Policy Category Personnel		

I. Purpose

The purpose of this policy is to support the provision of superior services to residents of the County of Monterey by encouraging professional development through education and training opportunities for county employees to excel in their work.

II. Background

The Educational Assistance and Career Development Program (Program) is designed to encourage county employees to participate in a degree program offered by an accredited college or university or specialized training and licensure for career-related advancement or promotional opportunities within the County. The Program is intended to help recruit and retain county employees by supporting the furtherance of their education to enhance their careers and service delivery.

III. Policy

It is the policy of the County to support county employees with the improvement of their job-related skills and expertise through the partial reimbursement of eligible educational costs. These reimbursements are subject to the pre-review and pre-approval of the Department Head or designee for county employees acquiring work-related education, degrees, licensing, or certifications necessary to enhance their career-related knowledge, skills and abilities, work performance and to prepare for county career advancement opportunities.

The Program is subject to an analysis of:

- 1) whether the Department Head approves the county employee's request;
- 2) whether the educational program being pursued promotes the employee's work in the County services and goals; and,

- 3) whether the requesting Department's adopted budget (without a request for augmentation to the approved budget) can absorb the costs associated with the educational expense reimbursement to the employee.

The Program is available to all departments based on their approved funding levels. Based upon anticipated participation and available funds, if a Department seeks to provide educational reimbursements, the Department is responsible to establish an appropriate budget allocation annually as part of the County's budget process. Augmentation requests will not be considered for the purpose of this policy.

The Program is not an employee benefit, right or entitlement, and is not subject to any grievance process.
