Adopt a resolution proclaiming June 2026 as Elder Justice and Vulnerable Dependent Adult Abuse Awareness Month in Monterey County. (Supervisor Root Askew) (P)

Before the Board of Supervisors in and for the
County of Monterey, State of California

Resolution No.:

Adopt a resolution proclaiming **June 2026** as **Elder Justice and Vulnerable Dependent Adult Abuse Awareness Month** in Monterey County.

WHEREAS, *World Elder Abuse Awareness Day* is an annual initiative established on June 15, 2006, to raise a global understanding that elder abuse remains an international crisis and that public awareness is essential for a safer aging population, by reporting abuse in all its forms, recognizing its signs, and distinguishing it from the normal aging process; and

WHEREAS, elder abuse is preventable, and everyone has a role to play in ensuring that older adults live without fear of being hurt, exploited, or neglected, and while we celebrate the strength, wisdom, and resilience of older adults, we remain steadfast in promoting their right to live free from abuse and discrimination; and

WHEREAS, elder abuse continues to be a public health, human rights, and social justice issue that, as the age distribution in our communities continues to shift, has found its way into our digital world, making it harder to detect and easier to execute in the form of scams, and to combat this growing risk, both family and informal caregivers are encouraged to learn ways to cope by soliciting assistance from family, friends, and local county behavioral health and social service agencies; and

WHEREAS, a strong call to action by engaging in the State of California's Master Plan for Aging, and incorporating our County of Monterey and its Area Agency on Aging's legislative priorities will ensure solutions that will advance initiatives challenging ageism, build stronger support systems for the prevention and intervention of abuse to promote dignity, uphold the rights and resilience of older and vulnerable adults; and

WHEREAS, the aggregate contributions of Long-Term Care Ombudsman Advocacy, Department of Social Services Adult Protective Services, financial institutions, law enforcement agencies, and other concerned administrative entities, while invaluable, are not enough to stop elder abuse, and as we age together, our collective work must demand a multifaceted response that focuses on the laws and policies shaping available resources and recognizes the critical need for equitable access; and

WHEREAS, the United Nations Decade of Healthy Aging led by the World Health Organization and its partners was launched as a global multi-partner initiative in 2021, expanded until 2030, to improve older people's lives by combating ageism, fostering age-friendly

communities, delivering integrated care, and ensuring access to long-term care, with the collaboration of public agencies, governments, private sectors, academia, and the older adult communities themselves so that collective action may add years to life.

NOW, THEREFORE BE IT RESOLVED, that the County of Monterey Board of Supervisors, on behalf of the County and all residents thereof, hereby joins the County of Monterey Area Agency on Aging and its Advisory Council in recognizing the month of **June 2026** as "**Elder Justice and Vulnerable Dependent Adult Abuse Awareness Month.**"

Introduce, waive first reading, and set June 23, 2026 at 10:30 a.m. as the date and time to consider adoption of an ordinance amending Section 12.28.010 of the Monterey County Code to prohibit parking at all times on both sides of State Highway 1 from approximately 900 feet north of the north abutment of Bixby Bridge (Caltrans Post Mile 59.64) to approximately 700 feet south of the south abutment of Bixby Bridge (Caltrans Post Mile 59.25), in the unincorporated area of Monterey County; and
c. Authorize the Director of Public Works, Facilities and Parks to apply on behalf of the County for an encroachment permit from Caltrans to install no parking signs on both sides of State Highway 1 in the limits described in the ordinance around Bixby Bridge.

SUMMARY/DISCUSSION:
On April 23, 2026, Supervisor Daniels submitted a referral (Referral No. 2026.08) requesting staff to implement a 12-month moratorium on parking in the immediate vicinity of Bixby Bridge on Highway 1, in advance of the Memorial Day weekend start of the summer season (**Attachment A**).

Considering ongoing safety concerns and the need for an immediate, practical response, Referral No. 2026.08 proposed adoption of a temporary No Parking ordinance on Highway 1 near Bixby Bridge, complementing the existing Old Coast Road No Parking restrictions. The measure would provide

short-term protection for public safety while allowing for continued coordination with CCC staff on longer-term management approaches.

On May 19, 2026, Public Works, Facilities and Parks ("PWFP") staff provided the Board of Supervisors a preliminary analysis report in response to said Board referral. At the meeting, the Board provided direction to staff to pursue the path of acquiring an Emergency Coastal Development Permit ("ECDP"), while concurrently preparing an ordinance for no parking for consideration by the Board, followed by applying for a Caltrans Encroachment Permit for placing the signage on Highway 1. Thereafter, the moratorium would be implemented for a 12-month period, and the ECDP would be supplanted by consideration of a regular Coastal Development Permit ("CDP"). The follow-up permit would involve exploration of options for parking and access long-term.

The proposed ordinance is for the protection of the public peace, health, safety and welfare of the County constituents and visitors in the Big Sur community.

OTHER AGENCY INVOLVEMENT:
PWFP staff have been working with Housing Community Development (HCD), Office of the County Counsel, Monterey County Sheriff's Office (MCSO), and outside departments such as the California Highway Patrol (CHP), Caltrans, California Coastal Commission (CCC), State Parks, and the United States Forestry Service (USFS). The Office of the County Counsel has approved the ordinance as to legal form.

FINANCING:
Adoption of this ordinance requires the posting of appropriate signage, as well as enforcement by law enforcement officers. These traffic control devices will be funded by the Community Road Maintenance Program in the Road Fund. For this temporary signage, costs will depend on the quantity of signage necessary, which could be $50,000. Sufficient funds are available in the proposed Fiscal Year (FY) 2026-27 Recommended Budget for the Road Fund 002, Appropriation Unit PFP004 to finance this work.

Enforcement is required by law enforcement partners, who have noted their limited resources. The California Highway Patrol does have an enforcement agreement process for dedicated officer(s) for enforcement at a specific location; for estimate purposes, it is approximately $15.3k per month for a dedicated officer on weekends 8 hours per day, Friday, Saturday and Sunday. The MCSO has also indicated the possibility of a similar enforcement arrangement. For a similar time period and staffing, the estimate is approximately $11.3k per month for a dedicated deputy.

CEQA:
The adoption of the ordinance is statutorily exempt under the California Environmental Quality Act pursuant to Section 15269(c) of the CEQA Guidelines because the action will involve specific actions necessary to prevent or mitigate an emergency. Specifically, temporarily prohibiting parking in a limited area near Bixby Bridge given increasing concerns for impacts to visitor and resident safety, emergency access, and sensitive natural resources.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The recommended action supports the Board of Supervisors' Strategic Plan Goals for Well-Being and Quality of Life, and Safe and Resilient Communities. These services will enhance the County's transportation safety and accessibility, improving the quality of life for County residents.

Referral Title: **12-Month Moratorium on Parking at Bixby Bridge**

Referral Purpose:
The purpose of this referral is to implement a 12-month moratorium on parking in the immediate vicinity of Bixby Bridge on Highway 1, in advance of the Memorial Day weekend start of the summer season. This action responds to longstanding and well-documented public safety hazards at this location.

Data collected during Labor Day weekend in 2022 recorded up to 325 pedestrian highway crossings per hour on the north side of Bixby Bridge. On September 4 of that weekend, vehicle activity peaked at 70 complete stops in the roadway per hour. Additional counts from September and October showed Sunday afternoon averages of 108 pedestrian crossings per hour, 38 complete stops in the travel lane per hour, and 12 vehicles per hour parked over the fog line.

In spring 2026, traffic congestion at key Big Sur chokepoints – including Bixby Bridge, Point Lobos, and Soberanes – reached unprecedented levels during spring break. These conditions continue to heighten risks to visitor and resident safety, emergency access, and sensitive natural resources.

In March, Supervisor Daniels met with Coastal Commission staff to explore potential management strategies for Bixby Bridge. While staff provided a follow-up letter on March 20 (attached), it did not identify actionable near term solutions or funding strategies to address the immediate hazards expected this summer. Some recommendations also appear to be in tension with elements of Big Sur's Local Coastal Program, as outlined in the attached summary.

Considering ongoing safety concerns and the need for an immediate, practical response, this referral proposes adoption of a temporary No Parking ordinance on Highway 1 near Bixby Bridge, complementing the existing Old Coast Road No Parking restrictions. This measure would provide short-term protection for public safety while allowing for continued coordination with the Coastal Commission on longer-term management approaches.

Supervisor Daniels remains open to modifying the County's course of action if meaningful and effective enforcement measures are implemented before summer.

Brief Referral Description (attach additional sheet as required):

Requesting the installation of temporary No Parking signs on State Route One (SR-1) on the northern and southern end of the Bixby Creek Bridge.

The project involves the installation of "No Parking Any Time" signage on the east and west side of SR-1 on the northern and southern end Bixby Bridge where traffic and pedestrian congestion is occurring. The signs would be spaced within appropriate, enforceable distances.

This would involve the adoption of an ordinance by the Board of Supervisors for the installation of temporary "No Parking Any Time" signs at an appropriate distance before and after the bridge.

Subject: **Addressing Public Safety and Public Access at Bixby Bridge**

Dear Supervisor Daniels,

Thank you for convening the meeting amongst the various regulatory and public safety agencies on March 5th to discuss ongoing public safety and public access issues at Bixby Bridge along the Big Sur coast. That meeting helped to serve as a forum to identify some potential shorter and longer term solutions to address traffic, safety, and public access concerns at this iconic visitor destination. Specifically, and as we discussed, during peak visitation times we have collectively seen unsafe traffic and parking behavior (e.g., stopping on the highway to wait for a parking spot, parking on and over the highway fog line, parking in a way that blocks access to and impedes entry/exit to Old Coast Road, etc.), unsafe pedestrian behavior (e.g., crossing the highway on foot, climbing on the edge of unstable bluffs, etc.), as well as other concerning conduct (e.g., trampling of vegetation, littering, etc.). These are all real and serious problems, to be sure. But it is also important to acknowledge from where they come; they are the byproduct of the public's extraordinary interest in seeing and experiencing Bixby Bridge. When coupled with a lack of capacity and enforcement to safely accommodate this demand, the types of problems identified are not unexpected. We believe it is important that solutions to these sorts of problems be grounded in those realities, including, at its core, the reality that visitors are not going to stop trying to visit the bridge, and solutions need to keep this in mind. To that end, this letter begins to outline some potential preliminary ideas for how these issues might be able to begin to be addressed, both in the shorter and longer term, with the goal of continuing the discussion that was started at the March 5th meeting.

Enforcement Needs

In the short term, it appears clear that the first, least controversial, and perhaps most important approach to addressing these ongoing access management issues is enforcement (i.e., ensuring people are not parking in areas closed off to parking or in unsafe areas, keeping traffic – particularly emergency vehicles – moving, stopping traffic to allow for safe pedestrian crossing, etc.). This is not a new idea, but we wanted to emphasize its importance; few solutions to issues this controversial are as seemingly universally agreed upon as stepped up enforcement that promotes acceptable behaviors, and that eliminates those that are not. Indeed, this concept was highlighted by discussions at the February BSMAAC, where a consensus around the need for more

enforcement appeared to be forming. Enforcement also has the benefit of being effective immediately without any permitting requirements. As was discussed during the March 5th meeting, while a peace officer dedicated to the site during peak periods would be welcome, the role could also be shared and/or filled with a non-officer so as to ensure consistent and uninterrupted service.[1] Ultimately, we believe that enforcement is the best approach to addressing the issue in the shorter term before summer crowds arrive. It is also an important component of any medium or longer term solutions and strategies, including because any change to access rules and/or amenities will struggle to successfully address the issues without the consistent presence of enforcement, particularly during periods of peak visitor demand.

Opportunities North of the Bridge

In terms of those medium and longer term solutions, we believe now is the moment to invest the time and effort necessary to identify potential alternatives, to determine which approaches might be worth pursuing, and to work towards their implementation. To that end, we have begun to look at potential parking and access improvements along the highway on the north end of the bridge and along Old Coast Road (which we view as more medium term), and at Brazil Ranch on the south end of the bridge (which we view as more longer term), as potential ways to improve safety and help alleviate visitor pressures overall.[2] To be clear, our intent is that only safe parking spaces be used, that only safe pedestrian access is identified, and that unsafe areas be put off-limits to parking and pedestrian access. We recognize that additional time is needed to further flesh out the feasibility and appropriateness of these concepts, including the need for community participation in the planning process, and that any approach will require funding, but we also feel the acute need – as we know you do – to implement solutions as soon as possible. Thus, we are committed to continuing engaged and meaningful discussions and we hope that the ideas below can help to more fully initiate and jump-start that process. We are also not wed or confined to solely these ideas and are fully open to other ideas that might also make sense to explore. In all cases, we want to make clear that we are a ready partner to help the County in all such future planning efforts.

Perhaps the most obvious opportunity area is in the highway shoulder north of the bridge, where there is currently already parallel parking.[3] One option would be to formalize this parking (e.g., with specified demarked spaces), and to more formally identify unsafe parking and close it (e.g., with barriers). It also appears that there is space available to slightly widen the shoulder in some locations to ensure safe parking

[1] Officers have mentioned that even when they do spend time at the bridge, they are spread thin and therefore often have to leave to respond to calls. One idea to address this problem, which we support, is providing for non-officers to assist with traffic, parking, and circulation enforcement, where they would coordinate with law enforcement, and might be able to allow law enforcement time and space to prioritize and respond to emergencies and other needs rather than staying at the bridge all day.

[2] We also continue to believe that remote parking served by shuttle service to high visitation points in Big Sur could be an important complement to any sort of solution, and encourage it to continue to be amongst the potential solutions discussed, even while acknowledging its potential logistical and funding constraints.

[3] See Figure 1, below, that includes various ideas for improvements along the highway and Old Coast Road on the north end of Bixby Bridge.

for formal spaces. Another option in this area is to create formalized diagonal parking at the large pullout on the seaward side of the highway. This could include a 'parking lane' of sorts, running behind the diagonal parking, enabling cars to pull out of the main travel lane prior to parking, and giving cars backing out of parking spots the room they need without backing into the highway.[4] It appears that adequate paved space already exists in this area for options like that, and implementation may be as simple as reconfiguring a section of guardrail and installing pavement striping. It may also be beneficial to couple these kinds of improvements with a formalized lateral path along the highway (e.g., on the seaward side of parking areas) that is connected to highway crossing(s) to better manage pedestrian activity. In addition, while likely more difficult, it may be that portions of the slope on the inland side of the road could be at least partially excavated and space created to make all of these options more doable.

As for Old Coast Road, upon the upcoming expiration of the County's emergency permit that temporarily closed it to parking, one option would be to modify the road as possible to increase usable space, then partially pave it (i.e., the first few hundred yards, not the entire road), and then add formalized spaces, a vehicular turnaround, and pedestrian areas where they can safely be accommodated. A paved entrance to Old Coast Road would also provide the opportunity to replace the cones that currently delineate an entrance and exit to the road with striping and/or permanent delineators more consistent with Big Sur aesthetics. Finally, some form of formalized overlook that provides a view of the backside of the bridge could be created, as that has become one of the prime vantages for visitors, and it may help alleviate some pressure from the seaward overlook area if visitors can park and view the bridge all from the inland side.

Any configuration of pedestrian access at the north end of the bridge would benefit significantly from more formalized pedestrian access areas (e.g., more clearly defining where pedestrians are and are not allowed through things like symbolic fencing, pavement stencils, surfacing material changes, low-profile signage, etc.). In particular, adding a way for pedestrians to cross the highway more safely would have significant benefits. We believe an undercrossing cantilevered from the northern abutment of the bridge[5] would – if feasible – probably be the best option. Surface level crossings and related measures (e.g., a crosswalk, pedestrian crossing lights, even full blown traffic signals) are also worth considering, although the trade off may be that such measures might be inconvenient for drivers (albeit probably not more inconvenient than current conditions, where pedestrian cross the highway at all points, as opposed to being funneled to identified crossing points).

Overall, we realize that some of the ideas for the north end of the bridge outlined above come with serious tradeoffs and some will be, upon further consideration, inappropriate and/or infeasible. The reality of this highly popular and highly constrained site is that any solution will involve tradeoffs, so it is worth at least considering a wide range of ideas, even those with complex or controversial tradeoffs. Our goal in presenting these ideas is to start a focused planning discussion and process that results in collective decisions

[4] Such a configuration is currently effectively employed in a narrow area along Highway 1 at Bonny Doon Beach in Santa Cruz County.

[5] For example, such an undercrossing is currently in place on the north end of the Golden Gate Bridge.

for how to move forward. We also want to make clear that we do not have preconceived notions about one outcome or the other per se, more so that we believe the evaluative exercise is key, where a goal in our view needs to be identifying ways in which we can provide as much safe access as possible.

Opportunities South of the Bridge

With respect to Brazil Ranch, this area may have the potential to help provide alternative means of access that could take pressure off the northern side of the bridge. Brazil Ranch is the property located just south of the bridge, and it is owned by the U.S. Forest Service. As part of a past Coastal Commission Federal Consistency determination for Brazil Ranch, the Commission required various public access improvements at the Ranch, including public parking and trail access on the inland side of the highway, and a blufftop trail seaward of the highway. Similar requirements were also part of the agreement that transferred the Ranch to the Forest Service in the first place. While these improvements were agreed to by the Forest Service and are legally binding, they have to date not been completed, and the Forest Service has been out of compliance on this point for nearly 20 years. We hope to work with the Forest Service to develop and implement this required public access plan and believe that it represents an opportunity for the public to experience Bixby Bridge in a new way. To be clear, the question at hand is not whether access at Brazil Ranch is appropriate – it is legally required by the Commission and the terms under which the Ranch was transferred to the Forest Service in the first place – rather, the question is how to design this access in a manner that can also help address ongoing issues at Bixby Bridge.

Three core issue areas govern whether and how access at Brazil Ranch could provide a safe and effective public access alternative for Bixby Bridge: 1) how to provide locations where the public can get desirable views of Bixby Bridge; 2) how to provide safe and visually unobtrusive parking, trails, and overlooks; and 3) how to encourage the Forest Service to be a champion for a project of this sort, including in terms of potential funding streams. We acknowledge that each of these issues poses a challenge at this location, and we further acknowledge that tradeoffs exist with all potential parking/access options. We have begun exploring potential locations for various components in the preliminary graphics attached to this letter (see Figures 2 and 3 below). The graphics identify several potential alternative parking locations: at existing and/or reconfigured highway pullouts, at the entrance to the Ranch access road, and out of the viewshed by the existing Ranch buildings. Potential new blufftop trails are also shown, which could help provide alternative sightseeing opportunities for Bixby Bridge and the coastline between it and Hurricane Point. Similarly, a new trail and overlook inland of Highway 1 at the Ranch could provide alternative backside bridge views for those who park at the inland Ranch area, although the siting of those overlooks may pose a challenge due to viewshed and private property constraints.

In any case, please understand that these are simply our attempt to outline some ideas for discussion; they are the starting point of a process, not the finished product. We acknowledge that these improvements, were they to be implemented, would alter some views in this important space, and that is something that would require not only a willingness to accept some access-related development in the viewshed, but also extremely thoughtful and sensitive design. Our hope is that these ideas spark a

discussion and collaboration on how to design access at Brazil Ranch, and how such access could provide an alternative means to accommodate public demand for Bixby Bridge visitation.

Commitment to Collaborative Planning

Finally, just to be as clear and transparent as possible, our goal in writing this letter and laying out the ideas discussed above, is to start digging into the substance of the type of collaborative planning process that we believe to be necessary at Bixby Bridge. This bridge is an architecturally beautiful, historically significant, preeminent icon of the California coast. It is a place many visitors want to see, and a destination around which some visitors plan their trips to Monterey and the central coast. For all of these reasons, the ability for visitors to stop and view the bridge, the canyon it traverses, and the dramatic coastline it parallels, holds enormous value. This public access value is protected by both the Big Sur LUP and the Coastal Act. Indeed, the LUP specifically protects views from Bixby Creek turnout[6] to ensure that visitors who stop to view the area can do so without those views being impacted by inappropriate and visually intrusive development.

As discussed above, the current lack of formalized access and enforcement, paired with the intense demand to visit this location, poses public safety and other risks that must be addressed. At the same time, given the extraordinary access value of this location, we are concerned that the closure of all parking near the bridge – even for a temporary period – would be too blunt of a response and would result in significant adverse impacts to public coastal access, raising conformance problems with LCP and Coastal Act public access provisions. We are also concerned that a full parking closure would not successfully address the ongoing safety issues, and would likely come with unintended consequences. Specifically, and because demand to stop and view the bridge is so acute, particularly in peak periods, people would still find ways (whether legal and safe or not) to access the area, including stopping in highway travel lanes and parking elsewhere along the highway and walking significant distances along the unprotected highway shoulder and over the narrow bridge. Similar circumstances currently pose serious safety issues at Point Lobos (for which similar collaborative planning processes are underway). We therefore believe, consistent with the Coastal Act and LCP requirements on this issue, that the better solution is to better manage access rather than seek to eliminate it.

We understand that many of the ideas discussed in this letter will take time and collaborative effort to discuss, debate, tweak as necessary, and ideally to implement, and all of the ideas discussed will require funding. We hope you will consider us a ready and willing partner ready to rise to and contend with the challenges here. We also recognize that there are likely to be competing ideas, and we welcome thoughtful examination of other options as well, just as we want others to thoughtfully look at the ideas presented above. It is going to take that kind of open and transparent process and commitment, with interested parties seeking common goals, for this to work.

[6] See Big Sur LUP Policy 3.2.2.1 (Critical Viewshed Definition).

In closing, we want to thank you for your continuing commitment to tackling this important issue in a collaborative way. We recognize the difficult choices and sometimes competing objectives at Bixby Bridge, and we remain fully committed to helping be a solutions-oriented teammate here. Of course, and as you are well aware, this will take similar commitments – including a commitment to approach issues and potential solutions with an open and inquisitive mind – by other key partners, including Caltrans, the Forest Service, and the Big Sur community, and we look forward to that dialogue.

Sincerely,

Bixby Bridge: CCC Letter

California Coastal Commission letter dated March 20, 2026 | Analysis based on the Big Sur Land Use Plan and California Coastal Act

CCC Letter / Citation	Planning Documents / Citation
Enforcement: Stepped-up parking and traffic enforcement needed immediately, ideally a dedicated presence during peak periods. No LUP policy or Coastal Act section cited.	This is a reasonable action consistent with the Land Use Plan. **LUP Policy 2.2.4. Basic Objectives and Policies.** All proposed uses, whether public or private, must meet the same exacting environmental standards and must not degrade the Big Sur landscape.
Formalize existing parallel parking north of bridge with demarked spaces and barriers. *Coastal Act Section 30212.5* requires public parking facilities be distributed throughout an area to mitigate overcrowding or overuse of any single area.	**LUP Policy 3.2.1 (Key Policy)** prohibits all development visible from Highway 1, including public projects. **LUP Policy 3.2.3.E** requires new parking facilities to be at off-highway locations and states that land acquired for viewshed protection "shall NOT be developed for parking or visitor serving facilities." Formalizing informal parking is still development. **CIP Section 20.145.030** adds that "landscaping, berming, or mounding shall not be utilized to screen development which would otherwise be within the critical viewshed," closing off any mitigation argument. **BSCAC Design Guidelines** further specify that "no parking should be allowed or possible within 10 feet of the edge of traffic lanes."
Diagonal parking at seaward pullout, with a circulation lane behind it. *Coastal Act Section 30212.5* requires public parking facilities be distributed throughout an area to mitigate overcrowding or overuse of any single area.	**LUP Policy 3.2.3.E** explicitly states that "the creation of new parking lots between Highway One and the ocean shall be avoided wherever possible." A new diagonal parking configuration with a circulation lane is precisely the type of facility this language prohibits. **BSCAC Design Guidelines** additionally require that "no parking should be allowed or possible within 10 feet of the edge of traffic lanes," a standard that the proposed seaward pullout configuration would need to satisfy and likely cannot.
Widen highway shoulder / excavate inland slope to create more parking room. No LUP policy or Coastal Act section cited.	**LUP Policy 3.2.3.A.4** expressly prohibits grading or excavation that would intrude upon the critical viewshed. Excavating the inland slope for parking is a direct violation of this provision. **CIP Section 20.145.030** further states that where a project cannot be redesigned to avoid the critical viewshed, "the site shall be considered environmentally inappropriate for development" — stronger language than the LUP alone.

Partially pave Old Coast Road, add formalized parking spaces, a vehicular turnaround, and a new inland overlook. No LUP policy or Coastal Act section cited.	**LUP Policy 3.2.1** prohibits all development visible from Highway 1. **LUP Policy 3.2.3.E** prohibits new parking facilities in the viewshed. A constructed overlook is a structure subject to the same prohibition. Old Coast Road is specifically named in **LUP Policy 3.2.2.1** as part of the critical viewshed definition, making any new construction there doubly problematic. **CIP Section 20.145.030** further prohibits using landscaping, berming, or mounding to screen development that would otherwise be in the viewshed, precluding the kind of design mitigation that might otherwise make an overlook approvable. The **BSCAC Design Guidelines** describe vista pullouts as places of "quiet and solitude" — a character standard that formalized parking and a vehicular turnaround would not meet.
Pedestrian undercrossing cantilevered from the northern bridge abutment as preferred option. No LUP policy or Coastal Act section cited.	**LUP Policy 3.2.3.H** provides the only viewshed exception for public access improvements, limited to "minimal public access improvements on the beach along shoreline lateral accessways, such as litter collection facilities and rustic stairways." A cantilevered undercrossing does not qualify under this narrow exception. **LUP Policy 6.1.5.E.2** states that viewshed compatibility "may limit the establishment of access improvements." Additionally, Bixby Creek Bridge is a County-designated historical site under **CIP Section 20.145.020.TT,** meaning any construction attached to or immediately adjacent to the bridge abutment would require a separate historical resource evaluation before any permit could be considered.
Surface crossings, crosswalk, or traffic signals as alternative pedestrian improvements. No LUP policy or Coastal Act section cited.	**LUP Policy 3.2.1** applies to structures and improvements visible from Highway 1. Signal infrastructure would be visible from the highway. Any such improvements require a finding under **LUP Policy 3.2.3.H** that no alternative exists and no significant adverse visual impact will result, a high bar that has not been analyzed.
Brazil Ranch (south of bridge, USFS-owned): Public access improvements including parking and blufftop trails are legally required by a past Coastal Commission Federal Consistency determination and the terms of the Ranch	Legally obligated access improvements must comply with the LUP. **LUP Policy 6.1.3** states that preservation of the natural environment is the "highest priority" and that "all future access must be consistent with this objective."

transfer, yet unbuilt for nearly 20 years. No LUP policy or Coastal Act section cited.	**LUP Policy 6.1.5.E.2** requires that parking facilities and access improvements be compatible with "strict viewshed protection." A prior federal consistency determination does not override the certified LUP.
Full parking closure would violate Coastal Act and LCP public access provisions. *Coastal Act Section 30210* requires "maximum access" for all people. Section 30210 also qualifies this with "consistent with public safety needs and the need to protect public rights...and natural resource areas from overuse," though the CCC does not emphasize this qualification.	**LUP Policies 3.2.1 and 6.1.3** make viewshed protection the paramount objective; the LUP does not require that access demand be satisfied through new construction. *Coastal Act Section 30212* expressly allows access requirements to be excepted where access is "inconsistent with...the protection of fragile coastal resources," providing statutory support for limiting parking construction. *Coastal Act Section 30007.5* further provides that where Coastal Act policies conflict, the resolution must be "the most protective of significant coastal resources" — scenic resources and fragile coastal resources are equally legitimate coastal resources under the Act, and public access is not the trump card.
LUP Policy 3.2.2.1 protects views from Bixby Creek turnout, therefore visitor access has significant public value that must be preserved.	**LUP Policy 3.2.2.1** defines the critical viewshed to include Bixby Creek Turnout, which activates the prohibition in **LUP Policy 3.2.1** against any development visible from that location.
Better to manage access than eliminate it, consistent with Coastal Act and LCP. *Coastal Act Section 30214* explicitly authorizes managing access by regulating "time, place, and manner," and specifically mentions protecting aesthetic values as a factor in doing so.	"Managed access" does not require or justify new parking infrastructure or overlook construction that the LUP expressly prohibits. Section 30214's authorization to consider aesthetic values in managing access actually supports strict viewshed protection, not construction in the viewshed. Enforcement, shuttle service, and demand management are LUP-consistent tools for managing access without building in the viewshed. *Coastal Act Section 30007.5* requires that policy conflicts be resolved in the manner "most protective of significant coastal resources" — the certified LUP's viewshed protections must be respected alongside any access obligations.

ORDINANCE NO. _____

AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, AMENDING SECTION 12.28.010 OF THE MONTEREY COUNTY CODE TO PROHIBIT PARKING AT ALL TIMES ON STATE HIGHWAY 1, NEAR BIXBY BRIDGE

County Counsel Summary

This ordinance is for the protection of the public peace, health, and safety of Monterey County residents and visitors to prohibit parking along State Highway 1, near Bixby Bridge. With limited space for stopping and parking and an increasing visitor demand that often exceeds the limited space, first responders, residents and visitors have recently observed an increase in the frequency of motorists making sudden stops and turns in the on Highway 1, parking vehicles on the Highway 1 in a manner that impedes traffic, and significant numbers of pedestrians crossing the highway in an unsafe manner to enjoy the views. These conditions place visitors, residents, motorists, and pedestrians in danger through an increase in the potential for collisions and by delaying emergency response times due to congestion. This ordinance amends Section 12.28.010 of the Monterey County Code to prohibit parking along State Highway 1, from approximately 900 feet north of the north abutment of Bixby Bridge (Caltrans Post Mile 59.64) to approximately 700 feet south of the south abutment of Bixby Bridge (Caltrans Post Mile 59.25), for a period of 12-months after the signage is installed.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. PURPOSE AND FINDINGS.

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens.

B. California Vehicle Code section 22506 authorizes the County to enact regulations by ordinance to prohibit or restrict parking of vehicles on a state highway within the County's jurisdiction, if the ordinance is first submitted to and approved by the State Department of Transportation ("Caltrans").

C. In response to community concerns, Supervisorial District 5 prepared Board Referral No. 2026.08 seeking to implement a 12-month moratorium on parking in the immediate vicinity of Bixby Bridge on State Highway 1, in advance of the Memorial Day weekend start of the summer season. This action responded to longstanding and well-documented public safety hazards at this location.

D. During the Labor Day weekend of 2022, concerned constituents collected data and recorded up to 325 pedestrian highway crossings per hour on the north side of Bixby Bridge. On September 4 of that weekend, vehicle activity peaked at 70 complete stops in the roadway per hour. Additional counts from September and October of that year showed Sunday afternoon averages of 108 pedestrian crossings per hour, 38 complete stops in the travel lane per hour, and 12 vehicles per hour parked over the fog line.

E. On January 15, 2026, the final 6.8-mile stretch at Regent's Slide in Monterey County reopened, which fully reopened Highway 1 from San Luis Obispo County to Monterey County. According to Visit California, visitation has surged significantly since the roadway reopened. Northbound traffic at Ragged Point has grown more than 900% year-over-year, clear evidence of restored access and pent-up demand for travel to this iconic coastal corridor.

F. During the spring 2026, traffic congestion at key Big Sur chokepoints – including Bixby Bridge, Point Lobos, and Soberanes – reached unprecedented levels according to concerned constituents and law enforcement. These conditions continue to heighten risks to visitor and resident safety, emergency access, and sensitive natural resources.

G. With limited space for stopping and parking and an increasing visitor demand that often exceeds the limited space, first responders, residents and visitors have recently observed an increase in the frequency of motorists making sudden stops and turns in the on Highway 1, parking vehicles on the Highway 1 in a manner that impedes traffic, and significant numbers of pedestrians crossing the highway in an unsafe manner to enjoy the views. These conditions place visitors, residents, motorists, and pedestrians in danger through an increase in the potential for collisions and by delaying emergency response times due to congestion.

H. In March 2026, Supervisor Daniels met with California Coastal Commission ("CCC") staff to explore potential management strategies for Bixby Bridge. While staff provided a follow-up letter on March 20, staff did not identify actionable near-term solutions or funding strategies to address the immediate hazards expected this summer.

I. Considering ongoing safety concerns and the need for an immediate, practical response, Referral No. 2026.08 proposed adoption of a temporary No Parking ordinance on Highway 1 near Bixby Bridge, complementing the existing Old Coast Road No Parking restrictions. The measure would provide short-term protection for public safety while allowing for continued coordination with CCC staff on longer-term management approaches.

J. On May 19, 2026, Public Works, Facilities and Parks ("PWFP") staff provided the Board of Supervisors a preliminary analysis report in response to said Board referral. At the meeting, the Board provided direction to staff to pursue the path of acquiring an Emergency Coastal Development Permit ("ECDP"), while concurrently preparing an ordinance for no parking for consideration by the Board, followed by applying for a Caltrans Encroachment Permit for placing the signage on Highway 1. Thereafter, the moratorium would be implemented for a 12-month period, and the ECDP would be supplanted by consideration of a regular Coastal

Development Permit ("CDP"). The follow-up permit would involve exploration of options for parking and access long-term.

K. Given all of above, it is necessary and appropriate for the protection of the public peace, health, and safety of Monterey County residents and visitors to prohibit parking along State Highway 1 on both sides near Bixby Bridge, from approximately 900 feet north of the north abutment of Bixby Bridge (Caltrans Post Mile 59.64) to approximately 700 feet south of the south abutment of Bixby Bridge (Caltrans Post Mile 59.25).

L. After the 12-month prohibition period, County staff will return with a regular CDP application. Moreover, the County will explore other options for parking and access long-term.

M. The adoption of the ordinance is statutorily exempt under the California Environmental Quality Act pursuant to Section 15269(c) of the CEQA Guidelines because the action will involve specific actions necessary to prevent or mitigate an emergency. Specifically, temporarily prohibiting parking in a limited area near Bixby Bridge given increasing concerns for impacts to visitor and resident safety, emergency access, and sensitive natural resources.

SECTION 2. Section 12.28.010 of the Monterey County Code is amended by adding to that section the following street location:

State Highway 1, on both sides, from approximately 900 feet north of the north abutment of Bixby Bridge (Caltrans Post Mile 59.64) to approximately 700 feet south of the south abutment of Bixby Bridge (Caltrans Post Mile 59.25). This prohibition shall be in effect for a twelve (12) month period after installation of the signage.

SECTION 3. OTHER ACTIONS.

County staff are authorized and directed to take such other and further actions as may be necessary or appropriate to implement the intent and purposes of this ordinance including the posting of appropriate signage in and around the described locations.

SECTION 4. SEVERABILITY.

If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

SECTION 5. EFFECTIVE DATE.

This ordinance shall become effective on the thirty-first day following its adoption. The parking restriction enacted by this ordinance will not become operative unless and until approved by the State Department of Transportation.

a. Receive a presentation and status update on the evaluation efforts related to potential 2026 revenue measures, including a Property Transfer Tax (PTT) and a potential increase to the Transient Occupancy Tax (TOT);
b. Provide direction to staff on whether to proceed with development of one or both measures for potential placement on a future ballot; and

SUMMARY/DISCUSSION

On March 17, 2026, the Board received the first follow-up report responding to Board Referral No. 2026.01 (Daniels), which directed staff to evaluate the feasibility of a special real estate transfer tax applied to ultra-high-value residential property transactions. That discussion included:

- Consideration of a $10 million threshold and potential adjustment to a $5 million threshold;
- Preliminary assessment of market impacts, policy structure, and legal parameters; and
- Direction to return with additional analysis.

On April 7, 2026, staff returned with expanded evaluation, including threshold alternatives, revenue projections, comparable jurisdiction experience, and recommendations to conduct public opinion polling on both a potential Property Transfer Tax (PTT) and a complementary increase to the Transient Occupancy Tax (TOT) in unincorporated Monterey County.

Consistent with the Board's direction, the County engaged EMC Research to conduct a statistically valid feasibility survey of likely November 2026 voters in the unincorporated areas. The May 2026 Feasibility Survey is now complete. Results indicate strong support for a TOT increase to the general tax, and mixed insufficient support for a new PTT special tax.

The survey was conducted April 27 through May 4, 2026, using a mixed mode approach, including telephone (landline and mobile) interviews conducted by trained interviewers, as well as email and text-to-web responses. A total of 500 likely November 2026 voters residing in the unincorporated areas of Monterey County participated.

Transient Occupancy Tax - Feasibility Findings

Polling results indicate consistently strong support for a potential TOT general tax increase. Initial support measured approximately 59 percent already exceeding the simple majority required for passage. After respondents received additional information about the measure's purpose and implications, support increased further, reaching nearly two-thirds. Across all stages of the survey, approval ranged from the high 50s to the mid-60s, demonstrating durable voter support. The polling was done based on an increase in TOT by 2%, increasing from 10.5% to 12.5%.

Property Transfer Tax - Feasibility Findings

Survey findings indicate a more challenging path for a PTT special tax. Initial support measured approximately 51 percent, below the two-thirds threshold required for a special tax under state law. Although support increased modestly with additional information, it did not approach the required two-thirds level at any point. Support fluctuated between the low 50s and high 50s throughout the survey period, suggesting that even with strengthened messaging, the PTT measure is unlikely to achieve feasible passage as a special tax. The polling was based on a 3% property transfer tax for ultra-high value properties above $10 million.

Based on polling results and prior Board deliberations, staff recommends moving forward with a TOT revenue measure and that the Board consider alternatives to a PTT special tax, including potentially exploring the PTT as a general tax, which requires only a simple majority.

Next Steps

If the Board elects to proceed with one or both measures, staff will:

- Conduct refined fiscal and economic modeling;
- Prepare draft ordinances and ballot materials for County Counsel review;
- Develop a full implementation timeline, including key election deadlines;

- Coordinate legally compliant educational public information materials; and
- Return to the Board on July 7, 2026 for final review and direction on ballot placement.

The feasibility survey indicates that a TOT increase presents a viable path forward, while a PTT measure would require significant structural modification or substantially increased voter education to meet required support levels. This report seeks Board direction on how to proceed with both revenue initiatives.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of the County Counsel, Assessor-County Clerk-Recorder's Office, Housing and Community Development, County Administrative Office, and District 5 Supervisor Office have been involved in this process.

FINANCING:
Polling and strategic analysis to this point have been funded through the previously authorized $83,500 allocation for consultant services. If the Board approves the potential revenue measures to proceed, an additional $20,000 will be required, funded through contingency. If the TOT ballot initiative is supported by voters, it is estimated it will generate $7.6 million in additional revenue annually. Property Transfer Tax is estimated to generate approximately $5 million annually.

Tax Measures Feasibility Survey
County of Monterey
Unincorporated Areas
Executive Summary
June 9, 2026

EMC research

Methodology

- Survey of likely November 2026 voters in Unincorporated Monterey County
- Survey conducted April 27 – May 4, 2026 in English and Spanish
- Mixed mode telephone and web (email-/text-to-web) methodology
  - Phone interviews conducted by trained, professional interviewers; landlines and mobile phones included
  - Email and text invitations were sent with a link to an online survey
- 500 interviews; overall margin of error ±4.4 percentage points
  - Split Sample: 250n interviews in each split, MOE = ±6.2 percentage points
- Where applicable, results compared with the following:

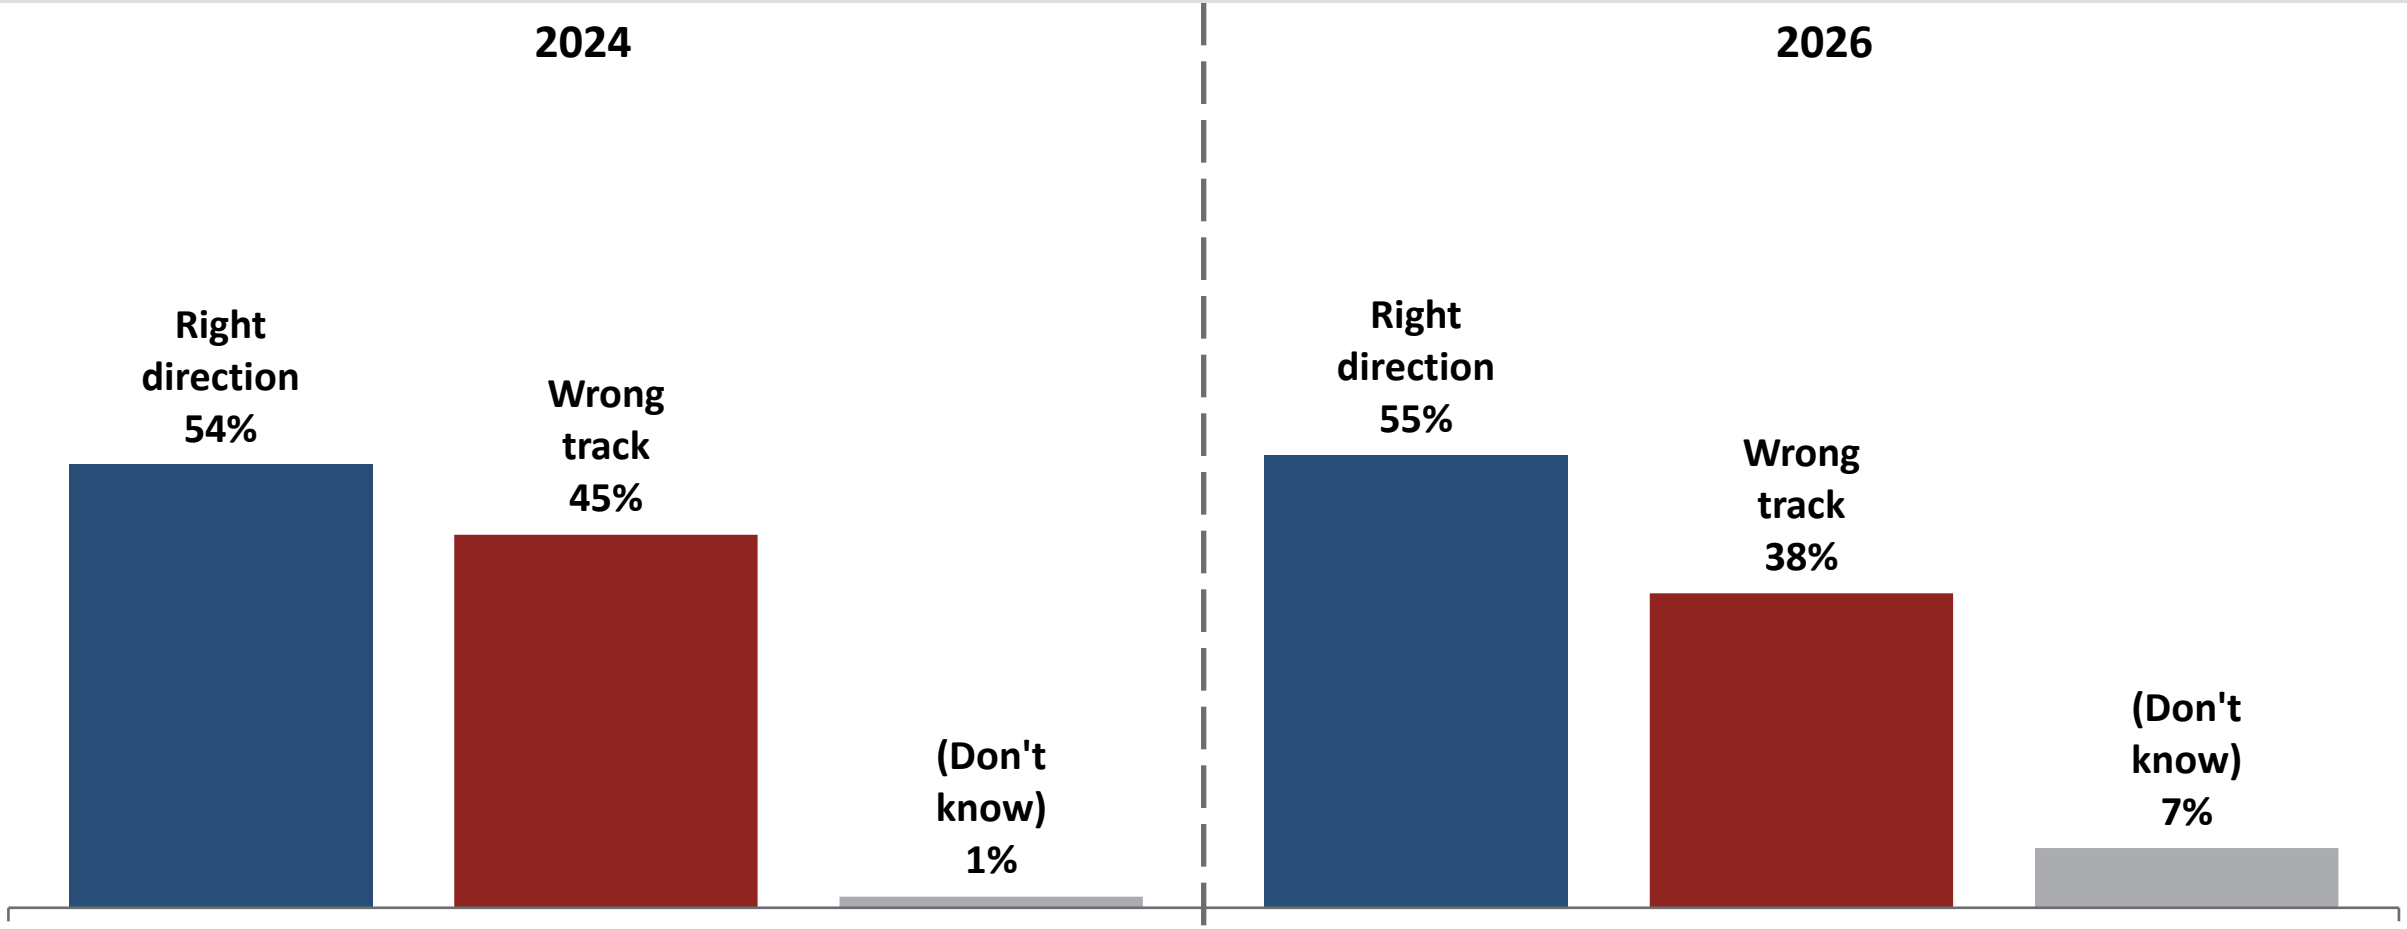
Methodology	Dates	Universe	Sample Size	Margin of Error	EMC #
Mixed mode web/phone	May 16 – 23, 2024	Likely Nov. 2024 Voters	600 overall 195n in uninc. areas*	Overall: ±4.0 % points Uninc.: ±7.0 % points	24-9333

**Throughout, results from 2024 are shown only among respondents in unincorporated Monterey County*

Please note that due to rounding, some percentages may not add up to exactly 100%.

Key Findings

- Voter mood is similar to 2024, with most voters in unincorporated Monterey County aware of the County's need for additional funding, but relatively high sensitivity to taxes.
- Currently, a transient occupancy tax (TOT) increase is supported by about six-in-ten voters in the county, above the majority threshold for passage.
- A dedicated property transfer tax (PTT) on single-family sales over $10 million is more divisive, with about half of voters initially supportive. Support increases when voters are given more information, but does not reach the two-thirds majority needed for passage of a special tax.
- Both measures show some vulnerability to general opposition around government spending, but most voters do not believe the measures would deter tourists or home buyers.

