Version: 1

Matter Type: General Agenda Item

Accept and approve the Emergency Medical Care Committee's Annual Report for 2023.

RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
Accept and approve the Emergency Medical Care Committee's Annual Report for 2023.

SUMMARY/DISCUSSION:

The Emergency Medical Care Committee (EMCC) of the County of Monterey Emergency Medical Services (EMS) Agency completed its Annual Report for the 2023 activities of the EMCC. This report in conjunction with the EMS Agency's 2023 Annual Report to the Board of Supervisors is intended to fulfill the annual reporting requirements for emergency medical care committees established in California Health and Safety Code 1797.276.

The EMCC advises the Board of Supervisors and the EMS Director on EMS system issues, ensures that all EMS constituents are actively engaged in the decisions regarding EMS system resources, and provides input on the development and implementation of Monterey County's EMS policies, protocols, and procedures.

This report is presented to keep the Board of Supervisors and other County officials informed about the work done by the EMCC. This Annual Report covers the period of January 1, 2023 through December 31, 2023.

During the reporting period, the EMCC was involved in or kept its membership informed of several important initiatives including EMS system quality improvement (QI) activities, Ambulance contractor (AMR) response time compliance, Fire-based ambulance service providers 90th percentile response times, PulsePoint AED implementation, EMT and paramedic training programs, and the implementation of the prehospital use of buprenorphine.

This work supports the County of Monterey Health Department 2018-2024 Strategic Plan Goal 3. Ensure access to culturally and linguistically appropriate, customer friendly, quality health services; it is in support of one or more of the ten essential public health services, specifically: 7. Link people to needed personal health services and assure the provision of health care when otherwise unavailable and 9. Evaluate effectiveness, accessibility, and quality of personal and population-based health services.
