RE: Follow-Up Response by Sheriff-Coroner Tina M. Nieto to the 2022-2023 Civil Grand Jury Report Entitled, "The Monterey County Coroner's Office: A Matter of Life and Death"

Foreperson Lerable,

This letter will serve as my response to your letter dated February 1, 2024, for an update on the following items in my official capacity as the Sheriff-Coroner of Monterey County.

Recommendation 1: Create and adopt a written policy and procedures when the MCSO, or its staff, will recuse itself from an investigation by September 30, 2023.

Status: A Division Operations Manual has been developed for utilization by the Coroner Unit of the Investigations Division. The manual is currently in "Meet and Confer" stage with the bargaining units representing impacted employee groups. In the interim, directives were issued to address recusal for death investigations in which Sheriff's Office personnel were involved.

Recommendation 3: Provide ongoing resources for staff training and continuing education on transcription and emerging technologies in forensic science by March 31, 2024.

Status: Training accountability for the organization was shifted to the Training Unit of the Professional Standards Division of the Sheriff's Office. The training unit continually researches training for staff and provides staff with access to training specific to POST, STC, or job specific duties such as transcription. Emerging technologies are continually evaluated for implementation based on the efficiency they may provide, but at this time a transcription backlog does not exist within the Coroner Unit warranting implementation and change of technology.

Recommendation 5: Evaluate staffing needs and create permanent positions accordingly to minimize reliance on temporary staff by March 31, 2024.

Status: As noted in the initial response this recommendation needed further analysis. Staff was tasked to fill vacant permanent positions in the Coroner Unit and eliminate the use of temporary employees when an offsetting funding stream is eliminated due to the hiring of a permanent employee. The use of temporary personnel has been reduced and work product has been brought current. The Coroner Unit is fully staffed other than one vacant Forensic Autopsy Technician full time employee allocation. In addition, multiple Forensic Autopsy Technician Interns are

currently being utilized. Internships have proven to be beneficial in the recruitment of permanent employees. An active Forensic Autopsy Technician recruitment is underway which is expected fill our one vacancy. The Sheriff's Office will conduct a staffing and classification analysis of the Coroner Unit in concurrence with the Human Resources Department during Fiscal Year 2024-25 to aid in future decisions. Future implementation of any change to the existing structure of the Coroner Unit will require concurrence of the proposed staffing structure by the Human Resources Department and the Board of Supervisors. In addition, in the event proposed changes to the structure of the Coroner Unit leads to increased operational costs then the increased funding would have to be approved by the Board of Supervisors.

Recommendation 8: Explore optimizing existing or new contractual relationships with County Purchasing and other County of Monterey departments in areas where services or supply needs overlap by December 31, 2023.

Status: The Sheriff's Officer Contract Purchasing Officer has been directed to continually assess contracts and agreements that may exist within the structure of the County of Monterey that could lead to cost benefits for the Sheriff's Office.

Respectfully submitted,

RE: Follow-Up Response by Sheriff-Coroner Tina M. Nieto to the 2022-2023 Civil Grand Jury Report Entitled, "The Monterey County Coroner's Office: A Matter of Life and Death"

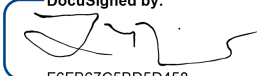

Foreperson Lerable,

This letter will serve as my response to your email dated March 5, 2024, for an update on the following items in my official capacity as the Sheriff-Coroner of Monterey County.

Recommendation 6: Evaluate the necessary forensic pathologist services needed by Monterey County and identify the best approach for meeting those needs by January 31, 2024.

Status: A evaluation of forensic pathologist services has been conducted based on current case volume. At this time the Sheriff's Office forensic pathologist is performing to the specifications outlined in her contract with the Sheriff's Office and backlogs for examinations or the completion of appropriate paperwork do not exist. As such there is no need to expand forensic pathologist services currently. The Sheriff's Office will conduct an annual assessment of such needs in the future. If a future assessment indicates a need were to exist requiring the expansion of forensic pathology services, the Sheriff's Office data may require supplemental augmentation funding from the Board of Supervisors to conduct and complete.

Respectfully submitted,