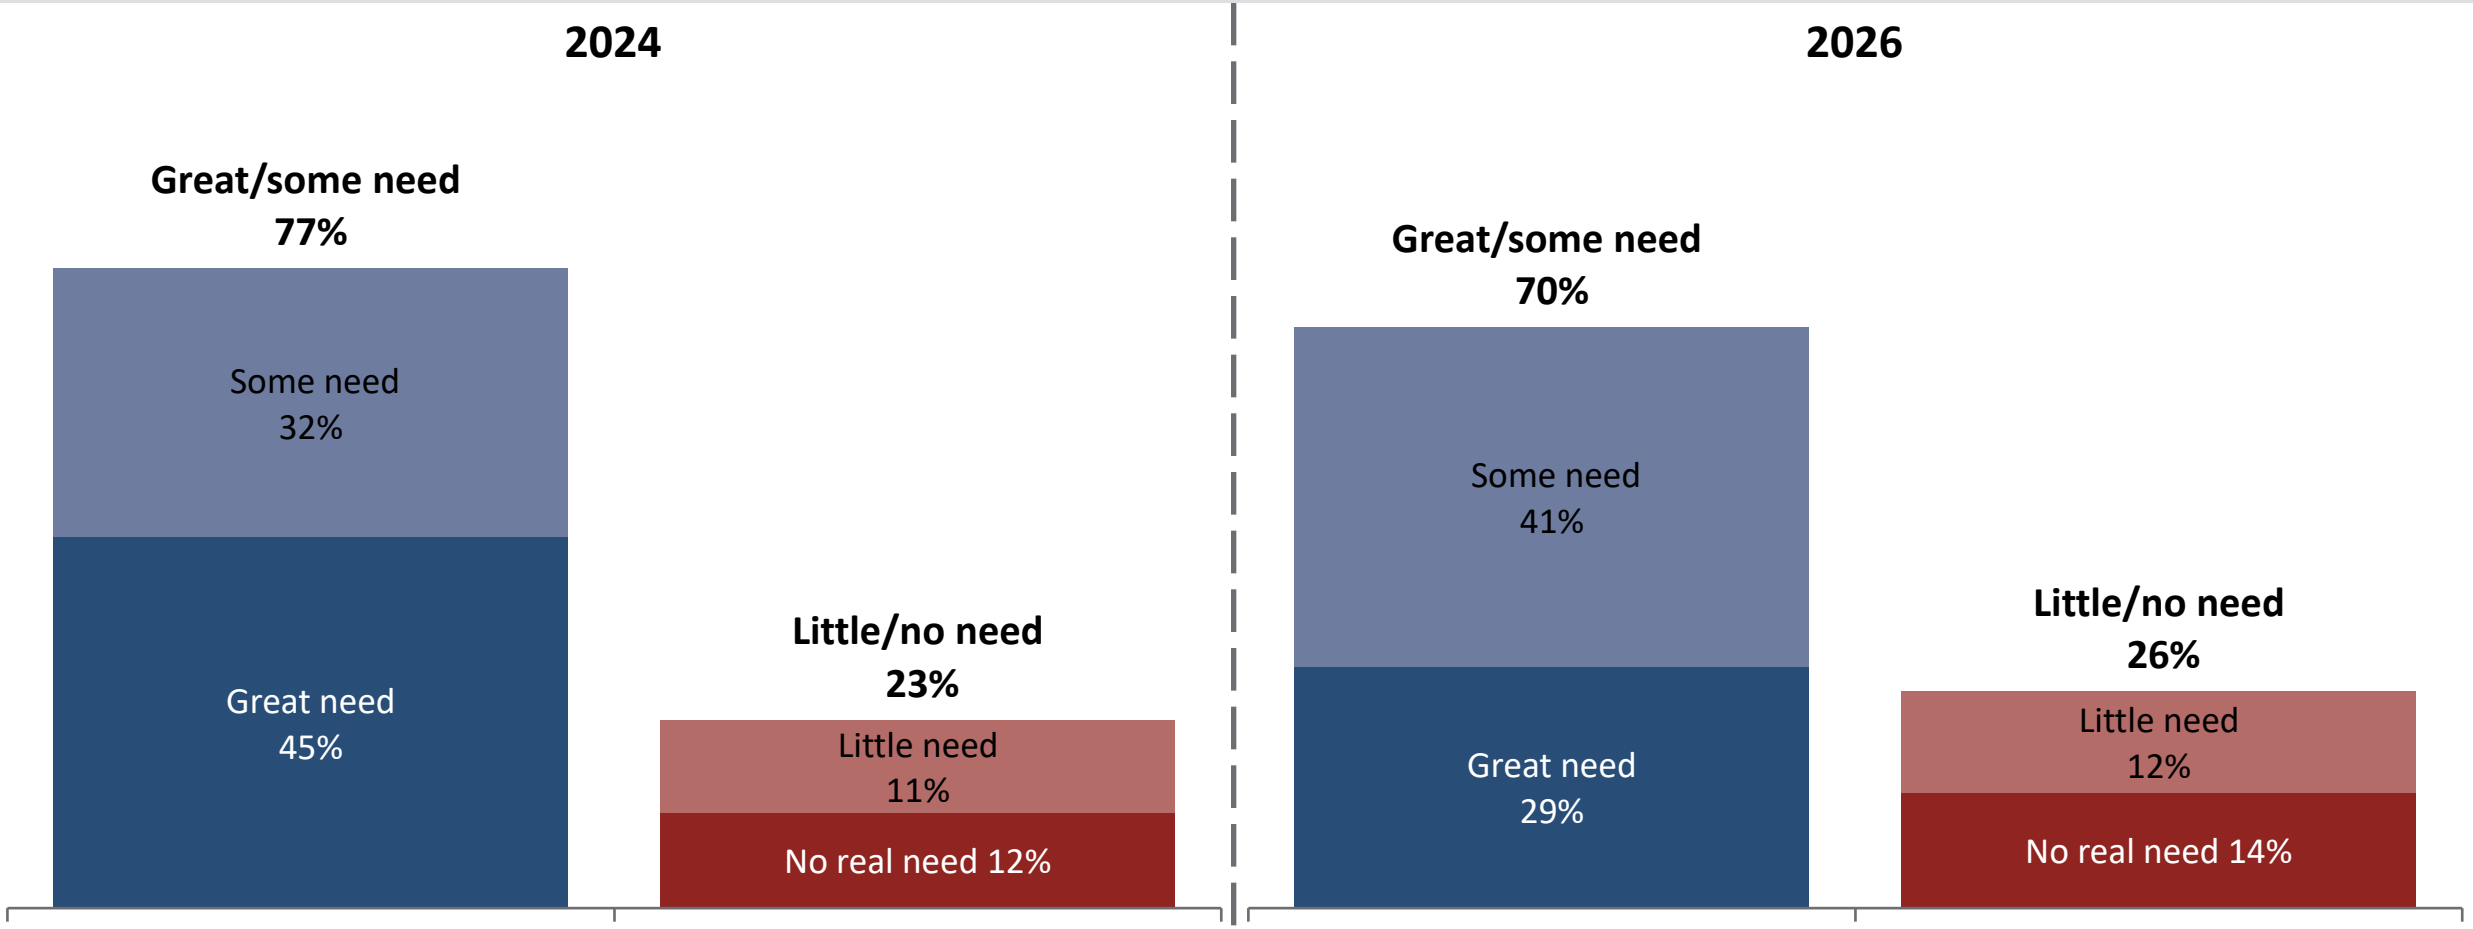


Issue Environment

Right Direction/Wrong Track

Just over half of voters in unincorporated Monterey County are optimistic about the direction of the county.

Do you feel that things in Monterey County are generally going in the right direction or do you feel things have gotten pretty seriously off on the wrong track?

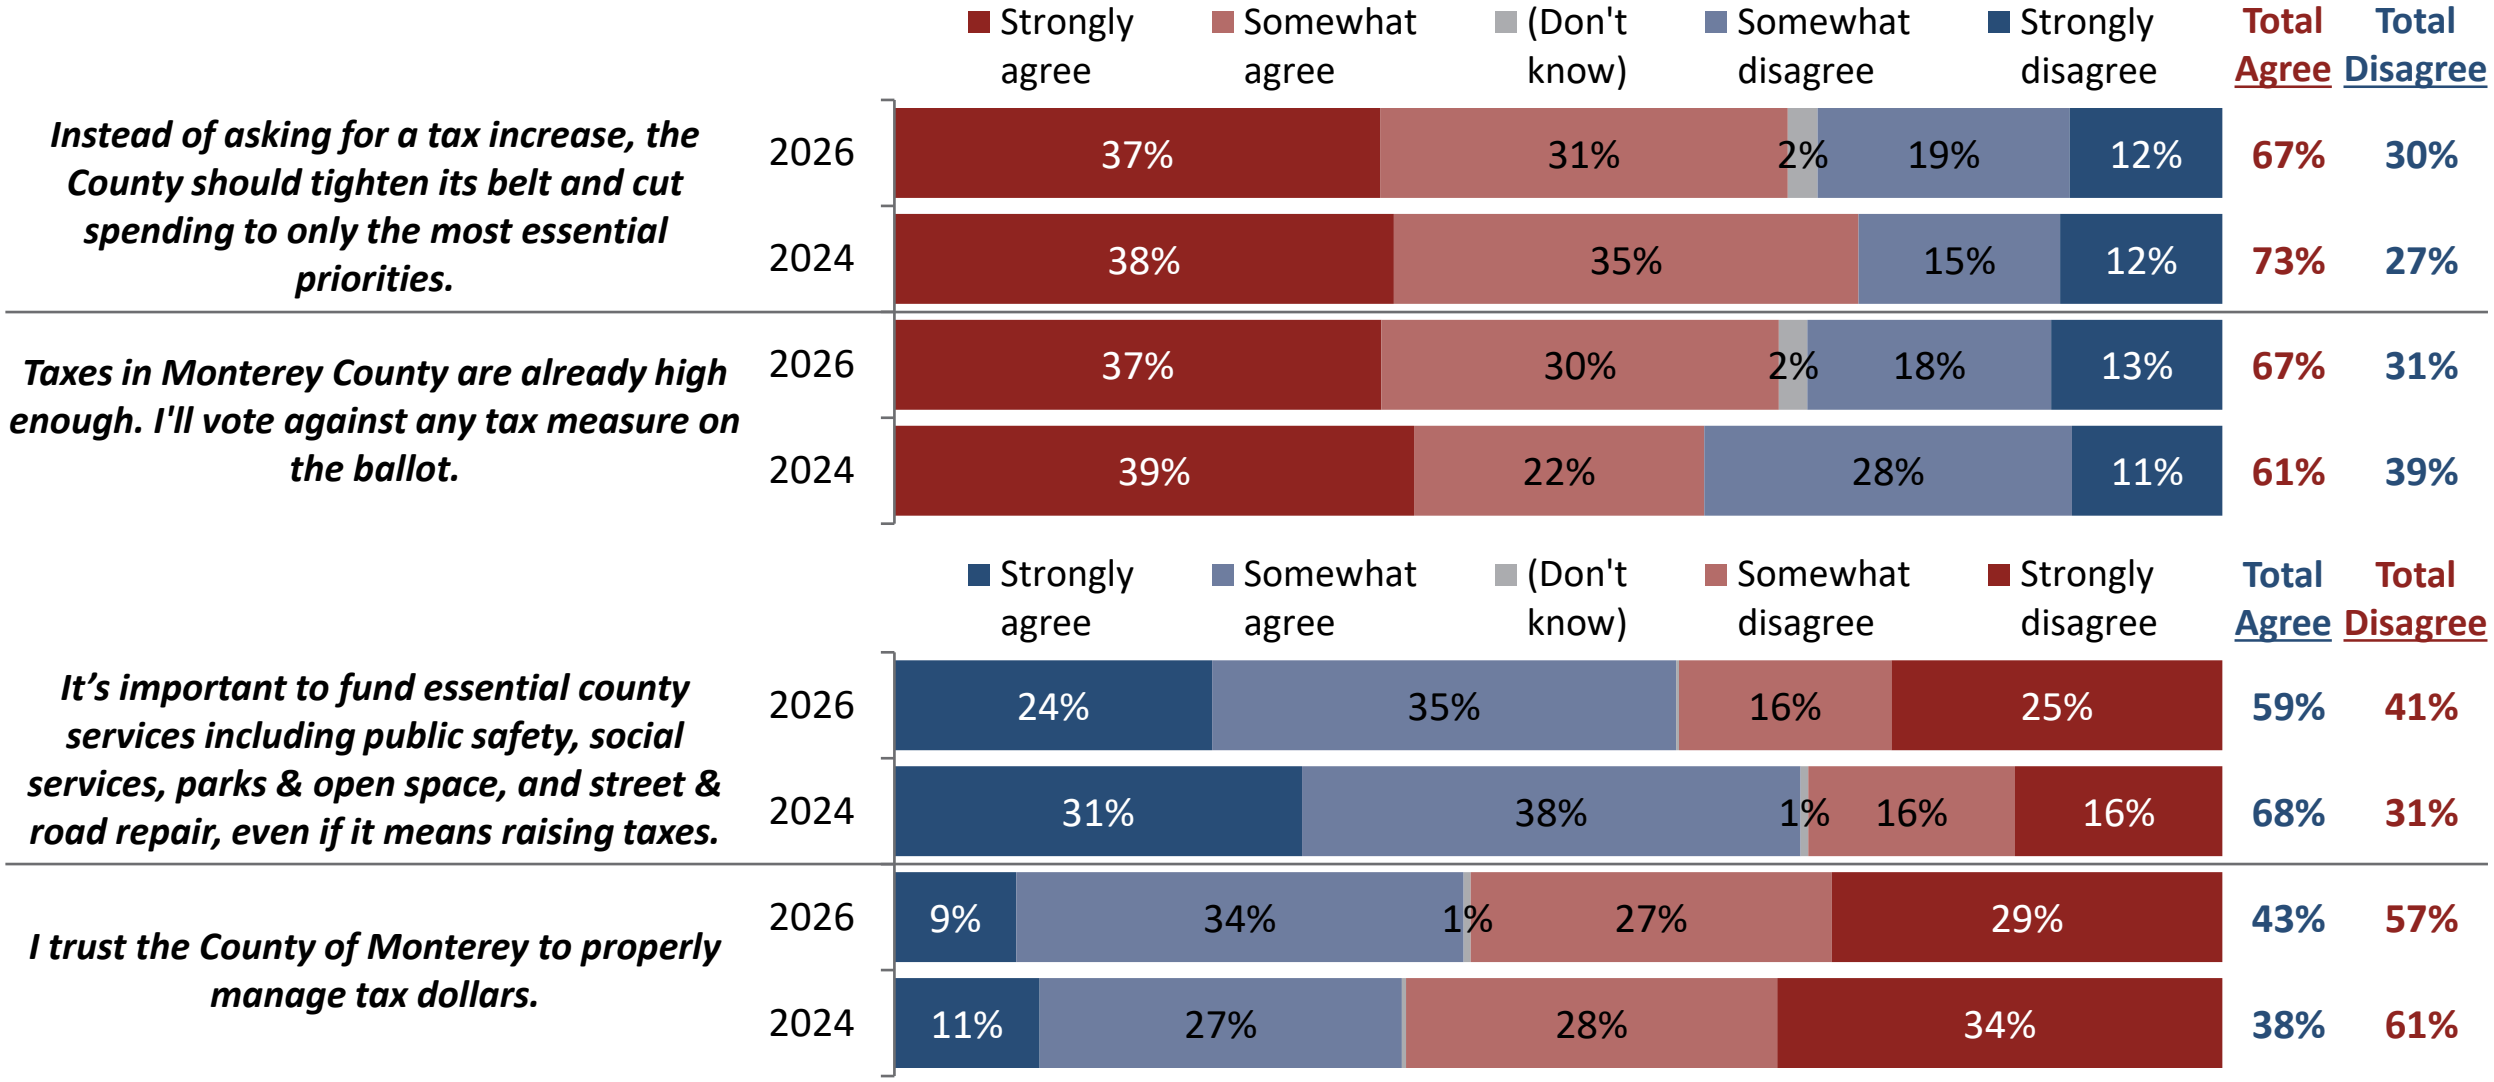


Q3.

Note: 2024 n=195, MOE ±7.0 % points

Need for Funds for County Services

Most voters continue to be aware of the County's need for funds for services.



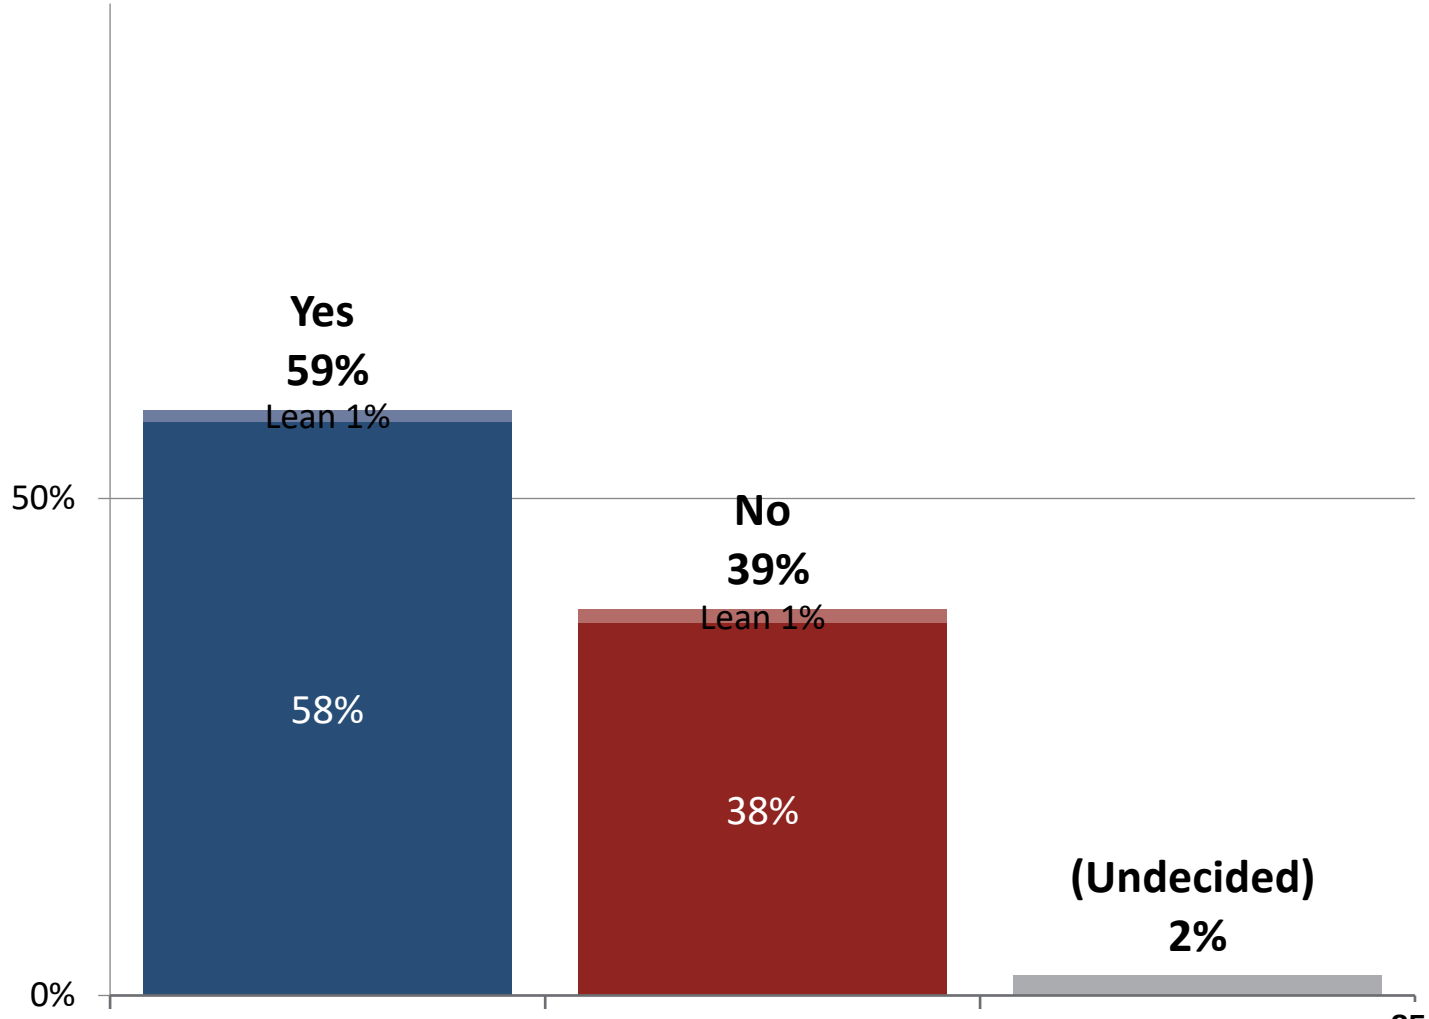
Would you say that the County of Monterey has a great need, some need, little need, or no real need for more money for county services including public safety, social services, parks and open space, and street and road repair?

Q4.

Tax Sensitivity and Trust

While there is relatively high tax sensitivity, a majority of voters continue to say it is worth raising taxes for county services.

Q7-10. Please indicate whether you agree or disagree with the following statements.



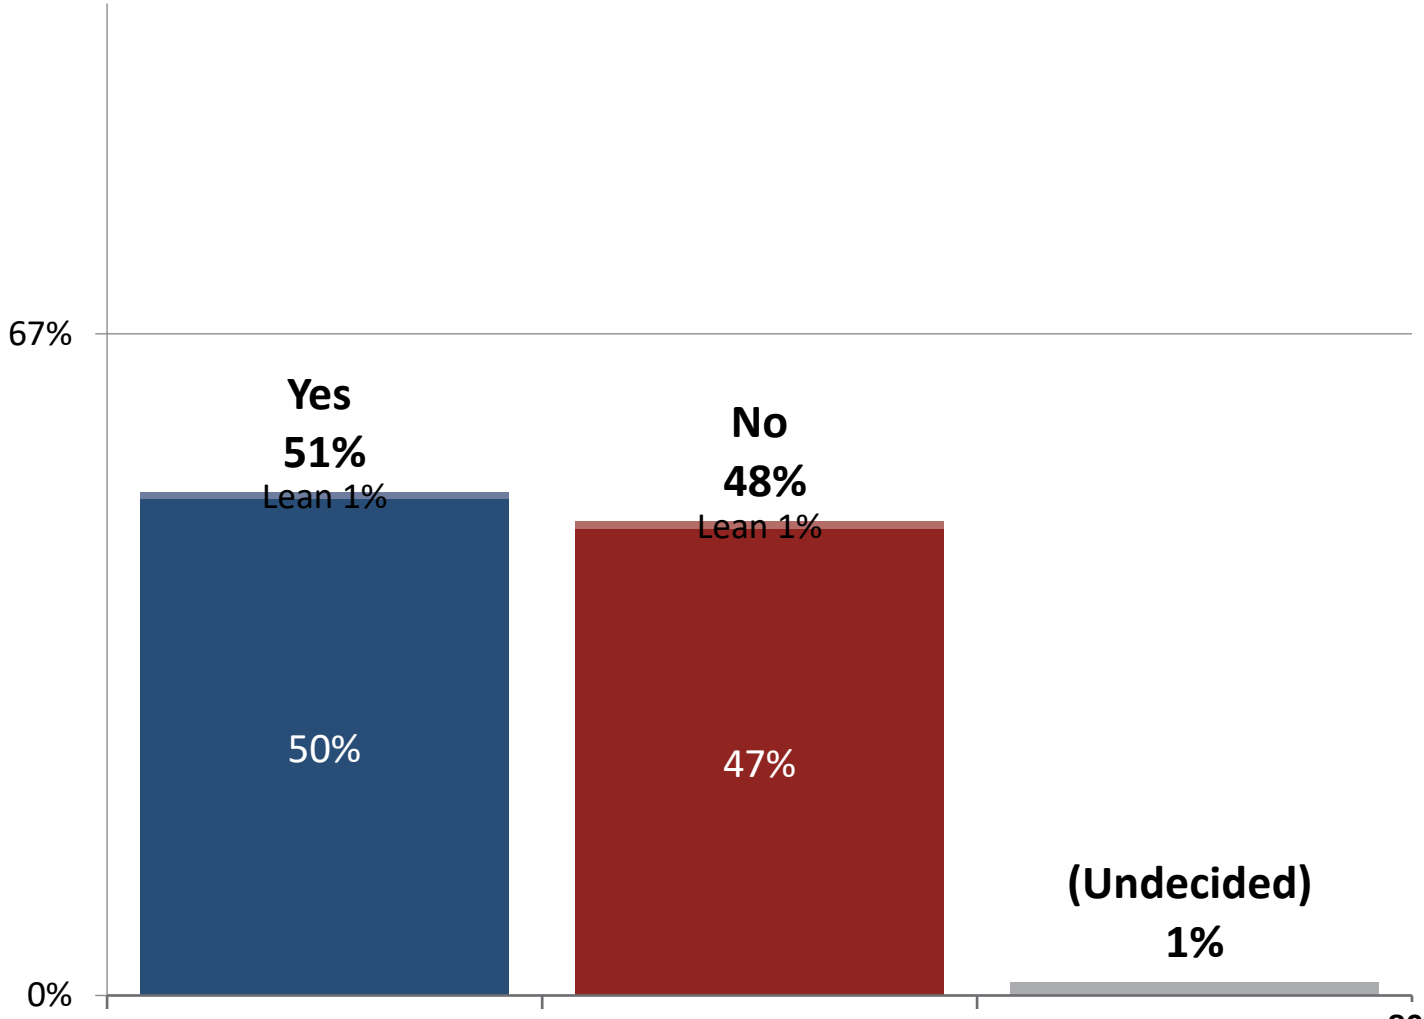
Ballot Measures

TOT Initial Vote

Initial support for a TOT increase is above the majority threshold.

Next, you will see a measure that may appear on the ballot in Monterey County. The measure reads:

To fund essential County of Monterey services, including street maintenance and pothole repair; programs to reduce homelessness; water and sewer infrastructure maintenance; healthcare; improved public safety and emergency services; libraries, County parks, and recreation facilities; job skill development programs, and other general county services, shall the County of Monterey increase its existing Transient Occupancy Tax in unincorporated areas from 10.5% to 12.5%, paid only by hotel/lodging guests, providing approximately $7,600,000 annually, until ended by voters?



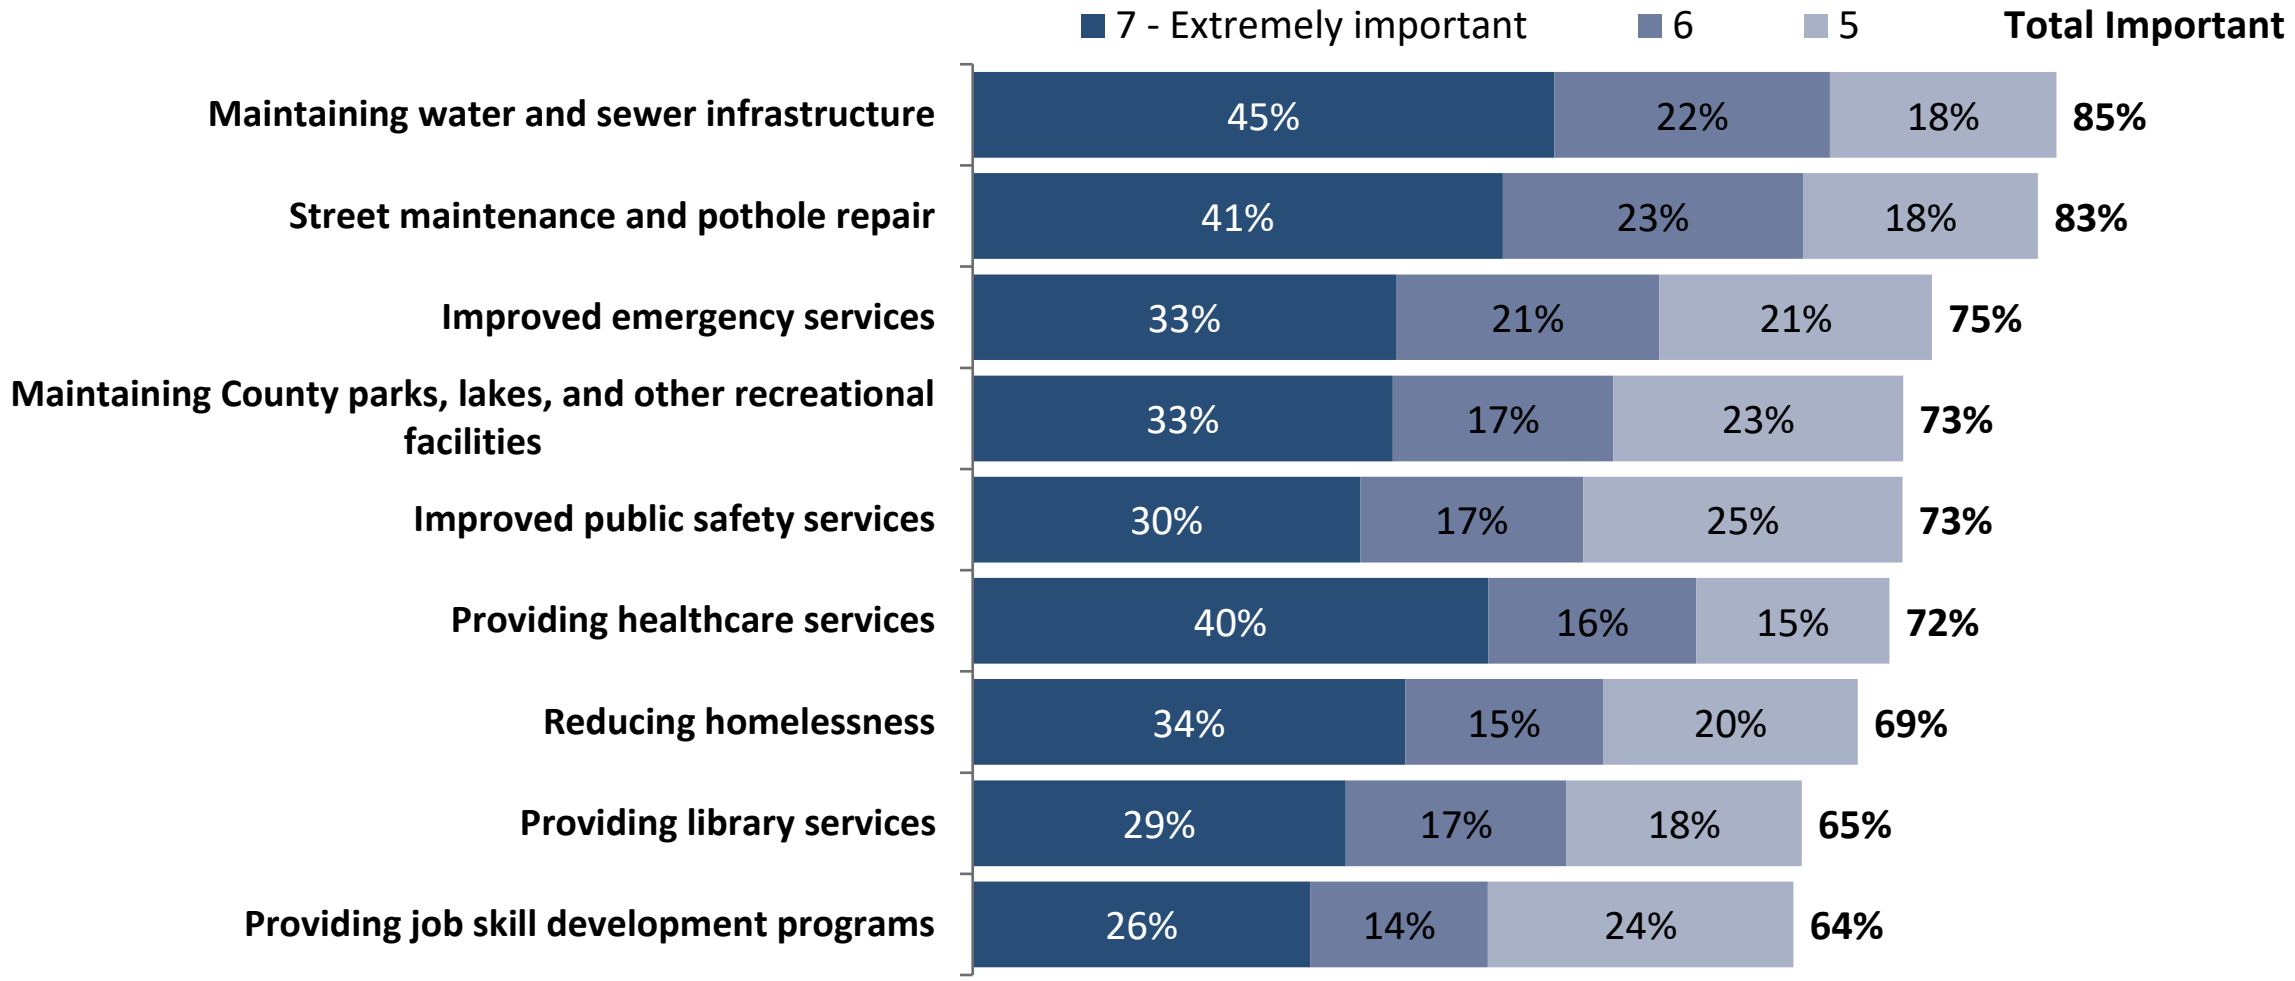
Q5. If the election were held today, would you vote yes to approve or no to reject this measure?

PTT Initial Vote

Support for the property transfer tax measure is just around fifty percent, well under the two-thirds threshold needed for a special tax.

Next, you will see a measure that may appear on the ballot in Monterey County. The measure reads:

To fund programs to create housing that is affordable for Monterey County families, teachers, first responders, and other local workers; provide first-time homebuyer down-payment assistance; and preserve existing housing that is affordable for middle-income workers; shall the County of Monterey measure enacting a 3% property transfer tax in unincorporated Monterey County only on single-family residential property sales over $10,000,000, generating about $6,000,000 in local funding annually until ended by voters, with independent audits, be adopted?

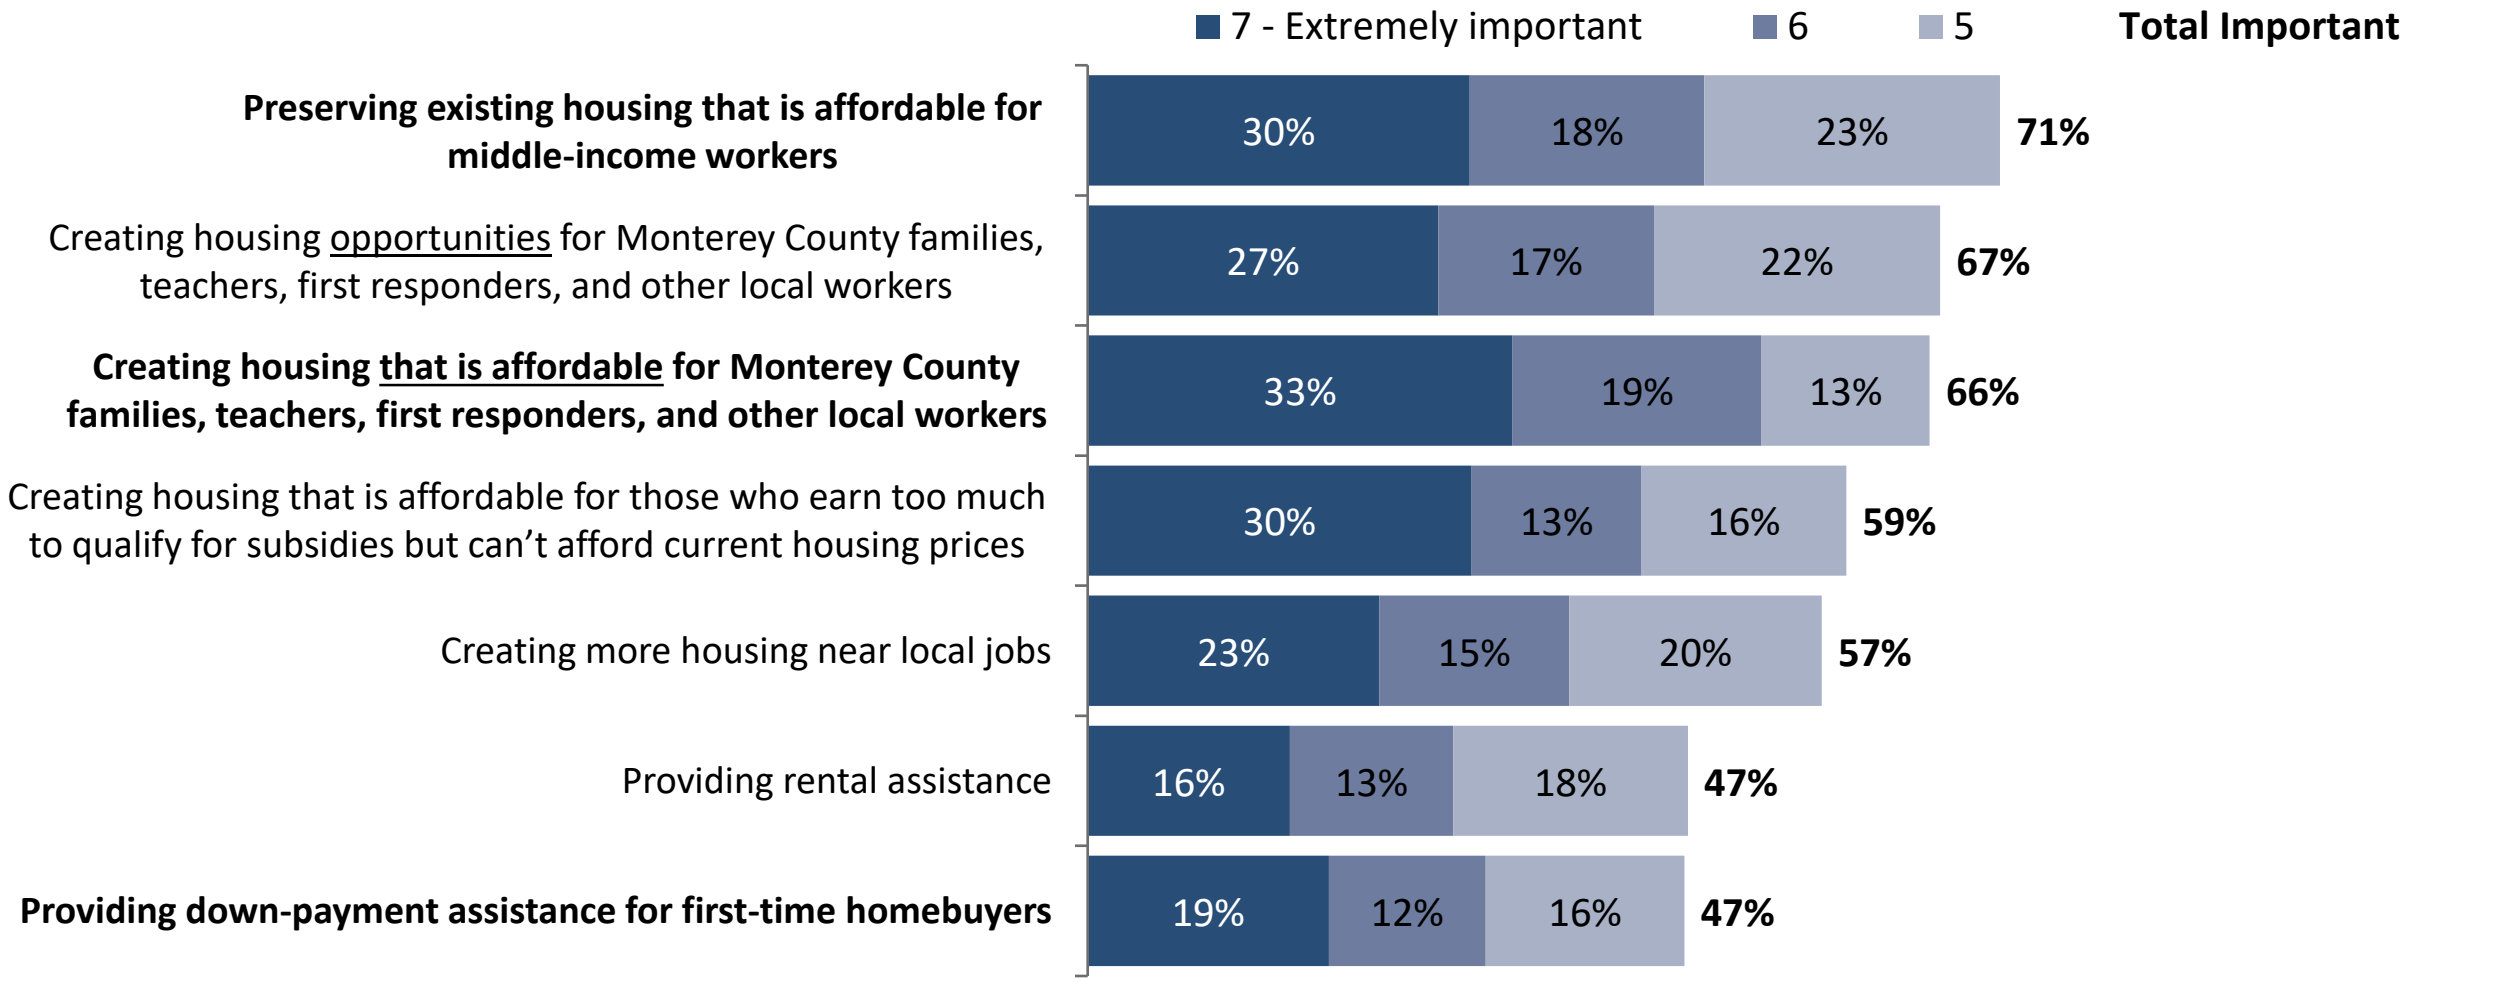


Q6. If the election were held today, would you vote yes to approve or no to reject this measure?

Funding Priorities and Additional Information

TOT Project Importance

All tested items that the TOT measure could support are important to at least 6-in-10 voters. Water and sewer infrastructure and street maintenance rise to the top, with over 80% of voters rating each as important.



Q13-21. Next you will be asked about a list of projects and programs these ballot measures could support. After each one, please rate how important that project is to you.

***Bolded items included in tested ballot language**

PTT Project Importance

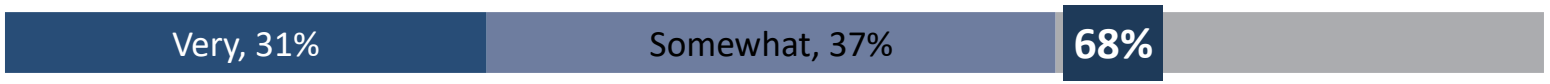
"Creating housing opportunities" language performs very similarly to "Creating housing that is affordable," but intensity on the latter is higher. Providing down payment or rental assistance is important to less than half of voters.

Q22-28. Next you will be asked about a list of projects and programs these ballot measures could support. After each one, please rate how important that project is to you.

***Bolded items included in tested ballot language**

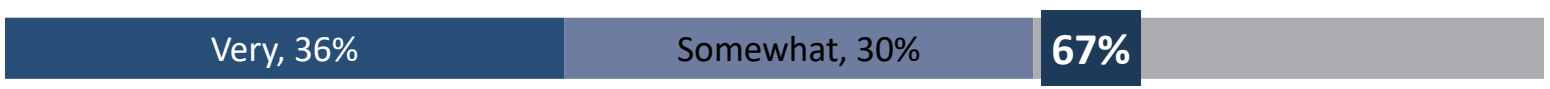
Additional Measure Information

Information about oversight is convincing to 70% of voters. For the TOT, offsetting tourism impacts is quite convincing. For the PTT, avoiding displacement of seniors, helping workers live near jobs, and displacement consequences are compelling.



[TOURISM–TOT] Every year, hundreds of thousands of visitors come to our area, adding to traffic gridlock and strain on public safety services and local natural habitats. The transient occupancy tax measure would be paid only by these visitors, helping to offset their impact without increasing taxes on local residents.

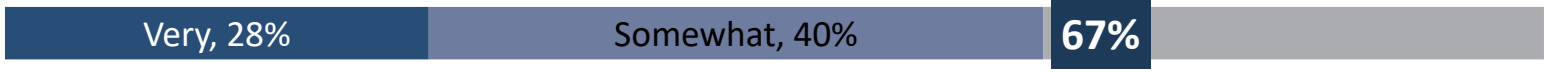
[OVERSIGHT] Mandatory financial audits and yearly reports will ensure that all funds from these measures are spent right here in Monterey County for voter-approved purposes.



(SAMPLE A ONLY: 250n) [SENIORS–PTT] Because of rising housing costs, longtime residents and seniors are increasingly unable to remain in the communities where they have spent their lives, forcing them to leave the neighbors and support networks they rely on.

[NEAR JOBS–PTT] The people who make our region function—including teachers, registered nurses, hospitality workers, and public safety personnel—can no longer afford to live in the communities they serve, contributing to traffic congestion and reduced quality of life. We need more housing near jobs so these professionals can live where they work.

[CONSEQUENCES–PTT] We're already seeing the consequences of families being priced out of our area in declining school enrollment and staffing shortages in our hospitals and local businesses. Without action to make homeownership more affordable for working families, we risk losing the people who sustain our communities and the character that makes this place unique.

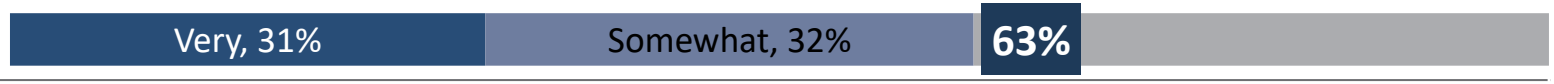


Q29-Q39. Next you will read statements from people who support the proposed ballot measures for Monterey County. After each one, please indicate how convincing that statement is as a reason to vote for the measures.

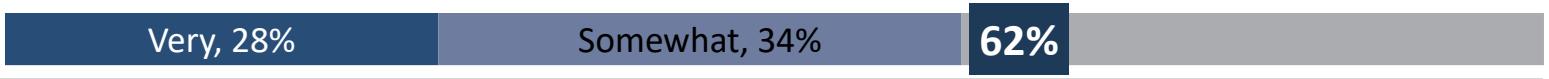
Additional Measure Information

That all funding generated by the PTT would be dedicated to housing is less compelling than other information.

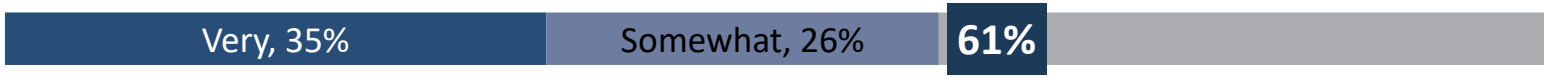
[OTHER COMMUNITIES–TOT] The transient occupancy tax measure would simply raise the tax rate for overnight visitors in the unincorporated areas to the same level it already is in many other local communities, including the cities of Monterey, Pacific Grove, and Seaside.



% Total Convincing



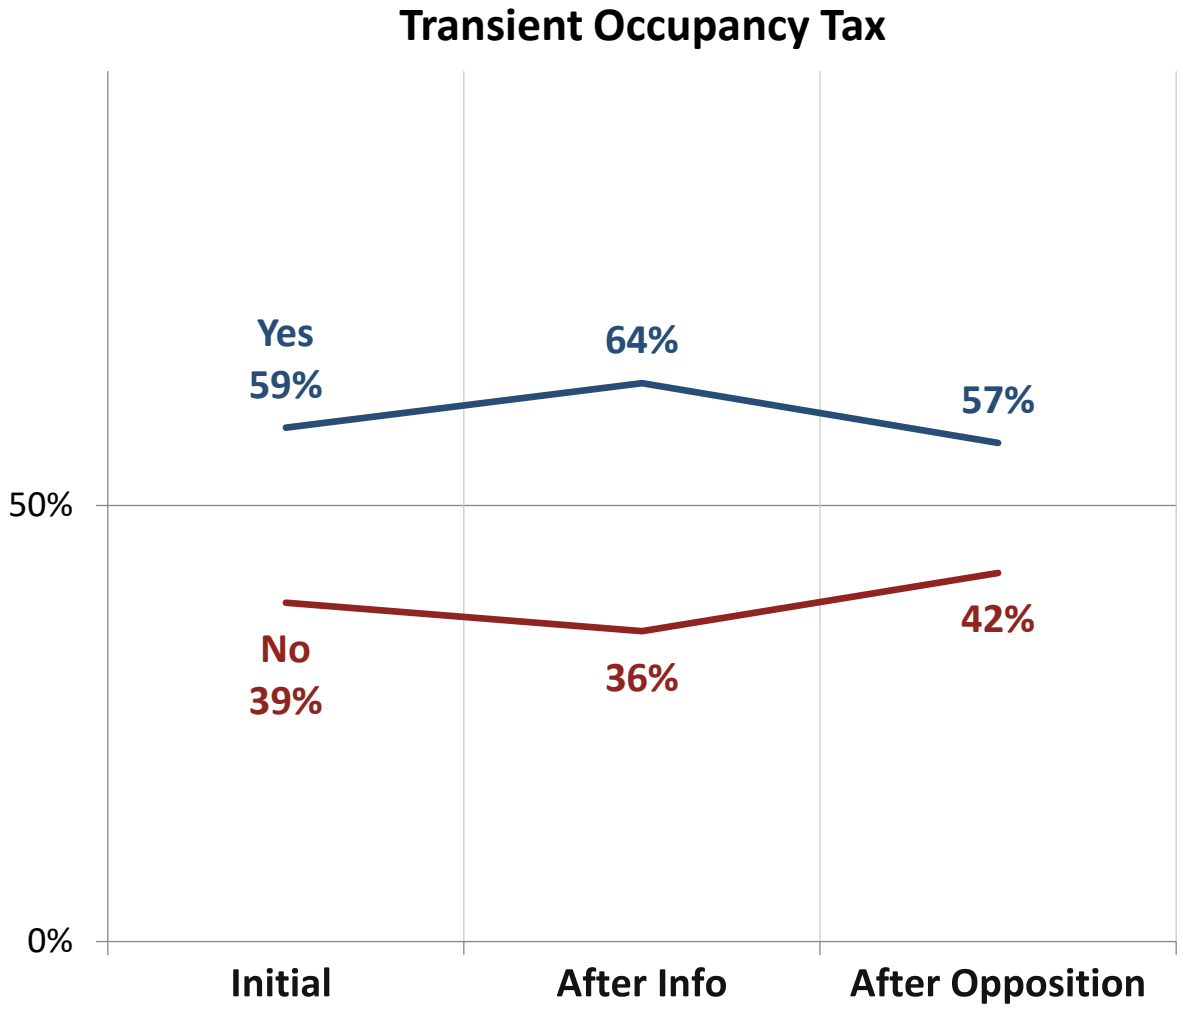
[LOCAL CONTROL] These measures would create a guaranteed source of local funding that, by law, cannot be taken by Sacramento, for our housing affordability crisis and vital county services, ensuring our tax dollars stay local for the benefit of Monterey County residents.



