NO. 000489

A.P.# 008-341-037-000

In the matter of the application of
Tescher-Levett Investments Inc. (PLN000489)

FINDINGS & DECISION

for an Administrative Permit in accordance with Title 21 (Zoning) Chapter 21.70 (Administrative Permits) of the Monterey County Code, for a Coastal Administrative Permit and Design Approval for a 2,200 sq. ft. addition to an existing two-story single family dwelling; the property is located at 1496 Bonifacio Rd, east of Cortez Rd, Pebble Beach, Del Monte Forest Area Land Use Plan, came on regularly for meeting before the Zoning Administrator on May 30, 2001.

Said Zoning Administrator, having considered the application and the evidence presented relating thereto,

1. **FINDING:** The subject Coastal Administrative Permit (PLN 000489), as described in condition #1 of the attached Exhibit "B," and as conditioned, conforms with the plans, policies, requirements and standards of the Local Coastal Program (LCP). The LCP for this site consists of the Del Monte Forest Land Use Plan, Coastal Implementation Plan (Part 5), Part 6 of the Coastal Implementation Plan, and the Monterey County Zoning Ordinance (Title 20). The property is located at 1496 Bonifacio Road in the Del Monte Forest Area of the Coastal Zone. The parcel is zoned "LDR/1.5-D (CZ)" or Low Density Residential, 1.5 acres/ units Design Control District in the Coastal Zone. The site is physically suitable for the use proposed. The project is in conformance with the public access and public recreation policies of the Coastal Act and Local Coastal Program, and does not interfere with any form of historic public use or trust rights (see 20.70.050.B.4). No access is required as part of the project as no substantial adverse impact on access, either individually or cumulatively, as described in Section 20.70.050.B.4.c of the Monterey County Coastal Implementation Plan, can be demonstrated.

EVIDENCE: The application and plans submitted for the Coastal Administrative Permit in the project file at the Monterey County Planning and Building Inspection Department.

EVIDENCE: The site is located in a low (I) geologically zoned area, while there are faults and fault related features in the area, the site is suitable for the development proposed.

EVIDENCE: An archaeological report prepared by Mary Doane, B.A. and Trudy Haversat, RPA, of Archaeological Consulting, which is contained in the project file, found that there were no significant archaeological resources. Condition #20

has been added to require that work be stopped in the event that any archaeological resources are found on site.

EVIDENCE: Forest management plan prepared by Glenn C. Flamik, dated December 20, 2000. A condition has been added to require implementation of the Forest Management Plan.

EVIDENCE: The project as proposed is consistent with policies of the Del Monte Forest Land Use Plan dealing with visual resources and will have no significant impact on the public viewshed. Staff made a site visit and determined that the project as proposed would not be ridgeline or impact the public viewshed.

EVIDENCE: The Del Monte Forest Land Use Advisory Committee reviewed and recommended approval of the Administrative Permit and Design Approval on December 7, 2000.

EVIDENCE: There has been no testimony received either written or oral, during the course of public hearings to indicate that the site is not suitable for the project. Necessary public facilities are available for the use proposed. The project has been reviewed by the Monterey County Planning and Building Inspection Department, Water Resources Agency, the applicable Fire Department, Public Works Department and Environmental Health Division. There has been no indication from those agencies that the site is not suitable. There are no physical or environmental constraints such as geologic or seismic hazard areas, environmentally sensitive habitats, or similar areas that would indicate the site is not suitable for the use proposed.

2. **FINDING:** The project is consistent with Section 20.147.030.A.1 limiting structural coverage to 5000 square feet, including main and accessory structures, and impervious surface coverage to 4000 square feet – for a combined maximum coverage of 9,000 sq. ft. in the Pescadero, Seal Rock Creek and Sawmill Gulch Watershed and the smaller unnamed watersheds which drain into the Carmel Bay Area of Special Biological Significance.

EVIDENCE: The project application, including the site plan, contained in file PLN000489 proposes structural coverage of 4,017 square feet and impervious surface coverage of 4,983 square feet.

3. **FINDING:** The proposed project will not have a significant environmental impact.

EVIDENCE: Section 15301 of the CEQA Guidelines categorically exempts the proposed development from environmental review. No adverse environmental impacts were identified during staff review of the development application.

4. **FINDING:** The establishment, maintenance, and operation of the proposed development applied for will not under the circumstances of the particular case, be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood or to the general welfare of the County.

EVIDENCE: The project as described in the application and accompanying material was reviewed by the Department of Planning and Building Inspection, applicable Fire Department, Public Works and Parks Departments, Environmental Health Division, and Water Resources Agency. The respective departments and Agency have recommended conditions, where appropriate, to ensure that the project will not have an adverse effect on the health, safety, and welfare of persons either residing or working in the neighborhood or the County in general.

5. **FINDING:** The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivisions and any other applicable provisions of Title 20, and all zoning violation abatement costs, if any, have been paid.

EVIDENCE: Sections 20.14 and Chapter 20.147 of the Monterey County Coastal Implementation Plan. Staff verification of the Monterey County Planning and Building Inspection Department records indicated that no violations exist on subject property.

6. **FINDING:** The project is appealable to the Board of Supervisors and the California Coastal Commission.

EVIDENCE: Sections 20.86.070 and 20.86.080 of the Monterey County Coastal Implementation Plan.

DECISION

No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities.
