APPENDIX A

Guide- Response Notification Types

Electronic Monitoring

1. **Bracelet Strap Open Alert:** Generated when the base station receives the date and time that the bracelet was cut.

2. **Strap Tamper:** The transmitter's strap has been cut or disassembled so that the strap is separate from the case, or the client has attempted to cut, remove or tamper with the strap, or the transmitter has corroded connection points.

Global Positioning Systems (GPS)

1. **Strap and Backplate Tamper combined:** Strap Tamper occurs when the client attempts to cut, remove or tamper with the strap attached to the device. Backplate tamper occurs if the client attempts to remove/disassemble the device by removing the backplate from the tracking unit.

2. **Strap Tamper:** The fiber-optic circuit inside the strap of a SCRAM GPS® tracking unit is open, resulting in a tamper alert.

3. **Case Tamper:** The tracking unit's case was opened because it was tampered with or the battery was replaced.

4. **Exclusion Zone Alert:** Occurs when a client is in violation of his schedule by entering a user defined zone that is prohibited. A client entered a forbidden zone and has been in that zone longer than the grace period if one is in effect.

Alcohol Monitoring

1. **Alcohol Detected Alert:** Generated when the bracelet generates three consecutive readings above .020 with at least one of those readings above the agency threshold, which indicates that the client has consumed alcohol.

2. **Potential Tamper Alert:** Generated when there is an unacceptable change in IR voltage from the previous readings, which indicates that the client has inserted something under the bracelet in order to inhibit the testing of alcohol.

3. **Potential Removal Alert:** Generated when the client cuts the strap or removes the bracelet without damaging the strap.

This SaaS Services Agreement ("Agreement") is entered into effective as of July 1, 2026 (the "Effective Date") between Just Appraised Inc., with a place of business at 2261 Market Street #4074, San Francisco, CA 94114 ("Company"), and the undersigned Customer ("Customer").

BACKGROUND

A. Company provides one or more software-as-a-service applications designed to facilitate document processing (collectively, the "Platform").

B. Company also provides support and maintenance services related to its platform, and may offer consulting, implementation and other professional services.

C. Customer wishes to utilize the Platform and related services as provided herein.

NOW, THEREFORE, in consideration of the mutual promises contained herein and for other good and valuable consideration, the Parties hereto agree as follows:

1. PLATFORM ACCESS

1.1 Subject to the terms and conditions of this Agreement, Company hereby grants Customer and its Users a non-exclusive, non-transferable (except for permitted assignments under Section 9) right, during the Term (as defined below), to access and use the Platform solely for Customer's internal business purposes in accordance with the applicable Order Form. As used herein, "User" means an employee, representative, consultant, contractor or agent of Customer who is authorized to use the Platform and has been supplied a user identification and password by Customer (or by Company at Customer's request).

1.2 As used herein, "Order Form" means a quote, order form in substantially the form attached as Exhibit A, or other ordering document detailing the Customer's access to the Platform and any associated fees therefore and any transaction-specific terms and conditions. If the parties agree, an Order Form may be used in connection with, or in lieu of, an SOW (as defined below).

1.3 As part of the registration process, Customer will identify an administrative user name and password for Customer's Company account. Company reserves the right to refuse registration of, or cancel passwords it deems inappropriate. Customer may only allow that number of Users as is specified in the applicable Order Forms(s) to use the Platform at any one time. Customer acknowledges that Company may include in its Platform functionality to track the number of active Users and to disallow use by more than the authorized number of Users. Customer is responsible for all activities that occur under Customer's User accounts. Customer shall use commercially reasonable efforts to prevent unauthorized access to, or use of, the Platform, and shall promptly notify Company of any known unauthorized use. Customer will ensure that (a) all Users given access to the Platform have the right to access the information and Customer Data made accessible to them by Customer through the Platform and (b) any User granting Company access to any Customer Data has the right and authority to grant such access.

2. SUPPORT AND PROFESSIONAL SERVICES

2.1 Subject to the terms hereof, Company will provide Customer with reasonable technical support services in accordance with the Company's standard practice.

2.2 In connection with Customer's use of the Platform, Company and Customer may agree in an Order Form and/or a separate mutually executed Statement of Work (an "SOW") upon training, implementation, consulting or other professional services to be performed by Company (collectively the "Professional Services"). Customer agrees to provide Company with any required Customer materials needed for Company to perform the Professional Services, and hereby grants Company a royalty-free, non-exclusive, worldwide license to use such materials for the sole purpose of enabling Company to perform the Professional Services. Company will use commercially reasonable efforts to meet any schedules set forth in an SOW or Order Form, and Customer agrees to cooperate in good faith to allow Company to achieve completion of such Professional Services in a timely and professional manner. If achievement of any particular milestone is dependent upon performance of tasks by Customer or by a third party outside of Company's control, any projected dates for

Company hereby grants to Customer and its Users, a non-exclusive, non-transferable (except for permitted assignments under Section 9), worldwide, royalty-free, limited-term license to use the Deliverables during the Term solely in conjunction with Customer's use of the Platform. Customer may not copy, modify, or otherwise create derivative works of any Deliverables without Company's prior written consent in each case.

3.2 Further, Customer may not remove or export from the United States or allow the export or re-export of the Platform, Software or anything related thereto, or any direct product thereof in violation of any restrictions, laws or regulations of the United States Department of Commerce, the United States Department of Treasury Office of Foreign Assets Control, or any other United States or foreign agency or authority. Customer hereby agrees to indemnify and hold harmless Company against any damages, losses, liabilities, settlements and expenses (including without limitation costs and attorneys' fees) in connection with any claim or action that arises from an alleged violation of the foregoing or otherwise from Customer's use of Platform. Although Company has no obligation to monitor Customer's use of the Platform, Company may do so and may prohibit any use of the Platform it believes may be (or alleged to be) in violation of the foregoing.

3.4 Customer shall be responsible for obtaining and maintaining any equipment and ancillary services needed to connect to, access or otherwise use the Platform, including, without limitation, modems, hardware, servers, software, operating systems, networking, web servers and the like (collectively, "Equipment"). Customer shall also be responsible for maintaining the security of the Equipment, Customer account, passwords (including but not limited to administrative and user passwords) and files, and for all uses of Customer account or the Equipment with or without Customer's knowledge or consent.

4. CONFIDENTIALITY; PROPRIETARY RIGHTS

4.1 Each party (the "Receiving Party") understands that the other party (the "Disclosing Party") has disclosed or may disclose business, technical or financial information relating to the Disclosing Party's business (hereinafter referred to as "Proprietary Information" of the Disclosing Party). The Receiving Party agrees: (i) to take reasonable precautions to protect such Proprietary Information, and (ii) not to use (except in performance of the Platform or as otherwise permitted herein) or divulge to any third person any such Proprietary Information. Customer Data may be provided or made available to Company directly by Customer or indirectly by authorizing Customer's third-party vendors to provide such Customer Data to Company. Customer hereby grants to Company a non-exclusive, non-transferable, non-sublicensable, royalty-free, paid-up, revocable, perpetual license to use, copy, execute, reproduce, display, perform, disclose, distribute and prepare derivative works of the Customer Data for the purposes of (i) providing the Platform and Professional Services to Customer, and (ii) to improve and develop the Platform, Professional Services and Company's other products and services. b. Accept non-standard language in the agreement provided by the vendor as recommended by the County Clerk-Recorder; and
c. Approve and authorize the County Clerk-Recorder or their designee to sign up to three amendments to the Agreement that do not exceed 10% ($35,427) with similar non-standard language provisions, that do not significantly alter the scope of work, for a total aggregate contract amount of not to exceed $389,691.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the County Clerk-Recorder or their designee to execute a non-standard agreement with Kofile Technologies, Inc., for the preservation and conservation of the County Clerk-Recorder's index books, for a one (1) year term of July 1, 2026 through and including June 30, 2027 in an amount not to exceed $354,264; and
b. Accept non-standard language in the agreement provided by the vendor as recommended by the County Clerk-Recorder; and
c. Approve and authorize the County Clerk-Recorder or their designee to sign up to three amendments to the Agreement that do not exceed 10% ($35,427) with similar non-standard language provisions, that do not significantly alter the scope of work, for a total aggregate contract amount of not to exceed $389,691.

SUMMARY:
Since 2014, the Recorder's Office has worked with Kofile Technologies, Inc. to restore the department's books dating back to the 1800's per Government Code section 27231 to ensure that these records are preserved for the future. The County Clerk-Recorder requests that the Board approve the proposed renewal of this service agreement, including the non-standard provisions, between Kofile Technologies, Inc. and the County of Monterey Recorder's office due to business necessity for a one-year term of July 1, 2026 through and including June 30, 2027.

DISCUSSION:
Per Government Code section 27231, "the Recorder has the custody of, and shall keep all books, records, maps, and papers deposited in his office." The department books date back to the 1800's

and for over a hundred years, wood pulp paper was used for record keeping which is extremely acidic and unstable. In 2014, the Board approved the County Clerk-Recorder to embark on the restoration of the department record books and maps with Kofile Technologies, Inc. In 2017, the Grand Jury recommended that the Recorder's office begin restoring maps. Therefore, the County Clerk-Recorder's office is asking the Board of Supervisors to approve continuing with the preservation project with the restoration of index books.

The proposed agreement contains non-standard indemnification and liability provisions. These non-standard provisions are an industry-wide accepted standard although not County standard. The term of the agreement as identified shall be for July 1, 2026 through and including June 30, 2027 in an amount not to exceed $354.264.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
County Counsel has reviewed the agreement and approves to form upon client acceptance of non-standard terms. County Risk Management cannot approve the agreement due to the presence of non-standard indemnity and liability provisions.

FINANCING:
Funds for payment of this agreement have been included in the Assessor's FY 2026-2027 Requested Budget from the Modernization Fund (027-2730-ACR003).

Government Code section 27361(c) provides that a specified portion of recording fees, retained in Restricted Revenue Fund (027-2730-ACR003) be available solely to "support, maintain, improve, and provide for the full operation for modernized creation, retention, and retrieval of information in each county's system of recorded documents."

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This recommendation supports the key objective of administration and will provide the County Clerk/Recorder with the additional support it needs to provide reliable and high-quality services to the residents of Monterey County.

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. 9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: D2BF7016-AD29-8EC0-800F-AF6E780BCD1F

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

June 09, 2026

Introduced: 5/28/2026

Current Status: General Government - Consent

Version: 1

Matter Type: BoS Agreement

Approve and authorize the County Purchasing Agent or designee to execute Amendment No. 2 to the Agreement with ARC Alternatives, for provision of continued energy analytics and consulting services, extending the term through to June 30, 2027, for a revised term of October 1, 2022 through June 30, 2027 revising Exhibit A-1, and increasing the contract amount by $177,060 for a revised contract maximum of $545,660.

RECOMMENDATION:

It is recommended that the Board of Supervisors approve and authorize the County Purchasing Agent or designee to execute Amendment No. 2 to the Agreement with ARC Alternatives, for provision of continued energy analytics and consulting services, extending the term through to June 30, 2027, for a revised term of October 1, 2022 through June 30, 2027 revising Exhibit A-1, and increasing the contract amount by $177,060 for a revised contract maximum of $545,660.

SUMMARY/DISCUSSION:

The County of Monterey entered into an agreement with ARC Alternatives to provide energy analytics and sustainability consulting services to support the County's long-term decarbonization and energy planning initiatives. The original agreement was effective October 1, 2022, through July 31, 2024, with a not-to-exceed amount of $160,000.

In March 2025, the Board approved *Renewal and Amendment No. 1*, which revised Exhibit A-1, extended the agreement term through July 31, 2026, and increased the contract by $208,600, establishing a revised not-to-exceed amount of $368,600. Board direction further authorized staff to execute up to three future amendments, provided that such amendments did not: 1) materially change contractor responsibilities, 2) increase the contract by more than 10% ($36,860), and 3) increase the total not-to-exceed amount beyond $405,460. *Amendment No. 2* proposes to further extend the agreement through June 30, 2027, and revise Exhibit A-1 to expand consulting services to include renewable energy credit registration, submetering, LCFS research, grid support program evaluation, EV infrastructure support, financial analysis, decarbonization planning, and on-call technical assistance in support of County and NMC sustainability and decarbonization initiatives. Amendment No. 2 also increases the contract by $177,060, resulting in a new not-to-exceed total of $545,660.

Because the proposed amendment exceeds the maximum contract amount previously authorized under the Board's delegated authority, Board approval is required.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of the County Counsel has reviewed and approved the proposed amendment as to form.

FINANCING:
Approval of Amendment No. 2 will increase the contract by $177,060 for a total not-to-exceed contract maximum of $545,660. Funding is included in the FY 2025-26 adopted budget and FY 2026-27 Recommended budget, and has no budgetary impact at this time.

The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

(Note: any proposed modifications to these insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

It is recommended that the Board of Supervisors:
a. Approve and authorize the Contracts Purchasing Officer, or designee, to sign a Renewal and Amendment #1 to an Agreement with ARC Alternatives to provide energy engineering, auditing, and verification services extending the term by two years, for a new term retroactive to October 1, 2022 through July 31, 2026, and increasing the total contract amount by $208,600 for a new not to exceed total contract amount $368,600; and
b. Authorize the County Administrative Officer, or designee, to sign up to three future amendments to this amended agreement where the amendments do not significantly change the responsibilities of the parties, do not cause an increase of more than 10% ($36,860) of the contract amount and do not increase the total contract amount above $405,460.

SUMMARY:

Staff recommends that the Board of Supervisors authorize the Contracts Purchasing Officer, or designee, to sign a renewal and Amendment #1 with ARC Alternatives to continue to serve the County as on-call renewable energy experts. This amendment will augment the agreement amount by $208,600 and will be retroactive from October 1, 2022, through July 31, 2026. The augmented scope includes continuing to develop the County's Decarbonization Framework through the Central Coast Community Energy Member Agency Planning, Implementation, and Innovation Grant Program grant award that the Board accepted on July 12, 2022, $50,000 for on-call energy services allocated to the Sustainability Program during the FY 2024-25 Budget Process, $80,023 for verification services of the Board approved solar projects at Natividad Medical Center, 1590 Moffett Street, and 168 & 142 W. Alisal Street, and an invoice for $9,800 to be paid by Natividad Medical Center for a verification analysis of the PG&E On-Bill Finance program that is currently being implemented by EcoGreen Solutions. The agreement is retroactive to cover the outstanding invoices that ARC Alternatives has performed for the County. The agreement lapsed on July 31, 2024, because staff

were not expecting to need Board authorization for the extension and amendment but were required to seek Board approval due to the contract amount exceeding $200,000.

DISCUSSION:
Since the original agreement was signed with ARC Alternatives (ARC), the contractor and Sustainability Program have made significant progress on the Decarbonization Framework scope of work through the Central Coast Community Energy Member Agency Planning, Implementation, and Innovation Grant Program. The Sustainability Program, ARC, and San Joaquin Valley Clean Energy Organization have performed audits of nearly all owned County facilities and ARC is undertaking their facilities analysis. ARC has represented the County for six solar energy and battery storage projects and performed verification services for the Natividad Medical Center On-Bill Finance project to ensure that the project met County interests. ARC will provide additional verification services for the Board approved solar projects at Natividad Medical Center, 1590 Moffett Street, and 168 & 142 W. Alisal Street, to ensure that pricing, scheduling, and engineering decisions best suite County interests. With this amendment and renewal, ARC will continue to be an asset for the County as it advances renewable energy, electric vehicle charging, energy efficiency, and other complex sustainability initiatives requiring engineering expertise.

OTHER AGENCY INVOLVEMENT:
Staff have collaborated with Natividad Medical Center to enable ARC Alternatives to provide a verification analysis of PG&E's On-Bill Financing Program that will be paid for as part of this augmentation. County Counsel has approved as to form.

FINANCING:
This item does not require budgetary action at this time because the Board has already allocated $50,000 as part of the FY 2024-25 Budget Process and the $80,023 for verification of the solar projects approved by the Board on December 3, 2024, at Natividad Medical Center, 1590 Moffett Street, and 168 & 142 W. Alisal Street has been allocated to fund (404-3200-PFP057-8564). Additional funding has been provided for this contract in the form of a grant by Central Coast Community Energy for $150,000 that was accepted by the Board on July 26, 2022. Remaining costs associated with this contract include $9,800 that will be paid by Natividad Medical Center and $78,776 that was paid in FY23-24 using salary savings and operating budget for the Sustainability Program for the review of ongoing solar projects an increased grant scope. Accounting for these previous costs and funding sources brings the contract with this amendment to a total of $368,000.

SERVICE CONTINUITY AGREEMENT

This Service Continuity Agreement (this "**Agreement**"), dated as of ____June 9, 2026____, is entered into by and between Speed Charge Services, LLC, a Delaware limited liability company with an address at 2200 Abbott Drive, Carter Lake, IA 51510 ("**Speed Charge**"), and the customer whose title and corporate information appear on the signature page hereto ("**Customer**"). Each of Speed Charge and Customer may be referred to as a "**Party**" and collectively as the "**Parties**".

WHEREAS, Customer purchased certain equipment ("**Equipment**") from FreeWire Technologies, Inc. ("**FreeWire**"), an affiliate of Speed Charge; and

WHEREAS, to support continued Equipment operation, Speed Charge has offered to provide essential software, telematics, monitoring, field support and repair services to Customer pursuant to the terms of this Agreement.

NOW, THEREFORE, the Parties agree as follows:

1. **Services**. During the Term (as defined below), Speed Charge shall provide Customer the services described in this Section 1 for installed Equipment (collectively, the "**Services**"). Speed Charge has no obligations with respect to Equipment except as set forth in this Section 1.

   a. **Field Service**. Speed Charge shall provide remote support, including related to diagnostic assessments of Equipment to identify and analyze malfunctions, replacement of components, part commissioning, troubleshooting and manually resetting Equipment, for Customer's on-site technicians in the field. Subject to Section 2(b)(ii), Speed Charge may also offer in-person field support.

   b. **AMP**. For each piece of Equipment, Speed Charge will provide Customer with one subscription to the Asset Management Platform ("**AMP**") Essentials tier for such covered Equipment. AMP is made available subject to the AMP Terms of Service provided to Customer (the "**AMPTOS**"). Except as expressly set forth in the AMPTOS, Speed Charge disclaims any and all warranties pertaining to AMP, including any warranty of fitness for particular purpose, merchantability, noninfringement, compliance or performance.

   c. **Cellular Connectivity**.

      i. **Generally**. Speed Charge will provide, pay for and administrate the account provided by a provider of cellular connectivity services associated with Equipment's cellular connectivity. Speed Charge has no responsibility for or liability to Customer for any malfunction or downtime of any cellular account, nor for any performance failures or downtimes of Equipment or the reporting platform associated therewith.

      ii. **Conditions**. As a condition to the Services, during the Term, Equipment must have continuous cellular connectivity (and cellular signal strength must be sufficiently strong). If, at any time during the Term, Equipment loses connectivity for more than seven consecutive days, Speed Charge's obligations hereunder will be suspended until connectivity is restored. Any such suspension does not extend the Term. Speed Charge will make commercially reasonable efforts to provide Customer with prior notice of any such suspension.

   d. **Updates**. Speed Charge may from time to time develop patches, bug fixes, updates, upgrades and other modifications to any software, application program interface, documentation or data related thereto or embedded therein onboard Equipment ("**Updates**"). Customer consents to these Updates, which may be automatically installed without providing any additional notice to or requiring any further action of Customer. Speed Charge will provide reasonable notice of such Updates unless they are made on

an emergency basis, in which case Speed Charge will communicate with Customer about those Updates as soon as commercially practicable. Updates will not diminish or limit pre-existing functionality unless Speed Charge deems installing such Updates reasonably necessary to address an emergency. New features released in Updates, including enhancements to pre-existing features, may be subject to additional legal provisions. Customer's interference with, or prevention of, the installation of any Update shall suspend any Services covering affected Equipment at that time; provided that the Services may be re-instituted when such relevant Updates are installed.

e. **Equipment Repair**. Subject to Section 2(b)(iii), Speed Charge may provide repair services for Equipment (or components thereof) as requested by Customer. Speed Charge reserves the right to reject any requests from Customer for repair services in its sole and reasonable discretion.

f. **Labor and Parts**. Subject to Section 2(b), Speed Charge shall provide labor and parts necessary for Speed Charge to complete the Services. Any part, including batteries, replaced pursuant to this Agreement may be new or factory refurbished such that it operates at a level appropriate to its age and utilization.

2. **Fees**.

a. **Monthly Fee**. During the Term, Customer shall pay Speed Charge a monthly fee of $765 per piece of Equipment for the Services. Such fee shall be due before the first of each month during the Term.

b. **Additional Fees**. During the Term, Customer shall pay Speed Charge the fees in this Section 2(b) as necessary in connection with Speed Charge's performance of the Services. Such fees shall be charged per each piece of Equipment, and shall be due within 30 days of receipt of written invoice therefor.

i. **Parts**. Customer shall pay Speed Charge all fees related to any necessary parts related to the Services, including any costs required to ship and deliver such parts to Speed Charge or to the relevant Customer location.

ii. **On-Site Technicians**. For additional fees (including fees for reasonable travel costs and related expenses) as agreed to between Speed Charge and Customer, Speed Charge may offer in-person field support. After hours (*i.e.*, 4 a.m. – 7:59 a.m. and 5 p.m. – 10 p.m.), holiday and weekend support may be subject to increased fees.

iii. **Repair Services**. Customer shall pay Speed Charge all fees, including for any necessary parts (pursuant to Section 2(b)(i)) and labor, related to repair services provided to Customer pursuant to Section 1(e). Such fees shall be agreed to by Speed Charge and Customer before such services are provided. Customer shall also be responsible for the cost of shipping any Equipment for repairs to Speed Charge.

c. **Disclaimer**. Customer acknowledges that certain Equipment-related issues may require multiple support sessions, and Customer shall pay the applicable fees outlined in this Section 2 for each such session.

d. **Late Payments**. Late payments will be subject to a servicing fee of 1.5% per month, or the greatest interest rate allowable by applicable law, if such rate is lower. Customer shall pay to Speed Charge all reasonable attorneys' fees, costs and expenses actually incurred in connection with collection of amounts due to Speed Charge hereunder. No amounts will be set off or withheld from amounts due hereunder for any reason.

3. **Equipment Restrictions**. Customer will not, and will not permit any third party to: (a) reverse engineer, decompile, disassemble or otherwise attempt to discover the source code, object code or

underlying structure, ideas or algorithms of Equipment, or any software, application program interface, documentation or data related thereto or embedded therein ("**Software"**; Software together with Equipment, "**Technology**"); (b) modify, translate or create derivative works based on Equipment; (c) remove any product identification or notices of any proprietary or copyright restrictions from Equipment or any support material; (d) list or otherwise display or copy any object code of Equipment; (e) use Equipment for any purpose other than that for which it was designed; (f) repair, maintain or service Equipment in any way other than as set forth in provided documentation; (g) use Equipment other than in accordance with this Agreement and any other documentation or instructions (whether written or oral) provided by FreeWire or Speed Charge to Customer in connection with Equipment; and (h) use Equipment other than in compliance with all applicable laws and regulations. Additionally, Equipment is not intended for use as a primary or backup power source for infrastructure facilities, life-support systems, medical equipment or any other use where product failure could lead to injury to persons, loss of life or catastrophic property damage. Speed Charge disclaims any and all liability arising from any such use of Equipment. Further, Speed Charge reserves the right to refuse to service any Equipment used for these purposes and disclaims any and all liability arising from Speed Charge's service or refusal to service Equipment in such circumstances.

4. **Emergency Access**. Notwithstanding anything herein to the contrary, if in Speed Charge's objectively reasonable judgment, any Equipment will undergo or has undergone damage that cannot be repaired in the field, Speed Charge may enter Customer's premises to perform emergency repairs or to remove the applicable Equipment (or any part or component thereof), subject to all other provisions hereof. Customer will offer all reasonably requested assistance to Speed Charge in connection therewith.

5. **Third Party Providers**. Speed Charge is not a provider of cellular connectivity or payment processing and Speed Charge is not an Electric Vehicle Service Provider ("**EVSP**"). If Customer wishes to utilize payment processing or an EVSP network with Equipment, Customer must enter into agreements with providers therefor. Equipment is only compatible with certain payment processors and EVSPs. Notwithstanding anything herein to the contrary, Speed Charge disclaims any and all representations and warranties arising from or related to cellular providers, EVSPs and payment providers, including any warranties of merchantability, fitness for particular purpose or noninfringement, and Speed Charge disclaims, and Customer acknowledges such disclaimer, any liability arising from or relating to any of the foregoing, including any lost business, lost profits or business interruption.

6. **Intellectual Property and Data**. Speed Charge and its licensors retain all right and title to, in and under the intellectual property, industrial and other proprietary rights in the Technology, including any improvements or derivative works thereof. Customer acknowledges and consents to Speed Charge's monitoring and collection of Charger Data (as defined below) by means of the Technology. Customer hereby provides a license to Speed Charge to utilize Charger Data to enable functionality provided by AMP subject to all applicable provisions of the AMPTOS. Additionally, Customer hereby grants to Speed Charge a perpetual, irrevocable, royalty-free, fully-paid, non-exclusive license: (a) to make internal use of Charger Data and to create or modify aggregated, anonymized Charger Data which does not identify Customer or any end users of the Technology ("**Aggregated Anonymous Data**"), and to disclose, use and/or share the Aggregated Anonymous Data for any lawful purpose; and (b) in the content of all communications, feedback and communications provided by Customer to Speed Charge, directly or indirectly, whether in written or oral form: (i) to incorporate into, utilize in or with any Equipment or upgrades or modifications thereto, or any other services of Speed Charge; and (ii) for any other lawful purpose. Except as otherwise expressly set forth herein, Charger Data is Customer's property. If Customer uses the Technology with confidential, proprietary or otherwise non-public vehicles ("**Test Vehicles**"), Customer will inform Speed Charge and Speed Charge will treat any information it receives pertaining to Test Vehicles as the Confidential Information of Customer in accordance with Section 14. "**Charger Data**" means information generated by Equipment pertaining to (A) safety and performance of Equipment (such as internal temperature sensors), and (B) charging sessions, including initial vehicle state of charge, duration of charging sessions and kW and kWh dispensed during charging sessions. Charger Data does not include

personal information. Handling of relevant personal information is the responsibility of Customer and the relevant EVSP and payment processor, to the extent applicable, as all such information is encrypted and transmitted by Equipment directly to such parties without the inclusion of Speed Charge, which does not process, capture or store such information.

7. **Term**. The Agreement shall commence on June 9, 2026 and shall remain in effect for a period of 12 months thereafter, unless earlier terminated as set forth herein (such effectiveness period, the "**Initial Term**"). Upon expiration of the Initial Term, Speed Charge may, in its sole and reasonable discretion, offer to renew the Agreement for a period determined by Speed Charge (each, a "**Renewal Term**" and together with the Initial Term, the "**Term**"). Any Renewal Term shall be effective upon mutual agreement of the Parties.

8. **Termination and Suspension**.

   a. **Termination For Convenience**. Speed Charge may terminate this Agreement upon 60 days' prior written notice to Customer for any reason.

   b. **Termination For Cause**. Speed Charge may terminate this Agreement upon 30 days' written notice if Customer materially breaches a material provision hereof and does not cure such failure during the notice period.

   c. **Suspension**. Speed Charge may immediately suspend the Services at any time if Customer fails to make payments when due. This Section 8(c) does not limit any of Speed Charge's other rights or remedies, whether at law, in equity or under this Agreement.

   d. **Effects of Termination**. Upon termination of this Agreement for any reason, Customer will pay Speed Charge any outstanding amounts due hereunder within 30 days after the effective date of such termination. Provisions of this Agreement that are intended to, or by their nature should, apply beyond the term of this Agreement, will remain in force after any termination or expiration of this Agreement, provided that the following will terminate and be of no further force or effect to the fullest extent of applicable law: (i) any of Speed Charge's Services-related obligations; (ii) any of Speed Charge's indemnity obligations; and (iii) Customer's access to AMP.

9. **Representations and Warranties**.

   a. **Mutual**. Each Party hereby represents and warrants to the other Party that: (i) it has the right and authority to enter this Agreement and perform as contemplated hereunder; (ii) it shall comply with all applicable law in connection with the performance of its obligations hereunder; (iii) as of the date hereof, it is duly organized, validly existing and in good standing under the laws of its jurisdiction of organization; and (iv) when executed, this Agreement will be binding upon such Party.

   b. **Disclaimer**. SPEED CHARGE DISCLAIMS ANY AND ALL WARRANTIES AND/OR REPRESENTATIONS NOT EXPRESSLY SET FORTH IN THIS AGREEMENT. SUCH FOREGOING DISCLAIMER APPLIES TO, WITHOUT LIMITATION: ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE; ANY WARRANTIES PERTAINING TO USE, QUALITY, ACCURACY, AVAILABILITY, UPTIME, NON-INFRINGEMENT, COMPLIANCE WITH ANY LAW, REGULATION OR STANDARD; AND ANY WARRANTIES THAT MAY ARISE FROM COURSE OF DEALING, COURSE OF PERFORMANCE OR USAGE OF TRADE.

10. **Indemnity**.

   a. **By Customer**. Customer will indemnify, defend and hold harmless Speed Charge, including its and its employees, officers, directors and permitted successors and assigns,

from and against any and all losses, damages, liabilities, costs and expenses (including reasonable attorneys' fees) (collectively, "**Losses**") incurred in connection with any third-party claim, action or proceeding (each, a "**Claim**") pertaining to: (i) Customer's gross negligence, willful misconduct or violation of any applicable law, rule or regulation; (ii) damage to tangible property, personal injury or death arising from or related to Customer's use of Equipment in violation of this Agreement or any specifications or instructions provided by FreeWire or Speed Charge to Customer in connection therewith (including any installation guide, user manual or other applicable documentation), or Customer's modification of or other alteration to Equipment without Speed Charge's express written instruction or consent; or (iii) Customer's actual or alleged breach of this Agreement.

b. **By Speed Charge**. Speed Charge will indemnify, defend and hold harmless Customer and its employees, officers, directors and permitted successors and assigns from and against any and all Losses incurred in connection with any Claim pertaining to Speed Charge's gross negligence or willful misconduct.

11. **Limitation of Liability**. **IN NO EVENT WILL SPEED CHARGE BE LIABLE TO CUSTOMER OR ANY THIRD PARTY FOR ANY LOSS OF USE, REVENUE OR PROFIT OR LOSS OF DATA, OR FOR ANY CONSEQUENTIAL, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY OR PUNITIVE DAMAGES WHETHER ARISING OUT OF BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, REGARDLESS OF WHETHER SUCH DAMAGES WERE FORESEEABLE AND WHETHER OR NOT SPEED CHARGE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, AND NOTWITHSTANDING THE FAILURE OF ANY AGREED OR OTHER REMEDY OF ITS ESSENTIAL PURPOSE. IN NO EVENT WILL SPEED CHARGE'S AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THIS AGREEMENT, WHETHER FROM BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, EXCEED THE TOTAL OF THE AMOUNTS PAID TO SPEED CHARGE FOR THE SERVICES PROVIDED TO CUSTOMER UNDER THIS AGREEMENT**.

12. **Insurance**. During the Term, Speed Charge shall maintain such types and levels of insurance that are required by law and that Speed Charge otherwise deems appropriate and customary for agreements of a nature similar to the one described herein.

13. **Assignment**. No right or obligation of Customer under the Agreement may be assigned, delegated or otherwise transferred, whether by agreement, operation of law or otherwise, without the express prior written consent of Speed Charge. Any attempted or purported assignment in violation of this Section 13 shall be null and void *ab initio*. Any change in control of Customer, whether by way of merger, acquisition, reorganization or otherwise, shall be deemed an assignment for the purposes of this Section 13. Subject to the provisions of this Section 13, the Agreement shall bind each Party and its permitted successors and assigns. The Agreement is for the sole benefit of the Parties and there are no third-party beneficiaries hereto.

14. **Confidentiality**.

a. **Definition**. "**Confidential Information**" means any non-public information disclosed by a Party (including such Party's personnel and agents, together as "**Discloser**") to the other Party (including such Party's personnel and agents, together as "**Recipient**") hereunder, either directly or indirectly, whether disclosed orally, in writing or otherwise. Confidential Information includes all non-public information relating to Equipment, FreeWire's software and technology and/or FreeWire's or Speed Charge's business.

b. **Duty of Confidentiality**. Recipient shall not, during or subsequent to the Term, use Discloser's Confidential Information for any purpose other than in furtherance of the Agreement and the activities described therein or disclose such Confidential Information

to any third party except as otherwise permitted hereunder. Recipient may disclose Confidential Information of Discloser only to those employees or consultants who have a need to know such Confidential Information and who are bound to retain the confidentiality thereof under provisions (including, without limitation, provisions relating to nonuse and nondisclosure) no less restrictive than those required by Recipient for its own Confidential Information. Recipient shall maintain Confidential Information of Discloser with at least the same degree of care it uses to protect its own proprietary information of a similar nature or sensitivity, but no less than reasonable care under the circumstances. Recipient shall promptly advise Discloser in writing of any misappropriation or misuse of Discloser's Confidential Information of which Recipient becomes aware.

c. **Exceptions**. The obligations in this Section 14 shall not prevent Recipient from disclosing Confidential Information of Discloser to the extent required by a judicial order or other legal obligation, provided that, in such event, Recipient shall promptly notify Discloser to allow intervention (and shall cooperate with Discloser) to contest or minimize the scope of the disclosure (including application for a protective order). Each Party may disclose the terms and conditions of the Agreement as required by applicable securities laws, including requirements to file a copy of the Agreement (redacted to the extent reasonably permitted by applicable law), or to disclose information regarding the provisions hereof or performance hereunder, to applicable regulatory authorities. Further, each Party may disclose the provisions of the Agreement: (i) in confidence, to legal counsel; (ii) in confidence, to accountants, banks and financing sources and their advisors; and (iii) in connection with the enforcement of the Agreement or any rights hereunder, provided that, in each case, Recipient remains responsible for such third parties' compliance with the confidentiality obligations hereunder. Confidential Information does not include information which: (A) is already known to Recipient at the time of disclosure; (B) becomes publicly known and made generally available through no breach hereof or wrongful act or inaction of Recipient; (C) is rightfully received by Recipient from a third party without a duty of confidentiality; (D) is authorized for disclosure by Discloser prior to such applicable disclosure; and/or (E) is independently developed by Recipient without reliance on Discloser's Confidential Information.

d. **Return of Materials**. Upon termination of the Agreement, or upon Discloser's earlier request, each Party (as Recipient) shall deliver to Discloser or destroy all of Discloser's Confidential Information embodied in tangible (including electronic) form, and certify in writing to Discloser that all such Confidential Information has been returned or destroyed. The provisions of this Section 14(d) shall not apply to Confidential Information incidentally stored in a Party's automated back-up systems, provided that such Confidential Information be held in accordance with the provisions of this Agreement and will be deleted pursuant to the applicable policies governing such systems.

15. **No Publicity**. Without limiting Section 14, Customer shall not, without Speed Charge's prior written approval on a case-by-case basis, which may be withheld in Speed Charge's sole discretion: (a) make any media releases, public announcements or public disclosures relating to the Agreement or the subject matter hereof; (b) use the Agreement as a case study or illustrative engagement in a non-public communication to another company, potential customer or trade association; or (c) make any use or proposed use of Speed Charge's or FreeWire's names or trademarks, service marks or logos (together as "**Marks**"), including in promotional or marketing material. To the extent Customer uses Marks, all goodwill arising from or related to such use will inure to the sole and exclusive benefit of the owner of such Marks.

Additionally, Customer shall strictly comply with all brand guidelines provided by Speed Charge to Customer in connection with Customer's use of Marks.

16. **Enforcement**. Each Party acknowledges that the other Party may suffer irreparable damage in the event of any material breach of Sections 14 and 15. Accordingly, in such an event, a Party will be entitled to seek preliminary and final injunctive relief before any competent tribunal, as well as any other applicable remedies at law or in equity against the Party who has breached or threatened to breach such provisions.

17. **Waiver**. The failure of either Party to enforce at any time, or for any period of time, any of the provisions of the Agreement shall not constitute a waiver of such provisions or the right of either Party to enforce each and every provision on any future occasion.

18. **Notice**. Any notice or communication permitted or required by the Agreement shall be deemed effective (a) when personally delivered, (b) three days after it is deposited registered or certified in the United States mail or deposited guaranteed delivery with a courier such as FedEx or UPS, or (c) on the day after such notice is sent via electronic mail (provided that the sender does not have any reason to believe such applicable transmission failed), in each case to the appropriate address as set forth herein. The Parties may change their notice address by notice given pursuant to this Section 18.

19. **Force Majeure**. Any delays in, or failure of, performance or delivery by either Party shall not constitute default or give rise to any claims for damages, if and to the extent caused by acts of God; acts, rules or regulations of any governmental authority; strikes or other concerted acts of workers; fires, floods, storms, accidents, earthquakes, tidal waves or other natural disasters; epidemics, war, riots, rebellions, sabotages or insurrections; or any other similar circumstances beyond a Party's reasonable control.

20. **Governing Law; Forum**. This Agreement (including all matters arising out of or relating hereto) is governed by and shall be construed in accordance with the internal laws of the State of Iowa, without reference to any conflict of law doctrine, as if executed and fully performed therein. Any controversy or claim arising out of or relating to this Agreement, or the breach thereof, shall be settled by arbitration administered by the American Arbitration Association in accordance with its Commercial Arbitration Rules, and judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. Any such arbitration will take place in Carter Lake, Iowa in the United States; provided that the Parties may agree to telepresence. Notwithstanding the foregoing, the Parties may seek equitable remedies for violations of the intellectual property and proprietary rights and licenses set forth herein, and the Parties irrevocably agree that any such dispute, action or proceeding pertaining thereto must be instituted in the federal courts of the United States of America or the courts of the State of Iowa in each case located in Pottawattamie County, Iowa. Any legal action or proceeding with respect to or arising out of this Agreement that is not subject to the foregoing provisions shall be tried and litigated exclusively in the State and Federal courts located in the County of Pottawattamie, State of Iowa. Re: **Monterey County EV Charging Implementation Considerations**

Introduction

The purpose of this memorandum is to summarize ARC's findings from research into electric vehicle (EV) charging pricing and to provide information to support the County's decisions on how to manage and price their Level 2 and Direct Current Fast Chargers (DCFC) EV chargers.

As part of this effort, ARC researched Level 2 and DCFC consumer-facing pricing at existing chargers in Monterey County and reviewed how other government agencies structure their EV charging pricing. We also developed a Policy Decision Matrix outlining the management decisions the County will need to make regarding charger operation, and an EV Charging Pricing Tool to calculate the per-kWh price needed to break even under various cost recovery scenarios.

This report was developed to support the implementation of Level 2 and DCFC chargers at County Civic Center, Information Technology Department, and Natividad Medical Center in Spring 2026. The table below summarizes the EV Chargers being implemented.

Site	Address	# Dual-Port ChargePoint Level 2	# Single-Port ChargePoint Level 2	# Dual-Port FreeWire DCFC	Total Ports
County Civic Center	168 W Alisal St, Salinas, CA 93901	8	1	2	**21**
IT Department	1590 Moffett St, Salinas, CA 93905	6	0	0	**12**
Natividad Medical Center	1441 Constitution Blvd, Salinas, CA 93906	12	0	0	**24**

Understanding Pricing Norms

ARC surveyed Level 2 and DCFC EV charging prices at publicly available chargers in Monterey County, specifically looking at privately operated chargers in the City of Salinas, City of Monterey, and Carmel-by-the-Sea. We saw pricing for Level 2 chargers ranging from free to $0.50/kWh. Prices for DCFC generally ranged from $0.40/kWh to $0.80/kWh, often varying depending on the utility-defined time-of-use (TOU) period.

