

Monterey County

168 West Alisal Street,
1st Floor
Salinas, CA 93901
831.755.5066

Board Order

Upon motion of Supervisor Parker, seconded by Supervisor Phillips and carried by those members present, the Board of Supervisors hereby:

Held Public Hearing:

- a. Adopted **Resolution 15-222** issuing a report describing the measures taken to alleviate the condition which led to the adoption of Interim Ordinance No. 5254 relating to medical marijuana;
 - b. Adopted **Ordinance 5256** to extend Interim Urgency Ordinance No. 5254 for 10 months and 15 days, until and through July 5, 2016, as an urgency measure pursuant to Government Code Section 65858 to prohibit, on a temporary basis, the establishment of new medical marijuana dispensaries and collective or cooperative cultivation of medical marijuana in the unincorporated area of the County, pending the County's study and consideration of regulations. (4/5 vote required); and
 - c. Directed staff to return August 25, 2015 with timeline status report.
- (Medical Marijuana Interim Urgency Ordinance - REF150047; Statutorily Exempt under CEQA)

PASSED AND ADOPTED on this 28th day of July 2015, by the following vote, to wit:

AYES: Supervisors Armenta, Phillips, Salinas, Parker and Potter

NOES: None

ABSENT: None

I, Gail T. Borkowski, Clerk of the Board of Supervisors of the County of Monterey, State of California, hereby certify that the foregoing is a true copy of an original order of said Board of Supervisors duly made and entered in the minutes thereof of Minute Book 78 for the meeting on July 28, 2015.

Dated: July 30, 2015
File ID: ORD 15-011

**Before the Board of Supervisors in and for the
County of Monterey, State of California**

Resolution No. 15-222

Resolution issuing a report describing the)
measures taken to alleviate the condition which)
led to the adoption of Interim Ordinance No.)
5254 relating to medical)
marijuana.....)

WHEREAS, on July 7, 2015, pursuant to Government Code Section 65858, the Monterey County Board of Supervisors (hereinafter "Board") adopted Interim Ordinance No. 5254 establishing a 45-day ban on the collective and cooperative cultivation of marijuana and medical marijuana dispensaries in the unincorporated areas to protect the public health, safety and welfare while the County studies and develops appropriate land use regulations to address the public health, safety, environmental, and other impacts from these uses.

WHEREAS, pursuant to Government Code Section 65858(d), ten days prior to the expiration of that interim ordinance or any extension, the legislative body must issue a written report describing the measures taken to alleviate the condition which led to the adoption of the ordinance.

WHEREAS, Interim Ordinance No. 5254 expires on August 21, 2015 (45 days from adoption). The Board is on summer recess and does not have a scheduled meeting between July 28, 2015 and August 25, 2015; therefore, in conformance with the requirements of Government Code Section 65858(d), this report is being issued on July 28, 2015 which is more than ten days prior the expiration of the interim ordinance.

WHEREAS, the County has taken the following actions to alleviate the condition which led to the adoption of Interim Ordinance No. 5254:

1. Staff has been gathering and reviewing regulations from other jurisdictions within California to inform the creation of regulations for Monterey County.
2. Staff including RMA-Planning, the County Administrative Office, the Treasurer Tax-Collector, the District Attorney's office, the Sheriff's Office, the Office of County Counsel, the Chief Administrative Budget office, the Agricultural Commissioner, Health Services, and RMA-Building met internally on July 22, 2015 to begin to discuss development of local land use regulations relative to cultivating, processing and dispensing of medical marijuana.
3. Staff has mapped out a tentative schedule for the drafting and processing of regulations, which includes internal discussion and development over the next few weeks, stakeholder meetings in late August, a workshop at the Planning Commission targeted for September 30, preparing a draft of the regulations and conducting appropriate environmental review in the fall, Planning Commission hearings likely in December, and Board of Supervisors' consideration likely in January 2016. If the coastal regulations require certification by the Coastal Commission, several more months would be required before the Board could adopt final regulations applicable in the coastal zone.

