CONTRACTOR shall bear all costs in connection with, or resulting from, any audit and/or inspections including, but not limited to, actual cost incurred and the payment/repayment of any expenditures disallowed by COUNTY, State or Federal government entities, including any assessed interest and penalties.

If CONTRACTOR is exempt from federal audit procedures under UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS (Uniform Guidance), then payment for this audit shall be made by CONTRACTOR with resources other than grant funds, or those used for matching purposes. (Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: F4A56E6B-694A-880C-8374-25520A0B9226

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: F4A56E6B-694A-880C-8374-25520A0B9226

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

HOUSING FIRST MANDATE

This Exhibit I ("Exhibit") is hereby incorporated into and made part of the Agreement ("Agreement") by and between the County of Monterey and Central Coast Center for Independent Living ("CONTRACTOR"). The purpose of this Exhibit is to establish requirements under Senate Bill (SB) 1380, which mandates all state-funded housing programs to utilize Housing First principles (WIC § 8255). Housing First is an evidence-based, client-centered approach that recognizes housing as necessary to make other voluntary life changes, such as seeking treatment or medical care. This approach is in contrast with the traditional model of rewarding "housing readiness." The goal of Housing First is to provide housing to individuals and families quickly with as few obstacles as possible, along with voluntary support services according to their needs.

According to Housing First law, the "Core components of Housing First" means all of the following:

a. Tenant screening and selection practices that promote accepting applicants regardless of their sobriety or use of substances, completion of treatment, or participation in services.
b. Applicants are not rejected on the basis of poor credit or financial history, poor or lack of rental history, criminal convictions unrelated to tenancy, or behaviors that indicate a lack of "housing readiness."
c. Acceptance of referrals directly from shelters, street outreach, drop-in centers, and other parts of crisis response systems frequented by vulnerable people experiencing homelessness.
d. Supportive services that emphasize engagement and problem solving over therapeutic goals and service plans that are highly tenant-driven without predetermined goals.
e. Participation in services or program compliance is not a condition of permanent housing tenancy. Tenants have a lease and all the rights and responsibilities of tenancy, as outlined in California's Civil, Health and Safety, and Government codes.
f. The use of alcohol or drugs in and of itself, without other lease violations, is not a reason for eviction.
g. In communities with coordinated assessment and entry systems, incentives for funding promote tenant selection plans for supportive housing that prioritize eligible tenants based on criteria other than "first-come-first-serve," including, but not limited to, the duration or chronicity of homelessness, vulnerability to early mortality, or high utilization of crisis services. Prioritization may include triage tools, developed through local data, to identify high-cost, high-need homeless residents.
h. Case managers and service coordinators who are trained in and actively employ evidence-based practices for client engagement, including, but not limited to, motivational interviewing and client-centered counseling.
i. Services are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses.

Docusign Envelope ID: F4A56E6B-694A-880C-8374-25520A0B9226

j. The project and specific apartment may include special physical features that accommodate disabilities, reduce harm, and promote health and community and independence among tenants.

These components are the minimum efforts required by California State law, however, it is encouraged that all contracted agencies seek trainings to discover other ways you can embed a true Housing First philosophy into your program.

Non-Compliance and Remedies

Failure to comply with Housing First requirements may result in corrective actions, including but not limited to:

- Required remedial training;
- Withholding of funding until compliance is achieved;
- Termination of this Agreement for repeated non-compliance.

     - **5.1.3.** Withholding of funding until compliance is achieved;

COORDINATED ENTRY REQUIREMENTS

This Exhibit K ("Exhibit") is hereby incorporated into and made part of the Agreement ("Agreement") by and between the County of Monterey and Central Coast Center for Independent Living ("CONTRACTOR"). The purpose of this Exhibit is to establish mandatory requirements for the use of the Coordinated Entry System in accordance with federal, state, and local regulations.

Coordinated Entry is a standardized process used by homeless service systems to ensure that people experiencing or at risk of homelessness are quickly and equitably connected to available housing and services. It is required by the U.S. Department of Housing and Urban Development (HUD) and some State of California homeless programs and aims to prioritize assistance based on vulnerability and need rather than on a first-come, first-served basis.

Key Components of Coordinated Entry:

1. **Standardized Assessment:** Uses a common tool identified by the Coalition of Homeless Services Providers, as the lead Continuum of Care ("CoC") lead agency, to evaluate individuals' and families' needs and vulnerabilities.
2. **Prioritization:** Allocates housing and services based on established criteria, often prioritizing people who are chronically homeless, highly vulnerable, or have the highest needs.
3. **Referral Process:** Matches individuals to the most appropriate available housing and services, such as Permanent Supportive Housing (PSH), Rapid Rehousing (RRH), or Transitional Housing.
4. **Accessibility:** Ensures that all populations, including those with disabilities or language barriers, can access services equitably.
5. **Streamlined Entry System:** Reduces the need for individuals to navigate multiple agencies by centralizing access to resources.

Coordinated Entry is designed to improve the efficiency of homelessness response systems, reduce barriers to housing, and ensure that limited resources are used effectively. In Monterey and San Benito Counties, Coordinated Entry, locally known as the Coordinated Assessment and Referral System ("CARS"), is managed through the local Homeless Management Information System ("HMIS").

For the purposes of this agreement, CONTRACTOR is hereby mandated to: (Check all that apply.)

☒ Enter all clients experiencing homelessness into CARS for consideration of housing options made available through the program.

☐ Receive client referrals solely through CARS.

☐ Receive client referrals through CARS and other means established in EXHIBIT A of this Agreement.

"CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. 9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the County Purchasing Agent or designee to execute an Agreement with Pace Systems, Incorporated to provide Pace Scheduler and timeclock software license subscriptions effective June 22, 2026 through June 21, 2027, not to exceed $15,285; and

SUMMARY
Pace Scheduler is a cloud-based workforce management system designed for law enforcement, giving Probation staff 24/7 access on any device while streamlining scheduling through permanent shifts, rotation patterns, automated deficit tracking, open-shift sign-ups, electronic time-off and overtime requests, mass communication tools, and detailed audit-ready reporting. Alongside it, the integrated Timeclock Module replaces the current manual, inconsistent timekeeping processes at Juvenile Institutions by allowing staff to clock in and out electronically, automatically linking timestamps to scheduled shifts, reducing discrepancies, improving real-time attendance oversight, and generating accurate payroll data-all within the same unified platform.

DISCUSSION:
Probation Juvenile Institutions currently rely on a paper master schedule system for staffing. The paper system requires administrators to find a physical copy of the master shift report to calculate and report staffing patterns. A paper system can lead to inaccuracies and inefficiencies. This program is needed to

modernize antiquated paper processes by introducing centralized, digital scheduling and workforce management. By automating shift assignments, documenting staffing levels in real time, and maintaining a comprehensive audit trail, the system ensures accurate reporting and immediate visibility into staffing compliance.

The Pace Scheduler software is an advanced scheduling solution built specifically for the unique needs of law enforcement. It is an online-hosted solution, which allows users 24-7 access anywhere they have an active internet connection. The site is scalable and fully functional on any modern device (tablet, phone, laptop, PC, etc.). It will allow Probation to quickly and easily create schedules utilizing permanent shift and customized rotation patterns, easily identify and fill staffing deficits, manage on-the-fly schedule changes, notify and allow officers sign up for available open-shifts, send unlimited communication via email and/or text alerts and messages to staff, handle time off/overtime requests electronically, all backed by a full audit trail and extremely robust reporting, and ease the burden on administrative staff by automating the process.

In addition to the scheduling platform, Probation is procuring the Pace Scheduler Timeclock Module to further modernize workforce management across both Juvenile Institutions. Currently, staff timekeeping is managed through disparate, manual processes that are susceptible to human error, inconsistency, and administrative inefficiency. The integration of a unified timeclock solution directly within the Pace Scheduler platform will standardize time and attendance tracking across both institutions, ensuring that all staff operate under a single, cohesive system. The Timeclock Module allows employees to clock in and out electronically, with timestamps automatically recorded and linked to their assigned shifts in the master schedule. This eliminates discrepancies between scheduled and actual hours worked, provides supervisors with real-time attendance visibility, and generates accurate data for payroll processing-all within the same platform already being used for scheduling.
The adoption of the Timeclock Module supports the Department's broader goal of operational standardization and procedural consistency. By consolidating scheduling and timekeeping into one integrated platform, Probation will reduce the administrative burden associated with reconciling records from multiple systems, minimize opportunities for error, and establish uniform operating procedures that apply equally to staff at both facilities. The module's audit trail capabilities further ensure accountability and transparency in time reporting, which is critical for compliance with labor regulations and internal policy requirements. This investment represents a strategic step toward a fully integrated, data-driven approach to workforce management that will serve both institutions equitably and efficiently for years to come.

The non-standard agreement terms include limitations of liability and proprietary rights. The Chief Probation Officer recommends approval of this proposed Agreement.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Agreement and non-standard terms have been reviewed and approved by County ITD; and approved by the Office of the County Counsel as to form and Office of the Auditor Controller as to fiscal provisions.

FINANCING:
There will be no impact to the General Fund from approval of this action. The funds for this

Agreement are included in the Probation Department (PRO001, Unit 8163 and PRO001, Unit 8164) Fiscal Year (FY) 2025-26 Adopted Budget. Any unused contract authority will be fully budgeted in the subsequent FYs, through the term of the Agreement.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
Acquiring the Pace Scheduler and Timeclock Modules supports the initiative for Sustainable Infrastructure for the Present and Future. The Pace Scheduler and Timeclock Module are essential to improving the accuracy, efficiency, and consistency of workforce management within the Department. This investment will modernize legacy processes, reduce administrative overhead, and create a standardized, reliable system that supports both day-to-day operations and long-term organizational goals.

The Customer is entering into an agreement with Company for the purpose utilizing the Pace Scheduler software. If at any time the County determines that the services provided do not align with the agreed-upon terms or if the contractor fails to respond to issues in a timely manner, the County reserves the right to withhold payment.

