

Wireless Reduce Visual Impacts Declaration
Penon Peak
PLN100515

The Monterey County Emergency Communications Department, in collaboration with other local public safety agencies, is participating in a project to deploy the NGEN radio system for emergency communications throughout the County of Monterey. On **September 26, 2013**, pursuant to County Resolution No. **Resolution Number 12-041***, subject to the conditions listed therein, the **Monterey County Planning Commission** adopted a Mitigated Negative Declaration approving a **Use Permit and Design Approval**, File No. **PLN100515**, and adopted a Condition of Approval of Wireless Reduce Visual Impacts. Resolution No. **12-041** is on file in the Resource Management Agency – Planning Department.

The County agrees that if future technological advances allow for reducing the visual impacts of the telecommunication facility, the County shall make modifications to the facility accordingly to reduce the visual impact as part of the facility's normal replacement schedule.
