Adopt a resolution recognizing Rededication of the Castro Plaza Family Resource Center on National Parent Involvement Day and Recognizing the Castroville Coalition. (Supervisor Church)

Before the Board of Supervisors in and for the County of Monterey, State of California

Resolution No.:

Adopt a resolution recognizing **Rededication of the Castro Plaza Family Resource Center on National Parent Involvement Day and Recognizing the Castroville Coalition.**

WHEREAS, the **Castro Plaza Family Resource Center (FRC)** stands as a lasting symbol of community resilience and collective action, originally established through the partnership of local families, the **North Monterey County Unified School District**, and community-based organizations committed to improving access to essential services; and

WHEREAS, the **Castro Plaza FRC** has long served as a trusted hub for families in the unincorporated community of Castroville and surrounding areas, providing access to health, education, and social resources that strengthen the well-being and academic success of children and youth; and

WHEREAS, the origins of the **Family Resource Center** are deeply rooted in the work of the **Castroville Coalition**, a grassroots partnership of residents and local leaders first formed in 2001 as a response to a need for local input and guidance on the distribution of County of Monterey redevelopment funds and united by a shared vision to build a healthier, safer, and more equitable community; and

WHEREAS, The Castroville Coalition was instrumental in conducting a 7-year-long intensive process that engaged all sectors of the community regarding how redevelopment activities could have a positive impact on the town of Castroville. The result was the development of the **Castro Plaza FRC** and a local branch of the Monterey County Free Libraries system, and the generation of $450,000 in addition to governmental resources to launch the Castro Plaza project.

WHEREAS, the **Castroville Coalition's legacy** continues to inspire the district's ongoing **student and family support efforts**—uplifting student and family voices, strengthening partnerships, and fostering belonging through shared leadership, collaboration, and community-driven initiatives; and

I thrive on building partnerships and creating pathways that inspire the next generation of aerospace leaders while strengthening industry talent pipelines.

There's no work more rewarding than paying it forward and helping others by shaping opportunities for them, just like the ones I've been given. I believe that my expertise and close ties with the community would be a valuable asset to the Board. I believe in the Board's mission and am committed to contributing meaningfully to its work.

SUMMARY/DISCUSSION:

In February 2025, the Sheriff's Office, in collaboration with the Contracts and Purchasing Office issued a Request For Proposal (RFP) #10939 for jail medical, dental, psychiatric, and Jail Based Competency Treatment services.

The Sheriff's Office engaged with the Contracts and Purchasing Office, Natividad Medical Center,

Monterey County Health Services, and the Los Angeles County Department of Health Services to participate in the evaluation and selection process. This broad approach to evaluating the proposals provided the Sheriff's Office and County a strong sense of transparency and subject matter expertise that increased the breadth and depth of inquiry in the process.

Final proposals were due in April 2025. In June 2025, the RFP review and evaluation process was completed and CHP Monterey, INC. was selected as the future medical provider beginning January 1, 2026 for those in the custody and care of the Monterey County Sheriff's Office at the Monterey County Jail. The contract will be effective January 1, 2026, through June 30, 2031, and includes provisions for possible contract extensions. The establishment of this contract will see a significant increase in cost for Correctional Healthcare Services and staffing for the delivery of correctional healthcare services at the Monterey County Jail. Correctional healthcare contracted staffing will increase from current staffing of 54 FTE to 89.95 FTE which directly impacts the delivery of healthcare services.

Medical and mental health care at the state and county levels in California has undergone a significant transformation in the last several years. These changes have been driven by both advocacy and litigation. Locally, these changes have been further amplified by *Hernandez et al v. County of Monterey, et. al., Case Number: 5:13-cv-02354-BLF* settlement agreement and the steady increase in vulnerable population incarcerated persons. We also recognize the need for increased medical and mental health services within this segment of our community. Importantly, community conversations, advocacy and the CalAIM process have afforded us an opportunity to unify in meaningful ways community care and correctional care. This has resulted in the Monterey County Sheriff's Office Corrections Operations Bureau developing and expanding our medical and mental health programs to offer coordinated in-custody care and seamless transitions between the community and custody.

These changes have also created a deeper clinical approach to health assessments, and as a result, the jail is experiencing a substantial increase in observed and reported illness and injury during the intake process. In turn, this is creating a higher demand for follow up treatment during their custody stay. Additionally, since implementation of the 2011 Public Safety Realignment (AB 109) the Sheriff's Offices has realized longer custody stays among the incarcerated population and increased chronic medical care issues.

This contract incorporates performance metrics to ensure accountability and contract adherence. These performance metrics are mirrored to the NCCHC standards for medical and mental health services in jails. NCCHC is the leader in correctional healthcare regulation and accreditation. NCCHC regularly works with the United States Bureau of Justice Assistance to advance Federal medical and mental health programs throughout the nation and are strong advocates for whole person care both in custody and when returning to the community.

CHP Monterey, INC. has a proven ability to maintain a high level of stable staffing. Their experience in the California correctional medical services market has given them the ability to recruit and retain some of the most highly-trained medical professionals in the State of California. CHP Monterey, INC. has realized their market influence and is working to increase collaboration and partnerships with local colleges and universities to allow nursing and mental health students the ability to receive training and

introduction into correctional healthcare.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of County Counsel has reviewed and approved this amendment as to form. Staff from the Health Department, Contracts and Purchasing Office, County Counsel, Risk Management, and Natividad Medical Center were engaged throughout this agreement's RFP process.

FINANCING:
The Sheriff's Office FY25-26 budget includes $15.1 million for Correctional Healthcare Services. Total estimated cost for FY25-26 when combining the services of our current vendor and CHP Monterey, Inc. is $19.3 million. The Sheriff's Office FY25-26 budget will require approximately $4.2 million in augmentation funding to fund Correctional Healthcare Services this fiscal year. The Sheriff's Office will work with the CAO's Office to identify funding for this fiscal year and return to the Board of Supervisors after the County FY25-26 mid-year budget presentation. Funding for future years of this agreement will be addressed during the annual County budget building process.

21.0 MATERIAL BREACH, TERMINATION, PERFORMANCE SECURITY, AND DEFAULT

21.1 Due to the importance of CONTRACTOR's services in providing health care to Monterey County incarcerated persons and protecting the health and safety of incarcerated persons, the County must do everything possible to eliminate the potential for a system failure. Accordingly, the County may declare CONTRACTOR in Material Breach of the Agreement for the following reasons:

21.1.1 Failure of CONTRACTOR to operate in a manner which enables the County and CONTRACTOR to maintain compliance with Court orders in *Hernandez et al v. County of Monterey et. al.*, Case Number: 5:13-cv- 02354-BLF.

21.1.2 Chronic failure of CONTRACTOR to timely administer tuberculosis testing as required in Court orders in *Hernandez et al v. County of Monterey et. al*., Case Number: 5:13-cv-02354-BLF. This will not be considered a breach if County's failure to provide sufficient custody officers contributes to the failure to meet the mandates of the Court Orders in *Hernandez et al v. County of Monterey et. al*., Case Number: 5:13-cv-02354-BLF. " Chronic failure" for the purposes of section 21.1.2 shall be defined as twice in a 30-day period or four (4) times in a six-month period.

21.1.4 Failure of CONTRACTOR to maintain the required insurance in accordance with the terms of the AGREEMENT.

21.1.5 Chronic failure to submit reports and information under the terms and conditions outlined in the AGREEMENT and any subsequent agreement. "Chronic failure" for the purposes of section 21.1.5 shall be defined as failure to perform the identified task two (2) consecutive times.

21.1.6 Failure to cure a breach of any other term of this AGREEMENT after written notice from the County and reasonable opportunity to cure.

21.1.7 Any failure of performance required in the AGREEMENT which is determined by the Monterey County Health Officer to constitute an imminent threat to incarcerated person or public health and safety.

21.1.8 Failure to be NCCHC compliant within 51 months after the AGREEMENT start date.

21.1.9 Failure to obtain full NCCHC Accreditation within 51 months after the contract start

date.

21.2 In the event of any Material Breach by CONTRACTOR as defined in Section 21.1, the County shall have all rights and remedies available at law or in equity under the AGREEMENT. The County's remedies shall be cumulative and in addition to any other remedy available to the County.

21.3 County may terminate this AGREEMENT in the event of any Material Breach by CONTRACTOR as defined in Section 21.1. Except for a Material Change Circumstance under Section 2.8 (which allows for immediate termination of this Agreement), as a condition precedent to termination by County. County shall provide CONTRACTOR with no less than thirty (30) calendar days' advance written notice citing, with specificity, the basis for the Material Breach (the "Breach Notice"). Within five (5) calendar days of receipt of the "Breach Notice", CONTRACTOR shall deliver to the County in writing, a plan to cure such breach. The CONTRACTOR shall have the right to cure a Material Breach within thirty (30) calendar days of receipt of the "Breach Notice". In the event, CONTRACTOR cures the Material Breach within such thirty (30) day period, or a longer period as may be specified in the Breach Notice, this AGREEMENT shall remain in full force and effect. If County deems CONTRACTOR to remain in Material Breach as of the end of the cure period specified in the Breach Notice, the County may provide CONTRACTOR with a notice of termination ("Termination Notice"), setting forth the specific reasons County believes CONTRACTOR remains in Material Breach and the effective date of termination ("Termination Date").

21.4 In the event of continuous or repeated material breaches of the same nature despite intermittent cures by the CONTRACTOR, County may immediately terminate the AGREEMENT.

21.5 In the case of default by CONTRACTOR, a Material Breach which CONTRACTOR fails to cure, or continuous or repeated material breaches of the same nature, County may procure the articles or services from other sources and may recover the loss occasioned thereby from any unpaid balance due to CONTRACTOR, if any, or by suit against CONTRACTOR.

22.2.3 After one hundred and twenty (120) days from the date of expiration of this Contract, CONTRACTOR shall no longer have any obligation to provide the services detailed in Section 21.2.2 unless both parties agree in writing exigent circumstances exist which require performance of this subsection beyond the one hundred and twenty (120) days.

22.3 Specific Obligations

22.3.4 Cooperate in responding to questions regarding the transition process.

22.4 Full Cooperation and Information

22.4.1 Upon Disentanglement, the Parties will cooperate fully with one another to facilitate a smooth transition of the services being terminated from CONTRACTOR to County or

County's designated replacement provider.

22.4.2 Such cooperation will include CONTRACTOR providing (both before and after the cessation of CONTRACTOR's provision of all or any part of the services under this AGREEMENT) to County full, complete, detailed, and sufficient information (including all information then being utilized by CONTRACTOR) to enable County's personnel (or that of third parties) to fully assume and continue the provision of services without interruption.

22.5 No Interruption or Adverse Impact

CONTRACTOR will cooperate with County and all of County's other service providers to ensure a smooth transition at the time of Disentanglement, with no interruption of services, no adverse impact on the provision of services or County's activities, no interruption of any services provided by third parties, and no adverse impact on the provision of services provided by third parties.

4. CONTRACTOR may subcontract with other providers to the extent that Natividad Medical Center (NMC) is unable to provide services under this paragraph.

   Should CONTRACTOR subcontract with another provider for emergent incarcerated person health care services, including hospitalization or outpatient services, said services shall be paid in accordance with Senate Bill 159 as outlined in Penal Code section 4011.10, effective January 2006, which provides for a rate equal to 110% of the hospital's actual costs according to the most recent Hospital Annual Financial Data report issued by the Office of Statewide Health Planning and Development, as calculated using a cost-to-charge ratio.

5. CONTRACTOR agrees that it is responsible for providing a completed medical referral form for all CONTRACTOR patients.

6. Medical Enrollment of Incarcerated Persons.

   a. County shall take reasonable steps, both upon incarceration, periodically thereafter, and (if necessary) at the time that off-site inpatient services are provided, to screen incarcerated persons for eligibility to enroll in the Medi-Cal County Inmate Program (MCIP) and, with respect to incarcerated persons who are so eligible, shall assist the incarcerated persons with enrollment to the extent such assistance is legally permissible. CONTRACTOR will take reasonable steps to monitor the screening and enrollment efforts by County and advise of any incarcerated persons who are not enrolled that qualify.

   b. CONTRACTOR and County will coordinate to facilitate MCIP eligibility of incarcerated persons and Medi-Cal payment for Medi-Cal covered services.

   c. CONTRACTOR agrees to use its reasonable best effort to facilitate MCIP eligibility for Medi-Cal covered services, and shall provide County and/or County-designated third-party billing contractor with all documentation that may be required to facilitate claiming of or reimbursement for the cost of Medi-Cal covered services by County.

   d. CONTRACTOR shall notify County of any incarcerate person who may have a hospital stay longer than 24 hours. County will begin the process of obtaining Medi-Cal or any other third-party coverage and reimbursement. CONTRACTOR will provide all necessary information in the medical file as may be needed to secure coverage and reimbursement.

   e. County agrees to use its best reasonable effort to facilitate Medi-Cal payment for items and services that are covered by Medi-Cal, and shall provide to or obtain from CONTRACTOR and providers that furnish such services (or their designated agents) all documentation required to facilitate Medi-Cal payment for such services. To the extent payment is not received pursuant to MCIP for an eligible incarcerated person for any reason whatsoever, including the failure to determine that the incarcerated person was eligible prior to the provision of service, County shall not be responsible for the difference in the cost of services.

   f. Notwithstanding anything to the contrary contained herein, County expressly releases CONTRACTOR from any financial liability for health care items and services provided to an incarcerated person where such items are covered by Medi-Cal and provided to an incarcerated person who is determined eligible for and is enrolled in Medi-Cal as of the time such items or services are provided. To the extent MCIP is discontinued or materially altered during the term of this Contract, CONTRACTOR and County agree to meet and confer in good faith to modify the compensation due under this Contract to account for the change or discontinuation of MCIP.

SECTION XXIV.

LEGAL REQUIREMENTS IN THE PROVISION OF SERVICES.

Nothing in this Agreement shall be deemed to reduce or modify any Title 15 requirements;

CONTRACTOR must comply with Title 15 and all other legal requirements, existing, and future court orders; for the provision of medical services to incarcerated persons, as they may be modified from time to time. If CONTRACTOR feels that there is any conflict in meeting the requirements of this Agreement and meeting all other legal requirements, it shall immediately notify County in writing of the perceived conflict.

SECTION XXV.

A. NOTIFICATION OF PROPOSED SETTLEMENT.

CONTRACTOR shall notify County Risk Management and County Counsel of any compromise and/or settlement of any claim or legal action related to the provision of services under this Agreement.

CONTRACTOR shall notify County as soon as possible after an agreement has been reached and prior to the final acceptance and execution of any such compromise, settlement, or other agreement. This shall not apply to CONTRACTOR's employer and employee or union matters that do not relate to or impact the provision of services under this Agreement, unless County is a named or interested party. The addresses for purposes of this notification are:

Office of County Counsel
COUNTY OF MONTEREY
168 WEST ALISAL STREET
SALINAS, CA 93901

B. PUBLIC COMMUNICATIONS:

1. CONTRACTOR shall immediately notify County of any inquiries from the media regarding the services provided and coordinate any response with the County. Notification for purposes of this section shall be to the Medical Liaison Commander.

2. CONTRACTOR shall not disclose any information regarding incarcerated persons, including but not limited to protected health information under the Health Information Portability and Accountability Act (HIPAA), Health Information Technology for Economic and Clinical Health (HITECH), Confidentiality of Medical Information Act (CMIA located in the California Civil Code Sec 56-56.37) and all other relevant laws and regulations.

3. With regard to any claim or lawsuit tendered to the CONTRACTOR, regardless of whether a reservation of rights is issued, the CONTRACTOR and its defense counsel agree to coordinate all media contact related to the claim or lawsuit with the County.

Exhibit B
Staffing Plan

1. Contractor's Staffing

Contractor may, at Contractor's own expense, employ such staff as Contractor deems necessary to perform the services required of Contractor by this Agreement. Contractor is bound by the staffing plan submitted by Contractor as part of the bidding process and must maintain the staffing outlined therein, unless County agrees to a change in writing and with appropriate compensation or credit. If County pays for a position in the Staffing Plan that is allocated for a program that is not in place at the commencement of this Agreement, County shall receive a credit for such payment on the following invoice.

Contractor shall ensure that all personnel employed in the performance of this Agreement possess the required expertise, skill, and professional competence to perform their duties.

2. Additional Staffing - Request by County

County may request additional staffing for limited periods of time. If County requests additional staffing that Contractor does not believe is needed or necessary, Contractor shall provide a written notice as to why Contractor deems additional staff unnecessary. If County then notifies Contractor in writing that it will pay an additional sum for such staffing, Contractor shall provide additional staffing at the cost negotiated by the Parties.

3. Additional Staffing - Request by Contractor

If the Contractor believes it is necessary to add more staffing on a long term or permanent basis the Contractor shall meet with County to discuss amending the matrixes, or adding matrixes for increased staffing, including additional Licensed Vocational Nurses and RNs. Any such amendments must be done in writing and approved by the County pursuant to this Agreement.

4. Work Post

Work Post descriptions (defining the duties, responsibilities, job descriptions, shift, and location) for all assignments are to be clearly posted at the facility in an area that is open to all Contractor staff, but not to incarcerated persons. Contractor shall review and update the Work Post every six months. Reviewed and approved copies of each Work Post, with the date, must be provided to the Chief Deputy Sheriff of the Corrections Operations Bureau on February 1st and August 1st of each year. Copies of any Work Post changes must be immediately provided to the Chief Deputy Sheriff of the Corrections Operations Bureau.

3. Shift Coverage and Daily Attendance Record

Copies of staffing schedules, which include all health care staff, are to be posted in designated areas and submitted to the Chief Deputy Sheriff of the Corrections Operations Bureau or designee on a daily basis. Actual shift coverage must be verified by the Chief Deputy Sheriff of the Corrections Operations Bureau or designee, signed by the supervisor of each shift, and submitted daily to the Chief Deputy Sheriff of the Corrections Operations Bureau or designee.

4. Credit for Inadequate Staffing Coverage.

The facility must be fully staffed for the number of incarcerated person in custody in accordance with the staffing matrix below, factoring in any special circumstances at any given time such as high rates of illness. Contractor can request to adjust the staffing matrix as needed to ensure best clinical outcomes but any such adjustment must be mutually agreed to by County. In no event shall the County's approval of Contractor's request to adjust the staffing matrix be unreasonably withheld, conditioned, or delayed. A Work Post is considered staffed when a qualified individual is present at the facility performing all duties of the position. In the case of the "on call" physician the position is adequately staffed when a qualified physician is immediately reachable by phone and available to come to the facility if needed.

Pursuant to Sections 3.3.3 of the Countywide Service Agreement between the County and Contractor, any Work Post left vacant, in whole or in part of any shift, will result in a credit to the County equal to the Contractor's cost of that position, had the Work Post been staffed (salary plus benefits of the individual assigned to that Work Post for the hours the post is vacant) as noted in the Agreement.

If a management or administrative staff member fills in to cover an operational position in lieu of fulfilling their normal work schedule, Contractor shall credit the County for the administrative position for the hours covering the operational position (e.g., Facility Coordinator covering pill call). If a management or administrative staff member fills in to cover an operational position and still fulfills their normal work schedule, Contractor shall not be subject to any penalty or required to provide a credit to the County.

Contractor shall provide a summary of hours worked for each Work Post to the County no later than the 10th of the month after the month worked (i.e., due February 10th for January term). Contractor shall provide work post credits to the County on their monthly invoice no later than one billing cycle (i.e., credit on March billing for January term). In addition, Contractor shall be liable for penalties

pursuant to the terms of the Agreement. If the County does not assess a penalty on any occasion(s) it does not waive its right or ability to assess penalties in the future.

5. Platform for Staff Input

Contractor shall have a process or avenue for its nursing and medical staff to provide input regarding staffing and the level of patient care being provided.

6. Contractor's Supervision and Control of Staff

County may not control, direct, or supervise Contractor's assistants or employees in the performance of those services.

7. The County's Emergency Control of Contractor's Staff

During emergency or exigent circumstances, supervisory staff of County shall have authority to provide non-medical direction to employees to ensure the safety of the staff, incarcerated persons, and facility. This authority will only extend to Contractor's staff while present at County jail facilities.

BUSINESS ASSOCIATE AGREEMENT

This Business Associate Agreement ("Agreement"), effective _____ ("Effective Date"), is entered into by and among the County of Monterey, a political subdivision of the State of California, on behalf of the Monterey County Sheriff's Office ("Covered Entity") and _____ ("Business Associate") (each a "Party" and collectively the "Parties").

Business Associate provides certain services for Covered Entity ("Services") that involve the use and disclosure of Protected Health Information that is created or received by Business Associate from or on behalf of Covered Entity ("PHI"). The Parties are committed to complying with the Standards for Privacy of Individually Identifiable Health Information, 45 C.F.R. Part 160 and Part 164, Subparts A and E as amended from time to time (the "Privacy Rule"), and with the Security Standards, 45 C.F.R. Part 160 and Part 164, Subpart C as amended from time to time (the "Security Rule"), under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), as amended by the Health Information Technology for Economic and Clinical Health Act and its implementing regulations ("HITECH"). The additional requirements of Title XIII of HITECH contained in Public Law 111-005 that relate to privacy and security and that are made applicable with respect to covered entities shall also be applicable to Business Associate. The Parties are also committed to complying with the California Confidentiality of Medical Information Act, Ca. Civil Code §§ 56 *et seq.* ("CMIA"), where applicable. Business Associate acknowledges that the CMIA prohibits Business Associate from further disclosing the PHI it receives from Covered Entity where such disclosure would be violative of the CMIA. The Parties are also committed to complying with applicable requirements of the Red Flag Rules issued pursuant to the Fair and Accurate Credit Transactions Act of 2003 ("Red Flag Rules"). This Agreement sets forth the terms and conditions pursuant to which PHI, and, when applicable, Electronic Protected Health Information ("EPHI"), shall be handled. The Parties further acknowledge that state statutes or other laws or precedents may impose data breach notification or information security obligations, and it is their further intention that each shall comply with such laws as well as HITECH and HIPAA in the collection, handling, storage, and disclosure of personal data of patients or other personal identifying information exchanged or stored in connection with their relationship.

Further, no provision of this Agreement shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third-Party Beneficiaries. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

Joint Defense / Common Interest Agreement

This Joint Defense Agreement ("Agreement") is made effective as of _____, by and between the County of Monterey, the Monterey County Sheriff's Office, and CHPMONTEREY, INC., individually a "Party" and collectively referred to herein as the "Parties."

WHEREAS, the Parties have certain substantially similar interests and recognize that certain mutually beneficial activities might be undertaken with regard to responding to allegations that have been, or may be, asserted against them relating to actions or conditions at or near the Monterey County Jail, located at 1410 Natividad Road, Salinas, CA, 93906 (hereafter "Covered Matters"); and

WHEREAS, the Parties may, with the purpose of assisting in any common defense or investigation of allegations made against them, engage in communications or elect to disclose or transmit to each other otherwise privileged, confidential or proprietary communications, information, or documents; mental impressions; investigative information; memoranda; interview reports; expert reports; and other privileged, confidential, proprietary or otherwise protected communications, information, or documents relating to the Covered Matters (the "Covered Materials") that may be protected from disclosure to adverse or other Parties as a result of the attorney-client privilege, the work-product privilege, the joint defense doctrine, the common interest doctrine and/or other applicable privileges, rights, or rules; and

WHEREAS, the Parties desire that such Covered Materials shall remain privileged and confidential or otherwise protected from disclosure; and

WHEREAS, the Parties agree that the execution of this Agreement is made in good faith for the purpose of promoting cooperation and limiting administrative and legal costs.

NOW, THEREFORE, in consideration of the agreements and obligations listed below, the Parties, by and through their authorized representatives, hereby agree as follows:

1. **Confidentiality and Use of Information**.
    a) The Parties agree that the existence and terms of this Agreement shall be kept confidential, except that the Agreement and its terms may be disclosed in any action to enforce the Agreement, or as otherwise may be required by administrative or court order or other applicable law.
    b) The Parties recognize and agree that Covered Materials voluntarily exchanged among the Parties are covered by the "Joint Defense Doctrine" and/or the "Common Interest Doctrine." All Covered Materials previously exchanged among the Parties are subject to the provisions of this Agreement.
    c) It was and is the mutual understanding of the Parties that the exchanges and disclosures referred to in this Agreement are not intended to diminish in any way the

confidentiality of such Covered Materials, and any exchange of Covered Materials is not intended to and will not be deemed to constitute a waiver of any available privilege or right. All communications relating to the furtherance of the common interest/joint defense, or made in connection with Covered Matters and among any of the signatories of this Agreement, are confidential, and no privilege shall be deemed to be waived with respect to, or as a result of, such communication(s).

d) Covered Materials disclosed by one Party to any other Party shall be deemed and kept confidential but may be shared with and among the Parties and may be used by the disclosing party as it sees fit. Covered Materials will not be shown or produced by a receiving Party to anyone not a Party except as otherwise provided herein. Such Covered Materials may be disclosed by the receiving
Party only: (i) with the consent of the disclosing Party in furtherance of the receiving Party's defense of Covered Matters, (ii) if required by administrative or judicial order, or (iii) with the prior consent of the disclosing Party, which shall not be unreasonably withheld, to a third party auditor, insurer, financial accountant, or financial advisor. In the case of any disclosure to a third party under (iii) above, such person shall be specifically informed of the obligations of confidentiality and shall agree in writing to be bound thereby before the Covered Materials are disclosed.

e) Disclosure of Covered Materials by a Party or its counsel to either Party's experts or consultants is not a waiver of the attorney-client privilege, the work product privilege, the joint defense privilege, or any other privilege or immunity. Each Party shall instruct its experts or consultants not to disclose information to any third party without prior consent of the Party and such disclosure may only be made in a manner consistent with the terms and conditions of this Agreement.

f) This Agreement does not obligate the Parties to share any particular materials or information.

g) If any Covered Materials become the subject of an application for an administrative or judicial order seeking to require disclosure of such information or documents by a Party or under circumstances where the information, if disclosed, would be unprotected by confidentiality obligations, that Party shall give prompt written notice of the effort to require disclosure to all other Parties, such that any Party has a timely opportunity to seek to protect the confidentiality of the Covered Materials. The Parties shall cooperate with one another to preserve the confidentiality of Covered Materials, but the Party subject to an application for an order, subpoena or other legal process that provides notice to the Parties need not pay for any of the costs incurred by any Party in seeking to protect the confidentiality of the Covered Materials.

h) The terms of this Agreement shall not apply to information or documents which are now in, or hereafter enter, the public domain, or are obtained from a Party pursuant to applicable discovery procedures, or are not otherwise protected from disclosure, except that it shall continue to apply to any Covered Materials disclosed wrongfully or in violation of this Agreement.

i) Any unauthorized or accidental disclosure of Covered Materials by a Party to this Agreement shall not result in a waiver of any Party's claim of confidentiality or other protection as applicable to the disclosed materials. No Party may waive any

applicable privilege or other protection on behalf of any other Party.

j) The confidentiality obligations of this Agreement survive the termination of the Agreement.

2. **Identification and Return of Covered Materials**.

   a) All Covered Materials that are exchanged pursuant to this Agreement should be marked or designated with language to the following effect: "*Privileged and Confidential; Joint Defense Materials*."
   b) All correspondence or electronic or oral communications to which only the Parties are a party shall be considered Covered Materials pursuant to this Agreement.
   c) Failure to designate Covered Materials in accordance with Paragraph 2(a) shall not in and of itself render any privilege or other protection inapplicable, but no claim of breach of duty, with respect to the later disclosure of such materials, may be made by a disclosing Party that failed to properly designate Covered Materials under this Agreement.
   d) Any Party withdrawing from the Agreement for any reason, or upon the Agreement's termination, shall immediately return all copies of materials marked pursuant to Paragraph 2(a) or reasonably believed to be covered under the terms of this Agreement to the disclosing Party upon written request by the disclosing Party and shall delete electronic copies of such materials to the extent feasible.

3. **Inadmissibility**. This Agreement shall not constitute or be used as evidence of any admission of law or fact against any Party, or as evidence of liability or responsibility for any claims, costs or damages. This Agreement shall not operate to release or affect any of the rights of any Party under state or federal law.

4. **Effect on Insurance.** The Parties do not intend for this Agreement to prejudice any Party with respect to its insurers. All of the provisions of this Agreement shall be interpreted so as not to conflict with each Party's obligations to its insurers.

5. **Representation**. Each Party understands and acknowledges that it is represented exclusively by its own Counsel in this matter and that this Agreement does not and will not create any attorney-client relationship with Counsel for any other Party.

6. **Conflicts**. The Parties hereto understand and agree that nothing arising out of this Agreement shall give rise to an assertion by either Party of a conflict of interest with regard to any Counsel, including any additional or substitute counsel, to the Parties that are signatories to this Agreement.

7. **Withdrawal**. Any Party may withdraw from this Agreement upon tendering written notice to all other signatories to this Agreement, in which case this Agreement shall no longer be operative as to the withdrawing Party but shall continue to protect all communications and information covered by the Agreement and disclosed to the withdrawing Party.

8. **Termination**. This Agreement shall terminate upon: (i) execution of a full settlement of the Action; (ii) filing of a stipulation discontinuing or dismissing with prejudice the Action; (iii) entry of an order discontinuing or dismissing with prejudice the Action; (iv) entry of a final, non-appealable judgment in the Action; or (v) execution of a subsequent agreement by the Parties regarding Covered Materials. The confidentiality obligations of this Agreement shall survive any termination.

9. **Authority**. The individuals executing this Agreement on behalf of their respective clients represent that they have the authority to sign this Agreement and the authority to bind and commit their respective clients to the terms hereof.

10. **Modification**. This Agreement may be amended only by a writing signed by the Parties.

11. **Headings**. The headings contained in this Agreement are inserted solely for convenience and shall not be deemed to define or amend any provision of this Agreement.

12. **Applicable Law**. This Agreement shall be governed by the laws of the State of California without regard to conflict of laws principles.

3. Adopt a resolution to amend the text to the Big Sur Coast, Carmel Area and North County Land Use Plans as certified by the California Coastal Commission to update policies and regulations for Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs);
4. Adopt an Ordinance to amend the Monterey County Coastal Implementation Plan, Part 1 the Coastal Zoning Ordinance (Title 20), Coastal Zoning, and Part 6, Appendices. to modify policies and regulations for Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs) as certified by the California Coastal Commission;

SUMMARY:

On February 4, 2025, the Board of Supervisors adopted a resolution of intent with amendments to the Monterey County Local Coastal Program to modify policies and regulations for Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs), including the Big Sur Coast Land Use

Plan, Carmel Area Land Use Plan, North County Land Use Plan and Monterey County Coastal Implementation Plan, Part 1 the coastal Zoning Ordinance (Title 20), Coastal Zoning, and Part 6, Appendices.

On October 10, 2025, the California Coastal Commission (CCC) approved the Monterey County Local Coastal Program (LCP) Amendment Number LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units), as submitted by the County. Staff is returning to the Board for final action. If adopted by the Board, this action would establish updated regulations for ADUs and JADUs in the coastal zone of unincorporated Monterey County. Staff recommends that the Board adopt the ordinance and land use plan amendments.

DISCUSSION:
The proposed LCP Amendment is returning to the Board of Supervisors to complete the process of adopting ADU regulations that are applicable in coastal unincorporated areas of Monterey County. Pursuant to the Coastal Act, the County may amend the certified Local Coastal Program, provided the County follows certain procedures. The procedures include:

- The Planning Commission hold a noticed public hearing and make a recommendation to the Board;
- The Board hold a noticed public hearing, adopt a resolution of intent, and submit the proposed amendment to the CCC for certification; and
- The Board take subsequent final action on the ordinance after the CCC acts and officially codify the LCP amendments.

On November 13, 2024, the Planning Commission held a public hearing and unanimously recommended that the Board of Supervisors adopt a resolution of intent to amend the Local Coastal Program.

On February 4, 2025, the Board of Supervisors adopted a Resolution of Intent to adopt an ordinance establishing updated regulations for accessory dwelling units in the coastal unincorporated areas and amending various land use plans to add policies related to accessory dwelling units (**Attachment C - Resolution No. 25-016**).

Following adoption by the Board, staff forwarded the Resolution of Intent to the CCC for certification. On October 10, 2025, the CCC approved the proposed amendment as submitted by the County (**Attachment D - LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units**). These amendments are now returning to the Board for final local action (**Attachment A - CCC Certified Ordinance (clean); Attachment B - CCC Certified Ordinance (redline)**). This action will update regulations for ADUs and JADUs in the coastal zone.

Next Steps
Following Board adoption of this Local Coastal Program amendment, the amendment will become effective the 31st day following adoption which would be December 19, 2025.

OTHER AGENCY INVOLVEMENT
The Office of County Counsel has reviewed and approved the resolution and ordinance as to form. The California Coastal Commission approved the proposed amendment as submitted by the County on October 10, 2025.

HOUSING IMPACTS:
X Reduces constraints on Housing Development
___Increases constraints on Housing Development
___Neutral

Adopting updated policies and regulations for ADUs and JADUs in the Coastal Zone reduces constraints on housing development and supports the production of diverse and affordable housing types in unincorporated coastal areas of Monterey County. By clarifying standards and removing unnecessary regulatory barriers, the policy enables more homeowners to add ADUs or JADUs to their properties, thereby increasing the overall housing supply.

FINANCING:
Staff time to bring the LCP amendment forward to the CCC and Board for final adoption is included in the Fiscal Year 2025-26 Adopted Budget for HCD, Appropriation Unit HCD002, Unit 8543.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
Adopting updated ADU and JADU policies and regulations in the coastal zone supports Strategic Goal A: Well-being and Quality of Life by increasing affordable housing, reducing overcrowding, and promoting equitable access to healthy living environments. Further, changes to the policies and regulations assist in streamlining permit processing for ADU and JADUs, expediting the approval process and resulting in additional housing opportunities throughout unincorporated Monterey County's Coastal Zone.

Staff recommends that the Board adopt the ordinance and land use plan amendments.

DISCUSSION:

The proposed LCP Amendment is returning to the Board of Supervisors to complete the process of adopting ADU regulations that are applicable in coastal unincorporated areas of Monterey County. Pursuant to the Coastal Act, the County may amend the certified Local Coastal Program, provided the County follows certain procedures. The procedures include:

- The Planning Commission hold a noticed public hearing and make a recommendation to the Board;
- The Board hold a noticed public hearing, adopt a resolution of intent, and submit the proposed amendment to the CCC for certification; and
- The Board take subsequent final action on the ordinance after the CCC acts and officially codify the LCP amendments.

On November 13, 2024, the Planning Commission held a public hearing and unanimously recommended that the Board of Supervisors adopt a resolution of intent to amend the Local Coastal Program.

On February 4, 2025, the Board of Supervisors adopted a Resolution of Intent to adopt an ordinance establishing updated regulations for accessory dwelling units in the coastal unincorporated areas and amending various land use plans to add policies related to accessory dwelling units (**Attachment C - Resolution No. 25-016**).

Following adoption by the Board, staff forwarded the Resolution of Intent to the CCC for certification. On October 10, 2025, the CCC approved the proposed amendment as submitted by the County (**Attachment D - LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units**). These amendments are now returning to the Board for final local action (**Attachment A - CCC Certified Ordinance (clean); Attachment B - CCC Certified Ordinance (redline)**). This action will update regulations for ADUs and JADUs in the coastal zone.

Next Steps

Following Board adoption of this Local Coastal Program amendment, the amendment will become effective the 31st day following adoption which would be December 19, 2025.

OTHER AGENCY INVOLVEMENT
The Office of County Counsel has reviewed and approved the resolution and ordinance as to form. The California Coastal Commission approved the proposed amendment as submitted by the County on October 10, 2025.

HOUSING IMPACTS:
_X_ Reduces constraints on Housing Development
___Increases constraints on Housing Development
___Neutral

Adopting updated policies and regulations for ADUs and JADUs in the Coastal Zone reduces constraints on housing development and supports the production of diverse and affordable housing types in unincorporated coastal areas of Monterey County. By clarifying standards and removing unnecessary regulatory barriers, the policy enables more homeowners to add ADUs or JADUs to their properties, thereby increasing the overall housing supply.

FINANCING:
Staff time to bring the LCP amendment forward to the CCC and Board for final adoption is included in the Fiscal Year 2025-26 Adopted Budget for HCD, Appropriation Unit HCD002, Unit 8543.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
Adopting updated ADU and JADU policies and regulations in the coastal zone supports Strategic Goal A: Well-being and Quality of Life by increasing affordable housing, reducing overcrowding, and promoting equitable access to healthy living environments. Further, changes to the policies and regulations assist in streamlining permit processing for ADU and JADUs, expediting the approval process and resulting in additional housing opportunities throughout unincorporated Monterey County's Coastal Zone.

ORDINANCE NO. 5432

AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, AMENDING TITLE 20 (COASTAL ZONING) OF THE MONTEREY COUNTY CODE RELATING TO ACCESSORY AND JUNIOR DWELLING UNITS

County Counsel Summary

This ordinance amends the County's zoning regulations for accessory and junior dwelling units in the unincorporated coastal zone of Monterey County. The ordinance updates Section 20.64.030 and other sections of Title 20 of the Monterey County Code to conform to recently enacted state law concerning accessory and junior accessor dwelling units, as well as amending Part 6 of the Monterey County Coastal Implementation Plan to add a new Appendix 15 concerning accessory dwelling unit parking. Such changes include provisions allowed under California Government Code sections 66314 and 66333, including, but not limited to, restrictions on zoning locations, objective standards on parking, height, setback, landscape, and rental restrictions. This ordinance will require certification by the California Coastal Commission because this ordinance would amend the County of Monterey's certified Coastal Implementation Plan.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. Findings and Declarations.

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its residents.

B. Per amendments to California Government Code sections 66310 through 66342 adopted by the state legislature, the County desires to amend its existing regulations pertaining to Accessory Dwelling Units ("ADUs") and enact regulations related to Junior Accessory Dwelling Units ("JADUs") to conform to all state law requirements.

C. ADUs and JADUs have the potential to increase the stock of affordable housing in Monterey County by creating a wider range of smaller and lower cost housing options within unincorporated communities.

D. This ordinance is statutorily exempt from the California Environmental Quality Act ("CEQA"), which provides that CEQA does not apply to activities and approvals involving the preparation and adoption of local coastal program amendments (CEQA Guidelines section 15265).

E. The County intends to carry out the amendments in a manner fully in conformity with the California Coastal Act (Public Resources Code section 30000 *et seq*.).