In researching the pricing of chargers operated by government agencies, ARC observed that Level 2 charger rates listed on agencies' websites generally fall between $0.25/kWh and $0.45/kWh. It should be noted that these rates were identified from publicly available websites and may not reflect formally adopted policies.

Below is a table with a sampling of Level 2 EV charging rates set by cities and counties in California.

Agency	Charger Type	Pricing Model	Rate(s)	Year Rate Set	Source
City of Goleta	L2	Per-kWh TOU	$0.25/kWh off-peak; $0.40/kWh peak	2023	City of Goleta Staff Report
City of Long Beach	L2	Per-kWh TOU	$0.28–$0.40/kWh (Varies by location and TOU)	Unknown	Government Website
City of San Jose	L2	Per-kWh TOU	$0.25-$.045 (Varies based on TOU)	2023	Government Website
City of Santa Barbara	L2	Per-kWh TOU	$0.37-$0.79/kWh (Varies based on TOU)	2026	Government Website
City of West Sacramento	L2	Per-kWh	$0.35/kWh	2023	Government Website
Santa Clara County	L2	Per-kWh	$0.20/kWh	Unknown	Government Website

ARC's research identified few examples of California cities or counties with publicly listed DCFC pricing on their websites. As with the Level 2 data, the DCFC rates identified are based on publicly available sources and may not reflect formally adopted policies.

Below is a table with three DCFC EV charging rates set by cities and counties in California.

Agency	Charger Type	Pricing Model	Rate(s)	Year Rate Set	Source
City of Santa Barbara	DCFC	Per-kWh TOU	$0.37-$0.79/kWh (Varies based on TOU)	2026	Government Website
City of Long Beach	DCFC	Per-kWh TOU	$0.30–$0.44/kWh (Varies by location and TOU)	Unknown	Government Website
City of West Sacramento	DCFC	Per-kWh	$0.45/kWh	2023	Government Website

EV Charging Pricing Tool

ARC developed an EV Charging Pricing Tool to calculate the price per kWh needed to offset costs associated with Level 2 and DCFC chargers. The tool has customizable inputs and allows the County to decide which cost categories to include in its pricing calculation.

The cost categories in the tool are:

- **Cost of energy**: ARC calculated the per-kWh rate of the energy costs associated with operating the EV chargers at each site. This rate reflects two components: the residual cost of utility energy after accounting for on-site solar generation, and the estimated cost of the solar-generated energy itself, based on the levelized cost of energy produced by the solar system.
- **Cost of management software for Level 2 Chargers**: Opterra will cover the cost of ChargePoint Cloud for the Level 2 chargers for the first five years. ARC modeled scenarios both with and without this cost included. Where included, the annual cost was estimated at $1,040 per charger, based on a quote Monterey County received from ChargePoint on February 26, 2025.

- **Cost of management software for DCFC Chargers**: The cost was quoted at $5,400 per port for ChargePoint Cloud for DCFC (5-year prepaid plan) by Rexel Energy Solutions on March 13, 2026. This averages out to $1,080 per year per port.
- **Cost of maintenance plan for Level 2 Chargers**: On March 13, 2026, Rexel Energy Solutions quoted a cost of $1,700 per charger for ChargePoint Assure for five years of service. This averages out to $340 per year per charger.
- **Cost of maintenance plan for DCFC Chargers:** ChargePoint Assure is not available for FreeWire chargers. We have not found a maintenance plan for the DCFC Chargers. The FreeWire Technologies California Energy Commission Rural EV Charging Grant Monterey County Proposal dated September 30, 2022 quotes a 3-Year-On-Site Warranty for FreeWire Boost charger at $27,350. We used this number to estimate the annual cost of a maintenance plan for DCFC chargers to be $9,117 per year per charger.
- **Cost of Level 2 charger replacement**: We estimated the equipment cost of replacement to be $8,000 per unit. Smart Charge America currently lists the ChargePoint CP6000 at $7,899. We also found ChargePoint CP6000 chargers listed online for $8,000 to $10,000. We estimate the chargers will last roughly 10 years. Therefore, the cost of future replacement averages out to $800 per year per charger. This estimate does not include installation.
- **Cost of DCFC charger replacement**: The FreeWire Technologies California Energy Commission Rural EV Charging Grant Monterey County Proposal dated September 30, 2022 quotes the cost of a FreeWire Boost Charger to be $135,000. We used this number to estimate the equipment replacement cost of the proposed FreeWire chargers to be $135,000. We estimate the chargers will last roughly 10 years. Therefore, the cost of future replacement averages out to $13,500 per year per charger. This estimate does not include installation.

The conversion kit needed to configure the FreeWire chargers on ChargePoint's network and make them compatible with ChargePoint Cloud was quoted at $200 per port by Rexel Energy Solutions on March 13, 2026. This was not included in the EV Charging Pricing Tool.

One sensitive input in the EV Charging Pricing Tool is expected charger utilization, which encompasses both the number of days per year chargers are in use and the average kWh consumed per day. Because this represents the County's first large-scale deployment of paid EV chargers, utilization is difficult to predict. The scenarios below assume 250 days of use per year, approximately the number of working days at ITD and CCC, and 60 kWh per day for Level 2 chargers. This assumption is based on the Level 2 charging speed of 5–8 kW; ten hours of continuous charging would yield between 50 and 80 kWh. As a starting point, we assumed the DCFC chargers would use 145 kWh per day. As the County begins collecting actual utilization data after deployment, these inputs can be updated to refine the pricing model. The County is encouraged to use the tool to test alternative assumptions and observe their effect on the break-even price.

The EV Charging Pricing Tool is included as a deliverable with this memo and can also be accessed on Box here.

Cost Recovery Scenarios

ARC modeled cost recovery scenarios to calculate what charging rate was needed to offset costs associated with the Level 2 and DCFC EV chargers. For the Level 2 scenarios, the break-even price was calculated for each site, County Civic Center (CCC), Information Technology Department (ITD), and Natividad Medical Center (NMC) and as an average across the portfolio.

Level 2 Cost Recovery Scenarios

For the Level 2 chargers, we looked at what rate a customer would need to be charged to offset annual costs ($/kWh) with and without incorporating costs associated with ChargePoint Cloud.

In Level 2 Scenario One, we incorporated all the costs discussed above. This includes the cost of energy, ChargePoint Cloud, ChargePoint Assure, and an estimated replacement budget. In this scenario, the charging rate needed to offset annual costs ($/kWh) was $0.4965 for CCC, $0.4002 for ITD, and $0.3894 for NMC. The average rate was $0.4311.

In Level 2 Scenario Two, we incorporated all the costs in Scenario One except ChargePoint Cloud because that is being paid by Opterra for the first five years. In Scenario Two, the charging rate needed to offset annual costs ($/kWh) was $0.4202 for CCC, $0.3239 for ITD, and $0.3131 for NMC. The average rate was $0.3548.

DCFC Cost Recovery Scenarios

For the DCFC chargers, we looked at what charging rate was needed to offset annual costs ($/kWh) with and without incorporating costs associated with replacing the chargers.

In DCFC Scenario One, we incorporated all the costs in Level 2 Scenario One, above. This includes the cost of energy, ChargePoint Cloud, an estimated cost of a maintenance plan, and an estimated replacement budget. The resulting rate needed to offset annual costs ($/kWh) for the DCFC chargers at County Civic Center was $0.7524.

In DCFC Scenario Two, we incorporated all the costs in Scenario One except replacement of the FreeWire chargers. The resulting rate needed to offset annual costs ($/kWh) for the DCFC chargers at County Civic Center, when excluding equipment replacement, was $0.5475.

Policy Decision Matrix

In addition to pricing, the County will need to make a series of management decisions governing how the chargers operate.

The configurable parameters include:

- **Energy Rate** — charge per kWh of energy delivered
- **Station Time Rate** — charge based on the duration the vehicle is plugged in
- **Overstay Rate** — charge for time after the session time limit is exceeded, the vehicle stops charging, or the battery is full

- **Minimum Fee Per Session** — floor on the total charge per session
- **Maximum Fee Per Session** — ceiling on the total charge per session
- **Flat Fee Per Session** — a fixed fee charged regardless of energy consumed or time plugged in
- **Hours of Availability** — designated times and dates during which chargers are accessible
- **Reservations** — option to allow drivers to reserve chargers in advance
- **Waitlist** — virtual queue that holds a charger for the next driver in line for a set period after it becomes available
- **Visibility** — whether chargers are listed publicly on the ChargePoint network map
- **Usability** — whether chargers are open to the general public or restricted to a pre-designated driver group
- **RFID Cards** — issuance of RFID cards to allow vehicles to charge for free and to track energy use by vehicle

The table below outlines ARC's understanding of the County's policy preferences based on initial conversations with staff. These parameters can be configured through the ChargePoint online platform and adjusted over time as the County gains experience with the chargers.

The Policy Decision Matrix is included as a deliverable with this memo and can also be accessed on Box here.

Conclusion

This memorandum, along with the accompanying EV Charging Pricing Tool and Policy Decision Matrix, is intended to equip Monterey County with the information needed to make informed decisions about how to manage and price its new EV charging infrastructure.

Because this is the County's first large-scale deployment of paid EV chargers, some uncertainty remains — particularly around utilization. ARC encourages the County to revisit its pricing and policy settings over time as real-world data becomes available.

a. Renew approval and adoption of teleconferencing for all County of Monterey Eligible Subsidiary Bodies pursuant to Government Code section 54953.8.6.

RECOMMENDATION:
It is recommended that the Board of Supervisors: Renew approval and adoption of teleconferencing for all County of Monterey Eligible Subsidiary Bodies pursuant to Government Code section 54953.8.6.

SUMMARY:
Senate Bill 707, signed into law in October 2025 and known as the Brown Act Modernization Act, updated California's Ralph M. Brown Act (Gov. Code § 54950 et seq.) to modernize open meeting requirements and expand public access. This law added teleconferencing rules for specific Brown Act Legislative Bodies, such as Eligible Subsidiary Bodies. Pursuant to section 54953.8.6, the Board of Supervisors must adopt a resolution before an Eligible Subsidiary Body may teleconference using this Government Code section. The law also requires the Board of supervisors to readopt a resolution every six months thereafter.

DISCUSSION:
Government Code section 54953.8.6, as added by Senate Bill 707 (the Brown Act Modernization Act) defines Eligible Subsidiary Bodies as a Legislative Body exclusively serving in an advisory capacity and takes no final action on matters such as legislation, contracts, permits, entitlements, grants, or fund allocations. Further, Eligible Subsidiary Body specifically excludes Legislative Bodies with primary jurisdiction over sensitive topics like elections, budgets, police oversight, privacy, library access restrictions, or taxes/spending. Section 54953.8.6 allows Eligible Subsidiary Bodies to conduct meetings via teleconference, subject to specific requirements. These requirements include designating at least one physical location within the parent legislative body's boundaries for in-person attendance by members of the public (with staff present), requiring remote Eligible Subsidiary Body members to appear on camera and audio, and obtaining necessary findings and approvals.
The parent legislative body, the Monterey County Board of Supervisors, initially approved and authorized all County Eligible Subsidiary Bodies to utilize this teleconferencing option on **January 13,**

2026. Statutorily, the Board of Supervisors must renew a resolution every six months to perpetuate this option to its Eligible Subsidiary Bodies. Therefore, today's action is necessary to continue this teleconferencing option and an identical item must come to the Board on or before six months from today's approval.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Eligible Subsidiary Bodies have coordinated with the Office of County Counsel where appropriate.

FINANCING:
There is no known cost for implementing Eligible Subsidiary Body teleconferencing, aside from staff time to prepare this item.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
Attract, retain, and diversify Eligibility Subsidiary Body membership.

RECOMMENDATION:

It is recommended that the Board of Supervisors:

a. Approve and authorize the Housing and Community Development Director or designee to execute Amendment No.2 to Professional Services Agreement (PSA) A-16313 with Denise Duffy and Associates, Inc., to provide planning and environmental services for the East Garrison Specific Plan and Combined Development Permit Amendment (PLN030204-AMD2, as extended by PLN030204-AMD2-EXT1) to extend the Agreement two years to June 30, 2028, without change to the scope of work, other terms of the Agreement, or to the Agreement amount of $309,298;

Approve and authorize the Housing and Community Development Director or designee to execute Amendment No. 2 to Funding Agreement (FA) A-16313 with UCP East Garrison, LLC, the Master Developer for the East Garrison Project to provide funding for the Project to extend the Agreement two years to June 30, 2028, without change to the scope of work, , other terms of the Agreement, or to the Agreement amount of $402,088;
c. Authorize the Housing and Community Development Director or designee to execute future amendments where the amendments do not significantly alter the scope of work or change the approved Agreement amount by more than 10% ($30,930 for PSA, $40,209 for FA), subject to review by County Counsel.

SUMMARY:

On June 25, 2024, the final phase of the East Garrison Project ("Project") was approved by the Board of Supervisors ("Board"), and on June 30, 2024, the Funding and Professional Services Agreements ("FA" and "PSA") expired upon their own terms. On May 13, 2025, FA and PSA A-16313 were approved by the Board for renewal and amendment to extend the term date to June 30, 2026. The Agreements were executed May 18, 2025, and May 20, 2025, respectively.

DISCUSSION:
As a result of the approval of the renewal and amendment on May 13, 2025, condition compliance monitoring was required. Denise Duffy and Associates, Inc., (DD&A) previously provided planning support and conducted the environmental review of the Project (PLN040203-AMD2). With the goal of streamlining compliance, County staff are continuing DD&A's involvement to meet condition compliance requirements.

Approval and authorization to extend the terms of the Agreements two years will provide additional time to meet Project compliance and move forward toward Project completion.

OTHER AGENCY INVOLVEMENT:
The Offices of the County Counsel and the Auditor-Controller have reviewed Amendments No.2 to the FA and PSA as to form and legality, and fiscal provisions, respectively.

FINANCING:
There are no costs to the General Fund because of this action. Staff costs to manage the contracts and professional services provided by DD&A will be funded by the Project Applicant through the FA in the amount of $402,087.40. Staff time for processing the environmental review will be charged at the billing rate established by the Department's fee article.

BOARD OF SUPERVISORS STRATEGIC:
Amendments No. 2 to the FA and PSA support the Board's Strategic Initiative for Well-Being and Quality of Life and Sustainable Infrastructure for the Present and Future by facilitating the construction of the remaining rental housing, parks, and open space at East Garrison.

SUMMARY:

On June 25, 2024, the final phase of the East Garrison Project ("Project") was approved by the Board of Supervisors ("Board"), and on June 30, 2024, the Funding and Professional Services Agreements ("FA" and "PSA") expired upon their own terms. On May 13, 2025, FA and PSA A-16313 were approved by the Board for renewal and amendment to extend the term date to June 30, 2026. The Agreements were executed May 18, 2025, and May 20, 2025, respectively.

DISCUSSION:
As a result of the approval of the renewal and amendment on May 13, 2025, condition compliance monitoring was required. Denise Duffy and Associates, Inc., (DD&A) previously provided planning support and conducted the environmental review of the Project (PLN040203-AMD2). With the goal of streamlining compliance, County staff are continuing DD&A's involvement to meet condition compliance requirements.

Approval and authorization to extend the terms of the Agreements two years will provide additional time to meet Project compliance and move forward toward Project completion.

OTHER AGENCY INVOLVEMENT:
The Offices of the County Counsel and the Auditor-Controller have reviewed Amendments No.2 to the FA and PSA as to form and legality, and fiscal provisions, respectively.

FINANCING:
There are no costs to the General Fund because of this action. Staff costs to manage the contracts and professional services provided by DD&A will be funded by the Project Applicant through the FA in the amount of $402,087.40. Staff time for processing the environmental review will be charged at the billing rate established by the Department's fee article.

BOARD OF SUPERVISORS STRATEGIC:
Amendments No. 2 to the FA and PSA support the Board's Strategic Initiative for Well-Being and Quality of Life and Sustainable Infrastructure for the Present and Future by facilitating the construction of the remaining rental housing, parks, and open space at East Garrison.

WHEREAS, the County has an ongoing need for services;

WHEREAS, certain provisions of the Agreement require updating; and

NOW, THEREFORE, the Parties wish to extend the term of the Agreement two (2) years to June 30, 2028, to allow CONTRACTOR to continue to provide services and update the Agreement's provisions.

1. Amend the first sentence of Section 3, "Term of Agreement," to read as follows:

   The term of this Agreement is from <u>May 22, 2023,</u> to <u>June 30, 2028,</u> unless sooner terminated pursuant to the terms of this Agreement.

2. Amend paragraph titled "Auto Liability Coverage," of subparagraph 9.03, "Insurance Coverage Requirements," of Section 9.0, "Insurance," to read in its entirety as follows:

Docusign Envelope ID: 1F893092-2896-8A26-8106-29A568F8CEDF

Must include all motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

(Note: Any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

3. Amend paragraph titled "Additional Insured Status," of subparagraph 9.04, "Other Requirements," of Section 9.0, "Insurance Requirements," to read in its entirety as follows:

   The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the CONTRACTOR. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR's insurance.

   The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38, and CG 20 37 if a later edition is used).

4. Amend paragraph titled "Primary Coverage," of subparagraph 9.04, "Other Requirements," of Section 9.0, "Insurance Requirements," to read in its entirety as follows:

   Primary Coverage: For any claims related to this contract, the CONTRACTOR's insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR's insurance and shall not contribute with it. County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's Contract Administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County annual certificates to the County's Contract Administrator and the County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, the County shall notify the CONTRACTOR and CONTRACTOR shall have five (5) calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles the County, at its sole discretion, to terminate this Agreement immediately.

CONTRACTOR bears the burden to deliver Deliverables, such as Adobe Acrobat Portable Document Format ("PDF") and Microsoft Office files, complying with WCAG 2.1. CONTRACTOR shall defend and indemnify the County against any breach of this Section. This Section shall survive the termination of this Agreement. Find more on Accessibility at this State website: https://webstandards.ca.gov/accessibility/.

7. Amend subparagraph 16.16, "Independent Contractor Compliance with Government Code Section 1097.6(c)," of Section 16, "Miscellaneous Provisions," to read in its entirety as follows:

   This section applies to those situations when a contractor/consultant is awarded a Contract for a preliminary phase of a project, with future phases to be bid separately.

Docusign Envelope ID: 1F893092-2896-8A26-8106-29A568F8CEDF

This section does not apply to those situations when a Contract is awarded for multiple phases of a project under a single contract/proposal. When applicable, and as described below, contractor/consultant's duties and services under this agreement shall not include preparing or assisting the public entity with any portion of the public entity's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the public entity. The public entity entering this agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of this project. Contractor/consultant's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. FUNDING AGREEMENT
FOR THE
EAST GARRISON PROJECT FINAL PHASE AMENDMENT APPLICATION PROCESSING AND ENVIRONMENTAL REVIEW

THIS FUNDING AGREEMENT ("AGREEMENT") is made and entered into by and between the County of Monterey, a political subdivision of the State of California ("County") and UCP East Garrison, LLC, a Delaware limited liability company, the Master Developer for the East Garrison Project, ("PROJECT APPLICANT") (collectively, the "Parties") and effective as of the date the Board of Supervisors approves the AGREEMENT and with reference to the following facts and circumstances:

RECITALS

A. On October 4, 2005, the Board of Supervisors approved a Combined Development Permit (PLN030204) allowing the development of the East Garrison Project, a mixed-use residential development consisting of up to 1,470 dwelling units.

B. To date, East Garrison has developed into a community consisting of 994 homes with supporting infrastructure and public improvements, including: 808 market-rate units; 65 affordable apartments (very low and low-income); 51 moderate-income units; 70 work force II units; fire station with community room; and approximately 37 acres of community, neighborhood and dog parks, open space and trails.

C. Citing differences in the current development environment now compared to 2005 when the East Garrison Project was approved, the PROJECT APPLICANT prepared a Final Phase Concept that proposes changes to the East Garrison Project that include co-locating the Phase Three Affordable Rental Housing Project with the Town Center and modifying the remaining housing unit mix and locations, with an expressed goal to enable the development to be completed in a timely manner and to help expedite the implementation of the remaining development while respecting the goals and intent of the original vision.

D. On January 24, 2023, the Board of Supervisors received a presentation by the PROJECT APPLICANT the East Garrison Final Phase Concept Proposal.

E. At its January 24, 2023, meeting, the Board of Supervisors directed staff to assign high priority to the East Garrison Final Phase application, once submitted to the County, and expedite permit processing with cost recovery funded by the Master Developer.

F. The County and PROJECT APPLICANT are interested in expeditiously bringing the East Garrison Final Phase application forward to the Board of Supervisors for consideration, and recognize that in doing so it is possible that there may be times when in order for County staff to dedicate necessary time to expedite this application, the County may require additional outside consultant services be retained to ensure other applications in queue for County review that are directly impacted by redirected staff time to this application continue to progress in a timely manner.

G. PROJECT APPLICANT requests the County to contract with a qualified planning and environmental consultant to provide additional application process and environmental

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

support services necessary to timely expedite reviewing and processing the application including, preparing CEQA documentation.

H. The Parties agree that it is necessary and desirable that the County engage Denise Duffy & Associates, Inc., ("CONTRACTOR") to provide application review, processing, and environmental review services. CONTRACTOR shall perform the Scope of Work specified in the Professional Services Agreement ("PSA") between the County and CONTRACTOR, attached to this AGREEMENT as "Exhibit 1" and incorporated herein by reference. The County shall manage the Project work performed by CONTRACTOR.

I. The Parties hereby agree that the County shall engage CONTRACTOR to provide the services set forth in "Exhibit 1" of this AGREEMENT.

J. A fundamental premise of this AGREEMENT is that nothing herein is to be construed as a representation, promise, or commitment on the part of the County to give special treatment to, or exercise its discretion favorably for, the Project in exchange for PROJECT APPLICANT's obligation to cover the County's costs of retaining CONTRACTOR and providing County staff to work on the Project; but instead it is the County's intent to expedite review and processing of the East Garrison Final Phase application.

K. The subject matter of this AGREEMENT is PROJECT APPLICANT'S funding of the CONTRACTOR's services on the Project. This AGREEMENT also covers the County fee for project management, contract administration and work associated with processing the Project application. This AGREEMENT further covers PROJECT APPLICANT's funding of additional contract services, if the County, in order to dedicate necessary staff time to expedite this application, requires additional outside consultant services be retained to ensure other applications in queue for County review that are directly impacted by redirected staff time to this application continue to progress in a timely manner.

L. Entering into this Funding Agreement is a Statutorily Exempt action pursuant to Section 15262 of the CEQA Guidelines as an early discussion on possible future actions that do not involve a commitment to a project. Future amendments to the East Garrison development approvals and agreements will require a CEQA determination prior to consideration.

M. The Parties make this AGREEMENT with full knowledge of the requirements of state and local law, including, but not limited to the CEQA (Public Resources Code Section 21000 *et seq*.) and the State CEQA Guidelines (California Code of Regulations Title 14, Section 15000 *et seq*., "Guidelines") and the Monterey County Code.

CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02. CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03. CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6. PAYMENT CONDITIONS.

6.02. CONTRACTOR shall not receive reimbursement for travel expenses unless set forth in this Agreement.

7. TERMINATION.

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

"Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

If there is any conflict between the terms, provisions or application of this Indemnification Agreement and the provisions of California Civil Code sections 2782 or 2782.8, the broadest indemnity protection for County under this Indemnity Agreement that is permitted by law shall be provided by CONTRACTOR.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five (5) calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

EXHIBIT A – SCOPE OF WORK/PAYMENT PROVISIONS

To Agreement by and between
County of Monterey, hereinafter referred to as "County"
and
Denise Duffy & Associates, Inc., hereinafter referred to as "CONTRACTOR"

A. SCOPE OF SERVICES

CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work as set forth below:

PHASE I – Application Coordination and Review

A.1 CONTRACTOR shall perform an application completeness review for the Proposed Project and work with County staff to thoroughly review materials provided by the Applicant to make a determination on the application's completeness consisting of the following two tasks.

A.1.1 Project Initiation/Initial Application Review: CONTRACTOR shall participate in the following tasks:

1) Kick-off meeting with the County and project team to collect relevant project background and site information.
2) Field review of the project site.
3) Review of existing entitlements (including conditions of approval) and the previously adopted Environmental Impact Report (EIR).
4) Coordination of an inter-agency review meeting to facilitate review of application materials.
5) Determine completeness of the project application.
6) Prepare and issue a letter to the Applicant specifying whether their application is considered complete or incomplete, within 30 days of filing of the application. An incomplete letter shall specify all materials necessary for a complete application.

A.1.2 Incomplete Application/Final Application Review/Completeness Letter: This scope of work assumes that the initial application submittal would require revisions and would initially be deemed incomplete. In this event, CONTRACTOR shall:

1) Review resubmitted application materials.
2) Coordinate with County agencies and departments to resolve incomplete items.
3) Prepare and issue a letter to the Applicant advising their application is complete. This task assumes that only one round of revisions would be

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

required before the application is deemed complete. Additional rounds of review would be billed on a time and material basis.

4) CONTRACTOR shall complete a thorough review of the Applicant-prepared technical documentation to ensure there is sufficient detail to support the CEQA analysis (see Task A.3), identify outstanding items, and establish the schedule for completion of the Proposed Project.

A.2 CONTRACTOR shall assist the County with finalizing the completed application identified in A.1 and A.2. This will include:

A.2.1 CONTRACTOR shall work with the County to ensure all completed application materials are uploaded and appropriately tagged and described in Accela.

A.2.2 CONTRACTOR shall prepare a planning analysis of the completed application.

A.2.3 CONTRACTOR shall prepare and provide project conditions and mitigations to County.

PHASE II – Environmental Documentation

A.3 CONTRACTOR shall prepare the CEQA documentation for the Proposed Project in accordance with CEQA and Monterey County procedures consisting of the following tasks.

A.3.1 Determine Appropriate Level of CEQA Documentation:
CONTRACTOR shall work with County staff to determine the appropriate level and type of CEQA documentation required for the Proposed Project. This determination would be based on the available background materials, including previous CEQA documentation for the project site and other details related to the Proposed Project.

CONTRACTOR assumes that an EIR Addendum to the East Garrison Specific Plan Subsequent EIR would be the appropriate level of CEQA review for the Proposed Project.

CONTRACTOR has included an optional task in this scope of work describing additional tasks and costs in the event the County determines that a Supplemental EIR ("SEIR") is the appropriate level of documentation for the Proposed Project.

A.3.2 Administrative Draft EIR Addendum:

1) CONTRACTOR shall provide an electronic copy of the Administrative Draft EIR Addendum to the County for review and comment. The document shall contain the following mandated sections:

   A. Introduction. The introduction section would briefly describe the Proposed Project. The introduction would include an overview of the

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

Proposed Project and a summary of the previous CEQA document(s) applicable to the EIR Addendum. The introduction will also include an overview of the CEQA regulations as they pertain to EIR addendums.

B. Project Description. The EIR Addendum would provide a detailed description of the Proposed Project based on information provided by the County and the Applicant. The project description would include the regional and vicinity location, project objectives, any existing improvements on the site, and relevant site and vicinity history. The project description would also provide background on the previously approved environmental documentation and how the Proposed Project differs from what was originally approved. This section would include site plans, photographs, and other graphics depicting all aspects of the project, including the following: 1) grading and engineering characteristics; 2) development drawings (including site plans, floor plans, and elevations); 3) infrastructure improvements (on-site and off-site, as appropriate); and 4) landscaping and design features. The project would be described in terms of its technical, economic and environmental characteristics. The project description also would identify intended uses of the EIR Addendum.

C. Environmental Setting, Impacts, and Mitigation. The topics proposed for analysis in the EIR Addendum are anticipated to include, but are not limited to, aesthetics, geology, soils and drainage, hydrology and groundwater supply system, water quality, air quality/climate change, biological resources, land use and planning, transportation/circulation/traffic analysis, wastewater disposal and treatment, hazardous materials, public services recreation and noise. Each resource section would be separately analyzed in the EIR Addendum and, where appropriate, mitigation measures would be identified to lessen project-related effects to a less-than-significant level. For the purposes of this scope of work, CONTRACTOR assumes that all technical reports provided as part of the application process under Task A.1 would be of sufficient content and quality to provide the basis for the air quality, biological resources, cultural resources, geology and soils, hazards and hazardous materials hydrology, noise, transportation, and water supply sections of the EIR Addendum. For each environmental topic, the EIR Addendum would include a discussion of existing conditions and would identify potential environmental impacts of the project using significance criteria (i.e., thresholds of significance) to determine the level of impact for each identified issue compared to the findings of the East Garrison Specific Plan Subsequent EIR. The project impact section would present new potentially significant impacts and identify mitigation which avoids or

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

reduces new or greater impacts to a less-than-significant level where feasible.

D. Graphics. CONTRACTOR shall prepare appropriate graphics and tables to present the environmental analysis.

E. References/List of Preparers. CONTRACTOR shall identify all sources used as a reference in the EIR Addendum, as well as a listing of all persons involved in the preparation or otherwise contacted during the preparation of the document.

The Administrative Draft EIR Addendum will address all issue areas identified in the most current version of the CEQA Guidelines Appendix G Environmental Checklist Form (2023). The key areas of analysis for the Proposed Project Administrative Draft EIR Addendum are summarized below.

Aesthetics: The Administrative Draft EIR Addendum will describe the existing visual characteristics of the Proposed Project. The Administrative Draft EIR Addendum will evaluate the visual effects of the Proposed Project, including design changes (colors, building materials, elevations, etc.) compared to the previously approved project, and its consistency with all applicable Monterey County General Plan policies, zoning requirements, and design guidelines.

Air Quality: Build-out of the Proposed Project could result in temporary air quality impacts during construction and permanent air quality impacts during operation, as well as cumulative air quality impacts. The Administrative Draft EIR Addendum will summarize the results of the updated Air Quality Analysis *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Biological Resources: Implementation of the Proposed Project could, directly and indirectly, affect biological resources. The Administrative Draft EIR Addendum will summarize the results of the updated Biological Assessment *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required. This scope of work does not include a peer review of the Biological Assessment.

Cultural & Tribal Cultural Resources: The Administrative Draft EIR Addendum will evaluate the potential effects to cultural resources based on the available data and records. The Administrative Draft EIR Addendum will summarize the results of the updated Historical Resources Assessment and the Cultural Resources Assessment *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required. This scope of work does not include a peer review of the updated historical resources assessment or the cultural resources assessment. The Administrative

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

Draft EIR Addendum will also summarize the results of AB 52 outreach conducted by the County.

Energy: The Administrative Draft EIR Addendum will evaluate the potential impacts related to construction-phase and operational-phase energy used as a result of the Proposed Project. The energy analysis would be based, in part, on the updated Air Quality Analysis *to be provided by the Applicant as part of Task A.1*. Mitigation measures would be identified as applicable to reduce impacts to a less-than-significant level.

Geology and Soils: Construction of the Proposed Project could result in impacts related to the geological conditions of the site. The Administrative Draft EIR Addendum will summarize the results of the updated Geotechnical Exploration *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Greenhouse Gas Emissions: Construction and operation of the Proposed Project could result in an overall increase in greenhouse gas (GHG) emissions compared to existing conditions. The Administrative Draft EIR Addendum will summarize the results of GHG emissions modeling provided in the updated Air Quality Analysis *to be provided by the Applicant as part of Task A.1.* CONTRACTOR will compare the modeled GHG emissions against adopted air quality management plans and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Hazards and Hazardous Materials: The Proposed Project would be located on the former Fort Ord Military base. Prior military use in the project area has the potential to expose future site occupants and construction personnel to residual hazardous materials or other hazards. The Proposed Project would relocate residential uses to areas previously analyzed for commercial use or vehicle parking. The Administrative Draft EIR Addendum will evaluate potential impacts related to hazards and/or hazardous materials based on an updated hazards analysis (assumed to be a Phase I Environmental Site Assessment or equivalent document) *to be provided by the Applicant as part of Task A.1.*

Hydrology and Water Quality: The Administrative Draft EIR Addendum will evaluate the Proposed Project's hydrology and water quality effects. The Administrative Draft EIR Addendum will identify local and regional programs for the maintenance of water quality and the Proposed Project's adherence to these programs. The Administrative Draft EIR Addendum will summarize the results of the updated Hydrological Report *to be provided by Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

Land Use/Consistency with Plans: The Administrative Draft EIR Addendum will review all applicable land use plans, the Monterey County General Plan, as well as all applicable policies and regulations to determine whether the Proposed Project would conflict with any of those adopted to avoid or mitigate an environmental impact.

Noise: The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in noise impacts. The Administrative Draft EIR Addendum will evaluate construction and operational noise impacts as a result of the Proposed Project, as well as cumulative noise impacts. The Administrative Draft EIR Addendum will summarize the results of the updated Noise Impact Analysis *to be provided by Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Population and Housing: The Proposed Project includes 254 two to three story compact homes and rowhouses compared to the approved project. The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in population increases as a result of the additional housing units. Mitigation measures would be identified, as appropriate, to reduce any impacts to a less than significant level.

Transportation: The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in transportation impacts. The Administrative Draft EIR Addendum will evaluate construction and operational transportation impacts as a result of increased vehicle trips associated with the Proposed Project, as well as cumulative transportation impacts. This will include a VMT analysis to comply with the most recent CEQA thresholds. The Administrative Draft EIR Addendum will summarize the results of the updated Traffic Impact Study *to be provided by Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Utilities: The Proposed Project includes 254 two to three story compact homes and rowhouses compared to the approved project, which could result in increased impacts on utility providers, specifically for potable water. The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in increased impacts to utilities as a result of the Proposed Project. The Administrative Draft EIR Addendum will summarize the results of the updated Water Supply Assessment *to be provided by Applicant as part of Task A.1.* Mitigation measures would be identified, as appropriate, to reduce any impacts to a less than significant level.

Other CEQA Requirements: The Administrative Draft EIR Addendum also will address all other CEQA-required issues, including agricultural resources, mineral resources, public services, wildfire, and references.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

This scope of work does not include production of any hardcopies of the Administrative Draft EIR Addendum.

A.3.3 Revise Administrative Draft EIR Addendum:
CONTRACTOR shall revise the Administrative Draft EIR Addendum based on comments received from the County. This scope assumes no more than one (1) round of comments. CONTRACTOR shall provide to the County an electronic copy of the revised Administrative Draft EIR Addendum.

A.3.4 Mitigation Monitoring and Reporting Program:
CONTRACTOR shall prepare a Mitigation Monitoring and Reporting Plan ("MMRP"). Mitigation measures recommended for those impacts, as identified in the EIR Addendum would be summarized in the MMRP, along with responsibility for implementation, timing of implementation, and oversight responsibility. This scope of work does not include production of any hardcopies of the EIR Addendum or MMRP.

A.3.5 Finalize Conditions and Mitigation in Accela:
CONTRACTOR shall update the Accela file for the Proposed Project with the completed environmental documentation and update conditions and mitigation measures to reflect the MMRP prepared under Task 3e.

Optional Tasks – Preparation of Supplemental EIR

OPT 3 Prepare Supplemental EIR. In the event that CONTRACTOR and County determine that a Supplemental EIR (SEIR) is the appropriate level of environmental documentation and written authorization is provided by County, CONTRACTOR shall prepare the SEIR for the Proposed Project in accordance with CEQA and Monterey County procedures. This effort would consist of the following tasks, in addition to the tasks described in A.3.2 Administrative Draft EIR Addendum:

Optional Task 3a: Notice of Preparation and Participate in Scoping Meeting:
CONTRACTOR shall prepare the Notice of Preparation ("NOP") for the Proposed Project in accordance with CEQA and Monterey County procedures. The NOP will be electronically submitted in draft form to the County, Applicant, and other members of the project team, as appropriate, for review and comment prior to public distribution. The NOP will include a brief project description (including figures) and identification of potential environmental impacts in accordance with CEQA Guidelines §15082.

CONTRACTOR shall prepare drafts of the required notices for review and comment (i.e., Notice of Completion and Summary Form for State Clearinghouse submission). Upon receipt of comments, CONTRACTOR will revise the NOP and notices and electronically submit a final version to the County for distribution. This task assumes that the County will be responsible for distribution and noticing. The NOP would circulate for a review period of not less than 30 days.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

During the course of the 30-day NOP public comment period (see CEQA Guidelines §15082 and §15375), CONTRACTOR shall attend and participate in one (1) public scoping hearing. This task will include the preparation of presentation materials, including a PowerPoint presentation, agenda, comment cards, and other materials that may be required. CONTRACTOR shall be responsible for providing a brief presentation on the nature of the scoping meeting and the general requirements of CEQA, including an overview of the environmental process and anticipated project impacts. All comments received at the scoping meeting and during the NOP comment period will be used to determine the appropriate scope of environmental analysis contained in the SEIR. This task assumes the County will be present at the scoping meeting to facilitate and participate in presenting information about the Proposed Project.

CONTRACTOR shall prepare a summary of the scoping meeting comments at the conclusion of the NOP public comment period to be provided to the County, Applicant, and other members of the project team, as appropriate. The summary of comments will be presented in table format, listing the environmental topics and issues specified in each comment letter. Comments on technical issue areas would also be forwarded to the Applicant's technical consultants for their analyses of identified environmental concerns.

Optional Task 3b: Prepare Administrative Draft SEIR: CONTRACTOR shall modify Task 3b to include the following additional mandated sections associated with preparation of an SEIR:

A. Executive Summary. The executive summary section would be included in the SEIR to briefly describe the Proposed Project and to provide a summary of all potential impacts and recommended mitigation measures identified in the SEIR. The summary also would identify areas of controversy and project alternatives evaluated in the SEIR. The impacts and conditions presented in the previous EIR will serve as the primary base of comparison for the analysis.

   CONTRACTOR will prepare updated setting sections and conditions, refined from the existing EIR to focus on the issue areas specific to the Proposed Project. In addition, the SEIR would identify whether the Proposed Project would result in new Long-Term, Cumulative, or Irreversible impacts compared to the findings of the East Garrison Specific Plan Subsequent EIR. It also would identify any Growth Inducing effects of the project.

B. Cumulative Impacts. In accordance with CEQA requirements, the SEIR would analyze potentially significant cumulative impacts anticipated from development of the project combined with past, present, and reasonably foreseeable future projects in the County and project vicinity. The analysis would be based on a list of proposed or anticipated projects in the area, which would be provided by the County.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

C. Alternatives to the Proposed Project. In accordance with CEQA, the SEIR would need to address a reasonable range of alternatives to the Proposed Project that could feasibly meet the project objectives and potentially avoid or lessen any new significant environmental impacts associated with the project.

CONTRACTOR shall consult with County staff and the Applicant to determine up to three (3) feasible alternatives. All alternatives would be discussed both quantitatively and qualitatively in terms of their impacts and their effectiveness in addressing identified significant adverse project impacts. This section would identify and discuss the alternative deemed to be environmentally superior pursuant to the requirements of CEQA §15126.6(e)(2). This evaluation would be based on a comparative analysis of the recommended alternatives.

D. Other CEQA-Required Sections. The major environmental issues to be addressed in the EIR are described above. In addition to these and the remaining CEQA checklist environmental topics, the SEIR would include other CEQA-required sections as follows: Growth-Inducing Impacts, Significant Unavoidable Impacts, and Irreversible Effects.

Optional Task 3c: Prepare Public Circulation SEIR. CONTRACTOR will provide an electronic copy of the Public Circulation Draft SEIR to the County upon final review and authorization of the document by the County. This scope assumes that the County, as the CEQA Lead Agency, will be responsible for coordinating the distribution and publication of the Public Circulation Draft SEIR. This scope of work does not include production of any hardcopies of the Public Circulation Draft SEIR.

