Jan				736.1	738.3

Note: Table on left shows the Reservoir Release Schedule to be presented at the April 21, 2025 Board of Directors meeting. Table on the right is current as of April 17. Bold text indicates actual values. The Reservoir Release Schedule includes estimated monthly release values to meet the goals of dam safety, flood protection, groundwater recharge, operation of the SRDF, water supply, fish migration, fish habitat requirements, agriculture, and recreation while complying with water rights, permits, and existing agreements. Salinas River conditions are dynamic, and the reservoir releases required to meet downstream goals can vary based on watershed and climatic conditions. The Release Schedule is updated throughout the year with actual releases and updated estimates to reflect these changing conditions.
