Before the Planning Commission in and for the County of Monterey, State of California

COUNTY OF MONTEREY CAPITAL IMPROVEMENT PROGRAM (CIP) FOR FISCAL YEAR 2025/26 (REF250008) RESOLUTION NO. 25-017

Resolution of the County of Monterey Planning Commission:

- 1) Finding that review of General Plan consistency and recommendation to the Public Works, Facilities, and Parks Department on the Fiscal Year 2025/26 Capital Improvement Plan (CIP) is not a project as defined in Section 15378 of the CEQA Guidelines; and
- 2) Recommending that the list of major public works projects, contained in the County of Monterey Capital Improvement Program (CIP) for Fiscal Year 2025/26, with revisions to reflect the removal of road diet work from the G-12 Pajaro to Prunedale Corridor Study Project Project Area 6 (Salinas and Pajaro Rd project description), conforms to and is consistent with the 2010 County of Monterey General Plan or the County of Monterey Local Coastal Program and the 1982 General Plan, as applicable;
- 3) Supporting continued efforts by Public Works, Facilities, and Parks Department to implement capital projects which prioritize Level of Service deficient roadways identified in the 2010 General Plan as funding becomes available; and
- 4) Transmitting to the Public Works, Facilities and Parks Department and the Board of Supervisors the Planning Commission General Plan consistency findings for the FY 2025/26 CIP.

The Fiscal Year (FY) 2025/26 CAPITAL IMPROVEMENT PROGRAM (CIP) came on for public hearing before the County of Monterey Planning Commission on May 14, 2025. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the County of Monterey Planning Commission hereby finds and decides as follows:

- **WHEREAS**, Government Code section 65401 requires that the Board of Supervisors designate an "official agency" as responsible for listing and classifying recommended public works, and preparing a coordinated program of public works for the ensuing fiscal year; and
- **WHEREAS**, the County of Monterey Board of Supervisors, by Monterey County Code section 2.28.010.B has designated Public Works, Facilities & Parks as the department fulfilling the duties of the official agency which prepares a coordinated program of public works as a part of the annual CIP; and
- **WHEREAS**, Government Code sections 65401 requires the list of proposed public works recommended for planning, initiation, or construction during the ensuing fiscal year be submitted to the Planning Agency for review and recommendation to the official agency as to conformity with the adopted General Plan or part thereof; and
- **WHEREAS**, Monterey County Code section 2.29.010 defines the Planning Agency as consisting of the Board of Supervisors, the Planning Commission, the Housing and Community Development Department, and such other hearing officers and bodies as are designated in County's zoning and subdivision ordinances as Appropriate Authorities; and
- **WHEREAS**, the Planning Commission has historically acted in the capacity of the Planning Agency for the purposes of evaluating consistency with the General Plan; and
- **WHEREAS**, Government Code section 65402 provides restrictions on the acquisition and disposal of real property, including construction of public building or structures, until the location, purpose, and extent of such acquisition, disposition, or construction of such public building or structure has been submitted to, and findings reported upon, by the Planning Agency as to conformity with the applicable general plan or part thereof; and
- **WHEREAS**, in accordance with the Planning Commission's 2020 recommendation to prioritize projects that address Level of Service deficient roadways identified in the 2010 General Plan, staff highlighted 1 project addressing 1 out of the 27 road sections under County purview while an additional 25 road sections are managed by the Department of Transportation, and has included (currently unfunded) projects for the remaining 26 road sections in the CIP; and
- **WHEREAS**, on May 14, 2025, a coordinated list of major public works projects contained in the County of Monterey Capital Improvement Program for FY 2025/26 (Attachment 1) came before the County of Monterey Planning Commission for review; and
- **WHEREAS**, the Planning Commission has reviewed a list of major public works projects from the County of Monterey Capital Improvement Program for FY 2025/26 and has concluded that all the projects conform with the applicable General Plan. This conclusion is based on review of each of the items in the list of major public works projects from the County of Monterey Capital Improvement Program for FY 2025/26 (Attachment 1) and a determination that each item fits into one or more of the following categories:
 - 1. Upgrades or additions to existing government services within public and quasipublic facilities consistent with the General Plan and/or Local Coastal Program.
 - 2. New projects and additions to existing facilities that require permits and environmental review that ensure compliance with goals and policies of the General Plan and/or Local Coastal Program.

