Adopt a resolution Celebrating the 175th Anniversary of California Statehood and the Historic Role of Monterey County in the Founding of the Golden State. (Supervisor Alejo)

Before the Board of Supervisors in and for the
County of Monterey, State of California

Resolution No.:
Resolution Celebrating the **175th Anniversary of California Statehood** and the Historic Role of Monterey County in the Founding of the Golden State.

WHEREAS, On September 9, 1850, California was officially admitted to the Union as the 31st state of the United States of America, following the signing of the Compromise of 1850 by U.S. President Millard Fillmore; and

WHEREAS, This year marks the 175th Anniversary of California Statehood, a milestone that invites reflection on the state's diverse origins, including the millennia-long presence of Native California tribes, who stewarded the land and waters of present-day California since time immemorial, and whose enduring cultures and sovereignty remain vital to the fabric of our state; and

WHEREAS, Monterey County was once the homeland of the Rumsen and Esselen Ohlone, Amah Mutsun and Salinan peoples, among many other Indigenous nations throughout California, who made profound contributions to the region's history and cultural legacy; and

WHEREAS, The City of Monterey holds a unique place in the state's founding, having served as the capital of Alta California under both Spanish and Mexican rule, where civic, military, and religious life flourished through institutions such as Colton Hall, the Presidio of Monterey, San Carlos Cathedral and the Custom House, the oldest public building in California and State Historical Landmark No. 1; and

WHEREAS, It was in Monterey's Colton Hall in September and October of 1849 that 48 delegates from across California gathered for the California Constitutional Convention, which included several Californios, such as Don Mariano Guadalupe Vallejo, Antonio Maria Pico, Jose Antonio Carrillo and Pedro Pablo Amador, who advocated for civil rights, bilingual governance, and cultural inclusion; and

WHEREAS, The resulting California Constitution of 1849, drafted and signed in Monterey in both English and Spanish, established the foundation for California's governance, enshrined civil liberties, and expressly prohibited slavery, setting the state apart during a time of deep national division. The Constitution states, "Neither slavery nor involuntary servitude, unless for punishment of crimes, shall ever be tolerated in this State"; and

WHEREAS, William Edward Petty Hartnell, known as Don Guillermo Arnel, was the official translator of the California Constitution into Spanish, and due in part to his efforts, California initially recognized Spanish as an official language alongside English. For the first 30 years, all California state laws were required to be translated in both languages; and

WHEREAS, After the Constitution's ratification by California voters on November 13, 1849 with 94 percent in favor (12,061 in favor and 811 against), the newly formed state government

that convened on December 17, 1849, immediately petitioned the U.S. Congress for admission and in March 1850, California Senators John C. Fremont and William M. Gwin, along with State Representatives Edward Gilbert and George W. Wright, personally submitted copies in Washington D.C. of the new California Constitution and requested, “In the name of the people of California, the admission of the State of California into the American Union”; and

WHEREAS, On January 29, 1850, California Statehood was introduced as part of the Compromise of 1850 by U.S. Senator Henry Clay, leading to the introduction of the California Statehood Act (S. 169), also known as the California Admission Act, and approved 34-18 in the Senate on August 13, 1850 and 150-56 in the House of Representatives on September 7, 1850, later culminating in California’s entry as a free state by the signing of the legislation by the President Millard Fillmore on September 9, 1850; and

WHEREAS, Monterey County is proudly recognized as one of the original 27 counties established in the State of California by the first State Legislature on February 18, 1850, affirming Monterey County’s foundational role in California’s early statehood and governance; and

WHEREAS, Monterey County’s historic role in California’s path to statehood is a lasting source of pride, and the preservation of Colton Hall, where the Constitution was written, stands as a symbol of democratic ideals and the multi-cultural and multi-lingual roots of California’s founding; and

WHEREAS, The 175th Anniversary of Statehood is a time to recognize not only the governmental institutions that were born in Monterey, but also the diverse peoples, Native American, Spanish and Mexican Californios, immigrants, and settlers, who laid the foundation for California’s identity, values, and enduring pursuit of justice and opportunity.

NOW, THEREFORE, BE IT RESOLVED, that the County of Monterey Board of Supervisors, on behalf of the County and all residents thereof, hereby **commemorates the 175th Anniversary of California Statehood** and proudly honors the historic and foundational role Monterey County played in convening the 1849 Constitutional Convention, drafting California’s first Constitution, and petitioning for admission as the 31st state of the Union; and further declares Monterey County as the **“Birthplace of the California Constitution.”**

BE IT FURTHER RESOLVED, that County of Monterey reaffirms its commitment to the preservation of historical sites, the recognition of the significant contributions of Monterey County’s diverse people, and the education of future generations on the shared values of freedom, cultural diversity, and democratic governance that define California today.

SUMMARY: (ADDED VIA SUPPLEMENTAL)
The Measure AA Ad Hoc Committee (Ad Hoc Committee) was established by the Board of

Supervisors (Board), following the passage of Measure AA, a 1% sales tax for general governmental purposes and consumption in unincorporated Monterey County, in November 2024. In January 2025, supervisors from Districts 2 and 3 were assigned to this committee. Staff have tracked the revenue collected through this sales tax, which was initially estimated by Hinderliter, de Llamas and Associates (HdL) at $29 million annually and became effective in April 2025. HdL's estimate was later reduced to $24 million. The revenue collected is $2,011,154 in April and May 2025. The Board is now asked to (1) consider recommendations from the Ad
Hoc Committee related to funding parameters for the sales tax revenue, and (2) provide direction to staff, as appropriate. In a future item, staff will request guidance for the establishment of a standing committee to review budgetary requests for Measure AA revenue and an advisory committee to audit the related expenditures.

DISCUSSION: (ADDED VIA SUPPLEMENTAL)
On March 12, 2024, the Board received the Financial Forecast, which assessed the County's fiscal condition for FY 2023-24 and three forecast years (FYs 2024-25 through 2026-27). The County Administrative Office (CAO) staff explained that revenue growth is not sufficient to keep up with the increased cost of doing business.

On March 28, 2024, the County Administrative Officer provided a memorandum with options to enhance the County's financial condition in FY 2024-25 and future fiscal years. On May 7, 2024, the Board directed staff to explore both the sales tax and Transient Occupancy Tax (TOT) to identify options, gather feedback from voters through polling, and bring back a timeline on how and when to move forward.

On May 29, 2024, the information obtained from polling the electorate was presented to the Board, which indicated the County's electorate favored both measures: 61% for a sales tax increase and 63% for a TOT increase. The top voter priorities identified as addressing homelessness and housing affordability, repairing roads, and maintaining critical infrastructure. A summary of the polling results is attached to this report as Exhibit A.

On June 20, 2024, the Board adopted Resolution No. 24-236 calling for an Election to submit to the qualified Electors of the County of Monterey a Measure to raise the Retail Transactions and Use Tax (Sales Tax) in the Unincorporated Area by One Percent. Ordinance No. 5423, adopted by the Board on August 27, 2024, added Chapter 5.38 of the Monterey County Code and noted the tax is for general governmental purposes and consumption in unincorporated Monterey County.
On September 24, 2024, the Board approved and adopted Resolution No. 24-337 supporting FY 2024-25 budget priorities for future discretionary funds made available to use in the unincorporated area of the County:

1) Road Repair and Infrastructure Projects - repair roads and bridges, fix potholes, and address failing public facilities and infrastructure that have exceeded their useful life.
2) Water and Sewer (Wastewater) Infrastructure Projects - make repairs to improve reliability, efficiency, quality, and service for reliable, sustainable, and safe water.
3) Parks Projects - restoring the recreational features and improving our County

parks and lake recreational facilities for enhancing resident and visitorship experience.

4) Essential and Mandated County services, programs, and improvements, including but not limited to strategies to address housing affordability, reduce homelessness, and provide healthcare services for children and vulnerable populations.
5) Emergency Management and Response Services, including disaster response, animal services, and emergency communications.

On November 5, 2024, voters approved Measure AA with 53.33% voting yes.

On January 7, 2025, the Board established an Ad Hoc Committee consisting of Board Members from Supervisorial Districts 2 and 3 to provide recommendations related to the general governmental use of Measure AA revenue in the unincorporated areas of Monterey County.

The CAO's FY 2025-26 Recommended Budget, released in May 2025, used Measure AA funds ($1,873,679) to support services in unincorporated areas of the County.

- Sheriff's patrol staffing ($749,892 for three positions);
- Housing and Community Development services ($936,287);
- Health Department food vendor compliance and animal services ($90,000); and,
- Public Works, Facilities, and Parks temporary staff ($97,500).

At the end of May 2025, during the Budget Hearings, the Board affirmed the services to be funded with Measure AA revenue and expanded the use further ($2,450,117) when the Budget was adopted in June 2025.

- Offsetting a reduction in contribution level from TOT to the Road Fund ($1,673,966);
- Sheriff's three vacant positions restored ($568,528);
- Health Department animal services spay and neuter clinic ($26,780); and
- Hitchcock Road Animal Services county's share of salary and benefits for positions supporting ($180,842).

The total Measure AA revenue used for the FY 2025-26 Adopted Budget were $4,323,796.

The Board is asked to affirm $1,450,000 million for the AXON cameras requested by the Sheriff's Office, $50,000 for the Regenerative California's blue economy and fisheries initiatives, and $50,000 for the Reservoir's AgTech initiatives, in the unincorporated areas of the County.

For further use of Measure AA, the Ad Hoc Committee was asked to bring forward recommendations for the Board's consideration. The Board is asked to review and provide feedback on the proposed funding parameters.

OTHER AGENCY INVOLVEMENT: (ADDED VIA SUPPLEMENTAL)
The County Administrative Office coordinated with the Office of County Counsel on the development of this report. The Ad Hoc Committee provided the proposed recommendations.

FINANCING: (ADDED VIA SUPPLEMENTAL)
There is no impact to the General Fund associated with the recommended actions. HdL

estimates that the 1% sales tax could generate approximately $24,000,000 for FY 2025-26. This estimate and recognized revenues can vary annually.

In adopting the provisions of Part 1 of Division 2 of the Revenue and Taxation Code:

A. Wherever the State of California is named or referred to as the taxing agency, the name of this County shall be substituted therefor. However, the substitution shall not be made when:

1. The word "State" is used as a part of the title of the State Controller, State Treasurer, State Treasury, or the Constitution of the State of California;

2. The result of that substitution would require action to be taken by or against the County or any agency, officer, or employee thereof rather than by or against the California Department of Tax and Fee Administration, in performing the functions incident to the administration or operation of this Chapter;

3. In those sections, including but not necessarily limited to sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to:

a. Provide an exemption from this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not otherwise be exempt from this tax while such sales, storage, use or other consumption remain subject to tax by the State under the provisions of Part 1 of Division 2 of the Revenue and Taxation Code; or

b. Impose this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not be subject to tax by the State under the said provision of that code.

B. The word "County" shall be substituted for the word "State" in the phrase "retailer engaged in business in this State" in Section 6203 and in the definition of that phrase in Section 6203.

1. "A retailer engaged in business in the County" shall also include any retailer that, in the preceding calendar year or the current calendar year, has total combined sales of tangible personal property in California or for delivery in California by the retailer and all persons related to the retailer that exceeds five hundred thousand dollars ($500,000). For purposes of this Section, a person is related to another person if both persons are related to each other pursuant to Section 267(b) of Title 26 of the United States Code and the regulations thereunder.

5.38.110 Exemptions and exclusions.

A. There shall be excluded from the measure of the transactions tax and the use tax the amount of any sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law or the amount of any State-administered transactions or use tax.

b. With respect to commercial vehicles, by registration to a place of business out-of-County and declaration under penalty of perjury, signed by the buyer, that the vehicle will be operated from that address.

3. If the purchaser is obligated to purchase the property for a fixed price pursuant to a contract entered into prior to the operative date of the ordinance codified in this Chapter.

4. If the possession of, or the exercise of any right or power over, the tangible personal property arises under a lease which is a continuing purchase of such property for any period of time for which the lessee is obligated to lease the property for an amount fixed by a lease prior to the operative date of the ordinance codified in this Chapter.

5. For the purposes of subsections (C)(3) and (4) of this Section, storage, use, or other consumption, or possession of, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

E. Any person subject to use tax under this Chapter may credit against that tax any transactions tax or reimbursement for transactions tax paid to a district or retailer in a district imposing a transactions tax pursuant to Part 1.6 of Division 2 of the Revenue and Taxation Code

with respect to the sale to that person of the property, the storage, use or other consumption of which is subject to the use tax.

5.38.120 Amendments.

All amendments subsequent to the effective date of the ordinance codified in this Chapter to Part 1 of Division 2 of the Revenue and Taxation Code relating to sales and use taxes and which are not inconsistent with Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, and all amendments to Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, shall automatically become a part of this chapter; provided however, that no such amendment shall operate so as to affect the rate of tax imposed by this Chapter.

5.38.130 Enjoining collection forbidden.

No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against the State or the County, or against any officer of the State or the County, to prevent or enjoin the collection under this chapter, or Part 1.6 of Division 2 of the Revenue and Taxation Code, of any tax or any amount of tax required to be collected.

5.38.140 Severability.

If any provision of this Chapter or the application thereof to any person or circumstance is held invalid, the remainder of this chapter and the application of such provision to other persons or circumstances shall not be affected thereby.

SECTION 3. EFFECTIVE DATE. This ordinance relates to the levying and collecting of the County of Monterey's transactions and use taxes and shall take effect if approved by a majority of the voters voting on the tax at the November 5, 2024 general election.

An excise tax is hereby imposed on the storage, use or other consumption in the County of tangible personal property purchased from any retailer on and after the operative date of the

ordinance codified in this Chapter for storage, use or other consumption in said territory at the rate of one percent (1%) of the sales price of the property. The sales price shall include delivery charges when such charges are subject to State sales or use tax regardless of the place to which delivery is made.

5.38.080 Adoption of provisions of State law.

Except as otherwise provided in this Chapter and except insofar as they are inconsistent with the provisions of Part 1.6 of Division 2 of the Revenue and Taxation Code, all of the provisions of Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code are hereby adopted and made a part of this Chapter as though fully set forth herein.

5.38.090 Limitations on adoption of State law and collection of use taxes.

In adopting the provisions of Part 1 of Division 2 of the Revenue and Taxation Code:

A. Wherever the State of California is named or referred to as the taxing agency, the name of this County shall be substituted therefor. However, the substitution shall not be made when:

1. The word "State" is used as a part of the title of the State Controller, State Treasurer, State Treasury, or the Constitution of the State of California;

2. The result of that substitution would require action to be taken by or against the County or any agency, officer, or employee thereof rather than by or against the California Department of Tax and Fee Administration, in performing the functions incident to the administration or operation of this Chapter;

3. In those sections, including but not necessarily limited to sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to:

a. Provide an exemption from this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not otherwise be exempt from this tax while such sales, storage, use or other consumption remain subject to tax by the State under the provisions of Part 1 of Division 2 of the Revenue and Taxation Code; or

b. Impose this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not be subject to tax by the State under the said provision of that code.

4. In Sections 6701, 6702 (except in the last sentence thereof), 6711, 6715, 6737, 6797 or 6828 of the Revenue and Taxation Code.

B. The word "County" shall be substituted for the word "State" in the phrase "retailer engaged in business in this State" in Section 6203 and in the definition of that phrase in Section 6203.

1. "A retailer engaged in business in the County" shall also include any retailer that, in the preceding calendar year or the current calendar year, has total combined sales of tangible personal property in California or for delivery in California by the retailer and all persons related to the retailer that exceeds five hundred thousand dollars ($500,000). For purposes of this Section, a person is related to another person if both persons are related to each other pursuant to Section 267(b) of Title 26 of the United States Code and the regulations thereunder.

5.38.100 Permit not required.

If a seller's permit has been issued to a retailer under Section 6067 of the Revenue and Taxation Code, an additional transactor's permit shall not be required by this Chapter.

5.38.110 Exemptions and exclusions.

A. There shall be excluded from the measure of the transactions tax and the use tax the amount of any sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law or the amount of any State-administered transactions or use tax.

B. There are exempted from the computation of the amount of transactions tax the gross receipts from:

1. Sales of tangible personal property, other than fuel or petroleum products, to operators of aircraft to be used or consumed principally outside the county in which the sale is made and directly and exclusively in the use of such aircraft as common carriers of persons or property under the authority of the laws of this State, the United States, or any foreign government.

2. Sales of property to be used outside the County which is shipped to a point outside the County, pursuant to the contract of sale, by delivery to such point by the retailer or his or her agent, or by delivery by the retailer to a carrier for shipment to a consignee at such point. For the purposes of this subsection, delivery to a point outside the County shall be satisfied:

a. With respect to vehicles (other than commercial vehicles) subject to registration pursuant to Chapter 1 (commencing with Section 4000) of Division 3 of the Vehicle Code, aircraft licensed in compliance with Section 21411 of the Public Utilities Code, and undocumented vessels registered under Division 3.5 (commencing with Section 9840) of the Vehicle Code by registration to an out-of-County address and by a declaration under penalty of perjury, signed by the buyer, stating that such address is, in fact, his or her principal place of residence; and

b. With respect to commercial vehicles, by registration to a place of business out-of-County and declaration under penalty of perjury, signed by the buyer, that the vehicle will be operated from that address.

3. The sale of tangible personal property if the seller is obligated to furnish the property for a fixed price pursuant to a contract entered into prior to the operative date of the ordinance codified in this Chapter.

4. A lease of tangible personal property which is a continuing sale of such property, for any period of time for which the lessor is obligated to lease the property for an amount fixed by the lease prior to the operative date of the ordinance codified in this Chapter.

5. For the purposes of subsections (B)(3) and (4) of this Section, the sale or lease of tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

C. There are exempted from the use tax imposed by this Chapter the storage, use or other consumption in this County of tangible personal property:

1. The gross receipts from the sale of which have been subject to a transactions tax under any State-administered transactions and use tax ordinance.

2. Other than fuel or petroleum products purchased by operators of aircraft and used or consumed by such operators directly and exclusively in the use of such aircraft as common carriers of persons or property for hire or compensation under a certificate of public convenience and necessity issued pursuant to the laws of this State, the United States, or any foreign government. This exemption is in addition to the exemptions provided in Sections 6366 and 6366.1 of the Revenue and Taxation Code of the State of California.

3. If the purchaser is obligated to purchase the property for a fixed price pursuant to a contract entered into prior to the operative date of the ordinance codified in this Chapter.

4. If the possession of, or the exercise of any right or power over, the tangible personal property arises under a lease which is a continuing purchase of such property for any period of time for which the lessee is obligated to lease the property for an amount fixed by a lease prior to the operative date of the ordinance codified in this Chapter.

5. For the purposes of subsections (C)(3) and (4) of this Section, storage, use, or other consumption, or possession of, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

D. Collection of use tax.

1. Except as provided in subsection (D)(2) of this Section, a retailer engaged in business in the County shall not be required to collect use tax from the purchaser of tangible personal property, unless the retailer ships or delivers the property into the County or participates within the County in making the sale of the property, including but not

limited to, soliciting or receiving the order, either directly or indirectly, at a place of business of the retailer in the County or through any representative, agent, canvasser, solicitor, subsidiary, or person in the County under the authority of the retailer.

2. "A retailer engaged in business in the County" shall also include any retailer of any of the following: vehicles subject to registration pursuant to Chapter 1 (commencing with Section 4000) of Division 3 of the Vehicle Code, aircraft licensed in compliance with Section 21411 of the Public Utilities Code, or undocumented vessels registered under Division 3.5 (commencing with Section 9840) of the Vehicle Code. That retailer shall be required to collect use tax from any purchaser who registers or licenses the vehicle, vessel, or aircraft at an address in the County.

E. Any person subject to use tax under this Chapter may credit against that tax any transactions tax or reimbursement for transactions tax paid to a district or retailer in a district imposing a transactions tax pursuant to Part 1.6 of Division 2 of the Revenue and Taxation Code with respect to the sale to that person of the property, the storage, use or other consumption of which is subject to the use tax.

5.38.120 Amendments.

All amendments subsequent to the effective date of the ordinance codified in this Chapter to Part 1 of Division 2 of the Revenue and Taxation Code relating to sales and use taxes and which are not inconsistent with Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, and all amendments to Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, shall automatically become a part of this chapter; provided however, that no such amendment shall operate so as to affect the rate of tax imposed by this Chapter.

5.38.130 Enjoining collection forbidden.

No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against the State or the County, or against any officer of the State or the County, to prevent or enjoin the collection under this chapter, or Part 1.6 of Division 2 of the Revenue and Taxation Code, of any tax or any amount of tax required to be collected.

5.38.140 Severability.

If any provision of this Chapter or the application thereof to any person or circumstance is held invalid, the remainder of this chapter and the application of such provision to other persons or circumstances shall not be affected thereby.

SECTION 3. EFFECTIVE DATE. This ordinance relates to the levying and collecting of the County's transactions and use taxes and shall take effect if approved by a majority of the voters voting on the tax at the November 5, 2024 election.

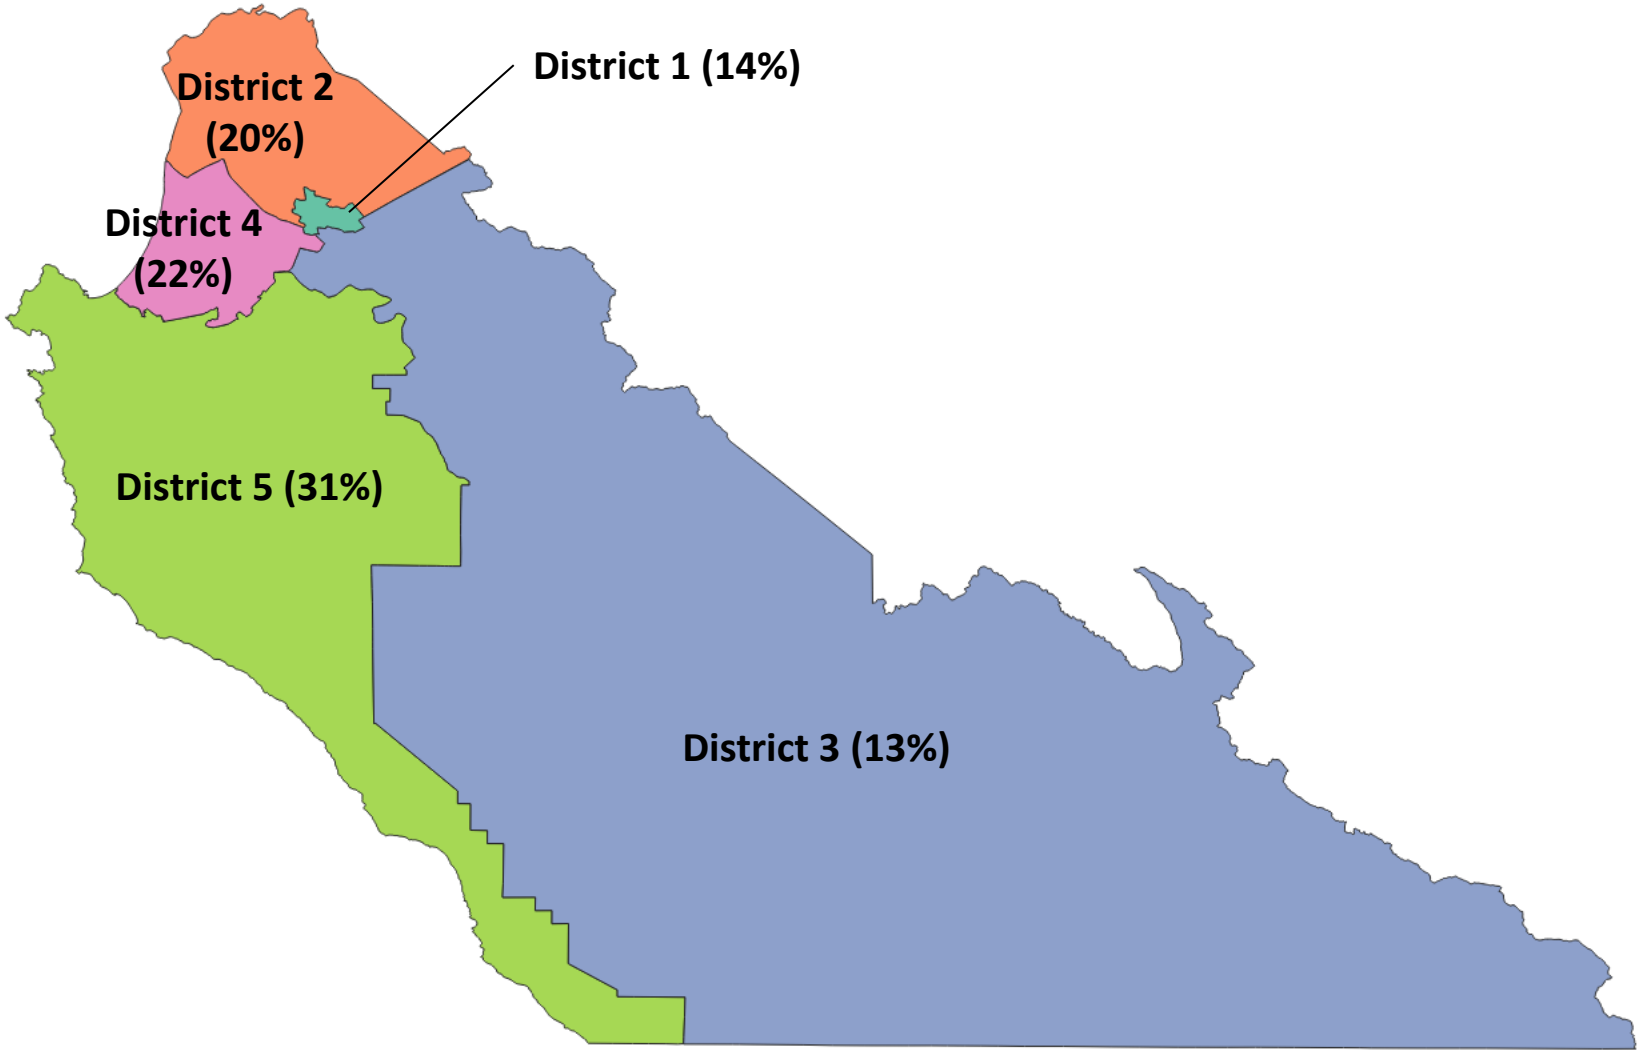
Monterey County Supervisorial Districts



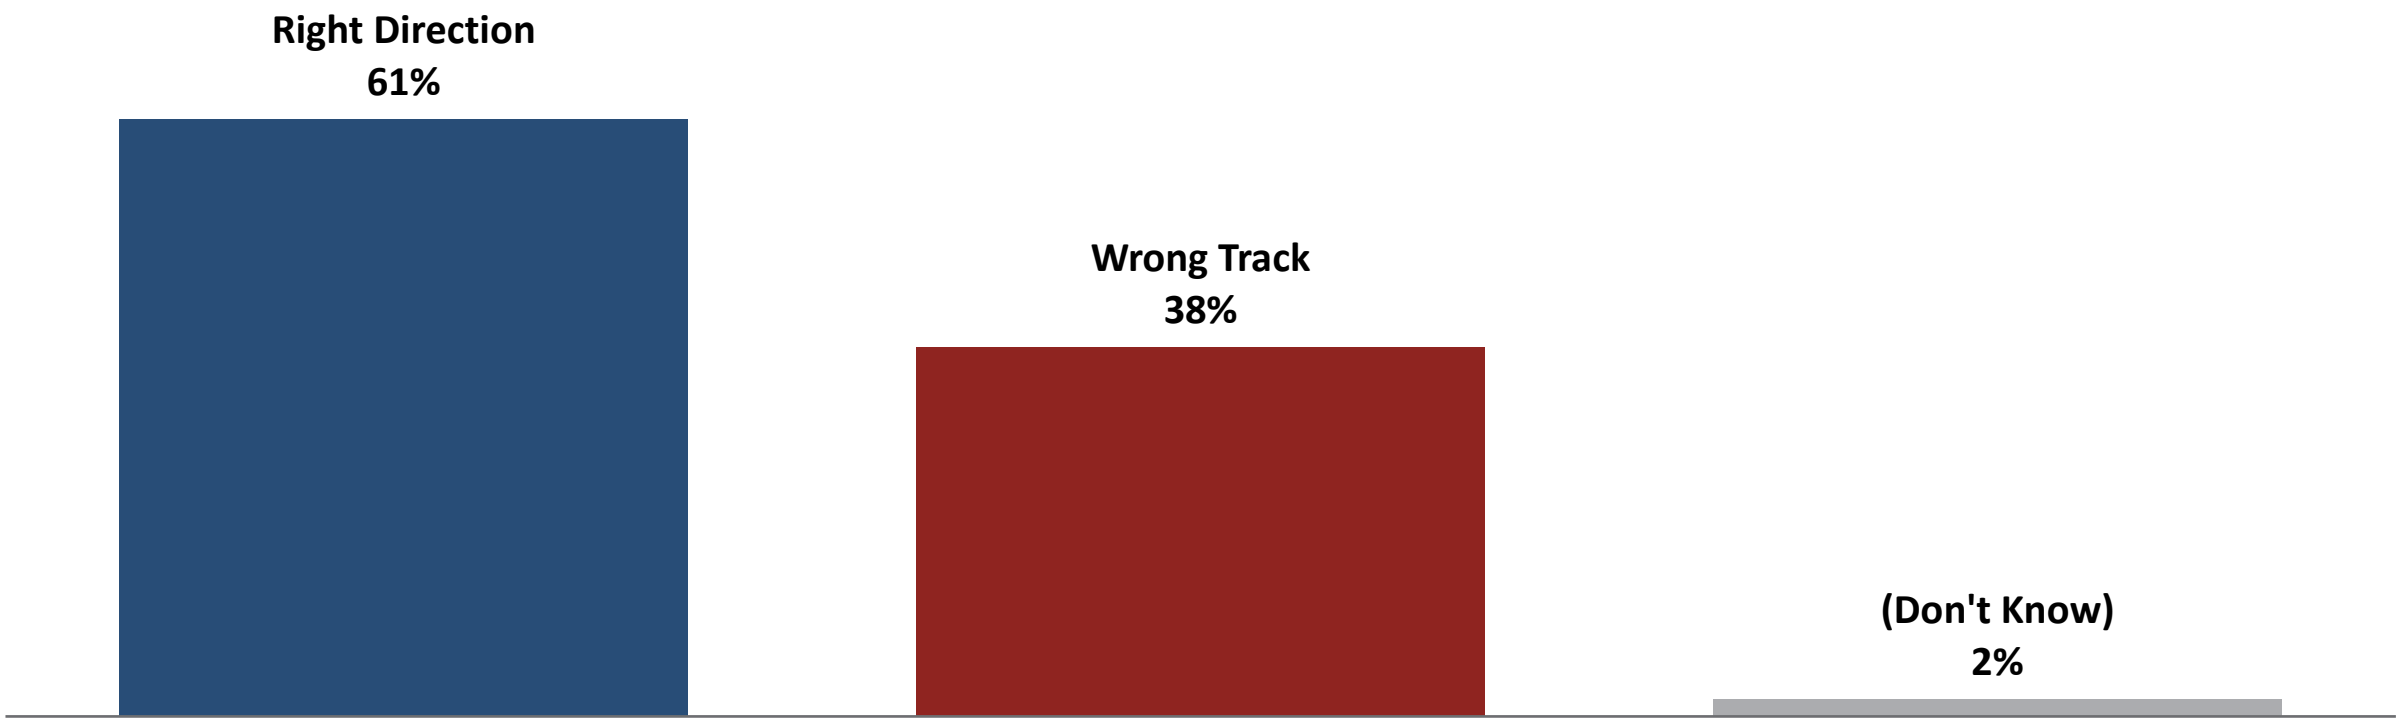
Key Findings

- Currently, both a sales tax measure and a transient occupancy tax increase (TOT) are supported by about six in ten voters in the county, comfortably above the required majority threshold for passage.
- Additional information about what additional revenues could fund, and who would be paying, generates much more positive impact for a TOT than for a sales tax.
- Housing affordability and homelessness are the highest-profile issues for county voters, and they are highly aware of the county's need for funding to address these and other issues.
  - They are also interested in maintaining water and sewer infrastructure, street maintenance and pothole repair, healthcare, and public safety/emergency services.
- While voters are interested in the county programs and services a measure could fund, there is also a fair amount of general sensitivity to taxes and an interest in making sure the county is held accountable for tax dollars.
- Both measures show some vulnerability to general anti-tax opposition messaging, although the ability present the TOT as being paid by tourists and not by residents is a very strong differentiator and likely makes it more resilient in the face of potential opposition.

Issue Environment

Right Direction/Wrong Track

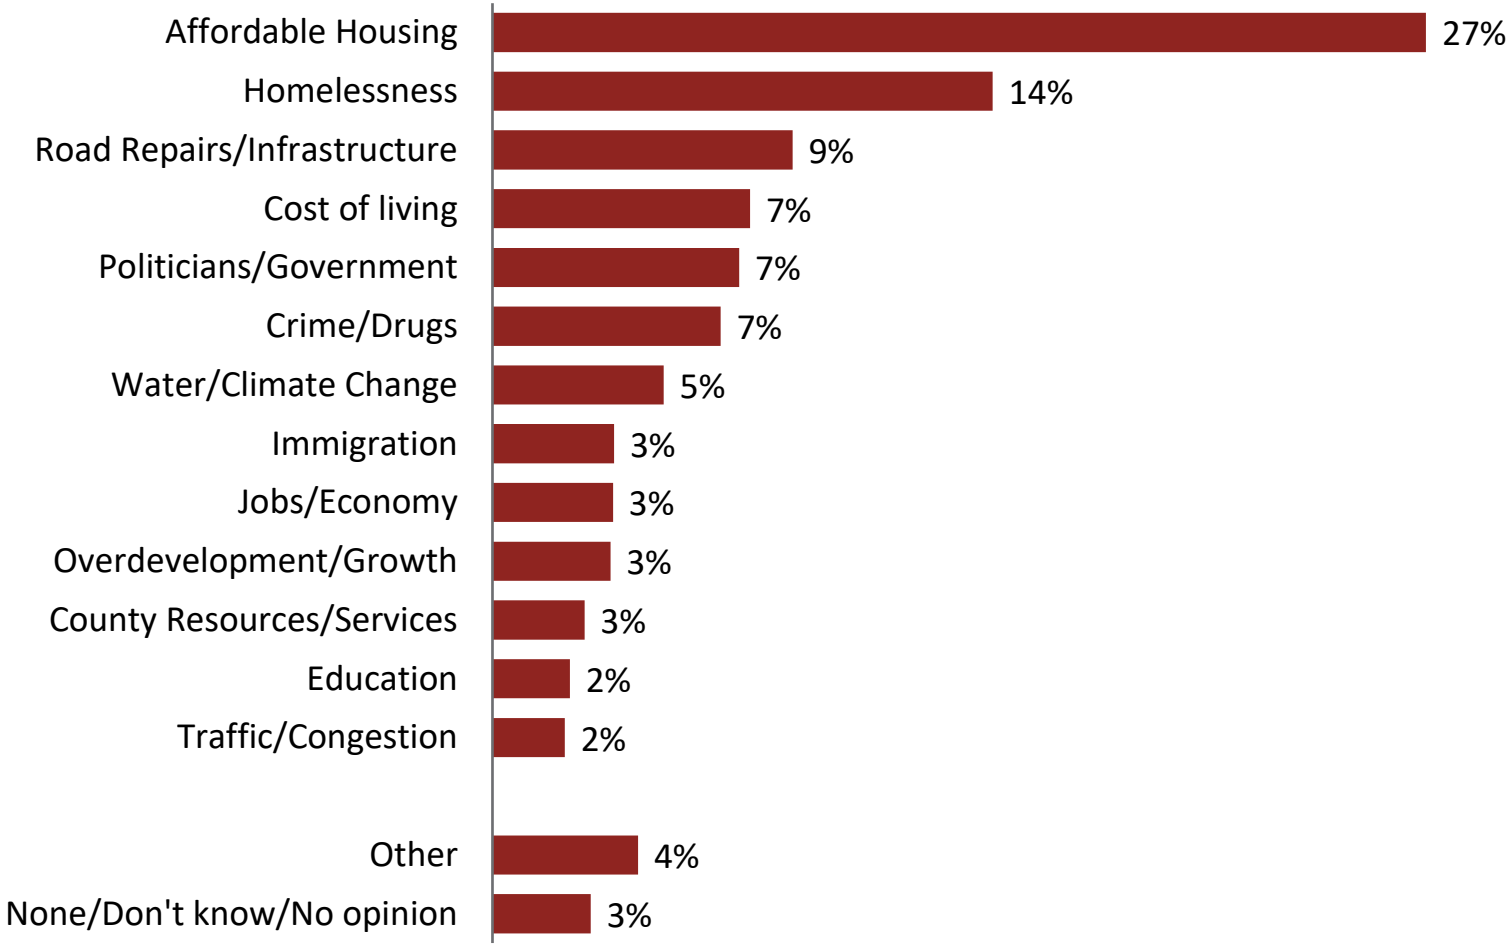
Six in ten voters say things in the county are headed in the right direction.



Q2. Do you think that things in Monterey County are generally going in the right direction or do you feel things have gotten pretty seriously off on the wrong track?

Most Important Problem

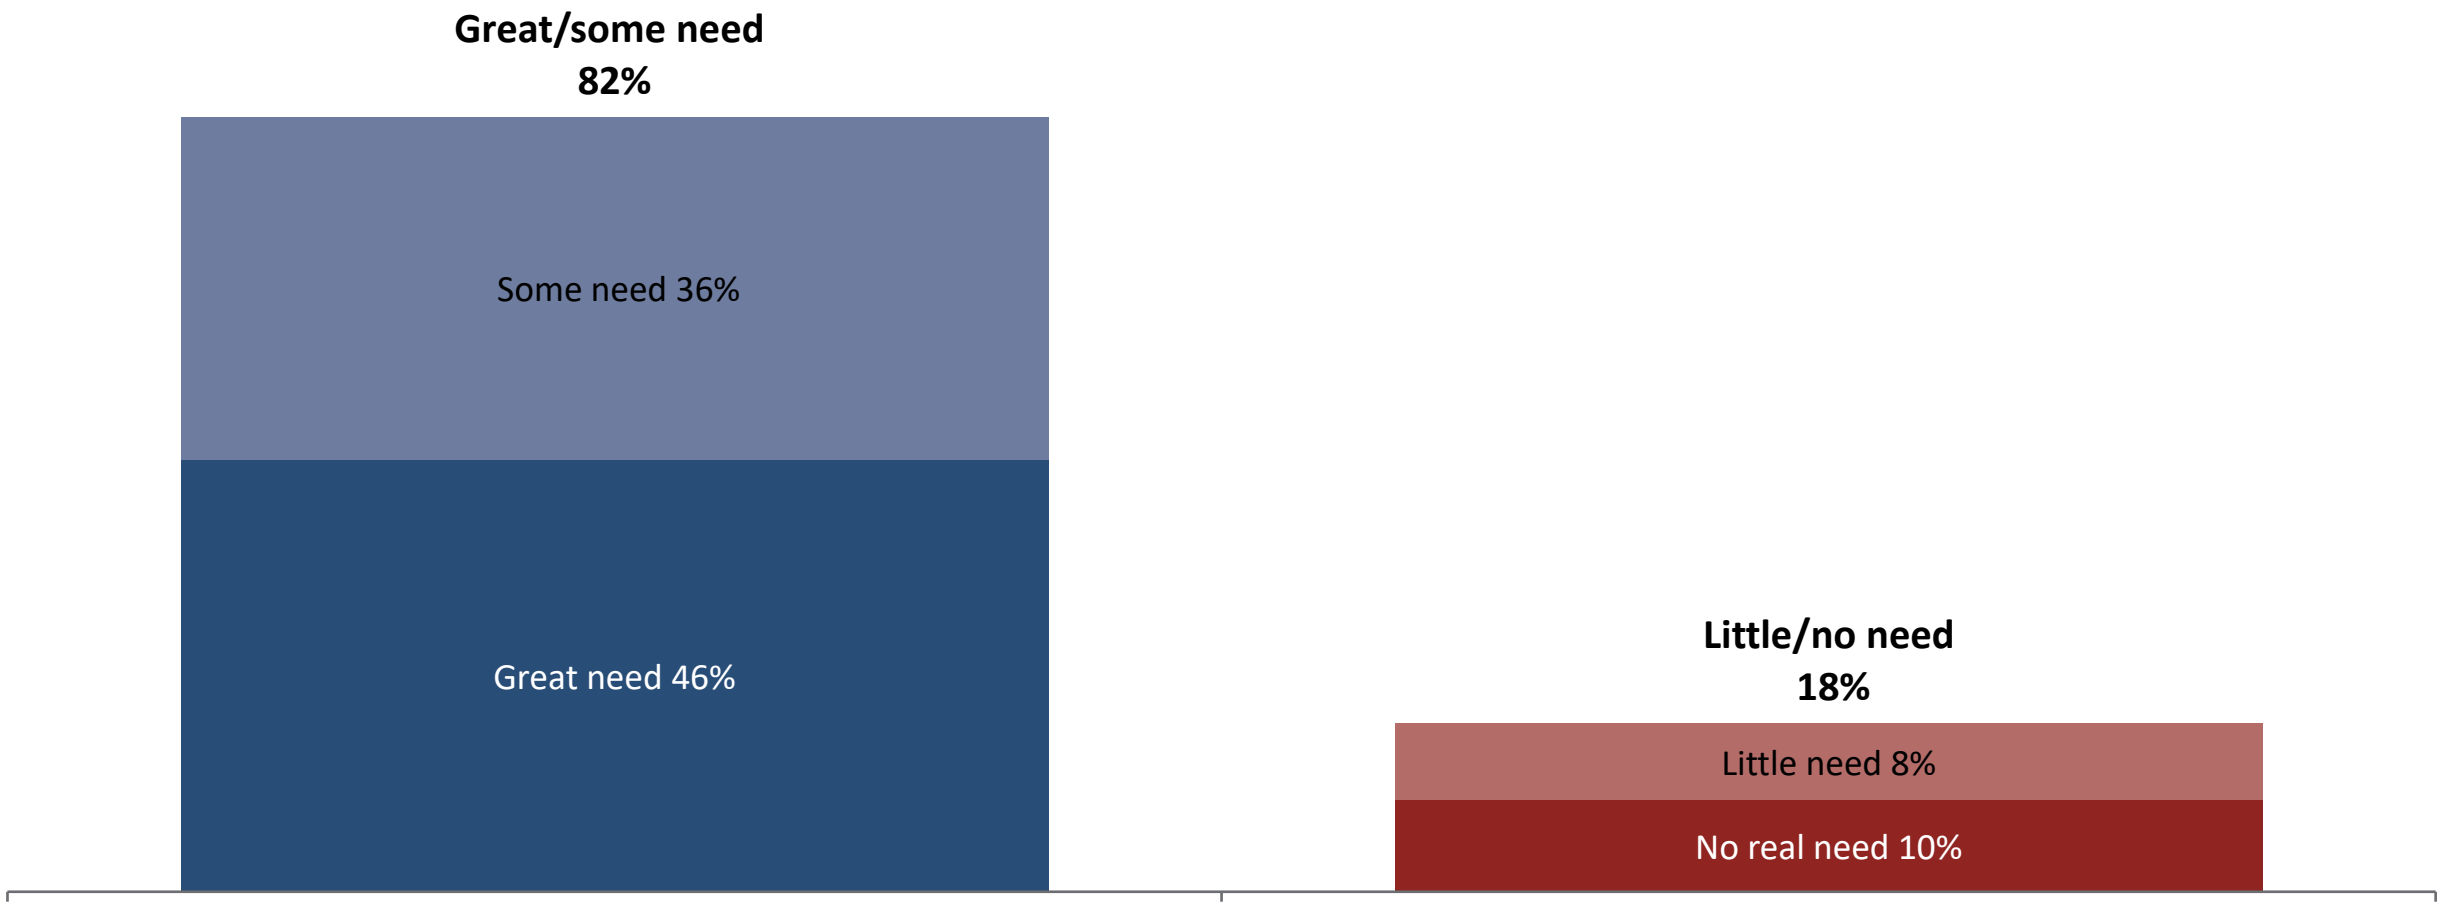
Housing affordability and homelessness are the top issues for many Monterey County voters.



Q3. What do you think is the most important problem facing the County of Monterey today? (Multiple responses accepted)

Need for Funds for County Services

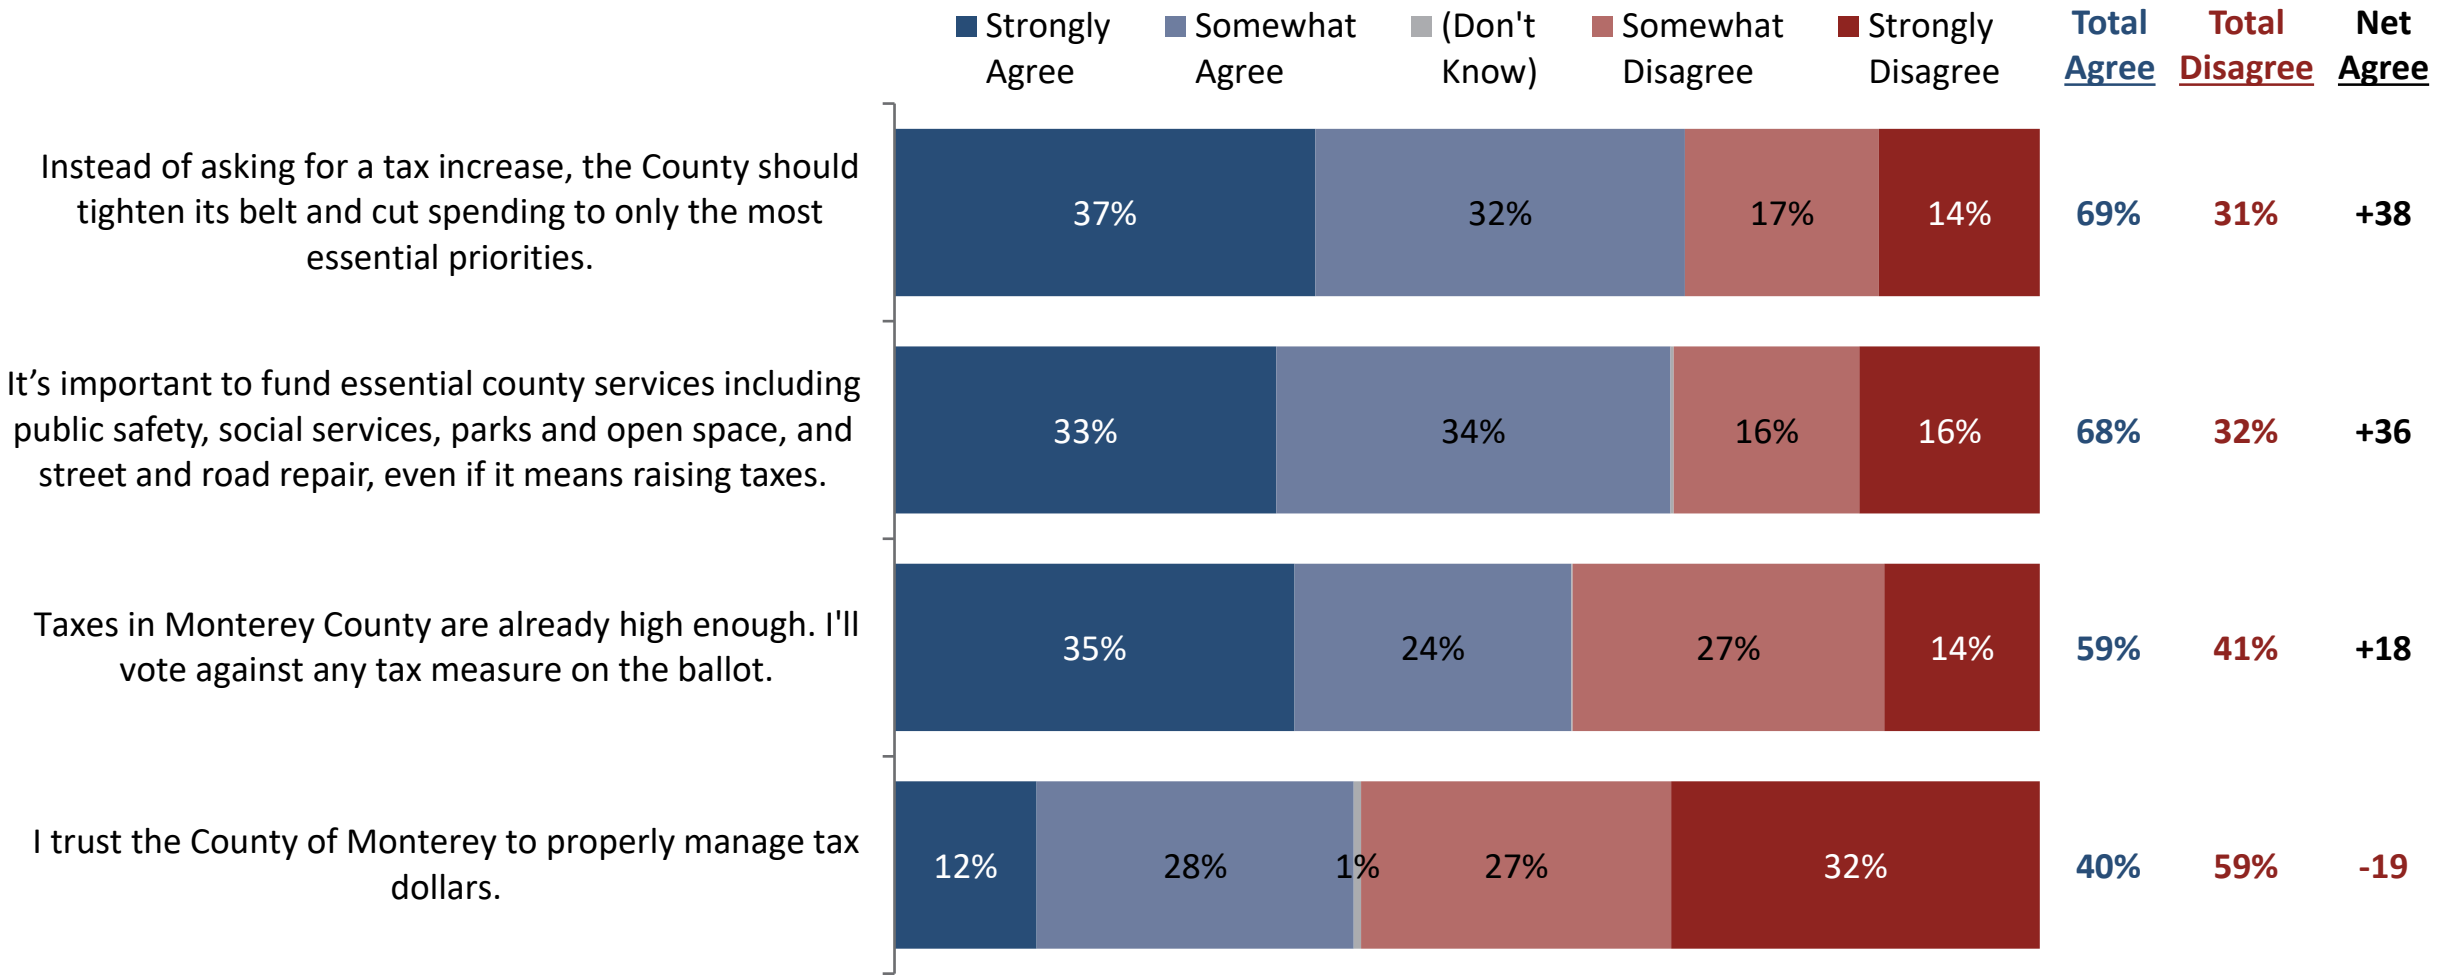
A strong majority feel the county has a need for more money for county services, including nearly half of voters who say the county has a great need.



Q4. Would you say that the County of Monterey has [a great need, some need, little need, or no real need for more money] for county services including public safety, social services, parks and open space, and street and road repair?

Tax Sensitivity and Trust

While most voters would like to see the county cut spending to only essentials and are generally opposed to taxes, six in ten feel funding essential services could be worth a tax increase.



Q21-24. Please tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each of the following statements.

Revenue Measure Feasibility

Initial Vote: Revenue Measure

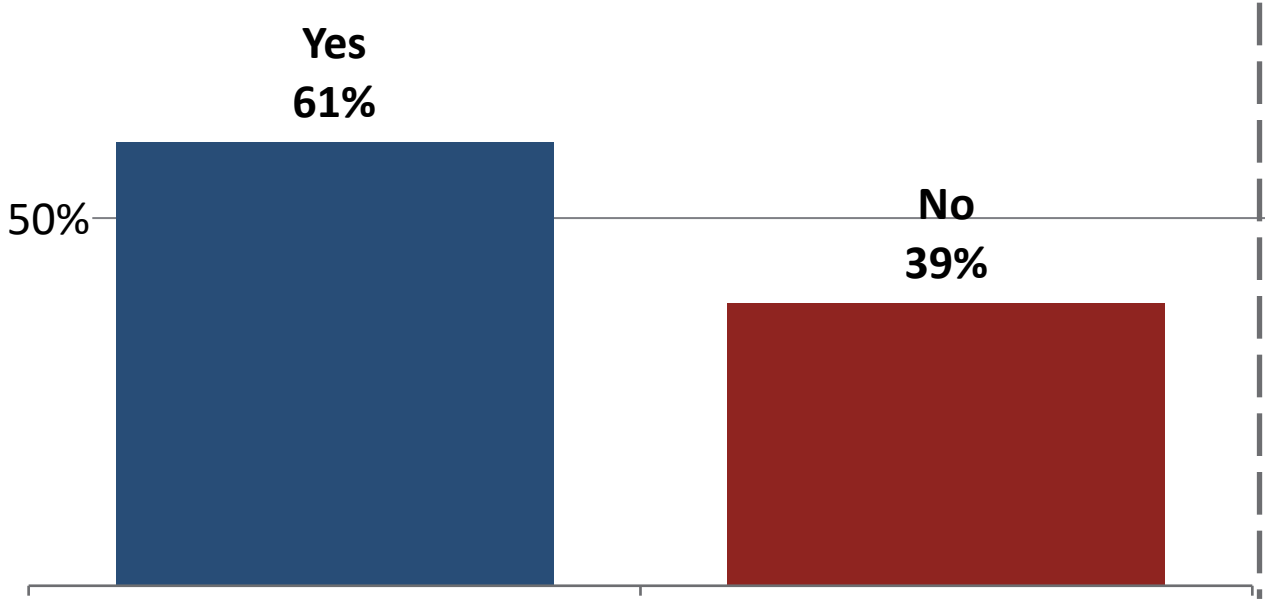
Both revenue measures under consideration are supported by a majority of Monterey County voters in independent asks.

To fund essential County of Monterey services, including improved public safety and emergency services; traffic enforcement and road safety programs; street maintenance and pothole repair; libraries, county parks, and recreation facilities; water and sewer infrastructure maintenance; public health and healthcare; job skill development programs; and programs to reduce homelessness,…

300n, MoE ±5.7%

Split A: Sales Tax

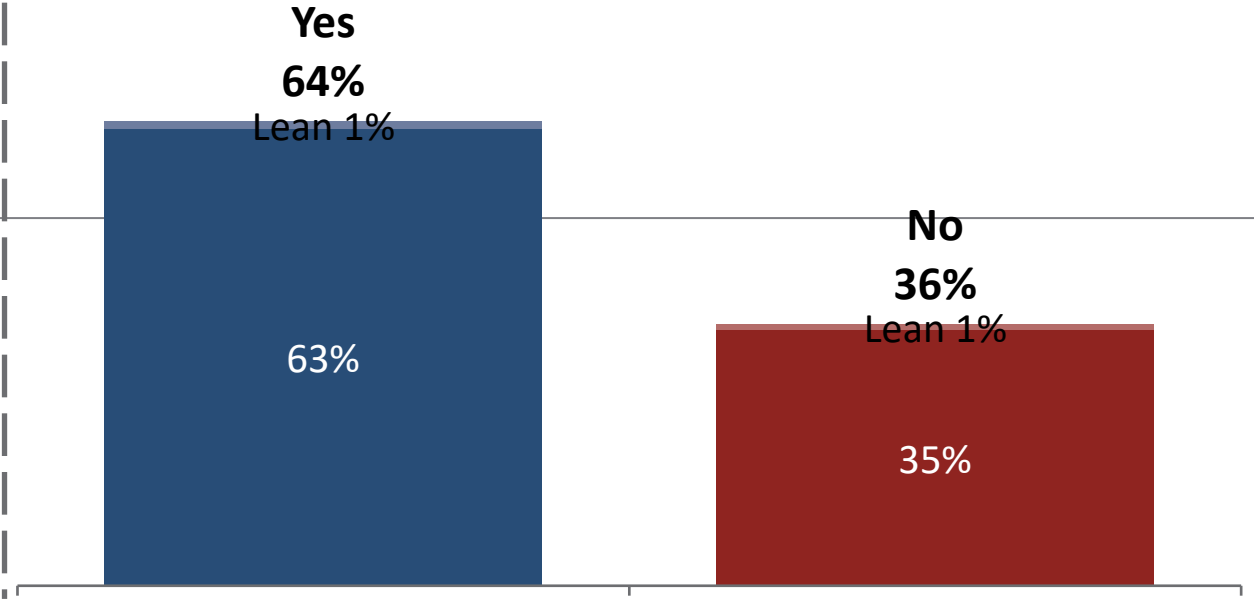
…shall the County of Monterey's **transaction and use tax be increased** in unincorporated areas by one percent, providing approximately **$29,000,000 annually**, with all funds spent locally, until ended by voters?



300n, MoE ±5.7%

Split B: Transient Occupancy Tax

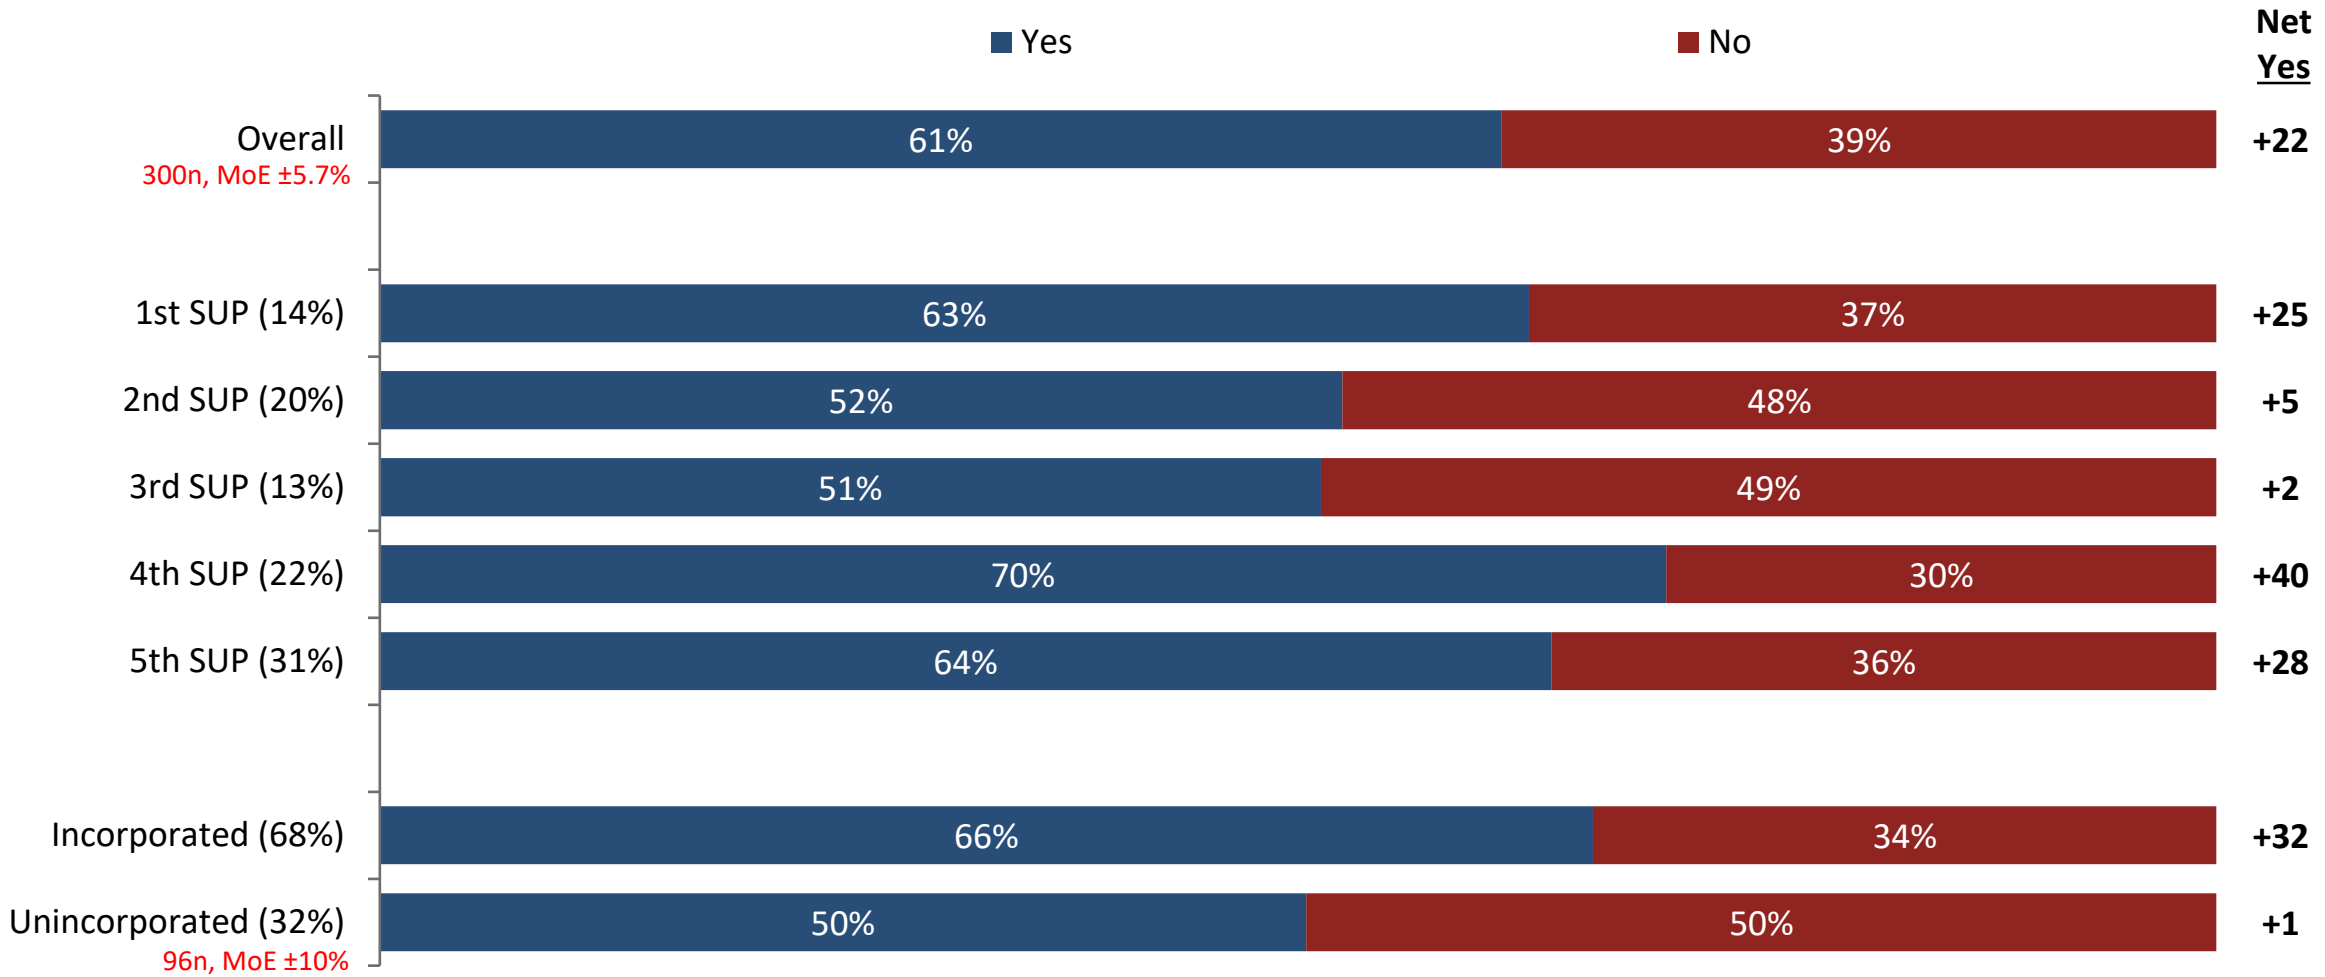
…shall the County of Monterey **increase its existing Transient Occupancy Tax** in unincorporated areas from 10.5% to 11.5%, paid only by hotel/lodging guests, providing approximately **$3,700,000 annually**, until ended by voters?



Q5/6. If the election were held today, would you vote yes to approve or no to reject this measure?

Initial Vote by Subgroups (Split A: Sales Tax)

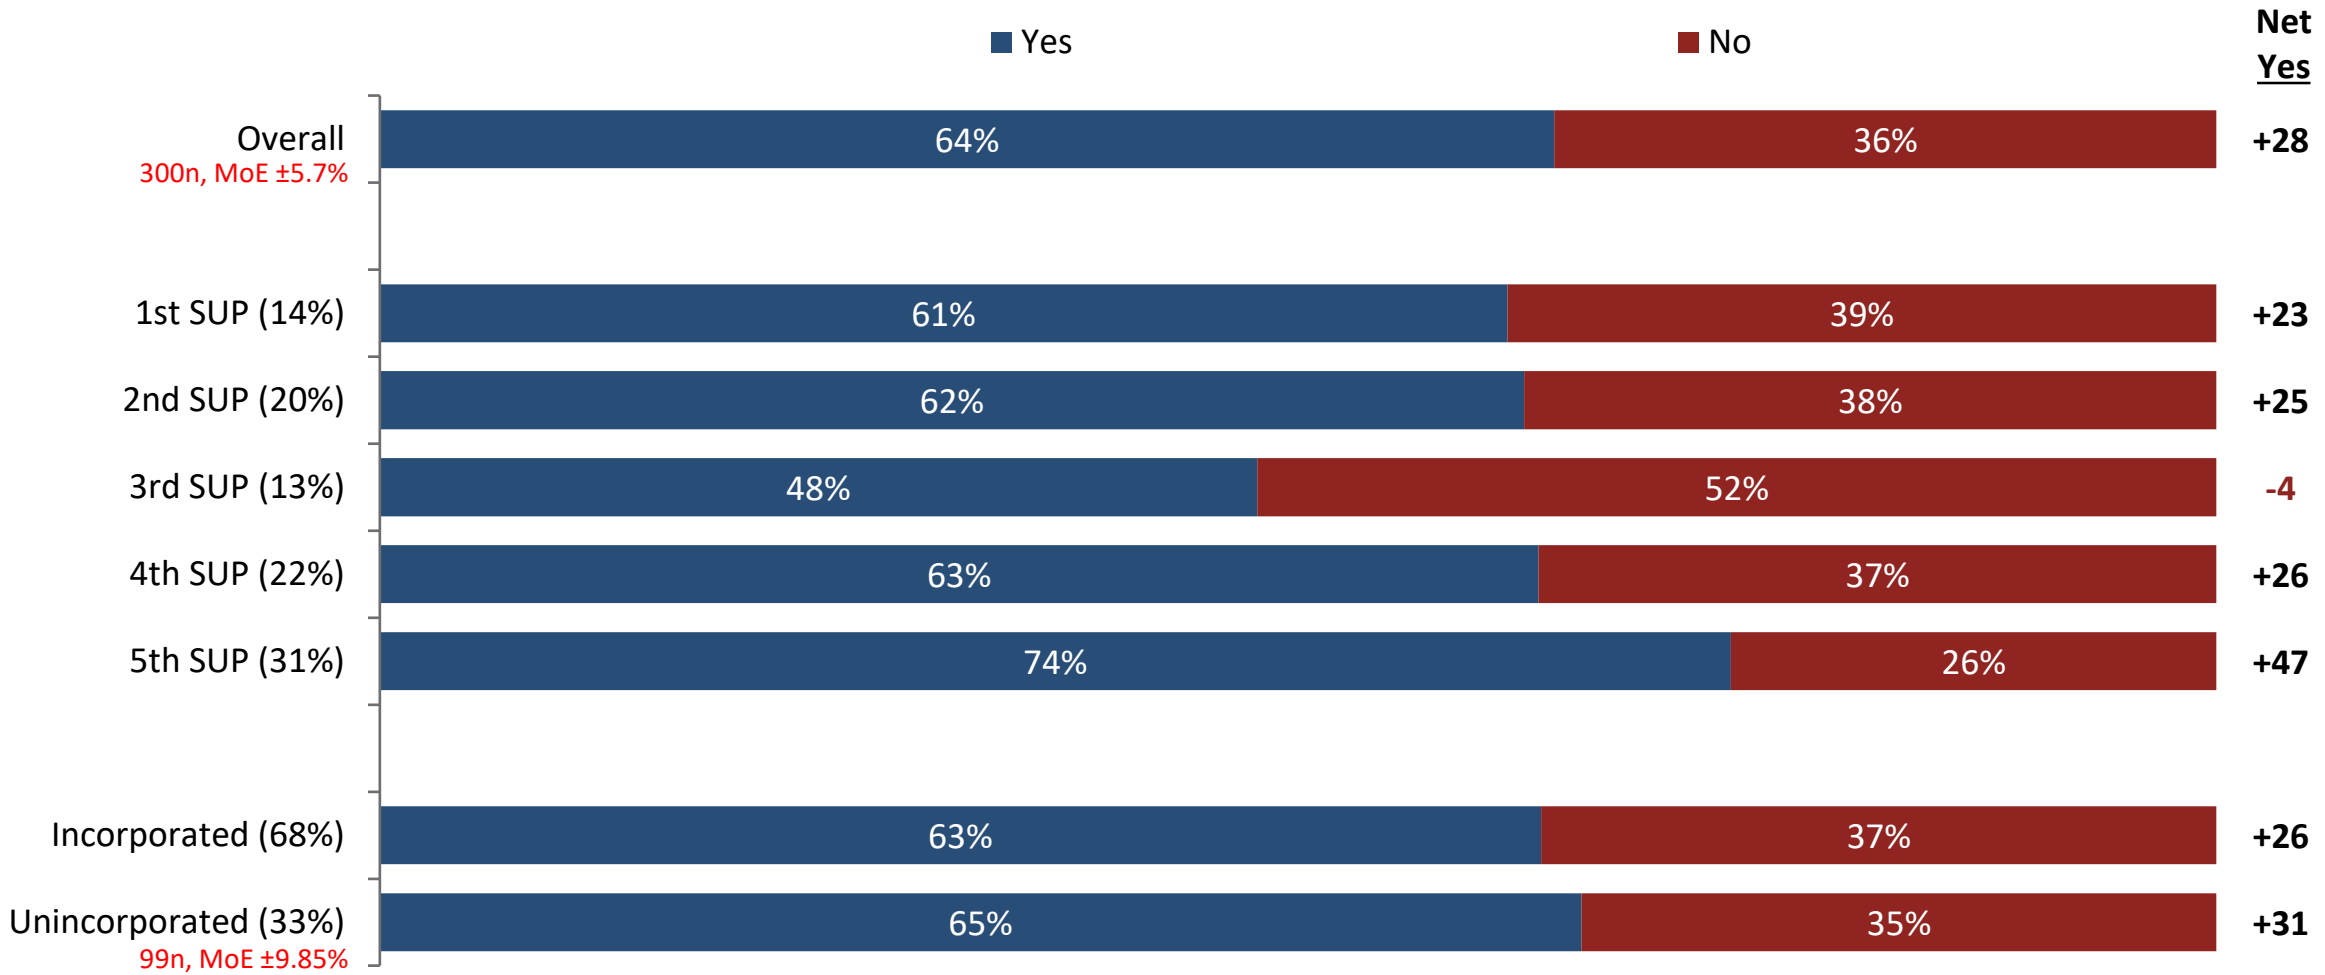
Support for a sales tax measure is stronger in Supervisorial Districts 1, 4, and 5, as well as the incorporated parts of the county.



Q5. If the election were held today, would you vote yes to approve or no to reject this measure?