WHEREAS, the County intends to continue to work on developing appropriate land use regulations for the cultivation and dispensing of medical marijuana in Monterey County.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Supervisors does hereby:

Issue this report describing the measures taken to alleviate the condition which led to the adoption of Interim Ordinance No. 5254 relating to medical marijuana.

PASSED AND ADOPTED upon motion of Supervisor Parker, seconded by Supervisor Phillips carried this 28th day of July 2015, by the following vote, to wit:

AYES: Supervisors Armenta, Phillips, Salinas, Parker and Potter
NOES: None
ABSENT: None

I, Gail T. ORDINANCE 5256

AN INTERIM ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, EXTENDING INTERIM ORDINANCE NO. 5254 PURSUANT TO GOVERNMENT CODE SECTION 65858, TEMPORARILY PROHIBITING MEDICAL MARIJUANA DISPENSARIES AND COLLECTIVE OR COOPERATIVE CULTIVATION OF MARIJUANA, PENDING THE COUNTY'S STUDY AND CONSIDERATION OF REGULATIONS.

County Counsel Summary

This interim ordinance extends Interim Ordinance No. 5254 for 10 months and 15 days, until and through July 5, 2016, as an urgency measure pursuant to Government Code section 65858 to prohibit, on a temporary basis, the establishment of new medical marijuana dispensaries and collective or cooperative cultivation of medical marijuana in the unincorporated area of Monterey County. Interim Ordinance No. 5254 was adopted by the Monterey County Board of Supervisors on July 7, 2015 for a 45-day period which ends August 21, 2015. This ordinance extends Interim Ordinance No. 5254 through July 5, 2016, thereby continuing the prohibition on new medical marijuana dispensaries and collective or cooperative cultivation of medical marijuana during the term of the ordinance. Interim Ordinance No. 5254, as extended, finds that there is a current and immediate threat to the public health, safety and welfare associated with the collective cultivation, processing, and dispensing of medical marijuana in the absence of specific County land use regulation and that the temporary ban on new medical marijuana dispensaries and collective and cooperative cultivation is necessary to enable the County to study and develop appropriate land use regulations for medical marijuana consistent with state law. As an urgency measure, this interim ordinance requires a four-fifths vote of the Board of Supervisors for adoption and takes effect immediately.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. FINDINGS AND DECLARATIONS

A. On July 7, 2015, the Board of Supervisors adopted Interim Ordinance No. 5254 as an urgency measure pursuant to California Government Code section 65858 to prohibit the collective or cooperative cultivation of medical marijuana and medical marijuana dispensaries within the unincorporated area of Monterey County, with limited exemptions, pending the County's study and consideration of regulations. Interim Ordinance No. 5254 is attached hereto as Exhibit 1 and incorporated herein by reference.

B. Interim Ordinance No. 5254 is in effect for 45 days and expires on August 21, 2015, unless extended by law.

C. Government Code section 65858 permits the Board of Supervisors, following notice and public hearing and upon a four-fifths vote, to extend the Interim Ordinance for up to

10 months and 15 days, provided that the Board finds that there is a current and immediate threat to the public health, safety, or welfare, and that the uses that may be allowed or permitted without the Interim Ordinance would result in that threat to public health, safety, or welfare.

D. The Board finds that the collective or cultivation of marijuana and medical marijuana dispensaries continue to pose a threat to public health, safety and welfare and that allowing those uses in the absence of County land use regulations specifically addressing medical marijuana will result in that threat to the public health, safety and welfare. County needs to develop robust regulations that, while remaining consistent with state law, affirm federal law enforcement priorities including preventing such harmful effects as distribution of marijuana to minors, involvement of criminal enterprises, illegal trafficking of drugs, and violence and use of firearms in the cultivation and distribution of marijuana. Regulations are also needed to address the potentially adverse environmental impacts associated with large scale marijuana cultivation.