Optional Task 3d: Prepare Final SEIR. CONTRACTOR will assist County staff with responding to public comments within four weeks after receipt of all public comments, following conclusion of the 45-day review period for the Public Circulation Draft SEIR.

CONTRACTOR will prepare a Final SEIR containing all public comments received and responses to each comment that raises a substantive environmental issue. In addition, the Final SEIR will contain a section showing text edits to the Public Draft SEIR in response to comments received, as appropriate. This scope assumes a minimal number of public comments will be received and that no more than one (1) round of comments from the County will be necessary.

PHASE III – Project Approval Hearings and Internal Coordination Meetings

A.4 Planning Commission Hearing. CONTRACTOR shall, following completion of the EIR Addendum, assist the County in preparing the necessary items for the Planning Commission's consideration of the Proposed Project.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

The staff report also will include a draft resolution recommending the project to the Board of Supervisors for final approval. CONTRACTOR will provide the draft staff report and resolution to the County for review and comments. CONTRACTOR will then revise and finalize the staff report and resolution for the Planning Commission Hearing.

A.4.2 CONTRACTOR will assist the County with presenting the Proposed Project at the Planning Commission Hearing. If necessary, CONTRACTOR will prepare an updated draft resolution to incorporate any comments provided by the Planning Commission. CONTRACTOR also will respond to any comments received by the County on the staff report and/or Addendum after posting of the staff report.

A.5 Board of Supervisors' Meeting. CONTRACTOR shall assist the County in preparing the necessary packet of information for the Board of Supervisor's final approval, assuming the Planning Commission recommends approval.

A.5.1 CONTRACTOR will prepare a draft staff report and resolution, summarizing the Proposed Project, describing the completed application and environmental documentation, and summarizing the proposed action to be taken under consideration by the Board of Supervisors.

A.5.2 CONTRACTOR shall provide the draft staff report and resolution to the County for review and comments. CONTRACTOR will then revise and finalize the staff report and resolution for the Board of Supervisors meeting.

A.5.3 CONTRACTOR will assist the County with presenting the Proposed Project at the Board of Supervisors meeting. If necessary, CONTRACTOR will prepare an updated draft resolution and staff report to incorporate any comments provided by the Board of Supervisors.

1) If the Board of Supervisors provides comments, CONTRACTOR will present the updated resolution and staff report at the next scheduled Board of Supervisors meeting. CONTRACTOR participation in more than one Board of Supervisors meeting is not included in this scope of work and would be billed on a time-and-materials basis.

A.6 Additional Meetings CONTRACTOR shall be available to attend meetings upon request, including internal coordination calls. The scope assumes a maximum of two (2) monthly meetings between May 2023 and February 2024, plus an additional (5) technical meetings on topical issues, for a total of 25 meetings for the Project Manager and staff for meeting attendance. Additional meetings will be billed on a time and materials basis upon approval by the County.

"Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

8. INDEMNIFICATION.

8.01 For purposes of the following indemnification provisions ("Indemnification Agreement"), "design professional" has the same meaning as set forth in California Civil Code section 2782.8. If any term, provision, or application of this Indemnification Agreement is found to be invalid, in violation of public policy or unenforceable to any extent, such finding shall not invalidate any other term or provision of this Indemnification Agreement and such other terms and provisions shall continue in full force and effect. If there is any conflict between the terms, provisions or application of this Indemnification Agreement and the provisions of California Civil Code sections 2782 or 2782.8, the broadest indemnity protection for County under this Indemnity Agreement that is permitted by law shall be provided by CONTRACTOR.

8.02 Indemnification for Design Professional Services Claims: CONTRACTOR shall indemnify, defend and hold harmless County, its governing board, directors, officers, employees, and agents against any claims that arise out of, or pertain to, or relate to the negligence, recklessness, or willful misconduct of the CONTRACTOR, its employees, subcontractors, and agents in the performance of design professional services under this Agreement, excepting only liability arising from the sole negligence, active negligence or willful misconduct of County, or defect in a design furnished by County, but in no event shall the amount of such CONTRACTOR's liability exceed such CONTRACTOR's proportionate percentage of fault as determined by a court, arbitrator or mediator, or as set out in a settlement agreement. In the event one (1) or more defendants to any action involving such claim or claims against County is unable to pay its share of defense costs due to bankruptcy or dissolution of the business, such CONTRACTOR shall meet and confer with the other parties to such action regarding unpaid defense costs.

8.03 Indemnification for All Other Claims or Loss: For any claim, loss, injury, damage, expense or liability other than claims arising out of CONTRACTOR's performance of design professional services under this Agreement, CONTRACTOR shall indemnify, defend and hold harmless the County, its governing board, directors, officers, employees, and agents against any claim for loss, injury, damage, expense or liability resulting from or alleging injury to or death of any person or loss of use of or damage to property, arising from or related to the performance of services under this Agreement by CONTRACTOR, its employees, subcontractors or agents, excepting only liability arising from the sole negligence, active negligence or willful misconduct of the County, or defect in a design furnished by County.

9. INSURANCE.

9.01 Evidence of Coverage: Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor, upon request, shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Division, unless otherwise directed. The CONTRACTOR shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and such insurance has been approved by the County. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

9.02 Qualifying Insurers: All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Manager.

9.03 Insurance Coverage Requirements: Without limiting CONTRACTOR's duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

☐ Modification (Justification attached; subject to approval).

9.04 Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty (30) days in advance of each endorsed reduction in coverage or limit, cancelation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR's work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR's insurance. The required endorsement form for Commercial General Liability Additional Insured is ***ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000).*** *The required endorsement form for Automobile Additional Insured endorsement is* ***ISO Form CA 20 48 02 99.***

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance with the County's Contract Administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five (5) calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10. RECORDS AND CONFIDENTIALITY.

10.01 Confidentiality. CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws which provide for the confidentiality of records and other information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall maintain such records for a period of at least three (3) years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three- (3-) year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 Access to and Audit of Records. The County shall have the right to examine, monitor, and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three (3) years after final payment under the Agreement.

10.05 Royalties and Inventions. County shall have a royalty-free, exclusive, and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

11. NON-DISCRIMINATION. During the performance of this Agreement, CONTRACTOR, and its subcontractors, shall not unlawfully discriminate against any person because of race, religious creed, color, sex, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age (over 40), or sexual orientation, or any other characteristic set forth in California Government code § 12940(a), either in CONTRACTOR's employment practices or in the furnishing of services to recipients. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. If this Agreement has been or will be funded with monies received by the County pursuant to a contract with the state or federal government in which the County is the grantee, CONTRACTOR will comply with all the provisions of said contract, to the extent applicable to CONTRACTOR as a subgrantee under said contract and said provisions shall be deemed a part of this Agreement, as though fully set forth herein. Upon request, County will deliver a copy of said contract to CONTRACTOR, at no cost to CONTRACTOR.

CONTRACTOR shall be solely liable for and obligated to pay directly all applicable taxes, including federal and state income taxes and social security, arising out of CONTRACTOR's performance of this Agreement. EXHIBIT A – SCOPE OF WORK/PAYMENT PROVISIONS

To Agreement by and between
County of Monterey, hereinafter referred to as "County"
and
Denise Duffy & Associates, Inc., hereinafter referred to as "CONTRACTOR"

A. SCOPE OF SERVICES

CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work as set forth below:

PHASE I – Application Coordination and Review

A.1 CONTRACTOR shall perform an application completeness review for the Proposed Project and work with County staff to thoroughly review materials provided by the Applicant to make a determination on the application's completeness consisting of the following two tasks.

A.1.1 Project Initiation/Initial Application Review: CONTRACTOR shall participate in the following tasks:

1) Kick-off meeting with the County and project team to collect relevant project background and site information.
2) Field review of the project site.
3) Review of existing entitlements (including conditions of approval) and the previously adopted Environmental Impact Report (EIR).
4) Coordination of an inter-agency review meeting to facilitate review of application materials.
5) Determine completeness of the project application.
6) Prepare and issue a letter to the Applicant specifying whether their application is considered complete or incomplete, within 30 days of filing of the application. An incomplete letter shall specify all materials necessary for a complete application.

A.1.2 Incomplete Application/Final Application Review/Completeness Letter: This scope of work assumes that the initial application submittal would require revisions and would initially be deemed incomplete. In this event, CONTRACTOR shall:

1) Review resubmitted application materials.
2) Coordinate with County agencies and departments to resolve incomplete items.
3) Prepare and issue a letter to the Applicant advising their application is complete. This task assumes that only one round of revisions would be

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

required before the application is deemed complete. Additional rounds of review would be billed on a time and material basis.

4) CONTRACTOR shall complete a thorough review of the Applicant-prepared technical documentation to ensure there is sufficient detail to support the CEQA analysis (see Task A.3), identify outstanding items, and establish the schedule for completion of the Proposed Project.

A.2 CONTRACTOR shall assist the County with finalizing the completed application identified in A.1 and A.2. This will include:

A.2.1 CONTRACTOR shall work with the County to ensure all completed application materials are uploaded and appropriately tagged and described in Accela.

A.2.2 CONTRACTOR shall prepare a planning analysis of the completed application.

A.2.3 CONTRACTOR shall prepare and provide project conditions and mitigations to County.

PHASE II – Environmental Documentation

A.3 CONTRACTOR shall prepare the CEQA documentation for the Proposed Project in accordance with CEQA and Monterey County procedures consisting of the following tasks.

A.3.1 Determine Appropriate Level of CEQA Documentation:
CONTRACTOR shall work with County staff to determine the appropriate level and type of CEQA documentation required for the Proposed Project. This determination would be based on the available background materials, including previous CEQA documentation for the project site and other details related to the Proposed Project.

CONTRACTOR assumes that an EIR Addendum to the East Garrison Specific Plan Subsequent EIR would be the appropriate level of CEQA review for the Proposed Project.

CONTRACTOR has included an optional task in this scope of work describing additional tasks and costs in the event the County determines that a Supplemental EIR ("SEIR") is the appropriate level of documentation for the Proposed Project.

A.3.2 Administrative Draft EIR Addendum:

1) CONTRACTOR shall provide an electronic copy of the Administrative Draft EIR Addendum to the County for review and comment. The document shall contain the following mandated sections:

   A. Introduction. The introduction section would briefly describe the Proposed Project. The introduction would include an overview of the

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

Proposed Project and a summary of the previous CEQA document(s) applicable to the EIR Addendum. The introduction will also include an overview of the CEQA regulations as they pertain to EIR addendums.

B. Project Description. The EIR Addendum would provide a detailed description of the Proposed Project based on information provided by the County and the Applicant. The project description would include the regional and vicinity location, project objectives, any existing improvements on the site, and relevant site and vicinity history. The project description would also provide background on the previously approved environmental documentation and how the Proposed Project differs from what was originally approved. This section would include site plans, photographs, and other graphics depicting all aspects of the project, including the following: 1) grading and engineering characteristics; 2) development drawings (including site plans, floor plans, and elevations); 3) infrastructure improvements (on-site and off-site, as appropriate); and 4) landscaping and design features. The project would be described in terms of its technical, economic and environmental characteristics. The project description also would identify intended uses of the EIR Addendum.

C. Environmental Setting, Impacts, and Mitigation. The topics proposed for analysis in the EIR Addendum are anticipated to include, but are not limited to, aesthetics, geology, soils and drainage, hydrology and groundwater supply system, water quality, air quality/climate change, biological resources, land use and planning, transportation/circulation/traffic analysis, wastewater disposal and treatment, hazardous materials, public services recreation and noise. Each resource section would be separately analyzed in the EIR Addendum and, where appropriate, mitigation measures would be identified to lessen project-related effects to a less-than-significant level. For the purposes of this scope of work, CONTRACTOR assumes that all technical reports provided as part of the application process under Task A.1 would be of sufficient content and quality to provide the basis for the air quality, biological resources, cultural resources, geology and soils, hazards and hazardous materials hydrology, noise, transportation, and water supply sections of the EIR Addendum. For each environmental topic, the EIR Addendum would include a discussion of existing conditions and would identify potential environmental impacts of the project using significance criteria (i.e., thresholds of significance) to determine the level of impact for each identified issue compared to the findings of the East Garrison Specific Plan Subsequent EIR. The project impact section would present new potentially significant impacts and identify mitigation which avoids or

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

reduces new or greater impacts to a less-than-significant level where feasible.

D. Graphics. CONTRACTOR shall prepare appropriate graphics and tables to present the environmental analysis.

E. References/List of Preparers. CONTRACTOR shall identify all sources used as a reference in the EIR Addendum, as well as a listing of all persons involved in the preparation or otherwise contacted during the preparation of the document.

The Administrative Draft EIR Addendum will address all issue areas identified in the most current version of the CEQA Guidelines Appendix G Environmental Checklist Form (2023). The key areas of analysis for the Proposed Project Administrative Draft EIR Addendum are summarized below.

Aesthetics: The Administrative Draft EIR Addendum will describe the existing visual characteristics of the Proposed Project. The Administrative Draft EIR Addendum will evaluate the visual effects of the Proposed Project, including design changes (colors, building materials, elevations, etc.) compared to the previously approved project, and its consistency with all applicable Monterey County General Plan policies, zoning requirements, and design guidelines.

Air Quality: Build-out of the Proposed Project could result in temporary air quality impacts during construction and permanent air quality impacts during operation, as well as cumulative air quality impacts. The Administrative Draft EIR Addendum will summarize the results of the updated Air Quality Analysis *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Biological Resources: Implementation of the Proposed Project could, directly and indirectly, affect biological resources. The Administrative Draft EIR Addendum will summarize the results of the updated Biological Assessment *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required. This scope of work does not include a peer review of the Biological Assessment.

Cultural & Tribal Cultural Resources: The Administrative Draft EIR Addendum will evaluate the potential effects to cultural resources based on the available data and records. The Administrative Draft EIR Addendum will summarize the results of the updated Historical Resources Assessment and the Cultural Resources Assessment *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required. This scope of work does not include a peer review of the updated historical resources assessment or the cultural resources assessment. The Administrative

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

Draft EIR Addendum will also summarize the results of AB 52 outreach conducted by the County.

Energy: The Administrative Draft EIR Addendum will evaluate the potential impacts related to construction-phase and operational-phase energy used as a result of the Proposed Project. The energy analysis would be based, in part, on the updated Air Quality Analysis *to be provided by the Applicant as part of Task A.1*. Mitigation measures would be identified as applicable to reduce impacts to a less-than-significant level.

Geology and Soils: Construction of the Proposed Project could result in impacts related to the geological conditions of the site. The Administrative Draft EIR Addendum will summarize the results of the updated Geotechnical Exploration *to be provided by the Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Greenhouse Gas Emissions: Construction and operation of the Proposed Project could result in an overall increase in greenhouse gas (GHG) emissions compared to existing conditions. The Administrative Draft EIR Addendum will summarize the results of GHG emissions modeling provided in the updated Air Quality Analysis *to be provided by the Applicant as part of Task A.1.* CONTRACTOR will compare the modeled GHG emissions against adopted air quality management plans and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Hazards and Hazardous Materials: The Proposed Project would be located on the former Fort Ord Military base. Prior military use in the project area has the potential to expose future site occupants and construction personnel to residual hazardous materials or other hazards. The Proposed Project would relocate residential uses to areas previously analyzed for commercial use or vehicle parking. The Administrative Draft EIR Addendum will evaluate potential impacts related to hazards and/or hazardous materials based on an updated hazards analysis (assumed to be a Phase I Environmental Site Assessment or equivalent document) *to be provided by the Applicant as part of Task A.1.*

Hydrology and Water Quality: The Administrative Draft EIR Addendum will evaluate the Proposed Project's hydrology and water quality effects. The Administrative Draft EIR Addendum will identify local and regional programs for the maintenance of water quality and the Proposed Project's adherence to these programs. The Administrative Draft EIR Addendum will summarize the results of the updated Hydrological Report *to be provided by Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

Land Use/Consistency with Plans: The Administrative Draft EIR Addendum will review all applicable land use plans, the Monterey County General Plan, as well as all applicable policies and regulations to determine whether the Proposed Project would conflict with any of those adopted to avoid or mitigate an environmental impact.

Noise: The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in noise impacts. The Administrative Draft EIR Addendum will evaluate construction and operational noise impacts as a result of the Proposed Project, as well as cumulative noise impacts. The Administrative Draft EIR Addendum will summarize the results of the updated Noise Impact Analysis *to be provided by Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Population and Housing: The Proposed Project includes 254 two to three story compact homes and rowhouses compared to the approved project. The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in population increases as a result of the additional housing units. Mitigation measures would be identified, as appropriate, to reduce any impacts to a less than significant level.

Transportation: The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in transportation impacts. The Administrative Draft EIR Addendum will evaluate construction and operational transportation impacts as a result of increased vehicle trips associated with the Proposed Project, as well as cumulative transportation impacts. This will include a VMT analysis to comply with the most recent CEQA thresholds. The Administrative Draft EIR Addendum will summarize the results of the updated Traffic Impact Study *to be provided by Applicant as part of Task A.1* and identify any mitigation measures to reduce impacts to a less-than-significant level if required.

Utilities: The Proposed Project includes 254 two to three story compact homes and rowhouses compared to the approved project, which could result in increased impacts on utility providers, specifically for potable water. The Administrative Draft EIR Addendum will evaluate the Proposed Project's potential to result in increased impacts to utilities as a result of the Proposed Project. The Administrative Draft EIR Addendum will summarize the results of the updated Water Supply Assessment *to be provided by Applicant as part of Task A.1.* Mitigation measures would be identified, as appropriate, to reduce any impacts to a less than significant level.

Other CEQA Requirements: The Administrative Draft EIR Addendum also will address all other CEQA-required issues, including agricultural resources, mineral resources, public services, wildfire, and references.

This scope of work does not include production of any hardcopies of the Administrative Draft EIR Addendum.

A.3.3 Revise Administrative Draft EIR Addendum:
CONTRACTOR shall revise the Administrative Draft EIR Addendum based on comments received from the County. This scope assumes no more than one (1) round of comments. CONTRACTOR shall provide to the County an electronic copy of the revised Administrative Draft EIR Addendum.

A.3.4 Mitigation Monitoring and Reporting Program:
CONTRACTOR shall prepare a Mitigation Monitoring and Reporting Plan ("MMRP"). Mitigation measures recommended for those impacts, as identified in the EIR Addendum would be summarized in the MMRP, along with responsibility for implementation, timing of implementation, and oversight responsibility. This scope of work does not include production of any hardcopies of the EIR Addendum or MMRP.

A.3.5 Finalize Conditions and Mitigation in Accela:
CONTRACTOR shall update the Accela file for the Proposed Project with the completed environmental documentation and update conditions and mitigation measures to reflect the MMRP prepared under Task 3e.

Optional Tasks – Preparation of Supplemental EIR

OPT 3 Prepare Supplemental EIR. In the event that CONTRACTOR and County determine that a Supplemental EIR (SEIR) is the appropriate level of environmental documentation and written authorization is provided by County, CONTRACTOR shall prepare the SEIR for the Proposed Project in accordance with CEQA and Monterey County procedures. This effort would consist of the following tasks, in addition to the tasks described in A.3.2 Administrative Draft EIR Addendum:

Optional Task 3a: Notice of Preparation and Participate in Scoping Meeting:
CONTRACTOR shall prepare the Notice of Preparation ("NOP") for the Proposed Project in accordance with CEQA and Monterey County procedures. The NOP will be electronically submitted in draft form to the County, Applicant, and other members of the project team, as appropriate, for review and comment prior to public distribution. The NOP will include a brief project description (including figures) and identification of potential environmental impacts in accordance with CEQA Guidelines §15082.

CONTRACTOR shall prepare drafts of the required notices for review and comment (i.e., Notice of Completion and Summary Form for State Clearinghouse submission). Upon receipt of comments, CONTRACTOR will revise the NOP and notices and electronically submit a final version to the County for distribution. This task assumes that the County will be responsible for distribution and noticing. The NOP would circulate for a review period of not less than 30 days.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

During the course of the 30-day NOP public comment period (see CEQA Guidelines §15082 and §15375), CONTRACTOR shall attend and participate in one (1) public scoping hearing. This task will include the preparation of presentation materials, including a PowerPoint presentation, agenda, comment cards, and other materials that may be required. CONTRACTOR shall be responsible for providing a brief presentation on the nature of the scoping meeting and the general requirements of CEQA, including an overview of the environmental process and anticipated project impacts. All comments received at the scoping meeting and during the NOP comment period will be used to determine the appropriate scope of environmental analysis contained in the SEIR. This task assumes the County will be present at the scoping meeting to facilitate and participate in presenting information about the Proposed Project.

CONTRACTOR shall prepare a summary of the scoping meeting comments at the conclusion of the NOP public comment period to be provided to the County, Applicant, and other members of the project team, as appropriate. The summary of comments will be presented in table format, listing the environmental topics and issues specified in each comment letter. Comments on technical issue areas would also be forwarded to the Applicant's technical consultants for their analyses of identified environmental concerns.

Optional Task 3b: Prepare Administrative Draft SEIR: CONTRACTOR shall modify Task 3b to include the following additional mandated sections associated with preparation of an SEIR:

A. Executive Summary. The executive summary section would be included in the SEIR to briefly describe the Proposed Project and to provide a summary of all potential impacts and recommended mitigation measures identified in the SEIR. The summary also would identify areas of controversy and project alternatives evaluated in the SEIR. The impacts and conditions presented in the previous EIR will serve as the primary base of comparison for the analysis.

   CONTRACTOR will prepare updated setting sections and conditions, refined from the existing EIR to focus on the issue areas specific to the Proposed Project. In addition, the SEIR would identify whether the Proposed Project would result in new Long-Term, Cumulative, or Irreversible impacts compared to the findings of the East Garrison Specific Plan Subsequent EIR. It also would identify any Growth Inducing effects of the project.

B. Cumulative Impacts. In accordance with CEQA requirements, the SEIR would analyze potentially significant cumulative impacts anticipated from development of the project combined with past, present, and reasonably foreseeable future projects in the County and project vicinity. The analysis would be based on a list of proposed or anticipated projects in the area, which would be provided by the County.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

C. Alternatives to the Proposed Project. In accordance with CEQA, the SEIR would need to address a reasonable range of alternatives to the Proposed Project that could feasibly meet the project objectives and potentially avoid or lessen any new significant environmental impacts associated with the project.

CONTRACTOR shall consult with County staff and the Applicant to determine up to three (3) feasible alternatives. All alternatives would be discussed both quantitatively and qualitatively in terms of their impacts and their effectiveness in addressing identified significant adverse project impacts. This section would identify and discuss the alternative deemed to be environmentally superior pursuant to the requirements of CEQA §15126.6(e)(2). This evaluation would be based on a comparative analysis of the recommended alternatives.

D. Other CEQA-Required Sections. The major environmental issues to be addressed in the EIR are described above. In addition to these and the remaining CEQA checklist environmental topics, the SEIR would include other CEQA-required sections as follows: Growth-Inducing Impacts, Significant Unavoidable Impacts, and Irreversible Effects.

Optional Task 3c: Prepare Public Circulation SEIR. CONTRACTOR will provide an electronic copy of the Public Circulation Draft SEIR to the County upon final review and authorization of the document by the County. This scope assumes that the County, as the CEQA Lead Agency, will be responsible for coordinating the distribution and publication of the Public Circulation Draft SEIR. This scope of work does not include production of any hardcopies of the Public Circulation Draft SEIR.

Optional Task 3d: Prepare Final SEIR. CONTRACTOR will assist County staff with responding to public comments within four weeks after receipt of all public comments, following conclusion of the 45-day review period for the Public Circulation Draft SEIR.

CONTRACTOR will prepare a Final SEIR containing all public comments received and responses to each comment that raises a substantive environmental issue. In addition, the Final SEIR will contain a section showing text edits to the Public Draft SEIR in response to comments received, as appropriate. This scope assumes a minimal number of public comments will be received and that no more than one (1) round of comments from the County will be necessary.

PHASE III – Project Approval Hearings and Internal Coordination Meetings

A.4 Planning Commission Hearing. CONTRACTOR shall, following completion of the EIR Addendum, assist the County in preparing the necessary items for the Planning Commission's consideration of the Proposed Project.

DocuSign Envelope ID: D1B5C765-EC8D-4995-9838-1E6090112A07

A.4.1 CONTRACTOR shall prepare a draft staff report summarizing the Proposed Project, describing the completed application and environmental documentation, and summarizing the proposed action to be taken under consideration by the Planning Commission. The staff report also will include a draft resolution recommending the project to the Board of Supervisors for final approval. CONTRACTOR will provide the draft staff report and resolution to the County for review and comments. CONTRACTOR will then revise and finalize the staff report and resolution for the Planning Commission Hearing.

A.4.2 CONTRACTOR will assist the County with presenting the Proposed Project at the Planning Commission Hearing. If necessary, CONTRACTOR will prepare an updated draft resolution to incorporate any comments provided by the Planning Commission. CONTRACTOR also will respond to any comments received by the County on the staff report and/or Addendum after posting of the staff report.

A.5 Board of Supervisors' Meeting. CONTRACTOR shall assist the County in preparing the necessary packet of information for the Board of Supervisor's final approval, assuming the Planning Commission recommends approval.

A.5.1 CONTRACTOR will prepare a draft staff report and resolution, summarizing the Proposed Project, describing the completed application and environmental documentation, and summarizing the proposed action to be taken under consideration by the Board of Supervisors.

A.5.2 CONTRACTOR shall provide the draft staff report and resolution to the County for review and comments. CONTRACTOR will then revise and finalize the staff report and resolution for the Board of Supervisors meeting.

A.5.3 CONTRACTOR will assist the County with presenting the Proposed Project at the Board of Supervisors meeting. If necessary, CONTRACTOR will prepare an updated draft resolution and staff report to incorporate any comments provided by the Board of Supervisors.

1) If the Board of Supervisors provides comments, CONTRACTOR will present the updated resolution and staff report at the next scheduled Board of Supervisors meeting. CONTRACTOR participation in more than one Board of Supervisors meeting is not included in this scope of work and would be billed on a time-and-materials basis.

A.6 Additional Meetings CONTRACTOR shall be available to attend meetings upon request, including internal coordination calls. The scope assumes a maximum of two (2) monthly meetings between May 2023 and February 2024, plus an additional (5) technical meetings on topical issues, for a total of 25 meetings for the Project Manager and staff for meeting attendance. Additional meetings will be billed on a time and materials basis upon approval by the County.

Docusign Envelope ID: EA6677A0-D37F-4E3A-A61A-CFC6B1146232

9. Amend Paragraph 9.04, "Other Insurance Requirements," of Section 9.0, "Insurance Requirements," to read as follows:

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:
The County of Monterey, its officers, officials, employees, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:
For any claims related to this Agreement, the CONTRACTOR's insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, or volunteers shall be excess of the CONTRACTOR's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Waiver of Subrogation:
CONTRACTOR hereby grants to County a waiver of any right to subrogation which any insurer of said CONTRACTOR may acquire against the County by virtue of the payment of any loss under such insurance. CONTRACTOR agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

Docusign Envelope ID: EA6677A0-D37F-4E3A-A61A-CFC6B1146232

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance with the County's Contract Administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10. Amend Section 11., "Non-Discrimination," to read as follows:

During the performance of this Agreement, CONTRACTOR, and its subcontractors, shall not unlawfully discriminate against any person because of race, religious creed, color, sex, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age (over 40), sexual orientation, or any other characteristic set forth in California Government Code § 12940(a), either in CONTRACTOR's employment practices or in the furnishing of services to recipients. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

11. Amend Agreement to add Paragraph 16.16, "Independent Contractor Compliance with Government Code Section 1097.6(c)," under Section 16, "Miscellaneous Provisions," as follows:

Independent Contractor Compliance. This section applies to those situations when a CONTRACTOR is awarded an Agreement for a preliminary phase of a project, with future phases to be bid separately. This section does not apply to those situations when an Agreement is awarded for multiple phases of a project under a single Agreement/proposal. (Parcel Map - PLN240101/Bates Charles Carroll et al., 577 Viejo Road, Carmel, Greater Monterey Peninsula Area Plan (APN:103-021-007-000)

RECOMMENDATION:

It is recommended that the Board of Supervisors:
a. Find that accepting the Parcel Map is Statutorily Exempt pursuant to section 15268(b)(3) of the CEQA Guidelines;
b. Accept the Parcel Map for a minor subdivision to divide a 23.67-acre parcel into two parcels containing 18.567 acres and 5.1 acres in size;
c. Accept the Tax Clearance Letter and Subdivision Map Guarantee; and
d. Direct the Clerk of the Board to submit the Parcel Map to the County Recorder for recording, with applicable recording fees to be paid by the applicant.

SUMMARY:

On July 16, 2025, the Chief of Planning approved a Tentative Map for a lot split at 577 Viejo Road, Carmel (File No. PLN240101). Since that time, the landowner has submitted a Property Tax Clearance Certification in accordance with Government Code Section 66492 and the Parcel Map Guarantee in accordance with Government Code Section 66465 of the Subdivision Map Act (SMA). The developer has also met all seven conditions of approval required for clearance prior to recording the Parcel Map. The applicant is now ready to record the final Parcel Map. Staff recommends that the Board accept the Parcel Map and direct the Clerk of the Board to submit the Bates Parcel Map to the County Recorder for recording.

DISCUSSION:

The Parcel Map was reviewed by Housing and Community Development (HCD) and Public Works, Facilities and Parks (PWFP) for compliance with Title 19 and the SMA. As presented in **Attachment A**, the Parcel Map conforms with the regulations and is ready to record.

Of the seven conditions of approval in Resolution No. 25-031 (HCD File No. PLN240101), four were standard legal requirements for a permit of this type (Condition No. 1, Specific Uses, Condition No. 2, record a Permit Approval Notice, and Condition No. 6, Standard Indemnification Obligation, and Condition No. 7, file a Notice of Exemption for the California Environmental Quality Act (CEQA) decision). The applicable public utility companies, Pacific Gas and Electric Co. and California American Water, were given an opportunity to review the draft Parcel Map and comment, therefore Condition No. 3 was met. Condition No. 4, to include Easements and Right-of-Way on the Parcel Map, was also met. Finally, Condition No. 5 requires the landholder to request a new address be assigned to the new parcel's following the recordation of the Parcel Map. The landholder/permit holder has agreed to comply with Condition No. 5 within 2026. In sum, the Parcel Map has satisfied conditions required and the map is ready to be recorded.

California Environmental Quality Act (CEQA)
Approval of final subdivision maps, including Parcel Maps, is considered a ministerial action, and is statutorily exempt from CEQA review, per CEQA Section 15268(b)(3). The project involves the recordation of a Parcel Map, for a previously approved minor subdivision, for which all "prior to recordation of map" conditions have been satisfied.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Office of the County Counsel has reviewed this report as to form.
Public Works reviewed the draft Parcel Map for compliance with Title 19 of the Monterey County Code and the Subdivision Map Act.
Cypress Fire Protection District reviewed the parcel design and access routes.

FINANCING:
Funding for staff time associated with this project is included in the FY2025-26 Adopted Budget within Community Development General Fund 001, Appropriation Unit HCD002, Unit 8543. Fees for filing the Parcel Map will be paid by the permit holder. Staff time associated with this project is charged to the deposit that the landholder provided for both the planning permit (PLN240101), Public Works staff and Cypress Fire Protection District staff time, and HCD's condition compliance activities.

a. Find that the acceptance of the Amended Conservation and Scenic Easement Deed is categorically exempt under CEQA Guidelines section 15317; and
b. Accept an Amended Conservation and Scenic Easement Deed for the Hain and Allen properties to preserve habitat for Condors and other plant and animal species, at 38020 Rocky Creek Road, Big Sur, (Assessor's Parcel Numbers 418-132-001-000 and 418-132-008-000) related to File No. PLN210263); and

d. Direct the Clerk of the Board to submit the Amended Conservation and Scenic Easement Deed to the County Recorder for filing with all recording fees to be paid by the applicant.

SUMMARY:

The John R. Hain and Jennifer L. Allen, Trustees of The Conrad McQuay Hain Irrevocable Trust (owners), own Lots 1 and 8 in the Rocky Creek Ranch Subdivision ("the subdivision") off Rocky Creek Road in Big Sur. The property was purchased by the current owners from the Conservancy for the Range of the Condor in September of 2024 and the new owners would like to expand the conservation easement already existing on portions of Lots 1 and 8 within the subdivision to protect California Condor habitat.

DISCUSSION:

On February 4, 1994, a Conservation and Scenic Easement was applied to portions of the subdivision to protect views and cultural resources. As it applies to this application, Lot 1 of the subdivision is 77.127 acres total with 14 acres covered by the existing conservation easement. Lot 8 is 59.32 acres total, with 55 of those covered acres covered in the existing easement.

The application proposes to amended the current Conservation Scenic Easement Deed (Document #2022008941) on Lots 1 and 8 to cover the entirety of the two parcels within the subdivision for the purpose of preserving habitat for Condors and other plant and animal species.

The applicant has submitted a conservation and scenic easement deed (CSED) along with a map showing the general location of the easement on the property, and a metes and bounds description of the area covered. These documents are appended to this Report as **Attachment B**. No construction will be allowed within the easement area. Recordation of this easement will be disclosed to future property owners where development is prohibited on the parcel for the purpose of preserving habitat for Condors and other plant and animal species on the property.

Staff recommends the Board accept, execute, and consent to the recordation of the Amended Conservation and Scenic Easement Deed as shown in **Attachment B.**

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):

Acceptance of the scenic easement qualifies for a Class 17 categorical exemption under CEQA because it constitutes the acceptance of easements to maintain the open space character of the area (CEQA Guidelines, § 15317).

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has approved the Conservation and Scenic Easement Deed as to form.

FINANCING:

Funding for staff time associated with this project is included in the FY2025-26 Adopted Budget for Housing and Community Development (HCD) Appropriation Unit HCD002, Unit 8543. All costs associated with the maintenance of the CSED will be borne by the project applicant, not the County of Monterey.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This action represents effective and timely response to our HCD customers. Processing this application in accordance with all applicable policies and regulations also provides the County with accountability for proper management of our land resources.

WITNESSETH:

WHEREAS, said Granter is the owner in fee of the real property more particularly described in Exhibit A attached hereto and made a part hereof, situated in Monterey County, California (the "Property"), in the Big Sur Coast Land Use Plan area; and

WHEREAS, Grantor's predecessor in interest, Marshal Rothman, granted a Conservation and Scenic Easement recorded February 4, 1994, at Reel 3063, Page 369, Official Records of Monterey County (the "1994 Easement"); and

WHEREAS, Grantors applied to the County for an Amended Conservation and Scenic Easement (PLN210263), (the "Amended Easement") to amend the existing 1994 Easement to voluntarily grant to the County a conservation and scenic easement over the entirety of Lots 1 and 8, as shown on the map filed January 6, 1994, in the Office of the County Recorder of Monterey County, Volume 18, Page 92; and

WHEREAS, said Grantors are willing to grant to the County of Monterey the conservation and scenic use to protect the present scenic beauty and existing openness by the restricted use and enjoyment of the Property by the Grantors through the imposition of the conditions described in the 1994 Easement (Document No. 9783, recorded February 4, 1994) and hereinafter expressed; and

WHEREAS, the revised boundaries of the Amended Easement are to include the entire property as described in Exhibit A, and apply to Lots 1 an 8 only;

WHEREAS, Grantors and Grantee intend that this Amendment shall amend the 1994 Easement insofar as the location of the easement on the Property, with all other terms to remain in effect; and

WHEREAS, it is intended that this Amended Easement is irrevocable and shall constitute enforceable restrictions within the meaning of Article **XIII,** Section 8, of the California Constitution and that said easement shall thereby qualify as an enforceable restriction under the provision of the California Revenue and Taxation Code, section 402.1.

NOW, THEREFORE, Grantors and Grantee agree as follows:

1. The boundaries and description of this Amended Conservation and Scenic Easement Deed as described on Exhibit A shall amend the Conservation and Scenic Easement Deed as recorded previously as to Lots 1 and 8 only.
2. Paragraph A LAND SUBJECT TO EASEMENT is amended to include the following: ...made a part hereof, "and is the Conservation Area, consisting of that portion of the Property (Lot 1) that contains an archaeological easement, as depicted on that Map filed January 6, 1994 in the Office of the County

as depicted on that Map filed January 6, 1994 in the Office of the County Recorder of Monterey County, State of California, in Volume 18, Surveys, Page 92."

3. Paragraph B RESTRICTIONS subsection 1 is amended to state: "That no structures will be placed or erected upon said Conservation and Scenic Easement Area except: None" Language thereafter deleted.
4. Paragraph B RESTRICTION subjection 3 is amended to state: "That the Grantor shall not plant nor permit to be planted any vegetation upon said premises, except: None"
5. Paragraph C EXCEPTIONS and RESERVATIONS is amended by adding paragraph 3 as follows: "Management of vegetation within the Amended Easement area in accordance with future Fuel Management Plan that may be approved by and retained on file with the Monterey County Planning Department."

6. All other terms and conditions of the original Conservation and Scenic Easement Deed shall remain in full force and effect and are incorporated herein by this reference.

7. This Amended Conservation and Scenic Easement Deed shall run with the land and burden the property, and all obligations, terms, conditions, and restrictions hereby imposed shall be deemed to be covenants and restrictions running with the land and shall be effective limitations on the use of the property from the date of recordation of this document and shall bind the Grantors and all its successors and assigns. This grant shall benefit the County of Monterey and its successors and assigns forever.

8. The Grantee shall not be obligated to maintain, improve, or otherwise expend any funds in connection with the property or any interest or easement created by this grant of easement. All costs and expenses for such maintenance, improvement use, or possession shall be borne by the Grantors, except for costs incurred by Grantee for monitoring compliance with the terms of this easement.

9. This conveyance is made and accepted upon the express condition that the Grantee, its agencies, departments, officers, agents, and employees are to be free from all liability and claim for damage by reason of any injury to any person or persons, including Grantors, or property of any kind whatsoever and to whomsoever belonging, including

Grantors, from any cause or causes whatsoever, except matters arising out of the sole negligence of the Grantee, while in, upon, or in any way connected with the property, Grantors hereby covenanting and agreeing to indemnify and hold harmless the Grantee, its agencies, departments, officers, agents, and employees from all liability, loss, cost, and obligations on account of or arising out of such injuries or losses however occurring. The Grantee shall have no right of control over, nor duties and responsibilities with respect to the property which would subject the Grantee to any liability occurring upon the land by virtue of the fact that the right of the Grantee to enter the land is strictly limited to preventing uses inconsistent with the interest granted, the property is not "property of a public entity" or "public property," and Grantee's rights herein do not include the right to enter the land for the purposes of correcting any "dangerous condition" as those terms are defined by California Government Code Section 830.

10. The terms, covenants, conditions, exceptions, obligations, and reservations contained in this conveyance shall be binding upon and inure to the benefit of the successors and assigns of both the Grantors and the Grantee, whether voluntary or involuntary.

11. If any provision of this conservation and scenic easement is held to be invalid or for any reason becomes unenforceable, no other provision shall be thereby affected or impaired.

MEMORANDUM #5647

REEL 3063 PAGE 381

DATE: October 19, 1992

TO: Minor Subdivision Committee

FROM: Anthony J. "Bud" Carney, A.I.C.P.

SUBJECT: Public hearing to consider certification of the Environmental Impact Report (EIR #90-07) prepared for the Rothman project and approval of three major lot line adjustments and coastal development permits (LL88-10; LL90-32; LL90-33).

RECOMMENDATION: It is recommended that the Minor Subdivision Committee certify the Environmental Impact Report and approve all three major lot line adjustments and coastal development permits with the recommended findings, evidence, and conditions.