Prior to withholding payment, the Customer will issue a formal written warning to Company detailing the deficiencies or concerns. If the contractor does not resolve the identified issues within the timeframe specified in the warning, the County may proceed to withhold payment until the issues are adequately addressed.
Deficiencies/concerns do not include custom development or any features/improvements outside the current software capabilities.

TERM AND TERMINATION

Subject to earlier termination as provided below, this Agreement shall be renewed for additional periods of the same duration as the Term as specified in the Order Form with agreement from both parties unless either party requests termination at least thirty (30) days prior to the end of the then-current term.

In addition to any other remedies it may have, either party may also terminate this Agreement upon thirty (30) days' notice (or without notice in the case of nonpayment), if the other party materially breaches any of the terms or conditions of this Agreement. Customer will pay in full for the Services up to and including the last day on which the Services are provided. All sections of this Agreement which by their nature should survive termination will survive termination, including, without limitation, accrued rights to payment, confidentiality obligations, warranty disclaimers, and limitations of liability.

WARRANTY, MAINTENANCE, AND DISCLAIMER

Company shall use reasonable efforts consistent with prevailing industry standards to maintain the Services in a manner which minimizes errors and interruptions in the Services and shall perform the Implementation Services in a professional and workmanlike manner. SECURITY STATEMENT

The Pace Scheduler is a cloud-based software solution, which therefore poses little risk to any internal IT networks. Further, no highly sensitive data is stored anywhere within the Pace Scheduler databases. We do not collect social security numbers, payment information, health information, or external passwords. For all of the data that we do collect, we keep it secure in the following ways:

The Pace Scheduler uses 256-bit secure sockets layer encryption for all communications with our servers.

All data is password protected and multiple security and permission layers are enforced at the application level to ensure only the proper users view the data they are entitled to view. Passwords are encrypted using the PBKDF2 algorithm with a SHA256 hash, a password stretching mechanism recommended by NIST. This means even members of the Pace Scheduler development team cannot gain access to a user's password.

The data is physically stored on the highly secured AWS technology infrastructure. The AWS data center operations have been accredited under ISO 27001, SOC 1 and SOC 2/SSAE 16/ISAE 3402 (Previously SAS 70 Type II), PCI Level 1, FISMA Moderate, Sarbanes-Oxley (SOX). These centers also provide environmental/disaster safeguards, network security safeguards, and system security safeguards that all comply with industry standards.

Database backups are taken and stored at regular intervals, no less than once per day, and are stored within the secure AWS technology infrastructure. Every change to your data is written to write-ahead logs, which are shipped to multi-datacenter, high-durability storage. In the unlikely event of unrecoverable hardware failure, these logs can be automatically 'replayed' to recover the database to within seconds of its last known state.

UPTIME AND AVAILABILITY

Uptime

The Pace Scheduler application is hosted on Amazon Web Services servers, which guarantees a 99.99% uptime. To date, Pace Scheduler has kept a historical 99.996% uptime (including both planned and un-planned outages), while frequently releasing features and making many improvements on the application.

Scheduled Maintenance

When Pace releases new functionality that may require downtime, releases updates to existing features that may require downtime, or needs to bring the website down for maintenance for any other reason, Pace will schedule these updates or outages between 12:00AM CST and 5:00AM CST unless extenuating circumstances exist. Releases that require 0 seconds of downtime may happen at alternate times. During the vast majority of releases there will be no downtime. The reason for scheduling certain releases in the night is to ensure that if downtime happens it will not affect users during normal business hours. There may occasionally be exceptions when the Pace team may need to do maintenance during business hours, and in these instances the Pace Scheduler team will communicate as appropriate to any affected clients.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Approve and authorize the Chief Probation Officer to execute a Standard Agreement with Turning Point of Central California, Inc., to provide transitional housing services for adult offenders eligible for the AB 109 Public Safety Realignment plan, effective July 1, 2026 through June 30, 2027, not to exceed $930,029; and

SUMMARY
California Assembly Bill 109 (AB 109), Public Safety Realignment Act of 2011, allocates funding to counties for the implementation of state-mandated local programs related to adult offenders that have been realigned from State to local jurisdictions. The Probation Department (Probation) serves as lead agency and fiscal agent for the implementation of the AB 109 Public Safety Realignment plan for Monterey County. Funding is allocated for custody, supervision, treatment, and transitional housing services. The Probation Department recommends entering into a Standard Agreement with Turning Point of Central California, Inc. (Turning Point) to provide transitional housing services for eligible adult offenders in fiscal year 2026-2027.

DISCUSSION:
AB 109 allocates funding to counties for state-mandated local programs related to adult offenders that have been realigned from the State to local jurisdictions. The Probation Department serves as lead agency and fiscal agent for the implementation of the AB 109 Public Safety Realignment plan; this plan includes funding for transitional housing services.

For fiscal year 2026-2027, AB 109 funding in the amount of $921,840 has been allocated to Turning

Point to provide transitional housing services for adult offenders eligible for the program. Turning Point is a non-profit agency that provides a residential program, which offers housing with supervision and support services to up to thirty-two (32) male and female offenders for up to six (6) months. The proposed Standard Agreement will allow Turning Point to provide these services for fiscal year 2026-2027.

In addition to AB 109 funding, the State has allocated Juvenile Justice Realignment Block Grant funding (SB 823) to Probation to support costs and programs related to the impacts of the recent closure of Department of Juvenile Justice facilities. Services under the proposed Agreement with Turning Point will also be extended to SB 823 eligible participants. An estimated $8,189 in SB 823 funding will also be utilized on an as needed basis to reimburse Turning Point for services provided to qualifying clients recently released from one of Probation's Juvenile Institutions.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
The Standard Agreement has been approved by the Office of the County Counsel as to form and by the Auditor-Controller's Office as to fiscal terms.

FINANCING:
FY 26-27 funding for these services is comprised from two State sources. The amount of $921,840 is provided by the State AB 109 Public Safety Realignment (AB109) allocation. The amount of $8,189 is provided by the State SB 823 (SB823) allocation. Locally, these amounts were approved for FY 26-27 distribution to Probation by the Community Corrections Partnership for the AB109 program on February 5, 2026 and by the Juvenile Justice Coordinating Council for the SB823 program on February 13, 2026. Subsequently, the total funding of $930,029 was included in Probation's FY 26-27 Recommended Budget for Appropriation Unit PRO001, Units 8163 and 8165. There is no cost to the County General Fund associated with this recommendation.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The recommendation to approve the Standard Agreement with Turning Point supports key objectives of: 1) Well Being and Quality of Life by providing housing opportunities to improve the economic circumstances of the realigned population; and 2) Safe and Resilient Communities by providing access to County services that improve quality of life and residential stability; and assisting with self-sustainability to aid in crime prevention and successful reintegration into the community.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. Matter Type: BoS Agreement

a. Approve and authorize the Public Defender or their designee to execute a non-standard Agreement with Axon Enterprise, Inc., for digital evidence management system in the amount of $1,214,803 for a ten-year term of July 1, 2026 through July 31, 2036;
b. Accept the risk provisions as recommended by the Public Defender;
c. Authorize the Public Defender or their designee to sign and execute the appropriate documents and verifications when required;
d. Authorize the Public Defender to issue purchase orders on an as-needed basis pursuant to this agreement over the period of July 1, 2026 through July 31, 2036.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the Public Defender or their designee to execute a non-standard Agreement with Axon Enterprise, Inc., for digital evidence management system in the amount of $1,214,803 for a ten-year term of July 1, 2026 through July 31, 2036;
b. Accept the risk provisions as recommended by the Public Defender;
c. Authorize the Public Defender or their designee to sign and execute the appropriate documents and verifications when required;
d. Authorize the Public Defender to issue purchase orders on an as-needed basis pursuant to this agreement over the period of July 1, 2026 through July 31, 2036.

SUMMARY:
The Public Defender currently relies on the County's servers and Defender by Karpel (Karpel) case management system to store digital evidence. Implementing Axon's cloud-based evidence management platform would provide seamless integration with Karpel, improve access to digital evidence, and leverage AI-powered tools to streamline evidence review and enhance attorney and investigator workflows.

DISCUSSION:
The volume and complexity of digital evidence in criminal cases continues to grow significantly. Body-worn camera footage, surveillance video, digital photographs, audio recordings, cell phone extractions, and other electronic records now constitute a substantial portion of the evidence reviewed

by attorneys and investigators. The Public Defender's Office currently relies on County servers and Defender by Karpel (Karpel) case management system to store and manage information. As digital evidence files become larger and more numerous, the need for a more efficient and economical solution has become increasingly important.

Implementing Axon, a cloud-based digital evidence management platform, integrated directly with Karpel, would provide a comprehensive solution for managing, reviewing, and organizing digital evidence. The integration would allow users to access evidence directly from the case management system without the need to navigate multiple platforms, reducing administrative burden and improving workflow efficiency.
Axon's artificial intelligence and automated review tools would further enhance the office's ability to analyze large volumes of evidence. Features such as searchable transcripts, automated audio and video processing, and advanced evidence organization tools can significantly reduce the time attorneys and investigators spend reviewing evidence. This allows staff to focus more of their time on case preparation, client advocacy, and investigative activities rather than administrative tasks.
Additionally, cloud-based storage provides a more scalable and secure environment for managing digital evidence. As evidence files continue to increase in size, reliance on local server storage can create capacity challenges and increased infrastructure costs. Axon offers a secure platform designed specifically for criminal justice agencies, ensuring evidence is stored, managed, and shared efficiently while maintaining appropriate security controls and chain of custody documentation.
The integration of Axon and Karpel would modernize the Public Defender's evidence management processes, improve operational efficiency, strengthen case preparation, and help ensure that attorneys and investigators have timely access to critical information needed to provide effective representation to clients.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
County Counsel has reviewed and approved as to form.

FINANCING:
The costs associated with this agreement are included in the existing Public Defender’s FY 2026-27 Adopted Budget, Fund 001, department 2270, Budget Unit 8169, Appropriation Unit PUB001. Future year’s costs will be included in the respective annual budgets.

