

County of Monterey Planning Commission

Item No.3

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

Agenda Item No. 3

Legistar File Number: PC 24-026

March 13, 2024

Introduced: 3/7/2024

Current Status: Agenda Ready

Version: 1

Matter Type: Planning Item

PLN150372 - RIVER VIEW AT LAS PALMAS LLC

Continued from the November 8, 2023 Planning Commission hearing, consider a recommendation to the Board of Supervisors on the River View at Las Palmas Residential Subdivision, that it:

- a. Certify the Final Subsequent Environmental Impact Report (SEIR), as augmented September 2023, based on the findings and evidence, and adopt a Statement of Overriding Considerations;
- b. Adopt an amendment to the text of the Las Palmas Ranch Specific Plan (LPRSP) to:
 1. Increase the unit cap from 1,031 to 1,058, to allow for an additional 27 residential lots on Parcel Q;
 2. Add a new Policy 12 in Chapter II, Section C, specifying that Parcel Q shall require 25% of new housing units as affordable, 15% of which shall be on-site and available to moderate-income households and the remaining 10% of which shall be provided through payment of an in-lieu fee;
- c. Approve a vesting Tentative Map to create 27 residential lots, including four moderate income units, and an open space parcel; and
- d. Approve a Use Permit to allow development on slopes in excess of 25%.

Project Location: Vacant 15.64-acre lot within Las Palmas Subdivision #1, south of River Road and west of Country Park Road, within the Las Palmas Ranch Specific Plan area in the Toro Area Plan approximately 1.25 miles west of Spreckels and 0.5 miles east of State Highway 68.

Proposed CEQA action: Recommend the Board of Supervisors certify the Final Subsequent Environmental Impact Report, adopt a Statement of Overriding Considerations, and adopt a Mitigation Monitoring and Reporting Plan.

RECOMMENDATION:

It is recommended that the Planning Commission adopt a resolution recommending the Board of Supervisors:

- a. Certify the Final Subsequent Environmental Impact Report (SEIR), as augmented September 2023, based on the findings and evidence, and adopt a Statement of Overriding Considerations;
- b. Adopt a resolution to amend the text of the Las Palmas Ranch Specific Plan (LPRSP) to:
 1. increase the unit cap from 1,031 to 1,058, to allow for an additional 27 residential lots on Parcel Q; and
 2. Add a new Policy 12 in Chapter II, Section C, specifying that Parcel Q shall require 25% of new housing units as affordable, 15% of which shall be on-site and available to moderate-income households and the remaining 10% of which shall be provided through payment of an in-lieu fee; and

- c. Adopt a resolution to approve a Combined Development Permit consisting of:
 1. A Vesting Tentative Map to subdivide a 15.64-acre parcel into 27 residential lots, including four moderate income units and an open space parcel;
 2. Use Permit to allow development on slopes exceeding 25 percent; and
 3. Adopt a Mitigation Monitoring and Reporting Plan.

The draft Planning Commission resolution (**Exhibit B**), including draft Board of Supervisors resolutions (**Attachment 1 - CEQA, Attachment 2 - Specific Plan Amendment, and Attachment 3 - Combined Development Permit**) is provided for consideration. Staff recommends approval of the recommendation to the Board of Supervisors subject to 36 conditions, including 18 mitigation measures, which are fully set forth in **Attachment 3**.

PROJECT INFORMATION:

Owner: River View at Las Palmas LLC

Agent: Anthony Lombardo & Associates

APN: 139-211-035-000

Zoning: Medium Density Residential, 2.61 units per acre with a Design Control District or “MDR/2.61-D”

Parcel Size: 15.64 acres

Plan Area: Toro Area Plan

Flagged and Staked: Yes

Project Planner: Zoe Zepp, Assistant Planner

(831) 755-5198

zeppz@co.monterey.ca.us

PROJECT SUMMARY/DISCUSSION:

The subject property is a 15.64-acre parcel within Las Palmas Subdivision #1, approximately 1.25 miles west of Spreckels and 0.5 mile east of State Route 68 (SR 68). Immediate surrounding uses include the existing Las Palmas Subdivision #1, a medium density residential neighborhood to the east; hillside open space to the south; and agricultural land cultivated with row crops to the west and north (across River Road). It is currently undeveloped. See Vicinity Map in **Exhibit H**. Below is a summary of the project background and staff’s recommendations for the Commission’s consideration. A more detailed discussion is provided in **Exhibit A**.

Background

In 2015, Applicant applied for entitlements to construct a 190,000-square foot senior assisted living facility inclusive of 13 “Casitas”, a 27,000-square foot Assisted Living Facility, a 21,600-square foot Memory Care Facility and associated site development, including internal roadways and parking areas. This original application was processed, and a Draft Subsequent Environmental Impact Report (DSEIR) was prepared and circulated for public review. The project was discussed at two Toro Land Use Advisory Committee (LUAC) meetings and two Planning Commission hearings. On February 12, 2020, the Planning Commission adopted Resolution Nos 20-004, 20-005 and 20-006 recommending the Board of Supervisors certify the FSEIR, amend the Las Palmas Specific Plan and approved the project. The project was subsequently heard at three Board of Supervisors hearings and, on October 12, 2021, the Board voted to return the matter to staff for further analysis into the original project with

an expanded look into the EIR, community benefit analysis and housing.

Overall, the senior living facility was disfavored by the Las Palmas #1 Subdivision residents, who expressed their preference for a residential subdivision. Ultimately, the Board voted to continue the project and have staff review the alternatives further to propose a project with less significant potential impacts to the existing neighborhood and offers more affordable housing options.

