B. Program Goals

Crisis residence staff will provide coordinators written service plans within seventy-two (72) hours of admission.
8. Provide written documents according to Medi-Cal standards and using wellness and recovery principles, as well as meet Department of Social Services Community Care Licensing regulations, and submit to the client's Case Coordinator who will review case consumer records for approval of the medical necessity, quality, appropriateness of services and adequate billing documentation.

1. Case Management and Mental Health Services

The Coordinator will approve these services for Shelter Cove, Sandy Shores, Supported Education Services, and Dual Recovery Services. Effective Amendment 4, the Service Coordination function was transferred to Interim Inc. for Community Housing. Amendment 5 will add one additional Case Coordinator in order to further eliminate duplication with the County Coordinators. Both Interim Inc. Coordinators or MCBHB Coordinators shall be either a licensed or license eligible practitioner of the healing arts and shall supervise all services. Case management services are activities provided by program staff to access/linkage to psychiatric, medical, educational, social, vocational, rehabilitative, or other needed community services. This may include inter and intra-agency consultation, communication and referrals, as well as monitoring service delivery or consumers' progress. Mental health services are interventions designed to minimize mental disability and maximize the restoration or maintenance of functioning consistent

with the requirements for learning, development, independent living and enhancing self-sufficiency.

2. Community/Supportive Housing

- a. Interim, Inc. will provide a Supportive Housing Program, which provides 100+ housing placements for community independent living for chronically mentally disabled consumers. These placements are provided as individual apartments and/or cooperative group housing units. Interim shall obtain housing through purchase or lease agreements and then sublet or rent them to consumers who are enrolled in MCBHB services. Interim will work with the local housing authority to provide Section 8 housing subsidies for units when possible. Units are to be located in the Salinas Valley and on the Monterey Peninsula. In addition, administrative staff of Interim will work on the development of additional units to accommodate future growth.
- b. The Shelter Cove program will provide supported transitional housing for thirty-six (36) adults with a psychiatric disability and transition age youth age 18 and older who have mental health disorders that substantially interfere with their functional ability to carry out primary aspects of daily living in the community and who qualify as homeless under HUD guidelines. Consumers have a maximum length of stay of two (2) years. This program is primarily for individuals who are incapable of living completely independently and who need transitional affordable housing with support services in order to live successfully in the community. The program is designed to help individuals learn the skills necessary to move into more independent housing.
- c. The Sandy Shores program will provide twenty-eight (28) permanent housing beds in individual bedrooms for individuals with severe mental illness who are homeless according to HUD guidelines. Interim will provide case management, mental health and housing services in an effort to assist individuals to live in the community. These services will be coordinated with Services Coordinators.

3. Supported Education Services

Interim, Inc. will assist adults with psychiatric disabilities that substantially interfere with their ability to carry out primary aspects of daily living in the community, to be successful in the educational environment of their choice. This supported education service will be initiated by a referral from the client's case coordinator. Interim staff will assist consumers with class enrollment, coordinate services with the educational institution, and provide ongoing consumer support in the community.

4. Workforce Education & Training (WET)

WET promotes successful employment of consumers and family members in the public mental health system in Monterey County. Interim, Inc. will provide outreach, recruitment, training and orientations for all consumers and families employed by Interim in peer and family support positions. Interim will also provide employment and educational support services, job recruitment, job analysis, training, and job coaching for mental health consumers to promote a diverse and stable mental health workforce. This expansion will assist in supporting the additional consumer and family member

employees; MCBHB also uses these services for training and support of consumers employed by MCBHB. All services are consistent with the Mental Health Services Act (MHSA) guidelines and must incorporate the General Standards set forth in Title 9, California Code of Regulations (CCR), Section 3320:1) wellness, recovery and resilience, 2) cultural competence, 3) consumer and family driven mental health services, 4) an integrated service experience, and 5) collaboration with the community.

