Sourcewell issued a public solicitation for Public Safety Communications Technology and Hardware Solutions from which Vendor was awarded a contract.

Vendor desires to contract with Sourcewell to provide equipment, products, or services to Sourcewell and the entities that access Sourcewell's cooperative purchasing contracts (Participating Entities).

1. TERM OF CONTRACT

- A. **EFFECTIVE DATE.** This Contract is effective upon the date of the final signature below.

Unless agreed to by the Participating Entities in advance, Equipment or Products must be delivered as operational to the Participating Entity's site.

This Contract offers an indefinite quantity of sales, and while substantial volume is anticipated, sales and sales volume are not guaranteed.

B. **WARRANTY.** Vendor warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Vendor warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Vendor's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. Any manufacturer's warranty that is effective past the expiration of the Vendor's warranty will be passed on to the Participating Entity.

C. **DEALERS, DISTRIBUTORS, AND/OR RESELLERS.** Upon Contract execution, Vendor will make available to Sourcewell a means to validate or authenticate Vendor's authorized dealers, distributors, and/or resellers relative to the Equipment, Products, and Services related to this Contract. This list may be updated from time-to-time and is incorporated into this Contract by reference. It is the Vendor's responsibility to ensure Sourcewell receives the most current version of this list.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced as stated in Vendor's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Vendor must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery.

Vendor must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Vendor in breach of this Contract if the Vendor intentionally delivers substandard or inferior Equipment or Products. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Vendor as soon as possible and the Vendor will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

B. SALES TAX. Each Participating Entity is responsible for supplying the Vendor with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Vendor may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Vendor determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Vendor may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Contract Administrator. This form is available from the assigned Sourcwell Contract Administrator. At a minimum, the request must:

- Identify the applicable Sourcwell contract number;

- Provide sufficient detail to justify the requested change;
- Individually list all Equipment, Products, or Services affected by the requested change, along with the requested change (e.g., addition, deletion, price change); and
- Include a complete restatement of pricing documentation in Microsoft Excel with the effective date of the modified pricing, or product addition or deletion. The new pricing

restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcewell Price and Product Request Form will become an amendment to this Contract and be incorporated by reference.

If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration of this Contract; however, Vendor performance, Participating Entity payment, and any applicable warranty periods or other Vendor or Participating Entity obligations may extend beyond the term of this Contract.

Vendor's acceptable forms of payment are included in Attachment A. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Vendor, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements) not addressed in this Contract, the Participating Entity and the Vendor may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

The Vendor will submit payment to Sourcewell for two percent (2%) multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Vendor's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. 7	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>"L3Harris Technologies, Inc. is an agile global aerospace and defense technology innovator, delivering end-to-end solutions that meet customers' mission-critical needs. The company provides advanced defense and commercial technologies across air, land, sea, space and cyber domains.</p> <p>Resulting from the merger of Harris Corporation and L3 Technologies in 2019, L3Harris is organized into four business segments: Integrated Mission Systems; Space & Airborne Systems; Communications Systems; and Aviation Systems.</p> <p>In 1895, Alfred Harris disrupted the printing industry problem by creating a faster printing press, establishing the Harris Automatic Press Company in Niles, Ohio. Harris built on that early innovation by evolving in the following decades into an electronic communications provider. As the space race accelerated, Harris acquired Radiation Inc., and became a leader in miniaturized electronic tracking and pulse code technology. After relocating to Melbourne, Florida, in the 1970s, Harris Corporation transformed itself into a global communications and information technology company.</p> <p>L3 Technologies was created in 1997 as L-3 Communications, named for the three initials of founders Frank Lanza and Robert LaPenta in partnership with Lehman Brothers. Lanza and LaPenta previously served in executive roles at Loral Corporation and Lockheed Martin, respectively. L3 was created through the divestiture of business segments following the merger of Lockheed Corporation and Martin Marietta – business segments that had originally been part of Loral Corporation and had been acquired by Lockheed in 1993. Under Lanza's leadership, L3 experienced massive growth through 100+ acquisitions in its first 19 years. The company changed its name to L3 Technologies in 2016 to more accurately describe its wider scope.</p> <p>In 2019, Harris and L3 combined complementary strengths in a merger of equals to form L3Harris Technologies, Inc. L3Harris is an agile global aerospace and defense technology innovator, delivering end-to-end solutions that meet customers' mission-critical needs.</p> <p>L3Harris is committed to be a good corporate citizen and enhancing life in the communities where it has operations. 15	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	Commonwealth of PA – Starting in 1996, Harris' predecessor, M/A-COM Inc., a subsidiary of Tyco Electronics, worked jointly with the Commonwealth of PA and installed the PA-STARNet statewide radio network for the Commonwealth. M/A-COM was also the maintenance provider for the statewide network. Harris Corporation purchased the PSPC business from Tyco Electronics in May 2009. The Commonwealth – Harris maintenance contract was not renewed at the end of the contract term in September 2015. The Commonwealth subsequently reviewed the performance by Harris and its subcontractors under the maintenance contract for the 2012-2015 time period. Harris fully cooperated with the Commonwealth during its review but disagreed with some of the review conclusions. The Commonwealth and Harris also disagreed regarding the performance by Harris of certain grounding work at several sites in the statewide radio network. The Commonwealth brought an administrative action against Harris in February 2018. The parties settled the matter in May 2018 and resolved the review differences and grounding issues. As part of the settlement, L3Harris agreed to certain limited sales restrictions. Settlement terms are confidential, but L3Harris has already completed re-performance of the grounding work.	*

