7. Annual Average Daily Traffic Report
8. FMLA Sites and Major Destinations
9. Letters of Support
10. Cooperative Maintenance Agreement (if applicable)

California Federal Lands Access Program: Project Proposal Packet Information

Program Information:

The Programming Decisions Committee (PDC) of the California Federal Lands Access Program is currently soliciting Project Applications for California Federal Lands Access Program funds. The PDC anticipates programming between \$60-70 million from 2021-2022, depending on program needs and future funding.

The PDC will evaluate Project Applications submitted and select those to be programmed using the Project Application evaluation criteria developed by the PDC. The selection criteria is reflective of needs in the state of California and Federal Lands Access Program Implementation Guidance. It is important to note that the top ranked project is not guaranteed funding and the approved list of projects will be agreed upon by the PDC. Project approval resides with the PDC. The PDC will select a balanced program made up of some large projects with smaller projects used to maximize funding and address critical access needs within the state of California.

The California Federal Lands Access Program requires a **minimum non-Federal Aid Highway (Title 23) match of 11.47%** based on the total project cost has been met.

For Applicants of non-State agencies located within non-MPO Rural Transportation Planning Areas (RTPA), as identified in the [2014 Caltrans MPO/ RTPA Map](#), the project is eligible for the use of toll credits in lieu of minimum match. Additionally, for non-State Agency Applicants a *FLAP Resolution* is required from the applicant's Governing Body that must include:

- a) Certification that body will provide consistent, sufficient maintenance funding for a period of 20 years or the life of constructed facility, whichever is greater.
- b) Commitment that governing body endorses matching funds identified including the timing of availability
- c) For Non-MPO, RTPA Areas that will be requesting to utilize and indicate your minimum request toll credits in lieu of minimum match

If selected, the Applicant will enter into a Reimbursable Agreement (RA) for the not-to-exceed amount of \$10,000 within **45 days** of notification of selection, for the completion of project scoping by Central Federal Lands to develop an accurate scope, schedule, and budget. This dollar amount will be provided toward the overall match for the project, following award. Please be advised that this may require an approval (Resolution) of RA funds from the governing agency prior to the Project Application deadline. If the PDC and the Applicant agree with the project scope and cost, then a revised RA for the full project matching funds and a Memorandum of Agreement (MOA) will be required within **60 days** from approval of funding. Please note this RA is not eligible for use of toll credits or reimbursement..

Instructions:

Project applications must be received by ~~April 7, 2017~~ **May 12, 2017** to be considered.

All project applications must be submitted using the California Federal Lands Access Program Project Application form. Complete the project application to the best of your ability. It is the responsibility of the entity proposing a project to supply the necessary information to complete the project application. It is understood that data may not be available for all of the project application questions, but the agency may use anecdotal information as a substitute. If possible, please keep this form as a writable PDF form, this makes it easier to review your application. This can be done by saving your form as a PDF and attaching it within an e-mail along with all additional attachments.

1. Complete **Project Application Packet**: Project Application, Signature Forms, Letters of Support, and Resolution (as needed)
2. Attach this Application Checklist as a Cover Page to the complete the Project Application Packet
3. Per the Submittal Instructions (Project Application page 10), e-mail your completed Project Application Packet to cfl.planning@dot.gov

If you require assistance, please contact: Morgan Malley, Lead FLAP Transportation Planner
Central Federal Lands Highway Division
12300 West Dakota Ave, Ste 380B, Lakewood, CO 80228
Phone: 720-963-3605 | morgan.malley@dot.gov

Additional information on the Access Program is located at <http://flh.fhwa.dot.gov/programs/flap/ca/>

Project Proposal Packet Checklist:

- 1) Sign and Attach [Applicant Project Endorsement Form](#)
- 2) Sign and Attach [FLMA Support Form](#) from all applicable Federal Land Management Agencies
- 3) Project Map (Must identify project termini, federal lands and federal site(s) the project accesses, is adjacent to or located on)
- 4) Project Photos (Attach 4 - 6 Photos in jpeg, gif, png format)
- 5) [Supplemental Alternative Transportation Worksheet](#) (Non-construction projects only including Planning, Research, Transit)
- 6) Optional- Video link highlighting project:

California Federal Lands Access Program: Proposed Project General Information

GENERAL INFORMATION

Project Points of Contact (POC): All POCs listed will be receive project selection notification from the PDC.

