Dear Board of Supervisors,

Volunteering at WeatherTech Raceway Laguna Seca has been the foundation of each event held since it was founded in 1957. In 1974, a new type of event was created, one that allowed owners of old race cars to safely run them at speed for their own enjoyment. The event grew in popularity each year, and quickly became *the* premier historic car race in the world, which others have patterned themselves after.

Many of the members of the Laguna Seca Volunteer Association take great pride in having played vital roles in the success of the Monterey Historic Automobile Races, and the renamed Rolex Monterey Motorsports Reunion.

Volunteers throw our entire support behind it because we forged bonds with the entrants who arrived, the sponsors who entertained and the guests who paid hard-earned money to be part of the experience. It is easily our favorite event, and we take its success personally.

On behalf of the Laguna Seca Volunteer Association, we do not support selling the event we worked so hard to grow to another organizer. We are fully supportive of the current ownership and management team responsible for the Rolex Monterey Motorsports Reunion now and into the future.

Sincerely,

Lee Ames  
President  
Laguna Seca Volunteer Association