E. In enacting Interim Ordinance No. 5254, the Board of Supervisors made several findings and declarations as to the current and immediate threat to the public health, safety, and welfare from the establishment of medical marijuana dispensaries and collective or cooperative cultivation facilities in the absence of specific regulations governing the use of real property for these land uses within the unincorporated County. All of the findings and declarations of Interim Ordinance No. 5254 continue to be true and applicable and are incorporated by reference in this ordinance.

F. The Board of Supervisors' meeting of July 28, 2015 is its last regularly scheduled meeting until August 25, 2015, so the July 28 meeting is the last regular meeting to consider extension of Interim Ordinance No. 5254 before it expires. While staff has begun to discuss development of regulations in the three weeks since adoption of the Interim Ordinance, more time is needed to study and draft regulations, conduct environmental review, and hold public hearings to consider regulations. An extension of the Interim Ordinance for up to 10 months and 15 days is warranted to provide time to study whether, where, to what extent, and under what conditions collective or cooperative cultivation of marijuana and dispensaries of medical marijuana may or may not be permitted as a land use within the County.

G. The Board intends for Interim Ordinance No. 5254 to remain in effect for its full 45-day term, through August 21, 2015, and for this extension to commence on August 22, 2015 and be in effect through July 5, 2016, unless extended pursuant to law.

H. On July 28, 2015, the Board of Supervisors conducted a public hearing on this extension of Interim Ordinance No. 5254. Notice of the public hearing was published at least ten days in advance of the hearing pursuant to Government Code section 65090. Notice of the hearing was published in the *Salinas Californian* and the *Monterey County Weekly* on July 16, 2015.

I. This extension of Interim Ordinance No. 5254 is statutorily exempt from the California Environmental Quality Act because it is an urgency measure necessary to protect the County from a current and immediate threat to the public health, safety, and welfare.

SECTION 2. EXTENSION

Based on all of the foregoing findings and declarations, the Board of Supervisors hereby extends Interim Ordinance No. 5254 for 10 months and 15 days, until and through July 5, 2016. All provisions of Interim Ordinance No. 5254, which is attached hereto as Exhibit 1 and incorporated herein by reference, shall remain in full force and effect. In no circumstance shall Interim Ordinance No. 5254, as adopted and hereby extended, be interpreted to sanction any violation of state law or County regulation.

SECTION 3. EFFECTIVE DATE

Pursuant to the findings and declarations set forth in this interim ordinance and Interim Ordinance No. 5254, the Board declares that this interim ordinance is necessary as an urgency measure for preserving the public health, safety and welfare and that this interim ordinance shall take effect immediately upon adoption for the reasons set forth herein.

PASSED AND ADOPTED this 28 day of July, 2015, by the following vote:

- AYES: Supervisors Armenta, Salinas, Phillips, Parker and Potter
- NOES: None
- ABSTAIN: None
- ABSENT: None

Exhibit 1

ORDINANCE 5254

AN INTERIM ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, ADOPTED PURSUANT TO GOVERNMENT CODE SECTION 65858, TEMPORARILY PROHIBITING MEDICAL MARIJUANA DISPENSARIES AND COLLECTIVE OR COOPERATIVE CULTIVATION OF MEDICAL MARIJUANA, PENDING THE COUNTY'S STUDY AND CONSIDERATION OF REGULATIONS.

County Counsel Summary

This interim ordinance is an urgency measure pursuant to Government Code section 65858 to prohibit, on a temporary basis, the establishment of new medical marijuana dispensaries and collective or cooperative cultivation of medical marijuana in the unincorporated area of Monterey County. This ordinance finds that there is a current and immediate threat to the public health, safety and welfare associated with the collective cultivation, processing, and dispensing of medical marijuana in the absence of specific County land use regulation and that the temporary ban on new medical marijuana dispensaries and collective and cooperative cultivation is necessary to enable the County to study and develop appropriate land use regulations for medical marijuana consistent with state law. This ordinance is an interim urgency ordinance that requires a four-fifths vote of the Board of Supervisors for adoption. The ordinance would take effect immediately and would expire 45 days after its adoption unless extended by subsequent action of the Board of Supervisors.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. FINDINGS AND DECLARATIONS

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens.

