We are concerned local residents. We have learned that the property on 3256 17 Mile Drive is to be reviewed on February 2, 2022, for a proposal to demolish the imposing 100 year old residence for the construction of a new contemporary residence.

The property, built in the early 1920's was designed by George Washington Smith, a renowned architect for indigenous architecture. A book published by Irving R. Morrow in February of 1925, described this house as a prime example of "California Riviera." This prominent home is one of five of the original "Great Houses" built between The Lodge and the Lone Cypress Tree. These are imposing homes designed in the distinctive Spanish Revival Architecture and built in the 1920's, and together they define the early history and character of Pebble Beach and have delighted and awed locals and visitors alike for the last 100 years.

The demolition of the residence at 3256 17 Mile Drive would forever change the historical character of this unique stretch of Pebble Beach coastline. We, the undersigned, ask that the core of the residence designed by George Washington Smith be retained.

Thank you for your thoughtful consideration.