Initial Vote by Subgroups (Split B: TOT)

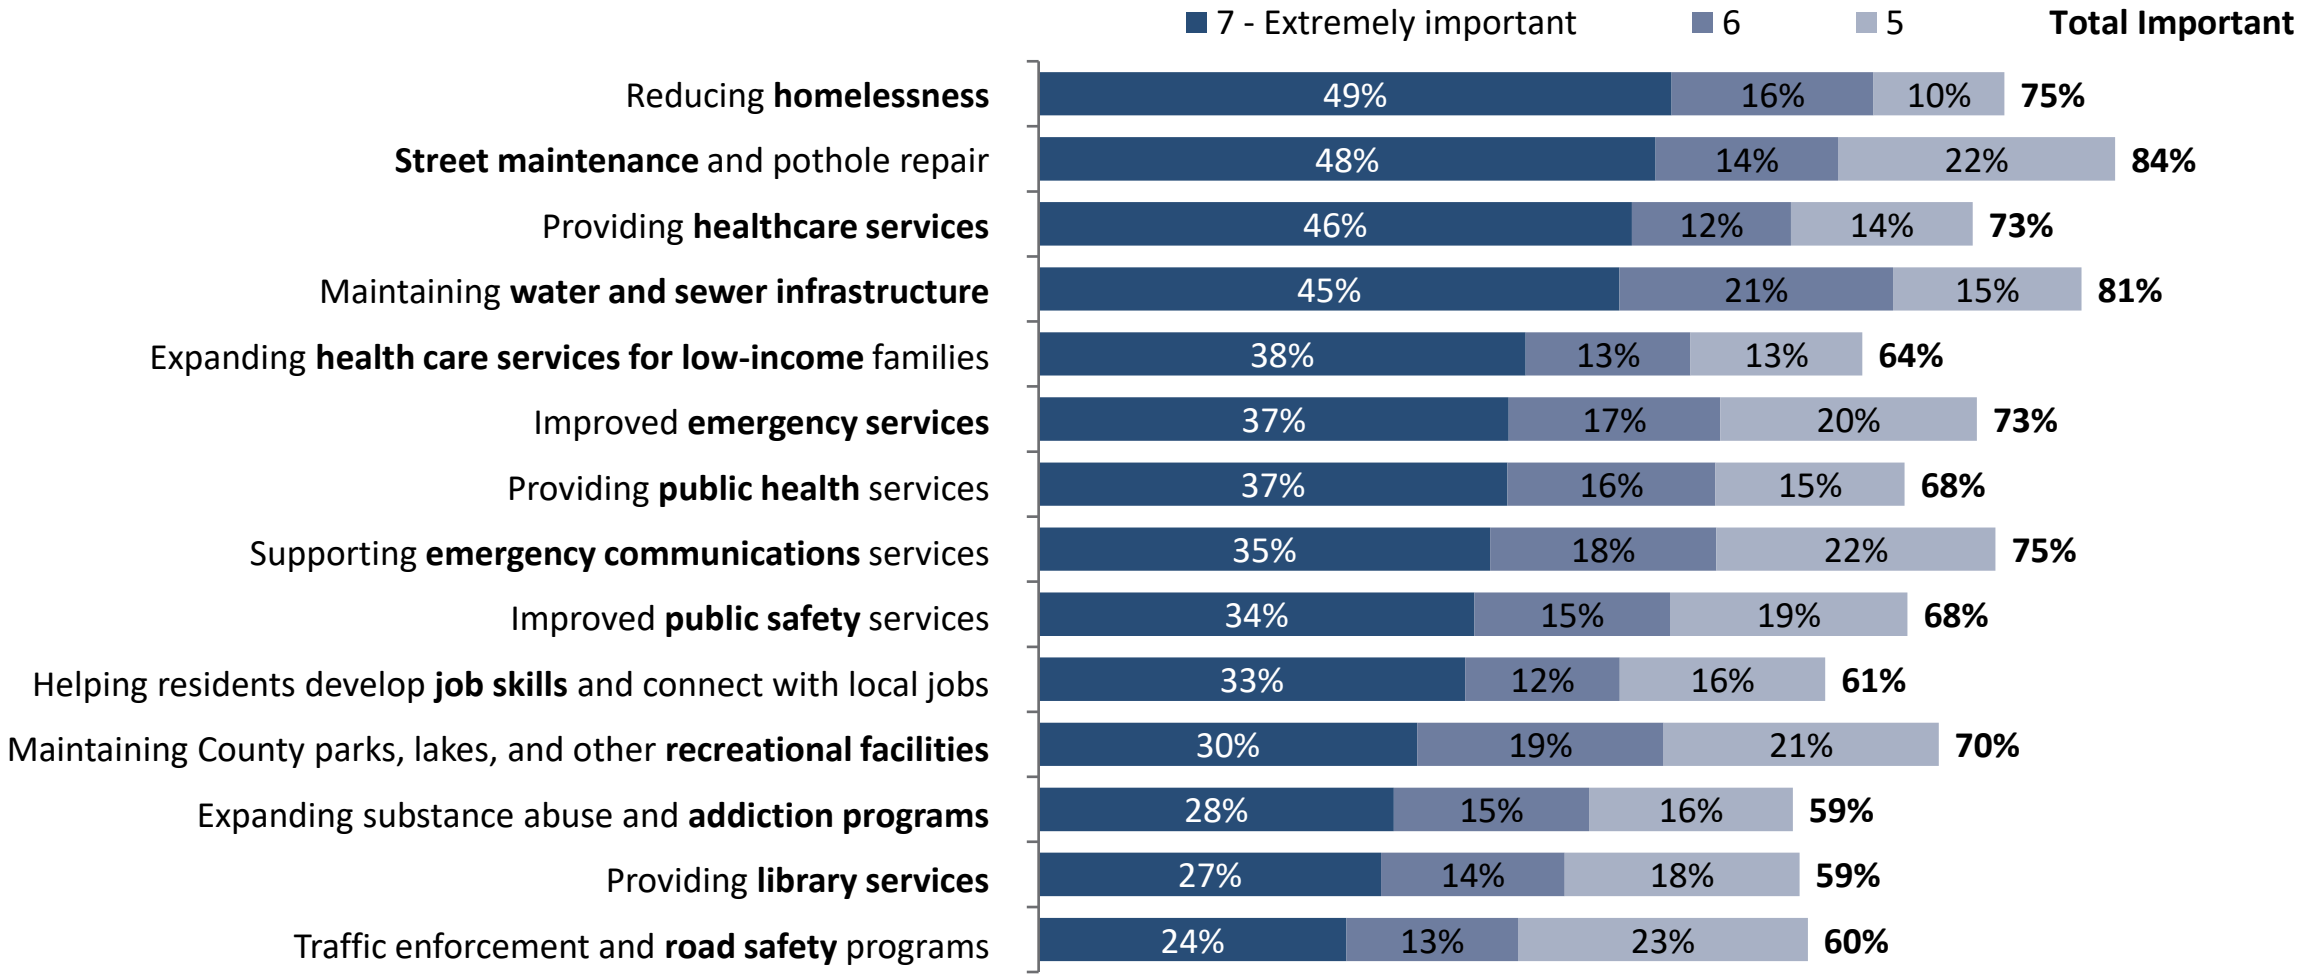
Support for the transient occupancy tax increase is higher in the 5th Supervisorial District, and under the majority mark in District 3.



Q6. If the election were held today, would you vote yes to approve or no to reject this measure?

Project Importance

While a majority of voters say all categories are important, homelessness reduction, infrastructure maintenance, and healthcare services are the most important priorities for county voters.



Q7-20. Now you will be asked about a list of projects and programs that this ballot measure could support. After each one, please rate how important that project is to you.

Simulating the Communications Environment

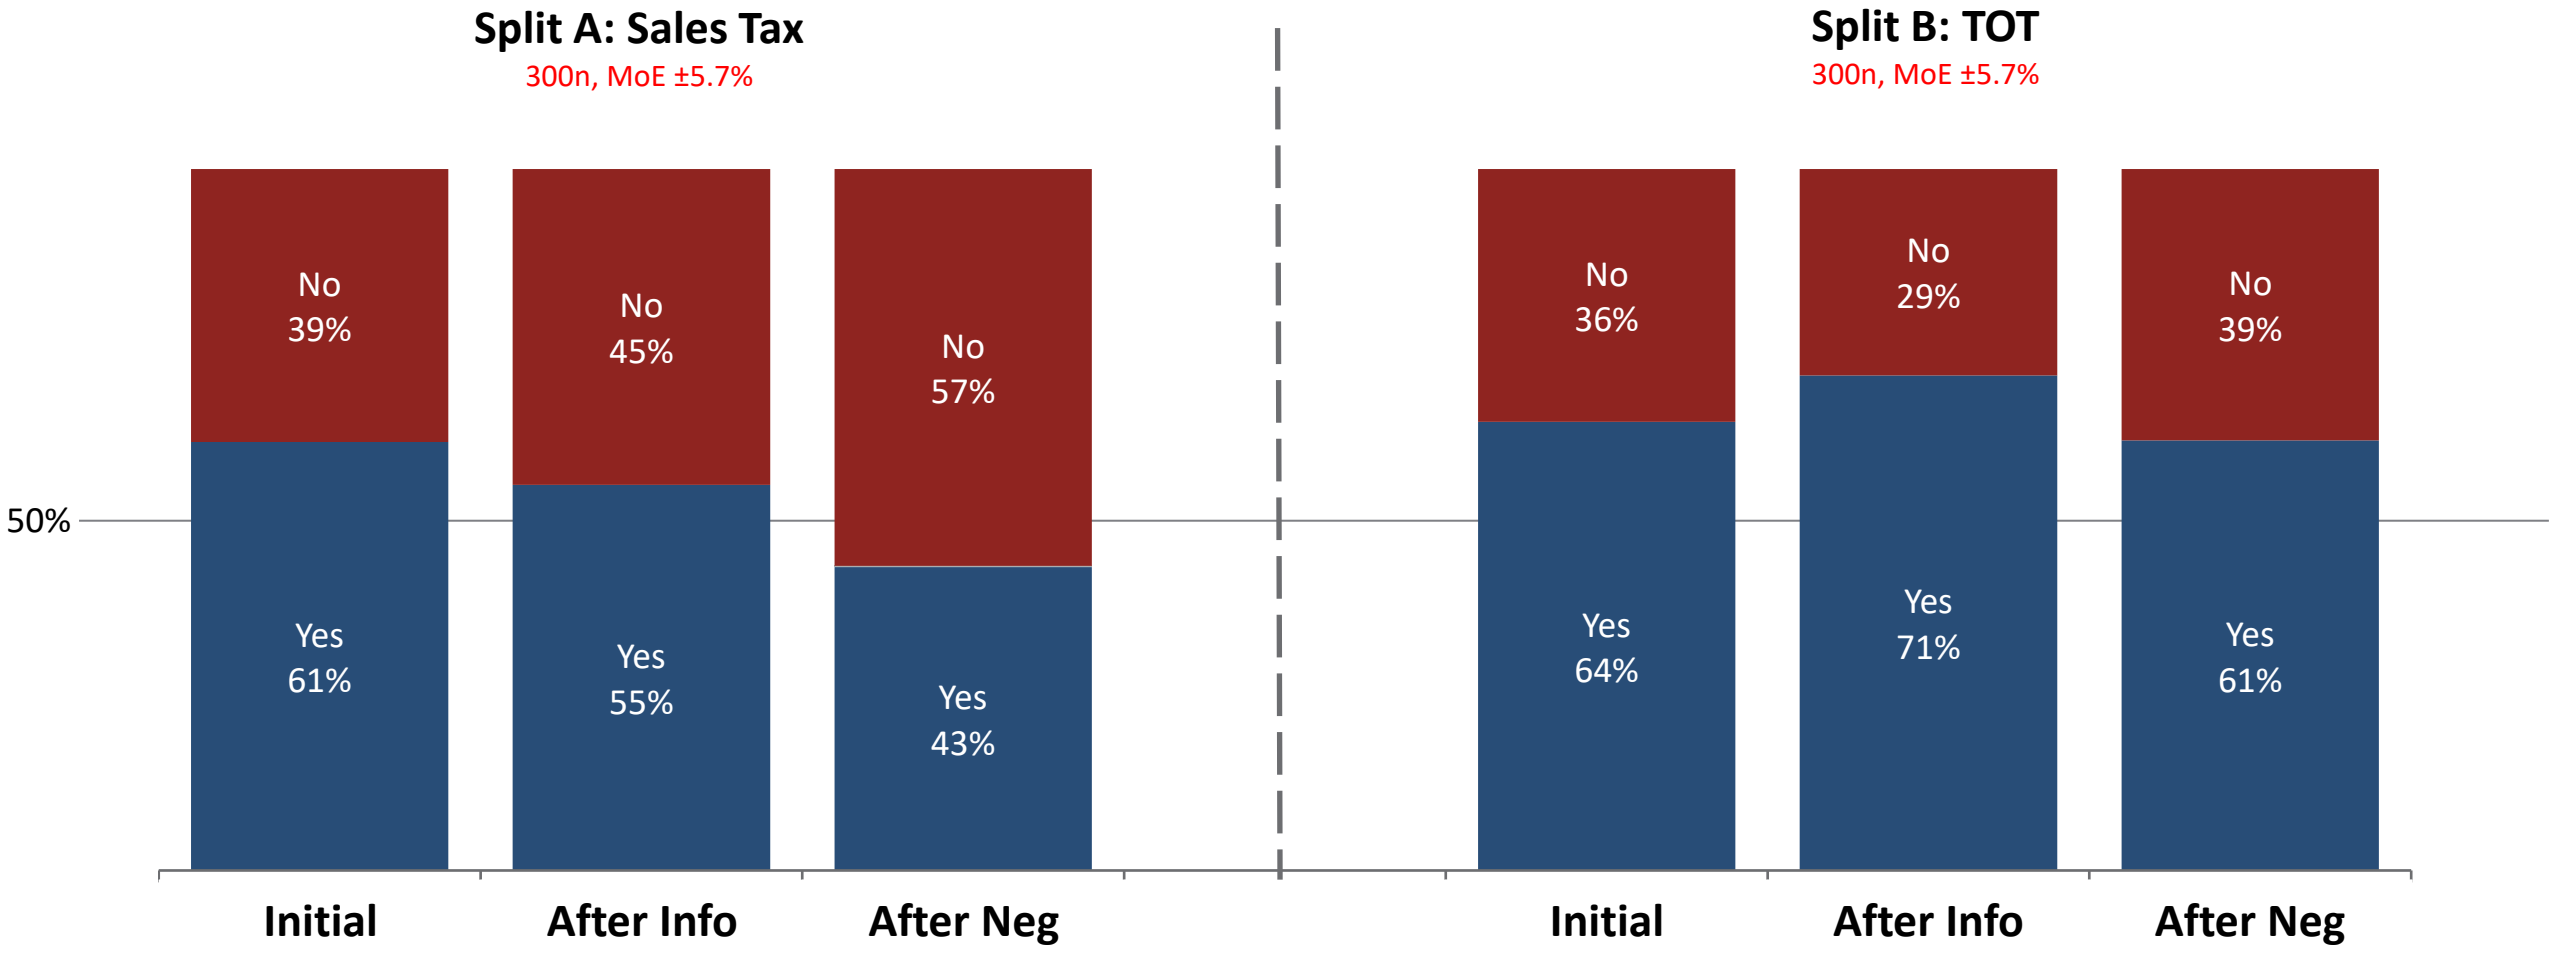
Additional information was provided to respondents to simulate the impact of the potential future communications environment. Respondents were asked to give their support or opposition to the measure after each section. A summary of the information given is provided here.

Part 1: Additional information about a measure, including who would pay under each revenue mechanism, major expenditure categories, potential cuts without additional revenue, and accountability components

Part 2: Potential opposition themes, including vulnerability of the general tax mechanism, cost of living and economic uncertainty, and concerns about impacting tourism

Vote After Communications Environment Simulation

Additional information does impact support for each measure, with the sales tax showing considerably more vulnerability than the TOT measure.



Q5/36/37/6/38/39.

Conclusions

- Either a 1 percent sales tax measure in the unincorporated areas, or a 1 percent increase in the transient occupancy tax in the unincorporated areas, are currently supported by more than half of Monterey County voters.
- Positioning a transient occupancy tax measure as exclusively paid by visitors to the county helps to solidify and maintain that support, even with opposition.
- For a sales tax, while discussion of visitors paying their fair share is also a strong message, that positioning is not as effective of a way to bolster and maintain support in the face of opposition.
- If the County does decide to place a measure on the ballot, the potential benefits of addressing homelessness and housing affordability, repairing roads, and maintaining critical infrastructure are top priorities for voters.
- It will also be important to ensure voters are aware of the accountability controls built into a measure to ease their minds about how the funds may be used.

Item No.13

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

August 26, 2025

Introduced: 8/18/2025
Version: 1

Current Status: Agenda Ready
Matter Type: BoS Resolution

PLN240077 - SIGNAL HILL LLC
Continued from July 8, 2025 - Public hearing to consider three appeals, one by Samuel Reeves, one by the Alliance of Monterey Area Preservationists (AMAP), and one by Massy Mehdipour, the applicant, from the April 30, 2025 Planning Commission decision approving the construction of an approximately 8,290 square foot two-story single family dwelling with an attached three car garage with light brown stucco exterior, black metal clad wood accents, and a gravel roof, an approximately 180 square foot stairwell, and approximately 695 square feet of terrace (identified as the "Reduced Project," Alternative 6 in the Final EIR) and the relocation of three Monterey Cypress trees.

Project Location: 1170 Signal Hill Road, Pebble Beach, Del Monte Forest Area Land Use Plan, Coastal Zone
Proposed CEQA Action: Consider a previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project and find the project consistent with the FEIR.

RECOMMENDATION:
Staff recommends that the Board of Supervisors adopt a resolution (Attachment B) to:
a) Partially uphold the appeals by Samuel Reeves and AMAP, from the April 30, 2025 Planning Commission decision approving the Design Approval;
b) Uphold the appeal by Massy Mehdipour, Applicant, from the April 30, 2025 Planning Commission decision approving the Design Approval with Condition No. 10;
c) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that the Proposed Project does not warrant an addendum pursuant to CEQA Guidelines section 15162; and
d) Approve the Project as revised and as presented in Attachment B:
1) Granting a Design Approval for construction of an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof that fulfills the requirements of the "Reduced Project," Alternative 6 of the FEIR;
2) Approving a Coastal Development Permit to allow the relocation of two Cypress trees;
3) Approving a variance for structural development in the front setback; and
4) Amending Condition No. 23 of Resolution No. 23-237 to increase the conservation and scenic easement for the project to a 1.67-acre area.

A separate resolution (**Attachment A**) has been prepared as directed by the Board of Supervisors at the July 8, 2025 hearing on this matter. The resolution attached as Attachment A would partially uphold the Reeves and AMAP appeals, uphold the Mehdipour appeal, and require the applicant to redesign to be more similar in size to the Connell House.

PROJECT INFORMATION:
Property Owner: Massy Mehdipour
Agent: None
APN: 008-261-007-000
Zoning: Low Density Residential, 1.5 acres per unit with Design Control Overlay (Coastal Zone)
Flagged and Staked: Yes

SUMMARY:
On July 8, 2025, the Board of Supervisors considered three appeals of the Planning Commission's decision on the new house design and continued the item to August 26, 2025. Staff was asked to return with a resolution that reiterates the Board's prior direction from 2023 (Board of Supervisors Resolution No. 23-237). At the July 8, 2025 hearing, comments surrounding the motion clarified that that the expectation was that the new house be of a similar size and height to the Connell House. The proposal considered on July 8, 2025 was much larger than the Connell house by floor area, height, and it was not entirely within the footprint of the Connell House. Specific direction to Applicant included:

- Reduce square footage to align more closely to the Connell House floor area of approximately 4,125 square feet, rather than the original Signal Hill project (Proposed Project of the EIR);
- Reduce height to 22 feet above average natural grade, and
- Eliminate development that extends beyond the hardscape of the former Connell house, including 2nd floor terraces over sand dune areas.

Pursuant to Board direction, staff has prepared a draft Resolution (**Attachment A**), which partially upholds the Reeves and AMAP appeals, upholds the Mehdipour appeal, and requires the applicant to return to the Board with a redesign to meet the direction described above.

After the July 8, 2025 Board hearing, the applicant submitted a revised design with a request that this revised design be considered by the Board as an alternative to the motion of intent approved on July 8 (described above). The revised design eliminates portions of the prior proposal that were not within the footprint of the Connell House and slightly reduces the size of the new home. The new design is within the footprint of the former Connell House. The floor area of the proposed two-story structure is proposed at 7,690 square feet, reduced from the 8,290 square feet considered on July 8, but still larger than the Connell House. The proposed maximum height remains 25.5 feet, which is the same as the prior design but is approximately 3.5 feet taller than the Connell House.

Staff is recommending approval of the revised design based on an understanding of the Board Direction that the new house comply with the description of Alternative 6 of the Environmental Impact Report (EIR) prepared for the project. Alternative 6 was the "Reduced Project

Alternative" that the EIR described as allowing the demolition of the Connell House and new construction of a house that would stay within the developed footprint of the demolished house and be reduced in height to avoid "ridgeline development." The alternative also included restoration of 1.67 acres of the site to native due habitat. The redesigned project is within the footprint of the Connell House and proposed at a height that avoids ridgeline development (**Attachment B**).

Given the way that the 2023 decision was worded, and comments made at the July 8, 2025 Board hearing, it is clear there was an expectation that the new house footprint, height, and size would be compared with the footprint, height and size of the Connell House. This expectation makes sense in the context of the 2023 Board Direction which was heavily focused on the demolition of the historic Connell House and given that the decision mentions both "Alternative 6 of the EIR" and "construction *of a new single-family residence of similar size, in concept, as the existing residence*." Although the new design is within the footprint and below the ridgeline height, the revised design is still taller and larger than the Connell House. For this reason, staff has included some reference to the proposed redesign in the Disapproval Resolution, Attachment A.

DISCUSSION:
The staff report prepared for the July 8, 2025 hearing provides much of the background and analysis. This staff report does not reiterate all the information previously provided and instead refers to that staff report except as updated and modified to reflect the Board direction at the July 8, 2025 hearing and the revised design submitted by the applicant between July 8 and August 26, 2025.

Board Direction:
The design that was reviewed in the July 8, 2025 Board hearing was for an 8,290 square foot, two-story single family dwelling that was 25.5 feet tall (at the tallest points). The proposed design was not entirely within the previous footprint of the Connell House. At that hearing, the Applicant asked that the Board allow an area of the footprint to be left undeveloped (the rear/northwest corner of the Connell House) in exchange for adding area in the front of the house that fills in the former courtyard of the U-shaped Connell House footprint. The height and footprint are both key issues of the appeals from AMAP and Reeves. After reviewing the proposed design, the Board directed staff to prepare a resolution reiterating the 2023 decision.

The Board decision in June of 2023 (Resolution No. 23-237 (**Attachment G**) stated, in relevant part:
"4) *Approve a Coastal Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR) consisting of:*
a) Coastal Administrative Permit to allow the demolition of an existing 4,124 square foot single family residence;
b) Coastal Administrative Permit for the construction of a new single-family residence of similar size, in concept, as the existing residence;
c) Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat;
d) Coastal Development Permit for development on slopes exceeding 30 percent;
e) Coastal Development Permit for development within 750 feet of a known archaeological

resources;"

The description of Alternative 6 of the EIR describes a new residence that is in the "footprint" of the former Connell House and at a height that does not result in "ridgeline development." Subjection b of the action describes "construction of a new single-family residence of a similar size as the existing residence."

The Applicant is requesting that the Board focus on the description of Alternative 6 in the EIR and the statements made in the hearing about the "footprint" and "ridgeline." In contrast, the Appellants have pointed to the language about the new residence being of a similar size as the existing home. The July 8, 2025 Board Direction recognized that the design presented at that time was both not in the footprint of the Connell House (as required in Alternative 6) and was not similar in size and height to the Connell House (subsection b of the 2023 action, as shown above).

Revised Design:
Since the July 8, 2025 hearing, Applicant caused a modified design to be prepared for consideration by the Board that removed the previous proposal of "swapped" areas for development. By removing an exterior stairway (180 square feet) and eliminating proposed development in the previous patio (approximately 600 square feet), the proposed new development would be reduced by approximately 780 square feet. The modified Plans are attached to a second draft resolution (**Attachment B**). Staff reviewed the design as modified and found that it is the same height as the previous proposal (and that it continues to meet Alternative 6's requirement to keep height sufficiently low to avoid ridgeline impacts). The proposed dwelling meets Alternative 6's reduced project requirements when compared to the original project analyzed in the EIR, as it is an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage, while the original proposal was to construct a 11,933 square foot three-story dwelling inclusion of a three car garage.

The revised design is within the footprint of the Connell House and as revised, a swap of area or extension of the new home footprint beyond the Connell House footprint is no longer proposed. The revised design is consistent with the description of Alternative 6 of the EIR but the house is still more than 3,000 square feet larger and 3 feet taller than the Connell House.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):
Pursuant to Public Resources Code section 21083 and CEQA Guidelines sections 15081, 15161, and 15200 et seq., the County of Monterey as Lead Agency prepared an Environmental Impact Report (EIR) for the original project, which consisted of (1) demolition of the existing 4,125-square-foot, two-story, single-family residence, and removal of the approximately 2,825 square feet of asphalt driveway and concrete patios; (2) construction of a new 11,933-square-foot, two-story (over basement), single-family residence including an attached three-car garage, a 986 square foot entry court, 106 square feet of uncovered terraces, approximately 2,600 square feet of covered terraces, new driveway, and approximately 1,700 cubic yards of grading (1,200 cubic yards cut/500 cubic yards fill); (3) restoration of approximately 1.67 acres to native dune habitat within 750 feet of a known archaeological resource; and (4) the removal of three Cypress trees. In addition to the original project scope,

this EIR also considered and analyzed eight alternative project scopes, as required by CEQA Guidelines section 15162.6. The Draft EIR identified potentially significant impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historic Resources, Hydrology and Water Quality, and Noise.

The EIR proposed mitigation measures to reduce all but one of the identified impacts to a level of less than significant. Demolition of the existing historic house was identified as a potentially significant impact that could not be mitigated to a less-than-significant level. The Draft EIR was circulated for public review and comment from August 24 to October 12, 2018 (SCH No. 2015021054). Per Resolution Nos. 23-236 and 23-237, the Board of Supervisors certified this EIR and adopted a written Statement of Overriding Considerations relative to the project's unavoidable impact on a historical resource. As described above, the Board of Supervisors also approved, in concept, Final EIR Alternative 6. The Board's direction to redesign a project to conform with Alternative 6 is consistent with the FEIR.

Pursuant to CEQA Guidelines section 15162, when an EIR has been certified, no subsequent EIR or negative declaration shall be prepared for the project unless the agency determines that substantial changes are proposed, or substantial changes occur with respect to the circumstances under which the project is undertaken. Here, no new information has been presented, no new circumstances exist, and no substantial changes are proposed that warrant further environmental review. The EIR contemplated residential development of the lot, including removal of trees and up to 10,008 square feet of structural and hardscape improvements. The EIR contemplated eight alternatives and one "no project" alternative to the original project and evaluated them separately for potential impacts. The Board's direction for redesign is intended to satisfy the parameters of Alternative 6. Should the Board elect to permit the Design Approval that the Applicant has brought forward in Attachment B, the redesign shall satisfy the parameters of Alternative 6. Evidence to support this finding is that Alternative 6 required a "reduced project" that was smaller in size than the original project and did not create a ridgeline effect (which was anticipated to result from construction of the original, full sized project). The proposed project design meets the parameters of Alternative 6 in that building coverage is 3,558 square feet less (original project was 8,058), floor area ratio percentage is reduced from 12.6% to 8.15%, and no ridgeline effect will be created because the height of the house as designed will be 4.5 feet less than the original project design (measured from Average Natural Grade) and staff confirmed no ridgeline effect during a visual impact assessment when the site was fully staked and flagged.

There has been no change in the project alternative and no indication during review of the project, or in testimony from the public, that circumstances have changed since the EIR was certified. Circumstances of the conditions of the sand dune environment of Signal Hill, the historical status of the Connell House, and the conditions of the Signal Hill neighborhood's buildout within the context of the Pebble Beach planned residential and recreational uses remain the same. Therefore, none of the conditions described in Guidelines section 15162 calling for preparation of a subsequent EIR or negative declaration have occurred.

LUAC:
The proposed project was reviewed by the Del Monte Forest Land Use Advisory Committee (LUAC) on August 1, 2024. The LUAC voted unanimously (8 yeas, 0 noes) to recommend the

PLN240077 - SIGNAL HILL LLC

Continued from July 8, 2025 - Public hearing to consider three appeals, one by Samuel Reeves, one by the Alliance of Monterey Area Preservationists (AMAP), and one by Massy Mehdipour, the applicant, from the April 30, 2025 Planning Commission decision approving the construction of an approximately 8,290 square foot two-story single family dwelling with an attached three car garage with light brown stucco exterior, black metal clad wood accents, and a gravel roof, an approximately 180 square foot stairwell, and approximately 695 square feet of terrace (identified as the "Reduced Project," Alternative 6 in the Final EIR) and the relocation of three Monterey Cypress trees.

Project Location: 1170 Signal Hill Road, Pebble Beach, Del Monte Forest Area Land Use Plan, Coastal Zone

Proposed CEQA Action: Consider a previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project and find the project consistent with the FEIR.

RECOMMENDATION:

Staff recommends that the Board of Supervisors adopt a resolution (Attachment B) to:

a) Partially uphold the appeals by Samuel Reeves and AMAP, from the April 30, 2025 Planning Commission decision approving the Design Approval;

b) Uphold the appeal by Massy Mehdipour, Applicant, from the April 30, 2025 Planning Commission decision approving the Design Approval with Condition No. 10;

c) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that the Proposed Project does not warrant an addendum pursuant to CEQA Guidelines section 15162; and

d) Approve the Project as revised and as presented in Attachment B:

1) Granting a Design Approval for construction of an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof that fulfills the requirements of the "Reduced Project," Alternative 6 of the FEIR;

2) Approving a Coastal Development Permit to allow the relocation of two Cypress trees;

3) Approving a variance for structural development in the front setback; and

4) Amending Condition No. 23 of Resolution No. 23-237 to increase the conservation and scenic easement for the project to a 1.67-acre area.

A separate resolution (**Attachment A**) has been prepared as directed by the Board of Supervisors at the July 8, 2025 hearing on this matter. The resolution attached as Attachment A would partially uphold the Reeves and AMAP appeals, uphold the Mehdipour appeal, and require the applicant to redesign to be more similar in size to the Connell House.

PROJECT INFORMATION:
Property Owner: Massy Mehdipour
Agent: None
APN: 008-261-007-000

Flagged and Staked: Yes

SUMMARY:
On July 8, 2025, the Board of Supervisors considered three appeals of the Planning Commission's decision on the new house design and continued the item to August 26, 2025. Staff was asked to return with a resolution that reiterates the Board's prior direction from 2023 (Board of Supervisors Resolution No. 23-237). At the July 8, 2025 hearing, comments surrounding the motion clarified that that the expectation was that the new house be of a similar size and height to the Connell House. The proposal considered on July 8, 2025 was much larger than the Connell house by floor area, height, and it was not entirely within the footprint of the Connell House. Specific direction to Applicant included:

- Reduce square footage to align more closely to the Connell House floor area of approximately 4,125 square feet, rather than the original Signal Hill project (Proposed Project of the EIR);
- Reduce height to 22 feet above average natural grade, and
- Eliminate development that extends beyond the hardscape of the former Connell house, including 2nd floor terraces over sand dune areas.

Pursuant to Board direction, staff has prepared a draft Resolution (**Attachment A**), which partially upholds the Reeves and AMAP appeals, upholds the Mehdipour appeal, and requires the applicant to return to the Board with a redesign to meet the direction described above.

After the July 8, 2025 Board hearing, the applicant submitted a revised design with a request that this revised design be considered by the Board as an alternative to the motion of intent approved on July 8 (described above). The revised design eliminates portions of the prior proposal that were not within the footprint of the Connell House and slightly reduces the size of the new home. The new design is within the footprint of the former Connell House. The floor area of the proposed two-story structure is proposed at 7,690 square feet, reduced from the 8,290 square feet considered on July 8, but still larger than the Connell House. The proposed maximum height remains 25.5 feet, which is the same as the prior design but is approximately 3.5 feet taller than the Connell House.

Staff is recommending approval of the revised design based on an understanding of the Board Direction that the new house comply with the description of Alternative 6 of the Environmental Impact Report (EIR) prepared for the project. Alternative 6 was the "Reduced Project Alternative" that the EIR described as allowing the demolition of the Connell House and new construction of a house that

would stay within the developed footprint of the demolished house and be reduced in height to avoid "ridgeline development." The alternative also included restoration of 1.67 acres of the site to native due habitat. The redesigned project is within the footprint of the Connell House and proposed at a height that avoids ridgeline development (**Attachment B**).

Given the way that the 2023 decision was worded, and comments made at the July 8, 2025 Board hearing, it is clear there was an expectation that the new house footprint, height, and size would be compared with the footprint, height and size of the Connell House. This expectation makes sense in the context of the 2023 Board Direction which was heavily focused on the demolition of the historic Connell House and given that the decision mentions both "Alternative 6 of the EIR" and "construction *of a new single-family residence of similar size, in concept, as the existing residence*." Although the new design is within the footprint and below the ridgeline height, the revised design is still taller and larger than the Connell House. For this reason, staff has included some reference to the proposed redesign in the Disapproval Resolution, Attachment A.

DISCUSSION:

The staff report prepared for the July 8, 2025 hearing provides much of the background and analysis. This staff report does not reiterate all the information previously provided and instead refers to that staff report except as updated and modified to reflect the Board direction at the July 8, 2025 hearing and the revised design submitted by the applicant between July 8 and August 26, 2025.

Board Direction:

The design that was reviewed in the July 8, 2025 Board hearing was for an 8,290 square foot, two-story single family dwelling that was 25.5 feet tall (at the tallest points). The proposed design was not entirely within the previous footprint of the Connell House. At that hearing, the Applicant asked that the Board allow an area of the footprint to be left undeveloped (the rear/northwest corner of the Connell House) in exchange for adding area in the front of the house that fills in the former courtyard of the U-shaped Connell House footprint. The height and footprint are both key issues of the appeals from AMAP and Reeves. After reviewing the proposed design, the Board directed staff to prepare a resolution reiterating the 2023 decision.

The Board decision in June of 2023 (Resolution No. 23-237 (**Attachment G**) stated, in relevant part:
"4) *Approve a Coastal Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR) consisting of:*
a) Coastal Administrative Permit to allow the demolition of an existing 4,124 square foot single family residence;
b) Coastal Administrative Permit for the construction of a new single-family residence of similar size, in concept, as the existing residence;
c) Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat;
d) Coastal Development Permit for development on slopes exceeding 30 percent;
e) Coastal Development Permit for development within 750 feet of a known archaeological resources;"

The description of Alternative 6 of the EIR describes a new residence that is in the "footprint" of the former Connell House and at a height that does not result in "ridgeline development." Subjection b of the action describes "construction of a new single-family residence of a similar size as the existing residence."

The Applicant is requesting that the Board focus on the description of Alternative 6 in the EIR and the statements made in the hearing about the "footprint" and "ridgeline." In contrast, the Appellants have pointed to the language about the new residence being of a similar size as the existing home. The July 8, 2025 Board Direction recognized that the design presented at that time was both not in the footprint of the Connell House (as required in Alternative 6) and was not similar in size and height to the Connell House (subsection b of the 2023 action, as shown above).

Revised Design:
Since the July 8, 2025 hearing, Applicant caused a modified design to be prepared for consideration by the Board that removed the previous proposal of "swapped" areas for development. By removing an exterior stairway (180 square feet) and eliminating proposed development in the previous patio (approximately 600 square feet), the proposed new development would be reduced by approximately 780 square feet. The modified Plans are attached to a second draft resolution (**Attachment B**). Staff reviewed the design as modified and found that it is the same height as the previous proposal (and that it continues to meet Alternative 6's requirement to keep height sufficiently low to avoid ridgeline impacts). The proposed dwelling meets Alternative 6's reduced project requirements when compared to the original project analyzed in the EIR, as it is an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage, while the original proposal was to construct a 11,933 square foot three-story dwelling inclusion of a three car garage.

The revised design is within the footprint of the Connell House and as revised, a swap of area or extension of the new home footprint beyond the Connell House footprint is no longer proposed. The revised design is consistent with the description of Alternative 6 of the EIR but the house is still more than 3,000 square feet larger and 3 feet taller than the Connell House.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA):
Pursuant to Public Resources Code section 21083 and CEQA Guidelines sections 15081, 15161, and 15200 et seq., the County of Monterey as Lead Agency prepared an Environmental Impact Report (EIR) for the original project, which consisted of (1) demolition of the existing 4,125-square-foot, two-story, single-family residence, and removal of the approximately 2,825 square feet of asphalt driveway and concrete patios; (2) construction of a new 11,933-square-foot, two-story (over basement), single-family residence including an attached three-car garage, a 986 square foot entry court, 106 square feet of uncovered terraces, approximately 2,600 square feet of covered terraces, new driveway, and approximately 1,700 cubic yards of grading (1,200 cubic yards cut/500 cubic yards fill); (3) restoration of approximately 1.67 acres to native dune habitat within 750 feet of a known archaeological resource; and (4) the removal of three Cypress trees. In addition to the original project scope, this EIR also considered and analyzed eight alternative project scopes, as required by CEQA Guidelines section 15162.6. The Draft EIR identified potentially significant impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historic Resources, Hydrology and

Water Quality, and Noise.

The EIR proposed mitigation measures to reduce all but one of the identified impacts to a level of less than significant. Demolition of the existing historic house was identified as a potentially significant impact that could not be mitigated to a less-than-significant level. The Draft EIR was circulated for public review and comment from August 24 to October 12, 2018 (SCH No. 2015021054). Per Resolution Nos. 23-236 and 23-237, the Board of Supervisors certified this EIR and adopted a written Statement of Overriding Considerations relative to the project's unavoidable impact on a historical resource. As described above, the Board of Supervisors also approved, in concept, Final EIR Alternative 6. The Board's direction to redesign a project to conform with Alternative 6 is consistent with the FEIR.

Pursuant to CEQA Guidelines section 15162, when an EIR has been certified, no subsequent EIR or negative declaration shall be prepared for the project unless the agency determines that substantial changes are proposed, or substantial changes occur with respect to the circumstances under which the project is undertaken. Here, no new information has been presented, no new circumstances exist, and no substantial changes are proposed that warrant further environmental review. The EIR contemplated residential development of the lot, including removal of trees and up to 10,008 square feet of structural and hardscape improvements. The EIR contemplated eight alternatives and one "no project" alternative to the original project and evaluated them separately for potential impacts. The Board's direction for redesign is intended to satisfy the parameters of Alternative 6. Should the Board elect to permit the Design Approval that the Applicant has brought forward in Attachment B, the redesign shall satisfy the parameters of Alternative 6. Evidence to support this finding is that Alternative 6 required a "reduced project" that was smaller in size than the original project and did not create a ridgeline effect (which was anticipated to result from construction of the original, full sized project). The proposed project design meets the parameters of Alternative 6 in that building coverage is 3,558 square feet less (original project was 8,058), floor area ratio percentage is reduced from 12.6% to 8.15%, and no ridgeline effect will be created because the height of the house as designed will be 4.5 feet less than the original project design (measured from Average Natural Grade) and staff confirmed no ridgeline effect during a visual impact assessment when the site was fully staked and flagged.

There has been no change in the project alternative and no indication during review of the project, or in testimony from the public, that circumstances have changed since the EIR was certified. Circumstances of the conditions of the sand dune environment of Signal Hill, the historical status of the Connell House, and the conditions of the Signal Hill neighborhood's buildout within the context of the Pebble Beach planned residential and recreational uses remain the same. Therefore, none of the conditions described in Guidelines section 15162 calling for preparation of a subsequent EIR or negative declaration have occurred.

Before the Board of Supervisors in and for the County of Monterey, State of California

In the matter of the application of:
SIGNAL HILL LLC (PLN240077)
RESOLUTION NO. _____

Resolution by the County of Monterey Board of Supervisors to:

1) Partially uphold the appeals by Samuel Reeves and the Alliance of Monterey Area Preservations from the April 30, 2025 Planning Commission decision approving the Design Approval;
2) Uphold the appeal by Massy Mehdipour, Applicant, from the April 30, 2025 Planning Commission decision approving the Design Approval with Condition No. 10;
3) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that an addendum pursuant to CEQA Guidelines section 15162 is not warranted; and
4) Disapprove the proposed Design Approval (PLN240077) for a 7,690 square foot single family dwelling with a height of 25.5 feet at the highest points and Reiterate the June 27, 2023 decision (Resolution No. 23-237) Approving a Combined Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR) consisting of a Coastal Administrative Permit for the construction of a new single-family residence of similar size, in concept, as the Connell House (4,124 square feet in size and 22 feet in height).

[1170 Signal Hill Road, Pebble Beach, Del Monte Forest Area Land Use Plan (APN: 008-261-007-000)]

The Signal Hill LLC application for a Design Approval, Coastal Development Permit for tree relocation, and Variance to front setback (PLN240077) (the Proposed Project) came on for public hearing before the County of Monterey Board of Supervisors on July 8, 2025 and August 26, 2025. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Board of Supervisors finds and decides as follows:

FINDINGS

1. FINDING: **PROCESS, PROJECT DESCRIPTION AND CONSISTENCY** – The County has processed the subject application for construction of a single-family dwelling (Planning File No. PLN240077/Signal Hill LLC) in compliance with all applicable procedural requirements. The project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE:

a) Conformance with Plans. The Proposed Project has been reviewed for consistency with the text, policies, and regulations in:
- the 1982 Monterey County General Plan;
- Del Monte Forest Area Land Use Plan (LUP);
- Monterey County Coastal Implementation Plan Part 5 (CIP, Coastal Zoning Ordinance);
- Monterey County Zoning Ordinance (Title 20);
- The adopted Final EIR for the Signal Hill project; and
- Board Resolutions related to the development of the site (Resolution No. 23-237).

Public comment submitted during review of the project allege that the project is inconsistent with the text, policies, and regulations in these documents on various grounds. These comments have been considered.

The Board found that the project did not conform with its direction in Resolution No. 23-237. Based on evidence presented in the hearing and from the Board members' review of recording of the June 27, 2023 Board hearing, the Board found that the Applicant's proposed dwelling is not similar to the Connell House in size and height.

b) Project Description. The Board considered three appeals of the Planning Commission's approval of a Design Approval for a new 8,290 square foot single family residence with a height at the highest points of 25.5 feet on July 8, 2025. On August 26, 2025, the Board considered a revised design for a new 7,690 square foot single family residence with the same height.

c) Allowed Use. The property is located at 1170 Signal Hill Road, Pebble Beach (Assessor's Parcel Number 008-261-007-000), Del Monte Forest Area Land Use Plan (LUP). The parcel is zoned "LDR/1.5-D (CZ)" [Low Density Residential, 1.5 acres per unit with Design Control Overlay (Coastal Zone)], which allows residential uses.

d) Project Background. On May 9, 2023 and June 27, 2023, the Board of Supervisors heard appeals from Raymond Neutra, Samuel Reeves, and the Alliance of Monterey Area Preservationists of the Planning Commission's January 25, 2023 grant of a Combined Development Permit for this property based on the EIR's "Reduced Height Project" Alternative (Alternative 9 of the EIR). On June 27, 2023, the Board approved a Resolution (Resolution No. 23-237) approving a Coastal Administrative Permit to demolish the

4,124 square foot Connell House and approved, in concept, construction of a new single-family residence of similar size as the existing residence. The Board also approved a Coastal Administrative Permit to demolish the Connell House. On June 27, 2023, the Board of Supervisors also adopted Resolution No. 23-236, which adopted the Final EIR prepared for the Signal Hill LLC project together with a Statement of Overriding Considerations. The Board approved Condition No. 23 specifying that the project's CSE would be at least 2:1 in size for the area disturbed by the construction of the reduced project.

Building Permits for the demolition of the Connell House were issued on January 18, 2024 (File No 15CP01573) and the Connell House has been demolished.

e) The Final EIR describes its Reduced Project, Alternative 6, as demolition of the Connell House and construction of a new single-family residence to stay within the existing developed footprint and to avoid building heights that extend above the ridgeline" (EIR Chapter 5, page 5-9). In approving the Coastal Administrative Permit to construct a residence, the Board directed "that the construction is in the footprint of the Connell House as it was" (motion statement by Chair Church at minute 3:41 of June 27, 2023 Board hearing, zoom recording).

f) In approving the Reduced Project concept (Resolution No. 23-237), the Board of Supervisors prohibited the replacement single-family dwelling from expanding beyond the building footprint of the previous dwelling. In the appeal hearings for PLN240077 on July 8, 2025, the Board reviewed the proposed plans and found the project design to be inconsistent with its prior direction. The proposed design was not within the footprint of the Connell House and was not a similar size and height to the Connell House. At the conclusion of the hearing on July 8, 2025, the Board continued the hearing to August 26, 2025 with direction to staff to prepare a resolution reiterating the June 27, 2023 decision. After the July 8, 2025 Board hearing, the applicant submitted a revised design with a request that this revised design be considered by the Board as an alternative to the motion of intent approved on July 8. The revised design eliminates portions of the prior proposal that were not within the footprint of the Connell House and slightly reduces the size of the new home. The new design is within the footprint of the former Connell House. The floor area of the proposed two-story structure is proposed at 7,690 square feet, reduced from the 8,290 square feet considered on July 8, but still substantially larger than foot Connell House. The proposed height remains 25.5 feet, which is the same as the prior design but is approximately 3.5 feet taller than the Connell house.

New plans shall be required for a Design Approval to be granted.

g) Design Review. The site is in a Design Control (D) Zoning District. The purpose of the Design Control Zoning District is to provide a district for the regulation of the location, size, configuration, materials, and colors of structures and fences in those areas of the County where the design review of structures is appropriate to assure protection of the public viewshed, neighborhood character, and to assure the visual integrity of certain developments without imposing undue restrictions on private property.

h) Visual Resources. The property is in the viewshed area of 17 Mile Drive, as mapped in Figure 3 of the Del Monte Forest Land Use Plan. The property is visible from the public viewing area of Fanshell Beach. LUP Policy 51 requires buildings developed on residential lots in the Visual Resources area to be "situated to allow the highest potential for screening from view." LUP Policy 56 urges design and siting of structures in scenic areas should not detract from scenic values and should be subordinate to, and blended into, the environment. It is anticipated that the project roofline will remain below the tree line behind and around it from all public vista points, in keeping with Alternative 6 of the Final EIR. Section 20.66.010 of the Coastal Zoning Ordinance requires a Coastal Development Permit for Ridgeline Development. The Del Monte Forest Area CIP section 20.147.070(6) provides criteria for granting permits for new development that is silhouetted against the sky, or ridgeline development. DMF LUP Policy 48 states that development in visually prominent settings shall be sited and designed to avoid blocking or having a significant adverse impact on significant public views. In section 20.06.1275, Title 20 defines "substantial adverse visual impact" as "a visual impact which, considering the condition of the existing viewshed, the proximity and duration of view when observed with normal unaided vision, causes an existing visual experience to be materially degraded." By following the specific direction of the Board in the July 8, 2025 hearing, the project redesign should not present exceptional bulk or height beyond the existing and permitted dwellings within the public viewshed (Fanshell Beach and 17 Mile Drive locations). All new exterior lighting shall follow the dark sky regulations required by Mitigation Measure AES/MM-3.1, which was applied as a condition of approval to PLN100338 (Board Resolution No. 23-237).

i) Site Visit. The project planner conducted a site inspection on August 5, 2024, to assess visual impacts of the previous design. Another site inspection shall be scheduled with HCD-Planning to confirm site conditions for the project on the subject parcel.

j) Land Use Advisory Committee. Based on the Land Use Advisory Committee guidelines adopted by the Monterey County Board of Supervisors (Resolution No. 14-373), this

application warranted referral to the LUAC because the Proposed Project includes a Design Approval that requires a public hearing. The project was referred to the Del Monte Forest Land Use Advisory Committee (LUAC) for review on August 1, 2024, The LUAC voted 8 yeas, 0 noes to support the project as proposed.

k) On April 30, 2025, the County of Monterey Planning Commission held a duly noticed public hearing and unanimously approved the Design Approval, Coastal Development Permit for three Cypress tree relocations, and Variance to front setback by a vote of 10 yeas - 0 noes (Planning Commission Resolution No. 25-012).

l) Pursuant to Title 20 sections 20.86.040 and 050, on May 23, 2025, Sam Reeves ("Appellant" and/or "Reeves"), represented by Lombardo and Associates, timely appealed the April 30, 2025, decision of the Planning Commission. The appeal challenges the Planning Commission's approval, contending that the hearing was not fair and impartial, the findings are not supported by the evidence and the decision was contrary to law. See Finding No. 7 (Appeal) for a summary of this appeal's specific contentions and the County's responses.

m) Pursuant to Title 20 sections 20.86.040 and 050, on May 27, 2025, Mimi Sheridan, representing the Alliance of Monterey Area Preservationists (AMAP), timely appealed the April 30, 2025, decision of the Planning Commission. The appeal challenges the Planning Commission's approval, contending that the findings are not supported by the evidence and the decision was contrary to law. See Finding No. 7 (Appeal) for a summary of this appeal's specific contentions and the County's responses.

n) Pursuant to Title 20 section 20.86.040 and 050, on May 23, 2025, the Applicant, Massy Mehdipour ("Appealing Applicant" and/or "Mehdipour"), timely appealed the April 30, 2025 decision of the Planning Commission. The appeal challenges the Planning Commission's approval, contending that the hearing was not fair and impartial, the findings are not supported by the evidence and the decision was contrary to law. See Finding No. 7 (Appeal), Evidence "k" for a summary of this appellant's specific contentions and the County's responses.

o) The appeals were timely brought to hearing. Title 20 section 20.86.070 requires that the appeal authority hold a public hearing on an appeal within 60 days of receipt of the appeal. The appellant and Applicant agreed to a public hearing date of July 8, 2025, which is within the 60-day period. The Board continued the project hearing to a date certain, August 26, 2025. However, the requirements of Title 20 appeal hearing timing are met because the appeal hearing was opened within 60 days.

p) A complete copy of the appeals is on file with the Clerk of the Board of Supervisors. The appeals are also attached with itemized contention responses as Attachment C to the staff report for the July 8, 2025 Board of Supervisors hearing.

q) The Board of Supervisors conducted a duly noticed public hearing on the appeal and the project on July 8, 2025 and August 26, 2025. Notice of the *de novo* hearing on the matter before the Board of Supervisors was published in the Monterey County Weekly, notices were mailed and emailed to all property owners and occupants within 300 feet of the project site, and to all persons who requested notice; and three notices were posted at and near the project site.

r) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in Project File No. PLN240077.

2. FINDING: **SITE SUITABILITY –** The site is physically suitable for the use proposed, and findings shall be made on a future redesign.

EVIDENCE:

a) As part of project review under PLN100338, the project was reviewed for site suitability by: HCD-Planning; Cypress Fire Protection Districts; HCD-Engineering Services; HCD-Environmental Services; and the Environmental Health Bureau. None of these departments/agencies has opined that the site is unsuitable for the proposed development. Conditions recommended by these departments and agencies were incorporated in the project Combined Development Permit resolution (Board Resolution No. 23-237).

b) The EIR identified potential impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historical Resources, Hydrology and Water Quality, and Noise, which could result from all components of the Project. All impacts other than those associated with the demolition of the Historical Resource are mitigated to a less-than-significant level. Historical Resource impacts has been mitigated, but not to a less than significant level.

c) The technical reports by outside consultants listed in the References of the Final EIR indicated that there are no physical or environmental constraints that would indicate that the site is not suitable for the use proposed. County staff has independently reviewed these reports and concurs with their conclusions.

d) The site designated for residential use. A residential structure has existed on the site since the 1950's.

e) The project planner conducted a site inspection on August 5, 2024, to verify that the site is suitable for the proposed use.

f) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD-Planning for the proposed development found in Project File Nos. PLN240077 and PLN100338.

3. FINDING: **HEALTH AND SAFETY -** The establishment, maintenance, or operation of a future redesigned project is not anticipated to be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use nor will it be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County. However, this finding shall be made on a future redesign.

EVIDENCE:

a) All necessary public facilities are available to the Proposed Project. Water and sewer service will be provided by California American Water and the Carmel Area Wastewater District through the Pebble Beach Community Services District. The Environmental Health Bureau reviewed the project application and did not impose conditions pertaining to water, sewer, or solid waste. A water permit from the Monterey Peninsula Water Management District is required prior to the issuance of a building permit.

b) The Proposed Project includes construction of one structure designed for residential use. Emergency services are available. Building permits will be required to ensure the building is designed and built in accordance with California Building Standards. Geotechnical engineers have provided recommendations for the development that will be incorporated. Finally, there are no known hazards that may impact the health and safety of area residents.

c) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD - Planning for the proposed development found in Project File PLN240077.

5. FINDING: **VIOLATIONS –** The subject property complies with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

a) Staff reviewed County of Monterey HCD records and is not aware of any violations existing on the subject property. The site is currently clear of debris from the previously removed structure and has erosion controls in place where the residence had been. Natural and disturbed vegetation is also present on the parcel.

b) Cypress trees on the subject property were involved in Coastal Development Permit and Restoration Plan to resolve prior violations (Board Resolution No. 13-021 for PLN100418), approved for the subject parcel. Tree replanting and

monitoring that was required by the 2013 resolution was partly incomplete, the bond was not completely returned to the permit holder, and replanting of a tree intended to replace a large tree removed from the west side of the house was subsequently incorporated into PLN100338.

c) The project planner a conducted a site inspection on August 5, 2024, to verify that no violations exist on the property.

d) The application, plans, and supporting materials submitted by the project applicant to the County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077.

6. FINDING: **CEQA (CONSIDER PREVIOUSLY CERTIFIED FINAL EIR, RECIRCULATION NOT WARRANTED) –** Public Resources Code section 21080(d) and California Environmental Quality Act (CEQA) Guidelines section 15064(a)(1) require a project to undergo environmental review if the lead agency finds that, in light of the whole record before it, there is substantial evidence that the project may have a significant effect on the environment. The County prepared a Final EIR dated October 2022 for PLN100338. The Final EIR responded to comments received during the Draft EIR circulation period of August 22, 2018 to October 12, 2018. Through adoption of Resolution No. 23-236, the Board of Supervisors certified the Final EIR. Pursuant to CEQA Guidelines section 15162, when an EIR has been certified, no subsequent EIR shall be prepared for the project unless the agency determines that substantial changes are proposed, or substantial changes occur with respect to the circumstances under which the project is undertaken.

EVIDENCE: a) The PLN100338 permit was granted subject to 42 conditions of approval that run with the land (condition number 31 was removed by the Board action and is still enumerated without condition requirements, as "reserved"). The Applicant has complied with all the measures and conditions of PLN100338 in timely fashion pursuant to the recorded Mitigation Monitoring and Reporting Plan Agreement (Document No. 2023029686).

b) The previous single-family dwelling was an Historic Resource at the State and Federal level, but not the local level (Monterey County Code Chapter 18.85 requires owner agreement to local listing). Although the EIR found impacts to Historic Resources to be significant with mitigation measures applied, the Board supported demolition in this case and found that there was sufficient evidence to support a Statement of Overriding Consideration (Resolution No. 23-237). Mitigation Measures for Historic Resources were applied to PLN100338, including HR/MM-1.1 (Historic American Buildings Survey) and HR/MM-1.2 (Connell House Web Page), both of which have been complied with prior to the hearing for PLN240077.

c) Issues that were analyzed in the EIR include Aesthetics, Agricultural Resources, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historical Resources, Hydrology and Water Quality, Land Use and Planning, Mineral Resources, Noise, Paleontological Resources, Population and Housing, Public Services, Utilities, Recreation, and Transportation and Traffic. The EIR identified potential impacts that would be less than significant or could be mitigated to a less than significant level associated with all topics, except impacts to Historical Resources, which cannot be mitigated to less than significant levels if a project that involved demolition is chosen. As described in these findings and in the EIR, mitigation measures that avoid or substantially lessen the impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, and Noise have been incorporated (see Finding No. 6). For the impact identified as significant and unavoidable, all feasible mitigation measures have been incorporated, but even with such mitigation, the impacts remain significant.

d) The subject property contains coastal dune habitat and wetland habitat. In accordance with CIP section 20.147.040.B, a Biological Resource Assessment and Supplemental Biological Resources Assessment was prepared (Michael Zander, June 8, 2010 and June 23, 2011, HCD Library File No. LIB100396). Based on those reports, potential impacts were evaluated in the project EIR. The EIR recommended restoration actions for the original project scope, which was a much larger house that was found to have direct and indirect impacts on biological resources. The EIR found that the Reduced Project Alternative would not impact a significant amount of ESHA. Thus, Board Resolution Nos. 23-236 (EIR) and 23-237 (Approval of a conceptual Reduced Project Alternative) found BIO/MM-3.9 (Offsite restoration of sand dune habitat) extraneous, and both it and its monitoring action BIO/MMA-3.9.1 were removed. The Project's site review Coastal Administrative Permit was approved with voluntary restoration of approximately 1.67 acres of sand dune habitat on the project site and monitoring the restoration success for five years. Mitigation measures applied to the Combined Development Permit (PLN100338) accomplish the restoration and avoidance of impacts to biological resources through BIO/MM-2.1 (Restoration Monitor Funding Agreement), BIO/MM-2.2 (Environmental Awareness Training), BIO/MM-2.3 (Surveys for California Legless Lizard and Other Reptiles), BIO/MM-2.4 (California Legless Lizard Best Management Practices, "BMPs"), BIO/MM-2.5 (Nesting Bird Survey and Buffer Zone), BIO/MM-2.6 (Active Bird Nest Buffer), BIO/MM-3.2 (Dune

Restoration Plan Bond), BIO/MM-3.3 (Monitoring Contract), BIO/MM-3.4 (Fencing that Excludes Adjacent ESHA), BIO/MM-3.5 (Stockpiles and Staging Areas BMPs), BIO/MM-3.6 (Control Stormwater or Wastewater Outfall), BIO/MM-3.7 (Plant Species Landscape Plan), BIO/MM-3.8 (Landscape Plan Substrates), BIO/MM-4.1 (100-FT Buffer Zone from Juncus Articus Herbaceous Alliance Vegetation), and BIO/MM-4.2 (Coastal Wetland Perimeter Flagging). Furthermore, a Coastal Development Permit for development within 100 feet of ESHA was approved with the Combined Development Permit for PLN100338.

e) The subject property is in a high archaeological resource sensitivity area. In accordance with CIP section 20.147.080.B, a Phase 1 Archaeological Report was prepared (Doane and Breschini, February 2, 2012, HCD Library File No. LIB100397). Due to the project's proximity to known archaeological and tribal cultural resources, the EIR prepared for PLN100338 recommended measures for avoidance of impacts on cultural and tribal cultural resources. The development entitled under PLN100338 included Mitigation Measures that required archaeological resource/artifact training for construction personnel (AR/MM-1.1), an onsite archaeological monitoring plan to be developed (AR-MM-1.2) with active monitoring (AR/MM-1.3) and directed action if human remains are exposed during construction (AR/MM-2.1). These are active conditions of approval for PLN100338.

f) Mitigation Measures applied to PLN100338 include those mentioned above for Biological Resources, Aesthetics, Archaeological and Tribal Cultural Resources, as well as for Air Quality (AQ/GHG/MM-1.1 and AQ/GHG/MM-1.2), Geology and Soils (GEO/MM-1.1), Hazards and Hazardous Materials (HAZ/MM-1.1, HAZ/MM-1.2 and HAZ/MM-1.3) Hydrology and Water Quality (HYD/MM-1.1 and HYD/MM-2.1) and Noise (NOI/MM-1.1).

g) The EIR examined eight alternatives and one "no project" alternative to the original project and evaluated them separately, comparing their potential impacts to those of the originally proposed project. This Design Approval is intended to reflect the parameters of the Reduced Project alternative, Alternative 6. The redesign is anticipated to be smaller than the project considered in the EIR prepared for PLN100338 in all ways. The original project was 11,933 square feet and two stories with 1,950 square feet of paved areas for a total impervious lot coverage of 10.6 percent. The PLN240077 design shall be a reduced project in keeping with Board direction. Therefore, the Proposed Project shall meet or exceed the EIR's estimation of a Reduced Project Alternative to the original project.

7. FINDING: **APPEAL –** Pursuant to Monterey County Code section 20.86.030, Sam Reeves (neighbor), AMAP (interested organization), and Massy Mehdipour (Applicant) separately and timely appealed the Planning Commission's April 30, 2025 decision approving the Design Approval, Coastal Development Permit for tree relocation, and variance. Upon consideration of the written and documentary evidence, the staff report, oral testimony, other evidence presented, and the administrative record as a whole, the Board finds some merit to the Reeves and AMAP contentions. The Board also found the Mehdipour appeal to have some merit. The Board's reasoning and response to the summarized contentions follows. Copies of the appeals and itemized responses prepared by staff, but which the Board hereby adopts and incorporates into this Resolution, are Attachment C to the staff report for the July 8, 2025 Board of Supervisors hearing.

EVIDENCE: a) Appellant Reeves contends that the Applicant and staff made numerous misstatements of the fact in the application, concerning past actions, and as to the Board's decision; these Appellants remarked on the perceived misstatements and contend that they were not corrected as part of the Planning Commission hearing.

County's response:. Staff has corrected an error in calculations of the square footage of neighborhood homes in the staff report and presentation for the July 8, 2025 hearing. The history of tree removal and the proposed tree relocation were also clarified and addressed.

b) Appellants Reeves contends that public comment during the hearing was not memorialized in Finding 1.

County's response: The appellant is correct on this issue. Post-hearing edits should have been made. This hearing is *de novo* and testimony received in the hearing will be noted in the final resolution.

c) Appellants Reeves and AMAP contend that there are numerous factual errors in the Resolution, including the following bulleted items:

- Finding 1, b equated the proposed project with Alternative 6, and the appellant found that not to be correct, based on a line taken from the Combined Development Permit Board Resolution No. 23-037 [*sic*] Finding 1.

County's response: This contention has some merit. The Board decision in June of 2023 (Resolution No. 23-237 stated, in relevant part:

"4) *Approve a Coastal Development Permit for the "Reduced*

Project" (Alternative 6 of the Final EIR) consisting of:
a) Coastal Administrative Permit to allow the demolition of an existing 4,124 square foot single family residence;
b) Coastal Administrative Permit for the construction of a new single-family residence of similar size, in concept, as the existing residence;
c) Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat;
d) Coastal Development Permit for development on slopes exceeding 30 percent;
e) Coastal Development Permit for development within 750 feet of a known archeological resources;"

The description of Alternative 6 of the EIR describes a new residence that is in the "footprint" of the former Connell House and that is at a height that does not result in "ridgeline development." Subjection b of the action describes "construction of a new single-family residence of a similar size as the existing residence."
The house design reviewed by the Planning Commission was not in the exact footprint of the Connell House. Instead, the Applicant proposed to develop the front courtyard area in exchange for leaving an area that will be left undeveloped in the rear yard. The front courtyard of the Connell House had a paved patio and landscaping flanked on three sides by the U-shaped house (the front courtyard). The Applicant proposed to fill in the front courtyard which included an area that was covered by a concrete patio (hardscape) and an additional area beyond the patio. In exchange for adding to the footprint in the courtyard area, the Applicant proposed to leave a smaller area of the northwest corner and area adjacent to the former courtyard of the Connell House footprint undeveloped. Additionally, the proposed house has a floor area of 8,290 square feet and a height of 25.5 feet at its tallest points. This represented an over 3,000 square foot increase in size and a 3.5 foot increase in height when compared to the size and height of the Connell House. The size and height was not similar to the Connell House.

After the July 8, 2025 Board hearing, the applicant submitted a revised design with a request that this revised design be considered by the Board as an alternative to the motion of intent approved on July 8. The revised design eliminates portions of the prior proposal that were not within the footprint of the Connell House and slightly reduces the size of the new home. The new design is within the footprint of the former Connell House and is consistent with the description of Alternative 6 of the EIR. The floor area of the proposed two-story structure in the revised design has a floor area of 7,690 square feet, reduced from the 8,290 square feet considered on July 8, but still substantially larger than foot Connell House. The proposed height remains 25.5 feet, which is the same as the prior design but is approximately 3.5 feet taller than the Connell house.

Past references to the size of the Connell house in the EIR and the Board Resolution 23-237 indicated that the house was 4,124 square feet in size. It is acknowledged that the size quoted in those documents were estimates based on information available at the time. No survey of the existing house was available as the basis for these estimates. Submitted with the application for the new house was a plan prepared by Whiston Engineers showing the footprint of the Connell House to be 4,630 square feet. Staff reviewed the plans and determined that this calculation appears to include the footprint of the house from a bird's eye view which includes roof overhangs and decks. The prior estimate of square footage was based on the size of the Connell House, not including roof overhangs and decks, so two different things are being measured. However, the Board finds this contention has merit and, therefore, requires the proposed design be modified to further reduce development.

- Finding 1, Evidence l: "the height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site)." LUP Policy 51 is described, and the Proposed Project is discussed as if it is consistent with the policy. Appellant argues the evidence is to the contrary because the Proposed Project is larger than existing dwellings in the Signal Hill enclave.

County's response: Finding 1, Evidence "m" includes straightforward clear statements. LUP Policy 51 does not require new construction to match other construction in the area. The Board requires a redesign limited to the Connell House's structural footprint. The redesign shall be analyzed for consistency with LUP policies.
Additionally, the County certified an EIR for the project, discussed the potential impacts to Aesthetic Resources, and concluded that the project, as mitigated by habitat restoration and permanent maintenance and tree replacements, would result in a less-than-significant impacts.

- County mistakenly identified two trees in front of the house as significantly pruned trees, which were part of the violations which PLN100418 addressed. The relocation of T4, TS, and T12 will not screen the view of this project from the common public viewing areas of Seventeen Mile Drive and Fanshell Beach.

County response: There are two different tree removal/relocation permits at issue.

First, in 2009, a code enforcement case (CE090288) was initiated as a result of the Applicant's unpermitted tree removal of 2 large Cypress trees. To address that code enforcement case, a Tree Resource Evaluation/Construction/Impact Analysis was prepared by a certified arborist in October 2010 (LIB100394). The report evaluated the eight trees on the site (7 Cypress and 1 Eucalyptus) and documented that two Cypress trees were removed without a permit. Additionally, in December 2011, the arborist documented a cluster of three Cypress trees that had been "excessively pruned" and recommended a 5-year monitoring period for survivability of those trees. On February 5, 2013, the Board of Supervisors approved an after-the-fact permit for the tree removal and required restoration of the site, replanting 2 large Cypress trees to screen the house from views, and monitoring of the trimmed trees, as a condition of approval of that permit (Resolution No 13-021).

The Applicant replanted the trees as required by the condition. One of the replacement trees, located west of the house, did not survive. That tree is required to be replanted again and monitored in accordance with the approved conditions. A second tree was replanted is south of the proposed house near the existing driveway. That tree survived; it is alive today. However, the Applicant also proposed that this tree be relocated approximately 20 feet south. The trees that were trimmed have been monitored and have survived. The trimmed trees are subject to the conditions imposed as part of Resolution No 13-021 and are not the subject of the proposed new house design. Included in the permit now before the Board (PLN240077), the Applicant proposed to relocate three trees as part of the new construction including one tree that was required to be planted by Resolution No. 13-021. Two trees proposed for relocation would be moved a few feet from their current location (in the front yard) so that they would continue to provide screening when viewed from Signal Hill Road and they will still provide a tree-lined backdrop to the house when viewed from 17 Mile Drive. The Cypress tree located near the existing driveway that was required to be replanted under prior permits shall not be permitted to be relocated. The necessity for tree relocations shall be reviewed with the redesign and, if needed, a Finding shall be made.

d) Appellant Reeves contends that was a factual error in the Resolution in Finding 6. Evidence b, which discussed the historic status of the Connell House. The appellant would prefer the evidence to clarify the reason that the house was not listed locally.

County response: The County Code does not allow the Historic Resources Review Board to list an historic resource on the County's local register without property owner permission. The evidence does not misconstrue the establishment of the Connell House as an historic resource at the levels that it was listed. This

point is irrelevant to the decision at hand. Demolition of the Connell House was evaluated in the EIR, approved by the Board of Supervisors, and the house has been demolished.

e) Appellant Reeves contends that County should not have decided on a variance without noticing a variance as requested as part of the entitlements sought by the project and reviewed at the hearing.
County's response: Staff acknowledges that no notice was given for consideration of to support a variance by the Planning Commission. When the Applicant proposes a redesigned project, a variance may be justified and noticed in this case because the Board of Supervisors, in adopting a resolution to conceptually approve a new house that reflects Alternative 6 of the EIR, limited the new development to occur within the footprint of the former residence. The footprint of the former residence was non-conforming to front setback requirements and rebuilding a home in the footprint would include new construction within the required front setback.

f) Appellants Reeves and AMAP contend that the project is inconsistent with the policies of the DMF LCP, particularly relating to visual resources.
County's response: The Board requires the proposed design be modified to further reduce development that extends beyond the footprint of the former Connell House. The project will be reviewed with the policies of the Del Monte Forest Land Use Plan.

g) Appellants Reeves and AMAP contend that the action of the Planning Commission failed to recognize that the Applicant did not comply with the prior action by the Board of Supervisors for PLN100418 to plant and maintain Monterey Cypress trees to screen the property from Seventeen Mile Drive and Fanshell Beach.
County's response: The contention raises an issue with tree removal that has been resolved through subsequent permitting and has ongoing condition compliance and monitoring requirements. The evidence in the condition compliance record for PLN100418 in the form of tree status reports prepared by a qualified arborist indicate that replacement trees failed due to fungus infections, not due to deliberate removal of healthy trees. The conditions of approval on that restoration permit included replanting in the case of tree failure. The Board applied Condition No. 16, Tree Replanting and Protection, which requires the owner to

". . . cause a 48-inch box Cypress tree to be planted in a location that will provide screening of the new development when viewed from Fanshell Beach and 17-Mile Drive. The tree shall replace the large Monterey Cypress tree which was previously removed from the property and was not successfully replanted

per the after-the-fact Planning Permit (PLN100418, Reso. No. 13-021) to clear a code violation for tree removal (CE090788)."

This condition was discussed in the Planning Commission hearing on PLN240077, during Commission deliberations. The tree was not drawn into the arborist's tree replacement. The tree relocation and protection plan submitted with the PLN240077 application was different, as the arborist (James Allen) was contracted to assess tree relocations related to this permit application. However, when the final landscaping plan is received pursuant to conditions of approval of PLN100338, all relocation and replanting shall be included in the plan for review and approval.

h) Appellant Reeves contends that the decision of the Planning Commission as described in Resolution No. 25-012 is contrary to the 2023 findings and decision of the Board of Supervisors: "Finding 1, evidence i: The Reduced Project is anticipated to be no taller or larger than the existing dwelling. A Design Approval shall ensure that colors and materials will blend with the natural surroundings."
County response: This comment is essentially the same as appellant's contention listed as the second bullet in Finding 8, evidence "c."

i) Appellants Reeves and AMAP contend that the Proposed Project is too tall. Specifically, Reeves contends that the Proposed Project is not the height that was mentioned in the 2023 findings and decision of the Board of Supervisors in Finding 1, evidence m: "Maximum allowable height is 30 feet, and the Reduced Project maximum height is anticipated to be approximately 22 feet from average." At 25.5' above natural grade it is higher than the 22' above natural grade described in the FEIR, staff reports and Board resolution. With a 30' high frontal view from Seventeen Mile Drive, it is 8 feet higher than the approximate 22' high frontal view of the Connell House.

County Response: This contention is also addressed in Finding 8, Evidence c. The new design will be reviewed for consistency with the adopted Local Coastal Plan regulations, the description of the reduced project alternative (Alternative 6) in the EIR, and the Board's direction.

Ridgeline Development was discussed in the EIR in relation to the full height project and the alternatives. As discussed in the EIR, the ridgeline effect that would potentially occur under the reduced alternative project is minimized by a reduced roofline. The EIR did not specify by how much the roofline would be reduced for Alternative 6 but stated that the height would need to avoid ridgeline effects.

j) Appellants Reeves and AMAP contend that the plans do not incorporate the replacement of trees required by the Board of

Supervisors in their decision January 2013 decision on PLN100418.

County response: The contention is acknowledged. The Board finds that the replanted tree, which was required to be planted near the existing driveway by PLN100418, does not require relocation. The tree shall be retained. This is the tree that was required to be planted in accordance with the Board's prior decisions. The other tree that was required to be replanted was replanted, but did not survive. As required by the conditions of the prior approval, that tree must be replaced and monitored for survivability pursuant to the prior approvals.

k) Appellant Mehdipour contends that Condition 10 was improperly modified without public noticing of the action. Appellant claims that it was not fair or impartial for Commissioners to suggest revising the Board's Resolution after public and applicant comment periods were closed, and that the Planning Commission lacked authority to contradict the Board's decision. Finally, Applicant maintains that the Planning Commission infringed on her rights by not returning to ask if they accepted the new easement.

