Cannabis Cultivation Facilities Project Description Information (To be completed by Applicant)

A. Purpose

To assist the County in determining the project's coverage under the previously prepared CEQA Programmatic Initial Study, the following information is required from project applicants. Please provide as much information as is readily available and attach additional pages if necessary.

B.1 Project Description

Please provide the following project information.

1. Planning File (PLN) Case Number(s): _____
2. Business Licensing (CNB) Case Number(s): _____
3. Project Applicant(s): _____
4. Property Owner(s): _____
5. Project Address and Tax Assessor Parcel Number(s): _____

6. Site Description, including all known physical characteristics such as size, street frontage, existing infrastructure (well, septic, storm drain, etc), drainage, surrounding uses (neighboring properties), etc. Attach additional sheets if necessary.

7. Project Description, including all known (planned) physical characteristics (e.g.; buildings, equipment, etc.), uses (e.g. (manufacturing, growing, etc.)), phasing, and any secondary, support, or off-site features necessary for its implementation (e.g. security, distribution, generator, cistern, etc.). Attach additional sheets if necessary.

8. Name the water, wastewater, energy, and other utility providers to the site? (Indicate if utilities systems are contained on-site, for example a groundwater well, septic system or electricity generator.) If off-site please provide the address and Tax Assessor's Parcel Number of the location of the off-site facility.

B.2 Specific Project Description Information Checklist

1. Would the project require new or replacement wells? Yes No If yes, how many? _____
2. What size water storage tank is proposed for fire flow requirements? _____ gallons N/A
3. Is new or replacement irrigation going to be installed? Yes No If yes, provide details below:
- _____
4. Is a new or replacement septic system proposed? Yes No If yes, what size? _____ gallons
5. Are new permanent bathrooms proposed? Yes No If yes, how many? _____
6. Are new washing facilities (for packaging facilities and manufacturing equipment) proposed?
 Yes No If yes, how many and what size? _____
7. Are electrical utility improvements required? Yes No If yes, provide details below:
- _____
8. Are road improvements proposed? Yes No If yes, provide details below:
- _____
9. Are parking improvements proposed? Yes No If yes, provide details below (e.g. number of spaces, electric vehicle charging stations, etc.):
- _____

10. Is new or improved fencing proposed? Yes No If yes, provide details below (e.g. new privacy/screening materials, locked gates, etc.):

11. List any other infrastructure-related improvements or details associated with the project:

12. Does the project include demolition of existing structures? Yes No If yes, provide the square footage of demolition: _____

Is the demolition square footage more than 50 percent of all existing structures? Yes No N/A

13. Does the project include construction of new structures or rebuilding of greenhouses? Yes No
If yes, provide the square footage of construction: _____

14. Hours of operation: _____

15. Delivery Hours: _____

16. Number of regular employees: _____ Number of seasonal employees: _____

B.3 Specific Air Quality Information Checklist

1. Would the project disturb or remove asbestos-containing materials (structures or boiler-related coatings/wrappings)? Yes No If yes, has the Monterey Bay Air Resources District (MBARD) been notified? Yes No N/A If no, when will MBARD be notified? _____

2. For projects including demolition (as noted under Section B.2, question 12), will the demolition include removal of load-bearing structures? Yes No
If yes, has MBARD been notified?¹ Yes No N/A
If no, when will MBARD be notified? _____

3. Would the project use portable equipment (generator sets, air compressors, etc.)? Yes No
If yes, have Permits to Operate or Statewide Portable Equipment Registration been obtained from MBARD? Yes No N/A
If no, when will permits/registration be obtained? _____

¹ MBARD requires notification at least 10 working days prior to removal of load-bearing structures.

4. Would the project use stationary equipment (generators, hash oil processing, boilers greater than 2 MMBtu/hr for natural gas or 250,000 Btu/hr for non-natural gas fuels, etc.)? Yes No
If yes, have Permits to Operate been obtained from MBARD? Yes No N/A
If no, when will permits be obtained? _____

5. What odor abatement measures are incorporated into project design (e.g. brand name and specifications of systems, method/type of abatement [carbon scrubbers, neutralizers], etc.)?