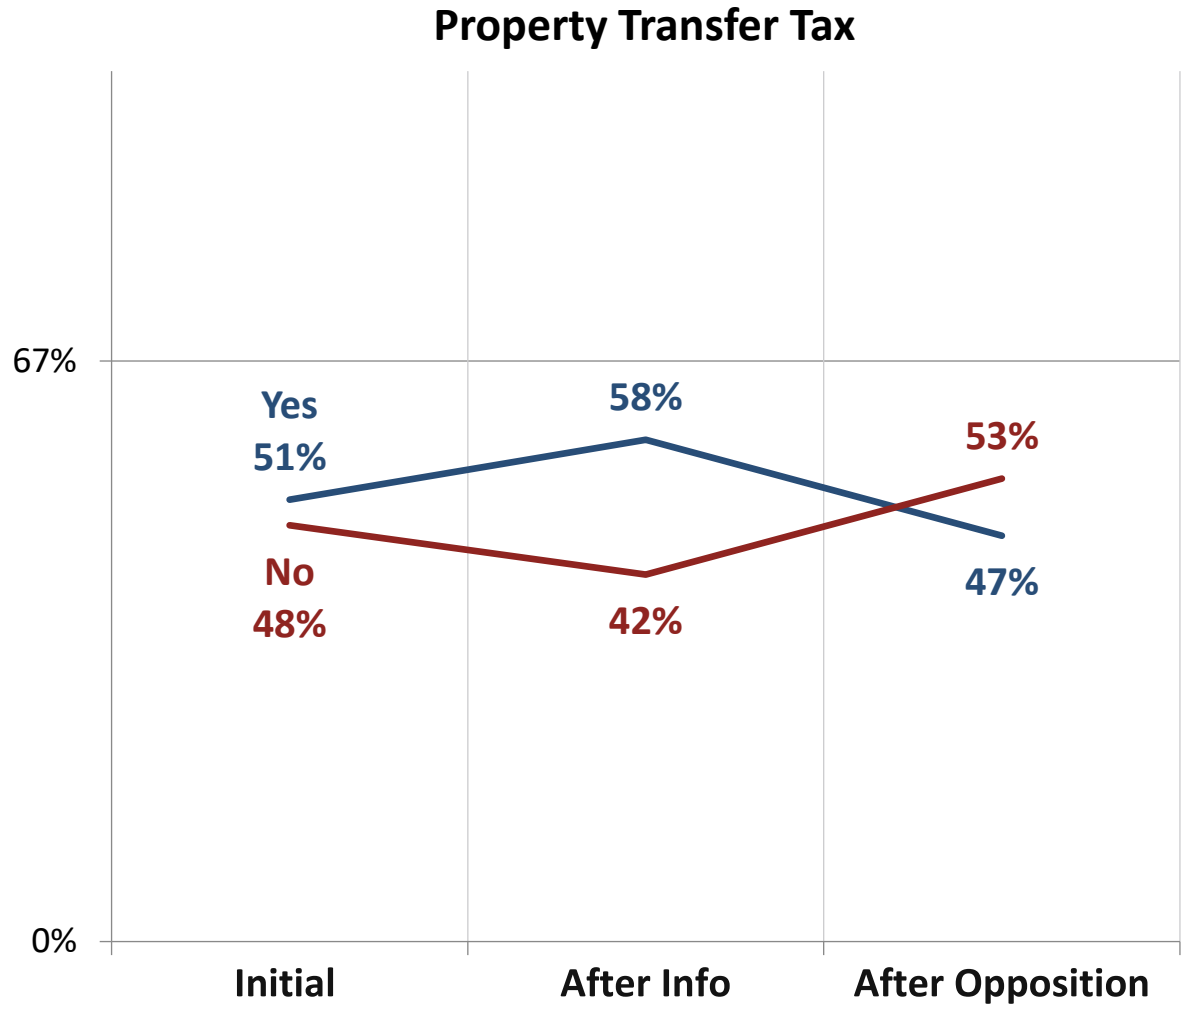
(SAMPLE B ONLY: 250n) [NEXT GENERATION–PTT] Many young adults who grow up here are unable to return after college because housing is unattainable for early and mid-career professionals. We need to take action so we don't lose out on the next generation of families and all they could contribute to our communities.

[BURDEN] These measures will help the County maintain critical services and everyday residents afford to live here without costing the average resident anything. Only those who book a hotel, motel or short-term rental in the unincorporated areas of the county; or those buying or selling single-family properties valued over $10 million in those areas pay these taxes.

[PITCH IN–PTT] It's only fair to ask those who can afford luxury properties and second homes in our beautiful region to pitch in a fraction of their cost so that working families and year-round residents can afford to stay here.



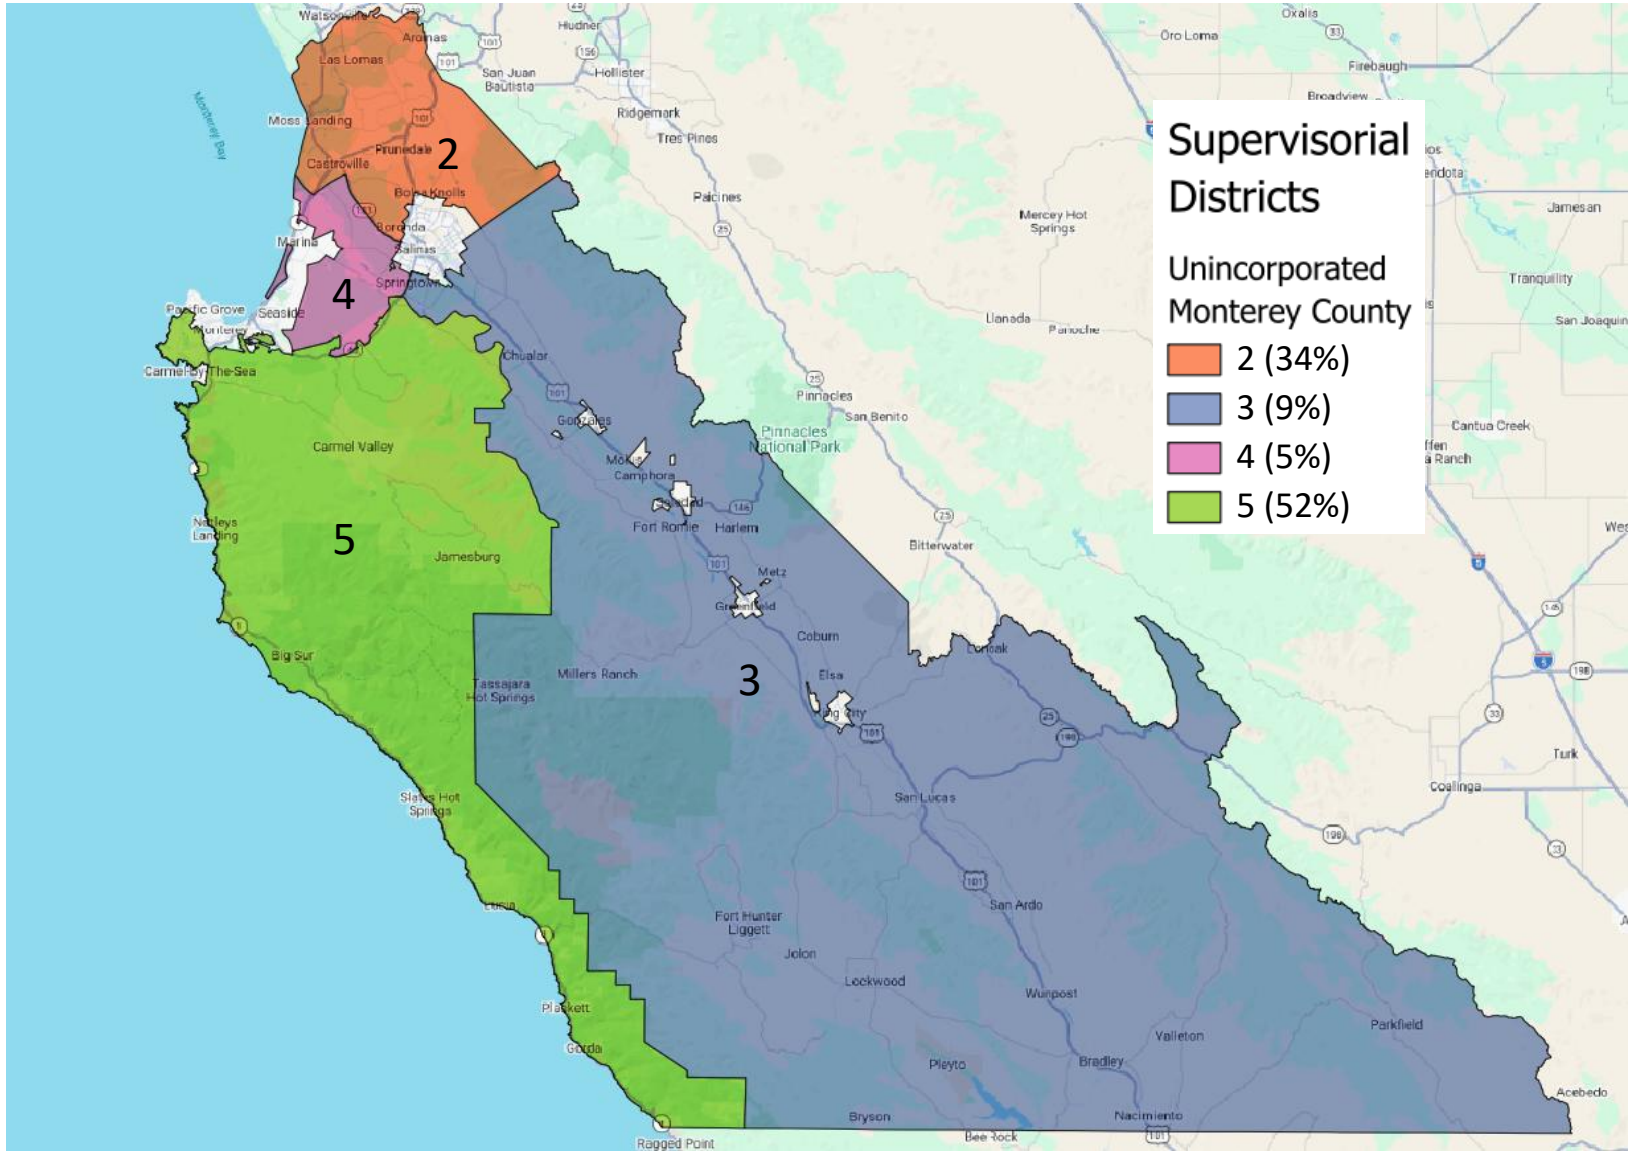
[DEDICATED FUNDING–PTT] All funding generated by the property transfer tax would go to voter-approved purposes helping solve our area's housing affordability crisis.



Q29-Q39. Next you will read statements from people who support the proposed ballot measures for Monterey County. After each one, please indicate how convincing that statement is as a reason to vote for the measures.

Support Progression

Support for both measures rises after more information about need, but is somewhat vulnerable to opposition.



Q5/6/40/41/48/49. Finally, after everything you have read, would you vote yes to approve or no to reject the [transient occupancy / property transfer] tax measure for unincorporated Monterey County?

Conclusions

- A 2% increase in the transient occupancy tax in the unincorporated areas is currently supported by more than the half of voters needed.
- A dedicated property transfer tax (PTT) on single-family property sales over $10 million faces a more difficult path. More education about the benefits of the measure is helpful, but support currently does not reach two-thirds even with more information.
- There was little impact on support based on which measure voters heard first—if anything, support for the PTT was at times marginally higher among those who heard about the TOT first.

b. Provide direction to staff on whether to proceed with development of one or both measures for potential placement on a future ballot; and
c. Consider adopting a resolution to:

1. Amend the County of Monterey Administrative Office Fiscal Year 2025-26 Adopted Budget (001-1050-8039-CAO014, Other General Expenditures) to increase appropriations by $30,000 - financed by a corresponding reduction in 001-1050-8034-CAO020 (Contingencies) to support consultant services required for pre-ballot feasibility analysis and public engagement (4/5ths vote required); and

RECOMMENDATION:

It is recommended that the Board of Supervisors:
a. Receive a presentation and status update on the evaluation efforts related to potential 2026 revenue measures, including a Property Transfer Tax (PTT) and a potential increase to the Transient Occupancy Tax (TOT);
b. Provide direction to staff on whether to proceed with development of one or both measures for potential placement on a future ballot; and
c. Consider adopting a resolution to:

1. Amend the County of Monterey Administrative Office Fiscal Year 2025-26 Adopted Budget (001-1050-8039-CAO014, Other General Expenditures) to increase appropriations by $30,000 - financed by a corresponding reduction in 001-1050-8034-CAO020 (Contingencies) to support consultant services required for pre-ballot feasibility analysis and public engagement (4/5ths vote required); and

SUMMARY/DISCUSSION

On March 17, 2026, the Board received the first follow-up report responding to Board Referral No. 2026.01 (Daniels), which directed staff to evaluate the feasibility of a special real estate transfer tax applied to ultra-high-value residential property transactions. That discussion

included:
- Consideration of a $10 million threshold and potential adjustment to a $5 million threshold;
- Preliminary assessment of market impacts, policy structure, and legal parameters; and
- Direction to return with additional analysis.

On April 7, 2026, staff returned with expanded evaluation, including threshold alternatives, revenue projections, comparable jurisdiction experience, and recommendations to conduct public opinion polling on both a potential Property Transfer Tax (PTT) and a complementary increase to the Transient Occupancy Tax (TOT) in unincorporated Monterey County.

Consistent with the Board's direction, the County engaged EMC Research to conduct a statistically valid feasibility survey of likely November 2026 voters in the unincorporated areas. The May 2026 Feasibility Survey is now complete. Results indicate strong support for a TOT increase to the general tax, and mixed insufficient support for a new PTT special tax.

The survey was conducted April 27 through May 4, 2026, using a mixed mode approach, including telephone (landline and mobile) interviews conducted by trained interviewers, as well as email and text-to-web responses. A total of 500 likely November 2026 voters residing in the unincorporated areas of Monterey County participated.

Transient Occupancy Tax - Feasibility Findings

Polling results indicate consistently strong support for a potential TOT general tax increase. Initial support measured approximately 59 percent already exceeding the simple majority required for passage. After respondents received additional information about the measure's purpose and implications, support increased further, reaching nearly two-thirds. Across all stages of the survey, approval ranged from the high 50s to the mid-60s, demonstrating durable voter support. The polling was done based on an increase in TOT by 2%, increasing from 10.5% to 12.5%.

Property Transfer Tax - Feasibility Findings

Survey findings indicate a more challenging path for a PTT special tax. Initial support measured approximately 51 percent, below the two-thirds threshold required for a special tax under state law. Although support increased modestly with additional information, it did not approach the required two-thirds level at any point. Support fluctuated between the low 50s and high 50s throughout the survey period, suggesting that even with strengthened messaging, the PTT measure is unlikely to achieve feasible passage as a special tax. The polling was based on a 3% property transfer tax for ultra-high value properties above $10 million.

Based on polling results and prior Board deliberations, staff recommends moving forward with a TOT revenue measure and that the Board consider alternatives to a PTT special tax, including potentially exploring the PTT as a general tax, which requires only a simple majority.

Next Steps

If the Board elects to proceed with one or both measures, staff will:
- Conduct refined fiscal and economic modeling;
- Prepare draft ordinances and ballot materials for County Counsel review;
- Develop a full implementation timeline, including key election deadlines;

- Coordinate legally compliant educational public information materials; and
- Return to the Board on July 7, 2026 for final review and direction on ballot placement.

The feasibility survey indicates that a TOT increase presents a viable path forward, while a PTT measure would require significant structural modification or substantially increased voter education to meet required support levels. This report seeks Board direction on how to proceed with both revenue initiatives.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of the County Counsel, Assessor-County Clerk-Recorder's Office, Housing and Community Development, County Administrative Office, and District 5 Supervisor Office have been involved in this process.

FINANCING:
Polling and strategic analysis to this point have been funded through the previously authorized $83,500 allocation for consultant services. If the Board approves the potential revenue measures to proceed, an additional $20,000 will be required, funded through contingency. If the TOT ballot initiative is supported by voters, it is estimated it will generate $7.6 million in additional revenue annually. Property Transfer Tax is estimated to generate approximately $5 million annually.

Introduced: 5/27/2026
Version: 1

Current Status: Scheduled AM
Matter Type: BoS Resolution

REF250037 - WATER ALLOCATION BOARD POLICY
Consider adopting a resolution to approve a water allocation policy for the allocation of limited excess water from the California American Water Company (Cal-Am) service area of the Monterey Peninsula Water Management District (MPWMD) for areas of unincorporated Monterey County served by MPWMD.

Proposed California Environmental Quality Act Action: The proposed County of Monterey Water Allocation Policy (Policy) is exempt from further (CEQA) review pursuant to CEQA Guidelines section 15061(b)(3) as the proposed Policy does not make any changes to allowable uses or development regulations at any location in unincorporated Monterey County. Additionally, any future discretionary development that obtains water allotment pursuant to the Policy will undergo the necessary environmental review pursuant to CEQA when the project is considered. Lastly, the Monterey Peninsula Water Management District (MPWMD) analyzed the potential effects of water allocation made available through the Pure Water Monterey Expansion project via Environmental Impact Report Addendum (dated January 2024, State Clearinghouse #2013051094).

RECOMMENDATIONS:
It is recommended that the Board of Supervisors:
a. Find that adoption of the Water Allocation Policy is exempt from further CEQA review per Section 15061(b)(3); and
b. Adopt a resolution to approve the Water Allocation Policy for areas of unincorporated Monterey County served by MPWMD.

SUMMARY:
On January 27, 2025, MPWMD allocated 72-acre -feet per year (AFY) of water to the County for use in the Cal-Am service area of MPWMD (MPWMD service area). The County had 10.95 AFY remaining from the Paralta/Pre-Paralta allocations as of January 27, 2025, bringing the total combined allocations to the County to 82.95 AFY. The use of the water is at the County's discretion. When the County approves a suballocation of water, MPWMD debits the amount from the County's allocation when it issues a water permit.

Water allocated by MPWMD to the County is currently limited and the demand by property owners and developers for the County's limited water allocation within the unincorporated area exceeds the limited supply. MPWMD staff have determined that up to 2,000 AFY are available and that they will provide additional allocations to jurisdictions (Airport District, Department of Defense, Del Rey Oaks, Seaside, Pacific Grove, Sand City, Monterey and Monterey County) in the future. The 2,000 AFY

exceeds current demand in the unincorporated areas, however, it is unclear how much of this total allocation will be made available to the County and when.

It should be noted that water services for development are also limited by the Cease-and-Desist Order (CDO) in place for the Cal-Am service area of MPWMD. It's important to note there is still a prohibition on installing new water meters (connections) within this service area. The County's proposed Water Allocation Policy (Policy) does not allow new connections, nor does it affect the CDO. MPWMD has applied to the State to modify a portion of the CDO, but no decision on that application has been made as of the drafting of this report.

Currently, the County does not have an adopted policy for the allocation of water in the MPWMD service area. The past practice of the County typically included approval of a water allocation at the time a construction permit was ready to issue on a "first-come first-served" basis. The Planning Commission authorized the allocation of water when acting on a discretionary permit, but the allocation was not approved until a construction permit was issued. From 1993 to 2013, the County was nearing exhaustion of its available water allocation and began withholding construction permit issuance for projects that required a new allocation of water until such time as water became available. County staff established a list of such projects waiting on water (HCD Approved Water Waitlist). This list has been updated and the proposed Policy is drafted to account for those still on the waitlist. After allocating water to projects on the HCD Approved Water Waitlist (**Attachment A**), the County has approximately 63.91 AFY of water to allocate remaining.

Given recent changes in California housing law requiring municipalities to prioritize utility services for housing development planned in the Housing Element of the General Plan, the finite allocation of water provided to the County by MPWMD, and the lack of a formal policy to prioritize the allocation of water to uses and development that furthers County goals and interests, the Planning Commission recommended that staff develop a water allocation policy for areas within the MPWMD service area for the Board's consideration. An alternative option to formalize the continued practice of providing water on a "first-come, first-served" basis was considered but not recommended due to the circumstances discussed above.

The proposed Policy (**Attachment C**) was developed and revised with input from the public and the Planning Commission, and the Planning Commission recommends the attached Policy for adoption.

The Policy outlines the accounting of water in the following general categories:

- Prior commitments (the HCD Approved Water Waitlist);
- 80% of the allocation for "Planned Housing Growth";
    - Planned Housing Growth includes housing projects that meet specific affordability provisions, density requirements, and locational criteria (i.e. located in an affordable housing overlay or on a Housing Element Opportunity Site); accessory dwelling units (ADUs), junior accessory dwelling units (JADUs) and single-family dwellings (SFDs) on vacant lots of record that meet specific water usage requirements; and expansions of existing multifamily developments
- 15% of the allocation on a first-come, first-served basis; and

– 5% of the allocation to a strategic reserve.

Other components of the Policy include: procedures for applying for a water allocation; measures to prevent long-term commitments of water to projects that do not get constructed; and ongoing review of the Policy to assess needs for changes.

Key feedback on the Policy to date has focused on the following provisions:

– Availability of additional water resources for the MPWMD service area;
– Limits on the amount of water allocation that any one project could qualify for;
– A proposed 0.25 AFY limit on single family residences (water usage maximum);
– Requests from applicants for certainty of water availability earlier in the permitting process; and
– Time limits on how long water should be reserved and allocated for a project before it is used.

Staff and the Planning Commission have considered comments and have recommended revisions to the Policy to address these issues to the extent feasible. The detailed discussion (**Attachment B**) contains more information about the proposed Policy and the feedback received to date.
Staff recommend the Board of Supervisors adopt a Water Allocation Policy for areas of unincorporated Monterey County served by MPWMD as presented in **Attachment C**.

DISCUSSION
See **Attachment B** - Detailed Discussion.

ENVIRONMENTAL REVIEW:
The proposed County of Monterey Water Allocation Policy (Policy) is exempt from further California Environmental Quality Act (CEQA) review pursuant to CEQA Guidelines section 15061(b)(3) as the proposed Policy does not make any changes to allowable uses or development regulations at any location in unincorporated Monterey County. Additionally, any future discretionary development that obtains water allotment pursuant to the Policy will undergo the necessary environmental review pursuant to CEQA when the project is considered. Lastly, the Monterey Peninsula Water Management District (MPWMD) analyzed the potential effects of water allocation made available through the Pure Water Monterey Expansion project via Environmental Impact Report Addendum (dated January 2024, State Clearinghouse #2013051094).

OTHER AGENCY INVOLVEMENT:
Housing and Community Development Department staff are working in collaboration with the Office of County Counsel to review the proposed policy. Staff also met with and considered comments provided by MPWMD that informed the proposed Policy.

On April 29, 2026, and May 13, 2026, the Planning Commission considered the proposed Policy. The Planning Commission voted unanimously to recommend that the proposed policy be revised to include the following items at the May 13, 2026, Planning Commission meeting:

- Revisions to the "Procedure" section to allow for applicants to request a reservation of water allocation when an application is deemed complete;
- Revise the "Fixture Maximums" for residential uses to a water usage maximum as maximum acre feet of water per year (AFY);
- Include discussion on water allocations for emergencies (i.e. water for fire suppression, etc.); and
- Revise the Policy to include clarifying edits requested by the Planning Commission
- Incorporate clarifying edits that ensure consistency between the proposed Policy and MPWMD regulations.

Staff have revised the proposed Policy and have provided a clean version (**Attachment C**) and a red-lined version showing changes made from the version presented to the Planning Commission (**Attachment D**) for the Board's consideration.

HOUSING IMPACTS:

Adopting a Water Allocation Policy for areas in unincorporated Monterey County reduces constraints on Housing Development. Additionally, adoption of the Policy also assists in implementing the County's 6th Cycle Draft Housing Element Update (HEU6). Allocating water to affordable housing projects and allowing projects to reserve water earlier in the development process will assist with streamlining housing production and permitting residential development in unincorporated Monterey County, resulting in reduced constraints on Housing Development.

FINANCING
Staff time to support development of the proposed Policy is included in the FY2025-26 Adopted Budget for HCD Unit 8543, Appropriation Unit HCD002.

REF250037 - WATER ALLOCATION BOARD POLICY
Consider adopting a resolution to approve a water allocation policy for the allocation of limited excess water from the California American Water Company (Cal-Am) service area of the Monterey Peninsula Water Management District (MPWMD) for areas of unincorporated Monterey County served by MPWMD.

Proposed California Environmental Quality Act Action: The proposed County of Monterey Water Allocation Policy (Policy) is exempt from further (CEQA) review pursuant to CEQA Guidelines section 15061(b)(3) as the proposed Policy does not make any changes to allowable uses or development regulations at any location in unincorporated Monterey County. Additionally, any future discretionary development that obtains water allotment pursuant to the Policy will undergo the necessary environmental review pursuant to CEQA when the project is considered. Lastly, the Monterey Peninsula Water Management District (MPWMD) analyzed the potential effects of water allocation made available through the Pure Water Monterey Expansion project via Environmental Impact Report Addendum (dated January 2024, State Clearinghouse #2013051094).

RECOMMENDATIONS:
It is recommended that the Board of Supervisors:
a. Find that adoption of the Water Allocation Policy is exempt from further CEQA review per Section 15061(b)(3); and
b. Adopt a resolution to approve the Water Allocation Policy for areas of unincorporated Monterey County served by MPWMD.

SUMMARY:
On January 27, 2025, MPWMD allocated 72-acre -feet per year (AFY) of water to the County for use in the Cal-Am service area of MPWMD (MPWMD service area). The County had 10.95 AFY remaining from the Paralta/Pre-Paralta allocations as of January 27, 2025, bringing the total combined allocations to the County to 82.95 AFY. The use of the water is at the County's discretion. When the County approves a suballocation of water, MPWMD debits the amount from the County's allocation when it issues a water permit.

Water allocated by MPWMD to the County is currently limited and the demand by property owners and developers for the County's limited water allocation within the unincorporated area exceeds the limited supply. MPWMD staff have determined that up to 2,000 AFY are available and that they will provide additional allocations to jurisdictions (Airport District, Department of Defense, Del Rey Oaks, Seaside, Pacific Grove, Sand City, Monterey and Monterey County) in the future. The 2,000 AFY

exceeds current demand in the unincorporated areas, however, it is unclear how much of this total allocation will be made available to the County and when.

It should be noted that water services for development are also limited by the Cease-and-Desist Order (CDO) in place for the Cal-Am service area of MPWMD. It's important to note there is still a prohibition on installing new water meters (connections) within this service area. The County's proposed Water Allocation Policy (Policy) does not allow new connections, nor does it affect the CDO. MPWMD has applied to the State to modify a portion of the CDO, but no decision on that application has been made as of the drafting of this report.

Currently, the County does not have an adopted policy for the allocation of water in the MPWMD service area. The past practice of the County typically included approval of a water allocation at the time a construction permit was ready to issue on a "first-come first-served" basis. The Planning Commission authorized the allocation of water when acting on a discretionary permit, but the allocation was not approved until a construction permit was issued. From 1993 to 2013, the County was nearing exhaustion of its available water allocation and began withholding construction permit issuance for projects that required a new allocation of water until such time as water became available. County staff established a list of such projects waiting on water (HCD Approved Water Waitlist). This list has been updated and the proposed Policy is drafted to account for those still on the waitlist. After allocating water to projects on the HCD Approved Water Waitlist (**Attachment A**), the County has approximately 63.91 AFY of water to allocate remaining.

Given recent changes in California housing law requiring municipalities to prioritize utility services for housing development planned in the Housing Element of the General Plan, the finite allocation of water provided to the County by MPWMD, and the lack of a formal policy to prioritize the allocation of water to uses and development that furthers County goals and interests, the Planning Commission recommended that staff develop a water allocation policy for areas within the MPWMD service area for the Board's consideration. An alternative option to formalize the continued practice of providing water on a "first-come, first-served" basis was considered but not recommended due to the circumstances discussed above.

The proposed Policy (**Attachment C**) was developed and revised with input from the public and the Planning Commission, and the Planning Commission recommends the attached Policy for adoption.

The Policy outlines the accounting of water in the following general categories:

- Prior commitments (the HCD Approved Water Waitlist);
- 80% of the allocation for "Planned Housing Growth";
    - Planned Housing Growth includes housing projects that meet specific affordability provisions, density requirements, and locational criteria (i.e. located in an affordable housing overlay or on a Housing Element Opportunity Site); accessory dwelling units (ADUs), junior accessory dwelling units (JADUs) and single-family dwellings (SFDs) on vacant lots of record that meet specific water usage requirements; and expansions of existing multifamily developments
- 15% of the allocation on a first-come, first-served basis; and

– 5% of the allocation to a strategic reserve.

Other components of the Policy include: procedures for applying for a water allocation; measures to prevent long-term commitments of water to projects that do not get constructed; and ongoing review of the Policy to assess needs for changes.

Key feedback on the Policy to date has focused on the following provisions:

– Availability of additional water resources for the MPWMD service area;
– Limits on the amount of water allocation that any one project could qualify for;
– A proposed 0.25 AFY limit on single family residences (water usage maximum);
– Requests from applicants for certainty of water availability earlier in the permitting process; and
– Time limits on how long water should be reserved and allocated for a project before it is used.

Staff and the Planning Commission have considered comments and have recommended revisions to the Policy to address these issues to the extent feasible. The detailed discussion (**Attachment B**) contains more information about the proposed Policy and the feedback received to date. Staff recommend the Board of Supervisors adopt a Water Allocation Policy for areas of unincorporated Monterey County served by MPWMD as presented in **Attachment C**.

ATTACHMENT B– DISCUSSION

DISCUSSION:

Water Allocation Policy – Process and Procedures

A Board Policy is adopted via resolution and can be amended from time to time by the Board of Supervisors. As drafted, this proposed Board Water Allocation Policy would establish the process, procedures, and management of limited excess water allocations in the California American Water Company (Cal-Am) service area of the Monterey Peninsula Water Management District (MPWMD) in unincorporated Monterey County. If the Board were to adopt the proposed Water Allocation Policy, the policy would be adopted via resolution and could be subsequently amended via resolution should Board priorities for water allocation change or additional water resources be allocated to the County from MPWMD.

The draft Water Allocation Policy is structured in the following manner, as required by the Board Policy Manual Policy and Procedure (Policy number i-2):

- Purpose;
- Background;
- Policy;
- Procedure;
- Review Date; and
- Board Action.

The following discussion provides a summary of the various sections of the draft Water Allocation Policy, recommendations and rationale on specific policy direction.

Purpose/Background

The purpose of the proposed Water Allocation Policy is to: "Establish a uniform policy for the allocation of limited water resources within the unincorporated areas of Monterey County within the MPWMD service area".

The background section provides a figure demarcating the boundary of the Cal-Am service area of the MPWMD and describes historical past practice on how the County has allocated water. In some cases, the County has provided water on a "first-come, first-served" basis or considered the allocation of water alongside a discretionary application, with water being reserve after the discretionary decision and until a construction permit was ready to issue. Additionally, the section also acknowledges the "HCD Approved Water Waitlist" (Waitlist), the processing requirements for projects that have requested water after the closure of the Waitlist and prior to the adoption of the Water Allocation Policy. Ultimately, the Policy serves to update this past practice given changes in California housing law requiring local governments to prioritize utility services for housing development planned for in the Housing Element, the finite allocation of water provide to the County by MPWMD and provide a framework to prioritize development that furthers County goals and interests.

Policy

The Policy section provides a framework for prioritizing the allocation of water resources:

1. Honor past commitments to the allocation of water established in the "HCD Approved Water Waitlist";
2. Development of Planned Housing Growth;
3. First Come First Served; and
4. Strategic Reserve

Once water has been allocated to projects on the HCD Approved Water Waitlist, the remaining water allocation would be reserved as a percentage of the remaining water allocation as follows:

- 80% for Planned Housing Growth;
- 15% First-come, First-Served Basis; and
- 5% retained as a strategic reserve.
    - *The County of Monterey Board of Supervisors would retain the authority to approve allocations from the Strategic Reserve category pursuant to a resolution.

Procedure
The procedure section outlines the types of projects that fall into each specific category and the procedure for allocation of water. The procedures for each category include a ministerial permit pathway (i.e. construction permit) or discretionary permit pathway (i.e. Use Permit, Coastal Development Permit, etc.) depending on what permits are required.

To provide earlier notification of water availability, the draft Policy proposes that applicants would be informed during the completeness review of a project application if the project is eligible for a reservation of water. The County would then maintain a list of projects that have requested water including the amount of water that is available by category or suballocation area where the water is proposed to come from.

Planned Housing Growth
Qualifying Projects
The Planned Housing Growth category includes the following types of projects:

- A housing project that:
    - Is located in an Affordable Housing Overlay as defined in the 2010 General Plan, or is listed as a Housing Element Opportunity Site in the 6th Cycle Housing Element Update; and
    - Provides no fewer than the minimum percentage of total units deed restricted to lower-income and moderate-income households as required by Monterey County Code Chapter 18.40 or provides more than 50 percent of the units at levels affordable to moderate income, workforce I, and/or workforce II households; and
    - Meets a minimum density of 10 dwelling units/per 1 acre.

Other projects that qualify under this category include Accessory Dwelling Units (ADUs) and Junior Accessory Dwelling Units (JADUs) that do not exceed 0.12 acre-feet-per-year (AFY), single family dwelling (SFDs) units on vacant lots of record that do not exceed 0.25 AFY, expansions of multifamily housing projects that do not otherwise meet the criteria of Planned Housing Growth, and portions of housing projects that are deed-restricted affordable to low-

income households as required by County Code or State Housing Law.

Public comments received during the review of the draft Policy raised questions regarding these water usage maximums. Staff have developed these limits using MPWMD Residential Water Release Forms and processes. The maximums allow property owner flexibility to have all common water using fixtures (e.g. a kitchen sink, dishwasher, clothes washer, etc...) and 3 or more bathrooms (combination of half and full bathrooms) depending on landscape water needs. A project with little or no irrigated landscape could use the allocation to maximize bathrooms or additional water usage whereas landscaping with higher water demands might have fewer bathrooms. The maximum has been established to accommodate reasonable water use SFDs, ADUs and JADUs while encouraging smaller, and by extension potentially more affordable, residences. Water usage maximums apply to SFDs in the "First-Come, First-Served" category as well.

Procedure
The proposed procedure allows for certain projects (ministerial approvals) to be approved by the HCD Director, and other projects (discretionary approvals) approved by the Appropriate Authority (i.e. Zoning Administrator, Planning Commission or Board of Supervisors) for the discretionary permit at the time of the decision on the discretionary permit.

First Come First Served
Qualifying Projects
All other development projects that do not qualify under the "Planned Housing Growth" category in the proposed Policy could apply for water under the "First Come First Served" category. The purpose of this First Come First Served category is to allow for a process for certain projects to obtain water allocations on a first-come, first-served basis similar to past County practice. Water usage maximums apply to residential development projects (0.25 AFY for existing SFDs and proposed SFDs). Water usage maximums do not apply to non-residential uses.

Residential projects that need additional water for emergencies (i.e. fire suppression needs outside of need for fire sprinklers) are eligible to exceed the water usage maximums upon request and documentation from the appropriate fire authority.

The procedure for water allocations under this category are the same as the procedures for water allocations in the "Planned Housing Growth" category.

Strategic Reserve
Qualifying Projects
For projects that do not conform to the above-mentioned categories, the Board of Supervisors may authorize the allocation of water or authorize the HCD Director to approve the allocation of water from the Strategic Reserve category. This category is intended to reserve water for County facility needs or for future (currently unknown) project(s) that are supported by the Board and/or have some public benefit.

Procedure

The Board of Supervisors would retain the authority to allocate water from the strategic reserve.

HCD Director – Additional Review Procedure
For projects that qualify for ministerial approval, the HCD Director can refer the matter to the Planning Commission if the granting of a water allocation could result in significant public policy issues, significant/adverse environmental impacts, significant changes in the nature of a community, or would establish precedents.

This provides an avenue for the HCD Director to refer water allocation determinations to the Planning Commission in instances where the ministerial approval of a project, combined with the administrative approval of a water allocation, could result in potentially undesirable outcomes.

Projects Requesting Water Allocation Prior to Policy Adoption
For projects that requested water prior to Policy adoption, water allocation requests for projects that were not on the "HCD Approved Water Waitlist" should be considered by the Planning Commission with the decision appealable to the Board of Supervisors for discretionary projects and by the HCD Director for ministerial projects.

Procedures for Water Reservation
A project that was deemed eligible with this Policy can reserve the water allocation at the time of completeness determination for 12 months as the applicant continues to pursue approval of land use entitlements (for discretionary projects) and construction permits (for ministerial projects). Should the applicant not receive the required permits within the 12-month period, the water reservation will return to the County's water allocation and be available for distribution to other projects.

Prior to the end of the 12-month period, the applicant can make a written request to the HCD Director for an extension to the water reservation. The HCD Director shall consider the applicant's progress and due diligence towards obtaining permits, in addition to other extenuating circumstances that may impact permit approval.

Time Limits
Water allocations would continue to be held by a project applicant for the term limits set by the MCC for approved construction permits and approved land use entitlements for a maximum of five years. Projects that include affordable housing deed restricted to low-income households may be eligible for additional time extensions outside of the 5-year maximum. Such request shall be made in writing to the HCD Director outlining the need for additional time and forwarded to the Appropriate Authority for decision.

For example, if an Administrative Permit for a project includes a water allocation as part of the approval, that water allocation is held by that project and deducted from the County's overall water allocation for the life of the Administrative Permit. Monterey County Code (MCC) notes that an Administrative Permit is typically active for 2 years unless the Appointing Authority extends the life of the permit. As outlined in the Policy, if the project was approved for 2 years and could request a maximum extension of 3 years (for holding water for a 5-year maximum).

If that Administrative Permit were allowed to expire expiration of the Administrative Permit (2 years from the date of granting the permit unless otherwise stated) and no action was taken to extend the life of the permit, then the project would no longer have a water credit, and that water credit would be made available to other projects requesting/needing water.

Review of Allocation Policy

Staff will monitor the remaining balance of water allocation within each of the categories as defined in the Policy, magnitude of demand for water within each category, and anticipated future water supplies. Staff will periodically review this Policy and recommend amendments as may be needed to ensure on-going alignment with Board priorities and water supply and demand.

Public Engagement and Outreach

Planning Commission Workshop (November 12, 2025)

On November 12, 2025, staff conducted a workshop with the Planning Commission to receive input on development of a Water Allocation Policy and/or Ordinance in the MPWMD Service Area (staff report and exhibits are available at this link: https://monterey.legistar.com/LegislationDetail.aspx?ID=7727450&GUID=14D92DA5-D5EA-4B73-A6BB-751CC37D9F22&Options=&Search=).

At the November 2025 workshop staff presented background on water allocation and past practice at the County regarding allocation of water, provide a preliminary draft water allocation policy, and solicited input from the Planning Commission and public on various policy topic areas including: water allocation process/procedures; purpose and goals of the policy; potential use categories for water allocation; and key definitions and clarifications for the policy.

The Planning Commission provided direction to continue developing a Policy and/or Ordinance given changes in state housing law and the finite nature of water resources currently available in the MPWMD service area. The Planning Commission also requested additional information and context on the policy topic areas discussed, how the Policy would be implemented, as well as directing staff to conduct additional community outreach.

Developer Stakeholder Meeting

Staff held a stakeholder meeting with the development community in March 2026 to discuss the draft Water Allocation Policy and received feedback on the policy. This feedback was incorporated into the draft Water Allocation Policy that was made available for public review in mid-April. Comments leading to revisions included:

- Clarifying that applicants demonstrate they have the right to receive water in light of the Cal-Am Cease and Desist Order (CDO);
- Ensure availability and certainty of water availability earlier in the development process;
- Updated fixture maximums to be in better alignment with bedroom and bathroom counts for units in unincorporated Monterey County; and
- Including that affordable portions of housing projects can qualify for water allocation under the Planned Housing Growth category

Public Comment Period
Staff released the draft Water Allocation Policy for public review starting April 8, 2026 through April 22, 2026. Updates to the draft Water Allocation Policy have been incorporated in response to comments.

Planning Commission Hearings (April 29, 2026 and May 13, 2026)
Staff presented the draft Water Allocation Policy to the Planning Commission on April 29, 2026 and May 13, 2026. Staff revised the draft Water Allocation Policy in response to public and Planning Commissioner comments for the Board's consideration. The April 29, 2026 meeting materials (staff report and exhibits can be found at this link: https://monterey.legistar.com/LegislationDetail.aspx?ID=7992182&GUID=83500E3C-CE77-4C16-87C8-81B3E2075ACE&Options=&Search=) and the May 13, 2026 meeting materials (staff report and exhibits can be found at this link: https://monterey.legistar.com/LegislationDetail.aspx?ID=8005625&GUID=12622B91-9F47-43E6-AF0D-5C372C6AA434&Options=&Search=).

DRAFT

I. Purpose

Establish a uniform Policy for the allocation of limited water resources within the unincorporated areas of Monterey County within the Monterey Peninsula Water Management District California American Water Company ("Cal-Am") service area.

II. Background

Monterey Peninsula Water Management District ("MPWMD") has adopted rules that govern water resources within its jurisdictional boundaries (see Figure 1 below). MPWMD rules include, among other things, the ability to allocate water to local governments within its territory. This includes allocations to the County of Monterey ("County").

Water allocations are used by MPWMD to manage Cal-Am water supplies within MPWMD boundaries. See Figure 1 for MPWMD District Boundaries.

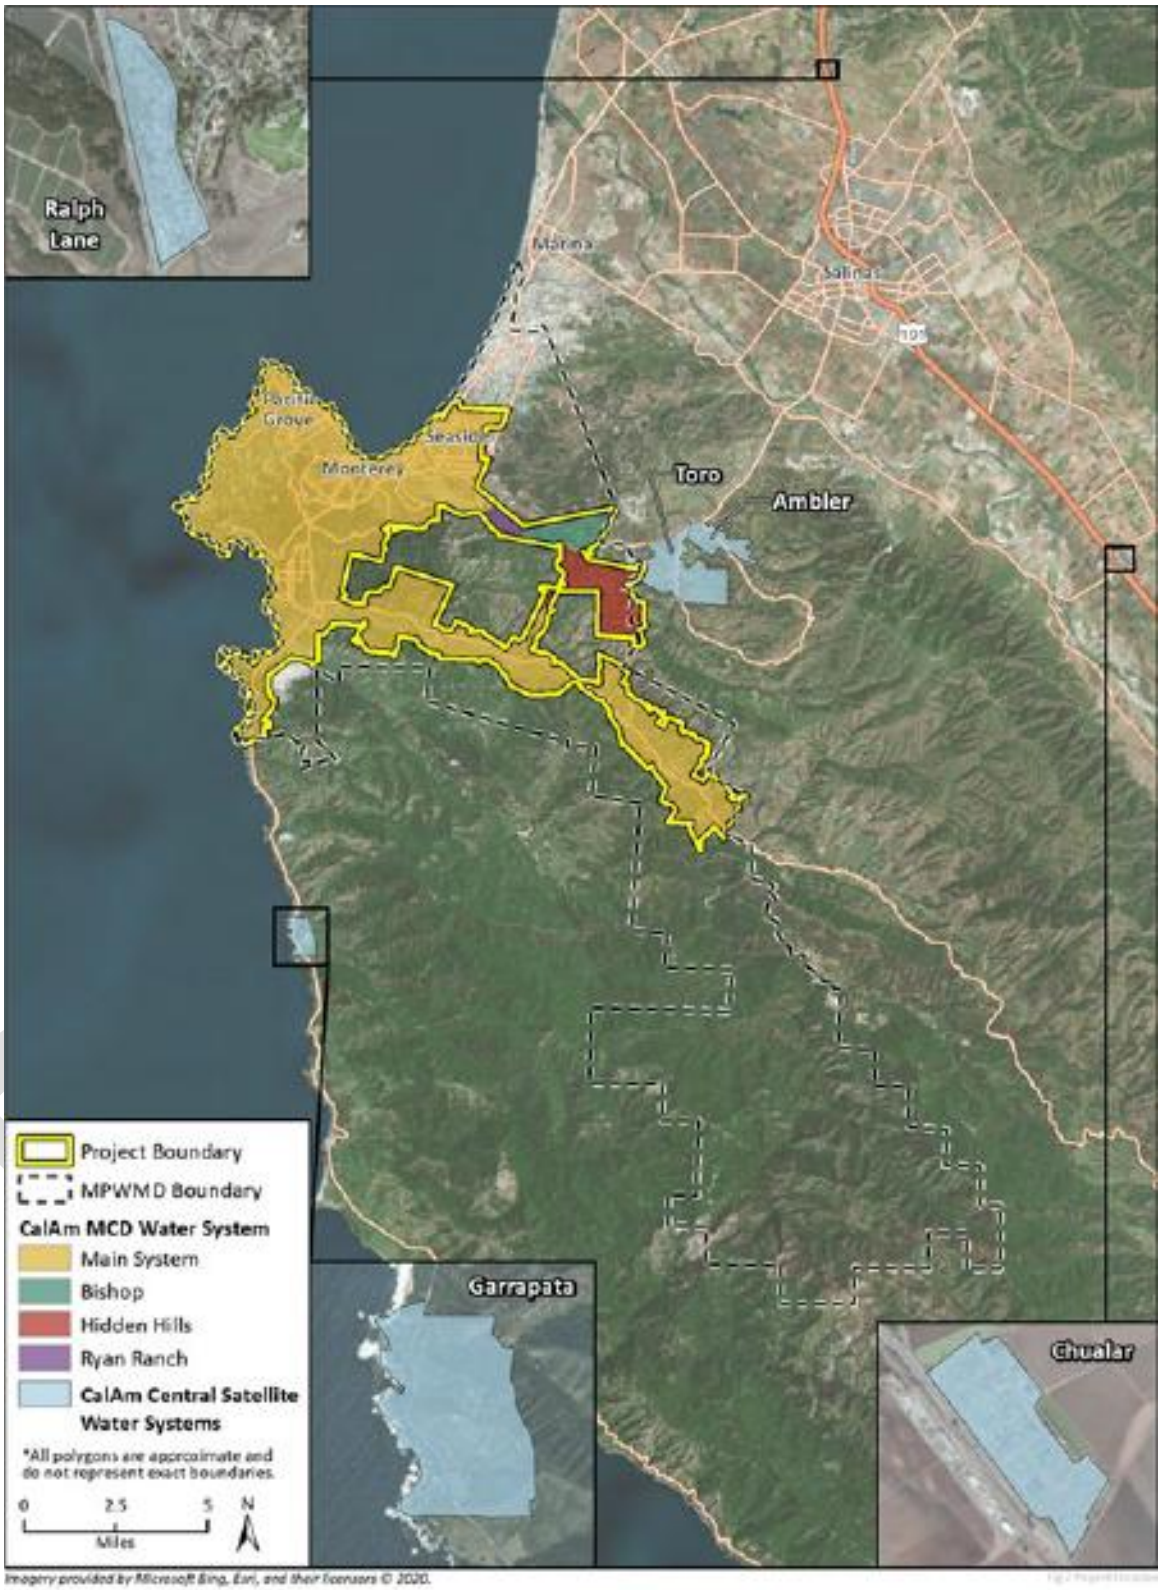

Figure 1 - MPWMD Service Area overlap with Cal-AM Service Area. Note: “Project Boundary” in yellow is the Cal-AM Service Area within MPWMD boundaries

The State Water Resources Control Board's Cease-and-Desist Order (CDO) against Cal-Am is in place for new Cal-Am service connections and does not currently allow for the installation of new water meters. A request to modify the CDO is under review and pending with the State Water Resources Quality Control Board.