County's response: By attempting to enforce what the Commissioners saw as a closer consistency with the LUP, the Planning Commission purported to override an existing condition of approval that was approved by the Board. The Planning Commission has no authority to take that action. The purview of the Planning Commission was limited to reviewing the Project to satisfy Board direction and Design District/LUP criteria. Furthermore, it came up after the public hearing was closed and the Applicant should have been allowed to respond to the addition. Finally, amendment to conditions of approval of PLN100338 was not agendized. For these reasons, the appeal by the Applicant is found to have some merit. The Board's original Condition No. 23 shall stand and the contrary finding by the Planning Commission is overruled.

l) Coastal Commission. Pursuant to Title 20, Section 20.86.080.A, the project, once final action is taken, will be subject to appeal by/to the California Coastal Commission because it involves development between the sea and the first through public road paralleling the sea (i.e., State Route/Highway 1). This resolution represents a denial of the proposed Design Approval. Denials are not appealable to the Coastal Commission.

DECISION

NOW, THEREFORE, based on the above findings and evidence and the administrative record as a whole, the Board of Supervisors does hereby take the following actions:

1) Partially uphold the appeals by Samuel Reeves and the Alliance of Monterey Area Preservations from the April 30, 2025 Planning Commission decision approving the Design Approval;
2) Uphold the appeal by Massy Mehdipour, Applicant, from the April 30, 2025 Planning Commission decision approving the Design Approval with Condition No. 10;
3) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that the Proposed Project is consistent with Alternative 6 of the FEIR and does not warrant an addendum pursuant to CEQA Guidelines section 15162; and
4) Disapprove the proposed Design Approval (PLN240077) for a 7,690 square foot single family dwelling with a height of 25.5 feet at the highest points and reiterate the June 27, 2023 decision (Resolution No. 23-237) Approving a Combined Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR) consisting of a Coastal Administrative Permit for the construction of a new single-family residence of similar size, in concept, as the Connell House (4,124 square feet in size and 22 feet in height)..

In the matter of the application of:
SIGNAL HILL LLC (PLN240077)
RESOLUTION NO. _____

Resolution by the County of Monterey Board of Supervisors to:

1) Partially uphold the appeals by Samuel Reeves and the Alliance of Monterey Area Preservations, from the April 30, 2025 Planning Commission decision approving the Design Approval;
2) Uphold the appeal by Massy Mehdipour, Applicant, from the April 30, 2025 Planning Commission decision approving the Design Approval with Condition No. 10;
3) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that the Proposed Project is consistent with Alternative 6 of the FEIR and does not warrant an addendum pursuant to CEQA Guidelines section 15162;
4) Approve a Design Approval for construction of an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof that fulfills the requirements of the "Reduced Project," Alternative 6 of the Final EIR;
5) Approve a Coastal Development Permit to allow the relocation of two Cypress trees;
6) Approve a Variance for structural development in front setback; and
7) Amend Condition No. 23 of Resolution No. 23-237 to increase the conservation scenic easement for the project to 1.67-acre area.

[1170 Signal Hill Road, Pebble Beach, Del Monte Forest Area Land Use Plan (APN: 008-261-007-000)]

The Signal Hill LLC application for a Design Approval, Coastal Development Permit for tree relocation, and Variance to front setback (PLN240077) (the Proposed Project) came on for public hearing before the County of Monterey Board of Supervisors on July 8, 2025 and August 26, 2025. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Board of Supervisors finds and decides as follows:

FINDINGS

1. FINDING: **PROCESS, PROJECT DESCRIPTION AND CONSISTENCY** – The County has processed the subject application for construction of a single-family dwelling (Planning File No. PLN240077/Signal Hill LLC) in compliance with all applicable procedural requirements. The project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE:

a) Conformance with Plans. Staff reviewed the updated Project for consistency with the text, policies, and regulations in:
- the 1982 Monterey County General Plan;
- Del Monte Forest Area Land Use Plan (LUP);
- Monterey County Coastal Implementation Plan Part 5 (CIP, Coastal Zoning Ordinance);
- Monterey County Zoning Ordinance (Title 20);
- The adopted Final EIR for the Signal Hill project; and
- Board Resolutions related to the development of the site.

Public comment submitted during project review alleged that the project was inconsistent with the text, policies, and regulations in these documents on various grounds. These comments have been considered and appropriate revisions to the project and conditions of approval have been made. Contentions of the appeal are discussed in Finding No. 10.

b) Project Description. The Proposed Project is for construction of an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof. The project includes tree relocation (limited to 2 Cypress trees) to accommodate new construction.

c) Allowed Use. The property is located at 1170 Signal Hill Road, Pebble Beach (Assessor's Parcel Number 008-261-007-000), Del Monte Forest Area Land Use Plan (LUP). The parcel is zoned "LDR/1.5-D (CZ)" (Low Density Residential, 1.5 acres per unit with Design Control Overlay [Coastal Zone]), which allows residential uses. This Proposed Project consists of construction of a new single-family dwelling with associated site improvements for residential use. Tree removal proposed as part of the project is analyzed for consistency with the LUP, CIP, and Title 20 Zoning Ordinance and a Coastal Development Permit with supporting finding is part of this entitlement. Therefore, the Proposed Project is an allowed land use for this site.

d) Project Background. On May 9, 2023 and June 27, 2023, the Board of Supervisors heard appeals from Raymond Neutra, Samuel Reeves, and the Alliance of Monterey Area

Preservationists (AMAP) of the Planning Commission's January 25, 2023 grant of a Combined Development Permit for this property based on the EIR's "Reduced Height Project" Alternative (Alternative 9 of the EIR). On June 27, 2023, the Board approved a Combined Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR), in concept, as there were no plans prepared for it to be reviewed at the hearing (Resolution No. 23-237). Resolution No. 23-237 included approval of a Coastal Administrative Permit to construct a new single-family residence of similar size as the existing residence. The Board also approved a Coastal Administrative Permit to demolish the Connell House. The Board's motion adopting its decision included the "stipulation that the construction is in the footprint of the Connell House as it was" (motion statement by Chair Church at minute 3:41 of June 27, 2023 Board hearing zoom recording). The building footprint of the Connell House did not conform to the 30-foot front setback of the LDR zoning district. The Board did not specify that the development footprint should be shifted out of the setbacks. On June 27, 2023, the Board of Supervisors also adopted Resolution No. 23-236, which adopted the Final EIR prepared for the Signal Hill LLC project together with a Statement of Overriding Considerations. The Board approved Condition No. 23 specifying that the project's CSE would be at least 2:1 in size for the area disturbed by the construction of the reduced project.

e) The Final EIR describes its Reduced Project Alternative 6 as subject to these constraints: reduce the size of the proposed single-family residence to stay within the existing developed footprint and to avoid building heights that extend above the ridgeline (EIR Chapter 5, page 5-9). In approving the Coastal Administrative Permit to construct a residence, the Board directed "that the construction is in the footprint of the Connell House as it was" (motion statement by Chair Church at minute 3:41 of June 27, 2023 Board hearing, zoom recording).

f) In approving the Reduced Project concept (Resolution No. 23-237), the Board of Supervisors prohibited the replacement single-family dwelling from expanding beyond the building footprint of the previous dwelling. The plans attached to this Resolution, inclusive of roofs, decks, and hardscapes, do not expand beyond the Connell House's historic footprint and it is designed at a height that does not constitute ridgeline development.

g) Design Review. The site is in a Design Control (D) Zoning District. The purpose of the Design Control Zoning District is to provide a district for the regulation of the location, size, configuration, materials, and colors of structures and fences in those areas of the County where the design review of structures is appropriate to assure protection of the public viewshed, neighborhood character, and to assure the visual integrity of

certain developments without imposing undue restrictions on private property. The Signal Hill LLC project has been reviewed for siting, design, colors, materials, height, character, and viewshed impacts. Project siting is generally in the same location as the previous house, close to Signal Hill Road, with Cypress trees on either side of it. The Proposed Project includes exterior colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof (see attached plans). The homes in this area have a variety of architectural styles. As proposed, the design and architectural elements are consistent with the mixed neighborhood character. The proposed colors, materials, bulk, and mass will not detract from the surrounding environment and are consistent with the surrounding residential neighborhood character.

h) Development Standards. As detailed in the attached plans, the Proposed Project meets all required development standards established in Title 20, except the front setback, which conforms with the Board of Supervisors' direction. Title 20, Chapter 20.14 establishes the development standards for the subject parcel, zoned Low Density Residential with a maximum gross density of 1.5 acres/unit and a Design Control Overlay or "LDR/1.5-D(CZ)." Required setbacks for main structures are 30 feet (front) and 20 feet (rear and side). The original Connell House was in the front setback. The direction of the Board of Supervisors on the Proposed Project, when it gave its conceptual approval, was to site the new structure in the same building footprint as the previous single-family dwelling. To comply with this direction, the Proposed Project will continue to be within the front setback. A Variance to setback regulations was requested and is part of this decision (Finding No. 9).

   The maximum height of the main dwelling is 25.5 feet above average natural grade (ANG), meeting the 30-foot height maximum for this zoning district. The maximum allowable building site coverage is 15 percent (14,146 square feet/94,307 square feet), and the project will result in building site coverage of less than 4.4 percent (4,122 square feet/94,307 square feet). The maximum allowable floor area ratio is 17.5 percent (16,504 square feet), and the project will have a floor area ratio of approximately 8.15 percent (7,689.9 square feet). The Proposed Project meets the required height, building site coverage, and floor area ratio regulations.

i) Tree Removal. Two Monterey Cypress trees will be transplanted for the development. An Arborist Report prepared for the PLN100338 project concluded that the trees are not within the native habitat identified as a type of ESHA in Figure 2a of the Del Monte Forest Land Use Plan. The existing trees are in the front setback of the previous development and the proposed replanting locations are also near the proposed

structure on the same side. The proposed project that was appealed to the Board of Supervisors requested removal of a third Monterey Cypress tree, but it was identified as part of a previous Coastal Development Permit and Restoration Plan (Resolution No. 13-021 for PLN100418). The Board does not find evidence to require that the Cypress tree near the existing driveway that was required to be replanted under prior permits must now be relocated. Therefore, the Applicant has agreed that this tree shall be protected in place during construction. The replanting of the two permitted trees shall be overseen by a qualified arborist and a 5-year monitoring program shall be followed as was required for all replanted trees on the property. This requirement ensures the health and survival of the Cypress trees and long-term screening of the development. Tree removal is addressed in Finding 4 of this Resolution.

j) Development on Slopes. Pursuant to section 20.64.320 of the Monterey County Coastal Implementation Plan Part 1 (Coastal Zoning Ordinance), a Coastal Development Permit is required for development on slopes of 30% or greater. The Proposed Project involves development on approximately 800 square feet of area containing slopes greater than 30%. The Proposed Project minimizes development on slopes and a geotechnical report recommends that the development on slopes is feasible. A Coastal Development Permit for development on slopes was included in the Board of Supervisors' Resolution No. 23-237. Conditions applied to the previous permit (PLN100338) for potential impacts due to development on slopes required actions that have begun and will continue to be implemented; no further mitigation is required.

k) Development within 100 feet of Environmentally Sensitive Habitat. Pursuant to section 20.14.030.E, of the Coastal Zoning Ordinance, a Coastal Development Permit is required for development within 100 feet of Environmentally Sensitive Habitat Areas (ESHA). The site is in coastal sand dune habitat, which the LUP and CIP deem protected. With grading and construction, staging areas, up to 0.39 acres will be impacted from construction of the Proposed Project. Restoration of native dune habitat is proposed. A Coastal Development Permit for development within 100 feet of ESHA was included in Board of Supervisors' Resolution No. 23-237. Conditions applied to the previous permit (PLN100338) for potential impacts to ESHA required actions that have begun and will continue to be implemented and no further mitigation is required. See Finding 6 for discussion of biological resource mitigations.

When development is allowed within 100 feet of ESHA, LUP ESHA Policy 13 requires some portion of the property to be conserved in a Conservation and Scenic Easement Deed (CSED). The Planning Commission found the CSED

requirement of Board Resolution No. 23-237, which was for a 2:1 ratio of construction impacted area, to be insufficient to protect the sand dune ESHA outside of the structures allowed for development by this permit. The applicant has offered to extend the Conservation and Scenic Easement (CSE) to cover all areas of the property that are planned for restoration, 1.67 acres. This is in keeping with the Final EIR's recommendation for a CSE based on the originally proposed, much larger project.

LUP Policy 17 recommends that the remnant native sand dune habitat along the shore in the Spanish Bay planning area, on Signal Hill near the former Spyglass Quarry, and adjacent to 17-Mile Drive in the Spyglass Cypress planning area to be preserved through open space CSE conveyed to the Del Monte Forest Foundation. By increasing the size of the CSE, the Project will be more consistent with the LUP. As part of this approval, the Board amends Board Resolution no. 23-237 Condition No. 23 (BIO/MM-3.1), adjust the CSE size to 1.67 acres and provide that the CSE shall cover all restored areas.

Prior to issuance of construction permits, Applicant shall submit to the County of Monterey HCD – Planning, for its review and approval, a CSE exhibit (plat and legal description) that illustrates complete sand dune preservation where it is expected to be restored. The Deed shall allow habitat restoration; other resource dependent uses are permitted. The only deviations from such restrictions may be to repair existing sewer cleanouts and associated sewer pipes that are located in the area. The deed restrictions shall require any future work on the sewer cleanouts and associated piping to be monitored by a qualified biologist and all disturbance areas to be restored to central dune scrub habitat per the specifications put forth in Applicant's Dune Restoration Plan. Applicant/Owner shall record the approved easement reflecting compliance with the measure prior to issuance of the construction permit. (Condition No. 9).

l) Development within 750 feet of known archaeological resources. Pursuant to LUP Policy 58 and CIP section 20.147.080.B, an archaeological survey was prepared for PLN100338. The general surface reconnaissance on the subject parcel had results that were negative for resources, but the report's research found a known prehistoric site within 750 feet of the project site. A Coastal Development Permit is required for development within 750 feet of a known archaeological site was included in the Board of Supervisors' Resolution No. 23-237. Conditions applied to the previous permit (PLN100338) for potential impacts to archaeological resources required actions that have begun and will continue to be implemented, and no further mitigation is required. See

Finding 6 for discussion of (AR/MM-1.1), (AR/MM-1.2), (AR/MM-1.3) and (AR/MM-2.1).

m) Visual Resources. The property is in the viewshed area of 17 Mile Drive, as mapped in Figure 3 of the Del Monte Forest Land Use Plan. The property is visible from the public viewing area of Fanshell Beach. The proposed single-family dwelling is just below the crest of a hill. As discussed in Evidence "e," the height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site). LUP Policy 51 requires buildings developed on residential lots in the Visual Resources area to be "situated to allow the highest potential for screening from view." LUP Policy 56 urges design and siting of structures in scenic areas should not detract from scenic values and should be subordinate to, and blended into, the environment. Proposed colors and materials consist of light brown stucco, light brown stone cladding, gray gravel roofing, and black metal door and window frames.

The proposed design is consistent with these viewshed policies because of its natural colors and materials and flat roof, all of which reduce its prominence in the public viewshed and complement the natural scenic assets. Applicant has reduced the size of the residence from approximately the 8,290 to 7,690 square feet to better comply with the direction of the Board, and in doing so better comply with applicable LUP policies requiring new structures to be subordinate to the environment. The proposed size does not conflict with LUP Policy 51 because existing trees near the project site offer screening, and the trees proposed to be relocated will be sited near the structure. To further address viewshed policies, a Tree Planting and Protection Condition was applied to PLN100338 (Condition No.16). A 48-inch Cypress tree shall be planted near the house to increase the quality of screening of existing trees onsite. Condition No. 8 of this Resolution brings this forward.

As designed, the Proposed Project roofline will remain below the tree line behind and around it from all public vista points. Section 20.66.010 of the Coastal Zoning Ordinance requires a Coastal Development Permit for Ridgeline Development. Del Monte Forest Area CIP section 20.147.070(6) outlines the criteria for granting permits for new development that is silhouetted against the sky, or ridgeline development. No permit is required for ridgeline development in this case, based on staff review of the staking and flagging, Del Monte Forest Land Use Advisory Committee review of the project, and the attached updated Plans.

Although the Proposed Project is in a high visual sensitivity area, as sited, designed, and conditioned, it will not cause adverse visual impacts. DMF LUP Policy 48 states that development in visually prominent settings shall be sited and designed to avoid blocking or having a significant adverse impact on significant public views. Title 20, section 20.06.1275, defines "substantial adverse visual impact" as "a visual impact which, considering the condition of the existing viewshed, the proximity and duration of view when observed with normal unaided vision, causes an existing visual experience to be materially degraded." The proposed roofline will be 22 feet above Average Natural Grade (ANG) for approximately half of the elevation visible from 17 Mile Drive and Signal Hill Road. The other portion of the roofline will be 25.5 feet above ANG. Staff assessed the visual impacts of the Proposed Project on August 5, 2024. From 17-Mile Drive, the staking and flagging presented a new (replacement) structure that would be on the larger end of the array of structural massing of single-family dwellings currently permitted in the surrounding residential area. Staff found that the lowered height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site). Once constructed, and with adherence to mitigation measures for restoration of 1.67 acres of the site to natural sand dune vegetative community, the bulk and massing of the dwelling will not significantly alter the viewshed of the Pebble Beach neighborhood. The roofline will remain below the tree line behind and around it from all public vista points.

As redesigned in response to the July 8, 2025 public hearing, the Proposed Project does not present exceptional bulk or height beyond the existing and permitted dwellings within the public viewshed (Fanshell Beach and 17 Mile Drive locations). Staking and flagging was not visible from any other public viewing area due to trees in line of sight and distance. Therefore, the Proposed Project will not create a substantial adverse visual impact. All new exterior lighting shall follow the dark sky regulations required by Mitigation Measure Conditions applied to the previous permit (PLN100338) for potential impacts to aesthetics required actions that will be implemented and no further mitigation is required. See Finding 6 for discussion of AES/MM-3.1..

n) Site Visit. The project planner conducted a site inspection on August 5, 2024, to assess visual impacts and confirm site conditions for the project on the subject parcel.

o) Land Use Advisory Committee. Based on the Land Use Advisory Committee guidelines adopted by the Monterey County Board of Supervisors (Resolution No. 14-373), this application warranted referral to the LUAC because the

Proposed Project includes a Design Approval that requires a public hearing. The project was referred to the Del Monte Forest Land Use Advisory Committee (LUAC) for review on August 1, 2024, The LUAC voted 8 yeas, 0 noes to support the project as proposed prior to the redesign which reduced the size of the proposed project.

p) On April 30, 2025, the County of Monterey Planning Commission held a duly noticed public hearing and unanimously approved the Design Approval, Coastal Development Permit for three Cypress tree relocations, and Variance to front setback by a vote of 10 yeas - 0 noes (Planning Commission Resolution No. 25-012).

q) Pursuant to Title 20 sections 20.86.040 and 050, on May 23, 2025, Sam Reeves ("Appellant" and/or "Reeves"), represented by Lombardo and Associates, timely appealed the April 30, 2025, decision of the Planning Commission. The appeal challenges the Planning Commission's approval, contending that the hearing was not fair and impartial, the findings are not supported by the evidence and the decision was contrary to law. See Finding No. 10 (Appeal) for a summary of this appeal's specific contentions and the County's responses.

r) Pursuant to Title 20 sections 20.86.040 and 050, on May 27, 2025, Mimi Sheridan, representing the Alliance of Monterey Area Preservationists (AMAP), timely appealed the April 30, 2025, decision of the Planning Commission. The appeal challenges the Planning Commission's approval, contending that the findings are not supported by the evidence and the decision was contrary to law. See Finding No. 10 (Appeal) for a summary of this appeal's specific contentions and the County's responses.

s) Pursuant to Title 20 section 20.86.040 and 050, on May 23, 2025, Applicant, Massy Mehdipour ("Appealing Applicant" and/or "Mehdipour"), timely appealed the April 30, 2025 decision of the Planning Commission. The appeal challenges the Planning Commission's approval, contending that the hearing was not fair and impartial, the findings are not supported by the evidence and the decision was contrary to law. See Finding No. 10 (Appeal), Evidence "k" for a summary of this appellant's specific contentions and the County's responses.

t) The appeals were timely brought to hearing. Title 20 section 20.86.070 requires that the appeal authority hold a public hearing on an appeal within 60 days of receipt of the appeal, and the 60-day period can be extended if both appellant and Applicant agree to a later hearing date. The appellant and applicant/appellant agreed to a public hearing date of July 8, 2025, which was within the 60-day period.

u) A complete copy of the appeals is on file with the Clerk of the Board of Supervisors. The appeals are also attached with

itemized contention responses as Attachment C to the staff report for the July 8, 2025 Board of Supervisors hearing.

v) The Board of Supervisors heard testimony from the appellants, the Applicant, and the public on July 8, 2025. The Board also deliberated on the Proposed Project and decided to continue the hearing to date certain of August 26, 2025. The intention was for staff to return with a resolution that upheld appeals and directed the Applicant to return with a design that complied with their direction to stay within the footprint of the Connell House "as it was" and reduce the overall size of the proposed house. The Applicant caused a modified design to be prepared for consideration by the Board which removed "swapped" areas for development. By removing an exterior stairway (180 square feet) and eliminating the development within the previous patio (approximately 600 square feet), the square footage of the proposed new development is reduced by approximately 780 square feet. The revised design is within the footprint of the former Connell House. The height of the proposed residence was not changed, and it remains at a height that avoids ridgeline development. The revised design fully conforms to the description of Alternative 6 of the EIR. The modified Plans are attached to this resolution.

w) The Board of Supervisors conducted a duly noticed public hearing on the appeal and the project on July 8, 2025 and August 26, 2025. The hearing is *de novo*. Notice of the hearing was published in the Monterey County Weekly, notices were mailed and emailed to all property owners and occupants within 300 feet of the project site, and to all persons who requested notice; and three notices were posted at and near the project site.

x) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077.

2. FINDING: **SITE SUITABILITY –** The site is physically suitable for the use proposed.

EVIDENCE: a) As part of project review under PLN100338, the project was reviewed for site suitability by: HCD-Planning; Cypress Fire Protection Districts; HCD-Engineering Services; HCD-Environmental Services; and the Environmental Health Bureau. None of these departments/agencies has opined that the site is unsuitable for the proposed development. Conditions recommended by these departments and agencies were incorporated in the project Coastal Development Permit resolution (Board Resolution No. 23-237).

b) The EIR identified potential impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historical Resources, Hydrology and

Water Quality, and Noise, which could result from all components of the Project. All impacts other than those associated with the demolition of the Historical Resource are mitigated to a less-than-significant level. Historical Resource impacts have been mitigated, but not to a less than significant level.

c) The technical reports by outside consultants listed in the References of the Final EIR indicated that there are no physical or environmental constraints that would indicate that the site is not suitable for the use proposed. County staff has independently reviewed these reports and concurs with their conclusions.

d) The site designated for residential use. A residential structure has existed on the site since the 1950's. As proposed, residential use of the property would continue.

e) The project planner conducted a site inspection on August 5, 2024, to verify that the site is suitable for the proposed use.

f) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD-Planning for the proposed development are found in Project File Nos. PLN240077 and PLN100338.

3. FINDING: **HEALTH AND SAFETY -** The establishment, maintenance, or operation of the project will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use nor will it be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE:

a) All necessary public facilities are available to the Proposed Project. Water and sewer service will be provided by California American Water and the Carmel Area Wastewater District through the Pebble Beach Community Services District. The Environmental Health Bureau reviewed the project application and did not impose conditions pertaining to water, sewer, or solid waste. A water permit from the Monterey Peninsula Water Management District is required prior to the issuance of a building permit.

b) The Proposed Project includes construction of one structure designed for residential use. Emergency services are available. Building permits will be required to ensure the building is designed and built in accordance with California Building Standards. Geotechnical engineers have provided recommendations for the development that will be incorporated. Finally, there are no known hazards that may impact the health and safety of area residents.

c) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD - Planning for the proposed development are found in Project File PLN240077.

4. FINDING: **TREE REMOVAL** – The siting, location, size, and design has been established to minimize tree removal and has been limited to that required for the overall health and long-term maintenance of the property.

EVIDENCE:

a) Two Monterey Cypress trees will be relocated as part of this project. In accordance with the applicable policies of the Del Monte Forest Coastal Implementation Plan, (DMF CIP), a Coastal Development Permit is required; the criteria to grant said permit have been met.

b) Pursuant to section 20.147.050.B.1 of the DMF CIP, an Arborist Report and Forest Management Plan was prepared for the project (PLN100338; Planning Library Doc. No. LIB100394). The arborist report evaluated the health, structure, and preservation suitability for each tree within or adjacent to the proposed development. The report noted that two trees would be moved from the proposed building footprint to another location near the house. A qualified Arborist reviewed the original report and the currently proposed design and found it would require relocation of three Cypress trees and proposed to move these trees to a nearby location on the subject parcel. The trees are estimated to be 22, 16, and 4 inches in diameter.

One of the larger Cypress trees is in an area adjacent to the proposed foundation. The second is currently where a walkway is proposed. In the application, the Applicant had requested the relocation of the 4-inch diameter Cypress tree outside of the developed area as an accommodation to the construction work area. However, this Board concurs with the expert opinion of County HCD staff that the 4-inch diameter tree is isolated from the construction impact area. With protective fencing, it can be retained in the same location without interrupting construction. In accordance with the applicable policies of DMF CIP, a Coastal Development Permit is required for the two living trees which are within the construction footprint of the Proposed residence.

c) Cypress trees on the subject property were involved in Coastal Development Permit and Restoration Plan (Board Resolution No. 13-021 for PLN100418), approved for the subject parcel. This includes the 4-inch Cypress tree, which was the surviving tree that was replanted to comply with Board Resolution No. 13-021. Tree replanting and monitoring that was required by the 2013 resolution was partly incomplete, the bond was not completely returned to the permit holder, and replanting of a tree intended to replace the large tree removed from the west side of the house was subsequently incorporated into PLN100338. For these reasons, Condition No. 7 requires the relocation of trees allowed under this permit to be regulated per the conditions of Resolution No. 13-021, namely quarterly

monitoring of the replacement trees by a qualified arborist for 3 years and annual monitoring for an additional 2 years, replanting as needed. Arborist shall attend a preconstruction meeting and be present for relocations and any replacement tree planting. Failure to comply with replanting locations will result in a new code enforcement case pursuant to the Mitigation Monitoring and Reporting Program (Board Resolution No. 22-311).

d) The Proposed Project has been designed and sited to minimize the removal of protected trees to the greatest extent possible under the circumstances. Several native Monterey Cypress trees are to the north of the proposed construction site. Relocating the proposed dwelling and courtyard to the south or west would result in a more substantial amount of development on slopes exceeding 30 percent or on areas of sand dune habitat (ESHA). Relocating the dwelling to any location other than the previous dwelling footprint was not allowed in the entitlement for the Coastal Administrative Permit for the project pursuant to Board of Supervisors Resolution No. 23-237.

   As the Proposed Project is now within the previous foundation footprint, new construction would necessitate moving one Cypress tree from the courtyard area where a new foundation will be laid within a short distance from the trees' main roots. A walkway is proposed that would also impact the second Cypress immediately next to it. If the trees were to be retained rather than moved, they would likely suffer direct damage during construction and need to be replaced. Instead, survival is better ensured by requiring a certified Arborist to transplant the whole and undamaged trees prior to construction. Therefore, the criterion for a Coastal Development Permit that the minimum amount necessary to allow for the development is met. This conclusion is further supported by the retention of the 4-inch Cypress in the existing driveway area.

e) Measures for protection of trees during construction are incorporated as Condition No. 5. If transplanting or trimming of the existing trees for construction activities results in a declining or dead condition, Condition No. 7 requires a minimum of one-to-one onsite tree replacement with approval of a Coastal Development Permit.

f) The Cypress trees will be replanted near the proposed dwelling and/or other existing Cypress trees and not in the sand dune area required to be restored as sand dune habitat pursuant to Mitigation Measures required for the related development entitlements in PLN100338. (See Condition No. 8.)

g) Scenic visual resources will not be negatively impacted because the two trees proposed for replanting are behind the Connell House footprint and their new locations would be behind the proposed house, thereby only slightly altering the

viewshed. Condition No. 7 requires a qualified arborist to monitor the canopy to ensure the quality of screening is not reduced by more than 50 percent because of tree decline/trimming. Furthermore, the smallest of the trees proposed for replanting is retained; the relocation of two trees only slightly alters the viewshed.

h) One of the trees that was replanted in front of the Connell House pursuant to Planning Commission Resolution No. 13-021 failed after several replanting efforts and monitoring. Therefore, the related project PLN100338 brought forward the requirement of replanting of the tree in a similar location. Board Resolution No. 23-237, Condition No. 16 requires the owner/applicant to cause a 48-inch box Cypress tree to be planted in a location that will screen the new development when viewed from Fanshell Beach and 17-Mile Drive. The tree shall replace the large Monterey Cypress tree that was previously removed from the property and was not successfully replanted per the after-the-fact Planning Permit (PLN100418, Reso. No. 13-021) to clear a code violation for tree removal (CE090788). (This tree planting was not illustrated in the attached Tree Relocation and Protection Plan. When a landscaping plan is provided for condition compliance on the PLN100338, the location of all trees proposed for planting and replanting will be shown.)

i) The previous arborist report for PLN100338 found the Cypress trees proposed for relocation were previously planted and were not considered part of the "Cypress Forest" designated as an Environmentally Sensitive Habitat in the Del Monte Forest area. No significant long-term effects on the forest ecosystem are anticipated. The Proposed Project will not significantly reduce the availability of wildlife habitat over the long term as the site has surrounding forested areas that are to remain untouched.

j) Staff conducted a site inspection on August 5, 2024 to verify that the tree removal is the minimum necessary for the Proposed Project.

k) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077. Reference also Project File Nos. PLN100338 and PLN100418.

5. FINDING: **VIOLATIONS –** The subject property complies with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

a) Staff reviewed County of Monterey HCD records and is not aware of any violations existing on the subject property. The site is currently clear of debris from the previously removed structure and has erosion controls in place where the residence

had been. Natural and disturbed vegetation is also present on the parcel.

b) The project planner a conducted a site inspection on August 5, 2024, to verify that no violations exist on the property.

c) The application, plans, and supporting materials submitted by the project applicant to the County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077.

6. FINDING: CEQA (CONSIDER PREVIOUSLY CERTIFIED FINAL EIR, RECIRCULATION NOT WARRANTED) – Public Resources Code section 21080(d) and California Environmental Quality Act (CEQA) Guidelines section 15064(a)(1) require a project to undergo environmental review if the lead agency finds that, in light of the whole record before it, there is substantial evidence that the project may have a significant effect on the environment. The County prepared a Final EIR dated October 2022 for PLN100338. The Final EIR responded to comments received during the Draft EIR circulation period of August 22, 2018 to October 12, 2018. Through adoption of Resolution No. 23-236, the Board of Supervisors certified the Final EIR. Pursuant to CEQA Guidelines section 15162, when an EIR has been certified, no subsequent EIR shall be prepared for the project unless the agency determines that substantial changes are proposed, or substantial changes occur with respect to the circumstances under which the project is undertaken.

EVIDENCE: a) Permit PLN100338 was granted subject to 42 conditions of approval that run with the land (condition number 31 was removed by the Board action and is still enumerated without condition requirements, as "reserved"). The applicant has complied with all the measures and conditions of PLN100338 in timely fashion pursuant to the recorded Mitigation Monitoring and Reporting Plan Agreement (Document No. 2023029686).

b) The previous single-family dwelling was recognized as an Historic Resource at the State and Federal level, but not the local level (Monterey County Code Chapter 18.85 requires owner agreement to local listing). Although the EIR found impacts to Historic Resources to be significant with mitigation measures applied, the Board supported demolition in this case and found that there was sufficient evidence to support a Statement of Overriding Consideration (Resolution No. 23-237). Mitigation Measures for Historic Resources were applied to PLN100338, including HR/MM-1.1 (Historic American Buildings Survey) and HR/MM-1.2 (Connell House Web Page), both of which have been complied with prior to the hearing for PLN240077.

c) Issues that were analyzed in the EIR include Aesthetics, Agricultural Resources, Archaeological Resources, Air Quality

and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historical Resources, Hydrology and Water Quality, Land Use and Planning, Mineral Resources, Noise, Paleontological Resources, Population and Housing, Public Services, Utilities, Recreation, and Transportation and Traffic. The EIR identified potential impacts that would be less than significant or could be mitigated to a less than significant level associated with all topics, except impacts to Historical Resources, which cannot be mitigated to less than significant levels if a project that involved demolition is chosen. As described in these findings and in the EIR, mitigation measures that avoid or substantially lessen the impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, and Noise have been incorporated. For the impact identified as significant and unavoidable, all feasible mitigation measures have been incorporated, but even with such mitigation, the impacts remain significant.

d) The subject property contains coastal dune habitat and wetland habitat. In accordance with CIP section 20.147.040.B, a Biological Resource Assessment and Supplemental Biological Resources Assessment was prepared (Michael Zander, June 8, 2010 and June 23, 2011, HCD Library File No. LIB100396). Based on those reports, potential impacts were evaluated in the project EIR. The EIR recommended restoration actions for the original project scope, which was a much larger house that was found to have direct and indirect impacts on biological resources. The EIR found that the Reduced Project Alternative would not impact a significant amount of ESHA. Thus, Board Resolution Nos. 23-236 (EIR) and 23-237 (Approval of a conceptual Reduced Project Alternative) found BIO/MM-3.9 (Offsite restoration of sand dune habitat) extraneous, and both it and its monitoring action BIO/MMA-3.9.1 were removed.

   A Coastal Administrative Permit was approved with voluntary restoration of approximately 1.67 acres of sand dune habitat on the project site and monitoring the restoration success for five years. Mitigation measures applied to the Combined Development Permit (PLN100338) accomplish the restoration and avoidance of impacts to biological resources through BIO/MM-2.1 (Restoration Monitor Funding Agreement), BIO/MM-2.2 (Environmental Awareness Training), BIO/MM-2.3 (Surveys for California Legless Lizard and Other Reptiles), BIO/MM-2.4 (California Legless Lizard Best Management Practices, “BMPs”), BIO/MM-2.5 (Nesting Bird Survey and Buffer Zone), BIO/MM-2.6 (Active Bird Nest Buffer), BIO/MM-3.1 (Conservation and Scenic Easement), BIO/MM-3.2 (Dune Restoration Plan Bond), BIO/MM-3.3 (Monitoring

Contract), BIO/MM-3.4 (Fencing that Excludes Adjacent ESHA), BIO/MM-3.5 (Stockpiles and Staging Areas BMPs), BIO/MM-3.6 (Control Stormwater or Wastewater Outfall), BIO/MM-3.7 (Plant Species Landscape Plan), BIO/MM-3.8 (Landscape Plan Substrates), BIO/MM-4.1 (100-FT Buffer Zone from Juncus Articus Herbaceous Alliance Vegetation), and BIO/MM-4.2 (Coastal Wetland Perimeter Flagging). Conditions applied to the previous permit (PLN100338) for potential impacts to biological resources required actions that have begun and will continue to be implemented. See also Finding 6, Evidence "f."

e) The subject property is in a high archaeological resource sensitivity area. In accordance with CIP section 20.147.080.B, a Phase 1 Archaeological Report was prepared (Doane and Breschini, February 2, 2012, HCD Library File No. LIB100397). Due to the project's proximity to known archaeological and tribal cultural resources, the EIR prepared for PLN100338 recommended measures for avoidance of impacts on cultural and tribal cultural resources. The development entitled under PLN100338 included Mitigation Measures that required archaeological resource/artifact training for construction personnel (AR/MM-1.1), an onsite archaeological monitoring plan to be developed (AR/MM-1.2) with active monitoring (AR/MM-1.3) and directed action if human remains are exposed during construction (AR/MM-2.1). Conditions applied to the previous permit (PLN100338) for potential impacts to cultural and tribal cultural resources required actions that will be implemented; no further mitigation is required.

f) As described in Finding 10, Evidence "k," the Applicant appealed the decision by the Planning Commission to augment the Conservation and Scenic Easement (CSE) from Board of Supervisors Reso. No. 23-237 Condition No. 23 to an easement on every square foot of sand dune and landscaping on the parcel (up to the building/driveway). Condition No. 23 was for a CSE to be required on the restored area of the parcel in 2:1 ratio to the area impacted by development (including construction impacts). As described in Finding 1, Evidence "k," the Applicant offered to update Condition No. 23 to a CSE that would cover all the areas proposed for dune scrub restoration as shown in Figures 2-3 and 4.2-2 of the EIR, 1.67 acres of the subject parcel. The enlargement of the CSE Deed (CSED) to the whole restoration area would ensure long term protection of sand dune ESHA.
By updating the size of the CSED to 1.67 acres, Mitigation Measure BIO/MM-3.1 identified by the EIR for Full-sized Project is utilized by this permit decision and therefore recirculation is not required.

g) Mitigation Measures applied to PLN100338 include those mentioned above for Biological Resources, Aesthetics,

Archaeological and Tribal Cultural Resources, as well as for Air Quality (AQ/GHG/MM-1.1 and AQ/GHG/MM-1.2), Geology and Soils (GEO/MM-1.1), Hazards and Hazardous Materials (HAZ/MM-1.1, HAZ/MM-1.2 and HAZ/MM-1.3) Hydrology and Water Quality (HYD/MM-1.1 and HYD/MM-2.1) and Noise (NOI/MM-1.1).

h) The Proposed Project is consistent with the FEIR. No new review is needed. None of the conditions described in section 15162 that would trigger preparation of a subsequent EIR have occurred. No new information of significant impacts or exacerbated existing impacts has been presented. Moreover, the EIR analyzed the potential impacts of residential development of the lot including removal of several trees and up to 10,008 square feet of structural and hardscape improvements. The Proposed Project includes approximately 6,340 square feet of structural and hardscape improvements and relocation of two trees.

i) The EIR examined eight alternatives and one "no project" alternative to the original project and evaluated them separately, comparing their potential impacts to those of the originally proposed project. This Design Approval is the Reduced Project alternative, Alternative 6. The Proposed Project design is smaller than the project considered in the EIR prepared for PLN100338 in all ways. The original project was 11,933 square feet and two stories with 1,950 square feet of paved areas for a total impervious lot coverage of 10.6 percent. The proposed design lessens building site coverage from 8,058 square feet (8.5 percent) to 4,122 square feet (4.4 percent), lessens Floor Area Ratio from 11,933 square feet (12.6 percent) to approximately 7,690 square feet (8.15 percent), and decreases the combined pervious and impervious coverage by 36 percent (from 10,008 square feet to approximately 6,340 square feet).

   The original project's maximum height was 30 feet from Average Natural Grade (ANG), while the PLN240077 proposed height is a flat roof that reaches 22 and 25.5 feet from ANG. This Project's proposed maximum height is 4.5 feet less than the original project considered in the EIR. Ridgeline Development was discussed in the EIR in relation to the original project and the alternatives. As discussed in the EIR, the ridgeline effect that would potentially occur under the reduced alternative project is minimized by a reduced roofline. The EIR did not specify by how much the roofline would be reduced for Alternative 6 but stated that the height would need to avoid ridgeline effects. The proposed height will avoid "ridgeline development" as verified by staff at a site inspection on August 5, 2024. Therefore, the Proposed Project meets the EIR's description of a Reduced Project Alternative to the original project.

8. FINDING: **PUBLIC ACCESS** – The Proposed Project conforms with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with Section 30200 of the Public Resources Code) and applicable Local Coastal Program, and will not interfere with any form of historic public use or trust rights.

EVIDENCE:

a) No public access is required as part of the Proposed Project, as no substantial adverse impact on access, either individually or cumulatively, as described in Del Monte Forest Area CIP section 20.147.130, can be demonstrated.

b) No evidence or documentation has been submitted or found showing historic public use or trust rights over this property.

c) The subject property is not in an area in which the Local Coastal Program requires physical public access (Figure 8, Major Public Access and Recreational Facilities, in the Del Monte Forest Area LUP).

d) The subject project parcel is in an area where the Local Coastal Program requires visual public access (Figure 3, Visual Resources, in the Del Monte Forest Area LUP) and CIP 20.147.070.

e) Based on the project location among large trees, more planned vegetative screening, planned restoration of sand dune habitat, and its topographical relationship to most visual public access points in the area, the development proposal will not interfere with visual access along 17-Mile Drive or from Point Lobos. The proposed design is consistent with CIP section 20.147.070.B.5, in that the placement is on the least visible portion of the property (from 17 Mile Drive) and that it utilizes non-invasive native vegetation to help provide visual compatibility with the area. Consistent with Del Monte Forest Area LUP Policies 123 and 137, the proposed development, as mitigated and conditioned, will neither block significant public views toward the ocean nor adversely impact the public viewshed or scenic character in the project vicinity.

f) In certifying the Final EIR, the Board of Supervisors concluded, in concept, that Alternative 6 (Reduced Project) avoids significant adverse impacts on public views and the scenic character (Board Resolution No. 23-236).

g) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077.

9. FINDING: **VARIANCE –** The Board of Supervisors finds that this project is a Design Approval in conformance with the Alternative 6 Reduced Project concept approved with a Combined Development Permit by the Board of Supervisors with Resolution No. 23-237. By adhering to the direction of the Board to remain within the building footprint of the Connell House, the

project is constructed within the 30-foot front setback. Therefore, a variance to Coastal Zone Low Density Residential (LDR) setback regulations (Title 20 section 20.14.060) is necessary and was requested. Title 20 section 20.78.040 sets forth three criteria to grant a variance: 1) that, because of special circumstances strict application of zoning rules would "deprive" the property "of privileges enjoyed by other properties in the vicinity and under identical zoning classifications"; 2) granting the variance would not "constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity" and zoning district; and 3) granting the variance would not authorize a use or activity "not otherwise expressly authorized by" applicable zoning. Here, as set forth below, these criteria are met.

EVIDENCE:

a) Special circumstances apply to the subject parcel, as the parcel is entirely within sand dune in the Signal Hill enclave of the Del Monte Forest planning area. If the project were to be sited entirely out of the front setback, it would convert additional sand dune to development. Sand dune is environmentally sensitive habitat area (ESHA), as discussed in the project EIR and related project Board of Supervisors Resolution Nos. 23-236 and 23-237. Requiring the project to adhere to a 30-foot front setback would conflict with this, a special project circumstance satisfies Title 20 section 20.78.040's first criterion required to obtain a variance.

b) The granting of this Variance does not constitute a special privilege for the property owner inconsistent with the limitations upon other properties in the vicinity and zoning district because the requirement to build within the building footprint of the Connell House was Board of Supervisors direction to the property owner/developer. The property owner was prepared to reconstruct within the required yard regulations. The Board's direction could have been a limitation on any property in the Signal Hill enclave of Del Monte Forest planning area.

c) The proposed single family dwelling is a use allowed in the LDR Zoning District. This Variance applies to the front setback for an allowed use and does not authorize a use that is inconsistent with the LDR zoning district. This satisfies Title 20 section 20.78.040's third criterion required to obtain a variance.

10. FINDING: **APPEAL –** Pursuant to County of Monterey Code section 20.86.030, Sam Reeves, AMAP, and Massy Mehdipour separately and timely appealed the Planning Commission's April 30, 2025 decision approving the Design Approval, Coastal Development Permit, and Variance. Upon consideration of the written and documentary evidence, the staff report, oral testimony, other evidence presented, and the administrative record as a whole, the Board finds some merit to the Reeves and AMAP contentions. The Board also finds the Mehdipour appeal to have merit. The Board's reasoning and response to the

summarized contentions follows. Copies of the appeals and itemized responses prepared by staff, but which the Board hereby adopts and incorporates into this Resolution, are Attachment C to the staff report for the July 8, 2025, and August 26, 2025 Board of Supervisors hearings.

EVIDENCE: a) Appellant Reeves contends that Applicant and staff made numerous misstatements of the fact in the application, concerning past actions, and as to the Board's decision; these Appellants remarked on the perceived misstatements and contend that they were not corrected as part of the Planning Commission hearing.

County's response: Staff has corrected an error in calculations of the square footage of neighborhood homes in the staff report and presentation for the July 8, 2025 hearing. The history of tree removal and the proposed tree relocation were also clarified and addressed (See Finding 4).

b) Appellants Reeves contends that public comment during the hearing was not memorialized in Finding 1.

County's response: The appellant is correct. Post-hearing edits should have been made. This hearing is *de novo* and testimony received in the hearing will be noted in the final resolution.

c) Appellants Reeves and AMAP contend that there are numerous factual errors in the Resolution, including the following bulleted items:

- Finding 1, b equated the proposed project with Alternative 6, and the appellant found that not to be correct, based on a line taken from the Combined Development Permit Board Resolution No. 23-037 [*sic*] Finding 1.

County's response: This contention has some merit. The Board decision in June of 2023 (Resolution No. 23-237 stated, in relevant part:

"4) *Approve a Coastal Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR) consisting of:*
a) Coastal Administrative Permit to allow the demolition of an existing 4,124 square foot single family residence;
b) Coastal Administrative Permit for the construction of a new single-family residence of similar size, in concept, as the existing residence;
c) Coastal Development Permit to allow development within 100 feet of environmentally sensitive habitat;
d) Coastal Development Permit for development on slopes exceeding 30 percent;
e) Coastal Development Permit for development within 750 feet of a known archeological resources;"

The description of Alternative 6 of the EIR describes a new residence that is in the "footprint" of the former Connell House and that is at a height that does not result in "ridgeline development." Subjection b

of the action describes “construction of a new single-family residence of a similar size as the existing residence.”

The decision in the 2023 Board Resolution references the Reduced Project Alternative from the EIR. This Alternative was chosen to reduce impacts on Environmentally Sensitive Habitat (native sand dune) by keeping the new house footprint in the footprint of the Connell House and it reduces Visual Impacts by limiting the height of the new house so that the new house would not be considered “ridgeline” development. The description of the Coastal Administrative Permit for the new house being of a similar size to the existing house was “in concept” and the driving factors were avoidance and minimization of impacts on the resources as described in the Reduced Project alternative.

The house design reviewed by the Planning Commission was not in the exact footprint of the Connell House. Instead, the Applicant proposed to develop the front courtyard area in exchange for leaving an area that will be left undeveloped in the rear yard. The front courtyard of the Connell House had a paved patio and landscaping flanked on three sides by the U-shaped house (the front courtyard). The Applicant proposed to fill in the front courtyard which included an area that was covered by a concrete patio (hardscape) and an additional area beyond the patio. In exchange for adding to the footprint in the courtyard area, the Applicant proposed to leave a smaller area of the northwest corner and area adjacent to the former courtyard of the Connell House footprint undeveloped.

On July 8, 2025, the Board of Supervisors considered the proposed project and the appeals of the Planning Commission’s approval. At the conclusion of the hearing on July 8, 2025, the Board continued the hearing to August 26, 2025 with direction to staff to prepare a resolution reiterating the June 27, 2023 decision.

After the July 8, 2025 Board hearing, the applicant submitted a revised design with a request that this revised design be considered by the Board as an alternative to the motion of intent approved on July 8. The revised design eliminates portions of the prior proposal that were not within the footprint of the Connell House and slightly reduces the size of the new home. The new design is within the footprint of the former Connell House and is consistent with the description of Alternative 6 of the EIR.

Past references to the size of the Connell house in the EIR and the Board Resolution 23-237 indicated that the house was 4,124 square feet in size. It is acknowledged that the size quoted in those documents were estimates based on information available

at the time. No survey of the existing house was available as the basis for these estimates. Submitted with the application for the new house was a plan prepared by Whiston Engineers showing the footprint of the Connell House to be 4,630 square feet. Staff reviewed the plans and determined that this calculation appears to include the footprint of the house from a bird's eye view which includes roof overhangs and decks. The prior estimate of square footage was based on the size of the Connell House, not including roof overhangs and decks, so two different things were being measured. However, the Board finds this contention has merit and, therefore, requires the proposed design be modified to further reduce development.

Submitted with the recent resubmittal for the new house Design Approval is a plan prepared by Whiston Engineers showing the footprint of the Connell House to be 4,910 square feet. Staff has reviewed the supporting evaluation by Whitson with the proposed plans and determined that this calculation appears to include the structural footprint of the house, including the lower level of the Connell House.

- Staff presented a new structural footprint, not the same structural footprint of the Connell House.

County's response: The previously proposed structure included a footprint that extended beyond the footprint of the Connell House in the front courtyard area. The proposal involved occupying the area within the front courtyard in exchange for leaving sections of the former house footprint undeveloped, primarily in the rear (northwest) corner. The applicant requested the ability to exchange the area of development to accommodate a new house design that is not exactly the same as the former U-shaped house design. The Board gave the Applicant stronger direction to stay within the structural footprint in the July 8, 2025 hearing. Therefore, this appeal contention has some merit.

- Finding 1, Evidence l: "the height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site)." LUP Policy 51 is described, and the Proposed Project is discussed as if it is consistent with the policy. Appellant argues the evidence is to the contrary because the Proposed Project is larger than existing dwellings in the Signal Hill enclave.

County's response: Finding 1, Evidence "m" includes straightforward clear statements, no changes are required. The siting and use of colors, materials, and landscaping will meet LUP Policy 51. LUP Policy 51 does not require new

construction to match other construction in the area. The project is situated where the Board required it to be sited.

Additionally, the County certified an EIR for the project, discussed the potential impacts to Aesthetic Resources, and concluded that the project, as mitigated by habitat restoration and permanent maintenance and tree replacements, would result in a less-than-significant impacts.

- County mistakenly identified two trees in front of the house as significantly pruned trees, which were part of the violations which PLN100418 addressed. The relocation of T4, TS, and T12 will not screen the view of this project from the common public viewing areas of Seventeen Mile Drive and Fanshell Beach.

County response: There are two different tree removal/relocation permits at issue.

First, in 2009, a code enforcement case (CE090288) was initiated as a result of applicant's unpermitted tree removal of 2 large Cypress trees. To address that code enforcement case, a Tree Resource Evaluation/Construction/Impact Analysis was prepared by a certified arborist in October 2010 (LIB100394). The report evaluated the eight trees on the site (7 Cypress and 1 Eucalyptus) and documented that two Cypress trees were removed without a permit. Additionally, in December 2011, the arborist documented a cluster of three Cypress trees that had been "excessively pruned" and recommended a 5-year monitoring period for survivability of those trees. On February 5, 2013, the Board of Supervisors approved an after-the-fact permit for the tree removal and required restoration of the site, replanting 2 large Cypress trees to screen the house from views, and monitoring of the trimmed trees, as a condition of approval of that permit (Resolution No 13-021).

The applicant replanted the trees as required by the condition. One of the replacement trees, located west of the house, did not survive. That tree is required to be replanted again and monitored in accordance with the approved conditions. A second tree was replanted is south of the proposed house near the existing driveway. That tree survived and is alive today, however, that tree was also proposed to be relocated approximately 20 feet south with the application. Staff with expertise in the field found that the previously replanted tree did not need to be relocated, and the Applicant agreed to protect it in place. The trees that were trimmed have been monitored and have survived. The trimmed trees are subject to the conditions imposed as part of Resolution No 13-021 and are not the subject of the proposed new house design.

Included in the permit now before the Board (PLN240077), Applicant proposes to relocate two trees as part of the new construction. The two trees proposed for relocation would be moved a few feet from their current location (in the front yard) so that they would continue to provide screening when viewed from Signal Hill Road and they will still provide a tree-lined backdrop to the house when viewed from 17 Mile Drive.

d) Appellant Reeves contends that was a factual error in the Resolution in Finding 6. Evidence b, which discussed the historic status of the Connell House. The appellant would prefer the evidence to clarify the reason that the house was not listed locally.
County response: The County Code does not allow the Historic Resources Review Board to list an historic resource on the County's local register without property owner permission. The evidence does not misconstrue the establishment of the Connell House as an historic resource at the levels that it was listed. This point is irrelevant to the decision at hand. Demolition of the Connell House was evaluated in the EIR, approved by the Board of Supervisors, and the house has been demolished.

e) Appellant Reeves contends that County should not have decided on a variance without noticing a variance as requested as part of the entitlements sought by the project and reviewed at the hearing.
County's response: Staff acknowledges that no notice was given for consideration of a variance by the Planning Commission. The request for a variance has been included as part of the notice for the Board hearings on these appeals. The variance is justified in this case because the Board of Supervisors, in adopting a resolution to conceptually approve a new house that reflects Alternative 6 of the EIR, limited the new development to occur within the footprint of the former residence. The footprint of the former residence was non-conforming to front setback requirements and rebuilding a home in the footprint would include new construction within the required front setback.

Additionally, new development within the footprint of the previous development limits impacts on sensitive habitat that would occur if the house was required to comply with the front setback requirements.

f) Appellants Reeves and AMAP contend that the project is inconsistent with the policies of the DMF LCP, particularly relating to visual resources.
County's response: The project has been reviewed and found to be consistent with the policies of the Del Monte Forest Land Use Plan.

g) Appellants Reeves and AMAP contend that the action of the Planning Commission fails to recognize that the Applicant failed to comply with the prior action by the Board of Supervisors for

PLN100418 to plant and maintain Monterey Cypress trees to screen the property from Seventeen Mile Drive and Fanshell Beach.
County's response: The contention raises an issue with tree removal that has been resolved through subsequent permitting and has ongoing condition compliance and monitoring requirements. The evidence in the condition compliance record for PLN100418 in the form of tree status reports prepared by a qualified arborist indicate that replacement trees failed due to fungus infections, not due to deliberate removal of healthy trees. The conditions of approval on that restoration permit included replanting in the case of tree failure. The Board applied Condition No. 16, Tree Replanting and Protection, which requires the owner to

". . . cause a 48-inch box Cypress tree to be planted in a location that will provide screening of the new development when viewed from Fanshell Beach and 17-Mile Drive. The tree shall replace the large Monterey Cypress tree which was previously removed from the property and was not successfully replanted per the after-the-fact Planning Permit (PLN100418, Reso. No. 13-021) to clear a code violation for tree removal (CE090788)."

This condition was discussed in the Planning Commission hearing on PLN240077, during Commission deliberations. The tree was not drawn into the arborist's tree replacement. The tree relocation and protection plan submitted with the PLN240077 application is different, as this arborist (James Allen) was contracted to assess tree relocations related to this permit. However, when the final landscaping plan is received pursuant to conditions of approval of PLN100338, all relocation and replanting shall be included in the plan for review and approval.

h) Appellant Reeves contends that the decision of the Planning Commission as described in Resolution 25-012 is contrary to the 2023 findings and decision of the Board of Supervisors: "Finding 1, evidence i: The Reduced Project is anticipated to be no taller or larger than the existing dwelling. A Design Approval shall ensure that colors and materials will blend with the natural surroundings."
County response: This comment is essentially the same as appellant's contention listed as the second bullet in Finding 10, evidence "c." The consistency findings of the draft Board Resolution for PLN240077 are supported by substantial evidence.

i) Appellants Reeves and AMAP contend that the Proposed Project is too tall. Specifically, Reeves contends that the Proposed Project is not the height that was mentioned in the 2023 findings and decision of the Board of Supervisors in Finding 1, evidence m: "Maximum allowable height is 30 feet, and the Reduced Project maximum height is anticipated to be

approximately 22 feet from average." At 25.5' above natural grade it is higher than the 22' above natural grade described in the FEIR, staff reports and Board resolution. With a 30' high frontal view from Seventeen Mile Drive, it is 8 feet higher than the approximate 22' high frontal view of the Connell House.

County Response: This finding "anticipated" a height because no plans then existed. That language was not a constraint on Applicant. Rather, the new design has been reviewed for consistency with the adopted Local Coastal Plan regulations, the description of the reduced project alternative (Alternative 6) in the EIR, and the Board's direction to stay within the footprint of the Connell House. Alternative 6 was compared to the original house design which included a 11,993 square foot single-family dwelling. As a 7,690 square foot two-story single-family dwelling inclusive of a two-car garage, the new design is reduced in size from the original project. The proposed design is also approximately 4.5 feet shorter (25.5 feet tall) than the original design (30 feet tall). The proposed height will avoid "ridgeline development" which is the standard for measuring height in the "reduced project" Alternative, not a comparison with the height of the now demolished Connell House.

Ridgeline Development was discussed in the EIR in relation to the full height project and the alternatives. As discussed in the EIR, the ridgeline effect that would potentially occur under the reduced alternative project is minimized by a reduced roofline. The EIR did not specify by how much the roofline would be reduced for Alternative 6 but stated that the height would need to avoid ridgeline effects. The Reduced Height Alternative (9) entailed a maximum height of 25 feet from ANG to avoid ridgeline effects. The PLN240077 project design is approximately the same height as the Reduced Height Alternative. At 4.5 feet less than the original project's maximum height from ANG, any aesthetic impacts due to project height are mitigated by design, consistent with the EIR.

PLN240077 draft plans demonstrate most roof heights in the new design at approximately 22 feet ANG, with a great room reaching approximately 25.5 ANG. The view from Signal Hill Road is shown in the east elevation of the plans attached to the Board Resolution. From Signal Hill Road, the structure will appear to be 17.5 feet in height (a single-story development). The view from 17 Mile Drive is shown in the west elevation; the appellant is correct that the façade at its highest point would appear to be 30 feet high. However, County zoning codes measure from ANG and, in this case, the project design is approximately 4.5 feet less than the maximum allowable height from ANG.

j) Appellants Reeves and AMAP contend that the plans do not incorporate the replacement of trees required by the Board of Supervisors in their decision January 2013 decision on PLN100418.
County response: The contention is acknowledged. The Board finds that the replanted tree, which was required to be planted near the existing driveway by PLN100418, does not require relocation. The tree shall be retained. This is the tree that was required to be planted in accordance with the Board's prior decisions. The other tree that was required to be replanted was replanted, but did not survive. As required by the conditions of the prior approval, that tree must be replaced and monitored for survivability pursuant to the prior approvals. Neither that prior approval nor the second tree is proposed to be modified as part of this permit. Therefore, there was no need for the plans or conditions for the current proposal to incorporate prior tree planting that will be done on the property in relation to previously approved Board Resolution No. 23-237 and its conditions.

k) Appellant Mehdipour contends that Condition 10 of the Planning Commission resolution on PLN240077 was improperly modified without public noticing of the action. Appellant claims that it was not fair or impartial for Commissioners to suggest revising the Board's Resolution after public and applicant comment periods were closed, and that the Planning Commission lacked authority to contradict the Board's decision. Finally, Applicant maintains that the Planning Commission infringed on her rights by not returning to ask if they accepted the new easement.
County response: By attempting to enforce what the Commissioners saw as a closer consistency with the LUP, the Planning Commission purported to override an existing condition of approval that was approved by the Board. The Planning Commission has no authority to take that action. The purview of the Planning Commission was limited to reviewing the Project to satisfy Board direction and Design District/LUP criteria. Furthermore, it came up after the public hearing was closed and Applicant should have been allowed to respond to the addition. Finally, amendment to conditions of approval of PLN100338 was not agendized. For these reasons, the appeal by Applicant is upheld.

l) Coastal Commission. Pursuant to Title 20, section 20.86.080.A, the project is subject to appeal by/to the California Coastal Commission because it involves development between the sea and the first through public road paralleling the sea (i.e., State Route/Highway 1).

DECISION

NOW, THEREFORE, based on the above findings and evidence and the administrative record as a whole, the Board of Supervisors does hereby take the following actions:

1) Partially uphold the appeals by Samuel Reeves and the Alliance of Monterey Area Preservations from the April 30, 2025 Planning Commission decision approving the Design Approval;
2) Uphold the appeal by Massy Mehdipour, Applicant, from the April 30, 2025 Planning Commission decision approving the Design Approval with Condition No. 10;
3) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that the Proposed Project is consistent with Alternative 6 of the FEIR and does not warrant an addendum pursuant to CEQA Guidelines section 15162;
4) Approve a Design Approval for construction of an approximately 7,690 square foot two-story single-family dwelling inclusive of a two-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof that fulfills the requirements of the "Reduced Project," Alternative 6 of the Final EIR;
5) Approve a Coastal Development Permit to allow the relocation of two Cypress trees;
6) Approve a Variance for structural development in front setback; and
7) Amend Condition No. 23 of Resolution No. 23-237 to increase the conservation scenic easement for the project to 1.67-acre area (Condition No. 9).

All work must be in general conformance with the attached plans, and this approval is subject to 9 conditions of approval, all being attached hereto and incorporated herein by reference.

The deed restrictions/easement shall encompass the 1.67-acre area proposed for dune scrub restoration shown in Figures 2-3 and 4.2-2. The restrictions shall designate the easement area as a native dune scrub restoration area and Environmentally Sensitive Habitat Area, where only habitat restoration and other resource dependent uses are permitted. The only deviations from such restrictions may be to repair existing sewer cleanouts and associated sewer pipes that are located in the area. The deed restrictions shall require any future work on the sewer cleanouts and associated piping to be monitored by a qualified biologist and all disturbance areas to be restored to central dune scrub habitat per the specifications put forth in the applicant's Dune Restoration Plan. (HCD-Planning)

Compliance or Monitoring Action to be Performed: Prior to issuance of construction permits, the applicant shall submit to the County of Monterey HCD – Planning for review and approval a CSE exhibit (plat and legal description) that illustrates complete sand dune preservation where it is expected to be restored. The Deed shall allow habitat restoration and other resource dependent uses are permitted. Prior to final on construction permit, the applicant shall submit to the County of Monterey HCD – Planning a recorded easement reflecting compliance with this measure.

APPEAL OF SAM REEVES TO THE DECISION OF THE PLANNING COMMISSION APPROVING A DESIGN APPROVAL (PLN240077) FOR CONSTRUCTION OF A TWO STORY, 8,290 SF HOUSE INCONSISTENT WITH THE DIRECTION AND DECISION OF THE BOARD OF SUPERVISORS

(PLN100338) SIGNAL HILL, LLC/MASSY MEHDIPOUR

BACKGROUND

On June 27, 2023, the Board of Supervisors adopted Resolution 23-237 which included the following language:

> a) Coastal Administrative Permit to allow the demolition of an existing *4,124 square foot single family residence*;
>
> b) Coastal Administrative Permit for the *construction of a new single-family residence of similar size, in concept, as the existing residence* (page 1).
>
> Finding 1, evidence i: *The Reduced Project is anticipated to be no taller or larger than the existing dwelling. A Design Approval shall ensure that colors and materials will blend with the natural surroundings.*
>
> Finding 1, evidence m: Maximum allowable height is 30 feet, and *the Reduced Project maximum height is anticipated to be approximately 22 feet* from average natural grade.

In approving the Resolution, the Board of Supervisors was specific that the new house was to be built in footprint of the Connell House. Supervisor Church stated the replacement house was to be "within the same footprint of the Connell House as it was…" In the discussion following the motion, both County Counsel Girard and Craig Spencer confirmed that was their understanding of the motion was the new house was to be in the footprint of the Connell house "as it was."

That is not what the staff recommended to the Planning Commission nor is it what the Planning Commission approved.

THE PLANNING COMMISSION APPROVAL

THERE WAS A LACK OF FAIR AND IMPARTIAL HEARING

1 • The applicant made numerous misstatements of the fact of the application, past actions and Board's decision which were not corrected. The staff also made several misstatements, particularly relative to the history of illegal tree removal and failure to replace the trees, the size of the home in relation to other homes in the neighborhood and the decision of the Board in Resolution 23-237.

THE FINDINGS ARE NOT SUPPORTED BY THE EVIDENCE

Planning Commission Resolution 25-012 was prepared by the staff after the Planning Commission decision. The Resolution has not been reviewed by the Planning Commission to

assure it accurately reflects their decision. There are numerous factual errors in the Resolution, including, but not limited to:

2 • Finding 1, a: "No public comment was provided during project review that indicated the project is inconsistent with the text, policies, and regulations in these documents on various grounds."

EVIDENCE: Anthony Lombardo, Kent Seavey and Denise Estrada all spoke in opposition to the application. Mr. Lombardo wrote two separate letters and did a Power Point presentation to the Planning Commission opposing the application.

3 • Finding1, b: "The Proposed Project is for construction of an approximately 8,290 square foot two-story single-family dwelling inclusive of a three-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof, with an approximately 180 square foot outdoor stair well and 693 square feet of terrace [is](the "Reduced Project," Alternative 6 of the Final EIR)."

FACT: The project described is not Alternative 6. The FEIR presented a concept in Alternative 6 which was approved. No specific project, as stated in Evidence b, was presented to or approved by the Board. In fact, the Board's Resolution states "*The Reduced Project is anticipated to be no taller or larger than the existing dwelling."* The project purportedly approved by the Planning Commission is twice the square footage and with a wall facing Seventeen Mile Drive 8 feet taller than the Connell House.

4 • Finding 1, e: "the Board of Supervisors also prohibited the replacement single family dwelling from expanding beyond the building footprint of the previous dwelling. The proposed dwelling is constrained to the previous building footprint and hardscaped areas, as illustrated in Exhibit B to the April 30, 2025 staff report to the Planning Commission. As proposed, the replacement residence is within the previous structural footprint, including roof overhangs and upper-level deck (4,630 square feet) and the hardscape indoor/outdoor living areas of the Connell House (911 square feet)…The proposed structure … proposes to develop the former courtyard. Developing this former courtyard with a *new structural footprint (emphasis added)…"* is approximately equal to the hardscape area on the northwest corner of the previous development, which will no longer exist with the implementation of this project."

EVIDENCE: The use of including roof overhangs and upper-level decks was not considered in the FEIR or approved by the Board. The FEIR unequivocally states the Connell House was 4, 124 SF. No other figure was presented to or discussed at the Board.

5 EVIDENCE: The drawing below is from Exhibit B referred to in the Resolution. It clearly shows the plan purportedly approved by the Planning Commission extending into patio and courtyard areas in front of the house which are clearly not within the footprint of the Connell House. This is amplified by the staff's own statement that it would represent a "new structural footprint."

- Finding 1, Evidence l: "the height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site). LUP Policy 51requires buildings developed on residential lots in the Visual Resources area to be "situated to allow the highest potential for screening from view…the staking and flagging presented a new (replacement) structure that would be on the larger end of the array of structural massing of single family dwellings currently permitted in the surrounding residential area…Although it will be larger in floor area than other Signal Hill area dwellings, the Proposed Project does not present exceptional bulk or height beyond the existing and permitted dwellings within the public viewshed (Fanshell Beach and 17 Mile Drive locations).

EVIDENCE: The proposed residence, as stated in the Resolution finding will be "on the large end of structural massing" and "larger than other Signal Hill area dwellings. The rendering below, prepared and submitted by the applicant and incorporated into the Resolution, is proof their finding regarding visual impact is not supported by evidence and is inconsistent with the Board's resolution stating *"The Reduced Project is anticipated to be no taller or larger than the existing dwelling."*

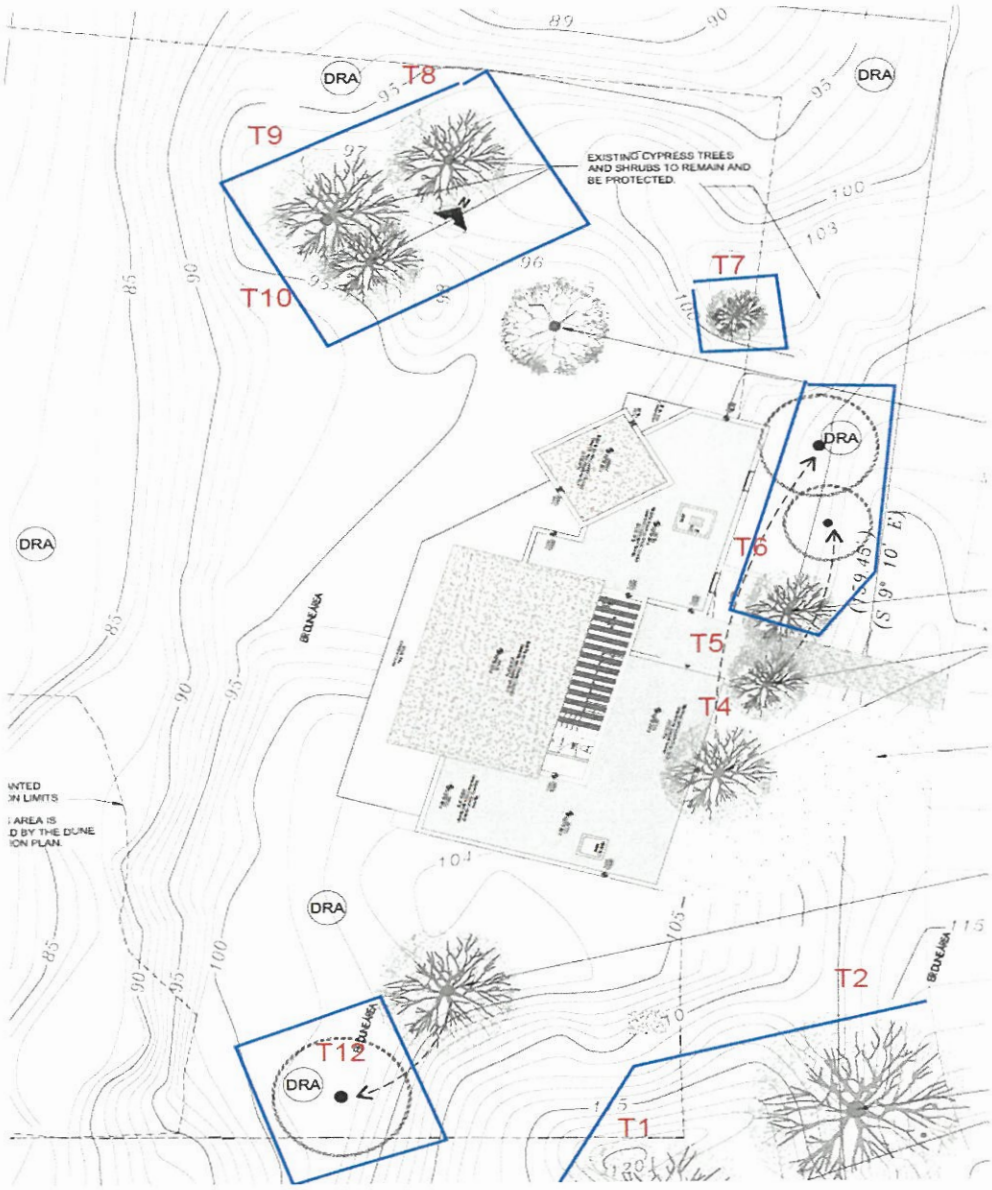
- Finding 4, Evidence a and c: "Three Monterey Cypress trees [T4, T5 and T12] will be removed as part of this Project (Evidence a)…The two other trees proposed for relocation with this project (identified in the Plans attached to this Resolution as T4 and T5) were involved in PLN100418 as trees that were "significantly pruned" and were required to be monitored for canopy decline (Evidence c)."
- EVIDENCE: Trees T4 and T5, in front of the house on Signal Hill Road, were not part of the violations which PLN100418 was intended to address. The trees which were "significantly pruned" (T8,9,10) were northwest of the Connell House. The trees which were illegally removed were on the west side of the Connell House and provided significant screening from Seventeen Mile Drive and Fanshell Beach. The pictures below from Google Earth shows the scope of the illegal tree removal and trimming. The relocation of T4, T5 and T12 will do nothing to screen the view of this project from the common public viewing areas of Seventeen Mile Drive and Fanshell Beach.



The pictures below show the "before and after" of the illegal cutting and trimming.

8 • Finding 6, Evidence b: "The previous single-family dwelling was an Historic Resource at the July 2007 federal level, but not the local level (September 2009 Code Chapter 18.85 [illegible]ner agreement to local listing."
EVIDENCE: The Connell House was determined to be significant historic resource per the findings of the County Historic Resources Review Board. It was not listed due to the owner's refusal to allow listing which does not reduce or invalidate its significance at local level.

THE DECISION WAS CONTRARY TO LAW

9 • The Planning Commission Approved a Variance with no notice to the public and no findings or evidence to support the variance. The Connell House was nonconforming as to setbacks. The staff presumed the Board direction to rebuild in the footprint of the Connell house was the equivalent to the granting a variance and so advised the Planning Commission. The Planning Commission, upon the recommendation of the staff approved expansion outside the footprint and approved a variance for that. However, no variance was requested by the applicant, neither the staff report nor the draft resolution included the findings and evidence required by Monterey County Code Section 20.78.040, 20.78.050 and by Government Code Section 65906.

• No public notice of the proposed variance was provided as required by Monterey County Code Section 20.78.050 (A). The variance was not included in the project description in the public notice or the agenda.

10 • The approval violates Monterey County Code Section 20.02.060 A "No building permit, grading permit, land use discretionary permit, coastal administrative permit, coastal development permit, exemption, categorical exclusion, or other permit relative to land use may be approved if it is found to be inconsistent with the Monterey County Local Coastal Program." The project is clearly inconsistent with the policies of the DMFLCP, particularly relating to visual resources.

