Date: 11/15/2021	Submitted By: Supervisors Wendy Root Askew	District #: 4
Referral Title: School Vaccination Coordination		
Referral Purpose: Direct the Monterey County Health Department to partner with the K12 school system to increase the rate of vaccinations amongst pediatric residents aged 5 to 11 years old in disproportionately impacted communities		
Brief Referral Description (attach additional sheet as required):		
Children aged 5 to 11 years old became eligible to be vaccinated against the SARS-CoV-2 (COVID-19) virus on November 2, 2021. To date, approximately 6,530 Monterey County children in this age group have received at least one dose of the Pfizer vaccine, representing just 15% of those eligible. The current Monterey County Health Department pediatric vaccination strategy does not include partnering to deliver vaccines at one of the most known and trusted institutions children and their caregivers interact with – the local K12 school system. This referral would direct the Health Department to partner with K12 school systems to increase the rate of pediatric vaccinations by offering vaccine clinics in partnership with districts. By partnering with the districts and their schools, the County would better achieve its health equity goal of ensuring children who live and learn in disproportionately impacted communities have priority access to vaccination clinics.