The L3Harris contracting plan for women and small business entities has been attached to the proposal in section WMBE/MBE/SBE or Related Certificates.	*

41	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>"The L3Harris provides the superior solution that outlines the following benefits:</p> <p>Local Presence and Cost of Investment: L3Harris has contracted and is currently implementing multiple systems within the region. Some examples are - Alberta First Responder Radio Communication System (AFRRCS), Miami-Dade County, Florida, Joint National Capitol Region, Alliant Energy, State of Delaware, American Electric Power, Mountain Home Air Force Base, and others. L3Harris products and equipment are also available to be procured through our authorized distribution channels all across North America.</p> <p>Partnering with L3Harris gives the agencies the lowest lifecycle costs, especially when comparing the capabilities, robustness, and reliability to others in the industry.</p> <p>Interoperability: L3Harris provides multifaceted interoperability solutions to support and connect multiple agencies and vendors across systems and communication standards through Network First Gateway, Encompass Gateway, BeOn®, and P25 Inter RF Sub System Interface (ISSI).</p> <p>Reliability, Outstanding Value – The new P25 system solutions are designed to minimize single points of failure. Geographically split Network Switching Centers provide redundancy and survivability. Non-proprietary, commercial-off-the-shelf (COTS) equipment provides ease of replacement.</p> <p>Redundancy: The L3Harris Geo-Separated Redundant VIDA solution is unmatched. The failover rates are the fastest in the world. First Responders using L3Harris P25 solutions know when they key up, they will be heard. Both VIDA cores run simultaneously in different geographic locations, listening to everything on the system. If one of the cores is compromised, the other core takes on the load without skipping a beat. The solution has been tested time and time again during catastrophic events, with full success. In the event both cores are compromised, each site can retain communication integrity with autonomous trunking.</p> <p>Innovative High-Tech Solutions: L3Harris technology approach is one of the innovative and future-ready solutions designed from valuable ideas and opinions of first responders and dispatchers. In addition to our ability to connect our systems to FirstNet, the proposed BeOn Push-to-Talk P25 application will serve the customer's communication needs today and in the coming years. The use of an XL portable radio, either full spectrum or single-band, extends the coverage anywhere in the world by connecting to Wi-Fi, LTE or FirstNet, including inside buildings such as schools or hospitals.</p> <p>Harris infrastructure can seamlessly operate between Phase 1 and Phase 2 with no additional software or hardware changes.</p> <ul style="list-style-type: none"> – Enhanced Dynamic Dual Mode (EDDM) – The mixed-mode functionality of Harris P25 infrastructure will allow the use of channels in P25 Phase 1 or P25 Phase 2 mode of operation. Base station channels change between Phase 1 and Phase 2 mode on the fly as each call is established depending on the radios' capability involved in the call. – Digital Audio Clarity – Harris P25 systems feature the Advanced Multi-band Excitation (AMBE+2™) vocoder, the next generation of P25 Phase 1 Improved Multi-band Excitation (IMBE) vocoders. The AMBE+2™ vocoder replicates human speech better than previous vocoders and at about a third of the bit rate required for P25's IMBE. This results in better voice quality, better speaker recognition, and improved system throughput."