	Applying Agency	Supporting Federal Land Management Agency(s)	
Agency Name:	County of Monterey	U.S Forest Service- Los Padres NF	U.S. Forest Service-Los Padres NF
POC Name:	Benny J. Young	Robert Baird	Debbie Evans
POC Title:	Interim RMA Deputy Director of Public	Forest Supervisor	Roads Program Manager
Address Line 1:	168 W. Alisal, 2nd Floor	6750 Navigator way, Suite 150	6750 Navigator way, Suite 150
Address Line 2:	Salinas, CA 93901	Goleta, CA 93117	Goleta, CA 93117
E-mail:	YoungB@co.monterey.ca.us	rabaird@fs.fed.us	deborahlevans@fs.fed.us
Phone #:	831-755-5103	805-961-5733	805-961-5772
Additional Key Project Stakeholders:			

Project Identification:

Project Title:

Federal Lands Access Transportation Facility (FLATF) Name / Number:

Federal Land Management Agency (FLMA) Accessed:

a. List all FLMA site(s) and/or major destination(s) that are accessed by the identified transportation facility. Provide annual visitation for all those FLMA sites and/or major destinations.

Name(s) of FLMA	Site(s) or Major Destination(s) Accessed	Distance from Project (miles)	Current Annual Visitation
United States Forest Service	Los Padres National Forest (Note 1)	0	1,348,000
California State Park	Andrew Molera State Park (Note 2)	0	108,284
California State Park	Pfeiffer Big Sur State Park (Note 2)	3.2	425,652
United States Forest Service, LPNF	Little Sur Trail (Note 3)	0	104,025
United States Forest Service, LPNF	Dani Ridge Road (Fire road)	0	

b. Identify source(s) for all annual visitation values listed and if estimate annual visitation values are listed in the instance actual values are unknown or unavailable include the estimating methodology used.

1. Visitor Use Report, Los Padres NF, USDA Forest Service National Visitor Use Monitoring, Pacific Southwest Region (R5), FY 2014. Visitation is estimated through a combination of traffic counts and surveys of exiting visitors. <https://www.fs.fed.us/recreation/programs/nvum/>.
2. California State Park System, Statistical Report, 2014-2015 Fiscal Year, Marketing and Business Development Office
3. One of 5 sites and/or major destinations accessed by facility. Annual visitor trips = 20 Year ADT x 365 days x 95% visitor traffic (See Attach. 8)

	Terminus Start	Terminus End
Landmark, Milepost, Cross Roads:	MP 0	MP 10.48
Latitude Coordinates: <i>(Decimal Degrees to 6 decimals)</i>	36°22'21.126"N	36°17'18.905"N
Longitude Coordinates: <i>(Decimal Degrees to 6 decimals)</i>	121°54'9.553"W	121°50'40.01"W

California Federal Lands Access Program: Proposed Project Background

BACKGROUND DATA

1. Agency with Title to Facility:

County of Monterey

2a) Agency with Maintenance Responsibility

County of Monterey

2b) Describe how the maintenance responsibility is provisioned.

Include existing width of Right-of-Way (ROW) and attach any available ROW documentation and maintenance agreement(s).

Coast Road is a County dirt road maintained by the County of Monterey. Existing width of Right of Way is an average of 30 feet.

3. Project Length:

Provide length in miles

10.48

4. Existing Width:

Provide average width in feet

30

5. Existing Posted Speed Limit:

2

5

6. Existing Bridge Information:

Provide known data for all bridge structures within the project limits.

Refer to the link below for guidance:
<http://www.fhwa.dot.gov/bridge/nbi.cfm>

National Bridge Inventory Structure #	Bridge Length (ft.)	Bridge Width (ft.)	Bridge Area (Sq. Ft)	Bridge Sufficiency Rating	Highway Bridge Program Eligible (Y/N)
44C0165	37	18	666	71.7	Y
44C0019	92	12	1,104	38.5	Y
44C0020	63	12	756	48.8	Y

7. Functional Classification:

Check those that apply.