5.0 PERFORMANCE STANDARDS:

5.01 CONTRACTOR warrants that CONTRACTOR and CONTRACTOR's agents, employees, and subcontractors performing services under this Agreement are specially trained, experienced, competent, and appropriately licensed to perform the work and deliver the services required under this Agreement and are not employees of the County, or immediate family of an employee of the County.

5.02 CONTRACTOR, its agents, employees, and subcontractors shall perform all work in a safe and skillful manner and in compliance with all applicable laws and regulations. All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

5.03 CONTRACTOR shall furnish, at its own expense, all materials, equipment, and personnel necessary to carry out the terms of this Agreement, except as otherwise specified in this Agreement. CONTRACTOR shall not use County premises, property (including equipment, instruments, or supplies) or personnel for any purpose other than in the performance of its obligations under this Agreement.

6.0 PAYMENT CONDITIONS:

6.01 Prices shall remain firm for the initial term of the Agreement and, thereafter, may be adjusted annually as provided in this paragraph. The County does not guarantee any minimum or maximum amount of dollars to be spent under this Agreement.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

6.05 CONTRACTOR shall not receive reimbursement for mileage or travel expenses unless set forth in this Agreement.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. Such notice shall set forth the effective date of termination. In the event of such termination, the amount payable under this Agreement shall be reduced in proportion to the services provided prior to the date of termination.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. Pursuant to Government Code section 8546.7, if this Agreement involves the expenditure of public funds in excess of $10,000, the parties to this Agreement may be subject, at the request of the County or as part of any audit of the County, to the examination and audit of the State Auditor pertaining

to matters connected with the performance of this Agreement for a period of three years after final payment under the Agreement.

10.05 **Royalties and Inventions:** County shall have a royalty-free, exclusive and irrevocable license to reproduce, publish, and use, and authorize others to do so, all original computer programs, writings, sound recordings, pictorial reproductions, drawings, and other works of similar nature produced in the course of or under this Agreement. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. Attachment A to University of Nebraska Master Agreement

This Master Services and Purchasing Agreement ("**Agreement**") is between Axon Enterprise, Inc., a Delaware corporation ("**Axon**"), and the Board of Regents of the University of Nebraska ("**Agency**"). This Agreement is effective as of the later of the (a) last signature date on this Agreement or (b) signature date on the Quote ("**Effective Date**"). Axon and Agency are each a "**Party**" and collectively "**Parties**". This Agreement governs Agency's purchase and use of the Axon Devices and Services detailed in the Quote Appendix ("**Quote**"). It is the intent of the Parties that this Agreement, together with the University of Nebraska Master Agreement ("Master Agreement") to which it is attached, act as a master agreement governing all subsequent purchases by Agency for the same Axon products and services in the Quote, and all such subsequent quotes accepted by Agency shall be also incorporated into this Agreement by reference as a Quote. The Parties therefore agree as follows:

1 **Definitions**.

"Agency Content" has the meaning given in Axon Cloud Services Terms of Use Appendix. Axon recognizes and agrees that Agency Content may contain Personal Data, even if the presence of such data is not disclosed and even if such data is not labeled or otherwise identified.

"**Axon Cloud Services**" means Axon's web services for Axon Evidence, Axon Records, Axon Dispatch, and interactions between Evidence.com and Axon Devices or Axon client software. Axon Cloud Service excludes third-party applications, hardware warranties, and my.evidence.com.

"**Axon Device**" means all hardware provided by Axon under this Agreement.

"Personal Data" has the meaning given in Axon Cloud Services Terms of Use Appendix.

"**Non-Content Data**" has the meaning given in Axon Cloud Services Terms of Use Appendix.

"**Quote**" means an offer to sell and is only valid for devices and services on the quote at the specified prices. Any terms within Agency's purchase order in response to a Quote will be void. Orders are subject to prior credit approval. Changes in the deployment estimated ship date may change charges in the Quote. Shipping dates are estimates only. Axon is not responsible for typographical errors in any offer by Axon, and Axon reserves the right to cancel any orders resulting from such errors.
"**Services**" means all services provided by Axon under this Agreement, including software, Axon Cloud Services, and professional services.

2 **Term and Survival**. This Term of the Master Agreement shall be as detailed therein ("**Term**").

All subscriptions purchased under this Agreement including Axon Evidence, Axon Fleet, Officer Safety Plans, Technology Assurance Plans, and TASER 7 plans begin upon the date specified in the relevant Quote. Each subscription term ends upon completion of the subscription stated in the Quote ("**Subscription Term**"). If a subscription has not yet expired or been terminated at the end of the Term of the Master Agreement (as may have been extended), such subscription does not terminate and will continue to be governed by the terms of the Agreement and Master Agreement until the subscription's expiration or termination.

3 **Payment**. Axon invoices upon shipment. Payment is due net 30 days from the invoice date. Payment obligations are non-cancelable. Agency will pay invoices without setoff, deduction, or withholding. If Axon sends a past due account to collections, Agency is responsible for collection and attorneys' fees.

4 **Taxes**. Agency shall provide Axon a valid tax exemption certificate.

5 **Shipping**. Axon may make partial shipments and ship Axon Devices from multiple locations. All shipments are FOB shipping point via common carrier. Title and risk of loss pass to Agency upon Axon's delivery to the common carrier. Agency is responsible for any shipping charges in the Quote.

6 **Returns**. All sales are final. Axon does not allow refunds or exchanges, except warranty returns or as provided by state or federal law.

7 **Warranty**.

7.1 **Hardware Limited Warranty**. Axon warrants that Axon-manufactured Devices are free from defects in workmanship and materials for 1 year from the date of Agency's receipt, except Signal Sidearm, which Axon warrants for 30 months from the date of Agency's receipt. Axon warrants its Axon-manufactured accessories for 90-days from the date of Agency's receipt. Used conducted energy weapon ("**CEW**") cartridges are deemed to have operated properly. Extended warranties run from the expiration of the 1-year hardware warranty through the extended warranty term. Non-Axon manufactured Devices are not covered by Axon's warranty. Agency should contact the manufacturer for support of non-Axon manufactured Devices.

7.2 **Claims**. If Axon receives a valid warranty claim for an Axon manufactured Device during the warranty term, Axon's sole responsibility is to repair or replace the Device with the same or like Device, at Axon's option. A replacement Axon Device will be new or like new. Axon will warrant the replacement Axon Device for the longer of (a) the remaining warranty of the original Axon Device or (b) 90-days from the date of repair or replacement.

If Agency exchanges a device or part, the replacement item becomes Agency's property, and the replaced item becomes Axon's property. Before delivering a Axon Device for service, Agency must upload Axon Device data to Axon Evidence or download it and retain a copy. Axon is not responsible for any loss of software, data, or other information contained in storage media or any part of the Axon Device sent to Axon for service.

7.3 **Spare Axon Devices**. For qualified purchases, Axon may provide Agency a predetermined number of spare Axon Devices as detailed in the Quote ("**Spare Axon Devices**"). Spare Axon Devices are intended to replace broken or non-functioning units while Agency submits the broken or non-functioning units, through Axon's warranty return process. Axon will repair or replace the unit with a replacement Axon Device. Title and risk of loss for all Spare Axon Devices shall pass to Agency in accordance with shipping terms under Section 5. Axon assumes no liability or obligation in the event Agency does not utilize Spare Axon Devices for the intended purpose.

7.4 **Limitations**. Axon's warranty excludes damage related to: (a) failure to follow Axon Device use instructions; (b) Axon Devices used with equipment not manufactured or recommended by Axon; (c) abuse, misuse, or intentional damage to Axon Device; (d) force majeure; (e) Axon Devices repaired or modified by persons other than Axon without Axon's written permission; or (f) Axon Devices with a defaced or removed serial number.

7.4.1 **To the extent permitted by law, the above warranties and remedies are exclusive. Axon disclaims all other warranties, remedies, and conditions, whether oral, written, statutory, or implied. If statutory or implied warranties cannot be lawfully disclaimed, then such warranties are limited to the duration of the warranty described above and by the provisions in this Agreement.**

7.4.2 **Except to the extent such limitations are prohibited by applicable law, Axon's cumulative liability to any Party for any loss or damage resulting from any claim, demand, or action arising out of or relating to any Axon Device or Service will not exceed $500,000.00. Neither Party will be liable for special, indirect, incidental, punitive or consequential damages, however caused, whether for breach of warranty or contract, negligence, strict liability, tort or any other legal theory**.

8 **Statement of Work**. Certain Axon Devices and Services, including Axon Interview Room, Axon Channel Services, and Axon Fleet, may require a Statement of Work that details Axon's Service deliverables ("**SOW**"). In the event Axon provides an SOW to Agency, Axon is only responsible to perform Services described in the SOW. Additional services are out of scope. The Parties must document scope changes in a written and signed change order. Changes may require an equitable adjustment in fees or schedule. The SOW is incorporated into this Agreement by reference.

9 **Axon Device Warnings**. See www.axon.com/legal for the most current Axon Device warnings.

10 **Design Changes**. Axon may make design changes to any Axon Device or Service without notifying Agency or making the same change to Axon Devices and Services previously purchased by Agency, provided that it does not materially derogate the overall quality of the Services. Axon will notify the Agency of design

DocuSign Envelope ID: C8B1B8C7-E10A-4C23-A23F-9B48865A148F

change, at the same time it notifies its general customer base, in the event such design change is in response to a known product defect.

11 **Bundled Offerings**. Some offerings in bundled offerings may not be generally available at the time of Agency's purchase. Axon will not provide a refund, credit, or additional discount beyond what is in the Quote due to a delay of availability or Agency's election not to utilize any portion of an Axon bundle.

12 **Insurance**. Axon will maintain General Liability, Workers' Compensation, and Automobile Liability insurance. Upon request, Axon will supply certificates of insurance, as described in the Master Agreement.