5. Dual Recovery Services (MHSA)

The purpose of these services is to reduce the length of stay at the Bridge House dual recovery residential program, to increase the support to consumers as they move into the next phase of their wellness and recovery treatment in the community, and to promote a clean and sober lifestyle for adults and transitional age youth in the MCBHB Adult & TAY Systems of Care. Best evidence practice indicates that in order to make a successful adjustment back to community living for individuals with dual recovery issues, consumers need activities every day that promote a clean and sober life style. The staff and the consumer will develop written daily schedules for individuals to have and to follow. These schedules will include various treatment options that include: skill building groups, recovery oriented community based groups and other structured activities which promote healthy community living and help to reduce the triggers that lead to relapse of substance use. Individual written service plans will be developed for each consumer moving into this phase of community based treatment and will help teach consumers how to avoid drug and alcohol use while strengthening healthy social supports using wellness and recovery principles.

6. Outreach and Aftercare Services (OAS) (SAMHSA Block Grant)

Interim, Inc. staff will focus on providing outreach and aftercare services for dually disordered individuals living in the community who are at risk, and those who are in need of a dual recovery or other drug and alcohol treatment program. The goal will be to ensure stability of psychiatric symptoms and are engaged in harm reduction or clean and sober living, satisfying daily/structured activities, and the opportunity to successfully reintegrate into the larger community.

OAS provides individual and group services for dually diagnosed adults who are not opened to the Monterey County Behavioral Health Care System (except in South County) because they either do not meet the eligibility criteria for the Adult System of Care or lack Medi-Cal. These adults with co-occurring disorders need support in both their mental health and drug and alcohol recovery in order to successfully live in the community. Some of the individuals that OAS will serve are dually diagnosed adults who have been recently released from jail. OAS will provide individual and group dual recovery support services to clients being monitored by the Probation Department. OAS will also take referrals for homeless adults who have dual recovery needs. OAS will refer clients who are eligible to MCBHB and/or other resources in the community. OAS will provide individual and group support for individuals living in South County weekly. These dual recovery groups in South County are open to both clients who are served by MCBHB and clients who are not currently open to MCBHB.

A. Program Description

1. Success Over Stigma

The "Success Over Stigma" program focuses on consumer advocacy and outreach. The program will promote consumer involvement in planning and executing mental health services and anti-stigma messaging in the community. It will serve as a means to recruit and train Monterey County consumer representatives for various community initiatives including statewide forums, trainings, task forces, focus groups, etc. that seek direct recipient representation. It will meet MCBH's request that Interim use the "Success Over Stigma" (SOS) Coordinator for county trainings and engage consumers in advocating for the psychiatrically disabled community. It will also serve as means to increase peer involvement in developing and strengthening mental health services both locally and at the State level. Lastly, consumers will learn how to better advocate for themselves and whom to turn to in their community should they need a peer advocate.

2. Peer Partners for Health

The Peer Partners for Health training and peer support program will focus on clients who are either in the crisis residential program at Manzanita and/or the Natividad Medical Center in-patient unit to help them with their transition into the community after they are discharged. Clients and/or their family members will be referred to a Wellness Navigator (WN) while they are still in one of these centers. The goal of the program is to utilize the assistance of a peer and a family member in connecting consumers to community based follow up services in a culturally sensitive manner as this will focus mainly on Latino engagement.

WNs will be given a list of measurable tasks to work on with the referred client/family member by the Discharge Social Worker at the Inpatient Unit or Manzanita's Clinical Specialist. WNs will work one-on-one with clients promoting mental health recovery and evidence-based practices; providing awareness of the signs and symptoms of mental health challenges; and assist clients in strategies such as positive self-talk, cognitive behavior thought records, and crisis management tools. The WNs will be trained in Reflective Listening Skills, Problem Solving Skills and Motivational Interviewing Skills. WNs will also connect clients to community resources to promote clients' self-management of their mental health recovery. Family members will be educated on mental illness, how to support their loved one and the importance of never giving up hope. Family members will also be referred to community resources i.e. NAMI. WN's services will be provided for the client or family member in person or over the phone for a time period of up to three months. The WNs will be supervised by Manzanita's Clinical Specialist.