- 3. Projects that have already been reviewed in previous environmental documents and/or have required County permits where there was a determination that the project or program was consistent with the applicable General Plan and/or Local Coastal Program.
- 4. Not Applicable because the County General Plan and/or Local Coastal Program is/are not applicable to projects located within city limits; and

WHEREAS, the CIP has been developed based on public improvement project needs consistent with the following: 2010 General Plan Goal (PS-1) to ensure that Adequate Public Facilities and Services are provided to serve existing development and based on funding available to carry out those projects in the next fiscal year; 1982 General Plan Objective 39.1 to provide an adequate road system that is within the County's ability to finance and maintain; North County Land Use Plan Policy 3.1.2.5 to upgrade local, rural roads as necessary to serve local traffic; and Big Sur Coast Land Use Plan Policy 4.1.3.A.5 to maintain Palo Colorado Road at a level that safely accommodates resident and visitor traffic without negative visual and environmental impacts; and

WHEREAS, the General Plan consistency determination does not, in itself, approve, deny, or modify any project, and the act of determining consistency of the CIP will have no physical effect on the environment and is not a project as defined in Section 15378 of the CEQA Guidelines. Pursuant to CEQA Guidelines section 15378(b)(4), the report relates to a governmental fiscal activity, which does not involve any commitment to any specific project; each project on the CIP is required to undergo a separate approval process, including appropriate environmental review where applicable. Therefore, this report does not constitute a project for purposes of the California Environmental Quality Act (CEQA).

NOW, THEREFORE, BE IT RESOLVED the Planning Commission does hereby:

- a. Find that review of General Plan consistency and recommendation to the official agency on the Fiscal Year 2025/26 Capital Improvement Plan (CIP) is not a project as defined in Section 15378 of the CEQA Guidelines;
- b. Determine that the list of major public works projects contained in the County of Monterey Capital Improvement Program for FY 2025/26, with revisions to reflect the removal of road diet work from the G-12 Pajaro to Prunedale Corridor Study Project Project Area 6 (Salinas and Pajaro Rd project description), conforms to and is consistent with the 2010 County of Monterey General Plan or the County of Monterey Local Coastal Program and 1982 General Plan, as applicable;
- c. Support continued efforts to implement capital projects which prioritize Level of Service deficient roadways identified in the 2010 General Plan as funding becomes available; and
- d. Authorize the Secretary of the Planning Commission to transmit this resolution to the Public Works, Facilities and Parks Department and the Board of Supervisors the Planning Commission General Plan consistency findings for the FY 2025/26 CIP.

PASSED AND ADOPTED on this 14th day of May 2025, upon motion of Commissioner Diehl and second by Commissioner Gomez by the following vote:

AYES: Mendoza, Gomez, Diehl, Gonzalez, Work, Monsalve, Shaw

NOES: None

ABSENT: Hartzell, Roberts, Getzelman

ABSTAIN: None

City of Salinas				·
Constitution Mental Health Rehabilitation	Not Applicable - The County General Plan is not applicable to projects located within City limits.	Green Building Standards required. New buildings must meet LEED silver standards (MCC Chapter 18.11). Consider LEED Silver standards as upgrades and renovations occur.	The County of Monterey, through its Health Department Behavioral Health Bureau, received a California Department of Health Care Services("DHCS") Behavioral Health Continuum Infrastructure Program ("Program") grant in the amount of \$20,166,779, to establish the Monterey County Regional Mental Health Rehabilitation Center (MHRC). In November 2024, the County of Monterey Board of Supervisors authorized the County Administrative Office's Budget division to seek Certificates of Participation to compliment the grant award received by the County Health Department for the development of MHRCs. This Project is the first phase of a planned multi phased campus development of the County Owned parcel located at Constitution Blvd in Salinas. This project includes the development of a campus master plan for the County Owned parcel and the planning, design and development of six 16-bed MHRCs, an MHRC Support Building and associated infrastructure and surface parking. The campus master plan will most likely be divided in three phases. Separate CIP Projects are being developed for the future phased planning, design and development of a 3-story Behavioral Health Building, a 2-story Clinic Services Building, 3-story parking structure along with associated landscaping and infrastructure. These separate CIP projects will be included in future drafts of the FY 2025/26 CIP. The site is a County-owned parcel located within the City of Salinas. No current addresses have been assigned to the parcel.	This proposed project is in planning and design phase. During FY24, Project completed site assessments and due diligence including environmental and utility assessments. During FY25 project started design and environmental CEQA review process. During FY26, Project will complete environmental CEQA review process, design, and permitting and begin bidding process. The project scope and project cost estimate may be revised after completion of design and environmental review process for Phase I of the project.
E Salinas Integrated Health Center	Not Applicable – The County General Plan is not applicable to projects located within City limits.	Consider Green Building techniques where appropriate.	This project is an alternative to full size medical clinic in East Salinas. This project would consist of building a new, or re-purpose an existing, 10,000 sq. ft. building that would house approximately 15 interview/exam rooms, a waiting room and related offices in the City of Salinas. The building would be utilized to provide Behavioral Health services to residents of East Salinas and surrounding areas.	A suitable building was located at 30 Pearl Street, in the City of Salinas and the Health Department will leverage Mental Health Services Act funds for this project. Cost estimates based on FFE quote and Proposal from contractor to do Tenants Improvement. Adding 30 percent contingency. Project is being being negotiated with Lessor.