13 **Indemnification**. Axon will indemnify Agency, Agency's officers, directors, and employees ("**Agency Indemnitees**") against all claims, demands, losses, and reasonable expenses arising out of a third-party claim against an Agency Indemnitee resulting from any negligent act, error or omission, or willful misconduct by Axon under this Agreement, except to the extent of Agency's negligence or willful misconduct, or claims under workers compensation.

14 **IP Rights**. Axon owns and reserves all right, title, and interest in Axon devices and services and suggestions to Axon, including all related intellectual property rights. Agency will not cause any Axon proprietary rights to be violated.

15 **IP Indemnification**. Axon will indemnify Agency Indemnitees against all claims, losses, and reasonable expenses from any third-party claim alleging that the use of Axon Devices or Services infringes or misappropriates the third-party's intellectual property rights (an "Indemnifiable Claim"). Agency must promptly provide Axon with written notice of such claim, tender to Axon the defense or settlement of such claim at Axon's expense and cooperate fully with Axon in the defense or settlement of such claim. Axon's IP indemnification obligations do not apply to claims based on (a) modification of Axon Devices or Services by Agency or a third-party not approved by Axon; (b) use of Axon Devices and Services in combination with hardware or services not approved by Axon; (c) use of Axon Devices and Services other than as permitted in this Agreement; or (d) use of Axon software that is not the most current release provided by Axon.

In case of any indemnifiable claim under Section 15, Axon shall, at its own option, promptly:

15.1 Secure for Agency the right to continue using the Services;

15.2 Replace or modify the Services to make it non-infringing, provided such modification or replacement does not materially degrade any functionality listed in the functional and technical specifications set forth in this Agreement of the documentation for the Services; or

15.3 If such remedies are not commercially practical in Axon's reasonable opinion, refund the fee paid for the Services for every month remaining in the term of the Agreement following the date after which Agency ceases using the Services.

If Axon exercises its rights pursuant to subsection 15.3, Agency shall promptly cease all use of the Services.

16 **Agency Responsibilities**. Agency is responsible for (a) Agency's use of Axon Devices (b) breach of this Agreement or violation of applicable law by Agency or an Agency end user; and (c) a dispute between Agency and a third-party over Agency's use of Axon Devices, except for Indemnifiable Claims under Section 15.

17 **Termination**.

17.1 **For Breach**. A Party may terminate this Agreement for cause if it provides 30 days written notice of the breach to the other Party, and the breach remains uncured at the end of 30 days. If Agency terminates this Agreement due to Axon's uncured breach, Axon will refund prepaid amounts on a prorated basis based on the effective date of termination.

17.2 **By Agency**. If sufficient funds are not appropriated or otherwise legally available to pay the fees, Agency may terminate this Agreement. Agency will deliver notice of termination under this section

DocuSign Envelope ID: C8B1B8C7-E10A-4C23-A23F-9B48865A148F

as soon as reasonably practicable.

17.3 **Effect of Termination**. Upon termination of this Agreement, Agency rights immediately terminate. Agency remains responsible for all fees incurred before the effective date of termination. If Agency purchases Axon Devices for less than the manufacturer's suggested retail price ("**MSRP**") and this Agreement terminates before the end of the Term, Axon will invoice Agency the difference between the MSRP for Axon Devices received, including any Spare Axon Devices, and amounts paid towards those Axon Devices. Only if terminating for non-appropriation, Agency may return Axon Devices to Axon within 30 days of termination. MSRP is the standalone price of the individual Axon Device at the time of sale. For bundled Axon Devices, MSRP is the standalone price of all individual components.

18 **Confidentiality**. "**Confidential Information**" means information designated as confidential or, given the nature of the information or circumstances surrounding disclosure, should reasonably be understood to be confidential. Each Party will take reasonable measures to avoid disclosure, dissemination, or unauthorized use of the other Party's Confidential Information. Unless required by law, neither Party will disclose the other Party's Confidential Information during the Term and for 1-year thereafter. If Agency receives a public records request to disclose Axon Confidential Information, to the extent allowed by law, Agency will provide notice to Axon before disclosure. Such disclosure shall not be a violation of this Section 18. Axon may publicly announce information related to this Agreement.

19 **Use and Disclosure of Agency Content**. Axon may access and use Agency Content solely as necessary to provide the Services to Agency, and unless it receives Agency's prior written consent, Axon: (1) shall not access or use Agency Data for any purpose other than to provide the Services, consistent with its Cloud Services Privacy Policy attached hereto; and (2) shall not give any third-party access to Agency Data, except subcontractors subject to section 26 and Axon's Cloud Services Privacy Policy attached hereto.

20 **Injunction and Enforcement**. Axon agrees that: (1) no adequate remedy exists at law if it fails to perform or breaches any of its obligations in this Agreement; (2) it would be difficult to determine the damages resulting from its breach of this Agreement, and such breach would cause irreparable harm to Agency; and (3) a grant of injunctive relief provides the best remedy for any such breach, without any requirement that Agency prove actual damage or post a bond or other security. Axon waives any opposition to such injunctive relief or any right to such proof, bond, or other security. Axon's obligations in this Agreement (without limitation) apply likewise to Axon's successors, including without limitation to any trustee in bankruptcy. (This section does not limit either party's right to injunctive relief from breaches not listed.)

21 **Privacy and Security Law Compliance**. Axon shall comply with all applicable laws and regulations, governing Axon's access to, use of, and handling of Agency Content.

22 **Approved Region and Data Centers**. Axon shall not transfer Agency Content (or allow its subcontractors to transfer Agency Content) outside the United States unless it receives Agency's prior written consent.

23 **Agency Access**. Agency may access and copy any Agency Content in Axon's possession at any time. Axon shall reasonably facilitate such access and copying promptly after Agency's request, provided Axon may charge its reasonable then-standard fees for any such access and copying or for any related deconversion of data.

24 **Deletion**. Except as set forth in this Agreement, Axon shall not erase Agency Content or any copy thereof without Agency's prior written consent. Further, Axon shall: (1) halt Agency Content deletion promptly if Agency informs Axon that any Agency Content is subject to electronic discovery or otherwise relevant to potential litigation; and (2) at such times as Agency may request (including without limitation as a result of Consumer Requests made mandatory by applicable law), promptly erase all Agency Content from all systems under Axon's control and direct and ensure erasure by any and all of its subcontractors that have access to Agency Content. In erasing Agency Content as required by the Agreement, Axon shall leave no data readable, decipherable, or recoverable on its computers or other media or those of its subcontractors, using the best erasure methods commercially feasible. Upon request after any erasure of Agency Content or any part of it, Axon shall certify such erasure to Agency in writing.

DocuSign Envelope ID: C8B1B8C7-E10A-4C23-A23F-9B48865A148F

25 **General Security.** Without limiting the generality of its obligations elsewhere in this Agreement, Axon shall exercise commercially reasonable efforts to prevent unauthorized exposure or disclosure of Agency Content.

26 **Employees and Subcontractors.** Axon shall not permit any of its employees, subcontractors, or subcontractor employees to access Agency Content except to the extent that such individual or company needs access to facilitate the Services and is subject to a reasonable written agreement with Axon, or in case of employees, a reasonable written employment policy protecting such data, with terms consistent with those of this Agreement.

27 **Audits**. Axon shall retain a certified public accounting firm to perform an annual audit of the data protection features of the Services and to provide a SOC 2 Type II report, pursuant to the then-current standards of the American Institute of Certified Public Accountants (the "AICPA"). If the AICPA revises its relevant reporting standards, Axon shall retain such accounting firm to provide the report that then most resembles a SOC 2 Type II report. In addition, Axon shall annually conduct its own internal security audit and address security gaps. Axon shall give Agency a copy of the most current report from each audit listed above upon request.

28 **Audit and Test Results**. Any report or other result generated through the tests or audits required by section 27 of this Agreement will be Axon's Confidential Information pursuant to section 18 of this Agreement. If any audit or test referenced above uncovers deficiencies or identifies suggested changes in Axon's provision of the Services, Axon shall exercise reasonable efforts promptly to address such deficiencies and changes, including without limitation by revising the information security program described in section 4 of the Axon Cloud Services Terms of Use Appendix.

29 **Data Incidents**. Axon shall implement and maintain a program for managing unauthorized disclosure of, access to, or use of Agency Content (a "Data Incident"). In case of a Data Incident, or if Axon suspects a Data Incident, Axon shall: (1) promptly, and in any case within forty-eight (48) hours, notify Agency by telephone, in person, or by other real-time, in-person communication; (2) cooperate with Agency and law enforcement agencies, where applicable, to investigate and resolve the Data Incident, including without limitation by providing reasonable assistance to Agency in notifying injured third parties; and (3) otherwise comply with applicable laws governing data breach notification and response, including Neb. Rev. Stat. §§ 87-801 through 87-808. In addition, if the Data Incident results from Axon's breach of the Agreement or negligent or unauthorized act or omission, including without limitation those of its subcontractors or other agents, Axon shall (a) compensate Agency for any reasonable expense related to notification of consumers and (b) provide one (1) year of credit monitoring service to any affected individual. Axon shall give Agency prompt access to such records related to a Data Incident as Agency may reasonably request, and such records will be Axon's Confidential Information pursuant to section 18 (Confidentiality) of this Agreement; provided Axon is not required to give Agency access to records that might compromising the security of Axon's other customers. This section does not limit Agency's other rights or remedies, if any, resulting from a Data Incident.

30 **Services Warranties**. Axon warrants that:

30.1 During the term of this Agreement and subject to Axon's rights to make improvements pursuant to Section 10 of the Agreement, the Services will perform materially as described in the documentation for the Services;

30.2 Axon is the owner of the Services and of each and every component thereof, or the recipient of a valid license thereto;

30.3 Axon has and will maintain the full power and authority to provide the Services described in the Agreement (a) without the further consent of any third party and (b) without conditions or requirements not set forth in the Agreement;

30.4 Axon employs and will employ industry standard or better protections to prevent unauthorized disclosure of or access to personally identifiable information Agency provides to the Services;

30.6 Axon will perform professional services in a professional and workmanlike manner;

30.7 Axon has the full right and authority to enter into, execute, and perform its obligations under this Agreement and to the best of its knowledge, as of the date of original signature on the Master Agreement, no pending or threatened claim or litigation known to Axon would have a material adverse impact on its ability to perform as required by this Agreement; and

30.8 The Services and any media used to distribute it contain no viruses or other computer instructions or technological means intended to disrupt, damage, or interfere with the use of computers or related systems;

30.9 Axon's performance of the Services will comply with all applicable laws, including without limitation federal, national, state, provincial, and local.