DISCUSSION: Three separate lot line adjustment applications (LL 88-10; LL 90-33; LL 90-32) have been submitted to accomplish a desired reconfiguration of 10 existing lots of record (See Exhibits "A-E"). This method of application is recognized as legal in an opinion written by County Counsel. All successive adjustments are between adjoining lots which will not result in additional lots.

The environmental impacts of the final lot line configuration (Exhibit "E") have been evaluated in an Environmental Impact Report. This document concludes that the proposed project is the environmentally superior alternative.

Comments (Exhibit "F") have been submitted by the applicant which suggest several revisions to the Final EIR. The consultant will advise the Committee on these comments, and those raised at the hearing, during the October 29, 1992 hearing.

Staff evaluated the proposed mitigation measures recommended by the EIR and has incorporated those applicable to the proposed project into this report as recommended conditions of approval.

RECOMMENDED FINDINGS FOR CERTIFICATION OF THE ENVIRONMENTAL IMPACT REPORT

1. FINDING: The decision to prepare this Environmental Impact Report was based upon an authorization by the applicant.
   EVIDENCE: Letter from applicant dated September 12, 1990 contained in the original file (LL 88-10).

2. FINDING: A Notice of Preparation of the Environmental Impact Report was sent to:
   (a) the State Clearinghouse; and
   (b) each trustee agency;
   The Notice of Preparation describes the project, the location and the general impact sufficiently to permit a response.
   EVIDENCE: EIR file No. 90-07.

3. FINDING: Prior to completing the draft EIR, the staff and the EIR consultant hired by the County contacted interested agencies, individuals, and jurisdictions to secure their input. These are listed in the EIR. The responses are also set forth in the EIR and are supported by empirical data, scientific authorities, and explanatory information which crystallizes issues and affords a basis for a comparison of the problems involved with the proposed project and the difficulties involved in the alternatives.
   EVIDENCE: EIR File No. 90-07.

4. FINDING: A Notice of Completion of the draft EIR was filed with the California Secretary for Resources and the County Clerk on April 10, 1992, briefly describing the project and its location and indicating that the draft EIR was available, where it was available and how long it was available for review, together with a deadline for review.
   EVIDENCE: EIR File No. 90-07.

5. EVIDENCE: Public notice of the availability of the draft EIR was provided by mailing notice on April 10, 1992 to:
   (a) organizations and individuals who previously requested such notice;
   (b) Applicant/Property Owner
   (c) publication in a newspaper of general circulation in the affected area.

EXHIBIT B

PAGE 14 OF 39 PAGES

6. FINDING: Copies of the draft EIR were sent to the following for review for a 30 day review period:
   (a) State Clearinghouse for state agencies review with a 45 day review period;
   (b) local libraries;
   (c) County and local agency offices;
   (d) citizen organizations and interested individuals.

   EVIDENCE: EIR File 90-07

7. FINDING: The County staff reviewed the comments on the draft EIR.

   EVIDENCE: EIR File No. 90-07 which contains correspondence among the consultant, planning staff, and other agencies as found in EIR; correspondence received from agencies together with written responses in the final EIR.

8. FINDING: The County through contract with the EIR consultant prepared a final EIR consisting of:
   (1) the draft EIR;
   (2) comments received on the draft EIR beginning on page 5 of the EIR;
   (3) a list of persons, organizations, and public agencies commenting on the draft EIR;
   (4) the responses of the County as lead agency to significant environmental points, and to review and consultation process, as set forth on page 5 of the EIR.

   EVIDENCE: EIR File No. 90-07.

9. FINDING: The EIR focuses on the significant effects of the project on the environment. The scope of discussion of the significant effects is in proportion to the severity and probability of occurrence.

   EVIDENCE: Scope of Work contained in EIR File No. 90-07

   EVIDENCE: The Scope of Work was distributed to Trustee Agencies, individuals and organizations for input and comment during the EIR process.

10. FINDING: Notice of the October 29, 1992 meeting, at which the Minor Subdivision Committee was to recommend certification of the EIR, was given by mail to:
   (1) the applicant; and
   (2) organizations who previously requested such notice.

   Notice was also given by the following procedures:

EXHIBIT B

RECOMMENDED FINDINGS FOR APPROVAL OF THREE MAJOR LOT LINE ADJUSTMENTS AND COASTAL DEVELOPMENT PERMITS LL 88-10; LL90-32; AND LL 90-33

11. FINDING: That the three stage lot line adjustment is between 10 existing adjacent parcels.
EVIDENCE: The parcels have been determined to be legal lots of record through certificates of compliance and staff determination.
EVIDENCE: Only lots with common lot lines will be adjusted as shown by the maps contained in the separate files LL 88-10; LL 90-32; and LL90-33.

12. FINDING: A greater number of parcels than originally existed will not be created as a result of the lot line adjustments.
EVIDENCE: Ten lots of record exist prior to the adjustment and ten lots will exist after the lot lines are adjusted by the three step process.
EVIDENCE: Certificates of Compliance contained in the original file.
EVIDENCE: Maps showing the proposed adjustments contained in File No.'s LL 88-10; LL 90-32; and LL90-33.

13. FINDING: The parcels resulting from the lot line adjustments conform to County Land Use, Zoning and Building Ordinances.
EVIDENCE: The configuration of the resulting lots have been evaluated against the policies of the Big Sur Land Use Plan and Part 3 of the Coastal Implementation Plan "Regulations for Development in the Big Sur Coast Land Use Plan".
EVIDENCE: Consistency analysis beginning at page 111 of the EIR.
EVIDENCE: Staff review of the project against the Local Coastal Program.
EVIDENCE: Conditions of approval have been suggested to

insure consistency with the County Land Use, Zoning and Building Ordinances.

13. FINDING: For purposes of the Fish and Game code, the project will have a potential for adverse impact on fish and wildlife resources upon which the wildlife depends.
EVIDENCE: Analysis contained in the Environmental Impact Report prepared for this project and the record as a whole indicate the project may or will result in changes to the resources listed in Section 753.5(d) of the Department of Fish and Game regulations. Pages 161 through 176 of the Environmental Impact Report discusses and identifies potential impacts to wildlife.

14. FINDING: The project, as approved by the Coastal Development Permit, is appealable to the Board of Supervisors and to the California Coastal Commission.
EVIDENCE: Section 20.140.080 G and J of the Monterey County Coastal Implementation Plan.

RECOMMENDED CONDITIONS OF APPROVAL FOR THE ROCKY CREEK LOT LINE ADJUSTMENTS LL 88-10; LL90-32; LL90-33

4. Prior to the recordation of the Record of Survey, a Homeowners Association shall be formed in order to comply with the mitigations suggested in the EIR. The covenant, conditions, and restrictions shall address all of the mitigation measures appropriate for the proposed development and shall be subject to the approval of the Director of Planning and Building Inspection and County Counsel. (Planning and Building Inspection)

5. Prior to recordation of the Record of Survey, the applicant shall agree in writing to construct a road which meets the standards set forth by the California Department of Forest-

6. The owner shall grant a Scenic Easement to the County over those portions of the property within the Critical Viewshed and over existing vegetated areas without which future development of the theoretical building envelopes would be located within critical viewshed. Re: Final EIR for the Rocky Creek Ranch

Dear Todd,

In reviewing the Final Draft of the EIR for the Rocky Creek Ranch, we noticed a few factual mistakes which should be corrected.

Page 13 - Comment #3 states that the lower portion of the building envelope (#8) has not been determined to be suitable for sewage disposal.
This paragraph should state: "The lower portion of potential building envelope #8 could not be determined suitable for sewage disposal without percolation tests."
This should also be corrected on page 126, 2nd paragraph.

Page 25 - Comment #13. Consultant states that he concurs, but no changes to the Draft EIR were made.
Potential Building envelope #5 is not situated on an open hillside nor is it visible from Garrapatos Road. This also needs to be corrected on page 186, regarding #109 and page 193, last paragraph.

Page 32 - Response to comment #3 states that portions of proposed lots #4 and #5 are within the critical viewshed.
This is incorrect. Lots #4 and #5 cannot be seen from Highway One.

EXHIBIT B

P.O. BOX 2684 • CARMEL, CALIFORNIA 93921 • (408) 624-2304

Page 32 - Response to comment #8 states that driveways to potential envelope #3 and #5 exist, although obscured by vegetation. Policy K.1 clearly relates to new private roads.
Please delete the reference to driveways #3 and #5.

Page 62 - Comment #35 states that building site #1 is on an open hillside. On page 122 in the "Changes" section of the Final EIR it says: "Parcel 1 is located on an open hillside and is expected to be seen from some residents to the north of Palo Colorado Canyon."
This is incorrect. Potential building envelope #1 is facing south and cannot be seen from Palo Colorado Canyon.
This also needs to be corrected on page 105, fourth paragraph (Project Consistency Analysis), page 122, last paragraph (Viewshed) and page 124, fourth paragraph.

Page 64 - Comment #57 states that the archaeological site is within the potential building envelope.
This is incorrect. The potential building envelope was modified in May of 1989 so that the archaeological site and the archaeological easement lie outside the potential building envelope.

Page 75 - Response to comment #8 states "Furthermore, it is questionable from a legal point, if a lot line adjustment is required to determine if existing lots are buildable."
This is incorrect. The language in the Map Act is very clear and the interpretation is not questionable: "... A local agency or advisory agency shall limit its review and approval to a determination of whether or not the parcels resulting from the lot line adjustment will conform to local zoning and building ordinances."

Page 76 - Response to comment #14 states: "If the TDC were imposed and the lots listed were determined to be not buildable after the lot line adjustment approval, then the scenario outlined by the commenter could hold true."
This statement is inconsistent, since all consultant reports, including the EIR state that the potential building envelopes are consistent with County Ordinances. The lots listed have been determined to be buildable through this EIR process.

Page 77 - Response to comment #3. There is an unresolved difference between the consultants count of residences and the opponents count. We ask the Planning Department to please clarify this issue before the hearing.

Page 114 - last paragraph shall include building envelope #9, which has also been staked in 1989 as required by the Planning Department.

Page 118 - 2th paragraph states that "Two oak trees (13' and 18") and a cluster with oaks with diameters of 6 inches or less would be removed to accommodate this Construction."
This statement is incorrect, the diameters of the cluster are more than 6". This also needs to be corrected on page 169, last paragraph.

Page 122 - Policy A.4., Project Consistency Analysis refers in its last sentence to building envelopes which are in the Rocky Creek watershed. This statement is incorrect. There are no building envelopes in the Rocky Creek Watershed. Envelopes 5,4,2 and 3 are in the Palo Colorado watershed and envelopes 1,6,7,8,9,and 10 drain west into swales which directly drain into the ocean.

Pages 54, 55, 57, 67, and 71 refer to a required road width of 18 feet. Please note that CDF does not require all existing roads to be 18 feet wide. The only part of the road which could impact the critical viewshed is the driveway to potential building envelopes 9 and 10. George Haines from CDF will specify the exact requirements on a site visit on September 28, 1992.

In regards to the completeness of the EIR we would like to point out that the original agreement between the Monterey County Planning Department and the owner Marshal Rothman was to conduct a focused EIR which concentrates on 4 issues. These were delineated in the complete letter on September 7, 1990 (enclosed).

Since that time the scope of work has continually grown and the Final EIR, finished with one year delay, is a document which goes far beyond the original intent.

The main reason for this is the fact that you Todd are our third planner since we worked with Audry Loh on the original agreement to prepare the focused EIR.

The EIR clearly states that our proposal is the environmentally superior alternative. We have worked for over 5 years on this application and are looking forward to a recommendation for approval in your staff report.

If you have any questions please call us at 624 2304.

Sincerely,

Mary Ann Schicketanz

SUMMARY

On May 8, 2025, The Zoning Administrator adopted Resolution No. 25-018 (Planning File No. PLN240072) approving a Coastal Development Permit and Design Approval to allow construction of a 173 square foot deck, reconstruction of a retaining wall, construction of a landscaping path, and site improvements within 750 feet of known archaeological resources. The project was subject to 7 Conditions of Approval. Condition of Approval No. 5 requires the Owner to convey a Conservation Scenic Easement Deed (CSED) to the County of Monterey over portions of the property that should remain undeveloped to protect cultural resources. The acceptance and recordation of this CSED will satisfy the Condition of approval and ensure long-term protection of resources on property.

The applicant has submitted the CSED and map showing the general location of the easement on the property, along with the metes and bounds description, both of which are appended to this Report, collectively, as **Attachment B**. No construction will be allowed within the easement area. Recordation of this easement will be disclosed to future property owners where development is prohibited on the parcel in conformance with the Carmel Land Use Plan requirements and the condition of approval.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):

Acceptance of the scenic easement qualifies for a Class 17 categorical exemption under CEQA because it constitutes the acceptance of easements to maintain the open space character of the area (CEQA Guidelines, § 15317).

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has approved the Conservation and Scenic Easement Deed as to form.

FINANCING:

Funding for staff time associated with this project is included in the FY2025-26 Adopted Budget for Housing and Community Development (HCD) Appropriation Unit HCD002, Unit 8543. All costs associated with the maintenance of the CSED will be borne by the project applicant, not the County of Monterey.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:

This action represents effective and timely response to our HCD customers. Processing this application in accordance with all applicable policies and regulations also provides the County with accountability for proper management of our land resources.

SUMMARY

On May 8, 2025, The Zoning Administrator adopted Resolution No. 25-018 (Planning File No. PLN240072) approving a Coastal Development Permit and Design Approval to allow construction of a 173 square foot deck, reconstruction of a retaining wall, construction of a landscaping path, and site improvements within 750 feet of known archaeological resources. The project was subject to 7 Conditions of Approval. Condition of Approval No. 5 requires the Owner to convey a Conservation Scenic Easement Deed (CSED) to the County of Monterey over portions of the property that should remain undeveloped to protect cultural resources. The acceptance and recordation of this CSED will satisfy the Condition of approval and ensure long-term protection of resources on property.

The applicant has submitted the CSED and map showing the general location of the easement on the property, along with the metes and bounds description, both of which are appended to this Report, collectively, as **Attachment B**. No construction will be allowed within the easement area. Recordation of this easement will be disclosed to future property owners where development is prohibited on the parcel in conformance with the Carmel Land Use Plan requirements and the condition of approval.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):

Acceptance of the scenic easement qualifies for a Class 17 categorical exemption under CEQA because it constitutes the acceptance of easements to maintain the open space character of the area (CEQA Guidelines, § 15317).

OTHER AGENCY INVOLVEMENT:

The Office of the County Counsel has approved the Conservation and Scenic Easement Deed as to form.

FINANCING:

Funding for staff time associated with this project is included in the FY2025-26 Adopted Budget for Housing and Community Development (HCD) Appropriation Unit HCD002, Unit 8543. All costs associated with the maintenance of the CSED will be borne by the project applicant, not the County of Monterey.

THIS DEED made this ____ day of _____, _____, by and between **Cappo Real Estate Holdings, LLC a Tennessee limited liability company** as Grantor, and the *COUNTY OF MONTEREY*, a political subdivision of the State of California, as Grantee,

WITNESSETH:

WHEREAS, said Grantor is the owner in fee of the real property more particularly described in Exhibit "A" attached hereto and made a part hereof, situated in Monterey County, California (the Property); and

WHEREAS, the Property has certain environmental resources; and

WHEREAS, the Grantor and the Grantee desire to preserve and conserve for the public benefit the resources present on the property; and

WHEREAS, the California Coastal Act of 1976, (the Act) requires that any coastal development permit approved by the County be consistent with the provisions of the certified Local Coastal Program (LCP); and

WHEREAS, pursuant to the Act, and the LCP, Grantor applied to the County for a permit to undertake development as defined in the LCP; and

WHEREAS, a **Coastal Development Permit and Design Approval** (File Number **PLN240072**) (the Permit" was granted on **May 8, 2025** by the Monterey County **Zoning Administrator** pursuant to the Findings, Evidence and Conditions contained in Resolution No. **25-018**. That Resolution is attached hereto as Exhibit "B" (without plans) and hereby incorporated by reference, the Resolution) subject to the following condition(s):

Condition No. 5:

"A conservation and scenic easement shall be conveyed to the County over those portions of the property where Archaeological resources exist(s). The easement shall be developed in consultation with certified professionals. An easement deed shall be submitted to, reviewed and approved by, the Director of HCD - Planning and accepted by the Board of Supervisors prior to recording the parcel/final map or prior to the issuance of grading and building permits."

WHEREAS, the County, acting on behalf of the People of the State of California and pursuant to the Act, and in accordance with the findings contained in the Resolution granted the Permit to the Grantor subject to Condition No. 5 described above (the Condition) requiring that the Grantor record a conservation and scenic easement (the easement) over the Property as shown in Exhibit "C" attached hereto and hereby incorporated by reference, and agree to restrict development on and use of the Property to preserve the Property's archaeological resources and prevent the adverse direct and cumulative effects on those resources that could occur if the Property were not restricted in accordance with this easement; and

WHEREAS, the County has placed the Condition on the permit because a finding must be made under the law that the proposed development conforms with the provisions

of the certified Local Coastal Program and that in the absence of the protection provided by the Condition said finding could not be made; and

WHEREAS, Grantor has elected to comply with the Condition and execute this easement so as to enable Grantor to undertake the development authorized by the Permit; and

WHEREAS, it is intended that this easement is irrevocable and shall constitute enforceable restrictions within the meaning of Article XIII, Section 8, of the California Constitution and that said easement shall thereby qualify as an enforceable restriction under the provision of the California Revenue and Taxation Code, Section 402.1; and

WHEREAS, the said Grantor is willing to grant to the County of Monterey an easement, thereby protecting the existing conditions and archaeological resources by the restricted use and enjoyment of the Property by the Grantor through the imposition of the conditions hereinafter expressed;

NOW, THEREFORE, the Grantor does hereby grant and convey unto the County of Monterey an estate, interest, and an easement in said real property of Grantor of the nature and character and to the extent hereinafter expressed, which estate, interest, and easement will result from the restrictions hereby imposed upon the use of said Property by said Grantor, and to that end and for the purposes of accomplishing the intent of the parties hereto, said Grantor covenants on behalf of itself, its heirs, successors, and assigns, with the said Grantee, its successors and assigns, to do and refrain from doing severally and collectively upon the Grantor's Property the various acts hereinafter mentioned.

A. PROPERTY SUBJECT TO EASEMENT. The Property is situated in the County of Monterey, State of California. The portion of the Property to which this instrument applies is particularly described and depicted in Exhibit "C", attached hereto, and made a part hereof (the Easement Area).

B. RESTRICTIONS. The restrictions hereby imposed upon the use of the Easement Area by the Grantor and the acts which said Grantor shall refrain from doing upon the Easement Area in connection herewith are, and shall be, as follows:

1. That no structures will be placed or erected upon said Easement Area.

2. That no advertising of any kind or nature shall be located on or within the Easement Area.

3. That the Grantor shall not plant or permit to be planted any vegetation upon the Easement Area, except as approved through Resolution Number 25-018 and future Coastal Development Permits as applicable.

4. That, except for the maintenance of the existing path as shown on Resolution No. 25-018, subject to the granting of the applicable Coastal Development Permits and obtaining recommendations by a qualified archaeologist, the general topography of the landscape shall be maintained in its present condition and no excavation or topographic changes shall be made.

5. That no use of the Easement Area which will or does materially alter the landscape or surface and subsurface features of said Property other than those specified above shall be done or suffered.

C. EXCEPTIONS AND RESERVATIONS. The following are excepted and reserved to the Grantor to be implemented consistent with the objectives, purposes and conditions of this easement:

1. The right to maintain all existing vegetation and private pathways upon the Easement Area.

2. The use and occupancy of the Easement Area not inconsistent with the conditions and restrictions herein imposed.

3. Management of vegetation within the Easement Area in accordance with the Fuel Management Plan approved with the Permit on file with the Monterey County Planning Department.

D. SUBJECT TO APPLICABLE LAWS. Land uses permitted or reserved to the Grantor by this instrument shall be subject to all applicable laws regulating the use of land.

E. BENEFIT AND BURDEN. This grant of the easement shall run with and burden the Property, and all obligations, terms, conditions, and restrictions hereby imposed shall be deemed to be covenants and restrictions running with the land and shall be effective limitations on the use of the Property from the date of recordation of this document and shall bind the Grantor and all of its successors and assigns. This grant shall benefit the County of Monterey and its successors and assigns forever.

F. RIGHT OF ENTRY. The Grantee or its agent may enter onto the Property to ascertain whether the use restrictions set forth above are being observed at times reasonably acceptable to the Grantor.

G. ENFORCEMENT. Any act or any conveyance, contract, or authorization whether written or oral by the Grantor which uses or would cause to be used or would permit use of the Property contrary to the terms of this grant of easement will be deemed a breach hereof. The Grantee may bring any action in court necessary to enforce this grant of easement, including, but not limited to, injunction to terminate a breaching activity and to force the restoration of all damage done by such activity, or an action to enforce the terms and provisions hereof by specific performance. It is understood and agreed that the Grantee may pursue any appropriate legal and equitable remedies. The Grantee shall have sole discretion to determine under what circumstances an action to enforce the terms and conditions of this grant of easement shall be brought in law or in equity. Any forbearance on the part of the Grantee to enforce the terms and provisions hereof in the event of a breach shall not be deemed a waiver of Grantee's rights regarding any subsequent breach.

H. MAINTENANCE. The Grantee shall not be obligated to maintain, improve, or otherwise expend any funds in connection with the Property or any interest or easement created by this grant of easement. All costs and expenses for such maintenance, improvement use, or possession shall be borne by the Grantor, except for costs incurred by Grantee for monitoring compliance with the terms of this easement.

I. LIABILITY AND INDEMNIFICATION. This conveyance is made and accepted upon the express condition that the Grantee, its agencies, departments, officers, agents, and employees are to be free from all liability and claim for damage by reason of any injury to any person or persons, including Grantor, or property of any kind whatsoever and to whomsoever belonging, including Grantor, from any cause or causes whatsoever, except matters arising out of the sole negligence of the Grantee, while in upon, or in any way connected with the Property, Grantor hereby covenanting and agreeing to indemnify and hold harmless the Grantee, its agencies, departments, officers, agents, and employees from all liability, loss, cost, and obligations on account of or arising out of such injuries or losses however occurring. The Grantee shall have no right of control over, nor duties and responsibilities with respect to the Property which would

subject the Grantee to any liability occurring upon the Property by virtue of the fact that the right of the Grantee to enter the Property or Easement Area is strictly limited to preventing uses inconsistent with the interest granted, the Property is not "property of a public entity" or "public property," and Grantee's rights herein do not include the right to enter the Property or Easement Area for the purposes of correcting any "dangerous condition" as those terms are defined by California Government Code Section 830.

J. SUCCESSORS AND ASSIGNS. The terms, covenants, conditions, exceptions, obligations, and reservations contained in this conveyance shall be binding upon and inure to the benefit of the successors and assigns of both the Grantor and the Grantee, whether voluntary or involuntary.

K. SEVERABILITY. If any provision of this easement is held to be invalid or for any reason becomes unenforceable, no other provision shall be thereby affected or impaired.

Before the Zoning Administrator in and for the County of Monterey, State of California

In the matter of the application of:
CAPPO REAL ESTATE HOLDINGS LLC (PLN240072)

RESOLUTION NO. 25-018

Resolution by the County of Monterey Zoning Administrator:

1) Finding the project qualifies for a Class 1 Categorical Exemption pursuant to Section 15301 of the CEQA guidelines, and that there are no exceptions pursuant to Section 15300.2 of the CEQA guidelines; and
2) Approving a Coastal Development Permit and Design Approval to allow construction of a 173 square foot deck, reconstruction of a retaining wall, construction of a landscaping path, and site improvements within 750 feet of known archaeological resources.

[PLN240072, CAPPO REAL ESTATE HOLDINGS LLC , 26357 Scenic Rd, Carmel, Carmel Area Land Use Plan, (APN: 009-442-018-000)]

The CAPPO REAL ESTATE HOLDINGS LLC application (PLN240072) came on for public hearing before the County of Monterey Zoning Administrator on May 8, 2025. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Zoning Administrator finds and decides as follows:

FINDINGS

1. **FINDING:** **CONSISTENCY** – The Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE:

a) During the course of review of this application, the project has been reviewed for consistency with the text, policies, and regulations in:
   - the 1982 County of Monterey General Plan;
   - Carmel Area Land Use Plan ;
   - County of Monterey Coastal Implementation Plan Part 4;
   - County of Monterey Zoning Ordinance (Title 20).

   No conflicts were found to exist. No communications were received during the course of review of the project indicating any inconsistencies with the text, policies, and regulations in these documents.

b) Allowed Use. The subject property is located at 26357 Scenic Rd, Carmel (Assessor's Parcel Number 009-442-018-000), Carmel Area Land Use Plan, and is within the Coastal Zone. The subject property is zoned Medium Density Residential with a maximum gross density of two units per acre, a Design Control overlay, and an 18 foot height limit in the Coastal Zone or "MDR/2-D(18)(CZ)". The Design Control overlay requires the granting of a Design Approval for all development.

As proposed, the project involves the construction of a 173 square foot deck, reconstruction of a retaining wall, and installation of site improvements, including landscaping and a walkway. The project also involves development within 750 feet of known archaeological resources and thus requires the granting of a Coastal Development Permit. Therefore, the project is an allowed land use for this site.

c) Lot Legality. The subject property is shown in its current configuration and under separate ownership as Lot 18 of Block 442 in Volume 1, Book 9, Page 44 of the 1964 and 1972 Assessor's Parcel Maps. Therefore, the County recognizes the subject property as a legal lot of record.

d) Review of Development Standards. The project meets all required development standards for Medium Density Residential or "MDR" zoning, which are identified in Title 20, Section 20.14.060. Pursuant to Title 20, Section 20.06.250, paths, patios, and decks less than 24 inches above grade do not count towards structural coverage. The proposed 173 square foot deck has a height of 23 inches above natural grade, and therefore will not be counted towards structural coverage. The proposed landscaping path will be partially located outside of the property line; an encroachment permit will be granted by HCD-Building Services to allow the encroachment. No other structural development is proposed at this time.

e) Design and Visual Resources. Pursuant to Title 20 Chapter 20.44, the project parcel and surrounding area are designated as a Design Control Zoning District ("D" zoning overlay), which regulates the location, size, configuration, materials, and colors of structures and fences to assure the protection of the public viewshed and neighborhood character. The existing exterior colors and materials are compatible with the surrounding environment and are consistent with the surrounding residential neighborhood character which will not be changed. The proposed development will not be visible from a scenic corridor or major common public viewing area due to location, topography, and intervening development and vegetation. Therefore, as proposed and conditioned, the project is compatible with the surrounding environment, consistent with the surrounding residential neighborhood character, and assures protection of the public viewshed and visual integrity.

f) Cultural Resources. According to county GIS records, the subject property is within 750 feet of a known archaeological resource. Pursuant to the Carmel Area Land Use Plan section 20.146.090.B.1, a Phase I and Phase II archaeological report (LIB240267) was prepared. The results of both the pedestrian survey and the subsurface evaluation were positive for pre-contact site indicators and intact midden associated with CA-MNT-17. The project scope was adjusted to minimize and avoid impacts to sensitive areas in conformance with Carmel Area Land Use Plan Policy 2.8.3.4. Measures to design the project to avoid potential impacts, as recommended by the project archaeologist, have been incorporated into the project's design and conditions of approval. To create the path, three inches of compacted aggregate and a layer of decomposed granite will be installed on top of the landscaping fabric.

This design ensures there is no ground disturbance within the known cultural resource area. Carmel Area Land Use Plan Policy 2.3.5.4 encourages the removal of non-native and invasive plant species. Prior to the hand removal of invasive plants within the sensitive resource area, a foliar herbicide shall be applied to the plants for 4 weeks. Excavation and/or digging into the existing soil is not permitted. Native dune species restoration within the resource boundary shall be limited to hand seeding and plugs no larger than 1.5-inches in diameter and 5.5-inches deep. The proposed deck utilizes two surface pier footings, which will be located outside of the mapped resource boundary. An archaeological monitor and a Tribal cultural monitor shall be retained to monitor all project-related ground disturbance, and a cultural resource sensitivity training shall be conducted prior to any ground-disturbing activities. All of these recommendations have been incorporated as conditions of approval pursuant to Carmel Area Coastal Implementation Plan section 20.146.090.D.2.a. Additionally, these recommendations are consistent with Public Resources Code section 21083.2(b), which require avoiding archaeological resources and capping resources.

g) Land Use Advisory Committee (LUAC) Review. The project was referred to the Carmel Unincorporated/Highlands Land Use Advisory Committee (LUAC) for review on December 2, 2024. The LUAC members voted 7-0 to support the project as proposed.

h) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in Project File PLN240072.

2. **FINDING:** **SITE SUITABILITY –** The site is physically suitable for the use proposed.

EVIDENCE:

a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, Environmental Health Bureau, and Cypress Fire Protection District. County staff reviewed the application materials and plans to verify that the project on the subject site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development. Conditions recommended have been incorporated.

b) Staff identified potential impacts to Cultural Resources. The following report has been prepared:

- "Archaeological Review" (County of Monterey Library No. LIB240267) prepared by Susan Morley, Marina, CA, May 2023.

The above-mentioned technical report by outside consultants indicated that there are no physical or environmental constraints that would indicate that the site is not suitable for the use proposed. County staff has independently reviewed these reports and concurs with their conclusions.

c) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD - Planning for the proposed development found in Project File PLN240072.

3. **FINDING:** **HEALTH AND SAFETY -** The establishment, maintenance, or operation of the use or structure applied for, will not, under the circumstances of the particular case, be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use; or be detrimental or injurious to property and improvements in the neighborhood; or to the general welfare of the County.

EVIDENCE:
a) The project has been reviewed for site suitability by the following departments and agencies: HCD-Planning, HCD-Engineering Services, HCD-Environmental Services, Environmental Health Bureau, and Cypress Fire Protection District. County staff reviewed the application materials and plans to verify that the project on the subject site conforms to the applicable plans and regulations, and there has been no indication from these departments/agencies that the site is not suitable for the development. Conditions recommended have been incorporated.
b) All necessary public facilities will continue to be provided to the main residence. Potable water is provided by California American Water, and sewer service is provided by Carmel Area Wastewater District.
c) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD - Planning for the proposed development found in Project File PLN240072.

4. **FINDING:** **NO VIOLATIONS -** The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

EVIDENCE:
a) Staff reviewed County of Monterey HCD Planning and Building Services Department records and is not aware of any violations existing on subject property and there are no known violations on the subject parcel.
b) The application, plans and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development are found in Project File PLN240072.

5. **FINDING:** **CEQA (Exempt): -** The project is categorically exempt from environmental review and no unusual circumstances were identified to exist for the proposed project.

EVIDENCE:
a) California Environmental Quality Act (CEQA) Guidelines Section 15301 categorically exempts minor alterations of existing public or private structures involving negligible or no expansion of existing or former use.
b) As proposed, the project involves the construction of a deck, reconstruction of a retaining wall, construction of a ramped landscaping path, and associated site improvements, which are accessory to and will not change the residential use of the property and existing dwelling. Therefore, the project meets the Class 1 Categorical Exemption requirements.
c) None of the exceptions under CEQA Guidelines Section 15300.2 apply to this project. There is no significant effect on the environment due to unusual circumstances. No trees are proposed for removal and the

proposed development is not visible from any scenic corridor or scenic highway. There is no cumulative impact without any prior successive projects of the same type in the same place, over time, and no new land use is proposed. The site is not included on any list compiled pursuant to Section 65962.5 of the Government Code to be considered a hazardous waste site. No known biological or historical (structural) resources are present. While there are known historical/cultural resources (archaeological) on-site, no structural development is proposed within these areas. The on-site cultural/archaeological resource has been identified as CA-MNT-17, a significant resource under CEQA eligibility requirements. However, the project has been designed to ensure there will be no impacts to this significant cultural resource by avoiding ground disturbance within its known boundary and capping the resource, as required by Public Resources Code section 21083.2(b). Further, as required by the Carmel Area Land Use Plan, this project's standard County Conditions of Approval incorporate the Project Archaeologist's recommendations and will ensure that no inadvertent impacts occur during construction. See Finding No. 1, evidence "e". Therefore, there is no evidence that the project would result in a potentially significant adverse change to a significant archaeological resource, nor would the project have a significant effect on the environment. Finally, there are no unusual circumstances associated with undertaking the project that would create a reasonable possibility that the project would have a significant effect on the environment.

d) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in Project File PLN240072.

6. **FINDING:** **APPEALABILITY -** The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

EVIDENCE: a) Board of Supervisors. Pursuant to Title 20, Section 20.86.030, an appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.

b) Coastal Commission. Pursuant to Title 20 section 20.86.080.A, the project is subject to appeal by/to the California Coastal Commission because it involves development between the sea and first through public road paralleling the sea (i.e., State Route/Highway 1 and Scenic Road) and because it involves development that is permitted in the underlying zone as a conditional use (development within 750 feet of known archaeological resources).

The purpose of the pre-construction cultural resources training program shall be to train the construction crew on how to identify potential cultural resources, and procedures for if previously unknown cultural resources are identified during construction operations. If at any time, potentially significant archaeological resources or intact features are discovered, Condition of Approval PD003(B) shall be adhered to. The Archaeological Monitor shall review and evaluate any inadvertent discoveries to determine if they are historical resource(s) and/or unique archaeological resources. If the Archaeological Monitor determines that any cultural resources exposed during construction constitute a historical resource and /or unique archaeological resource or tribal cultural resource under CEQA, he/she shall notify the project proponent and other appropriate parties of the evaluation. The Professional Archaeologist shall recommend mitigation measures to mitigate to a less than significant impact in accordance with California Public Resources Code Section 15064.5. Prior to initial ground disturbance, the Applicant/Owner shall submit evidence to HCD-Planning demonstrating that the pre-construction cultural resources training meeting occurred as required by this condition. Such evidence shall be in the form of a letter from the qualified archaeologist and a list of attendees

7. ON-SITE TRIBAL MONITOR

This Tribal Monitor shall have the authority to temporarily halt work in order to examine any potentially significant cultural materials or features. If resources are discovered, the Applicant/Owner/contractor shall refer to and comply with Condition PD003(B) as applicable. This condition is not intended to alleviate the responsibility of the owner or its agents from contacting the County Coroner and complying with State law if human remains are discovered.

The Applicant/Owner shall submit said plans to HCD-Planning for review and approval.

3b: Prior to the issuance of construction permits from HCD-Building Services, the Applicant/Owner shall submit evidence to the satisfaction of the Chief of HCD-Planning that a monitor traditionally and culturally affiliated with the vicinity of the subject parcel and that has consulted with the County and designated one lead contact person in accordance with AB 52 requirements, or other appropriately NAHC-recognized representative, has been retained to monitor the appropriate construction activities. This Tribal Monitor shall be retained for the duration of any project-related grading.

3c: Any artifacts found that are not associated with a finding of human remains shall be cataloged by both the Tribal Monitor and the qualified archaeological monitor. Once cataloged, the qualified archaeological monitor will take temporary possession of the artifacts for testing and reporting purposes. Upon completion of these testing and reporting activities, all artifacts, at the discretion of the Property Owner, shall be returned within one (1) year to a representative of the appropriate local tribe as recognized by the Native American Heritage Commission, or the Monterey County Historical Society. A final technical report containing the results of all analyses shall be completed within one year following completion of the fieldwork. This report shall be submitted to HCD-Planning and the Northwest Regional Information Center at Sonoma State University prior to final of construction permits. Artifacts associated with a finding of human remains shall be reburied in accordance with State Law and the penalty for violation pursuant to PRC section 5097.994.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the Director of Public Works, Facilities and Parks (PWFP) or designee to execute a Non-Standard Agreement between the County of Monterey and The Gordian Group, Inc. retroactive to June 7, 2026 (Agreement) and approve the recommendation of the PWFP Director to accept all non-standard provisions in the Agreement, including non-standard insurance provisions, to extend the Job Order Contract (JOC) program under Sourcewell Contract #010626-GCI through February 4, 2030 (Attachment A); and;

SUMMARY
The Department of Public Works, Facilities and Parks is one of the implementers of the Job Order Contracting (JOC) program for the County of Monterey (County). The County contracts with The Gordian Group, Inc. (Gordian) to provide the JOC system. The Gordian contract is procured through a cooperative award made by Sourcewell (formally National Joint Powers Association). The previous cooperative Contract 050421-GCI has expired and the County must execute a new Agreement with Gordian under Sourcewell Contract 010626-GCI in order to continue the County's JOC Program.

DISCUSSION:
California Public Contract Code Section (PCC) 20128.5 provides that counties may award annual contracts for repair, remodeling, or other repetitive work to be done according to unit prices. This

process is commonly referred to as Job Order Contracting (JOC) and is typically done by developing a construction task catalog that is then competitively bid. JOC improves economy and efficiency in completing many public works projects, including urgent and time sensitive projects.

On April 9, 2013, the Board of Supervisors approved Agreement No. A-12434 with Gordian to provide the County with a JOC system with an extensive catalog of construction tasks and associated technical specifications. Subsequent Sourcewell (formally National Joint Powers Association) Contracts #071415-GCI and #050421-GCI were utilized to continue the JOC program. Staff recommend services be continued under a new Agreement between the County and Gordian, procured through Sourcewell agreement Contract #010626-GCI. The resulting JOC construction task catalog and technical specifications must be updated annually to reflect changes in consumer prices indices and specifications and are used by the County to annually procure Job Order Contractors per California Public Contract Code Section (PCC) 20128.5.

The JOC program currently provided to the County by The Gordian Group, Inc. is referred to as the JOC Complete Solution®, which includes assistance with developing each job order from identification to job order issuance.

In addition to job order development services, the County has identified the need for The Gordian Group, Inc. to provide the JOC Complete Solution *Plus*TM option, which includes construction management services to manage job orders from job order issuance to completion of the punch list to job order close-out, construction estimating services, and project budgeting and planning, on a project by project basis as requested by the County.

A five percent (5%) License Fee to utilize the JOC Program is payable to The Gordian Group, Inc. only if and when a Job Order is issued to a JOC Contractor. Optionally, as needed, the County may utilize JOC Project Management services for an additional 5.95% fee. The Gordian Group, Inc. fees are contained in the overall eligible project budgets.

To date, the County has issued 1,107 JOC Projects totaling $315,762,732. The Gordian Group, Inc. License Fee and project management fees totaled $15,158,483 or an overall average 4.8% of the total construction contract value to date. This fee is lower than the industry standard of ten percent (10%) for Construction Management fees.

Local Preference
The County Board of Supervisors has expressed its support for hiring local contractors on County construction projects to keep County dollars within the local economy and encourage a high standard of workmanship. The County's JOC construction contracts include a requirement to perform work with not less than fifty percent (50%) of local workers. Over the last four quarters, 100% of JOC projects have met or exceeded this threshold.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel-Risk Management and Auditor-Controller's Office have reviewed and approved this Agreement as to form, indemnification and insurance, and fiscal provisions, respectively. The Director of PWFP recommends the Board approve this Agreement with all revised

terms and conditions.