11 • The action of the Planning Commission fails to recognize that the applicant failed to comply with the prior action by the Board of Supervisors for PLN100418 to plant and maintain Monterey Cypress trees to screen the property from Seventeen Mile Drive and Fanshell Beach. The Board directed in 2012 that Monterey Cypress was to be planted to replace those illegally removed by the applicant. Those trees were planted but ultimately removed by the applicant and not replaced without benefit of a coastal development permit for the removal.

12 • The decision of the Planning Commission as described in Resolution 25-012 is contrary to the 2023 findings and decision of the Board of Supervisors:

  - Finding 1, evidence i: *The Reduced Project is anticipated to be no taller or larger than the existing dwelling. A Design Approval shall ensure that colors and materials will blend with the natural surroundings.*

13 ○ Finding 1, evidence m: Maximum allowable height is 30 feet, and *the Reduced Project maximum height is anticipated to be approximately 22 feet* from average natural grade.

- At 8,290 SF it is nearly twice the size of the 4,124 SSF of the Connell House as it was described in the FEIR, staff reports and Board resolution.
- At 25.5' above natural grade it is higher than the 22' above natural grade described in the FEIR, staff reports and Board resolution.
- With a 30' high frontal view from Seventeen Mile Drive it is 8 feet higher than the approximate 22' high frontal view of the Connell House.
- The plans do not incorporate the replacement of trees required by the Board of Supervisors in their decision January 2013 decision on PLN100418.

NOTICE OF APPEAL

TO THE PLANNING COMMISSION APPROVAL (PLN240077) FOR CONSTRUCTION OF A HOUSE INCONSISTENT WITH THE DECISION OF THE BOARD OF SUPERVISORS

(PLN100338) SIGNAL HILL LLC/MEHDIPOUR

The findings are NOT supported by the evidence.

Finding: The proposed project is consistent with the Board of Supervisors Resolution 23-237 allowing demolition of an existing residence and construction of a new residence of similar size, in concept, to the existing residence.

- The proposed project is not in compliance with the project approved by the Board of Supervisors. It is not Alternative 6 (the Reduced Project in the Final EIR), which was "anticipated to be no taller or larger than the existing dwelling." In fact, the proposed project is nearly twice as large (8,290 square feet versus 4,124 square feet) as the original dwelling. The west façade is 8 feet taller than the original dwelling.
- The new residence was supposed to be within the original footprint, while the proposed project extends into the original patio and courtyard areas.
- The project's is noticeably taller and larger than neighboring houses. Its increased size and height significantly degrade the historic public viewshed from Seventeen Mile Drive and Fanshell Beach.

The decision was contrary to law.

- The applicant removed the Monterey Cypress trees that screened the original residence from the historic viewshed. The decision does not recognize that the applicant failed to comply with Board of Supervisors direction in 2013 (PLN100418) to replant and maintain these trees; they were replanted but later removed again. The approved project does not include this required mitigation.

- Planning Commission Resolution 25-012 conflicts with the 2023 findings and decision of the Board of Supervisors (Resolution 23-237). That decision anticipated a structure no taller or larger than the original building, and within the original footprint. However, the approved project is nearly twice as large and 8 feet taller with a larger footprint.

Revised 5-7-2024

Appeal of Signal Hill LLC to Condition Number 10 of the County of Monterey Planning Commission's Resolution No. 25-012 (PLN240077)

This appeal is at request of the Applicant on the sole issue of Condition Number 10, the Conservation Easement, from the County of Monterey's Planning Commission's Resolution No. 25-012 (PLN240077) that was the result of the County of Monterey Planning Commission Hearing held on April 30, 2025.

Lack of Fair and Impartial Hearing Related to Condition Number 10

The agenda of the Planning Commission Hearing on April 30, 2025 was to approve the design of a new house, not to revise a previously agreed upon conservation easement, which the Board of Supervisors had agreed to and documented in their Board Resolution No. 23-237, and which the Coastal Commission had not appealed.

The following was the full description of the Planning Commission Hearing agenda for this item: "Public hearing to consider design approval for the construction of an approximately 8,290 square foot two-story single family dwelling with an attached three car garage with light brown stucco exterior, black metal clad wood accents, and a gravel roof, an approximately 180 square foot stairwell, and approximately 695 square feet of terrace (identified as the "Reduced Project," Alternative 6 in the Final EIR) and the relocation of three Monterey Cypress trees."

Furthermore, the words "easement" and "conservation" do not appear anywhere in the staff report (Legistar File Number: PC 25-041 - Agenda Item No.4)

In the hearing, one of the Planning Commissioners proceeded to suggest revising the conservation easement, which became Condition 10 of the Planning Commission's Resolution, and the subject of this appeal. The reason the hearing was not fair or impartial is that the Applicant was not allowed to speak on the topic of the conservation easement in the hearing. An individual Planning Commissioner introduced the subject late into the meeting, which was after the Chair of the Planning Commission had explicitly instructed the Applicant not to make any further comments. None of the Planning Commissions asked whether they wanted to hear from the Applicant on the conservation easement topic or whether the Applicant would agree to a substantially revised and onerous conservation easement. Staff also did not ask the Planning Commission whether they wanted to hear from the Applicant on the conservation easement topic or whether the Applicant would agree to a substantially revised and onerous conservation easement. The Applicant was not asked whether she would agree to such a major infringement on her property rights in a manner that was exceedingly above and beyond what the Board of Supervisors had agreed to via its Board of Resolution No. 23-237.

Condition Number 10 is Not Supported by the Evidence

The Board of Supervisors did not direct staff or the Planning Commission to consider the scope of the conservation easement as part of the hearing. The scope of the hearing was to review the design plans of the Reduced Project, "which is approved in concept by the Board of Supervisors with the understanding that the applicant shall return to County for a Design Approval of the project plans, which have not yet been developed." (From Board of Supervisor's Resolution No. 23-237 - Page 3).

As described, the scope of the hearing and the Planning Commission's directive was to review the project design plans that were submitted. The conservation easement was not part of the design plans.

Condition Number 10 Was Contrary to Law

The Board of Supervisors is the primary and highest-level governing body for Monterey County, holding both legislative and executive authority. The scope of the conservation easement was fully agreed to and memorialized in the Board Resolution through the Conditions of Approval via 23. BIO/MM-3.1 -- CONSERVATION AND SCENIC EASEMENT as follows:

"the applicant shall permanently protect Environmentally Sensitive Habitat Areas located outside the construction area by establishing deed restrictions or a permanent open space conservation and scenic easement to be granted to the Del Monte Forest Foundation. The deed restrictions/easement shall encompass an area of 2:1 ratio to developed area on the property and shall be located within the areas proposed for dune scrub restoration shown in Figures 2-3 and 4.2-2."

The area allocated for a conservation easement by the Board of Supervisors (described above) is orders of magnitude less than what the Planning Commission put in their resolution. The law and public reliance on the Board of Supervisors decisions do not allow for the Planning Commission to contradict the Board of Supervisors nor allow the Planning Commission to restrict an individual's property rights beyond the restrictions previously imposed by the Board of Supervisors. In fact, the Planning Commission's resolution is not actually binding on the Applicant because the Board of Supervisors resolution takes precedence.

APPEAL AND COUNTY RESPONSES

The applicant, Massy Mehdipour, Samuel Reeves, and the Alliance of Monterey Area Preservationists (AMAP) all assert that there was a lack of fair and impartial hearing (contention no. 1), the findings made by the Planning Commission are not supported by the evidence (contention nos. 2-8), and the decision was contrary to law (contention nos. 9-14). The applicant's contention is focused on a single condition of approval imposed by the Planning Commission, so those contentions are addressed separately below. The contentions of the neighbor and AMAP are similar, and so are addressed together. Each of the contentions are numbered, summarized, and followed by staff's analysis and response to each contention.

Appeal by the Applicant (Mehdipour)
The applicant appealed the Planning Commission's decision because of a condition applied to the Design Approval that amended the requirement for a Conservation and Scenic Easement Deed (CSED). Prior approvals for this project imposed differing CSED requirements (Board Reso. No. 23-317). The applicant also contends that the Planning Commission hearing was not fair or impartial because the Commissioners did not request agreement from the applicant before adding the expanded CSED condition to the motion and voting on it, and because such a change was not noticed as part of the hearing.

Staff reviewed the contention and concluded that it has merit. The Planning Commissioners expressed a wish for a CSE boundary over the entire site and up to the edge of the building. Prior easement requirements were developed to address impacts to habitat at a ratio of 2 to 1 for a sub-area of the 1.67 acres of habitat to be protected, as a ratio typical for development that does not create new permanent impacts (Condition 23 of Board Resolution 23-237). The full-sized project that was the original proposal for PLN100338 would have created new permanent impacts that would have been offset by the full 1.67-acre area to be in CSED. The Planning Commission expanded the CSE beyond that of the full-sized project's CSE, although the proposed project reduces the impacts on habitat that were previously analyzed. It is also true that the Planning Commission did not reopen the hearing and provide an opportunity for the applicant to comment on its final motion, including the expanded CSED requirement.

After the appeal, the applicant offered to commit the full 1.67-acre area of restored sand dune to a CSED. Staff recommends the Board review the applicant's voluntary adjustment to Condition No. 23, aligning it with the full project BIO/MM-3.1, when the applicant brings forward the redesign that the Board requires.

Appeals from Reeves and AMAP
Lack of Fair and Impartial Hearing**:**

Contention No. 1: (Reeves) The applicant made numerous misstatements of the fact of the application, past actions and Board's decision which were not corrected. The staff also made several misstatements, particularly relative to the history of illegal tree removal and failure to replace the trees, the size of the home in relation to other homes in the neighborhood and the decision of the

Board in Resolution 23-237.

> **County Response No. 1:** Staff attempted to make clear the closed tree removal code enforcement case as it related to the proposed trees for relocation in written documents and oral presentation to the Planning Commission. Staff has corrected a minor error in calculations of the square footage of neighborhood homes in the staff report and presentation for the July 8, 2025 hearing.

Contentions 2-8 purport that the findings are not supported by the evidence:

Contention No. 2: (Reeves) Planning Commission Resolution 25-012 was prepared by the staff after the Planning Commission decision. The Resolution has not been reviewed by the Planning Commission to assure it accurately reflects their decision. There are numerous factual errors in the Resolution, including, but not limited to:

Finding 1, a: "No public comment was provided during project review that indicated the project is inconsistent with the text, policies, and regulations in these documents on various grounds."

Anthony Lombardo, Kent Seavey and Denise Estrada all spoke in opposition to the application. Mr. Lombardo wrote two separate letters and did a Power Point presentation to the Planning Commission opposing the application.

> **County Response No. 2:** Staff assessed the evidence for Finding 1, Evidence "a" and found that the appellant is correct. Post-hearing edits should have been made to this section of the staff report. The resolution before the Board will reflect comments received during review of this project.

Contention No. 3: (Reeves) Finding 1, b: "The Proposed Project is for construction of an approximately 8,290 square foot two-story single-family dwelling inclusive of a three-car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof, with an approximately 180 square foot outdoor stair well and 693 square feet of terrace [is]*(the "Reduced Project," Alternative 6 of the Final EIR)." *appellant added the bracketed verb.

The project described is not Alternative 6. The FEIR presented a concept in Alternative 6 which was approved. No specific project, as stated in Evidence b, was presented to or approved by the Board. In fact, the Board's Resolution states "the Reduced Project is anticipated to be no taller or larger than the existing dwelling." The project purportedly approved by the Planning Commission is twice the square footage and with a wall facing Seventeen Mile Drive 8 feet taller than the Connell House.

(AMAP) The proposed project is not in compliance with the project approved by the Board of Supervisors. It is not Alternative 6 (the Reduced Project in the Final EIR), which was anticipated to be no taller or larger than the existing dwelling." In fact, the proposed project is nearly twice as large (8,290 square feet versus 4,124 square feet) as the original dwelling. The west facade is 8 feet taller than the original dwelling.

> **County Response No. 3:** This contention has some merit.

Alternative 6 is not described in the EIR as no taller or larger than the existing dwelling. Instead, the EIR describes Alternative 6 as: "*This alternative would include completely demolishing the Connell House, but would reduce the size of the proposed single-family residence to stay within the existing developed footprint and to avoid building heights that extend above the ridgeline. The remainder of the parcel would be restored to native dune habitat*." The proposed single-family dwelling that was considered in the EIR included a 11,993 square foot, 30-foot-tall single-family dwelling. The reduced project alternative was an alternative to that original proposal. Alternative 6 was found to reduce visual and biological impacts compared with the original project by avoiding ridgeline development (reduced height) and limiting new development within the dune habitat (existing developed footprint).

The appellant's quoted text ("*The Reduced Project is anticipated to be no taller or larger than the existing dwelling"*) is from Finding 1, Evidence "i" of Board Reso. No. 23-237. This Resolution approved the demolition of the Connell House and approved Alternative 6 in concept. The quoted text from the Board report was prepared at a time when plans for a new house, reflecting the "reduced project alternative," were not available; hence the term "anticipated." Although staff, LUAC members, and the Planning Commission believed that they were following the intent of the Board's motion to "stay within the footprint of the Connell House as it was" by limiting impacts on dune habitat while also providing some design flexibility for the new construction, the discussion of the Board at their July 8, 2025 hearing clarified that the design approved by the Planning Commission was too broad an interpretation of the Board's motion. Therefore, this contention has merit.

Attachment D to the July 8, 2025 staff report included a color-coded site plan prepared by Whitson Engineers overlaying the Connell House footprint with the proposed footprint. Staff have reviewed these plans, aerial imagery of the Connell House footprint, the appeal contentions, and other information in the record, and determined that the proposed house extends beyond the Connell House footprint and that there appear to be discrepancies in the square footages listed in that Attachment. Since the July 8, 2025 hearing, the Applicant caused a redesign of the proposed dwelling and, as a result, a new comparison of building footprint comparison to be prepared. The Connell House footprint, depicted in a red dotted line in the new Attachment D to the August 26, 2025 staff report, is limited to structural footprint. Connell House. Attachment D also shows the proposed building footprint entirely within the Connell House footprint (heavy black outline). Even a proposed second floor terrace on the west side of the structure is now within the previous Connell House footprint.

The Board required the proposed design be modified to further reduce development that extends beyond the footprint of the former Connell House. The PLN240077 redesign as attached to the staff report with Attachment B and presented in the August 26, 2025 hearing is consistent with the Board's direction.

Contention No. 4: (Reeves) Finding 1, e "the Board of Supervisors also prohibited the replacement single family dwelling from expanding beyond the building footprint of the previous dwelling. The proposed dwelling is constrained to the previous building footprint and hardscaped areas, as illustrated in Exhibit B to the April 30, 2025 staff report to the Planning Commission. As proposed,

the replacement residence is within the previous structural footprint, including roof overhangs and upper-level deck (4,630 square feet) and the hardscape indoor/outdoor living areas of the Connell House (911 square feet). The proposed structure does not mimic the U-shape of the Connell House . . .proposes to develop the former courtyard. Developing this former courtyard with *a new structural footprint (emphasis added)* is approximately equal to the hardscape area on the northwest corner of the previous development, which will no longer exist with the implementation of this project."

EVIDENCE: The use of including roof overhangs and upper-level decks was not considered in the FEIR or approved by the Board. The FEIR unequivocally states the Connell House was 4,124 SF. No other figure was presented to or discussed at the Board.

(AMAP) The new residence was supposed to be within the original footprint, while the proposed project extends into the original patio and courtyard areas.

County Response No. 4: The Board selected Alternative 6 "in concept" when approving the permit for the demolition of the Connell House which included the new house staying within the developed footprint. In the EIR Chapter 5, Alternatives, the definition of a Reduced Project is also conceptual: "*This alternative would include completely demolishing the Connell House, but would reduce the size of the proposed single-family residence to stay within the existing developed footprint and to avoid building heights that extend above the ridgeline*." (EIR Chapter 5, page 5-9.) Neither of these concepts limit the new dwelling to the same floor area, which is inclusive of multiple floors rather than "footprint" either interpreted as the area of the Connell House seen from a birds-eye view or the foundation footprint.

At the time of the decision, the applicant had proposed, and the EIR analyzed, a proposed project that included a new single-family dwelling that was 11,933 square feet and 30 feet tall from Average Natural Grade. The "reduced project alternative" was created in the EIR as a project alternative to compare potential environmental impacts with the "proposed project" at the time. The reduced project alternative would reduce visual and biological impacts by reducing 1) the height of the new house so that it would not be considered "ridgeline development"; and 2) the footprint of the house within the sand dune habitat.

Past references to the size of the Connell House (4,124 square feet) in the EIR and Board Report were estimates. No survey of the existing house was available as the basis for these estimates. Submitted with the application for the new house was a plan prepared by Whiston Engineers showing the footprint of the Connell House to be 4,630 square feet. Staff reviewed the plans and determined that the current calculation, resulting in a total of 4,630 square feet, appeared to include the footprint of the house from a bird's eye view which includes roof overhangs and decks. The prior estimate of square footage was based on the size of the Connell House, not including roof overhangs and decks, so two different things are being measured.

As discussed in County Response No. 3, the Applicant caused a redesign of the proposed dwelling and, as a result, a new comparison of building footprint comparison to be prepared since the July 8, 2025 hearing. Whitson Engineers confirmed building footprint included the lower-level structural element which was directly below a hardscaped patio in the western

edge of the Connell House internal courtyard. The updated measurement of previous structural footprint, depicted in a red dotted line in the new Attachment D to the August 26, 2025 staff report, was therefore updated to 4,889 square feet in size.

In any event, the graphical representations of the "footprint" of the Connell House is shown in Attachment D (in red dotted outline). On Attachment D, which is updated from the version considered by the Planning Commission in their decision, the proposed project is overlain on the historic "footprint" and does not extend beyond it. .

Contention No. 5: (Reeves) The plan purportedly approved by the Planning Commission clearly shows the footprint extending into patio and courtyard areas in front of the house which are clearly not within the footprint of the Connell House. This is amplified by the staff's own statement that it would represent a "new structural footprint."

(AMAP) Planning Commission Resolution 25-012 conflicts with the 2023 findings and decision of the Board of Supervisors (Resolution 23-237). That decision anticipated a structure no taller or larger than the original building. and within the original footprint. However, the approved project is nearly twice as large and 8 feet taller with a larger footprint.

County Response No. 5: It is acknowledged that the proposed structure that was reviewed by the Planning Commission and presented in the July 8, 2025 Board of Supervisors hearing included a footprint that extended beyond the footprint of the Connell House in the front courtyard area. The applicant requested the ability to exchange the area of development to accommodate a new house design that is not exactly the same as the former U-shaped house design. The proposal increased continuous dune habitat area in the back yard in exchange for filling in an area that was previously disturbed in the front courtyard area.

Contention No. 6: (Reeves) Finding 1, Evidence l: "the height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site). LUP Policy 51 requires buildings developed on residential lots in the Visual Resources area to be "situated to allow the highest potential for screening from view ... the staking and flagging presented a new (replacement) structure that would be on the larger end of the array of structural massing of single family dwellings currently permitted in the surrounding residential area ... Although it will be larger in floor area than other Signal Hill area dwellings, the Proposed Project does not present exceptional bulk or height beyond the existing and permitted dwellings within the public viewshed (Fanshell Beach and 17 Mile Drive locations)."

EVIDENCE: The proposed residence, as stated in the Resolution finding will be "on the large end of structural massing" and "larger than other Signal Hill area dwellings." The rendering below, prepared and submitted by the applicant and incorporated into the Resolution, is proof their finding regarding visual impact is not supported by evidence and is inconsistent with the Board's resolution stating, "The Reduced Project is anticipated to be no taller or larger than the existing dwelling. "

IMAGES: Applicant Rendering of the proposed design, shown in Attachment A, and Staff Photo of the subject parcel, given date of 2010

(AMAP) The project's is noticeably taller and larger than neighboring houses. Its increased size and height significantly degrade the historic public viewshed from Seventeen Mile Drive and Fanshell Beach.

County Response No. 6: (Reeves) Finding 1, Evidence "m" includes straightforward clear statements. LUP Policy 51 does not require new construction to match other construction in the area. The Board required a redesign and instructed where to site that design. Additionally, the County certified an EIR for the project which included an analysis of all impacts. The EIR discussed this potential impact in the consistency determination of the Aesthetic Resources Chapter, and prescribed mitigation measures to reduce long-term visual impacts such as habitat restoration, permanent maintenance, and tree replacements. With these conditions and mitigations applied, impacts related to Policy 51 were found to reduce impacts to a less-than-significant level.

Contention No. 7: (Reeves) Finding 4, Evidence a and c: "Three Monterey Cypress trees [T4, TS and T12] will be removed as part of this Project (Evidence a) ... The two other trees proposed for relocation with this project (identified in the Plans attached to this Resolution as T4 and TS) were involved in PLN100418 as trees that were "significantly pruned" and were required to be monitored for canopy decline (Evidence c)."

EVIDENCE: Trees T4 and TS, in front of the house on Signal Hill Road, were not part of the violations which PLN100418 was intended to address. The trees which were "significantly pruned" (T8, 9, 10) were northwest of the Connell House. The trees which were illegally removed were on the west side of the Connell House and provided significant screening from Seventeen Mile Drive and Fanshell Beach. The pictures below from Google Earth shows the scope of the illegal tree removal and trimming. The relocation of T4, TS and T12 will do nothing to screen the view of this project from the common public viewing areas of Seventeen Mile Drive and Fanshell Beach.

IMAGES: Tree Relocation and Protection Plan, found attached to Exhibit A, and two aerial images of the Connell House, before and after tree pruning and removals with labels "June 2007" and "September 2009."

(AMAP) The applicant removed the Monterey Cypress trees that screened the original residence from the historic viewshed. The decision does not recognize that the applicant failed to comply with Board of Supervisors direction in 2013 (PLN100418) to replant and maintain these trees; they were replanted but later removed again. The approved project does not include this required mitigation.

County Response No. 7:

There are two different tree removal/relocation permits at issue here.

First, in 2009, a code enforcement case (CE090288) was initiated as a result of the unpermitted removal of 2 large Cypress trees. To address that code enforcement case, a Tree Resource Evaluation/Construction/Impact Analysis was prepared by a certified arborist in October 2010 (LIB100394). The report evaluated the eight trees on the site (7 Cypress and 1

Eucalyptus) and documented that two Cypress trees were removed without a permit. Additionally, in December 2011, the arborist documented a cluster of three Cypress trees that had been "excessively pruned" and recommended a 5-year monitoring period for survivability of those trees. On February 5, 2013, the Board of Supervisors approved an after-the-fact permit for the tree removal and required restoration of the site, replanting 2 large Cypress trees to screen the house from views, and monitoring of the trimmed trees, as a condition of approval of that permit (Resolution No. 13-021).

The applicant replanted the trees as required by the condition. One of the replacement trees, located west of the house, did not survive. That tree is required to be replanted again and monitored in accordance with the approved conditions. A second tree was replanted south of the proposed house near the existing driveway. That tree survived and is alive today. However, that tree was proposed to be relocated approximately 20 feet south in the PLN240077 application. The trees that were trimmed have been monitored and have survived. The trimmed trees are subject to the conditions imposed as part of Resolution No 13-021 and are not the subject of the proposed new house design.

Included in the permit now before the Board (PLN240077), Applicant proposed to relocate two trees as part of the new construction, excluding the one tree that was required to be planted by Resolution 13-021. The two trees proposed for relocation are in the front yard and would need to be removed for development of the proposed new home and new walkway location. The third tree, located near the existing driveway, was one of the trees required to be replanted to clear the prior code compliance case. The plans, in the experienced opinion of staff, do not suggest that the proposed construction would require the relocation of this tree, 4-inches in diameter. Staff recommended that the relocation of this tree not be included in the applicant's redesign. Applicant has agreed to protect the tree, rather than relocate.

Contention No. 8: (Reeves) Finding 6. Evidence b: "The previous single-family dwelling was an Historic Resource at the (July 2007) federal level, but not the local level (September 2009) Code Chapter 18.851(illegible) agreement to local listing."

EVIDENCE: The Connell House was determined to be s significant historic resource per the findings of the County Historic Resources Review Board. It was not listed due to the owner's refusal to allow listing which does not reduce or invalidate its significance at local level.

County Response No. 8: Staff understands the contention is a quote of Finding 6, Evidence "b" of the Planning Commission Reso. No. 25-012 about the listing of the former Connell House as an historic resource. Monterey County Code section 18.26.060.A does not allow the Historic Resources Review Board to list an historic resource on the County's local register without property owner permission. The evidence does not misconstrue the establishment of the Connell House as an historic resource at the levels that it was listed. This point is moot, however. Demolition of the Connell House was evaluated in the EIR, approved by the Board of Supervisors, and completed.

Contention Nos. 9-14 contend that the decision was contrary to law:

Contention No. 9: (Reeves) The Planning Commission Approved a Variance with no notice to the public and no findings or evidence to support the variance. The Connell House was nonconforming as to setbacks. The staff presumed the Board direction to rebuild in the footprint of the Connell House was the equivalent to the granting a variance and so advised the Planning Commission. The Planning Commission, upon the recommendation of the staff approved expansion outside the footprint and approved a variance for that.

However, no variance was requested by the applicant, neither the staff report nor the draft resolution included the findings and evidence required by Monterey County Code Section 20.78.040, 20.78.050 and by Government Code Section 65906.

No public notice of the proposed variance was provided as required by Monterey County Code Section 20.78.050 (A). The variance was not included in the project description in the public notice or the agenda.

> **County Response No. 9:** The variance was not granted without the proper notice. When the applicant proposes a redesigned project, a variance may be justified and noticed because the Board of Supervisors, in adopting a resolution to conceptually approve a new house that reflects Alternative 6 of the EIR, limited new development to the footprint of the former residence. The footprint of the former residence was non-conforming to front setback requirements, so rebuilding a home in the footprint would include new construction within the required front setback.

Contention No. 10: (Reeves) The approval violates Monterey County Code Section 20.02.060 A "No building permit, grading permit, land use discretionary permit, coastal administrative permit, coastal development permit, exemption, categorical exclusion, or other permit relative to land use may be approved if it is found to be inconsistent with the Monterey County Local Coastal Program." The project is clearly inconsistent with the policies of the DMFLCP, particularly relating to visual resources.

> **County Response No. 10:** The Board requires the proposed design be modified to further reduce development that extends beyond the footprint of the former Connell House. The project will be reviewed for consistency with the policies of the Del Monte Forest Land Use Plan.

Contention No. 11: (Reeves) The action of the Planning Commission fails to recognize that the applicant failed to comply with the prior action by the Board of Supervisors for PLN100418 to plant and maintain Monterey Cypress trees to screen the property from Seventeen Mile Drive and Fanshell Beach. The Board directed in 2012 that Monterey Cypress was to be planted to replace those illegally removed by the applicant. Those trees were planted but ultimately removed by the applicant and not replaced without benefit of a coastal development permit for the removal.

(AMAP) The applicant removed the Monterey Cypress trees that screened the original residence from the historic viewshed. The decision does not recognize that the applicant failed to comply with Board of Supervisors direction in 2013 (PLN100418) to replant and maintain these trees; they were replanted but later removed again. The approved project does not include

this required mitigation.

> **County Response No. 11:** The contention raises an issue with tree removal that has been resolved through subsequent permitting and that is subject to ongoing condition compliance and monitoring requirements. The evidence in the condition compliance record for PLN100418 in the form of tree status reports prepared by a qualified arborist indicate that replacement trees failed due to fungus infections, not due to deliberate removal of healthy trees. The conditions of approval on that restoration permit included replanting in the case of tree failure. The Board applied Condition No. 16, Tree Replanting and Protection, which requires the owner to. . .
>
> ". . .cause a 48-inch box Cypress tree to be planted in a location that will provide screening of the new development when viewed from Fanshell Beach and 17-Mile Drive. The tree shall replace the large Monterey Cypress tree which was previously removed from the property and was not successfully replanted per the after-the-fact Planning Permit (PLN100418, Reso. No. 13-021) to clear a code violation for tree removal (CE090788)."
>
> This condition was discussed in the Planning Commission hearing on PLN240077 during Commission deliberations. The tree was not drawn into the arborist's tree replacement and protection plan that was submitted with the PLN240077 application, as this arborist (James Allen) was contracted to assess tree relocations related to this permit. However, when the final landscaping plan is received pursuant to conditions of approval of PLN100338, all relocation and replanting shall be included in the plan for review and approval.

Contention No. 12: (Reeves) The decision of the Planning Commission as described in Resolution 25-012 is contrary to the 2023 findings and decision of the Board of Supervisors:

Finding 1, evidence i: *The Reduced Project is anticipated to be no taller or larger than the existing dwelling. A Design Approval shall ensure that colors and materials will blend with the natural surroundings.*

(AMAP) The project's is noticeably taller and larger than neighboring houses. Its increased size and height significantly degrade the historic public viewshed from Seventeen Mile Drive and Fanshell Beach.

> **County Response No. 12:** This comment is essentially the same as appellant's contention No. 3, listed. The consistency findings of the draft Board Resolution for PLN240077 are supported by substantial evidence and no changes are required. See County Responses Nos. 3 and 4.

Contention No. 13: (Reeves) Finding 1, evidence m: Maximum allowable height is 30 feet, and the Reduced Project maximum height is anticipated to be approximately 22 feet from average. (2023 findings and decision of the Board of Supervisors)

- At 8,290 SF it is nearly twice the size of the 4,124 SF of the Connell House as it was

described in the FEIR, staff reports and Board resolution.

- At 25.5' above natural grade it is higher than the 22' above natural grade described in the FEIR, staff reports and Board resolution.
- With a 30' high frontal view from Seventeen Mile Drive it is 8 feet higher than the approximate 22' high frontal view of the Connell House.
- The plans do not incorporate the replacement of trees required by the Board of Supervisors in their decision January 2013 decision on PLN100418.

County Response No. 13: As described in responses 3 and 4, review of the new dwelling design was reviewed for consistency with the adopted Local Coastal Plan regulations, the description of the reduced project alternative (alternative 6) in the EIR, and the Boards direction to stay within the footprint of the Connell House. Alternative 6 was compared to the original house design which included a 11,993 square foot single family dwelling. At 8,290 square feet, the design reviewed by the Planning Commission and the Board in the July 8, 2025 hearing was reduced in size from the original project. The proposed design was also approximately 4.5 feet shorter (25.5 feet tall) than the original design (30 feet tall). The proposed height would avoid "ridgeline development" which is the standard for measuring "reduced height," not a comparison with the height of the now demolished Connell House.

The Board requires the proposed design be modified to further reduce development that extends beyond the footprint of the Connell House. Staff received a redesign since the July 8, 2025 hearing that further reduced the footprint of the proposed dwelling (now 7,690 square foot two-story single family dwelling inclusive of a two car garage). The height, colors and materials, and general position of the redesigned dwelling are the same. There is no "swapping" or infill of the courtyard. Staff finds that the redesign conforms with both the criteria expressed in the Final EIR for Alternative 6 and better conforms with the Board's direction.

Contention No. 14: (Reeves) The plans do not incorporate the replacement of trees required by the Board of Supervisors in their decision January 2013 decision on PLN100418.

(AMAP) The applicant removed the Monterey Cypress trees that screened the original residence from the historic viewshed. The decision does not recognize that the applicant failed to comply with Board of Supervisors direction in 2013 (PLN100418) to replant and maintain these trees; they were replanted but later removed again. The approved project does not include this required mitigation.

County Response No. 14: The contention is acknowledged, and staff is recommending that the one tree located near the existing driveway be retained. This is one of the trees that was required to be planted in accordance with the Board's prior decisions. The other tree that was required to be replanted was replanted did not survive. As required by the conditions of the prior approval, that tree must be replaced and monitored for survivability pursuant to the prior approvals.

Re: **1170 Signal Hill Road, Pebble Beach, CA**
Determination of Basement Limits

To Whom it may concern,

We understand there have been questions regarding how the limits of the rear wall of the basement were determined in relation to the topographic survey.

We utilized the attached original 1957 plans of the home to determine the rear basement wall in relation to the upper building face as surveyed. It was determined that the back of the basement wall was 12-feet from the face of the main level courtyard wall.

In order to establish the original plans were consistent with the as built conditions, we used photographs to compare the two. The following photographs—taken from various viewpoints—were analyzed to establish the relationship between the main fireplace brick surround, visible in many images, and the basement wall along the north (courtyard) edge of the former residence.

In Exhibit 1, approximate dimensions of the brick surround were determined, along with distances to the rear basement wall on the north side. The door jamb in the image was used to provide a scale reference.

Comparisons with historical photographs indicate that the edge of the brick surround aligns closely with the edge of the roof overhang along the courtyard (Exhibit 2). This alignment can be observed in several photographs, including an aerial image overlaid with the topographic survey; Exhibit 3.

In Exhibit 3, the photograph includes a pair of sliding doors which align the overhang and the brick surround. These doors are 3-foot sliders, a standard size for this era. This dimension of 6-feet coincides with the expected dimension as shown in the demolition photo of the basement wall. Furthermore, it would seem reasonable that the patio surfacing would be used to protect the basement below from potential water seepage or drainage concerns.

Before the Planning Commission in and for the County of Monterey, State of California

In the matter of the application of:
SIGNAL HILL LLC (PLN240077)
RESOLUTION NO. 25-012

Resolution by the Monterey County Planning Commission to:

1) Consider the previously certified Final Environmental Impact Report (FEIR) (SCH#2015021054) for the Signal Hill LLC project, and find that the Proposed Project is consistent with Alternative 6 of the FEIR and does not warrant an addendum pursuant to CEQA Guidelines section 15162; and
2) Approve a:
   a) Design Approval for construction of an approximately 8,290 square foot two-story single family dwelling inclusive of a three car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof, with an approximately 180 square foot outdoor stair well and 693 square feet of terrace (the "Reduced Project," Alternative 6 of the Final EIR);
   b) Coastal Development Permit to allow the relocation of three Cypress trees; and
   c) Variance for structural development in front setback.

[1170 Signal Hill Road, Pebble Beach, Del Monte Forest Area Land Use Plan (APN: 008-261-007-000)]

The SIGNAL HILL LLC application for a Design Approval and Coastal Development Permit (PLN240077) (the Proposed Project) came on for public hearing before the County of Monterey Planning Commission on April 30, 2025. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Planning Commission finds and decides as follows:

FINDINGS

1. FINDING: **PROJECT DESCRIPTION AND CONSISTENCY** – The Proposed Project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

EVIDENCE: a) Conformance with Plans. Staff reviewed the Proposed Project for consistency with the text, policies, and regulations in:
- the 1982 Monterey County General Plan;

- Del Monte Forest Area Land Use Plan (LUP);
- Monterey County Coastal Implementation Plan Part 5 (CIP, Coastal Zoning Ordinance);
- Monterey County Zoning Ordinance (Title 20);

No public comment was provided during project review that indicated the project is inconsistent with the text, policies, and regulations in these documents on various grounds. The Environmental Impact Report (EIR) that was certified for the project with Board of Supervisors Resolution No. 23-237 addressed earlier comments as to alleged and potential inconsistencies with text, policies, and/or and regulations.

b) Project Description. The Proposed Project is for construction of an approximately 8,290 square foot two-story single family dwelling inclusive of a three car garage with colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof, with an approximately 180 square foot outdoor stair well and 693 square feet of terrace (the "Reduced Project," Alternative 6 of the Final EIR). The new construction would require removal of three Cypress trees; the Applicant and project Arborist propose to relocate the three Cypress trees to locations near where they currently are growing.

c) Allowed Use. The property is located at 1170 Signal Hill Road, Pebble Beach (Assessor's Parcel Number 008-261-007-000), Del Monte Forest Area Land Use Plan (LUP). The parcel is zoned "LDR/1.5-D (CZ)" [Low Density Residential, 1.5 acres per unit with Design Control Overlay (Coastal Zone)], which allows residential uses. This Proposed Project consists of construction of a new single-family dwelling with associated site improvements for residential use. Tree removal proposed as part of the project is analyzed for consistency with the LUP, CIP, and Title 20 Zoning Ordinance and a Coastal Development Permit with supporting finding is part of this entitlement. Therefore, the Proposed Project is an allowed land use for this site.

d) Project Background. On May 9, 2023 and June 27, 2023, the Board of Supervisors heard appeals from Raymond Neutra, Samuel Reeves, and the Alliance of Monterey Area Preservationists of the Planning Commission's January 25, 2023 grant of a Combined Development Permit for this property based on the EIR's "Reduced Height Project" Alternative (Alternative 9 of the EIR). On June 27, 2023, the Board approved a Combined Development Permit for the "Reduced Project" (Alternative 6 of the Final EIR), in concept, as there were no plans prepared for it to be reviewed at the hearing (Resolution No. 23-237). Resolution No. 23-237 included approval of a Coastal Administrative Permit to construct a new single-family residence of similar size as the existing residence. The Board also approved a Coastal Administrative Permit to demolish the Connell House. The

Board's motion adopting its decision included the "stipulation that the construction is in the footprint of the Connell House as it was" (minute 3:41 of June 27, 2023 Board hearing). The building footprint of the Connell House did not conform to the 30-foot front setback of the LDR zoning district. The Board did not specify that the development footprint should be shifted out of the setbacks. On June 27, 2023, the Board of Supervisors also adopted Resolution No. 23-236, which adopted the Final EIR prepared for the Signal Hill LLC project together with a Statement of Overriding Considerations.

e) In approving the Reduced Project concept (Resolution No. 23-237), the Board of Supervisors also prohibited the replacement single family dwelling from expanding beyond the building footprint of the previous dwelling. The proposed dwelling is constrained to the previous building footprint and hardscaped areas, as illustrated in Exhibit B to the April 30, 2025 staff report to the Planning Commission. As proposed, the replacement residence is within the previous structural footprint, including roof overhangs and upper level deck (4,630 square feet) and the hardscape indoor/outdoor living areas of the Connell House (911 square feet). The total footprint of the Connell House was 5,541 square feet. The proposed replacement single family dwelling has a building site coverage of 4,857 square feet. The proposed structure does not mimic the U-shape of the Connell House and instead proposes to develop the former courtyard. Developing this former courtyard with a new structural footprint is approximately equal to the hardscape area on the northwest corner of the previous development, which will no longer exist with the implementation of this project. This equal exchange is reasonable to allow a different architectural design to be followed and property owner rights to be respected, while respecting the Board of Supervisors' direction. As proposed, the overall developed coverage of sand dune is less, and the development is less spread out than what previously existed.

f) Design Review. The site is in a Design Control (D) Zoning District. The purpose of the Design Control Zoning District is to provide a district for the regulation of the location, size, configuration, materials, and colors of structures and fences in those areas of the County where the design review of structures is appropriate to assure protection of the public viewshed, neighborhood character, and to assure the visual integrity of certain developments without imposing undue restrictions on private property. The Signal Hill LLC project has been reviewed for siting, design, colors, materials, height, character, and viewshed impacts. The Proposed Project includes exterior colors and materials of light brown stucco body and black metal clad wood accents and a gravel roof (see attached plans). The homes in this area have a variety of architectural styles. As proposed, the design and architectural elements are

consistent with the mixed neighborhood character. The proposed colors, materials, bulk, and mass will not detract from the surrounding environment and are consistent with the surrounding residential neighborhood character.

g) Development Standards. As detailed in the attached plans, the Proposed Project meets all required development standards established in Title 20, except the front setback, which conforms with the Board of Supervisors' direction. Title 20, Chapter 20.14 establishes the development standards for the subject parcel, zoned Low Density Residential with a maximum gross density of 1.5 acres/unit and a Design Control Overlay or "LDR/1.5-D(CZ)." Required setbacks for main structures are 30 feet (front) and 20 feet (rear and side). The original Connell House is in the front setback. The direction of the Board of Supervisors on the Proposed Project, when it gave its conceptual approval, was to site the new structure in the same building footprint as the previous single-family dwelling. To comply with this direction, the Proposed Project will continue to be within the front setback. The maximum height of the main dwelling is 25.5 feet above average natural grade (ANG), meeting the 30-foot height maximum for this zoning district. The maximum allowable building site coverage is 15 percent (14,146 square feet/94,307 square feet), and the project will result in building site coverage of approximately 5.2 percent (4,857 square feet/94,307 square feet). The maximum allowable floor area ratio is 17.5 percent (16,504 square feet), and the project will have a floor area ratio of approximately 8.8 percent (8,290 square feet). The Proposed Project meets the required height, building site coverage, and floor area ratio regulations, and may extend into the front setback as directed by the Board of Supervisors. A Variance to setback regulations is part of this decision (Finding No. 9).

h) Tree Removal. Three Monterey Cypress trees will be transplanted for the development. An Arborist Report prepared for the PLN100338 project concluded that the trees are not within the native habitat identified as a type of ESHA in Figure 2a of the Del Monte Forest Land Use Plan. The proposed replanting locations are near the proposed structure. These three Monterey Cypress trees were identified as part of a previous Coastal Development Permit and Restoration Plan (Resolution No. 13-021 for PLN100418). Therefore, this replanting to be overseen by a qualified arborist and a 5-year monitoring program shall be followed as was required for the trees pursuant to Resolution No. 13-021. These requirements will ensure the health and survival of the Cypress trees and long-term screening of the development. A separate Finding (Finding 4) is included in this Resolution regarding tree removal.

i) Development on Slopes. Pursuant to Section 20.64.320 of the Monterey County Coastal Implementation Plan Part 1 (Coastal

Zoning Ordinance), a Coastal Development Permit is required for development on slopes of 30% or greater. The Proposed Project involves development on approximately 800 square feet of area containing slopes greater than 30%. The Proposed Project minimizes development on slopes and a geotechnical report recommends that the development on slopes is feasible. A Coastal Development Permit for development on slopes was included in the Board of Supervisors' Resolution No. 23-237. The Proposed Project, as conditioned and mitigated under PLN100338, will have a less than significant impact on slopes.

j) Development within 100 feet of Environmentally Sensitive Habitat. Pursuant to section 20.14.030.E, of the Coastal Zoning Ordinance, a Coastal Development Permit is required for development within 100 feet of Environmentally Sensitive Habitat Areas (ESHA). The site is in coastal sand dune habitat, which is considered ESHA as defined by the LUP and CIP. With grading and construction, staging areas, up to 0.39 acres will be impacted from construction of the Proposed Project. Restoration of native dune habitat is proposed. A Coastal Development Permit for development within 100 feet of ESHA was included in Board of Supervisors' Resolution No. 23-237. The Proposed Project, as conditioned and mitigated under PLN100338, will have a less than significant impact on ESHA.

The Planning Commission found the Conservation and Scenic Easement Deed requirement of Board Resolution no. 23-237 to be insufficient to protect the sand dune ESHA outside of the structures allowed for development by this permit. Therefore, the Planning Commission added Condition No. 10 to this permit. Conservation and Scenic Easement (CSE) shall cover all areas of the property to the edge of approved hardscaped areas. Prior to issuance of construction permits, the applicant shall submit to the County of Monterey HCD – Planning for review and approval a CSE exhibit (plat and legal description) that illustrates complete sand dune preservation (both restored ESHA and landscaped areas). The Deed shall allow for restoration activities, landscaping with native plants, and tree replanting/relocation and monitoring activities as permitted herein. Applicant/Owner shall record the approved easement reflecting compliance with this measure prior to issuance of construction permits.

k) Development within 750 feet of known archaeological resources. Pursuant to LUP Policy 58 and CIP section 20.147.080.B, an archaeological survey was prepared for PLN100338. The general surface reconnaissance on the subject parcel had results that were negative for resources, but the report's research found a known prehistoric site within 750 feet of the project site. A Coastal Development Permit is required for development within 750 feet of a known archaeological site was included in the Board of Supervisors'

Resolution No. 23-237. The Proposed Project, as conditioned and mitigated under PLN100338, will have a less than significant impact on ESHA.

l) Visual Resources. The property is in the viewshed area of 17 Mile Drive, as mapped in Figure 3 of the Del Monte Forest Land Use Plan. The property is visible from the public viewing area of Fanshell Beach. The proposed single-family dwelling is just below the crest of a hill. As discussed in Evidence "e," the height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site). LUP Policy 51 requires buildings developed on residential lots in the Visual Resources area to be "situated to allow the highest potential for screening from view." LUP Policy 56 urges design and siting of structures in scenic areas should not detract from scenic values and should be subordinate to, and blended into, the environment. Proposed colors and materials consist of light brown stucco, light brown stone cladding, gray gravel roofing, and black metal door and window frames. As shown in the 3D renderings in the attached Plans, the proposed design is consistent with these viewshed policies because of its natural colors and materials and flat roof, all of which reduce its prominence in the public viewshed and complement the natural scenic assets. Although reducing the size of the residence could better comply with applicable visual resource policies and result in a project that may be more subordinate to the environment, the proposed size is not in direct conflict with the DMF LUP. Existing trees near the project site offer screening, and the trees proposed to be relocated will be sited near the structure. To further address viewshed policies, Tree Planting and Protection was applied to PLN100338 (Condition No.16). A 48-inch Cypress tree shall be planted in a location near the house (shown to the north of the proposed house) to increase the quality of screening of existing trees onsite.

As designed, the Proposed Project roofline will remain below the tree line behind and around it from all public vista points. Section 20.66.010 of the Coastal Zoning Ordinance would require A Coastal Development Permit is required for Ridgeline Development, and the Del Monte Forest Area CIP Section 20.147.070(6) outlines the criteria for granting permits for new development that is silhouetted against the sky, or ridgeline development. No permit is required for ridgeline development in this case, based on staff review of the staking and flagging, Del Monte Forest Land Use Advisory Committee review of the project, and the 3D imagery of the project that are part of the attached Plans.

Although the Proposed Project is in a high visual sensitivity area, as sited, designed, and conditioned, will not result in

adverse visual impacts. DMF LUP Policy 48 states that development within visually prominent settings shall be sited and designed to avoid blocking or having a significant adverse impact on significant public views. In section 20.06.1275, Title 20 defines "substantial adverse visual impact" as "a visual impact which, considering the condition of the existing viewshed, the proximity and duration of view when observed with normal unaided vision, causes an existing visual experience to be materially degraded." The proposed roofline will be 22 feet above Average Natural Grade (ANG) for approximately half of the elevation visible from 17 Mile Drive and Signal Hill Road. The other portion of the roofline will be 25.5 feet above ANG. Staff assessed the visual impacts of the Proposed Project on August 5, 2024. From 17-Mile Drive, the staking and flagging presented a new (replacement) structure that would be on the larger end of the array of structural massing of single family dwellings currently permitted in the surrounding residential area. As shown in the 3D renderings of the attached project plans, the lowered height, flat roof, and use of natural colors and materials help blend the development into the surrounding environment (existing sand dune and trees around the site). Once constructed, and with adherence to mitigation measures for restoration of 1.67 acres of the site to natural sand dune vegetative community, the bulk and massing of the dwelling will not significantly alter the viewshed of the Pebble Beach neighborhood. The roofline will remain below the tree line behind and around it from all public vista points. Although it will be larger in floor area than other Signal Hill area dwellings, the Proposed Project does not present exceptional bulk or height beyond the existing and permitted dwellings within the public viewshed (Fanshell Beach and 17 Mile Drive locations). Staking and flagging was not visible from any other public viewing area due to trees in line of sight and distance. Therefore, the Proposed Project will not create a substantial adverse visual impact. All new exterior lighting shall follow the dark sky regulations required by Mitigation Measure AES/MM-3.1, which was applied as a condition of approval to PLN100338 (Board Resolution No. 23-237).

m) Site Visit. The project planner conducted a site inspection on August 5, 2024, to assess visual impacts and confirm site conditions for the project on the subject parcel.

n) Land Use Advisory Committee. Based on the Land Use Advisory Committee guidelines adopted by the Monterey County Board of Supervisors (Resolution No. 08-338), this application warranted referral to the LUAC because the Proposed Project includes a Design Approval that requires a public hearing. The project was referred to the Del Monte Forest Land Use Advisory Committee (LUAC) for review on August 1, 2024, The LUAC voted 8 yeas, 0 noes to support the project as proposed.

o) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development found in Project File No. PLN240077.

2. FINDING: **SITE SUITABILITY –** The site is physically suitable for the use proposed.

EVIDENCE:

a) As part of project review under PLN100338, the project was reviewed for site suitability by: HCD-Planning; Cypress Fire Protection Districts; HCD-Engineering Services; HCD-Environmental Services; and the Environmental Health Bureau. None of these departments/agencies has opined that the site is unsuitable for the proposed development. Conditions recommended by these departments and agencies were incorporated in the project EIR resolution (Board Resolution No. 23-236).

b) The EIR identified potential impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historical Resources, Hydrology and Water Quality, and Noise, which could result from all components of the Project. All impacts other than those associated with the demolition of the Historical Resource can be mitigated to a less-than-significant level. Historical Resource impacts can be mitigated, but not to a less than significant level.

c) The technical reports by outside consultants listed in the References of the Final EIR indicated that there are no physical or environmental constraints that would indicate that the site is not suitable for the use proposed. County staff has independently reviewed these reports and concurs with their conclusions.

d) The site designated for residential use. A residential structure has existed on the site since the 1950's. As proposed, residential use of the property would continue.

e) The project planner conducted a site inspection on August 5, 2024, to verify that the site is suitable for the proposed use.

f) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD-Planning for the proposed development found in Project File Nos. PLN240077 and PLN100338.

3. FINDING: **HEALTH AND SAFETY -** The establishment, maintenance, or operation of the project will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use nor will it be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County.

EVIDENCE: a) All necessary public facilities are available to the Proposed Project. Water and sewer service will be provided by California American Water and the Carmel Area Wastewater District through the Pebble Beach Community Services District. The Environmental Health Bureau reviewed the project application and did not impose conditions pertaining to water, sewer, or solid waste. A water permit from the Monterey Peninsula Water Management District is required prior to the issuance of a building permit.

b) The Proposed Project includes construction of one structure designed for residential use. Emergency services are available. Building permits will be required to ensure the building is designed and built in accordance with California Building Standards. Geotechnical engineers have provided recommendations for the development that will be incorporated. Finally, there are no known hazards that may impact the health and safety of area residents.

c) The application, project plans, and related support materials submitted by the project applicant to the County of Monterey HCD - Planning for the proposed development found in Project File PLN240077.

4. FINDING: **TREE REMOVAL** – The siting, location, size, and design has been established to minimize tree removal and has been limited to that required for the overall health and long-term maintenance of the property.

EVIDENCE: a) Three Monterey Cypress trees will be removed as part of this project. In accordance with the applicable policies of the Del Monte Forest Coastal Implementation Plan, (DMF CIP), a Coastal Development Permit is required; the criteria to grant said permit have been met.

b) Pursuant to Section 20.147.050.B.1 of the DMF CIP, an Arborist Report and Forest Management Plan was prepared for the project (PLN100338; Planning Library Doc. No. LIB100394). The arborist report evaluated the health, structure, and preservation suitability for each tree within or adjacent to the proposed development. The report noted that two trees would be moved from the proposed building footprint to another location near the house. A qualified Arborist reviewed the currently proposed design and proposed to move these trees to a nearby location on the subject parcel. The two trees are estimated to be 22 and 16 inches in diameter. A third 4-inch diameter Cypress tree will also be relocated. In accordance with the applicable policies of DMF CIP, a Coastal Development Permit is required for the three living trees.

c) All three Cypress trees were involved in Coastal Development Permit and Restoration Plan (Planning Commission Resolution No. 13-021 for PLN100418), approved for the subject parcel. One of the trees is a replanted tree required pursuant to the resolution to clear a code violation (CE090788) for tree

removal without benefit of permit, identified herein as T12. Therefore, Condition No. 7 requires the relocation of the previously replanted tree, T12, to be regulated per the conditions of Resolution No. 13-021 (quarterly monitoring of the replacement trees by a qualified arborist for 3 years and annual monitoring for an additional 2 years, replanting as needed). The two other trees proposed for relocation with this project (identified in the Plans attached to this Resolution as T4 and T5) were involved in PLN100418 as trees that were "significantly pruned" and were required to be monitored for canopy decline. The trees had been monitored for canopy decline and showed success in quarterly monitoring reports. Therefore, Cypress trees T4 and T5 may be relocated to accommodate the construction of this project and shall be monitored for 3 years with quarterly reporting and annual monitoring for an additional 2 years, replanting as needed. Arborist shall attend a preconstruction meeting and be present for relocations and any replacement tree planting (Condition 7).

d) The Proposed Project has been designed and sited to minimize the removal of protected trees to the greatest extent possible under the circumstances. Several native Monterey Cypress trees are to the north of the proposed construction site. Relocating the proposed dwelling and courtyard to the south or west would result in a more substantial amount of development on slopes exceeding 30 percent or on areas of sand dune habitat (ESHA). Relocating the dwelling to any location other than the previous dwelling footprint was not allowed in the entitlement for the Coastal Administrative Permit for the project pursuant to Board of Supervisors Resolution No. 23-237. To that end, the removal of trees within the proposed development area is related to infill of the Connell House courtyard, which allows a different architectural design to be followed and property owner rights to be respected, while still following the Board's direction. The proposed structure does not mimic the U-shape of the Connell House. Instead, the Proposed Project will fill in the remainder of the former courtyard. This proposed equal exchange is reasonable. It would necessitate moving one Cypress tree from the courtyard area. which would become the garage, and a second from immediately next to it, where a driveway is proposed to approach the garage. Applicant justifies the relocation of the 4-inch diameter Cypress trees outside of the developed area as an accommodation to the construction work area.

e) Measures for protection of trees during construction are incorporated as Condition No. 5. If transplanting or trimming of the existing trees for construction activities results in a declining or dead condition, Condition No. 7 requires a minimum of one-to-one onsite tree replacement with approval of a Coastal Development Permit.

f) The Cypress trees will be replanted near the proposed dwelling and/or other existing Cypress trees and not in the sand dune area required to be restored as sand dune habitat pursuant to Mitigation Measures required for the related development entitlements in PLN100338.

g) Scenic visual resources are not negatively impacted because the two larger trees proposed for replanting are behind the Connell House footprint and their new locations would be behind the proposed house, thereby only slightly altering the viewshed. Condition No. 7 requires a qualified arborist to monitor the canopy to ensure the quality of screening is not reduced by more than 50 percent because of tree decline/trimming. Furthermore, the smallest of the trees proposed for replanting is to the south of the Connell House footprint; the new location would be less than 20 feet farther away from the house footprint, thereby only slightly altering the viewshed.

h) One of the trees that was replanted in front of the Connell House pursuant to Planning Commission Resolution No. 13-021 failed after several replanting efforts and monitoring. Therefore, the related project PLN100338 brought forward the requirement of replanting of the tree in a similar location. Board Resolution No. 23-237 Condition No. 16 requires the owner/applicant to cause a 48-inch box Cypress tree to be planted in a location that will provide screening of the new development when viewed from Fanshell Beach and 17-Mile Drive. The tree shall replace the large Monterey Cypress tree which was previously removed from the property and was not successfully replanted per the after-the-fact Planning Permit (PLN100418, Reso. No. 13-021) to clear a code violation for tree removal (CE090788). (This tree planting was not illustrated in the attached Tree Relocation and Protection Plan.)

i) The previous arborist report for PLN100338 found the Cypress trees proposed for relocation were previously planted and were not considered part of the “Cypress Forest” designated as an Environmentally Sensitive Habitat in the Del Monte Forest area. No significant long-term effects on the forest ecosystem are anticipated. The Proposed Project will not significantly reduce the availability of wildlife habitat over the long term as the site has surrounding forested areas that are to remain untouched.

j) Staff conducted a site inspection on August 5, 2024 to verify that the tree removal is the minimum necessary for the Proposed Project.

k) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077. Reference also Project File Nos. PLN100338 and PLN100418.

5. FINDING: **VIOLATIONS –** The subject property is in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

a) Staff reviewed County of Monterey HCD records and is not aware of any violations existing on the subject property. The site is currently clear of debris from the previously removed structure and has erosion controls in place where the residence had been. Natural and disturbed vegetation is also present on the parcel.

b) The project planner a conducted a site inspection on August 5, 2024, to verify that no violations exist on the property.

c) The application, plans, and supporting materials submitted by the project applicant to the County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077.

6. FINDING: **CEQA (CONSIDER PREVIOUSLY CERTIFIED FINAL EIR, RECIRCULATION NOT WARRANTED) –** Public Resources Code section 21080(d) and California Environmental Quality Act (CEQA) Guidelines section 15064(a)(1) require environmental review if the lead agency finds that, in light of the whole record before it, there is substantial evidence that the project may have a significant effect on the environment. The County prepared a Final EIR dated October 2022 for PLN100338. The Final EIR responds to comments received during the Draft EIR circulation period of August 22, 2018 to October 12, 2018. Through adoption of Resolution No. 23-236, the Board of Supervisors certified the Final EIR. Pursuant to CEQA Guidelines Section 15162, when an EIR has been certified, no subsequent EIR shall be prepared for the project unless the agency determines that substantial changes are proposed, or substantial changes occur with respect to the circumstances under which the project is undertaken.

EVIDENCE: a) The PLN100338 permit was granted subject to 42 conditions of approval that run with the land (condition number 31 was removed by the Board action and is still enumerated without condition requirements, as "reserved"). The applicant has complied with all the measures and conditions of PLN100338 in timely fashion pursuant to the recorded Mitigation Monitoring and Reporting Plan Agreement (Document No. 2023029686).

b) The previous single family dwelling was an Historic Resource at the State and Federal level, but not the local level (Monterey County Code Chapter 18.85 requires owner agreement to local listing). Although the EIR found impacts to Historic Resources to be significant with mitigation measures applied, the Board supported demolition in this case and found that there was

sufficient evidence to support a Statement of Overriding Consideration (Resolution No. 23-237). Mitigation Measures for Historic Resources were applied to PLN100338, including HR/MM-1.1 (Historic American Buildings Survey) and HR/MM-1.2 (Connell House Web Page), both of which have been complied with prior to the hearing for PLN240077.

c) Issues that were analyzed in the EIR include Aesthetics, Agricultural Resources, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Historical Resources, Hydrology and Water Quality, Land Use and Planning, Mineral Resources, Noise, Paleontological Resources, Population and Housing, Public Services, Utilities, Recreation, and Transportation and Traffic. The EIR identified potential impacts that would be less than significant or could be mitigated to a less than significant level associated with all topics, except impacts to Historical Resources, which cannot be mitigated to less than significant levels if a project that involved demolition is chosen. As described in these findings and in the EIR, mitigation measures that avoid or substantially lessen the impacts to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, and Noise have been incorporated (see Finding No. 6). For the impact identified as significant and unavoidable, all feasible mitigation measures have been incorporated, but even with such mitigation, the impacts remain significant.

d) The subject property contains coastal dune habitat and wetland habitat. In accordance with CIP section 20.147.040.B, a Biological Resource Assessment and Supplemental Biological Resources Assessment was prepared (Michael Zander, June 8, 2010 and June 23, 2011, HCD Library File No. LIB100396). Based on those reports, potential impacts were evaluated in the project EIR. The EIR recommended restoration actions for the original project scope, which was a much larger house that was found to have direct and indirect impacts on biological resources. The EIR found that the Reduced Project Alternative would not impact a significant amount of ESHA. Thus, Board Resolution Nos. 23-236 (EIR) and 23-237 (Approval of a conceptual Reduced Project Alternative) found BIO/MM-3.9 (Offsite restoration of sand dune habitat) extraneous, and both it and its monitoring action BIO/MMA-3.9.1 were removed. The Project's site review Coastal Administrative Permit was approved with voluntary restoration of approximately 1.67 acres of sand dune habitat on the project site and monitoring the restoration success for five years. Mitigation measures applied to the Combined Development Permit (PLN100338) accomplish the restoration and avoidance of impacts to biological resources through BIO/MM-2.1 (Restoration

Monitor Funding Agreement), BIO/MM-2.2 (Environmental Awareness Training), BIO/MM-2.3 (Surveys for California Legless Lizard and Other Reptiles), BIO/MM-2.4 (California Legless Lizard Best Management Practices, "BMPs"), BIO/MM-2.5 (Nesting Bird Survey and Buffer Zone), BIO/MM-2.6 (Active Bird Nest Buffer), BIO/MM-3.2 (Dune Restoration Plan Bond), BIO/MM-3.3 (Monitoring Contract), BIO/MM-3.4 (Fencing that Excludes Adjacent ESHA), BIO/MM-3.5 (Stockpiles and Staging Areas BMPs), BIO/MM-3.6 (Control Stormwater or Wastewater Outfall), BIO/MM-3.7 (Plant Species Landscape Plan), BIO/MM-3.8 (Landscape Plan Substrates), BIO/MM-4.1 (100-FT Buffer Zone from Juncus Articus Herbaceous Alliance Vegetation), and BIO/MM-4.2 (Coastal Wetland Perimeter Flagging). Furthermore, a Coastal Development Permit for development within 100 feet of ESHA was approved with the Combined Development Permit for PLN100338.

e) The subject property is in a high archaeological resource sensitivity area. In accordance with CIP section 20.147.080.B, a Phase 1 Archaeological Report was prepared (Doane and Breschini, February 2, 2012, HCD Library File No. LIB100397). Due to the project's proximity to known archaeological and tribal cultural resources, the EIR prepared for PLN100338 recommended measures for avoidance of impacts on cultural and tribal cultural resources. The development entitled under PLN100338 included Mitigation Measures that required archaeological resource/artifact training for construction personnel (AR/MM-1.1), an onsite archaeological monitoring plan to be developed (AR-MM-1.2) with active monitoring (AR/MM-1.3) and directed action if human remains are exposed during construction (AR/MM-2.1). These are active conditions of approval for PLN100338.

f) As described in Finding 1, Evidence "e," Board of Supervisors Reso. No. 23-037 Condition No. 23 is augmented by Condition No.10 of this permit. Condition No. 23 was for a Conservation and Scenic Easement to be required on the restored area of the parcel in 2:1 ratio to the area impacted by development (including construction impacts). To ensure long term protection of sand dune ESHA, a Conservation and Scenic Easement shall cover all areas of the property to the edge of approved dwelling and hardscaped areas. Mitigation Measure BIO/MM-3.1 is strengthened by this permit decision and therefore recirculation is not required.

g) Mitigation Measures applied to PLN100338 include those mentioned above for Biological Resources, Aesthetics, Archaeological and Tribal Cultural Resources, as well as for Air Quality (AQ/GHG/MM-1.1 and AQ/GHG/MM-1.2), Geology and Soils (GEO/MM-1.1), Hazards and Hazardous Materials (HAZ/MM-1.1, HAZ/MM-1.2 and HAZ/MM-1.3)

Hydrology and Water Quality (HYD/MM-1.1 and HYD/MM-2.1) and Noise (NOI/MM-1.1).

h) The Proposed Project is consistent with the FEIR. No new review is needed. None of the conditions described in section 15162 that would trigger preparation of a subsequent EIR have occurred. No new information of significant impacts or exacerbated existing impacts has been presented. Moreover, the EIR analyzed the potential impacts of residential development of the lot including removal of trees and up to 10,008 square feet of structural and hardscape improvements. The Proposed Project includes 7,900 square feet of structural and hardscape improvements and relocation of three trees.

i) The EIR examined eight alternatives and one "no project" alternative to the original project and evaluated them separately, comparing their potential impacts to those of the originally proposed project. This Design Approval is the Reduced Project alternative, Alternative 6. The Proposed Project design is smaller than the project considered in the EIR prepared for PLN100338 in all ways. The original project was 11,933 square feet and two stories with 1,950 square feet of paved areas for a total impervious lot coverage of 10.6 percent. The PLN240077 design lessens building site coverage from 8,058 square feet (8.5 percent) to approximately 4,857 square feet (5.2 percent, includes 180 square foot outside stairwell), lessens Floor Area Ratio from 11,933 square feet (12.6 percent) to 8,290 square feet (8.8 percent), and decreases the combined pervious and impervious coverage by 21 percent (from 10,008 square feet to approximately 7,900 square feet). The original project's maximum height was 30 feet from Average Natural Grade (ANG), while the PLN240077 proposed height is a flat roof that reaches 22 and 25.5 feet from ANG, maximum height is 4.5 feet less. Therefore, the Proposed Project meets the EIR's estimation of a Reduced Project Alternative to the original project.

j) The applicant proposes to introduce an area outside the west edge of the building footprint as "proposed decking at terrace level". BIO/MM-3.7 (Plant species landscape plan) and BIO/MM-3.8 (Landscape plan substrates) require native sand dune species to be planted around the replacement house and for the substrates to be sand dune and not introduced soils. Expansion of the development footprint into an area that contains sand dune is not in keeping with these Mitigation Measures. Therefore, this proposed deck and surface level pavers are not supported pursuant to Condition No. 8.

8. FINDING: **PUBLIC ACCESS** – The Proposed Project conforms with the public access and recreation policies of the Coastal Act (specifically Chapter 3 of the Coastal Act of 1976, commencing with Section 30200 of the Public Resources

Code) and applicable Local Coastal Program, and will not interfere with any form of historic public use or trust rights.

EVIDENCE:

a) No access is required as part of the Proposed Project, as no substantial adverse impact on access, either individually or cumulatively, as described in Del Monte Forest Area CIP Section 20.147.130, can be demonstrated.

b) No evidence or documentation has been submitted or found showing the existence of historic public use or trust rights over this property.

c) The subject property is not identified as an area where the Local Coastal Program requires physical public access (Figure 8, Major Public Access and Recreational Facilities, in the Del Monte Forest Area LUP).

d) The subject project parcel is in an area where the Local Coastal Program requires visual public access (Figure 3, Visual Resources, in the Del Monte Forest Area LUP) and CIP 20.147.070.

e) Based on the project location among large trees, more planned vegetative screening, planned restoration of sand dune habitat, and its topographical relationship to most visual public access points in the area, the development proposal will not interfere with visual access along 17-Mile Drive or from Point Lobos. The proposed design is consistent with CIP section 20.147.070.B.5 in that the placement is on the least visible portion of the property (in distance from 17 Mile Drive) and utilizes non-invasive native vegetation to help provide visual compatibility. Consistent with Del Monte Forest Area LUP Policies 123 and 137, the proposed development as mitigated and conditioned will not block significant public views toward the ocean and will not adversely impact the public viewshed or scenic character in the project vicinity.

f) In certifying the Final EIR, the Board of Supervisors concluded, in concept, that Alternative 6 (Reduced Project) avoids significant adverse impacts on public views and the scenic character (Board Resolution No. 23-236).

g) The application, plans, and supporting materials submitted by the project applicant to County of Monterey HCD-Planning for the proposed development are found in Project File No. PLN240077.

9. FINDING: **VARIANCE –** The Planning Commission finds that this project is a Design Approval in conformance with the Alternative 6 Reduced Project concept approved with a Combined Development Permit by the Board of Supervisors with Resolution No. 23-137. By adhering to the direction of the Board to remain within the building footprint of the Connell House, the project is constructed within the 30-foot front setback. Therefore, a Variance to Coastal Zone Low Density Residential (LDR) setback regulations (Title 20 section 20.14.060). The variance is supported because of special circumstances applicable to subject

property, while it does not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zoning district. Furthermore, development within the front setback is not a use which is not otherwise expressly authorized by the zone regulation governing the parcel.

EVIDENCE: a) Special circumstances apply to the subject parcel, as the parcel is entirely within sand dune in the Signal Hill enclave of the Del Monte Forest planning area. If the project were to be sited entirely out of the front setback, it would convert additional sand dune to development. Sand dune is environmentally sensitive habitat area (ESHA), as discussed in the project EIR and related project Board of Supervisors resolutions 23-236 and 23-237. Requiring the project to adhere to a 30-foot front setback would conflict with this, a special project circumstance satisfies Title 20 section 20.78.050's first criterion required to obtain a variance.

b) The granting of this variance does not constitute a special privilege for the property owner inconsistent with the limitations upon other properties in the vicinity and zoning district because the requirement to build within the building footprint of the Connell House was Board of Supervisors direction to the property owner/developer. The property owner was prepared to reconstruct within the required yard regulations. The Board's direction could have been a limitation on any property in the Signal Hill enclave of Del Monte Forest planning area.

c) Development within the front setback is not a use which is not otherwise expressly authorized by the zone regulation governing the parcel. LDR zoning district setback regulations specify a 30-foot setback for structural development. Requiring the project to adhere to a less-than-30-foot front setback is not expressly authorized by LDR zoning district, so this satisfies Title 20 section 20.78.050's third criterion required to obtain a variance.

10. FINDING: **APPEALABILITY -** The decision on this project may be appealed to the Board of Supervisors and the California Coastal Commission.

EVIDENCE: a) Board of Supervisors. Pursuant to Title 20, Section 20.86.030, an appeal may be made to the Board of Supervisors by any public agency or person aggrieved by a decision of an Appropriate Authority other than the Board of Supervisors.

b) Coastal Commission. Pursuant to Title 20, Section 20.86.080.A, the project is subject to appeal by/to the California Coastal Commission because it involves development between the sea and the first through public road paralleling the sea (i.e., State Route/Highway 1).

The property is located at 1170 Signal Hill Road (Assessor's Parcel Number 008-261-007-000), Del Monte Forest Land Use Plan. This permit was approved in accordance with County ordinances and land use regulations subject to the terms and conditions described in the project file. Neither the uses nor the construction allowed by this permit shall commence unless and until all of the conditions of this permit are met to the satisfaction of the Director of HCD - Planning. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities. To the extent that the County has delegated any condition compliance or mitigation monitoring to the Monterey County Water Resources Agency, the Water Resources Agency shall provide all information requested by the County and the County shall bear ultimate responsibility to ensure that conditions and mitigation measures are properly fulfilled. (HCD - Planning)

Compliance or Monitoring Action to be Performed: The Owner/Applicant shall adhere to conditions and uses specified in the permit on an on-going basis unless otherwise stated.

The County Counsel's Office shall send Owner/Applicant an indemnification agreement. Owner/Applicant shall submit such signed and notarized Indemnification Agreement to the Office of the County Counsel for County's review and signature. Owner/Applicant shall then record such indemnification agreement with the County of Monterey Recorder's Office. Owner/Applicant shall be responsible for all costs required to comply with this paragraph including, but not limited to, notary costs and Recorder fees.

4. PD011(A) - TREE REMOVAL

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: Tree removal shall not occur until a construction permit has been issued in conformance with the appropriate stage or phase of development in this permit. Only those trees approved for removal shall be removed. (HCD-Planning)

Compliance or Monitoring Action to be Performed: Prior to tree removal, the Owner/ Applicant/ Tree Removal Contractor shall demonstrate that a construction permit has been issued prior to commencement of tree removal.

5. PD011 - TREE AND ROOT PROTECTION

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: Trees which are located close to construction site(s) shall be protected from inadvertent damage from construction equipment by fencing off the canopy driplines and/or critical root zones (whichever is greater) with protective materials, wrapping trunks with protective materials, avoiding fill of any type against the base of the trunks and avoiding an increase in soil depth at the feeding zone or drip-line of the retained trees. Said protection, approved by certified arborist, shall be demonstrated prior to issuance of building permits subject to the approval of HCD - Director of Planning. If there is any potential for damage, all work must stop in the area and a report, with mitigation measures, shall be submitted by certified arborist. Should any additional trees not included in this permit be harmed, during grading or construction activities, in such a way where removal is required, the owner/applicant shall obtain required permits. (HCD - Planning)

Compliance or Monitoring Action to be Performed: Prior to issuance of grading and/or building permits, the Owner/Applicant shall submit evidence of tree protection to HCD - Planning for review and approval.

During construction, the Owner/Applicant/Arborist shall submit on-going evidence that tree protection measures are in place through out grading and construction phases. If damage is possible, submit an interim report prepared by a certified arborist.

Prior to final inspection, the Owner/Applicant shall submit photos of the trees on the property to HCD-Planning after construction to document that tree protection has been successful or if follow-up remediation or additional permits are required.

6. PW0044 - CONSTRUCTION MANAGEMENT PLAN

Responsible Department: Public Works

Condition/Mitigation Monitoring Measure: The applicant shall submit a Construction Management Plan (CMP) to HCD-Planning and HCD-Engineering Services for review and approval. The CMP shall include measures to minimize traffic impacts during the construction/grading phase of the project.

CMP shall include, at a minimum, duration of the construction, hours of operation, truck routes, estimated number of truck trips that will be generated, number of construction workers, and on-site/off-site parking areas for equipment and workers and locations of truck staging areas. Approved measures included in the CMP shall be implemented by the applicant during the construction/grading phase of the project. (Public Works)

Compliance or Monitoring Action to be Performed: 1. Prior to issuance of the Grading Permit or Building Permit, Owner/Applicant/Contractor shall prepare a CMP and shall submit the CMP to the HCD-Planning and HCD- Engineering Services for review and approval.

2. On-going through construction phases Owner/Applicant/Contractor shall implement the approved measures during the construction/grading phase of the project.

7. PD048 - TREE REPLACEMENT/RELOCATION

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: The applicant shall relocate each tree approved for relocation as shown in the approved plans for the project. (The applicant shall also plant a 48-inch box Cypress tree of native stock as required by PLN100338/Board Resolution no. 23-137, which is not shown in these approved plans but is still required.)