31 **Axon Cloud Services Service Levels**. Axon shall make commercially reasonable efforts to make Axon Cloud Services available 99.99% of the time. In the event that Axon fails to make Axon Cloud Services available to the defined Monthly Uptime Percentage set forth below, Agency may be entitled to Service Credits, which are awarded as days of Axon Cloud Services usage added to the end of the Subscription Term at no charge to Agency, as further set forth in the attached Service Level Agreement.

Monthly Uptime Percentage	Service Credits in Days
Less than 99.9%	3
Less than 99.0%	7

32 **Breach of Professional Services Warranty**. In case of breach of the warranty in subsection 30.6, Axon, at its own expense, shall promptly re-perform the professional services in question. The preceding sentence, in conjunction with Agency's right to terminate the Agreement where applicable, states Agency's sole remedy and Axon's entire liability for breach of the warranty in subsection 30.6.

33 **Third-Party Terms**. Use of software or services other than those provided by Axon is solely governed by the terms, if any, entered into between Agency and the respective third-party provider.

34 **General**.

34.1 **Force Majeure**. Neither Party will be liable for any delay or failure to perform due to a cause beyond a Party's reasonable control.

34.2 **Independent Contractors**. The Parties are independent contractors. Neither Party has the authority to bind the other. This Agreement does not create a partnership, franchise, joint venture, agency, fiduciary, or employment relationship between the Parties.

34.3 **Third-Party Beneficiaries**. There are no third-party beneficiaries under this Agreement.

34.5 **Export Compliance**. Each Party will comply with all import and export control laws and regulations.

34.6 **Assignment**. Neither Party may assign this Agreement without the other Party's prior written consent. Axon Cloud Services Terms of Use Appendix

1 **Definitions**.
"Agency Content" is data uploaded into, ingested by, or created in Axon Cloud Services within Agency's tenant, including media or multimedia uploaded into Axon Cloud Services by Agency. Agency Content includes Evidence but excludes Non-Content Data.

"**Evidence**" is media or multimedia uploaded into Axon Evidence as 'evidence' by an Agency. Evidence is a subset of Agency Content.

"**Non-Content Data**" is data, configuration, and usage information about Agency's Axon Cloud Services tenant, Axon Devices and client software, and users that is transmitted or generated when using Axon Devices. Non-Content Data includes data about users captured during account management and customer support activities. Non-Content Data does not include Agency Content.

"**Personal Data**" means any information relating to an identified or identifiable natural person. An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

2 **Access**. Upon Axon granting Agency a subscription to Axon Cloud Services, Agency may access and use Axon Cloud Services to store and manage Agency Content. Agency may not exceed more end users than the Quote specifies. Axon Air requires an Axon Evidence subscription for each drone operator. For Axon Evidence Lite, Agency may access and use Axon Evidence only to store and manage TASER CEW and TASER CAM data ("**TASER Data**"). Agency may not upload non-TASER Data to Axon Evidence Lite.

3 **Agency Owns Agency Content**. Agency controls and owns all right, title, and interest in Agency Content. Except as outlined herein, Axon obtains no interest in Agency Content, and Agency Content is not Axon's business records. Agency is solely responsible for uploading, sharing, managing, and deleting Agency Content. Axon will only have access to Agency Content for the limited purposes set forth herein. Agency agrees to allow Axon access to Agency Content to (a) perform troubleshooting, maintenance, or diagnostic screenings; and (b) enforce this Agreement or policies governing use of the Axon products.

4 **Security**. Axon will implement commercially reasonable and appropriate measures to secure Agency Content against accidental or unlawful loss, access or disclosure. Axon will maintain a comprehensive information security program to protect Axon Cloud Services and Agency Content including logical, physical access, vulnerability, risk, and configuration management; incident monitoring and response; encryption of uploaded digital evidence; security education; and data protection. Axon agrees to the Federal Bureau of Investigation Criminal Justice Information Services Security Addendum.

5 **Agency Responsibilities**. Agency is responsible for (a) ensuring Agency owns Agency Content; (b) ensuring no Agency Content or Agency end user's use of Agency Content or Axon Cloud Services violates this Agreement or applicable laws; and (c) maintaining necessary computer equipment and Internet connections for use of Axon Cloud Services. If Agency becomes aware of any violation of this Agreement by an end user, Agency will immediately terminate that end user's access to Axon Cloud Services.

Agency will also maintain the security of end user names and passwords and security and access by end users to Agency Content. Agency is responsible for ensuring the configuration and utilization of Axon Cloud Services meet applicable Agency regulation and standards. Agency may not sell, transfer, or sublicense access to any other entity or person. Agency shall contact Axon immediately

DocuSign Envelope ID: C8B1B8C7-E10A-4C23-A23F-9B48865A148F

if an unauthorized party may be using Agency's account or Agency Content, or if account information is lost or stolen.

To the extent Agency uses the Axon Cloud Services to interact with YouTube®, such use may be governed by the YouTube Terms of Service, available at https://www.youtube.com/static?template=terms.

6 **Privacy**. Agency's use of Axon Cloud Services is subject to the Axon Cloud Services Privacy Policy, which is incorporated by reference into and appended to this Agreement. Agency agrees to allow Axon access to Non-Content Data from Agency to (a) perform troubleshooting, maintenance, or diagnostic screenings; (b) provide, develop, improve, and support current and future Axon products and related services; and (c) enforce this Agreement or policies governing the use of Axon products. Notwithstanding the provisions anything to the contrary in this Agreement, Axon may disclose Agency Content or Non-Content Data as required by applicable law or by proper legal or governmental authority. Axon shall give Agency prompt notice of any such legal or governmental demand and reasonably cooperate with Agency in any effort to seek a protective order or otherwise to contest such required disclosure, at Agency's expense. No revision of Axon's privacy policy will alter Agency's rights and remedies in this Agreement.

7 **Axon Body 3 Wi-Fi Positioning**. Axon Body 3 cameras offer a feature to enhance location services where GPS/GNSS signals may not be available, for instance, within buildings or underground. Agency administrators can manage their choice to use this service within the administrative features of Axon Cloud Services. If Agency chooses to use this service, Axon must also enable the usage of the feature for Agency's Axon Cloud Services tenant. Agency will not see this option with Axon Cloud Services unless Axon has enabled Wi-Fi Positioning for Agency's Axon Cloud Services tenant. When Wi-Fi Positioning is enabled by both Axon and Agency, Non-Content and Personal Data will be sent to Skyhook Holdings, Inc. ("**Skyhook"**) to facilitate the Wi-Fi Positioning functionality. Data controlled by Skyhook is outside the scope of the Axon Cloud Services Privacy Policy and is subject to the Skyhook Services Privacy Policy.

8 **Storage**. For Axon Unlimited Device Storage subscriptions, Agency may store unlimited data in Agency's Axon Evidence account only if data originates from Axon Capture or the applicable Axon Device. Axon may charge Agency additional fees for exceeding purchased storage amounts. Axon may place Agency Content that Agency has not viewed or accessed for 6 months into archival storage. Agency Content in archival storage will not have immediate availability and may take up to 24 hours to access.

9 **Location of Storage**. Axon may transfer Agency Content to third-party subcontractors for storage. Axon will determine the locations of data centers for storage of Agency Content. For United States agencies, Axon will ensure all Agency Content stored in Axon Cloud Services remains within the United States. Ownership of Agency Content remains with Agency.

10 **Suspension**. Axon may temporarily suspend Agency's or any end user's right to access or use any portion or all of Axon Cloud Services immediately upon notice, if Agency or end user's use of or registration for Axon Cloud Services may (a) pose a security risk to Axon Cloud Services or any third-party; (b) adversely impact Axon Cloud Services , the systems, or content of any other customer; (c) subject Axon, Axon's affiliates, or any third-party to liability; or (d) be fraudulent.

Agency remains responsible for all fees incurred through suspension. Axon will not delete Agency Content because of suspension, except as specified in this Agreement.

11 **Axon Cloud Services Warranty**. Except as set forth in this Agreement, Axon disclaims any warranties or responsibility for data corruption or errors before Agency uploads data to Axon Cloud Services.

12 **Axon Records**. Axon Records is the software-as-a-service product that is generally available at the time Agency purchases an OSP 7 bundle. During Agency's Axon Records Subscription Term, Agency will be entitled to receive Axon's Update and Upgrade releases on an if-and-when available basis.

The Axon Records Subscription Term will end upon the completion of the Axon Records Subscription as documented in the Quote, or if purchased as part of an OSP 7 bundle, upon competition of the OSP 7 Term ("**Axon Records Subscription**")

An "**Update**" is a generally available release of Axon Records that Axon makes available from time to time. An "**Upgrade**" includes (i) new versions of Axon Records that enhance features and functionality, as solely determined by Axon; and/or (ii) new versions of Axon Records that provide additional features or perform additional functions. Upgrades exclude new products that Axon introduces and markets as distinct products or applications.

New or additional Axon products and applications, as well as any Axon professional services needed to configure Axon Records, are not included. If Agency purchases Axon Records as part of a bundled offering, the Axon Record subscription begins on the later of the (1) start date of that bundled offering, or (2) date Axon provisions Axon Records to Agency.

