I recently moved to Monterey county from Pasadena and wish to serve in the capacity of climate and clean energy. My perspective on the latter is that we can transition to a clean energy-based, climate-friendly economy and profit greatly from this transition. In addition, I am interested in learning about and serving my new local government, and understanding the challenges of an area economically focused on agriculture and tourism.

Please state the reason you would like to be a member of this board committee/commission/district.

I am a hybrid remote worker for NASA/Caltech's Jet Propulsion Laboratory, and I have spent my career working on scientific research projects, including those in the area of climate change impacts. I understand the urgency of the problem, and I am appreciative of the climate-related resources and goals issued by the state of California and its counties and cities. I would like to represent the perspective of clean energy as an economic driver for the region.

Have you served on an advisory group before?
