Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of

this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

EXHIBIT B

Public Safety Realignment Act of 2011 (AB 109) Grant Guidelines

SUMMARY

The Public Safety Realignment Plan for Monterey County was developed by the local Community Corrections Partnership (CCP) and approved by its Executive Committee and Monterey County Board of Supervisors.

DISCUSSION

The Public Safety Realignment Act of 2011 shifts responsibility for low-level offenders and parole supervision from the state to the counties. The state will continue to incarcerate offenders who commit serious, violent, or sex crimes, but the counties will supervise, rehabilitate and manage lower-level offenders. Local authority is extended to three new populations: a) specified non-violent, non-serious, non-sex offenders (“non-non-non”), who will no longer be sent to a state prison, but could serve time in jail and/or be supervised by Probation; b) eligible offenders who, after their prison sentence, will be managed by Probation under the new Post Release Community Supervision Program (PRCS); and c) parole violators who did not commit a new crime.

The Public Safety Realignment Plan promotes the design and implementation of a system of “community-based punishment” utilizing evidence-based correctional sanctions and programming other than jail incarceration. Intermediate sanctions include Electronic Monitoring, flash incarceration, community service, participation in residential and outpatient treatment programs, and educational and vocational training services. This represents a balanced approach that combines offender case management based on classification of recidivism risk, alternatives to detention, jail management and local incarceration, and evidence-based rehabilitative and treatment services for individuals under PRCS, Mandatory Supervision, and high-risk probationers.

BASIC GUIDELINES

Both parties agree to follow the guidelines of AB 109 as set forth in the legislation and in the guidelines and interpretations by the California Board of Corrections. It is understood between the parties that AB 109 funding is intended to be used prior to June 30, 2023, and that all expenditures of funds must adhere to the guidelines contained in that legislation.

It also is understood that the Probation Department bears oversight responsibility for administration of this grant and must monitor each participating agency’s adherence to mandated guidelines.

If the appropriated grant funds are discontinued or otherwise become unavailable to the County during the term of the Agreement or any extension thereof, County shall have the right to terminate this Agreement by giving CONTRACTOR written notice of such termination at least thirty (30) days prior to the effective date of the termination.

EXHIBIT C

Public Safety Realignment Act of 2011

“California must reinvest its criminal justice resources to support community-based corrections programs and evidence-based practices that will achieve improved public safety returns on this state’s substantial investment in its criminal justice system. Realigning low-level felony offenders who do not have prior convictions for serious, violent, or sex offenses to locally run community-based corrections programs, which are strengthened through community-based punishment, evidence-based practices, improved supervision strategies, and enhanced secured capacity, will improve public safety outcomes among adult felons and facilitate their reintegration back into society. Community-based corrections programs require a partnership between local public safety entities and the county to provide and expand the use of community-based punishment for low-level offender populations. Each county’s Local Community Corrections Partnership, as established in paragraph (2) of subdivision (b) of Section 1230, should play a critical role in developing programs and ensuring appropriate outcomes for low-level offenders. Fiscal policy and correctional practices should align to promote a justice reinvestment strategy that fits each county. “Justice reinvestment” is a data-driven approach to reduce corrections and related criminal justice spending and reinvest savings in strategies designed to increase public safety. The purpose of justice reinvestment is to manage and allocate criminal justice populations more cost-effectively, generating savings that can be reinvested in evidence-based strategies that increase public safety while holding offenders accountable. “Community-based punishment” means correctional sanctions and programming encompassing a range of custodial and noncustodial responses to criminal or noncompliant offender activity. Community-based punishment may be provided by local public safety entities directly or through community-based public or private correctional service providers [et. seq]. “Evidence-based practices” refers to supervision policies, procedures, programs, and practices demonstrated by scientific research to reduce recidivism among individuals under probation, parole, or post release supervision.” (CA Pen. Code, § 17.5(a)(4)-(9).)
