RE: Reeves Appeal

Dear John:

Now that the Planning Department has set March 26, 2014, as the date for a public hearing on the Mehdipour project and the Department is recommending denial, Mr. Reeves does not object to deferring the hearing date for his appeal on the condition compliance issues as long as it does not in any way compromise his appeal rights.

I have heard, based on a conversation between Dale Ellis and Delinda Robinson, that the March 26 hearing may be delayed while Ms. Mehdipour looks for additional mitigations. If the March 26 hearing is delayed beyond the end of April, we do want a hearing date for Mr. Reeves appeal.

Sincerely

Anthony Lombardo