- National Highway System Arterial Local Road
 Major Collector Minor Collector

Refer to the link for guidance: http://www.fhwa.dot.gov/planning/processes/statewide/related/highway_functional_classifications/

8. Traffic Volumes:

Provide any available traffic data from recent counts or other documented sources.

Note: If no data (i.e., counts) are available, please estimate range (< 200, 200 - 500, 500, 500 - 1000, > 1000 vehicles per day)

	Current	20-Year Projection	Data Source / Methodology
Average Daily Traffic (ADT)	300	384	Attach. 7-Estimate-County of Monterey
Seasonal Average Daily Traffic	300	384	Attach. 7-Estimate-County of Monterey
% ADT as FLMA visitors / users	95	95	Caltrans traffic growth estimates over

9. Safety History:

Describe site(s) including the number, rate and type of crash as well as the user type(s) that have occurred within the project limits and the source of this information (reports or anecdotal). If available provide site specific crash data for last three years.

From 01/01/13 - 12/31/16, a total of 2 Collisions were reported within the project limits. The two accidents were classified as follows:
 (1) accident involving injuries (Inj)
 (1) accident involving property damage only (PDO).
 Of the 2 accidents, (1) accident was classified as "Improper Turning-hitting fixed object" and (1) was classified as "DUI Hit fixed Object". See Attach. 6-Traffic Collision Report 01/01/13 - 12/31/16

10. Projects in Proximity:

Describe other current or previously funded Federal Lands project(s) adjacent to or in proximity to this project.

Arroyo Seco Road, 4R Maintenance-Restoration and Rehabilitation FS FS - Los Padres National Forest 2014 CFLHD, FHWA, Monterey County.

California Federal Lands Access Program: Proposed Project Description

PROPOSED PROJECT

1. Purpose and Need:

Describe the need for the project including but not limited to who the project will serve, conditions requiring relief, and anticipated changes in use due to the proposed project.

Coast Road is a dirt road serving local residents and visitors and is an alternate route for California State Route 1 during emergencies. The road accesses trails, roads, and campgrounds within Los Padres National Forest Ventana Wilderness, and the Andrew Molera and Pfeiffer Big Sur State Parks (see Att. 8)The road is frequently closed for repairs during winter storms which exacerbate the road's already poor condition. The project will restore road sections with recurring slip-outs, slides, and culvert failures, reducing the incidence of road closure, and assuring continued access for visitors.

2. Proposed Design Standards:

Project will be designed to the following standards. Check the standard that best applies to this project.

AASHTO State DOT Local Government FLMA

3. Proposed Width (feet):

Proposed width should be in accordance with the proposed design standards.

33

4. Proposed Speed Limit:

2 5

5. Description of Proposed Work*:

a) Provide a description of the anticipated work including which project phase(s) are being proposed and associated major construction work items.

Project will replace culverts and add culverts to improve roadside drainage. Project will re-grade unpaved section of road and re-establish drainage ditches/swales from MP 0.0 to MP 10.48.

b) Describe these phase(s) it addresses the identified purpose and need of proposed project.

Project includes preliminary engineering, construction engineering and construction phases for repairs to Coast Road which sustained damage from the 2016-17 winter storms, and has had a poor state of repair for many years. This project is needed to minimize road closures throughout the year.

c) Describe if the project is a segment of a larger project/route or if this project is/ can be phased. Include any known alternatives that should be reviewed as part of this project.

The project will construct repairs to 10.48 mile long segment of Coast Road that is maintained by the County of Monterey. There are no known alternatives that should be reviewed as part of the project. The project can be phased only if partial funding is available.

*Note: The Programming Decision Committee has final approval for all proposed project phases and reserves the right to reduce scope of work.

6. Key Items of Work: Check all that apply. Refer to link for guidance: <http://contextsensitivesolutions.org/content/reading/types-of-highway/>

New Construction / Reconstruction (4R):

- Earthwork/Grading
- Road base
- Major Drainage (>48")
- Minor Drainage (<48")
- Retaining Walls
- ROW Acquisition
- Utility Relocations

Recycling (3R):

- Existing Asphalt / Base Recycling (Ex: Pulverization)
- Overlay
- Milling
- Minor Widening (< 5 ft.)
- Major Widening (> 5 ft.)

