This Amendment No. 6 will not be deemed fully executed until the Monterey County Board of Supervisors (hereinafter "BOS") approves the Amendment and the Monterey County Children and Families Board of Commissioners also approves the Amendment.

BACKGROUND

The County of Monterey, (hereinafter "County") through its legislative platform and budget allocations is very supportive of the development of Bright Beginnings formally known as Early Childhood Development Initiative (ECDI) in Monterey County.

Early childhood development has been identified by community members (through recent polls, surveys and community meetings), the Board of Supervisors, and the Monterey County Children's Council as critical for the economic and social success of our county. Investments in quality early childhood development programs bring returns of 10-17% to the economy in increased income and tax revenues and reductions in remedial programs and justice system expenditures.

The BOS identified early childhood development as a priority in the Monterey County Legislative Program. The Monterey County Children's Council developed The Early Childhood Development Initiative, now known as Bright Beginnings, which utilizes the Collective Impact model where cross-sector organizations work together to identify common goals, strategies, and measurements to make the needed changes in a community. Phase 1 of the Initiative included researching and identifying common goals. The common goals and geographic priority areas were selected. Collaborative Action Teams (CATs) in five participating communities were identified. Outreach and education materials were developed and discussion has begun around a common data base. The evaluation framework for the Initiative was developed and implemented. Cross-sector and cross geographic organizations are identifying common strategies, approaches and policies that need to be implemented county-wide. In Fiscal Year 2015-2016 Gonzales joined the five existing CATs (Pajaro, North County, Salinas, Monterey Peninsula, and Greenfield) bringing the number to six. Most community level CATs have begun intentional implementation of strategies aimed at reducing disparities and providing children with the opportunities they need to succeed in school and life. In 2018, Bright Beginnings also began to support several thematic collaborative action teams.

In Fiscal Year 2018-2019, Bright Beginnings will continue to utilize the collective impact framework which emphasizes five key elements: common vision, mutually reinforcing activities, continuous communication, shared data measurement, and backbone support. Actions taken will move the Initiative along a continuum from "Developing" to "Fostering," as described in the scope of services. The deliverables in each of the categories will not occur sequentially but will be implemented concurrently.

The contract will be executed by the Monterey County Children and Families Commission. The vision and mission of Monterey County Children and Families Commission, also known as First 5 Monterey County (hereinafter "Contractor") is closely aligned with that of Bright Beginnings and Contractor will serve as an effective co-manager and organizer for the Initiative.

FY 2018-2019:

For FY 2018-2019, Bright Beginnings will continue to improve outcomes utilizing the Collective Impact framework and to align with “Together, preparing every child for life and school – A strategy for Monterey County to better support all children and their families, from the prenatal stage through age 8,” developed in FY 2017-2018. Actions taken during FY 2018-2019 will move the Initiative along the continuum towards “Integrating” and “Applying.” Building on momentum from the FY 2017-2018 work which provides additional clarity of common vision, Bright Beginnings will scale up support for new action teams formed to implement priority strategies. At this stage, Bright Beginnings' backbone is focused on improving outcomes by supporting the initiative, and its partners, to continue to evolve in the current political context. Given that Bright Beginnings is becoming a mature collaboration, the “Developing” phase of the theory of action has been removed from this table. Given the complex nature of Collective Impact efforts, actions do not necessarily take place linearly and often occur in parallel. The unshaded boxes indicate the priority focus areas in prior years that will continue into FY 2018-2019. The grey shaded boxes indicate new priority focus areas for the FY 2018-2019, which also build on work continuing from 2017-2018.

This work plan reflects a reduction in funding of \$50,000, which will limit the Initiatives' Backbone capacity to support change projects, particularly by reducing funding available to evaluate the initiative and to provide strategic communications support.