City of Salinas Cont.				
Replace HVAC System - 160 Hitchcock Rd	Not Applicable - The County General Plan is not applicable to projects located within City limits.	Consider Energy-efficient HVAC units to reduce the amount of energy consumed by the system, which can translate to net zero GHG emissions. Consider recycling or disposing of old these units in an environmentally responsible manner can reduce waste and promote sustainability.	The Animal Services facility at 160 Hitchcock Road in Salinas currently has 7 HVAC units that are approximately 22 years old. Their age is such there are no parts available for repair and all show significant signs of erosion and wear. These units are considered specialty units due to the fact they run off of propane, which is the power source for Animal Services. They often	Project required additional time due to extremely long lead times. As a result of changing to energy-efficient HVAC units to reduce emissions, the functionality of heating for the animal spaces required additional design and scope to be completed by FY 25/26.
		Teduce waste and promote sustainability.	have a long lead time so it is a concern that these units can be procured in a timely manner, before extreme weather and before more units expire completely. These units are needed to maintain the comfort of both the humans and animals in the facility seven days a week. Previously tracked in CIP as Project 1803-2	completed by F1 23/26.
Intrusion Repairs - 1270 Natividad Rd Salinas	Not Applicable - The County General Plan is not applicable to projects located within City limits.	Consider procurement and use of non-toxic and zero-emission materials.	Repairs to address ongoing water intrusion issues during heavy rains. The Health Department at 1270 Natividad Road was commissioned in October 2009. This building serves as headquarters to the Monterey County Health Department and houses over 200 county employees. On December 2, 2019, heavy rains penetrated through the stucco walls into the interior. This caused major displacement of staff and an emergency response to dehumidify the building in several areas to improve health and safety.	Majority of work completed by June 2025. Remaining closeout work to be done in FY 25/26.
Homeless Services- Feasibility Study	(blank)	Consider Green Building techniques where appropriate.	Conduct a feasibility study at the existing County Facilities located at 1220 Natividad Road. The study will encompass an analysis of the current footprint, setbacks, and potential for a new facility at this location. This comprehensive assessment will involve engaging with an architect to conduct the study and deliver a detailed report outlining the possibilities and recommendations for development at the specified site.	In response to the homelessness issue, the Behavioral Health Bureau aims to evaluate the existing facility at 1220 Natividad Road and assess its feasibility for repurposing. The proximity of this location to the Share Center, dedicated to serving the homeless, makes it an ideal site for addressing ongoing homeless needs. This assessment seeks to justify the potential repurposing of the facility as a means to enhance efforts in meeting the needs of the homeless population.
	Not Applicable - The County General Plan is not applicable to projects located within City limits.	Consider Green Building techniques where appropriate.	Upgrade the 168 W. Alisal HVAC system to address equipment overheating in the Clerk of the Board server room due to the recent ITD Board Chambers equipment upgrade. Additional work to be assessed for the Board Chambers.	HVAC work is complete. Using remaining budget to assess what work is needed in Board Chambers.
Parking Structure - Gabilan and Church Street	Not Applicable - The County General Plan is not applicable to projects located within City limits.	Consider Green Building techniques where appropriate.	Construct parking structure at the corner of West Gabilan and Church Streets for use by City, County and Court employees and public. Project would be funded by share of City and County funds.	Continue design support for parking structure development.

