**CHERISH CENTER, 23-Hour Receiving Center**

**I. Summary**

The Receiving Center is designed to support children through the trauma of removal from their birth families and to ease the transition between placements for children disrupting from placements. The Center provides a supportive, child-friendly place where children can be looked after safely while more thoughtful placements are researched, including assessment of relative and near kin placement options. Children receive health screening, mental health assessment, short-term care and supervision and crisis support. These services assist matching children to the appropriate level of care and addressing issues of permanency at the earliest possible point.

**II. Policy**

**A. Center Purpose**

Unity Care Group, a community-based organization under contract to Monterey County Department of Social and Employment Services, staffs the Receiving Center. The Center is a non-residential child friendly environment. Due to licensing restrictions, a child's stay is limited to 23 hours or less. The Receiving Center is not a placement. The Receiving Center can *only* accept a child from the Monterey County Family and Children's Services.

**B. Multi Disciplinary Service Delivery**

The Receiving Center staff is organized within a comprehensive service delivery model that includes, but is not limited to: DSES Nurse, MC Behavioral Health in addition to Unity Care Group and MC Family and Children's Services.

**C. Center Capacity**

The Center has the capacity to receive and serve up to 10 children between the ages of zero and 18 years.

**D. Hours of Operation**

The Center's core operating hours are 10 AM to 7 PM M-F with availability of on-call staff before and after core service hours and on weekends.

**E. Referrals**

**1. Mandatory Referrals**

Except when emergency or urgent medical care is needed, all children shall be taken to the Receiving Center before placement in situations where the child is:

- a. Removed from parents or guardians and is under a police hold;
- b. Removed from parents receiving Family Maintenance services;
- c. Experiencing a placement disruption and there is no identified new placement immediately available.

Exceptions to mandatory referrals are made on a case-by-case basis with an FCS program manager's, or his/her designee's, approval in situations where it is considered better for the child to be placed directly.

2. **Inappropriate Registrations**  
The following are considered inappropriate registrations for the Center:
  - a. Homeless children and runaway youth who are not dependents;
  - b. Youth arrested for a crime or status offense.
3. **Registrations for Consideration**  
The following may *only* be considered for Center registration with FCS program manager and Unity Care program manager and/or supervisor approval:
  - a. Youth being released from Juvenile Hall and wards of the court under the Welfare and Institutions Code 601 or 602, if custody is being transferred to DSES;
  - b. Youth being released from psychiatric hospitals or from 5150 assessment.
4. **Voluntary Referrals**  
Referral to the Receiving Center is not mandatory when a child is being discharged from the hospital and placement has been pre-arranged.

**F. Child Transport**

1. Only child welfare staff may admit a child to the Receiving Center after:
  - a. First having face-to-face contact with that child
  - b. Transfer from law enforcement staff to the social worker has taken place.
2. Although it is preferred that the social worker take the child to the placement home, the caregiver may transport a child/children from the Center to their home, provided the social worker is present to complete the placement paperwork.

**G. Social Worker Continuity**

The admitting social worker is to follow through with the discharge planning except when a standby worker transfers the case to a daytime ER worker.

**H. Use of the Receiving Center After Regular Business Hours**

1. **Overnight stays**  
Children may remain at the Center no more than 23 hours and cannot remain two consecutive nights. Overnight use of the Center is restricted to the following circumstances:
  - a. More time will allow the child to be considered for a preferred placement (e.g. a non-custodial parent, other relative or near kin);
  - b. To avoid placement in a temporary home;
  - c. When arrival to the center is late in the day and did not allow sufficient time for a placement decision to be made (e.g. after 5 PM).
  - d. To allow time to hold a TDM meeting prior to placement.
2. **After Hours Access**  
All ER/Standby workers are permitted to enter the Receiving Center without Receiving Center staff present while awaiting Center staff's arrival. The identified FCS supervisors, program managers, deputy director and ER social workers have keys and alarm information for the Receiving Center. Those using the center without Receiving Center staff present must sign in and out as is the case when Receiving Center staff is present.

1. Call the Unity Care on-call supervisor to register the child and to secure authorization for an overnight stay, if needed.
2. Coordinate arrival time to the Center with that of the on-call childcare worker. Obtain the security code from the on-call childcare worker. The reporting time of the childcare worker is not to exceed 45 minutes from the time notified to report to work.