On January 27, 2025, MPWMD adopted Ordinance No. 197, modifying Rule 33 requiring projects in the Bishop Ranch subsystems that request an allocation of water be allocated water from the County's allocation as the Bishop Ranch subsystem is now connected into the Main Cal-Am water system. Before this date, water was allocated from the Seaside Groundwater Basin, which is an adjudicated basin.

On March 1, 2025, MPWMD allocated 72-acre -feet of water per year (AFY) from the Pure Water Monterey Expansion ("PWMEx") project to the County for use in the MPWMD Cal-Am service area. The County had 10.95 AFY remaining from its previous Paralta/Pre-Paralta allocations as of January 27, 2025, bringing the total combined allocations to the County to 82.95 AFY. The use of the water is at the County's discretion. When the County approves an allocation of water (also known as a release of allocation, as described in MPWMD Rule 33), MPWMD debits the amount from the County's allocation when the project receives a water permit.

The County may approve developments, and construction permits in the unincorporated areas pursuant to Monterey County Code ("MCC"). Construction permits can only be issued after the issuance of a water permit from MPWMD.

Water allocated by MPWMD to the County is currently limited and the demand by property owners and developers for the County's limited water allocation within the unincorporated area exceeds the limited supply. MPWMD staff have determined that up to 2,000 AFY are available and that they may provide additional allocations to jurisdictions in the future. This Policy is drafted in a manner where any new allocations that are provided to the County from MPWMD can be distributed in accordance with the use categories and associated percentages available rather than relying on the AFY of allocation available as of the date of this Policy.

Currently, the County does not have an adopted policy for the allocation of water in the MPWMD area. The past practice of the County typically included approval of a water allocation at the time a construction permit was ready to issue on a first-come first-served basis. The Planning Commission authorized the allocation of water when acting on a discretionary permit. In these cases, water allocations were reserved after the discretionary decision and until a construction permit was ready to issue. After accounting for most of the County's water allocation (circa 2000), staff established a "HCD Approved Water Waitlist" for those projects that were approved but could not move forward with building until water became available. Projects approved in the Bishop Ranch subsystem are also included in the "HCD Approved Water Waitlist"

DRAFT

due to updated MPWMD rules and regulations. This Policy addresses the "HCD Approved Water Waitlist" and updates the past practice for allocation of the County's water.

A formal Water Allocation Policy is necessary given recent changes in California housing law requiring prioritization of utility services for housing development planned in the County's Housing Element in its General Plans, the additional allocation of water provided to the County by MPWMD; and the lack of a formal policy to prioritize the allocation of water to uses and development that furthers County goals and interests.

III. Policy

It is the Policy of the County to prioritize the allocation of limited water resources in the Cal-Am service area of MPWMD to housing development. This prioritization is reflected in the following order of priority:

1. Honor past commitments to the allocation of water established in the "HCD Approved Water Waitlist".[1]
2. Development of Planned Housing Growth.[2]
3. First Come First Served.[3]
4. Strategic Reserve.[4]

In accordance with the above listed priorities, the Director of Housing and Community Development, or their designee (collectively, "HCD Director") shall be charged with tracking water allocations provided to the County and reserving portions of each new allocation as follows:

Prior commitments established in the "HCD Approved Water Waitlist" for the allocation of water shall be accounted for and deducted from the total allocation available.

---

[1] Past commitments include water allocated by the Board of Supervisors, Planning Commission, Zoning Administrator, or Chief of Planning and those properties or projects that have been on the County's "water waiting list" as modified to exclude properties and projects that were on the list but have subsequently secured water from other sources prior to receiving an allocation from the County. The "HCD Approved Water Waitlist" is available at the Housing and Community Development Department.

[2] Planned Housing Growth as defined this Policy in Section IV.1.I.

[3] All remaining development projects that do not meet the definition of Planned Housing Growth would fall under this category. Residential development shall comply with fixture limitations as defined in Section IV.2.I.

[4] This category can be allocated to other uses that are not covered under other categories, at the discretion of the Board of Supervisors as defined in Section IV.3.

DRAFT

After accounting for prior commitments, all remaining water and any future allocations shall be reserved as follows:

- 80% of allocations shall be reserved for Planned Housing Growth;
- 15% First-come, First-Served Basis; and
- 5% of allocations shall be retained as a strategic reserve.
    - *The Monterey County Board of Supervisors shall retain the authority to approve allocations from the Strategic Reserve category pursuant to a resolution.

IV. Procedure

The County shall review all land use entitlement permit and construction permit applications in the Cal-Am service area of MPWMD pursuant to this Policy. An application for development requesting water shall be submitted with an MPWMD water permit application and a written request from the applicant for an allocation of water from the County specifying the amount of water requested and identifying the category the water is proposed to come from (i.e. Planned Housing Growth, First Come First Served, or Strategic Reserve).

Once the MPWMD application has been reviewed and approved by the County, the applicant will be responsible for submitting the application to the MPWMD to obtain a water permit. A construction permit will be released to the applicant once the MPWMD water permit has been issued and the applicant has provided proof of the approved permit to HCD.

Additional procedures on water allocation, reservation, and time limit can be found in Subsection 4 through 7 below.

1. Planned Housing Growth:
    i. Projects that qualify under this category include the following:
        a. A housing project that:
            - Is located in an Affordable Housing Overlay as defined in the 2010 General Plan, or is listed as a Housing Element Opportunity Site in the 6th Cycle Housing Element Update; and
            - Provides no fewer than the minimum percentage of total units deed restricted to lower-income and moderate-income households as required by MCC Chapter 18.40 or provides more than 50 percent of the units at levels affordable to moderate income, workforce I, and/or workforce II households; and
            - Meets a minimum density of 10 dwelling units/per 1 acre.

        Exclusive from the above, the following projects also qualify under this category:

        b. An accessory dwelling unit or junior accessory dwelling unit that does

DRAFT

not exceed a subtotal of 0.12 afy as demonstrated in Table No. 1 of MPWMD Rule 24 Table 1: Residential Fixture Unit Count Values.

c. A single-family dwelling on a vacant lot of record that does not exceed a proposed total fixture unit count of 0.25 afy as demonstrated in Table No. 1 of MPWMD Rule 24 Table 1: Residential Fixture Unit Count Values.
d. Portions of housing projects that are deed-restricted to low-income households as required by MCC Chapter 18.40 or as required by State Housing Law (i.e. State Density Bonus Law and/or Builders Remedy Law).
e. Expansions to existing multifamily developments.

ii. Procedure for Planned Housing Growth:

a. Ministerial Process (if no land use entitlement is required under the MCC): The HCD Director may approve a water allocation at the time a construction permit is ready to issue provided the project conforms with this Policy.

The water allocation will be held for the period of time that the construction period remains active as noted in the "Time Limits" discussion.

b. Discretionary Process (if a land use entitlement is required under the MCC): The Appropriate Authority, may approve a water allocation with the land use entitlement. The Appropriate Authority shall consider whether the project conforms to this Policy.

The water allocation will be held by the project for the period that the entitlement remains active as noted in the "Time Limits" discussion.

The decision of the Appropriate Authority is appealable as outlined in the MCC.

2. <u>First Come First Served:</u> For projects that do not qualify for Planned Housing Growth as described in this Policy, the following requirements apply:

i. Residential Unit Fixture Maximums – the following fixture unit maximums apply for residential projects to be considered for water credits under this category.

a. Existing Single Family Residential Dwellings (SFDs) and Existing Multifamily Residential Dwelling Units (MFDs)– Water may be allocated for expansions, remodels, or replacement of existing SFDs and MFDs, provided that:

- The total proposed water usage for the SFD does not exceed 0.25 afy as demonstrated in Table No. 1 of MPWMD Rule 24, Table No. 1 – Residential Fixture Count Unit Values; or
- No maximum shall apply to the expansion, remodel or replacement of MFDs.

DRAFT

ii. Non-Residential Uses - No water usage maximums apply. Changes in use and new construction of non-residential uses requires a water allocation and subsequent water permits from MPWMD.

iii. Requests for Water for Emergency Situations – The HCD Director may approve a water allocation exceeding the water usage maximums described in this Policy if there is a demonstrated need or emergency warranting such allocation. Emergency allocations may include emergency fire suppression infrastructure required by the appropriate Fire Authority. Such decisions of the HCD Director are appealable to the Planning Commission.

iv. Procedure for First Come First Served

a. Ministerial Process (if no land use entitlement is required under the MCC): The HCD Director, may approve a water allocation at the time a construction permit is ready to issue, provided that the project complies with this Policy.

The water allocation will be held for the period of time that the construction period remains active as noted in the "Time Limits" discussion. The decision of the HCD Director is not appealable.

b. Discretionary Process (If a land use entitlement is required under the MCC): The Appropriate Authority may approve a water allocation with the land use entitlement. The Appropriate Authority shall consider whether the project conforms to this Policy.

The water allocation will be held by the project for the period that the entitlement remains active as noted in the "Time Limits" discussion.

The decision of the Appropriate Authority is appealable as outlined in the MCC.

3. <u>Strategic Reserve:</u>

i. Procedure

a. The Board of Supervisors may authorize the allocation of water or authorize the HCD Director to approve the allocation of water, for those projects or properties that do not conform to these criteria from the Strategic Reserve allocation category. The Board shall consider the following findings when authorizing water allocation:

1. The project has been designed to minimize the amount of water needed; and
2. The project complies with the County's adopted policies and regulations; and

DRAFT

3. The project will provide affordable housing, create new jobs, or has a public benefit.

The water allocation will be active as discussed in the "Time Limits" section below. The Board of Supervisor's decision is not appealable.

4. HCD Director – Additional Review Procedure:

If, in the opinion of the HCD Director, additional review is required prior to approving a water allocation for a project that does not require land use entitlements, the HCD Director may refer the matter to the Planning Commission for a decision. The HCD Director can refer to a decision to the Planning Commission if any of the following would occur through the granting of a water allocation:

1. Significant public policy issues;
2. Significant, unmitigable, and adverse environmental impacts; or
3. Establishment of precedents or standards by which other projects will be measured.

Decisions of the Planning Commission are appealable to the Board of Supervisors.

5. Procedures for Projects Requesting Water Allocation Prior to Policy Adoption

Projects requiring a discretionary permit that have requested a water allocation prior to the adoption of this Policy, but who were not on the "HCD Approved Water Waitlist" should be considered by the Planning Commission with the decision appealable to the Board of Supervisors.

Projects requiring a ministerial permit that have requested a water allocation prior to the adoption of this Policy, but who were not on the "HCD Approved Water Waitlist" should be considered by the HCD Director.

6. Procedures for Water Reservation

The HCD Director shall notify an applicant for projects requiring a discretionary permit (land use entitlement) of the project's eligibility for a water reservation at the time the application is determined "complete" by County staff. The HCD Director shall notify an applicant for projects requiring a ministerial permit (no land use entitlement required) of the project's eligibility for a water reservation at the time the application's review is determined "complete" by County staff. Such notification shall include the use category the project is eligible to request water from (i.e. "Planned Housing Growth", "First-Come, First-Served"). When a project is determined to be eligible for a water reservation, the HCD Director shall deduct the water requested for the project from the appropriate use category and reserve that water for the project for the time period prescribed herein.

The County will maintain a list of projects that have been provided notice of eligibility for a water reservation, including the amount of water requested and the use category the water is proposed to come from. Such list will be available on the County's website.

DRAFT

A project that was deemed eligible with this Policy can reserve the water allocation at the time of completeness determination for 12 months as the applicant continues to pursue approval of land use entitlements and construction permits. Should the applicant not receive the required permits within the 12-month period, the water reservation will return to the County's water allocation and be available for distribution to other projects.

Prior to the end of the 12-month period, the applicant can make a written request to the HCD Director for an extension to the water reservation. The HCD Director may approve an extension of up to 6 additional months if the applicant has diligently pursued permits and additional time is needed for processing of the permit by the County.

7. Time Limits on County Water Allocations

The County's water allocations may be held by a project applicant for the time limits set by the MCC for approved construction permits and approved land use entitlements as applicable. If a project's water allocation lapses, the allocation will be made available to other projects per this Policy.

For ministerial and discretionary permits, time extensions can be considered by the Appropriate Authority. A project provided water allocation pursuant to this Policy shall be held by a project applicant for a maximum of 5 years. Projects that include affordable housing deed restricted to low-income households may be eligible for additional time extensions outside of the 5-year maximum. Such request shall be made in writing to the HCD Director outlining the need for the additional time and forwarded to the Appropriate Authority for decision.

8. Review of Allocation Policy

The HCD Director, or designee, shall regularly review this Policy to assess the need for changes. The review shall include:

- The remaining balance of water allocations within each of the categories defined in this Policy;
- The general magnitude of demand for water within each category;
- Any future water supplies that are anticipated; and
- Any changes to this Policy that may be warranted to better facilitate the allocation of water. This includes, for instance, the ability to modify policies, criteria, and procedures to better align with the intended purpose or the ability to shift the total amount of water reserved for each category given supply and demand.

9. Review Date

a. This Policy will be reviewed as needed to better align with the ability to shift the total amount of water reserved for each category given supply and demand or as directed by the Board.

I. Purpose

Establish a uniform Ppolicy for the allocation of limited water resources within the unincorporated areas of Monterey County within the Monterey Peninsula Water Management District California American Water Company ("Cal-Am") service area.

II. Background

Monterey Peninsula Water Management District ("MPWMD") has adopted rules that govern water resources within its jurisdictional boundaries (see Figure 1 below). MPWMD rules include, among other things, the ability to allocate water to local governments within its territory. This includes allocations to the County of Monterey ("County").

Water allocations are used by MPWMD to manage Cal-Am water supplies within MPWMD boundaries. See Figure 1 for MPWMD District Boundaries.

Commented [SW1]: Made clarifying edits throughout to acknowledge Cal-Am service area of MPWMD in response to MPWMD comments.

DRAFT

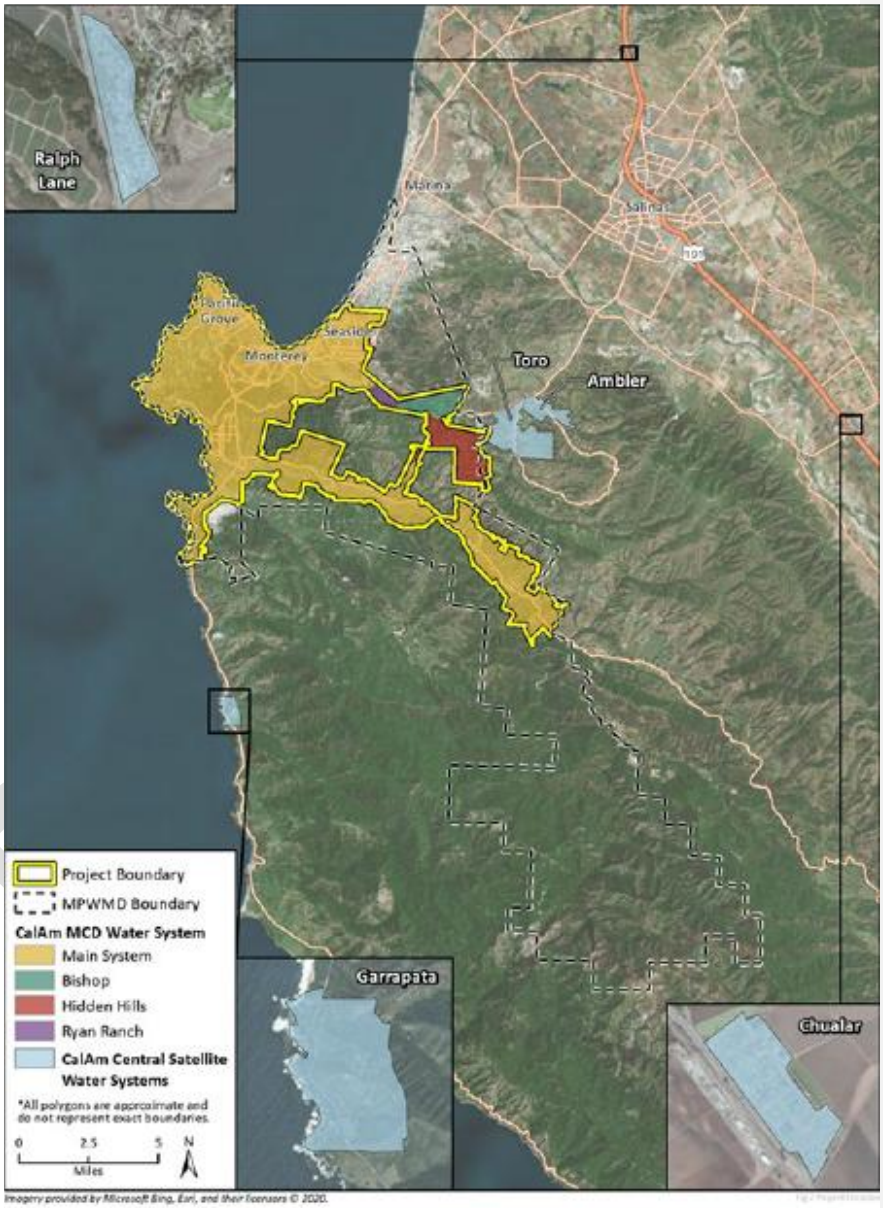

Figure 1 - MPWMD Service Area overlap with Cal-AM Service Area. Note: "Project Boundary" in yellow is the Cal-AM Service Area within MPWMD boundaries

The State Water Resources Control Board's Cease-and-Desist Order (CDO) against Cal-Am is in place for new Cal-Am service connections and does not currently allow for the installation of new water meters. A request to modify the CDO is under review and pending with the State Water Resources Quality Control Board ~~(SWQCB)~~.

On January 27, 2025, MPWMD adopted Ordinance No. 197, modifying Rule 33 requiring projects in the Bishop Ranch subsystems that request an allocation of water be allocated water from the County's allocation as the Bishop Ranch subsystem is now connected into the Main Cal-Am water system. Before this date, water was allocated from the Seaside Groundwater Basin, which is an adjudicated basin.

Commented [SW2]: Relocated discussion from below and revised for clarity.

On ~~January 27~~March 1, 2025, MPWMD allocated 72-acre -feet of water per year (AFY) from the Pure Water Monterey Expansion ("PWMEx") project to the County for use in the MPWMD Cal-Am service area. The County had 10.95 AFY remaining from its previous ~~the~~ Paralta/Pre-Paralta allocations as of January 27, 2025, bringing the total combined allocations to the County to 82.95 AFY. The use of the water is at the County's discretion. When the County approves an ~~suballocation~~ allocation of water (also known as a release of allocation, as described in MPWMD Rule 33), MPWMD debits the amount from the County's allocation when ~~it issues~~the project receives a water permit.

Commented [SW3]: Included to provide cross reference with MPWMD Rules and Regulations and District terminology.

The County may approve developments, and construction permits in the unincorporated areas pursuant to Monterey County Code ("MCC"). Construction permits can only be issued after the issuance of a water permit from MPWMD.

Water allocated by MPWMD to the County is currently limited and the demand by property owners and developers for the County's limited water allocation within the unincorporated area exceeds the limited supply. MPWMD staff have determined that up to 2,000 AFY are available and that they ~~will~~ may provide additional allocations to jurisdictions in the future. This Policy is drafted in a manner where any new allocations that are provided to the County from MPWMD can be distributed in accordance with the use categories and associated percentages available rather than relying on the AFY of allocation available as of the date of this Policy.

Commented [SW4]: Deleted one sentence and provided additional text on how the structure of the Policy can assist with future allocations of water to the County by MPWMD.

Currently, the County does not have an adopted policy for the allocation of water in the MPWMD area. The past practice of the County typically included approval of a water ~~credit~~ allocation at the time a construction permit was ready to issue on a first-come first-served basis. The Planning Commission authorized the allocation of water ~~credits~~ when acting on a discretionary permit. In these cases, water allocations were reserved after the discretionary decision and until a construction permit was ready to issue. After accounting for most of the County's water allocation (circa 2000), staff established a "HCD Approved W~~w~~ater ~~waiting list~~Waitlist" for those projects that

were approved but could not move forward with building until water became available. Projects approved in the Bishop ~~and Ryan~~ Ranch subsystem~~s~~ are also included in the "~~water waiting list~~HCD Approved Water Waitlist" due to updated MPWMD rules and regulations. This Policy addresses the "~~water waiting list~~HCD Approved Water Waitlist" and updates the past practice for allocation of the County's water.

A formal Water Allocation Policy is necessary g~~G~~iven recent changes in California housing law requiring ~~municipalities to prioritize~~prioritization of utility services for housing development planned in the County's Housing Element ~~of the~~in its General Plans, the ~~finite~~ additional allocation of water provided to the County by MPWMD~~,~~; and the lack of a formal policy to prioritize the allocation of water to uses and development that furthers County goals and interests~~, development of a Water Allocation Policy for areas within the MPWMD service area is prudent~~.

III. Policy

It is the ~~policy~~ Policy of the County to prioritize the allocation of limited water resources in the Cal-Am service area of MPWMD ~~area~~ to housing development. This prioritization is reflected in the following order of priority:

1. Honor past commitments to the allocation of water established in the "HCD Approved Water Waitlist".[1]
2. Development of Planned Housing Growth.[2]
3. First Come First Served.[3]
4. Strategic Reserve.[4]

In accordance with the above listed priorities, the Director of Housing and Community Development, or their designee (collectively, "HCD Director") shall be

Prior commitments established in the "HCD Approved Water Waitlist" for the allocation of water shall be accounted for and deducted from the total allocation available.

- 15% First-come, First-Served Basis; and
- 5% of allocations shall be retained as a strategic reserve.
    - *The Monterey County Board of Supervisors shall retain the authority to approve allocations from the Strategic Reserve category pursuant to a resolution.

IV. Procedure

The County shall review all land use entitlement permit and construction permit applications in the Cal-Am service area of MPWMD ~~service area~~ pursuant to this Policy. An application for development requesting water shall be submitted with an MPWMD water permit application and a written request from the applicant for an allocation of water from the County specifying the amount of water requested and identifying the category the water is proposed to come from (i.e. Planned Housing Growth, First Come First Served, or Strategic Reserve).

Once the MPWMD application has been reviewed and approved by the County, the applicant will be responsible for submitting the application to the MPWMD to obtain a water permit. A construction permit will be released to the applicant once the MPWMD water permit has been issued and the applicant has provided proof of the approved permit to HCD.

Commented [SW6]: Relocated discussion from Subsection 4 to improve clarity on County permitting and MPWMD water permit approval process. Relocated and revised text that was here previously that discussed eligibility process to new Subsection 6.

Additional procedures on water allocation, reservation, and time limit can be found in Subsection 4 through 7 below.

1. Planned Housing Growth:
    i. Projects that qualify under this category include the following:
        a. A housing project that:
            - Is located in an Affordable Housing Overlay as defined in the 2010 General Plan, or is listed as a Housing Element Opportunity Site in the 6th Cycle Housing Element Update; and

Exclusive from the above, the following projects also qualify under this category:

~~e.~~

ii. Procedure for Planned Housing Growth:

a. Ministerial Process (if no land use entitlement is required under the MCC): The HCD Director may approve a water allocation at the time a construction permit is ready to issue provided the project conforms with this Policy.

The water allocation will be held for the period of time that the construction period remains active as noted in the "Time Limits" discussion.

b. Discretionary Process (if a land use entitlement is required under the MCC): The Appropriate Authority, may approve a water allocation with the land use entitlement. The Appropriate Authority shall consider whether the project conforms to this Policy.

The water allocation will be held by the project for the period that the entitlement remains active as noted in the "Time Limits" discussion.

Commented [SW7]: Revised water usage maximums and revised references to MPWMD rules for clarity and in response to Planning Commission direction.

DRAFT

The decision of the Appropriate Authority is appealable as outlined in the MCC.

2. First Come First Served: For projects that do not qualify for Planned Housing Growth as described in this Policy, the following requirements apply:
   i. Residential Unit Fixture Maximums – the following fixture unit maximums apply for residential projects to be considered for water credits under this category.
      a. Existing Single Family Residential Dwellings (SFDs) and Existing Multifamily Residential Dwelling Units (MFDs)– Water may be allocated for expansions, remodels, or replacement of existing SFDs and MFDs, provided that:
         - The total proposed ~~fixture count~~water usage for the SFD does not exceed ~~25 (~~0.25 afy~~)~~ as demonstrated in Table No. ~~2~~ 1 of ~~the~~ MPWMD ~~Residential Water Release Form and Water Permit Application~~Rule 24, Table No. 1 – Residential Fixture Count Unit Values; or
         - No maximum shall apply to the expansion, remodel or replacement of MFDs.

   ii. ~~ii.~~ Non-Residential Uses - No ~~fixture~~ water usage maximums apply ~~except as described in the procedures section that follows~~. Changes in use and new construction of non-residential uses requires a water allocation and subsequent water permits from MPWMD.

   iii. Requests for Water for Emergency Situations – The HCD Director may approve a water allocation exceeding the water usage maximums described in this Policy if there is a demonstrated need or emergency warranting such allocation. Emergency allocations may include emergency fire suppression infrastructure required by the appropriate Fire Authority. Such decisions of the HCD Director are appealable to the Planning Commission.

   ~~ii.~~iv. ~~iii.~~ Procedure for First Come First Served
      a. Ministerial Process (if no land use entitlement is required under the MCC): The HCD Director, may approve a water allocation at the time a construction permit is ready to issue, provided that the project complies with this Policy.

         The water allocation will be held for the period of time that the construction period remains active as noted in the "Time Limits" discussion. The decision of the HCD Director is not appealable.

      b. Discretionary Process (If a land use entitlement is required under the MCC): The Appropriate Authority may approve a water allocation with the land use entitlement. The Appropriate Authority shall consider whether the project conforms to this Policy.

Commented [SW8]: Revised water usage maximums and revised references to MPWMD rules for clarity and in response to Planning Commission direction.

Commented [SW9]: Added new use category in response to Planning Commission direction.

DRAFT

The water allocation will be held by the project for the period that the entitlement remains active as noted in the "Time Limits" discussion.

The decision of the Appropriate Authority is appealable as outlined in the MCC.

3. Strategic Reserve:
    i. Procedure
        a. The Board of Supervisors may authorize the allocation of water or authorize the HCD Director to approve the allocation of water, for those projects or properties that do not conform to these criteria from the Strategic Reserve allocation category. The Board shall consider the following findings when authorizing water allocation:

            1. The project has been designed to minimize the amount of water needed; and
            2. The project complies with the County's adopted policies and regulations; and
            3. The project will provide affordable housing, create new jobs, or has a public benefit.

        The water allocation will be active as discussed in the "Time Limits" section below. The Board of Supervisor's decision is not appealable.

4. HCD Director – Additional Review Procedure:

    If, in the opinion of the HCD Director, additional review is required prior to approving a water allocation for a project that does not require land use entitlements, the HCD Director may refer the matter to the Planning Commission for a decision. The HCD Director can refer to a decision to the Planning Commission if any of the following would occur through the granting of a water allocation:

        1. Significant public policy issues;
        2. Significant, unmitigable, and adverse environmental impacts; or
        3. Establishment of precedents or standards by which other projects will be measured.

    Decisions of the Planning Commission are appealable to the Board of Supervisors.

5. Procedures for Projects Requesting Water Allocation Prior to Policy Adoption

    Projects requiring a discretionary permit that have requested a water allocation prior to the adoption of this Policy, but who were not on the "~~water waiting list~~HCD Approved Water Waitlist" should be considered by the Planning Commission with the decision appealable to the Board of Supervisors.

DRAFT

Projects requiring a ministerial permit that have requested a water allocation prior to the adoption of this Policy, but who were not on the "~~water waiting list~~HCD Approved Water Waitlist" should be considered by the HCD Director.

6. Procedures for Water Reservation

The HCD Director shall notify an applicant for projects requiring a discretionary permit (land use entitlement) of the project's eligibility for a water reservation at the time the application is determined "complete" by County staff. The HCD Director shall notify an applicant for projects requiring a ministerial permit (no land use entitlement required) of the project's eligibility for a water reservation at the time the application's review is determined "complete" by County staff. Such notification shall include the use category the project is eligible to request water from (i.e. "Planned Housing Growth", "First-Come, First-Served"). When a project is determined to be eligible for a water reservation, the HCD Director shall deduct the water requested for the project from the appropriate use category and reserve that water for the project for the time period prescribed herein.

The County will maintain a list of projects that have been provided notice of eligibility for a water reservation, including the amount of water requested and the use category the water is proposed to come from. Such list will be available on the County's website.

A project that was deemed eligible with this Policy can reserve the water allocation at the time of completeness determination for 12 months as the applicant continues to pursue approval of land use entitlements and construction permits. Should the applicant not receive the required permits within the 12-month period, the water reservation will return to the County's water allocation and be available for distribution to other projects.

Prior to the end of the 12-month period, the applicant can make a written request to the HCD Director for an extension to the water reservation. The HCD Director may approve an extension of up to 6 additional months if the applicant has diligently pursued permits and additional time is needed for processing of the permit by the County.

~~6.~~7. Time Limits on County Water Allocations

The County's water allocations may be held by a project applicant for the time limits set by the MCC for approved construction permits and approved land use entitlements as applicable. If a project's water allocation lapses, the allocation will be made available to other projects per this Policy.

For ministerial and discretionary permits, time extensions can be considered by the Appropriate Authority. A project provided water allocation pursuant to this Policy shall be held by a project applicant for a maximum of 5 years. Projects that include affordable housing deed restricted to low-income households may be eligible for additional time extensions outside of the 5-year maximum. Such request shall be made in writing to the

~~7.~~8. Review of Allocation Policy

The HCD Director, or designee, shall regularly review this Policy to assess the need for changes. The review shall include:

- The remaining balance of water allocations within each of the categories defined in this ~~policy~~Policy;
- The general magnitude of demand for water within each category;
- Any future water supplies that are anticipated; and
- Any changes to this ~~policy~~ Policy that may be warranted to better facilitate the allocation of water. This includes, for instance, the ability to modify policies, criteria, and procedures to better align with the intended purpose or the ability to shift the total amount of water reserved for each category given supply and demand.

PROJECT INFORMATION

Agent: Laura Lawrence, Law Office of Aengus L. Jeffers
Property Owner: Andrew Berlin Trust
APN: 243-231-027-000
Zoning: Rural Density Residential, 40 acres per unit, Design Control, 14-foot height limit, Coastal Zone, or "RDR/40-D (14')(CZ)"
Plan Area: Big Sur Coast Land Use Plan
Flagged and Staked: No
Project Planner: Taylor Price, Senior Planner

SUMMARY:

The proposed project includes the replacement of a fence along Highway 1 in Big Sur and a gate at the driveway to a private property. The project was denied by the Zoning Administrator for procedural reasons - i.e. the project should have been heard by the Planning Commission instead of the ZA - and that denial has been appealed to the Board of Supervisors. In addition to that procedural misstep, there were contentions raised by a member of the public in opposition to granting the permit. By way of this appeal, the procedural issues are essentially resolved - the matter is now properly before the correct decision-making body. Substantively, staff have also reviewed the project and the public's objections and have determined that the project is consistent with the applicable plans, policies, and regulations that govern development. Accordingly, approval of the project (via granting the appeal) is recommended.

The proposed project was originally processed as a Minor and Trivial Amendment to a Coastal Administrative Permit, pursuant to Title 20 section 20.76.115. As such, the project was scheduled for consideration by the Chief of Planning on December 3, 2025. However, on November 20, 2025, a member of the public raised concern with the proposed design, potential impacts on nearby public vistas, and requested that the project be referred to a public hearing in accordance with Title 20 section 20.76.060. After receiving the written concerns, staff elevated the project to a hearing before the Zoning Administrator - this was in error, as the proper body for hearing this project should have been the Planning Commission

On March 26, 2026, after public testimony, the Zoning Administrator expressed that the proposed Minor and Trivial Amendment may not be trivial in nature due to the project's location within the critical viewshed of Highway 1 in Big Sur. At the March 26, 2026 hearing, the Zoning Administrator continued the item to a date certain (April 9, 2026) and directed staff to prepare a draft resolution recommending denial due to procedural inconsistencies. Ultimately, the Zoning Administrator denied the permit on the grounds that the permit should have been considered by the Planning Commission. The Zoning Administrator resolution is attached as **Attachment C**.

Appellants Andrew T. Berlin, Trustee of Andrew T. Berlin Revocable Trust appealed the April 9, 2026, Zoning Administrator decision denying the Minor and Trivial Amendment to the Combined Development Permit on procedural grounds. Appellants contend that the Zoning Administrator's findings and decision were not supported by the evidence, and the decision is contrary to the law. The specific contentions raised by the Appellant are identified below and are addressed in more detail in

the Draft Resolution (**Attachment A**).

This hearing is de novo. As explained herein, staff recommend granting the appeal and approval of the Combined Development Permit.

DISCUSSION:

The proposed fence and gate replacement was originally processed as a Minor and Trivial Amendment to a 2011 permit that included construction of a new house. Minor and Trivial Amendments can be approved by the Chief of Planning provided no objections are received during the noticing period. In this case, an objection to approval of the amendment was raised after notice was distributed and the Chief of Planning referred the project to the Zoning Administrator for a decision. The Zoning Administrator after review of the project determined that the project's Appropriate Authority was the Planning Commission, pursuant to Title 20 section 20.44.040.E. The Zoning Administrator determined that the project should have been referred to the Planning Commission rather than the Zoning Administrator as the Planning Commission was the Appropriate Authority to consider Design Approvals for structures which may impact public views. The Zoning Administrator also determined that the proposed Minor and Trivial Amendment was substantive due to the project's location within a scenic highway (Highway 1). On the procedural and technical grounds, the Zoning Administrator denied the permit application. Following the denial, the applicant timely appealed the Zoning Administrator's decision.

Appeal

The appellant, Andrew T. Berlin, Trustee of the Andrew T. Berlin Revocable Trust, filed an appeal with two contentions (**Attachment B**), which staff has summarized below:

1. *"Monterey County Code § 20.44.040.E states that the Planning Commission shall be the Appropriate Authority to consider Design Approval applicants for those structures which have the greatest potential to impact public views, such as structures along scenic highway or road corridors, in areas designed critical viewshed, or which may be prominent from common public viewing areas. Because the proposed development does not exceed 6 feet in height, it is not considered a structure under Monterey County Code §20.06.1200. Therefore, the Zoning Administrator was the Appropriate authority to consider the Minor and Trivial Amendment Design Approval applicant under Monterey County Code §20.44.040.C."*

2. *"While the project site is located along Highway 1, it is expressly exempt from Big Sur's Critical Viewshed as it is located in the Rocky Point Exception Area established pursuant to Big Sur LCP Policy 3.2.4 such that development on the Property is expressly subject to the standards of Big Sur LCP Policy 3.2.4"*

Staff has reviewed the contentions raised in the appeal. Responses to the contentions are provided in more detail in the draft Resolution (**Attachment A**). In summary, the Board of Supervisors can approve or deny the permit as the appeal authority from the Zoning Administrator or Planning Commission decisions, resolving all procedural issues; and regarding the merits of the application, staff has found that the proposed project is consistent with the applicable policies and regulations that apply.

Design/Critical Viewshed

The Critical Viewshed is defined as everything visible from Highway 1. Big Sur Coast Land Use Plan (BSC LUP) Policy 3.2.1 prohibits development visible from Highway 1 and major public viewing areas. The subject property is located along Highway 1, and according to Policy 3.2.2 of the BSC LUP, is located within a Critical Viewshed. Pursuant to Title 20 section 20.16.030.B development in the Big Sur Coast within the Critical Viewshed is required to obtain a Coastal Development Permit.

Development within the Critical Viewshed shall be prohibited; however, BSC LUP Policy 3.2.3.A.7 and section 20.145.030.A.2.f of the Coastal Implementation Plan, Part 3 allows replacement of existing structures on the original site, provided no other less visible portion of the site is acceptable to the property owner, and as long as the replacement does not increase the visibility of the structure. The proposed fence and gate are in a similar location to the original gate and fence; and have been sited slightly deeper into the property from Highway 1 to further minimize the visibility of the gate and fence. Finally, the gate and fence as proposed do not increase their visibility into the Critical Viewshed and are in fact set further back into the property to minimize the portion of the fence and gate in the Critical Viewshed.

The proposed fence would be consistent with the rural setting and character of Big Sur through its use of natural locally sourced stone and dark bronze materials that reflect the subdued colors and textures of the surrounding landscape. The natural stone (varying beige and earthy colors) complements the geologic characteristics of the Big Sur coastline and Santa Lucia Mountains, while the dark bronze gate provides a muted, non-reflective earth tone that minimizes visual contrast with nearby vegetation. The proposed stone fence would mirror other stone fences along the Big Sur Coast, including nearby properties and Sea Meadow at Rocky Point. Like the existing fence line, the replacement fence incorporates semi-modern design elements such as rough-cut irregular locally sourced stones to soften the appearance. The rustic character in the Big Sur area is maintained through minimizing the bulk and mass of those structures that may be allowed in the Critical Viewshed, maintaining visual access to the ocean (where applicable), and through the use of natural materials, earth-toned finishes, and visual compatibility with the surrounding landscape. The fence's height would be nearly identical to the existing fence, and the perceived change in massing would be limited, given that only 53.5 feet of the front property line fence is being modified. By utilizing natural materials and earth-toned finishes, the proposed fence would be designed to visually recede into the landscape and remain subordinate to the surrounding scenery, making it complementary to the semi-wilderness character of Big Sur identified in LUP Policy 3.2. The remainder of the front property line will continue to be developed with a louvered wood fence, which would be repaired as needed. The proposed fence would smoothly transition into the existing fenceline. As proposed, the entire front property fenceline would consist of natural materials and be of a bulk and mass that does not detract from the scenic beauty of Highway 1 and would not block ocean views. The proposed replacement fence would not impact any nearby vista point, nor substantially change the Highway 1 scenic corridor.

Cultural Resources

The project is within 750 feet of known archaeological resources. Section 20.145.120.A.1 of the Coastal Implementation Plan, Part 3, requires development within 750 feet of known archaeological resources to obtain a Coastal Development Permit. An Archaeological Assessment was prepared as a

part of the previous project (PLN110257), which determined that there was no evidence of cultural resources found around the project area. As the current project is within the existing developed site and does not involve land clearing and minimal land disturbance the project is eligible for an archaeological survey waiver pursuant to section 20.145.120.B.5 of the Coastal Implementation Plan, Part 3.

LAND USE ADVISORY COMMITTEE REVIEW (LUAC):
The project was not referred to the Big Sur LUAC. As a Minor and Trivial Amendment, it was determined that the project did not require LUAC review pursuant to the Board adopted LUAC Guidelines. The decision to refer the matter to the Big Sur LUAC was not revised following the Zoning Administrators decision and appeal given that the County has a limited time to process the appeal.

CEQA:
California Environmental Quality Act (CEQA) Guidelines section 15302 categorically exempts replacement structures where the new structures will be located on the same site and have substantially the same purpose and capacity as the structure replaced. The project includes construction of a replacement fence and gate. The replacement fence and gate will be located in the same area as the existing fence and gate and serve the same purpose. Therefore, the project is consistent with the categorical exemption requirements of CEQA Guidelines section 15302. None of the exceptions under CEQA Guidelines section 15300.2 apply to this project. The project does not involve alterations to a designated historical resource, a hazardous waste site, or development that would result in a cumulatively significant impact. Although the project is visible from Highway 1, the development is rural in design, compatible with the surrounding environment, and will not have an adverse impact on public or visual access. There are no unusual circumstances associated with undertaking the project that would create a reasonable possibility that the project would have a significant effect on the environment.

FINANCING:
Funding for staff time associated with this project is included in the FY2025-26 Adopted Budget for Housing and Community Development, General Fund 001, Appropriation Unit HCD002, Unit 8543. County staff have collected fees for processing this permit. No fee is charged for an appeal of a Coastal Development Permit that is appealable to the California Coastal Commission.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The project aligns with Board of Supervisors Strategic Plan Goals A: This action represents effective and timely response to our HCD customers. Processing this application in accordance with all applicable policies and regulations also provides the County accountability for proper management of our land resources.

    c) A Coastal Development Permit for development within 750 feet of an archaeological resource.

[BERLIN ANDREW T TR, 35986 HWY 1, Big Sur Coast Land Use Plan, APN: 243-231-027-000].

The Appeal by Andrew T. Berlin, Trustee of the Andrew T. Berlin Revocable Trust from the decision by the County of Monterey Zoning Administrator came for a public hearing before the County of Monterey Board of Supervisors on June 9, 2026. Having considered all the written and documentary evidence, the administrative record, the staff report, written and oral testimony, the Board of Supervisors finds and decides as follows:

FINDINGS

1. FINDING: **PROCESS REQUIREMENTS** – The County received and processed a Minor and Trivial Amendment to previously approved Combined Development Permit (HCD Planning File No. PLN110257; Planning

Commission Resolution No. 11-048). It was determined that this Minor and Trivial Amendment was processed incorrectly – a procedural error – and should have been processed as a Combined Development Permit. By way of this appeal to the correct final decision making body, those procedural errors are resolved.

EVIDNECE:

a) Application. An application was filed with the County on August 18, 2025 to allow the replacement of a wood fence and gate at 35986 Highway 1, Big Sur (County File No. PLN110257-AMD1).

b) Background. On December 14, 2011, the Monterey County Planning Commission approved PLN110257 for a Combined Development Permit consisting of: 1) Coastal Administrative Permit to allow the demolition of an existing 1,960 square foot one-story single-family dwelling and 66 square foot guest unit and the construction of a 9,255 square foot two-story single-family dwelling, new retaining walls, perimeter fencing, and associated grading (2,573 cubic yards cut, 2,573 cubic yards fill); 2) Coastal Development Permit for development within 750 feet of an archaeological resource; 3) Coastal Development Permit for development within 50 feet of a coastal bluff; 4) Coastal Development Permit for a Lot Line Adjustment to merge two parcels into one parcel; and 5) Design Approval. Approval of this permit included 31 conditions of approval.

On April 9, 2012, the previously approved Coastal Development Permit for a Lot Line Adjustment (HCD-Planning File No. PLN110257) was granted an Unconditional Certificate of Compliance (Document No. 2012021134) to reflect the Lot Line Adjustment to merge two parcels into one parcel.

On November 3, 2014, the associated Construction Permits (Building Permit No. 12CP00985) were granted for the project, and the project had undergone a final inspection.

On August 18, 2025, an application for a Minor and Trivial Amendment (PLN110257-AMD1) was submitted to HCD-Planning staff. This application was submitted in accordance with Title 20 section 20.76.115.

On December 3, 2025, pursuant to the provisions of Section 20.76.1115, the project was scheduled to be heard for consideration by the Chief of Planning as a Minor and Trivial Amendment to a Coastal Development Permit. However, on November 20, 2025 a member of the public raised concerns with the proposed design, potential impacts on nearby public vistas, and requested that the project be referred to a public hearing. The project was referred to the Zoning Administrator, pursuant to Title 20 section 20.76.060.

On March 26, 2026, the Monterey County Zoning Administrator considered a revised scope of work, which included allowing the replacement of 53.5 feet of the existing wood fence and the main entrance gate with a stone wall and dark bronze entrance gate. On

March 26, 2026, at a duly-noticed public hearing at which all persons had the opportunity to be heard, the Zoning Administrator determined that the proposed Minor and Trivial Amendment had procedural errors and should have been considered by the Planning Commission in accordance with Title 20 section 20.44.040.E. The Zoning Administrator also determined that the proposed Minor and Trivial Amendment was substantive due to the project's location within a scenic highway (Highway 1). Therefore, the Zoning Administrator continued the item to a date certain (April 6, 2026) and directed staff to prepare a resolution with an intent to deny due to procedural inconsistencies.

On April 9, 2026, the Monterey County Zoning Administrator considered a resolution denying the revised scope of work, which included allowing the replacement of 53.5 feet of the existing wood fence and the main entrance gate with a stone wall and dark bronze entrance gate. On April 9, 2026, at a duly-noticed public hearing at which all persons had the opportunity to be heard, the Zoning Administrator denied the Minor and Trivial Amendment to a previously approved Combined Development Permit (PLN110257).

On April 15, 2026, Andrew T. Berlin, Trustee of the Andrew T. Berlin Revocable Trust (The Law Office of Aengus L. Jeffers representing Appellant), timely appealed the April 9, 2026 decision of the Zoning Administrator, pursuant to Title 20 section 20.86.030.A of Monterey County Code (MCC). Appellant's contentions related to the Zoning Administrator's determination that the Planning Commission was the Appropriate Authority to consider the project and that the proposed Minor and Trivial Amendment was not substantively flawed due to the project's location within a scenic highway (Highway 1), see further discussion in Finding No. 8.

Pursuant to MCC Title 20 sections 20.86.030.C and E, an appeal shall be filed with the Clerk of the Board of Supervisors within 10 days after written notice of the decision of the Appropriate Authority (i.e., Zoning Administrator Resolution No. 26-024) has been mailed to the Applicant. The County emailed the written notice of the decision on April 9, 2025, and said appeal was filed with the Clerk of the Board of Supervisors on April 15, 2025, within the 10-day timeframe prescribed by MCC Title 20 section 20.86.030.C. The appeal hearing is de novo. A complete copy of the appeal is on file with the Clerk of the Board, and is attached to the June 9, 2026 staff report to the Board of Supervisors as **Attachment B**.

On April 28, 2026 the project applicant submitted revised plans that were responsive to some of the concerns raised by a community member during the Zoning Administrator hearing. The revised plans include rough-cut rocks, rather than neatly arranged straight cut rocks. These rough-cut rocks, consisting of locally sourced natural stones, are more reflective of the rural setting of Big Sur and use natural materials consistent with materials found in the area, see discussion in Finding

No. 4. This resolution contains findings and evidence that reflect the design as proposed in the April 28, 2026 plans.

c) The appeal was timely brought to a duly-noticed public hearing before the Monterey County Board of Supervisors on June 9, 2026. Notice of the hearing was published on May 28, 2026 in the Monterey County Weekly; notices were mailed on May 28, 2026 to all property owners and occupants within 300 feet of the project site, and to persons who requested notice; and at least three notices were posted at and near the project site on May 28, 2026.

d) The Board of Supervisors is the appropriate authority to consider appeals of the Zoning Administrator and Planning Commission decisions. Additionally, the Board hearing and action on the appeal is de novo, meaning from the beginning or anew. Therefore, the Board has the authority to act on the project and appeal without being constrained by prior decisions. The appeal inherently corrects procedural errors regarding the "appropriate authority" to consider the permit. The project description has also been revised to exclude amendments to the long completed prior work authorized in 2014 and focus on the proposed fence and gate.

e) The application, plans, and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed Combined Development Permit are found in project file PLN110257-AMD1.

2. FINDING: **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:

- 1982 Monterey County General Plan;
- Big Sur Coast Land Use Plan (BSC LUP);
- Monterey County Coastal Implementation Plan – Part 3; and
- Monterey County Zoning Ordinance - Coastal (Title 20).

No conflicts were found to exist. Communications were received during the course of review of the project indicating potential inconsistencies with the text, policies, and regulations in these documents. The Zoning Administrator interpretation of the Code as applies to this project found that project was not processed in accordance with the requirements of Title 20 Chapter 20.44. Comments have been reviewed and addressed. As proposed, the project is consistent with the applicable text, policies and regulations. A more thorough analysis of the zoning code as it applies to this project is provided in the findings and evidence that follows.

b) Project. The Project includes demolishing 53.5 linear feet of the existing front property line fencing and gate and constructing a replacement stone wall (32 linear feet) and entrance gate (21.5 linear feet). The proposed stone wall would replace a portion of an existing louvered wood fence. The proposed dark bronze entrance gate would replace the existing wood entrance gate. A wood and metal side gate would be

installed perpendicular to the entrance gate, but behind the proposed stone wall. The remainder of the property line would continue to be improved with the existing louvered wood fence, which would be repaired as needed.

c) Allowed Use. The property is located at 35986 HWY 1, Big Sur Coast Land Use Plan, APN: 243-231-027-000. The parcel is zoned Rural Density Residential, 40 acres per unit, Design Control overlay, with a 14-foot height limit, in the Coastal Zone or "RDR/40-D(14')(CZ)", which allows for construction of accessory structures to any permitted use. The proposed project includes replacing 53.5 feet of an existing front property line fence and entrance gate. This Combined Development Permit incorporates colors and materials to match the existing structures.

d) Lot Legality. The subject property (APN: 243-231-027-000) is recognized by the County of Monterey as a legal lot of record per recordation of a Certificate of Compliance (Document #2012021134).

e) Critical Viewshed/Design. The project is consistent with the Big Sur Coast Land Use Plan (BSC LUP) policies protecting scenic resources and their implementing regulations in the related CIP, as detailed in Finding No. 4.

f) Development Standards. The development standards for the RDR zoning district are identified in Title section 20.16.060. The proposed fence and entry gate are located along the front property line. However, because the proposed development does not exceed 6 feet in height, it is not considered a structure and thus is not subject to setback requirements for accessory structures. Therefore, as proposed, the project conforms with the applicable development standards of the zoning district.

g) Cultural Resources. According to County resource maps, the subject property is located within 750 feet of a known archaeological resource. Therefore, the subject property is required to have archaeological report, pursuant to Coastal Implementation Plan (CIP) section 20.145.120.A.1 of the Coastal Implementation Plan, Part 3. However, pursuant to CIP section 20.145.120.B.1, an archaeological survey was previously prepared for the site. The report identified small quantities of shellfish and abalone found near the bluff, and a positive archaeological site located on an adjacent property. However, no evidence of cultural resources was found in the area proposed for development. The proposed development is located within the previously disturbed portions of the property. Minimal ground disturbance is required for the fence posts. As the project is within the developed area, involves no land clearance and minimal land disturbance, and has an archaeological survey that was previously prepared, the proposed project is eligible for an archaeological survey waiver pursuant to CIP section 20.145.120.B.5.