F. This ordinance amends the Monterey County Coastal Implementation Plan, which is part of the County's Local Coastal Program. Pursuant to the Coastal Act, the County may amend the certified Local Coastal Program provided the County follows certain procedures. The procedures include the following: the County's Planning Commission holds a noticed public hearing and makes a recommendation to the Board of Supervisors on the proposed amendment; the Board of Supervisors holds a noticed public hearing, adopts a resolution of intent, and submits the proposed amendment to the California Coastal Commission for certification together with materials sufficient for a thorough and complete review; the Coastal Commission certifies the amendment; the Board of Supervisors takes subsequent final action on the ordinance after the Coastal Commission acts; and the Coastal Commission confirms the County's action. Accordingly, this ordinance will not go into effect until after the Coastal Commission certifies the amendment and confirms the Board's action.

2. An application for a Coastal Administrative Permit for an ADU or JADU shall be processed in accordance with the requirements of Chapter 20.76 of this Code, except that no public hearing shall be required for Coastal Administrative Permit, and applications shall be processed within 60 calendar days after receiving a completed application. Appeals to Coastal Administrative Permits pursuant to this Section shall be processed pursuant to Chapter 20.86 of this Code.

This Section does not affect the requirements or process for such permits.

ORDINANCE NO. _____

AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, AMENDING TITLE 20 (COASTAL ZONING) OF THE MONTEREY COUNTY CODE RELATING TO ACCESSORY AND JUNIOR DWELLING UNITS

County Counsel Summary

This ordinance amends the County's zoning regulations for accessory and junior dwelling units in the unincorporated coastal zone of Monterey County. The ordinance updates Section 20.64.030 and other sections of Title 20 of the Monterey County Code to conform to recently enacted state law concerning accessory and junior accessor dwelling units, as well as amending Part 6 of the Monterey County Coastal Implementation Plan to add a new Appendix 15 concerning accessory dwelling unit parking. Such changes include provisions allowed under California Government Code sections 66314 and 66333, including, but not limited to, restrictions on zoning locations, objective standards on parking, height, setback, landscape, and rental restrictions. This ordinance will require certification by the California Coastal Commission because this ordinance would amend the County of Monterey's certified Coastal Implementation Plan.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. Findings and Declarations.

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its residents.

B. Per amendments to California Government Code sections 66310 through 66342 adopted by the state legislature, the County desires to amend its existing regulations pertaining to Accessory Dwelling Units ("ADUs") and enact regulations related to Junior Accessory Dwelling Units ("JADUs") to conform to all state law requirements.

C. ADUs and JADUs have the potential to increase the stock of affordable housing in Monterey County by creating a wider range of smaller and lower cost housing options within unincorporated communities.

D. This ordinance is statutorily exempt from the California Environmental Quality Act ("CEQA"), which provides that CEQA does not apply to activities and approvals involving the preparation and adoption of local coastal program amendments (CEQA Guidelines section 15265).

E. The County intends to carry out the amendments in a manner fully in conformity with the California Coastal Act (Public Resources Code section 30000 *et seq*.).

F. This ordinance amends the Monterey County Coastal Implementation Plan, which is part of the County's Local Coastal Program. Pursuant to the Coastal Act, the County may amend the certified Local Coastal Program provided the County follows certain procedures. The procedures include the following: the County's Planning Commission holds a noticed public hearing and makes a recommendation to the Board of Supervisors on the proposed amendment; the Board of Supervisors holds a noticed public hearing, adopts a resolution of intent, and submits the proposed amendment to the California Coastal Commission for certification together with materials sufficient for a thorough and complete review; the Coastal Commission certifies the amendment; the Board of Supervisors takes subsequent final action on the ordinance after the Coastal Commission acts; and the Coastal Commission confirms the County's action. Accordingly, this ordinance will not go into effect until after the Coastal Commission certifies the amendment and confirms the Board's action.

A. Purpose: The purpose of this Section is to establish the regulations, standards and circumstances under which Accessory Dwelling Units also known as ADUs, and Junior Accessory Dwelling Units also known as JADUs may be allowed and to establish a means for creating additional affordable housing in Monterey County.

B. Definitions: Unless otherwise expressly stated, whenever used in this Section, the following terms shall have the meanings set forth below:

1. "Efficiency Kitchen" means a kitchen that includes each of the following: (a) a cooking facility with appliances; (b) a food preparation counter; and (c) food storage cabinets that are of reasonable size in relation to the size of the dwelling unit.

2. "High-quality transit corridor" means a corridor with fixed route bus service with service intervals no longer than 15 minutes during peak commute hours.

3. "Major transit stop" means a site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

4. "Housing Organization" means a trade or industry group whose local members are primarily engaged in the construction or management of housing units or a nonprofit organization whose mission includes providing or advocating for increased access to housing for low-income households and have filed written or oral comments with the local agency prior to action on the housing development project.

5. "Livable Space" means a space in a dwelling intended for human habitation, including living, sleeping, eating, cooking, or sanitation.

C. Applicability:

1. This Section is applicable in all zoning districts which allow Single Family or Multiple Family Dwellings or both Single and Multiple Family Dwellings, subject to the requirements of this Section, as follows:

a. High Density Residential (HDR(CZ))
b. Medium Density Residential (MDR(CZ))
c. Low Density Residential (LDR(CZ))
d. Rural Density Residential (RDR(CZ))
e. Watershed and Scenic Conservation (WSC(CZ))
f. Coastal General Commercial (CGC(CZ))
g. Moss Landing Commercial (MLC(CZ))
h. Visitor-Serving Commercial (VSC(CZ))
i. Coastal Agricultural Preserve (CAP(CZ))
j. Agricultural Conservation (AC(CZ))

2. County plans and regulations to limit residential growth, including unit caps, do not apply to ADUs and JADUs.

3. Units previously permitted in the HDR, MDR, LDR, and WSC zoning districts in the North County, Del Monte Forest, and Carmel Area Land Use Plan areas as a "Senior Citizen" unit or a "Caretaker" unit prior to the adoption of these regulations shall be considered an ADU for the purposes of this Section.

4. Units previously permitted by the County as a "Guesthouse" may be converted to an ADU or JADU subject to this Section.

D. Regulations for ADUs and JADUs:

1. All ADUs and JADUs that will connect to a private sewage disposal system or that will obtain their water supply from a private well and/or a water system with two to 199 service connections are subject to review and approval by the County's Environmental Health Bureau to ensure adequate sewage disposal facilities and adequate water supply exist or have been demonstrated feasible to construct to serve the unit. The Director of Environmental Health shall evaluate adequacy of water quality and quantity for ADUs and evaluate adequacy of water quality for JADUs. If either adequate sewage disposal facilities or adequate water supply is not available, an ADU or JADU shall be prohibited.

2. An ADU or JADU may be separately rented, provided such rental is for 31 consecutive calendar days or longer. Rental of an ADU, a JADU, or a portion of an ADU or JADU for 30 consecutive calendar days or fewer is prohibited.

3. ADUs and JADUs shall require a design approval when zoning district is combined with a "D" district. The appropriate authority to take action on design approvals will be the Chief of Planning. Such Design approval decisions are not appealable.

4. For the Protection of Groundwater Resources in the North County Land Use Plan Area, when an ADU or JADU is proposed, water efficiency and conservation standards must be implemented. Before any building permit may be issued for such new construction, the applicant shall submit documentation for review and approval by the Chief of Building Services to demonstrate conformity with the following water efficiency and conservation measures:

a. All structures on that lot must incorporate the following water efficiency and conservation standards:

i. Toilets with a maximum tank size or flush capacity of 1.28 gallons;

ii. Shower heads with a maximum flow capacity of 1.8 gallons per minute;

Pervious hardscapes shall be preferred over non-pervious options where feasible. Proposed or existing subsistence gardens such as family gardens, community gardens, or fruit/nut trees must employ water efficiency measures as drip irrigation to the greatest extent feasible.

c. Additional water conservation measures may include one or more of the following, as applicable:

i. Installation of a rainwater catchment system in compliance with Chapter 18.05 of this Code; or

ii. Installation of a greywater system in compliance with Chapter 18.05 of this Code.

b. A legal lot with an existing multiple family dwelling is allowed up to eight detached ADUs, provided that the number of detached ADUs does not exceed the number of existing units on the lot. Additionally, ADUs within the existing multiple family dwelling are allowed for up 25 percent of the total number of units in the existing multiple family dwelling. However, any ADU within a multiple family dwelling must be created by conversion of portions of existing multiple family dwelling structures that are not used as livable space including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages.

c. A legal lot with a proposed multiple family dwelling is allowed up to two detached ADUs.

2. Height Limitations:

a. An ADU attached to the main structure shall be subject to the height regulations of the zoning district for the main structure.

For such lots, an additional two feet in height (up to 20 feet) shall be allowed to accommodate a roof pitch on the ADU that is aligned with the roof pitch of the main structure.

ii. Regardless of whether a lot is within one-half mile walking distance of a major transit stop or high-quality transit corridor, increases in height for detached ADUs may be considered with a Coastal Development Permit (ZA) when intended to provide for architectural consistency and compatibility with the main structure.

4. Size Limitation:

a. In the Carmel Area Land Use Plan area, North County Land Use Plan, and Del Monte Forest Land Use Plan area newly constructed attached ADUs, newly constructed detached ADUs, and conversions of legally constructed accessory structures built after March 25, 2024, shall not exceed 1,200 square feet.

b. c. ADUs created through conversion of space in an existing main structure shall not be allowed to exceed 50 percent of the total square footage of the existing main structure.

5. Parking Requirements:

b. On lots that are not within the designated areas shown in Monterey County Coastal Implementation Plan, Appendix 15, "ADU Parking Required," no off-street parking spaces shall be required for each ADU, and no replacement parking spaces will be required if a garage, carport, or other covered parking structure is converted or removed to accommodate an ADU.

8. The County may issue a building permit for an ADU prior to issuance of building permit for the primary dwelling.

9. An ADU shall comply with all local building code requirements that apply to detached dwellings, provided, however, that County may approve a delay in enforcement of building standards in accordance with the parameters and procedures set forth in Health and Safety Code section 17980.12, as may be periodically amended, if compliance with the building standard is not necessary to protect health and safety.

10. ADUs are prohibited in the Big Sur Critical Viewshed as they would be inconsistent with the Scenic Resources policies of the Big Sur Coast Land Use Plan and due to their impact on traffic flow and safety.

11. An ADU shall not be sold or otherwise conveyed separate from the primary dwelling unless it meets the criteria of Government Code section 66341, including all the following:

ATTACHMENT 1

DRAFT AMENDMENTS TO CARMEL AREA, BIG SUR COAST AND NORTH COUNTY LAND USE PLANS

Amendments to Carmel Area Land Use Plan

1. Subsection c) is added to subsection 2 of subsection H of Section 4.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit.

Amendments to Big Sur Coast Land Use Plan

1. The first paragraph of subsection 2 of Section 5.3.1, is amended to read as follows:

Protection of watersheds, streams, plant communities, and scenic values is the primary objective. Principal uses in this category include agriculture/grazing and supporting ranch houses and related ranch buildings. Recreational facilities permitted in the Outdoor Recreation category including rustic inn or lodging units, hostels; forestry, mineral extraction, aquaculture and related facilities; and accessory dwelling units, junior accessory dwelling units, rural residential and employee housing associated with any of these uses are secondary, conditional uses that will be considered on their individual merits. Where on-site dining facilities are allowed for the inn units, they must be limited to that which is needed to serve on-premises overnight guests.

2. Subsection 6 of Section 5.3.1, is amended to read as follows:

Rural residences are considered a principal use on vacant parcels where applicable resource protection policies can be met. Secondary uses appurtenant to rural residences include accessory dwelling units, junior accessory dwelling units, garages, work or storage sheds, and art or craft studios. Accessory dwelling units and junior accessory dwelling units are allowed in this land use category for the purpose of creating long term housing.

3. Section 5.3.3 is amended to read as follows:

The plan permits development on existing vacant or partially developed parcels based on conformance to the standards of the plan. It is estimated that there are 800 such parcels and that approximately 100 new parcels could be created through subdivision. The plan also permits accessory dwelling units and junior accessory dwelling units. Expansion of lodging facilities in the Big Sur Valley, Lucia, Pacific Valley and Gorda is possible to some extent. Up to 50 hostel units can be constructed. Employee housing may also be constructed to serve commercial visitor-serving facilities and State and Forest Service facilities. The inn unit density standards are expected to hold inn development to less than 300 new units.

The policies that follow establish a slope density formula as the determinant of potential residential development. A conversion factor is available in the Watershed and Scenic Conservation land use designation that permits potential residential units to be developed as inn units at the rate of two inn units per residence (up to a maximum of 8 per parcel), thereby establishing potential buildout for this major land use category.

Consequently, long range development of the coast will depend upon the choices made by landowners over time. A strong response to demand for visitor facilities will result in a reduction in residential construction potential. For example, if 100 additional residential units are ultimately approved for development in the Watershed and Scenic Conservation area, this could result in 100 residences. It could also result in 50 residences and 100 inn units, or no residences and 200 inn units, etc. While this is only illustrative, it shows the relationship of visitor-serving facilities and residential development based on the conversion factor. An important condition of the plan is that property can be devoted to either residential or visitor-serving overnight accommodations, or a combination of both, but that density credit cannot be applied for both uses from the same acreage.

The plan is flexible concerning the siting of new development, allowing a range of land use proposals to be made at any particular location. Yet the plan's resource protection standards, and slope and road requirements, are stringent, ultimately causing new development to be sited on the most physically suitable locations and limiting buildout to a level that can be accommodated on those sites that can meet all of the plan's requirements.

Table 1 summarizes the major categories of development according to the locations at which the use could take place and provides standards to guide the density at which campgrounds can be clustered on the site. No limitation is established in the plan for the number of campsites that could be developed.

Accessory dwelling units and Junior accessory dwelling units, consistent with State law, are allowed but must comply with all the resource protection provisions, including but not limited to the Critical Viewshed Policy of this LUP. Accessory dwelling units in the Big Sur Coastal Planning Area shall not exceed 1,000 square feet. Rental of an entire accessory dwelling unit, a junior accessory dwelling unit or portion of an accessory dwelling unit or a junior accessory dwelling unit for less than 90 days shall be prohibited.

4. Subsection c (1) of section 1 of Table 1 of Section 5.3.3 is repealed.

5. Subsection e) and subsection f) of subsection 1 of subsection I of Section 5.4.3 are added to read as follows:

e) Allow existing guesthouse units to be converted to accessory dwelling units and junior accessory dwelling units for long term housing.
f) Allow new accessory dwelling units and junior accessory dwelling units to be permitted for long term housing.

6. Subsection c of subsection 2 of subsection I of Section 5.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. Subdivision shall not be permitted to divide a principal residence from an accessory dwelling unit.

Amendments to North County Land Use Plan

1. Subsection c) of subsection 2 of subsection *Low and Moderate Income Housing* of subsection D of Section 4.3.6 is added to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit. All such units shall not be considered as part of the residential buildout allowed by this plan.

This ordinance amends the County's zoning regulations for accessory and junior dwelling units in the unincorporated coastal zone of Monterey County. The ordinance updates Section 20.64.030 and other sections of Title 20 of the Monterey County Code to conform to recently enacted state law concerning accessory and junior accessor dwelling units, as well as amending Part 6 of the Monterey County Coastal Implementation Plan to add a new Appendix 15 concerning accessory dwelling unit parking. Such changes include provisions allowed under California Government Code sections 66314 and 66333, including, but not limited to, restrictions on zoning locations, objective standards on parking, height, setback, landscape, and rental restrictions. This ordinance will require certification by the California Coastal Commission because this ordinance would amend the County of Monterey's certified Coastal Implementation Plan.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 16. Section 20.64.030 of the Monterey County Code is hereby repealed and replaced in its entirety to read as follows:

20.64.030 - Regulations for Accessory Dwelling Units and Junior Accessory Dwelling Units.

A. Purpose: The purpose of this Section is to establish the regulations, standards and circumstances under which Accessory Dwelling Units also known as ADUs, and Junior Accessory Dwelling Units also known as JADUs may be allowed and to establish a means for creating additional affordable housing in Monterey County.

B. Definitions: Unless otherwise expressly stated, whenever used in this Section, the following terms shall have the meanings set forth below:

1. "Efficiency Kitchen" means a kitchen that includes each of the following: (a) a cooking facility with appliances; (b) a food preparation counter; and (c) food storage cabinets that are of reasonable size in relation to the size of the dwelling unit.

2. "High-quality transit corridor" means a corridor with fixed route bus service with service intervals no longer than 15 minutes during peak commute hours.

3. "Major transit stop" means a site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

4. "Housing Organization" means a trade or industry group whose local members are primarily engaged in the construction or management of housing units or a nonprofit organization whose mission includes providing or advocating for increased access to housing for low-income households and have filed written or oral comments with the local agency prior to action on the housing development project.

C. Applicability:

1. This Section is applicable in all zoning districts which allow Single Family or Multiple Family Dwellings or both Single and Multiple Family Dwellings, subject to the requirements of this Section, as follows:

a. High Density Residential (HDR(CZ))

b. Medium Density Residential (MDR(CZ))
c. Low Density Residential (LDR(CZ))
d. Rural Density Residential (RDR(CZ))
e. Watershed and Scenic Conservation (WSC(CZ))
f. Coastal General Commercial (CGC(CZ))
g. Moss Landing Commercial (MLC(CZ))
h. Visitor-Serving Commercial (VSC(CZ))
i. Coastal Agricultural Preserve (CAP(CZ))
j. Agricultural Conservation (AC(CZ))

2. County plans and regulations to limit residential growth, including unit caps, do not apply to ADUs and JADUs.

3. Units previously permitted in the HDR, MDR, LDR, and WSC zoning districts in the North County, Del Monte Forest, and Carmel Area Land Use Plan areas as a "Senior Citizen" unit or a "Caretaker" unit prior to the adoption of these regulations shall be considered an ADU for the purposes of this Section.

4. Units previously permitted by the County as a "Guesthouse" may be converted to an ADU or JADU subject to this Section.

D. Regulations for ADUs and JADUs:

1. All ADUs and JADUs that will connect to a private sewage disposal system or that will obtain their water supply from a private well and/or a water system with two to 199 service connections are subject to review and approval by the County's Environmental Health Bureau to ensure adequate sewage disposal facilities and adequate water supply exist or have been demonstrated feasible to construct to serve the unit. The Director of Environmental Health shall evaluate adequacy of water quality and quantity for ADUs and evaluate adequacy of water quality for JADUs. If either adequate sewage disposal facilities or adequate water supply is not available, an ADU or JADU shall be prohibited.

2. An ADU or JADU may be separately rented, provided such rental is for 31 consecutive calendar days or longer. Rental of an ADU, a JADU, or a portion of an ADU or JADU for 30 consecutive calendar days or fewer is prohibited.

3. ADUs and JADUs shall require a design approval when zoning district is combined with a "D" district. The appropriate authority to take action on design approvals will be the Chief of Planning. Such Design approval decisions are not appealable.

4. For the Protection of Groundwater Resources in the North County Land Use Plan Area, when an ADU or JADU is proposed, water efficiency and conservation standards must be implemented. Before any building permit may be issued for such new construction, the applicant

shall submit documentation for review and approval by the Chief of Building Services to demonstrate conformity with the following water efficiency and conservation measures:

a. All structures on that lot must incorporate the following water efficiency and conservation standards:

i. Toilets with a maximum tank size or flush capacity of 1.28 gallons;

ii. Shower heads with a maximum flow capacity of 1.8 gallons per minute;

iii. Bathroom faucets with a maximum flow capacity of 1.2 gallons per minute;

iv. All cloth washers and dish washers shall be Energy Star certified; and

v. Kitchen faucets with a maximum flow capacity of 1.8 gallons per minute shall be installed.

b. Proposed and existing landscaping must consist of either of the following: open space, native vegetative areas, use of drought tolerant native and/or non-invasive landscape plants with preferences given to native plants, and/or pervious or non-pervious hardscapes that do not require a permanent irrigation system. Pervious hardscapes shall be preferred over non-pervious options where feasible. Proposed or existing subsistence gardens such as family gardens, community gardens, or fruit/nut trees must employ water efficiency measures as drip irrigation to the greatest extent feasible.

c. Additional water conservation measures may include one or more of the following, as applicable:

i. Installation of a rainwater catchment system in compliance with Chapter 18.05 of this Code; or

ii. Installation of a greywater system in compliance with Chapter 18.05 of this Code.

1. Limitation on the number of ADUs:

a. A legal lot with an existing or proposed single-family dwelling is limited to one ADU, regardless of the number of single-family dwellings allowed on that lot.

b. A legal lot with an existing multiple family dwelling is allowed at least one ADU within the multiple family dwelling and be allowed up 25 percent of the existing multiple family dwelling units. However, any ADU within a multiple family dwelling must be created by conversion of existing non-livable space including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages.

c. A legal lot with an existing or proposed multiple family dwelling is allowed up to two detached ADUs.

2. Height Limitations:

a. An ADU attached to the main structure shall be subject to the height regulations of the zoning district for the main structure.

b. An ADU detached from the main structure shall be allowed to be up to 16 feet in height on a legal lot with an existing or proposed single-family dwelling, and be allowed up to 18 feet in height if there is an existing or proposed multiple family dwelling. Additional height allowances may be allowed for detached ADUs as follows:

i. If a lot that is within one-half mile walking distance of a major transit stop or high-quality transit corridor, ADUs shall be allowed up to 18 feet in height. For such lots, an additional two feet in height (up to 20 feet) shall be allowed to accommodate a roof pitch on the ADU that is aligned with the roof pitch of the main structure.

ii. Regardless of whether a lot is within one-half mile walking distance of a major transit stop or high-quality transit corridor, increases in height for detached ADUs may be considered with a Coastal Development Permit (ZA) when intended to provide for architectural consistency and compatibility with the main structure.

3. Setbacks:

a. Newly constructed ADUs shall comply with the front setback requirements of the applicable zoning district and shall have a four foot minimum side and rear setbacks.

b. No setback shall be required for ADUs created by converting existing structures to ADUs. c. ADUs created through conversion of space in an existing main structure shall not be allowed to exceed 50 percent of the total square footage of the existing main structure.

5. Parking Requirements:

a. On lots within the designated areas shown in the Monterey County Coastal Implementation Plan, Appendix 15, "ADU Parking Required," at least one off-street parking space shall be required for each ADU, and all other off-street parking requirements for other uses onsite shall be met.

b. On lots that are not within the designated areas shown in Monterey County Coastal Implementation Plan, Appendix 15, "ADU Parking Required," no off-street parking spaces shall be required for each ADU, and no replacement parking spaces will be required if a garage, carport, or other covered parking structure is converted or removed to accommodate an ADU.

6. ADUs shall comply with building site coverage and the floor area ratio requirements of the applicable zoning district, and the setback requirements set forth in this Section, except where they would preclude the following:

a. Establishment of a newly constructed ADU of up to 800 square feet with four foot side and rear yard setbacks.

b. Expansion of an existing accessory structure of not more than 150 square feet for the purpose of accommodating ingress and egress.

7. An attached ADU shall not have internal circulation with the main structure.

8. The County may issue a building permit for an ADU prior to issuance of building permit for the primary dwelling.

9. An ADU shall comply with all local building code requirements that apply to detached dwellings, provided, however, that County may approve a delay in enforcement of building standards in accordance with the parameters and procedures set forth in Health and Safety Code section 17980.12, as may be periodically amended, if compliance with the building standard is not necessary to protect health and safety.

10. ADUs are prohibited in the Big Sur Critical Viewshed as they would be inconsistent with the Scenic Resources policies of the Big Sur Coast Land Use Plan and due to their impact on traffic flow and safety.

11. An ADU shall not be sold or otherwise conveyed separate from the primary dwelling unless it meets the criteria of Government Code section 66341, including all the following:

a. The ADU or the primary dwelling was built or developed by a qualified nonprofit corporation.

b. There is an enforceable restriction on the use of the land pursuant to a recorded contract between the qualified buyer and the qualified nonprofit corporation.

d. A grant deed naming the grantor, grantee, and describing the property interests being transferred shall be recorded in Monterey County. A Preliminary Change of Ownership Report shall be filed concurrently with this grant deed.

e. If requested by a utility providing service to the primary residence, the ADU has a separate water, sewer, or electrical connection to that utility.

F. Regulations for JADUs:

1. Limitation on the number of JADUs: A legal lot with an existing or proposed single-family dwelling is limited to one JADU, regardless of the number of single-family dwellings allowed on that lot.

2. Height Limitations: JADUs shall be subject to the height regulations of the applicable zoning district for the main structure.

3. Setbacks: JADUs shall comply with the setback requirements of the applicable zoning district for the main structure.

7. JADUs shall have a separate entrance from the main structure.

8. JADUs shall include an interior entry into the main structure if it will share a bathroom with the main structure.

9. Prior to the issuance of building permits for a JADU, the owner shall record a deed restriction which shall run with the land and include both of the following:

a. A prohibition on the sale of the JADU separate from the sale of the single-family residence, including a statement that the deed restriction may be enforced against future purchasers.

b. A restriction on the size and attributes of the JADU that conforms with this Section.

10. The owner must reside in either the remaining portion of the structure or the newly created JADU, unless the owner is another governmental agency, land trust, or housing organization.

11. JADUs may share a bathroom and central systems (such as heating, ventilation, air conditioning, water service, power service, wastewater service) with the main structure.

G. Requirement for Coastal Administrative Permit for ADUs and JADUs:

1. ADUs and JADUs may be exempt from a Coastal Administrative Permit or a Coastal Development Permit, if the ADU or JADU is directly attached to an existing residence or is fully within an existing residence, and does not fall under any of the locational exceptions of California Code of Regulations, Title 14, Section 13250, as may be amended.

2. An application for a Coastal Administrative Permit for an ADU or JADU shall be processed in accordance with the requirements of Chapter 20.76 of this Code, except that no public hearing shall be required for Coastal Administrative Permit, and applications shall be processed within 60 calendar days after receiving a completed application. Appeals to Coastal Administrative Permits pursuant to this Section shall be processed pursuant to Chapter 20.86 of this Code.

3. A Coastal Development Permit may be required in addition to a Coastal Administrative Permit if the project includes components that require a Coastal Development Permit pursuant to other requirements of this Code in addition to the ADU and JADU. This Section does not affect the requirements or process for such permits.

SECTION 17. Subsection E of Section 20.64.180 of the Monterey County Code is amended as follows:

SECTION 18: Subsection G of Section 20.64.180 of the Monterey County Code is amended to read as follows:

G. Buildout Limitations:

1. In North County, a total of two thousand forty-three (2,043) new lots or units may be created from the date of certification of the North County Land Use Plan. Accessory Dwelling units and Junior Accessory Dwelling units do not count towards this number. Also see build-out explanation and further information in Section 20.144.140.B.3.a. Approval of new residential units and lots may not exceed the build-out figure, as per the development standard.

Findings for approval shall include the following: "This is the ( ) out of a maximum of ( ) (e.g., residential lots) to be approved for the ( ) Land Use Plan Area."

SECTION 19. Subsection A of Section 20.70.120 of the Monterey County Code is amended as follows:

The maintenance, alteration, or addition to existing single-family dwellings, including the establishment or expansion of accessory structures not exceeding one thousand (1,000) square feet and normally associated with residential uses such as garages, decks, workshops, and storage buildings; however, the following classes of development shall require a permit because they involve a risk of adverse environmental impact:

1. Improvements to a single-family structure on a beach, wetland or seaward of the mean high tide line, in an environmentally sensitive habitat area, in an area designated as highly scenic in a certified land use plan, or within fifty (50) feet of a coastal bluff edge.

Before the Board of Supervisors in and for the County of Monterey, State of California

Resolution No.

Resolution of the Monterey County Board of Supervisors to amend the Big Sur Coast, Carmel Area, and North County Land Use Plans of the Monterey County Local Coastal Program to update policies and regulations for Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs).	)))))))

An amendment to the Big Sur Coast, Carmel Area, and North County Land Use Plans came on for public hearing before the Monterey County Board of Supervisors on **November 18, 2025**. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Monterey County Board of Supervisors hereby finds and decides as follows:

I. RECITALS

1. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its residents.

2. Section 30500 of the Public Resources Code requires each county and city to prepare a Local Coastal Program for that portion of the coastal zone within its jurisdiction, and the County has a certified Local Coastal Program, which contains four Land Use Plans, the Monterey County Coastal Implementation Plan, and additional appendices.

3. Accessory Dwelling Units ("ADUs") and Junior Accessory Dwelling Units ("JADUs") have the potential to increase the stock of affordable housing in Monterey County by creating a wider range of smaller and lower cost housing options within unincorporated communities.

4. Per amendments to Government Code sections 66310 through 66342 adopted by the state legislature, the County desires to amend its existing regulations pertaining to ADUs and enact regulations related to JADUs to conform to all state law requirements.

5. The proposed LCP amendments eliminate outdated requirements for ADU and JADU development in coastal unincorporated areas and incorporate new policies to encourage long-term housing opportunities while protecting coastal resources, consistent with the Coastal Act.

6. The Monterey County Local Coastal Program ("LCP") includes four Land Use Plans: the North County Land Use Plan, Big Sur Coast Land Use Plan, Carmel Area Land Use Plan, and Del Monte Forest Land Use Plan. Three of the four Land Use Plans are amended as described in Exhibit 1. The amendments update policy language to reflect current State Planning and Zoning Law regarding ADUs and JADUs, including adding language to encourage the use of ADUs and JADUs as an appropriate means of providing affordable and workforce housing. The amendments also add area-specific policies such as establishing a 1,000-square-foot maximum size and a 90-day minimum rental duration for ADUs in the Big Sur Coast Land Use Plan; removing the 40-acre minimum lot size and

preference for attached ADUs in the Carmel Area Land Use Plan; and adding ADUs and JADUs as allowed uses in the North County Land Use Plan. These amendments are necessary to ensure consistency between the Land Use Plans and allow for the implementation of proposed amendments to the Coastal Implementation Plans as part of a separate ordinance.

7. Pursuant to Public Resources Code sections 30000 *et seq*., and Title 20 of the Monterey County Code, the County may amend the certified Local Coastal Program, provided the County follows certain procedures. The procedures include: the County's Planning Commission hold a noticed public hearing and make a recommendation to the Board of Supervisors; the Board of Supervisors hold a noticed public hearing, adopt a resolution of intent, and submit the proposed amendment to the California Coastal Commission for certification together with materials sufficient for a thorough and complete review; the Board of Supervisors take subsequent final action on the ordinance and/or resolution after the Coastal Commission acts; and the Coastal Commission confirm the County's action. The procedures have been followed for the proposed amendment to the Local Coastal Program and upon confirmation by the Coastal Commission the amendment will take effect.

8. On August 14, 2024, the Monterey County Planning Commission conducted a duly noticed public hearing to continue the hearing regarding the proposed ADU and JADU regulation updates to a date certain of September 25, 2024. At least 10 days before the first public hearing date, notices of the hearing before the Planning Commission were published in the Monterey County Weekly.

9. On September 25, 2024, the Monterey County Planning Commission conducted a duly noticed public hearing to consider and make recommendation to the Board of Supervisors regarding the proposed ADU and JADU regulation updates. At least 10 days before the first public hearing date, notices of the hearing before the Planning Commission were published in the Monterey County Weekly. The planning commission recommend a continuance of the hearing to a date certain of November 13, 2024.

10. On November 13, 2024, the Planning Commission held a public hearing and unanimously recommended that the Board of Supervisors adopt a resolution of intent to amend the Local Coastal Program to update policies and regulations for ADUs and JADUs.

11. On February 4, 2025, the Board of Supervisors adopted Resolution No. 25-016, a Resolution of Intent to amend the Local Coastal Program to update policies and regulations for ADUs and JADUs, including the Big Sur Coast, Carmel Area, and North County Land Use Plans, and the Coastal Implementation Plan (Part 1 and Part 6). Following adoption, the County transmitted the proposed amendments to the California Coastal Commission subject to Coastal Commission procedures. At least 10 days before the first public hearing date, notices of the hearing before the Board of Supervisors were published in the Monterey County Weekly.

12. On October 10, 2025, the California Coastal Commission approved and certified the Monterey County Local Coastal Program Amendment LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units) as submitted by the County.

13. Pursuant to state regulations and pursuant to Appendix 13 of the Monterey County Local Coastal Program, in order for the LCP amendments to take effect, the Board must acknowledge receipt of the Coastal Commission certification of the amendments, formally

adopt the certified amendments, and transmit the amendments back to the California Coastal Commission for confirmation.

14. This amendment is intended to be carried out in a manner fully in conformity with the California Coastal Act.

15. The proposed amended Land Use Plan texts of the Certified Monterey County Local Costal Program, in both redline and clean format, are attached hereto as Exhibit 1, and incorporated herein by reference.

16. This amendment is statutorily exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15265, which exempts local government activities and approvals involving the preparation and adoption of LCP amendments.

17. On November 18, 2025, the Board of Supervisors held a duly noticed public hearing to consider the proposed amendments to the LCP. At least 10 days before the hearing date, a notice of the hearing before the Board of Supervisors was published in the Monterey County Weekly.

II. DECISION

NOW, THEREFORE, BASED ON ALL OF THE ABOVE FINDINGS, BE IT RESOLVED, that the Board of Supervisors does hereby:

a. Amend the text to the Big Sur Coast, Carmel Area and North County Land Use Plans as certified by the California Coastal Commission to update policies and regulations for Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs).

DRAFT AMENDMENTS TO CARMEL AREA, BIG SUR COAST AND NORTH COUNTY LAND USE PLANS

(Proposed amendments shown in strikethrough and underline)

Amendments to Carmel Area Land Use Plan

1. Subsection c) is added to subsection 2 of subsection H of section 4.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. ~~It is preferred that these accommodations be attached to the principal residence. Detached accessory dwelling units shall not exceed 1,200 square feet in size and shall be limited to parcels of 40 acres or greater.~~ Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit. ~~Additional employee housing is permitted for priority uses (i.e. ranching) in one dormitory/bunkhouse or in temporary structures (i.e. mobile homes) consistent with all other plan policies. Only one accessory dwelling unit shall be allowed on a parcel.~~

Amendments to Big Sur Coast Land Use Plan

1. The first paragraph of subsection 2 of section 5.3.1, is amended to read as follows:

Protection of watersheds, streams, plant communities, and scenic values is the primary objective. Principal uses in this category include agriculture/grazing and supporting ranch houses and related ranch buildings. Recreational facilities permitted in the Outdoor Recreation category including rustic inn or lodging units, hostels; forestry, mineral extraction, aquaculture and related facilities; and accessory dwelling units, junior accessory dwelling units, rural residential and employee housing associated with any of these uses are secondary, conditional uses that will be considered on their individual merits. Where on-site dining facilities are allowed for the inn units, they must be limited to that which is needed to serve on-premises overnight guests.

2. Subsection 6 of section 5.3.1, is amended to read as follows:

Rural residences are considered a principal use on vacant parcels where applicable resource protection policies can be met. Secondary uses appurtenant to rural residences include accessory dwelling units, junior accessory dwelling units, garages, work or storage sheds,

and art or craft studios. Accessory dwelling units and junior accessory dwelling units are allowed in this land use category for the purpose of creating long term housing.

3. Section 5.3.3 is amended to read as follows:

The plan permits development on existing vacant or partially developed parcels based on conformance to the standards of the plan. It is estimated that there are 800 such parcels and that approximately 100 new parcels could be created through subdivision. The plan also permits ~~up to 50~~ accessory dwelling units and junior accessory dwelling units. Expansion of lodging facilities in the Big Sur Valley, Lucia, Pacific Valley and Gorda is possible to some extent. Up to 50 hostel units can be constructed. Employee housing may also be constructed to serve commercial visitor-serving facilities and State and Forest Service facilities. The inn unit density standards are expected to hold inn development to less than 300 new units.

The policies that follow establish a slope density formula as the determinant of potential residential development. A conversion factor is available in the Watershed and Scenic Conservation land use designation that permits potential residential units to be developed as inn units at the rate of two inn units per residence (up to a maximum of 8 per parcel), thereby establishing potential buildout for this major land use category.

Consequently, long range development of the coast will depend upon the choices made by landowners over time. A strong response to demand for visitor facilities will result in a reduction in residential construction potential. For example, if 100 additional residential units are ultimately approved for development in the Watershed and Scenic Conservation area, this could result in 100 residences. It could also result in 50 residences and 100 inn units, or no residences and 200 inn units, etc. While this is only illustrative, it shows the relationship of visitor-serving facilities and residential development based on the conversion factor. An important condition of the plan is that property can be devoted to either residential or visitor-serving overnight accommodations, or a combination of both, but that density credit cannot be applied for both uses from the same acreage.

The plan is flexible concerning the siting of new development, allowing a range of land use proposals to be made at any particular location. Yet the plan's resource protection standards, and slope and road requirements, are stringent, ultimately causing new development to be sited on the most physically suitable locations and limiting buildout to a level that can be accommodated on those sites that can meet all of the plan's requirements.

Table 1 summarizes the major categories of development according to the locations at which the use could take place and provides standards to guide the density at which campgrounds can be clustered on the site. No limitation is established in the plan for the number of campsites that could be developed.

Accessory dwelling units, consistent with State law, are allowed but must comply with all the resource protection provisions, including but not limited to the Critical Viewshed Policy of this LUP. Accessory dwelling units in the Big Sur Coastal Planning Area shall not exceed 1,000 square feet. Rental of an entire accessory dwelling unit or portion of an accessory dwelling unit for less than 90 days shall be prohibited.

4. Subsection c (1) of section 1 of Table 1 is repealed.

5. Subsection e) and subsection f) of subsection 1 of subsection I of section 5.4.3 are added to read as follows:

e) Allow existing guesthouse units to be converted to accessory dwelling units and junior accessory dwelling units for long term housing.

f) Allow new accessory dwelling units and junior accessory dwelling units to be permitted for long term housing.

6. Subsection c of subsection 2 of subsection I of section 5.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. ~~Detached accessory dwelling units shall not exceed 1,200 square feet in size.~~ Subdivision shall not be permitted to divide a principal residence from an accessory dwelling unit~~s~~. ~~Only one accessory dwelling unit shall be allowed on the parcel. All such units shall be considered as a part of the residential buildout allowed by this plan.~~

~~A total of 50 such units may be allowed in the area of the Big Sur Land Use Plan.~~

Amendments to North County Land Use Plan

1. Subsection c) of subsection 2 of subsection *Low and Moderate Income Housing* of subsection D of section 4.3.6 is added to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit. All such units shall not be considered as part of the residential buildout allowed by this plan.

