- 2.1.2. This DPA applies to Personal Data processed by Qualtrics and its Subprocessors in connection with its provision of the Cloud Service.
- 2.1.3. This DPA does not apply to non-production environments of the Cloud Service if such environments are made available by Qualtrics. Customer shall not store Personal Data in such environments.

2.2. Structure

Schedules 1 and 2 are incorporated into and form part of this DPA. They set out the agreed subject-matter, the nature and purpose of the processing, the type of Personal Data, categories of data subjects (Schedule 1) and the applicable Technical and Organizational Measures (Schedule 2).

4. QUALTRICS OBLIGATIONS

4.1. Instructions from Customer

Qualtrics will process Personal Data only in accordance with documented instructions from Customer. The Agreement (including this DPA) constitutes such documented initial instructions and each use of the Cloud Service then constitutes further instructions. Qualtrics will use reasonable efforts to follow any other Customer instructions, as long as they are required by Data Protection Law, technically feasible and do not require changes to the Cloud Service. If any of the before-mentioned exceptions apply, or Qualtrics otherwise cannot comply with an instruction or is of the opinion that an instruction infringes Data Protection Law, Qualtrics will immediately notify Customer (email permitted).

4.2. Processing on Legal Requirement

- 4.4.1. At Customer's request, Qualtrics will reasonably cooperate with Customer and Controllers in dealing with requests from Data Subjects or regulatory authorities regarding Qualtrics' processing of Personal Data or any Personal Data Breach.
- 4.4.2. If Qualtrics receives a request from a Data Subject in relation to the Personal Data processing hereunder, Qualtrics will promptly notify Customer (where the Data Subject has provided information to identify the Customer) via e-mail and shall not respond to such request itself but instead ask the Data Subject to redirect its request to Customer.
- 4.4.3. In the event of a dispute with a Data Subject as it relates to Qualtrics' processing of Personal Data under this DPA, the Parties shall keep each other informed and, where appropriate, reasonably co-operate with the aim of resolving the dispute amicably with the Data Subject.
- 4.4.4. Qualtrics shall provide functionality for production systems that supports Customer's ability to correct, delete or anonymize Personal Data from a Cloud Service, or restrict its processing in line with Data Protection Law. Where such functionality is not provided, Qualtrics will correct, delete or anonymize any Personal Data, or restrict its processing, in accordance with the Customer's instruction and Data Protection Law.

4.5. Personal Data Breach Notification

Qualtrics will notify Customer without undue delay after becoming aware of any Personal Data Breach and provide reasonable information in its possession to assist Customer to meet Customer's obligations to report a Personal Data Breach as required under Data Protection Law. Qualtrics may provide such information in phases as it becomes available. Such notification shall not be interpreted or construed as an admission of fault or liability by Qualtrics.

4.6. Data Protection Impact Assessment

If, pursuant to Data Protection Law, Customer (or its Controllers) are required to perform a data protection impact assessment or prior consultation with a regulator, at Customer's request, Qualtrics will provide such documents as are generally available for the Cloud Service (for example, this DPA, the Agreement, audit reports and certifications). 5. DATA EXPORT AND DELETION

5.1. Export and Retrieval by Customer

During the Subscription Term and subject to the Agreement, Customer can access its Personal Data at any time. Customer may export and retrieve its Personal Data in a standard format. Export and retrieval may be subject to technical limitations, in which case Qualtrics and Customer will find a reasonable method to allow Customer access to Personal Data.

5.2. Deletion

Before the Subscription Term expires, Customer may use Qualtrics' self-service export tools (as available) to perform a final export of Personal Data from the Cloud Service (which shall constitute a "return" of Personal Data). At the end of the Subscription Term, Customer hereby instructs Qualtrics to delete the Personal Data remaining on servers hosting the Cloud Service within a reasonable time period in line with Data Protection Law (not to exceed 6 months) unless applicable law requires retention.