Bridge:

- New / Replacement
- Rehabilitation or Repair

Surfacing:

- Asphalt
- Concrete
- Gravel
- Parking

Safety Improvements:

- Intersection / Traffic Controls
- Guardrail
- Sight Distance Improvements
- Roadside Hazard Improvements

Bicycle / Pedestrian:

- Bicycle and Pedestrian facility
- Bicycle facility (e.g. bike lane)

**Non-Infrastructure:

- Transit
- Planning Study
- Planning-Environmental Linkage (PEL) Study
- Research

**Note: Applications that include non-construction or elements including transit, planning, and/or research, please fill out the supplemental worksheet for alternative transportation that can be found at: <http://flh.fhwa.dot.gov/programs/flap/ca>

California Federal Lands Access Program: Proposed Project Acquisition and Impacts

7. Right of Way Acquisition: All Right-of-way (ROW) property (acquisition costs) to be part of the project costs should be detailed in the project estimate page. All acquisition support costs are non-participating and will be borne by the applicant.

7a) Is ROW acquisition required? (yes /no)

7b) Describe the anticipated ROW acquisition needed to construct project. Include the proposed ROW width (ft) and formalization of all ROW on FLMA lands.

None. ROW acquisition is not needed to construct project.

8. Utility Impacts: All utility relocation costs must be accounted for by the applicant whether borne by the applicant or included as project cost. Utility relocation costs should be detailed in the project cost estimate.

8a) List any known utility conflicts within the project ROW:

8b) Will relocation of utilities be required? (yes /no)

8c) Describe any anticipated utility impacts and proposed relocations.

9. Environmental Impacts / Resource Protection: Identify and describe known or anticipated impacts, positive or negative, to biological, cultural, wetlands or water resources, or any other environmental areas.

<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>

Describe all those impacts identified:

The Project is categorically exempt under 36 CFR 220.6(d)(4) - Repair and maintenance of roads, trails, and landline boundaries. The Project will comply with federal and local regulations.

10. Lead Agency: It is typical for the CFLHD to act as the lead agency for duration of the project, from award through project completion. However, If the applicant plans to have the difference agency act as lead for the project, the applicant must provide justification for this position, previous experience in delivering Federal Aid (Title 23) funded projects and ability to satisfy FHWA project delivery requirements in accordance with with [Caltrans Local Assistance Procedures Manual](#) and [Local Assistance Program Guidelines](#). The final decision for project delivery resides with the PDC. If delivered by another Agency, CFLHD will have Stewardship and Oversight responsibility where all costs and overruns will be borne by the applicant.

The Lead Agency for this Project is the CFLHD.

California Federal Lands Access Program: Proposed Project Cost Estimate

PROPOSED PROJECT COST ESTIMATE

This page should be used to develop a cost estimate for the project. Applicants are advised to attach a detailed estimate if available as backup to the below information. Project estimates must include all project costs including Preliminary Engineering and Construction Engineering costs, ROW, utility relocation, etc. Determine the cost per mile numbers based on understanding of local costs and the type of work proposed.

1. Major Work Items: costs below includes clearing and grubbing, earthwork drainage improvements, retaining walls, revegetation, permanent signing, and temporary traffic control.

a) New construction or Reconstruction (4R) (Excluding Surfacing)

Range: **\$1,000,000 - \$2,000,000** per mile (Basis: 24 ft. width, 6 in. aggregate base)

\$ Per Unit <small>(mile or sq. ft.)</small>	Unit Length <small>(mile or sq. ft.)</small>	Total Cost <small>(\$ per unit x unit length)</small>
---	---	--

--	--	--

b) Pavement Recycling (3R) (Excluding Surfacing)

Range: **\$250,000 - \$500,000** per mile (Basis: 24 ft. width, 6in of pulverization)

\$0.00	0	\$0.00
--------	---	--------

c) Pavement Recycling (3R) with Minor Widening (< 5 ft.) (Excluding Surfacing)