B. Pursuant to Government Code section 65858, to protect the public safety, health, and welfare, the County may as an urgency measure adopt an interim ordinance prohibiting land uses that may be in conflict with contemplated land use regulations that the County is studying or considering or intends to study within a reasonable time.

C. County's zoning ordinances, Title 20 and Title 21 of the Monterey County Code, currently do not specifically regulate the use of land or structures for cultivation, processing, or dispensing of medical marijuana. Current County zoning regulations related to indoor and outdoor cultivation of crops and to pharmacies do not adequately address the unique legal, land use, and public health, safety and welfare issues and impacts associated with medical marijuana.

D. The federal Controlled Substances Act (21 U.S.C. §§ 801, *et seq.*) prohibits, except for certain research purposes, the possession, distribution, and manufacture of marijuana, and there is no medical necessity exception to prosecution and conviction under the Controlled Substances Act.

E. California statutes specify that, except as authorized by law, the possession, cultivation, possession for sale, transportation, administration, or furnishing of marijuana are state criminal violations. State law further punishes one who maintains a place for the purpose of unlawfully selling, using or furnishing, or who knowingly makes available a place for storing, manufacturing, or distributing marijuana.

F. On November 5, 1996, California voters approved Proposition 215, the Compassionate Use Act of 1996 (codified at Health & Safety Code § 11362.5) ("CUA"), an initiative that exempted certain patients and their primary caregivers from criminal liability under state law for the possession and cultivation of marijuana for medical purposes. One of the stated purposes of the CUA is to ensure that seriously ill Californians have the right to obtain and use marijuana for medical purposes where that medical use has been recommended by a physician.

G. On January 1, 2004, Senate Bill 420, the Medical Marijuana Program Act (Health & Saf. Code §§ 11362.7-11362.83 ("MMP")), became law to clarify the scope of the CUA and to facilitate the prompt identification of qualified patients and their primary caregivers. Pursuant to Health and Safety Code section 11362.77(a), a qualified patient or primary caregiver may possess no more than eight ounces of dried marijuana per patient. In addition, they may also maintain no more than six mature or twelve immature marijuana plants per patient unless a doctor authorizes an additional amount.

H. The California Supreme Court in *City of Riverside v. Inland Empire Patients Health and Wellness Center, Inc.*, 56 Cal.4th 729 (2013), held that neither the CUA nor the MMP expressly or impliedly preempt the authority of California counties or cities, under their traditional land use and police powers, to allow, restrict, limit, or entirely exclude facilities that distribute medical marijuana. The MMP allows cities and counties to adopt local ordinances that regulate the location, operation, or establishment of medical marijuana cooperatives or collectives and to enforce such ordinances. (Health & Saf. Code § 11362.83.)

I. Study of potential land use regulations is urgently needed because the County has received inquiries from collectives and cooperatives that seek to open medical marijuana dispensaries and cultivation facilities within the unincorporated areas of Monterey County, notwithstanding the fact that the County has not yet adopted regulations and requirements for the establishment of such facilities.

J. Without sufficient regulations, standards, procedures and thresholds which are enforceable pursuant to an adopted ordinance, there is a current and immediate threat to the public health, safety, and welfare from the establishment of medical marijuana dispensaries and collective or cooperative cultivation facilities, including but not limited to the following harmful impacts from unregulated dispensaries and collective cultivation:

1. Marijuana dispensaries. Facilities that dispense medical marijuana have been associated with serious harmful effects in the areas where they are located, to owners of property in such areas, and to people living, visiting, conducting business or otherwise present in the area, as reported by numerous other California counties and cities. The effects are due to such factors as the potential for illegal activity, the presence of large quantities of marijuana and cash at the dispensaries, the presence of weapons, and other factors. Numerous counties and cities have reported harmful effects at dispensaries and surrounding areas, which include an increase in

burglaries, robberies, assaults, illegal sale of drugs, possession of marijuana by unauthorized persons, loitering, smoking marijuana in public places, driving while under the influence of marijuana, decreased property values, and increased traffic. A temporary ban on medical marijuana dispensaries is necessary while County gathers data on the specific impacts of introducing medical marijuana dispensaries within the County and considers the enactment of land use regulations to appropriately address such impacts.