13 **Axon Cloud Services Restrictions**. Agency and Agency end users (including employees, contractors, agents, officers, volunteers, and directors), may not, or may not attempt to:

13.1 copy, modify, tamper with, repair, or create derivative works of any part of Axon Cloud Services;

13.2 reverse engineer, disassemble, or decompile Axon Cloud Services or apply any process to derive any source code included in Axon Cloud Services, or allow others to do the same;

13.3 access or use Axon Cloud Services with the intent to gain unauthorized access, avoid incurring fees or exceeding usage limits or quotas;

13.4 use trade secret information contained in Axon Cloud Services, except as expressly permitted in this Agreement;

13.5 access Axon Cloud Services to build a competitive device or service or copy any features, functions, or graphics of Axon Cloud Services;

13.6 remove, alter, or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon's or Axon's licensors on or within Axon Cloud Services; or

13.7 use Axon Cloud Services to store or transmit infringing, libelous, or other unlawful or tortious material; to store or transmit material in violation of third-party privacy rights; or to store or transmit malicious code.

14 **After Termination**. Axon will not delete Agency Content for 90-days following termination. There will be no functionality of Axon Cloud Services during these 90-days other than the ability to retrieve Agency Content. Agency will not incur additional fees if Agency downloads Agency Content from Axon Cloud Services during this time. Axon has no obligation to maintain or provide Agency Content after these 90-days and shall thereafter, unless legally prohibited, delete all Agency Content. Upon request, Axon will provide written proof that Axon successfully deleted and fully removed all Agency Content from Axon Cloud Services.

15 **Post-Termination Assistance**. Axon will provide Agency with the same post-termination data retrieval assistance that Axon generally makes available to all customers. Requests for Axon to provide additional assistance in downloading or transferring Agency Content, including requests for Axon's data egress service, will result in additional fees and Axon will not warrant or guarantee data integrity or readability in the external system.

16 **U.S. Government Rights**. If Agency is a U.S. Federal department or using Axon Cloud Services on behalf of a U.S. Federal department, Axon Cloud Services is provided as a "commercial item,"

"commercial computer software," "commercial computer software documentation," and "technical data", as defined in the Federal Acquisition Regulation and Defense Federal Acquisition Regulation Supplement. If Agency is using Axon Cloud Services on behalf of the U.S. Government and these terms fail to meet the U.S. Government's needs or are inconsistent in any respect with federal law, Agency will immediately discontinue use of Axon Cloud Services.

17 **Survival**. Upon any termination of this Agreement, the following sections in this Appendix will survive: Agency Owns Agency Content, Storage, Axon Cloud Services Warranty, and Axon Cloud Services Restrictions.

Axon Customer Experience Improvement Program Appendix

1 **Axon Customer Experience Improvement Program (ACEIP)**. The ACEIP is designed to accelerate Axon's development of technology, such as building and supporting automated features, to ultimately increase safety within communities and drive efficiency in public safety. To this end, subject to the limitations on Axon as described below, Axon, where allowed by law, may make limited use of Agency Content from all of its customers, to provide, develop, improve, and support current and future Axon products (collectively, "**ACEIP Purposes**"). However, at all times, Axon will comply with its obligations pursuant to the Axon Cloud Services Terms of Use Appendix to maintain a comprehensive data security program (including compliance with the CJIS Security Policy for Criminal Justice Information), privacy program, and data governance policy, including high industry standards of de-identifying Personal Data, to enforce its security and privacy obligations for the ACEIP. ACEIP has 2 tiers of participation, Tier 1 and Tier 2. By default, Agency will be a participant in ACEIP Tier 1. If Agency does not want to participate in ACEIP Tier 1, Agency can revoke its consent at any time. If Agency wants to participate in Tier 2, as detailed below, Agency can check the ACEIP Tier 2 box below. If Agency does not want to participate in ACEIP Tier 2, Agency should leave box unchecked. At any time, Agency may revoke its consent to ACEIP Tier 1, Tier 2, or both Tiers.

1.1 ACEIP Tier 1.

1.1.1. When Axon uses Agency Content for the ACEIP Purposes, Axon will extract from Agency Content and may store separately copies of certain segments or elements of the Agency Content (collectively, "**ACEIP Content**"). When extracting ACEIP Content, Axon will use commercially reasonable efforts to aggregate, transform or de-identify Agency Content so that the extracted ACEIP Content is no longer reasonably capable of being associated with, or could reasonably be linked directly or indirectly to a particular individual ("**Privacy Preserving Technique(s)**"). For illustrative purposes, some examples are described in footnote 1[1]. For clarity, ACEIP Content will still be linked indirectly, with an attribution, to the Agency from which it was extracted. This attribution will be stored separately from the data itself, but is necessary for and will be solely used to enable Axon to identify and delete all ACEIP Content upon Agency request. Once de-identified, ACEIP Content may then be further modified, analyzed, and used to create derivative works. At any time, Agency may revoke the consent granted herein to Axon to access and use Agency Content for ACEIP Purposes. Within 30 days of receiving the Agency's request, Axon will no longer access or use Agency Content for ACEIP Purposes and will delete any and all ACEIP Content. Axon will also delete any derivative works which may reasonably be capable of being associated with, or could reasonably be linked directly or indirectly to Agency. In addition, if Axon uses Agency Content for the ACEIP Purposes, upon request, Axon will make available to Agency a list of the specific type of Agency Content being used to generate ACEIP Content, the purpose of such use, and the retention, privacy preserving extraction technique, and relevant data protection practices

[1] For example; (a) when extracting specific text to improve automated transcription capabilities, text that could be used to directly identify a particular individual would not be extracted, and extracted text would be disassociated from identifying metadata of any speakers, and the extracted text would be split into individual words and aggregated with other data sources (including publicly available data) to remove any reasonable ability to link any specific text directly or indirectly back to a particular individual; (b) when extracting license plate data to improve Automated License Plate Recognition (ALPR) capabilities, individual license plate characters would be extracted and disassociated from each other so a complete plate could not be reconstituted, and all association to other elements of the source video, such as the vehicle, location, time, and the surrounding environment would also be removed; (c) when extracting audio of potential acoustic events (such as glass breaking or gun shots), very short segments (<1 second) of audio that only contains the likely acoustic events would be extracted and all human utterances would be removed.

applicable to the Agency Content or ACEIP Content ("Use Case"). From time to time, Axon may develop and deploy new Use Cases. At least 30 days prior to authorizing the deployment of any new Use Case, Axon will provide Agency notice (by updating the list of Use Case at https://www.axon.com/aceip and providing Agency with a mechanism to obtain notice of that update or another commercially reasonable method to Agency designated contact) ("**New Use Case**").

1.1.2. **Expiration of ACEIP Tier 1**. Agency consent granted herein, will expire upon termination of the Agreement. In accordance with section 1.1.1, within 30 days of receiving the Agency's request, Axon will no longer access or use Agency Content for ACEIP Purposes and will delete ACEIP Content. Axon will also delete any derivative works which may reasonably be capable of being associated with, or could reasonably be linked directly or indirectly to Agency.

1.2 **ACEIP Tier 2**. In addition to ACEIP Tier 1, if Agency wants to help further improve Axon's services, Agency may choose to participate in Tier 2 of the ACEIP. ACEIP Tier 2, grants Axon certain additional rights to use Agency Content, in addition to those set forth in Tier 1 above, without the guaranteed deployment of a Privacy Preserving Technique to enable product development, improvement, and support that cannot be accomplished with aggregated, transformed or de-identified data.

A CEW user includes officers that use a CEW in the line of duty and those that only use a CEW for training. Agency may not resell cartridges received. Axon will only replace cartridges used in the line of duty.

2 **Training**. If the Quote includes a training voucher, Agency must use the voucher within 1 year of issuance, or the voucher will be void. Axon will issue Agency a voucher annually beginning on the start of the TASER Subscription Term. The voucher has no cash value. Agency cannot exchange it for another device or service. Unless stated in the Quote, the voucher does not include travel expenses and will be Agency's responsibility. If the Quote includes Axon Online Training or Virtual Reality Content Empathy Development for Autism/Schizophrenia (collectively, "**Training Content**"), Agency may access Training Content. Axon will deliver all Training Content electronically.

3 **Extended Warranty**. If the Quote includes an extended warranty, the extended warranty coverage period warranty will be for a 5-year term, which includes the hardware manufacturer's warranty plus the 4-year extended term.

4 **Trade-in**. If the Quote contains a discount on CEW-related line items, including items related to OSP, then that discount may only be applied as a trade-in credit, and Agency must return used hardware and accessories associated with the discount ("**Trade-In Units**") to Axon. Agency must ship batteries via ground shipping. Axon will pay shipping costs of the return. If Axon does not receive Trade-In Units within the timeframe below, Axon will invoice Agency the value of the trade-in credit. Agency may not destroy Trade-In Units and receive a trade-in credit.

Agency Size	Days to Return from Start Date of TASER 7 Subscription
Less than 100 officers	30 days
100 to 499 officers	90 days

DocuSign Envelope ID: C8B1B8C7-E10A-4C23-A23F-9B48865A148F

will be given.

If terminating for non-appropriations, Axon will not invoice Agency if Agency returns the CEW, rechargeable battery, holster, dock, core, training suits, and unused cartridges to Axon within 30 days of the date of termination.

8.3 Agency will be responsible for payment of any missed payments due to the termination before being allowed to purchase any future TASER 7 plan.

Axon Auto-Tagging Appendix

1 **Scope.** Axon Auto-Tagging consists of the development of a module to allow Axon Evidence to interact with Agency's Computer-Aided Dispatch ("**CAD**") or Records Management Systems ("**RMS**"). This allows end users to auto-populate Axon video meta-data with a case ID, category, and location-based on data maintained in Agency's CAD or RMS.

2 **Support**. For thirty days after completing Auto-Tagging Services, Axon will provide up to 5 hours of remote support at no additional charge. Axon will provide free support due to a change in Axon Evidence, so long as long as Agency maintains an Axon Evidence and Auto-Tagging subscription. Axon will not provide support if a change is required because Agency changes its CAD or RMS.

3 **Changes**. Axon is only responsible to perform the Services in this Appendix. Any additional Services are out of scope. The Parties must document scope changes in a written and signed change order. Changes may require an equitable adjustment in fees or schedule.