DRAFT AMENDMENTS TO CARMEL AREA, BIG SUR COAST AND NORTH COUNTY LAND USE PLANS

Amendments to Carmel Area Land Use Plan

1. Subsection c) is added to subsection 2 of subsection H of Section 4.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit.

Amendments to Big Sur Coast Land Use Plan

1. The first paragraph of subsection 2 of Section 5.3.1, is amended to read as follows:

Protection of watersheds, streams, plant communities, and scenic values is the primary objective. Principal uses in this category include agriculture/grazing and supporting ranch houses and related ranch buildings. Recreational facilities permitted in the Outdoor Recreation category including rustic inn or lodging units, hostels; forestry, mineral extraction, aquaculture and related facilities; and accessory dwelling units, junior accessory dwelling units, rural residential and employee housing associated with any of these uses are secondary, conditional uses that will be considered on their individual merits. Where on-site dining facilities are allowed for the inn units, they must be limited to that which is needed to serve on-premises overnight guests.

2. Subsection 6 of Section 5.3.1, is amended to read as follows:

Rural residences are considered a principal use on vacant parcels where applicable resource protection policies can be met. Secondary uses appurtenant to rural residences include accessory dwelling units, junior accessory dwelling units, garages, work or storage sheds, and art or craft studios. Accessory dwelling units and junior accessory dwelling units are allowed in this land use category for the purpose of creating long term housing.

3. Section 5.3.3 is amended to read as follows:

The plan permits development on existing vacant or partially developed parcels based on conformance to the standards of the plan. It is estimated that there are 800 such parcels and that approximately 100 new parcels could be created through subdivision. The plan also permits accessory dwelling units and junior accessory dwelling units. Expansion of lodging

facilities in the Big Sur Valley, Lucia, Pacific Valley and Gorda is possible to some extent. Up to 50 hostel units can be constructed. Employee housing may also be constructed to serve commercial visitor-serving facilities and State and Forest Service facilities. The inn unit density standards are expected to hold inn development to less than 300 new units.

The policies that follow establish a slope density formula as the determinant of potential residential development. A conversion factor is available in the Watershed and Scenic Conservation land use designation that permits potential residential units to be developed as inn units at the rate of two inn units per residence (up to a maximum of 8 per parcel), thereby establishing potential buildout for this major land use category.

Consequently, long range development of the coast will depend upon the choices made by landowners over time. A strong response to demand for visitor facilities will result in a reduction in residential construction potential. For example, if 100 additional residential units are ultimately approved for development in the Watershed and Scenic Conservation area, this could result in 100 residences. It could also result in 50 residences and 100 inn units, or no residences and 200 inn units, etc. While this is only illustrative, it shows the relationship of visitor-serving facilities and residential development based on the conversion factor. An important condition of the plan is that property can be devoted to either residential or visitor-serving overnight accommodations, or a combination of both, but that density credit cannot be applied for both uses from the same acreage.

The plan is flexible concerning the siting of new development, allowing a range of land use proposals to be made at any particular location. Yet the plan's resource protection standards, and slope and road requirements, are stringent, ultimately causing new development to be sited on the most physically suitable locations and limiting buildout to a level that can be accommodated on those sites that can meet all of the plan's requirements.

Table 1 summarizes the major categories of development according to the locations at which the use could take place and provides standards to guide the density at which campgrounds can be clustered on the site. Accessory dwelling units, consistent with State law, are allowed but must comply with all the resource protection provisions, including but not limited to the Critical Viewshed Policy of this LUP. Accessory dwelling units in the Big Sur Coastal Planning Area shall not exceed 1,000 square feet. Rental of an entire accessory dwelling unit or portion of an accessory dwelling unit for less than 90 days shall be prohibited.

4. Subsection c (1) of section 1 of Table 1 is repealed.

5. Subsection e) and subsection f) of subsection 1 of subsection I of Section 5.4.3 are added to read as follows:

e) Allow existing guesthouse units to be converted to accessory dwelling units and junior accessory dwelling units for long term housing.

f) Allow new accessory dwelling units and junior accessory dwelling units to be permitted for long term housing.

6. Subsection c of subsection 2 of subsection I of Section 5.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. Subdivision shall not be permitted to divide a principal residence from an accessory dwelling unit.

Amendments to North County Land Use Plan

Subject: **Monterey County LCP Amendment Number LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units)**

SUMMARY OF STAFF RECOMMENDATION

Monterey County proposes an update of its existing ADU regulations for compliance with recent State ADU law changes. The existing LCP allows ADUs, but restricts them in various ways, including through blanket prohibitions in certain communities (e.g., in the entire North County area), through large lot requirements (e.g., only permissible for lots 40 acres or larger in the unincorporated Carmel area), and through numeric caps (i.e., a 50-unit cap in Big Sur). This area-specific approach is, in part, due to bona fide resource constraints (e.g., water supply concerns in North County and wastewater concerns in Carmel). It is also a vestige of a prior paradigm when ADUs were not seen as the type of development that should be encouraged, unlike today, where they are generally recognized as a relatively benign small housing type incidental to existing residences. Thus, the County developed the proposed ADU update to largely eliminate these restrictions and to rely on the existing LCP's coastal resource protection framework to ensure that needed housing opportunities are developed in an environmentally responsible way.

The proposed amendment would expand where ADUs are allowed to include all zones that currently allow for single-family residences. Minimum parcel size requirements would be eliminated and ADUs would be allowed in North County, unincorporated Carmel, and Big Sur without numeric limitation. In conjunction with these relaxed allowances that make ADUs potentially permissible land uses in areas where they currently are not, the amendment would require ADUs to meet all applicable LCP coastal resource requirements. These requirements include prohibitions in sensitive habitats (such as wetlands, streams, ESHA, and their corresponding buffers), conformance with LCP provisions protecting agriculturally productive soils and furthering the agricultural economy, prohibitions on visibility in Big Sur's critical viewshed, and required evidence of adequate water and wastewater (including through septic upgrades, as confirmed by the review of the County's Department of Environmental Health). The amendment also includes some area-specific ADU

requirements, including size and length of tenancy requirements in Big Sur to encourage longer-term housing available for workers, and water efficiency requirements in North County to reduce impacts on groundwater supplies. As explained in the remainder of this report in more detail, while the amendment raises questions as to how best address complex coastal resource and housing concerns in a coastal zone as large and varied as unincorporated Monterey County, staff believes the County's proposal adequately balances these issues. The end result is a robust ADU program that should provide for critically needed housing in a manner protective of the region's extraordinary resource values.

Staff has worked with County staff over several years on this amendment, and appreciates the County's collaboration. Staff recommends that the Commission determine that the proposed LUP portion of the amendment is in conformance with the Coastal Act, and that the proposed IP portion of the amendment is consistent with and adequate to carry out the LUP as amended, and that the Commission approve the proposed LCP amendment as submitted. The required motions and resolutions to effectuate staff's recommendation is found on page 4 of this report below.

Staff Note: LCP Amendment Action Deadline
This proposed LCP amendment was filed as complete on September 10, 2025. The proposed amendment affects the LCP's LUP and IP, and the 90-working-day action deadline is January 22, 2026. Thus, unless the Commission extends the action deadline (it may be extended by up to one year), the Commission has until January 22, 2026 to take a final action on this LCP amendment.

Therefore, if the Commission fails to take a final action in this case (e.g., if the Commission instead chooses to postpone/continue LCP amendment consideration), then staff recommends that, as part of such non-final action, the Commission extend the deadline for final Commission action on the proposed amendment by one year. To do so, staff recommends a YES vote on the motion below. Passage of the motion will result in a new deadline for final Commission action on the proposed LCP amendment. The motion passes only by an affirmative vote of a majority of the Commissioners present.

> ***Alternate Time Extension Motion:*** *I move that the Commission extend the time limit to act on County of Monterey Local Coastal Program Amendment Number LCP-3-MCO-25-0034-1-Part A to January 22, 2027, and I recommend a yes vote.*

1. MOTIONS AND RESOLUTIONS

Staff recommends that the Commission, after public hearing, certify the proposed LCP amendment as submitted. Because there are both LUP and IP portions of the proposed amendment, and because they require individual actions in each case, the Commission needs to make two motions in order to act on this recommendation

A. Certify the LUP Amendment as submitted

Staff recommends a **YES** vote on the motion below. Passage of this motion will result in certification of the Land Use Plan portion of the amendment as submitted and adoption of the following resolution and findings. The motion passes only by an affirmative vote of a majority of the appointed Commissioners.

> ***Motion to Certify:*** *I move that the Commission certify Land Use Plan Amendment LCP-3-MCO-25-0034-1-Part A as submitted by Monterey County, and I recommend a* ***yes*** *vote.*
>
> ***Resolution to Certify:*** *The Commission hereby certifies Land Use Plan Amendment LCP-3-MCO-25-0034-1-Part A for Monterey County and adopts the findings set forth below on the grounds that the amendment conforms with the policies of Chapter 3 of the Coastal Act. Certification of the amendment complies with the California Environmental Quality Act because either 1) feasible mitigation measures and/or alternatives have been incorporated to substantially lessen any significant adverse effects of the amendment on the environment, or 2) there are no further feasible alternatives or mitigation measures which could substantially lessen any significant adverse impact which the amendment may have on the environment.*

B. Certify the IP Amendment as submitted

Staff recommends a **NO** vote on the motion below. Failure of this motion will result in certification of the Implementation Plan portion of the amendment as submitted and the adoption of the following resolution and findings. The motion passes only by an affirmative vote of a majority of the Commissioners present.

> ***Motion to Certify:*** *I move that the Commission reject Implementation Plan Amendment LCP-MCO-25-0034-1-Part A as submitted by Monterey County, and I recommend a* ***no*** *vote.*
>
> ***Resolution to Certify:*** *The Commission hereby certifies Implementation Plan Amendment LCP-MCO-25-0034-1-Part A for Monterey County and adopts the findings set forth below on the grounds that the amended Implementation Plan conforms with, and is adequate to carry out, the provisions of the certified Land Use Plan. Certification of the amended Implementation Plan complies with the California Environmental Quality Act, because either 1) feasible mitigation measures and/or alternatives have been incorporated to substantially lessen any significant adverse effects of the amended Implementation Plan on the environment, or 2) there are no further feasible alternatives and mitigation*

measures that would substantially lessen any significant adverse impacts on the environment.

2. FINDINGS AND DECLARATIONS

A. LCP Amendment Background

Monterey County's coastal zone stretches from the Pajaro River at its northern border with Santa Cruz County to near Ragged Point in southern Big Sur at the San Luis Obispo County line to the south. Given this vast area with distinct geographical characteristics and development patterns, the Monterey County Local Coastal Program (LCP) is broken out into four separate area plans, one each for North County, Del Monte Forest, Carmel Area, and the Big Sur Coast (see **Exhibit 1**). Each area has its own LCP Land Use Plan (LUP) and Implementation Plan (IP), and those LUPs/IPs, along with an overarching IP zoning code (Title 20) that applies to all areas, constitute the certified LCP.

The Commission has approved multiple Monterey County LCP amendments in the last 15 years to respond to changes in State-mandated housing law, including as related to accessory dwelling units (ADUs) and junior ADUs (JADUs).[1] Most recently, the County began the process of updating the LCP again in 2020 to reflect State law changes and bring the County into conformance with California Government Code Sections 66310 - 66342, which constitute the State's ADU laws. The proposed amendment is designed to bring the County into alignment with current State law, including to streamline review of ADU applications and help provide for much-needed housing in the unincorporated County coastal zone, while also ensuring such housing is built in a manner protective of coastal resources.

B. Proposed LCP Amendment Description

While the previous LCP amendments provided for ADUs in certain portions of the coastal zone and subject to certain requirements, the proposed amendment would revamp these existing provisions via area-specific changes to the North County, Big Sur Coast, and Carmel Area LUPs related to ADUs, and make significant changes to the IP zoning code that governs all four coastal planning areas, including by replacing Section 20.64.030, which currently regulates ADUs. The proposed LUP changes include:

- **North County:** Add language encouraging the use of ADUs and JADUs as an appropriate way to provide more 'naturally occurring affordable housing,' and excluding them from the overall unit count that caps residential development in North County.

- **Carmel Area:** Remove the existing 40-acre minimum parcel size for detached ADUs and remove language limiting parcels to one ADU.

- **Big Sur Coast:** Remove the existing 50-unit ADU cap; allow for ADUs and JADUs on land with Watershed and Scenic Conservation and Rural Residential land use

[1] See Monterey County LCP amendments MCO-1-11 and LCP-3-MCO-15-0022-1, the latter of which was approved by the Commission in 2015 and was the last time the LCP was amended to address ADUs.

designations; reduce allowable ADU size from 1,200 square feet to 1,000 square feet; and require rentals of ADUs and JADUs to terms of 90 days or more.

The bulk of the proposed changes are within the IP. The IP currently prohibits ADUs in the entirety of North County, within native Monterey cypress habitat in the Del Monte Forest, on lots under 40 acres in the unincorporated communities surrounding the City of Carmel-by-the-Sea (including in the Carmel Highlands neighborhood), and on lots with B-8 zoning overlays.[2] The proposed amendment would eliminate these restrictions, as well as the cap of 50 total ADUs in Big Sur. The amendment adds ADUs and JADUs as principally permitted uses in all zoning districts that allow for single-family residences, including all residential and many commercial and agricultural zoning districts.[3] One ADU and one JADU would be allowed per lot with existing or proposed single-family dwellings, with more ADUs allowed on lots with multi-family dwellings.[4] ADUs would be limited to a maximum of 1,200 square feet in all planning areas except for Big Sur and on lots with the B-8 zoning overlay, where they would be limited to a maximum of 1,000 square feet. JADUs would be limited to a maximum of 500 square feet in all cases. Off-street parking would not be required for JADUs and would only be required for ADUs in a small portion of the Carmel Point neighborhood (to protect limited public beach access parking in this area (see **Exhibit 4** for a map). Short-term rental use of JADUs and ADUs would be prohibited, with a required rental term of 31 days or more, except in Big Sur, where the required term would be 90 days or more.

In addition, the current 2-acre minimum parcel size limit for ADUs in Big Sur would be removed, as would the current 2-acre minimum parcel size in all areas for properties not served by a public sewer system. The amendment would also add a new set of water efficiency requirements for ADUs and JADUs in North County. Specifically, the proposed water efficiency requirements include requirements to retrofit all existing water-using fixtures and appliances, and replacement of all irrigated landscaping with drought-tolerant landscaping, on properties with existing development that are proposing ADUs.[5] The amendment specifies that ADUs and JADUs that will be served by onsite wastewater treatment systems and private wells are required to demonstrate that such systems and wells have adequate capacity to serve such units, and must

[2] The B-8 zoning overlay identifies locations with limitations to water supply, water quality, sewage disposal capabilities, traffic impacts or similar measurable public facility type constraints. Most parcels with this overlay are located in the North County Area, with the remainder located in the Del Monte Forest area.

[3] Specifically, High Density Residential (HDR), Medium Density Residential (MDR), Low Density Residential (LDR), Rural Density Residential (RDR), Watershed and Scenic Conservation (WSC), Coastal General Commercial (CGC), Moss Landing Commercial (MLC), Visitor Serving Commercial (VSC), Coastal Agricultural Preserve (CAP), and Agricultural Conservation (AC) zoning districts.

[4] Up to eight detached ADUs would be allowed on lots with an existing multifamily building(s) so long as the number of ADUs does not exceed the number of units. Two detached ADUs would be allowed on lots with proposed new multi-family buildings.

[5] Exceptions are made for subsistence gardens, including family gardens, community gardens, or fruit/nut trees, which may be efficiently irrigated (e.g., drip irrigation).

obtain authorization from the County's Environmental Health Bureau.[6] Finally, the proposed IP changes include various updates and changes to ADU site design standards, including to be consistent with State ADU law, such as maximum height[7] and minimum setback requirements,[8] and other ADU-related rules, including allowing for the separate sale of ADUs under certain circumstances.[9]

Thus, the amendment eliminates many of the existing provisions that restrict ADU development in various parts of the County. Some of these restrictions will be completely eliminated (e.g., the minimum 40-acre parcel size limitation in the Carmel Area, and the complete prohibition on ADUs in North County), and some will be replaced with alternative language and/or reliance on other LCP provisions (e.g., removing the existing ADU prohibition in native Monterey cypress habitat, and instead relying on the specific native Monterey cypress habitat standards that apply to all new development in that area). And the amendment proposes some new ADU-specific requirements, including the above-described water efficiency requirements in North County and ADU-specific height, setback, and size regulations. But in all cases, as both now and as proposed, the rest of the existing LCP would apply. As such, LCP provisions that, for example, do not allow ADUs in sensitive habitats such as ESHA, wetlands, streams, and their required buffers; and that require ADUs to be set back a sufficient distance from coastal bluffs without shoreline armoring, and in a manner that protects significant public views, all will continue to govern ADU development.

With respect to permitting, and consistent with State ADU law, ADUs and JADUs would be subject to a streamlined permitting process, where CDP applications[10] will be processed within 60 days and without a local public hearing (with required appeal processes to the Commission still intact), and certain JADUs and attached ADUs may

[6] The County's Environmental Health Bureau is responsible for ensuring the safety, adequacy and reliability of such wastewater treatment systems and private wells in the County.

[7] Specifically, attached ADUs would be limited to the height allowed for residences in the zoning district, and detached ADUs would be limited to 16 feet (on lots with existing/proposed single-family residences) or 18 feet (on lots with existing/proposed multi-family residences, or any lot within half a mile walking distance of a major transit stop). A height of 20 feet for detached ADUs would be allowable on lots within half a mile walking distance of a transit stop in order to accommodate a roof pitch alignment with the main house. Increases in allowable ADU height could also be considered by the zoning administrator to provide for architectural consistency/compatibility with the main structure.

[8] New ADUs would need to comply with the front setback requirements of the zoning district, and would need four-foot minimum side and rear setbacks (unless they are 800 square feet or smaller). No setbacks would be required for ADUs converting or replacing existing structures with ADUs.

[9] Namely, such separate sale is only allowed if a qualified nonprofit built the ADU and places a number of restrictions on the property, including a principal residence requirement, a repurchase option in favor of the nonprofit, and a 45-year affordability restriction, all of which emanates from similar state ADU law provisions (see Government Code Section 66341).

[10] CDP applications would be processed through the County's Coastal Administrative Permit process, which allows for more expedited processing for principally permitted development of a minor and non-controversial nature, while still requiring findings of LCP consistency and still being appealable to the Commission if it meets the appealability criteria (e.g., located between the first public road and the sea).

be exempt from CDPs altogether (unless they cannot be exempt under the Commission's exemption regulations (for instance, if located in ESHA, within 50 feet of a coastal bluff, etc.)).[11] The amendment also includes proposed changes to the general CDP exemption language in the IP, intended to help bring that language better in line with the Commission's exemption regulations, including by closing potential loopholes that could have been improperly interpreted to allow for the exemption of development in inappropriate locations (e.g., in ESHA).

C. Evaluation of Proposed LCP Amendment

1. Standard of Review

The proposed amendment affects the LCP's LUP and IP. The standard of review for the LUP changes is that they must conform with the requirements of Chapter 3 of the Coastal Act, and the standard of review for the IP changes is that they must be consistent with and adequate to carry out the provisions of the certified LUP, as may be amended.

2. Proposed Land Use Plan Amendment

Applicable Coastal Act Provisions

The Coastal Act includes a series of provisions that are intended to protect, maintain, and enhance the quality of the coastal zone and coastal resources. This includes balancing uses and development in the coastal zone in a way that takes into account the social and economic needs of the state, while at the same time ensuring that coastal resources are protected through all LCP and CDP processes and outcomes. Relevant provisions include:

> ***Section 30231.*** *The biological productivity and the quality of coastal waters, streams, wetlands, estuaries, and lakes appropriate to maintain optimum populations of marine organisms and for the protection of human health shall be maintained and, where feasible, restored through, among other means, minimizing adverse effects of waste water discharges and entrainment, controlling runoff, preventing depletion of ground water supplies and substantial interference with surface waterflow, encouraging waste water reclamation, maintaining natural vegetation buffer areas that protect riparian habitats, and minimizing alteration of natural streams.*
>
> ***Section 30233(a).*** *The diking, filling, or dredging of open coastal waters, wetlands, estuaries, and lakes shall be permitted in accordance with other applicable provisions of this division, where there is no feasible less environmentally damaging alternative, and where feasible mitigation measures have been provided to minimize adverse environmental effects, and shall be limited to the following: (1) New or expanded port, energy, and coastal-dependent industrial facilities, including commercial fishing facilities. (2) Maintaining existing, or restoring previously dredged, depths in existing navigational channels, turning basins, vessel berthing and mooring areas, and boat launching ramps. (3) In open coastal waters, other than wetlands, including*

[11] See Title 14 California Code of Regulations Section 13250.

streams, estuaries, and lakes, new or expanded boating facilities and the placement of structural pilings for public recreational piers that provide public access and recreational opportunities. (4) Incidental public service purposes, including but not limited to, burying cables and pipes or inspection of piers and maintenance of existing intake and outfall lines. (5) Mineral extraction, including sand for restoring beaches, except in environmentally sensitive areas. (6) Restoration purposes. (7) Nature study, aquaculture, or similar resource dependent activities.

Section 30240. *(a) Environmentally sensitive habitat areas shall be protected against any significant disruption of habitat values, and only uses dependent on those resources shall be allowed within those areas. (b) Development in areas adjacent to environmentally sensitive habitat areas and parks and recreation areas shall be sited and designed to prevent impacts which would significantly degrade those areas, and shall be compatible with the continuance of those habitat and recreation areas.*

Section 30241. *The maximum amount of prime agricultural land shall be maintained in agricultural production to assure the protection of the areas' agricultural economy, and conflicts shall be minimized between agricultural and urban land uses through all of the following: (a) By establishing stable boundaries separating urban and rural areas, including, where necessary, clearly defined buffer areas to minimize conflicts between agricultural and urban land uses. (b) By limiting conversions of agricultural lands around the periphery of urban areas to the lands where the viability of existing agricultural use is already severely limited by conflicts with urban uses or where the conversion of the lands would complete a logical and viable neighborhood and contribute to the establishment of a stable limit to urban development. (c) By permitting the conversion of agricultural land surrounded by urban uses where the conversion of the land would be consistent with Section 30250. (d) By developing available lands not suited for agriculture prior to the conversion of agricultural lands. (e) By assuring that public service and facility expansions and nonagricultural development do not impair agricultural viability, either through increased assessment costs or degraded air and water quality. (f) By assuring that all divisions of prime agricultural lands, except those conversions approved pursuant to subdivision (b), and all development adjacent to prime agricultural lands shall not diminish the productivity of such prime agricultural lands*

Section 30242. *All other lands suitable for agricultural use shall not be converted to nonagricultural uses unless (1) continued or renewed agricultural use is not feasible, or (2) such conversion would preserve prime agricultural land or concentrate development consistent with Section 30250. Any such permitted conversion shall be compatible with continued agricultural use on surrounding lands.*

Section 30250(a). *New residential, commercial, or industrial development, except as otherwise provided in this division, shall be located within, contiguous with, or in close proximity to, existing developed areas able to accommodate it or,*

where such areas are not able to accommodate it, in other areas with adequate public services and where it will not have significant adverse effects, either individually or cumulatively, on coastal resources….

Section 30251. *The scenic and visual qualities of coastal areas shall be considered and protected as a resource of public importance. Permitted development shall be sited and designed to protect views to and along the ocean and scenic coastal areas, to minimize the alteration of natural land forms, to be visually compatible with the character of surrounding areas, and, where feasible, to restore and enhance visual quality in visually degraded areas. New development in highly scenic areas such as those designated in the California Coastline Preservation and Recreation Plan prepared by the Department of Parks and Recreation and by local government shall be subordinate to the character of its setting.*

Section 30253. *New development shall do all of the following: (a) Minimize risks to life and property in areas of high geologic, flood, and fire hazard. (b) Assure stability and structural integrity, and neither create nor contribute significantly to erosion, geologic instability, or destruction of the site or surrounding area or in any way require the construction of protective devices that would substantially alter natural landforms along bluffs and cliffs. (c) Be consistent with requirements imposed by an air pollution control district or the State Air Resources Board as to each particular development. (d) Minimize energy consumption and vehicle miles traveled. (e) Where appropriate, protect special communities and neighborhoods that, because of their unique characteristics, are popular visitor destination points for recreational uses.*

Thus, the Coastal Act requires new residential development to be located within, contiguous with, or in close proximity to existing developed areas able to accommodate it in a manner without coastal resource harm. To implement this broad requirement, the Act specifies that, among other things, residential development is not allowed in certain sensitive habitats such as ESHA and wetlands, is not allowed to convert agricultural lands or adversely impact the agricultural economy unless certain findings can be made, is required to generally blend in with the surrounding developed aesthetic and not significantly adversely impact important public views, and be served by adequate water, sewer, and other public services. And near the shoreline, new development must not interfere with the public's right to access the coast, including through prohibitions on shoreline armoring.

While not part of Coastal Act Chapter 3 and thus not technically part of the legal standard of review for this proposed LUP change, other Coastal Act provisions also provide relevant direction regarding this proposed amendment, including encouraging the provision of affordable housing and ensuring environmental justice in the coastal zone. Specifically, the Coastal Act states:

Section 30013. *The Legislature further finds and declares that in order to advance the principles of environmental justice and equality, subdivision (a) of Section 11135 of the Government Code and subdivision (e) of Section 65040.12*

of the Government Code apply to the commission and all public agencies implementing the provisions of this division. As required by Section 11135 of the Government Code, no person in the State of California, on the basis of race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, genetic information, or disability, shall be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination, under any program or activity that is conducted, operated, or administered pursuant to this division, is funded directly by the state for purposes of this division, or receives any financial assistance from the state pursuant to this division.

***Section 30604.** …(f) The commission shall encourage housing opportunities for persons of low and moderate income…(g) The Legislature finds and declares that it is important for the commission to encourage the protection of existing and the provision of new affordable housing opportunities for persons of low and moderate income in the coastal zone. (h) When acting on a coastal development permit, the issuing agency, or the commission on appeal, may consider environmental justice, or the equitable distribution of environmental benefits throughout the state.*

Putting all this together, the Coastal Act promotes housing, particularly affordable and moderate/workforce housing, when such housing is sited and designed in a manner protective of coastal resources.

Consistency Analysis

The Commission is aware that the state has a serious housing crisis, and in particular an affordable housing crisis, where such issues are also felt in the state's coastal zone. To address this critical need, the state legislature has enacted a number of housing laws in the last several years that are designed to eliminate barriers to providing housing and to help foster additional housing units – including critically needed affordable units – where they can be appropriately accommodated by adequate public services and where, in the coastal zone, they will not adversely affect coastal resources. These laws have triggered local governments in the coastal zone to update their LCPs to address such changes. Importantly, the changes to state law continue to explicitly require that the Coastal Act (and by extension LCP) coastal resource protections are not suspended in the construction of ADUs, and thus updated local government ADU provisions must continue to protect coastal resources.[12] In short, the goal of updating LCPs related to ADUs is to harmonize state ADU housing law changes with the Coastal Act in a way that continues to protect coastal resources while also reducing and eliminating barriers to ADUs.

Here, as explained in more detail below, Monterey County has worked to do just that with this proposed LCP amendment, including by making a number of changes requested by the California Department of Housing and Community Development (HCD) after their review of the LCP's existing ADU regulations. As described above, at its core, the proposal requires ADUs to be consistent with the LCP's coastal resource

[12] Put another way, state ADU laws do not supersede the Coastal Act, and are required to be consistent with the Act (see Government Code Section 66329).

protection framework. Put another way, the amendment provides for ADUs as an allowable land use throughout the coastal zone so long as they are found consistent with the LCP's resource protection provisions. Thus, at this broad level, the amendment ensures that ADUs are allowed – an important thing from a state/coastal zone housing perspective – in a manner protective of coastal resources, consistent with the framework described above regarding how state ADU law interplays with the Coastal Act.

That said, a few of the specific coastal resource issues engendered in Monterey County's coastal zone and its LCP require a bit more discussion. These are described below.

North County Area

The proposed changes to the North County LUP include the addition of language encouraging the use of ADUs and JADUs as an appropriate way to provide more naturally occurring affordable housing, and excluding them from the overall unit count that caps residential development overall in North County. While seemingly minor, the addition of language encouraging ADUs and JADUs significantly changes the existing LUP. Due to water supply concerns, which are explained in more detail below, the existing LUP includes no such language encouraging ADUs, and the existing IP actually prohibits them. Indeed, the LUP includes a suite of provisions intended to protect scarce water supply resources and groundwater health, which the Commission has interpreted over the years to prohibit most forms of residential development beyond the first single-family dwelling on an existing legal parcel, including most residential subdivisions, ADUs, and other similar intensifications of residential use.[13] The proposed LUP amendment changes (along with the corresponding proposed IP changes to remove the affirmative ADU ban in North County) introduce language that significantly modifies how those policies relate to ADUs and JADUs (i.e., allowing/encouraging them on all parcels where residential use is allowed notwithstanding water concerns, and exempting them from the buildout caps intended to protect limited groundwater supplies), thus raising the question of whether such a change is consistent with the water supply and agricultural protections of the Coastal Act.

North County is an agricultural area with a large population of farmworkers. The entirety of the area's water supply is sourced from groundwater from critically overdrafted[14] aquifers with generally worsening saltwater intrusion.[15] The vast majority of water use in

[13] See, for example, Commission actions on CDP Extension Request A-3-MCO-04-054-E3 (Sunridge Views Subdivision Extension), CDP application A-3-MCO-05-027 (Rancho Roberto Subdivision), and CDP application A-3-MCO-06-044 (Mayr Subdivision).

[14] 'Critical overdraft' is a formal designation under the Sustainable Groundwater Management Act (SGMA) made by the California Department of Water Resources. As defined by the SGMA, "a basin is subject to critical overdraft when continuation of present water management practices would probably result in significant adverse overdraft-related environmental, social, or economic impacts."

[15] The North County area is located in two subbasins, the Pajaro Valley subbasin (north of Elkhorn Slough) and the 180/400-foot aquifer (south of Elkhorn Slough). Both are designated as critically overdrafted, and both have significant histories of saltwater intrusion. Yearly monitoring continues to show worsening seawater intrusion in the 180/400-foot aquifer. The Pajaro Valley subbasin has fared better in recent years, but has yet to meet sustainability goals.

the North County area (i.e., 80% to 90% or more) is for agricultural production purposes, which is a priority land use under the Coastal Act and LUP. In general, because agriculture is a coastal priority use, where water resources are limited, the Coastal Act prioritizes water for agricultural use over other uses. Indeed, Section 30241(e) specifically prohibits non-agricultural development from impairing agricultural viability through degraded water quality. In the case of North County, because aquifer overdraft is causing saltwater intrusion into aquifers underlying agricultural operations and increasing the salinity of the wells on which they depend (thus compromising water quality), new, non-coastal-priority water-using development – including residential development – that would add to the overdraft issue, is generally inconsistent with Section 30241(e). Such Coastal Act conformance issues, along with conformance with LUP policies that strictly limit the amount of new residential development, served as the basis for the LCP's current prohibition of ADUs in North County.[16] The County's proposal to now allow for ADUs in this area raises core Coastal Act conformance questions.

While an argument can clearly be made that the status quo of no ADUs should be maintained, it is also important to look at the totality of the issue. First, as noted above, agriculture uses the vast majority of water in the region, up to 90 percent or more.[17] As such, the totality of existing residential use has only a marginal relative impact to overall water supply, and the addition of ADUs and JADUs, which are predominately smaller and have fewer bathrooms than typical single-family residences (and therefore use less water), would have similar (and even lesser) marginal relative impacts. Second, a narrow focus on protecting the natural resource inputs needed for the long-term viability of agriculture (available land, soils, water, etc.) would ignore the broader range of factors that coalesce into the viable, sustainable, agricultural economy necessary to continue agricultural production in North County long into the future. To this end, Section 30241 speaks more broadly to "the protection of the area's agricultural economy" as the intent of the specific requirements it imposes.

One of the reasons that North Monterey County is a thriving agricultural production zone is the area's farmworkers. The agricultural economy is dependent on workers, who depend on access to stable and affordable housing; therefore, protecting agriculture in North County implicitly requires that workforce housing be appropriately accommodated. These farmworkers are not only essential to the labor force but are also integral members of the community, contributing to its fabric, culture, and identity. Furthermore, much of the North County area can be considered an environmental justice community, with higher poverty rates, lower household incomes, and a greater percentage of households using food assistance than other areas of the county.[18]

Coastal California Environmental Justice (CCEJ) Mapping Tool, AB1550 Low-Income Communities Map layer

Although North County housing costs are comparatively lower than those in other coastal planning areas in the County, the need for additional housing is significant and acute, particularly for farmworkers and environmental justice communities dependent on them.

The Coastal Act explicitly identifies the need for equity and environmental justice and allows the Commission to consider coastal resource issues and impacts through that lens (see Sections 30013 and 30604(h)). To implement its Coastal Act environmental justice authority, the Commission adopted an Environmental Justice Policy ("EJ Policy") to guide and inform its decisions and procedures in a manner that is consistent with the provisions in, and furthers the goals of, Chapter 3 of the Coastal Act. The EJ Policy includes provisions for housing, stating:

> *The Commission will work with local governments to adopt local coastal program policies that allow for a broad range of housing types including affordable housing, ADUs, transitional/supportive housing, homeless shelters, residential density bonuses, farmworker housing, and workforce/employee housing…*

While the Commission's EJ Policy and Coastal Act Sections 30013 and 30604(h) are not legal standards of review for the proposed changes to the LUP, they provide an important Coastal Act and EJ lens through which to understand the proposed changes. The proposed amendment is precisely the type of LUP policy change that would help address the inequities this community faces with respect to housing, and is consistent with the Commission's EJ guidance in that respect.

Furthermore, the proposed LCP amendment also includes offsetting water savings requirements for any proposed ADU. Specifically, while these requirements are proposed IP provisions and discussed in the next section, the overall LCP takes these potential ADU water supply problems seriously, and requires properties that propose ADUs to institute a series of water savings measures applicable to all development on the property, including the ADU (including water efficiency requirements related to new water-using fixtures and appliances, retrofits of all existing water-using fixtures and appliances, replacement of all irrigated landscaping with drought-tolerant landscaping, etc.). While the requirements do not go so far as to require a 1:1 (or more) offset of the ADU's new water demand, these types of requirements should be able to help offset new ADU water demand, in some cases significantly (e.g., sites with old fixtures, water-intensive landscaping, etc.). Thus, in the context of relatively limited residential water use overall in North County, and the ways in which ADU development could provide more affordable housing for farmworkers who are a necessity for maintaining the region's agricultural economy (and social fabric), the water offsetting provisions help to support a finding that these new ADU regulations can be found consistent with Coastal Act provisions protecting groundwater health and agriculture in North County. In short, the proposed North County-related changes are a step towards increasing housing stock in an environmental justice community where such housing is of critical importance for the long-term viability of the area's agricultural economy, and can be done so in a manner that is adequately protective of coastal resources.

<u>Carmel Area</u>

In the Carmel Area LUP, the amendment would remove the 40-acre minimum parcel size for ADUs and the limitation of one ADU per parcel. The end result would be to now allow ADUs in much of the area for the first time, given that most of the area is comprised of suburban-sized residential lots under 10,000 square feet, particularly in the neighborhoods to the north of the Carmel River and south of the City of Carmel-by-the-Sea. The 40-acre minimum parcel size was imposed originally in the LUP in the 1980s when it was first certified, albeit for caretaker units. Caretaker units were subsequently renamed ADUs in the LCP as a means to increase the supply of affordable workforce housing more broadly, as well as to reflect more modern terminology, but the 40-acre minimum parcel size remained.[19] The reason for the 40-acre minimum parcel size for the development of these additional units was related largely to wastewater issues at the time. Specifically, the density of existing onsite wastewater treatment systems (OWTS), or septic systems, on smaller lots in the Carmel Highlands area south of Point Lobos State Natural Reserve has resulted in chronic water quality problems due to steep slopes, bedrock, and soils that made such systems problematic. For those parcels served by public sewer (including Carmel Meadows, Mission Fields, Hatton Fields, and Carmel Woods), capacity and water quality issues at the Carmel Area Wastewater District (CAWD) treatment plant dictated that development of additional units on existing parcels be restricted.

Since the time of LCP certification, when the 40-acre parcel minimum went into effect, capacity at the CAWD treatment plant has expanded and its treatment capabilities have also been upgraded to address previous discharge and associated water quality problems in the Carmel Bay.[20] As such, the reason underlying the ADU restriction in relation to sewer capacities has essentially been solved, and all parcels in the Carmel area served by the sewer system, regardless of size, can support additional wastewater loads affiliated with ADUs without impacting water quality. Allowing for ADUs connected to the sewer system in this area can be found Coastal Act consistent from a wastewater perspective.

With respect to parcels with OWTS, namely in the Carmel Highlands, the issue has not been so affirmatively solved, and some properties may or may not have capacity to serve an ADU on the site. This low-density residential area relies on wells and septic systems for water and wastewater, and both continue to have problems and are prone to failure, including septic contamination into wells and coastal waters. While CAWD has a long-term vision to provide sewer connections to these properties,[21] implementation will likely take a significant amount of time.[22] These circumstances were the rationale behind the County's recent prohibition on vacation rentals in this area,

[19] As part of LCP-3-MCO-15-0022-1.

[20] Including as required by past Commission CDP actions (see CDP 3-82-199 as amended). The plant now provides tertiary treated water that is beneficially reused for various uses throughout the region, and has sufficient capacity to serve additional demand.

[21] See CDP Amendment 3-82-199-A10, approved by the Commission in 2022, which allowed the district to annex the Highlands, which is the first step necessary to expand sewer service to them.

[22] Indeed, the wastewater district's most recent attempt to expand sewer connections into part of this community was rejected by homeowners due to cost.

which the Commission approved in August 2025.[23] The development of ADUs on such properties raises consistency issues with Section 30231 requirements to protect the quality of coastal waters by minimizing adverse effects of wastewater discharges because the increased wastewater directed to problematic OWTS could result in capacity exceedance and system failures.

