performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence, active negligence, or willful misconduct of the Agency. “CONTRACTOR’s performance” includes CONTRACTOR’s action or inaction and the action or inaction of CONTRACTOR’s officers, employees, agents and subcontractors.

6. Insurance.

6.1 Evidence of Coverage:

Prior to commencement of this Agreement, the CONTRACTOR shall provide a “Certificate of Insurance” certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition the CONTRACTOR upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the Agency’s Contact, unless otherwise directed. The CONTRACTOR shall not receive a “Notice to Proceed” with the work under this Agreement until it has obtained all insurance required and such, insurance has been approved by the Agency. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

6.3 Insurance Coverage Requirements:

Without limiting CONTRACTOR’s duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent CONTRACTORS, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than \$1,000,000 per occurrence.

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.

Exemption/Modification (Justification attached; subject to approval).

6.4 Other Insurance Requirements.

All insurance required by this Agreement shall be with a company acceptable to the Agency and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the Agency shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the Monterey County Water Resources Agency and the County of Monterey, their officers, agents, and employees as Additional Insureds with respect to liability arising out of the CONTRACTOR'S work, including ongoing and completed operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the County and that the insurance of the Additional Insureds shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance. The required endorsement form for Commercial General Liability Additional Insured is ISO Form CG 20 10 11-85 or CG 20 10

10 01 in tandem with CG 20 37 10 01 (2000). The required endorsement form for Automobile Additional Insured endorsement is ISO Form CA 20 48 02 99.

Prior to the execution of this Agreement by the Agency, CONTRACTOR shall file certificates of insurance with the Agency's contract administrator, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by Agency, annual certificates to Agency's Contract Administrator. If the certificate is not received by the expiration date, Agency shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles Agency, at its sole discretion, to terminate this Agreement immediately.

7. Maintenance of Records. CONTRACTOR shall prepare, maintain and preserve all reports and records that may be required by federal, State, and local rules and regulations relating to services performed under this Agreement. CONTRACTOR shall retain all such records for at least five years from the date of final payment, or until any litigation relating to this Agreement is concluded, whichever is later.
8. Right to Audit at Any Time. Agency officials shall have the right, at any time during regular working hours and on reasonable advance notice, to examine, monitor and audit all work performed and all records, documents, conditions, activities and procedures of CONTRACTOR or its subcontractors relating to this Agreement. 9. Confidentiality; Return of Records. CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with all federal, State and local laws providing for the confidentiality of records and other information. To the extent permitted by applicable law and regulations, CONTRACTOR shall maintain confidentiality with respect to Agency's well database and other water use data.

CONTRACTOR shall not disclose any confidential information received from Agency or prepared in connection with the performance of this Agreement without the express permission of Agency. CONTRACTOR shall promptly transmit to Agency all requests for disclosure of any such confidential information. CONTRACTOR shall not use any confidential information gained through the performance of this Agreement except for the

purpose of carrying out CONTRACTOR's obligations hereunder. When this Agreement expires or terminates, CONTRACTOR shall return to Agency all records, which CONTRACTOR utilized or received, from Agency to perform services under this Agreement.