6. CERTIFICATIONS AND AUDITS

6.1. Customer Audit

Customer or its independent third party auditor reasonably acceptable to Qualtrics (which shall not include any third party auditors who are either a competitor of Qualtrics or not suitably qualified or independent) may audit Qualtrics' control environment and security practices relevant to Personal Data processed by Qualtrics only if:

- a) Qualtrics has not provided sufficient evidence of its compliance with the Technical and Organizational Measures that protect the production systems of the Cloud Service through providing either: (i) a certification as to compliance with ISO 27001 or other standards (scope as defined in the certificate); or (ii) a valid ISAE3402 or ISAE3000 or other SOC1-3 attestation report. Upon Customer's request audit reports or ISO certifications are available through the third party auditor or Qualtrics;
- b) a Personal Data Breach has occurred;
- c) an audit is formally requested by Customer's data protection authority; or

6.2. Other Controller Audit

Any other Controller may assume Customer's rights under Section 6.1 only if it applies directly to the Controller and such audit is permitted and coordinated by Customer. Customer shall use all reasonable means to combine audits of multiple other Controllers to avoid multiple audits unless the audit must be undertaken by the other Controller itself under Data Protection Law. If several Controllers whose Personal Data is processed by Qualtrics on the basis of the Agreement require an audit, Customer shall use all reasonable means to combine the audits and to avoid multiple audits.

6.3. Scope of Audit

Customer shall provide at least 60 days advance notice of any audit unless mandatory Data Protection Law or a competent data protection authority requires shorter notice. The frequency and scope of any audits shall be mutually agreed between the parties acting reasonably and in good faith. Customer audits shall be limited in time to a maximum of 3 business days. Beyond such restrictions, the parties will use current certifications or other audit reports to avoid or minimize repetitive audits. Customer shall provide the results of any audit to Qualtrics.

6.4. Cost of Audits

Customer shall bear the costs of any audit unless such audit reveals a material breach by Qualtrics of this DPA, then Qualtrics shall bear its own expenses of an audit. If an audit determines that Qualtrics has breached its obligations under the DPA, Qualtrics will promptly remedy the breach at its own cost.

7. SUBPROCESSORS

7.1. Permitted Use

Qualtrics is granted a general authorization to subcontract the processing of Personal Data to Subprocessors, provided that:

7.2. New Subprocessors

Qualtrics' use of Subprocessors is at its discretion, provided that:

- a) Qualtrics will inform Customer in advance (by email or by posting on the Cloud Service) of any intended additions or replacements to the list of Subprocessors including name, address and role of the new Subprocessor; and
- b) Customer may object to such changes as set out in Section 7.3.

7.3. Objections to New Subprocessors

- 7.3.1. If Customer has a legitimate reason under Data Protection Law to object to the new Subprocessors' processing of Personal Data, Customer may terminate the Agreement (limited to the Cloud Service for which the new Subprocessor is intended to be used) on written notice to Qualtrics. Such termination shall take effect at the time determined by the Customer which shall be no later than 30 days from the date of Qualtrics' notice to Customer informing Customer of the new Subprocessor. If Customer does not terminate within this 30 day period, Customer is deemed to have accepted the new Subprocessor.
- 7.3.2. Within the 30 day period from the date of Qualtrics' notice to Customer informing Customer of the new Subprocessor, Customer may request that the parties discuss in good faith a resolution to the objection. Such discussions shall not extend the period for termination and do not affect Qualtrics' right to use the new Subprocessor(s) after the 30 day period.
- 7.3.3. Any termination under this Section 7.3 shall be deemed to be without fault by either party and shall be subject to the terms of the Agreement.

7.4. Emergency Replacement

Qualtrics may replace a Subprocessor without advance notice where the reason for the change is outside of Qualtrics' reasonable control and prompt replacement is required for security or other urgent reasons. In this case, Qualtrics will inform Customer of the replacement Subprocessor as soon as possible following its appointment. Section 7.2 applies accordingly.

8. INTERNATIONAL PROCESSING**8.1. Conditions for International Processing**

Qualtrics shall be entitled to process Personal Data, including by using Subprocessors, in accordance with this DPA outside the country in which the Customer is located as permitted under Data Protection Law.