6. For odor control devices, fume hoods, and engine generator sets, has an Authority to Construct and Permit to Operate been obtained from MBARD? Yes No N/A
If no, when will permits be obtained? _____

CEQA Consistency Checklist for Cannabis Cultivation Facilities

(To be completed by County Staff)

A. Purpose

On November 17, 2020, the Monterey County Board of Supervisors approved a Mitigated Negative Declaration (MND) for the construction and operation of Multiple Cannabis Cultivation Facilities in Unincorporated Monterey County (Project). The MND was based on a programmatic initial study (ProgIS) that analyzed the environmental impacts of the Project. In accordance with CEQA Guidelines Section 15168, the ProgIS evaluated the Project's impacts with regard to the following environmental resources and subjects:

- Aesthetics
- Agriculture and Forest Resources
- Air Quality
- Biological Resources
- Cultural Resources
- Energy
- Geology and Soils
- Greenhouse Gas Emissions
- Hazards and Hazardous Materials
- Hydrology and Water Quality
- Land Use and Planning
- Mineral Resources
- Noise
- Population and Housing
- Public Services
- Recreation
- Transportation
- Tribal Cultural Resources
- Utilities Service Systems
- Wildfire

The ProgIS evaluated the direct and indirect impacts, as well as the project-specific and cumulative impacts, that would result from the implementation of the project. At this level, transportation was the only potentially significant issue identified and the ProgIS set forth feasible mitigation measures to mitigate impacts.

Pursuant to CEQA Guidelines Section 15168(c)(4), the following checklist was prepared to determine whether the environmental effects of a specific commercial cannabis operation is within the scope of the previously approved MND and ProgIS. If yes, then the ProgIS can be used for the CEQA determination on that project. If not, additional CEQA review may be required.

B. Project Description (Provided by Applicant)

Please refer to Attachment 1 for specific project description information provided by the project applicant. This information should be used by County staff to complete Section C.

C. ProgIS Mitigation Measures/Requirements for Commercial Cannabis Operations (To be Completed by County Staff)

The following table lists the specific mitigation measures set forth in the ProgIS. The table further includes questions to determine the scope of the potential environmental impacts of a project. This information will be used by staff to determine if further environmental review of a project is warranted.

Please answer all questions set forth in the following table. If a question does not apply to the proposed cannabis operation, please check the corresponding “N/A” box.

C.1 Mitigation Measures for Staff Review

Mitigation Measure	Requirement
Transportation and Traffic	
<p>MM TRA-1. Prior to the issuance or renewal of commercial cannabis permits, each applicant shall pay its fair share contribution to fund following intersection improvement in the amount that is specified in Appendix H of the Traffic Impact Study.</p> <ul style="list-style-type: none"> • <i>Old Stage Road/Spence Road:</i> Widen Spence Road for separate right turn lane and shared through-left lane for the NB approach. <p>Fees shall be paid in accordance with the square footage of cultivation building areas approved in the Planning entitlements for each site. If approved as part of a phased development, the traffic fee may be paid in increments corresponding to the timing and square footage of cultivation building area approved in each phase of development. Such timing and square footage shall be denoted as a condition of approval for each project proposing a phased cultivation plan. Adjustments to the phasing schedule can be approved by the Chief of Planning. To ensure that the improvements are constructed, the County shall establish an “Old Stage Road/Spence Road Improvement Fund” and deposit each applicant’s fair share contribution into said fund as they are collected. When the estimated cost of \$67,601 to construct the improvement is deposited into the fund, the County shall cause the construction of the improvements in accordance with applicable rules and regulations governing the construction of the intersection improvement project.</p>	<p>What is the fee the Applicant is required to pay (<i>refer to Attachment 2 – Traffic Mitigation Fees for the approximate fee amount</i>): \$ _____</p>

