers from Laguna Seca. A total of 4 light towers, 1 sign, 1 dumpster, 20 regular toilets, 2 ADA toilets, 220 cones, 50 trash bags, 2 tables, and chloroplast signage will be provided by Spartan Race. Since the Main Entrance to Laguna Seca will be closed to cars, there will be a flagger and signage on both sides of Hwy 68 at the Main entrance to A Rd. and B Rd. of Laguna Seca to direct cars travelling Westbound and Eastbound to access Laguna Seca via Route 218 in Del Rey Oaks and only allow buses to use A Road.

# V. Sanitation and Recycling Plan

Spartan Race will provide toilets, trash cans, dumpsters, and staff to keep the parking lots, festival, bus depot and course clean and well stocked. The festival area will be supplied with 90 regular porto potties (1 for every 110 racers expected in the festival area at peak hours), 11 ADA porto potties, 2 trash dumpsters, 1 single stream recycling dumpster for glass, metal, plastic, paper, or cardboard, 50 trash bins and 15 labeled recycling bins. Trash bins and recycling bins will be scattered throughout festival in key trash generation areas TBD. Trash / recycling bins and dumpsters will also be placed at the parking lot, in basecamp, and on course at each of the water stations (to collect used cups). Porto potties will be

equipped with hand sanitizer dispensers. Spartan sanitation staff will regularly empty trash and recycling bins, place new bags in bins, pick trash and recycling off the ground, and refill hand sanitizer and toilet paper in porto potties. Spartan Race will negotiate with Waste Management – Monterey (http://www.wm.com), but has not yet signed a contract with them.

# VI. Security Plan

Spartan Race will hire private security guards for armed asset protection, festival presence and to keep the peace. During the race days, there will be 6-8 guards on duty from 6am until 10pm at various posts. All attendees will be required to pass through registration. Once past check-in all attendees must have a colored wristband indicating they signed the waiver which releases both Spartan Race and the venue from any liability regarding that person. Those found without a wristband will be escorted out of the festival and will not be allowed back until they receive said wristband. For the duration of the access period, there will be a minimum of 1 overnight guard watching Spartan Race equipment and assets at basecamp and festival for a minimum of 12 hours (7pm to 7am). Spartan Race will contract event management security through a professional company. There will be a total of 3 guards monitoring the entrance and exit points. Within the festival space there will be 2 guards observing and roaming. Additionally there will be 2 guards checking ID's and monitoring the beer tent. All guards will be aware of each other's location and able to provide additional attention if needed.

## VII. Disabled Access Plan

Handicapped Parking will be available within Toro Park (at the Oak Grove lot) for those with a government-issued Disabled Person Parking Placard/Plate or Disabled Veteran License Plate. Access will also be granted to those who have received written permission from Spartan Race. The parking lot is a 300 ft walk to the entrance of the Main Festival at the Badger Flats picnic area. Once inside the festival, there will be 11 ADA toilets available at the major toilet corrals located in a central, flat, accessible location. All areas of festival and course will also be fully wheelchair accessible, except for those areas of course that steep single track. All customers will receive a spectator map of the course and festival that will outline which areas are accessible for the best viewing and picture-taking.

The main parking lot at Laguna Seca will also have 2 ADA toilets stationed near the line for the shuttle bus. The shuttle bus will be able to transport anyone with a disability as well as small children with strollers, but not those travelling by wheelchair or electric mobility aid. Those who cannot be transported by shuttle bus will be given a handicapped parking pass and directions to the designated lot at Toro Park.

#### VIII. Animal Control Plan

Spartan Race allows pets into its events. At the discretion of Security, Spartan and police, guests may be asked to remove their pets from the event area if they are deemed a nuisance or danger to the public or someone else's pet. At the event anyone found with a pet will be held solely responsible for their pet's actions.

#### IX. Remediation Plan

#### Restoration:

- 6/6/22 All pits get pumped out and water discharged into a Toro Park approved area.
- 6/7/22 Operator with tracked skid steer starts back filling all pits, trenches, holes and disturbed areas.
- 6/7/22 Spartan Race Director meet with Toro Park manager to review all remediation plans
- 6/7/22 All digs get graded and seeded where required by Toro Park. All equipment gets picked up.

# X. Camping Plan

There will be no camping allowed onsite for this event.

### XI. Vendor Plan

Spartan will have food and beverage services present in the festival for guests to enjoy. Sids Smokehouse will be providing food, beverage and beer service and will submit a TFF with our Event Organizer Application. They will serve out of a 20x20 tent that follows Health Department code and operate with a reefer truck, supplemental food truck and outdoor grills. They will submit their annual permit with the Event Organizer Application.

Lastly, Spartan will have upwards of 10-15 sponsors soliciting, selling and advertising their companies and products in the festival area. Each of these sponsors will operate out of its own 10x10 or 10x20 canopy tent.

# COUNTY OF MONTEREY SPECIAL EVENT MEDICAL PLAN

Other medical/first aid Describe medical/first aid services not described above such as mobile first aid teams:

Event medics will provide four medical rovers spread throughout the course to transport minor injury patients and tired racers to the main medical tent. They will act as First Aid attendants and normally be the first medical contact for all minor injuries.

Monterey County Regional Fire should be providing two Paramedics, two EMT's, one ALS ATV's, and one ALS unit as primary responder, treatment provider and transport off course for major injuries and as assistants in treating and transporting minor injuries as needed as they did in previous years.

American Medical Response will provide two standby ALS units stationed at the main medical tent in the festival area to provide advanced medical treatment in the medical tent or transports to nearby hospitals as needed. All three parties will be coordinated by David Gonzales of Event Medics except in MCI, natural disaster, or advanced injury situation in which the highest-authority, highest-level certified provider on site will assume command.

All parties will convene at Toro Park for a course run through and communications debrief on Friday, June 3rd between 12:00 pm and 4:00 pm and will be on site providing medical coverage on Saturday, June 4th from 6:00 am until 10:00 pm and Sunday June 5th from 6:00 am until 9:00 pm

Plan to identify the need for a medical response and process to get medical care for the patient:

Once an injury has been identified, rovers and/or festival medic will be dispatched to respond to location. The severity of the injury reported will determine which level of responder is sent by the coordinator. If the patient is A+Ox4 and refuses treatment and chooses to continue, the responders will treat on location and release. If first response treatment is not enough and the patient requires/accepts further treatment, the patient will be brought back to the main medical tent by UTV and further assessment and treatment will be made. If a higher level of care is needed then ALS will transport the patient to the hospital for further care.

#### Expected impact on 911 system:

There is no expected impact on the 911 system. A minimum of 2 private ALS ambulances will be stationed on standby at the event and will be mobilized in the case of a rapid transport. Other ambulances from the same company will come to replace the transporting ambulance so that there is a constant coverage of 2 ambulances. 911 will not be called unless in an extreme MCI situation.
