Emergency Management Annual Update

Sherrie Collins, CEM

June 11, 2013

Vision & Mission

The mission of the Monterey County Office of Emergency Services is to ensure that the jurisdictions and communities have the capability and sustained capacity to prepare for, respond to, mitigate and recover from any natural, technological, or human related emergency or disaster.

We envision a collaborative and coordinated approach to all phases of emergency management, including key stakeholders from government, businesses and community organizations involving all sectors of the community focused on these shared goals:

- **Establishing a sustainable, standardized system for planning and working together before, during and after a disaster**

- **Ensuring that we have an Emergency Management community of trusted, trained professionals**

- **Enhancing public safety, mitigating hazards and reducing risk**

- **Ultimately sustaining a resilient community**

Hazard Mitigation Planning

PREPAREDNESS   MITIGATION
RESPONSE   RECOVERY

Operational Area Coordinating Council

Provides overarching policy direction for emergency management/homeland security throughout the county

Ensures that planning is strategic and focused on "whole community" inclusion .

Serves as a repository for information sharing for all emergency management activities

Council represents key stakeholder groups in community leadership and public safety

Draft Concept

Serves as the Operational Area Disaster Council

Multiagency Support and Coordination

Provide support and coordination to incident command by:

- **Making policy decisions.**
- **Establishing priorities.**
- **Resolving critical resource issues.**
- **Facilitating logistics support and resource tracking.**
- **Collecting, analyzing, and disseminating information.**

EOC OPERATIONS

Executive/Senior Officials' Role & Responsibilities

- Executives/Senior Officials:

  Provide policy guidance on priorities and objectives based on situational needs and the Emergency Plan.

WebEOC

Benefits of WebEOC:

- **Easy to use:** Users can be trained in 15 minutes

- **Easy to administer**: Admin Reports simplify administration, record keeping and maintenance

- **Highly configurable:** Use any of the standard status boards "as is" or create custom boards

- **World-class customer support:** 24/7/365, by phone, e-mail, online

- **Affordable:** Sold on a per server basis with unlimited users

WebEOC® *Professional*
Incident & Event Management Software

Introduced in 1998, WebEOC *Professional* is a web-enabled, user-friendly and locally-configurable incident and event management system. With access to the Internet, authorized emergency managers and first responders, regardless of location, can enter and view incident information in WebEOC status boards.

WebEOC is a boundless collaboration tool that creates a common operating picture, enabling emergency managers to make sound decisions quickly.

WebEOC enables users to manage multiple incidents and daily events, assign and track

Training, Credentialing, and Exercising

EOC Readiness

All County Employees serve as Disaster Service Workers (DSW).

OES continues to train and prepares those DSWs for their response if the need should arise.

Public Safety/ First Responders train regularly for all emergencies, large and small.

Continuity of Operations Planning
COOP/COG

We will be working on enhancing the County COOP plan this next fiscal year. This effort will involve all departments and BOS staff.
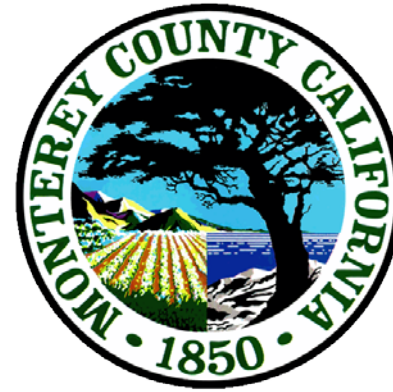

Our goal is to integrated the current department plans that have been developed with areas that need to be strengthened including alternate facilities and vital records.