This support will reduce the likelihood of recidivism of these two intensive and costly programs. This strategy will increase resilience, wellness and self-management of health and behavioral health. Through this support consumers will be more equipped to transition back to society.

3. Health Navigation Partnership - "Bienestar"

Interim, Inc. will collaborate with MCBHB in the implementation of the Health Navigation Partnership - "Bienestar" project, which is placing primary care services in community mental health clinics operated by MCBHB. Interim, Inc. will hire Wellness Navigators who will provide activities that engage, educate and offer support to individuals, their family members, and caregivers in order to successfully connect them to culturally relevant health services. The Wellness Navigators will assist in care coordination, provide prevention assistance (such as peer-to-peer smoking cessation) and help clients build skills needed to access primary care services. Research has shown that mental health peer programs significantly improve access to medical and mental health care, and that outcomes are improved in both areas. Wellness Navigators will be consumers selected to have the combination of ability, experience, and commitment required to assist others. One of the primary selection criteria will be the mutual agreement that the consumer is sufficiently advanced in his/her recovery to be able to help others without experiencing negative effects. As clients make enough progress to transition back into mainstream primary care services, Wellness Navigators will accompany them and provide support to make sure they are successful in accessing all the services they need.

Interim, Inc. has identified a qualified individual to serve as the Wellness Navigator Team Leader and initial Wellness Navigator. This individual will assist in the development of a curriculum that will be used to orient and train "Bienestar" Wellness Navigators. A Psychiatric Social Worker on MCBHB's Quality Improvement team will collaborate with the Team Leader to provide training to all new Wellness Navigators. The PSW will supervise the Wellness Navigators while they are stationed in the MCBHB's community mental health clinic sites. Wellness Navigators will provide services on a part-time basis according to a schedule developed by MCBHB in collaboration with Interim, Inc. The Wellness Navigators team will reflect the racial/ethnic and linguistic diversity of the target population. As appropriate, Wellness Navigators will be assigned to clients based on a good match of linguistic and cultural competence.

4. Peer Support - Wellness Navigation

Interim will also provide Wellness Navigators (WNs) for MCBHB's Adult Services' Clinics located in Marina, Salinas, Soledad and King City. This position is likely to be split between four consumers who will be recruited, trained and supervised by the WET program at the Pajaro Wellness Center under the leadership of the Pajaro Wellness Center Program Director. The WNs will be trained in Reflective Listening Skills, Motivational Interviewing Skills and other evidence based practices.

The purpose of the Wellness Navigators is similar to Interim's Bienestar Wellness Navigators. They will be stationed at each Adult Services' clinic for 5 hours/week at times to be determined by MCBHB and will be responsible for welcoming clients into the clinic while the client is waiting to meet with his/her psychiatrist or coordinator. The WNs will help support completion of intake screening tools, and help clients understand the services available to them. They will discuss with each client services that suit his/her recovery needs and help connect him/her to community based resources that new clients

need support in accessing i.e. OMNI, County groups, Bienestar, SEES, Dual Recovery Services, CCCIL, etc. The WNs will work an additional 5 hours/week providing follow up with a visit or phone call to continue linking clients to services. This peer support initiative plays an important role in the County's efforts to promote mental health recovery, peer advocacy, and peer leadership.

B. Program Goals

Program Goals: Success Over Stigma

1. Recruit consumers to share their story of overcoming mental health challenges in order to help reduce mental health stigma in the community.