Range: **\$400,000 - \$700,000** per mile (Basis: 24 ft. width, 6 in. pulverization)

--	--	--

d) Pavement Recycling (3R) with Major Widening (> 5ft.) (Excluding Surfacing)

Range: **\$600,000- \$1,000,000** per mile (Basis: 24 ft. width, 6 in. pulverization)

--	--	--

e) Other (please specify in box)
Include \$ per mile in "\$ per unit"

Regrade dirt road and re-establish swale
--

\$35,000.00	10.48	\$366,800.00
-------------	-------	--------------

2. Surfacing (costs below are not included in costs above):

a) Asphalt Surfacing (includes pavement markings and associated items)*

Range: **\$400,000 - \$600,000** per mile (Basis: 24ft. width, 4 in. of asphalt)

\$0.00	0	\$0.00
--------	---	--------

b) Gravel Surfacing

Range: **\$200,000 - \$300,000** per mile (Basis: 24ft. width, 4 in. of gravel resurfacing)

--	--	--

* Asphalt Surfacing items may include prime, tack, fog, etc

3. Additional Work Items:

a) Bridge (New or Replacement)

Range: **\$250 - \$500** per sq. ft. (Basis: Concrete girders with spread footings)

--	--	--

b) Bridge Rehabilitation / Repair

Cost (Lump Sum):

c) ROW Acquisition

Cost (Lump Sum):

d) Utility Relocation

Cost (Lump Sum):

4. Other Work Items (provide backup data for these lump sum costs):

a) Item 1 Name:	<input type="text" value="Replace"/>	Description:	<input type="text" value="culverts (15) at \$12,000 each"/>	Cost (Lump Sum):	<input type="text" value="\$180,000.00"/>
b) Item 2 Name:	<input type="text" value="New"/>	Description:	<input type="text" value="culverts (15) at \$20,000 each"/>	Cost (Lump Sum):	<input type="text" value="\$300,000.00"/>
c) Item 3 Name:	<input type="text"/>	Description:	<input type="text"/>	Cost (Lump Sum):	<input type="text"/>

ESTIMATED COST SUBTOTAL OF PROPOSED PROJECT: \$846,800.00

California Federal Lands Access Program: Proposed Project Funding

ESTIMATED SUBTOTAL COST OF PROPOSED PROJECT (from previous page): \$846,800.00

5. Contingency (required for all projects - for unnafixed 10% of estimated subtotal of proposed project): \$84,680.00

6. Engineering (required for all projects): Determine the % of engineering required based on the anticipated engineering and environmental compliance needed to meet Federal requirements and standards.

a) Preliminary Engineering (% of Construction Cost, ROW & Utility Relocation) % = \$111,777.60
 Range: 7%-15% of Items 1-4 plus contingency (Enter as percentage without symbol - i.e. 7.5 for 7.5%)

b) Construction Engineering (% of Construction Cost, ROW & Utility Relocation) % = \$111,777.60
 Range: 10% - 12% of Items 1-4 plus contingency (Enter as percentage without symbol - i.e. 10.5 for 10.5%)

TOTAL PROJECT COST: \$1,155,035.20

7. Federal Lands Access Program Funds Requested (Cannot exceed 88.53%) : = 88.53 %

8. Project Funds Leveraged: List and provide detail of all non-FLAP match funding sources that will be furnished below.

a) Sources eligible for Minimum Match (11.47%) and/or Overmatch:

Local, State, and/or Other non-federal Sources (Cash match only) :	<input style="width: 100%; text-align: right;" type="text" value="\$132,482.54"/>	=		<u> 11.47 % </u>
Right of Way (Acquisition costs only. Supporting costs borne by Applicant) :	<input style="width: 100%;" type="text"/>	=		<u> % </u>
Utility Relocation (Construction costs only. Supporting costs borne by Applicant) :	<input style="width: 100%;" type="text"/>	=		<u> % </u>
Authorized Title 23 (FLTP, TTP, HSIP) and/or Title 49 Sources (Requires Agency approval) :	<input style="width: 100%;" type="text"/>	=		<u> % </u>
Toll Credits (Cannot exceed 11.47% and may only be used by qualifying projects*) :	<input style="width: 100%;" type="text"/>	=		<u> % </u>
<small>* Projects located within non- MPO Rural Transportation Planning Areas (RTPA), identified on Caltrans MPO/RTPA Map.</small>		Sub-Total (minimum required 11.47%): <u> \$132,482.54 </u> = <u> 11.47 % </u>		

b) Sources only eligible for Overmatch:

Other Federal Sources (e.g. Federal-Aid Highway Programs including STPBGP, ATP, HBP)	<input style="width: 100%;" type="text"/>	=		<u> % </u>
---	---	---	--	------------------------------

c) Total Matching Contribution: \$132,482.54 = 11.47 % **Total Percent Overmatch:** = %

9. List and provide detail on all match funding source(s) identified above including funding source description, restriction(s), timing availability of funds and associated partnerships.

The County Matching Contribution will be funded by revenue from the County of Monterey Transportation Safety & Investment Plan (Measure X) sales tax approved by voters on November 8, 2016. The Measure X sales tax is expected to raise funding to address transportation needs and leverage grant funding for transportation safety and mobility projects in Monterey County.

10. Summarize any assumptions made regarding the project cost. Describe costs that are outside of the general summary provided in the estimate.

None. All costs are within the general summary provided in the estimate.

1 - Federal Lands Access Improvement

1. Describe how the Federal Lands Access Transportation Facility (FLATF) in this project is connected to the Federal Lands listed on page 1. of the Proposal (FLMA's Accessed).

Coast Road begins at California State Route 1 and Bixby Bridge and travels south for 10.48 miles, connecting to State Route 1 again near the Los Padres National Forest Ventana Wilderness trails and Andrew Molera State Park (see Attachment 4 - Project Map). Coast Road provides access to various points of interest within the Los Padres National Forest northern division including Ventana Wilderness' trails and California State Park trails and camps in Andrew Molera and Pfeiffer Big Sur State Parks. The Ventana Wilderness contains 240,026 acres straddling the Santa Lucia Mountains south of the Monterey Peninsula and is part of the Los Padres National Forest. (See Attachment 8-Carmel Valley Road Repairs FLMA Sites and/or Major Destinations).

2. Describe how access to these Federal Lands will be improved as result of this project. If applicable, include improvements to all transportation mode choices (vehicular, pedestrian, bicycle, transit, emergency, etc.). Also, if applicable, include how the project will improve access management (e.g. reduction in traffic congestion, restrictions, bottlenecks, size/load limits, etc.).

Coast road is currently being repaired and opened to the public after the severe winter storms of 2016-17 caused temporary closures. The Project will repair culverts and re-grade unpaved section along Coast Road. The project will restore safe access for emergency vehicles, and for vehicular, pedestrian, and bicycle visitors to the Los Padres National Forest, and help assure that the road has fewer closures by making it more resilient to winter storm damage, and by bringing it into a better state of good repair. This will help maintain visitor access year-round.

2 - High Use Recreation Site and Economic Generator

1. Describe how the Federal Lands listed on page 1. of the Proposal (FLMA's Accessed) are considered high use recreation site(s).

Coast Road begins at California State Route 1 and Bixby Bridge and travels south for 10.48 miles, connecting again to State Route 1 near the Los Padres National Forest Ventana Wilderness trails and Andrew Molera State Park, providing access to an estimated 637,961 visitors per year to nearby sites (see Page 1.a-FMLAs, Attch. 4-Project Map , Attch. 8-FMLA Sites). The Los Padres National Forest is a high-use recreational site with 1,348,000 annual visits. According to the US National Forest, the "Los Padres National Forest, encompassing almost two million acres, is the third largest National Forest in California. It occupies a major portion of the coastal mountain ranges and extends for about 220 miles from the west boundary of Los Angeles County to mid-Monterey County on the north". The Monterey Ranger District includes 10 developed campgrounds which can accommodate a total of 1632 overnight visitors per day, in addition to over 100 remote campgrounds. This district encompasses more than 240,000 acres of wilderness between the Pacific Ocean and Salinas Valley.

2. Describe how the Federal Lands would be considered federal economic generator(s)* for the local and/or regional economy. Explain if/how the local and/or regional community is economically dependent on the access to the federal lands and the proposed transportation facility.

