## SKETCH SERVICES POWERED BY APEX

### Sketch Verification

We'll validate your sketches based on your current imagery and deliver a georeferenced building layer where each building is scored according to its variance of what actually exists on each parcel!

### Can You Afford to be 43% Wrong?

Our experience processing more than 2 million parcels in over 50 jurisdictions has discovered, on average, 43% percent of the sketch data does not match what's currently on the ground.

## OTHER PROFESSIONAL SERVICES

### Got Paper Sketches?

Let Apex convert your hand drawn PRCs into fully editable Apex and non-Apex sketches! We provide a cost and time effective solution.

### Sketch Creation & Modification

For improved parcels with no sketch data or sketches that need to be modified, Apex will use your imagery to create and/or modify sketches in Apex Software or another CAMA/Sketch system!

### Sketch Conversion

### Sketch Analysis (clean-up)

Apex can run fact-finding tools against your Apex sketches to identify problem areas. We can provide you with the analysis to work the problems yourself or develop a plan to fix them for you.