A qualified Arborist shall be included in a preconstruction meeting and oversee the relocation of trees T4, T5 and T12 as shown in the approved plans and the replanting of the replacement tree (Condition No. 16 of Board Reso. no. 23-137). The arborist shall monitor the health and vigor of T4 and T5 quarterly for a three-year period, then annually for two additional years to ensure survival. If the arborist determines that the relocated trees are in poor vigor or the canopy has reduced by 50 percent or more, the arborist will recommend management actions to remedy the concerns. The arborist may require additional tree planting due to tree failure or to make up for lost canopy to screen the development. The replacement trees shall be Monterey cypress, 36-inch box size or larger. The trees may only be removed with the approval of a Coastal Development Permit.

Cypress tree T12 is a replanted tree pursuant to Planning Commission Resolution No. 13-021. Therefore, monitoring for survival and vigor shall be implemented pursuant to the tree replanting conditions of that permit for T12. This includes quarterly monitoring of the replacement trees by a Certified Arborist for 3 years and annual monitoring for minimum of 5 years, with replanting from Pebble Beach area Cypress stock, as needed. The applicant or applicant's representative shall implement the arborist recommendation(s) within one month of receiving the recommendation. The monitoring program shall remain in place for five years or until such time as the tree canopy of the replacement trees approximates the 2007 tree canopy, whichever is longer. If any relocated trees die, the applicant shall replace the tree(s) at a 1:1 ratio. Replacement tree(s) shall be located within the same general location as the tree being removed. (HCD - Planning)

Compliance or Monitoring Action to be Performed:

A qualified Arborist shall be included in a preconstruction meeting. Applicant/Owner shall submit to HCD-Planning for review and approval a sign-in sheet from the preconstruction meeting that includes names and company information.

Prior to construction permit issuance, Applicant/Owner shall submit to HCD-Planning for review and approval a contract Scope of Work with a qualified Arborist that includes the requirements of this condition.

Qualified Arborist shall oversee and report on tree relocation activities, including photographs of the relocation of the trees. As evidence that this has been completed, Applicant/Owner shall submit an "as planted" plan prepared by a the arborist showing the location of the replacement trees, protective measures that have been installed,
species, size and any irrigation/hand watering plan.
Qualified Arborist shall perform a monitoring program including at a minimum:
1) Quarterly monitoring inspections by qualified Arborist of all relocated/planted trees for a minimum of 3 years and annual inspections for a minimum of 2 additional years (total of 5 years monitoring).
2) A report by the arborist documenting the findings of each inspection shall be submitted to HCD-Planning for review and approval within one month of each inspection. The first quarterly inspection report for monitoring of trees is due 4 months after the relocation planting of the trees.
Should the monitoring reports conclude that replanting shall be required, replacement tree(s) from Pebble Beach Cypress tree stock shall be planted within the same general location as the tree(s) that failed. The applicant or applicant's representative shall implement the arborist recommendation(s) within one month of receiving the recommendation. The monitoring program shall remain in place for five years or until such time as the tree canopy of the replacement trees approximates the 2007 tree canopy, whichever is longer.

8. PDSP001: NO NEW DECK OR PAVERS ON/ABOVE SAND DUNE

Responsible Department: Planning

Condition/Mitigation Monitoring Measure:

The Exhibit B to the April 30, 2025 Staff Report to the Planning Commission introduce an area outside the west edge of the building footprint (shown in green), labeled as "proposed decking at terrace level". BIO/MM-3.7 (Plant species landscape plan) and BIO/MM-3.8 (Landscape plan substrates) require native sand dune species to be planted around the replacement house and for the substrates to be sand dune and not introduced soils. Expansion of the development footprint into an area that contains sand dune is not in keeping with these Mitigation Measures. Therefore, this proposed deck and surface level pervious pavers are not supported and shall be removed from the project. (HCD-Planning)

Compliance or Monitoring Action to be Performed:

Construction permit plans shall not include the "proposed decking at terrace level" and pervious pavers on sand dune areas on the west edge of the proposed dwelling that are suggested in Exhibit B toto the April 30, 2025 Staff Report to the Planning Commission. This area shall be landscaped pursuant to BIO/MM-3.7 (Plant species landscape plan) and BIO/MM-3.8 (Landscape plan substrates). A landscape plan shall be included in the construction plan submittal for review and approval by HCD-Planning.

9. PDSP002: CONFORMANCE WITH CONDITIONS OF APPROVAL FOR PLN100338

Responsible Department: Planning

Condition/Mitigation Monitoring Measure: Per Condition No. 43 of PLN100338, a Mitigation Monitoring and Reporting Plan (MMRP) Agreement was prepared by staff and County Counsel, signed and notarized by the Applicant and the HCD Director, and recorded by the Applicant as County Document No. 2023029686. PLN240077, as permitted through Resolution No. 25-012, is related to the Combined Development Permit approved by the Board of Supervisors on June 27, 2023, with Board Resolution Nos. 23-036 and 23-037. Work authorized under this Permit must comply with the Conditions of Approval/Mitigation Monitoring and Reporting Plan for PLN100338, as memorialized in the MMRP Agreement prepared for PLN100338, Document No. 2023029686. This condition of approval memorializes that the Conditions of Approval/Mitigation Monitoring and Reporting Plan approved through those resolutions will continue as formalized in the MMRP Agreement, and this project and its conditions of approval are added to and in general conformance with them.

Compliance or Monitoring Action to be Performed: Comply with all COA herein and the Conditions of Approval/Mitigation Monitoring and Reporting Plan as formalized by the MMRP Agreement (County Document No. 2023029686).

10. PD022(B) - EASEMENT-CONSERVATION & SCENIC IN THE DEL MONTE FOREST

Responsible Department: Planning

The easement conveyance shall include funding adequate to ensure the management and protection of the easement area over time. The easement shall be developed in consultation with a certified professional and the Del Monte Forest Conservancy Inc. A Subordination Agreement shall be required, where necessary. These instruments shall be subject to approval by the County as to form and content, shall provide for enforcement, if need be, by the County or other appropriate agency, and name the County as beneficiary in event the Conservancy is unable to adequately manage these easements for the intended purpose of scenic and visual resource protection. An easement deed shall be submitted to, reviewed, and approved by the Director of HCD - Planning and the Executive Director of the California Coastal Commission, and accepted by the Board of Supervisors prior to recording the parcel/final map or prior to issuance of grading and building permits. (HCD - Planning)

Compliance or Monitoring Action to be Performed: Prior to recording the parcel/final map or prior to the issuance of grading and building permits, the Owner/Applicant/Certified Professional shall submit the conservation and scenic easement deed and corresponding map, showing the exact location of the easement on the property along with the metes and bound description developed in consultation with a certified professional, to the to the Del Monte Forest Conservancy for review and approval.

Prior to recording the parcel/final map or prior to the issuance of grading and building permits, the Owner/Applicant/Certified Professional shall submit the conservation and scenic easement deed and corresponding map, showing the exact location of the easement on the property along with the metes and bound description developed in consultation with a certified professional, to HCD - Planning for review and approval.

Before the Board of Supervisors
County of Monterey, State of California

In the matter of the application of:
SIGNAL HILL LLC (PLN100338)
RESOLUTION NO. 23-236

Resolution by the Monterey County Board of Supervisors certifying an Environmental Impact Report prepared for the Signal Hill LLC project (PLN100338)
[Signal Hill LLC, 1170 Signal Hill Road, Pebble Beach, Del Monte Forest Area Land Use Plan (APN: 008-261-007-000)]

The Signal Hill LLC project came on for public hearing before the Monterey County Board of Supervisors on May 9, 2023, and June 27, 2023. In consideration of the project and its alternatives, together with all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Board of Supervisors finds as follows with respect to the Environmental Impact Report:

FINDINGS

1. **FINDING:** **PROCESS** – An Environmental Impact Report (EIR) has been prepared for the Signal Hill LLC project pursuant to the requirements of the California Environmental Quality Act (CEQA).

EVIDENCE:

a) Location: The Signal Hill Project is located at 1170 Signal Hill Road, Pebble Beach. (Assessor's Parcel Number 008-261-007-000), Del Monte Forest Area Land Use Plan (LUP).

b) Project: In 2010, an application was filed on behalf of the property owner Signal Hill LLC (Massy Mehdipour) for the demolition of an existing 4,124 square foot single family residence and the construction of a new three level 11,933 square foot single family residence including an attached three-car garage, a 986 square foot entry court, 106 square feet of uncovered terraces, approximately 2,600 square feet of covered terraces, new driveway, and approximately 1,700 cubic yards of grading (1,200 cubic yards cut/500 cubic yards fill) and restoration of approximately 1.67 acre of native dune habitat. The project also includes removal of three Monterey Cypress trees. (The proposed project was for a structure with a maximum height of 30 feet, and therefore is referred to herein as the "Full Height Project".)

This resolution applies only to the certification of the EIR prepared for the project. Action on the above-described Project will be considered following certification of the EIR.

c) Historic Resources. The existing house proposed for demolition was designed by Richard Neutra for Arthur and Kathleen Connell in 1957. The "Connell House" was listed on the National Register of Historic Places and was automatically added to the State Historic Landmark Register on June 13, 2014. The application proposed demolition of the existing house, which would be a significant impact to the historical resource. As such, an Environmental Impact Report was required for the proposed project.

d) Notice of Preparation (NOP): Pursuant to CEQA Guidelines section 15082 of, the County posted an NOP with the Monterey County Clerk's Office and that office transmitted it to the State Clearing House (SCH#2015021054) on February 15, 2015, starting a 32-day comment period on the NOP, which ended on March 20, 2015. The NOP included a description of the Project, maps and text identifying the Project's location, and a list of the Project's probable, potential environmental effects, which included potential impacts to historic resource, development in native sand dune habitat, and aesthetics. The NOP and comments received on the NOP are attached to the EIR as Appendix A.

e) Public Scoping Meeting: A Public Scoping Meeting was held on February 23, 2015 at the Pebble Beach Community Services District Offices located at 3101 Forest Lake Road, Pebble Beach. All interested parties were given the opportunity to attend and comment on the scope of the EIR and potential issues to be considered therein. Information on the date, time, and location of the scoping meeting was provided in the NOP.

f) Consultation: Comments were received on the NOP from the California Office of Historic Preservation and the California Coastal Commission. The County reviewed these comments and addressed them in the Draft EIR.

g) Public Review of Draft EIR: A Draft EIR was prepared for the Project. On August 22, 2018, the County of Monterey published a Notice of Availability (NOA) of the Draft EIR in the Monterey County Herald, caused notices of the NOA to be posted at the site, and mailed the NOA to neighboring property owners and all persons who requested notice of the project. At the same time, staff prepared and transmitted a Notice of Completion (NOC) to the State Clearinghouse. Copies of the Draft EIR along with all appendices, were provided to the Public Library at Ocean Avenue and Lincoln Street in Carmel, the Pacific Grove Library at 550 Central Avenue in Pacific Grove, were available at the County of Monterey Resource Management Agency (Now Housing & Community Development) offices in Salinas, and were posted on the County's website. Posting of the NOA and transmittal of the NOC began a 49-day public comment period that ended on October 12, 2018.

The NOA provided information on the project location, project description, places where the documents were available for review, the public review period, a description of potential significant effects of the project, County contact information, and instructions for how to submit comments.

h) Impacts: The Draft EIR found that the Project had a potentially significant and unavoidable impact to an historic resource from demolition of the Connell house. Potentially significant impacts to aesthetics, biology, archaeology, soils and geology, and hydrology were also found, however mitigation measures were identified to reduce these impacts to a less-than significant-level. The Draft EIR concluded that all other resources it examined as affected by the Project did not have significant potential environmental impacts were found to have a less than significant impact on the environment. The only significant impact would occur if the Board of Supervisors were to approve demolition of the historic resource.

i) Alternatives: Alternatives to the Project considered and analyzed in the Draft EIR include:

- The "No Project" Alternative
- "Preservation" (Alternative 1) - This alternative would include retaining the Connell house and preserving, repairing, and replacing portions of the structure for single-family occupancy in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties;
- "Preservation/Adaptive Reuse" (Alternative 2) – This alternative would include retaining the Connell house and preserving, repairing, and replacing portions of the structure for an adaptive reuse allowed under the Monterey County Zoning Code in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. Adaptive reuse refers to the process of reusing a structure for a purpose other than that for which it was built or designed (i.e., for historic documentation and public educational uses [a museum]);
- "Preservation and separate onsite development" (Alternative 3)- This alternative would include retaining the Connell house and preserving, repairing, and replacing portions of the structure in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. Under this alternative, a second single-family residence would be developed at a different location on the project site;
- "Project Integration" (Alternative 4) - This alternative would include integration of the Connell house into the proposed project. The structure (or portions of the structure) would be retained and integrated into the design of the new construction

in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties;

- "Relocation and Preservation" (Alternative 5) - This alternative would include relocating the Connell house to a new location and preserving, repairing, and replacing portions of the structure in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties;
- "Reduced Project" (Alternative 6) - This alternative would include demolition of the Connell house, but would reduce the size of the proposed single-family residence to stay within the existing developed footprint and to avoid building heights that extend above the ridgeline;
- "Neutra-Inspired Redesign" (Alternative 7) - This alternative would include demolition of the Connell house, but also a redesign of the proposed single-family residence to echo Richard Neutra's design for the new development;
- "Salvaged Reuse Integration" (Alterative 8) - This alternative would include demolition of the Connell house, but would reuse salvaged elements from the Connell house as fragments integrated into the design of the new single-family residence;
- "Reduced Height" (Alternative 9) - This alternative would include demolition of the Connell house and reduction of the maximum height of the proposed single-family residence structure by 5 feet, from 30 feet above average natural grade (130 feet above msl) to 25 feet above natural grade (125 feet above msl).

The Draft EIR concluded that the "Preservation" Alternative was the environmentally superior alternative because it would not impact the historic resource but would reduce impacts on biology, archaeology, and aesthetics. See Finding 5 with supporting evidence.

j) Evaluation of Comments on the Draft EIR: During the public review period on the Draft EIR, 140 comment letters were received. The County has evaluated those comments. The comments and responses to those comments are included in the Final EIR for the project. The County's analysis of these comments resulted in some proposed revisions to the body of the EIR that are also provided in the Final EIR. The Board of Supervisors has received and considered the communications submitted.

k) No Recirculation Required: After review and evaluation of the comments received on the Draft EIR, the County determined that recirculation is not required.

Response to Comments (Chapter 9 of the Final EIR) clarifies, amplifies, and/or makes minor modifications to the Draft EIR. No significant new information has been added that would require

recirculation of the document under CEQA Guidelines section 15088.5. (See Finding 6)

l) Final EIR: A Final EIR was completed in October 2022. The Final EIR contains comments received on the Draft EIR, responses to those comments, and proposed revisions to the Draft EIR. A copy of the Final EIR was made available to the applicant and to those who requested notice more than 10 days before the Board of Supervisors considered certification of the EIR.

m) EIR: The Environmental Impact Report (EIR), consisting of a Draft EIR and a Final EIR, is on file in the offices of HCD and is hereby incorporated by reference.

n) The application, project plans, and related support materials submitted by the project applicant to County of Monterey HCD for the proposed development found in Project File PLN100338.

2. **FINDING:** **CEQA-CERTIFICATION OF THE FINAL EIR –** Pursuant to CEQA Guidelines section 15090, prior to approving a project the lead agency shall certify that: a) the Final EIR has been completed in compliance with CEQA; b) the Final EIR was presented to the decision-making body of the lead agency and the decision-making body reviewed and considered the information contained in the Final EIR prior to approving the project; and c) the Final EIR reflects the lead agency's independent judgment and analysis.

EVIDENCE: a) Public Resources Code section 21080(d) and CEQA Guidelines section 15064(a)(1) require environmental review if the lead agency finds that, in light of the whole record before it, there is substantial evidence that the project may have a significant effect on the environment.

b) The Final EIR was completed in compliance with CEQA. See Finding 1 with supporting evidence.

c) A Final EIR (FEIR) was presented to the Planning Commission and Board of Supervisors and to commenting agencies on November 21, 2022. The Planning Commission on December 7, 2022, and again on January 25, 2023. The Board of Supervisors held a public hearing on May 9, 2023 and again on June 27, 2023, at which time the Board certified the Final EIR. The Board of Supervisors reviewed and considered the information contained in the FEIR prior to acting on Project.

d) Evidence that has been received and considered includes: the application, technical studies/reports (see Finding 1), staff reports that reflect the County's independent judgment, and information and testimony presented during public hearings (as applicable). These documents are on file at County HCD (PLN100338) and are hereby incorporated herein by reference.

e) Staff analysis contained in the EIR and the record as a whole indicate the project could result in adverse impacts to the resources listed in 14 Code of California Regulations section 753.5(d). All land development projects that are subject to environmental review must pay a state filing fee plus the County recording fee, unless the Department of Fish and Wildlife determines that the project would have no effect on fish and wildlife resources.

For purposes of the Fish and Game Code, the project could potentially have a significant adverse impact on the fish and wildlife resources upon which the wildlife depends. State Department of Fish and Wildlife had the opportunity to review the EIR to comment and recommend necessary conditions to protect biological resources in this area. The project will be required to pay the state fee plus a fee payable to the County Clerk/Recorder for processing said fee and filing the Notice of Determination (NOD) pursuant to CEQA Guidelines section 15094.

f) The County prepared a Final Environmental Impact Report ("Final EIR") dated October 2022. The Final EIR document responds to comments received during the Draft EIR circulation period. The Final EIR responds to all significant environmental concerns raised by persons and organizations that commented on the Draft EIR. The County has considered the comments it received during the public review period for the Draft EIR and, in the Responses to Comments document, responded to these comments pursuant to CEQA Guidelines section 15088.

g) County of Monterey Housing & Community Development Department, located at 1441 Schilling Place, 2nd Floor, Salinas, California, 93901, is the custodian of documents and other materials that constitute the record of proceedings upon which the decision to adopt the EIR is based.

h) The Draft Environmental Impact Report ("DEIR") for the Signal Hill LLC (PLN100338) and Final EIR ("FEIR") for the Signal Hill LLC Project (SCH#2015021054).

3. **FINDING:** **EIR-ENVIRONMENTAL IMPACTS NOT MITIGATED TO LESS THAN SIGNIFICANT –** The project would result in significant and unavoidable impacts that would not be mitigated to a less than significant level even with incorporation of mitigation measures from the EIR into the conditions of project approval, as further described in this finding. The project will result in adverse changes to a potentially significant historic resource.

EVIDENCE: a) The "Connell House" designed by Richard Neutra at 1170 Signal Hill Road, Pebble Beach is an historic resource listed on the California Register of Historic Resources. The proposed project would adversely affect that historic resource by demolishing the historic resource resulting in a substantial adverse change in the significance of a historical resource.

b) Draft Environmental Impact Report ("DEIR") for the Signal Hill LLC (PLN100338) and Final EIR ("FEIR") for the Signal Hill LLC Project (SCH#2015021054).

c) Mitigation Measures have been identified to reduce impacts to the extent feasible. Mitigation for impacts to the historical resource include documentation of the Connell house using the Historic American Buildings Survey (HABS) and the creation of electronic information in web-based format documenting the Connell house. However, while it is required, this mitigation would not decrease the significance of the impacts identified to a less-than-significant level.

d) Project alternatives exist that would avoid or further reduce the impact to the historic structures. See Finding 4 below.

4. FINDING: **POTENTIALLY SIGNIFICANT ENVIRONMENTAL IMPACTS IDENTIFIED IN THE EIR THAT ARE REDUCED TO A LEVEL OF "LESS THAN SIGNIFICANT" BY THE MITIGATION MEASURES IDENTIFIED IN THE EIR AND ADOPTED FOR THE PROJECT –** The Project will result in significant and potentially significant impacts that will be mitigated to a less-than-significant level due to incorporation of mitigation measures from the EIR into the conditions of project approval. Changes or alterations to the Project are required that mitigate or avoid the significant effects on the environment as identified in the draft FEIR. Except for Historical Resource impacts, all potentially significant environmental impacts will be mitigated through the measures proposed in the Final EIR.

EVIDENCE: The EIR identified potentially significant impacts that require mitigation to Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, and Noise, which could result from all components of the proposed Project of the EIR. These impacts will be mitigated to a less-than significant-level by the incorporation of mitigation measures from the EIR into the conditions of project approval unless Alternatives that avoid or substantially reduce the impacts are approved instead of the Project. In its decision, the Board of Supervisors considered the Project subject to these conditions.

Aesthetics. The Project would have potential adverse aesthetic effects. These impacts would be reduced by
incorporating mitigation measures. Impacts identified for this Project in Chapter 5 of the EIR include:
AES Impact 1: The proposed residential structure would be seen extending above the ridgeline from locations on 17-Mile Drive and Fanshell Beach, which would be inconsistent with County of Monterey visual resources policies and result in a potentially significant impact to the scenic vista.
AES Impact 2: The Project would stand out from the dune more than the existing residence, resulting in a potentially significant impact to the

site and surroundings and visual character as seen from 17-Mile Drive and Fanshell Beach.
AES Impact 3: Visibility of light sources, glow from the proposed residence, and glare from window glass would potentially create a new source of light and glare, degrade nighttime dark skies, and adversely affect visual quality, resulting in a significant impact to the surroundings.
Mitigations to reduce these impacts to a less-than-significant level are incorporated:
AES/mm-3.1 exterior lighting plan and BIO/mm-3.1, BIO/mm-3.2, and BIO/mm-3.3, with their respective vegetative screening and restoration activities (described below).
See Chapter 4-1, Aesthetic Resources, of the Final EIR for its analysis of potential project impacts to aesthetic resources.
.
Archaeological Resources. The Project would have a potentially adverse effect on archaeological resources on the subject property. Potential impacts include:
AR Impact 1: Ground disturbance (e.g., grading, excavation, vegetation removal, dune rehabilitation activities) associated with the project could result in the disturbance and destruction of unknown archeological resources, resulting in a significant impact.
AR Impact 2: Ground disturbance (e.g., grading, excavation) associated with the project could result in the disturbance of unknown human remains, resulting in a significant impact.
AR Impact 3: Impacts to archaeological resources caused by inadvertent damage or destruction of unknown resources would be cumulatively considerable when considered in conjunction with other potential disturbances in the project area, resulting in a significant cumulative impact.
Mitigations to reduce these impacts to a less-than-significant level are:
AR/mm-1.1 - contractors/employees to receive training from a qualified archaeologist;
AR/mm-1.2 – an Archaeological Monitoring Plan;
AR/mm-1.3 – an archaeological monitor; and
AR/mm-2.1 – required notifications pursuant to Health and Safety Code section 7050.5, discovery of human remains.
See Chapter 4-4, Archaeological Resources, of the Final EIR for its analysis of potential project impacts on archaeological resources.

Air Quality and Greenhouse Gases. The Project would potentially have an adverse effect on air quality and greenhouse gases.
AQ/GHG Impact 1: Implementation of the proposed project could result in the generation of emissions as a result of construction activities in an area in non-attainment for ozone (8-hour standard) and PM10, resulting in a potentially significant impact.
Mitigations to reduce these impacts to a less-than-significant level are:

AQ/GHG/mm-1.1 - Best Management Practices for reducing fugitive dust; and
AQ/GHG/mm-1.2 - Best Management Practices for reducing nitrogen oxides (NOx), reactive organic gases (ROG) and diesel particulate matter (DPM) emissions from construction equipment.
See Chapter 4-7, Less than Significant Issue Areas, of the Final EIR for its analysis of potential project impacts on air quality and greenhouse gases.

Biological Resources. The Project would have a potentially adverse effect on biological resources.
BIO Impact 1: Implementation of the Project would require the removal of two [sic] Monterey Cypress trees and grading in the vicinity of nine additional Monterey Cypress trees, resulting in a potentially significant impact.
BIO Impact 2: The Project has potential to impact California legless lizards and coast horned lizards that are California Species of Special Concern. The Project also has potential to impact nesting birds protected under the Migratory Bird Treaty Act and California Fish and Game Code. These impacts are potentially significant.
BIO Impact 3: The Project would result in the permanent loss of 0.39 acre and the temporary disturbance of 1.67 acres of Environmentally Sensitive Habitat Area, resulting in a potentially significant impact.
BIO Impact 4: Implementation of the Project would result in a potentially significant impact to an onsite a 0.13-acre coastal wetland,.
Mitigations to reduce those impacts to a less-than-significant level are:
BIO/mm-1.1 - Monterey Cypress Tree Protection, Replacement, Maintenance, and Monitoring Plan;
BIO/mm-2.1 – an environmental monitor;
BIO/mm-2.2 - environmental awareness training for all construction and habitat restoration personnel;
BIO/mm-2.3 - surveys for California legless lizards and other reptiles;
BIO/mm-2.4 - best management practices designed to minimize impacts to legless lizards;
BIO/mm-2.5 - avoid the nesting season to the extent feasible;
BIO/mm-2.6 - a 100-foot buffer around the nest site;
BIO/mm-3.1 – a open space conservation and scenic easement to be granted to the Del Monte Forest Foundation;
BIO/mm-3.2 - Bond sufficient to cover the estimated cost of planting and establishing the proposed 1.67-acre habitat restoration area;
BIO/mm-3.3 - Monitoring the success of the habitat restoration area;
BIO/mm-3.4 - fencing that excludes adjacent ESHA from disturbance;
BIO/mm-3.5 - stockpile and construction staging areas;
BIO/mm-3.6 - do not include any rain gutter outfall or other stormwater or wastewater outfall that directs concentrated flows capable of eroding the sand dune substrates in the adjacent ESHA;
BIO/mm-3.7 - landscape plans;

BIO/mm-3.8 - imported soils for amendment in the landscape areas is prohibited;
BIO/mm-3.9 - offsite dune habitat restoration plan that provides for restoration of dune habitat within the Asilomar Dunes;
BIO/mm-4.1 - buffer zone for *Juncus articus* (var. *balticus, mexicanus*) Herbaceous Alliance vegetation; and
BIO/mm-4.2 - flag the perimeter of the coastal wetland. Application of herbicides shall be prohibited within 25 feet of the coastal wetland. No removal of Mexican rush shall be permitted, and any vegetation removal efforts within 25 feet of the coastal wetland shall be implemented by hand.
See Chapter 4-2, Biological Resources, of the Final EIR for the complete analysis.

Geology, Seismicity, and Soils. The Project would have a potentially adverse effect on geology, seismicity, and soils.
GEO Impact 1: Implementation of the Project could expose people or structures to substantial adverse effects involving seismic hazards, resulting in a potentially significant impact.
GEO Impact 2: Construction activities and the increase in impervious surfaces as a result of the Project could result in increased erosion, loss of topsoil, and the transportation of sediment and/or construction debris off-site during rain events, resulting in a potentially significant impact.
GEO Impact 3: Implementation of the Project could result in on- or off-site landslide, lateral spreading, subsidence, liquefaction, or collapse due to development being sited on potentially unstable soils, resulting in a potentially significant impact.
GEO Impact 4: The Project would be in an area with low to moderately expansive soils, and hence, construction could cause damage to structures and safety hazards as a result of soil instability, resulting in a potentially significant impact.
Mitigations to reduce these impacts to a less-than-significant level include:
GEO/mm-1.1 - meet or exceed California Building Standards Code. Recommendations provided by Cleary Consultants, Inc. (2010) in the geotechnical study. Additionally, implementation of HYD/mm-1.1, HYD/mm-2.1, and their respective reporting and monitoring actions will control runoff and erosion and ensure best management of post-development stormwater runoff. See Chapter 4-5, Geology and Soils, of the Final EIR for the complete analysis.

Hazards and Hazardous Materials. The Project would potentially have an adverse effect on hazards and hazardous materials.
HAZ Impact 1: Implementation of the Project has the potential to result in the inadvertent upset or release of hazardous materials used to fuel and maintain construction equipment and vehicles during construction, resulting in a potentially significant impact.
Mitigations to reduce those impacts to a less-than-significant level are:

HAZ/mm-1.1 - Hazardous Material Spill Prevention, Control, and Countermeasure Plan;
HAZ/mm-1.2 - Cleaning and refueling of equipment and vehicles; and
HAZ/mm-1.3 - monitoring reports.
See Chapter 4-7, Less than Significant Issue Areas, of the Final EIR for the analysis of air quality and greenhouse gases.

Hydrology and Water Quality. The Project would potentially have an adverse effect on hydrology and water quality.
HYD Impact 1: During construction, the Project would require grading on slopes in excess of 30%, which may result in increased runoff, erosion, and sedimentation associated with soil disturbance, potentially violating water quality standards during construction, resulting in a potentially significant impact.
HYD Impact 2: After construction, the Project would increase impervious surfaces at the project site, potentially increasing the stormwater runoff volume and rate compared to existing conditions, which could cause erosion, increased peak flows, and other impacts to the existing drainage pattern, resulting in a potentially significant impact.
HYD Impact 3: The Project would alter the existing drainage pattern both during and following construction, which could contribute to increased erosion and sedimentation on- and off-site, resulting in a potentially significant impact.
HYD Impact 4: The Project would increase impervious surfaces at the site, which would increase stormwater runoff volume and rate compared to existing conditions potentially causing erosion, increased peak flows, and other impacts to the existing drainage pattern, resulting in a potentially significant impact.
Mitigations to reduce those impacts to a less-than-significant level are:
HYD/mm-1.1 - Erosion control plan; and
HYD/mm-2.1 - Drainage plan.
See Chapter 4-6, Hydrology and Water Quality, of the Final EIR.

Noise. The Project would potentially have an adverse effect on noise levels in the area during construction ,resulting in a potentially significant impact.
NOI Impact 1: Implementation of the Project would require use of construction equipment and vehicles that could exceed noise thresholds for sensitive receptors during construction, resulting in a potentially significant impact.
NOI Impact 2: Implementation of the Project could generate a substantial temporary increase in ambient noise levels during construction of the project, resulting in a potentially significant impact.
Mitigation to reduce those impacts to a less-than-significant level is:
NOI/mm-1.1 - Noise attenuation measures including hours, notice, and devices.
See Chapter 4-7 for the complete analysis.

With implementation of the above mitigation measures, residual project impacts associated with Aesthetics, Archaeological Resources, Air Quality and Greenhouse Gases, Biological Resources, Geology, Seismicity, and Soils, Hazards and Hazardous Materials, Hydrology and Water Quality, and Noise exposure would be less than significant.

5. FINDING: **EIR-CEQA ALTERNATIVES TO THE PROPOSED PROJECT** - The EIR evaluated a reasonable range of potentially feasible alternatives to the proposed project in compliance with CEQA Guidelines section 15126.6. The EIR considered the alternatives described below and as more fully described in the DEIR. The DEIR concluded that the Preservation Alternative was the environmentally superior alternative.

Pursuant to CEQA Guidelines section 15126.6(c), alternatives may be eliminated from consideration if they: 1) fail to meet most of the basic project objectives, 2) are infeasible, or 3) are unable to avoid significant environmental impacts. Chapter 9 of the EIR outlines alternatives that were screened out pursuant to this section of the CEQA Guidelines and presents the alternatives analyzed.

CEQA Guidelines section 15126.6(f) requires a range of alternatives governed by the "rule of reason." This section requires "the EIR to set forth only those alternatives necessary to permit a reasoned choice. The alternatives shall be limited to ones that would avoid or substantially lessen any of the significant effects of the project. Of those alternatives, the EIR need examine in detail only the ones that the lead agency determines could feasibly attain most of the basic objectives of the project."

EVIDENCE: a) Project Objectives. As proposed by the applicant, the project objectives include:

1. Remove the existing residence and construct a new single-family residence on the project site of a size compatible with the surrounding community and which allows for enjoyment of the natural beauty of the surrounding area.
2. Construct a new, high-quality residence that is exemplary of the architectural design skill of recognized Mexican architect Ricardo Legorreta.
3. Restore areas of the project site outside of the construction area to their natural condition and allow for local native animal, insect, and plant life to flourish once again.
4. The overall improvement of the property for the betterment of the Pebble Beach community.

b) No Project Alternative. This alternative would maintain existing conditions at the project site. No demolition, construction, or dune restoration activities would occur.

The current condition of the structure includes temporary shoring of walls destroyed in an act of vandalism as well as deterioration of windows and interior and exterior finishes. Adoption of the No Project Alternative would result continue the unsafe and unsightly building conditions. Alternatives would still need to be considered to address the unsafe condition.

c) Alternative Location. Per CEQA Guideline, section 15126.6(f)(2), an alternative project location need only be analyzed if the significant effects of the proposed project would be avoided or substantially lessened by putting the project in another location. The structure cannot be relocated for structural reasons and relocation of the structure would impact the historic integrity of the building. For these reasons, this alternative was rejected and not considered further.

d) Other Alternatives considered but dismissed. Alternatives 2, 3, 5, and 7 were rejected because the EIR found them infeasible, either because they would conflict with the Del Monte Forest Land Use Plan (Alternatives 2 and 3), were not feasible for structural reasons (Alternative 5), or would not avoid or substantially reduce impacts (Alternative 7).

e) "Preservation" (Alternative 1). This alternative would include retaining the Connell house and preserving, repairing, and replacing portions of the structure for single-family occupancy in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. Generally, a project that conforms to the Secretary of the Interior's Standards does not significantly impact an historic resource and can such a project can be categorically exempt from CEQA review pursuant to CEQA Guidelines section 15331.

This alternative does not meet the applicant's objectives, but would substantially avoid or reduce impacts identified in the EIR.

f) "Project Integration" (Alternative 4). This alternative would include integration of the Connell house into the proposed project. The structure (or portions of the structure) would be retained and integrated into the design of the new construction in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. This alternative would meet some of the applicant objectives and would reduce impacts to the historic resource. All other impacts would be similar to the proposed Project.

g) "Reduced Project" (Alternative 6). This alternative would include demolition of the Connell house, but would reduce the size of the proposed single-family residence to fit within the existing developed footprint and would reduce building heights to avoid any extension above the ridgeline.

This alternative would meet two of the applicant's objectives and would have reduced impacts on aesthetics and biology. All other impacts would be similar to the proposed Project.

h) "Reduced Height" (Alternative 9). This alternative was designed by the project applicant to minimize visual impacts. It would reduce the maximum height of the proposed single-family residence from 30 to 25 feet above natural grade.

This alternative meets all of the applicant's objectives and would reduce adverse project impacts to aesthetics. All other impacts would be similar to the proposed Project.

i) Environmentally Superior Alternative. The EIR concluded that the Preservation Alternative (Alternative 1) is the environmentally superior alternative as it would avoid or reduce all the impacts identified in the EIR.

j) Draft Environmental Impact Report ("DEIR") for the Signal Hill LLC (PLN100338) and Final EIR ("FEIR") for the Signal Hill LLC Project (SCH#2015021054).

6. **FINDING:** **RECIRCULATION NOT REQUIRED** – No new significant information has been added to the EIR since circulation of the Draft EIR that would require recirculation. Under CEQA Guidelines section 15088.5, the County would be required to recirculate an EIR if significant new information were added to the EIR after public notice is given of the availability of the EIR for public review but before certification. "Significant new information" requiring recirculation may include, for example, a disclosure showing:

1) A new significant environmental impact resulting from the project or from a new mitigation measure proposed to be implemented;
2) A substantial increase in the severity of an environmental impact unless mitigation measures are adopted that reduce the impact to a level of insignificance;
3) A feasible project or mitigation measure, considerably different from others previously analyzed, that clearly would lessen the significant environmental impacts of the project, but that the project's proponents decline to adopt; or
4) The draft EIR was so fundamentally and basically inadequate and conclusory in nature that meaningful public review and comment were precluded.

No such significant information has been added to the EIR following public notice of its contents. And, as further explained below, no such changes have been made to the EIR. Hence, recirculation was not required.

EVIDENCE: a) Staff revised the Draft EIR in response to public comment. These revisions and attendant responses to comments are both integrated into and more fully described in the Final EIR. In response to a comment letter from California Coastal Commission, staff incorporated additional mitigation measures for Biological Resources impacts to the

coastal dune habitat. An offsite dune restoration (or in-lieu fee) in 1:1 ratio to the square feet of impervious surface added by the project further mitigates for impacts to ESHA." Mitigation Measure BIO/mm-3.9, Offsite Dune Habitat Restoration or In Lieu Fee, was added to the Biological Resources mitigations and BIO/mm-3.9.1 was added as monitoring and reporting action for the mitigation. The full wording is listed as Condition 31 in the MMRP. The project proponent has agreed to this mitigation.

b) A second responsive edit was made based upon the California Coastal Commission's comment letter. The Commission shared its concern with the EIR's proposed Full Height Project, writing that the height, mass, and bulk of the Full Height Project would have the potential to adversely affect the scenic quality and visual character of 17-Mile Drive on visual resources. Minor clarifications to the EIR have been incorporated.

c) In response to the comment letter from MBARD, staff added the following requirement to BIO/mm-3.4: "No wood chipping shall be allowed onsite." This edit is found on page 4.2-71 of Chapter 4 and in the MMRP.

d) In response to the comment letter from MBARD, some changes have been made within the air quality section of Chapter 4.7 and in the MMRP. These changes clarify and amplify dust control measures, alternative fuels in construction equipment, and the need for compliance with MBARD rules and regulations.

e) In response to a comment letter from the Pacific Legal Foundation, staff added additional wording to the Alternatives Analysis Chapter of the Draft EIR regarding the difference between physical and economic considerations as it applies to CEQA and alternatives analysis. This was added to page 5-7 in section 5.4, Preliminary Alternatives.

f) In response to public comment letter P123, staff added clarifying statements as to what "Preservation" is understood to mean in the EIR, page 5-7 in section 5.4, Preliminary Alternatives.

g) In response to public and applicant questions in comment letters about the cost and the difficulty of the Preservation Alternative, staff edited section 5.6.1.4 Other Issue Areas, as shown with strike-through and underline, in the following:
"Although reconstruction and/or rehabilitation of an existing structure can often be more difficult than constructing something from scratch, per the structural report prepared for the project, r~~R~~econstruction of the existing 4,125-square-foot residence would generally entail an effort comparable to original construction, and is therefore likely to require less construction ~~over a shorter period of time~~ effort in comparison to construction of the proposed 11,933-square-foot residence. Construction of this alternative would require fewer material/haul trips and less construction noise due to the reduced size of the project. This alternative would maintain the existing building footprint and would require less grading and ground disturbing activities than the proposed

project, thereby also reducing construction-related air emissions and noise."

h) In response to public comment letter 122, and to correct what were logically typos, a responsive edit to section 5.6.4.1. was made to clarify that a height reduction would not be warranted if the Reduced Height Alternative were approved. BIO/mm-1.1 and BIO/mma-1.1.1, tree replacement and protection, should be included in this list of mitigation measures rather than AES/mm-1.1 and AES/mma-1.1.1. This required a strike-out of AES and addition of BIO twice.

i) In response to two public comment letters on the Draft EIR, letters P125 and P126, staff clarified statements regarding common public views in Table 4.1.1, a comprehensive review of the applicable local plans and policies relevant to aesthetics (visual resources).

j) The applicant's comment letter on the Draft EIR, letter P125, also shared concerns with the Draft EIR's portrayal of the previous code violations on the property in terms of their timing and handling. To more clearly convey the timing of a previously granted Restoration Permit prior to the EIR NOP, staff made responsive edits to Chapter 2 and Chapter 4, including clarification of tree removal violations (page 2-20 in Section 2.3.2 Dune Habitat Restoration). Changes in site conditions and to the historic residence located on that site have occurred since the NOP was published (page 4-3, Environmental Baseline), and clarifications on the "Mothball Protection Plan"(page 4.3-30, Baseline Conditions).

k) Public comment letter P125 questioned the EIR's portrayal of the existing house's condition during the EIR consultant visit on April 20, 2015. To clarify this condition, staff responsive edits to Chapter 4.3, Historical Resources.

l) Public comment letter P125 questioned the Draft EIR's description, in Chapter 4, the Historic Assessment done on the existing house, suggesting the applicant's December 2011 Historic Property Development report should have been extensively quoted in the EIR. Responsive edits were made on page 4.3-34.

m) Public comment letter P125 requested the EIR Chapter 4, description of the Site-Specific Setting, include quotes from Arthur Connell about the climate issues and impacts of natural elements on the house. A description was added.

n) Public comment letter P125 also shared concern with the EIR's portrayal of the existing structure's floor area. To resolve this concern, staff made the following responsive edit on page 2-7 and 4.1-45: "The proposed residence would be 11,933 square feet in size, almost three times larger than the existing 4,125-square-foot residence, which includes an addition ~~over 3.5 times bigger than the existing 3,299-square-foot residence~~."

o) Public comment letter P125 requested a specific edit to Alternative 8 in Table 5-1 to specify the existing house degradation. The edit was made, "many of the materials and elements of the existing structure were degraded to an extent that would prevent the ability to integrate them

into a reconstructed structure." that would prevent the ability to integrate them into a reconstructed structure."

p) In response to public comment letter P24 and several others' request that the structural engineer's evaluation that is referenced in the Draft EIR be included in the EIR, the Simpson Gumpertz and Heger (2016) structural evaluation and alternative assessment was incorporated as Appendix F.

q) Other minor modifications to the EIR include clarifications and corrections of non-substantive content. These edits are specified in a cover sheet to the Final EIR, page xix.

The item was presented to the Board on 10/2/2018. The Board directed that HR: 1) convene a committee of Department Heads that manage significant boards and commissions to develop a Commissioner Recruitment Strategy; 2) ask departments to provide information related to the diversity of their current volunteer Commissioner's and committee members; and 3) work with County Counsel and Auditor to determine what would be involved/required to actively implement reimbursement to these volunteers, with budget/cost implications. Referral modified on August 24, 2021 to include: A) an assessment on how commissions are being utilized; how well they are serving in their advisory function to the Board; staffing levels of various committees, and, how that may or may not contribute to their functioning; and, B) referring the referral to the Board of Supervisors - Human Resources Committee to engage in discussion and bring back recommendations to the full Board. This item was discussed with the Human Resources Committee in late January 2022. The referral was been reassigned to the County Administrative Office for response. Additional time is needed for information gathering. Staff anticipates a further response to the Board in ~~January 2025 July 2025~~ August 2025.	Pending

An initial referral was initiated on September 15, 2017. 24	2024.10	9/10/2024	Church	Health		Jimenez	Allow POU/POE Water Treatment for New Construction (Including ADUs)	To allow for Point of Use/Point of Entry water treatment devices to be used for new construction on vacant legal lots of record and for accessory dwelling units (ADUs). A preliminary response will be presented to the Board on October 1, 2024. EHB has prepared a draft amended ordinance that will be sent to County Counsel for review this week. The amendments add the option to use POU/POE for new development on a vacant lot or for an ADU or other second unit. Once County Counsel approves the amended ordinance, EHB will contract with Rincon to do the Initial Study. It is necessary to prepare the draft ordinance before contracting with Rincon, so they know what to include in the initial study. The updates in the amended ordinance regarding new development are the same as Rincon analyzed in the initial CEQA document, which will help streamline the process. Staff gave an update to the Board on April 22, 2025 and were instructed to return by December 2025 with a proposed amendment to the ordinance and an initial Study-Mitigated Negative Declaration evaluation. Then a date will be set on the Board Agenda for an update. Referral Title: **Monterey County Spay and Neuter Ordinance for Cats and Dogs**		
Referral Purpose: The purpose of this referral is to enact a Spay and Neuter Ordinance for cats and dogs to address pet overpopulation, euthanasia rates, and overcrowded shelters with minimal staffing.		
Brief Referral Description: Monterey County's communities face a persistent challenge with pet overpopulation, resulting in overcrowded animal shelters, increased euthanasia rates, and avoidable public health and safety concerns. Without a proactive policy, stray and unwanted animals continue to multiply, placing a financial and emotional burden on residents, animal control services, and nonprofit rescue and spay/neuter organizations, like SNIP. A county spay and neuter ordinance would require most dogs and cats in unincorporated areas to be surgically sterilized, with reasonable exemptions for licensed breeders, working animals, and those with medical conditions. This approach directly addresses the root cause of overpopulation by preventing unwanted litters before they occur. Such an ordinance would: • Reduce shelter intake and euthanasia rates, freeing resources for adoption, rehabilitation, and humane care. • Lower taxpayer costs associated with animal control, sheltering, and enforcement. • Improve public safety by decreasing roaming animals, dog bites, abandoned pets & vehicle-animal collisions. • Enhance animal welfare by reducing suffering, neglect, and the spread of disease among stray populations. By adopting a spay and neuter ordinance, Monterey County can demonstrate compassionate, fiscally responsible leadership and protect both its residents and animals. The leadership of the County of Monterey can also inspire the remaining 11 cities to also adopt similar policies. In Monterey County, only one city out of 12 have adopted mandatory spay/neuter ordinances: • City of Seaside: In November 2024, the city passed an ordinance that requires cats over 5 months and dogs over 6 months to be spayed or neutered. Ordinance went into effect 30 days later in December 2024.

Notwithstanding the above, during the term of this Agreement, Contractor shall undertake to retain the service capacity necessary to provide those Services described in this Agreement, to the extent necessary to serve the reasonably foreseeable patient needs for medical care at Clinic and the administrative services hereunder.

1.18 Compliance with Grant Terms. If this Agreement has been or will be funded with monies received by Hospital or County pursuant to a contract with the state or federal government or private entity in which Hospital or County is the grantee, Contractor shall comply with all the provisions of said contract, and said provisions shall be deemed a part of this Agreement, as though fully set forth herein. Upon request, Hospital shall deliver a copy of said contract to Contractor at no cost to Contractor.

1.19 Medical Records and Claims.

(a) Contractor shall prepare complete, timely, accurate and legible medical and other records with respect to the services and treatment furnished to patients, in accordance with the Hospital Rules, federal and state laws and regulations, and standards and recommendations of such nationally recognized accrediting organization as Hospital designates from time to time. 1.20 Records Available to Contractor. Both during and after the term of this Agreement, Hospital shall permit Contractor and Contractor's agents to inspect and/or duplicate, at Contractor's sole cost and expense, any medical chart and record to the extent necessary to meet Contractor's professional responsibilities to patients, to assist in the defense of any malpractice or similar claim to which such chart or record may be pertinent, and/or to fulfill requirements pursuant to provider contracts to provide patient information; provided, however, such inspection or duplication is permitted and conducted in accordance with applicable legal requirements and pursuant to commonly accepted standards of patient confidentiality. Contractor shall be solely responsible for maintaining patient confidentiality with respect to any information which Contractor obtains pursuant to this Section.

ARTICLE II.
COMPENSATION

2.1 Compensation. Hospital shall pay to Contractor the amount determined in accordance with **Exhibit 2.1** (the **"Compensation"**), upon the terms and conditions set forth therein. 2.2 Billing and Collection. (a) **Assignment of Claims.** Contractor hereby assigns (or reassigns, as the case may be) to Hospital all claims, demands and rights of Contractor for any and all Clinic Services rendered by Contractor pursuant to this Agreement. Contractor shall take such action and execute such documents (e.g., CMS Forms 855R and 855I), as may be reasonably necessary or appropriate to effectuate the assignment (or reassignment, as the case may be) to Hospital of all claims, demands and rights of Contractor for any and all Clinic Services rendered by Contractor pursuant to this Agreement.

(b) **Cooperation with Billing and Collections.** Contractor shall cooperate with Hospital in the billing and collection of fees with respect to Clinic Services rendered by Contractor. (c) **Hospital as Exclusive Source for Compensation for Clinic Services.** Contractor shall seek and obtain compensation for the performance of Clinic Services only from Hospital. Contractor shall not, bill, assess or charge any fee, assessment or charge of any type against any Hospital patient or any other person or entity for Clinic Services rendered by Contractor pursuant to this Agreement. Contractor shall promptly deliver to Hospital any and all compensation, in whatever form, that is received by Contractor for Clinic Services rendered by Contractor pursuant to this Agreement, including any amount received from any Managed Care Organization (as defined below) for Clinic Services rendered by Contractor pursuant to this Agreement.

(d) **Joint and Several Liability.** Hospital and Contractor acknowledge that they will be jointly and severally liable for any Federal Health Care Program overpayments relating to claims with respect to Clinic Services furnished by Contractor pursuant to this Agreement. The foregoing is not intended and shall not be construed to diminish, limit, alter or otherwise modify in any way the Parties' respective indemnification obligations under this Agreement.

(e) **Indemnification for Billing Information.** Contractor hereby agrees to indemnify County, Hospital, its officers, supervisors, trustees, employees and agents, from and against any and all liability, cost, loss, penalty or expense (including, without limitation, attorneys' fees and court costs) incurred by Hospital resulting from negligent acts or negligent omissions of Contractor which result in inaccurate and/or improper billing information furnished by Contractor and relied on by Hospital regarding Clinic Services rendered by Contractor to Clinic Patients, to the extent such liability, cost, loss, penalty or expense exceeds the amount of payment or reimbursement actually received by Hospital for such services.

2.3 Third Party Payor Arrangements.

(a) Contractor shall cooperate in all reasonable respects necessary to facilitate Hospital's entry into or maintenance of any third party payor arrangements for the provision of services under Federal Health Care Programs or any other public or private health and/or hospital care programs, including insurance programs, self-funded employer health programs, health care service plans and preferred provider organizations.

(b) To enable Hospital or the Clinic to participate in any third party payor arrangement, Contractor shall, not more than ten (10) business days following Hospital's request:

(i) Initiate enrollment as a provider (if required by the third party payor), separate from Hospital and Clinic, with any third party payor or intermediate organization (including any independent practice association) (each, a **"Managed Care Organization"**) designated by Hospital for the provision of Professional Services to Hospital patients covered by such Managed Care Organization;

(ii) Complete any documents (e.g., CAQH Universal Provider Datasource form) as may be reasonably necessary or appropriate to effectuate enrollment;

ARTICLE III.
INSURANCE AND INDEMNITY

3.1 Evidence of Coverage. Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies. This verification of coverage shall be sent to Hospital's Medical Staff Office, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and Hospital has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

3.2 Qualifying Insurers. All coverages except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by Hospital's Contracts/Purchasing Director.

3.3 Insurance Coverage Requirements. Without limiting Contractor's duty to indemnify, Contractor shall maintain in effect throughout the term of this Agreement, at Contractor's sole cost and expense, a policy or policies of insurance with the following minimum limits of liability:

(a) **Professional liability insurance**, covering Contractor with coverage of not less than One-Million Dollars ($1,000,000) per physician per occurrence and Three-Million Dollars ($3,000,000) per physician in the aggregate; or such other amount(s) of professional liability insurance as may be required by Article 2.2-1 of Hospital's Medical Staff Bylaws from time to time, to cover liability for malpractice and/or errors or omissions made in the course of rendering services under this Agreement. If any professional liability insurance covering Contractor is procured on a "Claims Made" rather than "Occurrence" basis, then Contractor shall either continue such coverage or obtain extended reporting coverage (**"Tail Coverage"**), as appropriate, upon the occurrence of any of the following: (i) termination or expiration of this Agreement; (ii) change of coverage if such change shall result in a gap in coverage; or (iii) amendment, reduction or other material change in the then existing professional liability coverage of Contractor if such amendment, reduction or other material change will result in a gap in coverage. Any Tail Coverage shall have liability limits in the amount set forth above and shall in all events continue in existence until the greater of: (a) three (3) years or (b) the longest

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

statute of limitations for professional and general liability for acts committed has expired. All insurance required by this Agreement shall be with a company acceptable to County and issued and executed by an admitted insurer authorized to transact insurance business in the State.

(b) **Commercial general liability insurance**, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than One Million Dollars ($1,000,000) per occurrence.

☐ Exemption/Modification (Justification attached; subject to approval).

(c) **Business automobile liability insurance**, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than One Million Dollars ($1,000,000) per occurrence.

☐ Exemption/Modification (Justification attached; subject to approval).

(d) **Workers' Compensation Insurance**, if Contractor employs others in the performance of this Agreement, in accordance with California Labor Code Section 3700 and with Employer's Liability limits not less than One Million Dollars ($1,000,000) each person, One Million Dollars ($1,000,000) each accident and One Million Dollars ($1,000,000) each disease.

☐ Exemption/Modification (Justification attached; subject to approval).

3.4 Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to Hospital and issued and executed by an admitted insurer authorized to transact insurance business in the State. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date Contractor complete their performance of services under this Agreement.

Each liability policy shall provide that Hospital shall be given notice in writing at least thirty (30) days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the Contractor's work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the Contractor's insurance.

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

The required endorsement from for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). The required endorsement from for Automobile Additional Insured Endorsement is ISO Form CA 20 48 02 99.

Prior to the execution of this Agreement by Hospital, Contractor shall file certificates of insurance with Hospital's Medical Staff Office, showing that the Contractor has in effect the insurance required by this Agreement. The Contractor shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

Contractor shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by Hospital, annual certificates to Hospital's Medical Staff Office. If the certificate is not received by the expiration date, Hospital shall notify Contractor and Contractor shall have five (5) calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by Contractor to maintain such insurance is a default of this Agreement, which entitles Hospital, at its sole discretion, to terminate the Agreement immediately.

3.5 Right to Offset Insurance Costs.

(a) In the event that Contractor does not purchase or otherwise have the liability insurance set forth in this Section at any time during the term of this Agreement, and without limiting any rights or remedies of County, County may at its option and within its sole discretion provide the liability insurance required by this Section and continue to pay the premiums therefor. If Contractor does not promptly reimburse all such amounts, then County shall have the right to withhold and offset the compensation due to Contractor under this Agreement, in addition to such other rights or privileges as County may have at law or in equity.

(b) The County's option to provide such insurance and to offset the compensation otherwise due to the Contractor shall also apply to the "Tail Coverage" referenced in Section 3.3, including for general liability if during the term of the Agreement such coverage has been written on a claims made basis, which is required to remain effective after the expiration or termination of this Agreement for any reason.

3.6 Indemnification.

(a) **Indemnification by Contractor.** Contractor shall indemnify, defend, and hold harmless County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with Contractor's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of County. "Contractor's

performance" includes Contractor's acts or omissions and the acts or omissions of Contractor's officers, employees, agents and subcontractors.

(b) **Indemnification by County.** County agrees to defend, indemnify, and hold harmless Contractor, to the extent permitted by applicable law, from and against any and all claims and losses whatsoever accruing or resulting to any person, firm or corporation for damages, injury or death arising out of or connected with any negligent act or omission or willful misconduct of County or any of its agents or employees.

3.7 Indemnification for Timely Payment of Tax Contributions. It is expressly agreed by the Parties hereto that no work, act, commission or omission of Contractor shall be construed to make or render Contractor the agent, employee or servant of County. Contractor agrees to indemnify, defend and hold harmless County and Hospital from and against any and all liability, loss, costs or obligations (including, without limitation, interest, penalties and attorney's fees in defending against the same) against County or Hospital based upon any claim that Contractor has failed to make proper and timely payment of any required tax contributions for itself, its employees, or its purported agents or independent contractors.

3.8 Hospital Services. Hospital shall retain professional and administrative responsibility for the operation of the Clinic, as and to the extent required by Title 22, California Code of Regulations, Section 70713. Hospital's retention of such responsibility is not intended and shall not be construed to diminish, limit, alter or otherwise modify in any way the obligations of Contractor under this Agreement, including, without limitation, the obligations under the insurance and indemnification provisions set forth in this Article III.

3.9 Survival of Obligations. The Parties' obligations under this Article III shall survive the expiration or termination of this Agreement for any reason.

ARTICLE IV.
RELATIONSHIP BETWEEN THE PARTIES

4.1 Independent Contractor.

(a) Contractor is and shall at all times be an independent contractor with respect to Hospital in the performance of Contractor's obligations under this Agreement. Nothing in this Agreement shall be construed to create an employer/employee, joint venture, partnership, lease or landlord/tenant relationship between Hospital and Contractor. Contractor shall not hold himself or herself out as an officer, agent or employee of Hospital, and shall not incur any contractual or financial obligation on behalf of Hospital without Hospital's prior written consent.

(b) If the Internal Revenue Service (**"IRS"**) or any other governmental agency should inquire about, question or challenge the independent contractor status of Contractor with respect to County, the Parties hereto mutually agree that: (i) each shall inform the other Party hereto of such inquiry or challenge; and (ii) County and Contractor shall each have the right to participate in any discussion or negotiation occurring with the taxing agency, regardless of who initiated such discussions or negotiations. In the event the taxing agency concludes that an independent contractor relationship does not exist, County may terminate this Agreement

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

effective immediately upon written notice. In the event of such termination, the Parties remain free to negotiate an employer/employee contract.

4.2 Limitation on Control. Hospital shall neither have nor exercise any control or direction over Contractor's professional medical judgment or the methods by which Contractor performs professional medical services; provided, however, that Contractor shall be subject to and shall at all times comply with the Protocols and the bylaws, guidelines, policies and rules applicable to other members of the Medical Staff.

4.3 Practice of Medicine. Contractor and Hospital acknowledge that Hospital is neither authorized nor qualified to engage in any activity which may be construed or deemed to constitute the practice of medicine. To the extent that any act or service required of, or reserved to, Hospital in this Agreement is construed or deemed to constitute the practice of medicine, the performance of such act or service by Hospital shall be deemed waived or unenforceable, unless this Agreement can be amended to comply with the law, in which case the Parties shall make such amendment.

4.4 No Benefit Contributions. Hospital shall have no obligation under this Agreement to compensate or pay applicable taxes for, or provide employee benefits of any kind (including contributions to government mandated, employment-related insurance and similar programs) to, or on behalf of, Contractor or any other person employed or retained by Contractor. Notwithstanding the foregoing, if Hospital determines or is advised that it is required by law to compensate or pay applicable taxes for, or provide employee benefits of any kind (including contributions to government mandated, employment-related insurance and similar programs) to, or on behalf of, Contractor or any other person employed or retained by Contractor, Contractor shall reimburse Hospital for any such expenditure within thirty (30) calendar days after being notified of such expenditure.

4.5 Referrals. Contractor shall be entitled to refer patients to any hospital or other health care facility or provider deemed by Contractor best qualified to deliver medical services to any particular patient; provided, however, that Contractor shall not refer any Hospital patient to any provider of health care services which Contractor knows or should have known is excluded or suspended from participation in, or sanctioned by, any state or Federal Health Care Program. Nothing in this Agreement or in any other written or oral agreement between Hospital and Contractor, nor any consideration offered or paid in connection with this Agreement, contemplates or requires the admission or referral of any patients or business to Hospital or any Affiliate. In the event that any governmental agency, any court or any other judicial body of competent jurisdiction, as applicable, issues an opinion, ruling or decision that any payment, fee or consideration provided for hereunder is made or given in return for patient referrals, either Party may at its option terminate this Agreement with three (3) days' notice to the other Party. Contractor's rights under this Agreement shall not be dependent in any way on the referral of patients or business to Hospital or any Affiliate by Contractor or any person employed or retained by Contractor.

4.6 Form 1099 or W-2. If required to do so under applicable law, Hospital shall issue an Internal Revenue Service Form 1099 or Form W-2 to Contractor.

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

4.7 Contractor Compensation Arrangements. Contractor represents and warrants to Hospital that the compensation paid or to be paid by Contractor to any physician is and will at all times be fair market value for services and items actually provided by such physician, not taking into account the value or volume of referrals or other business generated by such physician for Hospital or any Affiliate. Contractor further represents and warrants to Hospital that Contractor has and will at all times maintain a written agreement with each physician receiving compensation from Contractor.

4.8 Cooperation.

(a) The Parties recognize that, during the term of this Agreement and for an undetermined time period thereafter, certain risk management issues, legal issues, claims or actions may arise that involve or could potentially involve the Parties and their respective employees and agents. The Parties further recognize the importance of cooperating with each other in good faith when such issues, claims or actions arise, to the extent such cooperation does not violate any applicable laws, cause the breach of any duties created by any policies of insurance or programs of self-insurance, or otherwise compromise the confidentiality of communications or information regarding the issues, claims or actions. As such, the Parties hereby agree to cooperate in good faith, using their best efforts, to address such risk management and legal issues, claims, or actions.

(b) The Parties further agree that if a controversy, dispute, claim, action or lawsuit (each, an **"Action"**) arises with a third party wherein both the Parties are included as defendants, each Party shall promptly disclose to the other Party in writing the existence and continuing status of the Action and any negotiations relating thereto. Each Party shall make every reasonable attempt to include the other Party in any settlement offer or negotiations. In the event the other Party is not included in the settlement, the settling Party shall immediately disclose to the other Party in writing the acceptance of any settlement and terms relating thereto, if allowed by the settlement agreement.

(c) Contractor shall cooperate with the individual designated by Hospital to have principal responsibility for the administration and operation of the Clinic. Such cooperation shall include supervision, selection, assignment, and evaluation of personnel; management and direction of equipment maintenance; development of budgets; and oversight of the acquisition of materials, supplies, and equipment.

(d) Contractor shall assist Hospital, as reasonably requested by Hospital, in Hospital's compliance with applicable laws and the standards, requirements, guidelines and recommendations of any governing or advisory body having authority to set standards relating to the operation of Hospital, or any nationally recognized accrediting organization that Hospital designates from time to time.

4.9 Contractor's Performance. County or Hospital, at its option and within its sole discretion, may seek evaluation of contractual performance by requesting input from Hospital's Medical Director/Chief Medical Officer and from other professionals within Hospital.

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

4.10 Right of Inspection. Upon reasonable prior written notice, Hospital and County officials and their designees may inspect the books and records of Contractor which are necessary to determine that work performed by Contractor to patients hereunder is in accord with the requirements of this Agreement. Such inspection shall be made in a manner so as not to disrupt the operations of Hospital or Contractor.

4.11 Access to and Audit of Records. Hospital shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the Contractor and its subcontractors related to services provided under this Agreement. Pursuant to Government Code Section 8546.7, if this Agreement involves the expenditure of public funds in excess of Ten Thousand Dollars ($10,000), the Parties may be subject, at the request of Hospital or as part of any audit of Hospital, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three (3) years after final payment under the Agreement.

ARTICLE V.
TERM AND TERMINATION

5.1 Term. This Agreement shall become effective on the Effective Date and shall continue for twelve consecutive months (the **"Expiration Date"**), subject to the termination provisions of this Agreement. The term of this Agreement may be extended for two (2) additional one (1) year periods by mutual written agreement of the Parties.

5.2 Termination by Hospital. Hospital shall have the right to terminate this Agreement upon the occurrence of any one or more of the following events:

(a) breach of this Agreement by Contractor where the breach is not cured within thirty (30) calendar days after Hospital gives written notice of the breach to Contractor;

(b) death or permanent disability of Contractor;

(c) Contractor's voluntary retirement from the practice of medicine;

(d) neglect of professional duty by Contractor in a manner that violates Hospital's policies, rules or regulations;

(e) Contractor is unable or reasonably expected to be unable to provide the Services for any reason for a period in excess of thirty (30) consecutive days or sixty (60) days in the aggregate over any three (3) month period;

(f) Contractor's clinical privileges or medical staff membership at any hospital are denied, suspended, terminated, restricted, revoked or relinquished for any reason, whether voluntarily or involuntarily, temporarily or permanently, regardless of the availability of civil or administrative hearing rights or judicial review with respect thereto;

(g) Contractor's license to practice medicine in the State is restricted, suspended or terminated, regardless of the availability of civil or administrative hearing rights or judicial review with respect thereto;

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

(h) Contractor for any reason is not a member in good standing in the "active staff" category of the Medical Staff or does not hold all clinical privileges at Hospital necessary for Contractor's performance of the Services or Contractor is the subject of one or more investigations, proceedings or peer review or other disciplinary actions by the Medical Staff;

(i) Contractor is charged with or convicted of a criminal offense;

(j) Contractor's performance of this Agreement, in the sole determination of Hospital, jeopardizes the mental or physical health or well-being of patients of Hospital;

(k) Contractor is debarred, suspended, excluded or otherwise ineligible to participate in any state or Federal Health Care Program or state equivalent;

(l) Contractor acts, or causes another person to act, in a manner which conflicts with or violates the Code;

(m) breach by Contractor of any HIPAA Obligation (as defined in **Exhibit 6.3**);

(n) Contractor makes an assignment for the benefit of creditors, admits in writing the inability to pay his or her debts as they mature, applies to any court for the appointment of a trustee or receiver over his or her assets, or upon commencement of any voluntary or involuntary proceedings under any bankruptcy, reorganization, arrangement, insolvency, readjustment of debt, dissolution liquidation or other similar law of any jurisdiction;

(o) the insurance required to be maintained by Contractor under this Agreement is terminated, reduced below the minimum coverage requirements set forth in this Agreement, not renewed or cancelled (whether by action of the insurance company or Contractor) for any reason, and Contractor has not obtained replacement coverage as required by this Agreement prior to the effective date of such termination, reduction, non-renewal or cancellation;

(p) Contractor is rendered unable to comply with the terms of this Agreement for any reason; or

(q) upon a sale of all or substantially all assets comprising Hospital's acute care hospital facility, any change of control in Hospital's organization, or any change in control of its day to day operations, whether through a membership change or by management contract. Hospital shall notify Contractor in writing of such sale or change of control at least thirty (30) days prior to the closing date of any such sale or the effective date of any such change of control.

5.3 Termination by Contractor. Contractor shall have the right to terminate this Agreement upon breach of this Agreement by Hospital where the breach is not cured within thirty (30) calendar days after Contractor gives written notice of the breach to Hospital.

5.4 Termination or Modification in the Event of Government Action.

(a) If the Parties receive notice of any Government Action, the Parties shall attempt to amend this Agreement in order to comply with the Government Action.

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

- If the Parties, acting in good faith, are unable to make the amendments necessary to comply with the Government Action, or, alternatively, if either Party determines in good faith that compliance with the Government Action is impossible or infeasible, this Agreement shall terminate ten (10) calendar days after one Party notices the other of such fact.

- For the purposes of this Section, **"Government Action"** shall mean any legislation, regulation, rule or procedure passed, adopted or implemented by any federal, state or local government or legislative body or any private agency, or any notice of a decision, finding, interpretation or action by any governmental or private agency, court or other third party which, in the opinion of counsel to Hospital, because of the arrangement between the Parties pursuant to this Agreement, if or when implemented, would:

  (i) revoke or jeopardize the status of any health facility license granted to Hospital or any Affiliate of Hospital;

  (ii) revoke or jeopardize the federal, state or local tax-exempt status of Hospital or any Affiliate of Hospital, or their respective tax-exempt financial obligations;

  (iii) prevent Contractor from being able to access and use the facilities of Hospital or any Affiliate of Hospital;

  (iv) constitute a violation of 42 U.S.C. Section 1395nn (commonly referred to as the Stark law) if Contractor referred patients to Hospital or any Affiliate of Hospital;

  (v) prohibit Hospital or any Affiliate of Hospital from billing for services provided to patients referred to by Contractor;

  (vi) subject Hospital or Contractor, or any Affiliate of Hospital, or any of their respective employees or agents, to civil or criminal prosecution (including any excise tax penalty under Internal Revenue Code Section 4958), on the basis of their participation in executing this Agreement or performing their respective obligations under this Agreement; or

(b) For the purposes of this Agreement, **"Affiliate"** shall mean any entity which, directly or indirectly, controls, is controlled by or is under common control with Hospital.

(b) Contractor shall not do anything or cause any other person to do anything that interferes with Hospital's efforts to engage any other person or entity for the provision of the Services, or interfere in any way with any relationship between Hospital and any other person or entity who may be engaged to provide the Services to Hospital.

ARTICLE VI.
GENERAL PROVISIONS

6.1 Amendment. This Agreement may be modified or amended only by mutual written agreement of the Parties. Any such modification or amendment must be in writing, dated and signed by the Parties and attached to this Agreement.

The HIPAA Obligations shall survive the expiration or termination of this Agreement for any reason.

6.4 Compliance with Laws and Accreditation. Contractor shall comply with all applicable laws, ordinances, codes and regulations of federal, state and local governments (collectively, **"Laws"**) applicable to Contractor, the provision of the Services, or the obligations of Contractor under this Agreement, including without limitation laws that require Contractor to disclose any economic interest or relationship with Hospital. Contractor shall take actions necessary to ensure that the Hospital and/or Clinic are operated in accordance with: all requirements of a nationally recognized accrediting organization that Hospital designates from time to time, all applicable licensing requirements, and all other relevant requirements promulgated by any federal, state or local agency.

6.5 Compliance with Medicare Rules. To the extent required by law or regulation, Contractor shall make available, upon written request from Hospital, the Secretary of Health and Human Services, the Comptroller General of the United States, or any duly authorized agent or representative, a copy of this Agreement and Contractor's books, documents and records. Contractor shall preserve and make available such books, documents and records for a period of ten (10) years after the end of the term of this Agreement, or the length of time required by state or federal law. If Contractor is requested to disclose books, documents or records pursuant to this Section for any purpose, Contractor shall notify Hospital of the nature and scope of such request, and Contractor shall make available, upon written request of Hospital, all such books, documents or records. If Contractor carries out any of the duties of the contract through a subcontract, with a value or cost of Ten Thousand Dollars ($10,000) or more over a twelve (12) month period, with a related organization, such subcontract shall contain a clause to the effect that until the expiration of ten (10) years after the furnishing of such Services pursuant to such subcontract, the related organization shall make available, upon written request by the Secretary, or upon request by the Comptroller General, or any of their duly authorized representatives, the subcontract and books, documents and records of such organization that are necessary to verify the nature and extent of such costs.

6.6 Confidential Information.

(a) During the term of this Agreement, Contractor may have access to and become acquainted with Trade Secrets and Confidential Information of Hospital. **"Trade Secrets"** includes information and data relating to payor contracts and accounts, clients, patients, patient groups, patient lists, billing practices and procedures, business techniques and methods, strategic plans, operations and related data. **"Confidential Information"** includes Trade Secrets and any information related to the past, current or proposed operations, business or strategic plans, financial statements or reports, technology or services of Hospital or any Affiliate that Hospital discloses or otherwise makes available in any manner to Contractor, or to which Contractor may gain access in the performance of the Services under this Agreement, or which Contractor knows or has reason to know is confidential information of Hospital or any Affiliate; whether such information is disclosed orally, visually or in writing, and whether or not bearing any legend or marking indicating that such information or data is confidential. By way of example, but not limitation, Confidential Information includes any and all know-how, processes, manuals, confidential reports, procedures and methods of Hospital, any Hospital patient's individually identifiable health information (as defined under HIPAA), and any information, records and proceedings of Hospital and/or Medical Staff committees, peer review bodies, quality committees and other committees or bodies charged with the evaluation and improvement of the quality of care. Confidential Information also includes proprietary or confidential information of any third party that may be in Hospital's or any Affiliate's possession.

(b) Confidential Information shall be and remain the sole property of Hospital, and shall, as applicable, be proprietary information protected under the Uniform Trade Secrets Act. Neither Contractor shall use any Confidential Information for any purpose not expressly permitted by this Agreement, or disclose any Confidential Information to any person or entity, without the prior written consent of Hospital. Contractor shall protect the Confidential Information from unauthorized use, access, or disclosure in the same manner as Contractor protects his, her, or its own confidential or proprietary information of a similar nature and with no less than reasonable care. All documents that Contractor prepare, or Confidential Information that might be given to Contractor in the course of providing Services under this Agreement, are the exclusive property of Hospital, and, without the prior written consent of Hospital, shall not be removed from Hospital's premises.

(c) Contractor shall return to Hospital all Confidential Information and all copies thereof in Contractor's possession or control, and permanently erase all electronic copies of such Confidential Information, promptly upon the written request of Hospital, or the termination or

expiration of this Agreement. Neither Contractor shall copy, duplicate or reproduce any Confidential Information without the prior written consent of Hospital.

(d) This Section shall survive the expiration or termination of this Agreement.

6.7 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument.

6.8 Disclosure of Interests. Contractor shall provide to Hospital, as requested by Hospital from time to time, information sufficient to disclose any ownership, investment or compensation interest or arrangement of Contractor, or any of Contractor's immediate family members, in any entity providing "designated health services" (as such term is defined in the Stark Law (42 U.S.C. Section 1395nn) and its regulations) or any other health care services. This Section shall not impose on Hospital any disclosure or reporting requirements or obligations imposed on Contractor under any governmental program or create an assumption of such disclosure obligations by Hospital. Contractor shall have the sole responsibility to fulfill any such federal and/or state reporting requirements or obligations.

6.9 Dispute Resolution. In the event of any dispute, controversy, claim or disagreement arising out of or related to this Agreement or the acts or omissions of the Parties with respect to this Agreement (each, a **"Dispute"**), the Parties shall resolve such Dispute as follows:

(b) **Meet and Confer.** The Parties shall, as soon as reasonably practicable, but in no case more than ten (10) days after one Party gives written notice of a Dispute to the other Party (the **"Dispute Notice"**), meet and confer in good faith regarding such Dispute at such time and place as mutually agreed upon by the Parties (the **"Meet and Confer"**). The obligation to conduct a Meet and Confer pursuant to this Section does not obligate either Party to agree to any compromise or resolution of the Dispute that such Party does not determine, in its sole and absolute discretion, to be a satisfactory resolution of the Dispute. The Meet and Confer shall be considered a settlement negotiation for the purpose of all applicable Laws protecting statements, disclosures or conduct in such context, and any offer in compromise or other statements or conduct made at or in connection with any Meet and Confer shall be protected under such Laws.

