Re: PLN160177

Dear Dan,

Please use this letter as my formal request to schedule a public hearing regarding this above referenced application. This barn has been an important architectural fixture in our community for many decades. Changing the exterior walls will detract from its neighborhood appeal. I feel maintaining the barn in the current configuration is important to protecting our neighborhood character. This barn has always been used for agricultural purposes and converting the use to non-agricultural uses will negatively impact our community.

Please let me know when a public hearing can be scheduled.

Very Truly Yours

A handwritten signature in black ink, appearing to read "August Louis", written over the typed name.