4. In situations where the social worker and child/ren arrive at the Center prior to Unity Care staff, use the security code provided by the on-call childcare worker to gain entrance into the Center.
5. Log in time entered the Center.
6. Upon arrival, orient Unity Care staff and share initial placement options.
7. In situations where several children are brought in at the last minute, assist with urgent childcare needs until adequate child care staff have arrived.
8. If relatives are identified who would likely be stable and safe placement resources initiate the Relative Near Kin approval process and paperwork.
9. Fax above paperwork to the Screening Unit the following morning. On the CWS Referral form, the ER worker will indicate under "Alerts" that the child is in the Receiving Center and the time the child was taken to the Receiving Center to assure the child does not remain there beyond 24 hours. If faxing is not possible, this information must be given to Screening.
10. Standby social worker may leave a child overnight in the Receiving Center during any shift. If the following day is not a regular business day (e.g. Saturday, Sunday or a holiday), before going off duty, the standby worker must alert both the scheduled supervisor and the ER worker for the next shift that the child is in the Receiving Center. The standby social worker shall also inform the next shift regarding the time the child was taken to the Receiving Center, as well as any pertinent information about the parent or relative caregiver with whom placement or discharge is planned. In addition, Receiving Center staff must be advised of the name and pertinent contact numbers of the worker coming on shift who will follow through with the case to find placement before the 23-hours has expired.

##### ***B. When a child, registered during regular business hours, needs to remain after hours (overnight), the social worker shall:***

1. Inform the Standby worker and assure that their contact phone numbers are current. If an emergency arises during the night, the Receiving Center staff will call Standby staff for assistance. The mental health crisis team will be contacted for mental health emergencies. These calls from the Center shall be considered as high priority.
2. If clearances can be completed on adults in a relative or near-kin home and show no history of criminal convictions or child abuse allegations, but no in-home assessment can reasonably be made by daytime staff, this would be considered a "worker assist" situation. The Program Manager and ER Supervisor will jointly decide if ER will follow up to conduct the home visit and place the child.

#### ***V. Confidentiality***

---

Confidentiality will be observed based upon the highest standard of the participating partners. All staff are required to sign a confidentiality statement.

#### ***VI. Record Keeping***

---

- A. At intake, Center staff shall create a client file to include:
  1. Child's photograph
  2. Intake forms
  3. Incident reports

  8. Health Screening Form
- B. At discharge, provide the original documents to the child's social worker and store copies in a locked cabinet at the Receiving Center.

#### ***VII. Cultural Sensitivity***

---

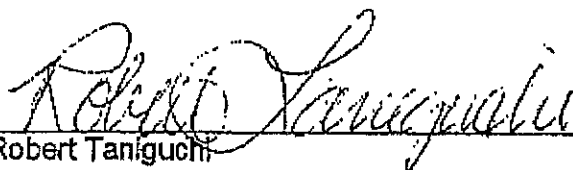

When serving children and their family members from diverse cultural backgrounds, the staff will be committed to communication and interactions reflecting an awareness of and respect for different ethnicities and racial backgrounds. Spanish speaking staff will be available to assure that monolingual children and their caregivers are assisted and language barriers are overcome. Every effort will be made to provide interpretation services for any child or family necessitating such services.

**VIII. Disclosures**

When a child makes a disclosure that is germane to child welfare/protection, Receiving Center childcare staff must immediately report the disclosure to the assigned child welfare worker and complete an incident report. The original report is given to the assigned FCS social worker and a copy placed in the child's Center file.

If the disclosure is related to sexual abuse, the assigned child welfare worker will ensure that the CART (Child Abuse Response Team) protocol is followed, making the necessary cross-reports to law enforcement and assisting in the scheduling and transportation of the child to the Archer Child Advocacy Center. If the assigned child welfare worker is not available, childcare staff will report the sexual abuse disclosure to that worker's supervisor to ensure that the appropriate steps are taken. If the disclosure by the child regarding sex abuse is made within 72 hours of the alleged incident, time is of the essence in terms of gathering evidence.

Childcare staff should report after-hour disclosures to the after-hours social worker immediately. The after-hours social worker should report the disclosure to law enforcement to determine whether the child should be brought to Natividad Medical Center for an examination for the purposes of gathering evidence of sexual assault by SART (Sexual Assault Response Team). Law enforcement will determine whether there is a need for an immediate examination and would initiate SART. This would only be necessary if the assault was within 72 hours of the disclosure.
