RE: Lot E1 Wolovsky Residence – DRB Tentative Final Approval

Dear Mr. Holdern,

Thank you for submitting the final plans for the Wolovsky residence. The Design Review Board has reviewed and has tentatively approved the plans that were submitted on December 22, 2021 with the following conditions:

1. **Prior to any occupancy**, an as built plan set shall be submitted to the Design Review Board by a licensed Landscape Architect to confirm that installed landscaping is true and accurate to the plan set submitted on 12/22/2021. The individual who signs off on the as built plan set must provide a signed Landscape Architect Affidavit as well as provide a copy of the individuals license to practice within the United States.
2. Design team or owners to coordinate Openlands portion of the driveway with the Conservancy to fully develop a construction plan.
3. Design team to coordinate Civil and landscape scope as well as installation details, specifically, rainwater garden vs. dispersion trench.
4. Design Team to verify tree screening installation within the property to ensure that the Barn and all other structures are properly screened.

Prior to the commencement of construction, the above items must be completed and issued to the DRB for review and approval. If the items above are not in compliance, the DCS office will not grant a Pre-Construction Conference.

If there are any changes, please digitally submit the revised plans to the DRB for review and approval. Once the owners are ready to start construction, please contact Design and Construction Services to set up a Pre-Construction meeting.

Congratulations! It has been a pleasure working with your design team on this project. If you have any questions, please feel free to contact me at 831-620-6825 or via email at Cdaroczy@SantaLuciaPreserve.com.

Regards,
Cameron A. Daroczy - Design and Construction Services Administrator