(c) **Arbitration.** If any Dispute is not resolved to the mutual satisfaction of the Parties within ten (10) business days after delivery of the Dispute Notice (or such other period as may be mutually agreed upon by the Parties in writing), the Parties shall submit such Dispute to arbitration conducted by Judicial Arbitration and Mediation Services, Inc. (**"JAMS"**), or other arbitration and/or mediation services company as agreed to by the Parties, in accordance with the following rules and procedures:

(i) Each Party may commence arbitration by giving written notice to the other Party demanding arbitration (the **"Arbitration Notice"**). The Arbitration Notice shall specify the Dispute, the particular claims and/or causes of actions alleged by the Party demanding

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

arbitration, and the factual and legal basis in support of such claims and/or causes of action.

(ii) The arbitration shall be conducted in the County in which the Hospital is located and in accordance with the commercial arbitration rules and procedures of JAMS (or other arbitration company as mutually agreed to by the Parties) to the extent such rules and procedures are not inconsistent with the provisions set forth in this Section. In the event of a conflict between any rules and/or procedures of JAMS (or other arbitration company as mutually agreed to by the Parties) and the rules and/or procedures set forth in this Section, the rules and/or procedures set forth in this Section shall govern.

(iii) The arbitration shall be conducted before a single impartial retired member of the JAMS panel of arbitrators (or panel of arbitrators from such other arbitration company as mutually agreed to by the Parties) covering the County in which the Hospital is located (the **"Panel"**). The Parties shall use their good faith efforts to agree upon a mutually acceptable arbitrator within thirty (30) days after delivery of the Arbitration Notice. If the Parties are unable to agree upon a mutually acceptable arbitrator within such time period, then each Party shall select one arbitrator from the Panel, and those arbitrators shall select a single impartial arbitrator from the Panel to serve as arbitrator of the Dispute.

(iv) The Parties expressly waive any right to any and all discovery in connection with the arbitration; provided, however, that each Party shall have the right to conduct no more than two (2) depositions and submit one set of interrogatories with a maximum of forty (40) questions, including subparts of such questions.

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

(v) The arbitration hearing shall commence within thirty (30) days after appointment of the arbitrator. The substantive internal law (and not the conflict of laws) of the State shall be applied by the arbitrator to the resolution of the Dispute, and the Evidence Code of the State shall apply to all testimony and documents submitted to the arbitrator. The arbitrator shall have no authority to amend or modify the limitation on the discovery rights of the Parties or any of the other rules and/or procedures set forth in this Section. As soon as reasonably practicable, but not later than thirty (30) days after the arbitration hearing is completed, the arbitrator shall arrive at a final decision, which shall be reduced to writing, signed by the arbitrator and mailed to each of the Parties and their respective legal counsel.

(vi) Any Party may apply to a court of competent jurisdiction for entry and enforcement of judgment based on the arbitration award. The award of the arbitrator shall be final and binding upon the Parties without appeal or review except as permitted by the Arbitration Act of the State.

(vii) The fees and costs of JAMS (or other arbitration company as mutually agreed to by the Parties) and the arbitrator, including any costs and expenses incurred by the arbitrator in connection with the arbitration, shall be borne equally by the Parties, unless otherwise agreed to by the Parties.

(viii) Except as set forth in Section 6.9(b)(vii), each Party shall be responsible for the costs and expenses incurred by such Party in connection with the arbitration, including its own attorneys' fees and costs; provided, however, that the arbitrator shall require one Party to pay the costs and expenses of the prevailing Party, including attorneys' fees and costs and the fees and costs of experts and consultants, incurred in connection with the arbitration if the arbitrator determines that the claims and/or position of a Party were frivolous and without reasonable foundation.

(d) **Waiver of Injunctive or Similar Relief.** The Parties hereby waive the right to seek specific performance or any other form of injunctive or equitable relief or remedy arising out of any Dispute, except that such remedies may be utilized for purposes of enforcing this Section and sections governing Confidential Information, Compliance with HIPAA, Compliance with Laws and Accreditation and Compliance with Medicare Rules of this Agreement. Except as expressly provided herein, upon any determination by a court or by an arbitrator that a Party has breached this Agreement or improperly terminated this Agreement, the other Party shall accept monetary damages, if any, as full and complete relief and remedy, to the exclusion of specific performance or any other form of injunctive or equitable relief or remedy.

DocuSign Envelope ID: F990D22E-4B70-416F-BA31-53ECA037E349

(e) **Injunctive or Similar Relief.** Notwithstanding anything to the contrary in this Section, the Parties reserve the right to seek specific performance or any other form of injunctive relief or remedy in any state or federal court located within the County in which the Hospital is located for purposes of enforcing this Section and sections governing Confidential Information, Compliance with HIPAA, Compliance with Laws and Accreditation and Compliance with Medicare Rules of this Agreement. Contractor hereby consents to the jurisdiction of any such court and to venue therein, waives any and all rights under the Laws of any other state to object to jurisdiction within the State, and consents to the service of process in any such action or proceeding, in addition to any other manner permitted by applicable Law, by compliance with the notices provision of this Agreement. The non-prevailing Party in any such action or proceeding shall pay to the prevailing Party reasonable fees and costs incurred in such action or proceeding, including attorneys' fees and costs and the fees and costs of experts and consultants. The prevailing Party shall be the Party who is entitled to recover its costs of suit (as determined by the court of competent jurisdiction), whether or not the action or proceeding proceeds to final judgment or award.

(f) **Survival.** This Section shall survive the expiration or termination of this Agreement.

6.10 Entire Agreement. This Agreement is the entire understanding and agreement of the Parties regarding its subject matter, and supersedes any prior oral or written agreements, representations, understandings or discussions between the Parties. 6.12 Force Majeure. Neither Party shall be liable for nonperformance or defective or late performance of any of its obligations under this Agreement to the extent and for such periods of time as such nonperformance, defective performance or late performance is due to reasons outside such Party's control, including acts of God, war (declared or undeclared), terrorism, action of any governmental authority, civil disturbances, riots, revolutions, vandalism, accidents, fire, floods, explosions, sabotage, nuclear incidents, lightning, weather, earthquakes, storms, sinkholes, epidemics, failure of transportation infrastructure, disruption of public utilities, supply chain interruptions, information systems interruptions or failures, breakdown of machinery or strikes (or similar nonperformance, defective performance or late performance of employees, suppliers or subcontractors); provided, however, that in any such event, each Party shall use its good faith efforts to perform its duties and obligations under this Agreement.

Contractor shall not accept similar consulting assignments if (a) the defendants or anticipated defendants include a member of the medical staff of Hospital or any Affiliate, and (b) the matter relates to events that occurred at Hospital or any Affiliate; provided, however, the provisions of this Section shall not apply to situations in which Contractor served as a treating physician.

Contractor shall immediately inform Hospital of any other agreements to which Contractor is a party that may present a conflict of interest or materially interfere with performance of Contractor's duties under this Agreement.

6.19 No Third Party Beneficiary Rights. The Parties do not intend to confer and this Agreement shall not be construed to confer any rights or benefits to any person, firm, group, corporation or entity other than the Parties.

Hospital shall have reasonable access to Contractor's records in order to assure Contractor's compliance with this Agreement.

(b) **Patient Information.** Hospital shall take all necessary and reasonable steps to provide Contractor appropriate patient information to facilitate Contractor's billing for the Contractor Services rendered pursuant to this Agreement.

(c) **Separate Billing.** Neither Contractor nor Hospital shall bill for, guarantee the ability to collect, or have any claim or interest in or to the amounts billed or collected by the other Party. Contractor shall cooperate with Hospital in completing such claim forms for Patients as may be required by insurance carriers, health care service plans, governmental agencies, or other third party payors.

(d) **Debt Collection Practices.** Contractor shall comply, and shall ensure that any collection agency engaged by Contractor complies, with the Fair Debt Collection Practices Act (15 U.S.C. 1692, et seq.) and Section 1788, et seq. of the California Civil Code (collectively, the **"Debt Collection Acts"**). Contractor shall not, and shall ensure that any collection agency engaged by Contractor does not, with respect to any Hospital patient who is not enrolled in any HMO, PPO, POS or other third party payor plan or program, or Medicare, Medicaid or any other government funded health care benefit plan or program: (i) use wage garnishments or liens on primary residences as a means of collecting unpaid bills for Contractor Services rendered by Contractor pursuant to this Agreement, or (ii) report adverse information to a consumer credit reporting agency or commence civil action against any such patient for nonpayment at any time prior to one hundred fifty (150) days after initial billing for Contractor Services rendered by Contractor pursuant to this Agreement.

(e) **Collection Agencies.** Hospital shall have the right to object to Contractor's use of any collection agency that engages in conduct that violates the Debt Collection Acts or Section 2.2(d) of this Agreement, or that results in the unreasonable annoyance or harassment of patients. Contractor shall either cure this problem or discharge the collection agency within thirty (30) days following written notice of objection by Hospital. If this problem occurs a second time, Contractor shall discharge the collection agency within thirty (30) days following written notice of objection by Hospital.

ARTICLE III.
INSURANCE AND INDEMNITY

3.1 Evidence of Coverage. Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies. This verification of coverage shall be sent to Hospital's Medical Staff Office, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and Hospital has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

3.2 Qualifying Insurers. All coverages except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by Hospital's Contracts/Purchasing Director.

3.3 Insurance Coverage Requirements. Without limiting Contractor's or Group Provider's duty to indemnify, Contractor shall maintain in effect throughout the term of this Agreement, at Contractor's sole cost and expense, a policy or policies of insurance with the following minimum limits of liability:

(a) **Professional liability insurance**, covering Contractor and each Group Provider with coverage of not less than One-Million Dollars ($1,000,000) per physician per occurrence and Three-Million Dollars ($3,000,000) per physician in the aggregate; or such other amount(s) of professional liability insurance as may be required by Article 2.2-1 of Hospital's Medical Staff Bylaws from time to time, to cover liability for malpractice and/or errors or omissions made in the course of rendering services under this Agreement. If any professional liability insurance covering Contractor and Group Provider is procured on a "Claims Made" rather than "Occurrence" basis, then Contractor and Group Provider shall either continue such coverage or obtain extended reporting coverage (**"Tail Coverage"**), as appropriate, upon the occurrence of any of the following: (i) termination or expiration of this Agreement; (ii) change of coverage if such change shall result in a gap in coverage; or (iii) amendment, reduction or other material change in the then existing professional liability coverage of Contractor if such amendment, reduction or other material change will result in a gap in coverage. Any Tail Coverage shall have liability limits in the amount set forth above and shall in all events continue in existence until the greater of: (a) three (3) years or (b) the longest statute of limitations for professional and general liability for acts committed has expired. All insurance required by this Agreement shall be with a company acceptable to County and issued and executed by an admitted insurer authorized to transact insurance business in the State.

(b) **Commercial general liability insurance**, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than One Million Dollars ($1,000,000) per occurrence.

☐ Exemption/Modification (Justification attached; subject to approval).

(c) **Business automobile liability insurance**, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than One Million Dollars ($1,000,000) per occurrence.

☐ Exemption/Modification (Justification attached; subject to approval).

(d) **Workers' Compensation Insurance**, if Contractor employs others in the performance of this Agreement, in accordance with California Labor Code Section 3700 and with Employer's Liability limits not less than One Million Dollars ($1,000,000) each person, One Million Dollars ($1,000,000) each accident and One Million Dollars ($1,000,000) each disease.

☐ Exemption/Modification (Justification attached; subject to approval).

3.4 Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to Hospital and issued and executed by an admitted insurer authorized to transact insurance business in the State. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date Contractor and Group Providers complete their performance of services under this Agreement.

Each liability policy shall provide that Hospital shall be given notice in writing at least thirty (30) days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor, Group Providers, and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the Contractor's work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the Contractor's insurance. The required endorsement from for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). Prior to the execution of this Agreement by Hospital, Contractor shall file certificates of insurance with Hospital's Medical Staff Office, showing that the Contractor has in effect the insurance required by this Agreement. The Contractor shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

Contractor and each Group Provider shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by Hospital, annual certificates to Hospital's Medical Staff Office. If the certificate is not received by the expiration date, Hospital shall notify Contractor and Contractor shall have five (5) calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by Contractor to maintain such insurance is a default of this Agreement, which entitles Hospital, at its sole discretion, to terminate the Agreement immediately.

3.5 Right to Offset Insurance Costs.

(a) In the event that Contractor does not purchase or otherwise have the liability insurance set forth in this Section at any time during the term of this Agreement, and without limiting any rights or remedies of County, County may at its option and within its sole discretion provide the liability insurance required by this Section and continue to pay the premiums therefor. If Contractor does not promptly reimburse all such amounts, then County shall have the right to withhold and offset the compensation due to Contractor under this Agreement, in addition to such other rights or privileges as County may have at law or in equity.

(b) The County's option to provide such insurance and to offset the compensation otherwise due to the Contractor shall also apply to the "Tail Coverage" referenced in Section 3.3, including for general liability if during the term of the Agreement such coverage has been written on a claims made basis, which is required to remain effective after the expiration or termination of this Agreement for any reason.

3.6 Indemnification.

(a) **Indemnification by Contractor.** Contractor and each Group Provider shall indemnify, defend, and hold harmless County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with Contractor's or Group Providers' performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of County. "Contractor's performance" includes Contractor's and Group Providers' acts or omissions and the acts or omissions of Contractor's officers, employees, agents and subcontractors.

DocuSign Envelope ID: 7A8229EF-822E-495A-AD5C-FC14A1271F53

(b) **Indemnification by County.** County agrees to defend, indemnify, and hold harmless Contractor and Group Providers, to the extent permitted by applicable law, from and against any and all claims and losses whatsoever accruing or resulting to any person, firm or corporation for damages, injury or death arising out of or connected with any negligent act or omission or willful misconduct of County or any of its agents or employees.

3.7 Indemnification for Timely Payment of Tax Contributions. It is expressly agreed by the Parties hereto that no work, act, commission or omission of Contractor or any Group Provider shall be construed to make or render Contractor or any Group Provider the agent, employee or servant of County. Contractor and each Group Provider agrees to indemnify, defend and hold harmless County and Hospital from and against any and all liability, loss, costs or obligations (including, without limitation, interest, penalties and attorney's fees in defending against the same) against County or Hospital based upon any claim that Contractor has failed to make proper and timely payment of any required tax contributions for itself, its employees, or its purported agents or independent contractors.

3.8 Hospital Services. Hospital shall retain professional and administrative responsibility for the operation of the Hospital, as and to the extent required by Title 22, California Code of Regulations, Section 70713. Hospital's retention of such responsibility is not intended and shall not be construed to diminish, limit, alter or otherwise modify in any way the obligations of Contractor under this Agreement, including, without limitation, the obligations under the insurance and indemnification provisions set forth in this Article III.

3.9 Survival of Obligations. The Parties' obligations under this Article III shall survive the expiration or termination of this Agreement for any reason.

ARTICLE IV.
RELATIONSHIP BETWEEN THE PARTIES

4.1 Independent Contractor.

(a) Contractor and each Group Provider is and shall at all times be an independent contractor with respect to Hospital in the performance of Contractor's and Group Provider's obligations under this Agreement. Nothing in this Agreement shall be construed to create an employer/employee, joint venture, partnership, lease or landlord/tenant relationship between Hospital and Contractor or Hospital and any Group Provider. No Group Provider shall hold himself or herself out as an officer, agent or employee of Hospital, and shall not incur any contractual or financial obligation on behalf of Hospital without Hospital's prior written consent.

(b) If the Internal Revenue Service (**"IRS"**) or any other governmental agency should inquire about, question or challenge the independent contractor status of Contractor or any Group Provider with respect to County, the Parties hereto mutually agree that: (i) each shall inform the other Party hereto of such inquiry or challenge; and (ii) County and Contractor shall each have the right to participate in any discussion or negotiation occurring with the taxing agency, regardless of who initiated such discussions or negotiations. In the event the taxing agency concludes that an independent contractor relationship does not exist, County may terminate this Agreement effective immediately upon written notice. In the event of such

termination, the Parties remain free to negotiate an employer/employee contract with any Group Provider.

4.2 Limitation on Control. Hospital shall neither have nor exercise any control or direction over Contractor's or any Group Provider's professional medical judgment or the methods by which Contractor or any Group Provider performs professional medical services; provided, however, that Contractor and Group Providers shall be subject to and shall at all times comply with the Protocols and the bylaws, guidelines, policies and rules applicable to other members of the Medical Staff or Advanced Practice Professional Staff.

4.3 Practice of Medicine. Contractor and Hospital acknowledge that Hospital is neither authorized nor qualified to engage in any activity which may be construed or deemed to constitute the practice of medicine. To the extent that any act or service required of, or reserved to, Hospital in this Agreement is construed or deemed to constitute the practice of medicine, the performance of such act or service by Hospital shall be deemed waived or unenforceable, unless this Agreement can be amended to comply with the law, in which case the Parties shall make such amendment.

4.4 No Benefit Contributions. Hospital shall have no obligation under this Agreement to compensate or pay applicable taxes for, or provide employee benefits of any kind (including contributions to government mandated, employment-related insurance and similar programs) to, or on behalf of, Contractor or any other person employed or retained by Contractor. Notwithstanding the foregoing, if Hospital determines or is advised that it is required by law to compensate or pay applicable taxes for, or provide employee benefits of any kind (including contributions to government mandated, employment-related insurance and similar programs) to, or on behalf of, Contractor or any other person employed or retained by Contractor, Contractor shall reimburse Hospital for any such expenditure within thirty (30) calendar days after being notified of such expenditure.

4.5 Referrals. Contractor and the Group Providers shall be entitled to refer patients to any hospital or other health care facility or provider deemed by Contractor or the Group Providers best qualified to deliver medical services to any particular patient; provided; however, that neither Contractor nor any Group Provider shall refer any Hospital patient to any provider or health care services which either Contractor or any Group Provider knows or should have known is excluded or suspended from participation in, or sanctioned by, any Federal Health Care Program or state equivalent. Nothing in this Agreement or in any other written or oral agreement between Hospital and Contractor or Hospital and the Group Providers, nor any consideration offered or paid in connection with this Agreement, contemplates or requires the admission or referral of any patients or business to Hospital or any Affiliate. In the event that any governmental agency, any court or any other judicial body of competent jurisdiction, as applicable, issues an opinion, ruling or decision that any payment, fee or consideration provided for hereunder is made or given in return for patient referrals, either Party may at its option terminate this Agreement with three (3) days notice to the other Party. Contractor's rights under this Agreement shall not be dependent in any way on the referral of patients or business to Hospital or any Affiliate by Contractor, Group Provider or any person employed or retained by Contractor.

4.6 Form 1099 or W-2. If required to do so under applicable law, Hospital shall issue an Internal Revenue Service Form 1099 or Form W-2 to Contractor.

4.7 Contractor Compensation Arrangements. Contractor represents and warrants to Hospital that the compensation paid or to be paid by Contractor to any physician is and will at all times be fair market value for services and items actually provided by such physician, not taking into account the value or volume of referrals or other business generated by such physician for Hospital or any Affiliate. Contractor further represents and warrants to Hospital that Contractor has and will at all times maintain a written agreement with each physician receiving compensation from Contractor.

4.8 Cooperation.

(a) The Parties recognize that, during the term of this Agreement and for an undetermined time period thereafter, certain risk management issues, legal issues, claims or actions may arise that involve or could potentially involve the Parties and their respective employees and agents. The Parties further recognize the importance of cooperating with each other in good faith when such issues, claims or actions arise, to the extent such cooperation does not violate any applicable laws, cause the breach of any duties created by any policies of insurance or programs of self-insurance, or otherwise compromise the confidentiality of communications or information regarding the issues, claims or actions. As such, the Parties hereby agree to cooperate in good faith, using their best efforts, to address such risk management and legal issues, claims, or actions.

(b) The Parties further agree that if a controversy, dispute, claim, action or lawsuit (each, an **"Action"**) arises with a third party wherein both the Parties are included as defendants, each Party shall promptly disclose to the other Party in writing the existence and continuing status of the Action and any negotiations relating thereto. Each Party shall make every reasonable attempt to include the other Party in any settlement offer or negotiations. In the event the other Party is not included in the settlement, the settling Party shall immediately disclose to the other Party in writing the acceptance of any settlement and terms relating thereto, if allowed by the settlement agreement.

(c) Contractor shall cooperate with the individual designated by Hospital to have principal responsibility for the administration and operation of the Hospital. Such cooperation shall include supervision, selection, assignment, and evaluation of personnel; management and direction of equipment maintenance; development of budgets; and oversight of the acquisition of materials, supplies, and equipment.

(d) Contractor shall assist Hospital, as reasonably requested by Hospital, in Hospital's compliance with applicable laws and the standards, requirements, guidelines and recommendations of any governing or advisory body having authority to set standards relating to the operation of Hospital, or any nationally recognized accrediting organization that Hospital designates from time to time.

4.9 Contractor's Performance. County or Hospital, at its option and within its sole discretion, may seek evaluation of contractual performance by requesting input from Hospital's Medical Director/Chief Medical Officer and from other professionals within Hospital.

4.10 Right of Inspection. Upon reasonable prior written notice, Hospital and County officials and their designees may inspect the books and records of Contractor which are necessary to determine that work performed by Contractor or any Group Provider to patients hereunder is in accord with the requirements of this Agreement. Such inspection shall be made in a manner so as not to disrupt the operations of Hospital or Contractor.

4.11 Access to and Audit of Records. Hospital shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the Contractor and its subcontractors related to services provided under this Agreement. Pursuant to Government Code Section 8546.7, if this Agreement involves the expenditure of public funds in excess of Ten Thousand Dollars ($10,000), the Parties may be subject, at the request of Hospital or as part of any audit of Hospital, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three (3) years after final payment under the Agreement.

ARTICLE V.
TERM AND TERMINATION

5.1 Term. This Agreement shall become effective on September 1, 2023 (the **"Effective Date"**), and shall continue until September 30, 2025 (the **"Expiration Date"**), subject to the termination provisions of this Agreement.

5.2 Termination by Hospital. Hospital shall have the right to terminate this Agreement upon the occurrence of any one or more of the following events:

(a) breach of this Agreement by Contractor or any Group Provider where the breach is not cured within thirty (30) calendar days after Hospital gives written notice of the breach to Contractor;

(b) neglect of professional duty by Contractor or any Group Provider in a manner that poses an imminent danger to the health or safety of any individual, or violates Hospital's policies, rules or regulations;

(c) there is a "substantial change" in Contractor which has not received prior written approval or subsequent ratification by Hospital. The retirement, withdrawal, termination, or suspension of one (1) or more Group Physicians of Contractor at any time during the term of this Agreement shall be considered to be a "substantial change" in Contractor only if there is a reduction in hours equivalent to in excess of one full-time Group Physician. Notwithstanding anything in the foregoing to the contrary, the retirement, withdrawal, termination, or suspension of any single Group Physician of Contractor shall not constitute a "substantial change" in Contractor as that term is used herein;

(d) breach by Contractor or any Group Provider of any HIPAA Obligation (as defined in **Exhibit 6.3**);

DocuSign Envelope ID: 7A8229EF-822E-495A-AD5C-FC14A1271F53

(e) Contractor makes an assignment for the benefit of creditors, admits in writing the inability to pay its debts as they mature, applies to any court for the appointment of a trustee or receiver over its assets, or upon commencement of any voluntary or involuntary proceedings under any bankruptcy, reorganization, arrangement, insolvency, readjustment of debt, dissolution liquidation or other similar law of any jurisdiction;

(f) the insurance required to be maintained by Contractor under this Agreement is terminated, reduced below the minimum coverage requirements set forth in this Agreement, not renewed or cancelled (whether by action of the insurance company or Contractor) for any reason, and Contractor has not obtained replacement coverage as required by this Agreement prior to the effective date of such termination, reduction, non-renewal or cancellation;

(g) Contractor is rendered unable to comply with the terms of this Agreement for any reason; or

(h) upon a sale of all or substantially all assets comprising Hospital's acute care hospital facility, any change of control in Hospital's organization, or any change in control of its day to day operations, whether through a membership change or by management contract. Hospital shall notify Contractor in writing of such sale or change of control at least thirty (30) days prior to the closing date of any such sale or the effective date of any such change of control.

5.3 Termination by Contractor. Contractor shall have the right to terminate this Agreement upon breach of this Agreement by Hospital where the breach is not cured within thirty (30) calendar days after Contractor gives written notice of the breach to Hospital.

5.4 Termination or Modification in the Event of Government Action.

(a) If the Parties receive notice of any Government Action, the Parties shall attempt to amend this Agreement in order to comply with the Government Action.

(b) If the Parties, acting in good faith, are unable to make the amendments necessary to comply with the Government Action, or, alternatively, if either Party determines in good faith that compliance with the Government Action is impossible or infeasible, this Agreement shall terminate ten (10) calendar days after one Party notices the other of such fact.

(c) For the purposes of this Section, **"Government Action"** shall mean any legislation, regulation, rule or procedure passed, adopted or implemented by any federal, state or local government or legislative body or any private agency, or any notice of a decision, finding, interpretation or action by any governmental or private agency, court or other third party which, in the opinion of counsel to Hospital, because of the arrangement between the Parties pursuant to this Agreement, if or when implemented, would:

(i) revoke or jeopardize the status of any health facility license granted to Hospital or any Affiliate of Hospital;

(ii) revoke or jeopardize the federal, state or local tax-exempt status of Hospital or any Affiliate of Hospital, or their respective tax-exempt financial obligations;

(iii) prevent Contractor or any Group Provider from being able to access and use the facilities of Hospital or any Affiliate of Hospital;

(iv) constitute a violation of 42 U.S.C. Section 1395nn (commonly referred to as the Stark law) if Contractor or any Group Provider referred patients to Hospital or any Affiliate of Hospital;

(v) prohibit Hospital or any Affiliate of Hospital from billing for services provided to patients referred to by Contractor or any Group Provider;

(vi) subject Hospital or Contractor, any Group Provider, or any Affiliate of Hospital, or any of their respective employees or agents, to civil or criminal prosecution (including any excise tax penalty under Internal Revenue Code Section 4958), on the basis of their participation in executing this Agreement or performing their respective obligations under this Agreement; or

(vii) jeopardize Hospital's full accreditation with any accrediting organization as Hospital designates from time to time.

(d) For the purposes of this Agreement, **"Affiliate"** shall mean any entity which, directly or indirectly, controls, is controlled by, or is under common control with Hospital.

5.5 Termination without Cause. Either Party may terminate this Agreement without cause, expense or penalty, effective sixty (60) calendar days after written notice of termination is given to the other Party.

5.6 Effect of Termination or Expiration. Upon any termination or expiration of this Agreement:

(a) all rights and obligations of the Parties shall cease except: (i) those rights and obligations that have accrued and remain unsatisfied prior to the termination or expiration of this Agreement; (ii) those rights and obligations which expressly survive termination or expiration of this Agreement; and (iii) Contractor's obligation to continue to provide services to Hospital patients under Contractor's and Group Providers' care at the time of expiration or termination of this Agreement, until the patient's course of treatment is completed or the patient is transferred to the care of another physician;

DocuSign Envelope ID: 7A8229EF-822E-495A-AD5C-FC14A1271F53

(c) Contractor and Group Providers shall immediately return to Hospital all of Hospital's property, including Hospital's equipment, supplies, furniture, furnishings and patient records, in Contractor's or Group Providers' possession or under Contractor's or Group Providers' control;

(d) Contractor and Group Providers shall not do anything or cause any other person to do anything that interferes with Hospital's efforts to engage any other person or entity for the provision of the Services, or interferes in any way with any relationship between Hospital and any other person or entity who may be engaged to provide the Services to Hospital;

(e) The expiration or termination of this Agreement shall not entitle Contractor or Group Providers to the right to a "fair hearing" or any other similar rights or procedures more particularly set forth in the Medical Staff bylaws or otherwise; and

(f) This Section 5.6 shall survive the expiration or termination for any reason of this Agreement.

5.7 Immediate Removal of Group Providers. Contractor shall immediately remove any Group Provider from furnishing Services under this Agreement who:

(a) engages in conduct that, in Hospital's good faith determination, jeopardizes the mental or physical health, safety or well-being of any person or damages the reputation of Hospital;

(b) fails to comply with any other material terms or conditions of this Agreement after being given written notice of that failure and a reasonable opportunity to comply;

(c) is unable to perform services as required under this Agreement for more than thirty (30) days in the aggregate over any three (3) month period; or

(d) within a twelve (12) month period, has two (2) or more medical malpractice judgments filed against him or her, or he or she becomes the subject of two (2) or more proceedings by the Medical Staff regarding the performance of professional medical services.

5.9 Effect of Removal. Upon the removal of a Group Provider pursuant to Section 5.7 or Section 5.8 of this Agreement, Contractor shall employ, contract with, or otherwise engage, at its cost and expense, a qualified substitute for the removed Group Provider, or shall demonstrate to Hospital's satisfaction Contractor's ability to continuously perform the Services without such a substitute. Alternatively, County and Contractor may mutually agree to amend the Agreement in response to a reduction in Federal, State or local funding.

6.2 Assignment. This Agreement is entered into by Hospital in reliance on the professional and administrative skills of Contractor. Contractor shall be solely responsible for providing the Services and otherwise fulfilling the terms of this Agreement, except as specifically set forth in this Agreement. Except for assignment by Hospital to an entity owned, controlled by, or under common control with Hospital, neither Party may assign any interest or obligation under this Agreement without the other Party's prior written consent. The HIPAA Obligations shall survive the expiration or termination of this Agreement for any reason.

6.4 Compliance with Laws and Accreditation. Contractor and Group Providers shall comply with all applicable laws, ordinances, codes and regulations of federal, state and local governments (collectively, **"Laws"**) applicable to Contractor and Group Providers, the provision of the Services, or the obligations of Contractor and Group Providers under this Agreement, including without limitation laws that require Contractor or any Group Provider to disclose any economic interest or relationship with Hospital, the Emergency Medical Treatment and Active Labor Act and the rules and regulations thereunder (**"EMTALA"**), and California Health and Safety Code Section 1317 and the rules and regulations thereunder (**"Health and Safety Code §1317"**). 6.5 Compliance with Medicare Rules. To the extent required by law or regulation, Contractor shall make available, upon written request from Hospital, the Secretary of Health and Human Services, the Comptroller General of the United States, or any duly authorized agent or representative, a copy of this Agreement and Contractor's books, documents and records. If Contractor is requested to disclose books, documents or records pursuant to this Section for any purpose, Contractor shall notify Hospital of the nature and scope of such request, and Contractor shall make available, upon written request of Hospital, all such books, documents or records. Contractor shall indemnify and hold harmless Hospital if any amount of reimbursement is denied or disallowed because of Contractor's failure to comply with the obligations set forth in this Section. Such indemnity shall include, but not be limited to, the amount of reimbursement denied, plus any interest, penalties and legal costs. If Contractor carries out any of the duties of the contract through a subcontract, with a value or cost of Ten Thousand Dollars ($10,000) or more over a twelve (12) month period, with a related organization, such subcontract shall contain a clause to the effect that until the expiration of ten (10) years after the furnishing of such Services pursuant to such subcontract, the related organization shall make available, upon written request by the Secretary, or upon request by the Comptroller General, or any of their duly authorized representatives, the subcontract and books, documents and records of such organization that are necessary to verify the nature and extent of such costs.

6.6 Confidential Information.

(a) During the term of this Agreement, Contractor and Group Providers may have access to and become acquainted with Trade Secrets and Confidential Information of Hospital. **"Trade Secrets"** includes information and data relating to payor contracts and accounts, clients, patients, patient groups, patient lists, billing practices and procedures, business techniques and methods, strategic plans, operations and related data. **"Confidential Information"** includes Trade Secrets and any information related to the past, current or proposed operations, business or strategic plans, financial statements or reports, technology or services of Hospital or any Affiliate that Hospital discloses or otherwise makes available in any manner to Contractor or Group Providers, or to which Contractor or Group Providers may gain access in the performance of the Services under this Agreement, or which Contractor or any Group Provider knows or has reason to know is confidential information of Hospital or any Affiliate; whether such information is disclosed orally, visually or in writing, and whether or not bearing any legend or marking indicating that such information or data is confidential. By way of example, but not limitation, Confidential Information includes any and all know-how, processes, manuals, confidential reports, procedures and methods of Hospital, any Hospital patient's individually identifiable health information (as defined under HIPAA), and any information, records and proceedings of Hospital and/or Medical Staff committees, peer review bodies, quality committees and other committees or bodies charged with the evaluation and improvement of the quality of care. Confidential Information also includes proprietary or confidential information of any third party that may be in Hospital's or any Affiliate's possession.

(b) Confidential Information shall be and remain the sole property of Hospital, and shall, as applicable, be proprietary information protected under the Uniform Trade Secrets Act. Neither Contractor nor any Group Provider shall use any Confidential Information for any purpose not expressly permitted by this Agreement, or disclose any Confidential Information to any person or entity, without the prior written consent of Hospital. Contractor and Group Providers shall protect the Confidential Information from unauthorized use, access, or disclosure in the same manner as Contractor and any Group Provider protects his, her, or its own confidential or proprietary information of a similar nature and with no less than reasonable care. All documents that Contractor and Group Providers prepare, or Confidential Information that might be given to Contractor in the course of providing Services under this Agreement, are the exclusive property of Hospital, and, without the prior written consent of Hospital, shall not be removed from Hospital's premises.

(c) Contractor and Group Providers shall return to Hospital all Confidential Information and all copies thereof in Contractor's and Group Providers' possession or control, and permanently erase all electronic copies of such Confidential Information, promptly upon the written request of Hospital, or the termination or expiration of this Agreement. Neither Contractor nor any Group Provider shall copy, duplicate or reproduce any Confidential Information without the prior written consent of Hospital.

(d) This Section shall survive the expiration or termination of this Agreement.

6.7 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument.

6.8 Disclosure of Interests. Contractor or any Group Provider shall provide to Hospital, as requested by Hospital from time to time, information sufficient to disclose any ownership, investment or compensation interest or arrangement of Contractor, or any of Contractor's or any Group Provider's immediate family members, in any entity providing "designated health services" (as such term is defined in the Stark Law (42 U.S.C. Section 1395nn) and its regulations) or any other health care services. This Section shall not impose on Hospital any disclosure or reporting requirements or obligations imposed on Contractor or any Group Provider under any governmental program or create an assumption of such disclosure obligations by Hospital. Contractor and Group Providers shall have the sole responsibility to fulfill any such federal and/or state reporting requirements or obligations.

6.9 Dispute Resolution. In the event of any dispute, controversy, claim or disagreement arising out of or related to this Agreement or the acts or omissions of the Parties with respect to this Agreement (each, a **"Dispute"**), the Parties shall resolve such Dispute as follows:

(a) **Meet and Confer.** The Parties shall, as soon as reasonably practicable, but in no case more than ten (10) days after one Party gives written notice of a Dispute to the other Party (the **"Dispute Notice"**), meet and confer in good faith regarding such Dispute at such time and place as mutually agreed upon by the Parties (the **"Meet and Confer"**). The obligation to conduct a Meet and Confer pursuant to this Section does not obligate either Party to agree to any compromise or resolution of the Dispute that such Party does not determine, in its sole and absolute discretion, to be a satisfactory resolution of the Dispute. The Meet and Confer shall be considered a settlement negotiation for the purpose of all applicable Laws protecting statements, disclosures or conduct in such context, and any offer in compromise or other statements or conduct made at or in connection with any Meet and Confer shall be protected under such Laws.

(b) **Arbitration.** If any Dispute is not resolved to the mutual satisfaction of the Parties within ten (10) business days after delivery of the Dispute Notice (or such other period as may be mutually agreed upon by the Parties in writing), the Parties shall submit such Dispute to arbitration conducted by Judicial Arbitration and Mediation Services, Inc. (**"JAMS"**), or other arbitration and/or mediation services company as agreed to by the Parties, in accordance with the following rules and procedures:

(i) Each Party may commence arbitration by giving written notice to the other Party demanding arbitration (the **"Arbitration Notice"**). The Arbitration Notice shall specify the Dispute, the particular claims and/or causes of actions alleged by the Party demanding arbitration, and the factual and legal basis in support of such claims and/or causes of action.

(ii) The arbitration shall be conducted in the County in which the Hospital is located and in accordance with the commercial arbitration rules and procedures of JAMS (or other arbitration company as mutually agreed to by the Parties) to the extent such rules and procedures are not inconsistent with the provisions set forth in this Section. In the event of a conflict between any rules and/or procedures of JAMS (or other arbitration company as mutually agreed to by the Parties) and the rules and/or procedures set forth in this Section, the rules and/or procedures set forth in this Section shall govern.

(iii) The arbitration shall be conducted before a single impartial retired member of the JAMS panel of arbitrators (or panel of arbitrators from such other arbitration company as mutually agreed to by the Parties) covering the County in which the Hospital is located (the **"Panel"**). The Parties shall use their good faith efforts to agree upon a mutually acceptable arbitrator within thirty (30) days after delivery of the Arbitration Notice. If the Parties are unable to agree upon a mutually acceptable arbitrator within such time period, then each Party shall select one arbitrator from the Panel, and those arbitrators shall select a single impartial arbitrator from the Panel to serve as arbitrator of the Dispute.

(iv) The Parties expressly waive any right to any and all discovery in connection with the arbitration; provided, however, that each Party shall have the right to conduct no more than two (2) depositions and submit one set of interrogatories with a maximum of forty (40) questions, including subparts of such questions.

DocuSign Envelope ID: 7A8229EF-822E-495A-AD5C-FC14A1271F53

(v) The arbitration hearing shall commence within thirty (30) days after appointment of the arbitrator. The substantive internal law (and not the conflict of laws) of the State shall be applied by the arbitrator to the resolution of the Dispute, and the Evidence Code of the State shall apply to all testimony and documents submitted to the arbitrator. The arbitrator shall have no authority to amend or modify the limitation on the discovery rights of the Parties or any of the other rules and/or procedures set forth in this Section. As soon as reasonably practicable, but not later than thirty (30) days after the arbitration hearing is completed, the arbitrator shall arrive at a final decision, which shall be reduced to writing, signed by the arbitrator and mailed to each of the Parties and their respective legal counsel.

(vi) Any Party may apply to a court of competent jurisdiction for entry and enforcement of judgment based on the arbitration award. The award of the arbitrator shall be final and binding upon the Parties without appeal or review except as permitted by the Arbitration Act of the State.

(vii) The fees and costs of JAMS (or other arbitration company as mutually agreed to by the Parties) and the arbitrator, including any costs and expenses incurred by the arbitrator in connection with the arbitration, shall be borne equally by the Parties, unless otherwise agreed to by the Parties.

(viii) Except as set forth in Section 6.9(b)(vii), each Party shall be responsible for the costs and expenses incurred by such Party in connection with the arbitration, including its own attorneys' fees and costs; provided, however, that the arbitrator shall require one Party to pay the costs and expenses of the prevailing Party, including attorneys' fees and costs and the fees and costs of experts and consultants, incurred in connection with the arbitration if the arbitrator determines that the claims and/or position of a Party were frivolous and without reasonable foundation.

(c) **Waiver of Injunctive or Similar Relief.** The Parties hereby waive the right to seek specific performance or any other form of injunctive or equitable relief or remedy arising out of any Dispute, except that such remedies may be utilized for purposes of enforcing this Section and sections governing Confidential Information, Compliance with HIPAA, Compliance with Laws and Accreditation and Compliance with Medicare Rules of this Agreement. Except as expressly provided herein, upon any determination by a court or by an arbitrator that a Party has breached this Agreement or improperly terminated this Agreement, the other Party shall accept monetary damages, if any, as full and complete relief and remedy, to the exclusion of specific performance or any other form of injunctive or equitable relief or remedy.

DocuSign Envelope ID: 7A8229EF-822E-495A-AD5C-FC14A1271F53

(d) **Injunctive or Similar Relief.** Notwithstanding anything to the contrary in this Section, the Parties reserve the right to seek specific performance or any other form of injunctive relief or remedy in any state or federal court located within the County in which the Hospital is located for purposes of enforcing this Section and sections governing Confidential Information, Compliance with HIPAA, Compliance with Laws and Accreditation and Compliance with Medicare Rules of this Agreement. Contractor hereby consents to the jurisdiction of any such court and to venue therein, waives any and all rights under the Laws of any other state to object to jurisdiction within the State, and consents to the service of process in any such action or proceeding, in addition to any other manner permitted by applicable Law, by compliance with the notices provision of this Agreement. The non-prevailing Party in any such action or proceeding shall pay to the prevailing Party reasonable fees and costs incurred in such action or proceeding, including attorneys' fees and costs and the fees and costs of experts and consultants. The prevailing Party shall be the Party who is entitled to recover its costs of suit (as determined by the court of competent jurisdiction), whether or not the action or proceeding proceeds to final judgment or award.

(e) **Survival.** This Section shall survive the expiration or termination of this Agreement.

6.10 Entire Agreement. This Agreement is the entire understanding and agreement of the Parties regarding its subject matter, and supersedes any prior oral or written agreements, representations, understandings or discussions between the Parties, including, without limitation, the Prior Agreement. No other understanding between the Parties shall be binding on them unless set forth in writing, signed and attached to this Agreement.

6.11 Exhibits. The attached exhibits, together with all documents incorporated by reference in the exhibits, form an integral part of this Agreement and are incorporated by reference into this Agreement, wherever reference is made to them to the same extent as if they were set out in full at the point at which such reference is made.

6.12 Force Majeure. Neither Party shall be liable for nonperformance or defective or late performance of any of its obligations under this Agreement to the extent and for such periods of time as such nonperformance, defective performance or late performance is due to reasons outside such Party's control, including acts of God, war (declared or undeclared), terrorism, action of any governmental authority, civil disturbances, riots, revolutions, vandalism, accidents, fire, floods, explosions, sabotage, nuclear incidents, lightning, weather, earthquakes, storms, sinkholes, epidemics, failure of transportation infrastructure, disruption of public utilities, supply chain interruptions, information systems interruptions or failures, breakdown of machinery or strikes (or similar nonperformance, defective performance or late performance of employees, suppliers or subcontractors); provided, however, that in any such event, each Party shall use its good faith efforts to perform its duties and obligations under this Agreement.

6.15 Litigation Consultation. Contractor shall ensure that no Group Provider accepts consulting assignments or otherwise contract, agree, or enter into any arrangement to provide expert testimony or evaluation on behalf of a plaintiff in connection with any claim against Hospital or any Affiliate named, or expected to be named as a defendant. Contractor shall ensure that no Group Provider accepts similar consulting assignments if (a) the defendants or anticipated defendants include a member of the medical staff of Hospital or any Affiliate, and (b) the matter relates to events that occurred at Hospital or any Affiliate; provided, however, the provisions of this Section shall not apply to situations in which a Group Provider served as a treating physician.

6.18 New Group Providers. Each new Group Provider shall agree in writing to be bound by the terms of and conditions of this Agreement.

6.19 No Conflicting Obligations. Contractor represents and warrants that the execution and delivery of this Agreement and the performance of its obligations hereunder do not and will not: (a) present a conflict of interest or materially interfere with the performance of Contractor's duties under any other agreement or arrangement; or (b) violate, conflict with, or result in a breach of any provision of, or constitute a default (or an event which, with notice and/or lapse of time, would constitute a default) under, terminate, accelerate the performance required by, or result in a right of termination or acceleration under any of the terms, conditions or provisions of any other agreement, indebtedness, note, bond, indenture, security or pledge agreement, license, franchise, permit, or other instrument or obligation to which Contractor is a party or by which Contractor is bound. Contractor shall immediately inform Hospital of any other agreements to which Contractor is a party that may present a conflict of interest or materially interfere with performance of Contractor's or Group Providers' duties under this Agreement.

6.20 No Third Party Beneficiary Rights. The Parties do not intend to confer and this Agreement shall not be construed to confer any rights or benefits to any person, firm, group, corporation or entity other than the Parties.

3. Maintain respect for the dignity and sensitivities of patients and families, as well as colleagues, NMC employees, and all other health care professionals.

4. Participate in the Medical Staff quality assessment and peer review activities, and in organizational performance improvement activities.

Disruptive or Unprofessional Behavior by Practitioners exhibited on the premises of NMC, whether or not the Practitioner is on duty or functioning in his/her professional capacity, are subject to this Code.

EXAMPLES OF PROFESSIONAL BEHAVIOR

Practitioners are expected to exhibit professional behavior at NMC, consistent with this Code, as follows:

Neither Contractor nor any Group Physician shall differentiate or discriminate in performing the Services on the basis of race, religion, creed, color, national origin, ancestry, sex, physical disability, mental disability, medical condition, marital status, age, sexual orientation or payor, or on any other basis prohibited by applicable law.

1.13 Non-Exclusive Services. The Services provided by Contractor hereunder are intended to be non-exclusive. 1.14 Compliance with Grant Terms. 1.15 Medical Records and Claims.

(a) Contractor shall ensure that each Group Physician prepares complete, timely, accurate and legible medical and other records with respect to the services and treatment furnished to patients, in accordance with the Hospital Rules, federal and state laws and regulations, and standards and recommendations of such nationally recognized accrediting organization as Hospital designates from time to time. All such information and records relating to any patient shall be: (i) prepared on forms developed, provided or approved by Hospital; (ii) the sole property of Hospital; and (iii) maintained at Hospital in accordance with the terms of this Agreement and for so long as is required by applicable laws and regulations.

Contractor shall be solely responsible for maintaining patient confidentiality with respect to any information which Contractor obtains pursuant to this Section.

1.17 Group Physicians.

(a) Contractor shall employ, contract with, or otherwise engage Group Physicians. Contractor has initially engaged those Group Physicians listed (and identified by NPI number) on **Exhibit 1.17(a)** to provide the Services, which Group Physicians are hereby approved and accepted by Hospital.

(b) Contractor may from time to time engage one (1) or more additional Group Physicians (including locum tenens physicians) to provide the Services under this Agreement, subject to Hospital's prior written approval, which approval may be given, withheld or conditioned by Hospital in its sole discretion. In the event Hospital withholds approval with respect to any additional Group Physician, such Group Physician shall not be entitled to any "fair hearing" or any other hearing or appellate review under any provision of the Medical Staff Bylaws, unless Hospital determines that the withholding of approval is reportable to any state's medical board or other agency responsible for professional licensing, standards or behavior.

The total amount payable by Hospital to Contractor under this Agreement shall not exceed the sum of Eight Hundred Thousand Dollars ($800,000).

2.2 Billing and Collection. Hospital shall have the sole and exclusive right to bill and collect for any and all Professional Services rendered to Patients by Contractor or any Group Physician under this Agreement (the **"NMC Services"**). (a) **Assignment of Claims.** Contractor hereby assigns (or reassigns, as the case may be) to Hospital all claims, demands and rights of Contractor for any and all NMC Services rendered by Contractor pursuant to this Agreement. Contractor shall take such action and execute such documents (e.g., CMS Forms 855R and 855I), as may be reasonably necessary or appropriate to effectuate the assignment (or reassignment, as the case may be) to Hospital of all claims, demands and rights of Contractor for any and all NMC Services rendered by Contractor pursuant to this Agreement.

(b) **Cooperation with Billing and Collections.** Contractor shall cooperate with Hospital in the billing and collection of fees with respect to NMC Services rendered by Contractor. Without limiting the generality of the foregoing, Contractor shall cooperate with Hospital in completing such claim forms with respect to NMC Services rendered by Contractor pursuant to this Agreement as may be required by insurance carriers, health care service plans, governmental agencies, or other third party payors.

(c) **Hospital as Exclusive Source for Compensation for NMC Services.** Contractor shall seek and obtain compensation for the performance of NMC Services only from Hospital. Contractor shall not, bill, assess or charge any fee, assessment or charge of any type against any Hospital patient or any other person or entity for NMC Services rendered by Contractor pursuant to this Agreement. Contractor shall promptly deliver to Hospital any and all compensation, in whatever form, that is received by Contractor or any Group Physician for NMC Services rendered by Contractor or any Group Physician pursuant to this Agreement, including any amount received from any Managed Care Organization (as defined below) for NMC Services rendered by Contractor or any Group Physician pursuant to this Agreement.

(d) **Joint and Several Liability.** Hospital and Contractor acknowledge that they will be jointly and severally liable for any Federal Health Care Program overpayments relating to claims with respect to NMC Services furnished by Contractor pursuant to this Agreement. The foregoing is not intended and shall not be construed to diminish, limit, alter or otherwise modify in any way the Parties' respective indemnification obligations under this Agreement.

(e) **Indemnification for Billing Information.** Contractor hereby agrees to indemnify County, Hospital, its officers, supervisors, trustees, employees and agents, from and against any and all liability, cost, loss, penalty or expense (including, without limitation, attorneys' fees and court costs) incurred by Hospital resulting from negligent acts or negligent omissions of Contractor which result in inaccurate and/or improper billing information furnished by Contractor and relied on by Hospital regarding Professional Services rendered by Contractor to Patients, to the extent such liability, cost, loss, penalty or expense exceeds the amount of payment or reimbursement actually received by Hospital for such services.

2.3 Third Party Payor Arrangements.

(a) Contractor shall cooperate in all reasonable respects necessary to facilitate Hospital's entry into or maintenance of any third party payor arrangements for the provision of services under Federal Health Care Programs or any other public or private health and/or hospital care programs, including insurance programs, self-funded employer health programs, health care service plans and preferred provider organizations.

(ii) Complete any documents (e.g., CAQH Universal Provider Datasource form) as may be reasonably necessary or appropriate to effectuate enrollment;

ARTICLE III.
INSURANCE AND INDEMNITY

3.1 Evidence of Coverage. Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies. This verification of coverage shall be sent to Hospital's Medical Staff Office, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and Hospital has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

3.2 Qualifying Insurers. All coverages except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current Best's Key Rating Guide or a company of equal financial stability that is approved by Hospital's Contracts/Purchasing Director.

3.3 Insurance Coverage Requirements. Without limiting Contractor's or Group Physician's duty to indemnify, Contractor shall maintain in effect throughout the term of this Agreement, at Contractor's sole cost and expense, a policy or policies of insurance with the following minimum limits of liability:

(a) **Professional liability insurance**, covering Contractor and each Group Physician with coverage of not less than One-Million Dollars ($1,000,000) per physician per occurrence and Three-Million Dollars ($3,000,000) per physician in the aggregate; or such other amount(s) of professional liability insurance as may be required by Article 2.2-1 of Hospital's Medical Staff Bylaws from time to time, to cover liability for malpractice and/or errors or omissions made in the course of rendering services under this Agreement. If any professional liability insurance covering Contractor and Group Physician is procured on a "Claims Made" rather than "Occurrence" basis, then Contractor and Group Physician shall either continue such coverage or obtain extended reporting coverage (**"Tail Coverage"**), as appropriate, upon the occurrence of any of the following: (i) termination or expiration of this Agreement; (ii) change of coverage if such change shall result in a gap in coverage; or (iii) amendment, reduction or other material change in the then existing professional liability coverage of Contractor if such amendment, reduction or other material change will result in a gap in coverage. Any Tail Coverage shall have liability limits in the amount set forth above and shall in all events continue in existence until the greater of: (a) three (3) years or (b) the longest statute of limitations for professional and general liability for acts committed has expired. All insurance required by this Agreement shall be with a company acceptable to County and issued and executed by an admitted insurer authorized to transact insurance business in the State.

(b) **Commercial general liability insurance**, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than One Million Dollars ($1,000,000) per occurrence.

☐ Exemption/Modification (Justification attached; subject to approval).

(c) **Business automobile liability insurance**, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than One Million Dollars ($1,000,000) per occurrence.

☒ Exemption/Modification (Justification attached; subject to approval).

Contractor does not provide services on the Natividad premises and does not drive on County Property in order to meet the requirements of the Agreement.

(d) **Workers' Compensation Insurance**, if Contractor employs others in the performance of this Agreement, in accordance with California Labor Code Section 3700 and with Employer's Liability limits not less than One Million Dollars ($1,000,000) each person, One Million Dollars ($1,000,000) each accident and One Million Dollars ($1,000,000) each disease.

☐ Exemption/Modification (Justification attached; subject to approval).

3.4 Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to Hospital and issued and executed by an admitted insurer authorized to transact insurance business in the State. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date Contractor and Group Physicians complete their performance of services under this Agreement.

Each liability policy shall provide that Hospital shall be given notice in writing at least thirty (30) days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor, Group Physicians, and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, agents, and employees as Additional Insureds with respect to liability arising out of the Contractor's work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the Contractor's insurance. The required endorsement from for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10 10 01 in tandem with CG 20 37 10 01 (2000). The required endorsement from for Automobile Additional Insured Endorsement is ISO Form CA 20 48 02 99.

Prior to the execution of this Agreement by Hospital, Contractor shall file certificates of insurance with Hospital's Medical Staff Office, showing that the Contractor has in effect the insurance required by this Agreement. The Contractor shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

Contractor and each Group Physician shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by Hospital, annual certificates to Hospital's Medical Staff Office. If the certificate is not received by the expiration date, Hospital shall notify Contractor and Contractor shall have five (5) calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by Contractor to maintain such insurance is a default of this Agreement, which entitles Hospital, at its sole discretion, to terminate the Agreement immediately.

3.5 Right to Offset Insurance Costs.

(a) In the event that Contractor does not purchase or otherwise have the liability insurance set forth in this Section at any time during the term of this Agreement, and without limiting any rights or remedies of County, County may at its option and within its sole discretion provide the liability insurance required by this Section and continue to pay the premiums therefor. If Contractor does not promptly reimburse all such amounts, then County shall have the right to withhold and offset the compensation due to Contractor under this Agreement, in addition to such other rights or privileges as County may have at law or in equity.

(b) The County's option to provide such insurance and to offset the compensation otherwise due to the Contractor shall also apply to the "Tail Coverage" referenced in Section 3.3, including for general liability if during the term of the Agreement such coverage has been written on a claims made basis, which is required to remain effective after the expiration or termination of this Agreement for any reason.

3.6 Indemnification.

(a) **Indemnification by Contractor.** Contractor and each Group Physician shall indemnify, defend, and hold harmless County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with Contractor's or Group Physicians' performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of County. "Contractor's performance" includes Contractor's and Group

Physicians' acts or omissions and the acts or omissions of Contractor's officers, employees, agents and subcontractors.

(b) **Indemnification by County.** County agrees to defend, indemnify, and hold harmless Contractor and Group Physicians, to the extent permitted by applicable law, from and against any and all claims and losses whatsoever accruing or resulting to any person, firm or corporation for damages, injury or death arising out of or connected with any negligent act or omission or willful misconduct of County or any of its agents or employees.

3.7 Indemnification for Timely Payment of Tax Contributions. It is expressly agreed by the Parties hereto that no work, act, commission or omission of Contractor or any Group Physician shall be construed to make or render Contractor or any Group Physician the agent, employee or servant of County. Contractor and each Group Physician agrees to indemnify, defend and hold harmless County and Hospital from and against any and all liability, loss, costs or obligations (including, without limitation, interest, penalties and attorney's fees in defending against the same) against County or Hospital based upon any claim that Contractor has failed to make proper and timely payment of any required tax contributions for itself, its employees, or its purported agents or independent contractors.

3.8 Hospital Services. Hospital shall retain professional and administrative responsibility for the operation of the Hospital and/or Clinic, as and to the extent required by Title 22, California Code of Regulations, Section 70713. Hospital's retention of such responsibility is not intended and shall not be construed to diminish, limit, alter or otherwise modify in any way the obligations of Contractor under this Agreement, including, without limitation, the obligations under the insurance and indemnification provisions set forth in this Article III.

3.9 Survival of Obligations. The Parties' obligations under this Article III shall survive the expiration or termination of this Agreement for any reason.

ARTICLE IV.
RELATIONSHIP BETWEEN THE PARTIES

4.1 Independent Contractor.

(a) Contractor and each Group Physician is and shall at all times be an independent contractor with respect to Hospital in the performance of Contractor's and Group Physician's obligations under this Agreement. Nothing in this Agreement shall be construed to create an employer/employee, joint venture, partnership, lease or landlord/tenant relationship between Hospital and Contractor or Hospital and any Group Physician. No Group Physician shall hold himself or herself out as an officer, agent or employee of Hospital, and shall not incur any contractual or financial obligation on behalf of Hospital without Hospital's prior written consent.

(b) If the Internal Revenue Service (**"IRS"**) or any other governmental agency should inquire about, question or challenge the independent contractor status of Contractor or any Group Physician with respect to County, the Parties hereto mutually agree that: (i) each shall inform the other Party hereto of such inquiry or challenge; and (ii) County and Contractor shall

DocuSign Envelope ID: 36EBB4D0-4F54-46C4-B948-14A1441AB6C3

each have the right to participate in any discussion or negotiation occurring with the taxing agency, regardless of who initiated such discussions or negotiations. In the event the taxing agency concludes that an independent contractor relationship does not exist, County may terminate this Agreement effective immediately upon written notice. In the event of such termination, the Parties remain free to negotiate an employer/employee contract with any Group Physician.

4.2 Limitation on Control. Hospital shall neither have nor exercise any control or direction over Contractor's or any Group Physician's professional medical judgment or the methods by which Contractor or any Group Physician performs professional medical services; provided, however, that Contractor and Group Physicians shall be subject to and shall at all times comply with the Protocols and the bylaws, guidelines, policies and rules applicable to other members of the Medical Staff.

4.3 Practice of Medicine. Contractor and Hospital acknowledge that Hospital is neither authorized nor qualified to engage in any activity which may be construed or deemed to constitute the practice of medicine. To the extent that any act or service required of, or reserved to, Hospital in this Agreement is construed or deemed to constitute the practice of medicine, the performance of such act or service by Hospital shall be deemed waived or unenforceable, unless this Agreement can be amended to comply with the law, in which case the Parties shall make such amendment.

4.4 No Benefit Contributions. Hospital shall have no obligation under this Agreement to compensate or pay applicable taxes for, or provide employee benefits of any kind (including contributions to government mandated, employment-related insurance and similar programs) to, or on behalf of, Contractor or any other person employed or retained by Contractor. Notwithstanding the foregoing, if Hospital determines or is advised that it is required by law to compensate or pay applicable taxes for, or provide employee benefits of any kind (including contributions to government mandated, employment-related insurance and similar programs) to, or on behalf of, Contractor or any other person employed or retained by Contractor, Contractor shall reimburse Hospital for any such expenditure within thirty (30) calendar days after being notified of such expenditure.

4.5 Referrals. Contractor and the Group Physicians shall be entitled to refer patients to any hospital or other health care facility or provider deemed by Contractor or the Group Physicians best qualified to deliver medical services to any particular patient; provided; however, that neither Contractor nor any Group Physician shall refer any Hospital patient to any provider or health care services which either Contractor or any Group Physician knows or should have known is excluded or suspended from participation in, or sanctioned by, any Federal Health Care Program or state equivalent. Nothing in this Agreement or in any other written or oral agreement between Hospital and Contractor or Hospital and the Group Physicians, nor any consideration offered or paid in connection with this Agreement, contemplates or requires the admission or referral of any patients or business to Hospital or any Affiliate. In the event that any governmental agency, any court or any other judicial body of competent jurisdiction, as applicable, issues an opinion, ruling or decision that any payment, fee or consideration provided for hereunder is made or given in return for patient referrals, either Party may at its option terminate this Agreement with three (3) days notice to the other Party. Contractor's rights under

DocuSign Envelope ID: 36EBB4D0-4F54-46C4-B948-14A1441AB6C3

this Agreement shall not be dependent in any way on the referral of patients or business to Hospital or any Affiliate by Contractor, Group Physician or any person employed or retained by Contractor.

4.6 Form 1099 or W-2. If required to do so under applicable law, Hospital shall issue an Internal Revenue Service Form 1099 or Form W-2 to Contractor.

4.7 Contractor Compensation Arrangements. Contractor represents and warrants to Hospital that the compensation paid or to be paid by Contractor to any physician is and will at all times be fair market value for services and items actually provided by such physician, not taking into account the value or volume of referrals or other business generated by such physician for Hospital or any Affiliate. Contractor further represents and warrants to Hospital that Contractor has and will at all times maintain a written agreement with each physician receiving compensation from Contractor.

4.8 Cooperation.

(a) The Parties recognize that, during the term of this Agreement and for an undetermined time period thereafter, certain risk management issues, legal issues, claims or actions may arise that involve or could potentially involve the Parties and their respective employees and agents. The Parties further recognize the importance of cooperating with each other in good faith when such issues, claims or actions arise, to the extent such cooperation does not violate any applicable laws, cause the breach of any duties created by any policies of insurance or programs of self-insurance, or otherwise compromise the confidentiality of communications or information regarding the issues, claims or actions. As such, the Parties hereby agree to cooperate in good faith, using their best efforts, to address such risk management and legal issues, claims, or actions.

(b) The Parties further agree that if a controversy, dispute, claim, action or lawsuit (each, an **"Action"**) arises with a third party wherein both the Parties are included as defendants, each Party shall promptly disclose to the other Party in writing the existence and continuing status of the Action and any negotiations relating thereto. Each Party shall make every reasonable attempt to include the other Party in any settlement offer or negotiations. In the event the other Party is not included in the settlement, the settling Party shall immediately disclose to the other Party in writing the acceptance of any settlement and terms relating thereto, if allowed by the settlement agreement.

(c) Contractor shall cooperate with the individual designated by Hospital to have principal responsibility for the administration and operation of the Hospital and/or Clinic. Such cooperation shall include supervision, selection, assignment, and evaluation of personnel; management and direction of equipment maintenance; development of budgets; and oversight of the acquisition of materials, supplies, and equipment.

(d) Contractor shall assist Hospital, as reasonably requested by Hospital, in Hospital's compliance with applicable laws and the standards, requirements, guidelines and recommendations of any governing or advisory body having authority to set standards relating to

DocuSign Envelope ID: 36EBB4D0-4F54-46C4-B948-14A1441AB6C3

the operation of Hospital, or any nationally recognized accrediting organization that Hospital designates from time to time.

4.9 Contractor's Performance. County or Hospital, at its option and within its sole discretion, may seek evaluation of contractual performance by requesting input from Hospital's Medical Director/Chief Medical Officer and from other professionals within Hospital.

4.10 Right of Inspection. Upon reasonable prior written notice, Hospital and County officials and their designees may inspect the books and records of Contractor which are necessary to determine that work performed by Contractor or any Group Physician to patients hereunder is in accord with the requirements of this Agreement. Such inspection shall be made in a manner so as not to disrupt the operations of Hospital or Contractor.

4.11 Access to and Audit of Records. Hospital shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the Contractor and its subcontractors related to services provided under this Agreement. Pursuant to Government Code Section 8546.7, if this Agreement involves the expenditure of public funds in excess of Ten Thousand Dollars ($10,000), the Parties may be subject, at the request of Hospital or as part of any audit of Hospital, to the examination and audit of the State Auditor pertaining to matters connected with the performance of this Agreement for a period of three (3) years after final payment under the Agreement.

ARTICLE V.
TERM AND TERMINATION

5.1 Term. This Agreement shall become effective on April 1, 2022 (the **"Effective Date"**), and shall continue until March 31, 2024 (the **"Expiration Date"**), subject to the termination provisions of this Agreement.

5.2 Termination by Hospital. Hospital shall have the right to terminate this Agreement upon the occurrence of any one or more of the following events:

(a) breach of this Agreement by Contractor or any Group Physician where the breach is not cured within thirty (30) calendar days after Hospital gives written notice of the breach to Contractor;

(b) neglect of professional duty by Contractor or any Group Physician in a manner that poses an imminent danger to the health or safety of any individual, or violates Hospital's policies, rules or regulations;

(c) there is a "substantial change" in Contractor which has not received prior written approval or subsequent ratification by Hospital. The retirement, withdrawal, termination, or suspension of one (1) or more Group Physicians of Contractor at any time during the term of this Agreement shall be considered to be a "substantial change" in Contractor only if there is a reduction in hours equivalent to in excess of one full-time Group Physician. Notwithstanding anything in the foregoing to the contrary, the retirement, withdrawal, termination, or suspension of any single Group Physician of Contractor shall not constitute a "substantial change" in Contractor as that term is used herein;

(d) breach by Contractor or any Group Physician of any HIPAA Obligation (as defined in **Exhibit 6.3**);

(e) Contractor makes an assignment for the benefit of creditors, admits in writing the inability to pay its debts as they mature, applies to any court for the appointment of a trustee or receiver over its assets, or upon commencement of any voluntary or involuntary proceedings under any bankruptcy, reorganization, arrangement, insolvency, readjustment of debt, dissolution liquidation or other similar law of any jurisdiction;

(f) the insurance required to be maintained by Contractor under this Agreement is terminated, reduced below the minimum coverage requirements set forth in this Agreement, not renewed or cancelled (whether by action of the insurance company or Contractor) for any reason, and Contractor has not obtained replacement coverage as required by this Agreement prior to the effective date of such termination, reduction, non-renewal or cancellation;

(g) Contractor is rendered unable to comply with the terms of this Agreement for any reason; or

(h) upon a sale of all or substantially all assets comprising Hospital's acute care hospital facility, any change of control in Hospital's organization, or any change in control of its day to day operations, whether through a membership change or by management contract. Hospital shall notify Contractor in writing of such sale or change of control at least thirty (30) days prior to the closing date of any such sale or the effective date of any such change of control.

5.3 Termination by Contractor. Contractor shall have the right to terminate this Agreement upon breach of this Agreement by Hospital where the breach is not cured within thirty (30) calendar days after Contractor gives written notice of the breach to Hospital.

5.4 Termination or Modification in the Event of Government Action.

(a) If the Parties receive notice of any Government Action, the Parties shall attempt to amend this Agreement in order to comply with the Government Action.

(b) If the Parties, acting in good faith, are unable to make the amendments necessary to comply with the Government Action, or, alternatively, if either Party determines in good faith that compliance with the Government Action is impossible or infeasible, this Agreement shall terminate ten (10) calendar days after one Party notices the other of such fact.

(c) For the purposes of this Section, **"Government Action"** shall mean any legislation, regulation, rule or procedure passed, adopted or implemented by any federal, state or local government or legislative body or any private agency, or any notice of a decision, finding, interpretation or action by any governmental or private agency, court or other third party which, in the opinion of counsel to Hospital, because of the arrangement between the Parties pursuant to this Agreement, if or when implemented, would:

(i) revoke or jeopardize the status of any health facility license granted to Hospital or any Affiliate of Hospital;

(iii) prevent Contractor or any Group Physician from being able to access and use the facilities of Hospital or any Affiliate of Hospital;

(iv) constitute a violation of 42 U.S.C. Section 1395nn (commonly referred to as the Stark law) if Contractor or any Group Physician referred patients to Hospital or any Affiliate of Hospital;

(v) prohibit Hospital or any Affiliate of Hospital from billing for services provided to patients referred to by Contractor or any Group Physician;

(vi) subject Hospital or Contractor, any Group Physician, or any Affiliate of Hospital, or any of their respective employees or agents, to civil or criminal prosecution (including any excise tax penalty under Internal Revenue Code Section 4958), on the basis of their participation in executing this Agreement or performing their respective obligations under this Agreement; or

(vii) jeopardize Hospital's full accreditation with any accrediting organization as Hospital designates from time to time.

(d) For the purposes of this Agreement, **"Affiliate"** shall mean any entity which, directly or indirectly, controls, is controlled by, or is under common control with Hospital.

5.5 Termination without Cause. Either Party may terminate this Agreement without cause, expense or penalty, effective one hundred twenty (120) calendar days after written notice of termination is given to the other Party.

5.6 Effect of Termination or Expiration. Upon any termination or expiration of this Agreement:

(a) all rights and obligations of the Parties shall cease except (i) those rights and obligations that have accrued and remain unsatisfied prior to the termination or expiration of this Agreement, and (ii) those rights and obligations which expressly survive termination or expiration of this Agreement;

(b) upon Hospital's request, Contractor and any Group Physician shall immediately vacate the premises, removing any and all of Contractor's and Group Physicians' personal property, and Hospital may remove and store, at Contractor's expense, any personal property that either Contractor or any Group Physician has not so removed;

DocuSign Envelope ID: 36EBB4D0-4F54-46C4-B948-14A1441AB6C3

(c) Contractor and Group Physicians shall immediately return to Hospital all of Hospital's property, including Hospital's equipment, supplies, furniture, furnishings and patient records, in Contractor's or Group Physicians' possession or under Contractor's or Group Physicians' control;

(d) Contractor and Group Physicians shall not do anything or cause any other person to do anything that interferes with Hospital's efforts to engage any other person or entity for the provision of the Services, or interferes in any way with any relationship between Hospital and any other person or entity who may be engaged to provide the Services to Hospital;

(e) The expiration or termination of this Agreement shall not entitle Contractor or Group Physicians to the right to a "fair hearing" or any other similar rights or procedures more particularly set forth in the Medical Staff bylaws or otherwise; and

(f) This Section 5.6 shall survive the expiration or termination for any reason of this Agreement.

5.7 Immediate Removal of Group Physicians. Contractor shall immediately remove any Group Physician from furnishing Services under this Agreement who:

(a) has his or her Medical Staff membership or clinical privileges at Hospital terminated, suspended, revoked or relinquished for any reason, whether voluntarily or involuntarily, temporarily or permanently, regardless of the availability of civil or administrative hearing rights or judicial review with respect thereto;

5.8 Removal of Group Physicians upon Hospital Request. Upon written request by Hospital, Contractor shall immediately remove any Group Physician from furnishing Services under this Agreement who:

(b) fails to comply with any other material terms or conditions of this Agreement after being given written notice of that failure and a reasonable opportunity to comply;

(c) is unable to perform services as required under this Agreement for more than thirty (30) days in the aggregate over any three (3) month period; or

(d) within a twelve (12) month period, has two (2) or more medical malpractice judgments filed against him or her, or he or she becomes the subject of two (2) or more proceedings by the Medical Staff regarding the performance of professional medical services.

5.9 Effect of Removal. Upon the removal of a Group Physician pursuant to Section 5.7 or Section 5.8 of this Agreement, Contractor shall employ, contract with, or otherwise engage, at its cost and expense, a qualified substitute for the removed Group Physician, or shall demonstrate to Hospital's satisfaction Contractor's ability to continuously perform the Services without such a substitute. Failure to take such action shall constitute a material breach of this Agreement, subject to Section 5.2. Nothing herein shall be construed to limit Hospital's rights under Section 5.2 or any other provision of this Agreement.

5.10 Return of Property. Upon any termination or expiration of this Agreement, Contractor shall immediately return to Hospital all of Hospital's property, including Hospital's equipment, supplies, furniture, furnishings and patient records, which is in Contractor's or any Group Physician's possession or under Contractor's or any Group Physician's control.

5.11 Termination or Amendment in Response to Reduction of Government Funding. Notwithstanding any other provision of this Agreement, if Federal, State or local government terminates or reduces its funding to the County for services that are to be provided under this Agreement, County, in its sole and absolute discretion after consultation with the Contractor, may elect to terminate this Agreement by giving written notice of termination to Contractor effective immediately or on such other date as County specifies in the notice. Alternatively, County and Contractor may mutually agree to amend the Agreement in response to a reduction in Federal, State or local funding.

ARTICLE VI.

6.2 Assignment. This Agreement is entered into by Hospital in reliance on the professional and administrative skills of Contractor. Contractor shall be solely responsible for providing the Services and otherwise fulfilling the terms of this Agreement, except as specifically set forth in this Agreement. Except for assignment by Hospital to an entity owned, controlled by, or under common control with Hospital, neither Party may assign any interest or obligation under this Agreement without the other Party's prior written consent. Subject to the foregoing, this Agreement shall be binding on and shall inure to the benefit of the Parties and their respective successors and assigns.

6.3 Compliance with HIPAA. Contractor and Group Physicians shall comply with the obligations under the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. § 1320d et seq.), as amended by the Health Information Technology for Economic and Clinical Health Act of 2009, and all rules and regulations promulgated thereunder (collectively, **"HIPAA,"** the obligations collectively referred to herein as **"HIPAA Obligations"**), as set forth in **Exhibit 6.3**. The HIPAA Obligations shall survive the expiration or termination of this Agreement for any reason.

6.4 Compliance with Laws and Accreditation. Contractor and Group Physicians shall comply with all applicable laws, ordinances, codes and regulations of federal, state and local governments (collectively, **"Laws"**) applicable to Contractor and Group Physicians, the provision of the Services, or the obligations of Contractor and Group Physicians under this Agreement, including without limitation laws that require Contractor or any Group Physician to disclose any economic interest or relationship with Hospital. Contractor and Group Physicians shall take actions necessary to ensure that the Hospital and/or Clinic are operated in accordance with: all requirements of a nationally recognized accrediting organization that Hospital designates from time to time, all applicable licensing requirements, and all other relevant requirements promulgated by any federal, state or local agency.

