### SUMMARY/DISCUSSION:

The Health Department Clinic Services Bureau (Clinic Services) operates ten community clinic sites designated as Federally Qualified Health Centers (FQHCs) which provide preventive, primary, and specialty medical care services.

Clinic Services participates in the federal 340B Drug Pricing Program, which allows FQHCs to purchase eligible drugs at reduced rates for distribution to eligible patients through 340B contract pharmacy arrangements. Clinic Services depends on 340B savings to help increase patient access and promote health equity by reinvesting these savings into supporting the essential healthcare services that our safety net clinics provide.

Regina M. Boyle is an attorney practicing health care law in Sacramento, California, with a focus on regulatory compliance and reimbursement issues that impact public and nonprofit FQHCs in the state of California. Regina Boyle has extensive experience working with FQHCs, Medicaid, and the 340B Drug Pricing Program, including the drafting of state-level legislation related to Medi-Cal reimbursements.

The complexity and attention that the 340B program commands have grown exponentially due to certain drug manufacturers restricting their drug discounts for contract pharmacies, compliance with Clinic Services' dual status as both an FQHC and Ryan White/HIV Grantee, and the transition of Medi-Cal pharmacy services to the State of California, which transferred all 340B savings generated from Medicaid-covered prescription drugs from Clinic Services to the State as of January 1, 2022.

Regina Boyle possesses a specialized understanding of the complexities that make program-specific compliance challenging in the state of California, and Clinic Services seeks this additional legal support to help protect and maintain the ability to reinvest 340B savings into the healthcare services that the 340B Drug Pricing Program makes possible.

This work supports one of the Monterey County Health Department's 2018-2022 Strategic Plan Initiatives: 2. Enhance community health and safety through prevention. It also supports one or more of the ten essential public health services, specifically: 6. Enforce laws and regulations that protect health and ensure safety.