The County recognizes these constraints, but also acknowledges that an affirmative ban on all ADUs in the area, as is currently the case, is too harsh a reaction when not all parcels suffer from the same concerns. Allowing for ADUs may also be an incentive to upgrade older OWTS with new ones that meet modern water quality standards. Thus, in lieu of an affirmative ADU ban, the County's proposal seeks to address the issue in a different way, namely by requiring review and approval from the Monterey County Department of Environmental Health,[24] which will ensure that any ADU or JADU (including those that may be exempt from CDP requirements since these will still require County building permits) under these new regulations is served by adequate and functional water and wastewater capacity. The County has an entire department of qualified staff dedicated to ensuring OWTS are adequately sized and operational, and the proposed amendment requires their review and approval of a functioning OWTS as part of any ADU application (including outside of the Carmel Area too, as adequate OWTS is a requirement throughout the coastal zone). In discussions between Commission and County staff, County staff acknowledge that implementation of such requirement means that some ADU applications may need to be denied, or conditioned with significant OWTS upgrades. Some others may proceed without concern since the existing wastewater system is determined to have adequate capacity and to be in good working order. The County's point is that on-the-ground and site specific conditions can dictate whether or not the site's wastewater system can handle a proposed ADU, and the Commission concurs with this assessment. As proposed, this process will ensure that ADUs do not contribute to water quality issues associated with OWTS in this area. Furthermore, on properties with adequate wastewater systems in good working order, the proposed amendment would allow for increased housing opportunities in areas that Coastal Act Section 30250 would direct such development as most appropriate, namely existing developed areas able to accommodate it.

As such, the proposed regulations will avoid the potential adverse impacts of constructing additional residential density on properties without the wastewater service capacity to safely serve them, while allowing for increased housing density in a developed single-family residential area on properties where they can be accommodated without water quality or wastewater service concern. Overall, the proposed changes to the Carmel Area LUP will allow for the construction of more

[23] See LCP amendment LCP-3-MCO-24-0039-1 (Vacation Rentals).

[24] Most existing OWTS have been constructed to meet the minimum standards for the existing development they serve; therefore, an OWTS expansion is likely to be required for the establishment of an ADU/JADU. ADUs must have their own septic tank but may share the dispersal field with the primary dwelling. Construction of an ADU and in some case a JADU will be a trigger for a performance evaluation of the existing OWTS on the property.

housing in an area where such housing is needed and in locations where it is appropriate.

Big Sur Coast

The proposed changes to the Big Sur Coast LUP include the removal of the existing 50-unit ADU cap (thereby allowing ADUs and JADUs on every parcel where residential use is allowed), the reduction of allowable ADU size from 1,200 square feet to 1,000 square feet, and limiting rentals of ADUs and JADUs to terms of 90 days or more. The allowance for ADUs and JADUs on all parcels where residential use is allowed would result in an increase in development potential throughout Big Sur. Like all new development, the potential for coastal resource impacts associated with ADUs and JADUs exists, depending on the circumstances of a given property. And also like all types of new development, the development of ADUs/JADUs must follow the LUP's coastal resource protection policies, including as related to environmentally sensitive habitat areas (ESHA), visual resources, slopes, and hazards, among other things.[25] For example, ADUs, like nearly all types of new development, would be required to meet the LUP's so called "critical viewshed" requirements, which prohibits new development within view of Highway 1 and other public areas. With these existing LUP protections in place, the proposed increase in development associated with the amendment would not be inconsistent with Coastal Act requirements to protect ESHA, visual resources, and other coastal resources. And the proposed reduction in maximum ADU size from 1,200 square feet to 1,000 square feet also ensures a relatively small development footprint for such units, which also helps keep them, relatively speaking, more 'naturally affordable'.

Furthermore, Big Sur has an acute lack of affordable housing, particularly for the employees who are critical for the functioning of Big Sur's visitor-serving economy. This is primarily due to the challenges that new construction faces in Big Sur: it is an area highly prone to fire, landslide, erosion, and flash flooding hazards, with significant areas of unbuildable and unstable steep slopes. It is also an area of extraordinary coastal resource and public recreational access value, with appropriately protective LUP policies to ensure development is carried out consistent with these values. Because of these constraints, the reality is that opportunities to build the amount of housing of all types (market rate, affordable, and workforce/employee) needed to satisfy demand are quite limited, and adding additional housing in in the form of ADUs/JADUs in existing developed areas and adjacent to existing residences is an important way to address the region's acute need for more employee housing. That said, there is nothing in the proposed regulations that requires these ADUs to be used for Big Sur employees' housing. While it can be presumed that some will as the market adjusts to the availability of more ADUs for longer term residential use, it is also expected that many

[25] And, even though the proposed LCP amendment includes proposed CDP exemptions for some ADUs/JADUs (to match exemptions available under the Coastal Act and its implementing regulations), which would mean that LCP coastal resource provisions are not applied to those cases, those exemptions do not apply in ESHA, wetlands, designated visual resource areas, within 50 feet of a bluff, and in some cases seaward of the first public road pursuant to CCR Section 13250 locational restrictions. In Big Sur, where much of the potentially developable areas for ADUs would be in such areas, CDP exemptions are less likely, and would be limited to areas where these important coastal resources are not affected. See additional discussion on this point subsequently in this report.

will not, and will be used for other purposes. Commission and County staff discussed ways of limiting the use of these newly allowed ADUs to affordable and/or Big Sur-only employee/workforce housing, but there were questions about whether such limitations could be legally enforced, and additional questions about whether that might lead to fewer ADUs being constructed because of the lack of flexibility for their use, both of which could defeat the purpose of trying to encourage more of these small units to help bring Big Sur into a greater workplace-housing balance. Ultimately, the proposed amendment does not include these sorts of restrictions, and the Commission notes that it intends to closely monitor implementation to see how the market responds to the new regulations in terms of facilitating critically needed employee housing, and encourages the County to do the same, including to pursue future LCP amendments as appropriate to modify ADU regulations in Big Sur.

Bracketing that issue, the proposed amendment would allow for an increase in available housing stock in Big Sur while maintaining all existing coastal resource protections for Big Sur's extraordinary resource values. The proposed 1,000 square-foot limit and 90-day or more lease requirement should help direct the use of new ADUs towards the type of longer term and relatively more affordable housing acutely needed in Big Sur, all of which is critical to the long-term viability of the region's visitor-serving economy, including the staffing necessary to steward some of the most heavily visited public lands in the State.

Other

The proposed changes to these three LUPs include language that adds JADUs alongside ADUs as an encouraged unit type, to better provide for affordable and workforce housing. By definition, JADUs are contained entirely within a single-family residence and are a maximum of 500 square feet. This proposed change to encourage such units allows for such development to be literally concentrated and co-located within existing residences, where it can tap into and utilize existing utilities, driveways, and other residential elements without resulting in new developed footprint area and associated coastal resource impacts. All of which helps to encourage more housing units that share many of the same attributes as discussed above with respect to ADUs, and which can be found consistent for similar reasons.

In conclusion, the proposed changes to the Carmel, Big Sur, and North County LUPs to allow ADUs and JADUs in all areas where residential use is allowed can be found consistent with Coastal Act resource protection requirements because, like all forms of development, ADUs and JADUs will still be required to meet LUP coastal resource protection policies in order to be approved (unless exempt, but exemptions do not apply where significant coastal resource values are present, as explained in more detail subsequently). The proposed amendment will provide greater opportunity for increases in the availability and affordability of housing located in appropriate locations along the Monterey County coast, concentrated with existing residential development, and can be found consistent with the Coastal Act.

2. Proposed IP Amendment

Applicable LUP Provisions

The standard of review for the proposed IP changes is whether they are consistent with and adequate to carry out the provisions of the LCP's LUP, including as it is proposed to be amended. In addition to and as modified by LUP changes discussed above, which are considered a standard of review for the IP changes discussed below (see **Exhibits 2 and 3**), applicable LUP provisions include:

North County LUP

North County LUP Policy 2.5.1 (Key Water Policy): *The water quality of the North County groundwater aquifers shall be protected, and new development shall be controlled to a level that can be served by identifiable, available, long term-water supplies…*

North County LUP Policy 2.5.2.3: *New development shall be phased so that the existing water supplies are not committed beyond their safe long-term yields. Development levels that generate water demand exceeding safe yield of local aquifers shall only be allowed once additional water supplies are secured.*

North County LUP Policy 2.6.1 (Key Agriculture Policy): *The County shall support the permanent preservation of prime agricultural soils exclusively for agricultural use. The County shall also protect productive farmland not on prime soils if it meets State productivity criteria and does not contribute to degradation of water quality. Development adjacent to prime and productive farmland shall be planned to be compatible with agriculture.*

North County LUP Policy 2.6.2.1: *Prime and productive farmland designated for Agricultural Preservation and Agricultural Conservation land use shall be preserved for agricultural use to the fullest extent possible….*

North County LUP Policy 2.6.2.5. *Conversion of Agricultural Conservation lands to non-agricultural uses shall be allowed only if such conversion is necessary to: a) establish a stable boundary between agriculture and adjacent urban uses or sensitive habitats; or b) accommodate agriculture-related or other permitted uses which would economically enable continuation of farming on the parcel and adjacent lands.*

North County LUP Policy 2.6.2.6: *For new development adjacent to agricultural areas, well-defined buffer zones shall be established within the area to be developed to protect agriculture from impacts of new residential or other incompatible development and mitigate against the effects of agricultural operations on the proposed uses….*

North County LUP Policy 4.3.5.7: *New subdivision and development dependent upon groundwater shall be limited and phased over time until an adequate supply of water to meet long-term needs can be assured. In order to minimize the additional overdraft of groundwater accompanying new development, water conservation and on-site recharge methods shall be incorporated into site and structure design.*

North County LUP Policy 4.3.6.D.5: *Where public facilities or water supply necessary to support residential development are limited, residential growth should be phased to allow sufficient time for these essential elements to be provided.*

North County LUP Policy 2.5.3.A.1: *The County's policy shall be to protect groundwater supplies for coastal priority agricultural uses with emphasis on agricultural lands located in areas designated in the plan for exclusive agricultural use.*

North County LUP Policy 4.3.5.4: *Where there is limited land, water, or public facilities to support development, coastal-dependent agriculture, recreation, commercial and industrial uses shall have priority over residential and other non-coastal-dependent uses.*

North County LUP Policy 2.5.3.A.2: *The County's long-term policy shall be to limit ground water use to the safe-yield level. The first phase of new development shall be limited to a level not exceeding 50% of the remaining build-out as specified in the LUP. This maximum may be further reduced by the County if such reductions appear necessary based on new information or if required in order to protect agricultural water supplies. Additional development beyond the first phase shall be permitted only after safe-yields have been established or other water supplies are determined to be available by an approved LCP amendment. Any amendment request shall be based upon definitive water studies, and shall include appropriate water management programs.*

North County LUP Policy 4.3.6.D: *Low and Moderate Income Housing … 2: The County shall encourage the expansion of housing opportunities for low and moderate income households. (a) Re-evaluate ordinances and policies which impose constraints to low and moderate income housing opportunities. (b) Require employee housing as a condition of all permits related to additions to existing visitor facilities or the construction of new facilities. Such housing must be provided prior to or concurrent with the proposed development, and must be permanently linked to the visitor-serving use through appropriate binding guarantees. (c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit. All such units shall not be considered as part of the residential buildout allowed by this plan.*

North County LUP Policy 4.3.6.D: *Low and Moderate Income Housing … 3: The County shall provide where feasible, affordable housing through the continuing good faith and the diligent efforts by the public sector. The County will: […] c) Provide means to expedite projects which demonstrate innovative ways to implement housing policy.*

North County LUP Policy 4.3.6.D: *Low and Moderate Income Housing … 6: The trailer and mobile home exclusion districts in the County Zoning Ordinance*

should be repealed to increase affordable housing opportunities and increase access to the Coastal Area for low and moderate income families.

North County LUP Policy 4.3.6.D.2: *Medium and high density residential areas shall be located only where urban services; water, sewers, roads, transit, fire protection, etc. are available. A mix of residence types and price ranges should be made available through the development of these areas. These areas should be fully developed before new areas are designated for medium and high density development.*

North County LUP Policy 4.1.3: *…Housing condition, low vacancy, low income, and the special conditions of farm workers appear to be the key housing problems in the area.*

North County LUP Policy 6.2 (Key Public Access Policy): *Public access to the shoreline and along the coast shall be protected and provided, and opportunities for recreational hiking access shall be enhanced. The provision of all future access and improvements to existing access areas must be consistent with the overriding objective of protecting coastal agriculture, environmentally sensitive habitats and other sensitive coastal resource areas. The beauty of the coast, its tranquility, and the health of its environment must not be marred by public overuse or carelessness. Visual access as well as physical access should be emphasized as an appropriate response to the needs of the public.*

Del Monte Forest LUP

Del Monte Forest LUP Policy 20: *Indigenous Monterey cypress habitat is an environmentally sensitive habitat area within the Del Monte Forest, and is presumed present within and adjacent to the area mapped in Figure 2a. All proposed development in this area shall be accompanied by a coordinated biological/arborist report prepared in consultation with the Del Monte Forest Conservancy and consistent with Policies 12 and 16, a primary purpose of which shall be to determine: the Monterey cypress habitat portion of the site; the "critical habitat area" for the site (i.e., the portion of Monterey cypress habitat on the site that is to be avoided to protect against potential damage or degradation of cypress habitat, including the microhabitat of individual cypress trees); the relative habitat sensitivity of all parts of the site, ranked from the highest sensitivity to the lowest sensitivity in terms of potential adverse impacts from development; the ways in which the cypress habitat portion of the site, the critical habitat area and the relative habitat sensitivity rankings relate to adjacent and surrounding habitat areas; and the measures to best protect Monterey cypress habitat on the site and overall, including on-site (and potentially offsite) restoration and enhancement measures. The critical habitat area shall at a minimum be defined by a 10-foot buffer applied to the outermost driplines (i.e., the tree canopies) of all of the Monterey cypress trees on and adjacent to the site, but shall also include any other areas on site that are deemed critical to preservation of existing cypress trees on and off site, or that are to be avoided due to high habitat sensitivity and/or cypress habitat preservation purposes for other reasons.*

All development in and adjacent to the Monterey cypress habitat mapped in Figure 2a shall be carefully sited and designed to avoid potential damage or degradation of Monterey cypress habitat, including the microhabitat of individual cypress trees, and shall be required to include measures that will enhance Monterey cypress habitat values. All use and development in or adjacent to indigenous Monterey cypress habitat areas shall be compatible with the objective of protecting this environmentally sensitive coastal resource. All improvements (such as structures and driveways, etc.) shall be carefully sited and designed to avoid potential damage and/or degradation of Monterey cypress habitat, including the microhabitat of individual cypress trees. Open space conservation and scenic easements are required for all undeveloped areas of a site within the Monterey cypress habitat area, and such easements shall be secured consistent with Policy 13.

Del Monte Forest LUP Key Housing Policy: *Housing opportunities for persons and families of low to moderate income should be protected and provided, both within the Forest and in outlying areas, as a function of new development within the Forest.*

Del Monte Forest LUP Policy 76: *Accessory dwelling units shall be encouraged as an appropriate means of providing affordable housing for caretakers, convalescent help, domestic employees, and others. New accessory dwelling units shall comply with all LUP development standards. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit…*

Del Monte Forest LUP Policy 119: *The County shall encourage the expansion of housing opportunities for low and moderate-income households, including a requirement that all new residential subdivisions contribute to the provision of low and moderate-income housing. The allowance of accessory dwelling units may also serve to further this objective in the Del Monte Forest.*

Del Monte Forest Key Public Access Policy: *Visual and physical public access to and along the shoreline and the enjoyment of public recreational values throughout the Del Monte Forest, consistent with the basic purpose of the California Coastal Act, shall be maximized. This LUP shall also seek to ensure that the beauty of the Del Monte Forest Area coast, its tranquility, and the health of its environment will not be marred by public overuse or neglect.*

Carmel Area LUP

Carmel Area LUP Policy 4.4.3.H.2: *The County shall encourage the expansion of housing opportunities in the Carmel area for low and moderate-income households. The County will:…(c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit.*

Carmel Area LUP Policy 5.2.1: … *Inadequate parking capacity and lack of suitable -parking sites. Existing parking facilities do not satisfy the demand during peak use periods. The need for additional parking areas is indicated by the illegal though short-term parking that continually occurs at points along Scenic Road…*

Carmel Area LUP Policy 5.3.1 (Key Public Access Policy): *Public access shall be protected and provided where consistent with public safety needs and the need to protect the rights of private property owners and natural resource areas from overuse.*

Carmel Area LUP Policy 5.3.3.1.a*: The most important major access areas to be retained for long-term public use are: The Scenic Road corridor along Carmel Point, Carmel River State Beach and Point Lobos State Reserve.*

Big Sur Coast LUP

Big Sur LUP Policy 3.2.1 (Key Visual Resource Policy): *Recognizing the Big Sur coast's outstanding beauty and its great benefit to the people of the State and Nation, it is the County's objective to preserve these scenic resources in perpetuity and to promote the restoration of the natural beauty of visually degraded areas wherever possible. To this end, it is the County's policy to prohibit all future public or private development visible from Highway 1 and major public viewing areas (the critical viewshed), and to condition all new development in areas not visible from Highway 1 or major public viewing areas on the siting and design criteria set forth in Sections 3.2.3, 3.2.4, and 3.2.5 of this plan. This applies to all structures, the construction of public and private roads, utilities, lighting, grading and removal or extraction of natural materials.*

Big Sur LUP Polic 5.1.2: *A serious housing shortage exists for employees in Big Sur, particularly in the visitor industry. Because there is little housing available, employees have at times been forced to camp-out, live in cars, or move in with friends. The shortage of affordable housing has also made recruitment of skilled employees difficult. Several factors affect solutions to the housing problems: the costs of land and housing precludes the use of traditional housing assistance programs; and year-round employment is not at a high enough level to support traditional single and multiple family housing projects. Employee housing provided by an employer must be a primary source of affordable housing in the area. Accessory dwelling unit housing, which has traditionally provided shelter for many long-time residents and employees, will also continue to be an important element of the affordable housing supply.*

Big Sur LUP Policy 5.3.3: *… Accessory dwelling units, consistent with State law, are allowed but must comply with all the resource protection provisions, including but not limited to the Critical Viewshed Policy of this LUP. Accessory dwelling units in the Big Sur Coastal Planning Area shall not exceed 1,000 square feet. Rental of an entire accessory dwelling unit or portion of an accessory dwelling unit for less than 90 days shall be prohibited.*

Big Sur LUP Policy 5.4.3.I.2: *The County shall encourage the expansion of housing opportunities for low and moderate income households. The County shall:… (c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. Subdivision shall not be permitted to divide a principal residence from an accessory dwelling unit.*

Big Sur LUP Policy 6.1.3 (Key Public Access Policy)*: The rights of access to the shoreline, public lands, and along the coast, and opportunities for recreational hiking access, shall be protected, encouraged and enhanced…*

Consistency Analysis

As existing and amended, the LUPs include specific policy direction to provide for ADUs as an important means to facilitate affordable and workforce housing opportunities. The LUPs also include a suite of provisions that protect coastal resources, including ones that protect agriculturally productive soils, sensitive habitats, and public views. At this broad level, the proposed amendment is consistent with this framework since conformance with all applicable LCP provisions is required for non-exempt ADU development. Put another way, and as explained above, ADUs are a permissible land use in all zones that already allow single-family residences, but conformance with all applicable coastal resource protections of the LCP is required for all non-exempt ADUs.

More specifically, the proposed IP changes can largely be understood to have three primary functions: allowing for ADU construction in all zoning districts where residential use is allowed, introducing JADUs as an allowable form of housing, and streamlining the permitting process for ADUs and JADUs. The most substantial of these changes is the lifting of existing blanket prohibitions on constructing ADUs in certain areas and on certain parcels, including lifting the existing ban on ADUs on parcels two acres or smaller in Big Sur and/or not connected to public sewer, in native Monterey cypress habitat, and on parcels with a B-8 zoning overlay. The IP changes also mirror the LUP locational changes described above, including the elimination of both the 40-acre minimum parcel size in the Carmel Area and the 50-unit ADU cap in Big Sur. Notably, while the proposed amendment would lift certain blanket prohibitions on ADUs in these areas, other existing coastal resource protection policies that protect sensitive resources in these areas would remain in effect.[26] For instance, in the time since the Commission last approved LCP ADU changes in 2015, it approved significant policy

[26] Indeed, under the proposed changes, CDPs for ADUs/JADUs would be processed in accordance with IP Section 20.76, which requires findings of consistency with the LCP. Again, however, the proposed amendment also reflects the fact that the Coastal Act exempts certain residential development from CDP requirements (per Section 30610), and its implementing regulations specify the conditions under which such exemptions apply (per CCR Section 13250). Specifically, the regulations exempt attached ADUs from CDP requirements unless they are located on a beach, wetland, ESHA, seaward of the mean high tide line, and in areas that area designated highly scenic in the LUP. Detached ADUs are not exempt. The proposed amendment reflects these same provisions. As a result, exempt ADUs are not required to meet LCP requirements, which means the LCP's coastal resource protection policies will not apply in those cases. Fortunately, however, the restrictions against exemptions in significant coastal resource areas, discussed above, ensure that LCP provisions will be applied in areas where significant coastal resources are present.

protections for native Monterey cypress habitat located in the narrow stretch of coast between Cypress Point and Pescadero Point in the Del Monte Forest area, all of which the Commission has found to be ESHA.[27] Specifically, Policy 20 of the Del Monte Forest LUP (and its associated IP policy[28]) lays out exacting standards for the protection of native Monterey cypress habitat,[29] and any ADU constructed in such habitat would have to adhere to these policies just as would any other development, including garages, residences, driveways, etc. As such, lifting the blanket prohibition on ADUs in these areas will not result in ADUs sited in inappropriate locations; it simply means that ADUs will be addressed in a different, but still resource-protective, way consistent with the same LCP requirements that govern other types of residential development. Similarly, while the IP changes would allow for ADUs within those agricultural zoning districts that already allow for other kinds of residential development,[30] the LUPs (and particularly the North County LUP[31] where lands with such zoning are primarily located) strictly limit the conversion of agricultural lands. Because non-exempt ADUs must be consistent with these agricultural protection LUP policies, they will not be permitted to convert or otherwise adversely impact agricultural lands.[32]

The proposed IP changes would also lift the prohibition on ADUs in North County and add a suite of water efficiency measures[33] intended to reduce residential water consumption on properties where ADUs/JADUs are developed. The existing ADU prohibition is in place because of the strict water use limitations imposed by the LUP due to the longstanding overdraft of the aquifers that comprise the sole water source in the North County area. As previously discussed in greater detail in the Coastal Act consistency findings, a narrow focus on maximizing water availability for agricultural

[28] See IP Section 20.147.040.D.2.

[29] Among other things, by requiring development to be sited in the least sensitive portion of the site, prescribing a maximum building envelope of 15% of the lot, and requiring restoration and deed restrictions/open space easements on the remaining undeveloped portions of the lot.

[30] Notably, this allowance was specifically highlighted by State HCD as necessary for compliance with State ADU law.

[31] See, for example, North County LUP Key Agricultural Policy 2.6.1.

[32] In addition to the above-described LUP policies, the IP also includes standards for residential and other development to ensure it is sited and designed in a manner to avoid prime and productive soils and be subordinate to and not interfere with agricultural production. For example, IP Section 20.30.070(D) requires new development within the Coastal Agricultural Preserve zone, which covers most of North County's row crop operations, to "be sited in a manner to reduce loss of productive agricultural land, provide efficient farming practice and patterns, reduce impacts on adjoining agricultural operations, and preserve existing environmental resources." It is also important to note that much of North County's agricultural lands are comprised of large commercial row crop operations where the demand to convert such bona fide production to non-agricultural estate residential development is low. And, as described herein, there are tools to address any potential problematic proposals.

[33] One such requirement is that washing machines and dishwashers be Energy Star certified. The US EPA has recently indicated it intends to discontinue Energy Star certification. If the program is indeed discontinued, this policy would be understood to require the same water efficiency standards necessary for Energy Star certification (i.e., 4.3 gallons per cycle per cubic foot capacity for clothes washers and 3.2 gallons per cycle for dishwashers).

production would ignore the significant and important role housing plays in the broader agricultural economy. The agricultural economy is dependent on workers, who are dependent on reasonably affordable and available workforce housing. This nuance is implicitly acknowledged by the LUP, which includes a retinue of policies aimed at promoting affordable housing, including specifically encouraging "the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing." Indeed, the LUP requires the County to "re-evaluate ordinances and policies which impose constraints to low and moderate income housing opportunities." The proposed amendment does just this; it would lift the current prohibition on ADU construction in North County and add JADUs as an additional source of small-scale housing which is more likely to be more affordable. As such, while the LUP significantly restricts new water-using development, it also calls for more of the exact types of housing the proposed IP changes provide for (in part to protect the agricultural economy necessary for long-term agricultural viability). A balanced reading of these policies points to a framework like that proposed here, where ADUs and JADUs may be constructed in North County, so long as they are paired with water efficiency improvements. Such improvements will help reduce residential water use consumption and offset potential water supply impacts, ensuring consistency with the LUP Policy 4.3.5.7 requirement for water conservation measures for all new development.

Similar logic applies to the other planning areas (and particularly Big Sur), which are dominated by visitor-serving economies of critical importance to the public access experience. Such economies also rely on workers, whose presence in the community also helps weave its fabric, contributing to the special character of these coastal communities. However, many workers in coastal Monterey's visitor-serving economy live far inland, commuting significant distances daily on congested roads because the housing that would be affordable to them is simply absent. Put another way, housing affordability on the Monterey coast is, at least in part, a public access issue. As such, all of the LUPs encourage the construction of affordable housing and specifically identify ADUs and JADUs as an appropriate approach to help provide housing that may be naturally more affordable. Furthermore, the restriction of rental terms to 31 days or more (90 or more in Big Sur) means that the ADUs and JADUs built under these new regulations are more likely to actually be used for the long-term housing so desperately needed across the County's coastal zone. So, in this way, the proposed IP changes would benefit public access, which can be found consistent with the LUPs' public access[34] and affordable housing[35] provisions.[36]

As for potential impacts to general public coastal access, increasing the opportunities for ADU construction can generally be expected to be relatively innocuous, particularly

[34] See, for example, North County LUP Policy 6.2, Big Sur Coast LUP Policy 6.1.3, Carmel Area LUP Policy 5.3.1, and Del Monte Forest LUP Key Public Access Policy.

[35] See, for example, North County LUP Policy 4.3.6.D.; Big Sur Coast LUP Policies 5.1.2, 5.3.3, and 5.4.3.I.2; Carmel Area LUP Policy 4.4.3.H.2; and Del Monte Forest LUP Key housing policy and Policies 76 and 119.

since the vast majority of ADUs would not be constructed along the immediate shoreline given the particular geography of the County's built environment. In fact, the only residential neighborhood near the coast where residents significantly compete with visitors for scarce on-street beach parking is within the Carmel Point neighborhood, which sits on a rocky point dividing Carmel Beach from Carmel River State Beach, and where the limited public street parking is of critical importance for beach access. To address potential conflicts between public use of this parking for beach access and increased private use of this parking associated with ADUs that do not incorporate on-site parking, the proposed IP requires on-site parking for any ADUs[37] constructed on a handful of lots along the seaward edge of the neighborhood, where the public use of street parking for beach access is most common (see **Exhibit 4**). These few lots would be the only place in the County with on-site ADU parking requirements, and is the only location where such a requirement is prudent.[38] This will ensure consistency with Carmel LUP Policy 5.3.3.1.a that specifically identifies, and protects for public use, Scenic Road (the coastal road around Carmel Point) and Carmel River State Beach as two of the three most important public access areas in the Carmel area.

In terms of permitting, the proposed amendment creates a streamlined process for ADUs and JADUs consistent with State ADU law, where CDP applications will be processed within 60 days and without a local public hearing, and certain directly attached (to an existing residence) ADUs may be exempt from CDPs altogether. On this point, it is noted that Coastal Act Section 30610(a) establishes that certain types of improvements to existing single-family residences may be exempt from CDP requirements, and CCR Section 13250 identifies the circumstances that determine when a CDP is and is not required. That CCR section establishes that self-contained residential units that are directly attached to existing single-family residences, like ADUs, can be exempted, but that detached such units cannot.[39] Importantly, CCR Section 13250 also specifies the circumstances when any such residential development requires a CDP, including as it relates to such self-contained units (e.g., if located on/in beaches, wetlands, ESHA, seaward of the mean high tide line, designated highly scenic areas, or within 50 feet of the edge of a coastal bluff; certain types of development seaward of the first public road; if a prior CDP specified that future development would require a CDP; etc.). Thus, as long as an ADU is directly attached to an existing home (i.e., through a shared structural wall, etc.), then it may be exempt as long as it is not locationally or otherwise disqualified for an exemption under CCR Section 13250. The County has proposed language that mostly mirrors this understanding, stating that

[37] No such parking is required for JADUs.

[38] Again, this is because most residential development is located inland and away from the shore (e.g., in Big Sur and North County) or in areas where on-street parking is not in such a high demand and there is relatively little conflict between public vs. private use (e.g., in Yankee Point and within the Del Monte Forest).

[39] CCR Section 13250 had historically been interpreted by the Commission to mean that self-contained residential units were not exemptible, regardless if they were directly attached or detached. And the Commission's most recent ADU guidance distributed to local governments says as much. However, a recent appellate court case from just last year determined that CCR Section 13250 distinguishes between attached and detached units, where detached units are not exemptible but attached units are (see *Riddick v. City of Malibu* (2024) 99 Cal.App.5th 956, 317 Cal.Rptr.3d 895).

ADUs may be exempt from CDP requirements if they satisfy two criteria: they are directly attached to an existing residence, and they do not fall under any of the locational exceptions of CCR Section 13250 (see page 19 of **Exhibit 2**).

Two things to note. First, the County's proposed language refers to "an existing residence." However, CCR Section 13250 is clear that the exemption only potentially applies where there is an existing single-family residential building, and not a residence more broadly (e.g., a multi-family residential building is not covered by Coastal Act Section 30610(a) or CCR Section 13250). Second, where the County's proposed language refers to CCR Section 13250 for the circumstances when a proposed ADU would not be exempt, it only references that section's locational criteria. However, and as described above, although CCR Section 13250 includes locational criteria that establishes when a CDP is required, it also includes other criteria that establishes when a CDP is required. Because it derives its statutory authority as it pertains to coastal permitting from the Coastal Act, an LCP cannot exempt development from CDP requirements that is not exempt under the Coastal Act and its implementing regulations.[40] The County has indicated that its intent with this ADU exemption language was to match the CDP exemption potentially available to ADUs via Coastal Act Section 30610(a) and CCR Section 13250. Thus, in evaluating the proposed LCP amendment, the Commission understands proposed IP Section 20.64.030.G.1 to mean "an existing single-family residence" where it identifies "an existing residence," and to mean "the criteria that would require a CDP via" where it identifies "the locational exceptions of."[41]

Although exempt ADUs will not require CDPs and thus will not be measured against the LCP's coastal resource protection provisions, three additional things are noted. First, this is the manner in which CDP exemptions are treated under the Coastal Act, and it is therefore Coastal Act consistent that these projects not be subject to that scrutiny. Second, and importantly in any case, most exempt units will be located in areas without significant coastal resources because the criteria that require CDPs under CCR Section 13250 do not allow for exemptions in most significant resource areas, as described above. Third, while it is true that CCR Section 13250 does not explicitly require a CDP for self-contained residential units directly attached to single-family residential buildings on agricultural land, which is prevalent in the County's coastal zone, and particularly in the North County area, it is not expected that any applicable CDP exemptions will lead to any sort of significant agricultural impacts because such units would be limited to 1,200 square feet directly attached to single-family residential buildings, including via shared structural walls, and would presumably in most, if not all, cases share the same driveway for practical purposes.[42] Put another way, the exemption is actually a self-regulating clustering provision that should be able to steer development to what is most likely an already generally developed area near an existing residence, and not to

[40] The Coastal Act provides for a different form of exemption through a categorical exclusion process, but that is a separate process from an LCP amendment process, and it is not proposed here.

[41] In addition, no ADU can be exempt if improvements to water wells and septic systems are required (per Section 13250(b)(3)), so core water and wastewater services will be addressed too.

[42] Construction of a new driveway associated with an ADU would require a CDP even if the ADU itself was exempt from CDP requirements.

somewhere that might lead to a significant diminishment of agricultural resource values. Non-exempt ADUs on agricultural land would be required to be evaluated against the LCP's coastal resource protection provisions, which should ensure the same thing. For these reasons, it is not necessary to add additional provisions specific to ADUs on agricultural land.

Furthermore, the proposed changes to general CDP exemption language in the IP will bring that language better in line with the Commission's own exemption regulations, closing potential loopholes that could have been interpreted to allow for the exemption of development in inappropriate locations (e.g., in ESHA).[43] Overall, these exemption and streamlining changes will allow for easier and faster permitting without sacrificing the LUPs' coastal resource protections, thus appropriately facilitating housing opportunities consistent with the LUPs.

Finally, the proposed IP amendment makes a number of other changes to bring the LCP into conformance with State ADU law that are non-substantive from a coastal resource/LUP consistency perspective. Such changes include updates to height and setback rules, and allowing for the sale of certain ADUs separate from the primary residence on the property, and do not raise consistency concerns with the LUPs.

In sum, the proposed IP changes are a suite of implementing regulations that broadly expand housing opportunities across the County's coastal zone without compromising the robust coastal resource protection provisions of the LUPs. As such, the Commission finds that the proposed LCP amendment conforms with and is adequate to carry out the LUPs, and can be approved as submitted.

D. California Environmental Quality Act (CEQA)

CEQA Section 21080.5(d)(2)(A) prohibits a proposed LCP or LCP amendment from being approved if there are feasible alternatives and/or feasible mitigation measures available that would substantially lessen any significant adverse effect that the LCP or LCP amendment may have on the environment. Although local governments are not required to satisfy CEQA in terms of local preparation and adoption of LCPs and LCP amendments, many local governments use the CEQA process to develop information about proposed LCPs and LCP amendments, including to help facilitate Coastal Act review. In this case, the County exempted the proposed amendment from environmental review (citing CEQA Section 15265), and determined that no possibility exists that the amendment may have a significant effect on the environment.

The Coastal Commission is not exempt from satisfying CEQA requirements with respect to LCPs and LCP amendments, but the Commission's LCP/LCP amendment review, approval, and certification process has been certified by the Secretary of the Natural

[43] In any case, the specific language regarding potential CDP exemptions related to ADUs (in LCP Section 20.64.030.G.1) governs in this respect over the general LCP exemption language (found in LCP Section 20.70.120.A). This is important as the specific ADU language tracks the Commission's regulations in Section 13250 as described above, but the general language, if interpreted to apply to ADUs, does not, and could be used otherwise to authorize detached ADUs without a CDP. The Commission's understanding in reviewing and approving the proposed LCP amendment is based on the specific ADU exemption language taking precedence in this respect.

Resources Agency as being the functional equivalent of the environmental review required by CEQA (CCR Section 15251(f)). Accordingly, in fulfilling that review, this report has discussed the relevant coastal resource issues with the proposal, and has concluded that approval of the proposed LCP amendment is not expected to result in any significant environmental effects, including as those terms are understood in CEQA.

Accordingly, it is unnecessary for the Commission to suggest modifications (including through alternatives and/or mitigation measures) as there are no significant adverse environmental effects that approval of the proposed amendment would necessitate. Thus, the proposed amendment will not result in any significant adverse environmental effects for which feasible mitigation measures have not been employed, consistent with CEQA Section 21080.5(d)(2)(A).

DRAFT AMENDMENTS TO CARMEL AREA, BIG SUR COAST AND NORTH COUNTY LAND USE PLANS

(Proposed amendments shown in strikethrough and underline)

Amendments to Carmel Area Land Use Plan

1. Subsection c) is added to subsection 2 of subsection H of section 4.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. ~~It is preferred that these accommodations be attached to the principal residence. Detached accessory dwelling units shall not exceed 1,200 square feet in size and shall be limited to parcels of 40 acres or greater.~~ Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit. ~~Additional employee housing is permitted for priority uses (i.e. ranching) in one dormitory/bunkhouse or in temporary structures (i.e. mobile homes) consistent with all other plan policies. Only one accessory dwelling unit shall be allowed on a parcel.~~

Amendments to Big Sur Coast Land Use Plan

1. The first paragraph of subsection 2 of section 5.3.1, is amended to read as follows:

Protection of watersheds, streams, plant communities, and scenic values is the primary objective. Principal uses in this category include agriculture/grazing and supporting ranch houses and related ranch buildings. Recreational facilities permitted in the Outdoor Recreation category including rustic inn or lodging units, hostels; forestry, mineral extraction, aquaculture and related facilities; and accessory dwelling units, junior accessory dwelling units, rural residential and employee housing associated with any of these uses are secondary, conditional uses that will be considered on their individual merits. Where on-site dining facilities are allowed for the inn units, they must be limited to that which is needed to serve on-premises overnight guests.

2. Subsection 6 of section 5.3.1, is amended to read as follows:

Rural residences are considered a principal use on vacant parcels where applicable resource protection policies can be met. Secondary uses appurtenant to rural residences include accessory dwelling units, junior accessory dwelling units, garages, work or storage sheds,

and art or craft studios. Accessory dwelling units and junior accessory dwelling units are allowed in this land use category for the purpose of creating long term housing.

3. Section 5.3.3 is amended to read as follows:

The plan permits development on existing vacant or partially developed parcels based on conformance to the standards of the plan. It is estimated that there are 800 such parcels and that approximately 100 new parcels could be created through subdivision. The plan also permits ~~up to 50~~ accessory dwelling units and junior accessory dwelling units. Expansion of lodging facilities in the Big Sur Valley, Lucia, Pacific Valley and Gorda is possible to some extent. Up to 50 hostel units can be constructed. Employee housing may also be constructed to serve commercial visitor-serving facilities and State and Forest Service facilities. The inn unit density standards are expected to hold inn development to less than 300 new units.

The policies that follow establish a slope density formula as the determinant of potential residential development. A conversion factor is available in the Watershed and Scenic Conservation land use designation that permits potential residential units to be developed as inn units at the rate of two inn units per residence (up to a maximum of 8 per parcel), thereby establishing potential buildout for this major land use category.

