Exhibit E

AG-1.12

The County shall prepare, adopt, and implement a program that requires projects involving a change of land use designation resulting in the loss of Important Farmland (as mapped by the California Department of Conservation Farmland Mapping and Monitoring Program) to mitigate the loss of that acreage. For such land to be annexed to incorporated areas, the County shall work in consultation with the cities to mitigate the loss of Important Farmland resulting from annexation. The program may include ratios, payment of fees, or some other mechanisms. Mitigation mechanisms established through this program shall be based upon a graduated value of the Important Farmland, with mitigation for loss of prime land having the highest agricultural value. The County shall support private, non-profit land trusts and conservation organizations to promote the policies of this General Plan, facilitate the implementation of the program, and to receive, by voluntary donation or purchase, development rights on any lands to be preserved as part of this program's implementation strategy.

The acreage within a project or annexation that is to be utilized for inclusionary housing shall not be subject to this mitigation policy. A Community Plan or Rural Center Plan that includes a mitigation program shall not be subject to this policy. Annexations or sphere of influence amendments covered by the Greater Salinas Area Memorandum of Understanding (GSA MOU) shall be consistent with and governed by the terms of the GSA MOU and with the City's General Plan.

Until such time as the program has been established, the County shall consult and cooperate with the cities so that projects shall mitigate the loss of Important Farmland on an individual basis as much as is feasible as determined by the Board of Supervisors.