4. Work with 35 family members whose loved one is coming out of Natividad Inpatient Unit or the Manzanita Crisis Residential Program.
5. Link clients to community resources e.g. OMNI, SEES, Dual Recovery Services, CCCIL, smoking cessations groups, etc. Fifty percent (50%) of the clients and/or referred family members will connect with two or more community resources as a result of the WN linkage.
6. Eighty percent (80%) of the clients served will report satisfaction with WN s services and report an increase in knowledge and/or skills leading towards reducing symptoms and increasing mental health recovery.
7. Data collection and analysis will be the responsibility of MCBHB. Wellness Navigators will enter data on clients served into MCBHB's Avatar System.

Program Goals: Bienestar - Health Navigation Partnership

Wellness Navigators assigned to the Bienestar project will:

1. Welcome new clients to the clinic and provide information regarding the services available from Wellness Navigators in particular and the clinic in general.
2. Assist the Care Coordinators and help clients transition to less intensive levels of care.
3. Help clients follow through on important health related tasks such as learning to manage medications; practicing communicating with primary care providers; accompany them and provide support and guidance to make sure they are comfortable and successful in accessing all the services they need; provide self-management supports to individuals and their families; and provide input on the peer and community perspective.
4. Function as coaches, helping clients improve their health outcomes by applying practical skills.
5. Conduct the peer oriented smoking cessation and other peer oriented wellness group activities such as healthy eating and exercise.
6. Provide peer-to-peer activities including referrals to other peer programs such as those held by the OMNI Resource Center as well as other wellness activities provided in the community such as walking groups.
7. Assist clients' in transition across settings. A particular emphasis is assisting clients' transition from the "Bienestar" clinic to mainstream community clinics. When clients' recovery has proceeded to the point that they can transition to less-intensive care, as determined by the whole team including the client, Wellness Navigators will accompany them on their first visits to their new medical home to ensure they access care. The WNs will continue their assistance with visits as long as needed; no one will be left on their own to fall between the cracks.
8. Possess the proven capability serving the SMI target population, including its different racial/ethnic groups such as Latinos and African Americans.
9. Be offered opportunities to participate in local, regional, state and national trainings to become proficient in the strategies of Peer Navigation in the integrated behavioral health/primary care clinic setting, peer-led smoking cessation, and other evidence-based practices.

Program Goals: Peer Support - Wellness Navigation

1. Recruit and train peers on how to be a Wellness Navigator. Peers will receive training using an approved curriculum.
2. Create a safe welcoming environment at the adult services clinics for clients coming into the system of care; serving 200 clients a year.
3. Link clients to community resources e.g. OMNI, Bienestar, SEES, Dual Recovery Services, CCCIL, smoking cessations groups etc. Twenty five percent (25%) of the clients will connect with one or more community resource as a result of the Wellness Navigator linkage.
4. Eighty percent (80%) of clients served will report satisfaction with Wellness Navigator services and report an increase in knowledge and/or skills leading towards mental health recovery.

5. Annual satisfaction surveys will be given to the Access clinical providers to evaluate the effectiveness of services provided by the Wellness Navigators. Seventy five percent (75%) of the Access providers will report satisfaction with the effectiveness of WN's services.

IV. PAYMENT CONDITIONS

- A. If CONTRACTOR is seeking reimbursement for eligible services funded by the Short-Doyle/Medi-Cal, Mental Health Services Act ("MHSA"), SB 90, Federal or State Grants, and/or COUNTY funds provided pursuant to this Agreement, reimbursement for such services shall be based on actual cost of providing those services less any deductible revenues collected by the CONTRACTOR from other payer sources. In order to reduce COUNTY costs, the CONTRACTOR shall comply with all applicable provisions of the California Welfare and Institutions Code (WIC), the California Code of Regulations, the Code of Federal Regulations, and the federal Social Security Act related to reimbursements by non-County and non-State sources, including, but not limited to, collecting reimbursements for services from clients (which shall be the same as patient fees established pursuant to WIC section 5710) and from private or public third-party payers.