Consequently, long range development of the coast will depend upon the choices made by landowners over time. A strong response to demand for visitor facilities will result in a reduction in residential construction potential. For example, if 100 additional residential units are ultimately approved for development in the Watershed and Scenic Conservation area, this could result in 100 residences. It could also result in 50 residences and 100 inn units, or no residences and 200 inn units, etc. While this is only illustrative, it shows the relationship of visitor-serving facilities and residential development based on the conversion factor. An important condition of the plan is that property can be devoted to either residential or visitor-serving overnight accommodations, or a combination of both, but that density credit cannot be applied for both uses from the same acreage.

The plan is flexible concerning the siting of new development, allowing a range of land use proposals to be made at any particular location. Yet the plan's resource protection standards, and slope and road requirements, are stringent, ultimately causing new development to be sited on the most physically suitable locations and limiting buildout to a level that can be accommodated on those sites that can meet all of the plan's requirements.

Table 1 summarizes the major categories of development according to the locations at which the use could take place and provides standards to guide the density at which campgrounds can be clustered on the site. No limitation is established in the plan for the number of campsites that could be developed.

Accessory dwelling units, consistent with State law, are allowed but must comply with all the resource protection provisions, including but not limited to the Critical Viewshed Policy of this LUP. Accessory dwelling units in the Big Sur Coastal Planning Area shall not exceed 1,000 square feet. Rental of an entire accessory dwelling unit or portion of an accessory dwelling unit for less than 90 days shall be prohibited.

4. Subsection c (1) of section 1 of Table 1 is repealed.

5. Subsection e) and subsection f) of subsection 1 of subsection I of section 5.4.3 are added to read as follows:

e) Allow existing guesthouse units to be converted to accessory dwelling units and junior accessory dwelling units for long term housing.

f) Allow new accessory dwelling units and junior accessory dwelling units to be permitted for long term housing.

6. Subsection c of subsection 2 of subsection I of section 5.4.3 is amended to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing for caretakers, ranch hands, convalescent help, and domestic employees. ~~Detached accessory dwelling units shall not exceed 1,200 square feet in size.~~ Subdivision shall not be permitted to divide a principal residence from an accessory dwelling unit~~s~~. ~~Only one accessory dwelling unit shall be allowed on the parcel. All such units shall be considered as a part of the residential buildout allowed by this plan.~~

~~A total of 50 such units may be allowed in the area of the Big Sur Land Use Plan.~~

Amendments to North County Land Use Plan

1. Subsection c) of subsection 2 of subsection *Low and Moderate Income Housing* of subsection D of section 4.3.6 is added to read as follows:

c) Encourage the use of accessory dwelling units and junior accessory dwelling units as an appropriate means of providing affordable housing. Subdivisions shall not be permitted to divide a principal residence from an accessory dwelling unit. All such units shall not be considered as part of the residential buildout allowed by this plan.

ORDINANCE NO. _____

AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, AMENDING TITLE 20 (COASTAL ZONING) OF THE MONTEREY COUNTY CODE RELATING TO ACCESSORY AND JUNIOR DWELLING UNITS

County Counsel Summary

This ordinance amends the County's zoning regulations for accessory and junior dwelling units in the unincorporated coastal zone of Monterey County. The ordinance updates Section 20.64.030 and other sections of Title 20 of the Monterey County Code to conform to recently enacted state law concerning accessory and junior accessor dwelling units, as well as amending Part 6 of the Monterey County Coastal Implementation Plan to add a new Appendix 15 concerning accessory dwelling unit parking. Such changes include provisions allowed under California Government Code sections 66314 and 66333, including, but not limited to, restrictions on zoning locations, objective standards on parking, height, setback, landscape, and rental restrictions. This ordinance will require certification by the California Coastal Commission because this ordinance would amend the County of Monterey's certified Coastal Implementation Plan.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. Findings and Declarations.

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its residents.

B. Per amendments to Government Code sections 66310 through 66342 adopted by the state legislature, the County desires to amend its existing regulations pertaining to Accessory Dwelling Units ("ADUs") and enact regulations related to Junior Accessory Dwelling Units ("JADUs") to conform to all state law requirements.

C. ADUs and JADUs have the potential to increase the stock of affordable housing in Monterey County by creating a wider range of smaller and lower cost housing options within unincorporated communities.

D. This ordinance is statutorily exempt from the California Environmental Quality Act ("CEQA"), which provides that CEQA does not apply to activities and approvals involving the preparation and adoption of local coastal program amendments (CEQA Guidelines section 15265).

E. The County intends to carry out the amendments in a manner fully in conformity with the California Coastal Act (Public Resources Code section 30000 *et seq*.).

F. This Ordinance amends the Monterey County Coastal Implementation Plan, which is part of the County's Local Coastal Program. Pursuant to the Coastal Act, the County may amend the certified Local Coastal Program provided the County follows certain procedures. The procedures include the following: the County's Planning Commission holds a notice public hearing and make a recommendation to the Board of Supervisors on the proposed amendment; the Board of Supervisors holds a noticed public hearing, adopts a resolution of intent, and submits the proposed amendment to the California Coastal Commission for certification together with materials sufficient for a thorough and complete review; the Coastal Commission certifies the amendment; the Board of Supervisors takes subsequent final action on the ordinance after the Coastal Commission acts; and the Coastal Commission confirms the County's action. Accordingly, this ordinance will not go into effect until after the Coastal Commission certifies the amendment and confirms the Board's action.

20.64.030 - Regulations for Accessory Dwelling Units and Junior Accessory Dwelling Units.

A. Purpose: The purpose of this Section is to establish the regulations, standards and circumstances under which Accessory Dwelling Units also known as ADUs, and Junior Accessory Dwelling Units also known as JADUs may be allowed and to establish a means for creating additional affordable housing in Monterey County.

B. Definitions: Unless otherwise expressly stated, whenever used in this Section, the following terms shall have the meanings set forth below:

1. "Efficiency Kitchen" means a kitchen that includes each of the following: (a) a cooking facility with appliances; (b) a food preparation counter; and (c) food storage cabinets that are of reasonable size in relation to the size of the dwelling unit.

2. "High-quality transit corridor" means a corridor with fixed route bus service with service intervals no longer than 15 minutes during peak commute hours.

3. "Major transit stop" means a site containing an existing rail transit station, a ferry terminal served by either a bus or rail transit service, or the intersection of two or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods.

4. "Housing Organization" means a trade or industry group whose local members are primarily engaged in the construction or management of housing units or a nonprofit organization whose mission includes providing or advocating for increased access to housing for low-income households and have filed written or oral comments with the local agency prior to action on the housing development project.

5. "Livable Space" means a space in a dwelling intended for human habitation, including living, sleeping, eating, cooking, or sanitation.

C. Applicability:

1. This Section is applicable in all zoning districts which allow Single Family or Multiple Family Dwellings or both Single and Multiple Family Dwellings, subject to the requirements of this Section, as follows:

a. High Density Residential (HDR(CZ))
b. Medium Density Residential (MDR(CZ))
c. Low Density Residential (LDR(CZ))
d. Rural Density Residential (RDR(CZ))
e. Watershed and Scenic Conservation (WSC(CZ))
f. Coastal General Commercial (CGC(CZ))
g. Moss Landing Commercial (MLC(CZ))
h. Visitor-Serving Commercial (VSC(CZ))
i. Coastal Agricultural Preserve (CAP(CZ))
j. Agricultural Conservation (AC(CZ))

2. County plans and regulations to limit residential growth, including unit caps, do not apply to ADUs and JADUs.

3. Units previously permitted in the HDR, MDR, LDR, and WSC zoning districts in the North County, Del Monte Forest, and Carmel Area Land Use Plan areas as a "Senior Citizen" unit or a "Caretaker" unit prior to the adoption of these regulations shall be considered an ADU for the purposes of this Section.

4. Units previously permitted by the County as a "Guesthouse" may be converted to an ADU or JADU subject to this Section.

D. Regulations for ADUs and JADUs:

1. All ADUs and JADUs that will connect to a private sewage disposal system or that will obtain their water supply from a private well and/or a water system with two to 199 service connections are subject to review and approval by the County's Environmental Health Bureau to ensure adequate sewage disposal facilities and adequate water supply exist or have been demonstrated feasible to construct to serve the unit. The Director of Environmental Health shall evaluate adequacy of water quality and quantity for ADUs and evaluate adequacy of water quality for JADUs. If either adequate sewage disposal facilities or adequate water supply is not available, an ADU or JADU shall be prohibited.

2. An ADU or JADU may be separately rented, provided such rental is for 31 consecutive calendar days or longer. Rental of an ADU, a JADU, or a portion of an ADU or JADU for 30 consecutive calendar days or fewer is prohibited.

3. ADUs and JADUs shall require a design approval when zoning district is combined with a "D" district. The appropriate authority to take action on design approvals will be the Chief of Planning. Such Design approval decisions are not appealable.

4. For the Protection of Groundwater Resources in the North County Land Use Plan Area, when an ADU or JADU is proposed, water efficiency and conservation standards must be implemented. Before any building permit may be issued for such new construction, the applicant shall submit documentation for review and approval by the Chief of Building Services to demonstrate conformity with the following water efficiency and conservation measures:

a. All structures on that lot must incorporate the following water efficiency and conservation standards:

i. Toilets with a maximum tank size or flush capacity of 1.28 gallons;

ii. Shower heads with a maximum flow capacity of 1.8 gallons per minute;

iii. Bathroom faucets with a maximum flow capacity of 1.2 gallons per minute;

iv. All cloth washers and dish washers shall be Energy Star certified; and

v. Kitchen faucets with a maximum flow capacity of 1.8 gallons per minute shall be installed.

b. Proposed and existing landscaping must consist of either of the following: open space, native vegetative areas, use of drought tolerant native and/or non-invasive landscape plants with preferences given to native plants, and/or pervious or non-pervious hardscapes that do not require a permanent irrigation system. Pervious hardscapes shall be preferred over non-pervious options where feasible. Proposed or existing subsistence gardens such as family gardens, community gardens, or fruit/nut trees must employ water efficiency measures as drip irrigation to the greatest extent feasible.

c. Additional water conservation measures may include one or more of the following, as applicable:

i. Installation of a rainwater catchment system in compliance with Chapter 18.05 of this Code; or

ii. Installation of a greywater system in compliance with Chapter 18.05 of this Code.

E. Regulations for ADUs:

1. Limitation on the number of ADUs:

a. A legal lot with an existing or proposed single-family dwelling is limited to one ADU, regardless of the number of single-family dwellings allowed on that lot.

b. A legal lot with an existing multiple family dwelling is allowed up to eight detached ADUs, provided that the number of detached ADUs does not exceed the number of existing units on the lot. Additionally, ADUs within the existing multiple family dwelling are allowed for up 25 percent of the total number of units in the existing multiple family dwelling. However, any ADU within a multiple family dwelling must be created by conversion of portions of existing multiple family dwelling structures that are not used as livable space including, but not limited to, storage rooms, boiler rooms, passageways, attics, basements, or garages.

c. A legal lot with a proposed multiple family dwelling is allowed up to two detached ADUs.

2. Height Limitations:

a. An ADU attached to the main structure shall be subject to the height regulations of the zoning district for the main structure.

b. An ADU detached from the main structure shall be allowed to be up to 16 feet in height on a legal lot with an existing or proposed single-family dwelling, and be allowed up to 18 feet in height if there is an existing or proposed multiple family dwelling. Additional height allowances may be allowed for detached ADUs as follows:

i. If a lot that is within one-half mile walking distance of a major transit stop or high-quality transit corridor, ADUs shall be allowed up to 18 feet in height. For such lots, an additional two feet in height (up to 20 feet) shall be allowed to accommodate a roof pitch on the ADU that is aligned with the roof pitch of the main structure.

ii. Regardless of whether a lot is within one-half mile walking distance of a major transit stop or high-quality transit corridor, increases in height for detached ADUs may be considered with a Coastal Development Permit (ZA) when intended to provide for architectural consistency and compatibility with the main structure.

3. Setbacks:

a. Newly constructed ADUs shall comply with the front setback requirements of the applicable zoning district and shall have a four foot minimum side and rear setbacks.

b. No setback shall be required for ADUs created by converting existing structures to ADUs. Additionally, no setback shall be required for ADUs created by demolishing and reconstructing an existing structure or a portion thereof in the same location and to the same dimensions. ADUs created by converting an existing accessory structure and which include an addition of up to 150 square feet to accommodate ingress and egress shall have setbacks sufficient for fire and safety.

4. Size Limitation:

a. In the Carmel Area Land Use Plan area, North County Land Use Plan, and Del Monte Forest Land Use Plan area newly constructed attached ADUs, newly constructed detached ADUs, and conversions of legally constructed accessory structures built after March 25, 2024, shall not exceed 1,200 square feet.

b. For the protection of coastal resources, in the Big Sur Coast Land Use Plan and any area with "B-8" combining zoning district, newly constructed attached ADUs, newly constructed detached ADUs, and conversions of legally constructed accessory structures built after March 25, 2024, shall not exceed 1,000 square feet.

c. ADUs created through conversion of space in an existing main structure shall not be allowed to exceed 50 percent of the total square footage of the existing main structure.

5. Parking Requirements:

a. On lots within the designated areas shown in the Monterey County Coastal Implementation Plan, Appendix 15, "ADU Parking Required," at least one off-street parking space shall be required for each ADU, and all other off-street parking requirements for other uses onsite shall be met.

b. On lots that are not within the designated areas shown in Monterey County Coastal Implementation Plan, Appendix 15, "ADU Parking Required," no off-street parking spaces shall be required for each ADU, and no replacement parking spaces will be required if a garage, carport, or other covered parking structure is converted or removed to accommodate an ADU.

6. ADUs shall comply with building site coverage and the floor area ratio requirements of the applicable zoning district, and the setback requirements set forth in this Section, except where they would preclude the following:

b. Expansion of an existing accessory structure of not more than 150 square feet for the purpose of accommodating ingress and egress.

7. An attached ADU shall not have internal circulation with the main structure.

8. The County may issue a building permit for an ADU prior to issuance of building permit for the primary dwelling.

9. An ADU shall comply with all local building code requirements that apply to detached dwellings, provided, however, that County may approve a delay in enforcement of building standards in accordance with the parameters and procedures set forth in Health and Safety Code section 17980.12, as may be periodically amended, if compliance with the building standard is not necessary to protect health and safety.

10. ADUs are prohibited in the Big Sur Critical Viewshed as they would be inconsistent with the Scenic Resources policies of the Big Sur Coast Land Use Plan and due to their impact on traffic flow and safety.

11. An ADU shall not be sold or otherwise conveyed separate from the primary dwelling unless it meets the criteria of Government Code section 66341, including all the following:

a. The ADU or the primary dwelling was built or developed by a qualified nonprofit corporation.

b. There is an enforceable restriction on the use of the land pursuant to a recorded contract between the qualified buyer and the qualified nonprofit corporation.

c. The property is held pursuant to a recorded tenancy in common agreement.

d. A grant deed naming the grantor, grantee, and describing the property interests being transferred shall be recorded in Monterey County. A Preliminary Change of Ownership Report shall be filed concurrently with this grant deed.

e. If requested by a utility providing service to the primary residence, the ADU has a separate water, sewer, or electrical connection to that utility.

F. Regulations for JADUs:

1. Limitation on the number of JADUs: A legal lot with an existing or proposed single-family dwelling is limited to one JADU, regardless of the number of single-family dwellings allowed on that lot.

2. Height Limitations: JADUs shall be subject to the height regulations of the applicable zoning district for the main structure.

3. Setbacks: JADUs shall comply with the setback requirements of the applicable zoning district for the main structure.

5. Parking Requirements: No off-street parking is required for JADUs.

6. JADUs shall have an efficiency kitchen.

7. JADUs shall have a separate entrance from the main structure.

8. JADUs shall include an interior entry into the main structure if it will share a bathroom with the main structure.

9. Prior to the issuance of building permits for a JADU, the owner shall record a deed restriction which shall run with the land and include both of the following:

a. A prohibition on the sale of the JADU separate from the sale of the single-family residence, including a statement that the deed restriction may be enforced against future purchasers.

b. A restriction on the size and attributes of the JADU that conforms with this Section.

public hearing shall be required for Coastal Administrative Permit, and applications shall be processed within 60 calendar days after receiving a completed application. Appeals to Coastal Administrative Permits pursuant to this Section shall be processed pursuant to Chapter 20.86 of this Code.

3. A Coastal Development Permit may be required in addition to a Coastal Administrative Permit if the project includes components that require a Coastal Development Permit pursuant to other sections of Monterey County Code in addition to the ADU and JADU. This Chapter does not affect the requirements or process for such permits.

SECTION 17. Subsection E of Section 20.64.180 of the Monterey County Code is amended as follows:

E. On-site density for Accessory Dwelling Units, guesthouses, Agricultural Employee Housing, and Employee Housing accessory to an allowed use, shall be determined as follows:

Type of Unit	**North County**	**Big Sur Coast**	**Carmel Area**	**Del Monte Forest**
Accessory Dwelling Units and Junior Accessory Dwelling Units	~~Not Permitted~~ Excluded from density	~~Maximum of 50 in planning areas.~~ Excluded from density~~.~~	Excluded from density~~. 40 acre minimum.~~	Excluded from density~~.~~
Guesthouses	Excluded from density	Excluded from density	Excluded from density	Excluded from density
Employee Housing	Subject to LUPs overall buildout cap	Maximum of 300 in planning area	Permitted per Section 20.146.120.B.3	Not permitted
Agricultural Employee Housing	Based on parcel zoning	Permitted per Section 20.145.14.0.B.4.c.1	Excluded from density	Not permitted

All other residential development, including but not limited to Small Residential Care Facilities and Large Residential Care Facilities, is subject to the density established by the parcel's zoning district, except if provided elsewhere in this C~~c~~hapter.

"Excluded from density" means that the units may be considered in addition to the density allowed by the parcel's zoning classification.

SECTION 18: Subsection G of Section 20.64.180 of the Monterey County Code is amended to read as follows:

G. Buildout Limitations:

1. In North County, a total of two thousand forty-three (2,043) new lots or units may be created from the date of certification of the North County Land Use Plan. Accessory Dwelling units and Junior Accessory Dwelling units do not count towards this number. Also see build-out explanation and further information in Section 20.144.140.B.3.a. Approval of new residential units and lots may not exceed the build-out figure, as per the development standard.

2. In Big Sur, a total of one hundred (100) new residential lots may be created by new subdivisions ~~and fifty (50) new Accessory Dwelling Units may be permitted~~ from the date of certification of the Big Sur Coast Land Use Plan, as provided in Table 1 of the Big Sur Coast Land Use Plan.

3. Where this ~~Ordinance~~ Section establishes a numerical cap on a type of unit in a certain area, the Planning Department shall maintain a running tally of the number of units permitted since certification of the relevant land use plan. Findings for approval shall include the following: "This is the ( ) out of a maximum of ( ) (e.g., ~~Accessory Dwelling Units~~residential lots) to be approved for the ( ) Land Use Plan Area."

SECTION 19. Subsection A of Section 20.70.120 of the Monterey County Code is amended as follows:

A. The maintenance, alteration, or addition to existing single-family dwellings, including the establishment or expansion of ~~non-habitable~~ accessory structures not exceeding one thousand (1,000) square feet and normally associated with residential uses such as garages, decks, workshops, and storage buildings ~~not exceeding one thousand (1,000) square feet~~; however, the following classes of development shall require a permit because they involve a risk of adverse environmental impact:

1. Improvements to a single-family structure on a beach, wetland or seaward of the mean high tide line, in an environmentally sensitive habitat area, in an area designated as highly scenic in a certified land use plan, or within fifty (50) feet of a coastal bluff edge.

2. Any significant alteration of land forms including removal or placement of vegetation on a beach, wetland or sand dune, or within fifty (50) feet of the edge of a coastal bluff, or in an environmentally sensitive habitat area.

3. The expansion or construction of water wells or septic systems.

4. On property located between the sea and the first public road paralleling the sea or within three hundred (300) feet of the inland extent of any beach or of the mean high tide of the sea where there is no beach, whichever is the greater distance, or in significant scenic resources areas~~or in scenic road corridors~~, an improvement that would result in an

increase of ten (10) percent or more of internal floor area of an existing structure, the construction of an additional story (including lofts) in an existing structure, and/or any significant non-attached structure such as garages in excess of one thousand (1,000) square feet, fences over six feet in height, shoreline protective works, docks or trees or satellite dishes.

5. In areas determined to have critically short water supply that must be maintained for the protection of coastal resources or public recreational use, the construction of any specified major water using development not essential to residential use including but not limited to swimming pools, or construction or extension of any landscaping irrigation system.

6. Additions or expansions to developments which, by condition of previous permit issued by the County of Monterey or Coastal Commission, which by condition of such permit requires development permits for such addition or expansion.

SECTION 20. Part 6 of the Monterey County Coastal Implementation Plan is hereby amended to add a new Appendix 15 titled Accessory Dwelling Unit Parking Required. This new Appendix 15 is attached here.

SECTION 21. **SEVERABILITY**. If any section, subsection, sentence, clause, or phrase of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

SECTION 22. **EFFECTIVE DATE.** This ordinance shall become effective on the thirty-first day following its adoption by the County if certified by the California Coastal Commission or thereafter upon certification by the California Coastal Commission.

Commission Staff Note: The IP section below is proposed to be replaced in its entirety by the language shown in section 20.64.030 of Exhibit 2.

20.64.030 – Regulations for accessory dwelling units

A. Purpose: The purpose of this section is to establish the regulations, standards and circumstances under which an Accessory Dwelling Unit, accessory to the main residence on a lot may, be permitted.

B. Applicability: The provisions of this section are applicable in the HDR, MDR, LDR, RDR, and WSC zoning districts.

C. Permit Requirements: Accessory Dwelling Units shall require a Coastal Administrative Permit, or Coastal Development Permit if applicable, in all cases due to significant water, sewer, habitat, visual, and traffic resource constraints that exist within the Monterey County Coastal Zone. In non-residential zoning districts such as the Watershed and Scenic Conservation Zoning District, Accessory Dwelling Units shall require a Coastal Development Permit.

D. Accessory Dwelling Units Prohibited in certain areas: Accessory Dwelling Units would pose a hazard to public health, safety and welfare in certain unincorporated coastal areas of the County because of known infrastructure and resource limitations. These infrastructure limitations are recognized in the Land Use Plans for the North County, Big Sur, Carmel Area, and Del Monte Forest (See North County Land Use Plan Section 4.2, Big Sur Land Use Plan Section 5.2, Carmel Area Land Use Plan Section 4.2, and Del Monte Forest Land Use Plan Chapter Three—Introduction), and zoning restrictions (B-8 overlay). The County acknowledges prohibiting Accessory Dwelling Units in these areas may limit the housing opportunities of the region; however, specific adverse impacts on the public health, safety and welfare that would result from allowing Accessory Dwelling Units in these areas justify these limitations. Accessory Dwelling Units will not be permitted in the following areas:

    1. In any zoning district combined with a B-8 zoning overlay.

    2. In the North County Land Use Plan area.

    3. In the Carmel Area Land Use Plan area, on lots less than forty (40) acres in area.

    4. In the Big Sur Coast Land Use Plan area, no Accessory Dwelling Units beyond the first fifty (50) (including previously permitted caretaker units) approved in the Plan area from the time of certification of the Big Sur Coast Land Use Plan (April 9, 1986).

E. Regulations: Accessory Dwelling Units may be allowed subject to a Coastal Administrative Permit or Coastal Development Permit if applicable in designated districts and subject in all cases to the following regulations:

1. Only one Accessory Dwelling unit per lot shall be allowed.

2. Accessory Dwelling Units shall not be permitted prior to a main residence and shall be located on the same lot as the main residence. Accessory Dwelling Units must provide complete independent living facilities for one or more persons and shall contain permanent provisions for living, sleeping, eating, cooking, and sanitation. An Accessory Dwelling Unit may be rented.

3. The minimum lot size for establishment of an Accessory Dwelling Unit shall be as follows:

    a. Two acres in areas not served by public sewers.

    b. In Big Sur the minimum lot size shall be two acres.

    c. In Carmel the minimum lot size shall be forty (40) acres.

4. Accessory dwelling units are subject to the build out limitations established by each Land Use Plan but are not subject to density requirements of the zoning district in which a lot is located.

5. The maximum floor area for an Accessory Dwelling Unit is one thousand two hundred (1,200) square feet.

6. Parking for accessory dwelling units shall be consistent with the Parking Regulations of this Title (Chapter 20.58).

7. Within the applicable areas, units permitted as a Senior Citizen unit or a Caretaker unit prior to adoption of these regulations for Accessory Dwelling Units shall be considered an Accessory Dwelling Unit for the purposes of this section.

8. Accessory Dwelling Units shall conform to all of the zoning and development standards (lot coverage, height, setbacks, design, etc.) of the zoning district which governs the lot. Development standards shall be applied to Accessory Dwelling Units based on the cumulative development on the parcel. An Accessory Dwelling Unit attached to the principal residence shall be subject to the height, setback and coverage regulations of the principal residence. An Accessory Dwelling Unit detached from the principal dwelling shall be treated as a habitable accessory structure in regard to height, and setbacks.

9. Accessory Dwelling Units shall be designed in such a manner as to be visually consistent and compatible with the principal residence on-site and other residences in the area.

10. Accessory Dwelling Units are subject to review and approval by the Director of Environmental Health to ensure adequate sewage disposal and water supply facilities exist or are readily available to serve the unit.

11. Accessory Dwelling Units are subject to all the resource protection policies of the applicable Land Use Plan and shall not be permitted to substantially degrade resources at the site or in the area. Some of the resource constraints that may preclude development of an Accessory Dwelling Unit include but are not limited to:

    a. Areas containing environmentally sensitive habitat.

    b. In no case shall Accessory Dwelling Units be permitted within native Cypress habitat (Del Monte Forest).

    c. Areas where the Accessory Dwelling Unit would cause a substantial adverse impact on visual resources.

    d. In no case shall an Accessory Dwelling Unit be permitted within the critical viewshed (Big Sur);

    e. Areas determined to have a critically short water supply.

    f. Forest health and tree resources;

    g. Hazards including slopes, beach and bluff erosion, fire, traffic and other health and safety conditions;

    h. Potential impacts to historic and archaeological resources; and

    i. Conflicts with public access.

F. In order to grant the Coastal Administrative Permit or Coastal Development Permit the Appropriate Authority shall make the following findings.

    1. That the establishment of the Accessory Dwelling Unit will not, under the circumstances of the particular application, be detrimental to the health, safety, peace, morals, comfort and general welfare of persons residing or working in the neighborhood or to the general welfare of the County; and

    2. The Accessory Dwelling Unit as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

    3. That the subject property upon which the Accessory Dwelling Unit is to be built is in compliance with all rules and regulations pertaining to zoning uses, subdivisions and any other applicable provisions of this Title and that all zoning violation abatement costs, if any, have been paid.

    4. The site is physically suitable for the use proposed.

G. Any Accessory Dwelling Unit proposal which does not comply with the provisions of this section with regard to size, height, or setbacks shall require a Variance pursuant to Chapter 20.78.

Re: Agenda Item F13b: LCP Amendment No. LCP-3-MCO-25-0034-1-Part A - Accessory Dwelling Unit Update

Dear Chair Harmon and Commissioners,

We are writing on behalf of the Community Association of Big Sur (CABS), a local nonprofit organization that serves the Big Sur community and its visitors in a variety of ways. As the housing crisis in coastal communities like Big Sur worsens, our staff and board have been especially focused on housing issues. We see the proposed amendment to be an important step forward in addressing the housing crisis in Monterey County which is particularly severe in Big Sur. **The Community Association of Big Sur supports the Commission staff's recommendation to certify LCP Amendment No.LCP-3-MCO-25-0034-1-Part A - Accessory Dwelling Unit Update** and we strongly recommend taking action during the October 10 hearing rather than delaying a decision on this important amendment.

We strongly agree with the following assertion in the Coastal Commission staff report:

> "Big Sur has an acute lack of affordable housing, particularly for the employees who are critical for the functioning of Big Sur's visitor-serving economy . . . it is also an area of extraordinary coastal resource and public recreational access value, with appropriately protective LUP policies to ensure development is carried out consistent with these values . . . adding additional housing in in the form of ADUs/JADUs in existing developed areas and adjacent to existing residences is an important way to address the region's acute need for more employee housing."

We also appreciate the acknowledgement that:

> "Many workers in coastal Monterey's visitor-serving economy live far inland, commuting significant distances daily on congested roads because the housing that would be affordable to them is simply absent. Put another way, housing affordability on the Monterey coast is, at least in part, a public access issue . . . the proposed IP changes would benefit public access, which can be found consistent with the LUPs' public access and affordable housing provisions."

COMMUNITY ASSOCIATION OF BIG SUR

Community Association of Big Sur
PO Box 59, Big Sur, CA 93920

This amendment contains practical changes in policy that will benefit both the Big Sur community and the millions of people who visit Big Sur each year. CABS perspective is aligned with Commission staff in seeing this amendment as "a robust ADU program that should provide for critically needed housing in a manner protective of the region's extraordinary resource values."

CABS strongly supports the following Big Sur specific areas of the amendment:

- Removal of the existing 50-unit ADU cap (thereby allowing ADUs and JADUs on every parcel where residential use is allowed)
- Removal of the current 2-acre minimum parcel size limit for ADUs in Big Sur
- Allowance for ADUs and JADUs on land with Watershed and Scenic Conservation and Rural Residential land use designations
- Short-term rental use of JADUs and ADUs would be prohibited with a required rental length in Big Sur of 90 days or more
- ADUs continued requirement to meet the LUP's "critical viewshed" requirements, which prohibits new development within view of Highway 1 and other public areas
- Streamlining the permitting process for ADUs and JADUs

It will be important to ensure that this amendment is having its anticipated effect and we appreciate that the Commission notes that it intends to "closely monitor implementation to see how the market responds to the new regulations in terms of facilitating critically needed employee housing, and encourages the County to do the same, including to pursue future LCP amendments as appropriate to modify ADU regulations in Big Sur."

There is one important element regarding ADUs that we would like to suggest be considered for inclusion by Monterey County staff and the California Coastal Commission – we believe that non-brick and mortar structures merit consideration for inclusion in the category of ADUs. This could include yurts and "tiny homes" on wheels. Tiny homes in particular are commonplace elsewhere in California and across the US and have been shown to be effective in increasing access to affordable housing. Yurts and tiny homes have the following assets: they can be quickly constructed, they are available at a modest cost and they can be moved as needed. Given increasing fire risk in California due to climate change it is judicious at this point in time to ensure that regulatory bodies like the California Coastal Commission and County of Monterey are exploring all viable options for increasing housing in areas like Big Sur. An allowance for these types of structures as types of ADUs would of course be contingent on being connected to water and electricity and meeting the same environmental considerations that apply to brick and mortar structures. Were these structures included as types of ADUs we understand that they could be utilized by homeowners as options instead of brick and mortar structures rather than in addition to brick and mortar structures. In other words, this recommendation aligns with the current practice that there is a cap of one ADU per property. We believe that categorizing these types of structures as ADUs can be aligned with the LUP's coastal resource protection policies, including as related to environmentally sensitive habitat areas (ESHA), visual resources, slopes, and hazards.

Lastly, in the Commission's staff report on the proposed amendment there is acknowledgment of the possibility of a one year extension for a decision on this matter. Given the depth and clarity provided in the Coastal Commission's staff report we strongly recommend taking action during the October 10 hearing rather than delaying a decision on this important amendment.

COMMUNITY ASSOCIATION OF BIG SUR

Community Association of Big Sur
PO Box 59, Big Sur, CA 93920

In conclusion, CABS strongly agrees with Commission staff that the proposed amendment would allow for an increase in available housing stock in Big Sur while maintaining all existing coastal resource protections for Big Sur's extraordinary landscape. Therefore, CABS urges your approval of the Commission staff's recommendation to certify the Monterey County LCP Amendment Number LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units) at the California Coastal Commission hearing on 10/10/2025.

I applaud the efforts of The CCC's Central Coast Staff for the recommendations amending the LCP to ease restrictions on allowing ADUs, especially in Big Sur.

I am writing not only as a business owner but as a long time resident of Big Sur's South Coast Community. My family and I built and run Treebones Resort a small eco resort on the coast with 31 employees

Outside of the housing we provide on-site, there is not a single place on the Big Sur Coast for an employee to rent. This not only applies for employees of hospitality businesses but also for teachers and administrators of our local Big Sur Unified School District. It is my opinion that solving the affordable, workforce housing crisis in Big Sur is of paramount importance. This proposed amendment is a wonderful first step towards the solution.

It is helpful that the plan would ease some of the regulations that currently make it unpractical to create workforce housing. Enacting these amendments would offer a flexible, cost-effective, and context-sensitive solution.

I suggest that the ADU definition also include Tiny Houses with Wheels "THOWS". THOWs offer mobility and minimal site impact, aligning with the Big Sur LUP's goals to preserve the area's scenic and natural character.
- By allowing THOWs under the umbrella of "employee housing," Monterey County can uphold visual standards while providing desperately needed housing options.

Precedents

Monterey County zoning laws already allow THOWs (as mobile homes) that meet state building standards. They are explicitly allowed as agricultural employee housing in farm-zoned areas.
Several California counties have already enacted forward-thinking ordinances recognizing THOWs' as affordable housing alternatives:
San Luis Obispo County allows THOWs as ADUs and recently approved a tiny home cluster development called Waterman Village.

- Nevada County has approved THOWs (≤ 400 sq ft) as primary dwellings, ADUs, and units within dwelling groups. This new flexibility directly addresses housing needs and enhances affordability.
- Santa Cruz County permits one THOW per parcel as an ADU, with DMV registration and utility requirements.

- San Benito, Mendocino, Placer, Los Angeles (unincorporated), San Diego, San Jose (Santa Clara), and Humboldt counties also allow THOWs, typically as ADUs under defined safety/design standards.

Suggested Ordinance Language for Big Sur

I respectfully encourage the County to incorporate language such as:

"Tiny Houses on Wheels (THOWs), defined as movable structures no larger than 400 square feet and equipped with kitchen, bathroom, and sleeping facilities, may be permitted as employee housing—either as primary dwellings, Accessory Dwelling Units (ADUs), or grouped workforce housing—by right in Big Sur zones where employee housing is allowed, subject to standards for durability, utility services, aesthetic compatibility, and safety (e.g., ANSI certification, DMV registration, utility hookup, and site placement guidelines)."

Thank you for your consideration. I would welcome the opportunity to discuss this proposal further.

Sincerely,

John Handy, owner Treebones Resort, Big Sur

Public Comment on Monterey County LCP Amendment LCP-3-MCO-25-0034-1-Part A (Accessory Dwelling Units)

To the California Coastal Commission and Monterey County Planning Staff:

Thank you for working to update Monterey County's Local Coastal Program to comply with state ADU law while protecting the unique character of Big Sur. Balancing housing needs with preserving our extraordinary coast is critical, and I appreciate the challenge this presents. Below are some key areas I have concerns with and urge the commission to request changes to the document as written.

Opposition to 90-Day Rental Minimum

The imposition of a 90-day minimum rental period for ADUs and JADUs in Big Sur is out of step with California law and common practice. State law clearly requires a minimum rental period of 30 days for these units, as reinforced by the California Department of Housing and Community Development's review of the City of San Marino's ADU ordinance. HCD states:

- "A minimum 90-day rental requirement imposes rental requirements for JADUs that are inconsistent with state law, which only requires a minimum rental term of 30 (thirty) days for ADUs and JADUs built pursuant to Government Code section 66323. Therefore, the City must amend its ordinance to clarify that JADUs rental term must be longer than 30 days consistent with Government Code section 66323 subdivision (d)." [HCD letter to San Marino, August 26, 2024, p. 4]

The County's proposed 90-day rental term is similarly inconsistent and should be revised to align with state law and common practice.

Opposition to ADU Size Reduction

Reducing the maximum allowable ADU size in Big Sur from 1,200 to 1,000 square feet may seem minor but it is a roughly 17% reduction that significantly impacts livability and housing viability. This size decrease offers little additional environmental or coastal resource protection beyond existing setbacks, height limits, and habitat safeguards. Instead, it restricts affordable housing options and deters construction when we need housing most.

Concerns Regarding Short-Term Rental Prohibitions

State law prohibits short-term rentals in new ADU construction to protect long-term housing, which is reasonable. However, for existing grandfathered ADUs—such as small cabins not suited for long-term rentals—short-term rental use, especially where the owner lives onsite, should be permitted. Blanket prohibitions remove needed flexibility, restrict property owner rights, and will unintentionally reduce available coastal visitor accommodations that sustain our local economy (many others like myself depend on rentals for income in retirement and will be forced to sell to a likely second home owner who will not provide coastal access for employees nor visitors).

I urge the Commission to consider the attached public comment I submitted on August 8, 2025, which explains how carefully managed short-term rentals have been successfully regulated without coastal harm in other counties like Sonoma and San Luis Obispo. Historic cabins and existing permitted rentals that contribute to Big Sur's visitor-serving economy deserve protection as part of any balanced STR policy. By allowing them under this LCP amendment will set up the county to be able to make adaptive changes to their ordinance in the future, especially if litigation is pursued.

Compliance with Assembly Bill 2533

Finally, the County should incorporate language ensuring compliance with Assembly Bill 2533 (AB 2533), which took effect January 1, 2025, requiring streamlined legalization of unpermitted ADUs and JADUs built before January 1, 2020, with limited permit fees and only health and safety standards per California Health and Safety Code section 17920.3. Including this language will facilitate greater housing legalization and affordability.

Conclusion

To support housing, community, and coastal resource goals, the Commission and Monterey County should:

- Align rental minimums with state law's 30-day requirement,
- Maintain the 1,200 square foot maximum ADU size,
- Permit short-term rentals in existing, grandfathered ADUs where appropriate,
- Explicitly adopt AB 2533 compliance language,
- Heed the attached August 8 public comment advocating balanced STR regulations.

Thank you for your consideration.

Brianne

Public Comment on August 2025 Agenda Item Wednesday 15a - Monterey County LCP Amendment No. LCP-3-MCO-24-0039-1 (Vacation Rentals).

Dear Commissioners,

I urge you to vote NO on Monterey County's proposed ban on Coastal Visitor Rentals (CVRs) in Big Sur.

The regulations are not aligned with the Coastal Act and fail to balance the public's right to access the coast, especially south of Carmel. Even the staff report concedes there is "little evidence" that banning CVRs will increase workforce housing. In reality, this proposal restricts coastal access without preserving coastal resources. Some key points to take into consideration:

1. Visitor Experience and Coastal Connection

Short-term rentals are not just about the price, although they are often more affordable than hotels when you include kitchens, parking, and no extra resort fees.