Return to the Planning Commission on November 8, 2023

Upon consideration of the Board's direction, the applicant submitted a revised project scope consisting of a proposed subdivision that would allow up to 26 residential lots, ranging in size from 4,249 square feet to 11,785 square feet, and an open space parcel. The Planning Commission had concerns regarding the lack of on-site affordable units, significant and unavoidable impacts to SR 68, the draft statement of overriding considerations, and the proximity of the proposed development to a Permanent Grazing (PG) zoning district without a 200-foot buffer. The project was ultimately continued to a date uncertain to allow the applicant and County staff time to address these concerns before receiving a recommendation from the Commission to the Board of Supervisors. The applicants are now proposing a 27 residential lot subdivision with four onsite moderate-income units. To support that proposal, they have provided a justification for the project omitting a buffer between the PG zoned lot and the River View parcel.

Affordable Housing

As requested by the Planning Commission on November 8, 2023, the applicants explored options to offer affordable units onsite as opposed to the originally proposed payment of an in-lieu fee. It was determined to be economically feasible to have four moderate-income units onsite and pay an in-lieu fee for the remaining units of the 25% affordable unit requirement. A detailed discussion is provided in **Exhibit A**.

Density Bonus and Incentive

The applicants have requested an incentive to waive all fees and priority processing for review and approval of the final map, including improvement plans and related documents and building permits for the inclusionary units (see **Exhibit G, Appendix B**) pursuant to Monterey County Code Chapter 21.64. However, incentives are only applicable to projects that qualify for a density bonus. By definition, a density bonus is an increase in density over the maximum allowable residential density under the applicable General Plan land use designation and zoning ordinance while taking into account all applicable limitations. The River View property has an allowed density of 2.61 units per acre which would allow 41.2 units. The applicant proposes a 27 lot residential subdivision (a density of 1.8 units/acre). Therefore, the project is not eligible for a density bonus or any associated incentives as it does not exceed the allowed density.

Process

Like the original proposal, the revised project scope would require an amendment to the Las Palmas Ranch Specific Plan. The adopted Las Palmas Ranch Specific Plan has a residential unit cap of 1,031 units and there are currently 3 units remaining. As such, the applicant proposes an amendment to the unit cap to 1,058 to allow 27 additional residential units. In accordance with Monterey County Code and State Planning and Zoning Law, approval of the amendment requires a recommendation from the

Planning Commission and final approval by the Board of Supervisors. Therefore, staff recommends the Commission consider the CEQA document, specific plan amendment, subdivision request, proposed development on slopes, and adopt the draft resolution (**Exhibit B**) recommending the Board take final action on the project as a whole.

ENVIRONMENTAL REVIEW:

A Draft Subsequent Environmental Impact Report (DSEIR) (**Exhibit F**) was prepared and circulated for public review in 2018. A Final SEIR (**Exhibit G**) was prepared in 2019. Since the Board did not act on the project in 2021, the FSEIR was not certified. Both the DSEIR and FEIR analyzed the project, the senior care facility, and provided an alternatives analysis pursuant to CEQA Guidelines section 15126.6. The alternatives were considered: Alternative 1 - no project/no development; Alternative 2 - no project/minimum use; Alternative 3 - no project/existing zoning; and Alternative 4 - reduced project. Alternative 3 assumed that based on the site's land use designation, Residential - Medium Density 2.61 units per acre, and accompanying zoning, it would be reasonable that up to 40 dwelling units could be approved on the site.

Augmentation to the River View FSEIR

After the 2021 Board direction and the applicant's revision to the project scope, the River View FSEIR was updated (see Augmentation to the FSEIR, **Exhibit H**). This augmentation updated the Project Objectives, clarifying that the applicant's objectives were to provide: a range of housing and/or care options for persons who do not require 24-hour skilled nursing care; housing in/near an established community; and to address the need for housing. The augmentation also updated the alternatives analysis, identifying Alternative 3a as the no project/existing zoning (previous Alternative 3, up to 40-lot residential subdivision) and Alternative 3b - reduced no project/existing zoning which would allow up to a 30-lot residential subdivision.

Proposed Project - Residential Subdivision with up to 30 Lots: Alternative 3b

The current project scope, the creation of 27 residential lots and an open space parcel, meets the FSEIR's Project Objectives. The augmentation analyzed this project scope as Alternative 3b. Compared to the senior living facility, this alternative would have reduced impacts for aesthetics (including the State Route 68 viewshed), air quality, traffic, biological resources, water supply and would have less greenhouse gas emissions, compared to the original proposal.

Recirculation

The FSEIR, including the September 2023 augmentation, did not warrant recirculation because the augmentation did not include significant new information, would not result in a substantial increase in the severity of potential environmental impacts, project alternatives or mitigation measures that are considerably different from those previously reviewed, and because the augmentation was not fundamentally or basically inadequate in nature. As discussed above, Alternative 3b is a reduced version of Alternative 3, a 40-lot residential subdivision, which was included in the FSEIR and evaluated therein prior to the augmentation.

OTHER AGENCY INVOLVEMENT:

The following agencies or departments have reviewed the project:

Monterey County Regional Fire District
CalFire
Monterey County Sheriff's Office
Monterey County Water Resources Agency
HCD-Engineering Services
HCD-Environmental Services
Monterey County Environmental Health Bureau
Monterey County Housing Office

LAND USE ADVISORY COMMITTEE:

The project was referred to the Toro Land Use Advisory Committee (LUAC) for review on October 23, 2023. As demonstrated in Finding 1, Evidence "q" of the attached draft resolution for the Combined Development Permit (**Exhibit B, Attachment 3**), the LUAC recommended approval of the project and concerns from the public have been addressed. Minutes of the meeting are provided in **Exhibit D**.