			Project 5101) - \$1.5 million to address smaller road maintenance	
			items in Supervisorial Districts that are outside of the	
			budgeted/planned activities, and do not rise to the level of a capital	
			project; \$5.5 million - Other planned projects in the Local Road	
			Rehabilitation Program.	
			The Seal Coat Program is vital maintenance for the longevity of roads	
			throughout the County. Generally the PWFP Pavement Management	
			Program keeps the majority of wear-damaged roads usable using light	
			maintenance, such as slurry seal, chip seal or thin overlay processes.	
			At the same time, a small amount of road segments are overhauled	
			using large digouts or total section reconstruction because	
			maintenance has been neglected far too long. The latter is a more	
			expensive proposition per linear length of road. The balance of regular	
			light maintenance routine and gradual reconstruction of road	
			segments prolongs the replacement of good to moderately worn roads.

Countywide				
NGEN Analog Overlay Upgrade	Upgrades or additions to existing Public and Quasi-Public Facilities consistent with the 1982 General Plan and with the 2010 General Plan to implement Goal PS-1 Ensure Adequate Public Facilities and Services (APFS).	N/A	Upgrade and replace components of the NGEN VHF Analog Overlay System to maintain and improve public safety and emergency radio communications across law, fire, and EMS divisions within the Monterey County Operational Area. The NGEN Analog Overlay system provides primary coverage in rural areas for public safety first responders, provides fire paging capabilities for all Monterey County fire agencies, and is redundant backup for areas with digital system capabilities. The current system is end of life and end of support, putting consistency and reliability of public safety and emergency communications within the Monterey County Operational Area at risk. This project will allow Monterey County to provide more consistent radio communications across all public safety agencies, establish more resilient public safety systems during connectivity and power outages, increase mutual aid and interoperability capabilities, strengthen communications capabilities, and enhance the overall safety of the Monterey County Operational Area.	The project commenced Yr 1 FY24-25 and will require a Yr 2 FY25-26 for completion. The NGEN Executive Board approved a 5-year NGEN Capital Fee collection on 2.22.24 commencing FY24-25 and have approved to maintain the fee on 2.13.25 for FY25-26. Additionally, an HSGP grant was received to help fund the project now shown in funding source below. The NGEN Capital Fee is pending BOS approval for FY25-26. Yr 1 implementation is planned to be completed by 6/30/25 with Yr 2 radios scheduled for delivery in July 2025.
NGEN L3Harris Core Upgrade (Countywide) & Greenfield Site Buildout	Upgrades or additions to existing Public and Quasi-Public Facilities consistent with the 1982 General Plan and with the 2010 General Plan to implement Goal PS-1 Ensure Adequate Public Facilities and Services (APFS).	N/A	The NGEN Upgrade project is a major hardware and software upgrade to current L3Harris system release configurations. This project will include the equipment and services needed to upgrade primary and secondary virtual core components, an upgrade of all radio frequency software, current security hardware and software components with upgraded operating system, upgraded dispatch console software, additional dispatch consoles, and phone system integration to the dispatch consoles. An additional site at Greenfield will be constructed as part of the vendor L3Harris' mobilization and fully funded by a grant received and managed by the City of Greenfield.	Project commenced in FY24-25. NGEN Executive Board approved a 5-year NGEN Capital Fee collection on 2.22.24 commencing FY24-25 and have further approved maintaining the fee on 2.13.25 through FY25-26 which is subject to BOS approval. The County of Monterey and City of Greenfield have entered into an MOU to facilitate the buildout of the Greenfield site during L3Harris' mobilization for the Core Upgrade. The project share of cost is allocated as 77% for the County of Monterey (NGEN Capital Fee) and 23% for the City of Greenfield.
Park Repairs - Prop 68 Per Capita Funding	Upgrades or additions to existing government services within Public and Quasi-Public facilities consistent with the 2010 General Plan. Goal PS-11 Maintain and Enhance County's Parks		This project implements various repair and improvement projects in County Parks, including repairs to the Toro Park Buckeye BBQ structure, bathroom roof replacement at Jacks Park, and campsite improvements and removal of unusable modular units at Lake San Antonio and Lake Nacimiento. Proposition 68 authorized \$4 billion in general obligation bonds to finance drought, water, parks, climate, coastal protection, and outdoor access for all programs. The Per Capita Grant is a non-competitive funding grant in which the County has been allocated \$631,430.	Complete majority or all work by the end of FY 24, subject to permitting and materials lead time constraints. Campground-related work requires State permitting. Work that cannot be complete by May 2024 will likely need to move to the end of the calendar year due to the busy summer visitor season.
