EXHIBIT A TO ADDENDUM - DESCRIPTION OF SERVICES/PAYMENT PROVISIONS

A.1 JOC Complete Solution®

The JOC Complete Solution is a turnkey procurement approach that tailors Job Order Contracting components to form a unique, comprehensive and high-performing “complete” JOC program. The JOC Complete Solution includes all of the products and services provided by the Gordian JOC Solution and, **in addition, Gordian will provide account managers to assist with developing Job Orders from project identification to issuing the Job Order.**

Developing the Job Order is the most critical step in the JOC process for controlling costs because this is the step where it is determined that NMC is paying for the correct quantity at the correct competitively bid price for each project. It is very important that experienced, qualified project managers develop each and every Job Order. The JOC Complete Solution will bring the most economic benefit to NMC with long term cost savings. A detailed list of the steps required to develop each Job Order are as follows:

- a. **Project Identification** – When a project is identified, Gordian’s account managers shall work with the County and assist with determining whether the project is appropriate for JOC.
 - b. **Contractor Identification** – In the event the County has multiple JOC contractors, we will assist NMC with identifying the appropriate JOC contractor for the project based on the type of work involved, location of the project, and other factors such as remaining contract capacity, work on hand, and contractor performance.
 - c. **Joint Scope Meeting** – After identification of the JOC Contractor a Gordian account manager shall promptly schedule a Joint Scope Meeting at the project site to help NMC and the JOC contractor agree on the details of the work that the JOC contractor will perform. The scoping process allows the JOC contractor to inspect the site and ask questions before submitting a Price Proposal. This upfront open communication eliminates the misunderstandings and mistakes that lead to most change orders and often results in more cost-effective collaborative solutions.
 - d. **Develop Detailed Scope of Work** – Next, the Gordian account manager shall assist in preparing a Detailed Scope of Work that describes the work the JOC contractor will perform. Gordian shall also assist with resolving issues when project plans and actual conditions vary.
 - e. **Request for Price Proposal** – After all parties are in agreement that the Detailed Scope of Work properly reflects the work to be performed, the Gordian account manager shall send the Detailed Scope of Work and a Request for Proposal to the JOC contractor.
 - f. **Prepare the Price Proposal** – Next, the JOC contractor prepares and submits a Price Proposal by selecting the appropriate tasks from the Construction Task Catalog. Gordian’s JOC software will automatically calculate the total cost for each line item by multiplying the unit price of the task by the required quantities and the JOC contractor’s competitively bid Adjustment Factor. The JOC contractor will also prepare additional NMC required information (e.g., construction schedule, list of proposed local subcontractors, etc.).
 - g. **Price Proposal Review** – Then, the Gordian account manager shall review the Price Proposal to make sure the JOC contractor has selected the appropriate tasks and quantities and shall ask
-

the JOC contractor to make any required changes. Gordian shall also obtain and review any NMC required information submitted by the JOC contractor such as a construction schedule and list of proposed subcontractors. Then the Gordian account manager shall submit the Price Proposal and related documents to NMC.

- h. Issue Job Order** – Once NMC is 100% satisfied with the Price Proposal and related documents, and decides to move forward with the project, NMC simply issues a purchase order to the contractor.
- i. Construction Management** – During construction, NMC’s project managers will follow its standard internal policies and procedures for construction management and site inspections, including coordinating any required code inspections. When unforeseen conditions arise or NMC desires to change the Detailed Scope of Work, a supplemental Job Order is developed in the same manner as the original Job Order. With JOC, changes to the work are pre-priced.

A1.1 JOC Complete Solution® FEES

The License Fees for the JOC Complete Solution consist of a client paid license fee (“NMC License Fee”) and Job Order Development Fee paid by NMC, and a contractor paid license fee (“Contractor License Fee”) paid by the JOC contractor as follows:

<u>NMC License Fee:</u>	1.95% of the value of the work ordered; and
<u>Job Order Development Fee:</u>	3.05% of the value of the work ordered; and
<u>Contractor License Fee:</u>	1.00% of the value of the work ordered.

(Totals (6%) of the value of the work ordered)

JOC Complete Solution Fees are payable when a Job Order is issued to the JOC contractor. NMC License Fee and Job Order Development Fee will be payable upon the issuance of a Job Order, purchase order, or similar purchasing document to the JOC contractor by NMC. The Contractor License Fee shall be invoiced to the JOC contractor and is not a cost assessed to NMC. JOC Complete Solution services can be provided as part of a comprehensive JOC solution, or can be provided on a project-by-project basis, with the Job Order Development Fee being assessed only when these services are requested by NMC.

- d. **Supplemental Job Orders** – In the event there are unforeseen conditions or NMC requests changes to the scope after the work has begun, the Gordian construction manager will analyze and process a supplemental Job Order by utilizing the procedures used to develop the initial Job Order.
- e. **Approvals** – The Gordian construction manager shall review and approve, or direct necessary revisions to, the JOC contractor's applications for payment and obtain NMC's approval of the work. Final acceptance of the work will be the responsibility of NMC. Technical and code inspections will be the responsibility of the appropriate inspection agencies.
- f. **Project Close-out** – As the final step in the process, the Gordian construction manager shall enter all Job Order related information into the eGordian[®] information management system and collect any required as-builts, warranties, etc., from the JOC contractor.

A2.1 JOC Complete Solution *Plus*[™] FEES