The potential for inadvertent impacts on cultural resources is limited and will be further controlled by application of the County's standard project condition (Condition No. 3), which requires the contractor to stop work if previously unidentified resources are discovered during construction.

Thus, as proposed, designed, and conditioned, the proposed project minimizes and avoids potential impacts to archaeological resources.

h) Land Use Advisory Committee (LUAC) Review. The project was not referred to the Big Sur LUAC. As a Minor and Trivial Amendment, it was determined that the project did not require LUAC review pursuant to the Board adopted LUAC Guidelines. The decision to refer the matter to the Big Sur LUAC was not revised following the Zoning Administrator decision and appeal given that the County has a limited time to process the appeal.

i) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257-AMD1.

3. FINDING: **SITE SUITABILITY –** The site is physically suitable for the proposed development and/or use.

EVIDENCE:

a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, CalFire (Big Sur), and the Environmental Health Bureau. County staff reviewed the application materials and plans to verify that the project on the site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development. Conditions recommended have been incorporated.

b) The following technical reports were previously prepared for this property and are applicable to the proposed development:

- Archaeological Analysis and Testing (LIB110286) prepared by Gary Breschini of Archaeological Consulting, Salinas, CA, June 16, 2011
- Archaeological Analysis and Testing (LIB110287) prepared by Gary Breschini of Archaeological Consulting, Salinas, CA, June 21, 2010

Upon independent review, staff concurs with the conclusions of the report. There are no physical or environmental constraints that render the site unsuitable for the proposed project.

c) Staff conducted a site inspection on November 12, 2025 to verify that the site is suitable for this use.

d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257-AMD1.

4. FINDING: **CRITICAL VIEWSHED AND DESIGN –** The project preserves Big Sur's scenic resources and minimizes impacts to the Critical Viewshed in accordance with the applicable goals and policies of the Big Sur Coast Land Use Plan (BSC LUP) and Coastal Implementation Plan (CIP). The project assures protection of the public viewshed and neighborhood character in accordance with the Design Control "D" Overlay Zoning District.

EVIDENCE:

a) Relevant Policies. The property is subject to the Scenic Resources Policies of the BSC LUP for visual resources and their implementing regulations in the CIP. The property is located along Highway 1 and

pursuant to BSC LUP Policy 3.2.2 everything within sight of Highway 1 is considered within the Critical Viewshed.

Policy 3.2.1 prohibits all public and private development in the Big Sur Critical Viewshed, which includes everything within sight of Highway 1. However, while development within the Critical Viewshed is prohibited, replacement of existing structures is allowed subject to the requirements of BSC LUP Policy 3.2.3.A.7, which is implemented by CIP section 20.145.030.A.2.f.

Finally, due to the project's location within a scenic highway (Highway 1), the Zoning Administrator's determination that the fence and gate were substantive, and public comment on the project's potential impact on the Critical Viewshed, the project was analyzed as a replacement structure within the Critical Viewshed.

b) Setting. The project site is located between Highway 1 and the Pacific Ocean in the Rocky Point subdivision. Highway 1 in Big Sur was the first designated scenic highway in California, recognizing its unique and picturesque setting. Along the subject portion of Highway 1, the visual character is views of Monterey Cypress trees, with limited views of the Pacific Ocean to the west and the Santa Lucia Mountains to the east. The viewshed is partially degraded by the presence of telephone poles and electricity lines east of Highway 1 and various types of development west of Highway 1, as well as a few single-family dwellings and associated site improvements, such as fences, driveway entrances, and mailboxes, which are visible traveling along this portion of the highway. These structures are required to comply with BSC LUP Policy 3.2.3, as well as the underlying Design Control zoning district.

c) Critical Viewshed Determination. The replacement gate and fence are not exempt from the Critical Viewshed policies in the BSC LUP and are required to comply with the replacement structure policies in the BSC LUP and CIP.

Although the parcel is located between the "*southernmost existing residential parcel on Rocky Point, to the northernmost developed residential parcel on Kasler Point and from the southernmost developed parcel north of Abalone Cove to the northernmost developed parcel south of Garrapata Creek,*" it does not qualify for an exception under BSC LUP Policy 3.2.5.F. The Zoning Administrator determined that the parcel is not exempt from Critical Viewshed policies because it is visible from Highway 1 and is in close proximity to the popular scenic viewpoint at Abalone Cove. Further, public comments indicated that the replacement fence and gate could have a substantive impact on the Critical Viewshed.

BSC LUP Policy 3.2.5.C.2 exempts roadside fences and private driveway gates from Critical Viewshed policies but requires that they shall be designed to complement the rural settings and character of Big Sur, with a preference for natural materials. While the Zoning Administrator determined that the fence and gate are not exempt from

the Critical Viewshed policies, the proposed design complements the rural setting and character of Big Sur. The fence, as designed, consists of rough-cut locally sourced stones that mirror the natural Salinian Block Granitic and Metamorphic rocks which form the Santa Lucia Range. The gate is designed with dark earth tone materials (dark bronze) and continues the visual continuity of the fence by mirroring the pre-existing second gate on the property. These materials are natural and in keeping with Big Sur's rural setting and character.

d) CIP Criteria. The BSC CIP section 20.145.030 provides the specific criteria for development to ensure compliance with the BSC LUP Visual Resources Policies. BSC CIP section 20.145.030.A.2.f includes criteria for allowing replacement structures within the Critical Viewshed.

"*Replacement…of existing structures… shall be permitted in the original location on the site…".* The proposed fence and gate are in a similar location to the existing fence and gate on the property and connect to the existing sections of fence. The fence and gate are shifted slightly deeper into the parcel and further away from the scenic highway (Highway 1). Shifting the fence and gate deeper into the property further minimizes their impact on the Critical Viewshed.

"*Replacement…of existing structures… shall be permitted provided no other less visible portion of the site is acceptable to the property owner…".* The existing fence and gate are situated slightly deeper into the parcel, a location proposed to further minimize visual impacts. The property owner reviewed and accepted this deeper placement to reduce visibility of the replacement fence and gate.

"Replacement…of existing structures…shall be permitted provided the replacement does not increase the visibility of the structure." The replacement fence and gate have been designed to reduce the visual impact of the development by using natural, dark earth-tone materials. The replacement gate and fence will be set back further from Highway 1 than the existing gate and fence to further minimize visual impacts. The replacement gate will be the same height, in almost the same location, and will not change the visibility of ocean views or views of the single-family dwelling from the existing gate. The replacement fence will be in almost the same location, and a small portion of the fence, approximately 12 linear feet, will be approximately six inches taller, while the remainder of the replacement will not be changing in height. The existing wooden louvered fence provides virtually no pass-through visibility, as the overlapping wooden slats are intended to screen the single-family dwelling from Highway 1. Therefore, the replacement fence, built of rough-cut locally sourced stones, will not change the visibility of ocean views or increase the visibility of the single-family dwelling from Highway 1 compared to the existing fence.

The replacement fence and gate have been designed with appropriate materials and colors to blend with and be subordinate to the surrounding environment. The proposed project is subordinate to the surrounding

environment by using natural stone and dark colors, which ensures that the replacement gate and fence provide visual consistency along the Highway 1 frontage of the property. See Evidence "e" for additional design discussion.

Therefore, as proposed, the replacement fence and gate satisfy the requirements for replacing structures within the Critical Viewshed.

e) Design Control. Pursuant to MCC Title 20 Chapter 20.44, the proposed project and surrounding area are designated as a Design Control Zoning District ("D" zoning overlay), which regulates the location, size, configuration, materials, and colors of structures and fences to assure the protection of the public viewshed and neighborhood character.

The proposed replacement fence and gate will incorporate natural materials (stone) and natural, dark earth-tone materials (dark bronze and natural stone), which are in keeping with the rural setting and character of Big Sur. Additionally, the proposed fence replacement project only modifies a limited portion of the front property fence line. The remainder of the front property line will continue to be developed with a louvered wood fence, which will be repaired as needed. The proposed fence will transition into the existing fenceline. As proposed, the entire front property fenceline will consist of natural materials and be of a bulk and mass that does not detract from the scenic beauty of Highway 1, and will not block ocean views. The project protects the public viewshed, is consistent with the surrounding rural character, and ensures public access and visual integrity. Therefore, the design of the proposed project ensures the protection of the public viewshed, neighborhood character, and the visual integrity of the property and the surrounding environment.

f) Staff conducted a site inspection on November 12, 2025 to verify that the site is suitable for this use.

g) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257-AMD1.

5. FINDING: **HEALTH AND SAFETY –** The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE: a) The project was reviewed by HCD-Planning, HCD-Developmental Services, HCD-Environmental Services, CalFire (Big Sur), and the Environmental Health Bureau. The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.

b) Necessary facilities are provided. This Combined Development Permit would not alter these facilities. The Environmental Health Bureau has reviewed the project and made no comments.
c) Staff conducted a site inspection on November 12, 2025 to verify that the site is suitable for this use.
d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257-AMD1.

6. FINDING: **NO VIOLATIONS –** The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

EVIDENCE: a) Staff reviewed County of Monterey HCD-Planning and HCD-Building Services records and is not aware of any violations existing on subject property.
b) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning found in Project File PLN110257-AMD1.

7. FINDING: **PUBLIC ACCESS** – The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with section 30200 of the Public Resources Code) and Local Coastal Program, and does not interfere with any form of historic public use or trust rights.

EVIDENCE: a) Figure 2 – Shoreline Access Plan, Northern Section, of the BSC LUP indicates that the subject property is in an area where public access is required (Priority 2 area). As detailed in the preceding Finding No. 2 and supporting evidence, BSC LUP Chapter 3.2 and CIP section 20.145.030.B.3.b allow for private highway improvements like fences. Big Sur Coast LUP Policy 6.1.5.F.1 states, "*Future land use planning shall be compatible to provide visual access. To this end, all new structures and ancillary facilities should be located outside of the public viewshed as defined in Chapter 3*." Public Access policies (Chapter 6.1 of the Big Sur Coast LUP), specifically visual access policies, need to be taken into consideration when reviewing the proposed fence design. Visual Access is access for scenic viewing of the shoreline and/or ocean from either a vista point or public road, or trail. Section 20.145.150 of the Big Sur Coast CIP (Public Access Development Standards) states "[T]*he protection of visual access should be emphasized* …[and] *Visual access shall be maintained by directing all future development out of the viewshed.*" The proposed replacement fence was designed to ensure existing ocean views (heavily filtered and screened by mature trees) will remain. See subsequent evidence "c".
b) Figure 3 – Trails Plan, North Section, of the Big Sur Coast LUP indicates that the subject property neither contains an inland trail corridor, a through coastal access corridor, public trail, private trail, access to Ventana Wilderness, nor is identified as an area for future public acquisition or a proposed trail.

c) Although the subject property is shown in an area where the applicable Local Coastal Program requires public access (Figure 2), no evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property. Additionally, the proposed development allows for visual access and will not affect the access of the shoreline. Consequently, no access is required as part of the project as no substantial adverse impact on access, either individually or cumulatively, as described in section 20.146.130 of the Monterey County Coastal Implementation Plan can be demonstrated.
d) Staff conducted a site inspection November 12, 2025. No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.
e) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in project file PLN110257-AMD1.

8. FINDING: **CEQA (Exempt)** – The project is categorically exempt from environmental review, and no unusual circumstances were identified to exist for the proposed project.

EVIDENCE:
a) California Environmental Quality Act (CEQA) Guidelines section 15302 categorically exempts replacement structures where the new structures will be located on the same site and have substantially the same purpose and capacity as the structure replaced.
b) The project includes construction of a replacement fence and gate. The replacement fence and gate will be located in the same area as the existing fence and gate and serve the same purpose. Therefore, the project is consistent with the categorical exemption requirements of CEQA guidelines section 15302.
c) No adverse environmental effects were identified during staff review of the development application or during a site visit on November 12, 2025.
d) None of the exceptions under CEQA Guidelines section 15300.2 apply to this project. The project does not involve alterations to a designated historical resource, a hazardous waste site, nor development that would result in a cumulatively significant impact. Although the project is visible from Highway 1 and constitutes development within the Critical Viewshed, as demonstrated in Finding Nos. 2 and 6, supporting evidence, the development is rural in design, compatible with the surrounding environment, and will not have an adverse impact on public or visual access. There are no unusual circumstances associated with undertaking the project that would create a reasonable possibility that the project would have a significant effect on the environment.
e) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in project file PLN110257-AMD1.

9. FINDING: **APPEAL –** The Appellant contends that the Zoning Administrator's decision was not supported by the evidence. Upon consideration of the documentary information in the files, the staff reports, the oral and written testimony, all other evidence presented before the Board of Supervisors,

and the administrative record as a whole, the Board responds as follows to the Appellant's contentions:

EVIDENCE: a) Appellant (Andrew T. Berlin), pursuant to Monterey County Code (MCC) Title 20 section 20.86.030.C, timely appealed the April 9, 2026, decision of the Zoning Administrator. The appeal challenges the Zoning Administrator's denial of the Minor and Trivial Amendment, on the contention that the findings are not supported by the evidence and that the decision is contrary to law. See also Finding No. 1, Evidence "b". The text of the Appellant's contentions and the County's responses to those contentions are set forth in Evidence "b" through "c" below.

b) Appellant Contention No. 1. "*Monterey County Code § 20.44.040.E states that the Planning Commission shall be the Appropriate Authority to consider Design Approval applicants for those structures which have the greatest potential to impact public views, such as structures along scenic highway or road corridors, in areas designed critical viewshed, or which may be prominent from common public viewing areas. Because the proposed development does not exceed 6 feet in height, it is not considered a structure under Monterey County Code §20.06.1200. Therefore, the Zoning Administrator was the Appropriate authority to consider the Minor and Trivial Amendment Design Approval applicant under Monterey County Code §20.44.040.C."*

Response No. 1 The fence, as designed, is under six feet in height; therefore, pursuant to Title 20 section 20.06.1200, it is not a structure; However, the fence would be improved within an area designated as a critical viewshed which can be interpreted to require consideration by the Planning Commission even if it is not defined as a structure.

As detailed in Finding No. 1 Evidence "b," the project was originally referred to the Chief of Planning pursuant to Title 20 section 20.76.115. As the project was considered a Minor and Trivial Amendment to a Combined Development Permit. However, an objection was received, and the Chief of Planning referred the project to a public hearing pursuant to Title 20 section 20.76.060 (see Finding No. Evidence "b"). However, after the Zoning Administrator's review of the project, the Zoning Administrator determined that the project's Appropriate Authority was the Planning Commission, pursuant to Title 20 section 20.44.040.E.

While a fence under 6 feet is not considered a "structure", pursuant to Title 20 section 20.06.1200, the project is substantive (Title 20 section 20.44.040.E) as it includes development within the Critical Viewshed (Title 20 section 20.16.060.B), and therefore, the project's Appropriate Authority is the Planning Commission.

However, while the Planning Commission was the Appropriate Authority to hear and consider the project, due to procedural issues and to ensure a timely decision was rendered on the application, the Zoning Administrator recommended that it be considered by the County of Monterey Board of Supervisors.

c) *Appellant Contention No. 2*. "*While the project site is located along Highway 1, it is expressly exempt from Big Sur's Critical Viewshed as it is located in the Rocky Point Exception Area established pursuant to Big Sur LCP Policy 3.2.4 such that development on the Property is expressly subject to the standards of Big Sur LCP Policy 3.2.4"*
Response No. 2 As detailed in Finding No. 4, the project is not exempt from the requirements of the Critical Viewshed policies, as the project is a replacement fence and gate within the Critical Viewshed. The project is sited along a scenic highway, and, due to public comments and the Zoning Administrator's determination, the project is within the Critical Viewshed and does not qualify for an exemption from the Critical Viewshed policies. However, as the project is the replacement of an existing fence and gate in the Critical Viewshed, where impacts to the Critical Viewshed are reduced, the project complies with BSC LUP Policy 3.2.3.A.7 and CIP section 20.145.030.A.2.f.

10. FINDING: **APPEALABILITY –** The decision on this project may be appealed to the California Coastal Commission.

EVIDENCE: a) California Coastal Commission. Pursuant to section 20.86.080.A of the Monterey County Zoning Ordinance (Title 20), the project is subject to appeal by/to the California Coastal Commission because it involves development between the first public road and the sea.

DECISION

NOW, THEREFORE, based on the above findings and evidence, and the administrative record as a whole, that the Board of Supervisors does hereby:

1) Grant the appeal of Andrew T. Berlin, Trustee of the Andrew T. Berlin Revocable Trust from the April 9, 2026, decision of the Zoning Administrator to deny a Minor and Trivial Amendment to a previously approved Combined Development Permit (PLN110257);
2) Find the project Categorically Exempt pursuant to CEQA Guidelines section 15302 and no exceptions to section 15300.2 apply; and
3) Approve a Combined Development Permit consisting of:

DRAFT Conditions of Approval/Implementation Plan/Mitigation Monitoring and Reporting Plan

PLN110257-AMD1

1. PD001 - SPECIFIC USES ONLY

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: This is a Combined Development Permit allows replacement of 53.5 feet of existing wood fence and the main entrance gate with a stone wall and dark bronze entrance gate within the Big Sur Critical Viewshed and within 750 feet of an archaeological resource. The project is located at 35986 & 36000 Highway 1, Monterey (Assessor's Parcel Numbers 243-231-025-000 and 243-231-026-000), Big Sur Coast Land Use Plan, Coastal Zone. This permit was approved in accordance with County ordinances and land use regulations subject to the terms and conditions described in the project file. Neither the uses nor the construction allowed by this permit shall commence unless and until all of the conditions of this permit are met to the satisfaction of the Director of HCD - Planning. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities. To the extent that the County has delegated any condition compliance or mitigation monitoring to the Monterey County Water Resources Agency, the Water Resources Agency shall provide all information requested by the County and the County shall bear ultimate responsibility to ensure that conditions and mitigation measures are properly fulfilled. (HCD - Planning)

Compliance or Monitoring Action to be Performed: The Owner/Applicant shall adhere to conditions and uses specified in the permit on an on-going basis unless otherwise stated.

2. PD002 - NOTICE PERMIT APPROVAL

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: The applicant shall record a Permit Approval Notice. This notice shall state:
"A Combined Development Permit (Resolution Number 26-) was approved by the County of Monterey Board of Supervisors for Assessor's Parcel Number 243-231-025-000 and 243-231-026-000 on June 9, 2026. The permit was granted subject to 4 conditions of approval which run with the land. A copy of the permit is on file with Monterey County HCD - Planning."

Proof of recordation of this notice shall be furnished to the Director of HCD - Planning prior to issuance of grading and building permits, Certificates of Compliance, or commencement of use, whichever occurs first and as applicable. (HCD - Planning)

Compliance or Monitoring Action to be Performed: Prior to the issuance of grading and building permits, certificates of compliance, or commencement of use, whichever occurs first and as applicable, the Owner/Applicant shall provide proof of recordation of this notice to the HCD - Planning.

3. PD003(A) - CULTURAL RESOURCES NEGATIVE ARCHAEOLOGICAL REPORT

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: If, during the course of construction, cultural, archaeological, historical or paleontological resources are uncovered at the site (surface or subsurface resources) work shall be halted immediately within 50 meters (165 feet) of the find until a qualified professional archaeologist can evaluate it. Monterey County HCD - Planning and a qualified archaeologist (i.e., an archaeologist registered with the Register of Professional Archaeologists) shall be immediately contacted by the responsible individual present on-site. When contacted, the project planner and the archaeologist shall immediately visit the site to determine the extent of the resources and to develop proper mitigation measures required for recovery.
(HCD - Planning)

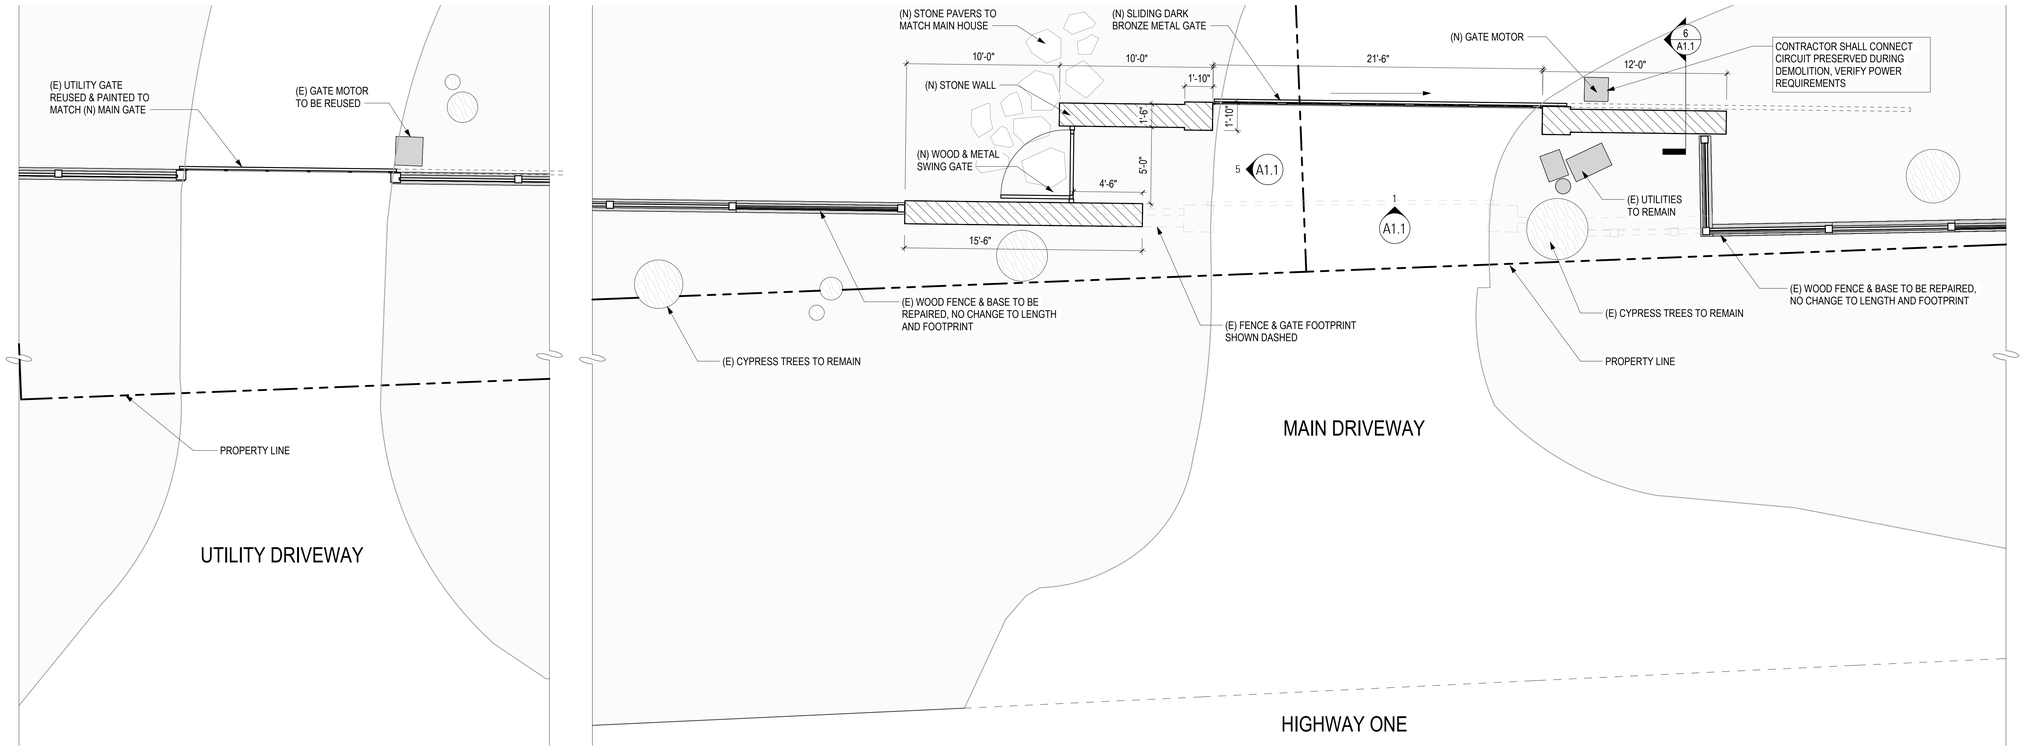
Compliance or Monitoring Action to be Performed: The Owner/Applicant shall adhere to this condition on an on-going basis.

Prior to the issuance of grading or building permits and/or prior to the recordation of the final/parcel map, whichever occurs first, the Owner/Applicant shall include requirements of this condition as a note on all grading and building plans. The note shall state "Stop work within 50 meters (165 feet) of uncovered resource and contact Monterey County HCD - Planning and a qualified archaeologist immediately if cultural, archaeological, historical or paleontological resources are uncovered."

When contacted, the project planner and the archaeologist shall immediately visit the site to determine the extent of the resources and to develop proper mitigation measures required for the discovery.

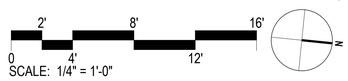
4. PD011 - TREE AND ROOT PROTECTION

Responsible Department: Planning

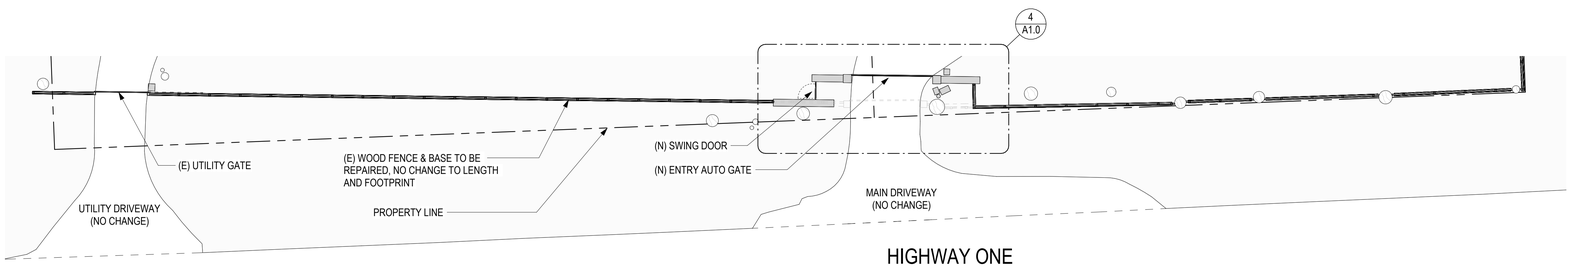


Condition/Mitigation Monitoring Measure: Trees which are located close to construction site(s) shall be protected from inadvertent damage from construction equipment by fencing off the canopy driplines and/or critical root zones (whichever is greater) with protective materials, wrapping trunks with protective materials, avoiding fill of any type against the base of the trunks and avoiding an increase in soil depth at the feeding zone or drip-line of the retained trees. Said protection, approved by certified arborist, shall be demonstrated prior to issuance of building permits subject to the approval of HCD - Director of Planning. If there is any potential for damage, all work must stop in the area and a report, with mitigation measures, shall be submitted by certified arborist. Should any additional trees not included in this permit be harmed, during grading or construction activities, in such a way where removal is required, the owner/applicant shall obtain required permits. (HCD - Planning)

Compliance or Monitoring Action to be Performed: Prior to issuance of grading and/or building permits, the Owner/Applicant shall submit evidence of tree protection to HCD - Planning for review and approval.



During construction, the Owner/Applicant/Arborist shall submit on-going evidence that tree protection measures are in place through out grading and construction phases. If damage is possible, submit an interim report prepared by a certified arborist.



Prior to final inspection, the Owner/Applicant shall submit photos of the trees on the property to HCD-Planning after construction to document that tree protection has been successful or if follow-up remediation or additional permits are required.

Re: Appeal of April 9, 2026 Zoning Administrator Decision on PLN110257-AMD1

To Whom it May Concern:

At the request of our client, Andrew T. Berlin, Trustee of the Andrew T. Berlin Revocable Trust ("Applicant" and "Appellant"), I am submitting the attached materials comprising the appeal of the denial of the Minor and Trivial Amendment to a Combined Development Permit to construct a replacement fence and gate ("Project") on the property located at 36000 Highway One (APN 243-231-027-000), Big Sur in the Big Sur Planning Area (the "Property").

The enclosed application materials consist of the following:

- One (1) executed and completed Notice of Appeal;
- One (1) copy of Zoning Administrator Resolution No. 26-024

BASIS FOR THE APPEAL

The findings and decision are not supported by the evidence, and the decision is contrary to the law, including but not limited to, the evidence set forth below:

1. **Finding 2, Evidence (a):** The project was not processed in accordance with the requirements of the Zoning Ordinance, specifically Section 20.44.040.E, which requires that the Planning Commission is the Appropriate Authority to consider a Design Approval within a scenic corridor. The project could not have been approved by the Zoning Administrator.

    a. Monterey County Code §20.44.040.E states that the Planning Commission shall be the Appropriate Authority to consider Design Approval applications for those structures which have the greatest potential to impact public views, such as structures along scenic highway or road corridors, in areas designated as critical viewshed, or which may be prominent from common public viewing areas. Because the proposed development does not exceed 6 feet in height, it is not considered a structure under Monterey County Code §20.06.1200. Therefore, the Zoning Administrator was the Appropriate authority to consider the Minor and Trivial Amendment Design Approval application under Monterey County Code §20.44.040.C.

2. **Finding 2, Evidence (b):** The Zoning Administrator determined that the proposed amendment was substantive due to the project's location within a scenic highway (Highway 1) and should have been considered by the Planning Commission. Therefore, the Zoning Administrator denied this application due to incorrect procedure.

    a. Monterey County Code §20.44.040.E states that the Planning Commission shall be the Appropriate Authority to consider Design Approval applications for those structures which have the greatest potential to impact public views, such as structures along scenic highway or road corridors, in areas designated as critical viewshed, or which may be prominent from common public viewing areas. Because the proposed development does not exceed 6 feet in height, it is not considered a structure under Monterey County Code §20.06.120. Therefore, the Zoning Administrator was the Appropriate authority to consider the Minor and Trivial Amendment Design Approval application under Monterey County Code §20.44.040.C.

    b. Contrary to Finding 2, Evidence (e), while the project site is located along Highway 1, it is expressly exempt from Big Sur's Critical Viewshed as it is located within the Rocky Point Exception Area established pursuant to Big Sur LCP Policy 3.2.4 such that development on the Property is expressly subject to the standards of Big Sur LCP Policy 3.2.4 ("Procedures for Applying the General Scenic Resources Policies That Apply Outside the Critical Viewshed"). Therefore, the Zoning Administrator was the Appropriate authority to consider the Minor and Trivial Amendment Design Approval application under Monterey County Code §20.44.040.C.

While the Zoning Administrator's denial of the Project was based entirely on procedural grounds rather than the Project's merit and consistency with the Big Sur LCP, we do support Planning Staff's analysis from the Zoning Administrator hearing staff report recommending approval of the Project as consistent with the Big Sur LCP.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Aengus L. Jeffers, Esq.

Before the Zoning Administrator in and for the County of Monterey, State of California

In the matter of the application of:
BERLIN ANDREW T TR (PLN110257-AMD1)
RESOLUTION NO. 26-024
Resolution by the County of Monterey Zoning Administrator:

1) Finding the project decision Statutorily Exempt pursuant to CEQA section 21080(b)(5); and
2) Denying a Minor and Trivial Amendment to a previously approved Combined Development Permit (PLN110257) that allowed the demolition of an existing 1,960 square foot one-story single family dwelling and 255 square foot guest unit and the construction of a 9,255 square foot two-story single family dwelling, new retaining walls and associated grading within 750 feet of an archaeological resource and within 50 feet of a coastal bluff and a Lot Line Adjustment to merge two parcels into one parcel. This Minor and Trivial Amendment would allow replacing 53.5 feet of the existing wood fence and the main entrance gate with a stone wall and a dark bronze entrance gate.

[BERLIN ANDREW T TR, 35986 HWY 1, Big Sur Coast Land Use Plan, APN: 243-231-027-000].

The BERLINE application (PLN110275-AMD1) came before the County of Monterey Zoning Administrator on March 26, 2026, and April 9, 2026. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Zoning Administrator finds and decides as follows:

FINDINGS

1. FINDING: **PROCESS REQUIREMENTS** – The County has received and processed an amendment to previously approved Combined Development Permit (HCD Planning File No. PLN110257; Planning Commission Resolution No. 11-048).

EVIDNECE:

a) On August 18, 2025, an application for a Minor and Trivial Amendment (PLN110257-AMD1) was submitted to HCD-Planning staff. The Minor and Trivial Amendment application includes Design Approval pursuant to Monterey County Code Chapter 20.44 as a component.

b) On December 14, 2011, the Monterey County Planning Commission approved PLN110257 for a Combined Development Permit consisting of: 1) Coastal Administrative Permit to allow the demolition of an existing 1,960 square foot one-story single family dwelling and 66

square foot guest unit and the construction of a 9,255 square foot two-story single family dwelling, new retaining walls, perimeter fencing, and associated grading (2,573 cubic yards cut, 2,573 cubic yards fill); 2) Coastal Development Permit for development within 750 feet of an archaeological resource; 3) Coastal Development Permit for development within 50 feet of a coastal bluff; 4) Coastal Development Permit for a Lot Line Adjustment to merge two parcels into one parcel; and 5) Design Approval. Approval of this permit included 31 conditions of approval.

c) All previously approved 31 conditions of approval are in a "Met" or " On-going" status. No Conditions of Approval from PLN110257 are being carried forward to this Amendment (PLN110257-AMD1) due to the minor project scope of this project.

d) The findings and evidence from PLN110257 (Resolution No. 11-048) have been carried forward to this application, PLN110257-AMD1, by reference. PLN110257 remains as the operative permit. Denial of this Amendment does not alter the original approval.

e) The application, plans, and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed amendment are found in project file PLN110257 and PLN110257-AMD1.

2. **FINDING:** **CONSISTENCY** – The Project, as conditioned, is not consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:

- 1982 Monterey County General Plan;
- Big Sur Coast Land Use Plan;
- Monterey County Coastal Implementation Plan – Part 3; and
- Monterey County Zoning Ordinance - Coastal (Title 20).

The project was not processed in accordance with the requirements of the Zoning Ordinance, specifically Section 20.44.040.E, which requires that the Planning Commission is the Appropriate Authority to consider a Design Approval within a scenic corridor. The project could not have been approved by the Zoning Administrator.

b) Project. The Project includes demolishing 53.5 linear feet of the existing front property line fencing and gate, and constructing a replacement stone wall (32 linear feet) and entrance gate (21.5 linear feet). The proposed stone wall would replace a portion of an existing louvered wood fence. The proposed dark bronze entrance gate will replace the existing wood entrance gate. A wood and metal side gate will be installed perpendicular to the entrance gate, but behind the proposed stone wall. The remainder of the property line will continue to be improved with the existing louvered wood fence, which will be repaired as needed. This project was scheduled for consideration by the Chief of Planning on December 3, 2025, but was referred to the Zoning Administrator due to public comment. The Zoning Administrator determined that the proposed amendment was substantive due to the

project's location within a scenic highway (Highway 1) and should have been considered by the Planning Commission. Therefore, the Zoning Administrator denied this application due to incorrect procedure. (see Finding 2, Evidence "a", above). The Zoning Administrator did not make a recommendation on the proposed design.

c) Allowed Use. The property is located at 35986 Highway 1, Big Sur Coast Land Use Plan, APN: 243-231-027-000. The parcel is zoned Rural Density Residential, 40 acres per unit, Design Control overlay, with a 14-foot height limit, in the Coastal Zone or "RDR/40-D(14')(CZ)", which allows for construction of accessory structures to any permitted use. The proposed project includes replacing 53.5 feet of an existing front property line fence and entrance gate. The previously approved Combined Development Permit (PLN110237, Resolution No. 11-048) allowed construction of a single-family dwelling and other site improvements, including an entrance gate and perimeter fencing. Therefore, the project includes allowed uses accessory to the permitted residential use. All other project components of the previously approved Combined Development Permit (PLN110257) remain the same (see Finding No. 1, Evidence "b").

d) Lot Legality. The subject property (APN: 243-231-027-000) is recognized by the County of Monterey as a legal lot of record per recordation of a Certificate of Compliance (Document #2012021134).

e) Critical Viewshed/Design. According to Policy 3.2.2 of the Big Sur Coast Land Use Plan (BSCLUP), the property is located within a critical viewshed. The property is located near the Abalone Cove turnoff, which is a popular public-viewing area within Big Sur. Policy 3.2.4.F of the BSCLUP states, "the southernmost developed parcel north of Abalone Cove to the northernmost developed parcel south of Garrapata Creek shall be permitted to be used for residential purposes, subject to policies of Policy 3.2.4 (Land Not in the Critical Viewshed) of this plan." Accordingly, while the project site is located along Highway 1 and thus within the Critical Viewshed, it is only subject to the standards of Policy 3.2.4 (Land Not in the Critical Viewshed). Furthermore, pursuant to LUP Policy 3.2.5.C.2, private highway improvements such as fences and gates are exempt from Key Policy 3.2.1, which prohibits development within the Critical Viewshed, provided they are designed to be complementary to the rural setting and character of Big Sur, with a preference for natural materials.

   The stone fence replacement is proposed to match the existing residence's stone exterior. No exterior lighting is proposed.

f) Development Standards. The development standards for the RDR zoning district are identified in Title Section 20.16.060. As proposed, the project is designed below the allowable height for accessory structures (15 feet). The proposed fence and entry gate are located along the front property line. However, because the proposed development does not exceed 6 feet in height, it is not considered a structure and thus is not subject to setback requirements for accessory structures. This Amendment does not alter the site coverage approved with PLN110257.

Therefore, as proposed, the project conforms with the applicable development standards of the RDR zoning district.

g) Cultural Resources. According to County resources maps, the subject property is located within 750 feet of a known archaeological resource. Pursuant to Section 20.145.120.B.1 of the Coastal Implementation Plan, Part 3, an archaeological survey was previously prepared for the site. The report identified small quantities of shellfish and abalone found near the bluff, and a positive archaeological site located on an adjacent property. However, no evidence of cultural resources was found around the proposed construction site of the main residence. The proposed development is located within previously disturbed portions of the property. With the project being denied through this resolution, no ground disturbance will occur.

h) Public Comment. A member of the public submitted concerns regarding the proposed design and materials of the replacement fence, citing it being better suited for a subdivision or "upscale neighborhood," conflicting with the Big Sur Coast LUP's rustic character requirement, and impacting the character of the scenic corridor (Highway 1).

i) Land Use Advisory Committee (LUAC) Review. Based on the Board of Supervisors Guidelines, the project was not referred to the Big Sur LUAC. As a Minor & Trivial Amendment, the project does not warrant LUAC review because the project does not involve the granting of a Design Approval at a public hearing, the preparation of an Initial Study or Environmental Impact Report, or a lot line adjustment in the Coastal Zone, or a Variance. The public commentor's request for a public hearing does not independently warrant LUAC review.

j) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257 and PLN110257-AMD1.

3. **FINDING:** **SITE SUITABILITY** – The site is physically suitable for the proposed development and/or use.

EVIDENCE:

a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, CalFire (Big Sur), and the Environmental Health Bureau. County staff reviewed the application materials and plans to verify that the project on the subject site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development.

b) The following technical reports were previously prepared for this property and are applicable to the proposed development:

- Archaeological Analysis and Testing (LIB110286) prepared by Gary Breschini of Archaeological Consulting, Salinas, CA, June 16, 2011
- Archaeological Analysis and Testing (LIB110287) prepared by Gary Breschini of Archaeological Consulting, Salinas, CA, June 21, 2010

Upon independent review, staff concurs with the conclusions of the report. There are no physical or environmental constrains that render the site physically unsuitable for the proposed project.

c) Staff conducted a site inspection on November 12, 2025, to verify that the site is suitable for this use.

d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257 and PLN110257-AMD1.

4. FINDING: **HEALTH AND SAFETY** – The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE:

a) The project was reviewed by HCD-Planning, HCD-Development Services, HCD-Environmental Services, CalFire (Big Sur), and the Environmental Health Bureau. The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.

b) Necessary facilities are provided. Denial of this Amendment would not alter these facilities. The Environmental Health Bureau has reviewed the project and made no comments.

c) Staff conducted a site inspection on November 12, 2025, to verify that the site is suitable for this use.

d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257 and PLN110257-AMD1.

5. FINDING: **NO VIOLATIONS** – The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

EVIDENCE:

a) Staff reviewed County of Monterey HCD-Planning and HCD-Building Services records and is not aware of any violations existing on subject property.

b) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning found in Project File PLN110257 and PLN110257-AMD1.

6. FINDING: **PUBLIC ACCESS** – The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with section 30200 of the Public Resources Code) and Local Coastal Program, and does not interfere with any form of historic public use or trust rights.

EVIDENCE:

a) Figure 2 – Shoreline Access Plan, Northern Section, of the Big Sur Coast LUP indicates that the subject property is in an area where public access is required (Priority 2 area). As detailed in the preceding Finding No. 2

and supporting evidence, Big Sur Coast LUP Chapter 3.2 and CIP section 20.145.030.B.3.b allow for private highway improvements like fences. Big Sur Coast LUP Policy 6.1.5.F.1 states, "Future land use planning shall be compatible to provide visual access. To this end, all new structures and ancillary facilities should be located outside of the public viewshed as defined in Chapter 3." Public Access policies (Chapter 6.1 of the Big Sur Coast LUP), specifically visual access policies, need to be taken into consideration when reviewing the proposed fence design. Visual Access is access for scenic viewing of the shoreline and/or ocean from either a vista point or public road, or trail. Section 20.145.150 of the Big Sur Coast CIP (Public Access Development Standards) states "[T]he protection of visual access should be emphasized ...[and] Visual access shall be maintained by directing all future development out of the viewshed." The proposed replacement fence was designed to ensure existing ocean views (heavily filtered and screened by mature trees) will remain. Denial of this Amendment will retain the originally designed fence and gate, as approved and constructed, ensuring no change to the public viewshed.

b) Figure 3 – Trails Plan, North Section, of the Big Sur Coast LUP indicates that the subject property neither contains an inland trail corridor, a through coastal access corridor, public trail, private trail, access to Ventana Wilderness, nor is identified as an area for future public acquisition or a proposed trail.

c) Although the subject property is shown in an area where the applicable Local Coastal Program requires public access (Figure 2), no evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property. Additionally, denial of the proposed development will not alter the visual access from Highway 1 or any local viewshed locations.

d) Staff conducted a site inspection on November 12, 2025. No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.

e) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in project file PLN110257 and PLN110257-AMD1.

7. **FINDING:** **CEQA (Exempt)** – The project is exempt from environmental review, and no unusual circumstances were identified to exist for the proposed project.

EVIDENCE:

a) California Environmental Quality Act (CEQA) section 21080(b)(5) statutorily exempts projects that a public agency rejects or disapproves.

b) The project includes the construction of a replacement fence. The replacement fence was proposed to be in the same area as the existing fence and serve the same purpose. The Zoning Administrator disapproved this project.

c) No adverse environmental effects were identified during staff review of the development application or during a site visit on November 12, 2025.

d) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in project file PLN110257 and PLN110257-AMD1.

Docusign Envelope ID: 44351428-E18B-46B7-A561-618D981CD563

8. **FINDING:** **APPEALABILITY** – The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

EVIDENCE:

a) Board of Supervisors. Pursuant to Section 20.86.030 of the Monterey County Zoning Ordinance (Title 20), an appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.

b) California Coastal Commission. Pursuant to Section 20.86.080.A of the Monterey County Zoning Ordinance (Title 20), the project is subject to appeal by/to the California Coastal Commission because it involves development between the first public road and the sea.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the County of Monterey Zoning Administrator does hereby:

1) Find the decision to deny the project is subject to a Statutory Exemption pursuant to CEQA section 21080(b)(5); and
2) Deny a Minor and Trivial Amendment to a previously approved Combined Development Permit (PLN110257) that allowed the demolition of an existing 1,960 square foot one-story single family dwelling and 255 square foot guest unit and the construction of a 9,255 square foot two-story single family dwelling, new retaining walls and associated grading within 750 feet of an archaeological resource and within 50 feet of a coastal bluff and a Lot Line Adjustment to merge two parcels into one parcel. The Minor and Trivial Amendment, if approved, would have allowed replacing 53.5 feet of the existing wood fence and the main entrance gate with a stone wall and a dark bronze entrance gate.

All of which are in general conformance with the attached sketch, attached hereto and incorporated herein by reference.

PASSED AND ADOPTED this 9th day of April, 2026.

Before the Zoning Administrator in and for the County of Monterey, State of California

In the matter of the application of:
BERLIN ANDREW T TR (PLN110257-AMD1)
RESOLUTION NO. 26-024
Resolution by the County of Monterey Zoning Administrator:

1) Finding the project decision Statutorily Exempt pursuant to CEQA section 21080(b)(5); and
2) Denying a Minor and Trivial Amendment to a previously approved Combined Development Permit (PLN110257) that allowed the demolition of an existing 1,960 square foot one-story single family dwelling and 255 square foot guest unit and the construction of a 9,255 square foot two-story single family dwelling, new retaining walls and associated grading within 750 feet of an archaeological resource and within 50 feet of a coastal bluff and a Lot Line Adjustment to merge two parcels into one parcel. This Minor and Trivial Amendment would allow replacing 53.5 feet of the existing wood fence and the main entrance gate with a stone wall and a dark bronze entrance gate.

[BERLIN ANDREW T TR, 35986 HWY 1, Big Sur Coast Land Use Plan, APN: 243-231-027-000].

The BERLINE application (PLN110275-AMD1) came before the County of Monterey Zoning Administrator on March 26, 2026, and April 9, 2026. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Zoning Administrator finds and decides as follows:

FINDINGS

1. FINDING: **PROCESS REQUIREMENTS** – The County has received and processed an amendment to previously approved Combined Development Permit (HCD Planning File No. PLN110257; Planning Commission Resolution No. 11-048).

EVIDNECE:

a) On August 18, 2025, an application for a Minor and Trivial Amendment (PLN110257-AMD1) was submitted to HCD-Planning staff. The Minor and Trivial Amendment application includes Design Approval pursuant to Monterey County Code Chapter 20.44 as a component.

b) On December 14, 2011, the Monterey County Planning Commission approved PLN110257 for a Combined Development Permit consisting of: 1) Coastal Administrative Permit to allow the demolition of an existing 1,960 square foot one-story single family dwelling and 66

square foot guest unit and the construction of a 9,255 square foot two-story single family dwelling, new retaining walls, perimeter fencing, and associated grading (2,573 cubic yards cut, 2,573 cubic yards fill); 2) Coastal Development Permit for development within 750 feet of an archaeological resource; 3) Coastal Development Permit for development within 50 feet of a coastal bluff; 4) Coastal Development Permit for a Lot Line Adjustment to merge two parcels into one parcel; and 5) Design Approval. Approval of this permit included 31 conditions of approval.

c) All previously approved 31 conditions of approval are in a "Met" or " On-going" status. No Conditions of Approval from PLN110257 are being carried forward to this Amendment (PLN110257-AMD1) due to the minor project scope of this project.

d) The findings and evidence from PLN110257 (Resolution No. 11-048) have been carried forward to this application, PLN110257-AMD1, by reference. PLN110257 remains as the operative permit. Denial of this Amendment does not alter the original approval.

e) The application, plans, and supporting materials submitted by the project applicant to Monterey County HCD-Planning for the proposed amendment are found in project file PLN110257 and PLN110257-AMD1.