Mitigation Measure	Requirement
<p>MM TRA-2. Prior to the issuance or renewal of the commercial cannabis permits, each project applicant shall pay the TAMC RDIF, in the amount specified in Appendix G of the Traffic Impact Study, for the following improvements:</p> <ul style="list-style-type: none"> • <i>US 101/Hartnell Road, US 101/Spence Road, US 101/Potter Road:</i> Regional Improvement Project #7 US-101-South County Phase 1 to eliminate the at-grade highway crossings and construct a two-lane frontage road on the east side of US 101 from Harris Road to Chualar where the frontage road will link a new interchange to Harris Road/US 101 • <i>US 101 between Prunedale Road and Sala Road:</i> US 101 capacity improvements with the City of Salinas. • <i>US 101 between Sala Road and Boronda Road:</i> US 101 capacity improvements with the City of Salinas. • <i>US 101 between Boronda Road and Laurel Drive:</i> US 101 capacity improvements with the City of Salinas. <p>Fees shall be paid in accordance with the square footage of cultivation building areas approved in the Planning entitlements for each site. If approved as part of a phased development, the traffic fee may be paid in increments corresponding to the timing and square footage of cultivation building area approved in each phase of development. Such timing and square footage shall be denoted as a condition of approval for each project proposing a phased cultivation plan. Adjustments to the phasing schedule can be approved by the Chief of Planning.</p>	<p>Applicant is required to pay the requisite fees (<i>refer to Attachment 2 – Traffic Mitigation Fees for the approximate fee amount</i>).</p>
<p>MM TRA-3. Prior to the issuance or renewal of the commercial cannabis permits, each applicant shall pay its fair contribution to the County in the amount specified in Appendix H of the Traffic Impact Study (“Cumulative Impacts Fee”), for the following intersection improvements:</p> <ul style="list-style-type: none"> • <i>Boronda Road/N. Main Street:</i> Modify the existing traffic signal equipment to provide for a right-turn overlap signal phase for the SB approach • <i>Alisal Road/Hartnell Road:</i> Install a traffic signal. Widen the NB approach with single left-turn and single right-turn lanes, EB approach with a single shared through-right lane, and WB approach with single left-turn and single through lanes. • <i>Alisal Road/Fuji Lane:</i> Widen the NB approach to include single left-turn and single right-turn lanes, the EB approach to include a single shared through-right lane, and the WB approach to include single left-turn and single through lanes. • <i>Alisal Road/Old Stage Road:</i> Widen the SB approach to include single left-turn and single right-turn lanes, the EB 	<p>What is the fee the Applicant is required to pay (<i>refer to Attachment 2 – Traffic Mitigation Fees for the approximate fee amount</i>): \$ _____</p>

Mitigation Measure	Requirement
<p>approach to include single left-turn and single through lanes, and the WB approach to include single through and single right-turn lanes.</p> <ul style="list-style-type: none"> • <i>Old Stage Road/Spence Road:</i> Install a traffic signal. Widen the NB approach to include single shared left-through and single right lanes, the EB approach to include single left-turn and single shared through-right lanes, and the WB approach to include single left-turn and single shared through-right lanes. • <i>Old Stage Road/Encinal Road:</i> Install a traffic signal. Widen the NB approach to include single left-turn and single right-turn lanes, the EB approach to include single through and single right-turn lanes, and the WB approach to include single left-turn and single through lanes. • <i>Old Stage Road/Potter Road:</i> Widen the NB approach to include single left-turn and single right-turn lanes, the EB approach to include a single shared through-right lane, and the WB approach to include single left turn and single through lanes. <p>Fees shall be paid in accordance with the square footage of cultivation building areas approved in the Planning entitlements for each site. If approved as part of a phased development, the traffic fee may be paid in increments corresponding to the timing and square footage of cultivation building area approved in each phase of development. Such timing and square footage shall be denoted as a condition of approval for each project proposing a phased cultivation plan. Adjustments to the phasing schedule can be approved by the Chief of Planning. To ensure that the improvements are constructed, the County shall either establish intersection improvement funds for each of the aforementioned intersections, or one general transportation improvement fund for all intersection improvements, and deposit each applicant's fair share contribution into said fund(s) as they are collected. When the estimated cost of an improvement is fully funded, the County shall cause the construction of the improvements in accordance with applicable rules and regulations governing the construction of these intersection improvement projects. Should the County elect to create one general transportation improvement fund, improvements shall be prioritized and constructed as deemed appropriate by the County, as not all individual improvements may be fully funded when the improvement is determined to be necessary to construct.</p>	

C.2 Project Features

This section provides information for staff to assess if the project fits within the parameters evaluated under the ProgIS. Additional CEQA analysis could be required if a project exceeds certain thresholds.

