Re: Applicant: Harper Canyon Realty  
Project: Encina Hills Subdivision  
Project No.: PLN000696

Dear Laura:

As I explained in our conversation last week, Todd Engineers is preparing a formal proposal for performing water level tests of the Oaks Well and the Encina Hills well. They estimate 90 to 120 days to schedule and perform the well testing and to prepare a written analysis of the results. Accordingly, on behalf of Harper Canyon Realty, this letter will serve as our formal request for continuance of the pending appeal with the Board of Supervisors to a later date to accommodate completion of the water level tests for the subject well.

Thank you for your attention to this matter.

Very truly yours,

  
Michael D. Cling

MDC/mmb