6.5 Compliance with Medicare Rules. To the extent required by law or regulation, Contractor shall make available, upon written request from Hospital, the Secretary of Health and Human Services, the Comptroller General of the United States, or any duly authorized agent or representative, a copy of this Agreement and Contractor's books, documents and records. Contractor shall preserve and make available such books, documents and records for a period of ten (10) years after the end of the term of this Agreement, or the length of time required by state or federal law. If Contractor is requested to disclose books, documents or records pursuant to this Section for any purpose, Contractor shall notify Hospital of the nature and scope of such request, and Contractor shall make available, upon written request of Hospital, all such books, documents or records. Contractor shall indemnify and hold harmless Hospital if any amount of reimbursement is denied or disallowed because of Contractor's failure to comply with the obligations set forth in this Section. Such indemnity shall include, but not be limited to, the amount of reimbursement denied, plus any interest, penalties and legal costs. This Section shall survive the expiration or termination for any reason of this Agreement.

If Contractor carries out any of the duties of the contract through a subcontract, with a value or cost of Ten Thousand Dollars ($10,000) or more over a twelve (12) month period, with a related organization, such subcontract shall contain a clause to the effect that until the expiration of ten (10) years after the furnishing of such Services pursuant to such subcontract, the related organization shall make available, upon written request by the Secretary, or upon request by the Comptroller General, or any of their duly authorized representatives, the subcontract and books, documents and records of such organization that are necessary to verify the nature and extent of such costs.

6.6 Confidential Information.

(a) During the term of this Agreement, Contractor and Group Physicians may have access to and become acquainted with Trade Secrets and Confidential Information of Hospital. **"Trade Secrets"** includes information and data relating to payor contracts and accounts, clients, patients, patient groups, patient lists, billing practices and procedures, business techniques and methods, strategic plans, operations and related data. **"Confidential Information"** includes Trade Secrets and any information related to the past, current or proposed operations, business or strategic plans, financial statements or reports, technology or services of Hospital or any Affiliate that Hospital discloses or otherwise makes available in any manner to Contractor or Group Physicians, or to which Contractor or Group Physicians may gain access in the performance of the Services under this Agreement, or which Contractor or any Group Physician knows or has reason to know is confidential information of Hospital or any Affiliate; whether such information is disclosed orally, visually or in writing, and whether or not bearing any legend or marking indicating that such information or data is confidential. By way of example, but not limitation, Confidential Information includes any and all know-how, processes, manuals, confidential reports, procedures and methods of Hospital, any Hospital patient's individually identifiable health information (as defined under HIPAA), and any information, records and proceedings of Hospital and/or Medical Staff committees, peer review bodies, quality committees and other committees or bodies charged with the evaluation and improvement of the quality of care. Confidential Information also includes proprietary or confidential information of any third party that may be in Hospital's or any Affiliate's possession.

(b) Confidential Information shall be and remain the sole property of Hospital, and shall, as applicable, be proprietary information protected under the Uniform Trade Secrets Act. Neither Contractor nor any Group Physician shall use any Confidential Information for any purpose not expressly permitted by this Agreement, or disclose any Confidential Information to any person or entity, without the prior written consent of Hospital. Contractor and Group Physicians shall protect the Confidential Information from unauthorized use, access, or disclosure in the same manner as Contractor and any Group Physician protects his, her, or its own confidential or proprietary information of a similar nature and with no less than reasonable care. All documents that Contractor and Group Physicians prepare, or Confidential Information that might be given to Contractor in the course of providing Services under this Agreement, are the exclusive property of Hospital, and, without the prior written consent of Hospital, shall not be removed from Hospital's premises.

(c) Contractor and Group Physicians shall return to Hospital all Confidential Information and all copies thereof in Contractor's and Group Physicians' possession or control, and permanently erase all electronic copies of such Confidential Information, promptly upon the written request of Hospital, or the termination or expiration of this Agreement. Neither Contractor nor any Group Physician shall copy, duplicate or reproduce any Confidential Information without the prior written consent of Hospital.

(d) This Section shall survive the expiration or termination of this Agreement.

6.7 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument.

6.8 Disclosure of Interests. Contractor or any Group Physician shall provide to Hospital, as requested by Hospital from time to time, information sufficient to disclose any ownership, investment or compensation interest or arrangement of Contractor, or any of Contractor's or any Group Physician's immediate family members, in any entity providing "designated health services" (as such term is defined in the Stark Law (42 U.S.C. Section 1395nn) and its regulations) or any other health care services. This Section shall not impose on Hospital any disclosure or reporting requirements or obligations imposed on Contractor or any Group Physician under any governmental program or create an assumption of such disclosure obligations by Hospital. Contractor and Group Physicians shall have the sole responsibility to fulfill any such federal and/or state reporting requirements or obligations.

6.9 Dispute Resolution. In the event of any dispute, controversy, claim or disagreement arising out of or related to this Agreement or the acts or omissions of the Parties with respect to this Agreement (each, a **"Dispute"**), the Parties shall resolve such Dispute as follows:

(a) **Meet and Confer.** The Parties shall, as soon as reasonably practicable, but in no case more than ten (10) days after one Party gives written notice of a Dispute to the other Party (the **"Dispute Notice"**), meet and confer in good faith regarding such Dispute at such time and place as mutually agreed upon by the Parties (the **"Meet and Confer"**). The obligation to conduct a Meet and Confer pursuant to this Section does not obligate either Party to agree to any compromise or resolution of the Dispute that such Party does not determine, in its sole and absolute discretion, to be a satisfactory resolution of the Dispute. The Meet and Confer shall be considered a settlement negotiation for the purpose of all applicable Laws protecting statements, disclosures or conduct in such context, and any offer in compromise or other statements or conduct made at or in connection with any Meet and Confer shall be protected under such Laws.

(b) **Arbitration.** If any Dispute is not resolved to the mutual satisfaction of the Parties within ten (10) business days after delivery of the Dispute Notice (or such other period as may be mutually agreed upon by the Parties in writing), the Parties shall submit such Dispute to arbitration conducted by Judicial Arbitration and Mediation Services, Inc. (**"JAMS"**), or other arbitration and/or mediation services company as agreed to by the Parties, in accordance with the following rules and procedures:

(i) Each Party may commence arbitration by giving written notice to the other Party demanding arbitration (the **"Arbitration Notice"**). The Arbitration Notice shall specify the Dispute, the particular claims and/or causes of actions alleged by the Party demanding arbitration, and the factual and legal basis in support of such claims and/or causes of action.

(ii) The arbitration shall be conducted in the County in which the Hospital is located and in accordance with the commercial arbitration rules and procedures of JAMS (or other arbitration company as mutually agreed to by the Parties) to the extent such rules and procedures are not inconsistent with the provisions set forth in this Section. In the event of a conflict between any rules and/or procedures of JAMS (or other arbitration company as mutually agreed to by the Parties) and the rules and/or procedures set forth in this Section, the rules and/or procedures set forth in this Section shall govern.

(iii) The arbitration shall be conducted before a single impartial retired member of the JAMS panel of arbitrators (or panel of arbitrators from such other arbitration company as mutually agreed to by the Parties) covering the County in which the Hospital is located (the **"Panel"**). The Parties shall use their good faith efforts to agree upon a mutually acceptable arbitrator within thirty (30) days after delivery of the Arbitration Notice. If the Parties are unable to agree upon a mutually acceptable arbitrator within such time period, then each Party shall select one arbitrator from the Panel, and those arbitrators shall select a single impartial arbitrator from the Panel to serve as arbitrator of the Dispute.

(iv) The Parties expressly waive any right to any and all discovery in connection with the arbitration; provided, however, that each Party shall have the right to conduct no more than two (2) depositions and submit one set of interrogatories with a maximum of forty (40) questions, including subparts of such questions.

DocuSign Envelope ID: 36EBB4D0-4F54-46C4-B948-14A1441AB6C3

(v) The arbitration hearing shall commence within thirty (30) days after appointment of the arbitrator. The substantive internal law (and not the conflict of laws) of the State shall be applied by the arbitrator to the resolution of the Dispute, and the Evidence Code of the State shall apply to all testimony and documents submitted to the arbitrator. The arbitrator shall have no authority to amend or modify the limitation on the discovery rights of the Parties or any of the other rules and/or procedures set forth in this Section. As soon as reasonably practicable, but not later than thirty (30) days after the arbitration hearing is completed, the arbitrator shall arrive at a final decision, which shall be reduced to writing, signed by the arbitrator and mailed to each of the Parties and their respective legal counsel.

(vi) Any Party may apply to a court of competent jurisdiction for entry and enforcement of judgment based on the arbitration award. The award of the arbitrator shall be final and binding upon the Parties without appeal or review except as permitted by the Arbitration Act of the State.

(vii) The fees and costs of JAMS (or other arbitration company as mutually agreed to by the Parties) and the arbitrator, including any costs and expenses incurred by the arbitrator in connection with the arbitration, shall be borne equally by the Parties, unless otherwise agreed to by the Parties.

(viii) Except as set forth in Section 6.9(b)(vii), each Party shall be responsible for the costs and expenses incurred by such Party in connection with the arbitration, including its own attorneys' fees and costs; provided, however, that the arbitrator shall require one Party to pay the costs and expenses of the prevailing Party, including attorneys' fees and costs and the fees and costs of experts and consultants, incurred in connection with the arbitration if the arbitrator determines that the claims and/or position of a Party were frivolous and without reasonable foundation.

(c) **Waiver of Injunctive or Similar Relief.** The Parties hereby waive the right to seek specific performance or any other form of injunctive or equitable relief or remedy arising out of any Dispute, except that such remedies may be utilized for purposes of enforcing this Section and sections governing Confidential Information, Compliance with HIPAA, Compliance with Laws and Accreditation and Compliance with Medicare Rules of this Agreement. Except as expressly provided herein, upon any determination by a court or by an arbitrator that a Party has breached this Agreement or improperly terminated this Agreement, the other Party shall accept monetary damages, if any, as full and complete relief and remedy, to the exclusion of specific performance or any other form of injunctive or equitable relief or remedy.

DocuSign Envelope ID: 36EBB4D0-4F54-46C4-B948-14A1441AB6C3

(d) **Injunctive or Similar Relief.** Notwithstanding anything to the contrary in this Section, the Parties reserve the right to seek specific performance or any other form of injunctive relief or remedy in any state or federal court located within the County in which the Hospital is located for purposes of enforcing this Section and sections governing Confidential Information, Compliance with HIPAA, Compliance with Laws and Accreditation and Compliance with Medicare Rules of this Agreement. Contractor hereby consents to the jurisdiction of any such court and to venue therein, waives any and all rights under the Laws of any other state to object to jurisdiction within the State, and consents to the service of process in any such action or proceeding, in addition to any other manner permitted by applicable Law, by compliance with the notices provision of this Agreement. The non-prevailing Party in any such action or proceeding shall pay to the prevailing Party reasonable fees and costs incurred in such action or proceeding, including attorneys' fees and costs and the fees and costs of experts and consultants. The prevailing Party shall be the Party who is entitled to recover its costs of suit (as determined by the court of competent jurisdiction), whether or not the action or proceeding proceeds to final judgment or award.

(e) **Survival.** This Section shall survive the expiration or termination of this Agreement.

6.10 Entire Agreement. This Agreement is the entire understanding and agreement of the Parties regarding its subject matter, and supersedes any prior oral or written agreements, representations, understandings or discussions between the Parties. No other understanding between the Parties shall be binding on them unless set forth in writing, signed and attached to this Agreement.

6.11 Exhibits. The attached exhibits, together with all documents incorporated by reference in the exhibits, form an integral part of this Agreement and are incorporated by reference into this Agreement, wherever reference is made to them to the same extent as if they were set out in full at the point at which such reference is made.

6.12 Force Majeure. Neither Party shall be liable for nonperformance or defective or late performance of any of its obligations under this Agreement to the extent and for such periods of time as such nonperformance, defective performance or late performance is due to reasons outside such Party's control, including acts of God, war (declared or undeclared), terrorism, action of any governmental authority, civil disturbances, riots, revolutions, vandalism, accidents, fire, floods, explosions, sabotage, nuclear incidents, lightning, weather, earthquakes, storms, sinkholes, epidemics, failure of transportation infrastructure, disruption of public utilities, supply chain interruptions, information systems interruptions or failures, breakdown of machinery or strikes (or similar nonperformance, defective performance or late performance of employees, suppliers or subcontractors); provided, however, that in any such event, each Party shall use its good faith efforts to perform its duties and obligations under this Agreement.

6.13 Governing Law. This Agreement shall be construed in accordance with and governed by the laws of the State.

6.14 Headings. The headings in this Agreement are intended solely for convenience of reference and shall be given no effect in the construction or interpretation of this Agreement.

6.15 Litigation Consultation. Contractor shall ensure that no Group Physician accepts consulting assignments or otherwise contract, agree, or enter into any arrangement to provide expert testimony or evaluation on behalf of a plaintiff in connection with any claim against Hospital or any Affiliate named, or expected to be named as a defendant. Contractor shall ensure that no Group Physician accepts similar consulting assignments if (a) the defendants or anticipated defendants include a member of the medical staff of Hospital or any Affiliate, and (b) the matter relates to events that occurred at Hospital or any Affiliate; provided, however, the provisions of this Section shall not apply to situations in which a Group Physician served as a treating physician.

6.16 Master List. The Parties acknowledge and agree that this Agreement, together with any other contracts between Hospital and Contractor, will be included on the master list of physician contracts maintained by Hospital.

6.17 Meaning of Certain Words. Wherever the context may require, any pronouns used in this Agreement shall include the corresponding masculine, feminine, or neuter forms, and the singular form of nouns shall include the plural and vice versa. Unless otherwise specified: (i) "days" shall be considered "calendar days;" (ii) "months" shall be considered "calendar months;" and (iii) "including" means "including, without limitation" in this Agreement and its exhibits and attachments.

6.18 New Group Physicians. Each new Group Physician shall agree in writing to be bound by the terms of and conditions of this Agreement.

6.19 No Conflicting Obligations. Contractor represents and warrants that the execution and delivery of this Agreement and the performance of its obligations hereunder do not and will not: (a) present a conflict of interest or materially interfere with the performance of Contractor's duties under any other agreement or arrangement; or (b) violate, conflict with, or result in a breach of any provision of, or constitute a default (or an event which, with notice and/or lapse of time, would constitute a default) under, terminate, accelerate the performance required by, or result in a right of termination or acceleration under any of the terms, conditions or provisions of any other agreement, indebtedness, note, bond, indenture, security or pledge agreement, license, franchise, permit, or other instrument or obligation to which Contractor is a party or by which Contractor is bound. Contractor shall immediately inform Hospital of any other agreements to which Contractor is a party that may present a conflict of interest or materially interfere with performance of Contractor's or Group Physicians' duties under this Agreement.

6.20 No Third Party Beneficiary Rights. The Parties do not intend to confer and this Agreement shall not be construed to confer any rights or benefits to any person, firm, group, corporation or entity other than the Parties.

All notices or communications required or permitted under this Agreement shall be given in writing and delivered personally or sent by United States registered or certified mail with postage prepaid and return receipt requested or by overnight delivery service (e.g., Federal Express, DHL). Hospital shall ensure that an appropriate healthcare provider (physician, NP, PA, or specifically trained RN) is available at the bedside at the time of the consult to assist with the physical exam. If Group Physician initiates the consult and the Hospital healthcare provider is not present, the consult will not be completed and Hospital will be charged fifty percent (50%) of the per consult fee set forth in **Exhibit 2.1**; and

b. videoconferencing and teleconferencing, including the discussions between the Group Physician and the patient, the patient's family members and/or adult(s) accompanying the patient regarding any neurologic emergency.

2. The transmission of still images and of vital signs to provide Hospital's physicians with assistance with diagnosis and therapy for specific Patients with neurologic emergencies is also a part of Group Physicians' obligations under this Agreement. Review of information may include, results, images, reports or records in synchronous (video chat/screen share) or asynchronous (file/document/video recording review). In no case does any Group Physician assume the primary responsibility for the care of the Patient. Group Physicians shall transmit the results of their assessment and recommendation to the Patient's attending physician within approximately thirty (30) minutes after the evaluation is completed.

3. Contractor shall ensure that Group Physicians respond for consultation for time-sensitive neurologic emergencies ("**Emergency Consults**") under this Agreement, regardless of patient location within the Hospital, pursuant to Hospital Rules.

In the event that any Consult (as defined in **Exhibit 2.1**) provided by a Group Physician under this Agreement requires a follow-up within twenty-four (24) hours (e.g. discussion regarding medication dosing, clarification of recommendation, need to answer specific questions for staff or family), Contractor shall ensure that such Group Physician responds without any additional compensation to Contractor. If it has been greater than twenty-four (24) hours since the last Consult on any given Patient, or the subsequent request for Professional Services results in the need for a full examination or supplemental recommendations, then the completion of the Consult will result in an additional compensation to Contractor if such Consult exceeds the number of Consults covered by the Minimum Monthly Fee as set forth in **Exhibit 2.1**. All requests to see a Patient on a routine or scheduled basis after the completion of an Emergency Consult will result in an additional charge to Hospital.

5. The Parties acknowledge that clinical variability is inherent in the practice of medicine. Contractor shall make best efforts to respond to variability in patient presentations for specific conditions and changes in patient status over time.

6. Between 8:00 am and 5:00 pm PT, Monday – Friday, and 8:00 am and 12:00 pm PT on Saturday, Sunday and federal holidays, Contractor shall use best efforts to provide the Professional Services on the same day when the request is made by 12:00 pm PT Monday through Friday, or 10:00 am PT on Saturday, Sunday or federal holiday. 4.4 Effect of Termination. Upon termination or expiration of this Agreement for any reason, Business Associate shall return all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(I) if, and to the extent that, it is feasible to do so. Further, no provision of this Agreement shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

Item No.20

Board of Supervisors
Chambers
168 W. Alisal St., 1st Floor
Salinas, CA 93901

August 26, 2025

Introduced: 8/8/2025

Current Status: Natividad Medical Center - Consent

Version: 1

Matter Type: BoS Agreement

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute amendment No. 2 to the agreement (A-17319) with META Dynamic, Inc. for rental of neurosurgery equipment plus associated services, extending the agreement an additional one (1) year period (April 15, 2026 through April 14, 2027) for a revised full agreement term of April 15, 2024, through April 14, 2027, and adding $200,000 for a revised total agreement amount not to exceed $500,000.

RECOMMENDATION:

It is recommended the Board of Supervisors:

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute amendment No. 2 to the agreement (A-17319) with META Dynamic, Inc. for rental of neurosurgery equipment plus associated services, extending the agreement an additional one (1) year period (April 15, 2026 through April 14, 2027) for a revised full agreement term of April 15, 2024, through April 14, 2027, and adding $200,000 for a revised total agreement amount not to exceed $500,000.

SUMMARY/DISCUSSION:

Intraoperative image guided navigational surgery (IGS) allows the surgeon to operate within a surgical site whose standard anatomical landmarks may be ambiguous because of tumor, infection, fracture or previous surgery. Studies suggest that IGS may result in decreased complications, increased disease removal, decreased length of stay and in some cases decreased operative time.

Meta Dynamic supplies the Neuro Navigation system which includes the equipment, hardware and software to perform image guided neurosurgery. Digital patient data is uploaded from the computed tomography (CT) or magnetic resonance imaging (MRI) located at Natividad Medical Center to the Neuro Navigation system in the Operating Room (OR) assisting the surgeon in identifying the right surgical approach and more specifically landmarks. Surgeons are guided through procedures with real time data allowing for smaller skull and back (spine surgery) incisions thereby minimizing damage to healthy structures. With the universal instrument holder (VarioGuide™), preplanned trajectories can be targeted systematically within seconds and anytime during the surgery.

The equipment arrives from Meta Dynamic within twenty-four (24) hours of surgery. The Meta Dynamic technician arrives within one (1) hour of surgery and sets up the equipment. The technician assists the surgeon with the operation of the equipment. The equipment and services provided by Meta Dynamic have aided Natividad's surgical staff tremendously in performing complex surgeries and it utilized quite a bit. This amendment is to add funds to the agreement to cover current costs and includes enough additional which is projected to last through expiration of the agreement.

OTHER AGENCY INVOLVEMENT:

The Office of County Counsel has reviewed and approved this amendment No. 2 as to form, and the Auditor-Controller has reviewed and approved as to payment provisions. The amendment No. 2 has also been reviewed and approved by NMC's Finance Committee and by its Board of Trustees on August 8, 2025.

FINANCING:

The cost for this amendment No. 2 is $200,000 of which $200,000 is included in the FY 2025-26 Adopted Budget. Amounts for remaining year of the agreement will be included in those budgets as appropriate. Funding will be provided from NMC's Enterprise Fund 451-9600-6821.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

The services rendered in this agreement supports the Board of Supervisor's strategic initiative to "improve the health and quality of life through County supported programs and services" by providing the technology necessary for these types of procedures to be performed locally, keeping families at home.

Matter Type: BoS Agreement

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute renewal and amendment No. 1 to the agreement (A-16776) with Pomphrey Consulting, LLC for trauma registrar staffing services, extending the agreement through July 1, 2027 for a revised full agreement term of March 1, 2024 through July 1, 2027 and adding $200,000 for a revised total agreement amount not to exceed $450,000.

RECOMMENDATION:

It is recommended the Board of Supervisors:

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute renewal and amendment No. 1 to the agreement (A-16776) with Pomphrey Consulting, LLC for trauma registrar staffing services, extending the agreement through July 1, 2027 for a revised full agreement term of March 1, 2024 through July 1, 2027 and adding $200,000 for a revised total agreement amount not to exceed $450,000.

SUMMARY/DISCUSSION:

The broad scope of services for this contract is data abstraction, data entry, and data validation. Data abstraction would consist of remote computer access to all sections of the Natividad Medical Center computer system required for complete data acquisition. This would include Natividad's Meditech Electronic Medical Record (EMR). Pomphrey Consulting will provide Natividad Medical Center Trauma Registrar staffing resources who will abstract and enter the data information into the ESO Trauma One trauma registry software which is currently installed at Natividad. Each data element will be abstracted in accordance with the American College of Surgeons (ACS) National Trauma Data Bank (NTDB) Data Dictionary for the current admission year. This document contains all the national data elements, their definitions, and abstraction guidelines. The last section of this document details the additional data elements required of hospitals participating in the Trauma Quality Improvement Program (TQIP) of which Natividad Medical Center is an active participant.

The trained and certified trauma registrar fulfills the requirements established by the American College of Surgeons for Natividad to maintain verification as a Level II Adult trauma center. The services provided by Pomphrey Consulting will satisfy four standard criteria listed as follows:

- Standard Criterion 4.31 Trauma Registry Staffing Requirements- Type II
- Standard Criterion 4.32 Certified Abbreviated Injury Scale Specialist- Type II
- Trauma Registry Courses Requirement- Type II

- Trauma Registrar Continuing Education- Type II

The trauma registrar staffing services is vital to support the Natividad Medical Center Trauma Performance Improvement Patient Safety program (PIPS). The PIPS program must be empowered to identify opportunities for improvement and develop actions to reduce the risk of patient harm. Identification of events and opportunities is only possible by analyzing standardized and validated data obtained from each patient's electronic medical record. An effective PIPS program improves patient safety and patient outcomes.

OTHER AGENCY INVOLVEMENT:
The Office of County Counsel has reviewed and approved this renewal and amendment No. 1 as to form, and the Auditor-Controller has reviewed and approved as to payment provisions. The renewal and amendment No. 1 has also been reviewed and approved by NMC's Finance Committee and by its Board of Trustees on August 8, 2025.

FINANCING:
The cost for this renewal and amendment No. 1 is $200,000 of which $120,000 is included in the FY 2025-26 Adopted Budget. Amounts for remaining years of the agreement will be included in those budgets as appropriate. Funding will be provided from NMC's Enterprise Fund 451-9600-6608.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:
The Trauma Registry and certified trauma registrar staff are a requirement for all trauma centers verified by the American College of Surgeons (ACS). The "Resources for Optimal Care of the Injured Patient" is a published document that details standard requirements trauma centers must meet to provide optimal care to trauma patients. Each standard is listed as a criteria that must be met in order to be verified as a trauma center. This contract will assist Natividad Medical Center to have the appropriate resources to ensure we are meeting the necessary standards to maintain our Level II trauma center verification by the American College of Surgeons. It will also support our quality assurance to provide optimal care to our trauma patients.

RECOMMENDATION:

It is recommended the Board of Supervisors:

Authorize the Chief Executive Officer for Natividad Medical Center (NMC) or his designee to execute renewal and amendment No. 1 to the agreement (A-16776) with Pomphrey Consulting, LLC for trauma registrar staffing services, extending the agreement through July 1, 2027 for a revised full agreement term of March 1, 2024 through July 1, 2027 and adding $200,000 for a revised total agreement amount not to exceed $450,000.

SUMMARY/DISCUSSION:

The broad scope of services for this contract is data abstraction, data entry, and data validation. Data abstraction would consist of remote computer access to all sections of the Natividad Medical Center computer system required for complete data acquisition. This would include Natividad's Meditech Electronic Medical Record (EMR). Pomphrey Consulting will provide Natividad Medical Center Trauma Registrar staffing resources who will abstract and enter the data information into the ESO Trauma One trauma registry software which is currently installed at Natividad. Each data element will be abstracted in accordance with the American College of Surgeons (ACS) National Trauma Data Bank (NTDB) Data Dictionary for the current admission year. This document contains all the national data elements, their definitions, and abstraction guidelines. The last section of this document details the additional data elements required of hospitals participating in the Trauma Quality Improvement Program (TQIP) of which Natividad Medical Center is an active participant.

The trained and certified trauma registrar fulfills the requirements established by the American College of Surgeons for Natividad to maintain verification as a Level II Adult trauma center. The services provided by Pomphrey Consulting will satisfy four standard criteria listed as follows:

- Standard Criterion 4.31 Trauma Registry Staffing Requirements- Type II
- Standard Criterion 4.32 Certified Abbreviated Injury Scale Specialist- Type II
- Trauma Registry Courses Requirement- Type II
- Trauma Registrar Continuing Education- Type II

The trauma registrar staffing services is vital to support the Natividad Medical Center Trauma Performance Improvement Patient Safety program (PIPS). The PIPS program must be empowered to identify opportunities for improvement and develop actions to reduce the risk of patient harm. Identification of events and opportunities is only possible by analyzing standardized and validated data obtained from each patient's electronic medical record. An effective PIPS program improves patient safety and patient outcomes.

OTHER AGENCY INVOLVEMENT:

The Office of County Counsel has reviewed and approved this renewal and amendment No. 1 as to form, and the Auditor-Controller has reviewed and approved as to payment provisions. The renewal and amendment No. 1 has also been reviewed and approved by NMC's Finance Committee and by its Board of Trustees on August 8, 2025.

FINANCING:

The cost for this renewal and amendment No. 1 is $200,000 of which $120,000 is included in the FY 2025-26 Adopted Budget. Amounts for remaining years of the agreement will be included in those budgets as appropriate. Funding will be provided from NMC's Enterprise Fund 451-9600-6608.

BOARD OF SUPERVISORS STRATEGIC INITIATIVES:

The Trauma Registry and certified trauma registrar staff are a requirement for all trauma centers verified by the American College of Surgeons (ACS). The "Resources for Optimal Care of the Injured Patient" is a published document that details standard requirements trauma centers must meet to provide optimal care to trauma patients. Each standard is listed as a criteria that must be met in order to be verified as a trauma center. This contract will assist Natividad Medical Center to have the appropriate resources to ensure we are meeting the necessary standards to maintain our Level II trauma center verification by the American College of Surgeons. It will also support our quality assurance to provide optimal care to our trauma patients.

Exhibit A:

Scope of Services

I. Description of All Services to be Rendered by CONTRACTOR:

The broad scope of services for this contract is data abstraction, data entry, and data validation. Data abstraction would consist of remote computer access to all sections of the Natividad Medical Center (NMC) computer system(s) required for complete data acquisition. This would include NMC'S Meditech Electronic Medical Record (EMR).

II. CONTRACTOR Obligations:

a) CONTRACTOR shall abstract and enter the data information into the ESO TraumaOne (TRAUMA REGISTRY SOFTWARE) which is currently installed at NMC. Each data element will be abstracted in accordance with the American College of Surgeons (ACS) National Trauma Data Bank (NTDB) Data Definitions for the current admission year. The NTDB data dictionary can be found at https://www.facs.org/quality- programs/trauma/tqp/center-programs/ntdb/ntds/data-dictionary. This document contains all the national data elements, their definitions, and abstraction guidelines. The last section of this document details the additional data elements required of hospitals participating in the Trauma Quality Improvement Program (TQIP). It is our understanding that NMC is a TQIP participating facility.

b) All data elements above and beyond the NTDB and TQIP fields will be abstracted in accordance with NMC's internal data dictionary or State/Corporate Data Dictionary. These documents should contain the data element's names, definitions, patient population to be completed on, as well as the primary and secondary EMR data source. This ensures CONTRACTOR abstracts all remaining data elements in the exact format as NMC staff for consistency of reports. If no such NMC document exists, CONTRACTOR will abstract non-NTDB/TQIP fields in accordance to NMC orientation recording. CONTRACTOR will identify appropriate data locations if no specific instructions are provided.

c) The scope of services CONTRACTOR will provide shall comply with all the above reference data elements and national definitions. All charts require hand coding/assignment of all injury codes using the Abbreviated Injury Scale (AIS 05) for Injury Severity Score (ISS) calculations by the CONTRACTOR. Accurate AIS codes ensure accurate ISS reflections, and thus accurate M, Z, & W statistics for NMC. These injury codes will be entered in the REGISTRY and will map to a corresponding ICD-10-CM injury code. The ICD-10-CM injury codes will be validated using medical record codes, as well as CONTRACTOR coding/validation. ICD-10-CM External Cause codes and ICD-10-PCS procedure codes will be assigned by medical records coding and validated by CONTRACTOR for completeness and accuracy.

d) PROCESS:

1. Establish remote access: **See "Exhibit B: COUNTY Duties and Responsibilities"** for full details.
2. Orientation Recording:
   A. REGISTRY:
      1. CONTRACTOR shall record these sessions in our Adobe Connect platform. This is a username and password protected secure system.
      2. NMC will start a "New Patient" in REGISTRY so that no individual patient data will be seen or recorded. CONTRACTOR will do short recordings for each individual data screen in NMC REGISTRY. In each recording, NMC will verbally explain all Non - NTDB/TQIP fields. This will include special instructions related

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

to specific patient populations, where to find the information in EMR including primary and secondary sources.

3. All recordings will be available for the NMC to ensure all employees, present or future, are oriented and trained in the same manner. The recordings are used as references during the project and referred to for clarification when questions arise.

B. EMR-NMC will do a short recording with CONTRACTOR to identify the following:

1. How to recall a patient and ensure correct episode of care.

2. Main Sections of EMR

   a. ED documents
   b. OR
   c. Consults
   d. Progress Notes
   e. Outside Hospital Documents
   f. Pre-hospital Documents
   g. Radiology
   h. Labs
   i. Medications – for TQIP DVT Prophylaxis
   j. Orders – Admit/DC.
   k. Other specific places to identify ICU Days, Vent Days, and other NMC specific data elements.

3. All recordings will be available for NMC to ensure all employees, present or future, are oriented and trained in the same manner. The recordings are used as references during the project and referred to for clarification when questions arise.

C. PATIENT LIST- See "**Exhibit B: NMC DUTIES AND RESPONSIBILITIES**" for full details.

3. CONTRACTOR shall identify a Project Lead or Team Lead. This individual will be the main contact for NMC.
   i. NMC will assign CONTRACTOR Lead two (2) complex charts. CONTRACTOR Lead will complete, and NMC will validate.
   ii. NMC will provide CONTRACTOR Lead feedback on any issues identified, related to data definitions, EMR data locations or chart completeness, or closure. NMC and CONTRACTOR Lead will repeat this process until NMC is confident and Inter-Rater Reliability (IRR) score for CONTRACTOR Lead is above 95%.
4. CONTRACTOR Lead will then begin assigning charts to CONTRACTOR team and repeating the same process as outlined in #3 above for each CONTRACTOR team member. Project Lead will complete validation on CONTRACTOR team.
5. Once CONTRACTOR team is working independently, a standard 5% of their charts will be used for on- going data validation.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

6. All data validation will be entered into the Buck Data Validation System (BDVS) which will be provided to NMC at no charge. IRR scores per CONTRACTOR team member will be available to NMC as well as productivity measures for project monitoring. The standard data elements validated for each CONTRACTOR team member are:
    i. Trauma Registry Number
    ii. Date of Birth/Age
    iii. Mechanism of Injury (ICD-10-CM external cause code OR Blunt vs. Penetrating if not mapped)
    iv. All NMC initial Emergency Department/NMC vital signs needed to calculate the Revised Trauma Score (RTS)
    v. All injuries thus ensuring a valid ISS
    vi. ICU Length of Stay
    vii. Hospital Length of Stay
    viii. Comorbid Conditions as defined by NTDB/TQIP
    ix. Complications as defined by NTDB/TQIP

These elements are chosen as they have a direct impact on national benchmarking reports. The BDVS system will also be available for NMC staff to monitor their productivity and data validation. These results will be integrated into the NMC data validation reports.

7. CONTRACTOR Lead will provide weekly update reports as to the status of the project which will act as the main communication between NMC and CONTRACTOR.

8. CONTRACTOR staff will observe the following holidays:
    A. New Year's Day
    B. Memorial Day
    C. July 4th
    D. Labor Day
    E. Thanksgiving Day
    F. Christmas Day

Exhibit B:
COUNTY DUTIES AND RESPONSIBILITIES

I. COUNTY Obligations:

The scope of work for COUNTY is based on a remote access structure. As such, the COUNTY does not have to provide the following:

- Office space or furniture
- Computers or printers
- Office supplies (paper, pens, etc.)
- Insurance
- Benefits

The COUNTY/NMC will be responsible for the following:

1) Compensation as described in the agreement and set forth in **Exhibit C "COMPENSATION".**

2) Providing CONTRACTOR with a Business Associates Agreement (BAA) attached hereto as **"Exhibit E: Business Associate Agreement".**

3) Information Technology (IT) support for remote access, logins, password changes, and resolution of all technical issues that prevent CONTRACTOR from performing the services outlined in this agreement. NMC shall provide one high level IT manager/supervisor who is assigned to CONTRACTOR. The name and contact information are to be provided by NMC at the signing of contract. NMC IT manager will work directly with CONTRACTOR. IT manager will establish all CONTRACTOR remote staff access. NMC IT manager/supervisor is responsible for communicating to CONTRACTOR all steps/processes in detail to establish remote access.

4) Start date of Agreement will be effective per **section 3.1 "TERM OF AGREEMENT"**. NMC IT manager/supervisor will then provide CONTRACTOR staff with login ID and successful computer access as defined in **"Exhibit A: Scope of Services"**. Successful access is defined as the ability to remotely access all computer systems identified, including the same pathways within them as identified in NMC orientation for CONTRACTOR. If successful access isn't established within 14 business days of CONTRACTORS completion of NMC required IT forms, CONTRACTOR will notify NMC contact in writing of such delays and shall allow NMC to rectify issue within 30 days of written notification. The official start date for CONTRACTOR deliverables is date of successful access to all computer systems for all CONTRACTOR staff. This date will be noted by NMC and CONTRACTOR in writing.

5) Site Visit (if necessary): CONTRACTOR shall send Remote Staff to NMC for the ACS Consultative visit and/or ACS Verification Review upon NMC Advanced Notice Request. All travel, lodging, and worked hours cost will be incurred by NMC and shall adhere to the County of Monterey's Travel and Reimbursement Policy as defined in "**Exhibit D- Monterey County Travel and Business Expense Reimbursement Policy**".

9) NMC will identify one administrative level point of contact who will assist CONTRACTOR if issues arise such as, but not limited to, computer access or contractual addendums, etc.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

10) NMC will provide CONTRACTOR with a patient list of outstanding/concurrent patients needing data abstraction/entry. This list will be in Microsoft Excel format and located on NMC shared server. CONTRACTOR remote staff will access NMC system and sign out charts. Once patients are complete, the charts will be marked as complete and additional charts/patients will be signed out by CONTRACTOR staff. This process reduces the chance of duplication of work and allows NMC transparency in work progression. The fields for the Excel file will include: Trauma Registry Number, Account Number, Medical Record Number, Patient Last Name, Admission Date, and Hospital LOS. The patient list always remains on NMC server, ensuring all personal health information (PHI) is protected by NMC firewalls.

I. PURPOSE

The purpose of this policy is to establish uniform travel and business expense reimbursement policies, rules and claim procedures for persons authorized to conduct County business.

II. SCOPE

The County travel and business expense reimbursement policy applies to all County employees, members of legislative bodies established by the Board (salaried or not), non-County employees (such as contractors who receive travel and/or business expense reimbursements) and volunteers traveling on County business.

III. DEFINITIONS

Unless the context otherwise requires, the definitions contained in this part govern the construction of this policy. They do not necessarily apply in other County contexts.

A. Accountable Expense Reimbursement Plan

Reimbursements of travel and other business expenses to a County employee, contractor or volunteer will be considered to be made under an "Accountable Expense Reimbursement Plan" if the following three requirements are met:

- The person substantiates his or her expenses by submitting an expense report with
  1) the amount of the expenditure,
  2) the time and place of the travel or business entertainment,
  3) the business purpose of the expenditure, and
  4) the names and business relationship of any persons entertained.
- The person documents the expenses with supporting receipts, paid bills, etc. within 60 days after the expense is paid or incurred, and
- Excess advances, if any, are repaid to the County within 120 days after the expense is paid or incurred.

"County" means the County of Monterey.

B. County Business

"County business" means the activity directly related to the ordinary, necessary and/or required business functions of the County of Monterey ("County"). C. County Employee

"County employee" means any County officer or employee, whether elected or appointed, filling a budgeted position approved by the Board of Supervisors.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

Independent contractors and their employees are not County employees.

D. County Traveler

"County traveler" means any County employee, authorized non-County employee (such as a contractor) or volunteer traveling on County business. Agency temporary employees are not covered by this policy and are not reimbursable for travel.

G. Main or Regular Place of Work

"Main or regular place of work" means the principal place of business for the County employee or the principal location to which the County volunteer/contractor is assigned to work for the County. This may be the place at which s/he spends the largest portion of his/her regular County workday or working time or, in the case of field workers, the assigned location/headquarters to which s/he returns upon completion of regular or special assignments.

H. Meals

Meals that are 1) directly related or associated with bona fide County business matters and 2) approved for reimbursement by a member of the Board of Supervisors or a department head (or his or her designee) will be considered a reimbursable County business expense, if incurred in connection with out-of-County business travel or while conducting in-County business. Also, reimbursement for the provision of in-kind meals to employees on the business premises of the County will only be allowed if there is a substantial non-compensatory business reason for providing such meals to employees.

I. Temporary Work Location

"Temporary work location" means the place where the County employee, volunteer or contractor is assigned on an irregular or short-term basis. If an employee is assigned to a work location for no more than 35 work days during a calendar year, then the location is considered temporary. Attending conferences, meeting or training sessions away from the main or regular place of work by County employees or volunteers, or field

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

workers conducting fieldwork at off-site locations, does not normally constitute assignment to another site. If the employee is assigned for more than 35 work days during the calendar year, the new location has become the main or regular place of work.

J. Vehicle

"Vehicle" means a motor vehicle, which can be legally operated on public highways.

IV. AUTHORIZATION TO TRAVEL

C. Out-of-County Travel

(9) When two or more County travelers from the same department are traveling to the same site by vehicle, they should use only as many vehicles as are required to accommodate the number of travelers and business needs of the County. If a County traveler chooses to use a separate private vehicle because of personal preferences or obligations, h/she shall not be eligible for mileage or fuel reimbursement for the travel unless the department head determines that reimbursement is appropriate and justified.

(10) If a County traveler chooses to use a private vehicle instead of an alternative mode of transportation chosen by the department head because of personal preferences or obligations, his/her mileage reimbursement shall not exceed the cost of using the alternative mode of transportation unless the department head determines that the additional reimbursement is appropriate and justified.

b) County Vehicle Transportation

(1) County travelers using a County vehicle for traveling shall not be eligible for reimbursement for mileage.

(2) County travelers required to fuel a County vehicle at their own expense should claim the actual fuel costs expended by them. Receipts must accompany the claim. Vehicle license number and the odometer reading should be written on the receipts.

(3) If the County vehicle experiences mechanical failure, the County traveler shall follow the rules set forth in the "Mechanical Failure" section of the "Vehicle Operator's Handbook" located in the glove compartment of each County vehicle.

c) Rental Vehicle Transportation

(1) Vehicles may be rented for transportation at the destination point when the County traveler travels to the destination via commercial common carrier and the cost of the rental will be less than the charge for shuttle or taxi service to and from the carrier termination point to the function or hotel accommodations.

(2) Vehicles may be rented for transportation to the destination point when the cost of the rental will be less than other reasonable and available modes of transportation.

(3) If more than one County traveler from the same department is traveling to the same function, only one rental vehicle may be claimed and then only if

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

it is available for use by all of the County travelers.

(4) The County traveler shall choose the least expensive size and mileage limits appropriate to the use required. Rental expenses for luxury cars, motorcycles and recreational vehicles may not be claimed.

(5) Rental cars shall be refueled prior to return to the rental agency to reduce cost to the County. Rental cars should be returned to the renting location and on time to avoid additional charges.

(6) When traveling domestically the County traveler shall waive additional vehicle insurance (except for additional driver and coverage for drivers under 25 years of age), provided that the employee has his/her own vehicle insurance coverage. When traveling internationally additional insurance should be accepted if the traveler lacks other similar coverage.

(7) An original car rental receipt showing the number of days and type of vehicle rented is required for vehicle rental claims. A copy of the receipt or a credit card receipt alone is insufficient.

d) Commercial Carrier Transportation

(1) County travelers shall seek and attempt to use the lowest rates available for the type of commercial carrier service being utilized. Whenever possible, travelers should take advantage of flight arrangements that minimize County cost (for example, purchasing a round trip ticket may be less expensive than two one-way tickets). Reservations should be made as far in advance as possible to take advantage of available discounts and special offers. Travel agents that have added ticket handling charges should be avoided.

(2) Claims for travel via commercial carrier shall be limited to the cost of travel at economy rates for the same day and time of travel or actual cost, whichever is less. County travelers may upgrade tickets, provided that the traveler and not the County pay for the difference in cost for such upgrade. The County will not reimburse any type of travel insurance unless the Department Head requests the traveler to purchase cancellation coverage. Reasonable baggage charges, if imposed by the airline, on the first checked bag are reimbursable.

(3) Claims for commercial carrier tickets shall be substantiated by an original ticket document (such as an e-ticket or passenger receipt ticket copy) showing the price, date, date/time of travel and class of travel. A copy of the credit card receipt or statement from a travel agency alone is insufficient.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

(4) County business traveler may retain frequent flyer/hotel rewards and similar program benefits. However, participation in these programs must not influence flight/hotel/etc. selection, which would result in incremental cost to the County beyond the lowest available airfare/hotel cost unless the difference is paid by the traveler. Free tickets or cash allowances for volunteering to be denied timely boarding may be retained by the traveler but no additional cost to the County or interruption of County work is allowed and any additional time required to complete the trip is to be personal time.

(5) Should a Saturday night stay reduce the cost to the County of a ticket more than the total of any additional hotel/meal/parking cost, the costs to do so are reimbursable to the traveler but should be well-documented with a clear savings to the County.

e) Private Aircraft Transportation

(1) Traveling by private aircraft which is flown by a County employee may be authorized if it will be the most efficient means of travel and the flight is incidental to the purpose of the County travel. Said use shall require the advance written approval of the County Administrative Officer. If approved, the following must be provided to the Auditor-Controller's Office in advance of the travel:

(a) a copy of the pilot's Federal Aviation Administration (FAA) pilot's certificate and instrument rating for the category and class of aircraft to be flown and the type of flying to be performed;

(b) a copy of the pilot's current medical certificate;

(c) a copy of the FAA Pilot Proficiency Award Program certificate issued to the pilot within the twelve months prior to the flight;

(d) a copy of the pilot's flight log showing a minimum of 250 hours of flight time within the twelve months prior to the flight;

(e) a certificate of public liability and property damage insurance of not less than $1,000,000 naming the County as an additional insured.

(2) Traveling by private aircraft, which is flown by a non-County employee, except for flights conducted by members of the Sheriff's Air Squadron in the performance of their official duties, is normally prohibited.

(3) County travelers who operate a private aircraft in connection with approved County travel may be reimbursed the actual cost paid by the

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

traveler for fuel used by the aircraft on the trip or the County's mileage rate for each air mile at the travelers option.

f) Other Transportation Expenses

(1) The following necessary transportation expenses may be claimed at actual cost (receipt required) when directly related to transporting the County traveler to and from the business destination point:

(a) taxi, shuttle, or public transit fares;

(b) parking fees (airport long-term parking is required for travel exceeding 24 hours);

(c) bridge, road or ferry tolls;

(d) other actual transportation expenses determined to be reasonable and necessary by the department head and the Auditor-Controller.

(2) The following transportation expenses may not be claimed:

(a) traffic and parking violations;

(b) emergency repairs or non-emergency repairs on non-County vehicles;

(c) personal travel while at an out-of-County location;

(d) other actual transportation expenses determined to be unreasonable or unnecessary by the department head or the Auditor-Controller.

C. Meal Expenses

1. Eligibility for Meals

a) County employees, contractors and volunteers may be reimbursed for in-County meal costs that are 1) ordinary (not extravagant) and necessary, 2) directly related or associated with bona fide County business matters and 3) approved by a member of the Board of Supervisors or a department head (or his or her designee). County business discussions associated with a meal must be conducted in a "clear business setting".

b) County travelers involved with in-County travel that does not require an overnight stay away from their home are not eligible to claim for meals taken outside the County, unless the requirements of paragraph a) above are met, or unless provided for in a Board of Supervisor-approved written County policy.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

c) County travelers on out-of-County business travel that requires an overnight stay away from their home are eligible to claim for meals taken out-of-County.

d) County travelers are eligible to claim the meal reimbursements noted below for travel requiring overnight lodging if the total travel time (work time, plus the lunch period plus round-trip travel time) is estimated to equal or exceed 12 hours.

(1) Breakfast may be claimed if the County traveler must reasonably be away from home because of County business travel at or before 7:00 a.m.

(2) Lunch may be claimed if the County traveler must reasonably be away from home because of County business travel at or before Noon.

(3) Dinner may be claimed if the County traveler must reasonably be away from home because of County business travel at 7:00 p.m. or after.

b) Meal expense amounts shall be calculated by the Auditor-Controller for first and last partial days of travel based on the maximum federal per diem meal rate for the appropriate meal(s).

c) Claims for out-of-County meals taken in conjunction with travel that includes an overnight stay away from the traveler's home shall be reimbursed in the form of a "per diem allowance", which means the traveler is eligible to be reimbursed at the maximum rate allowed and receipts are not required (except for Board of

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

Supervisor Members). Partial days shall be reimbursed at the appropriate meal rate.

d) Allowable meal costs may only exceed the prescribed per diem rates if the meal is being served at a conference or workshop and the costs of the speaker, conference, and/or registration are included in the price. The agenda/brochure or other documentation describing the event and the price must accompany the claim to the Auditor-Controller's Office.

e) A County traveler may not claim a per diem allowance or reimbursement for any meal which is provided, or otherwise available, to the County traveler with the lodging or function, whether or not there is an actual charge for the meal. For example, if lunch is provided at the function or breakfast is included in the cost of lodging, the traveler may not claim a per diem allowance or request reimbursement for eating elsewhere. For purposes of this section, continental breakfast and meals provided during airline or other commercial carrier travel do not constitute provided meals and do not need to be deducted from the per diem allowance. A County traveler may not claim a per diem allowance for a meal that was paid for by someone else.

f) If a breakfast is included in the cost of lodging, the traveler may not claim for a breakfast meal; however, s/he may apply the next day's breakfast allowance amount towards the maximum lodging amount. For example, if the maximum lodging amount is $79.00 and the breakfast allowance is $8.00, the employee may claim up to a maximum of $87.00 for lodging which includes a continental breakfast. (For purposes of this section, continental breakfast does not constitute a provided breakfast meal.)

g) Claiming for alcoholic beverage expenses are prohibited in all cases.

h) As required by California Government Code 53232.2 Board of Supervisors members must provide receipts for all meals and will be reimbursed at the lower of the appropriate per diem amount or the actual expense.

a) County travelers are not eligible to claim for lodging for in-County functions.

b) For out-of-County business that is conducted on one business day, if the County traveler's actual time for the day is estimated to equal or exceed 12 hours (including work time, the lunch period and round-trip travel time), then the County traveler will have the option of securing one night's lodging at either the

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

front-end or back-end of the trip. Illustration: A member of the County Board of Supervisors who resides in Monterey County is required to attend a one-day business meeting in Sacramento. The Board member estimates that his total time for the day without obtaining lodging would be 14 hours (8 hours of meetings, 1 hour for lunch and 5 hours for round-trip travel). The Board member will have the option of securing one night's lodging in Sacramento, either the night before the meeting, or after conclusion of the meeting.

c) For out-of-County business that requires multiple business days, if County travelers are eligible to claim lodging for the first and last evenings of an out-of-County trip, they are also eligible to claim lodging for any evenings that fall in between the first and last evenings of the trip.

d) County travelers are not eligible to claim reimbursement of lodging costs when staying overnight as a guest of friends or relatives.

2. Lodging Claims

a) Lodging expenses shall be claimed at either the actual cost of the lodging (limited to the single occupancy rate for a single room) or the County's maximum lodging rate (Federal Per Diem Rate), whichever is less. Receipts are required. Taxes are in addition to the Federal Per Diem Rate.

b) Lodging costs may exceed the County's maximum lodging rate only when a conference, meeting or convention is being sponsored by an organization of which the County, the department or employee is a member, the lodging may be claimed at the actual cost if seminars or meetings are to be held at the particular hotel and/or events are scheduled for evening hours, and the department head has given advance written authorization.

c) An original room folio receipt, showing the number of days and the number of occupants, is required for lodging claims. A copy of the receipt, travel agency statement or a credit card receipt alone is insufficient.

d) When a room is shared with a fellow County traveler, the expense may either be prorated, and the prorated amount claimed by each County traveler, or one County traveler may claim the total expense at the multiple occupancy rate.

e) When a room is shared with a person other than a County traveler and said person will also be claiming reimbursement from the County or another source, the amount shall be prorated between the two travelers.

f) Lodging expense may not be claimed for guests of the County traveler. Where expense for a family member or friend is included in the receipt, the claim must not exceed the single occupancy rate.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

g) Special lodging, such as accommodations in apartments, RV parks, campgrounds or other semi-permanent lodgings, shall require advance written authorization of the County Administrative Officer and the Auditor-Controller.

h) County travelers should inquire when making lodging arrangements whether the County is exempt from Transient Occupancy Taxes (TOT) in the locale where they are staying and should provide the necessary form to the lodging facility, if required to do so to obtain the waiver.

h) Except when registering for lodging at a pre-arranged group rate in conjunction with a conference or meeting, County travelers shall request the government rate or lowest available eligible rate when making lodging arrangements.

i) Travelers are responsible for canceling hotel rooms before the cancellation period ends and should record the cancellation number in case of disputes. Travelers will not be reimbursed for "no-show" hotel charges unless there are unavoidable reasons for not canceling the room.

j) When multiple country travelers are traveling together and the rooms are put on one invoice, one traveler may take care of the invoice but should provide the details on who stayed in each room on the invoice.

E. Registration Fees

Conference, convention and seminar registration and tuition fees may be claimed at the actual cost, provided that the agenda/brochure or other documentation describing the event, including the price, accompanies the approved claim to the Auditor-Controller's.

F. Other Travel Expenses

1. County travelers are eligible to claim a per diem incidental allowance, limited to the maximum federal per diem incidental rate established by the IRS, for each day of travel requiring an overnight stay away from the traveler's home. Said allowance covers fees and gratuities for persons who provide services, such as food servers and luggage handlers, and does not require receipts (Except for Board of Supervisors Meals). If applicable (such as a Board of Supervisor meal), gratuities are limited to not exceed 15% of the service costs unless billed by a provider's standard policy at a higher rate.

2. County travelers are eligible to claim the following expenses at actual cost, even if they also qualify for a per diem incidental allowance. Receipts are required.

   a) County business calls (traveler must annotate purpose of call on the bill)

   b) fax machine charges incurred to send or receive documents for County use.

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

c) copy machine charges incurred to copy documents for County use.

d) Internet access connection and/or usage fees away from home not to exceed $15.00 per day, if Internet access is necessary for county related business.

e) other business related expenses determined to be reasonable and necessary by the department head and the Auditor-Controller.

VI. OTHER COUNTY BUSINESS EXPENSES

A. General Guidelines

In the course of conducting County business, employees, contractors or volunteers may incur business expenses (including meal expenses pursuant to Section V.C) on behalf of the County. Such expenses will be approved for reimbursement if the disbursement meets the following requirements:

- The disbursement is for an ordinary (not extravagant) and necessary expense of conducting County business, or is an expense that is required by the County,
- The expense is approved by a member of the County Board of Supervisors, or a County department head (or his or her designee), and
- The payee accounts for the expense in accordance with the rules for a "Accountable Expense Reimbursement Plan", as set forth in the Internal Revenue Code and related regulations.

B. Taxation of Business Expense Reimbursements

If a reimbursement to an employee, contractor or volunteer meets the requirements of an "Accountable Expense Reimbursement Plan", then such reimbursement will not be reportable for federal or California income tax purposes.

VII. CLAIMING PROCEDURES FOR OUT-OF-COUNTY TRAVEL

A. Travel Advance Claims

1. Authorizations and Eligibility

a) Travel advances are strongly discouraged and are only available to County employees. The issuance of travel advances creates double work for departmental and auditor-controller staff and should only be used if a County travel card cannot be used or the employee does not have a personal credit card. Board of Supervisors Members are not eligible for travel advances.

The first choice is for travelers to use their personal credit cards to pay for their

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

travel expenses and be reimbursed before their monthly statement arrives. Secondly, the County has arranged for the use of the Travel Card to pay many travel related expenses. Departments may use their Travel Cards to pay for airline tickets and conference registration expenses for all of their employees, not just the cardholder. Commercial carrier and conference registration expenses should not be considered in the advance calculation. The third choice would be a cash advance, if necessary.

b) Travel advances require the authorization of the department head or his/her designee, and the Auditor-Controller or his/her designee.

c) The net amount of the travel advance shall not exceed the following:

(1) 75% of the total estimate for the following travel expenses, exclusive of payments made payable directly to the vendor:

(a) lodging (documentation, including at least the confirmation number and hotel name should be provided), including hotel parking

(b) rental vehicle transportation;

(c) per diem meal allowances;

(d) long-term airport parking;

(e) other out-of-pocket expenses deemed necessary and reasonable by the Auditor-Controller.

(2) 50% of the total estimate of reimbursement for mileage for business use of a private vehicle.

d) A travel advance shall not be issued for a net amount less than $100.00 nor more than $2,000.00.

e) A travel advance shall not be issued more than thirty (30) calendar days in advance of the commencement of travel.

f) Travelers are not eligible for an additional travel advance if they have an unsettled advance, unless the advances are for travel taken consecutively. In such case, the sum total of the travel advances shall not exceed $2,000.00.

2. Travel Advance Requests

a) Requests for travel advances involving travel shall be submitted by the department head to the Auditor-Controller's Office on a completed and signed

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

"County of Monterey Travel Request" form, accompanied by all documentation relative to the request, at least ten (10) working days in advance of the commencement of travel.

b) After a completed and approved "County of Monterey Travel Request" form is received by the Auditor-Controller's Office, a warrant payable to the County traveler for the amount requested shall be issued, up to the 100% maximum amount allowed pursuant to this County travel policy.

3. Travel Advance Settlements

a) Within five (5) working days of completion of travel, the County traveler shall submit all receipts for allowable travel expenses to the Department and within fifteen (15) working days of completion of travel to the Auditor-Controller's Office on a completed County claim form. Credit for the travel advance shall be subtracted from the amount owed to the County traveler.

b) In the event that allowable expenses are less than the amount of the travel advance, the County traveler shall submit the difference in the form of a check or money order made out to the "County of Monterey" with the claim form.

c) County travelers who cannot provide a required receipt shall reimburse the County for the amount of the money advanced to them for that expense.

d) Travelers who do not submit the required documentation by the time frames set forth above may lose their eligibility for future travel advances.

e) Department heads are responsible for ensuring that their employees settle their travel advance claims within the time frames set forth in subsection a) above. Non-compliance may jeopardize advances for the entire department.

B. Prepaid Vendor Claims

1. Vendor Claim Requests

a) Once travel has been authorized, claims to the vendor may be submitted for lodging and registration fees when there is sufficient time for the check to be processed before the authorized County traveler commences travel.

b) If the travel requires a "County of Monterey Travel Request" form, the approved form shall be submitted with the claim. If the original has been submitted with a previous claim, then that shall be noted on the claim form and a copy of the form attached.

c) Whenever possible, the County shall be named as registrant for events to allow

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

transfer of attendance privilege when conflicts prevent the original registrant from attending.

d) The County will mail the warrant directly to the vendor unless the traveler requests that the warrant be returned to them to hand carry to the vendor.

2. Vendor Claim Settlements

a) Each vendor claim must have an original receipt attached in order to settle the claim. The required receipts for vendor claims that have been prepaid shall be forwarded to the Auditor-Controller's Office within thirty (30) calendar days after completion of travel.

b) Claims paid directly to vendors that are not substantiated by receipts within thirty (30) calendar days of the completion of travel shall be considered to be unsettled travel advances to the County traveler.

c) Department heads are responsible for ensuring that their employees return their receipts within the time frames established by this policy. Non-compliance may jeopardize the department's ability to have travel expenses paid in advance.

d) In the event that all or a portion of the prepaid cost to a vendor is reduced after the check has been processed, the County traveler is responsible for ensuring that the entire difference is returned to the County within the time frames established for settling the claim.

C. Travel Reimbursement Claims

1. After completion of travel, the County traveler shall submit a completed County claim form to the department head for authorization. After review and authorization, the department head shall submit the authorized claim, together with any required receipts, to the Auditor-Controller's Office. Said claim shall be received by the Auditor-Controller's Office within thirty (30) calendar days of the completion of travel.

2. The traveler shall not be reimbursed until s/he has signed the certification for the claim that is required by the Auditor-Controller's Office.

3. The Auditor-Controller's Office shall review the claim for compliance with applicable County policies and procedures. If approved by the Auditor-Controller's Office, the claim shall be processed and a check sent to the claimant within ten (10) working days. If denied, or denied in part, the department's contact person will be notified immediately. The Auditor-Controller has the final decision on allowable expenses.

4. No reimbursement for travel shall be paid to the employee until all required receipts

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

for the travel claim have been filed with the Auditor-Controller's Office.

5. Travel reimbursements are to be paid via checks and not to be paid via petty cash.

D. Mileage Claims

1. Whenever travel requires advance authorization of the department head, or his/her designee, the resulting mileage expense shall be claimed on the same claim form as the other expenses that apply to that travel. The only exception is if mileage is the only expense of the trip, in which case the traveler may claim the mileage on the monthly "Mileage Reimbursement" claim form.

2. Whenever travel does not require advance authorization of the department head, or his/her designee, the resulting mileage expense shall be claimed on the "Mileage Reimbursement" claim form.

3. Mileage claims shall be submitted monthly, unless the total for the month is less than $50.00, in which case the claim may be held for an additional month. However, the claim must not be held over to the next month more than twice, regardless of the dollar amount.

4. All mileage claims for the last month of the fiscal year must be processed by year-end close.

5. Mileage Claims are to be paid via warrants and not to be paid via petty cash.

E. Reimbursement by Outside Source

1. County travelers receiving reimbursement from an outside source for travel on County time shall forward said reimbursement to the Auditor-Controller for handling and deposit if the traveler intends to submit an expense claim to the County or use County resources, including a County vehicle, to travel. In such cases, the traveler shall then be entitled to submit a claim for actual and necessary expenses for transportation, meals, lodging, and incidentals, subject to the claiming conditions set forth in this travel policy. Said reimbursement shall be delivered to the Auditor-Controller's Office within thirty (30) days of the receipt of the funds.

2. If a County volunteer or non-employee will be receiving a per diem or other reimbursement of travel expenses from a source outside of the County, the volunteer shall not be eligible to claim or receive any additional reimbursement from the County for the same expenses.

F. Late Claims

If a claim for reimbursement or settlement of a travel claim is submitted after the allowed time frames, the payment to the employee shall not be made until the claim has

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

been reviewed and approved by the Auditor-Controller or his/her designee.

G. Travel Card Use

Subject to the rules contained in the Travel Card Policy, travel expenses (airline, hotel, vehicle rental, gas, emergency repair of county vehicles and airport parking) may be charged to County of Monterey Travel Cards. Prohibited items include employee meals, room service, movies, cash advances, gift cards of any kind, liquor, tobacco and other items prohibited by the Travel Card Policy. Under no circumstances should personal items (even if reimbursed to the county) be charged to the travel card. Expenses paid on the travel card should not be included on a claim for reimbursement.

VII. INTERPRETATIONS

The Auditor-Controller, or his/her designee, shall be responsible for interpretations of this policy.

VIII. EXCEPTIONS

Exceptions to this policy require the approval of the Auditor-Controller or his/her designee.

IX. CONFLICT WITH RULES

In the event that this County Travel policy is in conflict with another County policy, the policy with the strictest application shall prevail.

At a minimum, the Business Associate shall provide the Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. (j) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(k) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(l) Unless prohibited by law, notify the Covered Entity within five (5) days of the Business Associate's receipt of any request or subpoena for PHI. To the extent

DocuSign Envelope ID: 8D700268-89CA-43B7-BFEC-4ADA04812032

that the Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with the Covered Entity in such challenge; and

arising out of or connected with CONTRACTOR's performance of this AGREEMENT, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of County of Monterey. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

8.0 INSURANCE REQUIREMENTS

8.1 **Evidence of Coverage**: Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

8.2 Qualifying Insurers: All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

8.3 Insurance Coverage Requirements: Without limiting CONTRACTOR's duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

Professional Liability Insurance: if required for the professional services being provided, in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage

shall continue for at least three years following the expiration or earlier termination of this Agreement.

8.4 Other Requirements: All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status: The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

Primary Coverage: For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation: The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way

modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

8.5 **Garagekeepers Legal Liability insurance** with limits of not less than $100,000 per vehicle and $500,000 aggregate to cover loss or damage to vehicles left in the care, custody, or control of CONTRACTOR while performing valet services. This insurance shall provide protection for loss or damage caused by fire, theft, vandalism, collision, or other perils while vehicles are parked or being moved by CONTRACTOR's personnel.

8.**6 Crime insurance** policy with a limit of not less than $250,000 per occurrence to provide coverage for losses resulting from employee dishonesty, including but not limited to theft of money, securities, or personal property belonging to NMC, its patients, visitors, or other third parties. Coverage must include Third Party Crime coverage, ensuring protection for acts committed by CONTRACTOR's employees against property not owned by CONTRACTOR.

9.0 RECORDS AND CONFIDENTIALITY

9.1 Confidentiality: CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from COUNTY or prepared in connection with the performance of this AGREEMENT, unless NMC specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to COUNTY any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this AGREEMENT except for the sole purpose of carrying out CONTRACTOR's obligations under this AGREEMENT.

The parties to this AGREEMENT may be subject, at the request of COUNTY or as part of any audit of COUNTY, to the examination and audit of the State

Auditor pertaining to matters connected with the performance of this AGREEMENT for a period of three years after final payment under the AGREEMENT.

9.5 CONTRACTOR agrees that any information, whether proprietary or not, made known to or discovered by it during the performance of or in connection with this AGREEMENT for COUNTY will be kept confidential and not be disclosed to any other person. CONTRACTOR agrees to immediately notify COUNTY in accordance with the Notices Section of this AGREEMENT, if it is requested to disclose any information made known to or discovered by it during the performance of or in connection with this AGREEMENT. These conflict of interest and future service provisions and limitations shall remain fully effective five (5) years after termination of services to COUNTY hereunder.

10.1 During the performance of this contract, CONTRACTOR shall not unlawfully discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, age (over 40), sex, or sexual orientation. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment are free of such discrimination.

10.2 The applicable regulations of the Fair Employment and Housing Commission implementing Government Code, §12900, et seq., set forth in Chapter 5 of Division 4 of Title 2 of the California Code of Regulations are incorporated into this AGREEMENT by reference and made a part hereof as if set forth in full.

11.3 Non-Assignment: CONTRACTOR shall not assign this contract or the work required herein without the prior written consent of County.

11.4 Any subcontractor shall comply with all of COUNTY requirements, including insurance and indemnification requirements as detailed in SAMPLE AGREEMENT.

12.0 CONFLICT OF INTEREST

12.1 CONTRACTOR covenants that it presently has no interest, and shall not have any interest, direct or indirect, which would conflict in any manner with the performance of services required under this AGREEMENT. Without limitation, CONTRACTOR represents to and agrees with COUNTY that CONTRACTOR has no present, and will have no future, conflict of interest between providing COUNTY hereunder and any other person or entity (including but not limited to any federal or state environmental or regulatory agency) which has any interest adverse or potentially adverse to COUNTY, as determined in the reasonable judgment of the Board of Supervisors of County.

Matter Type: BoS Agreement

a. Approve and authorize the Director of Health Services or designee to execute a retroactive three (3) year Standard Agreement with Frank Hespe, Attorney-At-Law, to provide hearing officer services for the Behavioral Health Bureau in the amount of $26,700 for FY 2025-2026, $26,700 for FY 2026-2027, and $26,700 for FY 2027-2028, for a maximum County obligation of $80,100 for the term of July 1, 2025 through June 30, 2028; and
b. Approve and authorize the Director of Health Services or designee to execute up to three (3) future amendments that do not exceed 10% ($8,010) of the original Agreement, do not significantly change the scope of services, and do not increase the total not to exceed maximum amount over $88,110.

RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a retroactive three (3) year Standard Agreement with Frank Hespe, Attorney-At-Law, to provide hearing officer services for the Behavioral Health Bureau in the amount of $26,700 for FY 2025-2026, $26,700 for FY 2026-2027, and $26,700 for FY 2027-2028, for a maximum County obligation of $80,100 for the term of July 1, 2025 through June 30, 2028; and
b. Approve and authorize the Director of Health Services or designee to execute up to three (3) future amendments that do not exceed 10% ($8,010) of the original Agreement, do not significantly change the scope of services, and do not increase the total not to exceed maximum amount over $88,110.

SUMMARY/DISCUSSION

The Lanterman-Petris-Short Act mandates a certification review hearing for all persons to be certified for involuntary mental health treatment. Frank Hespe, Attorney-At-Law, provides services as the hearing officer for certification review hearings. The County contracted with Frank Hespe, Attorney-At-Law from FY 2020-2025 for hearing officer services. This Agreement renews and updates the agreement with Frank Hespe, Attorney-At-Law, ending June 30, 2025, for another three (3) year from July 1, 2025 to June 30, 2028.

During contract discussions, the updated cyberliability insurance requirement within the Business Associate Agreement made it difficult for Frank Hespe, an individual, to obtain. Due to the delay in obtaining the required insurance and contract rate negotiations, with direction for an effective date of July 1, 2025, the agreement took additional time to review and agendize, which by necessity makes the agreement retroactive when presented to your board.

This Agreement contains the County's standard 30-day "no cause" provision (Section V, B) and

an additional defunding provision (Section V, D), which provides the County the ability to amend or terminate the Agreement in the event of a reduction and/or termination of funding.

This work supports the following County of Monterey Health Department 2025-2028 Strategic Plan Goal(s):" 3) Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one of the ten essential public health services, specifically: 7) Link people to needed personal health services and assure the provisions of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel and Auditor-Controller have reviewed and approved this Agreement as to form and fiscal provisions, respectively.

FINANCING:
This Agreement is 100% funded by 1991 Realignment funding. The funds for this Agreement are included in the Health Department's Behavioral Health (HEA012, Unit 8410) Fiscal Year 2025-26 Adopted Budget.

If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: CDA805C8-766A-4C27-B401-2554B76C7197

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. Any claims for payment for services submitted following the termination or end date of this Agreement, and which are for services rendered more than thirty (30) days before the termination or end date of this Agreement, may be disallowed, except to the extent that such delay was through no fault of CONTRACTOR.

C. If CONTRACTOR fails to properly submit claim(s) for services provided under this Agreement in a manner consistent with the requirements of Section(s) IV(B)-(C), above, the COUNTY may, at its sole discretion, deny payment for that month of service and disallow the claim.

D. COUNTY shall review and certify CONTRACTOR'S claim either in the requested amount or in such other amount as COUNTY approves in conformity with this Agreement and shall then submit such certified claim to the COUNTY Auditor. The County Auditor-Controller shall pay the amount certified within thirty (30) calendar days of receiving the certified invoice.

E. To the extent that the COUNTY determines CONTRACTOR has improperly claimed services, COUNTY may disallow payment of said services and require CONTRACTOR to resubmit said claim of services for payment, or COUNTY may make corrective accounting transactions.

F. If COUNTY certifies payment at a lesser amount than the amount requested COUNTY shall immediately notify the CONTRACTOR in writing of such certification and shall specify the reason for it. If the CONTRACTOR desires to contest the certification, the CONTRACTOR must submit a written notice of protest to the COUNTY within twenty (20) calendar days after the CONTRACTOR'S receipt of the COUNTY notice. The parties shall thereafter promptly meet to review the dispute and resolve it on a mutually acceptable basis. No court action may be taken on such a dispute until the parties have met and attempted to resolve the dispute in person.

EXHIBIT C: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.

Docusign Envelope ID: CDA805C8-766A-4C27-B401-2554B76C7197

- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Trique, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

8. Ensure that 100% of staff, over a 3-year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B);

permitted under 45 C.F.R. § 164.504(e)(4)(ii), provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and that such person will notify the Business Associate of any instances of which such person is aware that the confidentiality of the information has been breached; and

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and

Docusign Envelope ID: CDA805C8-766A-4C27-B401-2554B76C7197

(iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non-permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

Docusign Envelope ID: CDA805C8-766A-4C27-B401-2554B76C7197

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request

Docusign Envelope ID: CDA805C8-766A-4C27-B401-2554B76C7197

or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de-identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R. § 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

Docusign Envelope ID: CDA805C8-766A-4C27-B401-2554B76C7197

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. Current Status: Health Department - Consent

Version: 1

Matter Type: BoS Agreement

a. Approve and authorize the Director of Health Services or designee to execute a retroactive three (3) year Standard Agreement with Keith Vandevere, Attorney-At-Law, to provide hearing officer services for the Behavioral Health Bureau in the amount of $75,000 for FY 2025-2026, $75,000 for FY 2026-2027, and $75,000 for FY 2027-2028, for a maximum County obligation of $225,000 for the term of July 1, 2025 through June 30, 2028; and

RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a retroactive three (3) year Standard Agreement with Keith Vandevere, Attorney-At-Law, to provide hearing officer services for the Behavioral Health Bureau in the amount of $75,000 for FY 2025-2026, $75,000 for FY 2026-2027, and $75,000 for FY 2027-2028, for a maximum County obligation of $225,000 for the term of July 1, 2025 through June 30, 2028; and
b. Approve and authorize the Director of Health Services or designee to execute up to three (3) future amendments that do not exceed 10% ($22,500) of the original Agreement, do not significantly change the scope of services, and do not increase the total not to exceed maximum amount over $247,500.

SUMMARY/DISCUSSION

The Lanterman-Petris-Short Act mandates a certification review hearing for all persons to be certified for involuntary mental health treatment. Keith Vandevere, Attorney-At-Law, provides services as the hearing officer for certification review hearings. The County contracted with Keith Vandevere, Attorney-At-Law from FY 2010-2025 for hearing officer services. This Agreement renews and updates Agreement A-15922 with Keith Vandevere, Attorney-At-Law, ending June 30, 2025, for another three (3) year from July 1, 2025 to June 30, 2028.

During contract discussions, the updated cyberliability insurance requirement within the Business Associate Agreement made it difficult for Keith Vandevere, an individual, to obtain. Due to the delay in obtaining the required insurance and contract rate negotiations, with direction for an effective date of July 1, 2025, the agreement took additional time to review and agendize, which by necessity makes the agreement retroactive when presented to your board.

This Agreement contains the County's standard 30-day "no cause" provision (Section V, B) and

an additional defunding provision (Section V, D), which provides the County the ability to amend or terminate the Agreement in the event of a reduction and/or termination of funding.

This work supports the following County of Monterey Health Department 2025-2028 Strategic Plan Goal(s):" 3) Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one of the ten essential public health services, specifically: 7) Link people to needed personal health services and assure the provisions of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel and Auditor-Controller have reviewed and approved this Agreement as to form and fiscal provisions, respectively.

FINANCING:
This Agreement is 100% funded by 1991 Realignment funding. The funds for this Agreement are included in the Health Department's Behavioral Health (HEA012, Unit 8410) Fiscal Year 2025-26 Adopted Budget.

Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

EXHIBIT C: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY'S CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.
(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.
(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.
(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.
(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Trique, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.
4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.
5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).
6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.
7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.
8. Ensure that 100% of staff, over a 3 year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B);

permitted under 45 C.F.R. § 164.504(e)(4)(ii), provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and that such person will notify the Business Associate of any instances of which such person is aware that the confidentiality of the information has been breached; and

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

(iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non-permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de-identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R. § 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

Docusign Envelope ID: E132AF22-DC2C-4B79-BB58-D3532B5817CA

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

RECOMMENDATION:

It is recommended that the County of Monterey Board of Supervisors:
a. Approve and authorize the Director of Health Services or designee to execute a retroactive Mental Health Services Agreement between the County of Monterey and California Psychiatric Transitions for the provision of mental health services for adults with severe psychiatric disabilities, for a maximum County obligation of $3,102,010 for the term of July 1, 2025 through June 30, 2026; and

SUMMARY/DISCUSSION

California Psychiatric Transitions (CPT), located in Delhi, California, is one of a very limited number of Mental Health Rehabilitation Centers (MHRC's) that specialize in working with people with severe mental disabilities. This facility provides client specific programs including behavioral adjustment, self-help skill development, pre-vocational preparation, and addressing special needs in interpersonal relationships. This facility is the last resort before a client is placed in a State Hospital.

The County has contracted with CPT for mental health services for the periods of Fiscal Years (FY) 2007-2025. This Agreement with CPT is for one (1) fiscal year term from July 1, 2025 to June 30, 2026, which renews and updates Agreement A-16988 ending in June 30, 2025. This agreement renews the same contract provisions but contracting all the beds to be at the DBU Level 1, or Disruptive Behavioral Unit program based on historical usage.

Due to late and ongoing contract negotiations, with the direction for an effective date of July 1,

2025, the agreement took additional time to review and agendize, which by necessity makes the agreement retroactive when presented to your board.

Approval of this Agreement will provide the necessary resources for clients to be placed at a facility that best suits their needs and to live in the least restrictive community setting as possible. The Agreement also complies with the requirements of the Welfare and Institutions Code Section 5600 (Bronzan-McCorquodale Act).This Agreement contains the County's standard 30-day "no cause" provision (Section V, B) and an additional defunding provision (Section V, D), which provides the County the ability to amend or terminate the Agreement in the event of a reduction and/or termination of funding.

This work supports the following County of Monterey Health Department 2025-2028 Strategic Plan Goal(s):" 3) Ensure access to culturally and linguistically appropriate, customer-friendly, quality health services. It also supports one of the ten essential public health services, specifically: 7) Link people to needed personal health services and assure the provisions of health care when otherwise unavailable.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel and Auditor-Controller have reviewed and approved this Agreement as to form and fiscal provisions, respectively.

FINANCING:
This Agreement is funded by 1991 Realignment funding. The funds for this Agreement are included in the Health Department's Behavioral Health (HEA012, Unit 8410) Fiscal Year 2025-26 Adopted Budget.

C. Reporting Unusual Occurrences

1. CONTRACTOR shall report unusual occurrences to the Behavioral Health Director. An unusual occurrence is any event which jeopardizes the health and/or safety of clients, staff and/or members of the community, including, but not limited to, physical injury and death.

2. Unusual occurrences are to be reported to the COUNTY within timelines specified in COUNTY policy after becoming aware of the unusual event. Reports are to include the following elements:

   i. Complete written description of event including outcome;

   ii. Written report of CONTRACTOR's investigation and conclusions;

   iii. List of persons directly involved and/or with direct knowledge of the event.

3. COUNTY and DHCS retain the right to independently investigate unusual occurrences and CONTRACTOR will cooperate in the conduct of such independent investigations.

X. MAINTENANCE AND CONFIDENTIALITY OF PATIENT INFORMATION

A. CONTRACTOR shall maintain clinical records for each recipient of service in compliance with all Federal and State requirements. Such records shall include a description of all services provided by the CONTRACTOR in sufficient detail to make possible an

evaluation of services, and all data necessary to prepare reports to the State, including treatment plans, records of client interviews, and progress notes.

B. CONTRACTOR shall retain clinical records for a minimum of ten (10) years and, in the case of minors, for at least one (1) year after the minor has reached the age of majority, but for a period of no less than ten (10) years. Clinical records shall be the property of the COUNTY and maintained by the CONTRACTOR in accordance with Federal, State and COUNTY standards.

C. CONTRACTOR shall comply with the requirements set forth in Exhibit C: Confidentiality of Patient Information and Exhibit F: Business Associate Agreement, incorporated by reference as if fully set forth herein.

XI. REPORTS OF DEATH, INJURY, DAMAGE, OR ABUSE

A. Reports of Death, Injury, or Damage. If death, serious personal injury, or substantial property damage occur in connection with the performance of this Agreement, CONTRACTOR shall immediately notify the Behavioral Health Director by telephone. In addition, CONTRACTOR shall promptly submit to COUNTY a written report including: (1) the name and address of the injured/deceased person; (2) the time and location of the incident; (3) the names and addresses of CONTRACTOR'S employees or agents who were involved with the incident; (4) the names of COUNTY employees, if any, involved with the incident; and (5) a detailed description of the incident.

B. Child Abuse Reporting. CONTRACTOR shall ensure that all known or suspected instances of child abuse or neglect are promptly reported to proper authorities as required by the Child Abuse and Neglect Reporting Act, California Penal Code sections 11164, et seq. CONTRACTOR shall require all of its employees, consultants, and agents performing services under this Agreement who are mandated reporters under the Act to sign statements indicating that they know of and shall comply with the Act's reporting requirements.

C. Elder Abuse Reporting. CONTRACTOR shall ensure that all known or suspected instances of abuse or neglect of elderly people 65 years of age or older and dependent adults age 18 or older are promptly reported to proper authorities as required by the Elder Abuse and Dependent Adult Protection Act (California Welfare and Institutions Code, sections 15600 Code, et seq.). CONTRACTOR shall require all of its employees, consultants, and agents performing services under this Agreement who are mandated reporters under the Act to sign statements indicating that they know of and shall comply with the Act's reporting requirements.

XII. INDEMNIFICATION

CONTRACTOR shall indemnify, defend, and hold harmless the COUNTY, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies, in connection with the performance of this

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR'S performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the COUNTY. "CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.

XIII. INSURANCE

A. Evidence of Coverage. Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the CONTRACTOR upon request shall provide a certified copy of the policy or policies.
This verification of coverage shall be sent to the COUNTY'S Contracts/Purchasing Office, unless otherwise directed. The CONTRACTOR shall not receive approval for services for work under this Agreement until all insurance has been obtained as required and approved by the COUNTY. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

B. Qualifying Insurers. All coverage, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current A. M. Best's Key Rating Guide or a company of equal financial stability that is approved by the COUNTY'S Contracts/Purchasing Officer.

C. Insurance Coverage Requirements. Without limiting CONTRACTOR'S duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

1. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

2. Business automobile liability insurance, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

3. Workers Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

4. Professional Liability Insurance, if required for the professional service being provided, (e.g., those persons authorized by a license to engage in business or profession regulated by the California Business and Professional Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

D. Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the COUNTY and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the COUNTY shall be given notice in writing at least thirty (30) calendar days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

XIV. ACCESS TO AND AUDIT OF RECORDS

A. Right to Inspect Records. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State laws including, but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., the COUNTY or its representative, Federal or State governments may conduct an audit, review or other monitoring procedures of the CONTRACTOR regarding the services/activities provided under this Agreement. The COUNTY or its representative, Federal or State governments shall have the right to inspect any and all books, records, and facilities maintained by CONTRACTOR during normal business hours and without advance notice to evaluate the use of funds and the cost, quality, appropriateness, and timeliness of services.

B. Maintenance of Records. CONTRACTOR shall maintain any and all records documenting all services set forth under this Agreement for a period of ten (10) years from the end of the fiscal year in which such services were provided or until three (3) years after final resolution of any audits, or appeals, whichever occurs later. CONTRACTOR shall maintain such records in a form comporting with generally accepted accounting and auditing standards and all applicable laws.

C. Overpayment. If the results of any audit show that the funds paid to CONTRACTOR under this Agreement exceeded the amount due, then CONTRACTOR shall pay the excess amount to COUNTY in cash not later than thirty (30) calendar days after the COUNTY notifies the CONTRACTOR of such overpayment; or, at COUNTY'S election, COUNTY may recover the excess or any portion of it by offsets made by COUNTY against any payment(s) owed to CONTRACTOR under this or any other Agreement or as set forth in Exhibit I, if made part of this Agreement.

D. Responsibility for Audit Exceptions. Any and all audit exceptions by COUNTY or any Federal or State agency resulting from an audit of CONTRACTOR'S performance of this

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

Agreement, or actions by CONTRACTOR, its officers, agents, and employees shall be the sole responsibility of the CONTRACTOR.

E. Availability of Records for Grievances and Complaints by Recipients of Service. CONTRACTOR shall ensure the availability of records for the prompt handling of grievances or complaints filed by recipients of services. Release of records shall be subject to the confidentiality provisions set forth in this Agreement.

F. Reports. CONTRACTOR shall prepare any reports and furnish all information required for reports to be prepared by the COUNTY as may be required by the State of California or applicable law, including, but not limited to Budgets, Cost Allocation Methodologies, Tax Returns, Accounting Policies, Audited Financial Statements, Organization Charts, Personnel Policies, Bank Reconciliations, and Depreciation Schedules.

XV. NON-DISCRIMINATION

A. Non-discrimination. During the performance of this Agreement, CONTRACTOR shall not unlawfully discriminate against any person because of race, religion, color, sex, gender, gender identity, genetic information, national origin, ethnic group identification, ancestry, mental or physical handicap, medical condition, health status or need for health care services, marital status, age (over 40), or sexual orientation, either in CONTRACTOR'S employment practices or in the furnishing of services to recipients. CONTRACTOR shall insure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be unlawful discrimination. In addition, CONTRACTOR'S facility access for the disabled shall comply with § 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

B. Discrimination defined. The term "discrimination," as used in this Agreement, is the same term that is used in Monterey County Code, Chapter 2.80 ("Procedures for Investigation and Resolution of Discrimination Complaints"); it means the illegal denial of equal employment opportunity, harassment (including sexual harassment and violent harassment), disparate treatment, favoritism, subjection to unfair or unequal working conditions, and/or discriminatory practice by any Monterey County official, employee or agent, due to an individual's race, color, ethnic group, sex, national origin, ancestry, religious creed, sexual orientation, age, veteran's status, cancer-related medical condition, physical handicap (including AIDS) or disability. The term also includes any act of retaliation.

C. Application of Monterey County Code Chapter 2.80. The provisions of Monterey County Code Chapter 2.80 apply to activities conducted pursuant to this Agreement. CONTRACTOR and its officers and employees, in their actions under this Agreement, are agents of the COUNTY within the meaning of Chapter 2.80 and are responsible for ensuring that their workplace and the services that they provide are free from discrimination, as required by Chapter 2.80. Complaints of discrimination made by recipients of services against CONTRACTOR may be pursued by using the procedures established by or pursuant to Chapter 2.80. CONTRACTOR shall establish and follow its

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

own written procedures for prompt and fair investigation and resolution of discrimination complaints made against CONTRACTOR by its own employees and agents or recipients of services pursuant to this Agreement, and CONTRACTOR shall provide a copy of such procedures to COUNTY on demand by COUNTY.

D. Compliance with Applicable Law. During the performance of this Agreement, CONTRACTOR shall comply with all applicable Federal, State and local laws and regulations which prohibit discrimination including, but not limited to, the following:

1. California Code of Regulations, Title 9, §§ 526, 527;
2. California Fair Employment and Housing Act, (Govt. Code § 12900, et seq.), and the administrative regulations issued thereunder, Cal. Code of Regulations, Title 2, § 7285, et seq.;
3. California Government Code, sections 11135-11139.5 (Title 2, Div. 3, Part 1, Chap. 1, Art. 9.5) and any applicable administrative rules and regulations issued under these sections;
4. Federal Civil Rights Acts of 1964 and 1991 (see especially Title VI, 42 U.S.C. § 2000(d), et seq.), as amended, and all administrative rules and regulations issued thereunder (see especially 45 C.F.R. Parts 80);
5. Sections 503 and 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §§ 793 and 794); all requirements imposed by the applicable HHS regulations (45 C.F.R. Part 84); and all guidelines and interpretations issued pursuant thereto;

7. Unruh Civil Rights Act, Cal. Civil Code § 51, et seq.
8. California Government Code section 12900 (A-F) and California Code of Regulations, Title 2, Division 4, Chapter 5.

In addition, the applicable regulations of the California Fair Employment and Housing Commission implementing Government Code § 12990 as set forth in Chapter 5, Division 4 of Title 2 of the California Code of Regulations are incorporated into this Agreement by reference and made a part hereof as if set forth in full.

E. Written Assurance. Upon request by COUNTY, CONTRACTOR shall give any written assurances of compliance with the Civil Rights Acts of 1964 and 1991, the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990, as may be required by the Federal government in connection with this Agreement, pursuant to 45 C.F.R. sec. 80.4 or C.F.R. § 84.5 or other applicable Federal or State regulations.

F. Written Statement of Non-discrimination Policies. CONTRACTOR shall maintain a written statement of its non-discrimination policies and procedures. I. Binding on Subcontractors. The provisions above shall also apply to all of CONTRACTOR'S subcontractors who provide services pursuant to this Agreement. CONTRACTOR shall include the non-discrimination and compliance provisions set forth above in all its subcontracts to perform work or provide services under this Agreement.

XVI. CULTURAL COMPETENCY AND LINGUISTIC ACCESSIBILITY

A. CONTRACTOR shall provide services in a culturally competent manner to assure access to services by all eligible individuals as required by State regulations and policies, other applicable laws, and in accordance with Exhibit E of this Agreement. Cultural competency is defined as a congruent set of practice skills, behaviors, attitudes, and policies that enable staff to work effectively in providing contractual services under this Agreement in cross-cultural situations. Specifically, CONTRACTOR'S provision of services shall acknowledge the importance of culture, adapt services to meet culturally unique needs, and promote congruent skills, behaviors, attitudes, and policies enabling all persons providing services to function effectively in cross-cultural situations.

B. CONTRACTOR shall provide linguistically accessible services to assure access to services by all eligible individuals as required by State regulations and policies and other applicable laws. Specifically, CONTRACTOR shall provide services to eligible individuals in their primary language through linguistically proficient staff or interpreters. Family members, friends, or neighbors may be used as interpreters only in emergency situations.

C. For the purposes of this Section, "access" is defined as the availability of medically necessary mental health services in a manner that promotes and provides the opportunity for services and facilitates their use.

C. Requiring that each employee engaged in the performance of the Agreement or grant is given a copy of the company's drug-free policy statement and that, as a condition of employment on the contract or grant, the employee agrees to abide by the terms of the statement.

XVIII. INDEPENDENT CONTRACTOR

In the performance of work, duties, and obligations under this Agreement, CONTRACTOR is at all times acting and performing as an independent contractor and not as an employee of the COUNTY. No offer or obligation of permanent employment with the COUNTY or particular COUNTY department or agency is intended in any manner, and CONTRACTOR shall not become entitled by virtue of this Agreement to receive from COUNTY any form of employee benefits including, but not limited to sick leave, vacation, or retirement benefits, workers' compensation coverage, insurance, disability benefits, or social security benefits, or unemployment compensation or insurance. CONTRACTOR shall be solely liable for and obligated to pay directly all applicable taxes including, but not limited to, Federal and State income taxes and Social Security, arising out of CONTRACTOR'S compensation for performance of this Agreement. In connection therewith, CONTRACTOR shall defend, indemnify, and hold the COUNTY harmless from any and all liability COUNTY may incur because of CONTRACTOR'S failure to pay such taxes when due.

In the event of changes in law that effect the provisions of this Agreement, the parties agree to amend the affected provisions to conform to the changes in the law retroactive to the effective date of such changes in law. The parties further agree that the terms of this Agreement are severable and, in the event of changes in law as described above, the unaffected provisions and obligations of this Agreement shall remain in full force and effect.

O. Successors and Assigns. B. To stabilize the individual's psychiatric condition through medication management and program services.

C. To restore the individual's level of functioning to the community to a lower level of care.

D. To increase the individual's motivation and skills toward self-restoration.

E. To prevent or decrease the rate of de-compensation, thus decreasing placements at higher, more costly levels of care.

F. To provide the intensive staff required to supervise and treat behavioral psychiatric and medical conditions.

V. PROGRAM PLAN OF OPERATION

The Contractor will provide the COUNTY with a copy of the Mental Health Rehabilitation Center Plan of Operation.

VI. CASE MANAGEMENT

The COUNTY will provide a case manager to coordinate services and assess for discharge planning.

VII. ADMISSIONS/BASIC SERVICES/CONTINUED STAY CRITERIA

A. ADMISSION CRITERIA

The CONTRACTOR shall admit patients with a DSM V diagnosis and conserved found to be gravely disabled subject to bed availability, with order of a physician, and in

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

compliance with reasonable admission policies and procedures. Individuals in need of 24-hour nursing services, patients who may have histories of and, without adequate treatment, are at risk of displaying behavioral symptoms (such as combativeness, development risk, suicide risk, and excessive verbal abusiveness) which preclude them from being admitted into a lower-level care facility, shall be considered acceptable for admission. Frequency, scope, and severity of these behaviors are a determining factor to be discussed on an individual patient basis between the COUNTY and the CONTRACTOR. The COUNTY may grant individual exceptions to these admission criteria. Individuals whose mental illness is deemed appropriate for acute care, as well as individuals suffering exclusively from developmental disability, mental retardation or physical illnesses (without a psychiatric component) shall not be considered for admission. The COUNTY shall participate in the CONTRACTOR'S Priority Access Program, which gives COUNTY clients priority admission to services. When COUNTY client(s) graduates or discharges, the COUNTY shall decide to keep or release the bed. All admissions are subject to the prior authorization from the COUNTY and CONTRACTOR's commitment to provide care and services in accordance with the terms of this Agreement.

B. BASIC SERVICES

The basic service level (the minimum array of services provided to IMD residents) shall comply with Title 9 of the California Code of Regulations, Chapter 3.5, Sections 782.10 through 787.14, which includes life skill training, money management, training on accessing community services, transitional programs, and discharge planning with the COUNTY staff. Basic services shall also include reasonable access to required medical treatment and up-to-date psychopharmacology and transportation to reasonable needed off-site services and bilingual/ bicultural programming as specifically described herein.

C. CONTINUED STAY CRITERIA

1. Admission for contracted services occurs only under the order of a licensed mental health physician, with approval of the COUNTY representative(s).

2. Admission is available only to individuals in need of 24-hour nursing services and observation of mental illness or other related disorders. Individuals with exclusively physical illnesses shall not be admitted.

3. Clients must exhibit behavioral symptoms, which prohibit them from being admitted into a lower-level care. Due to their mental illness, clients are unable to provide for their basic needs.

VIII. DISCHARGE CRITERIA & PLANNING

At the point the individual no longer requires the level of service of a locked facility, as determined by the COUNTY case manager, a plan for their transfer to a less restrictive community setting will be arranged by the COUNTY case manager in conjunction with the CONTRACTOR staff.

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

The COUNTY case manager shall provide a two-week (14-day) notice to CONTRACTOR staff prior to initiating a transfer. In the case of a transfer occurring before the two-week notification period has expired, COUNTY shall be responsible for reimbursing CONTRACTOR for that portion of full days remaining in the two-week notification period, based at the current service level rate in effect at the time of initial transfer notification.

IX. TRANSFER TO ACUTE LEVEL OF CARE

If an individual meets the criteria of medical necessity for acute psychiatric inpatient care, the CONTRACTOR will notify the COUNTY conservator and case manager, then proceed with notification by the CONTRACTOR's psychiatrist to the COUNTY's inpatient psychiatrist to arrange for the transfer of the individual.

X. LIMITATIONS OF SERVICE

The CONTRACTOR will operate within the scope of services outlined in the CONTRACTOR's State of California license.

XI. CHANGE OF SERVICE LEVEL/RATE

A. SERVICE LEVEL/RATE REDUCTIONS

Service level/rate reductions must be approved by the CONTRACTOR. COUNTY is eligible to submit a service level/rate change every ninety (90) days. COUNTY has the option to request a lower service level/rate and thereby shall submit a written notice to CONTRACTOR requesting the lower service level/rate change. Upon CONTRACTOR's determination, the lower service level/rate change would be approved or denied.

The daily rate for the CPT Diversion program will be eligible for review. There are no automatic rate reductions.

Criteria for a daily rate reduction may be based on but not limited to: change in legal status, overall progress in the CPT level system, program participation, behavior(s), medication/treatment compliance, and the necessary support required to adequately maintain the particular patient.

B. SERVICE LEVEL/RATE INCREASES

Service level/rate increases must be approved by the COUNTY and incorporated into a fully-executed Amendment to this Contract in advance of the submission of any invoice with a new level/rate beyond that specified in the Contract. CONTRACTOR is eligible to request the COUNTY Contract Amendment process at any time, and has the option to request a higher service level/rate. CONTRACTOR shall thereby submit a written notice to COUNTY via the Program Manager/Contract Monitor or assigned Contracts Analyst, requesting the higher service level/rate change, with written justification as to the budgetary reasons underlying the requested rate increase. Upon COUNTY's determination, the higher service level/rate change would be approved or denied.

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

COUNTY clients shall receive the services commensurate with the level at which they are placed and at which the COUNTY is invoiced, regardless of their physical location. E.g., clients approved for the DBU but temporarily housed in the Main Unit, will receive the additional services and increased staffing commensurate with the DBU level of care.

XII. TYPES OF SERVICES

The following program service levels will be provided within Fiscal Year 2025-26:

OR, individuals who are court ordered to a diversion program (under a 1001.20 diversion hold), however, have been determined competent to stand trial and are under an order of further treatment.

XIII. EVALUATION AND REPORTING REQUIREMENTS

In addition to all evaluation and reporting requirements previously stated in this Agreement, CONTRACTOR shall meet all evaluation and reporting requirements stated as a condition

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

of the facility's license. Additionally, CONTRACTOR shall report any unusual incidents that occur at the facility to the Contract Monitor/Liaison.

XIV. QUALITY ASSURANCE

A. CONTRACTOR shall comply with Chapter 3.5 of Division 1 of Title 9 of the California Code of Regulations pertaining to Mental Health Rehabilitation Centers.

B. CONTRACTOR shall meet all quality assurance requirements which are a condition of their license. COUNTY will routinely monitor the CONTRACTOR in terms of compliance with the COUNTY'S Quality Improvement Plan (QIP) in the following areas:

1. Medical necessity;
2. Appropriateness of continued treatment;
3. Focus, level, intensity of care;
4. Outcome of treatment; and
5. Cost of treatment.

XV. MONTEREY INTEGRATED SYSTEM OF CARE TRANSFORMATION INITIATIVE (MISTI)

A. Participation in the Monterey Integrated System of Care Transformation Initiative

Monterey County Behavioral Health (MCBH) envisions a system of care that addresses the needs of individuals and families with co-occurring mental health (MH) and substance use disorder (SUD) conditions, as well as other MH and/or SUD complex challenges, across their lifespan. The system is designed to ensure that services are welcoming, coordinated, and integrated, focusing on cultural and linguistic competence.

CONTRACTOR shall participate in the Monterey Integrated System Transformation Initiative (MISTI). CONTRACTOR will take specific actions to develop co-occurring capability within their programs, including:

- Appointing a representative to the MISTI Steering Committee.
- Identifying a change agent for each program to participate in monthly meetings and training events
- Completing a COMPASS-EZ self-assessment for each agency and identifying priority areas for action
- Developing a Quality Improvement (QI) action plan derived from the COMPASS-EZ that focuses on at least three key areas such as improving engagement, recognition, integrated service planning, and staff competency in co-occurring care.
- Participating in activities designed by MCBH to improve collaboration between mental health and substance use disorder programs, ensuring integrated care for individuals with co-occurring conditions

III. PAYMENT RATE

A. BED HOLD RATE

The rate for Leave of Absence and Bed Hold for acute hospitalization shall remain at the per diem rate based on the placement rate of client at the time of leave.

2. CONTRACTOR will provide individual 1:1 monitoring enhanced support and supervision with prior authorization from COUNTY. The rate for 1:1 monitoring enhanced support and supervision is $59.00 per hour in 15-minute increments. An example of individual support and supervision requiring 1:1 monitoring is:

   - Individual support for clients diagnosed with Severe & Persistent Mental Illness (SPMI) and Intellectual Disabilities, that without this individual support are placing their housing at risk due to the escalation of symptoms and behaviors.

3. CONTRACTOR agrees to immediately contact (or contact as soon as is feasibly possible thereafter, if such determination of need for 1:1 monitoring support is made after hours) COUNTY Contract Monitor and/or Program Manager and/or assigned Contracts Analyst at the time a patient is placed on 1:1 monitoring so that a timely assessment can be made by the COUNTY in conjunction with CPT physician staff.

4. COUNTY clinical expectation is that 1:1 monitoring support and supervision shall not typically exceed 16 hours per day and be an irregular event and not a permanent aspect of a patient's normal care. Patients requiring more than 16 hours per day of individual support and supervision, or who require individual support for consecutive days per month, or who otherwise meet a threshold requiring higher than normal staff supervision, shall be referred to the COUNTY for a clinical review in conjunction with CPT physician staff to determine their suitability for movement to a higher level of care, rather than continuing higher levels of 1:1 monitoring support at the lower level of care.

IV. PAYMENT CONDITIONS

A. In order to receive any payment under this Agreement, CONTRACTOR shall submit reports and claims in such form as General Ledger, Payroll Report and other accounting documents as needed, and as may be required by the County of Monterey Department of

C. If CONTRACTOR fails to submit claim(s) for services provided under the terms of this Agreement as described above, the COUNTY may, at its sole discretion, deny payment for that month of service and disallow the claim.

D. COUNTY shall review and certify CONTRACTOR'S claim either in the requested amount or in such other amount as COUNTY approves in conformity with this Agreement, and shall then submit such certified claim to the COUNTY Auditor within five (5) calendar days. F. If COUNTY certifies payment at a lesser amount than the amount requested COUNTY shall immediately notify the CONTRACTOR in writing of such certification and shall specify the reason for it. If the CONTRACTOR desires to contest the certification, the CONTRACTOR must submit a written notice of protest to the COUNTY within twenty (20) calendar days after the CONTRACTOR'S receipt of the COUNTY notice. The parties shall thereafter promptly meet to review the dispute and resolve it on a mutually acceptable basis. D. If for any reason this Agreement is canceled, COUNTY'S maximum liability shall be the total utilization to the date of cancellation not to exceed the maximum amount listed above.

E. As an exception to Section D. above with respect to the Survival of Obligations after Termination, COUNTY, any payer, and CONTRACTOR shall continue to remain obligated under this Agreement with regard to payment for services required to be rendered after termination.

B. This Agreement shall also be subject to any additional restrictions, limitations, or conditions imposed by the Federal government which may in any way affect the provisions or funding of this Agreement.

C. In the event that the COUNTY'S Board of Supervisors adopts, in any fiscal year, a COUNTY Budget which provides for reductions in COUNTY Agreements, the COUNTY

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

reserves the right to unilaterally reduce its payment obligation under this Agreement to implement such Board reductions for that fiscal year and any subsequent fiscal year during the term of this Agreement, correspondingly. The COUNTY'S notice to the CONTRACTOR regarding said reduction in payment obligation shall be provided within thirty (30) calendar days of the Board's approval of such action.

D. Notwithstanding any other provision of this Agreement, COUNTY shall not be obligated for CONTRACTOR'S performance hereunder or by any provision of this Agreement during any of COUNTY'S current or future fiscal year(s) unless and until COUNTY'S Board of Supervisors appropriates funds for this Agreement in COUNTY'S Budget for each such fiscal year. In the event funds are not appropriated for this Agreement, then this Agreement shall terminate as of June 30 of the last fiscal year for which funds were appropriated. EXHIBIT E: ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement

- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration

- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access

- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.
- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.

(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.

(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.

(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.

(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Trique, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials, resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B);

permitted under 45 C.F.R. § 164.504(e)(4)(ii), provided that Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the information is Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and that such person will notify the Business Associate of any instances of which such person is aware that the confidentiality of the information has been breached; and

(e) Use PHI to report violations of law to appropriate Federal and state authorities, consistent with 45 C.F.R. § 164.502(j)(1).

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410(c), which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

(iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non-permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 Business Associate Acknowledgment.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de-identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R. § 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504(e)(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and (v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.8 Indemnification. Business Associate shall indemnify, defend, and hold harmless the County of Monterey (the "County"), its officers, agents, and employees from any claim, liability, loss, injury, cost, expense, penalty or damage, including costs incurred by the County with respect to any investigation, enforcement proceeding, or third party action, arising out of, or in connection with, a violation of this BAA, HIPAA or California Confidentiality Laws, or a Breach that is attributable to an act or omission of Business Associate and/or its agents, members, employees, or Subcontractors, excepting only loss, injury, cost, expense, penalty or damage caused by the negligence or willful misconduct of personnel employed by the County. It is the intent of the Parties to provide the broadest possible indemnification for the County. This provision is in addition to, and independent of, any indemnification provision in any Services Agreement between the Parties.

5.9 Applicability of Terms. This BAA applies to all present and future Services Agreements and business associate relationships, written or unwritten, formal or informal, in which Business Associate creates, receives, transmits, or maintains any PHI for or on behalf of Covered Entity in any form whatsoever. This BAA shall automatically be incorporated in all subsequent agreements between Business Associate and Covered Entity involving the Use or Disclosure of PHI whether or not specifically referenced therein. In the event of any conflict or inconsistency between a provision of this BAA and a provision of any other agreement between Business Associate and Covered Entity, the provision of this BAA shall control unless the provision in such other agreement establishes additional rights for Business Associate or additional duties for or restrictions on Business Associate with respect to PHI, in which case the provision of such other agreement will control.

5.10 Insurance. In addition to any general and/or professional liability insurance required of Business Associate under the Services Agreement, Business Associate agrees to obtain and maintain, at its sole expense, liability insurance on an occurrence basis, covering any and all claims, liabilities, demands, damages, losses, costs expenses, fines, and compliance costs arising from a breach of the obligations of Business Associate, its officers, employees, agents and Subcontractors under this BAA. Without limiting the foregoing, at a minimum, Business Associate's required insurance under this Section shall include cyber liability insurance covering breach notification expenses, network security and privacy liability. The insurance coverage limits, per claim and in the aggregate, shall not be less than the following amounts based upon the number of unique patient served under this agreement:

Unique Patients	Coverage

More than 60,000	$10,000,000

If the Business Associate maintains broader coverage and/or higher limits than these minimums, the Covered Entity requires, and shall be entitled to, the broader coverage and/or the higher limits maintained by the Business Associate. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be

Docusign Envelope ID: 27D3E590-2327-4D2D-B5EC-0CF1323160E4

5.11 Legal Actions. Promptly, but no later than five (5) calendar days after notice thereof, Business Associate shall advise Covered Entity of any actual or potential action, proceeding, regulatory or governmental orders or actions, or any material threat thereof that becomes known to it that may affect the interests of Covered Entity or jeopardize this BAA, and of any facts and circumstances that may be pertinent to the prosecution or defense of any such actual or potential legal action or proceeding, except to the extent prohibited by law. 5.15 Information Blocking Rules. Business Associate shall not take any action, or refuse to take any action, with regard to Covered Entity's electronic health information that would result in "information blocking" as prohibited by 42 U.S.C. § 300jj-52 and 45 C.F.R. Part 171 (collectively, "Information Blocking Rules"). Business Associate and Covered Entity shall cooperate in good faith to ensure Covered Entity's electronic health information is accessed, exchanged, and used in compliance with the Information Blocking Rules.

a. Introduce, waive first reading, and set September 16, 2025 at 10:30 a.m. as the date and time to consider adoption of an ordinance of the County of Monterey, State of California, amend Chapter 15.04 of the Monterey County Code to remove County of Monterey regulation of small public water systems; and
b. Find the adoption of this ordinance is categorically exempt per Sections 15060(c)(2) and 15060(c)(3) of the California Environmental Quality Act Guidelines because it is an administrative activity that will not result in direct or indirect changes to the environment.

RECOMMENDATION:
It is recommended that the Board of Supervisors
a. Find the adoption of this ordinance is categorically exempt per Sections 15060(c)(2) and 15060(c)(3) of the CEQA Guidelines because it is an administrative activity that will not result in direct or indirect changes to the environment; and
b. Introduce, waive first reading, and set September 16, 2025 at 10:30 a.m. as the date and time to consider adoption of an ordinance to amend Chapter 15.04 of the Monterey County Code to remove County of Monterey regulation of small public water systems.

SUMMARY:

The proposed ordinance amends sections of Chapter 15.04 to remove County of Monterey ("County") regulation of Small Public Water Systems, as defined as a system for the provision of piped water to the public for human consumption that has at least 15 but not more than 199 service connections or regularly serves at least 25 individuals at least 60 days out of the year. Since 1993, the County has been delegated local primacy responsibility for Small Public Water Systems pursuant to the Delegation Agreement between the State and the County. As of September 1, 2025, the Delegation Agreement will terminate, and the State will regulate all Small Public Water Systems in Monterey County.

The County will continue to regulate Local Small Water Systems, defined as serving 2-4 service connections and State Small Water Systems defined as a system that serves at least 5, but not more than 14, service connections, and does not regularly serve drinking water to more than an average of 25 individuals daily for more than 60 days per year.

DISCUSSION:
California Department of Public Health, under the provisions of Section 116330 of the California Health and Safety Code, has previously delegated primacy to 32 local primacy agencies ("LPA") for the regulation of public water systems with 15 to 199 service connections and certain non-community water systems. LPAs are county environmental health jurisdictions

that have applied for and were granted regulatory authority over a portion of the public water systems in their county, including Monterey County. The last LPA agreement was executed July 1, 1993 and renewed annually. In 2013, the LPA agreement was updated to clarify issues and update the partnership between Monterey County and the State to assure a healthy water supply for County residents.

The County of Monterey Environmental Health Bureau ("EHB") has administered the LPA program, having been committed to ensuring the safety and quality of drinking water for the community. However, the resource challenges and lack of adequate state support have placed significant strain on the ability to fulfill the requirements of the LPA Agreement. After an extensive evaluation of resources and the capacity to administer the program, EHB, pursuant to California Department of Public Health, under the provisions of Section 116330(c)(2) of the Health and Safety Code, notified the State Water Resources Control Board that effective September 1, 2025, the County will no longer retain local primacy.

Monterey County Code Chapter 15.04 addresses the LPA in multiple sections. The ordinance amendment, as indicated in the red-line and clean copies of the ordinance included as Attachments 1 and 2, removes items in these sections from Monterey County Code that are no longer relevant with the return of the local primacy back to the State.

CEQA
Under the California Environmental Quality Act ("CEQA"), this ordinance is not considered a "Project" under CEQA because it does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment (CEQA Guidelines Sections 15060(c)(2) and 15060(c)(3)).

While this work is not directly in support of a Health Department strategic goal, it is in support of one or more of the ten essential public health services, specifically, 2. Diagnose and investigate health problems and health hazards in the community; 3. Inform, educate, and empower people about health issues; and 6. Enforce laws and regulations that protect health and ensure safety.

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel has reviewed and approved the ordinance as to form.

FINANCING:
Adoption of the ordinance will have no financial impacts.

This ordinance amends sections of Chapter 15.04 to remove County of Monterey ("County") regulation of Small Public Water Systems, as defined as a system for the provision of piped water to the public for human consumption that has at least 15 but not more than 199 service connections or regularly serves at least 25 individuals at least 60 days out of the year. Since 1993, the County has been delegated local primacy responsibility for Small Public Water Systems pursuant to the Delegation Agreement between the State and the County. The State and County are terminating the Delegation Agreement and the State will take over regulation of Small Public Water Systems. This ordinance makes the appropriate amendments to memorialize this change.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. FINDINGS AND DECLARATIONS.

A. Pursuant to Article XI, Section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens.

B. Pursuant to Chapter 4, of the "California Safe Drinking Water Act", Article 2, Section 116330 *et seq*., as may be amended from time to time, the California Department of Health Services (hereinafter "Department"), may delegate primary responsibility for the administration and enforcement of the "California Safe Drinking Water Act", within a county to a local health officer authorized by a board of supervisors to assume these duties, by means of a local primacy delegation agreement if the local health officer demonstrates that it has the capability to meet the local primacy program requirements established by the Department pursuant to Section 116375(h).

C. Per state law, this delegation shall not include the regulation of community water systems serving 200 or more service connections (Health and Safety Code Section 116330).

D. Since 1993, the County has been delegated local primacy responsibility pursuant to the Delegation Agreement between the State and the County entered on July 1, 1993, and renewed annually.

E. As of September 1, 2025, the Delegation Agreement will terminate, and the State will regulate all Small Public Water Systems in Monterey County. A "Small Public Water System" is defined as a system for the provision of piped water to the public for human

consumption that has at least 15 but not more than 199 service connections or regularly serves at least 25 individuals at least 60 days out of the year.

F. The County will continue to regulate Local Small and State Small water systems, as defined in Monterey County Code Chapter 15.04.

G. Under the California Environmental Quality Act ("CEQA"), this ordinance is not considered a "Project" under CEQA because it does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment (CEQA Guidelines Sections 15060(c)(2) and 15060(c)(3)).

SECTION 2. Section 15.04.005 of the Monterey County Code is amended to read as follows:

Under Section~~s 116330 and~~ 116340 of the California Health and Safety Code, as may be amended from time to time, the Health Officer of Monterey County has authority to regulate and carry out the local drinking water program.

SECTION 3. Subsection (b) of Section 15.04.006 of the Monterey County Code is amended to read as follows:

This Chapter is intended to ensure that the water delivered by domestic ~~public~~ water systems of Monterey County shall be pure, wholesome, and potable at all times. The provisions of this Chapter provide the means to accomplish this objective.

SECTION 4. Section 15.04.010 of the Monterey County Code is amended to read as follows:

This Chapter is intended to provide the means to ensure that the water delivered by domestic water systems shall at all times be pure, wholesome, and potable.

It is the intent of the California State Legislature to improve laws governing drinking water quality, to improve upon the minimum requirements of the Federal Safe Drinking Water Act Amendments of 1966, to establish primary drinking water standards that are at least as stringent as those established under the Federal Safe Drinking Water Act, and to establish a program that is more protective of public health than the minimum Federal requirements. (California Health and Safety Code Section 116270(f), as may be amended from time to time).~~Pursuant to Chapter 4, of the "California Safe Drinking Water Act", Article 2, Section 116330 et seq., as may be amended from time to time, the California Department of Health Services (hereinafter "Department"), may delegate primary responsibility for the administration and enforcement of the "California Safe Drinking Water Act", within a County to a local Health Officer authorized by the Board of Supervisors to assume these duties, by means of a local primacy delegation agreement if the local Health Officer demonstrates that it has the capability to meet the local primacy program requirements established by the Department pursuant to Subdivision (h) of Section 116375, as may be amended from time to time. This delegation shall not include the regulation of community water systems serving two hundred (200) or more~~

~~service connections (California Health and Safety Code Section 116330, as may be amended from time to time).~~

~~Since 1993, Monterey County has been delegated local primacy responsibility pursuant to the Delegation Agreement between the State and Monterey County entered on July 1, 1993, and renewed annually.~~

Therefore, the purposes of this Chapter are to: (1) regulate construction, installation, maintenance and operation of domestic water systems which have at least two (2), but not more than ~~one hundred ninety-nine (199)~~fourteen (14) service connections; (2) supplement minimum State laws and standards for construction, installation, maintenance, and operation of s~~S~~tate small water systems; and~~;~~ (3) regulate the quality and quantity of water supplied to and by such water systems, thereby promoting the public health, safety, and welfare.

SECTION 5. Section 15.04.020 of the Monterey County Code is amended to read as follows:

The Department may impose permit conditions, requirements for system improvements, and time schedules as it deems necessary to assure a continuous, reliable and adequate source of water that is pure, wholesome, potable, and does not endanger the health of consumers at all times, and to assure that the system will be lawfully operated on a continuing basis by a responsible person.

2. Any local small or s~~S~~tate small water system that was not in existence on January 1, 1998, shall not be granted a permit unless the water system demonstrates to the Department that the water supplier has adequate capability to assure the delivery of pure, wholesome, and potable water for human consumption. ~~(Authority: California Health & Safety Code Section 116540.~~

ORDINANCE NO._____

AN ORDINANCE OF THE COUNTY OF MONTEREY, STATE OF CALIFORNIA AMENDING CHAPTER 15.04 OF THE MONTEREY COUNTY CODE TO REMOVE REGULATION OF SMALL PUBLIC WATER SYSTEMS

County Counsel Summary

This ordinance amends sections of Chapter 15.04 to remove County of Monterey ("County") regulation of Small Public Water Systems, as defined as a system for the provision of piped water to the public for human consumption that has at least 15 but not more than 199 service connections or regularly serves at least 25 individuals at least 60 days out of the year. Since 1993, the County has been delegated local primacy responsibility for Small Public Water Systems pursuant to the Delegation Agreement between the State and the County. The State and County are terminating the Delegation Agreement and the State will take over regulation of Small Public Water Systems. This ordinance makes the appropriate amendments to memorialize this change.

The Board of Supervisors of the County of Monterey ordains as follows:

SECTION 1. FINDINGS AND DECLARATIONS.

A. Pursuant to Article XI, Section 7 of the California Constitution, the County of Monterey ("County") may adopt and enforce ordinances and regulations not in conflict with general laws to protect and promote the public health, safety, and welfare of its citizens.

B. Pursuant to Chapter 4, of the "California Safe Drinking Water Act", Article 2, Section 116330 *et seq*., as may be amended from time to time, the California Department of Health Services (hereinafter "Department"), may delegate primary responsibility for the administration and enforcement of the "California Safe Drinking Water Act", within a county to a local health officer authorized by a board of supervisors to assume these duties, by means of a local primacy delegation agreement if the local health officer demonstrates that it has the capability to meet the local primacy program requirements established by the Department pursuant to Health and Safety Code Section 116375(h).

C. Per state law, this delegation shall not include the regulation of community water systems serving 200 or more service connections (Health and Safety Code Section 116330).

D. Since 1993, the County has been delegated local primacy responsibility pursuant to the Delegation Agreement between the State and the County entered on July 1, 1993, and renewed annually.

E. As of September 1, 2025, the Delegation Agreement will terminate, and the State will regulate all Small Public Water Systems in Monterey County. A "Small Public Water System" is defined as a system for the provision of piped water to the public for human

consumption that has at least 15 but not more than 199 service connections or regularly serves at least 25 individuals at least 60 days out of the year.

F. The County will continue to regulate Local Small and State Small water systems, as defined in Monterey County Code Chapter 15.04.

G. Under the California Environmental Quality Act ("CEQA"), this ordinance is not considered a "Project" under CEQA because it does not have the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment (CEQA Guidelines Sections 15060(c)(2) and 15060(c)(3)).

SECTION 2. Section 15.04.005 of the Monterey County Code is amended to read as follows:

Under Section 116340 of the California Health and Safety Code, as may be amended from time to time, the Health Officer of Monterey County has authority to regulate and carry out the local drinking water program.

SECTION 3. Subsection (b) of Section 15.04.006 of the Monterey County Code is amended to read as follows:

This Chapter is intended to ensure that the water delivered by domestic water systems of Monterey County shall be pure, wholesome, and potable at all times. The provisions of this Chapter provide the means to accomplish this objective.

SECTION 4. Section 15.04.010 of the Monterey County Code is amended to read as follows:

This Chapter is intended to provide the means to ensure that the water delivered by domestic water systems shall at all times be pure, wholesome, and potable.

It is the intent of the California State Legislature to improve laws governing drinking water quality, to improve upon the minimum requirements of the Federal Safe Drinking Water Act Amendments of 1966, to establish primary drinking water standards that are at least as stringent as those established under the Federal Safe Drinking Water Act, and to establish a program that is more protective of public health than the minimum Federal requirements. (California Health and Safety Code Section 116270(f), as may be amended from time to time).

Therefore, the purposes of this Chapter are to: (1) regulate construction, installation, maintenance and operation of domestic water systems which have at least two (2), but not more than fourteen (14) service connections; (2) supplement minimum State laws and standards for construction, installation, maintenance, and operation of state small water systems; and (3) regulate the quality and quantity of water supplied to and by such water systems, thereby promoting the public health, safety, and welfare.

SECTION 5. Section 15.04.020 of the Monterey County Code is amended to read as follows:

The Department may impose permit conditions, requirements for system improvements, and time schedules as it deems necessary to assure a continuous, reliable and adequate source of water that is pure, wholesome, potable, and does not endanger the health of consumers at all times, and to assure that the system will be lawfully operated on a continuing basis by a responsible person.

2. Any local small or state small water system that was not in existence on January 1, 1998, shall not be granted a permit unless the water system demonstrates to the Department that the water supplier has adequate capability to assure the delivery of pure, wholesome, and potable water for human consumption.

3. Any local small or State water system which was not in existence on January 1, 1998, shall not be granted a permit unless the water system demonstrates to the Department that sufficient water is available from the system's sources and distribution storage facilities to provide continuous and adequate supply of drinking water for each service connection served by the system.

4. No domestic water system shall be issued a permit if water service for each connection or all connections of a proposed water system is available from a public, private, or mutual water system thereby eliminating the necessity of formation of an additional water system. Availability shall be determined, on a case by case basis, in consideration of the following: willingness of the water system to provide service, a reasonable economic standard, long term viability, and a determination that the water system will have an adequate source and supply of water. A determination by the Director pursuant to this Section, shall be subject to the appeal process below at Section 15.04.180.

5. Local small or state small water system shall comply with the standards and requirements as set forth in Section 15.04.130 and in the most recent edition of Chapter 16, "California Waterworks Standards", of Title 22 of the California Code of Regulations, as may be amended from time to time, and incorporated herein by this reference, regarding design and construction of water systems.

SECTION 8. Subsection (b)(2) of Section 15.04.050 of the Monterey County Code is amended to read as follows:

2. Pursuant to Subsection (a)(5) above, no domestic water system shall be issued a permit if water service for each connection or all connections of a proposed water system is available from a public, private, or mutual water system thereby eliminating the necessity of formation of an additional water system. Availability shall be determined, on a case by case basis, in consideration of the following: willingness of the water system to provide service, a

reasonable economic standard, long term viability, and a determination that the water system will have an adequate source and supply of water. A determination by the Director pursuant to this Section, shall be subject to the Appeal process below at Section 15.04.180.

SECTION 9. Section 15.04.070 of the Monterey County Code is amended to read as follows:

a. No person operating a domestic water system shall add or modify the system's source of supply, add or change the method of treatment of the water supply, or change the system's distribution unless an amended permit has been issued by the Director.

b. Application for an amended permit shall be made in accordance with the provisions of Section 15.04.040, and shall be investigated, considered, determined and issued or denied upon the same terms and conditions as provided in Section 15.04.050 of this Chapter.

c. An amendment to the local small or state small water system operating permit is required to allow a POU or POE treatment program that conforms to the requirements of Chapter 15.06 of the Monterey County Code. The amendment must be renewed annually by the water system. If opportunities for grant funding resources to support long-term water treatment solutions become available, the water system shall demonstrate that it is pursuing such funding in order to be eligible for renewal.

SECTION 10. Section 15.04.130 of the Monterey County Code is amended to read as follows:

This Section incorporates Chapter 16, "California Waterworks Standards", of Title 22 of the California Code of Regulations, as may be amended from time to time, to establish standards and requirements for the design and construction of domestic water systems.

a. Construction of a new domestic water system shall comply with the provisions of Chapter 16 of Title 22 of the California Code of Regulations, as may be amended from time to time, and incorporated herein, including, but not limited to, standards and requirements for basic design, water quantity, source and storage capacities, water pressure, main selection and installation, pipeline design and standards, valve selection, location and installation, disinfection of source, storage and distribution system, and other appurtenant components of the water system.

b. New water systems shall be designed and constructed such that the system provides capability to allow for future consolidation with another system, service area, or adjacent development and to facilitate future interconnection with another water system, looping systems when preferable according to engineering practices, unless special circumstances exist, as determined by the Director pursuant to Section 15.04.170.

c. Any new proposed water system and any expansion, modification, or changes to the water system shall be designed by a professional civil engineer registered in the State of California with experience in water system engineering or other qualified individual with a

minimum of three years experience in water system design and construction to be approved by the Department.

d. All operating water system facilities shall be protected against unauthorized entry and vandalism.

e. Each new water supply well for the water system shall be constructed in accordance with the Monterey County Code Chapter 15.08 and the California Department of Water Resources Bulletins 74-81 and 74-90. Proposed well sites shall be investigated to determine the distance from all contamination sources including, but not limited to, sewage collection and disposal facilities, and any hazards therefrom shall be eliminated prior to well construction.

f. Use of water main size smaller than four inches inside diameter shall be approved by the Department prior to construction, but in no case be less than two inches inside diameter, and shall meet the following requirements:

1. The installation is designed by a professional civil engineer registered in the State of California with experience in water system engineering; and

2. The engineer submits findings to demonstrate the ability of proposed main size to meet specific water quantity demands and minimum pressures.

g. 7057. System Pressure.

1. Normal operating pressure at the service connection shall not be less than twenty-five (25) pounds per square inch gauge (p.s.i.g.) nor more than one hundred twenty-five (125) p.s.i.g., except that during periods of hourly maximum demand at the time of peak seasonal loads the pressure may be not less than twenty (20) p.s.i.g. and that during periods of hourly minimum demand the pressure may be not more than one hundred fifty (150) p.s.i.g. Variations in pressures under normal operation shall not exceed fifty (50) percent of the average operating pressure. The average operating pressure shall be determined by computing the arithmetical average of at least twenty-four (24) consecutive hourly pressure readings.

2. In a water system supplying customers at widely varying elevations, the water system utility may furnish a service which does not comply with the foregoing pressure specification, if the customer is fully advised of the conditions under which average service may be expected, and the customer's agreement is secured in writing.

3. New water systems, or new pressure zones in existing water systems supplying customers at substantially constant elevation shall be designed to maintain an operating pressure at the service connection of not less than thirty-five (35) p.s.i.g. nor greater than one hundred (100) p.s.i.g.

SECTION 11. Subsection (c) of Section 15.04.146 of the Monterey County Code is amended to read as follows:

c. Point-of-Use or Point-of-Entry Treatment. In lieu of a centralized treatment facility, a local small or state small water system may choose to install a POU or POE treatment device at each connection in conformance with the regulations specified in Chapter 15.06 of the Monterey County Code, as may be amended from time to time, subject to approval by the Director.

SECTION 12. Subsection (a) of Section 15.04.147 of the Monterey County Code is amended to read as follows:

a. No state small water system shall add additional service connections to the system such that the total number of service connections served by the system exceeds fourteen (14) before the water system has applied and received from the State Water Board a permit to operate as a public water system as defined by the California Safe Drinking Water Act (Health and Safety Code Section 116270, *et seq*., as may be amended).

SECTION 13. Section 15.04.195 of the Monterey County Code is amended to read as follows:

a. The remedies provided by this Chapter are cumulative and in addition to any other remedies available at law or in equity.

b. It shall be unlawful for any person to violate any provision, or to fail to comply with any of the requirements, of this Chapter. Any person violating any of the provisions or failing to comply with any of the mandatory requirements of this Chapter shall be guilty of a misdemeanor. No proof of knowledge, intent, or other mental state is required to establish a violation.

c. Any condition caused or allowed to exist in violation of any of the provisions of this Chapter shall be deemed a public nuisance and shall, at the discretion of County, create a cause of action for penalty pursuant to Chapters 1.20 and 1.22 of the Monterey County Code, and any other action authorized by law.

d. Each and every violation of this Chapter shall constitute a separate violation and shall be subject to all remedies and enforcement measures authorized by the Monterey County Code or otherwise authorized by law. Additionally, as a public nuisance, any violation of this Chapter shall be subject to injunctive relief, disgorgement of any payment to the County of any and all monies unlawfully obtained, costs of abatement, costs of restoration, costs of investigation, attorney fees, restitution, and any other relief or remedy available at law or in equity. The County, including the Office of the District Attorney and the Office of the County Counsel, may also pursue any and all remedies and actions available and applicable under state and local laws for any violations.

e. For purposes of administration and enforcement of this Chapter generally, the Director may from time to time promulgate such administrative rules and procedures consistent with the

purpose and intent of this Chapter as he or she deems necessary to implement or clarify such provisions or aid in enforcement.

SECTION 14. SEVERABILITY. If any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be invalid, such decision shall not affect the validity of the remaining portions of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared invalid.

SECTION 15. EFFECTIVE DATE. This ordinance shall become effective on the thirty-first day following its adoption.

SUMMARY/DISCUSSION:
On February 11, 2025, the County of Monterey entered to an agreement with the City and County of San Francisco and Seneca Family of Agencies to provide placement and services to Commercially Sexually Exploited Children in Monterey County through a Pilot Continuum. The Pilot Continuum includes an emergency placement model, home-based placement model, and a short-term residential therapeutic program to increase placement stability and safety for youth in the program.

This agreement allows the County of Monterey to share data with the Regents of the University of California in order to conduct a rigorous evaluation of the home-based care component of the Pilot Continuum called Family & Me (“FAM”), as required by grant funding for the Pilot Continuum. The FAM evaluation aims to understand youth and caregiver experiences with FAM, identify service needs and preferences of youth and caregivers, and understand how FAM influences outcomes among youth and caregivers over time. The evaluation includes semi-structured interviews with youth, caregivers, and service providers, surveys for youth and caregivers, as well as the analysis of administrative and service provision data.

I. DECLARATION

This Data Sharing Agreement ("Agreement") is entered into by and between the **COUNTY OF MONTEREY DEPARTMENT OF SOCIAL SERVICES** ("MOCO DSS") and **the REGENTS OF THE UNIVERSITY OF CALIFORNIA** ("REGENTS") for the purpose of sharing data to allow the University of California, Berkeley Human Rights Center ("HRC") to conduct an independent evaluation of Monterey County families participating in the Commercially Sexually Exploited Children ("CSEC") Placement and Services Continuum Model (the "Pilot Continuum").

II. BACKGROUND

On February 11, 2025, MOCO DSS entered into an agreement with the City and County of San Francisco ("the city") and Seneca Family of Agencies to provide Pilot Continuum services to foster youth in Monterey County. The Pilot Continuum directly benefits youth who are at risk of, or have experienced, commercial sexual exploitation and their caregiver(s). The Pilot Continuum includes an emergency placement model, home-based placement model, and a short-term residential therapeutic program to increase placement stability and safety for youth in the program.

This agreement allows MOCO DSS to share data with the REGENTS in order to conduct a rigorous evaluation of the home-based care component of the Pilot Continuum called Family & Me ("FAM"), as required by grant funding for the Pilot Continuum. The FAM evaluation aims to understand youth and caregiver experiences with FAM, identify service needs and preferences of youth and caregivers, and understand how FAM influences outcomes among youth and caregivers over time. The evaluation includes semi-structured interviews with youth, caregivers, and service providers, surveys for youth and caregivers, as well as the analysis of administrative and service provision data.

III. TERM

This agreement shall commence effective September 1, 2025, and remain in full force and effect through December 31, 2025, unless sooner terminated as provided herein. Either party may terminate this agreement by giving thirty (30) days' written notice to the other party. This agreement is contingent upon the continued execution of the Pilot Continuum agreement in Monterey County.

IV. SCOPE OF SERVICES

DSS and the REGENTS agree to:

1. Share information pertaining to individual youth as needed for the purpose of evaluating the FAM program. Confidential information sharing shall only occur when the youth (and, where required by law, their legal representative) has provided a written informed release of information, or when otherwise authorized by existing law or policy. All such information sharing shall further comply with all applicable federal,

DSS agrees to:

1. Allow DSS staff, including primary social workers serving FAM youth as well as management involved in FAM implementation, to join the evaluation and participate in interviews about the program every 6 months. Staff participation is voluntary and not required.

A research study is when people like me collect a lot of information about a person or a subject to find out more about it. Before you decide if you want to be in this study, it's important for you to understand why we are doing the research and what is involved.

What is Informed Consent/Assent?

Informed consent is a process where researchers give you lots of information to help you understand the purpose and expectations of a research project. Then, you decide if you want to participate or not. *Consent* can be a written or spoken agreement from an adult aged 18 and older to participate in research.

When you are under the age of 18, you cannot legally provide consent. Researchers still explain the purpose and requirements of their research projects and ask you if you would be willing to participate. If you are under the age of 18 and decide to participate in research, you can provide a written or spoken agreement to participate in a study. This is called *assent*.

Even if you are under 18 and provide assent to participate in this research study, we are also required by the San Francisco Human Service Agency's Family and Children's Services to get permission from your attorney for you to participate in the study. If we receive your assent, we will ask your attorney to sign a permission form for you to participate in the study.

If you assent and we receive the permission form from your attorney, the San Francisco County Superior Court has given us permission to use some of the notes and forms from your family's court case, to evaluate Family and Me (FAM).

Why are we doing this study?

This research project is designed to do a couple of things. First, we are trying to understand how FAM is going. Second, by talking with youth like yourself, FAM caregivers, and service providers, we will try to find out what is working well and what is not working well in FAM.

Docusign Envelope ID: F9F5D98A-90A6-4D70-AD56-20968B7E9D92

Third, this study will be used to make FAM and other similar foster care programs the best they can be for other youth that get placed in out-of-home care in the future.

This study is completely separate from your family's court case or your involvement in FAM. Participating in none, some, or all of this study will NOT affect:

- Your FAM placement or services
- Your court family reunification plans or timelines
- The amount of time you will be placed in out-of-home care
- Your access to previous services and activities (therapist, after school sports, etc.)

Why are we talking to you about this study?

We are inviting all youth who are participating in FAM to participate in this study. We are also inviting FAM caregivers and FAM service providers to participate in this study. Participation is voluntary.

As a reminder, FAM is available to youth placed in out-of-home care by San Francisco's Family and Children's Services (FCS) or Juvenile Probation Department (JPD) who the county or a service provider has identified as at risk of past, present, or future commercial sexual exploitation. Commercial sexual exploitation is very common in the San Francisco Bay Area. One of the goals of FAM is to reduce this risk for foster youth, by providing services and supporting youth's relationships with their caregivers, family members, and friends.

What will happen if you are in this study?

If you agree to be in the study and we receive permission from your attorney, we will look at the following information:

- <u>Surveys</u>

  We will ask you to complete one survey every 4 months for the duration of the study. You can take the survey online, on your phone or laptop, or a research team member can administer it to you, depending on your preference. These surveys will take about 20-30 minutes. You can take breaks during surveys. You can skip any questions that you don't want to answer or don't feel comfortable answering. This is completely up to you, based on your level of comfort.

- <u>Interviews</u>

  A member of the research team will interview you every 4 months for the duration of the study. The interview will take about 45-60 minutes and will take place either in person [*location*] or virtually [*by Zoom or phone*], depending on your preference. Where possible, you will have the same interviewer each time, unless you prefer otherwise. You are welcome to have a caregiver or other supportive person sit in with you during interviews, but it is not required. You may take breaks during interviews and can decide to stop the interview early. You can also skip any questions or topics that you don't want to answer. With your permission, we will audio-record your interviews, so that later, the researchers can write down everything you shared with them. If you don't want to be audio-recorded, the researcher will take handwritten notes instead. We will not share the audio-recording with anyone other than the HRC research team.

- <u>Records</u>

Docusign Envelope ID: F9F5D98A-90A6-4D70-AD56-20968B7E9D92

When you meet with your Seneca support staff, they will complete a survey with you about your relationships with relatives, family members, and other adults in your life–called the Youth Connections Scale (YCS)–every 4 months. If you agree, they will share these assessment results, historical placement data, case notes, and other assessments and information about your use of services with us as part of our evaluation. Seneca may share information about my time in foster care between the dates of: _____ through _____.

Also, FCS and JPD will share relevant information from their records with us about you and your case, including your safety, justice system involvement, and placement history.

Is there any compensation for being in the study?

We will provide you with a $20 gift card as compensation for every 20-30 minute survey you participate in (even if you skip questions). We will provide you with a $50 gift card as compensation for every 45-60 minute interview you participate in (even if you skip questions).

Are there any benefits to being in the study?

There are no direct benefits in this study that directly help you. Our hope is that your experiences and valuable insights can help other young people and improve FAM and other foster care and family support programs like it in the future.

Are there any risks or discomforts to being in the study?

- You might get bored, tired, or uncomfortable and decide that you don't want to finish the study activities or the interview. If so, just tell the researchers that you want to stop. If you'd like to speak to someone about any issues or difficult feelings that come up for you during the interview, let the researcher know and they will give you information about counseling and other support services.
- A possible risk for any research is that people outside the study might see or get confidential study information. We will do everything we can to make sure that doesn't happen. The steps we're taking to protect confidentiality are explained below.

Who will know about your study participation?

If you choose to participate in this study, the researchers will talk with you somewhere private or over Zoom or by phone, and your opinions will be kept confidential. The researchers will not talk about your participation with any FAM participants, JPD, FCS, or any service providers – except for the staff responsible for data collection. These staff will not have access to your interview / survey responses or opinions about FAM. If you want to tell anyone else about our conversation, that is up to you. Even if someone sees you with a member of the research team, the researcher will not discuss how they know you or say that you are involved in the study without your permission. If the researchers publish reports or give talks about this study, they will not use your name or any other personal information that would identify you.

The research team will do everything possible to keep your responses and personal information safe. We will keep all interview notes and recordings in a secure, password-protected virtual platform or a secure, locked location at UC Berkeley until your personal information is removed and the responses can no longer be linked to you. The research team will destroy handwritten notes and audio recordings as soon as we have carefully typed out your words into another

secure computer document, which may be saved for 10 years after the study is over. The document will not contain your name or any other information that can be used to identify you.

We will be receiving your records electronically. While we cannot guarantee the complete confidentiality of data transmitted over the internet, we will use a process that minimizes any possible confidentiality breaches.

Rights

- You get to decide whether or not to participate in this evaluation of FAM. You can also decide, at any point, if you'd like us to stop accessing your case files, notes, or other information from your service providers. - Participating in this study is completely voluntary and you can quit the study at any time with no consequences to you, the services you receive, or your FCS case.
- You can discuss this with your parents, relatives, caregivers, friends, or anyone else before you make a decision if you'd like to, although this is not required.

If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: E6A38D0E-1CBE-4534-997D-9E4BCC9F95A0

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: E6A38D0E-1CBE-4534-997D-9E4BCC9F95A0

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining

10.05 **Royalties and Inventions:** County shall have a royalty-free, exclusive and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

10.06 **Format of Deliverables:** For this section, "Deliverables" shall mean all electronic documents CONTRACTOR provides to the County under this Agreement. CONTRACTOR shall ensure all Deliverables comply with the requirements of the Web Content Accessibility Guidelines ("WCAG") 2.1, pursuant to the Americans with Disabilities Act ("ADA"). CONTRACTOR bears the burden to deliver Deliverables, such as Adobe Acrobat Portable Document Format ("PDF") and Microsoft Office files, complying with WCAG 2.1. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

COUNTY PRINTER/COPIER/MULTIFUNCTION MACHINE GUIDELINES AS OF 03/29/2022

New Printer/Copier/Multifunction Machines:
Per the Contracts/Purchasing Officer, County Departments may now use any vendor who are registered in the Advantage Finance System to provide printer/copier/multifunction machines. This allows County Departments more flexibility with more brand variety. When engaging with vendors it is suggested that departments request the vendor to provide cooperative agreement pricing when available in order to obtain the most competitive and the best possible pricing. It is also recommended to attach a completed quote form (page 2) as an Exhibit A to a County Standard Agreement for execution.

VENDOR INFORMATION: Sales reps shall only use the attached quote form when providing quotes. There is only one opportunity to provide a quote per machine so sales reps should submit their best possible pricing. No third-party financing is permitted. If using a vendor's contract in place of the County Standard Agreement it will require Board of Supervisors approval prior to final execution. It should also include a municipal non-appropriations clause and should not contain any language which conflicts with the quote. The County's payment terms are net 30 and shall not include interest charges. All vendors providing machines to the County shall meet the County's standard insurance requirements. Reference: County's insurance requirements are online at https://www.co.monterey.ca.us/home/showdocument?id=78136

DEPARTMENT INFORMATION: If the department obtains services from a vendor who does not offer cooperative agreement pricing, the department shall obtain two (2) or three (3) quotes for any new copier needed based on total fees. All vendors providing quotes must be registered as a vendor in Advantage.

Departments shall provide the attached form to the sales reps and request a quote using this form only. Departments would then select the one offering the most competitive price while considering all the included features and options. Departments shall **not** show one vendor's quote to another vendor as this is unfair business practice.

Once the department has executed an agreement with a vendor, the department must execute a multi-year agreement (MYA) within Advantage. The agreement and quote shall be attached to the MYA along with the 2nd and 3rd quotes to show due diligence in obtaining the best pricing if the vendor selected did not provide cooperative pricing with their quote.

Vendors will have their own contracts for the County to sign. These contracts should be routed to the Contracts/Purchasing Officer for signature. Departments are not authorized to sign a vendor contract without authorization of a BOS Order.

For Accounting Staff: The Extended Description on the DO should state:
"This purchase order is issued to Dataflow Business Systems Inc. to provide *xx* multifunction print/copy machines for the County Public Defender Department for a period of 36 months. Machine Model Ricoh IM 6000 is physically located at 168 W. Alisal St, 2nd Floor, Salinas, CA. 93901 and costs $257.03 per month. This purchase order shall cover monthly machine costs from 07/01/25 to 06/30/28. This purchase order shall expire on 6/30/28 (write in current fiscal year) and a new purchase order may be issued after that time to continue the rental term if necessary."

If using a vendor's contract in place of the County Standard Agreement it will require Board of Supervisors approval prior to final execution. It should also include a municipal non-appropriations clause and should not contain any language which conflicts with the quote. The County's payment terms are net 30 and shall not include interest charges. All vendors providing machines to the County shall meet the County's standard insurance requirements. Reference: County's insurance requirements are online at https://www.co.monterey.ca.us/home/showdocument?id=78136

DEPARTMENT INFORMATION: If the department obtains services from a vendor who does not offer cooperative agreement pricing, the department shall obtain two (2) or three (3) quotes for any new copier needed based on total fees. All vendors providing quotes must be registered as a vendor in Advantage.

Departments shall provide the attached form to the sales reps and request a quote using this form only. Departments would then select the one offering the most competitive price while considering all the included features and options. Departments shall **not** show one vendor's quote to another vendor as this is unfair business practice.

Once the department has executed an agreement with a vendor, the department must execute a multi-year agreement (MYA) within Advantage. The agreement and quote shall be attached to the MYA along with the 2nd and 3rd quotes to show due diligence in obtaining the best pricing if the vendor selected did not provide cooperative pricing with their quote.

Vendors will have their own contracts for the County to sign. These contracts should be routed to the Contracts/Purchasing Officer for signature. Departments are not authorized to sign a vendor contract without authorization of a BOS Order.

Matter Type: BoS Resolution

Adopt a resolution continuing for an additional sixty (60) days, the Proclamation of Local Emergency in response to a structure fire and hazardous materials incident at the Moss Landing Lithium-Ion Battery Energy Storage System (BESS) Power Plant that started on January 16, 2025.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Adopt a resolution continuing for an additional sixty (60) days, the Proclamation of Local Emergency in response to a structure fire and hazardous materials incident at the Moss Landing Lithium-Ion Battery Energy Storage System (BESS) Power Plant that started on January 16, 2025.

SUMMARY/DISCUSSION:
On January 16, 2025, shortly after 3:00 p.m. a fire began at the Vistra Energy ("Vistra") 300-MW Phase I battery energy storage facility located at the Moss Landing Power Plant. A Local Emergency was Proclaimed by the County Administrative Officer on January 17, 2025, and ratified by the Board of Supervisors on January 21, 2025. The Board further ratified the continuance of the proclamation on March 18, 2025, May 13, 2025, and July 8, 2025.

The Vistra operation is one of the largest lithium battery storage facilities in the world and the fire caused the lithium batteries to burn. Local fire officials could not extinguish the fire due to the extreme heat from the multiple lithium batteries burning, and as of January 17th the fire continued burning. Evacuation orders for the surrounding community were lifted on January 18, 2025. The evacuation orders were issued as a precaution due to the ongoing fire and concerns of exposure to hazardous materials. Air monitoring conducted by the United state Environmental Protection Agency began on January 17, 2025, within and outside the fence line of the facility indicated that particulate matter posed no risk to public health.

A state led Health Assessment Team comprised of local, state, and federal agencies began soil, dust, and water sampling on January 24, 2025. County, State, and Federal regulatory agencies have and continue to conduct environmental testing for levels of toxic metals, such as nickel, manganese, and cobalt, in the surrounding area. Data from sampling conducted by the Department of Toxic Substances Control (DTSC) indicates there are not elevated metals associated with the fire in soil. DTSC obtained soil samples directly north from the location of the fire and up to four miles away, including at residences, schools, and community parks.

On February 18, 2025, a previously burned section of the Vistra Battery Facility in Moss Landing re-ignited resulting in conflagration and smoke; Unified Command indicated the fire was under control on February 19, 2025.

On February 22, 2025, Vistra Energy, under the direction of local, state, and federal regulatory agencies has initiated a lengthy and arduous hazardous material and structural debris removal process.

A Local Emergency was Proclaimed by the County Administrative Officer on January 17, 2025, and ratified by the Board of Supervisors on January 21, 2025.

Pursuant to California Government Code Section 8630, subdivision (a), and Monterey County Code section 2.68.025 the County Administrative Officer may proclaim the existence of a local emergency when the County is affected by or threatened to be affected by a public calamity. The Government Code requires that an emergency proclamation be ratified by the Board of Supervisors within 7 days of its issuance and be reviewed at least once every (60) days until the emergency is terminated.

OTHER AGENCY INVOLVEMENT:
Numerous County departments and other state and federal agencies have participated in the response to the emergency including the Department of Emergency Management, Sheriff's Office, County Administrative Office, Public Works, Facilities, and Parks, and Housing and Community Development.

FINANCING:
The Finance Section of the Emergency Operations Center (EOC) was activated on January 17, 2025, and demobilized on January 24, 2025; Staff continues to compile costs associated with response and recovery related to this emergency. The costs and the impacts to the County will continue to be evaluated and presented under separate financial reports and request for funding augmentations to the Board by the EOC Finance Section.

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.02 Negotiations for rate changes shall be commenced, by CONTRACTOR, a minimum of ninety days (90) prior to the expiration of the Agreement. Rate changes are not binding unless mutually agreed upon in writing by the County and the CONTRACTOR.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. 7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination. **County shall not be entitled to refund of previously paid license fees in the event it terminates for convenience.**

Docusign Envelope ID: FD297248-FB71-4A07-81CF-7CCB16085BC4

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: FD297248-FB71-4A07-81CF-7CCB16085BC4

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. RECOMMENDATION:
It is recommended that the Board of Supervisors:

a. Authorize the Chief Information Officer to execute Amendment No. 3 to the Agreement with SHI International Corporation, utilizing a cooperative agreement with Sourcewell to purchase Information Technology services, equipment, and products for the County extending the term through February 27, 2028, and adding $750,000; and

SUMMARY:
SHI International Corporation (SHI) serves as a reseller of software, hardware, and technology services that support both proprietary operations of county departments and enterprise functions

of the Information Technology Department (ITD). Approval of this amendment will enable ITD to continue procuring essential technology products on an as-needed basis through a master cooperative agreement that was competitively solicited via Sourcewell RFP#121923.

DISCUSSION:
Sourcewell is a government service cooperative established by the Minnesota legislature to streamline procurement for its members through nationally competitive solicitations. As a registered member (ID#18170), the County of Monterey can utilize Sourcewell's pre-negotiated contracts that includes SHI. This process offers a cost-effective and efficient method for procuring IT products and services while ensuring responsible use of public funds. Although the Sourcewell agreement with SHI includes non-standard terms for the County, they are typical within the IT industry. The approval of this recommended action by the Chief Information Officer will enable the county to continue to procure the necessary software, hardware, and technology services that support the county's continuity of business.
The Sourcewell agreement, will continue to govern the County's purchase of IT products and services through SHI, contains non-standard terms to the County but is expected in the information technology industry. The Chief Information Officer recommends Board approval of this cooperative agreement amendment.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
County Counsel has reviewed the Amendment to the Agreement with Sourcewell. Auditor-Controller reviewed the contract but does not agree to the non-standard payment provisions.

FINANCING:
The funds for payment of the cost of this Agreement have been included in the Fiscal Year 2025-2026 Approved Budget for the Information Technology Department, ITD 1930, Appropriations Unit INF002. All future year costs will be included in the submitted budget for each of the respective fiscal years.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The Board's approval of the agreement will allow ITD to continue to procure technology products and services at a discounted rate for all County departments.
