1979-1982	Southeast Missouri State University	MA Education
1976-1979	Southeast Missouri State University	BS Education

Summary

I was a Teacher of the Year award recipient during the 31 years I taught in North Monterey County Unified School District. I provided an innovative and stimulating learning environment for students in grades 6 -12 with success in increasing reading and math skills in Castroville's high-risk middle school and Prunedale's continuation high school. I lead teacher groups to meet the standards for California's model school awards and WASC certification, and we received them at both the middle and high schools. I had a creative, energetic teaching style and loving and welcoming classrooms. I consistently received outstanding feedback from my supervisors and colleagues.

I brought my enthusiasm into my volunteer service in the Prunedale community. I joined the Lions Club and helped give vision tests to 1500 elementary students in North County and many veterans at the Monterey County Stand Down. I assisted in fundraising activities such as barbecues and car shows. I joined the American Legion and held several officer positions in CA District 28 and Prunedale Post 0593. I am an Auxiliary member because my father and husband served in our military. I am a Blue Star Mother because my son retired from his service in the US Air Force. I belong to the Twenty and Four Honor Society because I am a female legionnaire who holds an officer position in the American Legion. I transport an elderly friend to her doctor, hair, and nail appointments and to shopping and leisure activities. I play pool on Tuesday and Thursday nights, dance on Wednesday nights, and enjoy family time on Friday nights.