FINANCING:
Funds for these services are contained within the approved budget allocations of each individual department that may choose to utilize the JOC services. Expenditures will depend on the actual services requested by individual County departments.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The JOC Program provides critical infrastructure work necessary to ensure the proper operation of County facilities and infrastructure, which contribute to improved quality of life for County residents.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. Such notice shall set forth the effective date of termination. 7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

Sustainability Framework Gordian is a subsidiary of Fortive Corporation as part of the Intelligent Operating Solutions business segment. Fortive publishes an annual Sustainability Report that can be found at the following link: https://fortive.com/sustainability#sustainability. Fortive's Sustainability Pillars guide our strategy and define goals to drive progress. Resources are focused on continuous improvement in these areas, knowing they drive business value while proactively mitigating risk. The Sustainability Pillars reflect the environmental, social, and governance issues that are most relevant to our business and are informed by our 2020 and 2023 materiality assessments and their near- and long-term value for the company and our stakeholders. • Innovate for Impact • Empower Inclusive Teams • Protect the Plant • Work & Source Responsibly • Operate with Principle Climate Change & GHG Emissions Climate change is one of the most pressing issues facing our planet today. Fortive recognizes that we must take bold action to mitigate the effects of climate change—which is why we committed to reduce absolute Scope 1 and 2 greenhouse gas (GHG) emissions 50% by 2029 from 2019 levels, consistent with the Science Based Targets Initiative (SBTi) guidance. Management Approach Fortive's strategy to reduce GHG emissions across all operations leverages core strengths—our data-driven culture, scaling smart and impactful results using FBS, and our commitment to kaizen to improve and sustain performance. To reduce our Scope 1 and 2 GHG emissions, our plans center on these three strategies: • Direct Emissions Reductions. Derived from GHG emissions reduction projects identified and implemented across our major sites. These range from infrastructure upgrades to process and workflow efficiencies and/or improvements. • Renewable Energy. Achieved through utility clean energy purchases, on-site renewable energy installations, and renewable energy certificates procured through unbundled and large-scale renewable energy power purchase agreements. • Organic Efficiency. Indirect emissions reductions gained via the continued addition of renewable energy to the electricity grid. Implementation of these initiatives is driven via cross-functional collaboration with Finance, EHS, Facilities, Operations, Procurement, and Legal teams across our operating companies. 2029 GHG Goal—Strategic Roadmap To hit these goals, Fortive has grounded our strategic plan with the following management priorities: • GHG targets for operating companies. To drive continuous improvement and investment of carbon reduction initiatives, each operating company has an annual GHG reduction target. Goals are scoped relative to the operating company's size and carbon intensity • Sustainability kaizens. Teams continuously evaluate and identify opportunities to reduce energy, sources of GHG emissions, water and waste inefficiency, and other sustainability components of our EHS risk score through a robust toolkit including regular sustainability kaizens and sustainability assessments. • Capital investments. Fortive supports capital funding for projects that deliver meaningful GHG emissions reductions. Projects are reviewed by the Fortive Sustainability team prior to the annual budget process, and approved projects are submitted for inclusion in the operating company's budget for the following year. • Renewable energy. Fortive's evolving renewable energy procurement strategy balances direct-through-utility procurement, on-site renewable energy installations, and large-scale, clean-	*

		energy initiatives. The investment community actively engages companies in their procurement of community and on-site renewable energy solutions to ensure consistency and integrity. The policy identifies viable renewable energy instruments and sources of renewable energy. Community Fortive operates on a global scale, but we also work to be a powerful force for active service and positive change in our local communities. Our teams contribute to and have a positive impact in the communities around the world where we live and work. Section A - Every Phase of the Building Lifecycle

At Gordian, we're developing innovative solutions for every phase of the building lifecycle. From construction planning and building to facility operations, we're helping our customers overcome their business challenges by delivering critical data, innovative technology and extraordinary service.

Continuous Innovation

Since our incorporation in 1990, Gordian has been providing JOC solutions to help public and private facility and infrastructure owners control and fast-track their construction repairs and alterations. During these 35 years, we have successfully implemented and supported JOC programs for nearly 300 clients in the United States, with approximately 1,200 construction companies participating in one or more of those programs.

JOC procurement was pioneered and tested by our founder, Ret. Lt. Colonel Harry H. Mellon, for the U.S. military over three decades ago. It is an increasingly popular construction procurement method among facility and infrastructure owners to quickly and easily accomplish repair, alteration, and construction projects.

Since Harry Mellon created JOC and co-founded Gordian, our primary focus has been the advancement and improvement of efficient and effective processes across the entire construction lifecycle. During that time, we have developed a wealth of data, technology, process, and human resources that are unmatched in the industry. Gordian has continued to innovate and refine our JOC products and services and the underlying components that form them to meet the varying needs of our clients. Gordian's JOC solutions are designed to minimize the amount of effort required by the owner while maximizing the benefits.

Retention & Expansion Specialists

As mentioned previously in Item 28, Gordian has a specialized team to strategically support JOC Program growth. These roles are structured around two core pillars of program success: strong client relationships and a capable contractor pool. Two specialists focus on client engagement, while three are dedicated to contractor development. This dual approach reflects a tailored strategy to strengthen both sides of the program, with these newly created roles—launched in 2025—designed to drive sustainable expansion and value. Gordian CTC

Construction Task Catalog (CTC)

Our team of experienced cost estimators has prepared more than 3,000 customized CTCs, specifically designed for JOC programs. Our team of over 50 data scientists and construction industry experts continuously researches the construction cost database through a structured, formulaic methodology that ensures accuracy and consistency across all tasks. Each line item contains national, regional, or local material, labor, and equipment cost, targeting the appropriate source for each.

Gordian's CTC is a comprehensive Unit Price Book (UPB) that includes over 275,000 locally priced construction tasks.

Gordian Cloud Platform—AI-Powered Scope Development

Gordian's Cloud Platform includes an innovative AI-powered Scope of Work Assistant designed to transform how Sourcewell participating entities develop detailed scopes for construction projects. This tool leverages advanced natural language processing and Gordian's proprietary construction data to automate scope creation, reducing manual effort and accelerating project initiation. By analyzing project requirements and user input, the assistant generates comprehensive, contract-compliant scopes that include inclusions, exclusions, and scheduling considerations – ensuring clarity and precision from the start.

Unique Attributes and Industry Differentiation

Unlike generic AI solutions, Gordian's assistant is deeply integrated with the CTC data and job order contracting workflows, making it uniquely suited for public procurement environments. The tool dynamically interacts with users, asking clarifying questions and refining outputs to deliver scopes tailored to each project's needs. It also references historical job orders and contract-specific task catalogs, ensuring accuracy and consistency across multiple projects. This integration earned Gordian recognition through innovation awards, underscoring its role as a disruptor in construction procurement technology.

Benefits for Sourcewell Participating Entities

For Sourcewell Participating Entities, this AI capability translates into measurable advantages:

- Efficiency. Dramatically reduces time spent drafting scopes manually.
- Accuracy. Ensures compliance with industry standards and contract requirements.
- Scalability. Supports multiple projects and stakeholders with consistent, high-quality outputs.
- Risk Reduction. Provides structured, professional scopes that minimize ambiguity and change orders.

By combining automation with Gordian's decades of expertise in construction cost data and procurement, the AI-powered Scope of Work Assistant delivers a solution that is not only unique in the industry but also purpose-built to meet the needs of Sourcewell participating entities.

Gordian's Role in Legislative Advocacy

Gordian understands that the long-term success of Cooperative Purchasing and JOC programs depends on a strong and supportive legislative framework. We take a proactive approach to shaping and safeguarding policies that promote efficiency, transparency, and compliance. Our efforts focus on advancing legislation that benefits public agencies and contractors while actively monitoring and opposing proposals that could hinder these procurement methods. Through strategic collaboration with industry associations and policymakers, Gordian helps maintain current laws and influence future regulations to foster innovation and best practices.

Key Highlights of Our Legislative Commitment

• Industry Leadership. As the creator of JOC, Gordian champions legislation that strengthens Cooperative Purchasing and JOC programs.
• Proactive Investment. We invest in advocacy efforts to promote laws that improve procurement efficiency, transparency, and compliance.
• Risk Mitigation. Gordian actively monitors legislative activity to prevent harmful policies that could negatively impact cooperative purchasing or JOC.
• Collaboration. We work with industry associations, policymakers, and legal experts to ensure regulations support innovation and best practices.
• Future-Focused. Our commitment safeguards current laws and influences future legislation for the benefit of public agencies and contractors.

Benefits for Sourcewell Participating Entities

Gordian's proactive legislative advocacy directly benefits Sourcewell and its Entities by ensuring a stable, compliant, and forward-thinking procurement environment. By championing laws that strengthen Cooperative Purchasing and JOC, Gordian helps protect the flexibility and efficiency that Sourcewell entities rely on to deliver projects quickly and cost-effectively. Our efforts to prevent harmful legislation safeguard agencies from disruptions that could limit cooperative contracting options or increase administrative burdens. This commitment ensures Sourcewell participants can confidently leverage JOC programs knowing they are supported by a strong legal foundation designed to promote transparency, innovation, and long-term success.

46	Describe your approach to developing, implementing, and supporting JOC or IDIQ programs for governmental or educational agencies.	New Owner Startup and Implementation All Gordian JOC solutions follow the same essential steps to develop and implement your organization's JOC program. These steps include: • Implementation Kickoff. During the kickoff meeting, Gordian introduces our Program Design & Contracts (PD&C) and Operations team members to Sourcewell Participating Agencies, outlining the implementation process, roles, and responsibilities. We discuss expectations, JOC program parameters, agency requirements, bid document preparation, anticipated work types, CTC preparation, and planned work volume. Gordian also addresses contractor outreach and confirms the schedule, including solicitation package approval, legal review, and contract award timeframe. Regular touch-point meetings are established to provide updates and address critical path items. • Conducting Contractor Outreach and Engagement. Gordian collaborates with each Participating Agency to develop a comprehensive outreach plan, including creating a list of performing contractors, identifying qualified candidates, and contacting local industry associations. We work with Sourcewell's Diversity, Equity, and Inclusion (DEI) department to include small, diverse, and emerging businesses. The plan features targeted efforts and JOC Informational Seminars to generate contractor interest and encourage attendance at the pre-bid meeting. • Designing the Program. Based on kickoff discussions, Gordian presents the Participating Agencies with a customized program design framework, including recommendations on contract types, geographic areas, award methods, evaluation criteria, contract terms, adjustment factors, subcontractor participation goals, and contractor outreach. This ensures each Participating Agency is well equipped to execute and manage its JOC program. • Developing the Front-End Bid Documents. Gordian supports the development of front-end bid documents by incorporating JOC-specific language, procedures, and definitions into each Participating Agency's standard Contract and General Conditions. Boilerplate documents are reviewed and updated based on the contract award type. Gordian's Implementation team prepares the initial version of bid documents by including JOC-system language for the Agency to review and critique until it is determined that the Bid Documents are ready for legal review. • Developing and Customizing the Construction Task Catalog and Technical Specifications. Gordian develops and customizes the CTC and technical specifications, including localized unit prices for labor, equipment, and materials, and the Participating Agency's technical specifications. We provide an overview of the CTC, guidelines for its use, and a review of the Table of Contents. New tasks are researched and developed as needed, and the final CTC is published before advertising the Job Order Contracts. • Competitive Procurement. Once the Bid and Contract Documents are approved and contractor outreach is complete, the Job Order Contracts follow the same competitive procurement process as the Participating Agency's other construction bids. Gordian participates in the pre-bid meeting, helping develop the agenda and providing a presentation. Contractors can submit questions, with Gordian assisting in drafting responses and addenda. Each Agency conducts the public bid opening, evaluates proposals, and executes the contracts. • Developing Execution Procedures. Gordian collaborates with each Participating Agency to develop detailed execution procedures for procuring work, covering project initiation, development, Minority Business Enterprise (MBE)/Women-Owned Business Enterprise (WBE) compliance, permit requirements, project review and approval, project close-out, and payment processes. Gordian drafts, reviews, and revises these procedures to ensure smooth implementation. • Configuring the Information Management System (IMS). Gordian collaborates with each Participating Agency to configure and customize the JOC IMS, designed to track milestone events, subcontractor participation, diversity rates, budgets, and tracking dates. The IMS maintains detailed records of Price Proposals and includes forms and management reports to track JOC usage and performance. Awarded contracts are loaded into the JOC IMS. • Conducting Training. Gordian develops comprehensive training materials and provides specialized sessions for the Participating Agency and JOC contractor staff. Training includes a JOC Overview, detailed sessions on Contract Documents, Execution Procedures, Job Order Development, and the Gordian JOC IMS. Refresher training is provided as needed, and e-learning materials are available for self-paced training. • Ongoing Support and Maintenance. Gordian provides ongoing technical support, including JOC program updates, contract implementation, and software support. Updates involve providing Participating Agency's with updated Contract Documents, monitoring changes, recommending improvements, developing pre-award criteria, and customizing the JOC process. Software support is provided through on-site personnel, remote access, and a toll-free support line. Gordian's JOC program development and implementation for new Owners ensures Participating Agencies receive a well-structured, efficient, and effective JOC program tailored to their organization's specific needs, enhancing your ability to manage and execute construction projects successfully. A partnership between Gordian and Sourcewell's Participating Agencies will yield many successful repair, renovation, and straightforward construction projects.
47	Describe the JOC or IDIQ unit pricing method(s) employed by your organization and how it is developed and maintained.	As mentioned above, our team of experienced cost estimators has prepared more than 3,000 customized CTCs, specifically designed for JOC programs. Our team of over 50 data scientists and construction industry experts continuously researches the construction cost database through a structured, formulaic methodology that ensures accuracy and consistency

areas like hazardous materials, roadways, paving, wastewater treatment, and healthcare facilities.

Gordian's Construction Task Catalog (CTC) is a comprehensive Unit Price Book (UPB) that includes over 275,000 locally priced construction tasks. Each task in the CTC includes a description, unit of measure, installation price, and, if necessary, demolition price. Tasks may also have several modifiers that adjust the price for variations in materials or for quantity discounts. The CTC is integrated into the Gordian Cloud Platform, streamlining the procurement process and simplifying project management.

Gordian's CTC is based on local prevailing wages and material and equipment costs, which are obtained directly from local subcontractors and suppliers, utilizing RSMeans data. This approach avoids the financial consequences of using national average pricing, which may not reflect local market conditions.

Gordian's CTC is specific to Sourcewell's operating environment and the types of projects they execute. All task prices in the CTC are already localized.

Gordian's CTC pricing is contract-ready, meaning it doesn't require additional adjustments. This ensures additional costs are not added by the contractor to cover such things as general conditions.

Gordian's CTC is very specific and defines the exact items to be used, which makes the resulting pricing accurate and reliable. Some competitors' solutions rely on average items, making the pricing less precise and subject to changes as the average items are replaced by the actual items. Sourcewell's CTC will be definitive, eliminating the need for contractors adjusting pricing outside of the agreed-to values.

Gordian's CTC includes all tasks required to complete renovation, repair, and replacement projects. This ensures project prices reflect all costs required, such as demolition. Using a less comprehensive pricing approach can add cost overruns and

		design of the Job, additional labor must be negotiated for each project. • Quantity Discounts. The CTC used by Sourcewell will reflect quantity discounts to ensure best pricing is obtained based on the actual work to be done. Pricing that doesn't account for quantity discounts tends to be inflated, and Sourcewell can end up spending more than is required.
48	Describe the JOC or IDIQ program training available to participating agency staff and contractor personnel.	Detailed information of each training session is provided below. JOC Overview The JOC Overview training is a general-purpose introduction designed to familiarize Participating Entity staff with the JOC concept. Topics include an overall JOC orientation as well as a discussion of how JOC is implemented. In addition, JOC is presented from a contractor's perspective so they better understand the contractor's risk and potential reward. JOC Contract Documents The JOC Contract Documents session is a detailed discussion of the contractual terms of the contract. This session is designed for project managers and procurement staff. The contract documents are the rules under which the JOC program is implemented. It is critical that key operational and procurement staff fully understand the Contract Documents. JOC Program Execution The JOC Program Execution session includes a detailed, comprehensive review of the approved JOC Execution Procedures. Training for this module includes ensuring that facilities and procurement staff have a full understanding of the procedures and forms that are used to approve JOC work. The 5-step Job Order Development session covers training on a complete series of practical exercises designed to prepare a Job Order based on actual Participating Entity projects. Gordian provides each entity with the necessary support to ensure their staff can properly develop Job Orders. Gordian reviews the procedures and forms that need to be completed for each step in the process. A summary of the 5 steps is: • Joint Scope Meeting • Detailed Scope of Work • Price Proposal • Price Proposal Review • Issue Job Order JOC Gordian Cloud Platform Training The JOC Gordian Cloud Platform training program is designed to equip participants with comprehensive knowledge and practical skills across various critical areas, including navigating and optimizing the use of the Cloud Platform, mastering JOC Administration tasks, understanding the nuances of General JOC Management, and enhancing abilities in developing effective proposals and generating detailed reports to drive project success. JOC Refresher Training Gordian provides JOC refresher training as needed or requested by each Participating Entity. Our refresher training consists of a discussion of all aspects of the JOC program and is offered to those who have had an opportunity to get some actual experience with the JOC process. These sessions are focused on the lessons learned and the sharing of those lessons with other staff members. Refresher training also helps identify any problems that may be occurring. Gordian continues to conduct as many training sessions as required to ensure that your staff and the JOC contractors are fully prepared to execute the JOC program. Self-Paced Training Portal In addition to specific training sessions that are handled by your Gordian Account Manager, Gordian offers eLearning collateral for self-paced training opportunities. Upon award, your team is provided with a link to sign up for this portal. Once enrolled, you are able to access the eLearning URL, either directly or through the Help Center, whenever it is convenient for you. The Help Center offers real-time supplemental training, new release notes, and much more. From a drop-down menu, you can select a role such as Contractor or Owner to access relevant content for your specific role in the JOC program. From there you just need to click the Start button under the course title to view the content. Ongoing Training Support Gordian provides ongoing training support during the term of the contract, including: • JOC Program Updates • Contract Implementation and Support • Software Support and Maintenance

49	Explain your method of addressing change orders within the JOC or IDIQ program.	JOC uses fixed, preset pricing for all contractor work, whether it's part of the original job or added later as a supplemental order. If unexpected changes or new requirements arise, these are priced using the Construction Task Catalog, calculated by multiplying the unit price, the contractor's adjustment factor, and the quantity. This streamlined process means projects don't have to stop for renegotiation—supplemental orders are handled just like the original ones. When changes occur, the contractor submits a new price proposal for review. The facility owner then issues a new job order for the extra work or credits for any reductions. Importantly, every change order is priced consistently with the original proposal. This approach fosters collaboration and clear communication between owners and contractors and avoids the disruptions and disputes common in traditional construction bidding. If there is a change in scope for a job, meaning the volume reduces or increases, there is a Supplemental Order that is put through the system, invoiced the same as the base project. If the Participating Entity cancels a job and a credit is needed, the status of the job will be updated as follows: • If the Participating Agency has not paid the billable invoice, the credit will automatically apply to the open invoice resolving the balance • If the billable invoice has been paid, the credit will be sent to the customer for them to apply to an open invoice or receive a refund • If the credit supplemental has not been used, AR will apply the newly created Invoice to the credit • If the credit supplemental has been used, AR will send the invoice to the customer to collect payment

Provide detailed pricing information in the questions that follow below.

Line Item	Question	Response*	
59	Describe your payment terms and accepted payment methods.	Gordian's payment terms are net due thirty (30) days from receipt. Gordian accepts ACH and remittance via check.	*
60	Describe any leasing or financing options available for use by educational or governmental entities.	Leasing and financing options are not applicable to the scope of this RFP.	*
61	Describe any standard transaction documents that you propose to use in connection with an awarded agreement (order forms, terms and conditions, service level agreements, etc.). Upload all template agreements or transaction documents which may be proposed to Participating Entities.	The SaaS Agreement and the JOC System License have been uploaded via the portal as requested. For the avoidance of doubt, all purchases by members shall be subject to the SaaS Terms of Use and JOC System License provided herewith unless otherwise agreed to in a participating entity addendum or other written agreement between Gordian and a member.	*
62	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	No, Gordian does not accept P-card for the scope of software and related services in this RFP.	*
63	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	A significant benefit of Gordian's approach to providing our JOC solutions is that we do not charge an upfront fee to our clients to implement a JOC program. Our contracts are pure performance-based contracts; we do not succeed unless Sourcewell Participating Entities succeed. Accordingly, there is no risk to Sourcewell Entities for the development and implementation of a Gordian JOC program since the Entity is under no obligation to use the program once it is operational. However, we are 100% confident that the Entity will continue to see the substantial time and cost savings afforded by a Gordian JOC program. JOC Solution The pricing set forth below includes all products and services described as the JOC Solution within the proposal. This includes all products, services, and training necessary to implement a successful, client-managed JOC program and does not include the Job Order Development services or Project Management services referenced in the proposal. Gordian's standard fee for the JOC Solution products and services consists of a license fee (Member License Fee) that is assessed when customers utilize our proprietary materials and information management application to procure construction. These fees, as detailed below, are structured on a not-to-exceed basis, ensuring cost predictability and transparency for our clients. • Participating Entity License Fee. Participating Entity shall pay Gordian a License Fee equal to five percent (5%) of the first eight million dollars ($8,000,000} in construction volume procured through their JOC program, and a License Fee equal to one and ninety-five hundredths percent (1.95%) of the value of the work ordered thereafter. The License Fee is invoiced and payable upon the issuance of a Job Order, Purchase Order, or similar purchasing document from the Participating Entity to a JOC contractor. Payments are due thirty (30) days from the date of invoice. Job Order Development Services Gordian will perform the optional Job Order Development services described in the proposal as part of a turnkey JOC program for all JOC projects procured by the Participating Entity, or these services may be provided on a project-by-project basis upon request by the Participating Entity. For each Job Order assigned to Gordian for Job Order Development services, a Job Order Development Fee shall be assessed in addition to the Participating Entity License Fee set forth above: • Job Order Development Fee. Three and five hundredths percent (3.05%) of the value of work ordered. The Job Order Development Fee is invoiced and payable upon the issuance of a Job Order, Purchase Order, or similar purchasing document from the Participating Entity to a JOC contractor. Payments are due thirty (30) days from the date of invoice. The Job Order development fee will only be applied when the services are requested by the Participating Entity on a project-by-project basis. In the event Job Order Development services are provided during the procurement of the initial $8,000,000 in construction procured by the Participating Entity, the Participating Entity License fee shall be assessed at 1.95% of the value of construction, and the aggregate fee assessed to the Participating Entity, exclusive of any project management services, shall not exceed 5%. Project Management Services Gordian's fees to provide project management services as described in the proposal consists of a Project Management Fee that will be assessed in addition to the Participating Entity License Fee and Job Order Development Fee described above. The Project Management	*

		Fee Structure • Project Management Fee. Five and ninety-five hundredths percent (5.95%) of the value of the work ordered through the JOC program. The Project Management Fee is payable when construction of the Job Order has been completed and accepted by the Participating Entity , except at the election of Gordian, any Job Order requiring more than sixty (60) days to complete will be invoiced monthly on a percentage of completion basis. The Project Management Fee will only apply when Job Order Contracting Complete Management services are requested by the Participating Entity. Contractor License Fee In addition to the fees assessed to Participating Entities, Gordian will charge each JOC contractor a contractor license fee (Contractor License Fee) of one percent (1.00%) of the value of each Job Order, Purchase Order, or similar purchasing document issued to the JOC contractor by a Participating Entity. The Contractor License Fee is assessed to the JOC contractor in return for their access to our proprietary construction data and JOC applications and is not a direct cost to the Participating Entity. Gordian is responsible for all administrative duties related to the invoicing and collections of the Contractor License Fee. The Contractor License Fee is payable by the JOC contractor when a Job Order is issued by the Participating Entity.	
64	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Our pricing proposal does not include a formal discount structure; however, Gordian's pricing is consistently as good as or better than rates typically available through existing cooperative contracts, state contracts, or individual agency agreements. This approach ensures competitive and fair pricing without requiring additional concessions.	*
65	Describe any quantity or volume discounts or rebate programs that you offer.	While no discount is applied within this proposal, Gordian may offer independent volume-based discounts in the future based on total construction spend or individual project spend. These potential discounts are designed to deliver additional value and efficiency for agencies by reducing overall costs as project volume increases. This approach not only incentivizes agencies to maximize the use of the contract but also supports long-term planning and budget optimization. By aligning pricing benefits with construction activity, Gordian helps participating agencies achieve greater cost savings, streamline procurement, and enhance the overall impact of their capital improvement programs.	*
66	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "non-contracted items". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	The stronger and more complete the CTC is, the less there will be a need for Non-Prepriced (NPP) tasks. This often-overlooked concept can become critical to the success of Sourcewell's JOC Program due to the enormous variety of public agencies served by Sourcewell. Our JOC Program must stand ready to adequately serve school districts, regional educational service agencies, technical schools, charter schools, colleges and universities, libraries, local and regional government offices, counties, municipalities, townships, and other eligible tax-exempt nonprofits. Gordian recognizes these agencies are under no obligation to use Sourcewell's JOC Program. If our Program cannot be competitive in the marketplace, it may be forced to potentially lose work within the customer base due to bid thresholds and disqualifying levels of NPP usage. As trusted partners to Sourcewell we are cognizant of this dynamic and its impact on all parties. Our Gordian JOC Software includes non-prepriced tasks only when contractors attach requisite quotes or supporting documentation, resulting in the following benefits: • Creates an auditable record for evaluation in updated CTCs for future JOC solicitations. • Gordian reviews non-prepriced items and develops prepriced tasks for inclusion in subsequent CTCs, ensuring market price payment and avoiding excessive use of non-prepriced tasks. • Gordian's data resources provide customers with the most updated, accurate cost data in the market today.	*
67	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	The JOC License Fee and other fees are based on a percentage of the value of the work ordered. There are no additional fees.	*

68	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Gordian provides software and related services. There are no shipping charges for these services.	*
69	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Gordian provides software and related services. There are no shipping charges for these services.	*
70	Describe any unique distribution and/or delivery methods or options offered in your proposal.	This is not applicable to the scope of services requested in this RFP.	*
71	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed agreement with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing.	The volume of construction procured by participating entities through the JOC program is meticulously tracked and reported using Gordian's JOC Software. All financial reporting will be managed through Gordian's NetSuite ERP system, which allows for seamless identification and reporting of Sourcewell purchases throughout the duration of the contract. Given that Gordian supports over $1 billion annually in cooperatively purchased construction services, our financial systems are specifically configured to provide precise reporting and the accurate payment of administrative fees to cooperative purchasing agencies. This robust infrastructure underscores our commitment to transparency and accountability in financial operations. Gordian pioneered the system that facilitates construction procurement through cooperative programs. We offer unparalleled marketing, sales, operations, and technology resources to ensure the success of partnerships, such as the one with Equalis. Our expertise and innovative solutions uniquely position us to support and enhance the cooperative purchasing experience, ultimately delivering exceptional value to our clients.	*
72	If you are awarded an agreement, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the agreement.	KPIs can be established for individual projects, project managers, contractors, and/or the time it takes to complete each step in the Job Order Development Process. This measures the success of both the system and the process and provides tools for management to make improvements. Examples include: • Procurement—Average days between Job Order Initiated and Job Order Issued • Delivery—Average days between Job Order Issued and Construction End • Initial Proposal Amount vs. Approved Proposal Amount • Number of Supplementals or Change Orders • Contractors Responsiveness/Performance	*
73	Provide a proposed Administration Fee payable to Sourcewell. The Fee is in consideration for the support and services provided by Sourcewell. The proposed Administrative Fee will be payable to Sourcewell on all completed transactions to Participating Entities utilizing this Agreement. The Administrative Fee will be calculated as a stated percentage, or flat fee as may be applicable, of all completed transactions utilizing this Master Agreement within the preceding Reporting Period defined in the agreement.	Gordian proposes a 2% Administration Fee.	*

Table 6B: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments	
74	The pricing offered is as good as or better than pricing typically offered through existing cooperative contracts, state contracts, or agencies.	The pricing proposed in this response is highly competitive and designed to deliver maximum value to Sourcewell's Participating Entities. In fact, our pricing structure is as good as, or better than, rates typically available through existing cooperative contracts, state contracts, or individual agency agreements. This approach will ensure Member Agencies benefit from cost efficiency without sacrificing quality or service.	*

Support services include unlimited toll-free JOC Software support, access to all JOC Software updates and additional functionality, updating the CTC for each new JOC contract, as well as Technical Specifications, Contract and General Conditions, and Bid Documents. Gordian's JOC Complete Solution—Job Order Development Services Gordian's JOC Complete Solution includes all the services and tools offered in JOC Advanced, plus additional Job Order Development Services that guide Sourcewell through every step of the process, from initial project identification to final purchase order issuance, ensuring efficiency, cost control, transparency, and flexibility throughout the entire project lifecycle. Successful, efficient, and cost-effective JOC projects begin with a coordinated work authorization process known as Job Order Development. This process ensures all parties understand the scope of work and the tasks required to complete it. Developing the Job Order is crucial for controlling costs, as it guarantees Sourcewell pays for the correct tasks, in the proper quantity, and at the correct competitively bid price. Qualified project managers are essential for developing each Job Order to maintain a transparent and auditable project procurement process, ensuring Sourcewell pays only the competitively bid price for each Job Order. Gordian's Account Managers confirm that each of the following tasks is performed to properly develop each Job Order for Sourcewell: • Selection of JOC as a Procurement Method. Gordian Account Managers review project details to confirm the identified project is a viable candidate for JOC, following Sourcewell policies and the requirements of each state's Public Contract Code. • Contractor Identification. In the event Sourcewell has multiple JOC contractors, we provide Sourcewell with recommendations on awarding JOC contracts, guiding the selection process with a focus on matching the right contractor to each project. Our criteria include the nature of the work, project location, and other key factors like the contractor's available capacity, current workload, and past performance, ensuring that each selection is well-justified and documented. • Joint Scope Meeting. Once the JOC Contractor is identified, a Gordian Account Manager promptly schedules a Joint Scope Meeting at the project site. This meeting aligns Sourcewell and the JOC contractor on all work details, including verification of measurements taken by the JOC contractor. The scoping process allows the JOC contractor to inspect the site and ask questions before submitting a Price Proposal. This upfront open communication eliminates the misunderstandings and mistakes that

1. Joint Scope Meeting. This results in more cost-effective collaborative solutions. During the Joint Scope Meeting, Gordian's Account Manager ensures the following goals are set and topics are covered:

Set expectations and explain the five-step Job Order development process
Discuss the work to be performed and review project drawings
Indicate the presence of any hazardous materials
Identify any required permits
Identify any long lead time items
Establish a protocol for workers entering the site
Identify staging areas and any area off-limits to workers
Discuss the construction schedule and work hours, including critical milestones and phasing requirements
Identify any necessary controlled inspections and testing requirements
Submit any value engineering suggestions
Discuss and establish the organization of the Price Proposal, utilizing the Construction Specifications Institute (CSI) MasterFormat, by floor, by room, by construction phase, etc.
Establish the due date for submission of the Detailed Scope of Work and Price Proposal

• Detailed Scope of Work. If there are:

No drawings and specifications issued for the project, Gordian prepares detailed Joint Scope Meeting notes and, if needed, assists the contractors in preparing the Detailed Scope of Work following Sourcewell's requested project scope.
Drawings and specifications, Gordian reviews the documents with the JOC contractor and raises any issues or concerns.

The drawings and specifications serve as the Detailed Scope of Work, along with any documentation or details that result from the Joint Scope Meeting or ensuing scoping process. Gordian coordinates and combines all this information to produce a final Detailed Scope of Work for inclusion in the work order package.

• Prepare the Price Proposal. The JOC contractor prepares and submits a Price Proposal by selecting the appropriate tasks from the CTC. Our JOC IMS automatically calculates the total cost for each line item by multiplying the unit price of the task by the required quantities and the JOC contractor's competitively bid Adjustment Factor. The JOC contractor also prepares additional Sourcewell-required information (e.g., construction schedule, list of proposed local subcontractors, etc.).

• Price Proposal Review. The Gordian Account Manager reviews the contractor's price proposal, following our strict procedures.

For each pre-priced task, the following confirmations are made:
The selected task is necessary and required to accomplish the work.
The selected task is the most appropriate one available in the CTC for the required item of work.
The correct quantities have been entered based on the project documents and Detailed Scope of Work.
The correct Adjustment Factor has been entered.

For each non-pre-priced task, the following confirmations are made:
It is a required task to accomplish the work.
No pre-priced construction task is available to accomplish the work.
No pre-priced construction task is available that covers a portion of the work, such as labor or materials.
The labor hours for self-performed work are priced using the CTC. These hours are not included in the non-pre-priced task unless the labor classification is not listed in the CTC.
The required backup documentation has been submitted, including:
Three verified independent quotes for material and subcontractor prices.
Shop drawings, catalog cuts, samples, and technical data, if applicable.
The contractor has properly calculated the non-pre-priced item cost using the equation contained in their contract.

Comments and revisions are transmitted to the JOC contractor with explanations for the required changes.

If a meeting is required to review the Price Proposal changes, Gordian's Account Manager continues to:
Document and clearly explain the changes requested to the JOC contractor's Price Proposal.
Submit a red-lined version of the Price Proposal to the JOC contractor before any review meeting, enabling the contractor to review and research all changes beforehand.
Be prepared to make any necessary changes to the Price Proposal, the independent estimate, and the Detailed Scope of Work. Complex projects may require changes to each of these three documents to ensure consistency.
Ensure the JOC contractor provides supporting documentation for the quantities contained in the Price Proposal and the selection of specific tasks and calculations at issue.
Use a fact-based, methodological approach to justify task revisions and quantity adjustments.

If the Gordian Account Manager is unable to facilitate an agreement on the final

Price Proposal Key Takeaways 010626-GCI

Price Proposal will take actions to ensure a resolution:

Coordinate a Follow-Up Meeting. The Account Manager arranges a follow-up meeting at the project site to address and resolve any issues related to access, quantities, or other concerns.

Facilitate Necessary Revisions. The Account Manager facilitates any necessary revisions to the Detailed Scope of Work to accommodate contingencies when a quantity or line item remains in dispute at the time the Job Order is issued. This ensures the JOC contractor is fairly compensated for all required work, while Sourcewell is only charged for work performed. These contingencies should only be allowed when a task or quantity is in dispute at the time the Job Order is issued.

- Issue Job Order. Once Sourcewell is satisfied with the Price Proposal and related documents and decides to move forward with the project, Gordian assists with obtaining the necessary approvals and issuing a purchase order to the contractor in compliance with Sourcewell's JOC policy.

Gordian's JOC Complete Solution offers Job Order Development services as part of a comprehensive support package for your organization's JOC program, ensuring that the tasks above are performed on all Job Orders issued.

Construction Cost Database

Gordian's construction cost data is the most comprehensive and accurate in the market, drawn from a constantly updated database of over 275,000 tasks. Our construction cost database is built using unmatched expertise, relying on exhaustive research and decades of historical data.

We are unparalleled in the resources we commit to ensuring the accuracy and comprehensiveness of our construction cost database. Our dedicated team, cutting-edge technology, and rigorous data validation processes set us apart in the industry. By identifying, reviewing, and verifying any pricing anomalies before publication, we guarantee the highest level of precision and reliability.

Our team of over 50 data scientists and construction industry experts dedicates 22,000 labor hours annually to continuously research and update the database. This

		structured framework methodology to ensure accuracy and consistency across all tasks. Each line item contains national, regional, or local material, labor, and equipment costs, targeting the appropriate source for each. The Construction Task Catalog To develop Sourcewell's CTC, we use local prevailing wages—or The Prevailing Wage Law that establishes minimum wage rates for workers on public construction projects—and current actual material costs, and equipment rates—which we obtain directly from local subcontractors and suppliers—specific to each coverage area to price our CTCs. With the approval of Sourcewell, Gordian uses this data to determine the number of regionalized catalogs to create. JOC Information Management System (IMS) Gordian has developed a best-in-class JOC IMS that manages the development of each Job Order from project initiation to completion. It tracks all critical dates and information needed to manage a successful JOC program, including summary reports for each contractor, client, or region, project milestones, dollar value spent, estimated date of completion, and any other client-specific participation, inclusion, and/or contract compliance. It's common to have many JOC projects going at one time. That's why it is considered best practice to administer your contracts via a comprehensive program management software built specifically for JOC. A robust and reliable software application serves as your program's command center, centralizing all communications, documents, and information to give you greater control over every project.

I. ABOUT SOURCEWELL

A. SOURCEWELL

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and master agreement award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements (including Canadian Free Trade Agreement, Ontario-Quebec Trade and Cooperation Agreement, and Canada-European Union Comprehensive Economic and Trade Agreement, as applicable), and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and master agreement expanding the reach of awarded suppliers' potential pool of end users.

A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell master agreements is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In addition, where applicable, other purchasing cooperatives and procurement officials receive notice and are encouraged to re-post the solicitation opportunity.

Proof of publication will be available at the conclusion of the solicitation process.

C. INTERGOVERNMENTAL SUPPORT AGREEMENTS

Pursuant to 10 U.S.C. § 2679, United States Department of Defense authorized installations may access Sourcewell's awarded cooperative purchasing master agreements through an Intergovernmental Support Agreement with Sourcewell. All transactions completed through this Intergovernmental Support program are directly facilitated by Sourcewell and may be subject to additional terms and conditions.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, school district, or regional cooperative.

1. Sourcewell is seeking proposals for JOC or IDIQ Program Management Consulting Services, including services for the development, design, implementation, management, oversight, and direction of job order contracting (JOC) or indefinite delivery, indefinite quantity construction contracting (IDIQ) programs for Sourcewell Participating Agencies, such as:

    a. Consulting with Participating Agencies in the development and design of a JOC or IDIQ program that aligns with the goals and objectives of the Participating Agency;

    b. Identification and selection of the program platform or resource materials necessary to implement the Participating Agencies JOC or IDIQ program, such as technical specifications, general terms and conditions, pricing index or catalogs, reference materials, bidding methodology, procedure manuals, and contract forms;

    c. Support for Participating Agency performance of procurement-related processes and tasks (contractor outreach and development, solicitation drafting, pre-bid conference, bid evaluation, contract award, etc.);

d. Technology, software, application, or platform solutions related to the offering of the solutions described in Sections 1. a. – c. above, including resources for cost proposal development, project documentation and tracking, and reporting tools; and,

e. Services related to the offering of the solutions described in Sections 1. a. – d. above, including training, program adoption and administration, technical and contractor support, issue tracking, management and escalation, report preparation, and customization.

Proposers may include related equipment, accessories, and services to the extent that these solutions are ancillary or complementary to the equipment, products, or services being proposed.

2. The primary focus of this solicitation is on JOC or IDIQ Program Management Consulting Services for Sourcewell Participating Agencies, and the related delivery of services. This solicitation should NOT be construed to include services for the management of the Sourcewell IDIQ program.

3. This solicitation does not include equipment, products, or services covered under categories included in pending or planned Sourcewell solicitations, or in master agreements currently maintained by Sourcewell, identified below:

   a. Software Solutions and Related Services for Public Sector and Education Administration (RFP #060624);

   b. Facility Assessment and Planning with Related Services (RFP #102424); and

   c. IT Managed Service and Staff Augmentation Solutions (RFP #071321).

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment-only or products-only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting master agreement. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting master agreement.

Sourcewell encourages suppliers to offer the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. PROSPECTIVE MASTER AGREEMENT TERM

The term of any resulting master agreement(s) awarded by Sourcewell under this solicitation will be four years. Sourcewell and supplier may agree to up to three additional one-year extensions based on the best interests of Sourcewell and its Participating Entities. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

E. ESTIMATED MASTER AGREEMENT VALUE AND USAGE

Based on past volume of similar master agreements, the estimated annual value of all transactions from master agreements resulting from this RFP are anticipated to be USD 250 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the master agreement(s) awarded from this RFP; however, sales and sales volume from any resulting master agreement are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or

dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any master agreement award.

G. ADDITIONAL CONSIDERATIONS

1. Master agreements will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. A proposer may submit only one proposal. If related, affiliated, or subsidiary entities elect to submit separate proposals, rather than a single parent-entity proposal, each such proposal must be prepared independently and without cooperation, collaboration, or collusion.
3. If a proposer works with a consultant on its proposal, the consultant (an individual or company) may not assist any other entity with a proposal for this solicitation.
4. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
5. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
6. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell master agreement may be considered in the evaluation of a proposal.

4. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
   a. **Line-item Pricing** is pricing based on each individual product or service**.** Each line must indicate the proposer's published "List Price," as well as the "Master Agreement Price."
   b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any master agreement resulting from this RFP.

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the agreed upon price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers awarded a master agreement are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting master agreements. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

5. MASTER AGREEMENT

Proposers awarded a master agreement will be required to execute a master agreement with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Master Agreement reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To identify any exception, or to request any modification, to Sourcewell's standard master agreement terms, conditions, or specifications, a proposer must submit the proposed exception(s) or requested modification(s) via redline in the Master Agreement Template provided in the "Documents" section of the "Bid Details" page on the Sourcewell Procurement Portal and uploaded as part of its response. Only those exceptions noted at the time of the proposal submission will be considered.
Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

Only those exceptions that have been accepted by Sourcewell will be included in the master agreement document provided to the awarded supplier for signature.

If a proposer receives a master agreement award resulting from this solicitation it will have up to 30 days to sign and return the master agreement. After that time, at Sourcewell's sole discretion, the master agreement award may be revoked.

6. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive procurement process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Vendor Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

1. make any required adjustments to its proposal;
2. acknowledge the addenda; and
3. ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Vendor Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential master agreement award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a master agreement award and may subject the proposer to remedies available by law.

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

7. EVALUATION AND AWARD

A. EVALUATION

It is the intent of Sourcewell to award one or more master agreements to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Factors to be considered in determining the number of master agreements to be awarded in any category may include the following:

1. Total evaluation scores (giving consideration to natural breaks in the scoring of responsive proposals);
2. The number and geographic location of highest-scoring proposers that offer:
   a. A comprehensive selection of the requested equipment, products, or services;
   b. A sales and service network ensuring availability and coverage for Participating Entities' use; and

c. Other attributes of the proposer or contents of its proposal that assist Participating Entities in achieving environmental and social requirements, and goals.

Information submitted as part of a proposal should be as specific as possible when responding to the RFP. Do not assume Sourcewell has any knowledge about a specific supplier or product.

B. AWARD(S)

Award(s) will be made to the highest-scoring proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Sourcewell may request written clarification of a proposal at any time during the evaluation process.

Proposal evaluation will be based on the following scoring criteria and the Sourcewell Evaluator Scoring Guide (a copy is available in the Sourcewell Procurement Portal):

Conformance to RFP Requirements	Pass/Fail
Financial Viability and Marketplace Success	50
Ability to Sell and Deliver Solutions	150
Marketing Plan	100

TOTAL POINTS	**1000**

Box 219, Staples, MN 56479. Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

If an offeror is awarded a contract under this solicitation for JOC or IDIQ Program Management Consulting Services—and Sourcewell later issues a separate solicitation for JOC or IDIQ construction services—would the Program Management contractor be restricted from competing on those future solicitations due to its involvement in providing program support, development, or advisory functions? We respectfully request clarification on whether participation as a Program Management contractor would limit eligibility to pursue any subsequent JOC or IDIQ construction solicitations released by Sourcewell.

Answer 1:

Proposers can respond and be awarded for multiple RFPs that Sourcewell advertises.

Addendum No. 4
Solicitation Number: RFP 010626
Solicitation Name: JOC or IDIQ Program Management Consulting Services

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

For questions that are clearly oriented toward physical products/equipment distribution (e.g., Table 3 questions about freight to Alaska or dealer networks), is a response of N/A – Service provider; proposed solutions are consulting services and software access, not physical equipment requiring freight considered sufficient and compliant?

Answer 1:

Do not leave answers blank; respond N/A if the question does not apply to you (preferably with an explanation).

Question 2:

For an IT service provider, should the sales force be interpreted as our business development and account management team, and the service force as our delivery consultants, project managers, and technical support staff? Should the network of Authorized Sellers be described as our internal regional offices and any authorized implementation partners, rather than a product dealer network?

Answer 2:

The Sourcewell RFP is an open and competitive solicitation process. Each proposer, in its discretion, will determine the information necessary to best demonstrate its sales and service force to Sourcewell.

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

Question 3:

For software and consulting services, how should these questions be addressed? Are you seeking information on the sustainability of our corporate operations (e.g., cloud hosting powered by renewable energy), the capability of our software to help clients track sustainability metrics in their construction projects, or both?

Answer 3:

See Answer 2.

Question 4:

Is the incumbent eligible to submit a proposal under this Solicitation?

Answer 1:

Yes.

Question 1:

Addendum No. 6
Solicitation Number: RFP 010626
Solicitation Name: JOC or IDIQ Program Management Consulting Services

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Sourcewell has received many questions regarding the technology component of this RFP.

Answer 1:

Technology is a complementary item on this RFP and a respondent **must** be offering something in RFP II. B. Requested Equipment, Products, or Services, a-c. to provide technology. Further, Sourcewell does not have SLAs or specific requirements for that technology. It is up to each participating agency. Refer to the RFP, the Master Agreement, and the FAQ in the portal.

Question 2:

What governance structure does Sourcewell expect for program oversight (steering committee, monthly status meetings, escalation path, acceptance/approval gates)?

Answer 2:

Cadence of your awarded contract meetings will be discussed after award with your Supplier Development Administrator at Sourcewell. Participating Agencies decide that themselves for each individual contract.

Question 3:

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

What are the required reporting cadence and content for program performance (KPIs, utilization metrics, financial reporting to Sourcewell), and are there standard report templates?

Answer 3:

See Answer 2.

Question 4:

Will Sourcewell require named key personnel and resumes in the proposal? What are the substitution policies and approval process for proposed key team members during the agreement term?

Answer 4:

See the Questionnaire for what Sourcewell is asking for in this RFP response.

Question 5:

Are subcontractors or reseller networks permitted and if so what approval process and transparency is required (disclosure of subcontractors, roles, geographic coverage)?

Answer 5:

They are permitted, details about this are asked in the Questionnaire Tables.

Question 6:

How will change orders or scope changes be handled under master agreements between Sourcewell, the supplier, and Participating Entities? Is there a standard change control process?

Answer 6:

See Master Agreement, Article 2, 2. Product and Price Change Requirements.

Question 7:

Are there required insurance, bonding or financial reporting requirements (e.g., evidence of financial viability) to be submitted with the proposal or prior to award?

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

Answer 7:

See the RFP, the Master Agreement, and the Questionnaire Tables.

Question 8:

Does Sourcewell expect supplier-provided branded templates for procurement documents, catalogs, and marketing collateral that will be co-branded for Participating Entities? Are there branding guidelines to follow?

Answer 8:

Marketing Questions are in the Questionnaire Tables.

Question 9:

Will the supplier be required to develop sample catalogs, price index materials or line-item descriptions for approval as part of proposal evaluation or post-award onboarding?

Answer 9:

Pricing is asked for in the Questionnaire Tables and in the documents.

Question 10:

The RFP indicates administrative fees to Sourcewell (normally 1–2%); please confirm the expected percentage for this category and the billing/reconciliation process for that fee.

Answer 10:

An admin fee is proposed in the Questionnaire Tables.

Question 11:

Are Participating Entities required to use the Sourcewell master agreement as-is with only limited exceptions, or is there room for negotiation of specific commercial terms with individual Participating Entities post-award?

Answer 11:

See RFP I. B. Use of Resulting Master Agreements. Participating Entities typically access

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

master agreements for equipment, products, or services through a purchase order issued directly to the awarded supplier. A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell master agreements is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

Question 12:

The RFP indicates the master agreement term is four years with optional extensions; what are the renewal decision criteria and any required notice periods for exercising extensions?

Answer 12:

Refer to the Master Agreement in the portal.

Question 13:

How will the award be structured geographically — single national award, multiple regional awards, or multiple suppliers per category/subcategory? Are there likely subcategories that Sourcewell may create post-submission?

Answer 13:

It is the intent of Sourcewell to award one or more master agreements to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Question 14:

If the proposal contains multiple subsidiaries or reseller relationships, is a single proposal preferred or will separate affiliated proposals be accepted (the RFP restricts coordinated submissions — please confirm the recommended approach)?

Answer 14:

A proposer may submit only one proposal. If related, affiliated, or subsidiary entities elect to submit separate proposals, rather than a single parent-entity proposal, each such proposal must be prepared independently and without cooperation, collaboration, or collusion.

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

Question 15:

Please define “state,” and how would you like us to show sales volume?

Answer 15:

A state is a state in the United States, a state-wide agreement. List volume in dollars.

Question 16:

Please define “GSA,” and how would you like us to show sales volume?

Answer 16:

General Services Administration. List volume in dollars.

Question 17:

Due to the limited timeframe available for proposal development due to the holidays, would Sourcewell consider extending the submission deadline to allow for a more thorough and complete response?

Answer 17:

With the availability of the Sourcewell Procurement Portal allowing for 24/7 remote access, extensions are not typically approved or deemed necessary.

Question 18:

Is there a character count limit per answer box on the portal?

Answer 18:

This was answered in the Pre-Proposal. Each text box can hold 32,000 characters.

Consider the following Question(s) and Answer(s) to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Regarding the estimated master agreement value, the RFP notes an anticipated annual transaction volume of approximately $250 million based on historical usage. Can Sourcewell provide insight into how many master agreements were awarded under comparable past solicitations?

Answer 1:

Master Agreements are with Sourcewell. Participating Agencies can add additional terms and conditions when using a Sourcewell contract. Approximately 53 participating agencies were served under the last master agreement.

Question 2:

Is there a maximum contract value associated with any individual master agreement awarded under this solicitation?

Answer 2:

The RFP refers to an estimated master agreement value; we do not get more granular than that estimate.

Docusign Envelope ID: 70324C65-74E4-8736-80C5-12DA5ABDF644

total quarterly sales, with a flat-fee option applied in certain categories. Can Sourcewell clarify the anticipated administrative fee structure for this solicitation?

Answer 3:

See Addendum 6, Question 10.

Question 4:

Are Participating Entities generally expecting on-site support, or is remote program administration acceptable for the majority of services under this master agreement?

Answer 4:

This is up to the participating entity.

Question 5:

Regarding the public data statute, can Sourcewell direct us to a list of previously/recently awarded contracts for construction contracting?

Answer 5:

This can be found on the Sourcewell website, www.sourcewell-mn.gov, click “explore contracts” on the top, then “browse contracts” to see all of our awarded contracts.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: D2BF7016-AD29-8EC0-800F-AF6E780BCD1F

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

Docusign Envelope ID: D2BF7016-AD29-8EC0-800F-AF6E780BCD1F

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Workers' Compensation Waiver of Subrogation:

Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: D2BF7016-AD29-8EC0-800F-AF6E780BCD1F

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

JUST APPRAISED

SAAS SERVICES AGREEMENT

This SaaS Services Agreement ("Agreement") is entered into effective as of July 1, 2026 (the "Effective Date") between Just Appraised Inc., with a place of business at 2261 Market Street #4074, San Francisco, CA 94114 ("Company"), and the undersigned Customer ("Customer").

BACKGROUND

A. Company provides one or more software-as-a-service applications designed to facilitate document processing (collectively, the "Platform").

B. Company also provides support and maintenance services related to its platform, and may offer consulting, implementation and other professional services.

C. Customer wishes to utilize the Platform and related services as provided herein.

NOW, THEREFORE, in consideration of the mutual promises contained herein and for other good and valuable consideration, the Parties hereto agree as follows:

1. PLATFORM ACCESS

1.1 Subject to the terms and conditions of this Agreement, Company hereby grants Customer and its Users a non-exclusive, non-transferable (except for permitted assignments under Section 9) right, during the Term (as defined below), to access and use the Platform solely for Customer's internal business purposes in accordance with the applicable Order Form. As used herein, "User" means an employee, representative, consultant, contractor or agent of Customer who is authorized to use the Platform and has been supplied a user identification and password by Customer (or by Company at Customer's request).

1.2 As used herein, "Order Form" means a quote, order form in substantially the form attached as Exhibit A, or other ordering document detailing the Customer's access to the Platform and any associated fees therefore and any transaction-specific terms and conditions. Upon mutual execution (or, in the case of quotes, confirmation and placement of the order by Customer), Order Form(s) will be governed by the terms and conditions hereof and are deemed incorporated herein by this reference. If the parties agree, an Order Form may be used in connection with, or in lieu of, an SOW (as defined below).

1.3 As part of the registration process, Customer will identify an administrative user name and password for Customer's Company account. Company reserves the right to refuse registration of, or cancel passwords it deems inappropriate. Customer may only allow that number of Users as is specified in the applicable Order Forms(s) to use the Platform at any one time. Customer acknowledges that Company may include in its Platform functionality to track the number of active Users and to disallow use by more than the authorized number of Users. Customer is responsible for all activities that occur under Customer's User accounts. Customer shall use commercially reasonable efforts to prevent unauthorized access to, or use of, the Platform, and shall promptly notify Company of any known unauthorized use. Customer will ensure that (a) all Users given access to the Platform have the right to access the information and Customer Data made accessible to them by Customer through the Platform and (b) any User granting Company access to any Customer Data has the right and authority to grant such access.

2. SUPPORT AND PROFESSIONAL SERVICES

2.1 Subject to the terms hereof, Company will provide Customer with reasonable technical support services in accordance with the Company's standard practice.

2.2 In connection with Customer's use of the Platform, Company and Customer may agree in an Order Form and/or a separate mutually executed Statement of Work (an "SOW") upon training, implementation, consulting or other professional services to be performed by Company (collectively the "Professional Services"). Customer agrees to provide Company with any required Customer materials needed for Company to perform the Professional Services, and hereby grants Company a royalty-free, non-exclusive, worldwide license to use such materials for the sole purpose of enabling Company to perform the Professional Services. Company will use commercially reasonable efforts to meet any schedules set forth in an SOW or Order Form, and Customer agrees to cooperate in good faith to allow Company to achieve completion of such Professional Services in a timely and professional manner. If achievement of any particular milestone is dependent upon performance of tasks by Customer or by a third party outside of Company's control, any projected dates for

Docusign Envelope ID: 239EF3AD-53E3-8C67-8026-518006D91CBF

accomplishing such milestones will be approximately adjusted to reflect any changes in such tasks. Company retains all right, title and interest in and to (i) anything it uses or develops in connection with performing Professional Services for Customer, including, among other things, software, tools, specifications, ideas, concepts, inventions, processes, techniques, and know-how and (ii) anything it delivers to Customer during the course of performing Professional Services (collectively, "Deliverables") ((i) and (ii) being collectively referred to herein as the "Professional Services IP"), unless otherwise specified in the applicable Order Form or SOW. Company hereby grants to Customer and its Users, a non-exclusive, non-transferable (except for permitted assignments under Section 9), worldwide, royalty-free, limited-term license to use the Deliverables during the Term solely in conjunction with Customer's use of the Platform. Customer may not copy, modify, or otherwise create derivative works of any Deliverables without Company's prior written consent in each case.

3. RESTRICTIONS AND RESPONSIBILITIES

3.1 Customer and its Users will not, directly or indirectly, (i) reverse engineer, decompile, disassemble or otherwise attempt to discover the source code, object code or underlying structure, ideas, know-how or algorithms relevant to the Platform or any software, documentation or data related to the Platform ("Software"); (ii) modify, copy, translate, or create derivative works based on the Platform or any Software (except to the extent expressly permitted by Company or authorized within the Platform); (iii) rent, lease, lend, sell, sublicense, assign, distribute, publish, transfer, or otherwise make the Platform available to any third party, except for Users; (iv) use the Platform to send spam or unsolicited messages, collect data regarding others without their consent, transmit unlawful, immoral, libelous, tortuous, infringing, defamatory, threatening, vulgar or obscene material or material harmful to minors, transmit viruses or other harmful computer code; (v) attempt to interfere with or disrupt the performance of the Platform or the data contained therein; (vi) attempt to gain unauthorized access to the Platform or networks related to the Platform; (vii) interfere with another's use of the Platform; (viii) create "links" to or from the Platform, or "frame" or "mirror" any of Company's content; (ix) use the Platform in any manner or for any purpose that is unlawful under applicable laws; (x) access the Platform to build a competitive service, reproduce features of the Platform, or resell the Platform; or (xi) remove any proprietary notices or labels from the Company IP (as defined below).

3.2 Further, Customer may not remove or export from the United States or allow the export or re-export of the Platform, Software or anything related thereto, or any direct product thereof in violation of any restrictions, laws or regulations of the United States Department of Commerce, the United States Department of Treasury Office of Foreign Assets Control, or any other United States or foreign agency or authority. 3.3 Customer represents, covenants, and warrants that Customer will use the Platform only in compliance with Company's standard published policies then in effect (the "Policy") and all applicable laws and regulations. Customer hereby agrees to indemnify and hold harmless Company against any damages, losses, liabilities, settlements and expenses (including without limitation costs and attorneys' fees) in connection with any claim or action that arises from an alleged violation of the foregoing or otherwise from Customer's use of Platform. Although Company has no obligation to monitor Customer's use of the Platform, Company may do so and may prohibit any use of the Platform it believes may be (or alleged to be) in violation of the foregoing.

3.4 Customer shall be responsible for obtaining and maintaining any equipment and ancillary services needed to connect to, access or otherwise use the Platform, including, without limitation, modems, hardware, servers, software, operating systems, networking, web servers and the like (collectively, "Equipment"). Customer shall also be responsible for maintaining the security of the Equipment, Customer account, passwords (including but not limited to administrative and user passwords) and files, and for all uses of Customer account or the Equipment with or without Customer's knowledge or consent.

4. CONFIDENTIALITY; PROPRIETARY RIGHTS

4.1 Each party (the "Receiving Party") understands that the other party (the "Disclosing Party") has disclosed or may disclose business, technical or financial information relating to the Disclosing Party's business (hereinafter referred to as "Proprietary Information" of the Disclosing Party). The Receiving Party agrees: (i) to take reasonable precautions to protect such Proprietary Information, and (ii) not to use (except in performance of the Platform or as otherwise permitted herein) or divulge to any third person any such Proprietary Information. The Disclosing Party agrees that the foregoing shall not apply with respect to any information after five (5) years following the disclosure thereof or any information that the Receiving Party can document (a) is or becomes generally available to the public, or (b) was in its possession or known by it prior to receipt from the Disclosing Party, or (c) was rightfully disclosed to it without restriction by a third party, or (d) was independently developed without use of any Proprietary Information of the Disclosing Party or (e) is required to be disclosed by law.

Customer Data may be provided or made available to Company directly by Customer or indirectly by authorizing Customer's third-party vendors to provide such Customer Data to Company. Customer hereby grants to Company a non-exclusive, non-transferable, non-sublicensable, royalty-free, paid-up, revocable, perpetual license to use, copy, execute, reproduce, display, perform, disclose, distribute and prepare derivative works of the Customer Data for the purposes of (i) providing the Platform and Professional Services to Customer, and (ii) to improve and develop the Platform, Professional Services and Company's other products and services. Customer represents and warrants that it has all necessary rights, consents, approvals and authorizations to collect, process, disclose, license, use and give Company access to the Customer Data as contemplated by this Agreement.

4.3 Company shall own and retain all right, title and interest in and to (a) the Platform and Software, all improvements, enhancements, derivative works, or modifications thereto, (b) all Professional Services IP, (c) any data that is based on or derived from the Customer Data (including derivative works of the Customer Data), and (d) all intellectual property rights related to any of the foregoing (collectively, the "Company IP").

For the sake of clarity, Customer is not obligated to provide Company with any Feedback under this Agreement.

5. PAYMENT OF FEES

5.1 Customer will pay Company the then applicable fees described in the Order Form(s) and SOW(s) for the Platform and Professional Services in accordance with the terms therein (the "Fees"). License Fees (as defined in the applicable Order Form) will be invoiced annually promptly following the start of the Initial Term (as defined in the applicable Order Form) and each annual anniversary thereof, and such invoices will be paid in accordance with Section 5.2 below. Unless an Order Form of SOW provides otherwise, any initial Implementation Fees, Training Fees and/or Integration Fees (collectively, "Professional Services Fees") specified in the Order Form or an SOW will be invoiced promptly following the Effective Date of the applicable Order Form and/or SOW and will be paid in accordance with Section 5.2 below. Any subsequent Professional Services Fees will be invoiced and paid in accordance with the applicable Order Form and/or SOW If Customer's use of the Platform exceeds the Service Capacity set forth on the Order Form or otherwise requires the payment of additional fees (per the terms of this Agreement), Customer shall be billed for such usage and Customer agrees to pay the additional fees in the manner provided herein. Company reserves the right to change the Fees or applicable charges and to institute new charges and Fees at the end of the Initial Term (as defined in the applicable Order Form) or then current Renewal Term (as defined in the applicable Order Form), upon thirty (30) days prior notice to Customer (which may be sent by email), provided that such increases shall not exceed any limitations on increases specified in the Order Form. If Customer believes that Company has billed Customer incorrectly, Customer must contact Company no later than 60 days after the closing date on the first billing statement in which the error or problem appeared, in order to receive an adjustment or credit. Inquiries should be directed to Company's customer support department.

5.2 Full payment for invoices issued in any given month must be received by Company thirty (30) days after the mailing date of the invoice. Unpaid amounts are subject to a finance charge of 1.5% per month on any outstanding balance, or the maximum permitted by law, whichever is lower, plus all expenses of collection and may result in immediate termination of Service. Customer shall be responsible for all taxes associated with Platform other than U.S. taxes based on Company's net income.

6. TERM AND TERMINATION

6.1 The term of this Agreement will begin on the Effective Date and, unless terminated earlier as provided herein, will continue in effect for so long as there is an Order Form or SOW outstanding (the "Term"). 5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. APPENDIX A

Guide- Response Notification Types

Electronic Monitoring

1. **Bracelet Strap Open Alert:** Generated when the base station receives the date and time that the bracelet was cut.

2. **Strap Tamper:** The transmitter's strap has been cut or disassembled so that the strap is separate from the case, or the client has attempted to cut, remove or tamper with the strap, or the transmitter has corroded connection points.

Global Positioning Systems (GPS)

1. **Strap and Backplate Tamper combined:** Strap Tamper occurs when the client attempts to cut, remove or tamper with the strap attached to the device. Backplate tamper occurs if the client attempts to remove/disassemble the device by removing the backplate from the tracking unit.

2. **Strap Tamper:** The fiber-optic circuit inside the strap of a SCRAM GPS® tracking unit is open, resulting in a tamper alert.

3. **Case Tamper:** The tracking unit's case was opened because it was tampered with or the battery was replaced.

4. **Exclusion Zone Alert:** Occurs when a client is in violation of his schedule by entering a user defined zone that is prohibited. A client entered a forbidden zone and has been in that zone longer than the grace period if one is in effect.

Alcohol Monitoring

1. **Alcohol Detected Alert:** Generated when the bracelet generates three consecutive readings above .020 with at least one of those readings above the agency threshold, which indicates that the client has consumed alcohol.

2. **Potential Tamper Alert:** Generated when there is an unacceptable change in IR voltage from the previous readings, which indicates that the client has inserted something under the bracelet in order to inhibit the testing of alcohol.

3. **Potential Removal Alert:** Generated when the client cuts the strap or removes the bracelet without damaging the strap.

PMAM shall not commence work under this Agreement until it has obtained all the insurance required under this Agreement and such insurance has been approved by the County, nor shall PMAM allow any subcontractor to commence work on its subcontract until all similar insurance of the subcontractor has been obtained and approved. The insurance requirements shall remain in effect throughout the term of this Agreement. PMAM, at PMAM's sole cost, shall purchase and maintain, during the term of this Agreement, insurance coverage providing not less than the following:

agree to waive all rights of subrogation against the County, its officials, employees and volunteers for losses arising from the activities under this Agreement.

5. 2 All insurance policies, other than Professional Liability, provided under this Agreement shall be written on an occurrence basis.

Article 6
Termination of Agreement

6.1 Grounds for Termination

6.1.1 The County shall inform PMAM in writing, if PMAM fails to perform its duties under this Agreement with a ninety (90) days window to correct the problem. PMAM shall remedy the problem within ninety (90) days from the receipt of such notice. Should PMAM fail to remedy the problem within ninety (90) days, the County may terminate this Agreement.

6.1.2 In addition to any right of termination granted to the County pursuant to the provisions of Section 6.1.1 hereof, the County may terminate this Agreement without cause at any time **after** the first anniversary of the Contract Implementation Date upon thirty (30) days written notice to PMAM, subject to its obligations set forth in Section 6.2 hereof.

6.1.3 In addition, the County may terminate this Agreement without cause at any time **prior** to the first anniversary of the Contract Implementation Date (i) upon thirty (30) days written notice to PMAM (ii) the payment of an early termination fee of $10,000, which fee PMAM may deduct and offset against the next monthly payment or payments due the County from the revenues collected by PMAM on behalf of the County hereunder as liquidated damages and not as a penalty. The parties acknowledge that the actual damages that PMAM would incur as a result of the early termination of this Agreement by the County without cause are uncertain and difficult to accurately estimate because of the parties' inability to predict the number of future permit holders, the fees or fines charged by the County for violation of its alarm ordinances, any other changes in the

Docusign Envelope ID: FE44EAAA-424F-8110-8108-FE1D18739D8D

County's alarm ordinances that could impact the revenues collected by PMAM hereunder on behalf of the County, and other relevant factors. Accordingly, the parties agree that the foregoing Termination Fee is a reasonable and appropriate estimate of actual damages and shall be deemed liquidated damages and not a penalty. . In the event that PMAM is not able to offset the foregoing termination fee, if applicable, in full against the next monthly payment or payments due the County hereunder, PMAM shall bill the County for the Deficiency Amount. The Deficiency Amount shall be equal to the sum of $10,000 less the amount of the termination fee that PMAM offset against the next monthly payment due the County (the "**Deficiency Amount**"). The County shall pay the Deficiency Amount to PMAM within 30 days after receipt of an Invoice for the Deficiency Amount.

6.1.4 PMAM's Fee Schedule and pricing for any and all Services to be provided by PMAM to the County under this Agreement have been set, established and agreed to be based upon the current provisions of applicable County ordinances relating to alarms. Should said ordinances change at any time during the term of this Agreement to reduce or eliminate the applicable fee, fines and charges, such reduction or elimination shall be effective prospectively only and not retroactively so that the fee earned by PMAM for services provided prior to such modification of the alarm ordinance shall not be affected and the County shall not be entitled to any refund or credit arising from such modification of its alarm ordinance. In addition, if the change in the County ordinances relating to alarms would reduce or eliminate the fee, fines, and charges previously in effect, PMAM reserves the express right to enter into good faith negotiations with the County to modify the Fee Schedule and pricing accordingly. If, within thirty (30) days of notice from PMAM to the County of its desire to so renegotiate, the parties are unable to reach an agreement mutually acceptable to both parties, then PMAM reserves the right to terminate this Agreement. Said termination shall not be deemed to be a default by PMAM under this Agreement. PMAM shall be paid all fees and costs due and owing PMAM as of the date of said termination. In the event that PMAM is not able to offset the foregoing termination fee, if applicable, in full against the next monthly payment or payments due the County hereunder, PMAM shall bill the County for the Deficiency Amount. The Deficiency Amount shall be equal to the sum of $10,000 less the amount of the termination fee that PMAM offset against the next monthly payment due the County (the "**Deficiency Amount**"). The County shall pay the Deficiency Amount to PMAM within 30 days after receipt of an Invoice for the Deficiency Amount.

6.1.5 PMAM may terminate this Agreement upon written notice to the County if the County misuses or attempts to appropriate the proprietary software of PMAM used in connection with its False Alarm Management Program (the "**PMAM Proprietary Software**").

6.1.6 PMAM may terminate this Agreement without cause at any time after the first anniversary of the Contract Implementation Date upon ninety (90) days written notice to the County.

6.2 Effect of Termination

6.2.1 If this Agreement is terminated as provided herein, the County may require PMAM to provide all finished and/or unfinished data and other information of any kind possessed by PMAM in connection with the performance of Services under this Agreement. PMAM shall be required to provide such information within a reasonable period of time of receipt of the request not to exceed thirty (30) days. Specifically, upon termination of this Agreement:

6.2.1b. PMAM retains all rights and title to the PMAM Proprietary Software, including but not limited to, all publication rights, all development rights, all reproductions rights, and all rights that may follow from the commercial development of the software. 7.3 Each party further agrees that in the event that any documents containing confidential information of the other party should be improperly used or removed in any way from the possession or control of the other party by a party, the breaching party shall immediately notify the other party orally and in writing, and shall join with the other party at their request in taking such reasonable steps as the owner of the confidential information may deem advisable to enjoin the misuse and regain possession of such confidential information, or steps otherwise necessary for the protection of the owner’s rights and the confidentiality of the information.

The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

CONTRACTOR shall not publish any such material without the prior written approval of County.

CONTRACTOR shall ensure all Deliverables comply with the requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1, pursuant to the Americans with Disabilities Act ("ADA"). CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

12.0 COMPLIANCE WITH TERMS OF STATE OR FEDERAL GRANTS:

E. BACKGROUND:

The Wayfinder Family Services Family Finding and Engagement Program is designed to help create lifelong connections and appropriate placement options for every youth served. In alignment with that, Wayfinder Family Services' core philosophy is developing a lifelong support network for every youth that includes deep and meaningful relationships. At the close of family finding, there is a complete picture of who the youth's extended family is, and a family genogram/tree as well as a relative contact log to document information gathered about the child's family and extended network.

Wayfinder's Kinship Support Services Program is a kinship navigation service that supports grandparents, extended family members or close family friends who step up and fill an

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

important gap for children in Monterey County so they avoid the trauma of separation from their birth family, enabling them to heal and thrive. The program supports kinship families on their journey. Wayfinder's philosophy is that children should have every opportunity to be raised within their family of origin and/or with people with whom they share a connection.

The purpose of this agreement between the County of Monterey Department of Social Services and the Probation Department (hereinafter "COUNTY") and Wayfinder Family Services (hereinafter "CONTRACTOR) is to provide family finding and engagement services to foster/probation youth referred by the COUNTY and to provide kinship support services to relative or kin resource parents who are caring for youth in Monterey County.

F. DESCRIPTION OF FAMILY FINDING AND ENGAGEMENT SERVICES:

CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

F.1 Target Population

F.1.1 Youth who are either dependents of the juvenile court system or who are on juvenile probation, referred by the COUNTY and who could benefit from extensive family finding and engagement services. Family-finding staff can serve 7-9 youth at a time with an estimated service timeline of 6-8 months.

F.2 Family Finding Approach and Model

F.2.1 CONTRACTOR's Family Finding and Engagement program model aligns with Kevin Campbell's up-front family finding approach and includes his six steps to Family Finding: Discovery, Engagement, Planning, Decision Making, Evaluation, and Follow Up.

F.2.2 CONTRACTOR conducts family finding with urgency and is a family-driven process.

F.2.3 CONTRACTOR's approach to family finding incorporates components from Safety Organized Practice (SOP) in which the engagement with identified family members and non-related extended family members (NREFMs) is safety-focused and child/family centered/driven. This allows for deeper, more genuine engagement in addition to re-establishing family members as a natural and integral part of the ongoing planning process for young people.

F.2.4 Family finding and engagement services will be embedded within the CONTRACTOR's continuum of support available to relatives and the youth in their care through Kinship Support Services.

F.2.5 Family finders develop primary and alternative permanency options, working collaboratively with family members and child welfare to establish a realistic, safe, and sustainable path to permanency.

F.2.6 CONTRACTOR will work closely with child welfare staff to deliver strength-based, trauma-informed, and youth and family-centered family finding services.

F.3 CONTRACTOR Responsibilities for Family and Engagement Services

F.3.1 Utilize Kevin Campbell's Family Search and Engagement model and other applicable tools to conduct intensive searches for family members and near-family, both in and out of state, for youth in care.

Docusign Envelope ID: DF16CDD4-DF7A-8446-82CF-1ADC4A21D6FF

F.3.2 Identify relatives and other supportive adults estranged from or unknown to the child, especially those willing or wanting to become permanent connections for the youth.

F.3.3 Facilitate relationships between the youth and family or friends to develop trusting, strong, and safe relationships to promote permanency in close collaboration with county staff.

F.3.4 Assess family members' interests and willingness to become involved with youth in care.

F.3.5 Participate in Child and Family Team (CFT) meetings: Collaborate with child welfare staff and families to develop and implement permanency plans that ensure the family can meet the needs of the youth and are realistic, sustainable, and safe.

F.3.6 Develop and maintain connection with the youth and family to help facilitate long-lasting relationships, which may lead to placement and facilitate permanency, including completion of cooperative adoptions for youth when appropriate.

F.3.7 Refer youth and families to supportive services as needed.

F.3.8 Complete a relative contact log and family tree for every youth and provide a copy to county staff.

F.3.9 Train staff to integrate trauma-informed techniques and concepts in their work while using a Strengthening Families and Protective Factors Framework.

F.3.10 Provide program-specific training on the Family Finding model developed by Kevin Campbell. The training offers methods and strategies to locate and engage relatives. CONTRACTOR staff receive training to understand the signs and risk factors associated with domestic violence, substance abuse and mental health issues and to identify and mitigate risk for the safety and permanency of children.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

E. PURPOSE

The purpose of this agreement is to provide administrative and temporary housing subsidy funding to CONTRACTOR to provide housing case management, program housing search, placement support, and rental subsidies for CalWORKs customers referred to CONTRACTOR by COUNTY Department of Social Services for the Housing Support (HSP) and Family Stabilization (FS) programs.

HOUSING SUPPORT PROGRAM

F. PROGRAM DESIGN

F.1 In 2014, the California Department of Social Services (CDSS) received special authority to launch a new Housing Support (HSP) program. Per Senate Bill (SB) 855

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

(Chapter 29, Statutes of 2014), housing support in the CalWORKs program is necessary to assist families working towards achieving self-sufficiency. Homelessness and housing instability in the CalWORKs program is a challenging problem that impacts children's wellbeing and their parents' ability to engage in employment. The objective of the CalWORKs HSP is to promote housing stability for families in the CalWORKs program.

F.2 CONTRACTOR shall provide staff and services to perform intake, case management, housing assessment, housing search, placement, and on-going housing subsidy payments for a minimum of 60 eligible HSP CalWORKs customers each month.

F.2.1 CONTRACTOR shall maintain and share with COUNTY all program documents and forms to operate the HSP program per the **HSP Guidelines** in **Exhibit A-1**. Relevant program documents include program policies, procedures, client agreements, intake forms, case management and housing navigation templates, and public-facing program materials.

F.2.2 For HSP purposes, the COUNTY shall be the HSP Social Service Aide and/or Analyst assigned to HSP

F.3 In 2021, AB 135 (Chapter 85) expanded eligibility for HSP to include families in CalWORKs who are at-risk of homelessness including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being. **Exhibit A-2, Guidelines on Homeless Prevention.**

F.3.1 CONTRACTOR shall administer the HSP under all aspects of program eligibility including the prevention components outlined within **Exhibits A-1 and A-2**. Program policies and procedures for client assessment, case management and housing support to accommodate homeless prevention services shall conform with all program eligibility, definitions, and guidelines defined by CDSS.

G. PERFORMANCE GOALS

G.1 Provide rapid rehousing and housing navigation services to support and place 48 families into permanent housing per year.

G.2 Provide Housing Stabilization services to support 15 families at risk of homelessness

G.3 90% of all referred customers are scheduled to attend an intake and assessment within seven (7) days of CONTRACTOR receiving the customer referral from COUNTY.

G.4 50% of all customers who attend and successfully complete the intake and assessment and fully participate in program services are placed in safe, clean, and affordable permanent housing within eight (8) weeks of their intake and assessment appointment.

H.4.11 Complete and mail a formal **Case Closure Letter** (sample provided as **Exhibit A-6**) including specific reasons unsatisfactory participation was indicated to the customer's last known address and provide a copy to COUNTY with the Case Closure Form for HSP referred customers who do not successfully complete either the intake and assessment process or do not participate in the program plan.

H.4.12 Ensure that customers not participating in program services are provided a minimum of three (3) opportunities to comply before their case is closed.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

H.5.5.b Respond to landlord/site contact inquiries within forty-eight (48) hours.

HOUSING SUPPORT PROGRAM GUIDELINES

A. PROGRAM BACKGROUND

The CalWORKs Housing Support Program (HSP), established by Senate Bill (SB) 855 (Chapter 29, Statutes of 2014), is intended to foster housing stability for families experiencing or at-risk of homelessness in the CalWORKs program. Per Welfare and Institutions Code (WIC) Section 11330.5(c), The HSP funding must be used to support projects that follow evidence-based housing interventions, including homelessness prevention services and/or the core components of rapid rehousing. Further, WIC Section 8256 requires that all state-funded housing programs, including HSP, operate in accordance with the core components of Housing First as enumerated in WIC Section 8255 and further outlined in All County Letter (ACL) 19-114 and ACL 24-88.

B. PROGRAM ELIGIBILITY

The HSP eligibility is broadly defined by WIC Section 11330.5 and includes CalWORKs recipients who are experiencing homelessness or at-risk of homelessness, including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being.

C. ELIGIBLE CALWORKS RECIPIENTS

As further defined below, counties may now serve eligible families at-risk of homelessness. Consistent with homeless assistance best practice, programs should evaluate funding and program capacity to prioritize serving people with the highest needs and vulnerabilities. Every effort should be made to serve all families in the CalWORKs program experiencing homelessness given expanded program funds.

The HSP identifies and targets the whole population of families in the CalWORKs Program experiencing homelessness regardless of housing and income barriers. Consistent with Housing First, programs should not create additional criteria for eligibility or exclude any population from being served. All CalWORKs recipient families are eligible to be served through HSP, including the following types of assistance units:

C.1 **Welfare-to-Work (WTW)** | An assistance unit [AU] type that includes Single-Parent and Two-Parent households with an aided adult who is not exempt from work activities and not sanctioned.

C.2 **Exempt** | An exemption excuses a CalWORKs participant from Welfare to Work requirements.

C.3 **Child Only** | Cases in which only the children in an AU are aided due to the exclusion or ineligibility for cash aid of the AU parent(s).

C.4 **Safety Net** | Cases in which only the children in an AU are aided due to the parent(s) being discontinued from cash aid because they reached their 48-month lifetime assistance limit.

C.5 **Sanctioned** | The process by which adult(s) are removed from CalWORKs support because at least one failed to comply with WTW program requirements without good cause, and County staff compliance efforts failed. Eligible children in an AU continue to receive funding. This includes long-term sanctioned cases.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

C.6 **CalWORKs Family Reunification (AB 429)** | The continuation of CalWORKs services when a child has been removed from the home and is receiving out-of- home care.

C.7 **CalLearn** | Statewide program for pregnant and parenting teens in the CalWORKs program. It is designed to encourage pregnant and parenting teens to graduate from high school or its equivalent, become independent, and form healthy families.

C.8 Per WIC 11330.5(h), counties may continue to provide housing supports to a CalWORKs recipient who is discontinued because they no longer meet the income eligibility requirements of Section 11450.12.

D. DEFINITION OF HOMELESSNESS

The CalWORKs HSP funding must be used to assist families in the CalWORKs program who are experiencing homelessness pursuant the U.S. Department of Housing and Urban Development (HUD) definition in 24 CFR section 91.5 under "Homeless" Sections (1)-(4) and in Attachment Two: Definition of Homelessness, Prioritization and HSP 14 of All County Welfare Directors Letter (ACWDL) dated May 13, 2021.

E. DEFINITION OF AT-RISK HOMELESSNESS

E.1 For the purposes of HSP, a person is defined as "at-risk of homelessness" when they:

- E.1.1 are experiencing housing instability, including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being;
- E.1.2 have no subsequent permanent residence secured; and
- E.1.3 lack resources or support networks needed to stabilize their unique housing situation and secure subsequent permanent housing.