8.2. Applicability of the Standard Contractual Clauses (2010)

- 8.2.1. Where, for the period up to and including 26 September 2021, Personal Data of a Controller that is subject to GDPR is processed in a Third Country, or where Personal Data of a Swiss or United Kingdom based Controller or another Controller is processed in a Third Country and such international processing requires an adequacy means under the laws of the country of the Controller and the required adequacy means can be met by entering into Standard Contractual Clauses (2010), then:
 - a) Qualtrics and Customer enter into the Standard Contractual Clauses (2010);
 - b) Customer joins the Standard Contractual Clauses (2010) entered into by Qualtrics or Qualtrics SE and the Subprocessor as an independent owner of rights and obligations; or
 - c) Other Controllers whose use of the Cloud Services has been authorized by Customer under the Agreement may also enter into Standard Contractual Clauses (2010) with Qualtrics or the relevant Subprocessors in the same manner as Customer in accordance with Section 8.2.1 a) and b) above. In such case, Customer will enter into the Standard Contractual Clauses (2010) on behalf of the other Controllers.
- 8.2.2. The Standard Contractual Clauses (2010) shall be governed by the law of the country in which the relevant Controller is established.
- 8.2.3. Where applicable Data Protection Law adopts the New Standard Contractual Clauses as meeting any required adequacy means as an alternative or update to the Standard Contractual Clauses (2010) then the New Standard Contractual Clauses shall apply in accordance with Section 8.3.

8.3. Amending the Agreement for International Processing

The Standard Contractual Clauses and the New Standard Contractual Clauses have been removed from the Agreement. In the event Customer (i) chooses to collect Personal Data of an EEA or Swiss based Controller which is processed in a country outside the EEA, Switzerland and any country, organization or territory acknowledged by the European Union as a safe country with an adequate level of data protection under Art. 45 GDPR, or (ii) collects Personal Data of another Controller which is processed internationally and such international processing requires an adequacy means under the laws of the country of the Controller, Customer shall provide prior notification to Qualtrics and the parties shall amend the Agreement as necessary. Customer's failure to provide notification to Qualtrics in advance of collection of such personal data is a material breach and Qualtrics may choose to terminate the Agreement.

9. DOCUMENTATION; RECORDS OF PROCESSING

- 9.1. Each party is responsible for its compliance with its documentation requirements, in particular maintaining records of processing where required under Data Protection Law. Each party shall reasonably assist the other party in its documentation requirements, including providing the information the other party needs from it in a manner reasonably requested by the other party (such as using an electronic system), in order to enable the other party to comply with any obligations relating to maintaining records of processing.

- Depending on the security classification, buildings, individual areas and surrounding premises may be further protected by additional measures. These include specific access profiles, video surveillance, intruder alarm systems and biometric access control systems.
- Access rights are granted to authorized persons on an individual basis according to the System and Data Access Control measures (see Section 1.2 and 1.3 below). This also applies to visitor access. Guests and visitors to Qualtrics buildings must register their names at reception and must be accompanied by authorized Qualtrics personnel.
- Qualtrics employees and external personnel must wear their ID cards at all Qualtrics locations.

Additional measures for Data Centers:

- All Data Centers adhere to strict security procedures enforced by guards, surveillance cameras, motion detectors, access control mechanisms and other measures to prevent equipment and Data Center facilities from being compromised. Only authorized representatives have access to systems and infrastructure within the Data Center facilities. To protect proper functionality, physical security equipment (e.g., motion sensors, cameras, etc.) undergo maintenance on a regular basis.
- Qualtrics and all third-party Data Center providers log the names and times of authorized personnel entering Qualtrics' private areas within the Data Centers.

1.2 System Access Control. Data processing systems used to provide the Cloud Service must be prevented from being used without authorization.

Measures:

- Multiple authorization levels are used when granting access to sensitive systems, including those storing and processing Personal Data. Authorizations are managed via defined processes according to the Qualtrics Security Policy
- All personnel access Qualtrics' systems with a unique identifier (user ID).
- Qualtrics has procedures in place so that requested authorization changes are implemented only in accordance with the Qualtrics Security Policy (for example, no rights are granted without authorization). In case personnel leaves the company, their access rights are revoked.
- Qualtrics has established a password policy that prohibits the sharing of passwords, governs responses to password disclosure, and requires passwords to be changed on a regular basis and default

passwords to be altered. Personalized user IDs are assigned for authentication. All passwords must fulfill defined minimum requirements and are stored in encrypted form. In the case of domain passwords, the system forces a password change every six months in compliance with the requirements for complex passwords. Each computer has a password-protected screensaver.

