

Attachment D

January 21, 2022

To Whom It May Concern:

By all accounts (participants, spectators, and sponsors) the 2021 Rolex Monterey Motorsports Reunion was a successful event, clearly improved over previous years.

At this time, John Narigi's management team and staff in conjunction with the Monterey Motorsports Advisory Council are well into the building of a great 2022 event. The Advisory Council feels it would not be in the event's best interest to change the event management prior to the 2022 event. The Advisory Council respects the work John Narigi and his management team have done and the contractual agreement he has with the County of Monterey to manage WeatherTech Raceway Laguna Seca.

The Advisory Council also respects and admires Jeff O'Neill's philosophy, enthusiasm, and financial investment in his Velocity events. If Jeff O'Neill can forge a mutually agreeable arrangement with A&D Narigi, the Advisory Council would be interested in working with this partnership in future years.

Respectfully,

Bruce Canepa

Andy Prill

Scott George

Chris MacAllister