2. Cultivation. Collective or cooperative cultivation of medical marijuana has also been associated with serious harmful effects in the areas where they are located, to owners of property in such areas, and to people living, visiting, conducting business or otherwise present in the area, as reported by numerous other California counties and cities. Harmful effects at both outdoor and indoor cultivation facilities have included an increase in criminal activity because of the high monetary value of the marijuana plants, adverse environmental impacts, interference with farming practices, fire danger from grow light systems, extensive energy consumption, and strong offensive odors. A temporary ban on collective or cooperative cultivation of medical marijuana is necessary while the County gathers County-specific data on the specific potential safety threats and environmental impacts associated with large scale cultivation and develops regulations that address these impacts of cultivation. Specific concerns include threats to public safety and law enforcement demands resulting from the high monetary value of the crop and significant impacts to the environment, as evidenced for example by the following:

a. The United States Drug Enforcement Administration reports that each marijuana plant under various planting conditions may yield an average of 236 grams, or about one-half pound, to 846 grams, or nearly two pounds in its lifetime. The "street value" of a single cannabis plant is substantial. Pound prices for domestically produced high-grade cannabis sold illegally within Northern California can reach \$2,000 to \$5,000, and far greater amounts in other states. Thus, a single marijuana plant can yield \$4,000 or more in salable marijuana.

b. According to a recent study of marijuana cultivation in Northern California by staff of California Department of Fish and Wildlife and National Marine Fisheries Services and academic researchers, water demand for marijuana cultivation has the potential to divert excessive portions of streamflow in the studied watersheds, and this diversion is in turn likely to have harmful impacts on state and federally listed salmon and steelhead trout. (*Impacts of Surface Water Diversions for Marijuana Cultivation on Aquatic Habitat in Four Northwestern California Watersheds*, (PLoS (Public Library of Science), published online March 18, 2015.) The water demand associated with cultivation and its biological impacts are of particular concern in the County which has known water supply constraints, documented aquifer overdraft, and state and federally listed species that could be affected by such water use.

K. As a result of the above factors, a temporary ban on new medical marijuana dispensaries and new collective or cooperative cultivation of medical marijuana is necessary to enable the County study, develop, and consider regulations to protect County residents from these threats to public health, safety and welfare associated with the cultivation, processing, and dispensing of marijuana, in advance of permitting new medical marijuana dispensaries or allowing collective or cooperative cultivation. It is the intent of this interim ordinance to enact a ban that is only temporary in order to provide time for the County to study and develop

appropriate regulations for medical marijuana consistent with the Compassionate Use Act and the Medical Marijuana Program Act.

L. Pursuant to Government Code section 65858, this urgency interim ordinance may have duration of no more than 45 days and may be extended only twice, following notice and public hearing, once by 10 months and 15 days, and subsequently by one year. It is the County's intent that this interim ordinance shall be of no further force and effect after 45 days, unless the Board of Supervisors, following a noticed public hearing, elects to extend the Interim Ordinance pursuant to law.

M. The adoption of this interim ordinance is statutorily exempt from the California Environmental Quality Act because it is an urgency measure necessary to protect the County from a current and immediate threat to the public health, safety and welfare.

SECTION 2. APPLICABILITY

This interim ordinance applies in the coastal and non-coastal unincorporated areas of the County and applies in all zoning districts.

SECTION 3. DEFINITIONS

For purposes of this interim ordinance, the following terms have the definitions set forth below:

A. **Collective or cooperative cultivation.** "Collective or cooperative cultivation" means cultivation by or on behalf of more than one qualified patient, person with an identification card, or a primary caregiver that associate collectively or cooperatively to cultivate marijuana for medical purposes, as referenced in Health and Safety Code section 11362.775.

B. **Cultivation.** "Cultivation" means the planting, growing, harvesting, drying, processing, or storage of one or more marijuana plants or any part thereof in any location, indoor or outdoor, including from within a fully enclosed and secure building.