- The company network is protected from the public network by firewalls.
- Qualtrics uses up-to-date antivirus software at access points to the company network (for e-mail accounts), as well as on all file servers and all workstations.
- Security patch management is implemented to provide regular and periodic deployment of relevant security updates. Full remote access to Qualtrics' corporate network and critical infrastructure is protected by strong authentication.

1.3 Data Access Control. Persons entitled to use data processing systems gain access only to the Personal Data that they have a right to access, and Personal Data must not be read, copied, modified or removed without authorization in the course of processing, use and storage.

Measures:

- As part of the Qualtrics Security Policy, Personal Data requires at least the same protection level as "confidential" information according to the Qualtrics Information Classification standard.
- Access to Personal Data is granted on a need-to-know basis. Personnel have access to the information that they require in order to fulfill their duty. Qualtrics uses authorization concepts that document grant processes and assigned roles per account (user ID). All Customer Data is protected in accordance with the Qualtrics Security Policy.
- All production servers are operated in the Data Centers or in secure server rooms. Security measures that protect applications processing Personal Data are regularly checked. To this end, Qualtrics conducts internal and external security checks and penetration tests on its IT systems.
- An Qualtrics security standard governs how data and data carriers are deleted or destroyed once they are no longer required.

1.4 Data Transmission Control. Except as necessary for the provision of the Cloud Services in accordance with the Agreement, Personal Data must not be read, copied, modified or removed without authorization during transfer. Where data carriers are physically transported, adequate measures are implemented at Qualtrics to provide the agreed-upon service levels (for example, encryption and lead-lined containers).

Measures:

- Personal Data in transfer over Qualtrics internal networks is protected according to Qualtrics Security Policy.
- When data is transferred between Qualtrics and its customers, the protection measures for the transferred Personal Data are mutually agreed upon and made part of the relevant agreement. This applies to both physical and network based data transfer. In any case, the Customer assumes responsibility for any data transfer once it is outside of Qualtrics-controlled systems (e.g. data being transmitted outside the firewall of the Qualtrics Data Center).

1.5 Data Input Control. It will be possible to retrospectively examine and establish whether and by whom Personal Data have been entered, modified or removed from Qualtrics data processing systems.

Measures:

- Qualtrics only allows authorized personnel to access Personal Data as required in the course of their duty.
- Qualtrics has implemented a logging system for input, modification and deletion, or blocking of Personal Data by Qualtrics or its subprocessors within the Cloud Service to the extent technically possible.

1.6 Job Control. Personal Data being processed on commission (i.e., Personal Data processed on a customer's behalf) is processed solely in accordance with the Agreement and related instructions of the customer.

Measures:

- Qualtrics uses controls and processes to monitor compliance with contracts between Qualtrics and its customers, subprocessors or other service providers.
- As part of the Qualtrics Security Policy, Personal Data requires at least the same protection level as "confidential" information according to the Qualtrics Information Classification standard.
- All Qualtrics employees and contractual subprocessors or other service providers are contractually bound to respect the confidentiality of all sensitive information including trade secrets of Qualtrics customers and partners.

1.7 Availability Control. Personal Data will be protected against accidental or unauthorized destruction or loss.

Measures:

- Qualtrics employs regular backup processes to provide restoration of business-critical systems as and when necessary.
- Qualtrics uses uninterrupted power supplies (for example: UPS, batteries, generators, etc.) to protect power availability to the Data Centers.
- Qualtrics has defined business contingency plans for business-critical processes and may offer disaster recovery strategies for business critical Services as further set out in the Documentation or incorporated into the Order Form for the relevant Cloud Service.
- Emergency processes and systems are regularly tested.

1.8 Data Separation Control.

Measures:

- Qualtrics uses the technical capabilities of the deployed software (for example: multi-tenancy, system landscapes) to achieve data separation among Personal Data originating from multiple customers.
- Customer (including its Controllers) has access only to its own data.

1.9 Data Integrity Control. Personal Data will remain intact, complete and current during processing activities.

Measures:

Qualtrics has implemented a multi-layered defense strategy as a protection against unauthorized modifications. In particular, Qualtrics uses the following to implement the control and measure sections described above:

- Firewalls;
- Security Monitoring Center;
- Antivirus software;
- Backup and recovery;
- External and internal penetration testing;
- Regular external audits to prove security measures.