Table 9: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
42	Do your warranties cover all products, parts, and labor?	L3Harris warrants that that hardware and installation services furnished by L3Harris will be free from defect in material and workmanship for one (1) year upon the system acceptance date for infrastructure equipment and two (2) years upon the system acceptance date for subscriber units.	*
43	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	There are no standard usage restrictions or other limitations pertaining to the warranty that may adversely affect coverage. Exclusions to the standard warranty for abuse, neglect, excessive wear and tear are delineated in the maintenance agreement, but do not affect coverage.	*
44	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	The Depot Repair and Return service covers the cost to fix covered equipment at L3Harris or other third-party manufacturer's factories. This service is part of our standard warranty and is a premium service during the maintenance periods. The L3Harris Depot Repair and Return facility is ISO 9001:2015, UL, and Factory Mutual certified. Master technicians using state-of-the-art test equipment verify that all repairs meet or exceed prescribed specifications. The equipment to be repaired under standard warranty must be shipped to L3Harris' Depot facility where it is repaired and shipped back to the customer.	*
45	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	L3Harris maintains a number of Authorized Service Centers (ASCs) throughout the country. These centers are staffed with L3Harris-trained personnel who can maintain your vital communications equipment while under warranty, as well as provide post-warranty maintenance. Each ASC is backed by the L3Harris nationwide ASC network, who can provide supplemental service during a catastrophic event, if required. Our ASCs commit to providing outstanding customer service and ensure peak performance of the communications system to meet the needs of first responders and the community.	*
46	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Third-party original equipment manufacturer (OEM) equipment and services are covered as described in the System Purchase Agreement. Throughout the entire warranty and contracted maintenance periods, L3Harris will act on behalf of Sourcewell to coordinate and settle warranty issues with third-party equipment and software companies. As part of the final acceptance, any remainder of warranty from a third-party vendor transfer to Sourcewell. If any third-party manufacturer warranty period is greater than one-year, we will recognize that OEM warranty for the specified equipment.	*
47	What are your proposed exchange and return programs and policies?	The Factory Repair and Return Depot in Lynchburg, Virginia provides a complete range of repair for all L3Harris equipment both in warranty and post-warranty. If an item is out of warranty and cannot be repaired economically, the customer will be contacted for disposition instructions or replacement authorization. If the item is in warranty and cannot be repaired, it will be replaced at no charge in accordance with the warranty provisions associated with the original sale of the item.	*
48	Describe any service contract options for the items included in your proposal.	There are a number of premium warranty services available for purchase, including: <ul style="list-style-type: none"> - 24x7 Phone Support - Software Update Service - Expedited Depot Repair - 24x7x365 Rapid Response - Asset Management - CyberSecurity Assessments - Network Monitoring 	*