They provide something hotels cannot:
- Immediate proximity to nature, hiking trails, and the ocean
- A peaceful, residential setting that helps visitors connect with the coast and the community

If the goal of the Coastal Act is to foster public appreciation and stewardship of the coast, keeping this kind of visitor experience is essential.

2. Coastal Commission Precedent

A total ban would conflict with Commission precedent in places like Sonoma and San Luis Obispo Counties, where the Commission approved small-scale, permitted STRs including guesthouses and ADUs while protecting coastal resources. These models keep existing permitted units in operation instead of eliminating them.

3. Traffic and Resource Use

While the county doesn't mention it in their regulation, a large part of their discussion during public meetings focused on the traffic and resource impacts of STRs.
- Traffic: STR guests are already in the area and travel at non-peak times. Removing local accommodations will increase day-trip traffic from the Monterey Peninsula and farther away, adding congestion and emissions.
- Resource Use: STRs are occupied fewer days per year than long-term rentals, meaning less water, septic, and energy use. They are also maintained to higher standards.

4. False Access Claims

The County's "Limited Rental" model would reduce meaningful access:
- Whole house rentals capped at three groups per year are not viable for owners and would not convert to long-term housing.
- Currently, 24 STRs on the Big Sur coast host about 4,000 visiting groups annually, including families, writers, and couples who experience the coast's unique remoteness and lack of cell service.
- The proposed model would reduce this to a fraction of current levels and remove the kind of special access Big Sur offers.

5. The Hosted Rental Myth

There are no hosted rentals on the coast today, and there is no reason to expect them in the future. Few owners will share living space with strangers, and most guests prefer privacy. Rates for hosted rentals are too low to cover cleaning costs, making them economically unrealistic. This so-called compromise will not create meaningful coastal access.

6. No Proven Housing Benefit

In markets where STR bans were enacted, there is no evidence that rents decreased or long-term housing supply increased. Many homes simply became second homes, which reduced both housing availability and public access.

7. Better Models Exist

Other coastal counties with similar natural resources, including Marin, Santa Cruz, and San Luis Obispo, manage STRs without outright bans:

- Grandfather existing units that were legally operating.
- Allow guesthouses and historic cabins already used as STRs to continue without forcing $7,000 Coastal Development Permits.
- Limit only new STRs, similar to the Sonoma County approach.

Historic Big Sur cabins often lack space and amenities for long-term tenants but are ideal for short visits. This keeps public access strong while protecting housing stock.

8. Displacement of Community

I can vouch that this regulation will force me to sell my property to a second or third homeowner, like many others I know. I have no impact on my neighbors and depend on the income for my livelihood as I don't have any retirement. This blanket ban is unjust and will negatively impact many retirees that depend on STRs to survive in one of the most expensive places to live in California. We are a part of our community and live here year round providing jobs and revenue to the county.

In conclusion:
A ban is not balance and will negatively impact the community. It is an overreach that serves the political interests of a few at the expense of the public's right to enjoy the coast. The Commission should instead adopt a limited, grandfathered model that protects existing STRs, guesthouses, and ADUs while preventing uncontrolled growth. This approach meets the Coastal Act's mandate for public access and supports the community's environmental values.

Dear Commissioners,

My name is Lucas Handy, and I serve as the South Coast Representative on the Big Sur Multi-Agency Advisory Council (BSMAAC). I am writing on behalf of the entire South Coast community of Big Sur to express strong support for the staff recommendation on this agenda item.

Our community is in the midst of a critical housing crisis. Service workers, small families, and long-time residents are being displaced as property values rise and absentee ownership increases in our community. Without access to more ADU permits, Big Sur risks losing the very people who sustain our schools, staff our small businesses, and provide essential services to both residents and visitors.

Removing the restrictive cap and allowing ADUs under the staff's proposed framework is extremely essential. It would create desperately needed housing for our local workforce and families while maintaining the environmental safeguards that protect this treasured coastline.

For these reasons, we strongly urge the Commission to adopt the staff recommendation and ensure that Big Sur remains not only a place of natural beauty but also a living, thriving community.

Sincerely,

Lucas Handy

Dear Commissioners:

As a landowner and long-time resident of Big Sur, I write in support for the LCP Amendment No. LCP-3-MCO-25-0034-1-Part A - Accessory Dwelling Unit Update. Big Sur faces an excruciating affordable housing shortage despite -- or as a result of -- the area being a prime tourist attraction. My support for the Amendment is contingent on the Amendment also prohibiting use of ADUs for short-term rentals. Short-term rentals (currently illegal, but still possibly ongoing) are among the activities that exacerbate the current housing shortage.

Hello Breylen,

Thank you. I really appreciate your reply. While I understand that LUAC review is a County process outside the scope of the LCP amendment, my concern is with the practical effect of approving a **streamlined CDP process** for ADUs in Big Sur.

Under Monterey County's current process, a **standard CDP is discretionary** — it requires findings, staff analysis, and is almost always referred to the LUAC for review before action is taken. That LUAC review has been the consistent safeguard ensuring projects in Big Sur are measured against the Land Use Plan and evaluated with local knowledge.

By contrast, the proposed **"streamlined" Coastal Administrative Permits** are intended to be handled as **non-discretionary approvals** based only on "objective standards." These permits are processed by staff without a hearing, and almost never referred to the LUAC because there is no discretionary judgment to trigger a referral.

This is the core problem: while the amendment still requires CDPs, the shift to the administrative track effectively removes LUAC review from the process. In Big Sur, that means the community loses its only meaningful avenue for early input on ADUs.

I believe the Commission should acknowledge this consequence when considering certification. Approving this amendment is not just about ADUs — it is about whether the unique system of local review in Big Sur will be bypassed through a change in process.

Please include this email in the public record for Agenda Item so Commissioners can weigh how streamlining will function on the ground in Big Sur.

Sincerely,

Trey Kropp

The LUACs are entities by created by a County; as I understand it, their charters are created by the County Bord of Supervisors. The LUAC review process is therefor a County process outside of the LCP. The existing ADU regulations do not require LUAC review, and nor does the proposed amendment. While we greatly appreciate the input of the LUACs on projects, particularly in Big Sur, any changes to the scope of LUAC review for ADUs is in the County's hands and is outside the scope of this amendment and outside the scope of the Commission's authority. Please feel free to reach out if you have any questions.

Dear Chair and Commissioners,

I am writing from Big Sur regarding the proposed Monterey County LCP amendment on Accessory Dwelling Units. While I understand and support the state mandate to expand housing opportunities, I must strongly object to the portion of this ordinance that

"streamlines" Coastal Development Permit review in a way that bypasses Local Land Use Advisory Council oversight.

In a place like Big Sur, LUAC review is not an inconvenience — it is essential.

- **Local knowledge matters.** LUAC members live here, know the land, and understand the impacts of development on viewsheds, slopes, fire safety, water, and sensitive habitats in ways that cannot be captured by administrative review alone.
- **Absentee ownership is rising.** Increasingly, properties are owned by individuals who do not live in Big Sur and are not part of the community. LUAC review is often the only mechanism by which projects are vetted by people who are accountable to this community and who experience the impacts of development directly.
- **Transparency is owed to the public.** LUAC meetings provide a forum for neighbors and stakeholders to raise concerns before permits are issued. To remove this layer of review is to remove the community's seat at the table.

The Coastal Commission and the Monterey County LUP have always recognized that Big Sur is an extraordinary and fragile coastal resource. The critical viewshed, ESHA protections, and rural character policies exist because this place is unique and cannot be treated the same as suburban Carmel or North County. That uniqueness demands stronger public oversight, not less.

It is not a big ask to require LUAC review for ADUs in Big Sur. In fact, it is owed to our community as part of the balance that the Coastal Act promises: development may occur, but only when consistent with resource protections and the character of local communities.

I urge the Commission to amend this ordinance to **restore LUAC review for all ADUs in Big Sur**. Streamlining may be appropriate in urban areas where development patterns are uniform, but in Big Sur, it is unacceptable. Our community's voice must not be cut out of decisions that directly shape its future.

Respectfully,

There is a significant housing shortage in North Monterey county:

It has been years since CA changed the ADU laws; you should not delay this decision any longer.

23	2024.07	5/14/2024	Alejo	HCD		Spencer	County Tenant Relocation Assistance Ordinance Update	This referral request is to update the current County Relocation Assistance Ordinance 18.15.050 – "Tenant relocation provisions for rental housing" to allow an option by the County of Monterey to require landlords/property owners, who violate the county housing ordinance, to pay owed tenant relocation assistance upfront into a county account so that tenants can claim the owed rent later, without having to interact with the landlord/property owner and to better track payments made to housing victims and ensure timeliness. A preliminary response was presented to the Board on June 25, 2024. The Board provided direction to HCD to prepare an ordinance that amend current requirements to authorize the County to provide tenant relocation assistance directly to impacted families and individuals and to seek reimbursement from the landlord/property owner for those costs. The ordinance is on the list of long-range planning projects and is scheduled in "future years." The Board is asked to help review and prioritize the long-range projects annually.	Pending

A preliminary response will be presented to the Board on October 1, 2024. EHB has prepared a draft amended ordinance that will be sent to County Counsel for review this week. The amendments add the option to use POU/POE for new development on a vacant lot or for an ADU or other second unit. Once County Counsel approves the amended ordinance, EHB will contract with Rincon to do the Initial Study. It is necessary to prepare the draft ordinance before contracting with Rincon, so they know what to include in the initial study. The updates in the amended ordinance regarding new development are the same as Rincon analyzed in the initial CEQA document, which will help streamline the process. Staff gave an update to the Board on April 22, 2025 and were instructed to return by December 2025 with a proposed amendment to the ordinance and an initial Study-Mitigated Negative Declaration evaluation. A preliminary response will be presented to the Board on October 1, 2024. Staff presented a Preliminary Analysis Response to the Board on 10/1/24 where the referral will be deemed complete contingent upon staff returning in 6 months with recommendations for updating/changing the Rooster ordinance. Staff is waiting to see if there is a change in State law and will bring the update back to the BoS once that information is confirmed next month (March 2025). Then a date will be set on the Board Agenda for an update. Staff is working on a letter of support for AB-928 (Rogers) Cockfighting Cruelty Act that is going to the Hitchcock Road Advisory Committee the week of May 19, 2025.	Pending

A preliminary response was presented to the Board on October 15, 2024. Referral Title: Esperanza Care 2.0		
Referral Purpose: The purpose of this referral is to bring back the Esperanza Care Program in light of thousands of Monterey County residents who are expected to lose their MediCal coverage starting in 2026.		
Brief Referral Description: In 2015, the Monterey County Board of Supervisors approved $500,000 to create the Pilot Program for the Remaining Uninsured to provide healthcare services to county residents who remained uninsured and unable to pay for costly medical care, procedures and prescription medicines. At the time, it was estimated that 30,000 to 50,000 adult residents over the age of 25 were without any medical insurance due to their documentation status. The pilot program was later renamed Esperanza Care and became effective October 1, 2017 with an enrollment cap of 2,500. It provided limited scope pharmaceuticals, laboratory and radiology services. Starting in 2021, the program was expanded in scope of services, increased in funding to a $2.5M+ program, and the enrollment cap was increased to 4,500 maximum. However, with the historic MediCal expansion in California that covered all eligible adults regardless of immigration status in 2024, the Esperanza Program was ended. Unfortunately, due to the recent federal changes to Medicaid that funds California's MediCal via HR 1 on July 4, 2025, it is estimated that approximately 27,000 residents will lose their MediCal coverage starting next year. These dire circumstances merit bringing Esperanza Care back to once again serve our county residents who will have no other form of healthcare coverage.

Referral Title: Local Government Outer Continental Shelf (OCS) Coordination Program and Coalition

Referral Purpose: Consider adopting a resolution to affirm the County of Monterey's opposition to offshore drilling and seabed mining, as well as consider joining and financially contributing to the Local Governments OCS Coordination Program to ensure the local government perspective is not diminished in federal decision making.

Brief Referral Description (attach additional sheet as required):
With the signing of the executive order Unleashing American Energy Act in January of 2025, federal agencies are moving quickly to open new offshore drilling opportunities. Additionally, in April 2025, President Trump signed the Unleashing America's Offshore Critical Minerals and Resources executive order, which promotes deep seabed mining that poses serious threats to California's coastal economies, marine ecosystems, and climate goals. As a result, Santa Cruz County has initiated the re-establishment of the Local Governments OCS Coordination Program. The group's original membership consisted of Santa Cruz, Monterey, San Luis Obispo, City and County of San Francisco, Marin, Sonoma, Mendocino, and Humboldt, along with several cities including Santa Cruz, Laguna Beach, and Newport Beach, and SANDAG. Individual local governments often lack the staff capacity to monitor fast-moving federal actions, review complex technical documents, and engage directly with Congress and federal agencies. Additionally, without coordinated participation, the local government perspective is often diminished in federal decision making. The Local Government OCS Coordination Program provides the infrastructure to address these challenges by offering shared resources, timely updates, and direct representation. It is estimated that the annual costs for the coordination efforts will be ~$250,000, which would be shared across participating jurisdictions to help reduce the cost burden on individual jurisdictions.

Board of Supervisors

Introduced: 11/10/2025

Current Status: Agenda Ready
Matter Type: Preliminary Analysis Report

Receive a preliminary response to Referral Number 2025.15 (Church) regarding adoption of an urgency ordinance placing a moratorium on new Battery Energy Storage Systems (BESS) in the unincorporated areas of Monterey County while new policies and regulations for BESS are developed.

RECOMMENDATION:
It is recommended that the Board of Supervisors receive a report and provide direction to staff to prepare an interim ordinance (4/5ths vote required to adopt an interim ordinance) and proceed with development of new regulations for BESS in the unincorporated areas of Monterey County.

SUMMARY:
On October 22, 2025, Supervisor Church introduced a referral (Referral No. 2025.15) requesting adoption of an urgency ordinance placing a moratorium on Battery Energy Storage System (BESS) facilities in the unincorporated areas while the County develops policies for oversight, permitting and operations of BESS facilities. Housing and Community Development (HCD) and the Office of County Counsel have been assigned lead roles in responding to this referral. This report provides a preliminary response to the referral pursuant to the Board Policy Manual regarding the referral process.

For the purposes of estimating costs, efforts, challenges, and timing on this referral there are two distinct but required and related efforts that HCD and the Office of the County Counsel would undertake: the preparation and adoption of an interim ordinance, and the development of new rules during the time the interim ordinance is effective.

DISCUSSION:

Interim Ordinance

California Government Code section 65858 allows local jurisdictions to adopt, without following the procedures otherwise required for adoption of a zoning ordinance (as an urgency measure), and to protect the public safety health and welfare, an interim ordinance prohibiting any use(s) that may be in conflict with a contemplated general plan, specific plan, or zoning proposal that the local government intends to study within a reasonable time. An interim ordinance pursuant to this provision cannot be adopted or extended unless findings are made that there is a current and immediate threat to the public health, safety, or welfare, and that the approval of the use(s) under current zoning rules would result in that threat to public health, safety, or welfare. Interim ordinances considered under Government Code section 65858 must be adopted by the Board of Supervisors with at least a 4/5th vote.

If adopted, the interim ordinance would be in effect for 45 days. That 45 days may be extended (4/5th vote required again) twice, by 10 months and 15 days and subsequently by 1 year, or once by 22 months and 15 days. In both cases, the interim ordinance could be effective for a total of 2 years.

If pursued, HCD working with the Office of County Counsel, would draft an interim ordinance and schedule the ordinance for Board consideration at a noticed public hearing and less than two months later, we would return to the Board for a second public hearing to consider an extension to the interim ordinance. It is anticipated that staff could have the interim ordinance before the Board in early February 2026. An ordinance extending the effective date would then likely be considered in late March/early April 2026 and we would have until February 2028 to work on long-term regulations.

HCD and the Office of County Counsel can accomplish the task of processing the interim ordinance with little costs or impacts to existing services. An interim ordinance is limited to prohibiting a use while rules are being studied. In this case, utility scale BESS facilities would be prohibited during the time the interim ordinance is effective. There is a high degree of confidence that the County can make the findings needed for the adoption of an interim ordinance relating to utility scale BESS in this case. However, there remains a state certification process under the State Energy Resources Conservation and Development Commission (Energy Commission) for BESS faculties capable of storing 200 megawatthours or more of electrical energy that may allow for BESS development despite a local prohibition/interim ordinance (California Public Resources Code section 25545 *et seq*.). As such, a BESS provider could bypass the County permitting process and seek approval directly from the Energy Commission if the proposed facility is capable of storing 200 megawatthours or more. (Public Resources Code section 25545.1). Specifically, even if the Board adopts an interim ordinance putting a moratorium on permitting for BESS facilities, an operator could still seek approval from the Energy Commission.

It is also worth noting that Governor Newsom just signed Senate Bill 283, authored by Senator John Laird (D-Santa Cruz), which requires battery developers to work directly with local fire agencies before construction begins. The new law also mandates safety inspections before a facility can go online, with the cost of those inspections covered by the facility owner. The bill goes into effect on January 1, 2026.

This step of adopting an interim ordinance establishing the temporary prohibition on BESS facilities can only be done in conjunction with the requirement to contemplate new rules for the review and oversight of BESS facilities in the unincorporated areas. The development of new requirements will take additional resources (see discussion below).

The Counties of Orange and Solano both adopted interim ordinances placing moratoriums on new BESS facilities. Both counties are still within the two years under the interim ordinances and studying permanent regulations.

New Rule Making

In connection with adoption of an interim urgency ordinance, the County of Monterey will be

committing to development of new rules for BESS facilities in the unincorporated areas with the goal of implementing the new rules before the expiration of the interim ordinance (2 years maximum). New rule adoption must follow normal state law procedures and legal requirements including environmental review, noticed public hearings, and opportunity for public participation. This step will take time. An exact timeline is difficult to determine at this stage.

Creating new rules for BESS facilities will involve staff time from multiple agencies including the MBARD, fire agencies, Sheriff, Health, the Department of Emergency Management, HCD, and the Office of County Counsel. Staff time would be needed for data collection, review of legal and technical information, public participation, inter-departmental coordination and consultation, public hearings, reports, ordinances, regulatory processes (CEQA, Energy Commission, Coastal Commission, etc.), and implementation. It is anticipated that HCD would lead the effort on development of new rules. HCD has not had an opportunity to coordinate with other departments on their staffing and resource needs before producing this preliminary report. Some of the resource needs may depend on the specifics of any rules that may be adopted and the level of effort needed to implement those rules after their adoption. On the topic of resources, given recent events related to BESS facilities, the County is already in a position where significant progress has been made on data collection and technical review. Anecdotally, staff believes that there may be costs incurred by agencies in response to BESS facility incidents that should be considered when weighing the cost of developing rules aimed at preventing the incidents or at least being prepared to respond in an organized fashion. Leading the effort, HCD will likely request some funding to prepare necessary environmental documentation. Specific costs will be developed but are estimated to be in the range of about $100,000.

Challenges to rule development include, but are not limited to:

- An evolving regulatory landscape at local and state levels which could impact outcomes and require adjustments;
- An evolving understanding of technology, the hazards posed by the technology, and adequate ways to prevent of plan for those hazards; and
- Competing priorities for limited staff resource time.

HCD has six positions on the long-range planning team who are tasked with development of new land use polies and regulations. Two of those six positions are currently vacant. In early 2025, the Board adopted priorities for HCD and the long-range planning team has been focused on the following projects:

1) Housing Element 6th Cycle Update, Rezoning and Implementation;
2) Permit Process Streamlining;
3) Castroville Community Plan Update;
4) Moss Landing Community Plan Update;
5) Chualar Community Plan
6) Carmel River Floodplain Restoration and Environmental Enhancement (CRFREE) Project;
7) Safety Element Update;
8) Environmental Justice Element;
9) Vacation Rental Ordinances (coastal certification)

10) Accessory Dwelling Unit Ordinances & Land Use Plans (coastal certification; Inland)
11) Big Sur Coast Land Use Plan Update; and
12) Fort Ord Habitat Resource Management Plan.

HCD has completed items 9 and 10 from the list above. Of note, substantial progress has been made on item 4; the Moss Landing Community Plan Update. There is overlap with the proposed BESS facility regulations and the ability to complete the Moss Land Community Plan update. Adding BESS facility activities to the HCD priorities would likely delay progress on items 2, 3, 4 and 11.

Staff recognizes the need to address BESS facilities for the protection of public health, safety and welfare and hence we are recommending the Board direct staff to proceed with the interim ordinance and the necessary rule making.

OTHER AGENCY INVOLVEMENT:
This report has been prepared by HCD with input from the Office of County Counsel. Moving forward with development of new regulations for BESS facilities will involve multiple Agencies including: the Air District, Fire Districts, the Sheriff's Office, Health, the Department of Emergency Management, HCD, and the County Counsel.

FINANCING:
An exact estimate of the costs to complete the necessary tasks is not available at this time. It is estimated that staff resources included in the FY 25-26 adopted budget for HCD would be allocated and no additional staff resources are required to develop the necessary ordinances and regulations on behalf of HCD. Additional resources may be requested to implement new rules in the future dependent on the nature of the rules that are developed. HCD anticipates that planning consulting services may be needed to provide technical assistance and/or assist with environmental review pursuant to CEQA. Roughly estimated to be approximately $100,000 in the 26-27 fiscal year.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
Adopting of an interim ordinance and development of new rules for BESS facilities would align with the goals of the Board to improve the well-being and quality of life and to create and maintain safe a resilient community by addressing the health and safety threats posed by such facilities. It could be somewhat of an impediment in the Sustainable infrastructure category as BESS facilities are part of the electrification strategy in addressing climate goals.

It is recommended that the Board of Supervisors receive a report and provide direction to staff to prepare an interim ordinance (4/5ths vote required to adopt an interim ordinance) and proceed with development of new regulations for BESS in the unincorporated areas of Monterey County.

SUMMARY:
On October 22, 2025, Supervisor Church introduced a referral (Referral No. 2025.15) requesting adoption of an urgency ordinance placing a moratorium on Battery Energy Storage System (BESS) facilities in the unincorporated areas while the County develops policies for oversight, permitting and operations of BESS facilities. Housing and Community Development (HCD) and the Office of County Counsel have been assigned lead roles in responding to this referral. This report provides a preliminary response to the referral pursuant to the Board Policy Manual regarding the referral process.

For the purposes of estimating costs, efforts, challenges, and timing on this referral there are two distinct but required and related efforts that HCD and the Office of the County Counsel would undertake: the preparation and adoption of an interim ordinance, and the development of new rules during the time the interim ordinance is effective.

DISCUSSION:
Interim Ordinance
California Government Code section 65858 allows local jurisdictions to adopt, without following the procedures otherwise required for adoption of a zoning ordinance (as an urgency measure), and to protect the public safety health and welfare, an interim ordinance prohibiting any use(s) that may be in conflict with a contemplated general plan, specific plan, or zoning proposal that the local government intends to study within a reasonable time. An interim ordinance pursuant to this provision cannot be adopted or extended unless findings are made that there is a current and immediate threat to the public health, safety, or welfare, and that the approval of the use(s) under current zoning rules would result in that threat to public health, safety, or welfare. Interim ordinances considered under Government Code section 65858 must be adopted by the Board of Supervisors with at least a 4/5th vote.

If adopted, the interim ordinance would be in effect for 45 days. That 45 days may be extended (4/5th vote required again) twice, by 10 months and 15 days and subsequently by 1 year, or once by 22 months and 15 days. In both cases, the interim ordinance could be effective for a total of 2 years.

If pursued, HCD working with the Office of County Counsel, would draft an interim ordinance and schedule the ordinance for Board consideration at a noticed public hearing and less than two months later, we would return to the Board for a second public hearing to consider an extension to the interim ordinance. It is anticipated that staff could have the interim ordinance before the Board in early February 2026. An ordinance extending the effective date would then likely be considered in late March/early April 2026 and we would have until February 2028 to work on long-term regulations.

HCD and the Office of County Counsel can accomplish the task of processing the interim ordinance with little costs or impacts to existing services. An interim ordinance is limited to prohibiting a use while rules are being studied. In this case, utility scale BESS facilities would be prohibited during the time the interim ordinance is effective. There is a high degree of confidence that the County can make the findings needed for the adoption of an interim ordinance relating to utility scale BESS in this case. However, there remains a state certification process under the State Energy Resources Conservation and Development Commission (Energy Commission) for BESS faculties capable of storing 200 megawatthours or more of electrical energy that may allow for BESS development despite a local prohibition/interim ordinance (California Public Resources Code section 25545 *et seq*.). As such, a BESS provider could bypass the County permitting process and seek approval directly from the Energy Commission if the proposed facility is capable of storing 200 megawatthours or more. (Public Resources Code section 25545.1). Specifically, even if the Board adopts an interim ordinance putting a moratorium on permitting for BESS facilities, an operator could still seek approval from the Energy Commission.

It is also worth noting that Governor Newsom just signed Senate Bill 283, authored by Senator John Laird (D-Santa Cruz), which requires battery developers to work directly with local fire agencies before construction begins. The new law also mandates safety inspections before a facility can go online, with the cost of those inspections covered by the facility owner. The bill goes into effect on January 1, 2026.

This step of adopting an interim ordinance establishing the temporary prohibition on BESS facilities can only be done in conjunction with the requirement to contemplate new rules for the review and oversight of BESS facilities in the unincorporated areas. The development of new requirements will take additional resources (see discussion below).

The Counties of Orange and Solano both adopted interim ordinances placing moratoriums on new BESS facilities. Both counties are still within the two years under the interim ordinances and studying permanent regulations.

New Rule Making

In connection with adoption of an interim urgency ordinance, the County of Monterey will be committing to development of new rules for BESS facilities in the unincorporated areas with the goal of implementing the new rules before the expiration of the interim ordinance (2 years maximum). New rule adoption must follow normal state law procedures and legal requirements including environmental review, noticed public hearings, and opportunity for public participation. This step will take time. An exact timeline is difficult to determine at this stage.

Creating new rules for BESS facilities will involve staff time from multiple agencies including the MBARD, fire agencies, Sheriff, Health, the Department of Emergency Management, HCD, and the Office of County Counsel. Staff time would be needed for data collection, review of legal and technical information, public participation, inter-departmental coordination and consultation, public hearings, reports, ordinances, regulatory processes (CEQA, Energy Commission, Coastal Commission, etc.), and implementation. It is anticipated that HCD would lead the effort on development of new rules. HCD has not had an opportunity to coordinate with other departments on their staffing and resource needs before producing this preliminary report. Some of the resource needs may depend on the specifics of any rules that may be adopted and the level of effort needed to implement those rules after their adoption. On the topic of resources, given recent events related to BESS facilities, the County is already in a position where significant progress has been made on data collection and technical review. Anecdotally, staff believes that there may be costs incurred by agencies in response to BESS facility incidents that should be considered when weighing the cost of developing rules aimed at preventing the incidents or at least being prepared to respond in an organized fashion. Leading the effort, HCD will likely request some funding to prepare necessary environmental documentation. Specific costs will be developed but are estimated to be in the range of about $100,000.

Challenges to rule development include, but are not limited to:

- An evolving regulatory landscape at local and state levels which could impact outcomes and require adjustments;
- An evolving understanding of technology, the hazards posed by the technology, and adequate ways to prevent of plan for those hazards; and
- Competing priorities for limited staff resource time.

HCD has six positions on the long-range planning team who are tasked with development of new land use polies and regulations. Two of those six positions are currently vacant. In early 2025, the Board adopted priorities for HCD and the long-range planning team has been focused on the following projects:

1) Housing Element 6th Cycle Update, Rezoning and Implementation;
2) Permit Process Streamlining;
3) Castroville Community Plan Update;
4) Moss Landing Community Plan Update;
5) Chualar Community Plan
6) Carmel River Floodplain Restoration and Environmental Enhancement (CRFREE) Project;
7) Safety Element Update;
8) Environmental Justice Element;
9) Vacation Rental Ordinances (coastal certification)

10) Accessory Dwelling Unit Ordinances & Land Use Plans (coastal certification; Inland)
11) Big Sur Coast Land Use Plan Update; and
12) Fort Ord Habitat Resource Management Plan.

HCD has completed items 9 and 10 from the list above. Of note, substantial progress has been made on item 4; the Moss Landing Community Plan Update. There is overlap with the proposed BESS facility regulations and the ability to complete the Moss Land Community Plan update. Adding BESS facility activities to the HCD priorities would likely delay progress on items 2, 3, 4 and 11.

Staff recognizes the need to address BESS facilities for the protection of public health, safety and welfare and hence we are recommending the Board direct staff to proceed with the interim ordinance and the necessary rule making.

OTHER AGENCY INVOLVEMENT:
This report has been prepared by HCD with input from the Office of County Counsel. Moving forward with development of new regulations for BESS facilities will involve multiple Agencies including: the Air District, Fire Districts, the Sheriff's Office, Health, the Department of Emergency Management, HCD, and the County Counsel.

FINANCING:
An exact estimate of the costs to complete the necessary tasks is not available at this time. It is estimated that staff resources included in the FY 25-26 adopted budget for HCD would be allocated and no additional staff resources are required to develop the necessary ordinances and regulations on behalf of HCD. Additional resources may be requested to implement new rules in the future dependent on the nature of the rules that are developed. HCD anticipates that planning consulting services may be needed to provide technical assistance and/or assist with environmental review pursuant to CEQA. Roughly estimated to be approximately $100,000 in the 26-27 fiscal year.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
Adopting of an interim ordinance and development of new rules for BESS facilities would align with the goals of the Board to improve the well-being and quality of life and to create and maintain safe a resilient community by addressing the health and safety threats posed by such facilities. It could be somewhat of an impediment in the Sustainable infrastructure category as BESS facilities are part of the electrification strategy in addressing climate goals.

Monterey County Board of Supervisors
Referral Submittal Form

Referral No. 2025.15
Assignment Date: 10/28/25
(Completed by CAO's Office)

SUBMITTAL - Completed by referring Board office and returned to CAO no later than 10:00AM on Wednesday prior to Board meeting:

Date: 10/22/2025	Submitted By: Supervisor Glenn Church	District #: 2
Referral Title: Urgency ordinance adopting a moratorium on Battery Energy Storage System (BESS) facilities in unincorporated Monterey County while regulations for BESS operations are developed.		
Referral Purpose: To adopt an urgency ordinance placing a moratorium on BESS facilities in unincorporated Monterey County and develop a countywide policy and oversight framework to govern the operations of all BESS facilities in Monterey County for the health and safety of residents and the environment.		
Brief Referral Description (attach additional sheet as required): Monterey County has become a state and national focal point for the location of large-scale Battery Energy Storage Systems (BESS), particularly within the Moss Landing energy hub. The January 16, 2025, Moss Landing BESS fire threatened the health of residents, environmentally sensitive habitats and economic well-being of nearby communities. The August 30 fire in Parkfield further heightened the volatile nature of BESS facilities and lithium batteries within Monterey County. The lack of effective regulations to protect communities and the environment, coupled with high likelihood of expansion of BESS facilities at Moss Landing and elsewhere in Monterey County, provide a compelling need for a moratorium on BESS facilities while the County develops the regulations needed to protect the safety of its residents. While BESS facilities are essential for energy grid reliability and renewable energy integration, they also raise serious safety, environmental, operational and jurisdictional challenges. Although the State sets policy and regulates utilities, the County and other local jurisdictions retain many primary oversight powers including land use authority, fire and safety codes, environmental health and hazardous materials management and emergency management policies necessary to protect the well-being of residents. Although AB 205 allows the streamlining of BESS projects by the California Energy Commission while bypassing local jurisdictions, this only applies to BESS facilities that store over 200 MW. Even under these conditions, local jurisdictions retain significant local authority including post-construction operations, cleanup and decommissioning. This referral is to direct county staff to develop dual regulations that will take into consideration the constraints that AB 205 places on the County for BESS facilities over 200 MW while also addressing the need for more engaged County regulations for BESS facilities under 200 MW. As the County develops BESS regulations, it must include a comprehensive inclusion of County departments and outside agencies to reinforce that local authority and community safety are integral elements in energy infrastructure decisions.

THIS UNIFIED FRANCHISE AGREEMENT ("Agreement") is made and entered into as of the last date opposite the respective signatures by and between the County of Monterey, a political subdivision of the State of California (“COUNTY”), and USA Waste of California, Inc. ("CONTRACTOR"), (hereafter collectively referred to as “the parties”).

RECITALS

WHEREAS, the Legislature of the State of California, by enactment of the California Integrated Waste Management Act of 1989 (“AB 939”) (California Public Resources Code Section 40000, et seq.) has established a solid waste management process which requires local agencies to implement source reduction, reuse and recycling as integrated waste management practices; and

WHEREAS, the State of California has found and declared that the amount of waste materials generated in California, coupled with diminishing disposal capacity, interest in minimizing potential environmental impacts from landfills, and the need to conserve natural resources have created an urgent need for state and local agencies to enact and implement an aggressive integrated waste management program. The State has through the enactment of AB 939 and subsequent related legislation including, but not limited to: the Jobs and Recycling Act of 2011 (AB 341), the Event and Venue Recycling Act of 2004 (AB 2176), the Mandatory Commercial Organics Recycling Act of 2014 (AB 1826), and the Short-Lived Climate Pollutants Bill of 2016 (SB 1383), directed the responsible State Agency, and all local agencies to promote a reduction in landfill disposal, maximize the use of waste reduction, re-use, recycling, and composting options in order to reduce the amount of material that must be disposed; and

WHEREAS, SB 1383 establishes regulatory requirements for jurisdictions, generators, haulers, solid waste facilities, and other entities to support achievement of state-wide organic waste disposal reduction targets; and

WHEREAS, pursuant to California Public Resources Code Section 40059, the County has determined that the public health, safety and well-being require that an exclusive franchise agreement for solid waste, recyclables, and organic waste collection services be awarded to a qualified company for the collection and subsequent transfer, transportation, recycling, processing and/or disposal of certain solid waste, recyclables, and organic waste; and

WHEREAS, CONTRACTOR has demonstrated to the COUNTY that it has the experience, responsibility, and qualifications to conduct the services detailed herein for the collection, safe transportation and processing or disposal of materials as described herein; and

WHEREAS, CONTRACTOR desires to engage in the business of collecting certain solid waste, recyclables, and organic waste; and

WHEREAS, COUNTY wishes to utilize the CONTRACTOR’s services to offer solid waste, recyclables, and organic waste collection services to Single Family Dwellings, Multi-Family Dwellings and Commercial premises. COUNTY therefore grants CONTRACTOR the franchise described herein on the terms and conditions established hereby.

NOW, THEREFORE, in consideration of the mutual covenants, conditions and consideration contained herein, COUNTY and CONTRACTOR hereby agree as hereinafter set forth:

During the initial term of this Agreement as set forth in Section 2.1, CONTRACTOR shall be responsible for paying performance and billing reviews costs in the amount of **Seventy Thousand Dollars ($70,000.00),** adjusted by the CPI the same time as the Collection Service rates under Section 11.12. However, in the event that this Agreement is extended as provided in Section 2.1, CONTRACTOR shall be responsible for paying additional performance and billing reviews costs in the amount of **Seventy Thousand Dollars ($70,000.00)** adjusted by the CPI at the same time as the Collection Service under Section 11.12. Nothing in this Section shall prohibit COUNTY from conducting additional performance and billing reviews at COUNTY'S own expense.

10.4. CONTRACTOR'S Cooperation. CONTRACTOR shall cooperate fully with the review and provide all requested relevant data, including operational data, financial data and other data requested by COUNTY, within thirty (30) Work Days of receipt of the request. CONTRACTOR will be given additional time if reasonably necessary. Failure of CONTRACTOR to cooperate or provide the requested documents in the required time shall be considered an event of default.

Temporary Collection Services shall be billed in arrears of the provision of service although a deposit may be required in advance. Invoices shall be in format approved by COUNTY and shall not separately identify, list or itemize the Contractor service fee component, franchise fee component, the diversion programs and administration fee, or such other components as may be added by COUNTY during the term of this Agreement.

11.3. Delinquent Service Accounts. CONTRACTOR may consider a Customer account to be delinquent thirty (30) days from the date of an invoice. CONTRACTOR may charge a delinquent Customer a late fee which is the greater of $5.00 dollars, or 1.5% per month (not compounded). CONTRACTOR may take such action as is legally available to collect or cause collection of such past due amounts. CONTRACTOR shall pursue collection efforts for at least sixty (60) days after accounts become delinquent before referring them to the County for special assessment. Such collection efforts may include sending late payment notices and telephone requests for payment.

11.3.1. In its monthly reports, CONTRACTOR will provide Contract Administrator with a list of those Customers whose accounts have become delinquent in the current month. In no event, shall CONTRACTOR cease provision of Collection Services to any SFD Customer due to non-payment. In conformance with California Government Code § 25831, CONTRACTOR shall determine which Customers (SFD, MFD and Commercial) are at least sixty (60) days or more delinquent in payment of their bill. CONTRACTOR will mail four (4) notices to delinquent Customers and each affected property owner. Such notices shall be mailed on or about the second week of January, February, March and April. COUNTY shall have the right to review and revise the content and layout of the notice to property owners and Customers, and such revisions shall be incorporated by the CONTRACTOR prior to mailing. CONTRACTOR agrees that it will use the most current data of property owners compiled by the County Tax Assessor's Office when mailing such notices.

11.4.1. CONTRACTOR shall provide the COUNTY a list of the delinquent accounts that have not paid by the second business day in June in time for an annual administrative hearing on all delinquent accounts each year and later placement as a special assessment on the tax rolls. CONTRACTOR shall exercise reasonable efforts as described in this Section to achieve collection of the bill prior to passing it on to the COUNTY for placement on the tax rolls. COUNTY shall include delinquent accounts submitted by CONTRACTOR to COUNTY for special assessment on the next August tax rolls, provided CONTRACTOR has sent all Customer delinquency notices required under this Section. COUNTY shall reimburse Contractor for delinquent payments that are placed on the tax roll upon collection of those payments from the property owner and within ninety (90) days of receipt by the COUNTY. 11.7. Partial Month Service. If, during a month, a Customer is added to or deleted from CONTRACTOR'S Service Area, CONTRACTOR'S billing shall be pro-rated based on the weekly service rate (the weekly service rate shall be the service rate established in Exhibit 1 divided by four (4), times the number of actual weeks in the month that service was provided to the Customer.