Federal lands including Los Padres National Forest are key to tourism in Monterey County, particularly eco-tourism, which stretches from the the Pacific Ocean on the west to the Pinnacles National Park on the east. Eco-tourism plays a large role in why people visit Monterey County. There are more than 20 state and federal forests, national monuments or parks spread throughout the County. In terms of employment, tourism was directly responsible for more than 21,000 jobs, or 12.2% of all civilian employment in Monterey County.(Source: Monterey County Comprehensive Economic Development Strategy, Adopted March 2015). The nearby Big Sur area is a important tourism destination, and generates over approximately \$200,000 per day in tourist-related commerce. access to an estimated 637,961 visitors per year to nearby sites (see above Page 1.a-FMLAs, Attch. 3-Project Map , Attch. 6-FMLA Sites). Coast Road closures impact access for local residents and reduce economic impact generated from visitors.

*Note: Federal economic generator refers to any use of/on Federal lands that results in economy generation for the local community and/or region.

3 - Preservation

1. Describe the condition of the FLATF including surface condition and age of the facility. As applicable, include pavement condition ratings (PCI), bridge sufficiency ratings, etc.

Coast road is in a severely poor state of repair. PCI data is not applicable to dirt roads. The facility is nearing the end of its service life. The attached photos show the current conditions of the road (See Attachments 5-Photos). The roadway will undergo emergency repairs to provide a basic level of access, however, long-term and sustainable repairs cannot be currently funded by the County. FLAP assistance is required to bring the facility back into a state of good repair.

2. Describe how the proposed project will improve the condition of the FLATF. Describe if/how the proposed project will improve a deficient rating and/or extend the service life of a structure.

The Project will repair culverts and re-grade unpaved section along Coast Road. The proposed project will extend the service life of the structure to 20 years.

3. Describe how the proposed project will impact FLATF maintenance and operating costs.

With the implementation of the project, the newly constructed road will not require major maintenance in the first ten years, essentially reducing maintenance and operations costs. Maintenance and operating costs for the County Owned facility will be provided by the County.

4 - Safety

1. Describe all existing safety conditions (e.g. below standard sight distances, roadside hazards, below standard lane and shoulder widths, etc.) and how proposed project countermeasure(s) will address these safety conditions.

Coast Road is currently being repaired and reopened after damage caused by winter storms in 2016-17. Winter storm damage is exacerbated by the poor condition of the roadway. Recent winter storm damage has resulted in damage such as wash-outs, landslides, culvert failure, fallen trees blocking the road, and other hazards. The road is periodically subject to closure and traffic control during severe winter storm events, which restricts emergency responder access and visitor access to the Los Padres National Forest, often going into the spring visitor season. Counter measures include replacing culverts and adding culverts to improve roadside drainage and re-grade unpaved section of road and re-establish drainage ditches/swales.

2. Describe how the proposed project will impact safety for the current and proposed user groups (e.g. vehicles, pedestrians, bicyclist, etc.).

The project will improve safe public access (vehicular, pedestrian, bicycle and emergency vehicle) to the Los Padres National Forest along a 10.48 mile section of Coast Road. The project will repair the road, reducing the risk of road hazards for emergency vehicles, vehicular, cyclist, or pedestrian users.

5 - Sustainability and Environmental Quality Benefits

1. Describe if and how the proposed project contributes to the environmental goals and objectives of the local, State, and/or Federal Land Management Agency (e.g. wildlife connectivity, habitat, aquatic organism passage, reduction of noise/water/air/pollution, critical watersheds, environmentally sensitive areas, etc.).

The project will be constructed in accordance with the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA) procedures and regulations, and will obtain all the necessary regulatory permits. The Project will implement mitigation measures as required for the project. Repairing the roadway and swale will reduce the risk of failure, helping to preserve the routes of existing waterways, protecting riparian habitat, and protecting nearby habitat which may be flooded during swale failure during severe winter storms.

6 - Funding and Coordination

1. Describe coordination and/or support from all stakeholders that align with Public Involvement Plan (PIP) as applicable, including FLMA(s) and other project stakeholders. Provide support letters as available.