E.2 This definition of "at-risk of homelessness" is inclusive of, but not limited to the HUD definition of "at-risk of homelessness" under 24 Code of Federal Regulations section 91.5. This means participants who meet the HUD definition of "at-risk of homelessness" shall be deemed "at-risk of homelessness" under the definition set out in this section.

E.3 Consistent with homeless assistance best practice, programs should evaluate funding and program capacity to prioritize serving people with the highest needs and vulnerabilities. See Attachment Two for more on homelessness prevention targeting and prioritization.

E.4 At-Risk Self-Attestation

- E.4.1 **Families shall be allowed to self-attest that they meet the definition of "at-risk of homelessness" in this section.** No additional verification or documentation demonstrating that a family meets the definition of "at-risk of homelessness" is needed; counties shall not require further evidence for the purposes of HSP enrollment. This self-determination assumes that families in the CalWORKs program who are at-risk of homelessness are already more vulnerable to homelessness than the general population.
- E.4.2 Once a family has met the "at-risk of homelessness" definition in this section, counties may assess for other criteria indicative of vulnerability related to risk of homelessness for further prioritization.

F. DEFINITIONS AND EXAMPLES OF HOMELESS VS PREVENTION ASSISTANCE

F.1 Grantees will be asked to report on their use of funds for prevention. See the table below, which provides definitions and examples to help clarify whether assistance should be tracked and reported as "homeless assistance" vs. "homelessness prevention assistance".

Type	Definition	Example	Homeless vs Prevention Assistance
Literally Homeless*	Updated in ACWDL dated May 13, 2021, HSP follows the HUD definition of homeless in 24 CFR section 91.5.	Example 1: Family living in a car for any amount of time. Example 2: Family residing in/exiting Project Roomkey or other shelter setting.	Homeless Assistance. Participants within this definition of homelessness do not contribute toward spending on homelessness prevention.
At Imminent Risk of Homelessness	Updated in ACWDL dated May 13, 2021, HSP follows the HUD definition of homeless in 24 CFR section 91.5, which includes families who will imminently lose housing within 14 days as homeless: An individual or family who will imminently lose their primary nighttime residence, provided that: The primary nighttime residence will be lost within 14 days of the date of application for homeless assistance; No subsequent residence has been identified; and The individual or family lacks the resources or support networks, e.g., family, friends, faith-based or other social networks needed to obtain other permanent housing;	Example 1: Family is couch surfing with a friend but has been asked to leave in a week and has no other support or resources. Example 2: Family with a 3-day pay or quit notice in hand and has no other support or resources.	Homeless Assistance. Participants within this definition of homelessness do not contribute toward spending on homelessness prevention.

Type	Definition	Example	Homeless vs Prevention Assistance
At-Risk of Homelessness**	A client is "at-risk of homelessness" when they: are experiencing housing instability, including recipients who have not yet received an eviction notice, and for whom housing instability would be a barrier to self-sufficiency or child well-being; have no subsequent permanent residence secured; and lack resources or support networks needed to stabilize their unique housing situation and secure subsequent permanent housing. Participants shall be allowed to self-attest that they meet this definition. This definition of "at-risk of homelessness" is inclusive of, but not limited to, the HUD definition of "at-risk of homelessness" under 24 CFR section 91.5. This means participants who meet the HUD definition of "at-risk of homelessness" shall be deemed "at-risk-of homelessness" under the definition set out in this section.	Example 1: Family has been couch surfing for months, but identifies concern about the stability of their current situation since they will likely need to leave within the next month and has no other support or resources.	Homelessness Prevention Assistance. Participants within this definition of at-risk of homelessness are counted towards spending on homelessness prevention.

*Effective May 13, 2021, the HSP definition of homelessness was updated to the ***HUD definition in 24 CFR section 91.5 under "Homeless" Sections (1)-(4)***.
**Effective as of the date of this letter.

G. PROGRAM SERVICE TYPES

Per Welfare and Institutions Code (WIC) Section 11330.5(c), HSP funding must be used to support projects that utilize evidence-based housing interventions, including homelessness prevention services and/or the core components of rapid rehousing.

G.1 Rapid Rehousing Core Components

Rapid rehousing program standards are detailed below for each of the three core components. While a household that is rapidly rehoused is not required to utilize all three core components, counties operating HSPs **must offer** program participants all three core components of rapid rehousing, utilizing a Housing First approach:

G.1.1 **Housing identification:** Activities under this core component include, but

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

are not limited to, recruiting landlords with units in the communities and neighborhoods where program participants want to live and negotiating with landlords to help program participants access housing.

G.1.2 **Rent and move-in assistance:** Activities under this core component include, but are not limited to, paying for security deposits, move-in expenses, rent, and utilities. Rent and move-in assistance should be flexible and tailored to the varying and changing needs of a household while providing the assistance necessary for households to transition immediately out of homelessness and to stabilize in permanent housing.

G.1.3 **Case management and services:** The goals of rapid re-housing case management are to help participants obtain and move into permanent housing, support participants with housing stability, and connect them to community and mainstream services and supports if needed. Housing-related case management should begin at entry into the program and continue throughout until a family is stably housed. Housing-related case plans should be developed in close coordination with the CalWORKs and any other (e.g., child welfare) case plans in addressing a family's needs. **Housing-related case management should complement, but not replace or supplant traditional CalWORKs case management.**

G.1.4 The core components of rapid rehousing can be provided by a single agency or in partnership with other agencies. The core components of rapid rehousing were developed in collaboration with, and endorsed by, the United States Interagency Council on Homelessness (USICH), the Department of Housing and Urban Development (HUD), and the Department of Veterans Affairs (VA).

G.2 **Homelessness Prevention Assistance**

Preventative services and assistance are varied and can include any preventative measure that will save a tenancy, help families regain stability in their current housing, or move and achieve stability in a new housing location. **This may include rental or utility arrears, late fee payments, first month's rent and/or security deposits, landlord mediation, repairs, connection to housing stabilization services, habitability/accessibility improvements, and housing navigation.** Refer to Attachment Two for more information expanding HSP programming to serving families at-risk of homelessness.

H. PROGRAM PRIORITIZATION

H.1 To ensure that funding remains prioritized for those with the highest vulnerabilities, CDSS expects that counties use the majority of funds to support people experiencing homelessness**. Counties are encouraged to limit overall spending on homelessness prevention assistance for families at-risk of homelessness to no more than 30 percent of the allocation, refer to the table above for definitions and examples of homeless assistance versus prevention Assistance.**

H.2 Counties unable to serve all eligible families in the CalWORKs program who are experiencing or at-risk of homelessness should use a prioritization framework and assessment to determine assistance and may not allow individual case managers to

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

determine prioritization on a case by case basis. It is critical that prioritization criteria are consistent and not subject to the bias of an individual case manager or staff.

H.3 Counties should include their prioritization framework in written program policies to ensure consistent application across the program and to assist CDSS in understanding best practices across the state.

H.4 It is important to note that families in the CalWORKs Program are likely already more vulnerable to homelessness than the general population. Given that HSP serves CalWORKs families, HSP by design is targeting services to those at increased risk of homelessness. Prioritization or assessment processes should incorporate the following principles, regardless of the tool used:

H.4.1 **Be applied consistently** across the program and should not rely on the social worker's individual determination of who to serve.

H.4.2 Incorporate factors that are evidence-based or promising best practices, such as targeting services to those most at-risk of homelessness.

H.4.3 Delivered and framed in **an easy-to-understand and trauma-informed** manner that centers the client's needs, including the timing of the assessment components or conducting the assessment in multiple stages if the client is in crisis and/or hesitant to engage. Counties are strongly encouraged to use data that may already have been collected to inform the assessment process and to avoid repetitive or traumatic questions.

H.4.4 Adopt a **racial equity lens and framework**. The Centre for Social Data Analytics and the Government Alliance for Race and Equity recommends testing assessment process against questions such as: Is the assessment tool equally predictive and useful for all racial groups? When applying the tools, what will this mean for a person? Who will gain and who will be burdened? What information has already been gathered about how the tool impacts people of color?

H.4.5 Reduce barriers to entry and participation to the degree possible, versus being a tool to primarily screen people out.

H.4.6 Be used to assist families in obtaining housing that prioritizes client choice, considering the family's needs and preferences.

H.4.7 Offers and provides reasonable accommodations to people with disabilities.

I. HOUSING FIRST

I.1 The HSPs must be operated in accordance with Housing First principles. WIC Section 8256 requires that all state-funded housing programs operate in accordance with the core components of Housing First as enumerated in WIC Section 8255 and further outlined in ACL 19-114 and ACL 24-88.

I.2 Housing First means that families should be connected to housing or housing supports immediately without preconditions, services shall be voluntary, client choice shall be respected, and applicants shall not be rejected on the basis of income, past evictions, substance use, or any other behaviors that may indicate a lack of "housing readiness."

I.3 CDSS has developed and previously requested that counties complete a Housing First Self-Assessment to support counties in assessing their adherence to and adoption of Housing First, and identify areas for development. CDSS reserves the right to request

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

that counties complete a Housing First Self-Assessment throughout the technical assistance process. For example, this may be requested from counties establishing new programs or when a Housing First practice requires improvement or refinement. This Housing First Self-Assessment is an important tool for HSP counties to use through their continuous quality improvement practices and can be found in the ACWDL dated August 2, 2018 and was developed using the:

I.3.1 Housing First core components in WIC Section 8255;

I.3.2 U.S. Interagency Council on Homelessness (USICH) Housing First Checklist

I.3.3 U.S. Department of Housing and Urban Development (HUD) Housing First Assessment Tool

I.3.4 Corporation for Supportive Housing (CSH) Checklist

J. COLLABORATION ON THE HOMELESS RESPONSE SYSTEM

J.1 Counties operating HSP are required to coordinate with their homelessness response system, including participation in the local homelessness Continuum of Care (CoC), Coordinated Entry System (CES), and Homeless Management Information System (HMIS) to understand and meet the needs of the local community as well as to understand and address racial disproportionality for people experiencing homelessness **(Exhibits A-8 & A-9)**.

J.2 Counties are also strongly encouraged to collaborate with other partners, such as local child welfare, behavioral health and emergency response systems, local Medi-Cal managed care plans, Public Housing Authorities (PHAs), educational and family resource networks, domestic violence agencies, legal aid organizations, and other relevant networks to maximize available funding and connect participants to additional resources and supportive services. Information on these collaborations will be requested in future program updates. Counties may use HSP funds to establish specific positions to support the coordination of these systems.

K. RACIAL EQUITY

K.1 CDSS requires counties to commit to addressing racial disproportionality for people experiencing homelessness and ensuring equitable provision of services for Black and Indigenous people and other people of color. Black and Indigenous people experience homelessness at significantly higher rates than whites, largely due to long-standing historical and structural racism. In California, Black people account for seven percent of the general population, but represent more than 31 percent of people experiencing homelessness. The disproportionality in homelessness is a by-product of systemic inequity – racism continues to perpetuate disparities in critical areas that impact rates of homelessness, including poverty, segregation/rental housing discrimination, incarceration, and access to health care.

K.2 Additionally, per Government Code Section 8899.50, each county must also operate its HSP in a manner that affirmatively furthers fair housing. This means that HSP must be operated in a way that takes "meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics."

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

K.3 Counties should review demographic data of HSP and CalWORKs participants to understand how program demographics compare to the racial and ethnic makeup of low income and unhoused families. This information can provide initial insight on racial inequity within programming and should inform strategies for addressing racial equity.

K.4 Counties should review the reports and resources below for examples of how housing and homelessness programs have incorporated racial equity into programming.

K.5 Counties are encouraged to seek meaningful input and participation from current and former CalWORKs recipients, including recipients of color that to go beyond identifying disparities to try to identify causes of such disparities from individuals with lived experiences. Additionally, CDSS will provide technical assistance opportunities to help counties address racial equity within HSP programming. The HSP funds can be used to support efforts such as a racial equity analysis or plans for HSP.

K.6 Counties are encouraged to review the following reports and resources: Reports

- K.6.1 Racial Inequalities in Homelessness, by the Numbers
- K.6.2 Supporting Partnerships for Anti-Racist Communities (SPARC) Phase One Study Findings
- K.6.3 A Brief Timeline of Race and Homelessness in America
- K.6.4 Report and Recommendations of the Ad Hoc Committee on Black People Experiencing Homelessness
- K.6.5 Equity-Based Decision-Making Framework
- K.6.6 Framework for an Equitable COVID-19 Homelessness Response
- K.6.7 Advancing Racial Equity through Assessments and Prioritization (HUD)
- K.6.8 CA Housing and Community Development's Guidance on Affirmatively Furthering Fair Housing.
- K.6.9 CA Business Consumer Services and Housing Agency's data portal.

L. TECHNICAL ASSISTANCE (TA)

L.1 Training and technical assistance (TA) will be provided to support counties in establishing, developing, and improving their HSP and to facilitate statewide information-sharing. The TA opportunities include one-on-one calls and email correspondence as well as in-person or virtual learning collaboratives focused on identifying and meeting the needs of HSPs throughout the state. CDSS may designate specific TA or training as mandatory, including for specific staff, such as program leads.

L.2 The TA and training topics may include strategies for strengthening outreach, case management, advocacy, housing navigation, homelessness prevention services, as well as local workforce development, streamlining administrative efficiencies, advancing equity on a systems level, and improving collaboration with the local homelessness response system. The TA and training may be conducted by CDSS or a CDSS designated contractor. Additionally, programs may utilize HSP funds to provide program-specific training in areas identified by the county or CDSS to support continuous quality improvement.

L.3 Based on feedback from current counties, CDSS plans to establish cross-program opportunities for TA engagement. CDSS has started hosting joint office hours to address questions across various CDSS-funded programs, rather than holding separate program-specific sessions.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

M. DATA REPORTING AND INTEGRATION

Data collection, progress monitoring, and outcome reporting are essential and mandatory elements of the HSP. Data needs should be considered when deciding on staffing, training, and program design. Successful data integration goes beyond completing program data reports and requires building relationships with HMIS administrators, service providers, and other entities that are part of the data integration process.

M.1 HSP-14/Monthly Reporting

M.1.1 Counties are required to provide aggregate level-data on a monthly basis via the HSP-14 report which is to be submitted via the (admReportHSP14@dss.ca.gov).

M.2 *Interim HSP-14 Reporting Update*

M.2.1 With adoption of the Department of Housing and Urban Development (HUD) definition of Homelessness in *24 CFR section 91.5 under "Homeless" Sections (1)-(4)* and definition of at-risk of homelessness within this letter, CDSS is providing interim reporting guidance on select elements of the HSP-14 to accommodate the expansion of program eligibility. **To further implement this change, additional instructions and updates regarding reporting in the HSP-14 will be provided under separate cover.** In the interim, for reporting families under **Item 9** in the HSP-14, the family's residence status at time of approved request/referral:

M.2.2 For anyone who meets homeless definitions 24 CFR section 91.5 under "Homeless" (1)(ii) and (1)(iii) should be reported in Item 9.a.1. "Family has a primary nighttime residence that is a supervised publicly or privately-operated shelter designed to provide temporary living accommodations" (cell 24).

M.2.3 For anyone who meets homeless definitions 24 CFR section 91.5 under "Homeless" (1)(i) should be reported in Item 9.a.2. "Family resides in a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings" (cell 25).

M.2.4 For anyone who meets homeless definitions 24 CFR section 91.5 under "Homeless" (2), (3), and (4) or the definition of at-risk of homelessness as defined under Attachment One: Program Eligibility above should be reported in Item 9.b. "Family is in receipt of judgement for eviction, as ordered by the court" (cell 26).

M.2.4.a **Note:** HSP eligibility **is not** contingent on receipt of judgement for eviction. Refer to Program Eligibility section above for expanded eligibility for HSP.

M.3 Homeless Management Information System

M.3.1 Effective July 1, 2020, counties (or their contracted partners) operating an HSP are required to enter all HSP participants into the local Homeless Management Information System (HMIS) to better align HSP with the broader homelessness response system. The HMIS is a critical part of an effective Coordinated Entry System and system-wide approach to homelessness and can help communities better match people with resources and interventions; understand their community need, populations served,

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

interventions needed, and outcomes; as well as identify intersections and gaps in services.

M.4 Assembly Bill (AB) 977 Data Reporting Requirements

M.4.1 Assembly Bill 977, Chapter 397, Statutes of 2021 includes additional requirements of utilization of HMIS for HSP. Beginning on January 1, 2023, a county or entity operating HSP, as a condition of receiving state funds, shall enter the Universal Data Elements (Items 3.01–3.917) and the Common Data Elements (Items 4.02–4.20 and Item W5 of the Individual Federal Partner Program Elements) drawn from the United States Department of Housing and Urban Development Homeless Management Information System Data Standards. The HSP grantees should follow HUD guidance on HMIS project set-up for HSP as an HMIS project and collect the appropriate data elements.

M.4.2 Grantees should collaborate with their CoC's HMIS lead to ensure proper project setup. Any county that does not already collect and enter these data into the local HMIS shall, upon request, receive technical assistance and guidance from staff of the Interagency Council on Homelessness and, as available, from federal partners, including, but not limited to, the United States Department of Housing and Urban Development. To request technical assistance, counties may either contact the Council directly at HCFC@BCSH.ca.gov or they may send their request to Housing@dss.ca.gov and CDSS staff will coordinate the facilitation of any necessary technical assistance between the county and Council staff. Additional guidance regarding AB 977 requirements and implementation will be provided under separate cover.

N. PROGRAM PERFORMANCE AND EVALUATION

Counties are expected to regularly measure, monitor, and communicate program impact and performance. Counties should establish and consistently track performance benchmarks, including the best practice Rapid Rehousing Performance Benchmarks below, and collect data to measure progress and to inform continuous quality improvements:

N.1 Reduce the length of time program participants spend homeless

N.1.1 For a program to meet this performance benchmark, households served by the program should move into permanent housing in an average of 30 days or less.

N.2 Exit households to permanent housing

N.2.1 For a program to meet this performance benchmark, at least 80 percent of households that exit a rapid re-housing program should exit to permanent housing.

N.3 Limit returns to homelessness within a year of program exit

N.3.1 For a program to meet this performance benchmark, at least 85 percent of households that exit a rapid re-housing program to permanent housing should not become homeless again within a year.

N.4 Programs should consider:

N.4.1 Number of families with increased income at exit

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

N.4.2 Number of families exiting CalWORKs due to over-income
N.4.2.a **Note**: Per WIC 11330.5(h), counties may continue to provide housing supports to a CalWORKs recipient who is discontinued because they no longer meet the income eligibility requirements of Section 11450.12.
N.4.3 Number of families with improved employment or educational circumstances at exit
N.4.4 Participant satisfaction metrics
N.4.5 Equity data including:
N.4.5.a race and ethnicity of participants,
N.4.5.b disability status of participants,
N.4.5.c primary language of participants, and
N.4.5.d geographic location/distribution where housing is preserved or obtained

N.5 There are other indicators that may be helpful in evaluating program performance and impact, such as length of time between referral and enrollment, between enrollment and placement in interim housing, or number of participants housed and unhoused at program enrollment. CDSS will continue to provide further guidance, including through technical assistance, on how to set and monitor program performance indicators.

N.6 CDSS will conduct ongoing monitoring of program performance using program data, claiming information, and updates submitted by counties. Consistent with evidence-based programming, CDSS aims to utilize outcomes data to inform future funding.

N.7 Therefore, counties are encouraged to use data to conduct their own program management, oversight, and continuous quality improvement.

O. FORMAL STATEWIDE EVALUATION

Counties must also participate in activities related to any formal HSP evaluation, such as submitting data and logic models, conducting data reviews and cleaning, and/or participating in interviews, surveys and focus groups. Data sharing agreements with HMIS administrators may be required for efforts such as a formal evaluation. Counties may use HSP funds to support requirements related to a formal evaluation.

P. PROGRAM COMPLIANCE

Should CDSS become aware that a county is not operating the HSP consistent with statutory requirements or formal guidance issued by CDSS, the Department will notify the county that they shall amend their program within a specified timeline in order to come into compliance. CDSS will provide technical assistance to support counties and to ensure that programs are operated consistent with evidence-based practices and may request more regular program updates to reflect program compliance.

P.1 Examples of non-compliance may include, but are not limited to, failing to offer housing support and assistance as described in WIC Section 11330.5 and ACWDL dated May 13, 2021, or violating housing first requirements as described in WIC Section 8255 and 8256 and further outlined in ACL 19-114.

P.2 CDSS acknowledges that program targets and budgets are projections and may be

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

subject to change given the dynamic nature of homeless assistance. CDSS is available to provide technical assistance to help counties meet their targeted number of families to house and maximize direct financial assistance.

P.3 Notice of Program Interruption to CDSS

P.3.1 Counties must notify CDSS in writing at least thirty days in advance of any temporary or permanent interruption to HSP services for any reason, including fully spending their allocation.

GUIDELINES ON HOMELESS PREVENTION

A. BACKGROUND

The HSP eligibility has been expanded to include families in the CalWORKs program who are at-risk of homelessness or who are recently homeless. This expansion may significantly impact how counties design and contract the program.

B. TYPES OF HOMELESS PREVENTION ASSISTANCE

Preventative services and assistance are varied and can include any preventative measure that will save a tenancy, help families regain stability in their current housing, or move and achieve stability in a new housing location. **This may include rental or utility arrears, late fee payments, security deposits, rental assistance, landlord mediation, repairs, habitability/accessibility improvements, and housing navigation and relocation.**

C. TARGETING HOMELESSNESS PREVENTION ASSISTANCE

According to the National Alliance to End Homelessness (NAEH) Prevention Targeting 101, while homelessness prevention refers to a broad category of services, research shows that homelessness prevention is more effective when targeted to the people who are most likely to fall into homelessness in the absence of preventative assistance. **Therefore, among families eligible for homelessness prevention assistance due to being at-risk of homelessness, counties should prioritize serving families with the greatest risk factors for homelessness, including households with multiple risk factors as listed below.**

C.1 Targeting households who are closer to the anticipated loss of housing increases the chances they will actually need financial assistance from the homeless assistance system in order to stay out of shelter. The more time a household has until their housing situation ends, the more likely it is they will find a workable solution for their current situation that does not require assistance. For this reason, households that have come seeking emergency shelter but may still be in their own housing situation are often good candidates for receiving homelessness prevention assistance.

C.2 The Homeless Management Information System (HMIS) or similar data collection system can provide the data the program needs to further identify and target service needs.

C.3 Counties should consider targeting homelessness prevention assistance to households that have risk factors for housing instability and homelessness. Some risk factors to consider include:

- C.3.1 Single parent households
- C.3.2 Households with children under two
- C.3.3 Disabilities in the household
- C.3.4 Criminal records
- C.3.5 History of conduct notices or other lease violations
- C.3.6 Past evictions
- C.3.7 Pregnancy
- C.3.8 Number of and length of previous homeless episodes
- C.3.9 Immediate crises such as domestic abuse
- C.3.10 Living situation prior to entering the homeless assistance system (doubled up or not being a leaseholder)
- C.3.11 Employment status

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

C.3.12 Household size and membership (presence of children, their ages, etc.)

C.4 Without using available shelter data in selecting homelessness prevention assistance criteria, communities may run a higher risk of inadvertently serving people who would never have become homeless in the first place, limiting the resources available to households that truly need them. The National Alliance to End Homelessness Prevention Targeting 101 briefing includes factors for consideration for programs without access to shelter data.

D. EVICTION PREVENTION

D.1 Eviction prevention is distinct from homelessness prevention in that it is not narrowly targeted to only those households who are at-risk of homelessness due to a potential eviction. Homelessness prevention efforts often include eviction prevention strategies such as short term or one-time financial assistance payments, including payment of back rent, but may also offer more substantial case management or other supportive services.

D.2 Eviction prevention strategies for CDSS programs, including HSP, during COVID-19 are outlined in ACWDL dated January 14, 2021, and information on requirements for HSP to leverage federal and state rent relief resources is outlined in the section below.

E. REPORTING REQUIREMENTS ON FOR HOMELESS PREVENTION

E.1 Effective prevention programs for families at-risk of homelessness may require a different set of interventions, outreach efforts, processes, contractors, data collection, and community partners than those established for homeless assistance interventions. Counties should consider how the program may need to be adapted to incorporate this new intervention type. Further, counties should develop internal monitoring systems to track overall spending on prevention.

E.2 In the required program updates, counties will be asked to report on homelessness prevention services, including how those services are being delivered according to best practices. Counties will also be asked to report on their use of funds for homelessness prevention.

Coordinated Entry Requirements

This Exhibit A-9 ("Exhibit") is hereby incorporated into and made part of the Agreement dated July 1, 2025 to June 30, 2026 ("Agreement") by and between the County of Monterey and the Housing Resource Center of Monterey County (“CONTRACTOR”). The purpose of this Exhibit is to establish mandatory requirements for the use of the Coordinated Entry System in accordance with federal, state, and local regulations.

Coordinated Entry is a standardized process used by homeless service systems to ensure that people experiencing or at risk of homelessness are quickly and equitably connected to available housing and services. It is required by the U.S. Department of Housing and Urban Development (HUD) and some State of California homeless programs and aims to prioritize assistance based on vulnerability and need rather than on a first-come, first-served basis.

Key Components of Coordinated Entry:

1. **Standardized Assessment:** Uses a common tool identified by the Coalition of Homeless Services Providers, as the lead Continuum of Care (“CoC”) lead agency, to evaluate individuals’ and families’ needs and vulnerabilities.
2. **Prioritization:** Allocates housing and services based on established criteria, often prioritizing people who are chronically homeless, highly vulnerable, or have the highest needs.
3. **Referral Process:** Matches individuals to the most appropriate available housing and services, such as Permanent Supportive Housing (PSH), Rapid Rehousing (RRH), or Transitional Housing.
4. **Accessibility:** Ensures that all populations, including those with disabilities or language barriers, can access services equitably.
5. **Streamlined Entry System:** Reduces the need for individuals to navigate multiple agencies by centralizing access to resources.

Coordinated Entry is designed to improve the efficiency of homelessness response systems, reduce barriers to housing, and ensure that limited resources are used effectively. In Monterey and San Benito Counties, Coordinated Entry, locally known as the Coordinated Assessment and Referral System (“CARS”), is managed through the local Homeless Management Information System (“HMIS”).

For the purposes of this agreement, CONTRACTOR is hereby mandated to: (Check all that apply.)

☒ Enter all clients experiencing homelessness into CARS for consideration of housing options made available through the program.

☐ Receive client referrals solely through CARS.

☒ Receive client referrals through CARS and other means established in EXHIBIT A of this Agreement.

CONTRACTOR RESPONSIBILITIES

1. Purpose and Compliance

1.1. CONTRACTOR shall utilize CARS to ensure that all homeless individuals and families are assessed and prioritized for housing and services in a standardized, equitable, and transparent manner.

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

1.2. CONTRACTOR shall comply with the requirements set forth in the U.S. Department of Housing and Urban Development (HUD) Continuum of Care (CoC) Program and Emergency Solutions Grant regulations, including 24 CFR Part 578 and the HUD Coordinated Entry Notice.

1.3. CONTRACTOR shall adhere to the CARS Policies and Procedures established by the Coalition of Homeless Services Providers, the local Continuum of Care ("CoC") lead agency, to ensure consistency, fairness, and efficiency in housing referrals and service provision.

2. Data Entry and Reporting Requirements

2.1. CONTRACTOR shall enter accurate, complete, and timely data into CARS within 3 business days of client assessment, referral, or service provision.

2.2. CONTRACTOR shall ensure all program participants complete the required Release of Information form prior to data entry in accordance with the CoC's privacy policies.

2.3. CONTRACTOR shall ensure client assessments are updated every 6 months or whenever there is a significant change to the client's situation for duration of their unsheltered and/or homeless status.

2.4. CONTRACTOR shall contact inactive clients in the CARS program, reassess their participation, and either exit them from the program or assist in their continued enrollment based on the outcome of those contacts. The CONTRACTOR shall maintain records of these interactions in the client's profile in the HMIS.

3. Privacy and Security Compliance

3.1. CONTRACTOR shall comply with all applicable privacy and confidentiality regulations, including but not limited to the CARS Privacy and Security Standards, HUD Confidentiality Standards, and the Health Insurance Portability and Accountability Act (HIPAA) if applicable.

3.2. CONTRACTOR shall ensure all CARS users complete trainings as required by the CoC.

3.3. CONTRACTOR shall implement appropriate security measures, including password protections, data encryption, and access controls, to prevent unauthorized access or data breaches.

4. Non-Compliance and Remedies

4.1. Failure to comply with CES requirements may result in corrective actions, including but not limited to:

4.1.1. Required remedial training;

4.1.2. Temporary suspension of CES access;

4.1.3. Withholding of funding until compliance is achieved;

4.1.4. Termination of this Agreement for repeated non-compliance.

4.2. CONTRACTOR shall work in good faith to resolve any CES-related deficiencies identified during audits or compliance reviews.

ADDITIONAL PROVISIONS

I. PAYMENT BY COUNTY:

1.01 Monthly claims/invoices by CONTRACTOR: Not later than the tenth (10th) day of each month, CONTRACTOR shall submit to COUNTY a signed invoice setting forth the amount claimed. All invoices (monthly and final) shall be submitted in the form set forth in **Exhibit D-1** and **Exhibit D-2**.

1.02 Final Invoice; forfeiture for late invoice: CONTRACTOR's final month and end of fiscal year invoice is due, and must be received by COUNTY, no later than close of business on **July 10th. If the Final Invoice is not received by COUNTY by close of business on July 10th. CONTRACTOR understands and agrees that the reimbursement of CONTRACTOR's final expenses represented by that invoice may be forfeited, and COUNTY shall have no legal obligation regarding it, nor shall COUNTY be required to make any payment towards that untimely/late invoiced claim.**

1.03 Allowable Costs:
a) Allowable costs shall be the CONTRACTOR's actual costs of developing, supervising and delivering the services under this Agreement, as set forth in **Exhibit C-1** and **Exhibit C-2**. Only the costs listed in **Exhibit C-1** and **Exhibit C-2** as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of 45 Code of Federal Regulations, Part 74, Sub-Part F and 48 Code of Federal Regulations (CFR), Chapter 1, Part 31.

b) Allowable costs for travel expenses incurred while providing services under this Agreement, as set forth in **Exhibit C**, must follow the Monterey County Auditor/Controller's Travel Policy https://www.countyofmonterey.gov/government/departments-a-h/auditor-controller/policies-and-procedures and should be invoiced the current per diem rates for lodging, meals, and mileage up to the rates listed online at https://www.irs.gov/tax-professionals/standard-mileage-rates.

1.04 Cost Control: CONTRACTOR shall not exceed by more than twenty (20) percent any contract expense line-item amount in the budget without the written approval of COUNTY, given by and through the Contract Administrator or Contract Administrator's designee. CONTRACTOR shall submit an amended budget with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this contract. Therefore, an increase in one-line item will require corresponding decreases in other line items.

1.05 Payment in Full:
a) If COUNTY certifies and pays the amount requested by CONTRACTOR, such payment shall be deemed payment in full for the month in question and may not thereafter be reviewed or modified, except to permit COUNTY's recovery of overpayments.

Health Insurance Portability & Accountability Act (HIPAA) Certification

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

Docusign Envelope ID: 0F841E94-84EF-8EBF-83AC-B8DE01D145AC

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not publish any such material without the prior written approval of County.

E. SUMMARY

The purpose of this Agreement is to provide funding for Parent as Teachers (PAT) for referred FCS population, prioritizing Family Reunification and Voluntary Family Maintenance Cases. The target population for this Agreement will encompass all referrals from Family and Children Services (FCS) Division of the Department of Social Services, considering FCS referrals who may also be served via CalWORKs- First Five contract. Target population is active Family Reunification, Voluntary Family Maintenance and Pathways to Safety (otherwise known as Differential Response) families.

F. DESCRIPTION OF SERVICES:

F.1 CONTRACTOR will provide direct, interactive parent education to families in need of, or at-risk for, child protective services, and who are referred and authorized for services by the COUNTY designated point of contact. Generally, these families will fall within three categories:

F.1.1 Parents involved with prevention and early intervention services, including Pathways to Safety or Differential Response.

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

F.1.2 Parents who are Family Maintenance (FM) or Voluntary Family Maintenance (VFM) clients of FCS and have their children at home.

F.1.3 Parents who are Family Reunification (FR) or Voluntary Family Reunification (VFR) clients and have had their children placed in out-of-home care. These services will be provided to the parents even though they also may be actively engaged in substance abuse treatment. These families are the priority and there will not be a wait list for these families longer than 30 days.

F.2 CONTRACTOR ensures center services are Americans with Disabilities Act (ADA) compliant.

F.3 CONTRACTOR shall ensure that CDC guidelines regarding mitigating the spread of infectious diseases, particularly regarding operating a public facility, are adhered to.

F.4 CONTRACTOR shall provide information and referral assistance with completion of application forms for mainstream benefits. CONTRACTOR is encouraged to apply for a CBO account with the Department of Social Services to facilitate direct enrollment of clients.

F.5 CONTRACTOR shall make efforts to provide all services in a low-barrier, trauma informed, and culturally considerate manner. All written and spoken communication intended for consumers shall be made available in English and Spanish at minimum and efforts to accommodate additional languages, when necessary, should be made.

F.6 CONTRACTOR will be inclusive when working with Family Reunification families and may concurrently provide parent mentoring education to the resource parents who are caring for the children enrolled in PAT.

F.6.1 Services will be provided by certified Parent Educators using the Parents as Teachers evidence based (PAT) curriculum. Materials provided will include the Parents as Teachers curriculum and handouts, videos as needed and materials and supplies for toy-making activities and children's books to use during visits.

F.6.2 Parent education, including actual hands-on instruction, will be provided for each visit. This is done to reinforce the instruction given and provide better opportunities for parent/child bonding and visitation. Parents will set parenting goals and an action plan will be developed that will help them achieve their goals. A parent/child activity time is part of each visit with a focus on literacy. Developmental, hearing, and vision screenings will be conducted, and Parents as Teachers will act as a referral source for these families. Information on child development and parenting skills will be the focus. Also, health and safety issues are included as part of the curriculum for Family Reunification families, parent educators also will meet at least monthly with the foster parent to include them in the interactive sessions and to instruct foster parents on how to perform the role of mentors for the parents in treatment.

F.6.3 Services delivered will be flexible to meet the needs of the family and comply with any current Shelter in Place County expectations as well as safety needs for all. In-home visitation will be scheduled as may best accommodate the client. Frequency of visits may vary, but are generally delivered twice per month.

Docusign Envelope ID: CD07EFE8-4A86-8F84-8087-BEED73B03553

F.6.4 Service sites may include, but are not limited to: home, schools, libraries, social service agencies, and substance abuse treatment program facilities as part of the parents' service and treatment plan.

F.7 Referrals for PAT Services for FCS client referrals to the CONTRACTOR will be coordinated through a designated FCS referral coordinator and early intervention or prevention referrals shall be approved through the contract manager. To facilitate proper placement of parents, families referred by FCS will include the age of the child, or in the case of multiple children, an indication of the priority child, and the language preference of the family. Once a referral from FCS has been processed, parents will be assigned to a Parent Educator. Priority will be given to those parents who have been court ordered (i.e. Family Reunification) to receive services in order to have their children returned to them. All referrals will receive a phone call prior to commencement of their first visit notifying them of the date, time and location. The FCS social worker will work with the PAT educator to ensure timely communication and partnership.

F.8 CONTRACTOR shall serve an average of 60 families at a time. Each FTE has an average caseload of 20 families. Contract supports 3 FTEs. Caseloads vary depending on the time demands of each family's case as well as the visit frequency set by the Social Worker and Parent Educator. Factors include location of family, family stressors and needs, frequency of visits, CFT meetings, meetings with Social Worker etc.

F.9 CONTRACTOR will continue and grow their partnership with First Five Monterey County and Family and Children Services to work as a team in the provision of PAT to Family First and Prevention ACT (FFPSA) eligible families. CONTRACTOR will participate in discussions, meetings and training around the shared goal of growing in the provision of PAT services to the families of Monterey County.

F.10 The primary contact for the COUNTY may convene meetings as needed, but not less than twice per year**.** This meeting will minimally include the contract administrators. Others may be included at the discretion of the COUNTY and the CONTRACTOR. The purpose of these meetings shall be to oversee implementation of the contract; wait-lists, trends being seen, discuss and make decisions regarding contract issues; evaluate contract usage and effectiveness; and make recommendations for contract modifications. These meetings will also discuss funding opportunities and possible partnership within Monterey County for the provision of PAT. CONTRACTOR does not have the authority to authorize changes requiring a contract amendment.

G. REPORTING INSTRUCTION, REQUIREMENTS & SUBMISSION

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: 4193AA09-4DD5-8F9C-83C2-F88B09A68932

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;

In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. E. BACKGROUND:

Door to Hope (DTH) will be the lead administrative agency and coordinator for a program centered on the values and practices modeled after Differential Response, locally known as Pathways to Safety 2.0 (P2S). Door to Hope will work in close collaboration with Family and Children's Services (FCS) to improve family and child well-being, while improving the local community's ability to keep children safe.

This agreement continues the partnership to implement best practices in providing equitable support to families with the goal of keeping families together safe and thriving through promoting well-being and fostering ongoing family stability.
Door to Hope Pathways to Safety 2.0 serves families who are at risk of abuse and/or neglect. For the first 15 years of the program, referrals were made from FCS to Pathways to Safety when a family was reported to the hotline but did not meet the threshold for investigation yet were still in need or services. Starting in 2023 self-referrals and community referrals are also made to Pathways to Safety for families in need of support to keep their children home, safe

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

and thriving. These families do not meet the threshold of possible abuse or neglect hotline reporting, but community supporting is needed. Participation in P2S is voluntary. P2S also serves extended families who are seeking out relative guardianship through the court self-self-center, FCS or on their own. Some of these families will continue as a P2S 2.0 family.

Pathways to Safety (P2S) is now partnering with DSS-FCS to be trained and provide Motivational Interviewing techniques to families. This will especially be community supportive in working with families who can benefit from primary prevention services offered through Family First Prevention Services Act dollars. P2S is also working with FCS in partnership around being part of the gateway planning for other FFPSA services throughout the county like Parent's As Teachers (PAT) and their voice will be at the table as these best practice opportunities unfold for families.

F. DESCRIPTION OF SERVICES:

CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

F.1 Pathways to Safety 2.0 continues its best practice work to keep families safe, home and thriving. For all families referred to P2S; through FCS or the community, P2S will offer the provision of Information and Referral, Case Management, and Guardianship Process Support, that includes community provider's linkage based on assessed needs and willingness of the family to participate.

In accordance with the principles of this Agreement, the duties and responsibilities of CONTRACTOR are outlined as follows. The CONTRACTOR shall:

G.1 FCS Referrals - P2S will meet with social workers at least once a quarter to reiterate the goals and purpose of the program. FCS will send closed referrals from the County to the identified Pathways to Safety Manager, listed as Noel Texeira at noelt@doortohope.org. The Pathways to Safety Manager will distribute referrals depending on caseloads for each Family Resource Specialist (FRS). Each FRS will have an average of 20-40 active cases at a time and at least 50% of referrals will come from FCS. With full staffing capacity, the cases across the P2S program will not exceed an average of 200 active cases at any given time. A waitlist will be developed if more than 200 families are receiving services, and a triage of families can occur with priority given to FCS referrals. Case management and guardianship process support will be conducted up to 90 days per family and families needing support beyond the 90 days will be determined at the discretion of the P2S team. P2S will track FCS referrals and share the number of referrals with FCS monthly via data reports.