2. FINDING: **CONSISTENCY** – The Project, as conditioned, is not consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE: a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:

- 1982 Monterey County General Plan;
- Big Sur Coast Land Use Plan;
- Monterey County Coastal Implementation Plan – Part 3; and
- Monterey County Zoning Ordinance - Coastal (Title 20).

The project was not processed in accordance with the requirements of the Zoning Ordinance, specifically Section 20.44.040.E, which requires that the Planning Commission is the Appropriate Authority to consider a Design Approval within a scenic corridor. The project could not have been approved by the Zoning Administrator.

b) Project. The Project includes demolishing 53.5 linear feet of the existing front property line fencing and gate, and constructing a replacement stone wall (32 linear feet) and entrance gate (21.5 linear feet). The proposed stone wall would replace a portion of an existing louvered wood fence. The proposed dark bronze entrance gate will replace the existing wood entrance gate. A wood and metal side gate will be installed perpendicular to the entrance gate, but behind the proposed stone wall. The remainder of the property line will continue to be improved with the existing louvered wood fence, which will be repaired as needed. This project was scheduled for consideration by the Chief of Planning on December 3, 2025, but was referred to the Zoning Administrator due to public comment. The Zoning Administrator determined that the proposed amendment was substantive due to the

project's location within a scenic highway (Highway 1) and should have been considered by the Planning Commission. Therefore, the Zoning Administrator denied this application due to incorrect procedure. (see Finding 2, Evidence "a", above). The Zoning Administrator did not make a recommendation on the proposed design.

c) Allowed Use. The property is located at 35986 Highway 1, Big Sur Coast Land Use Plan, APN: 243-231-027-000. The parcel is zoned Rural Density Residential, 40 acres per unit, Design Control overlay, with a 14-foot height limit, in the Coastal Zone or "RDR/40-D(14')(CZ)", which allows for construction of accessory structures to any permitted use. The proposed project includes replacing 53.5 feet of an existing front property line fence and entrance gate. The previously approved Combined Development Permit (PLN110237, Resolution No. 11-048) allowed construction of a single-family dwelling and other site improvements, including an entrance gate and perimeter fencing. Therefore, the project includes allowed uses accessory to the permitted residential use. All other project components of the previously approved Combined Development Permit (PLN110257) remain the same (see Finding No. 1, Evidence "b").

d) Lot Legality. The subject property (APN: 243-231-027-000) is recognized by the County of Monterey as a legal lot of record per recordation of a Certificate of Compliance (Document #2012021134).

e) Critical Viewshed/Design. According to Policy 3.2.2 of the Big Sur Coast Land Use Plan (BSCLUP), the property is located within a critical viewshed. The property is located near the Abalone Cove turnoff, which is a popular public-viewing area within Big Sur. Policy 3.2.4.F of the BSCLUP states, "the southernmost developed parcel north of Abalone Cove to the northernmost developed parcel south of Garrapata Creek shall be permitted to be used for residential purposes, subject to policies of Policy 3.2.4 (Land Not in the Critical Viewshed) of this plan." Accordingly, while the project site is located along Highway 1 and thus within the Critical Viewshed, it is only subject to the standards of Policy 3.2.4 (Land Not in the Critical Viewshed). Furthermore, pursuant to LUP Policy 3.2.5.C.2, private highway improvements such as fences and gates are exempt from Key Policy 3.2.1, which prohibits development within the Critical Viewshed, provided they are designed to be complementary to the rural setting and character of Big Sur, with a preference for natural materials.

   The stone fence replacement is proposed to match the existing residence's stone exterior. No exterior lighting is proposed.

f) Development Standards. The development standards for the RDR zoning district are identified in Title Section 20.16.060. As proposed, the project is designed below the allowable height for accessory structures (15 feet). The proposed fence and entry gate are located along the front property line. However, because the proposed development does not exceed 6 feet in height, it is not considered a structure and thus is not subject to setback requirements for accessory structures. This Amendment does not alter the site coverage approved with PLN110257.

Therefore, as proposed, the project conforms with the applicable development standards of the RDR zoning district.

g) Cultural Resources. According to County resources maps, the subject property is located within 750 feet of a known archaeological resource. Pursuant to Section 20.145.120.B.1 of the Coastal Implementation Plan, Part 3, an archaeological survey was previously prepared for the site. The report identified small quantities of shellfish and abalone found near the bluff, and a positive archaeological site located on an adjacent property. However, no evidence of cultural resources was found around the proposed construction site of the main residence. The proposed development is located within previously disturbed portions of the property. With the project being denied through this resolution, no ground disturbance will occur.

h) Public Comment. A member of the public submitted concerns regarding the proposed design and materials of the replacement fence, citing it being better suited for a subdivision or "upscale neighborhood," conflicting with the Big Sur Coast LUP's rustic character requirement, and impacting the character of the scenic corridor (Highway 1).

i) Land Use Advisory Committee (LUAC) Review. Based on the Board of Supervisors Guidelines, the project was not referred to the Big Sur LUAC. As a Minor & Trivial Amendment, the project does not warrant LUAC review because the project does not involve the granting of a Design Approval at a public hearing, the preparation of an Initial Study or Environmental Impact Report, or a lot line adjustment in the Coastal Zone, or a Variance. The public commentor's request for a public hearing does not independently warrant LUAC review.

j) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257 and PLN110257-AMD1.

3. FINDING: **SITE SUITABILITY –** The site is physically suitable for the proposed development and/or use.

EVIDENCE: a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, CalFire (Big Sur), and the Environmental Health Bureau. County staff reviewed the application materials and plans to verify that the project on the subject site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development.

b) The following technical reports were previously prepared for this property and are applicable to the proposed development:

- Archaeological Analysis and Testing (LIB110286) prepared by Gary Breschini of Archaeological Consulting, Salinas, CA, June 16, 2011
- Archaeological Analysis and Testing (LIB110287) prepared by Gary Breschini of Archaeological Consulting, Salinas, CA, June 21, 2010

Upon independent review, staff concurs with the conclusions of the report. There are no physical or environmental constrains that render the site physically unsuitable for the proposed project.

c) Staff conducted a site inspection on November 12, 2025, to verify that the site is suitable for this use.

d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257 and PLN110257-AMD1.

4. FINDING: **HEALTH AND SAFETY –** The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE:

a) The project was reviewed by HCD-Planning, HCD-Development Services, HCD-Environmental Services, CalFire (Big Sur), and the Environmental Health Bureau. The respective agencies have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood.

b) Necessary facilities are provided. Denial of this Amendment would not alter these facilities. The Environmental Health Bureau has reviewed the project and made no comments.

c) Staff conducted a site inspection on November 12, 2025, to verify that the site is suitable for this use.

d) The application, project plans, and related support materials submitted by the project applicant to Monterey County HCD-Planning are found in Project File PLN110257 and PLN110257-AMD1.

5. FINDING: **NO VIOLATIONS –** The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

EVIDENCE:

a) Staff reviewed County of Monterey HCD-Planning and HCD-Building Services records and is not aware of any violations existing on subject property.

b) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning found in Project File PLN110257 and PLN110257-AMD1.

6. FINDING: **PUBLIC ACCESS** – The project is in conformance with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with section 30200 of the Public Resources Code) and Local Coastal Program, and does not interfere with any form of historic public use or trust rights.

EVIDENCE:

a) Figure 2 – Shoreline Access Plan, Northern Section, of the Big Sur Coast LUP indicates that the subject property is in an area where public access is required (Priority 2 area). As detailed in the preceding Finding No. 2

and supporting evidence, Big Sur Coast LUP Chapter 3.2 and CIP section 20.145.030.B.3.b allow for private highway improvements like fences. Big Sur Coast LUP Policy 6.1.5.F.1 states, "Future land use planning shall be compatible to provide visual access. To this end, all new structures and ancillary facilities should be located outside of the public viewshed as defined in Chapter 3." Public Access policies (Chapter 6.1 of the Big Sur Coast LUP), specifically visual access policies, need to be taken into consideration when reviewing the proposed fence design. Visual Access is access for scenic viewing of the shoreline and/or ocean from either a vista point or public road, or trail. Section 20.145.150 of the Big Sur Coast CIP (Public Access Development Standards) states "[T]he protection of visual access should be emphasized …[and] Visual access shall be maintained by directing all future development out of the viewshed." The proposed replacement fence was designed to ensure existing ocean views (heavily filtered and screened by mature trees) will remain. Denial of this Amendment will retain the originally designed fence and gate, as approved and constructed, ensuring no change to the public viewshed.

b) Figure 3 – Trails Plan, North Section, of the Big Sur Coast LUP indicates that the subject property neither contains an inland trail corridor, a through coastal access corridor, public trail, private trail, access to Ventana Wilderness, nor is identified as an area for future public acquisition or a proposed trail.

c) Although the subject property is shown in an area where the applicable Local Coastal Program requires public access (Figure 2), no evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property. Additionally, denial of the proposed development will not alter the visual access from Highway 1 or any local viewshed locations.

d) Staff conducted a site inspection on November 12, 2025. No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.

e) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in project file PLN110257 and PLN110257-AMD1.

7. FINDING: **CEQA (Exempt)** – The project is exempt from environmental review, and no unusual circumstances were identified to exist for the proposed project.

EVIDENCE:

a) California Environmental Quality Act (CEQA) section 21080(b)(5) statutorily exempts projects that a public agency rejects or disapproves.

b) The project includes the construction of a replacement fence. The replacement fence was proposed to be in the same area as the existing fence and serve the same purpose. The Zoning Administrator disapproved this project.

c) No adverse environmental effects were identified during staff review of the development application or during a site visit on November 12, 2025.

d) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in project file PLN110257 and PLN110257-AMD1.

Docusign Envelope ID: 44351428-E18B-46B7-A561-618D981CD563

8. FINDING: **APPEALABILITY –** The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

EVIDENCE: a) Board of Supervisors. Pursuant to Section 20.86.030 of the Monterey County Zoning Ordinance (Title 20), an appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.

b) California Coastal Commission. Pursuant to Section 20.86.080.A of the Monterey County Zoning Ordinance (Title 20), the project is subject to appeal by/to the California Coastal Commission because it involves development between the first public road and the sea.

DECISION

NOW, THEREFORE, based on the above findings and evidence, the County of Monterey Zoning Administrator does hereby:

1) Find the decision to deny the project is subject to a Statutory Exemption pursuant to CEQA section 21080(b)(5); and
2) Deny a Minor and Trivial Amendment to a previously approved Combined Development Permit (PLN110257) that allowed the demolition of an existing 1,960 square foot one-story single family dwelling and 255 square foot guest unit and the construction of a 9,255 square foot two-story single family dwelling, new retaining walls and associated grading within 750 feet of an archaeological resource and within 50 feet of a coastal bluff and a Lot Line Adjustment to merge two parcels into one parcel. The Minor and Trivial Amendment, if approved, would have allowed replacing 53.5 feet of the existing wood fence and the main entrance gate with a stone wall and a dark bronze entrance gate.

All of which are in general conformance with the attached sketch**,** attached hereto and incorporated herein by reference.

PASSED AND ADOPTED this 9th day of April, 2026.

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

June 09, 2026

Introduced: 5/26/2026
Version: 1

Current Status: Scheduled PM
Matter Type: Ordinance

Introduce, waive first reading, and set June 23, 2026 at 10:30 a.m. as the date and time to consider adoption of an ordinance amending Chapters 8.04 and 8.08 of the Monterey County Code to require spaying and neutering of dogs and cats, while allowing certain exceptions.

RECOMMENDATION:
It is recommended that the Board of Supervisors introduce, waive first reading, and set June 23, 2026 at 10:30 a.m. as the date and time to consider adoption of an ordinance amending Chapters 8.04 and 8.08 of the Monterey County Code to require spaying and neutering of dogs and cats, while allowing certain exceptions.

SUMMARY:
Board Referral No. 2025.10 was issued by Supervisor Alejo and assigned to the Health Department on August 26, 2025. This is an update on the referral process to date and the first hearing of the attached draft mandatory spay/neuter ordinance in the unincorporated areas of Monterey County as requested by the Board of Supervisors.

DISCUSSION:
Board Referral No. 2025.10 was issued by Supervisor Alejo and assigned to the Health Department on August 26, 2025. Hitchcock Road Animal Services (HRAS) staff presented this Board Referral to the HRAS Board of Directors (the HRAS Board) on September 18, 2025, meeting. The HRAS Board briefly discussed the Referral and discussion related to having more information come back in the future. On September 30, 2025, staff presented to the County Board of Supervisors (the County Board) with intent to come back within 6-9 months.

At the November 20, 2025 meeting, staff presented the HRAS Board with information on spay/neuter ordinances in general, common industry understanding regarding the challenges that are found to impact the effectiveness of such ordinances as well as feedback from other California agencies with existing ordinances and their current 25/26 staffing and community challenges. The HRAS Board requested staff to bring this topic to the HRAS Advisory Committee for discussion and possible recommendations prior to discussing it themselves.

The HRAS Advisory Committee had this item on the January 8, 2026 regular meeting, February 12, 2026 special meeting and the March 12th regular meeting. The Advisory Committee received similar information as provided at the HRAS Board regarding. Robust public comment was received at each of these meetings including from members of the animal rescue community, City of Seaside Police Department (Chief Nick Borges and ACO Alex Kjellgren), SPCA for Monterey County (Director

Scott Delucchi), Santa Cruz Animal Services (current General Manager Amber Rowland) and SNIPbus (Owner Melanie Scherer and SNIP Board Member Lisa Sears).

At the March 12, 2026 meeting, the Advisory Committee voted 5-1 in support of a recommendation that highlighted the importance of spay/neuter but were not in support of an overall mandatory spay/neuter ordinance at this time, with noted resource concerns that influenced the recommendation. Instead, the Advisory Committee suggested other options to achieve the goals outlined in the referral. These included continuing to support opportunities for low cost spay/neuter opportunities, updating existing County ordinances related to kennels and females in heat, adding a requirement for spay/neuter for animals found roaming at large or otherwise impounded upon second incident to HRAS and to consider a community-based stray dog and cat management plan as outlined in the HRAS strategic plan.

On March 23rd, their recommendation was presented to the HRAS Board. The HRAS Board then held a special meeting on May 11th to further discuss and weigh in on the proposed ordinance drafted prior to presentation to the Board of Supervisors. The HRAS Board had brief discussion and agreed to move the draft forward as is with no other direction for staff. The HRAS Board of Directors remains available for future input as it relates to Animal Services operations should the Board of Supervisor's request it.

Attached is a draft mandatory spay/neuter ordinance provisions for dogs and cats for unincorporated Monterey County for the Board's review. This ordinance took into account the referral language: "A county spay and neuter ordinance would require most dogs and cats in unincorporated areas to be surgically sterilized, with reasonable exemptions for licensed breeders, working animals, and those with medical conditions."

Staff and legal counsel reviewed multiple ordinances throughout the state regarding best practices, including ordinances of the City of Seaside and the County of Santa Cruz. The SPCA for Monterey County provided feedback on the exemptions and the Sheriff's Department was provided with the same opportunity.

Lessons learned from the existing Rooster Keeping Ordinance were also taken into consideration, specifically, that the issuing of citations or creation of a new administrative process does not create compliance without adequate follow-up and management.

The draft ordinance:
Amendment to section 8.04.010 to insert the definitions of "spayed" and "neutered".
Amendment to section 8.08 to include "and Mandatory Spaying and Neutering".
Key provision: No person shall own, harbor or keep within the unincorporated area of the County, a dog or cat over the age of six months, which has not been spayed or neutered unless such person qualifies for an exemption.

Mandatory language used given the purpose of this ordinance to mandate owners spay/neuter their pets. Other examples use this term and "required" interchangeably.

This age was selected as a common age for requiring spay/neuter of cats and dogs. Santa Cruz requires 6 months as does the City of Seaside for dogs.

This does not include an unaltered animal certificate program. This ordinance requires compliance, a breeder/kennel permit or an exemption.

This does not include feral cats as defined in section 8.04.101. It is recommended to separately consider the adoption of a "community cat" related ordinance to address this population of animals when other ordinance updates are made.

Exemption provisions:
Dogs that have been deemed Potentially Dangerous or Vicious or dogs and cats that are repeat offenders of other title 8 sections do not qualify for an exemption.
Exemptions are included for law enforcement and search and rescue, dogs and cats certified by a veterinarian as having a health reason for not being spayed or neutered dogs and cats under current 8.12 County of Monterey permits and nonresidents or temporary visitors.

Enforcement and management:
HRAS will educate pet owners on this new ordinance and continue to provide all available resources for spay/neuter. When applicable, Animal Control Officers may issue citations. Follow up and management of this program and citations will be handled by support staff within HRAS.

Resource updates:
Staff remain concerned about the availability of resources, both internally and within the community, necessary to meet compliance standards and effectively address the issues outlined in this referral. Key challenges include the ongoing veterinary shortage that impacts our veterinary community, the rising economic pressures and housing challenges impacting residents, staffing limitations and the need for greater access to affordable and equitable spay/neuter opportunities.

This work supports the County of Monterey Health Department 2025-2028 Strategic Plan Goal(s):
Goal 4: Deepen Organizational effectiveness and support long term sustainability.
It also supports the following of the ten essential public health services, specifically:
Enforce laws and regulations that protect health and ensure safety.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of County Counsel has reviewed this ordinance and has made some updates since the HRAS Board of Director review.

FINANCING:
There is no impact to the General Fund with this action at this time. Additional staffing for Field Services and related resources may be needed at a later time to address kennel/breeding permits and citation management.

AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA, AMENDING CHAPTERS 8.04 AND 8.08 OF THE MONTEREY COUNTY CODE CONCERNING MANDATORY SPAY/NEUTER OF CATS AND DOGS

County Counsel Summary

This ordinance amends Chapters 8.04 and 8.08 of the Monterey County Code to require that all dogs and cats over the age of six months be spayed or neutered. The ordinance aims to promote responsible pet ownership in the unincorporated Monterey County and address the issue of pet overpopulation in our community by mandating spaying and neutering of dogs and cats, while allowing certain exemptions.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. Findings.

A. Pursuant to Article XI, section 7 of the California Constitution, the County of Monterey may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens.

B. The Board of Supervisors finds and declares that a program for mandatory spaying and neutering of dogs and cats kept within the unincorporated areas of Monterey County is a reasonable and effective means of reducing the populations of homeless or stray dogs and cats, reducing the need to humanely euthanize healthy dogs and cats, and providing for the health, safety and welfare of the public.

SECTION 2. Section 8.04.010 is hereby amended to insert the following sentences:

"Neutered" refers to the procedure performed by a licensed veterinarian on male animals, under anesthesia, to remove testicles to prevent breeding.

"Spayed" refers to the procedure performed by a licensed veterinarian on female animals, under anesthesia, to remove the ovaries and uterus to prevent breeding.

SECTION 3. Chapter 8.08 entitled "Vaccination, Vaccination Certificate, and License" is hereby amended to change its title as follows:

Chapter 8.08 - Vaccination, Vaccination Certificate, License, and Mandatory Spaying and Neutering.

8.08.060 – Mandatory Spaying and Neutering.

A. No person shall own, harbor or keep within the unincorporated area of Monterey County, a dog or cat over the age of six months, which has not been spayed or neutered unless such person qualifies for an exemption as described in subsection (C) of this Section.

B. Dogs that have been deemed Potentially Dangerous or Vicious, or dogs and cats that are repeat offenders of other Title 8 sections of this Code do not qualify for an exemption as described in subsection (C) of this Section.

C. Exemptions: The following animals are exempt from the provisions of this Section and owners may be required to show appropriate supportive documentation to the Animal Control Officer if requested:

1. Dogs or cats documented as having been appropriately trained and currently being used by public law enforcement agencies for law enforcement activities, search and rescue, or service agencies that assist disabled persons.

2. Dogs and cats certified by a licensed veterinarian as having a health reason for not being spayed/neutered.

3. Dogs and cats residing in a kennel, boarding or pet shop holding a valid permit issued pursuant to Chapter 8.12.

4. Dogs or cats which are owned or kept and in the custody and control of a nonresident of the unincorporated area of the County, and who are temporarily visiting or traveling through the unincorporated area of Monterey County for a period of less than 30 consecutive days.

SECTION 5. SEVERABILITY. If any subsection, sentence, clause or phrase of this Ordinance is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance, which shall remain in full force and effect. The Board of Supervisors hereby declares that it would have adopted this Ordinance, and each subsection, sentence, clause and phrase thereof not declared invalid or unconstitutional, without regard to whether any portion of the article would be subsequently declared invalid or unconstitutional. The courts are hereby authorized to reform the provisions of this Section to preserve the maximum permissible effect of each subsection herein.

Title:

Introduce, waive first reading, and set June 23, 2026, at 10:30 a.m. as the date and time to consider adoption of an ordinance amending Chapters 8.04 and 8.08 of the Monterey County Code to require spaying and neutering of dogs and cats, while allowing certain exceptions.

Summary:

Board Referral No. 2025.10 was issued by Supervisor Alejo and assigned to the Health Department on August 26, 2025.This is an update on the referral process to date and the first hearing of the attached draft mandatory spay/neuter ordinance in the unincorporated areas of Monterey County as requested by the Board of Supervisors.

Timeline for Referral 2025.10

Referral Issued	HRAS Board	County BoS	HRAS Board	HRAS Advisory	HRAS Board	County BoS
August 2025	September 2025	September 2025	November 2025	January – March 2026	May 2026	June 2026

Draft Ordinance Key Elements

Amend 8.04.010 – defines “Spayed” and “Neutered”

Amend 8.08 – inserts “Mandatory Spaying and Neutering”

Key Provision

No person shall own, harbor or keep within the unincorporated area of the County, a dog or cat over the age of six months, which has not been spayed or neutered unless such person qualifies for an exemption.

- "Mandatory" is used given the purpose of ordinance to mandate compliance. (Noted in Santa Cruz, Seaside uses both words).
- Age: 6 months is a commonly used age in ordinances and practice. Note that in individual cases where 6 months might be too early for the procedure, there is an exemption for veterinarian certified health reasons.
- Does not include an "unaltered animal certificate" licensing process. Requires compliance, breeder/kennel permit or an exemption.
- Does not include feral cats as defined by MCC 8.04. Recommended to address separately in the adoption of a "Community Cat" related ordinance when other ordinances are updated.

Exemptions

1. Dogs or cats documented as having been appropriately trained and currently being used by public law enforcement agencies for law enforcement activities, including search and rescue or service agencies that assist disabled persons.
2. Dogs and cats certified by a licensed veterinarian as having a health reason for not being spayed or neutered.
3. Dogs and cats residing in a kennel, boarding or pet shop holding a valid permit issued pursuant to Chapter 8.12,
4. Dogs and cats which are owned or kept and, in the custody and control of a nonresident of the unincorporated area of the County and who are temporarily visiting or traveling through the unincorporated areas of Monterey County for a period of less than 30 consecutive days.

Note: Dogs that have been deemed Potentially Dangerous or Vicious OR dogs and cats that are repeat offenders of other Title 8 sections do not qualify for an exemption.

Enforcement and Management

HRAS will conduct a public awareness campaign to inform the public and pet owners of new ordinance and share available resources for spay/neuter services in the County.

Pet owners in the unincorporated County area will have the option to comply, receive a breeder's permit, or qualify for an exemption.

When applicable, HRAS may issue citations.

Potential barriers to success.

- **Continued veterinarian shortage** – Collaboration amongst all eligible agencies to make s/n services readily available is essential for making a meaningful impact.

- **Rising economic/housing pressures** – Places substantial financial cost on pet owners, disproportionately burdening lower-income communities.

- **Staffing Capacity** – Current and proposed staffing level and resources may not be sufficient for robust enforcement.

Consider adoption of ordinance set for:

June 23, 2026, at 10:30 am

Thank you

Draft spay/neuter ordinance provisions for unincorporated Monterey County as presented to HRAS JPA Board of Directors on May 11th, 2026.

i. Required for dogs and domestic cats over the age of 6 months in unincorporated MC only unless have an exemption.
ii. Creates an unaltered animal certification program.
iii. Enforced through the "Animal Control Officer" as defined in exiting MCC code.
iv. Does not specifically include feral or community cats. (Note: this should be addressed separately under a community cat ordinance and using experience with Salinas City Code 7-11(b)).
v. Provides typical exemptions for law enforcement, medical, permitted holders.
vi. The County of Santa Cruz current ordinance was used as a guiding model.

Referral Title: CALPERS and Covered California Presentation

Referral Purpose: Request an open-session presentation to the Board of Supervisors from CALPERS and Covered California regarding the impact of state and federal legislation on the commercial health insurance market, and the strategies being considered to manage the cost of commercial health insurance in Monterey County.

Brief Referral Description (attach additional sheet as required):
This referral requests an open-session presentation to the Board of Supervisors from CALPERS and Covered California regarding the impact of state and federal legislation on the commercial health insurance market, and the strategies being considered to manage the cost of commercial health insurance in Monterey County.

Health care costs are among the top list of economic worries for Americans, and that increasing health insurance premiums poses a serious financial concern for employers who offer health benefits and the individuals who rely on commercial health insurance.

CalPERS administers health benefits to more than 1.5 million public employees, retirees, and their dependents across the state - including thousands of public sector workers here in Monterey County. Covered California covers over 30,000 individuals in the tri-county region. CalPERS and Covered California rate-setting is based on geographic regions to reflect the varying costs of healthcare across the state.

This presentation from CALPERS and Covered California will provide important context to the Board of Supervisors and the public about the current and anticipated future status of the commercial health insurance market.

We recognize that there are differing perspectives about the cause of high healthcare rates in Monterey County. To be clear, this is not a request for a discussion about the OCHA study "An Investigative Study of Hospital Market Competition in Monterey County" or the California Hospital Association response, but rather an informational presentation about rate-setting realities that will impact commercially insured individuals in our region.

SUMMARY:

The Behavioral Health Bureau seeks approval to renew Memorandum of Understanding (MOU) A-17387 with the Special Education Local Plan Area (SELPA) to continue providing mental health

and related support services to special education students served by SELPA member Local Education Agencies (LEAs). The current MOU expires on June 30, 2026. Under the MOU, the County provides Psychiatric Social Workers (Therapists), Home Alternatives to Residential Treatment (HART), Residential Monitoring, and Residential Searching and Securing services. SELPA reimburses the non-Federal Financial Participation (FFP) share of eligible mental health services and fully reimburses the County for HART, Residential Monitoring, and Residential Searching and Securing services.

DISCUSSION:
The Special Education Local Plan Area (SELPA) acknowledges that its member Local Education Agencies are mandated to provide students with free and appropriate public education (FAPE) including mental health services. For several years, SELPA has entered into an MOU with the County to deploy Psychiatric Social Workers (Therapist) to School Districts to provide an array of services, including individual and group counseling provided to a student; individual or group counseling provided to parents of special education students; consultation services offered to parents, students, teachers and other school personnel; and planning and implementing a program of psychological counseling for special education students and parents. In addition, the County provides services to SELPA that include Home Alternatives to Residential Treatment, Residential Monitoring, and Residential Searching and Securing.

SELPA agrees to pay the non-Federal Financial Participation (FFP) portion of the mental health service since County is reimbursed FFP directly by Department of Health Care Services; and reimburse the full cost of the provision of HART, Residential Monitoring, and Residential Searching and Securing. The current MOU A-17387 between SELPA and the County will expire on June 30, 2026, and we are seeking to renew the MOU.

The MOU template provides for mutual indemnification and limitation of liability. The MOU template provides that both County and Districts must meet coverage limits for professional liability and commercial general liability (CGL), and additional insured endorsements for commercial general liability, which coverage limits are at or above the requirements for the County's own service providers. The template further provides for the inclusion of professional liability and CGL coverage related to sexual misconduct.

This work supports one of the County of Monterey County Health Department 2025-2028 Strategic Plan Goal(s): 2. Provide Exceptional Person-Centered Care through Accessible, Community-Focused Health Services. It also supports one of the ten essential public health services, specifically: 7. Link people to needed personal health services and assure the provision of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT:
The Office of County Counsel and Auditor-Controller have reviewed and approved this Agreement as to legal form and fiscal provisions, respectively. Risk Management has not approved this Agreement due to non-standard insurance provisions.

FINANCING:

The costs of this agreement are funded by Special Education Local Plan Area reimbursement (SELPA 100%). The associated revenue and expenditures are included in the Health Department's Behavioral Health (HEA 012, Unit 8410) FY 2026-27 Requested Budget.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This work supports the Board of Supervisors Strategic Plan Goal(s) by providing exceptional Person-Centered Care through Accessible, Community-Focused Health Services to provide service enhancements to support well-being and quality of life.

INTERAGENCY AGREEMENT
BETWEEN

THE MONTEREY COUNTY SPECIAL EDUCATION LOCAL PLAN AREA (SELPA)

AND

THE MONTEREY COUNTY HEALTH DEPARTMENT, BEHAVIORAL HEALTH BUREAU (MCBH)

2026 – 2027

Docusign Envelope ID: 47658A92-4F27-8798-8018-F2AE82B8BD86

On October 8, 2010, California Governor Arnold Schwarzenegger vetoed a fiscal year 2010-11 appropriation for Educationally Related Mental Health Services (ERMHS) or an evaluation conducted to determine a student's mental health needs and whether mental health services are required for the student to benefit from their educational program, mandated by AB 3632 and stated in doing so that "[t]his mandate is suspended." AB 114, Statutes of 2011, Chapter 43 (AB 114) became effective July 1, 2011, and placed the responsibility for provision of mental health services for students with disabilities (AB 114 Services) with LEAs.

Monterey County Special Education Local Plan Area (SELPA) acknowledges that the Local Education Agencies (LEAs) are mandated to provide services necessary to ensure students a free and appropriate public education (FAPE), including Mental Health Services, pursuant to a student's Individualized Education Plan (IEP), the federal Individuals with Disabilities Education Act (IDEA) and state law. SELPA is authorized to obligate its member LEAs to the terms of this Agreement.

County of Monterey Health Department, Behavioral Health Bureau (MCBH) offers outpatient Mental Health Services or medically necessary services to assess and treat severe mental health conditions (hereinafter Mental Health Services), by qualified professionals at its current publicized rates. SELPA requests that MCBH facilitate the provisions of these Mental Health Services to students of the LEAs within SELPA who are eligible and where such services are deemed necessary in the IEP.

This Agreement defines the roles and responsibilities of SELPA, on behalf of its member LEAs, and MCBH in the provision of special education and related services to school-age individuals residing in Monterey County. Individuals referred to MCBH must be suspected of needing related services provided by MCBH. Special education and related services covered under the terms of this Agreement shall be at no cost to the parent or legal guardian of the student being served, though MCBH may bill appropriate payors (e.g. Medi-Cal) for mental health services rendered to qualifying individuals.

A primary goal of this Agreement is to ensure that necessary special education and related services are provided to qualifying individuals with special needs in an efficient manner through joint planning, cooperative service delivery, and the judicious use of resources in accordance with applicable federal and state laws and regulations.

Appendix C – Youth Screening Tool for Medi-Cal Mental Health Services

State of California – Health and Human Services Agency Department of Health Care Services

Youth Screening Tool for Medi-Cal Mental Health Services

The Youth Screening Tool for Medi-Cal Mental Health Services is required for use when an individual under age 21, or a person on behalf of an individual under age 21, who is not currently receiving mental health services, contacts their Medi-Cal Managed Care Plan (MCP) or county Mental Health Plan (MHP) to seek mental health services. This tool determines whether an individual should be referred to the MCP delivery system or to the MHP delivery system for a clinical assessment and ensures that individuals have timely access to the appropriate mental health delivery system. The Youth Screening Tool for Medi-Cal Mental Health Services is not required to be used when individuals contact mental health providers directly to seek mental health services.[1]

Instructions:

1. There are two versions of the Youth Screening Tool for Medi-Cal Mental Health Services:
   - One version of the tool is used when a youth is responding on their own behalf: ***Youth Screening Tool for Medi-Cal Mental Health Services: Youth Respondent.***
   - One version of the tool is used when a person is responding on behalf of the youth: ***Youth Screening Tool for Medi-Cal Mental Health Services: Respondent on Behalf of Youth.***
2. The answer to screening question 2 determines which version of the tool is used.
3. Each scored question is a "Yes" or "No" question. Not every question is scored.
4. Each scored question has a defined number of points for the selected answer. The number of points for each question cannot be more or less than what is on the scoresheet.
5. Select/mark the number in the "Yes" or "No" column based on the response provided.
6. If the youth, or the person responding on their behalf, is unable or chooses not to answer a question, skip the question and score it as "0."

[1] As described in APL 22-028 and BHIN 22-065, MCPs and MHPs must allow contracted mental health providers who are contacted directly by individuals seeking mental health services to begin the assessment process and provide services during the assessment period without using the Screening Tools, consistent with the No Wrong Door for Mental Health Services Policy described in BHIN 22-011.

Docusign Envelope ID: 47658A92-4F27-8798-8018-F2AE82B8BD86

7. If a response to question 5 indicates that a child who is age 3 or younger has not seen a pediatrician in the last 6 months, or that a child/youth age 4 or older has not seen a pediatrician or primary care physician (PCP) in the last year, the screener must offer to connect them to their MCP for a pediatrician/PCP visit in addition to the mental health delivery system referral generated by the screening score.[2]
8. If the youth, or the person responding on their behalf, responds "Yes" to question 6, 7, or 9, they meet criteria for specialty mental health services per BHIN 21-073. In these cases, the screening is not required, and the screener must offer and coordinate a referral for clinical assessment by the MHP. Referral coordination must include follow up to ensure an assessment has been made available to the individual. Please reference BHIN 21-073 for additional detail on specialty mental health services criteria and definitions of key terminology.
9. If the youth, or the person responding on their behalf, responds "Yes" to question 19, 20, or 21, the screener must immediately offer and coordinate a referral to a clinician for further evaluation of suicidality and/or homicidality after the screening is completed. Referral coordination should include sharing the completed Youth Screening Tool for Medi-Cal Mental Health Services. The referral and subsequent clinical evaluation may or may not impact the mental health delivery system referral generated by the screening score.
10. A response of "Yes" to question 17 does not impact the screening score. If the youth, or the person responding on their behalf, responds "Yes" to question 17, the screener must offer and coordinate a referral to the county behavioral health plan for substance use disorder assessment in addition to the mental health delivery system referral generated by the screening score. The individual may decline this referral without impact to the mental health delivery system referral.
11. Once responses to all questions have been documented, the selected/marked numbers in the "Yes" column should be added together and that total number should be entered in the "Total Score" box.
    a. Individuals with a total score of 0 – 5 must be referred to the MCP for a clinical assessment.
    b. Individuals with a total score of 6 and above must be referred to the MHP for a clinical assessment.
12. Once a score has been generated, a referral must be coordinated.
    a. If the individual's score requires referral within the same delivery system, a timely clinical assessment must be offered and provided.
    b. If the individual's score requires referral to the other mental health delivery system (i.e., MCP to MHP or MHP to MCP), the referral must be coordinated with the other delivery system, including sharing the completed Youth Screening Tool for Medi-Cal Mental Health Services and following up to ensure a timely clinical assessment has been made available to the individual.

---

[2] Bright Futures well-child visit guidelines indicate a child age 4 and older should be seen by a pediatrician annually, and a child age 3 and under should be seen by a pediatrician every 1, 3, or 6 months depending on their age.

or supplying work, services, materials, or supplies, in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR'S performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the COUNTY. "CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.

XIII. INSURANCE

A. Evidence of Coverage. Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the CONTRACTOR upon request shall provide a certified copy of the policy or policies.
This verification of coverage shall be sent to the COUNTY'S Contracts/Purchasing Office, unless otherwise directed. The CONTRACTOR shall not receive approval for services for work under this Agreement until all insurance has been obtained as required and approved by the COUNTY. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

B. Qualifying Insurers. All coverage, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current A. M. Best's Key Rating Guide or a company of equal financial stability that is approved by the COUNTY'S Contracts/Purchasing Officer.

C. Insurance Coverage Requirements. Without limiting CONTRACTOR'S duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

1. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

3. Workers Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

4. Professional Liability Insurance, if required for the professional service being provided, (e.g., those persons authorized by a license to engage in business or profession regulated by the California Business and Professional Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

D. Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the COUNTY and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the COUNTY shall be given notice in writing at least thirty (30) calendar days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

XIV. ACCESS TO AND AUDIT OF RECORDS

A. Right to Inspect Records. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State laws including, but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., the COUNTY or its representative, Federal or State governments may conduct an audit, review or other monitoring procedures of the CONTRACTOR regarding the services/activities provided under this Agreement. The COUNTY or its representative, Federal or State governments shall have the right to inspect any and all books, records, and facilities maintained by CONTRACTOR during normal business hours and without advance notice to evaluate the use of funds and the cost, quality, appropriateness, and timeliness of services.

B. Maintenance of Records. CONTRACTOR shall maintain any and all records documenting all services set forth under this Agreement for a period of ten (10) years from the end of the fiscal year in which such services were provided or until three (3) years after final resolution of any audits, or appeals, whichever occurs later. CONTRACTOR shall maintain such records in a form comporting with generally accepted accounting and auditing standards and all applicable laws.

C. Overpayment. If the results of any audit show that the funds paid to CONTRACTOR under this Agreement exceeded the amount due, then CONTRACTOR shall pay the excess amount to COUNTY in cash not later than thirty (30) calendar days after the COUNTY notifies the CONTRACTOR of such overpayment; or, at COUNTY'S election, COUNTY may recover the excess or any portion of it by offsets made by COUNTY against any payment(s) owed to CONTRACTOR under this or any other Agreement or as set forth in Exhibit I, if made part of this Agreement.

D. Responsibility for Audit Exceptions. Any and all audit exceptions by COUNTY or any Federal or State agency resulting from an audit of CONTRACTOR'S performance of this

Agreement, or actions by CONTRACTOR, its officers, agents, and employees shall be the sole responsibility of the CONTRACTOR.

E. Availability of Records for Grievances and Complaints by Recipients of Service. CONTRACTOR shall ensure the availability of records for the prompt handling of grievances or complaints filed by recipients of services. Release of records shall be subject to the confidentiality provisions set forth in this Agreement.

CONTRACTOR shall insure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be unlawful discrimination. In addition, CONTRACTOR'S facility access for the disabled shall comply with § 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

CONTRACTOR and its officers and employees, in their actions under this Agreement, are agents of the COUNTY within the meaning of Chapter 2.80 and are responsible for ensuring that their workplace and the services that they provide are free from discrimination, as required by Chapter 2.80. Complaints of discrimination made by recipients of services against CONTRACTOR may be pursued by using the procedures established by or pursuant to Chapter 2.80. EXHIBIT E: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Triqui and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Triqui, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

8. Ensure that 100% of staff, over a 3-year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

By my signature below, as the authorized representative of the CONTRACTOR named below, I certify acceptance and understanding for myself and the CONTRACTOR of the above provisions.

2. PERMITTED USES AND DISCLOSURES OF PHI

(a) Use or Disclose PHI to perform Services for, or on behalf of, Covered Entity, provided that such Use or Disclosure would not violate the Privacy or Security Rules, this BAA, or California Confidentiality Laws if done by Covered Entity;

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B);

permitted under 45 C.F.R. § 164.504(e)(4)(ii), provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and that such person will notify the Business Associate of any instances of which such person is aware that the confidentiality of the information has been breached; and

(e) Use PHI to report violations of law to appropriate Federal and state authorities, consistent with 45 C.F.R. § 164.502(j)(1).

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non- permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de- identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R.
§ 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

5.4 Notices. Any notices to be given hereunder to a Party shall be made via U.S. Mail or express courier to such Party's address given below, and/or via facsimile or email to the facsimile telephone numbers or email addresses listed below.

I. AUDITS AND AUDIT APPEALS

A. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State law including but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., authorized representatives from the Federal governments, State or COUNTY may conduct an audit of CONTRACTOR regarding the services/activities provided under the fiscal year(s) for which the audit is outstanding. In addition, contract compliance audits or reviews may be conducted by the County of Monterey Auditor-Controller's Office or designated representative. Furthermore, the California State Controller Office performs audits of the mandated cost claims for the seriously emotionally disturbed pupils for the Out-of-State Mental Health Services Program and Handicapped and Disabled Students Programs. The Centers for Medicare and Medicaid Services (CMS) also perform audits of the Certified Public Expenditure (CPE) processes, negotiated rate audit information, and other issues.

B. Settlement of audit findings shall be conducted according to the auditing party's procedures in place at the time of the audit.

C. In the case of a Federal Government or State audit, COUNTY may perform a post-audit based on Federal or State audit findings. Such post-audit shall take place when the Federal Government or State initiates its settlement action, which customarily is after the issuance of the audit report by the Federal Government or State and before the Federal Government or State's audit appeal process.

    1. If the Federal Government or State stays its collection of any amounts due or payable because of the audit findings, COUNTY shall also stay its settlement of the same amounts due or payable until the responsible auditing party initiates its settlement action with COUNTY.

    2. COUNTY shall follow all applicable Federal, State and local laws, regulations manuals, guidelines and directives in recovering from CONTRACTOR any amount due to the COUNTY.

    3. COUNTY shall issue an invoice to CONTRACTOR for any amount due to the COUNTY no later than ninety (90) calendar days after the Federal or State issues its audit settlement letter to the COUNTY. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

D. CONTRACTOR may appeal any such audit findings in accordance with the audit appeal process established by the party performing the audit.

    1. For Federal audit exceptions, Federal audit appeal processes shall be followed.

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

2. CONTRACTOR may appeal the State audit findings in conformance with provisions of Sections 51016 et seq. of Title 22 of the California Code of Regulations. Such appeals must be filed through COUNTY. COUNTY shall notify CONTRACTOR of State appeal deadlines after COUNTY'S receipt from State of the audit report.

3. If at any time the Appeal process results in a revision to the audit findings, and the Federal Government or State recalculates the final settlement with COUNTY, COUNTY may perform a post-audit based on the Federal or State revised findings after the Federal Government or State has issued its revised settlement with the COUNTY, based on such re-computed final settlement.

   a. If the re-computed final settlement results in amounts due to CONTRACTOR by the COUNTY, COUNTY shall make such payments to CONTRACTOR within thirty (30) calendar days of issuing the revised settlement amount to the CONTRACTOR.

   b. If the re-computed final settlement results in amounts due from CONTRACTOR to the COUNTY, CONTRACTOR shall make payment to the COUNTY within thirty (30) days that the COUNTY issues its invoice to the CONTRACTOR.

E. Not withstanding any other provisions of this Agreement, if CONTRACTOR appeals any audit report, the appeal shall not prevent the COUNTY from recovering from CONTRACTOR any amount owed by CONTRACTOR that the Federal Government or State has recovered from COUNTY.

F. Should the auditing party be the COUNTY, CONTRACTOR shall have thirty (30) calendar days from the date of the audit report with in which to file an appeal with COUNTY. The letter providing the CONTRACTOR with notice of the audit findings shall indicate the person(s) and address to which the appeal should be directed. COUNTY shall consider all information provided by CONTRACTOR with its appeal, and shall issue its decision on the appeal after such consideration. Such decision is final. COUNTY shall issue an invoice for any amount due COUNTY fifteen (15) calendar days after COUNTY has notified CONTRACTOR of the COUNTY'S audit appeal findings. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

II. METHOD OF PAYMENTS FOR AMOUNTS DUE TO COUNTY

A. Within ten (10) business days after written notification by COUNTY to CONTRACTOR of any amount due by CONTRACTOR to COUNTY, CONTRACTOR shall notify COUNTY as to which of the following five (5) payment options CONTRACTOR requests be used as the method by which such amount shall be recovered by COUNTY.

   Any such amount shall be:

   1. Paid in one cash payment by CONTRACTOR to COUNTY;

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

3. Deducted from any amounts due from COUNTY to CONTRACTOR whether under this Agreement or otherwise;

4. Paid by cash payment(s) by CONTRACTOR to COUNTY over a period not to exceed six (6) months; OR

5. A combination of any or all of the above.

B. If CONTRACTOR does not so notify COUNTY within such ten (10) days, or if CONTRACTOR fails to make payment of any such amount to COUNTY as required, then Director, in his sole discretion, shall determine which of the above five (5) payment options shall be used by COUNTY for recovery of such amount from CONTRACTOR.

The County of Monterey's current DUI program(s) is able to provide services through Live Virtual Services, creating the opportunity to serve out-of-county clients. Santa Cruz County DUI clients participating in the County of Monterey contracted DUI Program will not impact or limit enrollment for County of Monterey DUI participants. In the event the County of Monterey's contracted DUI program experiences staffing shortages, it is agreed that County of Monterey participants will receive priority services. In the event of a staffing or service shortage arise during the period of the term of this Agreement, Santa Cruz County will be responsible for coordinating with the County of Monterey's contracted DUI program and to develop and implement a plan that supports Santa Cruz County participants without impact to County of Monterey participants.

This Agreement contains a 30-day "without cause" provision (Section 3), which provides that either of the parties may terminate the Agreement.

County of Santa Cruz Health Services Agency Behavioral Health Division
and County of Monterey
FY 25/26

1. INTRODUCTION

The purpose of this Non-Standard Agreement is to establish a cooperative agreement between County of Santa Cruz County Health Services Agency Behavioral Health hereinafter referred to as SANTA CRUZ, and the County of Monterey, hereinafter referred to as MONTEREY, to allow Out-of-County clients to enroll in a licensed Driving Under the Influence (DUI) Program, and for SANTA CRUZ to implement a contract with the DUI Program Provider MONTEREY is currently utilizing. SANTA CRUZ and MONTEREY may be collectively referred to as "PARTIES" and individually as "PARTY".

2. PURPOSE

A. Per Health & Safety Code (HSC) Section 11837.2, a person is eligible to participate in a DUI Program if the program is operating in any of the following:
   1. The county where the person is convicted.
   2. The county where the person resides.
   3. A county that has an agreement with the person's county of residence pursuant to HSC Section 11838.

B. SANTA CRUZ has advised MONTEREY that SANTA CRUZ DUI clients will be unable to enroll in a local licensed DUI program due to Program Closures in their county. To be in compliance with court orders and Department of Motor Vehicle (DMV) driver's license requirements, DUI clients are seeking alternative programs to enroll in.

C. DUI Program Closures create hardships for DUI clients, affecting their ability to apply for a restricted driver's license and extending the period for which their eligibility to receive full license reinstatement post-DUI completion.

D. DUI Program Closures place the public at risk for a higher number of DUI clients' recidivism, and DMV annual reports have validated DUI program attendance as a critical component of reduced recidivism in California.

E. MONTEREY's current DUI Program(s) are able to provide services using Live Virtual Services, which opens the opportunity to serve Out-of-County clients.

The term of this Agreement shall commence from the date of execution, through June 30, 2028, during which time DUI Program Services shall be provided to SANTA CRUZ clients through MONTEREY's DUI Program Services.

B. **TERMINATION**
PARTIES may terminate agreement for any reason with thirty (30) calendar days written notice.

C. **REIMBURSEMENT**
This Agreement is non-financial. SANTA CRUZ shall contract directly with DUI Program Provider for services.

D. **CLIENT PRIORITY:**
SANTA CRUZ's DUI participants to MONTEREY's contracted DUI Program will not impact or affect enrollment for MONTEREY's DUI participants. If MONTEREY's contracted DUI Program experiences staffing shortages, it is agreed that MONTEREY participants shall have priority. RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a non-standard Agreement between County of Santa Cruz, on behalf of its Health Services Agency Behavioral Health Division and County of Monterey, to establish referral and acceptance protocols allowing out-of-county clients to enroll in the Monterey County licensed Driving Under the Influence (DUI) Program. The term of this Agreement shall commence from the date of execution through June 30, 2028, at no cost to either party;

c. Approve and authorize the Director of Health Services or designee to execute up to three (3) future amendments that do not significantly alter the original scope of services and do not add funds to the Agreement.

SUMMARY:

The purpose of this Agreement is to establish a cooperative agreement between County of Santa Cruz, on behalf of its Health Services Agency Behavioral Health Division and County of Monterey, to establish referral and acceptance protocols allowing out-of-county clients to enroll in the Monterey County licensed Driving Under the Influence (DUI) Program.

DISCUSSION:

Santa Cruz County has advised the County of Monterey that Santa Cruz County DUI clients will be unable to enroll in a local licensed DUI program due to program closures in their county. Santa Cruz County is seeking to utilize Monterey County's contracted DUI Program Provider, Sun Street Centers. Department of Health Care Services (DHCS) requires that any county seeking to utilize DUI Program services in another county enter into a formal agreement to outlining the referral and acceptance protocols.

