Exhibit A-2: PHA Administration of the County of Monterey Pilot Program for the Remaining Uninsured

Reimbursement for reasonable travel (according to County guidelines), and for materials, printing, and postage.

Eligibility and Recertification:

The Esperanza Care Program (Program) is limited to adult residents age 19 and older who do not currently qualify for Medi-Cal, Medicare, or other third party payor medical plan and who earn less than 138% of the federal poverty level. Individuals are encouraged to apply for Medi-Cal when enrolling in the Program.

The County of Monterey has previously enrolled over 3000 residents in the Program, which is currently capped at 3500 residents (Program cap). PHA will notify the County when enrollment is nearing 90% of the Program cap, and when the Program cap is reached. PHA will also notify the County of any available room under the Program cap due to enrollment attrition. The County will notify PHA of any modification to the Program cap.

Residents may apply at Natividad or the Monterey County Health Department clinics by completing the enrollment forms in person, or by leaving or submitting completed forms in person or by mail or fax. Residents may also mail or fax completed enrollment forms to Pacific Health Alliance. PHA shall also make enrollment forms, along with appropriate instructions for their completion and submission, available to any individual upon request.

Completed enrollment forms will be forwarded to, or received by, PHA, which will verify eligibility by applying the Program eligibility criteria established by the County to applicants' self-reported information. Individuals determined to meet the Program eligibility criteria will be enrolled in the Program, unless the Program cap is reached. Enrollment is effective as of the first of the month in which an individual's application is received by Natividad or the Monterey County Health Department clinics as applicable, or by PHA. Eligible residents also may be enrolled immediately by County-designated onsite individuals at Natividad or County Health Department clinics; in such cases, Natividad or the County Health Department clinic will notify PHA of an individual's immediate enrollment status. The County shall have the ultimate authority to enroll or dis-enroll members.

On a weekly basis, there will be a data exchange reflecting updated eligibility. In cases of immediate enrollment by the County or County-determined disenrollment, PHA will reflect the eligibility and enrollment of affected members upon notification by the County in the next weekly data exchange update.

Initial eligibility in the Program shall be for one year (or through the termination of the Program, whichever period is shorter), with the requirement that the enrollees must notify PHA within 30 days of any change in their status potentially affecting Program eligibility, *e.g.*, residency, income, coverage status. Enrolled members must be re-certified/re-enrolled, by submitting updated documents to PHA providing proof of continued eligibility on an annual basis to maintain eligibility; PHA will mail out up to 3 letters per member requesting the updated documentation to be submitted in the month that is immediately prior to each member's yearly anniversary month.

Exhibit A-2: PHA Administration of the County of Monterey Pilot Program for the Remaining Uninsured

PHA will timely review the updated documents submitted by each enrollee and apply County eligibility criteria to verify whether eligibility for an additional year (or such shorter period based on the Program termination date) is appropriate. In cases which the eligibility criteria is not met, or the individual fails to provide updated proof of continued eligibility, PHA will issue termination of enrollment notices, subject to the direction of the County of Monterey.

Outreach: Natividad and the Health Department will promote the program.

Included County Providers:

Clinics operated by the Monterey County Health Department (Health Department clinics)
Specialty Clinics at Natividad
Laboratory Services at Natividad
Radiology Services at Natividad

Covered Services

The benefits are limited to:

- Outpatient services provided by the Health Department clinics and by the specialty outpatient departments at Natividad.
- Lab or radiology services, including the associated professional components, ordered by Natividad in the course of covered outpatient services.
- Pharmaceuticals prescribed by the Health Department clinics and dispensed by the clinics' contract pharmacy in the course of covered outpatient services that are within a specific Esperanza Care formulary under the County Health Department's 340B Drug Program.

This program is not a program of insurance.

Service Valuation Metrics for Reporting and Allocation of County Funds:

County will be assuming financial responsibility for funding the services provided through the Esperanza Care Program, and will be allocating available County funds to County Providers based in part on service utilization data. For this purpose, services provided as reflected by the submitted Program Service Forms will be valued based on the Medi-Cal fee schedule as of July 15, 2019, except as provided below:

In lieu of a per visit or per procedure valuation, a per member per month amount determined by County will be allocated to the Health Department applicable for all outpatient services provided by its primary care clinics (excluding covered prescription drugs, which will be valued based on the Medi-Cal fee schedule).

Program Service Forms Submission and Processing:

Program Service Forms from County Providers will be submitted electronically to PHA on a weekly basis in an agreed upon format. These Program Service Forms would then be

Exhibit A-2: PHA Administration of the County of Monterey Pilot Program for the Remaining Uninsured

reviewed and cross-checked by PHA for eligibility and inclusion of service, and associated with the appropriate valuation for the services rendered.

PHA shall prepare monthly reports that list and summarize the Program Services provided by each County Provider during the relevant month and the associated services valuation, and that identify any adjustments to data reported for prior months.

Reporting:

PHA provides series of reports for the County. In addition to the monthly services utilization and valuation reports, the County Providers will receive a variety of information related to provider, CPT codes, costs, etc. Other reports would be designed by the County.