4 **Agency Responsibilities**. Axon's performance of Auto-Tagging Services requires Agency to:

- **4.1** Make available relevant systems, including Agency's current CAD or RMS, for assessment by Axon (including remote access if possible);

- **4.5** Promptly install and implement any software updates provided by Axon;
- **4.6** Ensure that all appropriate data backups are performed;
- **4.7** Provide assistance, participation, and approvals in testing Auto-Tagging Services;
- **4.8** Provide Axon with remote access to Agency's Axon Evidence account when required;
- **4.9** Notify Axon of any network or machine maintenance that may impact the performance of the module at Agency; and
- **4.10** Ensure reasonable availability of knowledgeable staff and personnel to provide timely, accurate, complete, and up-to-date documentation and information to Axon.

5 **Access to Systems.** Agency authorizes Axon to access Agency's relevant computers, network systems, and CAD or RMS solely for performing Auto-Tagging Services. Axon will work diligently to identify as soon as reasonably practicable resources and information Axon expects to use and will provide an initial list to Agency. Agency is responsible for and assumes the risk of any problems, delays, losses, claims, or expenses resulting from the content, accuracy, completeness, and consistency of all data, materials, and information supplied by Agency.

Agency must ensure its infrastructure and vehicles adhere to the minimum requirements to operate Axon Fleet 2 or Axon Fleet 3 (collectively, "Axon Fleet") as established by Axon during the qualifier call and on-site assessment at Agency and in any technical qualifying questions. If Agency's representations are inaccurate, the Quote is subject to change.

2 **Cradlepoint**. If Agency purchases Cradlepoint Enterprise Cloud Manager, Agency will comply with Cradlepoint's end user license agreement. The term of the Cradlepoint license may differ from the Axon Evidence Subscription. If Agency requires Cradlepoint support, Agency will contact Cradlepoint directly.

3 **Third-party Installer**. Axon will not be liable for the failure of Axon Fleet hardware to operate per specifications if such failure results from installation not performed by, or as directed by Axon.

4 **Wireless Offload Server.**

"Use" means storing, loading, installing, or executing WOS solely for data communication with Axon Devices for the number of licenses purchased. The WOS term begins upon the start of the Axon Evidence Subscription.

4.2 **Restrictions**. Agency may not: (a) modify, alter, tamper with, repair, or create derivative works of WOS; (b) reverse engineer, disassemble, or decompile WOS, apply any process to derive the source code of WOS, or allow others to do so; (c) access or use WOS to avoid incurring fees or exceeding usage limits; (d) copy WOS in whole or part; (e) use trade secret information contained in WOS; (f) resell, rent, loan or sublicense WOS; (g) access WOS to build a competitive device or service or copy any features, functions or graphics of WOS; or (h) remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within WOS.

4.3 **Updates**. If Agency purchases WOS maintenance, Axon will make updates and error corrections to WOS ("**WOS Updates**") available electronically via the Internet or media as determined by Axon. Agency is responsible for establishing and maintaining adequate Internet access to receive WOS Updates and maintaining computer equipment necessary for use of WOS. The Quote will detail the maintenance term.

4.4 **WOS Support**. Upon request by Axon, Agency will provide Axon with access to Agency's store and forward servers solely for troubleshooting and maintenance.

5 **Axon Vehicle Software.**

5.1 **License Grant**. Axon grants Agency a non-exclusive, royalty-free, worldwide, perpetual license to use ViewXL or Dashboard (collectively, "Axon Vehicle Software".) remove, alter or obscure any confidentiality or proprietary rights notices (including copyright and trademark notices) of Axon or Axon's licensors on or within Axon Vehicle Software.

6 **Axon Fleet Upgrade**. If Agency has no outstanding payment obligations and has purchased the "Fleet Technology Assurance Plan" (Fleet TAP), Axon will provide Agency with the same or like model of Fleet hardware ("Fleet Upgrade") as schedule on the Quote.

If Agency would like to change models for the Axon Fleet Upgrade, Agency must pay the difference between the MSRP for the offered Axon Fleet Upgrade and the MSRP for the model desired. The MSRP is the MSRP in effect at the time of the upgrade. Agency is responsible for the removal of previously installed hardware and installation of the Axon Fleet Upgrade.

Within 30 days of receiving the Axon Fleet Upgrade, Agency must return the original Axon Devices to Axon or destroy the Axon Devices and provide a certificate of destruction to Axon, including serial numbers of the destroyed Axon Devices. If Agency does not destroy or return the Axon Devices to Axon, Axon will deactivate the serial numbers for the Axon Devices received by Agency.

7 **Privacy.** Axon will not disclose Agency Content or any information about Agency except as compelled by a court or administrative body or required by any law or regulation. Axon will give notice if any disclosure request is received for Agency Content, so Agency may file an objection with the court or administrative body.

8 **Axon Fleet Termination.** Axon may terminate Agency's Fleet subscription for non-payment. Upon any termination:

8.1 Axon Fleet subscription coverage terminates, and no refunds will be given.

8.2 Axon will not and has no obligation to provide the Axon Fleet Upgrade.

8.3 Agency will be responsible for payment of any missed payments due to the termination before being allowed to purchase any future Fleet TAP.

This Axon Respond Appendix applies to both Axon Respond and Axon Respond Plus.

1 **Axon Respond Subscription Term**. If Agency purchases Axon Respond as part of a bundled offering, the Axon Respond subscription begins on the later of the (1) start date of that bundled offering, or (2) date Axon provisions Axon Respond to Agency.

If Agency purchases Axon Respond as a standalone, the Axon Respond subscription begins the later of the (1) date Axon provisions Axon Respond to Agency, or (2) first day of the month following the Effective Date.

The Axon Respond subscription term will end upon the completion of the Axon Evidence Subscription associated with Axon Respond.

2 **Scope of Axon Respond**. The scope of Axon Respond is to assist Agency with real-time situational awareness during critical incidents to improve officer safety, effectiveness, and awareness. In the event Agency uses Axon Respond outside this scope, Axon may initiate good-faith discussions with Agency on upgrading Agency's Axon Respond to better meet Agency's needs.

3 **Axon Body 3 LTE Requirements**. Axon Respond is only available and usable with an LTE enabled body-worn camera. Axon is not liable if Agency utilizes the LTE device outside of the coverage area or if the LTE carrier is unavailable. LTE coverage is only available in the United States, including any U.S. territories. Axon may utilize a carrier of Axon's choice to provide LTE service. Axon may change LTE carriers during the Term without Agency's consent.

4 **Axon Fleet 3 LTE Requirements.** Axon Respond is only available and usable with a Fleet 3 system configured with LTE modem and service. Agency is responsible for providing LTE service for the modem. Coverage and availability of LTE service is subject to Agency's LTE carrier.

5 **Axon Respond Service Limitations**. Agency acknowledges that LTE service is made available only within the operating range of the networks. Service may be temporarily refused, interrupted, or limited because of: (a) facilities limitations; (b) transmission limitations caused by atmospheric, terrain, other natural or artificial conditions adversely affecting transmission, weak batteries, system overcapacity, movement outside a service area or gaps in coverage in a service area and other causes reasonably outside of the carrier's control such as intentional or negligent acts of third parties that damage or impair the network or disrupt service; or (c) equipment modifications, upgrades, relocations, repairs, and other similar activities necessary for the proper or improved operation of service.

With regard to Axon Body 3, Partner networks are made available as-is and the carrier makes no warranties or representations as to the availability or quality of roaming service provided by carrier partners, and the carrier will not be liable in any capacity for any errors, outages, or failures of carrier partner networks. Agency expressly understands and agrees that it has no contractual relationship whatsoever with the underlying wireless service provider or its affiliates or contractors and Agency is not a third-party beneficiary of any agreement between Axon and the underlying carrier.

6 **Termination**. Upon termination of this Agreement, or if Agency stops paying for Axon Respond or bundles that include Axon Respond, Axon will end Aware services, including any Axon-provided LTE service.

5 **Transferability**. 6 **Evaluation License**. Where Skydio has provided an Evaluation License, all of the terms of this Agreement shall apply except that (i) Customer's license rights shall be limited to the evaluation of that Skydio Software, (ii) Customer shall not be required to pay a Fee for the evaluation of that Skydio Software and (iii) Skydio shall have the right to revoke the license to the Skydio Software at any time and for any reason.

7 **Updates**. The terms and conditions of this Agreement shall apply to all Updates or additional copies of the Skydio Software. Subject to the terms and conditions of this Agreement, including Customer's timely payment of all Fees due and owed to Skydio, Skydio will provide or make available to Customer, during the Support Term, Updates for Base Software, Mobile Apps and any Advanced Software that was enabled under the purchased Advanced Software Package on the Authorized Units. Notwithstanding any other provision of this Agreement, Customer has no license or right to use any Updates to the Advanced Software unless Customer holds a valid license to the Advanced Software and has paid any required Fees for such Advanced Software. Updates are solely provided on a "when-and-if-available" basis and as made generally available by Skydio to its customers. Customer shall promptly install any Updates that Skydio designates as required for the continued safe operation of Skydio Hardware or operation of any Advanced Software.

8 **Proprietary Notices**. Customer agrees to maintain and reproduce all copyright and other proprietary notices on all copies, in any form, of the Skydio Software in the same form and manner that such copyright and other proprietary notices are included on the Skydio Software.

9 **Intellectual Property**. Customer agrees that all worldwide patent, copyright and other intellectual property rights in the Product, and all copies of the Software however made (including copies pre-installed on the Skydio Hardware purchased by Customer) are the exclusive property of Skydio and its suppliers. All Skydio Software is licensed to Customer, not sold. All rights not expressly granted to Customer in this Agreement are reserved by Skydio and its suppliers. There are no implied licenses under this Agreement.

10 **Fees**. Skydio reserves the right to suspend and/or terminate access to the Skydio Software if any undisputed fees for Skydio Hardware or Software are past due. Such suspension or termination shall not relieve Customer from its obligation to pay all undisputed amounts.

11 **Third Party Software and Open Source Software**. The Skydio Software may include third party software, and open source software ("**OSS**"), and such software is provided under separate license terms.