10. Termination. Either party may terminate this Agreement by giving written notice of termination to the other party at least thirty (30) days prior to the effective date of termination, which date shall be specified in any such notice. In the event of such termination, the amount payable hereunder shall be reduced in proportion to the services provided prior to the effective date of termination. Agency may terminate this Agreement at any time for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes, without limitation, the failure of CONTRACTOR to perform the required services at the time and in the manner provided herein. If Agency terminates this Agreement for good cause, Agency may be relieved of the payment of any consideration to CONTRACTOR, and Agency may proceed with the work in any manner, which it deems proper. Costs incurred by Agency thereby shall be deducted from any sum due CONTRACTOR.
11. Amendments and Modifications. No modification or amendment of this agreement shall be valid unless it is set forth in writing and executed by the parties.
12. Non-Discrimination. Throughout the performance of this Agreement, CONTRACTOR will not unlawfully discriminate against any person because of race, color, religion, gender, national origin, ancestry, physical disability, medical condition, marital status, age older than 40, or sexual orientation, gender identity or any other status protected under federal, state or local law, either in CONTRACTOR's employment practices or in the furnishing of services to recipients. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR shall comply fully with all federal, State and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to any target population designated herein shall not be deemed prohibited discrimination.
13. Independent Contractor. In its performance under this Agreement, CONTRACTOR is at all times acting and performing as an independent CONTRACTOR and not an employee of Agency. No offer or obligation of employment with Agency is intended in any manner, and CONTRACTOR shall not become entitled by virtue of this Agreement to receive from Agency any form of benefits accorded to employees including without limitation leave time, health insurance, workers compensation coverage, disability benefits, and retirement contributions. CONTRACTOR shall be solely liable for and obligated to pay directly all applicable taxes, including without limitation federal and State income taxes and social security arising out of CONTRACTOR's performance of this Agreement. In connection therewith, CONTRACTOR shall defend, indemnify, and hold harmless Agency from any and all liability, which Agency may incur because of CONTRACTOR's failure to make such payments.
14. Delegation of Duties; Subcontracting. CONTRACTOR is engaged by Agency for its unique qualifications and abilities. CONTRACTOR may not, therefore, delegate any of its basic

duties under this Agreement, except to the extent that delegation to CONTRACTOR's employees is contemplated herein. No work shall be subcontracted without the written consent of Agency, except as provided in this Agreement or its attachments. CONTRACTOR's duties and services under this Agreement shall not include preparing or assisting the Agency with any portion of the Agency's preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the Agency. The Agency shall at all times retain responsibility for public contracting, including with respect to any subsequent phase stemming from this Agreement. CONTRACTOR's participation in the planning, discussions, or drawing of project plans or specifications shall be limited to conceptual, preliminary, or initial plans or specifications. CONTRACTOR shall cooperate with the Agency to ensure that all bidders for a subsequent contract on any subsequent phase of this project, if applicable, have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by CONTRACTOR pursuant to this Agreement.
17. Compliance with Terms of Federal or State Grant. If any part of this Agreement has been or will be funded pursuant to a grant from the federal or State government in which Agency is the grantee, CONTRACTOR shall comply with all provisions of such grant applicable to CONTRACTOR's work hereunder, and said provisions shall be deemed a part of this Agreement as though fully set forth herein.

Salinas River Diversion Facility 2023 Winter Storm Damage Repair: Out of Channel Structures

Scope of Work:

The following repairs and cleanup required at the Salinas River Diversion Facility include work at both banks of the Facility. Left and Right banks, determined from the river flow direction. Facing with the flow of the river, the left side is the left bank and the right is the right bank. The diversion pumping structure is located on the left bank and this is the side with the most cleanup and repair efforts. Pictures and clear description of the work requested is included in Attachment A: SRDF March Winter Storm Damage and Cleanup Assessment. Aerial Map is included in Attachment B. The goal is to return the facility to post storm status similar to original construction completion status.

Left Bank:

- Remove sediment on top of facility's articulated block and staging area
- Remove vegetation from the area outlined in the Attached Map
- Care needs to be taken when removing the sediment to not damage articulated block and concrete. Final removal should be done with a sweeper truck to get the final layer and expose all the articulated block and concrete floor
- Two boat ramps need sediment removed (upstream and downstream) and reestablish path to river, vegetation removal likely needed as well
- Two areas of heavy vegetation removal in front of the dam safety signs up and downstream of facility. Area needs to be clean and free of debris so viewing of the signs is possible from the river
- Some buildup of sediment needing removal on up and downstream wingwalls
- ~~Concrete spalling repair, approx. 14 sites varying size~~
- ~~Fish ladder cover plate repair : 3 damaged panels~~
- ~~Railing anchor repair (multiple sites)~~
- ~~Bring in riprap to replace displaced, sediment stuck in existing riprap may need hydro jetting to cleanup~~

