SUMMARY/DISCUSSION:

The Mental Health Services Oversight and Accountability Commission awarded the County a Mental Health Student Services Act (MHSSA) grant to build infrastructure for mental health systems at identified school districts and increase staff social emotional capacity and understanding of mental health issues in students. The services provided to meet these goals are done in partnership with community-based agencies, specialists in relevant fields, and trainers

in essential areas related to the goals of the grant, including the Neurosequential Model of Therapeutics. This is a neurodevelopmentally informed, biologically respectful perspective on development and functioning. Clinical psychologists trained in this model will support the work of the MHSSA grant by assisting staff in understanding how childhood experiences impact their ability to flourish and learn. Standard Agreement Section 10.05 - Royalities and Inventions was modified to allow Contractor to retain rights over copyrighted materials.

This work supports the following the County of Monterey Health Department 2025-2028 Strategic Plan Initiative: 3. Provide exceptional person-centered care through accessible, community-focused health services. It also supports the ten essential public health services, specifically: 8. Build and support a diverse and skilled public health workforce.