G.2 Community Referrals

G.2.1 P2S accepts community referrals. Community referrals are accepted to the program, using a screening tool approved by the FCS contract manager as part of the intake process. P2S will track Community Referrals and share the number of referrals with FCS monthly via data reports. There will be ongoing community education for FCS, agencies and the community to understand the changes in the P2S program and awareness of Community Referrals. This outreach will be ongoing as capacity allows. In addition to connecting with other agencies, Door to Hope will use existing networks within their organizations that work closely with system impacted families to

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

identify Community Referrals. It is expected that Community Referrals will also come in via word of mouth from previous or existing clients. P2S will assess and determine outreach strategy based on community need. If P2S receives an abundant number of Community Referrals a waiting list will be developed to ensure there is at least 50% capacity for FCS referrals.

G.2.2 P2S will maintain a current referral form for outside agencies and organizations to refer families to the program. P2S will provide a phone number to call. P2S will update the Door to Hope website with this information.

Quarterly reports will be followed by a meeting with FCS to discuss the findings to support decision making in other areas of the County as well as an opportunity to make modifications to P2S as needed. Door to Hope will work with County Systems Support and contract monitor to cross reference families receiving P2S services and any subsequent referrals to the FCS hotline.

J.3 Communication with Social Workers and Family and Children's Services. P2S has been successful in part due to its ability to maintain confidentiality regarding its work with clients. FRSs will communicate with social workers and share basic information around the referrals to outside services but will not share any additional information families share with the FRS. FRSs will only share the information if contacted by a social worker, otherwise the information on a case will be included in the aggregated data in the reports. As a multidisciplinary team, P2S will share trending community needs on a quarterly basis with FCS.

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

Docusign Envelope ID: DFB9AF6A-17AE-8916-8132-CD1C20AED2A1

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after reciept of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining

10.05 **Royalties and Inventions:** County shall have a royalty-free, exclusive and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

10.06 **Format of Deliverables:** For this section, "Deliverables" shall mean all electronic documents CONTRACTOR provides to the County under this Agreement. CONTRACTOR shall ensure all Deliverables comply with the requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1, pursuant to the Americans with Disabilities Act ("ADA"). CONTRACTOR bears the burden to deliver Deliverables, such as Adobe Acrobat Portable Document Format ("PDF") and Microsoft Office files, complying with WCAG 2.1. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

12.0 COMPLIANCE WITH TERMS OF STATE OR FEDERAL GRANTS:

Health Insurance Portability & Accountability Act (HIPAA) Certification

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

Docusign Envelope ID: 42E20220-E023-8242-8225-9D0E9E65636E

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

4. **Fiscal Responsibility Relating to Eligible Immigrant Clients and Clients to Whom General Assistance Has Been Paid**. The County of San Mateo will receive funds from the State of California and process CAPI aid payments to eligible immigrants, to the extent that State funds are available for the program and received by the County of San Mateo for that purpose.

   As the Fiscal Agent for the Consortium, when the County of San Mateo has received the corresponding CAPI payments, the County of San Mateo will follow these procedures for clients to whom General Assistance (GA) has been paid:

   a) Reimburse other member counties for General Assistance (GA) they have paid to clients in any month in which it is subsequently determined that the clients are eligible for and receives CAPI benefits.
   b) The difference between the full CAPI award amount and the General Assistance (GA) amount paid to clients will be remitted to the clients. This is contingent upon the participating member county informing the County of San Mateo, at the time the CAPI application is submitted to the County of San Mateo, that the member county is paying GA to the subject clients, and upon the County of San Mateo's receipt of corresponding CAPI payments from the State of California. Thereafter, the County of San Mateo will inform the member counties when clients are determined eligible for CAPI. Upon receipt of such notifications, member counties will not be reimbursed for GA provided to clients for month(s) following member county's receipt of the notification from the County of San Mateo. already paid to the clients.

5. **Payment in the Event of Impasse in the State Budget.** It is in the Parties' interest to continue the CAPI Program in the event the State is unable for any reason to make advance payment of CAPI funds. Notwithstanding any other provision of this Agreement, if the State does not advance CAPI funds to the County of San Mateo prior to the month for which the County of San Mateo is to issue CAPI assistance payments on behalf of the Consortium, and the failure to advance funds is due to a delay in the State budget, the County of San Mateo shall issue CAPI payments to eligible recipients, subject to and contingent upon all Parties' compliance with the following provisions:

   a) Within five (5) business days of the close of any month for which the County of San Mateo has issued CAPI assistance payments utilizing the County of San Mateo's funds, the County of San Mateo will issue to each member county an invoice indicating the amount of CAPI assistance payments issued by the County of San Mateo on behalf of the member county.
   b) Within ten (10) business days of receipt of the CAPI invoice for the previous month, the member county shall issue payment to the County of San Mateo equal to the amount of the invoice. If the County of San Mateo does not receive payment of the full amount within ten (10) business days, the County will not issue CAPI payments for that member county in the following month; and
   c) Upon resumption of the issuance of CAPI funds by the State to the County of San Mateo, and when sufficient such funds are available, the County of San Mateo shall reimburse each member county for the amount of county funds that member county issued to the County of San Mateo under this section of the Agreement. The County of San Mateo will reimburse itself for payments that were not received from member counties, as referenced in Paragraph 5(b).

6. **Term.** This Agreement shall be in effect as of July 1, 2026 and shall terminate on June 30,2030.

   The Consortium, upon consensus, may terminate this Agreement or a portion of the services referenced in this Agreement based upon unavailability of federal, state, or county funds, by providing written notice to the member counties as soon as is reasonably possible after the Consortium learns of the unavailability of outside funding.

   Any member county may withdraw from the Consortium upon thirty (30) days' written notice to the other Parties to this Agreement. Written notice must be issued by the officer or an authorized signatory agent designated in the signature section of this Agreement and mailed to:

XIV. INDEMNIFICATION

CONTRACTOR shall indemnify, defend, and hold harmless the COUNTY, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies, in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR'S performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the COUNTY. "CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.

XV. INSURANCE

A. Evidence of Coverage. Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the CONTRACTOR upon request shall provide a certified copy of the policy or policies.
This verification of coverage shall be sent to the COUNTY'S Contracts/Purchasing Office, unless otherwise directed. The CONTRACTOR shall not receive approval for services for work under this Agreement until all insurance has been obtained as required and approved by the COUNTY. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

B. Qualifying Insurers. All coverage, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current A. M. Best's Key Rating Guide or a company of equal financial stability that is approved by the COUNTY'S Contracts/Purchasing Officer.

C. Insurance Coverage Requirements. Without limiting CONTRACTOR'S duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

1. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

2. Business automobile liability insurance, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

3. Workers Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

4. Professional Liability Insurance, if required for the professional service being provided, (e.g., those persons authorized by a license to engage in business or profession regulated by the California Business and Professional Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

D. Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the COUNTY and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the COUNTY shall be given notice in writing at least thirty (30) calendar days in advance of any endorsed reduction in coverage or limit,

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

XVI. ACCESS TO AND AUDIT OF RECORDS

A. Right to Inspect Records. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State laws including, but not limited to the California Welfare and Institutions Code (WIC) Sections

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

14170 et seq., the COUNTY or its representative, Federal or State governments may conduct an audit, review or other monitoring procedures of the CONTRACTOR regarding the services/activities provided under this Agreement. The COUNTY or its representative, Federal or State governments shall have the right to inspect any and all books, records, and facilities maintained by CONTRACTOR during normal business hours and without advance notice to evaluate the use of funds and the cost, quality, appropriateness, and timeliness of services.

B. Maintenance of Records. CONTRACTOR shall maintain any and all records documenting all services set forth under this Agreement for a period of ten (10) years from the end of the fiscal year in which such services were provided or until three (3) years after final resolution of any audits, or appeals, whichever occurs later. CONTRACTOR shall maintain such records in a form comporting with generally accepted accounting and auditing standards and all applicable laws.

C. Overpayment. If the results of any audit show that the funds paid to CONTRACTOR under this Agreement exceeded the amount due, then CONTRACTOR shall pay the excess amount to COUNTY in cash not later than thirty (30) calendar days after the COUNTY notifies the CONTRACTOR of such overpayment; or, at COUNTY'S election, COUNTY may recover the excess or any portion of it by offsets made by COUNTY against any payment(s) owed to CONTRACTOR under this or any other Agreement or as set forth in Exhibit I, if made part of this Agreement.

D. Responsibility for Audit Exceptions. Any and all audit exceptions by COUNTY or any Federal or State agency resulting from an audit of CONTRACTOR'S performance of this Agreement, or actions by CONTRACTOR, its officers, agents, and employees shall be the sole responsibility of the CONTRACTOR.

E. Availability of Records for Grievances and Complaints by Recipients of Service. CONTRACTOR shall ensure the availability of records for the prompt handling of grievances or complaints filed by recipients of services. Release of records shall be subject to the confidentiality provisions set forth in this Agreement.

F. Reports. CONTRACTOR shall prepare any reports and furnish all information required for reports to be prepared by the COUNTY as may be required by the State of California or applicable law, including, but not limited to Budgets, Cost Allocation Methodologies, Tax Returns, Accounting Policies, Audited Financial Statements, Organization Charts, Personnel Policies, Bank Reconciliations, and Depreciation Schedules.

XVII. NON-DISCRIMINATION

A. Non-discrimination. During the performance of this Agreement, CONTRACTOR shall not unlawfully discriminate against any person because of race, religion, color, sex, gender, gender identity, genetic information, national origin, ethnic group identification, ancestry, mental or physical handicap, medical condition, health status or need for health care services, marital status, age (over 40), or sexual orientation, either in CONTRACTOR'S employment practices or in the furnishing of services to recipients. CONTRACTOR shall insure that the evaluation and treatment of its employees and

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

applicants for employment and all persons receiving and requesting services are free of such discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be unlawful discrimination. In addition, CONTRACTOR'S facility access for the disabled shall comply with § 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

B. Discrimination defined. The term "discrimination," as used in this Agreement, is the same term that is used in Monterey County Code, Chapter 2.80 ("Procedures for Investigation and Resolution of Discrimination Complaints"); it means the illegal denial of equal employment opportunity, harassment (including sexual harassment and violent harassment), disparate treatment, favoritism, subjection to unfair or unequal working conditions, and/or discriminatory practice by any Monterey County official, employee or agent, due to an individual's race, color, ethnic group, sex, national origin, ancestry, religious creed, sexual orientation, age, veteran's status, cancer-related medical condition, physical handicap (including AIDS) or disability. The term also includes any act of retaliation.

C. Application of Monterey County Code Chapter 2.80. The provisions of Monterey County Code Chapter 2.80 apply to activities conducted pursuant to this Agreement. CONTRACTOR and its officers and employees, in their actions under this Agreement, are agents of the COUNTY within the meaning of Chapter 2.80 and are responsible for ensuring that their workplace and the services that they provide are free from discrimination, as required by Chapter 2.80. Complaints of discrimination made by recipients of services against CONTRACTOR may be pursued by using the procedures established by or pursuant to Chapter 2.80. CONTRACTOR shall establish and follow its own written procedures for prompt and fair investigation and resolution of discrimination complaints made against CONTRACTOR by its own employees and agents or recipients of services pursuant to this Agreement, and CONTRACTOR shall provide a copy of such procedures to COUNTY on demand by COUNTY.

D. Compliance with Applicable Law. During the performance of this Agreement, CONTRACTOR shall comply with all applicable Federal, State and local laws and regulations which prohibit discrimination including, but not limited to, the following:

1. California Code of Regulations, Title 9, §§ 526, 527;

At any time, COUNTY may require a complete listing of all subcontractors employed by the CONTRACTOR for the purpose of fulfilling its obligations under the terms of this Agreement. Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and

(iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non- permitted access, acquisition, Use, or Disclosure. Business

Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

(b) Business Associate is not permitted to Use PHI to create de- identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R.
§ 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

In the event of any conflict or inconsistency between a provision of this BAA and a provision of any other agreement between Business Associate and Covered Entity, the provision of this BAA shall control unless the provision in such other agreement establishes additional rights for Business Associate or additional duties for or restrictions on Business Associate with respect to PHI, in which case the provision of such other agreement will control.

I. AUDITS AND AUDIT APPEALS

A. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State law including but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., authorized representatives from the Federal governments, State or COUNTY may conduct an audit of CONTRACTOR regarding the services/activities provided under the fiscal year(s) for which the audit is outstanding. In addition, contract compliance audits or reviews may be conducted by the County of Monterey Auditor-Controller's Office or designated representative. Furthermore, the California State Controller Office performs audits of the mandated cost claims for the seriously emotionally disturbed pupils for the Out-of-State Mental Health Services Program and Handicapped and Disabled Students Programs. The Centers for Medicare and Medicaid Services (CMS) also perform audits of the Certified Public Expenditure (CPE) processes, negotiated rate audit information, and other issues.

B. Settlement of audit findings shall be conducted according to the auditing party's procedures in place at the time of the audit.

C. In the case of a Federal Government or State audit, COUNTY may perform a post-audit based on Federal or State audit findings. Such post-audit shall take place when the Federal Government or State initiates its settlement action, which customarily is after the issuance of the audit report by the Federal Government or State and before the Federal Government or State's audit appeal process.

    1. If the Federal Government or State stays its collection of any amounts due or payable because of the audit findings, COUNTY shall also stay its settlement of the same amounts due or payable until the responsible auditing party initiates its settlement action with COUNTY.

    2. COUNTY shall follow all applicable Federal, State and local laws, regulations manuals, guidelines and directives in recovering from CONTRACTOR any amount due to the COUNTY.

    3. COUNTY shall issue an invoice to CONTRACTOR for any amount due to the COUNTY no later than ninety (90) calendar days after the Federal or State issues its audit settlement letter to the COUNTY. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

D. CONTRACTOR may appeal any such audit findings in accordance with the audit appeal process established by the party performing the audit.

    1. For Federal audit exceptions, Federal audit appeal processes shall be followed.

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

2. CONTRACTOR may appeal the State audit findings in conformance with provisions of Sections 51016 et seq. of Title 22 of the California Code of Regulations. Such appeals must be filed through COUNTY. COUNTY shall notify CONTRACTOR of State appeal deadlines after COUNTY'S receipt from State of the audit report.

3. If at any time the Appeal process results in a revision to the audit findings, and the Federal Government or State recalculates the final settlement with COUNTY, COUNTY may perform a post-audit based on the Federal or State revised findings after the Federal Government or State has issued its revised settlement with the COUNTY, based on such re-computed final settlement.

   a. If the re-computed final settlement results in amounts due to CONTRACTOR by the COUNTY, COUNTY shall make such payments to CONTRACTOR within thirty (30) calendar days of issuing the revised settlement amount to the CONTRACTOR.

   b. If the re-computed final settlement results in amounts due from CONTRACTOR to the COUNTY, CONTRACTOR shall make payment to the COUNTY within thirty (30) days that the COUNTY issues its invoice to the CONTRACTOR.

E. Not withstanding any other provisions of this Agreement, if CONTRACTOR appeals any audit report, the appeal shall not prevent the COUNTY from recovering from CONTRACTOR any amount owed by CONTRACTOR that the Federal Government or State has recovered from COUNTY.

F. Should the auditing party be the COUNTY, CONTRACTOR shall have thirty (30) calendar days from the date of the audit report with in which to file an appeal with COUNTY. The letter providing the CONTRACTOR with notice of the audit findings shall indicate the person(s) and address to which the appeal should be directed. COUNTY shall consider all information provided by CONTRACTOR with its appeal, and shall issue its decision on the appeal after such consideration. CONTRACTOR may exercise any appeal rights available to CONTRACTOR under State law. Once all of CONTRACTOR's appeal rights have been exhausted, or CONTRACTOR has waived such rights, COUNTY shall issue an invoice for any amount due. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit H. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

II. METHOD OF PAYMENTS FOR AMOUNTS DUE TO COUNTY

A. Within ten (10) business days after written notification by COUNTY to CONTRACTOR of any amount due by CONTRACTOR to COUNTY, CONTRACTOR shall notify COUNTY as to which of the following five (5) payment options CONTRACTOR requests be used as the method by which such amount shall be recovered by COUNTY. Any such amount shall be:

   1. Paid in one cash payment by CONTRACTOR to COUNTY;

Docusign Envelope ID: 14EE3FCE-C8F1-8F7D-82D9-60D5A295A9AA

4. Paid by cash payment(s) by CONTRACTOR to COUNTY over a period not to exceed six (6) months; OR

5. A combination of any or all of the above.

B. If CONTRACTOR does not so notify COUNTY within such ten (10) days, or if CONTRACTOR fails to make payment of any such amount to COUNTY as required, then Director, in his sole discretion, shall determine which of the above five (5) payment options shall be used by COUNTY for recovery of such amount from CONTRACTOR.

Non-Standard Agreement
Between
County of Santa Cruz Health Services Agency Behavioral Health Division
and County of Monterey
FY 25/26

1. INTRODUCTION

The purpose of this Non-Standard Agreement is to establish a cooperative agreement between County of Santa Cruz County Health Services Agency Behavioral Health hereinafter referred to as SANTA CRUZ, and the County of Monterey, hereinafter referred to as MONTEREY, to allow Out-of-County clients to enroll in a licensed Driving Under the Influence (DUI) Program, and for SANTA CRUZ to implement a contract with the DUI Program Provider MONTEREY is currently utilizing. SANTA CRUZ and MONTEREY may be collectively referred to as "PARTIES" and individually as "PARTY".

2. PURPOSE

A. Per Health & Safety Code (HSC) Section 11837.2, a person is eligible to participate in a DUI Program if the program is operating in any of the following:
   1. The county where the person is convicted.
   2. The county where the person resides.
   3. A county that has an agreement with the person's county of residence pursuant to HSC Section 11838.

B. SANTA CRUZ has advised MONTEREY that SANTA CRUZ DUI clients will be unable to enroll in a local licensed DUI program due to Program Closures in their county. To be in compliance with court orders and Department of Motor Vehicle (DMV) driver's license requirements, DUI clients are seeking alternative programs to enroll in.

C. DUI Program Closures create hardships for DUI clients, affecting their ability to apply for a restricted driver's license and extending the period for which their eligibility to receive full license reinstatement post-DUI completion.

D. DUI Program Closures place the public at risk for a higher number of DUI clients' recidivism, and DMV annual reports have validated DUI program attendance as a critical component of reduced recidivism in California.

E. MONTEREY's current DUI Program(s) are able to provide services using Live Virtual Services, which opens the opportunity to serve Out-of-County clients.

..Report

RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a non-standard Agreement between County of Santa Cruz, on behalf of its Health Services Agency Behavioral Health Division and County of Monterey, to establish referral and acceptance protocols allowing out-of-county clients to enroll in the Monterey County licensed Driving Under the Influence (DUI) Program. The term of this Agreement shall commence from the date of execution through June 30, 2028, at no cost to either party;
b. Approve the Director of Health Services or designee recommendation for approval of the non-standard indemnity provisions outlined in the agreement; and
c. Approve and authorize the Director of Health Services or designee to execute up to three (3) future amendments that do not significantly alter the original scope of services and do not add funds to the Agreement.

SUMMARY:

The purpose of this Agreement is to establish a cooperative agreement between County of Santa Cruz, on behalf of its Health Services Agency Behavioral Health Division and County of Monterey, to establish referral and acceptance protocols allowing out-of-county clients to enroll in the Monterey County licensed Driving Under the Influence (DUI) Program.

DISCUSSION:

Santa Cruz County has advised the County of Monterey that Santa Cruz County DUI clients will be unable to enroll in a local licensed DUI program due to program closures in their county. Santa Cruz County is seeking to utilize Monterey County's contracted DUI Program Provider, Sun Street Centers. Department of Health Care Services (DHCS) requires that any county seeking to utilize DUI Program services in another county enter into a formal agreement to outlining the referral and acceptance protocols.

DUI program closures create significant hardships for clients, limiting their ability to apply for a restricted driver's license and prolonging the timeline for full license reinstatement after completing DUI requirements. These closures may also increase the risk of recidivism, as

Docusign Envelope ID: F1047B38-DD89-819A-81D6-7E20E3CECA6F

consistent program participation is a key factor in reducing repeat offenses. Annual reports from the California Department of Motor Vehicles (DMV) have identified DUI program attendance as a critical component in lowering rates recidivism across California.

The County of Monterey's current DUI program(s) is able to provide services through Live Virtual Services, creating the opportunity to serve out-of-county clients. Santa Cruz County DUI clients participating in the County of Monterey contracted DUI Program will not impact or limit enrollment for County of Monterey DUI participants. In the event the County of Monterey's contracted DUI program experiences staffing shortages, it is agreed that County of Monterey participants will receive priority services. In the event of a staffing or service shortage arise during the period of the term of this Agreement, Santa Cruz County will be responsible for coordinating with the County of Monterey's contracted DUI program and to develop and implement a plan that supports Santa Cruz County participants without impact to County of Monterey participants.

This Agreement contains a 30-day "without cause" provision (Section 3), which provides that either of the parties may terminate the Agreement.

This work supports the following County of Monterey Health Department 2025-2028 Strategic Plan Goal(s): 2) Provide Exceptional Person-Center Care through Accessible, Community-Focused Health Services. It also supports one of the ten essential public health services, specifically: 7) Link people to need personal health services and assure the provision of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The office of the County Counsel and Risk Management have reviewed and approved this Agreement as to legal form and fiscal provisions, respectively.

FINANCING:
This Agreement consists solely of operational protocol and contains no fiscal, insurance or indemnification provisions; therefore, there will be no financial impact as a result of this Agreement.

or supplying work, services, materials, or supplies, in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR'S performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the COUNTY. "CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.

XIII. INSURANCE

A. Evidence of Coverage. Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the CONTRACTOR upon request shall provide a certified copy of the policy or policies.
This verification of coverage shall be sent to the COUNTY'S Contracts/Purchasing Office, unless otherwise directed. The CONTRACTOR shall not receive approval for services for work under this Agreement until all insurance has been obtained as required and approved by the COUNTY. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

B. Qualifying Insurers. All coverage, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current A. M. Best's Key Rating Guide or a company of equal financial stability that is approved by the COUNTY'S Contracts/Purchasing Officer.

C. Insurance Coverage Requirements. Without limiting CONTRACTOR'S duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

1. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

4. Professional Liability Insurance, if required for the professional service being provided, (e.g., those persons authorized by a license to engage in business or profession regulated by the California Business and Professional Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

D. Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the COUNTY and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the COUNTY shall be given notice in writing at least thirty (30) calendar days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

XIV. ACCESS TO AND AUDIT OF RECORDS

A. Right to Inspect Records. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State laws including, but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., the COUNTY or its representative, Federal or State governments may conduct an audit, review or other monitoring procedures of the CONTRACTOR regarding the services/activities provided under this Agreement. B. Maintenance of Records. CONTRACTOR shall maintain any and all records documenting all services set forth under this Agreement for a period of ten (10) years from the end of the fiscal year in which such services were provided or until three (3) years after final resolution of any audits, or appeals, whichever occurs later. CONTRACTOR shall maintain such records in a form comporting with generally accepted accounting and auditing standards and all applicable laws.

C. Overpayment. If the results of any audit show that the funds paid to CONTRACTOR under this Agreement exceeded the amount due, then CONTRACTOR shall pay the excess amount to COUNTY in cash not later than thirty (30) calendar days after the COUNTY notifies the CONTRACTOR of such overpayment; or, at COUNTY'S election, COUNTY may recover the excess or any portion of it by offsets made by COUNTY against any payment(s) owed to CONTRACTOR under this or any other Agreement or as set forth in Exhibit I, if made part of this Agreement.

D. Responsibility for Audit Exceptions. Any and all audit exceptions by COUNTY or any Federal or State agency resulting from an audit of CONTRACTOR'S performance of this

CONTRACTOR shall insure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be unlawful discrimination. In addition, CONTRACTOR'S facility access for the disabled shall comply with § 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

B. Discrimination defined. The term "discrimination," as used in this Agreement, is the same term that is used in Monterey County Code, Chapter 2.80 ("Procedures for Investigation and Resolution of Discrimination Complaints"); it means the illegal denial of equal employment opportunity, harassment (including sexual harassment and violent harassment), disparate treatment, favoritism, subjection to unfair or unequal working conditions, and/or discriminatory practice by any Monterey County official, employee or agent, due to an individual's race, color, ethnic group, sex, national origin, ancestry, religious creed, sexual orientation, age, veteran's status, cancer-related medical condition, physical handicap (including AIDS) or disability. CONTRACTOR and its officers and employees, in their actions under this Agreement, are agents of the COUNTY within the meaning of Chapter 2.80 and are responsible for ensuring that their workplace and the services that they provide are free from discrimination, as required by Chapter 2.80. Complaints of discrimination made by recipients of services against CONTRACTOR may be pursued by using the procedures established by or pursuant to Chapter 2.80. EXHIBIT E: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Triqui and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

8. Ensure that 100% of staff, over a 3-year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B);

permitted under 45 C.F.R. § 164.504(e)(4)(ii), provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and that such person will notify the Business Associate of any instances of which such person is aware that the confidentiality of the information has been breached; and

(e) Use PHI to report violations of law to appropriate Federal and state authorities, consistent with 45 C.F.R. § 164.502(j)(1).

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non- permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de- identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R.
§ 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

5.4 Notices. Any notices to be given hereunder to a Party shall be made via U.S. Mail or express courier to such Party's address given below, and/or via facsimile or email to the facsimile telephone numbers or email addresses listed below.

5.9 Applicability of Terms. This BAA applies to all present and future Services Agreements and business associate relationships, written or unwritten, formal or informal, in which Business Associate creates, receives, transmits, or maintains any PHI for or on behalf of Covered Entity in any form whatsoever. This BAA shall automatically be incorporated in all subsequent agreements between Business Associate and Covered Entity involving the Use or Disclosure of PHI whether or not specifically referenced therein. In the event of any conflict or inconsistency between a provision of this BAA and a provision of any other agreement between Business Associate and Covered Entity, the provision of this BAA shall control unless the provision in such other agreement establishes additional rights for Business Associate or additional duties for or restrictions on Business Associate with respect to PHI, in which case the provision of such other agreement will control.

5.10 Insurance. In addition to any general and/or professional liability insurance required of Business Associate under the Services Agreement, Business Associate agrees to obtain and maintain, at its sole expense, liability insurance on an occurrence basis, covering any and all claims, liabilities, demands, damages, losses, costs expenses, fines, and compliance costs arising from a breach of the obligations of Business Associate, its officers, employees, agents and Subcontractors under this BAA. Without limiting the foregoing, at a minimum, Business Associate's required insurance under this Section shall include cyber liability insurance covering breach notification expenses, network security and privacy liability. The insurance coverage limits, per claim and in the aggregate, shall not be less than the following amounts based upon the number of unique patient served under this agreement:

Unique Patients	Coverage
Less than 12,001	$2,000,000
12,001 – 30,000	$3,000,000
30,001 – 60,000	$5,000,000
More than 60,000	$10,000,000

If the Business Associate maintains broader coverage and/or higher limits than these minimums, the Covered Entity requires, and shall be entitled to, the broader coverage and/or the higher limits maintained by the Business Associate. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the Covered Entity. Such insurance coverage will be maintained for the term of this BAA, and a copy of such policy or a certificate evidencing the policy shall be provided to Covered Entity at Covered Entity's request.

5.11 Legal Actions. Promptly, but no later than five (5) calendar days after notice thereof, Business Associate shall advise Covered Entity of any actual or potential action, proceeding, regulatory or governmental orders or actions, or any material threat thereof that becomes known to it that may affect the interests of Covered Entity or jeopardize this BAA, and of any facts and circumstances that may be pertinent to the prosecution or defense of any such actual or potential legal action or proceeding, except to the extent prohibited by law. This includes, without limitation, any allegation that Business Associate has violated HIPAA or other federal or state privacy or security laws.

I. AUDITS AND AUDIT APPEALS

A. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State law including but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., authorized representatives from the Federal governments, State or COUNTY may conduct an audit of CONTRACTOR regarding the services/activities provided under the fiscal year(s) for which the audit is outstanding. In addition, contract compliance audits or reviews may be conducted by the County of Monterey Auditor-Controller's Office or designated representative. Furthermore, the California State Controller Office performs audits of the mandated cost claims for the seriously emotionally disturbed pupils for the Out-of-State Mental Health Services Program and Handicapped and Disabled Students Programs. The Centers for Medicare and Medicaid Services (CMS) also perform audits of the Certified Public Expenditure (CPE) processes, negotiated rate audit information, and other issues.

B. Settlement of audit findings shall be conducted according to the auditing party's procedures in place at the time of the audit.

C. In the case of a Federal Government or State audit, COUNTY may perform a post-audit based on Federal or State audit findings. Such post-audit shall take place when the Federal Government or State initiates its settlement action, which customarily is after the issuance of the audit report by the Federal Government or State and before the Federal Government or State's audit appeal process.

    1. If the Federal Government or State stays its collection of any amounts due or payable because of the audit findings, COUNTY shall also stay its settlement of the same amounts due or payable until the responsible auditing party initiates its settlement action with COUNTY.

    2. COUNTY shall follow all applicable Federal, State and local laws, regulations manuals, guidelines and directives in recovering from CONTRACTOR any amount due to the COUNTY.

    3. COUNTY shall issue an invoice to CONTRACTOR for any amount due to the COUNTY no later than ninety (90) calendar days after the Federal or State issues its audit settlement letter to the COUNTY. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

D. CONTRACTOR may appeal any such audit findings in accordance with the audit appeal process established by the party performing the audit.

    1. For Federal audit exceptions, Federal audit appeal processes shall be followed.

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

2. CONTRACTOR may appeal the State audit findings in conformance with provisions of Sections 51016 et seq. of Title 22 of the California Code of Regulations. Such appeals must be filed through COUNTY. COUNTY shall notify CONTRACTOR of State appeal deadlines after COUNTY'S receipt from State of the audit report.

3. If at any time the Appeal process results in a revision to the audit findings, and the Federal Government or State recalculates the final settlement with COUNTY, COUNTY may perform a post-audit based on the Federal or State revised findings after the Federal Government or State has issued its revised settlement with the COUNTY, based on such re-computed final settlement.

   a. If the re-computed final settlement results in amounts due to CONTRACTOR by the COUNTY, COUNTY shall make such payments to CONTRACTOR within thirty (30) calendar days of issuing the revised settlement amount to the CONTRACTOR.

   b. If the re-computed final settlement results in amounts due from CONTRACTOR to the COUNTY, CONTRACTOR shall make payment to the COUNTY within thirty (30) days that the COUNTY issues its invoice to the CONTRACTOR.

E. Not withstanding any other provisions of this Agreement, if CONTRACTOR appeals any audit report, the appeal shall not prevent the COUNTY from recovering from CONTRACTOR any amount owed by CONTRACTOR that the Federal Government or State has recovered from COUNTY.

F. Should the auditing party be the COUNTY, CONTRACTOR shall have thirty (30) calendar days from the date of the audit report with in which to file an appeal with COUNTY. The letter providing the CONTRACTOR with notice of the audit findings shall indicate the person(s) and address to which the appeal should be directed. COUNTY shall consider all information provided by CONTRACTOR with its appeal, and shall issue its decision on the appeal after such consideration. Such decision is final. COUNTY shall issue an invoice for any amount due COUNTY fifteen (15) calendar days after COUNTY has notified CONTRACTOR of the COUNTY'S audit appeal findings. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

II. METHOD OF PAYMENTS FOR AMOUNTS DUE TO COUNTY

A. Within ten (10) business days after written notification by COUNTY to CONTRACTOR of any amount due by CONTRACTOR to COUNTY, CONTRACTOR shall notify COUNTY as to which of the following five (5) payment options CONTRACTOR requests be used as the method by which such amount shall be recovered by COUNTY.

   Any such amount shall be:

   1. Paid in one cash payment by CONTRACTOR to COUNTY;

Docusign Envelope ID: 9AC30B78-3029-8BFE-819E-7182F9BCB417

2. Deducted from future claims over a period not to exceed six (6) months;

3. Deducted from any amounts due from COUNTY to CONTRACTOR whether under this Agreement or otherwise;

4. Paid by cash payment(s) by CONTRACTOR to COUNTY over a period not to exceed six (6) months; OR

5. A combination of any or all of the above.

B. If CONTRACTOR does not so notify COUNTY within such ten (10) days, or if CONTRACTOR fails to make payment of any such amount to COUNTY as required, then Director, in his sole discretion, shall determine which of the above five (5) payment options shall be used by COUNTY for recovery of such amount from CONTRACTOR.

INTERAGENCY AGREEMENT
BETWEEN

THE MONTEREY COUNTY SPECIAL EDUCATION LOCAL PLAN AREA (SELPA)

AND

THE MONTEREY COUNTY HEALTH DEPARTMENT, BEHAVIORAL HEALTH BUREAU (MCBH)

2026 – 2027

Docusign Envelope ID: 47658A92-4F27-8798-8018-F2AE82B8BD86

On October 8, 2010, California Governor Arnold Schwarzenegger vetoed a fiscal year 2010-11 appropriation for Educationally Related Mental Health Services (ERMHS) or an evaluation conducted to determine a student's mental health needs and whether mental health services are required for the student to benefit from their educational program, mandated by AB 3632 and stated in doing so that "[t]his mandate is suspended." AB 114, Statutes of 2011, Chapter 43 (AB 114) became effective July 1, 2011, and placed the responsibility for provision of mental health services for students with disabilities (AB 114 Services) with LEAs.

Monterey County Special Education Local Plan Area (SELPA) acknowledges that the Local Education Agencies (LEAs) are mandated to provide services necessary to ensure students a free and appropriate public education (FAPE), including Mental Health Services, pursuant to a student's Individualized Education Plan (IEP), the federal Individuals with Disabilities Education Act (IDEA) and state law. SELPA is authorized to obligate its member LEAs to the terms of this Agreement.

County of Monterey Health Department, Behavioral Health Bureau (MCBH) offers outpatient Mental Health Services or medically necessary services to assess and treat severe mental health conditions (hereinafter Mental Health Services), by qualified professionals at its current publicized rates. SELPA requests that MCBH facilitate the provisions of these Mental Health Services to students of the LEAs within SELPA who are eligible and where such services are deemed necessary in the IEP.

This Agreement defines the roles and responsibilities of SELPA, on behalf of its member LEAs, and MCBH in the provision of special education and related services to school-age individuals residing in Monterey County. Individuals referred to MCBH must be suspected of needing related services provided by MCBH. Special education and related services covered under the terms of this Agreement shall be at no cost to the parent or legal guardian of the student being served, though MCBH may bill appropriate payors (e.g. Medi-Cal) for mental health services rendered to qualifying individuals.

A primary goal of this Agreement is to ensure that necessary special education and related services are provided to qualifying individuals with special needs in an efficient manner through joint planning, cooperative service delivery, and the judicious use of resources in accordance with applicable federal and state laws and regulations.

Appendix C – Youth Screening Tool for Medi-Cal Mental Health Services

State of California – Health and Human Services Agency Department of Health Care Services

Youth Screening Tool for Medi-Cal Mental Health Services

The Youth Screening Tool for Medi-Cal Mental Health Services is required for use when an individual under age 21, or a person on behalf of an individual under age 21, who is not currently receiving mental health services, contacts their Medi-Cal Managed Care Plan (MCP) or county Mental Health Plan (MHP) to seek mental health services. This tool determines whether an individual should be referred to the MCP delivery system or to the MHP delivery system for a clinical assessment and ensures that individuals have timely access to the appropriate mental health delivery system. The Youth Screening Tool for Medi-Cal Mental Health Services is not required to be used when individuals contact mental health providers directly to seek mental health services.[1]

Instructions:

1. There are two versions of the Youth Screening Tool for Medi-Cal Mental Health Services:
   - One version of the tool is used when a youth is responding on their own behalf: ***Youth Screening Tool for Medi-Cal Mental Health Services: Youth Respondent.***
   - One version of the tool is used when a person is responding on behalf of the youth: ***Youth Screening Tool for Medi-Cal Mental Health Services: Respondent on Behalf of Youth.***
2. The answer to screening question 2 determines which version of the tool is used.
3. Each scored question is a "Yes" or "No" question. Not every question is scored.
4. Each scored question has a defined number of points for the selected answer. The number of points for each question cannot be more or less than what is on the scoresheet.
5. Select/mark the number in the "Yes" or "No" column based on the response provided.
6. If the youth, or the person responding on their behalf, is unable or chooses not to answer a question, skip the question and score it as "0."

[1] As described in APL 22-028 and BHIN 22-065, MCPs and MHPs must allow contracted mental health providers who are contacted directly by individuals seeking mental health services to begin the assessment process and provide services during the assessment period without using the Screening Tools, consistent with the No Wrong Door for Mental Health Services Policy described in BHIN 22-011.

Docusign Envelope ID: 47658A92-4F27-8798-8018-F2AE82B8BD86

7. If a response to question 5 indicates that a child who is age 3 or younger has not seen a pediatrician in the last 6 months, or that a child/youth age 4 or older has not seen a pediatrician or primary care physician (PCP) in the last year, the screener must offer to connect them to their MCP for a pediatrician/PCP visit in addition to the mental health delivery system referral generated by the screening score.[2]
8. If the youth, or the person responding on their behalf, responds "Yes" to question 6, 7, or 9, they meet criteria for specialty mental health services per BHIN 21-073. In these cases, the screening is not required, and the screener must offer and coordinate a referral for clinical assessment by the MHP. Referral coordination must include follow up to ensure an assessment has been made available to the individual. Please reference BHIN 21-073 for additional detail on specialty mental health services criteria and definitions of key terminology.
9. If the youth, or the person responding on their behalf, responds "Yes" to question 19, 20, or 21, the screener must immediately offer and coordinate a referral to a clinician for further evaluation of suicidality and/or homicidality after the screening is completed. Referral coordination should include sharing the completed Youth Screening Tool for Medi-Cal Mental Health Services. The referral and subsequent clinical evaluation may or may not impact the mental health delivery system referral generated by the screening score.
10. A response of "Yes" to question 17 does not impact the screening score. If the youth, or the person responding on their behalf, responds "Yes" to question 17, the screener must offer and coordinate a referral to the county behavioral health plan for substance use disorder assessment in addition to the mental health delivery system referral generated by the screening score. The individual may decline this referral without impact to the mental health delivery system referral.
11. Once responses to all questions have been documented, the selected/marked numbers in the "Yes" column should be added together and that total number should be entered in the "Total Score" box.
    a. Individuals with a total score of 0 – 5 must be referred to the MCP for a clinical assessment.
    b. Individuals with a total score of 6 and above must be referred to the MHP for a clinical assessment.
12. Once a score has been generated, a referral must be coordinated.
    a. If the individual's score requires referral within the same delivery system, a timely clinical assessment must be offered and provided.
    b. If the individual's score requires referral to the other mental health delivery system (i.e., MCP to MHP or MHP to MCP), the referral must be coordinated with the other delivery system, including sharing the completed Youth Screening Tool for Medi-Cal Mental Health Services and following up to ensure a timely clinical assessment has been made available to the individual.

---

[2] Bright Futures well-child visit guidelines indicate a child age 4 and older should be seen by a pediatrician annually, and a child age 3 and under should be seen by a pediatrician every 1, 3, or 6 months depending on their age.

HART

HART services are IEP driven, accompany individual mental health services, and can largely provided in the home, and also in school and community settings, to address your child's treatment goal focused on improving social and emotional development linked to severe mental health needs by teaching them and their parents/ caregivers prosocial replacement skills to use in response to challenging situations, feelings, or emotions.

The HART program utilizes a child-centered, strength-based approach that allows families to have a voice in treatment planning and is based on your child's identified areas of social emotional need.

The Monterey County Behavioral Health's HART program was created in partnership with the Monterey County SELPA to assist students who, due to complex and severe social and emotional challenges, have been identified by their IEP team as being at imminent risk of residential treatment.