Project Feature	Requirement
Project Location	<p>Is the project located on one of the 45 sites identified in the ProgIS (<i>site location from Section B.1 question 5 of Attachment 1, cross reference with site list in Attachment 2</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p><i>If no, the project is not covered by the ProgIS and requires separate CEQA review.</i></p>
Project Size	<p>Does the project exceed the square footages for cultivation, distribution, processing, and/or manufacturing listed in the ProgIS for the project location (<i>project square footages from Section B.1 question 7 of Attachment 1, cross reference with Attachment 3, Maximum Buildout of Project Sites</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>
Utilities Improvements	<p>Does the project exceed the identified utilities improvements listed in Table 4 of the ProgIS for the project location (<i>utilities improvements from Section B.2 questions 1 through 11 of Attachment 1, cross reference with Attachment 4, Project Site Utility Improvements</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>
Project Employees	<p>Does the number of regular employees exceed the full time equivalent (FTE) rate of 0.88 FTE per 1,000 square feet of operations (<i>employment information from Section B.2 question 16 of Attachment 1, operational square footage from Section B.1 question 7 of Attachment 1</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>
	<p>Does the number of seasonal employees exceed the FTE rate of 1.56 FTE per 1,000 square feet of operations (<i>employment information from Section B.2 question 16 of Attachment 1, operational square footage from Section B.1 question 7 of Attachment 1</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>
Demolition	<p>Does the proposed project demolish greenhouses or other related structures on the project site (<i>demolition square footage from Section B.2 question 12 of Attachment 1</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p><i>If yes, update the Demolition and Construction Tracker and confirm that no more than approximately 25% of all 45 sites (cumulatively 2,385,191 square feet) require demolition of greenhouses or other structures.</i></p> <p><input type="checkbox"/> Tracker Updated</p> <p><input type="checkbox"/> Cumulative demolition is no more than 2,385,191 square feet</p> <p><input type="checkbox"/> Cumulative demolition is greater than 2,385,191 square feet; further analysis is required to determine if the exceedance would result in previously unidentified impacts.</p>

Project Feature	Requirement
Construction	<p>Does the proposed project construct new greenhouses or other related structures on the project site (<i>construction square footage from Section B.2 question 1312 of Attachment 1</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p><i>If yes, update the Demolition and Construction Tracker and confirm that no more than approximately 25% of all 45 sites (cumulatively 2,385,171 square feet) require new construction of greenhouses or other structures.</i></p> <p><input type="checkbox"/> <i>Tracker Updated</i></p> <p><input type="checkbox"/> <i>Cumulative new construction is no more than 2,385,171 square feet</i></p> <p><input type="checkbox"/> <i>Cumulative new construction is greater than 2,385,171 square feet; further analysis is required to determine if the exceedance would result in previously unidentified impacts.</i></p>
Sensitive Receptors	<p>Is the nearest sensitive receptor (e.g. residence, school, or park) located closer than 50 feet from the center of the proposed construction area (<i>use Google Maps or other similar resource with a distance measuring tool</i>)? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>
<p><i>If any of the above items (other than project location) are marked yes, then further analysis is required to determine if the exceedance would result in previously unidentified impacts.</i></p>	

C.3 Environmental Document Determination (To be Completed by County Staff)

Check the appropriate box below, based on the responses to the questions and requests for information set forth in the checklist in § C.1-C.2, above, and pursuant to the requirements set forth in CEQA Guidelines Sections 15162 and 15168.

- All of the environmental impacts of the proposed commercial cannabis operation are within the scope of the ProgIS, and a subsequent environmental document is not required to evaluate the environmental impacts of the proposed commercial cannabis operation.
- The proposed commercial cannabis operation requires minor technical changes or additions to the adopted MND and none of the conditions described in Section 15162 of the CEQA Guidelines have occurred.
- The proposed commercial cannabis operation will have environmental effects that were not examined in the ProgIS, and an initial study addendum must be prepared to evaluate the environmental impacts of the proposed commercial cannabis operation.