The County has coordinated with the several Community stakeholders impacted by the closure of Coast Road including California State Park Andre Molera and Pfeifer Big Sur units, Ventana Wilderness Society, and residents impacted by Road failures. Letters of support are attached.

2. Describe why the Federal Lands Access Program is the most appropriate funding source for the proposed project as opposed to other funding sources eligible (e.g. Highway Bridge Program (HPB), Highway Safety Improvement Program (HSIP)).

The Federal Lands Access Program is the most appropriate funding source for the proposed Project which is on Coast Road, a facility providing access the Los Padres National Forest and California State Parks. The FLAP funding availability is in line with the project time frame. The Project does not qualify for other grants (i.e. Highway Bridge Program); and other grant sources do not meet the project time line. While the County of Monterey is able to perform emergency short-term repairs to restore roadway access after hazard-related closures, the County cannot fund long-term repairs which would restore the roadway back to a state of good repair, and make it more resilient to damage. FLAP funding is needed to make long term repairs which will reduce closures and make visitor access more consistent.

Submittal Instructions:

1. Save your form as PDF to your computer, with file name similar to:
CALIFORNIA FLAP APP 2017 <PROJECT NAME>
 - a. Check that all fields have been completed and that all your work has saved properly prior to e-mailing your application.
2. Attach all additional files:
 - a. Review the checklist you completed on page 1 and attach all photos, maps project estimates, and forms requiring signatures.
 - b. Maximum total for all files is 15MB. Using a zip application may help reduce file sizes but it is the responsibility of the sending party to ensure their file has successfully transmitted (not getting stuck in the e-mail "outbox").
 - c. **ATTENTION:** *DO NOT USE YOUR PDF SOFTWARE TO ATTACH DOCUMENTS INTO THE PDF DOCUMENT AS ALL YOUR FORM FIELDS WILL BE INVALID. ALL ATTACHED PHOTOS AND FILES SHOULD BE SEPARATE FILES.*
3. Save a copy for your records
4. E-mail your completed form to cfl.planning@dot.gov, using the subject: *CALIFORNIA FLAP APP 2017 <PROJECT NAME>*
5. Check your e-mail's "sent box" to ensure that your file was sent. Larger files may take longer to send.
 - a. You should receive confirmation of receipt of your submission within 3 working days.

LETTERS OF SUPPORT

California Federal Lands Access Program:
Proposed Project FLMA Support Form

This form can be signed and submitted electronically or be printed, signed, scanned and submitted electronically.

Letters of support are highly recommended in addition to this signature page.

Support Form - Acknowledgement of Coordination with Federal Land Management Agency (FLMA)

By signing this support form, the FLMA representative certifies that the projects provide access to, is adjacent to, or are located within a Federal recreation site or Federal economic generator.

Please Note: All fields are required.

1. Federal Land Management Agency (FLMA) supporting project: U.S. Forest Service, Los Padres National Forest

2. Name of FLMA representative: Robert Baird

3. Title: Forest Supervisor

4. Signature: Kenneth E. Hoffme 5. Date (MM/DD/YYYY):

4	/	5	/	17					
---	---	---	---	----	--	--	--	--	--

6. E-mail: rabaird@fs.fed.us 7. Telephone: 805-961-5733 ext.

8. Address 1: Los Padres National Forest, 6750 Navigator Way, Goleta, CA 93117

9. Address 2:

10. Comments on the proposed project:

Project: Coast Road Repairs. Coast Road is a dirt road serving local residents and visitors and is an alternate route for California State Route 1 during emergencies. The road accesses trails, roads, and campgrounds within United States Forest Service's Los Padres National Forest Ventana Wilderness, and the Andrew Molera and Pfeiffer Big Sur State Parks. The road is frequently closed for repairs during winter storms. These storms have exacerbated the road's already poor condition. The project will restore road sections with recurring slip-outs, slides, and culvert failures, reducing the incidence of road closure, and assuring continued access for visitors.

11. FLMA Point-of-Contact (POC) Name: Debbie Evans

12. POC Telephone: 805-961-5772 ext. 12. POC e-mail: deborahlevans@fs.fed.us
