**Subject: Final construction verification – County Lake Estates Tract - Hansen**

Dear Sir/Madame:

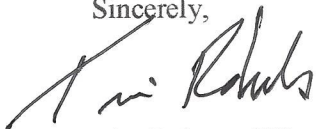

We have been asked to review the recent grading construction activities associated the County Lake Estates Tract, off New Pleyto Road, Bradley area, South Monterey County, CA.

We recently performed a field inspection of the subject property. Several minor revisions were made in the construction phase of the work. We noted these revisions on the attached as built plan.

Based upon our visual observations and review of project documents, we are satisfied the site has been constructed in substantial conformance with our original approved plans dated 3-30-2017, and current building codes. The as built plans and photos taken at the time of our inspection are attached for reference.

Feel free to call with any questions regarding this matter.

Sincerely,

Tim Roberts, PE