51	Briefly describe your proposed order process. Include enough detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template. For example, indicate whether your dealer network is included in your response and whether each dealer (or some other entity) will process the Sourcewell participating entities' purchase orders.	<p>"Customers can purchase either directly from L3Harris or from our dealer channel by issuing a purchase order to PSPC_CustFocus@L3Harris.com referencing the contract purchasing vehicle for pricing and terms and conditions. If a quote is needed prior to purchase, it may be obtained via request to PSPC_Quotes@L3Harris.com.</p> <p>Telephone U.S. and Canada: 1-800-368-3277 International: +1-434-385-2857 E-mail U.S.: PSPC_CustomerFocus@L3Harris.com International: PSPC_IntCustFocus@L3Harris.com Federal: PSPC_FedCustFocus@L3Harris.com Fax 1-321-409-4393</p> <p>Once customers are ready to place their order, this can also be completed by submitting a purchase order via standard mail, fax, or email. Phone orders are accepted for customers purchasing \$5,000 or less of equipment and paying by credit card. Once orders have been placed, customers can work with their Customer Care Center (CCC) team members by phone, fax, or email to obtain updates on the processing and shipment of their order. L3Harris provides order confirmations to our customers once orders have been placed and tracking services are available once the materials have been shipped and are in the hands of our carriers.</p> <p>In addition to email communication; web-based tools, forms, and applications are utilized to help service our customers in the most efficient manner possible. For example, customers can request a return by completing a form online, which is submitted directly to the CCC for review and processing. Customers can track their shipments online from our website 24 hours a day, 7 days a week. Additionally, L3Harris utilizes ServiceBench for online product registration.</p> <p>L3Harris runs monthly/quarterly sales reports and can provide these reports to Sourcewell on a quarterly basis. Customer Care Center toll free number: 1-800-368-3277 Option 9."</p>	*
52	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	We can accept P-Card's as Credit card transactions. Payments over \$10K via this process there is a 3% fee charged, under \$10K is no charge.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
53	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Please refer to the current L3Harris catalog for products and pricing.	*
54	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	L3Harris will offer 26% off of current catalog list price for all L3Harris equipment. No discounting is available on services or third-party equipment.	*
55	Describe any quantity or volume discounts or rebate programs that you offer.	L3Harris may offer additional discounting based upon volume discounting or current promotional offerings.	*
56	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	All 3rd party equipment or services will be quoted upon request.	*
57	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	For system purchases, additional costs will be incurred for staging of equipment and associated services.	*
58	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Freight will be calculated at time of order shipment.	*
59	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Freight forwarding services are available. Please contact the Customer Care Center to request a quote.	*
60	Describe any unique distribution and/or delivery methods or options offered in your proposal.	N/A	*

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
62	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.	L3Harris has multiple auditing processes, including self-audit checklists, peer reviews, and random sampling audits. In addition, L3Harris references individual contract agreements (such as Sourcewell) in each sales order. Using this reference, L3Harris runs monthly/quarterly sales reports and can provide these reports to Sourcewell on a quarterly basis.	*
63	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Management reviews sales on a quarterly basis.	*
64	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Our typical administrative fee is 1%-2% of contract sales	*

Table 15: Industry Specific Questions

Line Item	Question	Response *
-----------	----------	------------

71	Describe the interoperability of your products and services with other equipment, software, and systems, as applicable	<p>L3Harris offers a variety of solutions to support multi-level interoperability:</p> <ul style="list-style-type: none"> – Interoperability Gateway (Network First Gateway) — Provides the most basic level of interoperability. It permits system-level audio connectivity with legacy trunked and conventional analog radio systems, regardless of manufacturer or frequency band via 4-wire E&M. – DFSI – A standards-based interface permits direct interoperability with P25C stations. – P25 Inter RF Sub System Interface (ISSI) – Permits interoperability with neighboring P25 systems. Automatic roaming and a full suite of industry-standard features provide ease of use for field users. – BeOn® – Harris' unique Push-to-Talk (PTT) communications solution runs over commercial cellular broadband, including 3G/4G, Wi-Fi, and LTE. It allows State's radio users to extend their PTT communications from a regional system to a nationwide footprint over commercial cellular networks.
72	Describe how your products and services integrate with other communications and technology components (e.g., CAD, RMS, LMR, etc.)	<p>"L3Harris supports multiple vendors/ agency interoperability across LMR, LTE, and Wi-Fi standards through various standard product offerings - Network First Gateway, Encompass Gateway, BeOn®, and P25 Inter RF Sub System Interface (ISSI).</p> <p>L3Harris StatusAware application integrates with CAD/AVL to provide real-time GPS locations, status, group affiliations, and situational awareness information. Exacom Hindsight Recorder, Trittech CAD, Hexagon CAD, IDA/Trackit, FATPOT CAD, Southern Software, Tyler Technologies, GlobalFlyte, Superior are some of the CAD vendors who have completed/ planned integrations into L3Harris StatusAware services. New CAD vendors can subscribe to the L3Harris StatusAware service by receiving API interface Spec upon signing Non-Disclosure Agreement (NDA) and developing an XMPP (derived from XML) interface to the spec. Once the interface is developed, L3Harris offers remote testing and final validation in the lab.</p> <p>Situational Awareness Mapping powered by Live Earth is a real-time interactive data visualization solution for command centers. It securely manages data from multiple sources, including geolocation, presence information of LMR units, transportation, traffic, weather, and many more. StatusAware server integrates with the Live Earth mapping solution to collect and send location, status, and other information from P25 radios and BeOn clients."</p>