11.8. Low Income Discount. To qualify for the low income discount, SFD Customers must submit their power, water or telephone bills indicating that their Residential Dwelling qualifies for discounted rates from the power, water or telephone provider on the basis of financial need, such as commonly referred to "Life-line" services. CONTRACTOR may require SFD Customers to re-qualify each twelve (12) months. Upon request, CONTRACTOR will report to the Contract Administrator the names, addresses and service information of those customers that qualify for low income discount. CONTRACTOR shall invoice Customers qualifying for the low income discount at an amount equal to eighty-five (85) percent of the standard Collection Service rate as set forth in Exhibit 1.

11.9. Methods of Payment. CONTRACTOR shall provide the means for Customers to pay bills through the following methods: cash, checks, credit cards, internet payment service and/or automatic withdrawal from bank account. CONTRACTOR shall accept Customer payments at CONTRACTOR'S payment site.

11.9.1. The convenience fee amount will be disclosed to customers during the bill payment process and customers will have the opportunity to consent to the convenience fee, or to pay their invoices by direct electronic debit from a bank account (e.g., Automated Clearing House or ACH network in the U.S. / Pre-Authorized Debit or PAD in Canada).

Docusign Envelope ID: 86667AF5-8C62-4210-9376-7A8062437747

compensation due to CONTRACTOR pursuant to this Agreement for all costs necessary to perform all the services required by this Agreement in the manner and at the times prescribed.

11.12. Adjustments to Service Rates, Surcharges and Fees. Beginning on January 1, 2026 and annually thereafter, subject to CONTRACTOR'S compliance with all provisions of this Section, each Collection Service rate, fee or surcharge as set forth in Exhibit 1 (the "Rates") to this Agreement shall be adjusted by the Refuse Rate Index as set forth in Section 11.13.1 below.

11.13. Refuse Rate Index (RRI) Adjustment. The RRI adjustment shall be the sum of the weighted percentage change in the annual average of each RRI index number between the base calendar year, which shall be the prior preceding 12 month period ending June 30 and the preceding 12 month period ending June 30 and the percentage change in the most recently approved Disposal tip fee charged to CONTRACTOR at the SVSWA Disposal Facility and/or the MRWMD Disposal Facility, as appropriate, and the prior tipping fee (from the most recently approved tip fee), at the time the RRI is submitted to the County. Therefore, the first rate adjustment will be based on the percentage changes between the Annual Average of the RRI indices for the 12 month period ending June 30, 2025 and the Annual Average of the RRI indices for the 12 month period ending June 30, 2024. The RRI shall be calculated using the RRI methodology included in Exhibit 2.

11.13.1. Annual Rate Adjustment.

11.13.1.1. On January 1, 2026, and annually thereafter, the service rates, fees and surcharges set forth in Exhibit 1 shall be adjusted by multiplying them by the RRI percentage adjustment.

11.13.1.2. However, in any year that the calculation of the RRI results in a negative number, there shall be no adjustment of those service rates, fees and surcharges.

11.13.1.3. In the subsequent year the negative RRI number from the prior year shall be added to the result of the subsequent years RRI calculation, and the result shall be the RRI percentage for that subsequent year, ("adjusted RRI percentage").

11.13.1.4. The subsequent year rate adjustment shall consist of multiplying the appropriate service rate, fee or surcharge by the adjusted RRI percentage.

11.13.1.5. Annual adjustments shall be made only in units of one cent ($0.01). Fractions of less than one cent ($0.01) shall not be considered in making adjustments. The indices shall be truncated at four (4) decimal places for the adjustment calculations.

11.13.2. Financial Information. On or before August 1st of each year, during the term of this Agreement, CONTRACTOR shall deliver to COUNTY financial information for the specific services performed under this Agreement for the preceding full or partial Calendar Year. Such financial information shall be in the format as set forth in Exhibit 2, or as may be further revised by COUNTY from time to time. If CONTRACTOR fails to submit the financial information in the required format by August 1st, it is agreed that CONTRACTOR shall be deemed to have waived the annual rate adjustment for that year.

Docusign Envelope ID: 86667AF5-8C62-4210-9376-7A8062437747

11.13.3. If CONTRACTOR'S failure to submit the financial information required under Section 11.13 is the result of extraordinary or unusual circumstances as demonstrated by CONTRACTOR to the satisfaction of the Contract Administrator, COUNTY, at its sole discretion, may consider the request for the annual rate adjustment.

11.13.4. Within seven (7) days following the Board's approval of the rate adjustment, the Contract Administrator shall notify CONTRACTOR of the adjustment to the affected service rates to take place on the subsequent January 1st.

11.14. Retroactive Adjustments. In the event of a change in a governmental, quasi-governmental, franchise, regulatory fee, or tipping fee which becomes effective at some time other than January 1st of any year, CONTRACTOR shall be compensated for such increase through the inclusion of a "retroactive element" in the next rate adjustment. COUNTY and CONTRACTOR agree that the "retroactive element" shall be an amount needed to compensate CONTRACTOR for increases in fees paid during the period from the inception of the fee increase through the subsequent December 31st and shall not include interest, overhead, or any other costs of any type. The "retroactive element" shall only be included in the rate structure for twelve (12) months or that period necessary to allow CONTRACTOR to recover all retroactive amounts, if less than twelve (12) months, and shall be removed prior to calculating the rates to be set as of the subsequent January 1st.

11.15. Adjustments to Franchise Fee Component. The franchise fee component shall be adjusted as needed so that it always equals:

11.15.1. the Contractor service fee component

11.15.2. divided by

11.15.3. 1 minus the authorized franchise fee percentage

11.15.4. multiplied by

11.15.5. the authorized franchise fee percentage.

11.16. CONTRACTOR'S Payments to COUNTY. CONTRACTOR shall make payment to COUNTY of the diversion programs and administration fee, and the franchise fee, as set forth below, and such other fees as may be specified in this Section or as provided for in Section 11.17 below, and any other outstanding fees or obligations, together with a late fee equal to one and one half (1.5) percent per month (not compounded) of the amount of any payment obligations that are delinquent.

11.16.1. Franchise Fee. The franchise fee shall be a percentage of CONTRACTOR'S gross revenue collected each month under the terms of this Agreement. Except as set forth below, gross revenue shall specifically include revenue received by CONTRACTOR from any entity, including Federal, State, County or other local facilities within the Service Area for the provision of Collection Services by CONTRACTOR. Payment to COUNTY of the franchise fee shall be due on the twentieth (20th) day of the month following the month the franchise fees are collected. Each such franchise fee payment shall be accompanied by an accounting, which sets forth CONTRACTOR'S gross revenues collected, during the preceding month. Such accounting shall be in a form and manner that is acceptable

Docusign Envelope ID: 86667AF5-8C62-4210-9376-7A8062437747

to COUNTY. The franchise fee percentage shall be ten (10) percent during the term of this Agreement unless adjusted by COUNTY.

11.16.1.1. Revenues derived from Collection Services provided to Federal, State or County local agencies at the rates set forth under the terms of this Agreement shall be considered "gross revenues" for purposes of calculating franchise fees. Notwithstanding the foregoing, if the Federal, State or County local agency receives Collection and/or Disposal services outside the scope of this Collection Agreement, or otherwise invokes its legal rights to pay fees for services excluding any portion of franchise fees, then such revenues shall not be considered "gross revenues" hereunder for purpose of payment of franchise fees to COUNTY.

11.16.2. Diversion Programs and Administration Fee. For the period beginning January 1, 2025 through the term of this Agreement, the diversion programs and administration fee shall be $800,000 per Agreement Year (adjusted by the CPI index as set forth in Exhibit 2 RRI at the same time as the Collection Service rates as set forth in Section 11.13.1), payable to COUNTY on the twentieth (20^{th}) day of each month beginning January 2025 and monthly thereafter during the term of this Agreement in twelve (12) equal installments each Agreement Year. Diversion programs and administration fee payments shall not be based on gross revenues billed or collected.

11.16.3. Negotiation Fee. No later than thirty (30) calendar days of the execution of this Agreement by the Board, CONTRACTOR shall pay to COUNTY a one-time, lump sum payment in the amount of One Hundred Thousand Dollars ($100,000.00), in consideration of the right of negotiation granted by the COUNTY.

11.17. Other Fees. COUNTY may set such other fees as it deems necessary.

11.18. Acceptance of Payment. No acceptance by COUNTY of any payment shall be construed as an accord that the amount is in-fact the correct amount, nor shall such acceptance of payment be construed as a release of any claim COUNTY may have against CONTRACTOR for any additional sums payable under the provisions of this Agreement. All amounts paid shall be subject to audit and recompilation by COUNTY. If, after the audit, such recompilation indicates an underpayment, CONTRACTOR shall pay to COUNTY the amount of the underpayment and shall reimburse COUNTY for all reasonable costs and expenses incurred in connection with the audit and recompilation within thirty (30) Work Days of receipt of written notice from COUNTY. If, after the audit, such recompilation indicates an overpayment, COUNTY shall notify CONTRACTOR in writing of the amount of the overpayment. CONTRACTOR may offset the amounts next due following receipt of notice of overpayment by the amount specified therein.

11.19. Billing Records. CONTRACTOR shall keep records, electronically or paper, of all billing documents and Customer account records, including but not limited to, invoices, receipts, and collection notices, each in chronological order, for a period of three (3) years after the date of receipt or issuance.

11.20.2. If CONTRACTOR requests a Rate adjustment pursuant to this Section 11.20, it shall prepare a Rate adjustment request setting forth its calculations of the increased costs/lost revenue and accompanying adjustment to the Rates necessary to offset such increased costs/lost revenue. The COUNTY may request documentation and data reasonably necessary to evaluate such request by CONTRACTOR, and may retain, at its own expense, an independent third party to audit and review such documentation and request. If such third party is retained, the COUNTY shall take reasonable steps, consistent with Applicable Law, to protect the confidential or proprietary nature of any data or information supplied by CONTRACTOR. The COUNTY shall approve all properly calculated Rate adjustments within ninety (90) days of CONTRACTOR's request, and the adjusted Rates shall be deemed to take effect as of the date of CONTRACTOR'srequest.

11.20.3. In addition, if the request is based upon any new or increased third party fees, taxes, assessments or charges, the COUNTY shall approve the Rate adjustment within such time period as necessary to ensure that such fees, taxes, assessments or charges are passed on to Customers by the date the same are effective.

11.21. Rates for Additional Services. If Customer requests Collection Services at a Container capacity and/or Collection frequency not provided in the rates adopted by the Board of Supervisors, following COUNTY Board approval of the Contractor Service Fee Component of that Rate, CONTRACTOR may charge Customer that Rate agreed upon with Customer. COUNTY and CONTRACTOR understand and agree that rates must be approved and established by the Board pursuant to County Code and that CONTRACTOR cannot charge Customer that Rate agreed upon with Customer until such time as said Rate is approved and established by the Board.

11.22. Change in Travel Costs. In the event a change in travel costs has been calculated as set forth in Section 19.9.4 of this Agreement, the calculated change shall be added to the RRI percentage if it is positive or subtracted from the RRI percentage if it is negative. The adjusted RRI percentage shall then be applied as set forth in Section 11.13.1.

12. **County Diversion Requirement**.

12.1. In the event that CalRecycle determines that the COUNTY has failed to meet the COUNTY's applicable annual Diversion goal(s), and such failure resulted from CONTRACTOR's breach of this Agreement, CONTRACTOR shall submit a plan to the COUNTY no later than two (2) months after the COUNTY provides notice of CalRecycle's determination of non-compliance which details additional steps and/or programs the CONTRACTOR may implement to assist the COUNTY with achieving its Diversion requirements, as well as the increased costs for which the CONTRACTOR would be reimbursed. The plan shall include:

12.1.1. A summary of additional Diversion improvement activities that the COUNTY can implement within its current programs without additional cost to the Customers(i.e.,

Prior to such termination or assignment, COUNTY shall meet and confer with CONTRACTOR for a period of up to ninety (90) calendar days to resolve COUNTY'S concerns. Thereafter, COUNTY may terminate the program or utilize a third party to perform these services if COUNTY reasonably believes CONTRACTOR cannot meet or is not meeting the agreed to and defined project goals and objectives. Notwithstanding these changes, CONTRACTOR shall continue the program during the ninety (90) day period and, in the event COUNTY elects to utilize a third party to continue the program, thereafter until the third party takes over the program.

19.8. Termination without Cause. COUNTY shall also have the right to terminate a program without cause. As a condition of the termination, COUNTY shall reimburse CONTRACTOR for all costs incurred for implementation and performance of the program that were identified in the program proposal prepared and submitted by CONTRACTOR and agreed to by COUNTY which have not been funded or otherwise recovered through program compensation at the time the program is terminated.

19.9. COUNTY Directed Changes in Facilities. If COUNTY requires that CONTRACTOR change Disposal or processing facilities, the Contractor Service Fee Component will be adjusted for any increase or decrease in CONTRACTOR'S direct costs, including transportation between the old and new facility, as follows:

19.9.1. With respect to changes in the facilities in the boundaries of the SVSWA, the increase or decrease in transportation is measured by the shortest route between the COUNTY Department of Health, Environmental Health Division, located at 1270 Natividad Road, Salinas to the new facility that is legally traversable by Collection vehicles carrying their usual load of the appropriate material, although CONTRACTOR may choose a longer route for reason of time, traffic or other convenience without additional compensation. 19.9.3. CONTRACTOR will submit documentation to the satisfaction of COUNTY demonstrating the number of Collection vehicles from identified routes, with dated weight tickets, establishing the increase or decrease in mileage for a one (1) month period.

19.9.4. The total increase or decrease in miles will be multiplied by the Collection vehicle travel cost per mile as set forth in Exhibit 1 to this Agreement to calculate the change in cost for one (1) month and annualized to calculate the change in cost for one (1) year. The one (1) year change in cost will then be divided by the gross revenue for the last complete twelve (12) month period to calculate the percentage change in travel costs. The percentage change shall be truncated at the second decimal point and shall be added to or subtracted from, as appropriate, in the next RRI calculation as set forth in Section 11.13.

19.10. Modification to Exhibit 10, COUNTY Facilities. In the event COUNTY requests a modification to Exhibit 10 to this Agreement due to an addition or deletion to the COUNTY Facilities, or a change in the container size or frequency of Collection as set forth in Exhibit 10, COUNTY shall notify CONTRACTOR of the change in writing at least thirty (30) days prior to the date of such change. CONTRACTOR shall respond to the request for modification of Exhibit 10 by signing the revised Exhibit 10 and returning it to the COUNTY or requesting that a meeting be held between CONTRACTOR and COUNTY to discuss the requested modification. In the event COUNTY and CONTRACTOR are unable to agree on the modification, Exhibit 10 shall remain unmodified and COUNTY shall have the right to secure the services from another contractor. COUNTY shall have the right to unilaterally modify the specific events included on Exhibit 11 as long as the total number of "COUNTY sponsored" annual events does not exceed twelve (12) and as long as the estimated Collection capacity, in yards, of the added event does not exceed the median level of required Collection capacity, of four (4) yards of the events set forth on Exhibit 11 prior to the modification. In the event the COUNTY requests that CONTRACTOR provide Collection Services at large venue events in excess of the limitations set forth in this Section, CONTRACTOR shall provide such services at a price to be mutually agreed upon between CONTRACTOR and COUNTY. In the event CONTRACTOR and COUNTY cannot reach a mutually agreed price for the requested services CONTRACTOR shall provide such services in accordance with the rates set forth in Exhibit 1 to this Agreement.

20. **Recordkeeping, Inspections, and Reporting**.

20.1. Record Keeping.

20.1.1. Accounting Records. CONTRACTOR shall maintain any and all letters, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services or expenditures and disbursements charged to Customers for a minimum period of five (5) years, or for any longer period required by law, from the date of final payment to CONTRACTOR pursuant to this Agreement.

20.3.1. Upon notification by the Contract Administrator that information reported by CONTRACTOR is incorrect, CONTRACTOR shall provide corrected information in the original format within three (3) Work Days unless a longer time is agreed to by COUNTY and CONTRACTOR.

20.4. Inspection. Any records or documents required to be maintained pursuant to this Agreement shall be made available for inspection or audit, at any time during regular business hours, upon written request by the Contract Administrator, COUNTY Counsel, COUNTY Auditor, or designee of any of these officers. Copies of such documents shall be provided to COUNTY for inspection at COUNTY offices when it is practical to do so. Otherwise, unless an alternative site is mutually agreed upon, the records shall be available at CONTRACTOR'S address indicated for receipt of notices in this Agreement.

20.5. Records Security. Where COUNTY has reason to believe that such records or documents may be lost or discarded due to the dissolution, disbandment or termination of CONTRACTOR'S business, COUNTY may, by written request or demand of the

Docusign Envelope ID: 86667AF5-8C62-4210-9376-7A8062437747

Contract Administrator, require that custody of the records be given to COUNTY and that the records and documents be maintained at COUNTY offices. Access to such records and documents shall be granted to any party authorized by CONTRACTOR, CONTRACTOR'S representatives, or CONTRACTOR'S successor-in-interest.

21. **Quality of Performance of CONTRACTOR**.

21.1. Intent. CONTRACTOR acknowledges and agrees that one of COUNTY'S primary goals in entering into this Agreement is to ensure that Collection Services are of the highest caliber, that Customer satisfaction remains at the highest level, that maximum diversion levels are achieved, and that materials Collected are put to the highest and best use to the extent feasible.

21.2. Service Supervisor. CONTRACTOR will provide the name of the service supervisor to be in charge of the Collection Services within the Service Area to COUNTY. At least thirty (30) calendar days prior to replacing the service supervisor, if possible, CONTRACTOR shall notify COUNTY in writing of the name and qualifications of the new service supervisor. CONTRACTOR shall insure that such replacement is qualified and experienced. The service supervisor's work place shall be physically located in the Service Area, at all times that CONTRACTOR is providing Collection Services. In addition the supervisor shall be available to the Contract Administrator through the use of telecommunication equipment, and be able to respond to voice messages within one (1) hour at all times that CONTRACTOR is providing Collection Services. In the event the service supervisor is unavailable due to illness or vacation, CONTRACTOR shall designate an acceptable substitute who shall be available and who has the authority to act in the same capacity as the service supervisor. The service supervisor shall provide COUNTY with an emergency phone number where the service supervisor can be reached outside of normal business hours.

21.3. Liquidated Damages. The parties further acknowledge that consistent and reliable Collection Services are of utmost importance to COUNTY and that COUNTY has considered and relied on CONTRACTOR'S representations as to its quality of service commitment in awarding the Agreement to it. The parties further recognize that some quantified standards of performance are necessary and appropriate to ensure consistent and reliable service and performance. The parties further recognize that if CONTRACTOR fails to achieve the performance standards, or fails to submit required documents in a timely manner, COUNTY and COUNTY'S residents and businesses will suffer damages and that it is and will be impractical and extremely difficult to ascertain and determine the exact amount of damages. Therefore, without prejudice to COUNTY'S right to treat such non-performance as an event of default under Article 24, the parties agree that the liquidated damages amount defined in this Article represent reasonable estimates of the amount of such damages considering all of the circumstances existing on the effective date of this Agreement, including the relationship of the sums to the range of harm to COUNTY, customers and the community as a whole that reasonably could be anticipated and the anticipation that proof of actual damages would be costly or impractical. In placing their initials at the places provided, each party specifically confirms the accuracy of the statements made above and the fact that each party has had ample opportunity to consult with legal counsel and obtain an explanation of the liquidated damage provisions at the time that the Agreement was made.

Exhibit 2 - Refuse Rate Index

The “Refuse Rate Index” adjustment shall be calculated in the following manner:

The expenses of Collection Services for the designated review period shall be prepared in a format set forth in the Operating Cost Statement, provided below.

The expenses of collection services shall be broken down into the following major Cost Categories: Labor, CNG/Diesel Fuel, Vehicle Replacement, Vehicle Maintenance, All Other, AB 939 fees, and Disposal.

The Data Sources below will be used to calculate the “RRI Percentage Change” for each Cost Category. The RRI Percentage Change will be based on the year over year 12-month average change ending in June. For example, if the rate adjustment is to be implemented January 1, 2025, the RRI Percentage Change will be based upon the year over year 12-month average change from July 2023 to June 2024. In the event any index is discontinued, a successor index shall be selected by the parties that is most closely equivalent to the discontinued index as recommended by the BLS.

The Disposal cost categories are based on the change in the most recent disposal and processing rates per ton available compared to the disposal and processing rates included in the previous year’s RRI calculation.

For each RRI adjustment, each Cost Category will be assigned an Item Weight percentage based on its proportionate share of all expenses in the Operating Cost Statement for Carmel Marina Corporation (CMC) for 12 months ending June. For example, if the rate adjustment is implemented on January 1, 2025, the Item Weight percentage will be based upon the Operating Cost Statement for the 12-month period ending June 30, 2024.

The Weighted Percentage Change for each Cost Category will equal the Percentage Change from the RRI Index multiplied by its Item Weight.

The Total Price Increase will be the sum of each Cost Category’s Weighted Percentage Change.

Exhibit 3 - Form of Guaranty

Guarantee Agreement

This Guarantee Agreement (this "Guarantee"), dated as of January 1, 2025, is made and entered into by Waste Management, Inc., a Delaware corporation ("Guarantor").

W I T N E S S E T H:

WHEREAS, USA Waste of California, Inc., a subsidiary of Guarantor (the "WM Subsidiary") has entered into a Unified Franchise Agreement (the "Agreement") effective as of January 1, 2025 with the County of Monterey, California (the "County") pursuant to which WM Subsidiary has agreed to provide certain collection, disposal and processing services; and

WHEREAS, Guarantor will directly or indirectly benefit from the Agreement;

NOW THEREFORE, in consideration of County entering into the Agreement, Guarantor hereby covenants and agrees as follows:

1. GUARANTY. Subject to the provisions hereof, Guarantor hereby irrevocably and unconditionally guarantees the timely payment when due of the financial obligations of WM Subsidiary (the "Obligations") to County in accordance with the Agreement. To the extent that WM Subsidiary shall fail to pay any Obligations, Guarantor shall promptly pay to County the amount due. This Guarantee shall constitute a guarantee of payment and not of collection. The liability of Guarantor under the Guarantee shall be subject to the following:

Guarantor's liability hereunder shall be and is specifically limited to payments expressly required to be made in accordance with the Agreement (even if such payments are deemed to be damages) and, except to the extent specifically provided in the Agreement, in no event shall Guarantor be subject hereunder to consequential, exemplary, equitable, loss of profits, punitive, tort, or any other damages, costs, or attorney's fees.

2. DEMANDS AND NOTICE. If WM Subsidiary fails or refuses to pay any Obligations, County shall notify WM Subsidiary in writing of the manner in which WM Subsidiary has failed to pay and demand that payment be made by WM Subsidiary. If WM Subsidiary's failure or refusal to pay continues for a period of fifteen (15) days after the date of County's notice to WM Subsidiary, and County has elected to exercise its rights under this Guarantee, County shall make a demand upon Guarantor (hereinafter referred to as a "Payment Demand"). A Payment Demand shall be in writing and shall reasonably and briefly specify in what manner and what amount WM Subsidiary has failed to pay and an explanation of why such payment is due, with a specific statement that County is calling upon Guarantor to pay under this Guarantee. A Payment Demand satisfying the foregoing requirements shall be deemed sufficient notice to Guarantor that it must pay the Obligations. A single written Payment Demand shall be effective as to any specific default during the continuance of such default, until WM Subsidiary or Guarantor has cured such default, and additional written demands concerning such default shall not be required until such default is cured.

Docusign Envelope ID: 86667AF5-8C62-4210-9376-7A8062437747

3. REPRESENTATIONS AND WARRANTIES. Guarantor represents and warrants that:

(a) it is a corporation duly organized and validly existing under the laws of the State of Delaware and has the corporate power and authority to execute, deliver and carry out the terms and provisions of the Guarantee;

(b) no authorization, approval, consent or order of, or registration or filing with, any court or other governmental body having jurisdiction over Guarantor is required on the part of Guarantor for the execution and delivery of this Guarantee; and

(c) this Guarantee constitutes a valid and legally binding agreement of Guarantor, except as the enforceability of this Guarantee may be limited by the effect of any applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors' rights generally and by general principles of equity.

4. SETOFFS AND COUNTERCLAIMS. Without limiting Guarantor's own defenses and rights hereunder, Guarantor reserves to itself all rights, setoffs, counterclaims and other defenses to which WM Subsidiary or any other affiliate of Guarantor is or may be entitled to arising from or out of the Agreement or otherwise, except for defenses arising out of the bankruptcy, insolvency, dissolution or liquidation of WM Subsidiary.

5. AMENDMENT OF GUARANTY. No term or provision of this Guarantee shall be amended, modified, altered, waived, or supplemented except in a writing signed by the parties hereto.

6. WAIVERS. Guarantor hereby waives (a) notice of acceptance of this Guarantee; (b) presentment and demand concerning the liabilities of Guarantor, except as expressly hereinabove set forth; and (c) any right to require that any action or proceeding be brought against WM Subsidiary or any other person, or except as expressly hereinabove set forth, to require that County seek enforcement of any performance against WM Subsidiary or any other person, prior to any action against Guarantor under the terms hereof.

Except as to applicable statutes of limitation, no delay of County in the exercise of, or failure to exercise, any rights hereunder shall operate as a waiver of such rights, a waiver of any other rights or a release of Guarantor from any obligations hereunder.

Guarantor consents to the renewal, compromise, extension, acceleration or other changes in the time of payment of or other changes in the terms of the Obligations, or any part thereof or any changes or modifications to the terms of the Agreement.

7. NOTICE. CONTRACTOR shall promptly disclose to COUNTY, in writing, any potential conflict of interest.

6. **OWNERSHIP AND INTELLECTUAL PROPERTY.**

A. CONTRACTOR and its licensors are, and shall remain, the sole and exclusive owners of all right, title and interest in and to all documents, data, know-how, methodologies, software and other materials, including computer programs, reports and specifications, provided by or used by CONTRACTOR in connection with performing the Services to the extent developed or acquired by CONTRACTOR prior to the commencement or independently of this Contract (collectively, the "Pre-Existing Materials"), including all intellectual property rights therein.

B. Except as provided in Subsection A of this Section 6, above, COUNTY shall own all Deliverables provided to COUNTY in connection with the Services. CONTRACTOR hereby grants to COUNTY a fully-paid, perpetual license to copy, adapt, perform, display, publish, disclose, distribute, create derivative works from, and otherwise use, in whole or in part, all Pre-Existing Materials incorporated into any of the Services or Deliverables, and all other reports, data, documents and other materials comprising, and necessary for COUNTY's continued use of, the Services and Deliverables, whether or not performance under this Contract is completed or terminated prior to completion ("License"). In addition to and without limiting the provisions of the Indemnification and Insurance Requirements (defined below), CONTRACTOR warrants that none of the Deliverables, Services, or any other items provided by or on behalf of CONTRACTOR under this Contract shall infringe upon any intellectual property or proprietary rights of any third party. CONTRACTOR at its own expense shall defend, indemnify, and hold harmless COUNTY against all claims that any of the Deliverables, Services, or any other items provided by or on behalf of CONTRACTOR under this Contract infringe upon intellectual or other proprietary rights of a third party, and CONTRACTOR shall pay any damages, costs, settlement amounts, and fees (including attorneys' fees) that may be incurred by COUNTY in connection with any such claims.

C. This Section 6 shall survive the expiration or termination of this Contract.

7. **COUNTY PROPERTY.** COUNTY's property, documents, data, and information (collectively, "COUNTY Property") provided for CONTRACTOR's use or otherwise made available to CONTRACTOR or to which CONTRACTOR or any of CONTRACTOR's employees, affiliates, or subcontractors has access in connection with the Services, shall remain COUNTY's property, and CONTRACTOR shall return and destroy all copies of any and all COUNTY Property at the direction of COUNTY. CONTRACTOR may use COUNTY Property only to the extent necessary to provide the Services. CONTRACTOR shall not disseminate or disclose any COUNTY Property, without COUNTY's prior written consent in each instance. All non-public, confidential or proprietary information of COUNTY (collectively, "Confidential Information") disclosed, or made available to, or otherwise accessed by or on behalf of CONTRACTOR, whether disclosed orally or disclosed or accessed in written, electronic or other form or media, and whether or not marked, designated or otherwise identified as "confidential," in connection with the provision of the Services and this CONTRACT is confidential, and shall not be disclosed or copied by CONTRACTOR without the prior written consent of COUNTY in each instance. Confidential Information does not include information that is in the public domain or rightfully obtained by CONTRACTOR on a non-confidential basis from a third party. CONTRACTOR may use Confidential Information only to the extent necessary to provide the Services. This Section 7 shall survive the expiration or termination of this Contract.

8. **RECORDS, AUDIT, AND REVIEW.** CONTRACTOR must keep such business records pursuant to this Contract as would be kept by a reasonably prudent practitioner of CONTRACTOR's profession, and will maintain those records for at least four (4) years following the termination of this Contract. All accounting records must be kept in accordance with generally accepted accounting practices. COUNTY will have the right to audit and review all such documents and records at any time during CONTRACTOR's regular business hours or upon reasonable notice. In addition, if this Contract exceeds ten thousand dollars ($10,000.00), CONTRACTOR shall be subject to the examination and audit of the California State Auditor, at the request of the COUNTY or as part of any audit of the COUNTY, for a period of three (3) years after final payment under the Contract (Cal. Govt. Code Section 8546.7). CONTRACTOR shall participate in any audits and reviews, whether by COUNTY or the State, at no charge to COUNTY.

9. **INSURANCE AND INDEMNIFICATION.** CONTRACTOR agrees to and shall at all times during the term of the Contract fully comply with the Indemnification and Insurance Requirements attached to the Purchase Order and incorporated herein by reference ("Indemnification and Insurance Requirements"). The indemnification provisions set forth in the Indemnification and Insurance Requirements shall survive the expiration or termination of the Contract.

10. **NONDISCRIMINATION.** The County's Unlawful Discrimination Ordinance (Article XIII of Chapter 2 of the Santa Barbara County Code) applies to this Contract and is incorporated into the Contract by this reference with the same force and effect as if the ordinance were specifically set out herein, and CONTRACTOR agrees to comply with such ordinance.

11. **NONEXCLUSIVE AGREEMENT.** CONTRACTOR understands that this is not an exclusive Contract, and that COUNTY has the right to negotiate with and enter into contracts with others providing the same or similar services as those CONTRACTOR provides.

12. **NON-ASSIGNMENT; PERMITTED SUBCONTRACTOR(S).** CONTRACTOR shall not assign, delegate, subcontract, or otherwise transfer, by operation of law or otherwise, this Contract or any of CONTRACTOR's rights or obligations under this Contract without COUNTY's prior written consent in each instance, and any attempt to so assign or so transfer without such consent shall be void and without legal effect and shall constitute grounds for immediate termination of this Contract by COUNTY. CONTRACTOR shall not enter into agreements with or otherwise engage any person or entity, including all subcontractors and affiliates of CONTRACTOR, other than CONTRACTOR's employees, to provide any Services to Customer without the prior written consent of COUNTY in each instance (each such approved subcontractor or other third party, a "Permitted Subcontractor"). COUNTY's consent with respect to a Permitted Subcontractor shall not relieve CONTRACTOR of any of its obligations under the CONTRACT, and CONTRACTOR shall remain fully responsible for the performance of each such Permitted Subcontractor and its employees and for their compliance with all of the terms and conditions of this Contract as if they were CONTRACTOR's own employees. CONTRACTOR shall ensure that all persons, whether employees, agents, subcontractors, or anyone acting for or on behalf of CONTRACTOR, are properly licensed, certified and accredited as required by applicable law and are suitably skilled, experienced and qualified to perform the Services. CONTRACTOR shall require each Permitted Subcontractor to be bound in writing by the confidentiality and intellectual property assignment and license provisions of these Terms and Conditions. 13. **TERMINATION.**

Notwithstanding any other provision of this Contract, in the event that no funds or insufficient funds are appropriated or budgeted by federal, state or COUNTY governments, or funds are not otherwise available for payments in the fiscal year(s) covered by the term of this Contract, then COUNTY will notify CONTRACTOR of such occurrence and COUNTY may terminate or suspend this Contract in whole or in part, with or without a prior notice period. Subsequent to termination of this Contract under this provision, COUNTY shall have no obligation to make payments with regard to the remainder of the term of the Contract.

The judgment of any court of competent jurisdiction, or the admission of CONTRACTOR in any action or proceeding against CONTRACTOR, whether COUNTY is a party thereto or not, that CONTRACTOR has violated any such ordinance or statute, shall be conclusive of that fact as between CONTRACTOR and COUNTY. Before the date on which the Services are to start, CONTRACTOR shall obtain and, at all times during the term of this Contract, maintain, all necessary licenses, permits, and consents applicable to the provision of the Services. 20. **NO PUBLICITY OR ENDORSEMENT.** CONTRACTOR shall not use COUNTY's name or logo or any variation of such name or logo in any publicity, advertising or promotional materials. CONTRACTOR shall not use COUNTY's name or logo in any manner that would give the appearance that COUNTY is endorsing CONTRACTOR. CONTRACTOR shall not in any way contract on behalf of or in the name of COUNTY. CONTRACTOR shall not release any informational pamphlets, notices, press releases, research reports, or similar public notices or statements regarding COUNTY or its projects, without the prior written consent of COUNTY in each instance.

21. **SEVERABILITY.** If any one or more of the provisions contained herein shall for any reason be held to be invalid, illegal or unenforceable in any respect, then such provision or provisions shall be deemed severable from the remaining provisions hereof, and such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Contract shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

22. **REMEDIES NOT EXCLUSIVE.** No remedy herein conferred upon or reserved to COUNTY is intended to be exclusive of any other remedy or remedies, and each and every such remedy, to the extent permitted by law, shall be cumulative and in addition to any other remedy given hereunder or now or hereafter existing at law or in equity or otherwise.

25. **SUCCESSORS AND ASSIGNS.** These Terms and Conditions shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns in accordance with these Terms and Conditions.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute an Agreement between the County of Monterey and the County of San Luis Obispo for the provision of testing Mycobacterium tuberculosis (Mtb) and other public health laboratory testing services, for a maximum County obligation of $30,000 for the term of January 1, 2026 through June 30, 2026;
b. Approve non-standard terms and indemnification provisions as recommended by the Director of Health Services; and
c. Approve and authorize the Director of Health Services or designee to execute up to three (3) future amendments that do not exceed 10% ($3,000) of the original agreement, do not significantly change the scope of services, and do not increase the total amount, not to exceed $33,000.

SUMMARY:
The County of Monterey Health Department requests an Agreement with the County of San Luis Obispo for public health laboratory services. San Luis Obispo County's Public Health Laboratory would provide up to $30,000 of testing from January 1, 2026 through June 30, 2026, to support public health laboratory services while HVAC repairs are being completed at the County of Monterey Health Department's Public Health Laboratory. The Agreement would assure continuity of critical services for local medical providers and the community during repairs.

DISCUSSION:
County of Monterey Health Department's Public Health Laboratory (PHL) provides clinical and environmental testing to support the programs of the Health Department as well as hospitals, clinics, other health care providers, private businesses, citizens, and local, state and federal authorities. The

PHL performs testing to prevent and control communicable diseases, rule out bioterrorism agents, identify contaminants in food and water, diagnose rabies virus in animals, and provide specialized testing for rare and novel diseases using tests that are not available in hospital and commercial laboratories. The PHL also serves as the area's Regional Laboratory for surrounding counties with limited public health laboratory testing capacity.

In early 2026, the PHL's facilities will undergo repairs and enhancements to their HVAC system. These repairs are necessary to ensure adequate air exchange in the PHL and its Biosafety Level III suites. The PHL will be required to suspend testing for certain airborne pathogens including Mycobacterium tuberculosis (Mtb) during repairs. The proposed Agreement will allow the PHL to send time-sensitive specimens to the San Luis Obispo County Public Health Laboratory when the PHL cannot conduct these analyses. The Agreement will assure critical services to local medical providers and the community are continued during repairs.

The County of San Luis Obispo requests that the County of Monterey Health Department, upon executing the agreement, submit it to its Board of Supervisors for approval and signature.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of the County Counsel and Auditor-Controller has reviewed and approved this agreement as to legal form and fiscal provisions, respectively.

FINANCING:
This agreement is funded by 65% Public Health Lab fee revenue and 35% Health Realignment. There are sufficient appropriations in the Health Department's (001-4000-8124-HEA003) FY 2025-26 Adopted Budget.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This Agreement is necessary to ensure access to essential PHL testing services, including testing for Mycobacterium tuberculosis (Mtb). These services are critical for early detection, prevention, and control of infectious diseases, directly supporting the Strategic Plan Goal of Well-Being and Quality of Life by protecting community health and improving health outcomes.

In early 2026, the PHL's facilities will undergo repairs and enhancements to their HVAC system. These repairs are necessary to ensure adequate air exchange in the PHL and its Biosafety Level III suites. The PHL will be required to suspend testing for certain airborne pathogens including Mycobacterium tuberculosis (Mtb) during repairs. The proposed Agreement will allow the PHL to send time-sensitive specimens to the San Luis Obispo County Public Health Laboratory when the PHL cannot conduct these analyses. The Agreement will assure critical services to local medical providers and the community are continued during repairs.

The County of San Luis Obispo requests that the County of Monterey Health Department, upon executing the agreement, submit it to its Board of Supervisors for approval and signature.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of the County Counsel and Auditor-Controller has reviewed and approved this agreement as to legal form and fiscal provisions, respectively.

FINANCING:
This agreement is funded by 65% Public Health Lab fee revenue and 35% Health Realignment. There are sufficient appropriations in the Health Department's (001-4000-8124-HEA003) FY 2025-26 Adopted Budget.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This Agreement is necessary to ensure access to essential PHL testing services, including testing for Mycobacterium tuberculosis (Mtb). These services are critical for early detection, prevention, and control of infectious diseases, directly supporting the Strategic Plan Goal of Well-Being and Quality of Life by protecting community health and improving health outcomes.

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: F7439C48-262E-4CB7-B2A2-2DF3C591D860

The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. E. BACKGROUND:

For over 20 years, the Area Agency on Aging (AAA) has contracted with Alliance on Aging to deliver essential services, including Outreach, Ombudsman, and Health Insurance Counseling and Advocacy Program, to older adults and individuals with disabilities. The Title III B Supportive Services Outreach program helps seniors maintain their independence and improve their quality of life by ensuring they are informed about available resources. The Title VII Ombudsman Program advocates for residents in long-term care facilities, such as nursing homes, addressing complaints, protecting residents' rights, and striving to enhance the quality of care. Additionally, the Health Insurance Counseling and Advocacy Program offers free, impartial guidance to older adults and individuals with disabilities, helping them navigate the complexities of health insurance options, including Medicare, and advocating for their healthcare needs.

