

County of Monterey

Item No.5

Board Report

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

Legistar File Number: 22-1113

December 05, 2022

Introduced: 11/22/2022

Current Status: Agenda Ready

Version: 1

Matter Type: General Agenda Item

Receive a presentation on the status of updates to the Housing Element and Safety Element, and a new Environmental Justice Element.

RECOMMENDATION:

Staff recommends that the Health, Housing, and Human Services Committee:

- a. Receive a staff presentation on the status of the General Plan Elements Updates; and
- b. Provide direction to staff.

SUMMARY:

The County Board of Supervisors approved a professional services agreement on September 27, 2022, for Harris & Associates to provide consultant services supporting efforts to amend General Plan Elements including the Sixth Cycle Update to the Housing Element, update to the Safety Element, and preparation of a new Environmental Justice Element. These elements are applicable throughout unincorporated County of Monterey; however, the Environmental Justice Element is applicable in areas of the County identified as a disadvantaged community, per state and local criteria. The consultant is tentatively planning to provide an introductory workshop to the Board of Supervisors early January 2023.

Staff will provide the Health, Housing, and Human Services Committee an overview presentation of the status of the General Plan Elements Updates and seeks input from the Committee.

DISCUSSION:

Housing Element Sixth Cycle Update (REF220020)

County staff is working with its consultant to prepare the Sixth Cycle Update (2023-31) to the General Plan Housing Element pursuant to California Gov. Code §65581. The Housing Element must be certified by State Housing and Community Development (CA HCD) and adopted by the County of Monterey Board of Supervisors by December 31, 2023. As part of the Sixth Cycle Update to the Housing Element, the County is required to identify sites and zoning designations that can accommodate a Regional Housing Needs Assessment (RHNA) of 3,326 housing units distributed across four Income levels (1,070 Very Low, 700 Low, 420 Moderate, and 1,136 Above Moderate). Along with facilitating the County's RHNA, the update to the Housing Element must identify and analyze significant disparities in access to opportunity (AB 686 - Affirmatively Furthering Fair Housing (AFFH) Act). The AFFH Act requires the Housing Element promote inclusive communities and further housing choice through government programs, policies, and operations that recognize existing racial and economic disparities and remediate these disparities. Analysis of the disparities should

include discussion of patterns, policies, practices, and investments over time, that affect access to opportunity. Sites and zoning, identified in the Housing Element to accommodate at least 2,190 RHNA units (1,070 Very Low, 700 Low, 420 Moderate), are required to be located in areas that transform racially and ethnically concentrated areas of poverty into areas of opportunity.

To avoid penalty for non-compliance with state law, the County is on a timeline for preparing the Housing Element Sixth Cycle Update by December 31, 2023, for Board of Supervisors adoption. Staff expects to return to the Planning Commission with analysis and outcomes of Housing Element outreach by early Spring 2023, with subsequent initiation of outreach for the Safety and Environmental Justice Elements to occur shortly thereafter.

Tentative timeline for the Housing Element Sixth Cycle Update:

- Winter 2022-23- Community Survey and Initial Community Outreach + Develop Draft
- Spring 2023 - Continued Community Outreach
- March 2023 - Project briefing to the Planning Commission
- April & May 2023 - Project briefing to the Board of Supervisors and 30 days Public Review + 10 days for Revisions
- June 1, 2023 - Submit to CA HCD (90-day review)
- August & September 2023 - Make CA HCD revisions to Draft and provide project briefing to the Planning Commission
- October 1, 2023 - Draft Housing Element to CA HCD for 60 days
- December 2023 - Board adopt Housing Element Sixth Cycle Update

Safety Element Update (REF220018) and New Environmental Justice Element (REF220017)

State law (Gov. Code §65302) requires review of fire and flood impacts in the Safety Element concurrent with each update of the Housing Element. Therefore, staff is working with its consultant to prepare an update to the Safety Element along with the Sixth Cycle Update to the Housing Element. Along with incorporating new information regarding flood and fire hazards and climate adaptation and resiliency into the Safety Element, the County is required to evaluate evacuation routes under a range of hazard scenarios (AB 747) and identify areas with fewer than two points of egress for evacuation (SB 99). On July 12, 2022, the Board of Supervisors adopted the Multi-Jurisdictional Hazard Mitigation Plan (MJHMP) prepared by the County Office of Emergency Services (OES). Pursuant to AB 2140, the County may incorporate, by reference, Annex A of the MJHMP into the Safety Element which would make the County eligible for consideration of post-disaster state funding.