73	Describe how your products and services conform to applicable industry standards and required specifications.	<p>" As an active member of P25 and TIA standards committees, L3Harris has committed significant resources to develop P25 technical standards and P25 compliant systems and products for the critical communications marketplace. The L3Harris laboratory in Lynchburg, Virginia, is one of the NIST-approved labs for both P25 CAP performance testing and P25 CAP interoperability testing. L3Harris has tested its base stations/repeaters and subscriber radios as well as many vendor subscribers' radios for performance and interoperability as a part of the P25 CAP Testing. For each piece of P25 equipment that successfully passes and meets the P25 standards, L3Harris publishes a Supplier's Declaration of Compliance (SDoC) report that gets reviewed and approved before being accepted by the Department of Homeland Security (DHS) as P25 Compliant. All P25 CAP approved products are listed on the following website: https://www.dhs.gov/science-and-technology/approved-grant-eligible-equipment</p> <p>A number of features offered on L3Harris the catalog are proprietary as they are not encompassed in P25 Standards:</p> <p>In-Band GPS With the new SR10A.4 Core, users with L3Harris XG or XL subscriber radios equipped with GPS can transmit location/GPS position information with each PTT. The data transmission does not require a separate P25 data channel or P25 data call to deliver the information, because L3Harris is able to embed the GPS information on the voice call during a PTT. In addition, the radio will transmit position during an emergency declaration without the need for a separate PTT. In-band GPS is a system and radio capability in addition to Tier II GPS services supported by P25 standards-based radios with GPS.</p> <p>Unit Dynamic Regrouping Under certain emergency conditions or other unusual operational conditions, it may be necessary to have a set of radios communicate in talkgroups that depart from the normal procedure. When such conditions occur, it is possible to reconfigure select user radios to operate in a talkgroup structure better suited to the operational need. The P25IP system has this capability via Dynamic Regrouping. This feature allows the system administrator to override a user's selected talkgroup and reconfigures the users "regrouped" radio to utilize a new set of talkgroups. Regrouping plans are predefined and then executed as needed. However, regroup plans are initiated as needs dictate. With execution of a regroup plan, all members of the regroup receive the regrouping message over the air.</p> <p>ProFile – Over-the-air-programming (OTAP) Many fleet management activities are achievable through data messages over the P25 system, which prevents the high cost and lost productivity of bringing radios to the radio shop. Over-the-air programming is the ability to add new types of services to a subscriber unit by using the wireless network instead of requiring the customer to bring in the radio for reprogramming. L3Harris' P25 Over-the-Air Programming (OTAP) solution allows users to broadcast a new radio personality over the air to a radio in the field. OTAP is a software solution for customers that have a large number of radios or radios that need personalities modified on a regular basis. The ProFile feature provides the capability to read and write P25IP radio personalities over the air. If a large number of radios require updating, it is possible to schedule these activities during off-peak hours to minimize the impact on system resource availability for high priority voice calls.</p> <p>TextLink TextLink is an IP-based application that enables portable and mobile radio users to receive, display, and respond to text messages sent between any combination of authorized radios and consoles on P25 systems. Host computers (e.g., a dispatch console, CAD system) can exchange text messages of up to 200 bytes with P25 radios. Similar in function to current Short Message Service (SMS) on commercial cellular networks, TextLink meets public safety requirements.</p> <p>Tracker Tracker is a stand-alone situational awareness software package that is currently being used in some military facilities. L3Harris Tracker applications are BeOn and StatusAware."</p>

4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