DUI program closures create significant hardships for clients, limiting their ability to apply for a restricted driver's license and prolonging the timeline for full license reinstatement after completing DUI requirements. These closures may also increase the risk of recidivism, as

Docusign Envelope ID: F1047B38-DD89-819A-81D6-7E20E3CECA6F

consistent program participation is a key factor in reducing repeat offenses. Annual reports from the California Department of Motor Vehicles (DMV) have identified DUI program attendance as a critical component in lowering rates recidivism across California.

The County of Monterey's current DUI program(s) is able to provide services through Live Virtual Services, creating the opportunity to serve out-of-county clients. Santa Cruz County DUI clients participating in the County of Monterey contracted DUI Program will not impact or limit enrollment for County of Monterey DUI participants. In the event the County of Monterey's contracted DUI program experiences staffing shortages, it is agreed that County of Monterey participants will receive priority services. In the event of a staffing or service shortage arise during the period of the term of this Agreement, Santa Cruz County will be responsible for coordinating with the County of Monterey's contracted DUI program and to develop and implement a plan that supports Santa Cruz County participants without impact to County of Monterey participants.

This Agreement contains a 30-day "without cause" provision (Section 3), which provides that either of the parties may terminate the Agreement.

This work supports the following County of Monterey Health Department 2025-2028 Strategic Plan Goal(s): 2) Provide Exceptional Person-Center Care through Accessible, Community-Focused Health Services. It also supports one of the ten essential public health services, specifically: 7) Link people to need personal health services and assure the provision of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The office of the County Counsel and Risk Management have reviewed and approved this Agreement as to legal form and fiscal provisions, respectively.

FINANCING:
This Agreement consists solely of operational protocol and contains no fiscal, insurance or indemnification provisions; therefore, there will be no financial impact as a result of this Agreement.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

EXHIBIT E: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY'S CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Triqui and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Triqui, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

8. Ensure that 100% of staff, over a 3 year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

By my signature below, as the authorized representative of the CONTRACTOR named below, I certify acceptance and understanding for myself and the CONTRACTOR of the above provisions.

(a) "Breach" shall have the same meaning as "breach" as defined in 45 C.F.R. § 164.402; however, the term "Breach" as used in this BAA shall also mean the unlawful or unauthorized access to, Use or Disclosure of a patient's "medical information" as defined under Cal. Civil Code § 56.05(j), for which notification is required pursuant to Cal. Health & Safety Code 1280.15, or a "breach of the security of the system" under Cal. Civil Code § 1798.29.

(b) "California Confidentiality Laws" shall mean the applicable laws of the State of California governing the confidentiality, privacy, or security of PHI or other personally identifiable information (PII), including, but not limited to, the California Confidentiality of Medical Information Act (Cal. Civil Code § 56 *et seq.*), the patient access law (Cal. Health & Safety Code § 123100 *et seq.*), the HIV test result confidentiality law (Cal. Health & Safety Code § 120975 *et seq.*), the Lanterman-Petris-Short Act (Cal. Welf. & Inst. Code § 5328 *et seq.*), and California's data breach law (Cal. Civil Code § 1798.29).

(c) "Protected Health Information" or "PHI" shall mean any information, whether oral or recorded in any form or medium: (i) that relates to the past, present or future physical or mental condition of an individual; the provision of health care to an individual or the past, present or future payment for the provision of health care to an individual; (ii) that identifies the individual or with respect to which there is a reasonable basis to believe the information that can be used to identify the individual, and (iii) is provided by Covered Entity to Business Associate or created, maintained, received, or transmitted by Business Associate on Covered Entity's behalf. PHI, when used in this BAA, includes EPHI.

(d) "Services" shall mean the services for or functions performed by Business Associate on behalf of Covered Entity pursuant to an underlying services agreement "(Services Agreement") between Covered Entity and Business Associate to which this BAA applies.

2. PERMITTED USES AND DISCLOSURES OF PHI

Unless otherwise limited herein, Business Associate may:

(a) Use or Disclose PHI to perform Services for, or on behalf of, Covered Entity, provided that such Use or Disclosure would not violate the Privacy or Security Rules, this BAA, or California Confidentiality Laws if done by Covered Entity;

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B);

(c) Use PHI if necessary for the proper management and administration of Business Associate or to carry out the legal responsibilities of Business Associate as permitted by 45 C.F.R. § 164.504(e)(4)(i);

(d) Disclose PHI for the proper management and administration of Business Associate or to carry out the legal responsibilities of Business Associate as permitted under 45 C.F.R. § 164.504(e)(4)(ii), provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and that such person will notify the Business Associate of any instances of which such person is aware that the confidentiality of the information has been breached; and

(e) Use PHI to report violations of law to appropriate Federal and state authorities, consistent with 45 C.F.R. § 164.502(j)(1).

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and

(iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non- permitted access, acquisition, Use, or Disclosure. Business

Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

(b) Business Associate is not permitted to Use PHI to create de- identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R.
§ 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

5.6 Relationship of Parties. Notwithstanding anything to the contrary in the Services Agreement, Business Associate is an independent contractor and not an agent of Covered Entity under this BAA. Business Associate has the sole right and obligation to supervise, manage, contract, direct, procure, perform, or cause to be performed all Business Associate obligations under this BAA.

5.7 Choice of Law; Interpretation. This BAA shall be governed by the laws of the State of California. Any ambiguities in this BAA shall be resolved in a manner that allows Covered Entity and Business Associate to comply with HIPAA and the California Confidentiality Laws.

5.8 Indemnification. Business Associate shall indemnify, defend, and hold harmless the County of Monterey (the "County"), its officers, agents, and employees from any claim, liability, loss, injury, cost, expense, penalty or damage, including costs incurred by the County with respect to any investigation, enforcement proceeding, or third party action, arising out of, or in connection with, a violation of this BAA, HIPAA or California Confidentiality Laws, or a Breach that is attributable to an act or omission of Business Associate and/or its agents, members, employees, or Subcontractors, excepting only loss, injury, cost, expense, penalty or damage caused by the negligence or willful misconduct of personnel employed by the County. It is the intent of the Parties to provide the broadest possible indemnification for the County. This BAA applies to all present and future Services Agreements and business associate relationships, written or unwritten, formal or informal, in which Business Associate creates, receives, transmits, or maintains any PHI for or on behalf of Covered Entity in any form whatsoever. This BAA shall automatically be incorporated in all subsequent agreements between Business Associate and Covered Entity involving the Use or Disclosure of PHI whether or not specifically referenced therein. In the event of any conflict or inconsistency between a provision of this BAA and a provision of any other agreement between Business Associate and Covered Entity, the provision of this BAA shall control unless the provision in such other agreement establishes additional rights for Business Associate or additional duties for or restrictions on Business Associate with respect to PHI, in which case the provision of such other agreement will control.

More than 60,000	$10,000,000

If the Business Associate maintains broader coverage and/or higher limits than these minimums, the Covered Entity requires, and shall be entitled to, the broader coverage and/or the higher limits maintained by the Business Associate. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the Covered Entity. Such insurance coverage will be maintained for the term of this BAA, and a copy of such policy or a certificate evidencing the policy shall be provided to Covered Entity at Covered Entity's request.

5.11 Legal Actions. Promptly, but no later than five (5) calendar days after notice thereof, Business Associate shall advise Covered Entity of any actual or potential action, proceeding, regulatory or governmental orders or actions, or any material threat thereof that becomes known to it that may affect the interests of Covered Entity or jeopardize this BAA, and of any facts and circumstances that may be pertinent to the prosecution or defense of any such actual or potential legal action or proceeding, except to the extent prohibited by law. I. AUDITS AND AUDIT APPEALS

A. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State law including but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., authorized representatives from the Federal governments, State or COUNTY may conduct an audit of CONTRACTOR regarding the services/activities provided under the fiscal year(s) for which the audit is outstanding. In addition, contract compliance audits or reviews may be conducted by the County of Monterey Auditor-Controller's Office or designated representative. Furthermore, the California State Controller Office performs audits of the mandated cost claims for the seriously emotionally disturbed pupils for the Out-of-State Mental Health Services Program and Handicapped and Disabled Students Programs. The Centers for Medicare and Medicaid Services (CMS) also perform audits of the Certified Public Expenditure (CPE) processes, negotiated rate audit information, and other issues.

B. Settlement of audit findings shall be conducted according to the auditing party's procedures in place at the time of the audit.

C. In the case of a Federal Government or State audit, COUNTY may perform a post-audit based on Federal or State audit findings. Such post-audit shall take place when the Federal Government or State initiates its settlement action, which customarily is after the issuance of the audit report by the Federal Government or State and before the Federal Government or State's audit appeal process.

    1. If the Federal Government or State stays its collection of any amounts due or payable because of the audit findings, COUNTY shall also stay its settlement of the same amounts due or payable until the responsible auditing party initiates its settlement action with COUNTY.

    2. COUNTY shall follow all applicable Federal, State and local laws, regulations manuals, guidelines and directives in recovering from CONTRACTOR any amount due to the COUNTY.

    3. COUNTY shall issue an invoice to CONTRACTOR for any amount due to the COUNTY no later than ninety (90) calendar days after the Federal or State issues its audit settlement letter to the COUNTY. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

D. CONTRACTOR may appeal any such audit findings in accordance with the audit appeal process established by the party performing the audit.

    1. For Federal audit exceptions, Federal audit appeal processes shall be followed.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

2. CONTRACTOR may appeal the State audit findings in conformance with provisions of Sections 51016 et seq. of Title 22 of the California Code of Regulations. Such appeals must be filed through COUNTY. COUNTY shall notify CONTRACTOR of State appeal deadlines after COUNTY'S receipt from State of the audit report.

3. If at any time the Appeal process results in a revision to the audit findings, and the Federal Government or State recalculates the final settlement with COUNTY, COUNTY may perform a post-audit based on the Federal or State revised findings after the Federal Government or State has issued its revised settlement with the COUNTY, based on such re-computed final settlement.

   a. If the re-computed final settlement results in amounts due to CONTRACTOR by the COUNTY, COUNTY shall make such payments to CONTRACTOR within thirty (30) calendar days of issuing the revised settlement amount to the CONTRACTOR.

   b. If the re-computed final settlement results in amounts due from CONTRACTOR to the COUNTY, CONTRACTOR shall make payment to the COUNTY within thirty (30) days that the COUNTY issues its invoice to the CONTRACTOR.

E. Not withstanding any other provisions of this Agreement, if CONTRACTOR appeals any audit report, the appeal shall not prevent the COUNTY from recovering from CONTRACTOR any amount owed by CONTRACTOR that the Federal Government or State has recovered from COUNTY.

F. Should the auditing party be the COUNTY, CONTRACTOR shall have thirty (30) calendar days from the date of the audit report with in which to file an appeal with COUNTY. The letter providing the CONTRACTOR with notice of the audit findings shall indicate the person(s) and address to which the appeal should be directed. COUNTY shall consider all information provided by CONTRACTOR with its appeal, and shall issue its decision on the appeal after such consideration. CONTRACTOR may exercise any appeal rights available to CONTRACTOR under State law. Once all of CONTRACTOR's appeal rights have been exhausted, or CONTRACTOR has waived such rights, COUNTY shall issue an invoice for any amount due. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit H. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

II. METHOD OF PAYMENTS FOR AMOUNTS DUE TO COUNTY

A. Within ten (10) business days after written notification by COUNTY to CONTRACTOR of any amount due by CONTRACTOR to COUNTY, CONTRACTOR shall notify COUNTY as to which of the following five (5) payment options CONTRACTOR requests be used as the method by which such amount shall be recovered by COUNTY. Any such amount shall be:

   1. Paid in one cash payment by CONTRACTOR to COUNTY;

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

2. Deducted from future claims over a period not to exceed six (6) months;

3. Deducted from any amounts due from COUNTY to CONTRACTOR whether under this Agreement or otherwise;

4. Paid by cash payment(s) by CONTRACTOR to COUNTY over a period not to exceed six (6) months; OR

All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

"Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. This Agreement was awarded to Alliance on Aging through Request for Proposal (RFP) #10933 in May 2024. The initial term of the Agreement was for Fiscal Year (FY) 2024-25, with the option to extend for up to three (3) additional one (1) year terms for FY 2025-26, FY 2026-27, and FY 2027-28, subject to mutual agreement of the parties and continued availability of funding. The Title VII Ombudsman Program advocates for residents in long-term care facilities, such as nursing homes, addressing complaints, protecting residents' rights, and striving to enhance the quality of care. Additionally, the Health Insurance Counseling and Advocacy Program offers free, impartial guidance to older adults and individuals with disabilities, helping them navigate the complexities of health insurance options, including Medicare, and advocating for their healthcare needs.

SUMMARY:

Under this Agreement, the University of California, Davis (UCD) will provide workforce development training to Department of Social Services employees in compliance with Welfare and Institutions Code (WIC) Section 16205 and 16206, Code of Federal Regulations, Title 45, Section 1357.15(t) and CDSS Policies and Procedures Manual, Division 14-611.

DISCUSSION:

Workforce development training is required by statue for employees in the state and federally funded programs of CalWORKs, CalWORKs Employment Services, CalFresh, and Medi-Cal, and Child and Adult welfare services. Since 1979, UC Davis has been delivering research-based workforce and organizational development training for counties that includes but is not limited to required eligibility and grant training; interviewing and documentation techniques; case-load management; and fraud detection. These trainings, while required by statues, also strengthen job knowledge, skills and abilities to best

serve our community.

The agreement provides one hundred and thirty (130) units/days over two fiscal years for our workforce of nearly 800 employees.

The Department is recommending approval of this exception to the County's standard indemnity language due to limited alternative resources for these types of training as required by statues.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of County Counsel has reviewed and approved the Agreements as to form, as has the Auditor-Controller's Office as to financial provisions.

FINANCING:
This agreement is funded with Social Services Federal and State revenues and realignment revenues. Sufficient appropriations and estimated revenues in SOC005 are included in the FY 2026-27 Recommended Budget. Future funding will be incorporated into the corresponding budget process.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This agreement correlates to the Administrative strategic plan goal adopted by the Board of Supervisors and required by the State of California Health and Human Services Agency Department of Social Services, Manual of Policies and Procedures, Staff Development and Training Manual Division 14, Chapter 14 -110 through 14-940.

Matter Type: BoS Agreement

a. Approve and authorize the Director of the Department of Social Services or designee to sign an agreement with Door to Hope for Pathways to Safety 2.0 services for the period of July 1, 2026 through June 30, 2027 in the amount of $923,265; and
b. Authorize the Director of the Department of Social Services or designee to sign up to three amendments to this Agreement where the total amendments do not exceed 10% ($92,326) of the amended contract amount, do not significantly change the scope of work, and do not exceed the maximum aggregate amount of $1,015,591.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the Director of the Department of Social Services or designee to sign an agreement with Door to Hope for Pathways to Safety 2.0 services for the period of July 1, 2026 through June 30, 2027 in the amount of $923,265; and

SUMMARY:
Pathways to Safety 2.0 (P2S) continues its best practice work to keep families safe, home and thriving. A long-standing goal of P2S has always included minimization of the reporting and the recurrence of a referral to the Child Welfare hotline.

Referrals to Pathways to Safety can be made by Family & Children Services (FCS) or directly from the community. Approximately 65 percents of referrals come from FCS and the remaining 35 percent are self-referral or other community based. All of the families referred to P2S will be offered the provision of Information and Referral, Case Management, and Guardianship Process Support (if needed), that includes community provider's linkage based on assessed needs and willingness of the family to participate. P2S is also in consideration to act in the future as a community pathway to other services and supported offered throughout Monterey County.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:

The Office of County Counsel has reviewed and approved the Agreements as to form, as has the Auditor-Controller's Office as to financial provisions.

FINANCING:

This agreement is funded with Family First Prevention Services State Block grant funds. Sufficient appropriations and estimated revenues for SOC005 are included in the FY 2026-27 Recommended Budget.

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining

CONTRACTOR shall not publish any such material without the prior written approval of County.

10.06 **Format of Deliverables:** For this section, "Deliverables" shall mean all electronic documents CONTRACTOR provides to the County under this Agreement. CONTRACTOR shall ensure all Deliverables comply with the requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1, pursuant to the Americans with Disabilities Act ("ADA"). CONTRACTOR bears the burden to deliver Deliverables, such as Adobe Acrobat Portable Document Format ("PDF") and Microsoft Office files, complying with WCAG 2.1. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

Door to Hope will work in close collaboration with Family and Children's Services (FCS) to improve family and child well-being, while improving the local community's ability to keep children safe.

This agreement continues the partnership to implement best practices in providing equitable support to families with the goal of keeping families together safe and thriving through promoting well-being and fostering ongoing family stability.
Door to Hope Pathways to Safety 2.0 serves families who are at risk of abuse and/or neglect. For the first 15 years of the program, referrals were made from FCS to Pathways to Safety when a family was reported to the hotline but did not meet the threshold for investigation yet were still in need or services. Starting in 2023 self-referrals and community referrals are also made to Pathways to Safety for families in need of support to keep their children home, safe

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

and thriving. These families do not meet the threshold of possible abuse or neglect hotline reporting, but community supporting is needed. Participation in P2S is voluntary. P2S also serves extended families who are seeking out relative guardianship through the court self-self-center, FCS or on their own. Some of these families will continue as a P2S 2.0 family.

Pathways to Safety (P2S) is now partnering with DSS-FCS to be trained and provide Motivational Interviewing techniques to families. This will especially be community supportive in working with families who can benefit from primary prevention services offered through Family First Prevention Services Act dollars. P2S is also working with FCS in partnership around being part of the gateway planning for other FFPSA services throughout the county like Parent's As Teachers (PAT) and their voice will be at the table as these best practice opportunities unfold for families.

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: 4193AA09-4DD5-8F9C-83C2-F88B09A68932

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 4193AA09-4DD5-8F9C-83C2-F88B09A68932

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: 4193AA09-4DD5-8F9C-83C2-F88B09A68932

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: 4193AA09-4DD5-8F9C-83C2-F88B09A68932

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. SUMMARY:
Parents as Teachers (PAT) is a family education and therapy program for parents and their children. 2. Parents who are not eligible for CalWORKs PAT services.
3. Parents who are receiving Court Mandated or Voluntary Family Maintenance Services, and
4. Parents who receive Court Mandated or Voluntary Family Reunification Services.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This agreement correlates to Well-Being and Quality of Life as well as Safe and Resilient Communities adopted by the Board of Supervisors by improving family quality of life, tools of resilience and significant parent engagement and education for those initial years of life particularly targeted for families in need of, or at risk of, child protective services intervention.

SUMMARY:
Parents as Teachers (PAT) is a family education and therapy program for parents and their children. The program was founded on the belief that parents serve as a child's first and most influential teachers, and that effective parenting during a child's early years builds a lasting foundation for success. Door to Hope is distinguished as a Blue Ribbon Affiliate of PAT, a high achievement.

DISCUSSION:
This agreement provides ongoing interactive California Clearinghouse parent education services to families in need of, or at-risk for child protective services intervention. These families fall within one of the following three categories:

1. Parents involved with prevention and early intervention services, including the County's differential response program, currently known as the Pathways to Safety program,
2. Parents who are not eligible for CalWORKs PAT services.
3. Parents who are receiving Court Mandated or Voluntary Family Maintenance Services, and
4. Parents who receive Court Mandated or Voluntary Family Reunification Services.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of County Counsel has reviewed and approved the Agreements as to form, as has the Auditor-Controller's Office as to financial provisions.

FINANCING:
This agreement is funded by Social Services Realignment funds. Sufficient appropriations and estimated revenues for SOC005 are included in the FY 2026-27 Recommended Budget.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This agreement correlates to Well-Being and Quality of Life as well as Safe and Resilient Communities adopted by the Board of Supervisors by improving family quality of life, tools of resilience and significant parent engagement and education for those initial years of life particularly targeted for families in need of, or at risk of, child protective services intervention.

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. 7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

CONTRACTOR shall not publish any such material without the prior written approval of County.

CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

E. SUMMARY

The purpose of this Agreement is to provide funding for Parent as Teachers (PAT) for referred FCS population, prioritizing Family Reunification and Voluntary Family Maintenance Cases. The target population for this Agreement will encompass all referrals from Family and Children Services (FCS) Division of the Department of Social Services, considering FCS referrals who may also be served via CalWORKs- First Five contract. Target population is active Family Reunification, Voluntary Family Maintenance and Pathways to Safety (otherwise known as Differential Response) families.

F. DESCRIPTION OF SERVICES:

F.1 CONTRACTOR will provide direct, interactive parent education to families in need of, or at-risk for, child protective services, and who are referred and authorized for services by the COUNTY designated point of contact. Generally, these families will fall within three categories:

F.1.1 Parents involved with prevention and early intervention services, including Pathways to Safety or Differential Response.

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

F.1.2 Parents who are Family Maintenance (FM) or Voluntary Family Maintenance (VFM) clients of FCS and have their children at home.

F.1.3 Parents who are Family Reunification (FR) or Voluntary Family Reunification (VFR) clients and have had their children placed in out-of-home care. These services will be provided to the parents even though they also may be actively engaged in substance abuse treatment. These families are the priority and there will not be a wait list for these families longer than 30 days.

F.2 CONTRACTOR ensures center services are Americans with Disabilities Act (ADA) compliant.

F.3 CONTRACTOR shall ensure that CDC guidelines regarding mitigating the spread of infectious diseases, particularly regarding operating a public facility, are adhered to.

F.4 CONTRACTOR shall provide information and referral assistance with completion of application forms for mainstream benefits. CONTRACTOR is encouraged to apply for a CBO account with the Department of Social Services to facilitate direct enrollment of clients.

F.5 CONTRACTOR shall make efforts to provide all services in a low-barrier, trauma informed, and culturally considerate manner. All written and spoken communication intended for consumers shall be made available in English and Spanish at minimum and efforts to accommodate additional languages, when necessary, should be made.

F.6 CONTRACTOR will be inclusive when working with Family Reunification families and may concurrently provide parent mentoring education to the resource parents who are caring for the children enrolled in PAT.

F.6.1 Services will be provided by certified Parent Educators using the Parents as Teachers evidence based (PAT) curriculum. Materials provided will include the Parents as Teachers curriculum and handouts, videos as needed and materials and supplies for toy-making activities and children's books to use during visits.

F.6.2 Parent education, including actual hands-on instruction, will be provided for each visit. This is done to reinforce the instruction given and provide better opportunities for parent/child bonding and visitation. Parents will set parenting goals and an action plan will be developed that will help them achieve their goals. A parent/child activity time is part of each visit with a focus on literacy. Developmental, hearing, and vision screenings will be conducted, and Parents as Teachers will act as a referral source for these families. Information on child development and parenting skills will be the focus. Also, health and safety issues are included as part of the curriculum for Family Reunification families, parent educators also will meet at least monthly with the foster parent to include them in the interactive sessions and to instruct foster parents on how to perform the role of mentors for the parents in treatment.

F.6.3 Services delivered will be flexible to meet the needs of the family and comply with any current Shelter in Place County expectations as well as safety needs for all. In-home visitation will be scheduled as may best accommodate the client. Frequency of visits may vary, but are generally delivered twice per month.

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

F.6.4 Service sites may include, but are not limited to: home, schools, libraries, social service agencies, and substance abuse treatment program facilities as part of the parents' service and treatment plan.

F.7 Referrals for PAT Services for FCS client referrals to the CONTRACTOR will be coordinated through a designated FCS referral coordinator and early intervention or prevention referrals shall be approved through the contract manager. To facilitate proper placement of parents, families referred by FCS will include the age of the child, or in the case of multiple children, an indication of the priority child, and the language preference of the family. Once a referral from FCS has been processed, parents will be assigned to a Parent Educator. Priority will be given to those parents who have been court ordered (i.e. Family Reunification) to receive services in order to have their children returned to them. All referrals will receive a phone call prior to commencement of their first visit notifying them of the date, time and location. The FCS social worker will work with the PAT educator to ensure timely communication and partnership.

F.8 CONTRACTOR shall serve an average of 60 families at a time. Each FTE has an average caseload of 20 families. Contract supports 3 FTEs. Caseloads vary depending on the time demands of each family's case as well as the visit frequency set by the Social Worker and Parent Educator. Factors include location of family, family stressors and needs, frequency of visits, CFT meetings, meetings with Social Worker etc.

F.9 CONTRACTOR will continue and grow their partnership with First Five Monterey County and Family and Children Services to work as a team in the provision of PAT to Family First and Prevention ACT (FFPSA) eligible families. CONTRACTOR will participate in discussions, meetings and training around the shared goal of growing in the provision of PAT services to the families of Monterey County.

F.10 The primary contact for the COUNTY may convene meetings as needed, but not less than twice per year**.** This meeting will minimally include the contract administrators. Others may be included at the discretion of the COUNTY and the CONTRACTOR. The purpose of these meetings shall be to oversee implementation of the contract; wait-lists, trends being seen, discuss and make decisions regarding contract issues; evaluate contract usage and effectiveness; and make recommendations for contract modifications. These meetings will also discuss funding opportunities and possible partnership within Monterey County for the provision of PAT. CONTRACTOR does not have the authority to authorize changes requiring a contract amendment.

G.1 The CONTRACTOR shall use an evidenced based assessment tool consistent with current community standards and will submit the results to the COUNTY on a quarterly basis.

G.2 The CONTRACTOR shall record client progress after each session and submit reports to the COUNTY when requested specific to Family Reunification and Family Maintenance families. Aggregate data will be collected for referrals made via Pathways to Safety (otherwise known as Differential Response) families to best plan for intervening in support of families. The COUNTY shall provide self-addressed stamped envelopes for such purpose, and the Parent Educator will send the report to the attention of the client's social worker. Parent Educators shall provide monthly progress updates to assigned Social Workers. A monthly update template has been created by FCS supervisors and PAT Director to assure appropriate information is shared.

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

SUMMARY:
The purpose of this agreement is to provide temporary housing subsidy funding to the Housing Resource Center of Monterey County (HRC) to support CalWORKs customers referred by the Department of Social Services (DSS). Services include housing case management, housing search and placement support, and rental subsidies through the Housing Support (HSP) and Family Stabilization (FS) programs. These efforts aim to assist vulnerable families in securing and maintaining stable housing while working toward self-sufficiency.

DISCUSSION:
The Department of Social Services (DSS) provides intensive case management under the Family Stabilization (FS) program to ensure families achieve a basic level of stability prior to, or alongside, participation in Welfare-to-Work (WTW) activities. The FS program is designed to increase client

success within the flexible WTW 24-Month Time Clock by offering enhanced support services that address barriers to self-sufficiency. These services include housing assistance, behavioral health services, domestic violence intervention, legal support, child welfare services, and employment resources.

DSS placements are further supported by HRC through monthly intensive case management, housing search, and landlord engagement provided by experienced Case Managers and Housing Specialists. The program has demonstrated success in helping vulnerable families overcome barriers to achieve stable, permanent housing, including both subsidized and unsubsidized rentals, room shares, and other supportive housing options. HSP specifically promotes housing stability for CalWORKs families as they work toward long-term self-sufficiency.

From July 2025 through March 2026, the HSP and FS programs served a total of 1298 individuals, including 803 children and 495 adults, and successfully transitioned 361 families into permanent housing. During this same period, HRC administered $1.042,761 in direct financial assistance to support rent, security deposits, utilities, moving costs, and other housing-related needs.

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

to matters connected with the performance of this Agreement for a period of three years after final payment under the Agreement.

10.05 **Royalties and Inventions:** County shall have a royalty-free, exclusive and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

10.06 **Format of Deliverables:** For this section, "Deliverables" shall mean all electronic documents CONTRACTOR provides to the County under this Agreement. CONTRACTOR shall ensure all Deliverables comply with the requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1, pursuant to the Americans with Disabilities Act ("ADA"). CONTRACTOR bears the burden to deliver Deliverables, such as Adobe Acrobat Portable Document Format ("PDF") and Microsoft Office files, complying with WCAG 2.1. CONTRACTOR shall defend and indemnify the County against any breach of this Section. This Section shall survive the termination of this Agreement. Find more on Accessibility at this State website: https://webstandards.ca.gov/accessibility/.

11.0 NON-DISCRIMINATION:

11.01 During the performance of this Agreement, CONTRACTOR, and its subcontractors, shall not unlawfully discriminate against any person because of race, religious creed, color, sex, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age (over 40), sexual orientation, or any other characteristic set forth in California Government code § 12940(a), either in CONTRACTOR's employment practices or in the furnishing of services to recipients. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

12.0 COMPLIANCE WITH TERMS OF STATE OR FEDERAL GRANTS:

If this Agreement has been or will be funded with monies received by the County pursuant to a contract with the state or federal government in which the County is the grantee, CONTRACTOR will comply with all the provisions of said contract, to the extent applicable to CONTRACTOR as a subgrantee under said contract, and said provisions shall be deemed a part of this Agreement, as though fully set forth herein. Upon request, County will deliver a copy of said contract to CONTRACTOR, at no cost to CONTRACTOR.

13.0 COMPLIANCE WITH APPLICABLE LAWS:

13.01 CONTRACTOR shall keep itself informed of and in compliance with all federal, state, and local laws, ordinances, regulations, and orders, including but not limited to all state and federal tax laws that may affect in any manner the Project or the performance of the Services or those engaged to perform Services under this AGREEMENT as well as any privacy laws including, if applicable, HIPAA. 14.0 INDEPENDENT CONTRACTOR:

In the performance of work, duties, and obligations under this Agreement, CONTRACTOR is always acting and performing as an independent contractor and not as an employee of the County. No offer or obligation of permanent employment with the County or County department or agency is intended in any manner, and CONTRACTOR shall not become entitled by virtue of this Agreement to receive from County any form of employee benefits including but not limited to sick leave, vacation, retirement benefits, workers' compensation coverage, insurance or disability benefits. CONTRACTOR shall be solely liable for and obligated to pay directly all applicable taxes, including federal and state income taxes and social security, arising out of CONTRACTOR's performance of this Agreement. E. PURPOSE

The purpose of this agreement is to provide administrative and temporary housing subsidy funding to CONTRACTOR to provide housing case management, program housing search, placement support, and rental subsidies for CalWORKs customers referred to CONTRACTOR by COUNTY Department of Social Services for the Housing Support (HSP) and Family Stabilization (FS) programs.

HOUSING SUPPORT PROGRAM

F. PROGRAM DESIGN

F.1 In 2014, the California Department of Social Services (CDSS) received special authority to launch a new Housing Support (HSP) program. Per Senate Bill (SB) 855

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

(Chapter 29, Statutes of 2014), housing support in the CalWORKs program is necessary to assist families working towards achieving self-sufficiency. Homelessness and housing instability in the CalWORKs program is a challenging problem that impacts children's wellbeing and their parents' ability to engage in employment. The objective of the CalWORKs HSP is to promote housing stability for families in the CalWORKs program.

F.2 CONTRACTOR shall provide staff and services to perform intake, case management, housing assessment, housing search, placement, and on-going housing subsidy payments for a minimum of 60 eligible HSP CalWORKs customers each month.

F.2.1 CONTRACTOR shall maintain and share with COUNTY all program documents and forms to operate the HSP program per the **HSP Guidelines** in **Exhibit A-1**. Relevant program documents include program policies, procedures, client agreements, intake forms, case management and housing navigation templates, and public-facing program materials.

F.2.2 For HSP purposes, the COUNTY shall be the HSP Social Service Aide and/or Analyst assigned to HSP

F.3 In 2021, AB 135 (Chapter 85) expanded eligibility for HSP to include families in CalWORKs who are at-risk of homelessness including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being. **Exhibit A-2, Guidelines on Homeless Prevention.**

HOUSING SUPPORT PROGRAM GUIDELINES

A. PROGRAM BACKGROUND

The CalWORKs Housing Support Program (HSP), established by Senate Bill (SB) 855 (Chapter 29, Statutes of 2014), is intended to foster housing stability for families experiencing or at-risk of homelessness in the CalWORKs program. Per Welfare and Institutions Code (WIC) Section 11330.5(c), The HSP funding must be used to support projects that follow evidence-based housing interventions, including homelessness prevention services and/or the core components of rapid rehousing. Further, WIC Section 8256 requires that all state-funded housing programs, including HSP, operate in accordance with the core components of Housing First as enumerated in WIC Section 8255 and further outlined in All County Letter (ACL) 19-114 and ACL 24-88.

B. PROGRAM ELIGIBILITY

The HSP eligibility is broadly defined by WIC Section 11330.5 and includes CalWORKs recipients who are experiencing homelessness or at-risk of homelessness, including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being.

C. ELIGIBLE CALWORKS RECIPIENTS

As further defined below, counties may now serve eligible families at-risk of homelessness. Consistent with homeless assistance best practice, programs should evaluate funding and program capacity to prioritize serving people with the highest needs and vulnerabilities. Every effort should be made to serve all families in the CalWORKs program experiencing homelessness given expanded program funds.

The HSP identifies and targets the whole population of families in the CalWORKs Program experiencing homelessness regardless of housing and income barriers. Consistent with Housing First, programs should not create additional criteria for eligibility or exclude any population from being served. All CalWORKs recipient families are eligible to be served through HSP, including the following types of assistance units:

C.1 **Welfare-to-Work (WTW)** | An assistance unit [AU] type that includes Single-Parent and Two-Parent households with an aided adult who is not exempt from work activities and not sanctioned.

C.2 **Exempt** | An exemption excuses a CalWORKs participant from Welfare to Work requirements.

C.3 **Child Only** | Cases in which only the children in an AU are aided due to the exclusion or ineligibility for cash aid of the AU parent(s).

C.4 **Safety Net** | Cases in which only the children in an AU are aided due to the parent(s) being discontinued from cash aid because they reached their 48-month lifetime assistance limit.

C.5 **Sanctioned** | The process by which adult(s) are removed from CalWORKs support because at least one failed to comply with WTW program requirements without good cause, and County staff compliance efforts failed. Eligible children in an AU continue to receive funding. This includes long-term sanctioned cases.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

C.6 **CalWORKs Family Reunification (AB 429)** | The continuation of CalWORKs services when a child has been removed from the home and is receiving out-of- home care.

C.7 **CalLearn** | Statewide program for pregnant and parenting teens in the CalWORKs program. It is designed to encourage pregnant and parenting teens to graduate from high school or its equivalent, become independent, and form healthy families.

C.8 Per WIC 11330.5(h), counties may continue to provide housing supports to a CalWORKs recipient who is discontinued because they no longer meet the income eligibility requirements of Section 11450.12.

D. DEFINITION OF HOMELESSNESS

The CalWORKs HSP funding must be used to assist families in the CalWORKs program who are experiencing homelessness pursuant the U.S. Department of Housing and Urban Development (HUD) definition in 24 CFR section 91.5 under "Homeless" Sections (1)-(4) and in Attachment Two: Definition of Homelessness, Prioritization and HSP 14 of All County Welfare Directors Letter (ACWDL) dated May 13, 2021.

E. DEFINITION OF AT-RISK HOMELESSNESS

E.1 For the purposes of HSP, a person is defined as "at-risk of homelessness" when they:

- E.1.1 are experiencing housing instability, including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being;
- E.1.2 have no subsequent permanent residence secured; and
- E.1.3 lack resources or support networks needed to stabilize their unique housing situation and secure subsequent permanent housing.

E.2 This definition of "at-risk of homelessness" is inclusive of, but not limited to the HUD definition of "at-risk of homelessness" under 24 Code of Federal Regulations section 91.5. This means participants who meet the HUD definition of "at-risk of homelessness" shall be deemed "at-risk of homelessness" under the definition set out in this section.

E.3 Consistent with homeless assistance best practice, programs should evaluate funding and program capacity to prioritize serving people with the highest needs and vulnerabilities. See Attachment Two for more on homelessness prevention targeting and prioritization.

E.4 At-Risk Self-Attestation

- E.4.1 **Families shall be allowed to self-attest that they meet the definition of "at-risk of homelessness" in this section.** No additional verification or documentation demonstrating that a family meets the definition of "at-risk of homelessness" is needed; counties shall not require further evidence for the purposes of HSP enrollment. This self-determination assumes that families in the CalWORKs program who are at-risk of homelessness are already more vulnerable to homelessness than the general population.
- E.4.2 Once a family has met the "at-risk of homelessness" definition in this section, counties may assess for other criteria indicative of vulnerability related to risk of homelessness for further prioritization.

F. DEFINITIONS AND EXAMPLES OF HOMELESS VS PREVENTION ASSISTANCE

F.1 Grantees will be asked to report on their use of funds for prevention. See the table below, which provides definitions and examples to help clarify whether assistance should be tracked and reported as "homeless assistance" vs. "homelessness prevention assistance".

Type	Definition	Example	Homeless vs Prevention Assistance
Literally Homeless*	Updated in ACWDL dated May 13, 2021, HSP follows the HUD definition of homeless in 24 CFR section 91.5.	Example 1: Family living in a car for any amount of time. Example 2: Family residing in/exiting Project Roomkey or other shelter setting.	Homeless Assistance. Participants within this definition of homelessness do not contribute toward spending on homelessness prevention.
At Imminent Risk of Homelessness	Updated in ACWDL dated May 13, 2021, HSP follows the HUD definition of homeless in 24 CFR section 91.5, which includes families who will imminently lose housing within 14 days as homeless: An individual or family who will imminently lose their primary nighttime residence, provided that: The primary nighttime residence will be lost within 14 days of the date of application for homeless assistance; No subsequent residence has been identified; and The individual or family lacks the resources or support networks, e.g., family, friends, faith-based or other social networks needed to obtain other permanent housing;	Example 1: Family is couch surfing with a friend but has been asked to leave in a week and has no other support or resources. Example 2: Family with a 3-day pay or quit notice in hand and has no other support or resources.	Homeless Assistance. Participants within this definition of homelessness do not contribute toward spending on homelessness prevention.

Type	Definition	Example	Homeless vs Prevention Assistance
At-Risk of Homelessness**	A client is "at-risk of homelessness" when they: are experiencing housing instability, including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being; have no subsequent permanent residence secured; and lack resources or support networks needed to stabilize their unique housing situation and secure subsequent permanent housing. Participants shall be allowed to self-attest that they meet this definition. This definition of "at-risk of homelessness" is inclusive of, but not limited to, the HUD definition of "at-risk of homelessness" under 24 CFR section 91.5. This means participants who meet the HUD definition of "at-risk of homelessness" shall be deemed "at-risk-of homelessness" under the definition set out in this section.	Example 1: Family has been couch surfing for months, but identifies concern about the stability of their current situation since they will likely need to leave within the next month and has no other support or resources.	Homelessness Prevention Assistance. Participants within this definition of at-risk of homelessness are counted towards spending on homelessness prevention.

*Effective May 13, 2021, the HSP definition of homelessness was updated to the ***HUD definition in 24 CFR section 91.5 under "Homeless" Sections (1)-(4)***.
**Effective as of the date of this letter.

G. PROGRAM SERVICE TYPES

Per Welfare and Institutions Code (WIC) Section 11330.5(c), HSP funding must be used to support projects that utilize evidence-based housing interventions, including homelessness prevention services and/or the core components of rapid rehousing.

G.1 Rapid Rehousing Core Components

Rapid rehousing program standards are detailed below for each of the three core components. While a household that is rapidly rehoused is not required to utilize all three core components, counties operating HSPs **must offer** program participants all three core components of rapid rehousing, utilizing a Housing First approach:

G.1.1 **Housing identification:** Activities under this core component include, but

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

are not limited to, recruiting landlords with units in the communities and neighborhoods where program participants want to live and negotiating with landlords to help program participants access housing.

G.1.2 **Rent and move-in assistance:** Activities under this core component include, but are not limited to, paying for security deposits, move-in expenses, rent, and utilities. Rent and move-in assistance should be flexible and tailored to the varying and changing needs of a household while providing the assistance necessary for households to transition immediately out of homelessness and to stabilize in permanent housing.

G.1.3 **Case management and services:** The goals of rapid re-housing case management are to help participants obtain and move into permanent housing, support participants with housing stability, and connect them to community and mainstream services and supports if needed. Housing-related case management should begin at entry into the program and continue throughout until a family is stably housed. Housing-related case plans should be developed in close coordination with the CalWORKs and any other (e.g., child welfare) case plans in addressing a family's needs. **Housing-related case management should complement, but not replace or supplant traditional CalWORKs case management.**

G.1.4 The core components of rapid rehousing can be provided by a single agency or in partnership with other agencies. The core components of rapid rehousing were developed in collaboration with, and endorsed by, the United States Interagency Council on Homelessness (USICH), the Department of Housing and Urban Development (HUD), and the Department of Veterans Affairs (VA).

G.2 **Homelessness Prevention Assistance**

Preventative services and assistance are varied and can include any preventative measure that will save a tenancy, help families regain stability in their current housing, or move and achieve stability in a new housing location. **This may include rental or utility arrears, late fee payments, first month's rent and/or security deposits, landlord mediation, repairs, connection to housing stabilization services, habitability/accessibility improvements, and housing navigation.** Refer to Attachment Two for more information expanding HSP programming to serving families at-risk of homelessness.

H. PROGRAM PRIORITIZATION

H.1 To ensure that funding remains prioritized for those with the highest vulnerabilities, CDSS expects that counties use the majority of funds to support people experiencing homelessness**. Counties are encouraged to limit overall spending on homelessness prevention assistance for families at-risk of homelessness to no more than 30 percent of the allocation, refer to the table above for definitions and examples of homeless assistance versus prevention Assistance.**

H.2 Counties unable to serve all eligible families in the CalWORKs program who are experiencing or at-risk of homelessness should use a prioritization framework and assessment to determine assistance and may not allow individual case managers to

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

determine prioritization on a case by case basis. It is critical that prioritization criteria are consistent and not subject to the bias of an individual case manager or staff.

H.3 Counties should include their prioritization framework in written program policies to ensure consistent application across the program and to assist CDSS in understanding best practices across the state.

H.4 It is important to note that families in the CalWORKs Program are likely already more vulnerable to homelessness than the general population. Given that HSP serves CalWORKs families, HSP by design is targeting services to those at increased risk of homelessness. Prioritization or assessment processes should incorporate the following principles, regardless of the tool used:

H.4.1 **Be applied consistently** across the program and should not rely on the social worker's individual determination of who to serve.

H.4.2 Incorporate factors that are evidence-based or promising best practices, such as targeting services to those most at-risk of homelessness.

H.4.3 Delivered and framed in **an easy-to-understand and trauma-informed** manner that centers the client's needs, including the timing of the assessment components or conducting the assessment in multiple stages if the client is in crisis and/or hesitant to engage. Counties are strongly encouraged to use data that may already have been collected to inform the assessment process and to avoid repetitive or traumatic questions.

H.4.4 Adopt a **racial equity lens and framework**. The Centre for Social Data Analytics and the Government Alliance for Race and Equity recommends testing assessment process against questions such as: Is the assessment tool equally predictive and useful for all racial groups? When applying the tools, what will this mean for a person? Who will gain and who will be burdened? What information has already been gathered about how the tool impacts people of color?

H.4.5 Reduce barriers to entry and participation to the degree possible, versus being a tool to primarily screen people out.

H.4.6 Be used to assist families in obtaining housing that prioritizes client choice, considering the family's needs and preferences.

H.4.7 Offers and provides reasonable accommodations to people with disabilities.

I. HOUSING FIRST

I.1 The HSPs must be operated in accordance with Housing First principles. WIC Section 8256 requires that all state-funded housing programs operate in accordance with the core components of Housing First as enumerated in WIC Section 8255 and further outlined in ACL 19-114 and ACL 24-88.

I.2 Housing First means that families should be connected to housing or housing supports immediately without preconditions, services shall be voluntary, client choice shall be respected, and applicants shall not be rejected on the basis of income, past evictions, substance use, or any other behaviors that may indicate a lack of "housing readiness."

I.3 CDSS has developed and previously requested that counties complete a Housing First Self-Assessment to support counties in assessing their adherence to and adoption of Housing First, and identify areas for development. CDSS reserves the right to request

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

that counties complete a Housing First Self-Assessment throughout the technical assistance process. For example, this may be requested from counties establishing new programs or when a Housing First practice requires improvement or refinement. This Housing First Self-Assessment is an important tool for HSP counties to use through their continuous quality improvement practices and can be found in the ACWDL dated August 2, 2018 and was developed using the:

I.3.1 Housing First core components in WIC Section 8255;

I.3.2 U.S. Interagency Council on Homelessness (USICH) Housing First Checklist

I.3.3 U.S. Department of Housing and Urban Development (HUD) Housing First Assessment Tool

I.3.4 Corporation for Supportive Housing (CSH) Checklist

J. COLLABORATION ON THE HOMELESS RESPONSE SYSTEM

J.1 Counties operating HSP are required to coordinate with their homelessness response system, including participation in the local homelessness Continuum of Care (CoC), Coordinated Entry System (CES), and Homeless Management Information System (HMIS) to understand and meet the needs of the local community as well as to understand and address racial disproportionality for people experiencing homelessness **(Exhibits A-8 & A-9)**.

J.2 Counties are also strongly encouraged to collaborate with other partners, such as local child welfare, behavioral health and emergency response systems, local Medi-Cal managed care plans, Public Housing Authorities (PHAs), educational and family resource networks, domestic violence agencies, legal aid organizations, and other relevant networks to maximize available funding and connect participants to additional resources and supportive services. Information on these collaborations will be requested in future program updates. Counties may use HSP funds to establish specific positions to support the coordination of these systems.

K. RACIAL EQUITY

K.1 CDSS requires counties to commit to addressing racial disproportionality for people experiencing homelessness and ensuring equitable provision of services for Black and Indigenous people and other people of color. Black and Indigenous people experience homelessness at significantly higher rates than whites, largely due to long-standing historical and structural racism. In California, Black people account for seven percent of the general population, but represent more than 31 percent of people experiencing homelessness. The disproportionality in homelessness is a by-product of systemic inequity – racism continues to perpetuate disparities in critical areas that impact rates of homelessness, including poverty, segregation/rental housing discrimination, incarceration, and access to health care.

K.2 Additionally, per Government Code Section 8899.50, each county must also operate its HSP in a manner that affirmatively furthers fair housing. This means that HSP must be operated in a way that takes "meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics."

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

K.3 Counties should review demographic data of HSP and CalWORKs participants to understand how program demographics compare to the racial and ethnic makeup of low income and unhoused families. This information can provide initial insight on racial inequity within programming and should inform strategies for addressing racial equity.

K.4 Counties should review the reports and resources below for examples of how housing and homelessness programs have incorporated racial equity into programming.

K.5 Counties are encouraged to seek meaningful input and participation from current and former CalWORKs recipients, including recipients of color that to go beyond identifying disparities to try to identify causes of such disparities from individuals with lived experiences. Additionally, CDSS will provide technical assistance opportunities to help counties address racial equity within HSP programming. The HSP funds can be used to support efforts such as a racial equity analysis or plans for HSP.

K.6 Counties are encouraged to review the following reports and resources: Reports

- K.6.1 Racial Inequalities in Homelessness, by the Numbers
- K.6.2 Supporting Partnerships for Anti-Racist Communities (SPARC) Phase One Study Findings
- K.6.3 A Brief Timeline of Race and Homelessness in America
- K.6.4 Report and Recommendations of the Ad Hoc Committee on Black People Experiencing Homelessness
- K.6.5 Equity-Based Decision-Making Framework
- K.6.6 Framework for an Equitable COVID-19 Homelessness Response
- K.6.7 Advancing Racial Equity through Assessments and Prioritization (HUD)
- K.6.8 CA Housing and Community Development's Guidance on Affirmatively Furthering Fair Housing.
- K.6.9 CA Business Consumer Services and Housing Agency's data portal.

L. TECHNICAL ASSISTANCE (TA)

L.1 Training and technical assistance (TA) will be provided to support counties in establishing, developing, and improving their HSP and to facilitate statewide information-sharing. The TA opportunities include one-on-one calls and email correspondence as well as in-person or virtual learning collaboratives focused on identifying and meeting the needs of HSPs throughout the state. CDSS may designate specific TA or training as mandatory, including for specific staff, such as program leads.

L.2 The TA and training topics may include strategies for strengthening outreach, case management, advocacy, housing navigation, homelessness prevention services, as well as local workforce development, streamlining administrative efficiencies, advancing equity on a systems level, and improving collaboration with the local homelessness response system. The TA and training may be conducted by CDSS or a CDSS designated contractor. Additionally, programs may utilize HSP funds to provide program-specific training in areas identified by the county or CDSS to support continuous quality improvement.

L.3 Based on feedback from current counties, CDSS plans to establish cross-program opportunities for TA engagement. CDSS has started hosting joint office hours to address questions across various CDSS-funded programs, rather than holding separate program-specific sessions.

M. DATA REPORTING AND INTEGRATION

Data collection, progress monitoring, and outcome reporting are essential and mandatory elements of the HSP. Data needs should be considered when deciding on staffing, training, and program design. Successful data integration goes beyond completing program data reports and requires building relationships with HMIS administrators, service providers, and other entities that are part of the data integration process.