In accordance with the requirements of Gov. Code §65302, a local jurisdiction that has identified disadvantaged communities shall prepare an Environmental Justice Element upon adoption or revision of two or more elements concurrently on or after January 1, 2018. Therefore, staff will be working with its consultant to prepare a new Environmental Justice Element along with the concurrent updates to the Housing and Safety Elements and having identified disadvantaged communities per state and local criteria. Initial observation of the criteria indicates all or portions of the following areas in unincorporated County as disadvantaged: Pajaro, Pajaro/North Moss Landing, Moss Landing/Route 1 North, West Boronda, North Marina, Castroville, South Salinas, Salinas River east to County line, Chualar-Gonzales, area outside Greenfield, area outside King City. Within the identified disadvantaged communities, the Environmental Justice Element is required to include objectives and

policies that reduce unique or compounded health risks through reduction of pollution or hazard exposure, improvement of air quality, and promotion of public facilities and services, food access, safe and sanitary homes, and physical activity.

Tentative timeline for the Safety Element Update and preparation of the Environmental Justice Element:

- Winter 2022/23 - Convene Community Advisory Committee + Planning Commission + Board of Supervisors Overview
- Spring & Summer 2023 - Convene Safety Committee + Community Survey & Outreach
- Autumn 2023 - Draft Elements + Environmental Review + Community Open House
- Winter 2023/24 - Planning Commission + Board of Supervisors Adopt Elements

Although the Sixth Cycle Update of the Housing Element is on a more aggressive schedule than the other two elements, policies across the elements will be developed to interact cohesively to support intended outcomes.

Community Engagement

The consultant proposes a Community Engagement Plan that includes workshops with diverse groups of citizens and residents in the County, efforts to promote participation from underrepresented segments of the community, stakeholder focus groups, a community survey, and informational messaging. Spanish language translation for public meetings will be available. County staff will augment the consultant portion of the Community Engagement Plan with boots-on-the-ground outreach efforts to community-based organizations and targeted pop-ups at strategic locations within areas of the community identified as hubs for those unable to participate in conventional forms of civic engagement and the policymaking process.

Monterey County is developing a list of interested parties and compiling comments and feedback for these efforts. Interested parties will receive notice of engagement opportunities and public meetings upon request. Written comments and questions about the effort will also be accepted. Requests for notice or any comments and questions should be directed to Jaime Guthrie at GuthrieJS@co.monterey.ca.us <<mailto:GuthrieJS@co.monterey.ca.us>> or by phone at (831) 796-6414.

ENVIRONMENTAL REVIEW

This presentation can be Statutorily Exempt pursuant to Section 15262 of the CEQA Guidelines as an early discussion on possible future actions that do not involve a commitment to a project. The General Plan amendments will require a CEQA determination prior to adoption.

OTHER AGENCY INVOLVEMENT:

Multiple County departments are involved in the development of these General Plan Elements Updates including the: Health Department's Environmental Health Bureau and its Planning, Evaluation and Policy Unit; Civil Rights Office; County Administrative Office's Sustainability Program, Office of Community Engagement and Strategic Advocacy, and Office of Emergency Services; and the Public Works, Facilities and Parks Department.

FINANCING:

Legistar File Number: 22-1113

Staff time to support the General Plan Elements Updates is included in the FY2022-23 Adopted budget for HCD Unit 8543, Appropriation Unit HCD002. The consultant's work is included in the FY2022-23 Adopted Budget for HCD Unit 8543, Appropriation Unit HCD002 funded from the Cannabis Assignment.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

This project supports the Board of Supervisors' Strategic Initiatives with revision of the Housing Element for the 6th Cycle Update which will contribute to strengthening a diversified and healthy economy by removing barriers to potential housing development and promoting jobs/housing balance. The Housing Element 6th Cycle Update would include strategies to ease the discretionary review process of potential housing development for the effective and efficient management of resources. The Safety Element Update and preparation of a new Environmental Justice Element will include policies that improve the health and quality of life for Monterey County residents, especially those community members who experience a greater burden of health risks and have inadequate means to rehabilitate from disasters exacerbated by the effects of climate change. Infrastructure needs will be analyzed in the Safety Element Update for areas of less than two points of egress and existing development within known hazard areas.