Right Bank:

- Sediment removal throughout site, estimates in Attachment A
- ~~Concrete repair (two sites)~~
- Clean articulated block and concrete abutments with sweeper truck
- Remove vegetation from upstream and down stream warning signage
- ~~Replace displaced riprap on upstream wingwall barrier~~

SRDF March Winter Storm Damage and Cleanup Assessment

March 2024

Summary:

After the winter storm of March 2023, significant disturbance and damage was observed at the Salinas River Diversion facility. Approximately 22,000 cfs went through the facility and submerged most of it, elevated pump diversion platform was above water. In April 2023, initial debris and silt was removed to allow the facility to operate. This was the minimum amount, and more is required to restore the facility to the California Division of Safety of Dams (DSOD) standards, after the 2023 inspection. The cleanup and repairs needed include further silt and sediment removal, debris removal, exposing and cleaning all the facility's structures to be observable. Significant Scouring was also discovered in the channel on the facility's approach apron of the structure which will need to be repaired as soon as possible. Damage assessment is on going to determine extent of damage to that component. Vegetation and silt removal is needed at the boat ramps and in front of all the upstream and downstream safety signage. Replacement of displaced riprap is also required.

Summary Table:

Item	Qt.	unit
Sediment removal	1,983	yards
Concrete repair (14 sites)	1154	sq-inches
In channel approach apron	Unquantified	
Fish ladder panels damaged	3	panels
Railing mounts damaged	6	mounts
Vegetation and debris for signs	8,800	sq-ft
Crack meters	2	meters
Staff plate replacement	2	plates
Riprap replacement	Calculated after sed removal	

Sediment Removal

- Removal of excess sediment on top of facility's articulated block.
- Removal of vegetation on facility.
- Reinstallation of riprap is needed along upstream and downstream banks.
- Upstream & downstream boat ramps have narrowed due to excess sediment, vegetation and fallen riprap. Needs to be cleared and widened to original size.
- Replacement riprap is needed to armor upstream and downstream banks of facility.
- Center riprap area between upper and lower deck, needs vegetation and sediment removed along with installation of replacement riprap.

Left Bank

Area 1 LB Silt Removal: Further sediment removal is required to return site to original condition. Estimated area: 15,500 sq feet with an estimated silt volume of 860 yards

Seepage Wall

Area 2 LB Seepage Wall silt and debris removal: Remove Silt build up and vegetation/ debris. Area included in Area 1 calculation.

Upstream Boat Ramp

Area 3 Upstream boat ramp: Remove Sediment and debris, restore boat ramp to original condition. Area: 1300sq ft, sediment varies in depth estimated at 80 yards (average 1.5 feet fill)

Downstream Boat Ramp

Area 4 LB Downstream Boat ramp debris and fill removal: Remove built up sediment and fill, restore to as original condition. Area 9100 sq ft estimated at 250 yards (ave. 0.75ft depth fill)

Lower Deck & Center Rip Rap Area

Area 5 LB lower area and primary floor sections: Remove Fill, debris and restore facility to original condition. Delicate sand removal is necessary to expose floor structures. The area is approximately 22,700 sq ft. or estimated fill of 168 yards (0.2 ft ave depth)

Right Bank

- Removal of excess sediment on top of facility's articulated block.
- Removal of vegetation on facility.
- Reinstallation of riprap is needed along upstream and downstream banks.

Area 1 RB facility structure: Remove Silt, vegetation and expose facility structures. Area approximately 17,000 sq ft. Volume est. 125 yards

Area 2 RB wing walls: remove silt and replace riprap. Area 14,000 sq ft, volume est. 500 yards (ave depth 1 foot)