M.1 HSP-14/Monthly Reporting

M.1.1 Counties are required to provide aggregate level-data on a monthly basis via the HSP-14 report which is to be submitted via the (admReportHSP14@dss.ca.gov).

M.2 *Interim HSP-14 Reporting Update*

M.2.1 With adoption of the Department of Housing and Urban Development (HUD) definition of Homelessness in *24 CFR section 91.5 under "Homeless" Sections (1)-(4)* and definition of at-risk of homelessness within this letter, CDSS is providing interim reporting guidance on select elements of the HSP-14 to accommodate the expansion of program eligibility. **To further implement this change, additional instructions and updates regarding reporting in the HSP-14 will be provided under separate cover.** In the interim, for reporting families under **Item 9** in the HSP-14, the family's residence status at time of approved request/referral:

M.2.2 For anyone who meets homeless definitions 24 CFR section 91.5 under "Homeless" (1)(ii) and (1)(iii) should be reported in Item 9.a.1. "Family has a primary nighttime residence that is a supervised publicly or privately-operated shelter designed to provide temporary living accommodations" (cell 24).

M.2.3 For anyone who meets homeless definitions 24 CFR section 91.5 under "Homeless" (1)(i) should be reported in Item 9.a.2. "Family resides in a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings" (cell 25).

M.2.4 For anyone who meets homeless definitions 24 CFR section 91.5 under "Homeless" (2), (3), and (4) or the definition of at-risk of homelessness as defined under Attachment One: Program Eligibility above should be reported in Item 9.b. "Family is in receipt of judgement for eviction, as ordered by the court" (cell 26).

M.2.4.a **Note:** HSP eligibility **is not** contingent on receipt of judgement for eviction. Refer to Program Eligibility section above for expanded eligibility for HSP.

M.3 Homeless Management Information System

M.3.1 Effective July 1, 2020, counties (or their contracted partners) operating an HSP are required to enter all HSP participants into the local Homeless Management Information System (HMIS) to better align HSP with the broader homelessness response system. The HMIS is a critical part of an effective Coordinated Entry System and system-wide approach to homelessness and can help communities better match people with resources and interventions; understand their community need, populations served,

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

interventions needed, and outcomes; as well as identify intersections and gaps in services.

M.4 Assembly Bill (AB) 977 Data Reporting Requirements

M.4.1 Assembly Bill 977, Chapter 397, Statutes of 2021 includes additional requirements of utilization of HMIS for HSP. Beginning on January 1, 2023, a county or entity operating HSP, as a condition of receiving state funds, shall enter the Universal Data Elements (Items 3.01–3.917) and the Common Data Elements (Items 4.02–4.20 and Item W5 of the Individual Federal Partner Program Elements) drawn from the United States Department of Housing and Urban Development Homeless Management Information System Data Standards. The HSP grantees should follow HUD guidance on HMIS project set-up for HSP as an HMIS project and collect the appropriate data elements.

M.4.2 Grantees should collaborate with their CoC's HMIS lead to ensure proper project setup. Any county that does not already collect and enter these data into the local HMIS shall, upon request, receive technical assistance and guidance from staff of the Interagency Council on Homelessness and, as available, from federal partners, including, but not limited to, the United States Department of Housing and Urban Development. To request technical assistance, counties may either contact the Council directly at HCFC@BCSH.ca.gov or they may send their request to Housing@dss.ca.gov and CDSS staff will coordinate the facilitation of any necessary technical assistance between the county and Council staff. Additional guidance regarding AB 977 requirements and implementation will be provided under separate cover.

N. PROGRAM PERFORMANCE AND EVALUATION

Counties are expected to regularly measure, monitor, and communicate program impact and performance. Counties should establish and consistently track performance benchmarks, including the best practice Rapid Rehousing Performance Benchmarks below, and collect data to measure progress and to inform continuous quality improvements:

N.1 Reduce the length of time program participants spend homeless

N.1.1 For a program to meet this performance benchmark, households served by the program should move into permanent housing in an average of 30 days or less.

N.2 Exit households to permanent housing

N.2.1 For a program to meet this performance benchmark, at least 80 percent of households that exit a rapid re-housing program should exit to permanent housing.

N.3 Limit returns to homelessness within a year of program exit

N.3.1 For a program to meet this performance benchmark, at least 85 percent of households that exit a rapid re-housing program to permanent housing should not become homeless again within a year.

N.4 Programs should consider:

N.4.1 Number of families with increased income at exit

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

N.4.2 Number of families exiting CalWORKs due to over-income
N.4.2.a **Note**: Per WIC 11330.5(h), counties may continue to provide housing supports to a CalWORKs recipient who is discontinued because they no longer meet the income eligibility requirements of Section 11450.12.
N.4.3 Number of families with improved employment or educational circumstances at exit
N.4.4 Participant satisfaction metrics
N.4.5 Equity data including:
N.4.5.a race and ethnicity of participants,
N.4.5.b disability status of participants,
N.4.5.c primary language of participants, and
N.4.5.d geographic location/distribution where housing is preserved or obtained

N.5 There are other indicators that may be helpful in evaluating program performance and impact, such as length of time between referral and enrollment, between enrollment and placement in interim housing, or number of participants housed and unhoused at program enrollment. CDSS will continue to provide further guidance, including through technical assistance, on how to set and monitor program performance indicators.

N.6 CDSS will conduct ongoing monitoring of program performance using program data, claiming information, and updates submitted by counties. Consistent with evidence-based programming, CDSS aims to utilize outcomes data to inform future funding.

N.7 Therefore, counties are encouraged to use data to conduct their own program management, oversight, and continuous quality improvement.

O. FORMAL STATEWIDE EVALUATION

Counties must also participate in activities related to any formal HSP evaluation, such as submitting data and logic models, conducting data reviews and cleaning, and/or participating in interviews, surveys and focus groups. Data sharing agreements with HMIS administrators may be required for efforts such as a formal evaluation. Counties may use HSP funds to support requirements related to a formal evaluation.

P. PROGRAM COMPLIANCE

Should CDSS become aware that a county is not operating the HSP consistent with statutory requirements or formal guidance issued by CDSS, the Department will notify the county that they shall amend their program within a specified timeline in order to come into compliance. CDSS will provide technical assistance to support counties and to ensure that programs are operated consistent with evidence-based practices and may request more regular program updates to reflect program compliance.

P.1 Examples of non-compliance may include, but are not limited to, failing to offer housing support and assistance as described in WIC Section 11330.5 and ACWDL dated May 13, 2021, or violating housing first requirements as described in WIC Section 8255 and 8256 and further outlined in ACL 19-114.

P.2 CDSS acknowledges that program targets and budgets are projections and may be

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

subject to change given the dynamic nature of homeless assistance. CDSS is available to provide technical assistance to help counties meet their targeted number of families to house and maximize direct financial assistance.

P.3 Notice of Program Interruption to CDSS

P.3.1 Counties must notify CDSS in writing at least thirty days in advance of any temporary or permanent interruption to HSP services for any reason, including fully spending their allocation.

GUIDELINES ON HOMELESS PREVENTION

A. BACKGROUND

The HSP eligibility has been expanded to include families in the CalWORKs program who are at-risk of homelessness or who are recently homeless. This expansion may significantly impact how counties design and contract the program.

B. TYPES OF HOMELESS PREVENTION ASSISTANCE

Preventative services and assistance are varied and can include any preventative measure that will save a tenancy, help families regain stability in their current housing, or move and achieve stability in a new housing location. **This may include rental or utility arrears, late fee payments, security deposits, rental assistance, landlord mediation, repairs, habitability/accessibility improvements, and housing navigation and relocation.**

C. TARGETING HOMELESSNESS PREVENTION ASSISTANCE

According to the National Alliance to End Homelessness (NAEH) Prevention Targeting 101, while homelessness prevention refers to a broad category of services, research shows that homelessness prevention is more effective when targeted to the people who are most likely to fall into homelessness in the absence of preventative assistance. **Therefore, among families eligible for homelessness prevention assistance due to being at-risk of homelessness, counties should prioritize serving families with the greatest risk factors for homelessness, including households with multiple risk factors as listed below.**

C.1 Targeting households who are closer to the anticipated loss of housing increases the chances they will actually need financial assistance from the homeless assistance system in order to stay out of shelter. The more time a household has until their housing situation ends, the more likely it is they will find a workable solution for their current situation that does not require assistance. For this reason, households that have come seeking emergency shelter but may still be in their own housing situation are often good candidates for receiving homelessness prevention assistance.

C.2 The Homeless Management Information System (HMIS) or similar data collection system can provide the data the program needs to further identify and target service needs.

C.3 Counties should consider targeting homelessness prevention assistance to households that have risk factors for housing instability and homelessness. Some risk factors to consider include:

- C.3.1 Single parent households
- C.3.2 Households with children under two
- C.3.3 Disabilities in the household
- C.3.4 Criminal records
- C.3.5 History of conduct notices or other lease violations
- C.3.6 Past evictions
- C.3.7 Pregnancy
- C.3.8 Number of and length of previous homeless episodes
- C.3.9 Immediate crises such as domestic abuse
- C.3.10 Living situation prior to entering the homeless assistance system (doubled up or not being a leaseholder)
- C.3.11 Employment status

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

C.3.12 Household size and membership (presence of children, their ages, etc.)

C.4 Without using available shelter data in selecting homelessness prevention assistance criteria, communities may run a higher risk of inadvertently serving people who would never have become homeless in the first place, limiting the resources available to households that truly need them. The National Alliance to End Homelessness Prevention Targeting 101 briefing includes factors for consideration for programs without access to shelter data.

D. EVICTION PREVENTION

D.1 Eviction prevention is distinct from homelessness prevention in that it is not narrowly targeted to only those households who are at-risk of homelessness due to a potential eviction. Homelessness prevention efforts often include eviction prevention strategies such as short term or one-time financial assistance payments, including payment of back rent, but may also offer more substantial case management or other supportive services.

D.2 Eviction prevention strategies for CDSS programs, including HSP, during COVID-19 are outlined in ACWDL dated January 14, 2021, and information on requirements for HSP to leverage federal and state rent relief resources is outlined in the section below.

E. REPORTING REQUIREMENTS ON FOR HOMELESS PREVENTION

E.1 Effective prevention programs for families at-risk of homelessness may require a different set of interventions, outreach efforts, processes, contractors, data collection, and community partners than those established for homeless assistance interventions. Counties should consider how the program may need to be adapted to incorporate this new intervention type. Further, counties should develop internal monitoring systems to track overall spending on prevention.

E.2 In the required program updates, counties will be asked to report on homelessness prevention services, including how those services are being delivered according to best practices. Counties will also be asked to report on their use of funds for homelessness prevention.

Coordinated Entry Requirements

This Exhibit A-9 ("Exhibit") is hereby incorporated into and made part of the Agreement dated July 1, 2025 to June 30, 2026 ("Agreement") by and between the County of Monterey and the Housing Resource Center of Monterey County (“CONTRACTOR”). The purpose of this Exhibit is to establish mandatory requirements for the use of the Coordinated Entry System in accordance with federal, state, and local regulations.

Coordinated Entry is a standardized process used by homeless service systems to ensure that people experiencing or at risk of homelessness are quickly and equitably connected to available housing and services. It is required by the U.S. Department of Housing and Urban Development (HUD) and some State of California homeless programs and aims to prioritize assistance based on vulnerability and need rather than on a first-come, first-served basis.

Key Components of Coordinated Entry:

1. **Standardized Assessment:** Uses a common tool identified by the Coalition of Homeless Services Providers, as the lead Continuum of Care (“CoC”) lead agency, to evaluate individuals’ and families’ needs and vulnerabilities.
2. **Prioritization:** Allocates housing and services based on established criteria, often prioritizing people who are chronically homeless, highly vulnerable, or have the highest needs.
3. **Referral Process:** Matches individuals to the most appropriate available housing and services, such as Permanent Supportive Housing (PSH), Rapid Rehousing (RRH), or Transitional Housing.
4. **Accessibility:** Ensures that all populations, including those with disabilities or language barriers, can access services equitably.
5. **Streamlined Entry System:** Reduces the need for individuals to navigate multiple agencies by centralizing access to resources.

Coordinated Entry is designed to improve the efficiency of homelessness response systems, reduce barriers to housing, and ensure that limited resources are used effectively. In Monterey and San Benito Counties, Coordinated Entry, locally known as the Coordinated Assessment and Referral System (“CARS”), is managed through the local Homeless Management Information System (“HMIS”).

For the purposes of this agreement, CONTRACTOR is hereby mandated to: (Check all that apply.)

☒ Enter all clients experiencing homelessness into CARS for consideration of housing options made available through the program.

☐ Receive client referrals solely through CARS.

☒ Receive client referrals through CARS and other means established in EXHIBIT A of this Agreement.

CONTRACTOR RESPONSIBILITIES

1. Purpose and Compliance

1.1. CONTRACTOR shall utilize CARS to ensure that all homeless individuals and families are assessed and prioritized for housing and services in a standardized, equitable, and transparent manner.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

1.2. CONTRACTOR shall comply with the requirements set forth in the U.S. Department of Housing and Urban Development (HUD) Continuum of Care (CoC) Program and Emergency Solutions Grant regulations, including 24 CFR Part 578 and the HUD Coordinated Entry Notice.

1.3. CONTRACTOR shall adhere to the CARS Policies and Procedures established by the Coalition of Homeless Services Providers, the local Continuum of Care ("CoC") lead agency, to ensure consistency, fairness, and efficiency in housing referrals and service provision.

2. Data Entry and Reporting Requirements

2.1. CONTRACTOR shall enter accurate, complete, and timely data into CARS within 3 business days of client assessment, referral, or service provision.

2.2. CONTRACTOR shall ensure all program participants complete the required Release of Information form prior to data entry in accordance with the CoC's privacy policies.

2.3. CONTRACTOR shall ensure client assessments are updated every 6 months or whenever there is a significant change to the client's situation for duration of their unsheltered and/or homeless status.

2.4. CONTRACTOR shall contact inactive clients in the CARS program, reassess their participation, and either exit them from the program or assist in their continued enrollment based on the outcome of those contacts. The CONTRACTOR shall maintain records of these interactions in the client's profile in the HMIS.

3. Privacy and Security Compliance

3.1. CONTRACTOR shall comply with all applicable privacy and confidentiality regulations, including but not limited to the CARS Privacy and Security Standards, HUD Confidentiality Standards, and the Health Insurance Portability and Accountability Act (HIPAA) if applicable.

3.2. CONTRACTOR shall ensure all CARS users complete trainings as required by the CoC.

3.3. CONTRACTOR shall implement appropriate security measures, including password protections, data encryption, and access controls, to prevent unauthorized access or data breaches.

4. Non-Compliance and Remedies

ADDITIONAL PROVISIONS

I. PAYMENT BY COUNTY:

1.01 Monthly claims/invoices by CONTRACTOR: Not later than the tenth (10th) day of each month, CONTRACTOR shall submit to COUNTY a signed invoice setting forth the amount claimed. All invoices (monthly and final) shall be submitted in the form set forth in **Exhibit D-1** and **Exhibit D-2**.

1.02 Final Invoice; forfeiture for late invoice: CONTRACTOR's final month and end of fiscal year invoice is due, and must be received by COUNTY, no later than close of business on **July 10th. If the Final Invoice is not received by COUNTY by close of business on July 10th. CONTRACTOR understands and agrees that the reimbursement of CONTRACTOR's final expenses represented by that invoice may be forfeited, and COUNTY shall have no legal obligation regarding it, nor shall COUNTY be required to make any payment towards that untimely/late invoiced claim.**

1.03 Allowable Costs:
a) Allowable costs shall be the CONTRACTOR's actual costs of developing, supervising and delivering the services under this Agreement, as set forth in **Exhibit C-1** and **Exhibit C-2**. Only the costs listed in **Exhibit C-1** and **Exhibit C-2** as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of 45 Code of Federal Regulations, Part 74, Sub-Part F and 48 Code of Federal Regulations (CFR), Chapter 1, Part 31.

b) Allowable costs for travel expenses incurred while providing services under this Agreement, as set forth in **Exhibit C**, must follow the Monterey County Auditor/Controller's Travel Policy https://www.countyofmonterey.gov/government/departments-a-h/auditor-controller/policies-and-procedures and should be invoiced the current per diem rates for lodging, meals, and mileage up to the rates listed online at https://www.irs.gov/tax-professionals/standard-mileage-rates.

1.04 Cost Control: CONTRACTOR shall not exceed by more than twenty (20) percent any contract expense line-item amount in the budget without the written approval of COUNTY, given by and through the Contract Administrator or Contract Administrator's designee. CONTRACTOR shall submit an amended budget with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this contract. Therefore, an increase in one-line item will require corresponding decreases in other line items.

1.05 Payment in Full:
a) If COUNTY certifies and pays the amount requested by CONTRACTOR, such payment shall be deemed payment in full for the month in question and may not thereafter be reviewed or modified, except to permit COUNTY's recovery of overpayments.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

b) If COUNTY certifies and pays a lesser amount than the amount requested, COUNTY shall, immediately upon certification of the lesser amount, notify CONTRACTOR in writing of such certification. If CONTRACTOR does not protest the lesser amount by delivering to COUNTY a written notice of protest within twenty (20) days after CONTRACTOR's receipt of the certification, then payment of the lesser amount shall be deemed payment in full for the month in question and may not thereafter be questioned by CONTRACTOR.

1.06 Disputed payment amount: If COUNTY pays a lesser amount than the amount requested, and if CONTRACTOR submits a written notice of protest to COUNTY within twenty (20) days after CONTRACTOR's receipt of the certification, then the parties shall promptly meet to review the dispute and resolve it on a mutually acceptable basis. No court action may be taken on such dispute until the parties have met and attempted to resolve the dispute in person.

II. PERFORMANCE STANDARDS & COMPLIANCE

Such corrective action shall be completed and a written report made to the COUNTY concerning such action not later than thirty (30) days after the date of the COUNTY's written notice to CONTRACTOR.

2.04 Termination for cause: Notwithstanding Section 7.02 of the Agreement, if the corrective actions required above are not completed and the report to the COUNTY not made within thirty (30) days, the COUNTY may terminate this Agreement by giving five (5) days' written notice to CONTRACTOR.

2.05 Remedies for Inadequate Service Levels:

a) For each month that service falls below 80% of the contracted level, CONTRACTOR shall submit to the COUNTY an analysis of the causes of the problem and any necessary actions to be taken to correct the problem. If the problem continues for another month, the COUNTY shall meet with CONTRACTOR to explore the problem and develop an appropriate written corrective action plan with appropriate time frames.

d) If all appropriate corrective actions are taken but service still falls 80% or more below contracted level, COUNTY and CONTRACTOR may renegotiate the contracted level of service.

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

E. BACKGROUND:

The Wayfinder Family Services Family Finding and Engagement Program is designed to help create lifelong connections and appropriate placement options for every youth served. In alignment with that, Wayfinder Family Services' core philosophy is developing a lifelong support network for every youth that includes deep and meaningful relationships. At the close of family finding, there is a complete picture of who the youth's extended family is, and a family genogram/tree as well as a relative contact log to document information gathered about the child's family and extended network.

Wayfinder's Kinship Support Services Program is a kinship navigation service that supports grandparents, extended family members or close family friends who step up and fill an

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

important gap for children in Monterey County so they avoid the trauma of separation from their birth family, enabling them to heal and thrive. The program supports kinship families on their journey. Wayfinder's philosophy is that children should have every opportunity to be raised within their family of origin and/or with people with whom they share a connection.

The purpose of this agreement between the County of Monterey Department of Social Services and the Probation Department (hereinafter "COUNTY") and Wayfinder Family Services (hereinafter "CONTRACTOR) is to provide family finding and engagement services to foster/probation youth referred by the COUNTY and to provide kinship support services to relative or kin resource parents who are caring for youth in Monterey County.

F. DESCRIPTION OF FAMILY FINDING AND ENGAGEMENT SERVICES:

CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

F.1 Target Population

F.1.1 Youth who are either dependents of the juvenile court system or who are on juvenile probation, referred by the COUNTY and who could benefit from extensive family finding and engagement services. Family-finding staff can serve 7-9 youth at a time with an estimated service timeline of 6-8 months.

F.2 Family Finding Approach and Model

F.2.1 CONTRACTOR's Family Finding and Engagement program model aligns with Kevin Campbell's up-front family finding approach and includes his six steps to Family Finding: Discovery, Engagement, Planning, Decision Making, Evaluation, and Follow Up.

F.2.2 CONTRACTOR conducts family finding with urgency and is a family-driven process.

F.2.3 CONTRACTOR's approach to family finding incorporates components from Safety Organized Practice (SOP) in which the engagement with identified family members and non-related extended family members (NREFMs) is safety-focused and child/family centered/driven. This allows for deeper, more genuine engagement in addition to re-establishing family members as a natural and integral part of the ongoing planning process for young people.

F.2.4 Family finding and engagement services will be embedded within the CONTRACTOR's continuum of support available to relatives and the youth in their care through Kinship Support Services.

F.2.5 Family finders develop primary and alternative permanency options, working collaboratively with family members and child welfare to establish a realistic, safe, and sustainable path to permanency.

F.2.6 CONTRACTOR will work closely with child welfare staff to deliver strength-based, trauma-informed, and youth and family-centered family finding services.

F.3 CONTRACTOR Responsibilities for Family and Engagement Services

F.3.1 Utilize Kevin Campbell's Family Search and Engagement model and other applicable tools to conduct intensive searches for family members and near-family, both in and out of state, for youth in care.

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

F.3.2 Identify relatives and other supportive adults estranged from or unknown to the child, especially those willing or wanting to become permanent connections for the youth.

F.3.3 Facilitate relationships between the youth and family or friends to develop trusting, strong, and safe relationships to promote permanency in close collaboration with county staff.

F.3.4 Assess family members' interests and willingness to become involved with youth in care.

F.3.5 Participate in Child and Family Team (CFT) meetings: Collaborate with child welfare staff and families to develop and implement permanency plans that ensure the family can meet the needs of the youth and are realistic, sustainable, and safe.

F.3.6 Develop and maintain connection with the youth and family to help facilitate long-lasting relationships, which may lead to placement and facilitate permanency, including completion of cooperative adoptions for youth when appropriate.

F.3.7 Refer youth and families to supportive services as needed.

F.3.8 Complete a relative contact log and family tree for every youth and provide a copy to county staff.

F.3.9 Train staff to integrate trauma-informed techniques and concepts in their work while using a Strengthening Families and Protective Factors Framework.

F.3.10 Provide program-specific training on the Family Finding model developed by Kevin Campbell. The training offers methods and strategies to locate and engage relatives. CONTRACTOR staff receive training to understand the signs and risk factors associated with domestic violence, substance abuse and mental health issues and to identify and mitigate risk for the safety and permanency of children.

F.3.11 Maintain ongoing communication with assigned social workers and probation officers regarding status of family finding efforts.

F.4 County Responsibilities for Family Finding and Engagement Services

F.4.1 Identify youth who are in need of family finding and engagement services and submit referrals to CONTRACTOR timely.

F.4.2 Provide historical information to CONTRACTOR that will assist in family finding and engagement activities.

F.4.3 Collaborate with CONTRACTOR and families to develop and implement permanency plans.

F.4.4 Invite CONTRACTOR to CFT meetings when appropriate and ensure CONTRACTOR is connected to the child’s team.

F.4.5 Ensure families understand the importance of engagement in the child’s case and invite all family members to CFT meetings.

F.4.6 Ensure family finding and engagement activities are documented in the child’s case file.

F.4.7 Provide CONTRACTOR with access to the Child Welfare Services/Case Management System (CWS/CMS) and Traverse systems as determined to be appropriate.

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

b) All Management Letters received by the CONTRACTOR relating to the performed audit, shall be submitted in conjunction with the annual audit report(s) to the COUNTY.

1.04 Payment for Audit
CONTRACTOR shall bear all costs in connection with, or resulting from, any audit and/or inspections including, but not limited to, actual cost incurred and the payment/repayment of any expenditures disallowed by COUNTY, State or Federal government entities, including any assessed interest and penalties.

If CONTRACTOR is exempt from federal audit procedures under UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS (Uniform Guidance), then payment for this audit shall be made by CONTRACTOR with resources other than grant funds, or those used for matching purposes. If CONTRACTOR is not exempt from federal audit procedures under the UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS (Uniform Guidance), the cost of audits made in accordance with the provisions of this part are allowable charges to Federal awards. The charges may be considered a direct cost or an allocated indirect cost, as determined in accordance with the provisions of applicable Uniform Guidance cost principles, other applicable cost principles or regulations.

II. Contractor Records
Funds provided by COUNTY shall be accounted for separately in CONTRACTOR's books and records. CONTRACTOR shall keep a systematic accounting record of the receipt and disbursement of COUNTY funds. CONTRACTOR shall permit COUNTY to audit, examine and to copy excerpts and transcripts from such records and to conduct audits or reviews of all records including, but not limited to, invoices, materials, personnel records, bank account records, business records, billing statements, payroll records, business expense records, and all other data related to matters covered by this Agreement. CONTRACTOR shall maintain such data and records in an accessible location and condition for a period of at least four (4) years from the close of this Agreement term, or until after the conclusion of any audit, whichever occurs last. The State of California and/or any Federal agency providing funds for this Agreement shall have the same rights conferred upon COUNTY herein. CONTRACTOR shall keep records that are sufficient to permit the tracing of funds to a level of expenditure adequate to ensure that the funds have not been unlawfully spent. CONTRACTOR's records shall describe and support the use of funds for the agreed upon project or services outlined in this Agreement.

III. Recovery of Overpayments: If any audit shows that COUNTY has paid to CONTRACTOR any amount in excess of properly allowable costs, then CONTRACTOR shall reimburse COUNTY for that amount, either by a cash payment made within thirty (30) days after COUNTY notifies CONTRACTOR of the overpayment, or by an offset made by COUNTY against any payments owed by COUNTY to CONTRACTOR under this or any other contract.

Authorize the County Purchasing Agent or their designee to execute a non-standard agreement between the County of Monterey and PMAM Corporation for alarm permits and support services. This is a revenue-sharing agreement, which shall be effective upon execution for three years and then shall auto-renew for one year terms thereafter until terminated.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Authorize the County Purchasing Agent or their designee to execute a non-standard agreement between the County of Monterey and PMAM Corporation for alarm permits and support services. This is a revenue-sharing agreement that shall be effective upon execution for three years and then shall auto-renew for one year terms thereafter until terminated.

SUMMARY:
Currently, the Monterey County Sheriff's Office (MCSO) Fiscal Division staff manages a database for the Alarm Unit. Fiscal staff registers new alarm customers, sends invoices for alarm registration, collects and posts payments, creates invoices for false alarm charges, responds to false alarm appeals and handles customer service requests in person or via telephone. Managing the Alarm Unit effectively is a full-time job. Due to increasing workload and staffing issues over the years, the Fiscal Division staff can only allocate 1.0 FTE, one full day a week to manage the Alarm Unit. This causes a decrease in revenue as the time does not allow for timely new customer registration, payment reminders, or identifying of missed false alarm incidents. PMAM will automate these processes and include the acceptance of online payments. MCSO would only be responsible for processing false alarm appeals and accepting check payments. This allows the Fiscal Division to focus on other important functions such as budget monitoring, processing invoices, collecting revenue and payroll, all of which has increased over 100% in the last 10+ years.

PMAM was selected to improve false alarm management per the County of Monterey Procurement Manual via the Informal Competitive Bid Process. Improving the false alarm management will greatly improve the timeliness of new customer registration, sending payment reminders, renewals, invoicing, etc.

DISCUSSION:
PMAM will handle all billing in accordance with the County's alarm ordinance, collect payments, and provide comprehensive reports. These reports will include information on permits issued, renewals billed, fees collected, permits inactivated, permits reinstated, and the total number of false alarms. Additionally, PMAM will perform a daily SQL query to extract false alarm calls for service from the

Emergency Communications Database and will store those records on a file server within the county network. PMAM will also send out violation letters, payment reminders, etc. thereby increasing overall efficiency. Customers are billed if there is a response to a false alarm. Customers are not and will not be billed if there is no response to the false alarm. Customers are not and will not be billed for responses to an actual burglary.

PMAM will increase fiscal responsibility by covering all costs associated with software, software updates, data conversion, system maintenance, staffing, and hosting, thereby eliminating fiscal risk. PMAM will also conduct an audit of past alarm records at no cost, identify missed false alarm charges, invoice for those charges, and pursue collections (our current database only provides one reminder on past due invoices, resulting in lost revenue).

PMAM will increase account accuracy by importing all existing permits, balances, and alarm history, and conduct a complimentary audit to identify missed incidents (response to false alarm) and generate invoice(s) for any unpaid amount. The system is designed to block duplicate active permits for the same address unless unique unit numbers (e.g., for apartments) are provided. PMAM will also program the County's alarm ordinance into the False Alarm Management Solutions, which will calculate fees based on permit type, the number of false alarms, and the number of allowable free incidents.

Customer service will be improved since PMAM operates two (2) U.S. based call centers equipped with fully mirrored systems and staff which will improve customer service. In the event one center experiences downtime due to weather or power issues, calls can be rerouted to the other center within 30 minutes. PMAM utilizes an in-house platform that reviews every customer call to ensure politeness and accuracy. PMAM also offers user-friendly websites where residents can apply for and renew permits, download and pay invoices, submit appeals, update keyholder information, and provide dedicated smartphone apps that allow citizens to manage their alarm accounts, make payments, and receive push notifications for new invoices, past-due reminders, and alarm activity. The PMAM support team includes staff members who speak Spanish (33% of the team), offers support through phone, email, and chat in both English and Spanish. All voicemail messages received before 4 p.m. are responded to the same day, and all emails are addressed within 24 hours, further improving customer service.

PMAM will upload the customer list monthly, flag unpermitted sites and use a solution to automate tasks like payment processing, reconciliation, sending of renewal notices, violation letters and payment reminders and customers will be able to submit appeals online with documents which will automatically be routed for review, thereby increasing the overall efficiency of the Alarm process.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of County Counsel has reviewed and advised on this Agreement as to legal form. The Auditor-Controller has reviewed and approved the Agreement as to fiscal provisions. The Treasurer Department has reviewed and approves this Agreement.

FINANCING:
This agreement is a revenue-sharing agreement; the County receives 80%, and PMAM receives 20%.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The proposed recommended action demonstrates the County's commitment to provide public safety in the County of Monterey.

NOW THEREFORE, in exchange for the mutual covenants set forth herein and other valuable consideration, the sufficiency and receipt of which are hereby acknowledged, the parties agree as follows:

Article 1
Scope of Services

Article 2
Terms of Agreement

2.1 The initial term of this Agreement shall be for a period of three (3) years commencing on the Contract Implementation Date (as hereinafter defined) and ending on the day immediately preceding the third anniversary of the Contract Implementation Date (the '**Initial Term**"), subject to earlier termination as set forth in Article 6 hereof. 2.2 PMAM shall receive compensation, including authorized reimbursements including reimbursement for any County fees paid by PMAM to the County to permit PMAM to provide the Services or Special Services hereunder, for all Services rendered under this Agreement at the rates set forth in pricing included in this Agreement as Exhibit "B". The compensation is based on a revenue sharing model.

2.3 At any time during the term of this Agreement, the County may request that PMAM perform Special Services for additional compensation to be agreed upon by the County and PMAM prior to the performance of any Special Services by PMAM. As used herein, Special Services means any work which is determined by the County to be necessary for this Agreement, but which the parties did not reasonably anticipate would be necessary at the execution of this Agreement and which PMAM agrees to perform. If the County and PMAM reach an agreement on the performance of Special Services, PMAM shall undertake such Special Services after receiving the authorization from the County.

2.4 The County acknowledges and agrees that PMAM reserves the right to offer, and may offer, similar services to other government agencies under similar terms and conditions as stated herein except that the revenue share percentage allocated to PMAM and the other government agency may be negotiated between PMAM and such other agency based on the specific revenue expectations, agency reimbursed costs, the exact scope of services to be provided by PMAM, and other agency requirements. PMAM acknowledges and agrees that the County shall have no responsibility or liability whatsoever hereunder with respect to any agreement entered into between PMAM and such other government agency.

Article 3
PMAM's Responsibilities

3.1 Subject to the limitations hereinafter set forth, PMAM agrees to and shall defend, indemnify and hold harmless the County, its officers, and management employees from and against all claims, damages, losses and expenses, including reasonable attorney's fees, litigation costs and expenses, arising out of the performance of the Services or Special Services, caused solely by any grossly negligent act or omission of PMAM, or any subcontractor of PMAM. Lack of insurance coverage does not negate PMAM's obligation under this paragraph of this Agreement.

3.2 At all times during the term of this Agreement, PMAM shall be an independent contractor and shall not be an employee of the County. The County shall have the right to control Contactor only insofar as the results of PMAM's services rendered pursuant to this Agreement. The County shall not have the right to control the means by which PMAM accomplishes services rendered pursuant to this Agreement.

3.3 Notwithstanding any other provision of this Agreement to the contrary, in no event whatsoever shall PMAM be liable for damages or losses attributable to its actions or inactions, or its subcontractor's actions or inactions, with respect to the Services or Special Services provided hereunder, whether for indemnification or otherwise, in excess of the Maximum Indemnification Amount. The Maximum Indemnification Amount shall be equal to the sum of: (i) any insurance proceeds actually received by PMAM, or paid by PMAM's insurance carrier to the County, with respect to the claim for indemnification by the County hereunder, and (ii) the amount of fees actually retained by PMAM under this Agreement as its fee during the six (6) months immediately preceding the act Notwithstanding the preceding, the limitations on the

Docusign Envelope ID: FE44EAAA-424F-8110-8108-FE1D18739D8D

indemnification or other obligations of PMAM set forth in this Section shall not apply to the obligation of PMAM to pay the County its share of the collected revenues as set forth in this Agreement.

3.4 Notwithstanding any other obligation of PMAM hereunder, in no event shall PMAM be liable for any indirect, incidental, special, consequential or punitive damages, including loss of fees, profits or income, arising directly or indirectly out of the provision or non-provision of Services or Special Services hereunder, whether or not PMAM had any knowledge that such damages might be incurred.

3.5 If PMAM is required to indemnify the County hereunder, PMAM may assume the defense of the County with counsel reasonably acceptable to the County at the expense of PMAM. In addition, the County may engage its own counsel to participate in any defense in any such proceeding at the County's expense.

Article 4
The County's Responsibility

4.1 The County shall cooperate with and assist PMAM by, among other things, making available, as reasonably requested by PMAM, management decisions, personnel, information, approvals, IT assistance and acceptance that are needed by PMAM to carry out its obligation under this agreement.

Article 5

5.1 At the current time, PMAM does not maintain any offices in the State in which the County is located, nor does PMAM maintain any employees in such State. All Services required to be performed by PMAM hereunder shall be performed by PMAM at its offices in the State of Texas or elsewhere outside the State in which the County is located. PMAM shall, at its own expense, purchase, maintain and keep in force during the term of this Agreement such insurance as set forth below. PMAM shall not commence work under this Agreement until it has obtained all the insurance required under this Agreement and such insurance has been approved by the County, nor shall PMAM allow any subcontractor to commence work on its subcontract until all similar insurance of the subcontractor has been obtained and approved. The insurance requirements shall remain in effect throughout the term of this Agreement. PMAM, at PMAM's sole cost, shall purchase and maintain, during the term of this Agreement, insurance coverage providing not less than the following:

5.1.1 Comprehensive or Commercial General Liability: $2,000,000 combined single limit per occurrence for bodily injury, personal injury or death and property damage. The coverage's under this policy shall include those found in the Comprehensive General Liability Broad Form endorsement. This policy shall have no standard coverage removed by exclusions, unless approved by the County.

5.1.2 Automobile Liability: $2,000,000 combined single limit per accident for bodily injury and property damage. Coverage should be provided as a "Code 1," any auto.

5.1.3 Workers' Compensation and Employers' Liability: Statutory. Employers Liability policy limits of $1,000,000 for each accident, $1,000,000 policy limit- Disease. The insurer shall

Docusign Envelope ID: FE44EAAA-424F-8110-8108-FE1D18739D8D

agree to waive all rights of subrogation against the County, its officials, employees and volunteers for losses arising from the activities under this Agreement.

5. 2 All insurance policies, other than Professional Liability, provided under this Agreement shall be written on an occurrence basis.

5.3 The County shall be named as additional insured on the General Liability and Automobile Liability insurance policies. These insurance policies shall contain the appropriate additional insured endorsement signed by a person authorized by that insurer to bind coverage on its behalf. If PMAM, for any reason, fails to maintain insurance coverage which is required under this agreement, the failure shall be deemed a material breach of contract. The County, at its sole option, may terminate this Agreement.

5.4 Each insurance policy shall be endorsed to state that coverage shall not be canceled, reduced in coverage or in limits except after thirty (30) days prior written notice has been provided to the County, or in the event of cancellation because of nonpayment of premium, that the insurer shall give written notice to the County not later than ten (10) days following cancellation.

5.5 Insurance is to be placed with insurers with a Best rating of no less than A:VII. Insurers must be duly authorized to transact business in the State of Texas.

5.6 Certificates of Insurance if requested shall be submitted on the Accord form only. Certificates and endorsements effecting coverage required by this clause shall be forwarded to the County's Purchasing Department.

Article 6
Termination of Agreement

6.1 Grounds for Termination

6.1.1 The County shall inform PMAM in writing, if PMAM fails to perform its duties under this Agreement with a ninety (90) days window to correct the problem. PMAM shall remedy the problem within ninety (90) days from the receipt of such notice. Should PMAM fail to remedy the problem within ninety (90) days, the County may terminate this Agreement.

6.1.2 In addition to any right of termination granted to the County pursuant to the provisions of Section 6.1.1 hereof, the County may terminate this Agreement without cause at any time **after** the first anniversary of the Contract Implementation Date upon thirty (30) days written notice to PMAM, subject to its obligations set forth in Section 6.2 hereof.

6.1.3 In addition, the County may terminate this Agreement without cause at any time **prior** to the first anniversary of the Contract Implementation Date (i) upon thirty (30) days written notice to PMAM (ii) the payment of an early termination fee of $10,000, which fee PMAM may deduct and offset against the next monthly payment or payments due the County from the revenues collected by PMAM on behalf of the County hereunder as liquidated damages and not as a penalty. The parties acknowledge that the actual damages that PMAM would incur as a result of the early termination of this Agreement by the County without cause are uncertain and difficult to accurately estimate because of the parties' inability to predict the number of future permit holders, the fees or fines charged by the County for violation of its alarm ordinances, any other changes in the

Docusign Envelope ID: FE44EAAA-424F-8110-8108-FE1D18739D8D

County's alarm ordinances that could impact the revenues collected by PMAM hereunder on behalf of the County, and other relevant factors. Accordingly, the parties agree that the foregoing Termination Fee is a reasonable and appropriate estimate of actual damages and shall be deemed liquidated damages and not a penalty. . In the event that PMAM is not able to offset the foregoing termination fee, if applicable, in full against the next monthly payment or payments due the County hereunder, PMAM shall bill the County for the Deficiency Amount. The Deficiency Amount shall be equal to the sum of $10,000 less the amount of the termination fee that PMAM offset against the next monthly payment due the County (the "**Deficiency Amount**"). The County shall pay the Deficiency Amount to PMAM within 30 days after receipt of an Invoice for the Deficiency Amount.

6.1.4 PMAM's Fee Schedule and pricing for any and all Services to be provided by PMAM to the County under this Agreement have been set, established and agreed to be based upon the current provisions of applicable County ordinances relating to alarms. Should said ordinances change at any time during the term of this Agreement to reduce or eliminate the applicable fee, fines and charges, such reduction or elimination shall be effective prospectively only and not retroactively so that the fee earned by PMAM for services provided prior to such modification of the alarm ordinance shall not be affected and the County shall not be entitled to any refund or credit arising from such modification of its alarm ordinance. In addition, if the change in the County ordinances relating to alarms would reduce or eliminate the fee, fines, and charges previously in effect, PMAM reserves the express right to enter into good faith negotiations with the County to modify the Fee Schedule and pricing accordingly. If, within thirty (30) days of notice from PMAM to the County of its desire to so renegotiate, the parties are unable to reach an agreement mutually acceptable to both parties, then PMAM reserves the right to terminate this Agreement. Said termination shall not be deemed to be a default by PMAM under this Agreement. PMAM shall be paid all fees and costs due and owing PMAM as of the date of said termination. In the event that PMAM is not able to offset the foregoing termination fee, if applicable, in full against the next monthly payment or payments due the County hereunder, PMAM shall bill the County for the Deficiency Amount. The Deficiency Amount shall be equal to the sum of $10,000 less the amount of the termination fee that PMAM offset against the next monthly payment due the County (the "**Deficiency Amount**"). The County shall pay the Deficiency Amount to PMAM within 30 days after receipt of an Invoice for the Deficiency Amount.

6.1.5 PMAM may terminate this Agreement upon written notice to the County if the County misuses or attempts to appropriate the proprietary software of PMAM used in connection with its False Alarm Management Program (the "**PMAM Proprietary Software**").

6.1.6 PMAM may terminate this Agreement without cause at any time after the first anniversary of the Contract Implementation Date upon ninety (90) days written notice to the County.

6.2 Effect of Termination

6.2.1 If this Agreement is terminated as provided herein, the County may require PMAM to provide all finished and/or unfinished data and other information of any kind possessed by PMAM in connection with the performance of Services under this Agreement. PMAM shall be required to provide such information within a reasonable period of time of receipt of the request not to exceed thirty (30) days. Specifically, upon termination of this Agreement:

Docusign Envelope ID: FE44EAAA-424F-8110-8108-FE1D18739D8D

6.2.1a All data relating to alarm permits shall be owned by the County. Upon termination of this Agreement, PMAM shall promptly deliver to the County all data in MS-SQL format.

6.2.1b. PMAM retains all rights and title to the PMAM Proprietary Software, including but not limited to, all publication rights, all development rights, all reproductions rights, and all rights that may follow from the commercial development of the software. The County does not acquire any ownership rights to PMAM Proprietary Software. PMAM Proprietary Software is protected in favor of PMAM, as well as any future registered trademarks, are trademarks of PMAM.

6.2.1c. PMAM Proprietary Software is considered loaned to the County during the duration of this Agreement as laid out in this Agreement and the County will not have any access to the PMAM Proprietary Software after the conclusion of the Agreement.

6.2.1d. The County shall pay PMAM all fees and costs due and owing PMAM as of the date of said termination.

6.2.1e. The provisions of this Section shall survive the termination of this Agreement.

Article 7
Confidentiality of Information

7.1 At all times, PMAM shall recognize the County's sole and exclusive ownership of all information provided by the County, and the sole and exclusive right and jurisdiction of the County to control the use of this information. Similarly, the County recognizes that the PMAM Proprietary Software is owned by PMAM, and the County has no rights or claim thereto.

7.2 Each party agrees that neither it, nor its employees, subsidiaries, subcontractors, or agents shall disclose confidential information of the other party, to any person or to anyone except as necessary to perform its obligations under this Agreement, without the expressed written permission of the other party or unless required to do so by law. **County shall promptly inform PMAM if County receives a public records request for information designated by PMAM as confidential so as to provide PMAM an opportunity to object.**

PMAM is **not authorized** to open or maintain a P.O. Box and bank account on the County's behalf.

In addition, in the event PMAM submits an invoice or other statement to a permit holder for an amount payable to the County and such invoice or other statement is not paid or otherwise discharged within 120 days after the date the initial invoice or statement was mailed or otherwise submitted to such permit holder, the County shall pay PMAM an administration fee of Seven Dollars ($7.00) for each such invoice or other statement that has not been paid or otherwise discharged within said 120 day period in order to offset, in part, the costs and expenses incurred by PMAM in preparing sending and administering such invoices or statements.

PMAM reserves the right to renegotiate this pricing should the County change the fee schedule for the false alarm ordinance.

Frequently Asked Questions:

1. Q - How will PMAM increase fiscal responsibility?
   Answer – PMAM pays for all software, software updates, data conversion, maintenance of the system and staffing and hosting cost (this eliminates fiscal risk). PMAM will audit past alarm records at no cost, identify missed false alarm charges, invoice them and pursue collections

2. Q – How will PMAM improve customer service?
   Answer – PMAM operates two (2) U.S. based call centers with fully mirrored systems and staff, if one center goes down due to weather or power failure, calls are rerouted to the other within 30 minutes. PMAM uses an in-house platform that reviews every customer call checking for politeness and accuracy. PMAM provides a secure, mobile friendly website where residents can apply for permits, renew, pay fines, submit appeals, update keyholder information and download invoices. PMAM also offers dedicated smartphone apps that allow citizens to manage their alarm accounts, make payments and receive push notifications for new invoices, past-due reminders and alarm activity. PMAM support team includes 33% Spanish speakers, offering phone, email and chat support in both English and Spanish. Also responds the same day to all voicemail call received before 4 pm and all emails are responded to within 24 hours.

3. Q – How will PMAM increase accuracy of accounts?
   Answer – PMAM will import all existing permits, balances and alarm history and conduct a free audit to identify missed incidents and generate valid invoices for unpaid amounts. The system blocks duplicate active permits at the same address unless unique unit numbers (e.g. apartments) are provided. PMAM will program the County's alarm ordinance into False Alarm Management Solutions (FAMS), calculating fees based on permit type, false alarms and allowed free incidents.

4. Q – How will PMAM increase efficiency?
   Answer – Alarm companies upload customer lists monthly and the system auto-matches them with County permits to flag unpermitted sites. PMAM uses a solution to automate tasks like payment posting, data entry and reconciliation; the system automatically sends renewal notices, violation letters and payment reminders via mail, email SMS and push notification. Citizens can submit appeals online with documents which are automatically routed to a hearing officer for review.

5. Q – Why did the agency fell it was necessary to establish a contract with PMAM?
   Answer – To improve false alarm management, recover costs and ensure accurate contact information.

6. Q – Is the SO suggesting revenues are currently being lost because office isn't able to complete this work?

Answer – Managing the Alarm Unit is a full-time job, however, the Fiscal Division can only allocate one full day a week to manage the Alarm Unit; this causes a decrease in revenue as the time does not allow for timely new customer registration, payment reminders or identifying missed false alarm incidents.

7. Q – What data is available related to the volume of false alarm activity, to justify an outside contract for the work?
   Answer – It's not just a "false alarm" contract. This vendor will handle every aspect of the alarm unit including registering new customers, sending out invoices, collecting online payments, customer service and management of the false alarm calls. MCSO will only have to collect check payments and process false alarm appeals.

SUMMARY:
The County of Monterey Probation Department entered into Standard Agreement No. A-16556 with SCRAM of California, Inc. for the provision of electronic monitoring services for Probation clients. The initial contract term was June 1, 2023, through December 31, 2023. Since that time, the Agreement has been amended five times to ensure the continued delivery of court-mandated monitoring services.

DISCUSSION:
The Probation Department continues to require electronic monitoring services to support supervision of clients as ordered by the Monterey County Superior Court and as a condition of probation for various offender populations. Electronic monitoring serves as an intermediate sanction and an alternative to detention. The number of clients requiring monitoring fluctuates monthly based on operational needs. Additionally, the recent implementation of the Pre-trial Services Program under

Senate Bill 129 has increased the number of individuals served under this Agreement.

To maintain service continuity, Amendment No. 6 has been prepared to extend the Agreement term by an additional year through June 30, 2027, and to increase the not-to-exceed amount by $744,580, resulting in a revised total contract amount not to exceed $1,970,645. Additionally, the amendment updates the rate schedule to eliminate a tiered rate for the SCRAM Continuous Alcohol Monitoring + ETHERNET product and establish a set rate, which will result in a cost savings to the County.

Probation recommends that the Board approve Amendment No. 6 to Standard Agreement No. A-16556. Approval will ensure the continued provision of essential electronic monitoring services necessary for effective supervision and overall department operations.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
Amendment No. 6 was approved by the Office of County Counsel as to legal form and by the Auditor-Controller as to fiscal terms.

FINANCING:
Funding for this Agreement is fully provided by State Public Safety Realignment and SB 129 Pretrial monies. Sufficient appropriations and funding are included in Probation's FY 2025-26 Adopted Budget and FY 2026-27 Recommended Budget, for Appropriation Unit PRO001, Unit 8165. The recommended action results in no cost to the County General Fund.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This recommendation aligns with the Board of Supervisor Strategic Plan Goals of Safe and Resilient Communities by supporting Probation’s Electronic Monitoring Program. Probation utilizes electronic monitoring as a probation supervision tool for a number of different offender populations. Electronic monitoring serves as an intermediate sanction/detention alternative, as well as a tool to enhance public safety, by assisting officers in monitoring high risk populations in the community.
