## Board Report

Legistar File Number: 16-852

July 19, 2016

**Introduced:** 6/30/2016

**Current Status:** Agenda Ready

**Version:** 1

**Matter Type:** General Agenda Item

Approve the Temporary Parking Lot project in the amount of \$1,610,400 and add the project to Natividad Medical Center capital project list.

### RECOMMENDATION:

It is recommended that the Board of Supervisors:

Approve the Temporary Parking Lot project in the amount of \$1,610,400 and add the project to Natividad Medical Center capital project list.

### SUMMARY/DISCUSSION:

Resource Management Agency - Public Works is progressing with the Jail House Addition and new Juvenile Hall projects, which are located on the back side of the Natividad Medical Center's (NMC) campus. These projects are going to impact parking lot - M2 which serves as staff parking for Natividad Medical Center employees. Parking lot M2 will be removed and replaced with the new Jail House addition. NMC is collaborating with Public Works to install a gravel parking lot at the corner of Constitution and Campus Drive. The parking lot will accommodate displaced parking during the construction of the Jail House Addition until other accommodations are made for parking.

NMC has identified 370 parking spaces that will be displaced during the construction phase of the Jail House Addition and New Juvenile Hall projects. At the end of the construction phase NMC will regain 258 parking spaces (overall loss of 112 parking spaces). In order for NMC to have adequate parking for patients and visitors, an additional parking lot is required. As time is of the essence (the Jail House Addition project is projected to start in second quarter Fiscal Year 2017), Public Works proposed to construct a temporary parking lot composed of gravel, security fencing, and solar lighting. The cost to construct the temporary parking lot (370 parking spaces) is estimated at \$1,610,400, which includes design, construction, permitting, and project management fees. NMC desires for this parking lot to have asphalt in the future, but recognizes that the work involved (Stormwater Management Plan, Environmental Impact Report (EIR) and Geotechnical Survey) will not be completed in time for the commencement of the Jail House Addition project. In the future NMC would then like to work with a civil engineer to construct a permanent parking lot in the footprint of the temporary lot. The gravel substrate will serve as the foundation of the permanent parking lot.

NMC requests approval of Parking Lot - M2 capital funding in the amount of \$1,610,400 for the Temporary Parking Lot project.

### OTHER AGENCY INVOLVEMENT:

County Counsel has reviewed and approved this project as to legal form and risk provisions. The Auditor-Controller has reviewed and approved this project as to fiscal provisions. Project was supported by the NMC Finance Committee on May 26, 2016, NMC Board of Trustees on June 3, 2016, Capital Improvement Committee on June 20, 2016 and Budget Committee on June 29, 2016.

FINANCING:

NMC has designated capital funding for the Temporary Parking Lot project capital budget ID B17-2017-065 - Parking Lot - M2 in the amount of \$1,610,400. Funds will be sourced from NMC's cash balance and transfer to Fund 404 - Facilities mater Plan Implementation. There is no impact to the general fund.

Approved by: Dr. Gary Gray, Chief Executive Officer
