Referral Submittal Form**

Referral No. 2024.04
Assignment Date: 03/12/24
(Completed by CAO's Office)

SUBMITTAL - Completed by referring Board office and returned to CAO no later than 10:00AM on Wednesday prior to Board meeting:

Date: 23 February 2024	Submitted By: Supervisor Glenn Church	District #: 2	
Referral Title: Maintenance of Little Bear Creek: Permits/Floodplain Issues			
Referral Purpose: 1. To analyze and address floodplain issues in the Little Bear Creek area and 2. To address expedited permit processes for cleaning and long-term maintenance of Little Bear Creek			
Brief Referral Description (attach additional sheet as required): The community of Bolsa Knolls has grown along Little Bear Creek which runs a length of approximately 12 miles. The Creek has multiple owners and managers, including private residents and agricultural landowners. This referral requests research and analysis of the cause of floodplain issues in the Little Bear Creek drainage, including a drainage study, analysis of the impact of upstream area agricultural practices, creek maintenance, potential funding mechanisms to conduct maintenance and a process to expedite permitting for creek maintenance. There are complicated permitting requirements for cleaning out vegetation and removing upstream debris, including silt running off agricultural fields to the northeast. The entities that currently own Little Bear Creek have experienced various levels of effect navigating the permit requirements imposed by the various jurisdictional entities with authority over the Creek. To maximize the resiliency of the community of Bolsa Knolls, especially in times of flood risk, it is imperative that all property owners along Little Bear Creek can perform maintenance in a timely, legal manner. To this end, we suggest analyzing causes of floodplain issues and devising a system of expedited creek maintenance permitting, including potential funding mechanisms, that will save both time and money in the long run.