C. **Medical marijuana dispensary.** "Medical marijuana dispensary" means any facility or location which is used to make available and/or distribute marijuana for medical purposes to more than one primary caregiver, qualified patient, or patient with an identification card. "Medical marijuana dispensary" includes undertakings that are organized or operated as a collective or cooperative. The term "medical marijuana dispensary" does not include a licensed facility described in Health and Safety Code section 11362.7(d)(1).

D. **Identification card.** "Identification card" means a document issued by the State Department of Health Services that identifies a person authorized to engage in the medical use of marijuana and the person's designated primary caregiver, if any.

E. **Person with an identification card.** "Person with an identification card" means an individual who is a qualified patient who has applied for and received a valid identification card.

F. **Primary caregiver.** "Primary caregiver" means the individual, designated by a qualified patient or by a person with an identification card, who has consistently assumed responsibility for the housing, health, or safety of that patient or person.

G. **Qualified patient.** "Qualified patient" means a person who is entitled to the protections of Health and Safety Code section 11362.5, but who does not have an identification card issued pursuant to Health and Safety Code sections 11362.7 *et seq.*

SECTION 4. REGULATIONS

A. **Prohibition on collective or cooperative cultivation:** The collective or cooperative cultivation of medical marijuana is prohibited. The County shall not permit or allow, or process applications for land use entitlements for, the use of real property for collective or cooperative cultivation of marijuana for medical purposes.

B. **Prohibition on medical marijuana dispensaries:** Medical marijuana dispensaries are prohibited. The County shall not permit or allow, or process land use entitlements for, the use of real property for a medical marijuana dispensary.

C. These regulations apply during the term of this interim ordinance and any duly adopted extension of this interim ordinance, unless a specific exemption under this ordinance is applicable.

SECTION 5. EXEMPTIONS

A. This interim ordinance does not prohibit a qualified patient, a patient with an identification card, or a primary caregiver from cultivating up to six mature plants or twelve immature marijuana plants per qualified patient, or a greater number if recommended by a doctor consistent with the patient's needs, within the limits set forth in Health and Safety Code section 11362.77, if the qualified patient or patient with an identification card is cultivating plants only for his or her own personal use, or if the primary caregiver is cultivating plants only for persons for whom he or she personally serves as a primary caregiver and not engaging in collective or cooperative cultivation.

B. This interim ordinance does not prohibit medical marijuana cultivation if the property owner demonstrates to the satisfaction of the Director of Planning that such cultivation had commenced and all required County approvals and land use permits had been obtained or applied for prior to the date of adoption of this initial interim ordinance.

C. This interim ordinance does not prohibit the operation of any medical marijuana dispensary if the property owner demonstrates to the satisfaction of the Director of Planning that such use had commenced and all required County approvals and land use permits had been obtained prior to the date of the adoption of this initial interim ordinance.

SECTION 6. ENFORCEMENT

Any violation of this interim ordinance is unlawful and a public nuisance. In the event of a violation of this ordinance, the County may, in its discretion, in addition to all other remedies,

take such enforcement action as is authorized under the Monterey County Code and such other enforcement action as is authorized by law.

SECTION 7. NO TAKING OF PROPERTY INTENDED

Nothing in this ordinance shall be interpreted to effect an unconstitutional taking of property of any person. If the Board of Supervisors determines, based on specific evidence in the administrative record, that the application of one or more of the provisions of this ordinance to a proposed use of land would effect an unconstitutional taking of private property, the Board shall disregard such provisions to the extent necessary to avoid such unconstitutional taking.

SECTION 8. SEVERABILITY

If any section, subsection, sentence, clause, or phrase of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

SECTION 9. EFFECTIVE DATE

In light of the recitals in this ordinance, the Board declares that this interim ordinance is necessary as an urgency measure for preserving the public health, safety, and welfare. This interim ordinance shall take effect immediately upon adoption for the reasons set forth herein and shall expire 45 days thereafter unless extended pursuant to law.
