DISCUSSION/SUMMARY:

In 1999, California became the first state to mandate minimum nurse-to-patient ratios for every unit in general acute care hospitals such as NMC. These nurse-to-patient ratios were phased in, beginning 2004, and require:

- One licensed nurse for every two patients in the intensive care, critical care, and neonatal intensive care units, in post-anesthesia recovery, labor and delivery, and when patients in the emergency room require intensive care.
- One licensed nurse for every three patients in step-down units.
- One licensed nurse for every four patients in ante-partum (not active labor), postpartum (1:4 mother-baby couplets) pediatric care, and in the emergency room, telemetry, and other specialty care units.
- One licensed nurse for every five patients in medical-surgical units.
- One licensed nurse for every six patients in psychiatric units.

In addition, under Emergency Medical Treatment and Labor Act (EMTALA) regulations, NMC cannot refuse to provide treatment to patients who arrive at the hospital with an emergency medical condition or are in active labor.

NMC must predict how many nurses will be needed during multiple shifts of the day and staff accordingly. Nurse staffing needs cannot always be met by regular NMC staff. NMC utilizes the services of seventeen (15) Nurse Registry Companies to ensure:

- The required number of nurses is in place on each unit.
- NMC meets its obligations under EMTALA.
- NMC is properly staffed during peak times.
- In order to cover temporary absences of regular staff, and
- When needed due to emergency situations.

The majority of NMC nurse registry staff is utilized in the Emergency Room and on the Labor & Delivery Unit when Emergency Room visits or Labor & Delivery' censuses (number of patients daily) are at peak. Nurse Registry Staff is also utilized on the Intensive Care Unit (ICU) and the Medical Surgical Unit (MSU) to cover unexpected loss of temporary staff or regular staff turn-over.

NMC continuously assesses staffing needs based on volume. We are currently evaluating the feasibility and cost-effectiveness of using a staffing management program to coordinate the procurement of registry nurses. If this program is adopted, would resolve the need to contract with each registry on an individual basis, so we are requesting approval for a one-year extension to the current agency agreements.
