SUMMARY/DISCUSSION:

Total Renal Care, Inc. provides comprehensive dialysis services essential for patients with kidney malfunction. The services include all inpatient areas in addition to the Acute Rehabilitation Unit (ARU). NMC and Total Renal Care leadership meet quarterly via The Joint Dialysis Oversight Committee (TJDOC) to review quality metrics such as timeliness, staff competency validation, and shared responsibilities in the provision of quality patient care. Additionally, the entities confer as needed for quality concerns outside of routine scheduled meetings.

The Total Renal Care program offers a comprehensive array of resources necessary for patients requiring hemodialysis, peritoneal dialysis and, Continuous Renal Replacement Therapy (CRRT). The services include providing dialysis trained Registered Nurses to safely manage care of the patient and in addition, the associated equipment needed to filter wastes and toxins from patients whose kidneys cannot provide this vital function. Education and support for NMC nurses include knowledge to monitor specific types of dialysis, such as peritoneal dialysis and CRRT. Transitional Smart Services is a patient and family education program that includes dialysis related education and/or chronic kidney disease education, as well as catheter and fistulas, vascular access modalities and dialysis care generally.

Total Renal Care's dialysis program meets the quality standards required by NMC and mechanisms are in place to measure and ensure compliance with NMC standards as required by the state of

California, Center for Medicare and Medicaid Services (CMS) and The Joint Commission.