CONTRACTOR shall not claim reimbursement from COUNTY for (or apply sums received from COUNTY with respect to) that portion of its obligations which has been paid by another source of revenue. If CONTRACTOR is seeking reimbursement for mental health services provided pursuant to this Agreement, reimbursement for such services shall be based upon the actual allowable costs of providing those services less any deductible revenues, as stated above. Notwithstanding any other provision of this Agreement, in no event may CONTRACTOR request a rate that exceeds the COUNTY'S Maximum Allowances (CMA), which is based on the most recent State's Schedule of Maximum Allowances (SMA) as established by the State's Department of Mental Health. The SMA Schedule shall be used until COUNTY establishes the COUNTY'S rate Schedule of Maximum Allowances. CONTRACTOR shall be responsible for costs that exceed applicable CMAs. In no case shall payments to CONTRACTOR exceed CMAs. In addition to the CMA limitation, in no event shall the maximum reimbursement that will be paid by COUNTY to CONTRACTOR under this Agreement for any Program Amount be more than the amount identified for each Program Amount for each Funded Program, as identified in this Exhibit B, Section III. - C. CONTRACTOR shall be responsible for delivering services to the extent that funding is provided by the COUNTY. To the extent that CONTRACTOR does not have funds allocated in the Agreement for a Funded Program that pays for services to a particular eligible beneficiary, CONTRACTOR shall, at the first opportunity, refer said eligible beneficiary to another CONTRACTOR or COUNTY facility within the same geographic area to the extent feasible, which has available funds allocated for that Funded Program.

Any claim(s) submitted for services that preceded thirty (30) calendar days prior to the termination or end date of this Agreement may be disallowed, except to the extent that such failure was through no fault of CONTRACTOR. Any "obligations incurred" included in claims for reimbursements and paid by the COUNTY which remain unpaid by the CONTRACTOR after thirty (30) calendar days following the termination or end date of this Agreement shall be disallowed, except to the extent that such failure was through no fault of CONTRACTOR under audit by the COUNTY.
- F. If CONTRACTOR fails to submit claim(s) for services provided under the terms of this Agreement as described above, the COUNTY may, at its sole discretion, deny payment for that month of service and disallow the claim.
- G. COUNTY shall review and certify CONTRACTOR'S claim either in the requested amount or in such other amount as COUNTY approves in conformity with this Agreement, and shall then submit such certified claim to the COUNTY Auditor. The

County Auditor-Controller shall pay the amount certified within thirty (30) calendar days of receiving the certified invoice.

- H. To the extent that the COUNTY determines CONTRACTOR has improperly claimed services to a particular Program Amount, COUNTY may disallow payment of said services and require CONTRACTOR to resubmit said claim of services for payment from the correct Program Amount, or COUNTY may make corrective accounting transactions to transfer the payment of the services to the appropriate Program Amount.
- I. If COUNTY certifies payment at a lesser amount than the amount requested COUNTY shall immediately notify the CONTRACTOR in writing of such certification and shall specify the reason for it. If the CONTRACTOR desires to contest the certification, the CONTRACTOR must submit a written notice of protest to the COUNTY within twenty (20) calendar days after the CONTRACTOR'S receipt of the COUNTY notice. The parties shall thereafter promptly meet to review the dispute and resolve it on a mutually acceptable basis. - A. Provisional Payments: COUNTY payments to CONTRACTOR for performance of eligible services hereunder are provisional until the completion of all settlement activities and audits, as such payments are subject to future Federal, State and/or COUNTY adjustments. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this Agreement. Therefore, an increase in one line item shall require corresponding decreases in other line items.
- D. Other Limitations for Certain Funded Programs: In addition to all other limitations provided in this Agreement, reimbursement for services rendered under certain Funded Programs may be further limited by rules, regulations and procedures applicable only to that Funded Program. CONTRACTOR shall be familiar with said rules, regulations and procedures and submit all claims in accordance therewith.
- E.