This Agreement is supported with State and Federal funds and requires compliance with all regulations under the following laws:

F.1 Clean Air Act, as amended. [42 USC § 7401]

VIII. APPEAL PROCESS

In the event of a dispute or grievance regarding the terms and conditions of this Agreement, both parties shall abide by the following procedures:

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

Docusign Envelope ID: CB183C63-3873-45E7-A272-FB38CCAD6EE5

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: CB183C63-3873-45E7-A272-FB38CCAD6EE5

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: CB183C63-3873-45E7-A272-FB38CCAD6EE5

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

10.06 **Format of Deliverables:** For this section, "Deliverables" shall mean all electronic documents CONTRACTOR provides to the County under this Agreement. CONTRACTOR shall ensure all Deliverables comply with the requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1, pursuant to the Americans with Disabilities Act ("ADA"). CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

The Title VII Ombudsman Program advocates for residents in long-term care facilities, such as nursing homes, addressing complaints, protecting residents' rights, and striving to enhance the quality of care. Additionally, the Health Insurance Counseling and Advocacy Program offers free, impartial guidance to older adults and individuals with disabilities, helping them navigate the complexities of health insurance options, including Medicare, and advocating for their healthcare needs.

Health Insurance Portability & Accountability Act (HIPAA) Certification

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: CB183C63-3873-45E7-A272-FB38CCAD6EE5

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: CB183C63-3873-45E7-A272-FB38CCAD6EE5

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. 9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: 229EEBC4-1F65-4593-8E62-A67673113A8B

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after reciept of final payment under this Agreement. E. BACKGROUND:

In June 2024, the County of Monterey entered into a grant agreement with CDSS to provide a Children's Crisis Continuum Pilot Program (CCCPP) to close existing service gaps by building out comprehensive in-patient, crisis support, and community-based options. The CCCPP funding is earmarked for Seneca Family of Agencies to start up a range of additional high-end programs that do not currently exist locally to keep youth with complex needs in the community. These programs include a co-located, multi-tiered crisis treatment facility

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: 229EEBC4-1F65-4593-8E62-A67673113A8B

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;

In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

CONTRACTOR shall bear all costs in connection with, or resulting from, any audit and/or inspections including, but not limited to, actual cost incurred and the payment/repayment of any expenditures disallowed by COUNTY, State or Federal government entities, including any assessed interest and penalties.

If CONTRACTOR is exempt from federal audit procedures under UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS (Uniform Guidance), then payment for this audit shall be made by CONTRACTOR with resources other than grant funds, or those used for matching purposes. If CONTRACTOR is not exempt from federal audit procedures under the UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS (Uniform Guidance), the cost of audits made in accordance with the provisions of this part are allowable charges to Federal awards. The charges may be considered a direct cost or an allocated indirect cost, as determined in accordance with the provisions of applicable Uniform Guidance cost principles, other applicable cost principles or regulations.

II. Contractor Records
Funds provided by COUNTY shall be accounted for separately in CONTRACTOR's books and records. CONTRACTOR shall keep a systematic accounting record of the receipt and disbursement of COUNTY funds. 5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

"CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. 9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: E7F81AC3-8CEF-4419-8451-252ED73F5545

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

a) Allowable costs shall be the CONTRACTOR's actual costs of developing, supervising and delivering the services under this Agreement, as set forth in **Exhibit C-1, Exhibit C-2,** and **Exhibit C-3**. Only the costs listed in **Exhibit C-1, Exhibit C-2,** and **Exhibit C-3** as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of 45 Code of Federal Regulations, Part 74, Sub-Part F and 48 Code of Federal Regulations (CFR), Chapter 1, Part 31.

b) Allowable costs for travel expenses incurred while providing services under this Agreement, as set forth in **Exhibit C-1, Exhibit C-2,** and **Exhibit C-3**, must follow the Monterey County Auditor/Controller's Travel Policy https://www.countyofmonterey.gov/government/departments-a-h/auditor-controller/policies-and-procedures and should be invoiced the current per diem rates for lodging, meals, and mileage up to the rates listed online at https://www.irs.gov/tax-professionals/standard-mileage-rates.

CONTRACTOR shall submit an amended budget with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this contract. Therefore, an increase in one-line item will require corresponding decreases in other line items.

1.05 Payment in Full:
a) If COUNTY certifies and pays the amount requested by CONTRACTOR, such payment shall be deemed payment in full for the month in question and may not thereafter be reviewed or modified, except to permit COUNTY's recovery of overpayments.

b) If COUNTY certifies and pays a lesser amount than the amount requested, COUNTY shall, immediately upon certification of the lesser amount, notify CONTRACTOR in writing of such certification. If CONTRACTOR does not protest the lesser amount by delivering to COUNTY a written notice of protest within twenty (20) days after CONTRACTOR's receipt of the certification, then payment of the lesser amount shall be deemed payment in full for the month in question and may not thereafter be questioned by CONTRACTOR.

1.06 Disputed payment amount: If COUNTY pays a lesser amount than the amount requested, and if CONTRACTOR submits a written notice of protest to COUNTY within twenty (20) days after CONTRACTOR's receipt of the certification, then the parties shall promptly meet to review the dispute and resolve it on a mutually acceptable basis. No court action may be taken on such dispute until the parties have met and attempted to resolve the dispute in person.

II. PERFORMANCE STANDARDS & COMPLIANCE

2.01 Outcome objectives and performance standards: CONTRACTOR shall for the entire term of this Agreement provide the service outcomes set forth in **Exhibit A, Exhibit A-1, Exhibit A-2,** and **Exhibit A-3**. 2.04 Termination for cause: Notwithstanding Section 7.02 of the Agreement, if the corrective actions required above are not completed and the report to the COUNTY not made within thirty (30) days, the COUNTY may terminate this Agreement by giving five (5) days' written notice to CONTRACTOR.

2.05 Remedies for Inadequate Service Levels:

a) For each month that service falls below 80% of the contracted level, CONTRACTOR shall submit to the COUNTY an analysis of the causes of the problem and any necessary actions to be taken to correct the problem. If the problem continues for another month, the COUNTY shall meet with CONTRACTOR to explore the problem and develop an appropriate written corrective action plan with appropriate time frames.

Docusign Envelope ID: E7F81AC3-8CEF-4419-8451-252ED73F5545

c) Notwithstanding Section 7.02 of the Agreement, if, after the COUNTY notifies CONTRACTOR of any sanctions to be imposed, CONTRACTOR continues in its failure to take corrective action, then COUNTY may terminate this contract by giving CONTRACTOR five (5) days' written notice.

d) If all appropriate corrective actions are taken but service still falls 80% or more below contracted level, COUNTY and CONTRACTOR may renegotiate the contracted level of service.

2.06 Training for Staff: CONTRACTOR shall insure that sufficient training is provided to its volunteer and paid staff to enable them to perform effectively on the project, and to increase their existing level of skills. Additionally, CONTRACTOR shall ensure that all staff completes Division 21 Civil Rights training.

  3) any available drug counseling, rehabilitation, and employee assistance programs;
  4) the penalties that may be imposed upon employees for drug abuse violations;
  5) requiring that each employee engaged in the performance of the contract or grant be given a copy of the company's drug-free policy statement and that, as a condition of employment on the contract or grant, the employee agrees to abide by the terms of the statement.

III. CONFIDENTIALITY

CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with Welfare and Institutions (W & I) Code Sec. 10850, 45 CFR Sec. 205.50, and all other applicable provisions of law which provide for the confidentiality of records and prohibit their being opened for examination for any purpose not directly connected with the administration of public social services. WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. It is recommended that the Board of Supervisors:
Approve the Library Director to enter into a Memorandum of Understanding ("MOU") with the Volunteer Center of Santa Cruz County from December 2, 2025 - December 1, 2028 to offer programs, classes, and outreach to the community via public library locations

SUMMARY:

Monterey County Free Libraries (MCFL) and the Volunteer Center of Santa Cruz County will partner to bring workshops, outreach, and other opportunities to MCFL locations.

DISCUSSION:

MCFL partners with various community organizations, non-profits, and other government agencies to bring a variety of programs, workshops, classes, and opportunities to the community via branch libraries. This increases and enhances opportunities in communities for free and local options for learning.

As residents routinely move across jurisdictional lines, living and working in different areas, bringing unique opportunities provided by the Volunteer Center of Santa Cruz County into MCFL locations benefits community members.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:

County Counsel has reviewed as to form.

FINANCING:

Services provided by the Volunteer Center for Santa Cruz County will be provided at no charge. Ancillary costs to MCFL, such as promotion of these opportunities, will be absorbed into the MCFL operational budget. There is no impact to the General Fund.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:

a. Approve and adopt Amendment No. 2 to the County of Monterey Section 125 Flexible Benefit Plan to increase the Dependent Care Assistance Program contribution limit effective January 1, 2026 from $5,000 to a flexible contribution limits as set by Congress or the Internal Revenue Service effective January 1, 2026.
b. Authorize the Human Resources Department and the Auditor-Controller's Office to implement the amendment to the Monterey County Section 125 Flexible Benefit Plan.

RECOMMENDATION:
It is recommended that the Board of Supervisors:

a. Approve and adopt Amendment No. 2 to the County of Monterey Section 125 Flexible Benefit Plan to increase the Dependent Care Assistance Program contribution limit effective January 1, 2026 from $5,000 to a flexible contribution limits as set by Congress or the Internal Revenue Service effective January 1, 2026.
b. Authorize the Human Resources Department and the Auditor-Controller's Office to implement the amendment to the Monterey County Section 125 Flexible Benefit Plan.

SUMMARY:
The County of Monterey offers all eligible County employees a robust pre-tax benefits package through Cafeteria Benefit Plan, which includes a Dependent Care Assistance Program (DCAP). The Dependent Care Assistance Program allows employees to make an irrevocable election each Open Enrollment Period to set aside pre-tax dollars for the upcoming calendar year to pay for eligible dependent care expenses such as daycare, afterschool program, and summer day camp. Historically, the annual DCAP contribution limit has been set at $5,000 per household, as established under Internal Revenue Code (IRC) Section 129.

On July 4, 2025, the H.R.1 Bill was enacted by Congress, which increases the maximum annual contribution limit for the Dependent Care Assistance Program (DCAP) from $5,000 to $7,500, effective January 1, 2026. In order for the County to offer this increased benefit to employees, the County's Section 125 Cafeteria Plan must be formally amended to incorporate the new federal contribution limit in accordance with Internal Revenue Code Section 129. In response to this change, and to ensure timely compliance with current and future federal law, the Human Resources Department recommends amending the Cafeteria Plan to expressly adopt the $7,500 annual limit for the 2026 plan year, and to include language that allows the County to automatically implement future

increases to the DCAP limit if the IRS or Congress updates the allowable contribution amount in subsequent years. This approach ensures that the Plan remains compliant with federal law and eliminates the need for future formal amendments to Article VII, Section 7.9 of the Section 125 Flexible Benefit Plan to accommodate changes to the statutory limit.

DISCUSSION:

The proposed Plan amendment replaces the fixed dollar limit currently stated in the Section 125 Flexible Benefit Plan with a provision that references the maximum limit allowable under current federal law. This change will allow the County to implement the new $7,500 limit beginning with the 2026 plan year and allows the County to automatically offer employees the ability to contribute up to new maximum contribution limits in future plan years if Congress or the IRS changes the allowable contribution limit.

This amendment ensure the County remains in compliance with IRC Section 129 while maximizing tax-advantageous benefits for employees and minimizing administrative burden to the County. It also ensures that employees can take advantage of increased tax savings in a timely manner when federal limits are raised, without delay and helps support employees experiencing challenges with childcare expenses. The Dependent Care Assistance Program is entirely employee-funded through pre-tax salary redirection. As such, the increased limit does not result in any additional County cost. There is no fiscal impact to the County as a result of this amendment. For these reasons, it is recommended that the Board of Supervisors approve the amendment to the Monterey County Section 125 Flexible Benefit Plan.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:

The Human Resources Department has consulted with the County Administrative Office, and the Offices of the County Counsel and Auditor-Controller regarding the applicability and implementation of these changes.

FINANCING:

There are no associated costs with the implementation of these provisions as contributions toward the Dependent Care Assistance Program is funded by employee payroll deductions.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:

This amendment supports the Strategic Plan Goal of Well-Being and Quality of Life by expanding access to tax-advantaged dependent care benefits, helping working families better manage the rising cost of child and elder care.

COUNTY OF MONTEREY
FLEXIBLE BENEFIT PLAN

INTRODUCTION

The Employer has amended this Plan effective January 1, 2020, to recognize the contribution made to the Employer by its Employees. Its purpose is to reward them by providing benefits for those Employees who shall qualify hereunder and their Dependents and beneficiaries. The concept of this Plan is to allow Employees to choose among different types of benefits based on their own particular goals, desires and needs. This Plan is a restatement of a Plan which was originally effective on January 1, 2000. The Plan shall be known as County of Monterey Flexible Benefit Plan (the "Plan").

The intention of the Employer is that the Plan qualify as a "Cafeteria Plan" within the meaning of Section 125 of the Internal Revenue Code of 1986, as amended, and that the benefits which an Employee elects to receive under the Plan be excludable from the Employee's income under Section 125(a) and other applicable sections of the Internal Revenue Code of 1986, as amended.

ARTICLE I
DEFINITIONS

1.1 **"Administrator"** means the Employer unless another person or entity has been designated by the Employer pursuant to Section 9.1 to administer the Plan on behalf of the Employer. If the Employer is the Administrator, the Employer may appoint any person, including, but not limited to, the Employees of the Employer, to perform the duties of the Administrator. Any person so appointed shall signify acceptance by filing written acceptance with the Employer. Upon the resignation or removal of any individual performing the duties of the Administrator, the Employer may designate a successor.

1.2 **"Affiliated Employer"** means the Employer and any corporation which is a member of a controlled group of corporations (as defined in Code Section 414(b)) which includes the Employer; any trade or business (whether or not incorporated) which is under common control (as defined in Code Section 414(c)) with the Employer; any organization (whether or not incorporated) which is a member of an affiliated service group (as defined in Code Section 414(m)) which includes the Employer; and any other entity required to be aggregated with the Employer pursuant to Treasury regulations under Code Section 414(o).

1.3 **"Benefit"** or **"Benefit Options"** means any of the optional benefit choices available to a Participant as outlined in Section 4.1.

1.4 **"Cafeteria Plan Benefit Dollars"** means the amount available to Participants to purchase Benefit Options as provided under Section 4.1. Each dollar contributed to this Plan shall be converted into one Cafeteria Plan Benefit Dollar.

1.5 **"Code"** means the Internal Revenue Code of 1986, as amended or replaced from time to time.

1.6 **"Compensation"** means the amounts received by the Participant from the Employer during a Plan Year.

1.7 **"Dependent"** means any individual who qualifies as a dependent under the Insurance Contract or self-funded plan for purposes of that plan or under Code Section 152 (as modified by Code Section 105(b)).

"Dependent" shall include any Child of a Participant who is covered under an Insurance Contract, as defined in the Contract, or under the Health Flexible Spending Account or as allowed by reason of the Affordable Care Act.

For purposes of the Health Flexible Spending Account, a Participant's "Child" includes his/her natural child, stepchild, foster child, adopted child, or a child placed with the Participant for adoption. A Participant's Child will be an eligible Dependent until reaching the limiting age of 26, without regard to student status, marital status, financial dependency or residency status with the Employee or any other person. When the child reaches the applicable limiting age, coverage will end at the end of the calendar year.

The phrase "placed for adoption" refers to a child whom the Participant intends to adopt, whether or not the adoption has become final, who has not attained the age of 18 as of the date of such placement for adoption. The term "placed" means the assumption and retention by such Employee of a legal obligation for total or partial support of the child in anticipation of adoption of the child. An individual shall not be an "Eligible Employee" if such individual is not reported on the payroll records of the Employer as a common law employee. In particular, it is expressly intended that individuals not treated as common law employees by the

Employer on its payroll records are not "Eligible Employees" and are excluded from Plan participation even if a court or administrative agency determines that such individuals are common law employees and not independent contractors.

Employees whose employment is governed by the terms of a collective bargaining agreement between Employee representatives (within the meaning of Code Section 7701(a)(46)) and the Employer under which benefits were the subject of good faith bargaining between the parties, unless such agreement expressly provides for such coverage in this Plan, will not be eligible to participate in this Plan.

However, any Employee who is a "part-time" Employee shall not be eligible to participate in this Plan. A "part-time" Employee is any Employee who works, or is expected to work on a regular basis, less than 20 hours a week and is designated as a part-time Employee on the Employer's personnel records.

1.11 **"Employee"** means any person who is employed by the Employer. The term Employee shall include leased employees within the meaning of Code Section 414(n)(2).

ARTICLE II
PARTICIPATION

2.1 ELIGIBILITY

Any Eligible Employee shall be eligible to participate hereunder effective the 1st day of the month following the employee's hire date. New hires who elect coverage under this plan, must request coverage within 31 days after their initial date of employment with the Employer. However, any Eligible Employee who was a Participant in the Plan on the effective date of this amendment shall continue to be eligible to participate in the Plan.

2.2 EFFECTIVE DATE OF PARTICIPATION

An Eligible Employee shall become a Participant effective as of the first day of the month coinciding with or next following the date on which the employee met the eligibility requirements of Section 2.1.

2.3 APPLICATION TO PARTICIPATE

An Employee who is eligible to participate in this Plan shall, during the applicable Election Period, complete an application to participate in a manner set forth by the Administrator. The election shall be irrevocable until the end of the applicable Plan Year unless the Participant is entitled to change their Benefit elections pursuant to Section 5.4 hereof.

An Eligible Employee shall also be required to complete a Salary Redirection Agreement during the Election Period for the Plan Year during which the employee wishes to participate in this Plan. Any such Salary Redirection Agreement shall be effective for the first pay period beginning on or after the Employee's effective date of participation pursuant to Section 2.2.

2.4 TERMINATION OF PARTICIPATION

A Participant shall no longer participate in this Plan upon the occurrence of any of the following events:

(a) **Separation of employment.** The Participant's separation from employment, subject to the provisions of Section 2.6;

(b) **Change in employment status.** The end of the Plan Year during which the Participant became a limited Participant because of a change in employment status pursuant to Section 2.5;

(c) **Death.** The Participant's death, subject to the provisions of Section 2.7; or

(d) **Termination of the plan.** The termination of this Plan, subject to the provisions of Section 10.2.

2.5 CHANGE OF EMPLOYMENT STATUS

If a Participant ceases to be eligible to participate because of a change in employment status or classification (other than through termination of employment), the Participant shall become a limited Participant in this Plan for the remainder of the Plan Year in which such change of employment status occurs. As a limited Participant, no further Salary Redirection may be made on behalf of the Participant, and, except as otherwise provided herein, all further Benefit elections shall cease, subject to the limited Participant's right to continue coverage under any Insurance Contracts. However, any balances in the limited Participant's Dependent Care Flexible Spending Account may be used during such Plan Year to reimburse the limited Participant for any allowable Employment-Related Dependent Care incurred during the Plan Year. Subject to the provisions of Section 2.6, if the limited Participant later becomes an Eligible Employee, then the limited Participant may again become a full Participant in this Plan, provided the employee otherwise satisfies the participation requirements set forth in this Article II as if the employee were a new Employee and made an election in accordance with Section 5.1.

2.6 SEPARATION OF EMPLOYMENT

If a Participant separates from employment for any reason other than death, the employee's participation in the Benefit Options provided under Section 4.1 shall be governed in accordance with the following:

(a) **Insurance Benefit.** With regard to Benefits provided under Section 4.1, the Participant's participation in the Plan shall cease, subject to the Participant's right to continue coverage under any Insurance Contract or self-funded benefit for which premiums have already been paid.

(b) **Dependent Care FSA.** With regard to the Dependent Care Assistance Program, the Participant's participation in the Plan shall cease and no further Salary Redirection contributions shall be made. However, such Participant may submit claims for employment related Dependent Care Expense reimbursements for claims incurred up to the date of termination and submitted within 90 days after termination, based on the level of the Participant's Dependent Care Flexible Spending Account as of the date of termination.

(c) **COBRA applicability.** With regard to the Health Flexible Spending Account, the Participant may submit claims for expenses that were incurred during the portion of the Plan Year up to the date of separation. Thereafter, the health benefits under this Plan including the Health

Flexible Spending Account shall be applied and administered consistent with such further rights a Participant and their Dependents may be entitled to pursuant to Code Section 4980B and Section 11.13 of the Plan.

2.7 DEATH

If a Participant dies, participation in the Plan shall cease. However, such Participant's spouse or Dependents may submit claims for expenses or benefits for the remainder of the Plan Year or until the Cafeteria Plan Benefit Dollars allocated to each specific benefit are exhausted. In no event may reimbursements be paid to someone who is not a spouse or Dependent. If the Plan is subject to the provisions of Code Section 4980B, then those provisions and related regulations shall apply for purposes of the Health Flexible Spending Account.

ARTICLE III
CONTRIBUTIONS TO THE PLAN

3.1 EMPLOYER CONTRIBUTION

The Employer shall make available to each Participant an Employer Contribution to be used for any Benefit under the Plan in an amount to be determined by the Employer prior to the beginning of each Plan Year. Each Participant's Employer Contribution shall be converted to Cafeteria Plan Benefit Dollars or "flex credits" and be available to purchase Benefits hereunder. The Employer's Contribution shall be made on a pro rata basis for each pay period of the Participant. If a Participant fails to make any medical enrollment election under this plan, there shall be no Employer Contribution (i.e., the Employer Contribution shall not be available in cash).

3.2 SALARY REDIRECTION

If a Participant's Employer Contribution is not sufficient to cover the cost of Benefits or Premium Expenses elected pursuant to Section 4.1, their Compensation will be reduced in an amount equal to the difference between the cost of Benefits their elected and the amount of Employer Contribution available to the employee. Such reduction shall be the employee's Salary Redirection, which the Employer will use on the employee's behalf, together with the Employer Contribution, to pay for the Benefits elected. The amount of such Salary Redirection shall be specified in the Salary Redirection Agreement and shall be applicable for a Plan Year. Notwithstanding the above, for new Participants, the Salary Redirection Agreement shall only be applicable from the first day of the pay period following the Employee's entry date up to and including the last day of the Plan Year. These contributions shall be converted to Cafeteria Plan Benefit Dollars and allocated to the funds or accounts established under the Plan pursuant to the Participants' elections made under Article IV.

Any Salary Redirection shall be determined prior to the beginning of a Plan Year (subject to initial elections pursuant to Section 5.1) and prior to the end of the Election Period and shall be irrevocable for such Plan Year. However, a Participant may revoke a Benefit election or a Salary Redirection Agreement after the Plan Year has commenced and make a new election with respect to the remainder of the Plan Year, if both the revocation and the new election are on account of and consistent with a change in status and such other permitted events as determined under Article V of the Plan and consistent with the rules and regulations of the Department of the Treasury. Salary Redirection amounts shall be contributed on a pro rata basis for each pay period during the Plan Year. All individual Salary Redirection Agreements are deemed to be part of this Plan and incorporated by reference hereunder.

3.3 APPLICATION OF CONTRIBUTIONS

As soon as reasonably practical after each benefits deduction payroll period, the Employer shall apply the Employer Contribution and Salary Redirection to provide the Benefits elected by the affected Participants. Any contribution made or withheld for the Health Flexible Spending Account or Dependent Care Assistance Program shall be credited to such fund or account.

3.4 PERIODIC CONTRIBUTIONS

Notwithstanding the requirement provided above and in other Articles of this Plan that Salary Redirections be contributed to the Plan by the Employer on behalf of an Employee on a level and pro rata basis for each benefit deduction payroll period, the Employer and Administrator may implement a procedure in which Salary Redirections are contributed throughout the Plan Year on a periodic basis that is not pro rata for each payroll period. However, with regard to the Health Flexible Spending Account, the payment schedule for the required contributions may not be based on the rate or amount of reimbursements during the Plan Year.

Each Participant may elect any one or more of the following optional Benefits:

4.5 DENTAL INSURANCE BENEFIT

(c) **Contract incorporated by reference.** The rights and conditions with respect to the benefits payable from vision Insurance Contract shall be determined therefrom, and vision Insurance Contract shall be incorporated herein by reference.

.

4.7 NONDISCRIMINATION REQUIREMENTS

(a) **Intent to be nondiscriminatory.** It is the intent of this Plan to provide benefits to a classification of employees which the Secretary of the Treasury finds not to be discriminatory in favor of the group in whose favor discrimination may not occur under Code Section 125.

(b) **25% concentration test.** It is the intent of this Plan not to provide qualified benefits as defined under Code Section 125 to Key Employees in amounts that exceed 25% of the aggregate of such Benefits provided for all Eligible Employees under the Plan. For purposes of the preceding sentence, qualified benefits shall not include benefits which (without regard to this paragraph) are includible in gross income.

(c) **Adjustment to avoid test failure.** If the Administrator deems it necessary to avoid discrimination or possible taxation to Key Employees or a group of employees in whose favor discrimination may not occur in violation of Code Section 125, it may, but shall not be required to, reduce contributions or non-taxable Benefits in order to assure compliance with the Code and regulations. Any act taken by the Administrator shall be carried out in a uniform and nondiscriminatory manner. With respect to any affected Participant who has had Benefits reduced pursuant to this Section, the reduction shall be made proportionately among Health Flexible Spending Account Benefits and Dependent Care Assistance Program Benefits, and once all these Benefits are expended, proportionately among insured or self-funded Benefits. Contributions which are not utilized to provide Benefits to any Participant by virtue of any administrative act under this paragraph shall be forfeited and deposited into the benefit plan surplus.

ARTICLE V
PARTICIPANT ELECTIONS

5.1 INITIAL ELECTIONS

An Employee who meets the eligibility requirements of Section 2.1 on the first day of, or during, a Plan Year may elect to participate in this Plan for all or the remainder of such Plan Year, provided they elects to do so within 31 days of their hire date pursuant to Section 2.2.

5.2 SUBSEQUENT ANNUAL ELECTIONS

During the Election Period prior to each subsequent Plan Year, each Participant shall be given the opportunity to elect, on an election of benefits form to be provided by the Administrator, which spending account Benefit options the participant wishes to select. Any such election shall be effective for any Benefit expenses incurred during the Plan Year which follows the end of the Election Period. With regard to subsequent annual elections, the following options shall apply:

(a) A Participant or Employee who failed to initially elect to participate may elect different or new Benefits under the Plan during the Election Period;

(b) A Participant may terminate their participation in the Plan by notifying the Administrator in writing during the Election Period that they no longer want to participate in the Plan for the next Plan Year;

(c) An Employee who elects not to participate for the Plan Year following the Election Period will have to wait until the next Election Period before again electing to participate in the Plan, except as provided for in Section 5.4.

5.3 FAILURE TO ELECT

With regard to Benefits available under the Plan, any employee who is a participant and who fails to complete a new benefit election form pursuant to Section 5.2 by the end of the applicable Election Period shall be deemed to have perpetuated their prior Plan Year election except for the Health Flexible Spending Account and the Dependent Care Assistance Program. The Health Flexible Spending Account and Dependent Care Assistance Program require a new election each year during the Enrollment Period for the subsequent Plan Year. An eligible employee, who is not a current participant in the Plan and who fails to submit an election during the Enrollment Period will be deemed to have elected not to participate in the Plan. Any participant who is deemed to have made an election will also be deemed to have agreed to the corresponding Salary Redirection for the subsequent plan year equal to the employee's share of cost.

5.4 CHANGE IN STATUS

(a) **Change in status defined.** Any Participant may change a Benefit election after the Plan Year (to which such election relates) has commenced and make new elections with respect to the remainder of such Plan Year if, under the facts and circumstances, the changes are necessitated by and are consistent with a change in status which is acceptable under rules and regulations adopted by the Department of the Treasury, the provisions of which are incorporated by reference. Notwithstanding anything herein to the contrary, if the rules and regulations conflict, then such rules and regulations shall control.

In general, a change in election is not consistent if the change in status is the Participant's divorce, annulment or legal separation from a Spouse, the death of a Spouse or Dependent, or a Dependent ceasing to satisfy the eligibility requirements for coverage, and the Participant's election under the Plan is to cancel health insurance coverage for any individual other than the one involved in such event. In addition, if the Participant, Spouse or Dependent gains or loses eligibility for coverage, then a Participant's election under the Plan to cease or decrease coverage for that individual under the Plan corresponds with that change in status only if coverage for that individual becomes applicable or is increased under the family member plan.

Regardless of the consistency requirement, if the individual, the individual's Spouse, or Dependent becomes eligible for continuation coverage under the Employer's group health plan as provided in Code Section 4980B or any similar state law, then the individual may elect to increase payments under this Plan in order to pay for the continuation coverage. However, this does not apply for COBRA eligibility due to divorce, annulment, or legal separation.

Any new election shall be effective the first of the month following such a qualifying event subject to timely enrollment within 30 days.. For the purposes of this subsection, a change in status shall only include the following events or other events permitted by Treasury regulations:

(1) Legal Marital Status: events that change a Participant's legal marital status, including marriage, divorce, death of a Spouse, legal separation or annulment; in addition to corresponding changes in a Domestic Partnership or state law marriage of same gender spouses;

(2) Number of Dependents: Events that change a Participant's number of Dependents, including birth, adoption, placement for adoption, or death of a Dependent;

(3) Employment Status: Any of the following events that change the employment status of the Participant, Spouse, or Dependent: termination or commencement of employment, a strike or lockout, commencement or return from an unpaid leave of absence, or a change in worksite. In addition, if the eligibility conditions of this Plan or other employee benefit plan of the Employer of the Participant, Spouse, or Dependent depend on the employment status of that individual and there is a change in that individual's employment status with the consequence that the individual becomes (or ceases to be) eligible under the plan, then that change constitutes a change in employment under this subsection;

(4) Dependent satisfies or ceases to satisfy the eligibility requirements: An event that causes the Participant's Dependent to satisfy or cease to satisfy the requirements for coverage due to attainment of age, student status, or any similar circumstance; and

(5) Residency: A change in the place of residence of the Participant, Spouse or Dependent, that would lead to a change in status (such as a loss of HMO coverage).

For the Dependent Care Assistance Program, a Dependent becoming or ceasing to be a "Qualifying Dependent" as defined under Code Section 21(b) shall also qualify as a change in status.

Notwithstanding anything in this Section to the contrary, the gain of eligibility or change in eligibility of a child, as allowed under Code Sections 105(b) and 106, and guidance thereunder, shall qualify as a change in status.

(b) **Special enrollment rights.** Notwithstanding subsection (a), the Participants may change an election for group health coverage during a Plan Year and make a new election that corresponds with the special enrollment rights provided in Code Section 9801(f), including those authorized under the provisions of the Children's Health Insurance Program

Reauthorization Act of 2009 (SCHIP); provided that such Participant meets the sixty (60) day notice requirement imposed by Code Section 9801(f) (or such longer period as may be permitted by the Plan and communicated to Participants). Such change shall take place on a prospective basis, unless otherwise required by Code Section 9801(f) to be retroactive.

(c) **Qualified Medical Support Order.** Notwithstanding subsection (a), in the event of a judgment, decree, or order (including approval of a property settlement) ("order") resulting from a divorce, legal separation, annulment, or change in legal custody which requires accident or health coverage for a Participant's child (including a foster child who is a Dependent of the Participant):

(1) The Plan may change an election to provide coverage for the child if the order requires coverage under the Participant's plan; or

(2) The Participant shall be permitted to change an election to cancel coverage for the child if the order requires the former Spouse to provide coverage for such child, under that individual's plan and such coverage is actually provided.

(d) **Medicare or Medicaid.** Notwithstanding subsection (a), a Participant may change elections to cancel accident or health coverage for the Participant or the Participant's Spouse or Dependent if the Participant or the Participant's Spouse or Dependent is enrolled in the accident or health coverage of the Employer and becomes entitled to coverage (i.e., enrolled) under Part A or Part B of the Title XVIII of the Social Security Act (Medicare) or Title XIX of the Social Security Act (Medicaid), other than coverage consisting solely of benefits under Section 1928 of the Social Security Act (the program for distribution of pediatric vaccines). If the Participant or the Participant's Spouse or Dependent who has been entitled to Medicaid or Medicare coverage loses eligibility, that individual may prospectively elect coverage under the Plan if a benefit package option under the Plan provides similar coverage.

(e) **Cost increase or decrease.** If the cost of a Benefit provided under the Plan increases or decreases during a Plan Year, then the Plan shall automatically increase or decrease, as the case may be, the Salary Redirections of all affected Participants for such Benefit. Alternatively, if the cost of a benefit package option increases significantly, the Administrator may permit the affected Participants to either make corresponding changes in their payments or revoke their elections and, in lieu thereof, receive on a prospective basis coverage under another benefit package option with similar coverage, or drop coverage prospectively if there is no benefit package option with similar coverage. The Administrator, in its sole discretion, will decide, in accordance with prevailing IRS guidance, whether a cost increase is “significant”, and what constitutes “similar coverage” based upon all surrounding facts and circumstances.

A cost increase or decrease refers to an increase or decrease in the amount of elective contributions under the Plan, whether resulting from an action taken by the Participants or an action taken by the Employer.

(f) **Loss of coverage.** If the coverage under a Benefit is significantly curtailed or ceases during a Plan Year, affected Participants may revoke their elections of such Benefit and, in lieu thereof, elect to receive on a prospective basis coverage under another plan with similar coverage, or drop coverage prospectively if no similar coverage is offered.

(g) **Addition of a new benefit.** If, during the period of coverage, a new benefit package option or other coverage option is added, an existing benefit package option is significantly improved, or an existing benefit package option or other coverage option is eliminated, then the affected Participants may elect the newly-added option, or elect another option if an option has been eliminated prospectively and make corresponding election changes with respect to other benefit package options providing similar coverage. In addition, those Eligible Employees who are not participating in the Plan may opt to become Participants and elect the new or newly improved benefit package option.

(h) **Loss of coverage under certain other plans.** A Participant may make a prospective election change to add group health coverage for the Participant, the Participant's Spouse or Dependent if such individual loses group health coverage sponsored by a governmental or educational institution, including a state children's health insurance program under the Social Security Act, the Indian Health Service or a health program offered by an Indian tribal government, a state health benefits risk pool, or a foreign government group health plan.

(i) **Change of coverage due to change under certain other plans.** A Participant may make a prospective election change that is on account of and corresponds with a change made under the plan of a Spouse's, former Spouse's or Dependent's employer if (1) the cafeteria plan or other benefits plan of the Spouse's, former Spouse's or Dependent's employer permits its participants to make a change; or (2) the cafeteria plan permits participants to make an election for a period of coverage that is different from the period of coverage under the cafeteria plan of a Spouse's, former Spouse's or Dependent's employer.

(j) **Change in dependent care provider.** A Participant may make a prospective election change that is on account of and corresponds with a change by the Participant in the dependent care provider. The availability of dependent care services from a new childcare provider is similar to a new benefit package option becoming available. A cost change is allowable in the Dependent Care Assistance Program only if the cost change is imposed by a dependent care provider who is not related to the Participant, as defined in Code Section 152(a)(1) through (8).

(k) **Health FSA cannot change due to insurance change.** A Participant shall not be permitted to change an election to the Health Flexible Spending Account as a result of a cost or coverage change under any health insurance benefits.

(l) **Changes due to reduction in hours or enrollment in an Exchange Plan.** A Participant may prospectively revoke coverage under the group health plan (that is not a health Flexible Spending Account) which provides minimum essential coverage (as defined in Code §5000A(f)(1)) provided the following conditions are met:

Conditions for revocation due to reduction in hours of service:

(1) The Participant has been reasonably expected to average at least 30 hours of service per week and there is a change in that Participant's status so that the Participant will reasonably be expected to average less than 30 hours of service per week after the change, even if that reduction does not result in the Participant ceasing to be eligible under the group health plan; and

(2) The revocation of coverage under the group health plan corresponds to the intended enrollment of the Participant, and any related individuals who cease coverage due to the revocation, in another plan that provides minimum essential coverage with the new coverage effective no later than the first day of the second month following the month that includes the date the original coverage is revoked.

The Administrator may rely on the reasonable representation of the Participant who is reasonably expected to have an average of less than 30 hours of service per week for future periods that the Participant and related individuals have enrolled or intend to enroll in another plan that provides minimum essential coverage for new coverage that is effective no later than the first day of the second month following the month that includes the date the original coverage is revoked.

Conditions for revocation due to enrollment in a Qualified Health Plan:

(1) The Participant is eligible for a Special Enrollment Period to enroll in a Qualified Health Plan through a Marketplace (federal or state exchange) pursuant to guidance issued by the Department of Health and Human Services and any other applicable guidance, or the Participant seeks to enroll in a Qualified Health Plan through a Marketplace during the Marketplace's annual open enrollment period; and

(2) The revocation of the election of coverage under the group health plan corresponds to the intended enrollment of the Participant and any related individuals who cease coverage due to the revocation in a Qualified Health Plan through a Marketplace for new coverage that is effective beginning no later than the day immediately following the last day of the original coverage that is revoked.

The Administrator may rely on the reasonable representation of a Participant who has an enrollment opportunity for a Qualified Health Plan through a Marketplace that the Participant and related individuals have enrolled or intend to enroll in a Qualified Health Plan for new coverage that is effective beginning no later than the day immediately following the last day of the original coverage that is revoked.

An Employee who is eligible to become a Participant but declined to become a Participant during the initial Election Period may become a Participant and submit an Enrollment Flex Form within thirty (30) days of the occurrence of an event described in Section 5.4 above, but only if the election under the new Enrollment Flex Form is made on account of and corresponds with the event (as described above) (e.g., birth of Dependent, change to add such Dependent). A Participant otherwise entitled to make a new election under this Section must do so within 30 days of the event (e.g. Change in Status, significant change in cost or coverage, Medicare or Medicaid eligibility, special enrollment right or judgment, decree, or order). Subject to the provisions of the underlying group health plan and applicable law, elections made to add medical coverage for a newborn or newly adopted Dependent child pursuant to a HIPAA special enrollment right may be retroactive at any time. All other new elections shall be effective no sooner than the first day of the month immediately following the date the Participant timely and properly files their new Enrollment Flex Form with the Administrator. Elections made pursuant to this Section shall be effective for the balance of the Plan Year in which the election is made unless a subsequent event (described above) allows a further election change.
