INTRODUCTION

This report is the Annual Report to the Board of Supervisors on the status of compliance with approved Conditions of Approval and Mitigation Monitoring and Reporting Plans for land use projects approved by the County of Monterey in 2023 with an adopted Mitigated Negative Declaration (MND) or certified Environmental Impact Report (EIR) and for a selection of previously approved land use projects.

This report is required to be prepared and presented to the Board of Supervisors pursuant to Section III.E of the County of Monterey Condition of Approval and Mitigation Monitoring and Reporting Program (“Program”). Pursuant to Program reporting requirements, the report also includes the following information: any related compliance orders or code enforcement actions undertaken for the projects being reported on; any proposed actions to modify conditions of approval/mitigation measures for these projects; the Responsible Departments’ annual reports; and evidence of Program training completed by staff within the Responsible Departments. “Responsible Departments” are those departments that apply, monitor and/or report on status of compliance with approved mitigation measures and conditions of approval of land use projects.

2023 ANNUAL REPORT SUMMARY

Projects Approved in 2023 with an EIR or MND

The County certified one EIR, relied on two outside agency-certified EIRs, adopted an Addendum to an EIR, adopted ten project-specific MNDs, and relied on one Programmatic MND for nine cannabis projects in the Salinas Valley area for land use projects approved in 2023. These 23 recent projects are currently working towards compliance with their conditions of approval and/or mitigation measures (herein referred to as “COA/MM”). There were no compliance issues described in the certifications from Responsible Departments for these projects. PLN110173-AMD1, Carmel Reserve LLC, modified previously adopted conditions of approval and mitigation measures, and the Board of Supervisors approved the Addendum with Resolution 23-123.

The two outside-agency certified EIRs that County relied on in approving local entitlements are PLN200118, California Department of Transportation’s Highway 156 Roundabouts (Board Resolution 23-103), and PLN200143, State of California Pfeiffer Big Sur State Park campground project (Board Resolution No. 23-021).

¹ In November 2020, the County Resource Management Agency (RMA) was split into two new County departments, respectively entitled Housing and Community Development (HCD) and Public Work, Facilities and Parks (PWFP). As part of the division of RMA into two departments, a portion of the former RMA-Public Works staff that conduct development review was assigned to the newly-formed Housing and Community Development Department. That team is called “HCD-Engineering Services (representing Public Works).” That team prepared the Responsible Department Annual Report for the Public Works conditions of approval on land use project permits.

the development review responsibilities of Water Resources Agency, so both types of conditions of approval are listed below as “ES.”

Selected Older Project (Previously Approved Project Selected by the CAPS with advice from County Counsel)

Pursuant to Section III.E.2 of the Program, the Condition of Approval Supervisor (“CAPS”), in consultation with County Counsel, has chosen to report on a selected older subdivision project. The project was chosen because it has ongoing post-Final Map conditions of approval, and nineteen of the conditions of approval were not brought forward when the project was amended by PLN110173-AMD1. The Certification Reports on the older project, PLN110173, memorialize the nineteen conditions in this report because they are only listed as “Reserved” in the operative permit, PLN110173-AMD1. Several conditions of approval were not brought ahead in the amendment because they were met for the life of the entitlement. Others were not brought forward because their application is no longer standard and they merely represented reminders for the permit holder to adhere to current codes, such as “Grading Permit Required.” The older project table is below (**Table 2**). No member of the public came forward within the 2023 calendar year with older subdivision projects that would qualify them to be in this Annual Report pursuant to Program section II.B.2(c) Responsible Department’s Annual Report: “subdivision projects for which the public has raised concerns during the prior calendar year to HCD-Planning about compliance with ongoing or unmet conditions after the filing of the final map.”

RESPONSIBLE DEPARTMENTS' ANNUAL REPORT FOR PROJECTS APPROVED WITH CONDITIONS OF APPROVAL AND MITIGATION MEASURES

Date: JAN 27

To: Melanie Beretti, AICP, Acting Chief of Planning
Robert I. Brayer, Deputy County Counsel

From: Darby Marshall, Housing Program Manager

Subject: Annual Report Pursuant to County of Monterey Condition of Approval and Mitigation Monitoring Program.

In accordance with Section II.B.2 of the County of Monterey Condition of Approval and Mitigation Monitoring and Reporting Program ("Program") adopted by the Monterey County Board of Supervisors Resolution No. 22-311, a list of land use projects (the "Project List") was provided to HCD-Housing. The Program requires the Responsible Departments to submit an Annual Report to the Chief of Planning and to County Counsel on the projects included in the project list to verify the status of condition compliance. HCD-Housing staff reviewed the Project List and confirmed that the set included in **Attachment 1** is complete for the Bureau's responsibility to the Program in 2023. Condition Compliance Certification Reports included in **Attachment 2** provides the listed projects' conditions of approval/mitigation measures (COA/MMs) and current statuses as noted in Accela. Accordingly, Housing staff has reviewed each COA/MM listed and made any necessary corrections to the report and in Accela. Staff has verified, through initialing, the current status of each COA/MM.

CERTIFICATION

On behalf of Monterey County HCD-Housing, I hereby certify that the Housing COA/MMs identified in the adopted Mitigated Negative Declaration or certified Environmental Impact Report pursuant to the California Environmental Quality Act for the projects included in the Project List have been verified as indicated in the attached Condition Compliance Certification Reports. All applicable Condition Compliance Forms (CCFs) and supporting documentation have been submitted into the County's electronic database: Accela Automation, also known as "Accela" and are available for the public to review.

Respectfully,

Darby Marshall, Housing Program Manager

In accordance with Section II.B.2 of the County of Monterey Condition of Approval and Mitigation Monitoring and Reporting Program ("Program") adopted by the Monterey County Board of Supervisors Resolution No. 22-311, a list of land use projects (the "Project List") was provided to the Monterey County Regional Fire District. The Program requires the Responsible Departments to submit an Annual Report to the Chief of Planning and to County Counsel on the projects included in the project list to verify the status of condition compliance. Fire District staff reviewed the Project List and confirmed that the set included in **Attachment 1** is complete for the Fire District's responsibility to the Program in 2023. Condition Compliance Certification Reports included in **Attachment 2** provides the listed projects' conditions of approval/mitigation measures (COA/MMs) and current statuses as noted in Accela. Accordingly, staff has reviewed each COA/MM listed and made any necessary corrections to the report and in Accela. Staff has verified, through initialing, the current status of each COA/MM.

CERTIFICATION

On behalf of Monterey County Regional Fire District, I hereby certify that the Fire COA/MMs identified in the adopted Mitigated Negative Declaration or certified Environmental Impact Report pursuant to the California Environmental Quality Act for the projects included in the Project List have been verified as indicated in the attached Condition Compliance Certification Reports. All applicable Condition Compliance Forms (CCFs) and supporting documentation have been submitted into the County's electronic database: Accela Automation, also known as "Accela" and are available for the public to review.

Respectfully,

Scott Anderson, Fire Marshal, Monterey County Regional Fire District