Hazard Mitigation Overview

- *Key Project Tasks*

- *Project Outcomes*

- *Current Project Status*

- *Timeline*

Partnersips

- Monterey County Hazard Mitigation Plan expiring

- Monterey County Selected by NOAA as Digital Coast National Pilot Project

- NOAA awards $80,000 contract to AECOM to highlight Digital Coast Technology in Monterey County

Emergency Management Briefing

Project Area

- Unincorporated Monterey County

- 12 Municipalities:
  - **Carmel-by-the-Sea**
  - **Del Rey Oaks**
  - **Gonzales**
  - **Greenfield ***
  - **King City**
  - **Marina**
  - **Monterey**
  - **Pacific Grove**
  - **Salinas**
  - **Sand City**
  - **Seaside**
  - **Soledad**
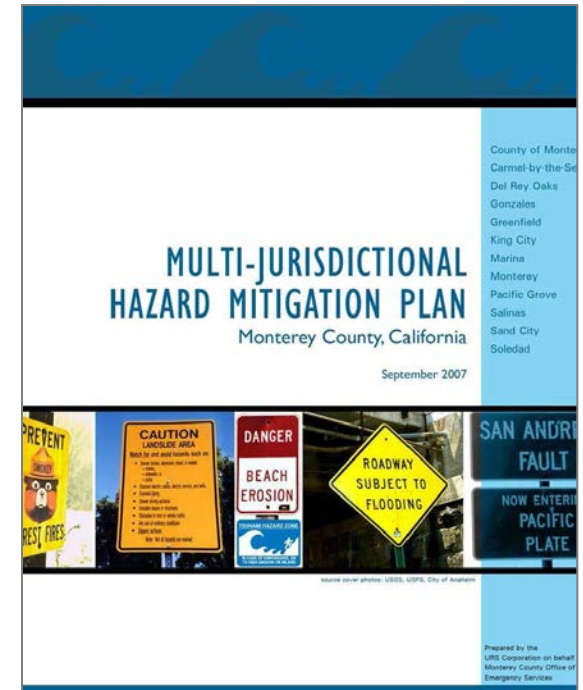

Project Objectives

- Build capacity of Monterey County to increase community resiliency

- Answer the question "What Next?" in relation to sea level rise *

- Demonstrate how Digital Coast can be used to update a local, multi-jurisdictional hazard mitigation plan

- Roadmap to achieving CRS Level 4 *

MULTI-JURISDICTIONAL HAZARD MITIGATION PLAN
Monterey County, California

September 2007

County of Monte
Carmel-by-the-Se
Del Rey Oaks
Gonzales
Greenfield
King City
Marina
Monterey
Pacific Grove
Salinas
Sand City
Soledad

SAN ANDRE FAULT
NOW ENTERI PACIFIC PLATE

Project Objectives

- Qualify all Monterey County jurisdictions for maximum CDAA and Stafford Act funds *

- Leverage the Digital Coast Partnership and other organizations for expertise and outreach (new hazards)

- Integrate Hazard Mitigation into land use decision making process for all jurisdictions and at all levels.
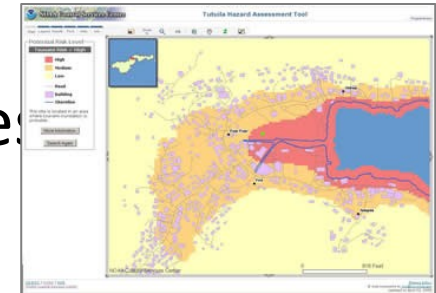

- Pressure nationally to commit to action in response to climate change

- Monterey County selected for National Pilot Project because:
  - Coastal Community
  - Environmentally Conscious
  - Timing

Project Outcomes

- Digital Coast resources integrated with local hazard mitigation plan

- Executive summary report / showcase pres
  - *Digital Coast in Action*

- Recommended enhancements

- Strategy for integrating Digital Coast into local plan implementation and maintenance
  - *Demonstrate compliance with FEMA national standards*

Current Project Status

- Contract Pending

- Anticipated project kickoff meeting – mid-June

- Plan update process scheduled over 14 months
  - 7 Planning Team meetings
  - Series of individual jurisdiction meetings
  - Widespread public outreach and stakeholder involvement
  - Focus on integration of climate-related hazards and specific, achievable mitigation/adaptation actions