11.1 To the extent the licenses for any OSS requires Skydio to make available to Customer the corresponding source code included in the Skydio Software, Customer may obtain a copy of the applicable OSS source code by sending a written request to legal@skydio.com. The

DocuSign Envelope ID: C8B1B8C7-E10A-4C23-A23F-9B48865A148F

OSS license terms shall take precedence over this Agreement to the extent that this Agreement imposes greater restrictions on Customer than the applicable OSS license terms. Customer acknowledges receipt of notices for the Open Source Components for the initial delivery of the Skydio Software.

11.2 The use of third party software or applications, or the integration of such software or applications with the Skydio Software, (collectively, "**Third Party Applications**"), may result in Customer data or information being transferred to a third party. Skydio is not responsible for, and Customer agrees to hold Skydio harmless, for any data or information transferred to third parties in connection with your use of Third Party Applications.

12 **Commercial Item.** The Skydio Software and associated documentation are "commercial items" as defined at FAR 2.101 and according to DFAR section 252.2277014(a)(1) and (5) are deemed to be "commercial computer software" and "commercial computer software documentation." Consistent with DFAR section 227.7202 and FAR section 12.212, any use, modification, reproduction, release, performance, display, or disclosure of such commercial software or commercial software documentation by the U.S. Government will be governed solely by the terms of this Agreement and will be prohibited except to the extent expressly permitted by the terms of this Agreement.

13 **Term and Termination.** This Agreement is effective upon Skydio Software purchase, activation or download, as applicable, and shall continue until terminated.

13.1 **Paid License Term**. Each Advanced Software Package purchased hereunder shall have its own Skydio License Term. Each Skydio License Term shall have an initial term for the time period set forth on the Quote and that the Skydio License Term shall automatically extend for successive additional one (1) year renewal terms thereafter if any (subject to payment of the then-current applicable license fees for each such renewal term) unless either party give notice to the other of its intention not to renew the Skydio License Term at least thirty (30) days before expiration of the then-current initial or renewal term, as the case may be ("**Renewal Terms**"). If a Skydio License Term is not set forth in the Quote, each Skydio License Term shall have an initial term that commences upon the date of provisioning of the Skydio Software and expires one (1) year later; provided, however, that the Skydio License Term shall automatically extend per the Renewal Terms. Unless Skydio terminates this Agreement for breach by Customer, the perpetual licenses to use Base Software shall survive.

13.2 **Free or Trial License Term**. If you have obtained a license to a free version of the Skydio Software, then your license will continue until terminated in accordance with this Agreement. If you have obtained a trial license to the Skydio Software, then your license will continue for such time period as may be specified by Skydio with respect to such trial (and if no period is specified, for 30 days). Skydio may terminate a trial license at any time in its sole discretion.

13.3 **Termination**. Skydio may terminate Customer's license rights under this Agreement immediately without notice if Customer fails to comply with any terms of this Agreement or Customer fails to make any payment as required hereunder. In no event will termination relieve Customer of its obligation to pay any fees payable for Skydio Hardware or Software. Upon termination or expiration of this Agreement for any reason, Customer shall immediately cease using any Skydio Software and must destroy or return to Skydio all copies of the Skydio Software and associated documentation in its possession or control. The following sections shall survive the termination or expiration of this Agreement: Sections 1, 2(a), 2(b), 2(d), 4, 5 and 7-26.

14 **End of Life**. Skydio may discontinue the provision of any Skydio Software, support or Updates in its sole discretion in accordance with, and any licenses granted herein are subject to, Skydio

If statutory or implied warranties cannot be lawfully disclaimed, then such warranties are limited to the duration of the warranty set forth in the Limited Warranty and by the provisions in this Agreement. Skydio's cumulative liability to any Party for any loss or damage resulting from any claim, demand, or action arising out of or relating to any Skydio Products or any service will not exceed the amounts paid by Customer in the 12 months prior to the action giving rise to the liability. Neither Party will be liable for direct, special, indirect, incidental, punitive or consequential damages, however caused, whether for breach of warranty or contract, negligence, strict liability, tort or any other legal theory.

17 **Safety and Compliance**. Any use of the Skydio Hardware shall comply with all laws. Any use of the Skydio Hardware by Customer and its authorized users shall be in accordance with the information and warnings set forth at https://www.skydio.com/safety (the "**Safety and Operating Guide**"). Customer acknowledges that improper operation of the unmanned aircraft systems may cause injury to persons or property. Customer shall at all times comply with all applicable local, state, national, and international laws and regulations related to the operation of unmanned aircraft systems in any territory of operation, including any applicable laws and orders with regard to privacy, pilot licensure, operating within visual line of sight (unless the Customer has received proper approval from a civil aviation authority waiving such limitation), detecting and avoiding other aircraft, and airspace restrictions (such as temporary flight restrictions issued by Federal Aviation Administration or other appropriate government agencies). Customer shall obtain and maintain all necessary licenses, consent, and authorizations of any kind necessary to operate unmanned aircraft systems.

Data Security Measures

Axon is committed to help protect the security of Customer Data. Axon has established and implemented policies, programs, and procedures that are commercially reasonable and in compliance with applicable industry practices, including administrative, technical and physical safeguards to protect the confidentiality, integrity and security of Customer Content and Non-Content Data against unauthorized access, use, modification, disclosure or other misuse.

Axon will take appropriate steps to ensure compliance with the data security measures by its employees, contractors and Sub-processors, to the extent applicable to the respective scope of performance.

CONFIDENTIALITY

Customer Content and Non-Content Data is encrypted in transit over public networks. Customer Content is encrypted at rest in all Axon Cloud Service regions.

Axon protects all Customer Content and Non-Content Data with strong logical access control mechanisms to ensure only users with appropriate business needs have access to data. Third-party specialized security firms periodically validate access control mechanisms. Access control lists are reviewed periodically by Axon.

INTEGRITY

As Evidence is ingested into Axon Cloud Services, a Secure Hash Algorithm ("SHA") checksum is generated on the upload device and again upon ingestion into Axon Cloud Services. If the SHA checksum does not match, the upload will be reinitiated. Once upload of Evidence is successful, the SHA checksum is retained by Axon Cloud Services and is made viewable by users with access to the Evidence audit trail for the specific piece of Evidence. Tamper-proof audit trails are created automatically by Axon Cloud Services upon ingestion of any Evidence.

AVAILABILITY

Axon takes a comprehensive approach to ensure the availability of Axon Cloud Services. Axon replicates Customer Content over multiple systems to help to protect against accidental destruction or loss. Axon Cloud Services systems are designed to minimize single points of failure. Axon has designed and regularly plans and tests its business continuity planning and disaster recovery programs.

ISOLATION

Axon logically isolates Customer Content. Customer Content for an authenticated customer will not be displayed to another customer (unless Customers explicitly create a sharing relationship between their tenants or shared data between themselves). Centralized authentication systems are used across an Axon Cloud Service region to increase uniform data security.

Additional role-based access control is leveraged within Customer's Axon Cloud Service tenant to define what users can interact with or access Customer Content. Customer solely manages the role based access control mechanisms within its Axon Cloud Services tenant.

Within the Axon Cloud Services supporting infrastructure, access is granted based on the principle of least privilege. All access must be approved by system owners and undergo at least quarterly user access reviews. Any shared computing or networking resource will undergo extensive hardening and is validated periodically to ensure appropriate isolation of Customer Content.

Non-Content Data is logically isolated within information systems such that only appropriate Axon personnel have access.

PERSONNEL

Axon personnel are required to conduct themselves in a manner consistent with applicable law, the company's guidelines regarding confidentiality, business ethics, acceptable usage, and professional standards. Axon personnel must complete security training upon hire in addition to annual and role-specific security training.

Axon personnel undergo an extensive background check process to the extent legally permissible and in accordance with applicable local labor laws and statutory regulations. Axon personnel supporting Axon Cloud Services are subject to additional role-specific security clearances or adjudication processes, including Criminal Justice Information Services background screening and national security clearances and vetting.

Within 48 hours of an incident confirmation, Axon will notify Customer administrators registered on Axon Cloud Services. Authorities will be notified through Axon's established channels and timelines. During this 90-day period, Customer may retrieve Customer Content only if Customer has paid all amounts due (there will be no application functionality of the Axon Cloud Services during this 90-day period other than the ability for Customer to retrieve Customer Content). Customer will not incur any additional fees if Customer downloads Customer Content from Axon Cloud Services during this 90-day period. Axon has no obligation to maintain or provide any Customer Content after the 90-day period and thereafter, unless legally prohibited, may delete Customer Content upon termination as part of normal retention and data management instructions from customers. Data Retention, Restitution, and Deletion

Axon maintains internal disaster recovery and data retention policies in accordance with applicable laws and regulations. The disaster recovery plan relates to Axon's data and extends to Axon Cloud Services and Customer Content stored within. Axon's data retention policies relate to Axon's Non-Content data. Axon's data retention policies instruct for the secure disposal of Non-Content Data when such data is no longer necessary for the delivery and support of Axon product and services and in accordance with applicable regulations. As outlined below, Customer is responsible for adhering to its own retention policies and procedures.

Evidence Retention

Customer defines Evidence retention periods pursuant to Customer's internal retention policies and procedures. Customer can establish its retention policies within Axon Cloud Services. Therefore, customer controls the retention and deletion of its Evidence within Axon Cloud Services. Axon Cloud Services can automate weekly messages summarizing upcoming agency-wide deletions to all customer Axon Cloud Services administrators. Customer users can receive a weekly message regarding Evidence uploaded within their user account to protect against accidental deletions. Customer can recover Evidence up to 7 days after Customer queues such Evidence for deletion. After this 7-day grace period, Axon Cloud Services initiates deletion of Evidence. Data deletion processing may occur asynchronously across storage systems and data centers. During and after data deletion processing, Evidence will not be recovered or recoverable by any party.

Accountability

As outlined herein, Axon is committed to maintaining compliance with relevant security and privacy standards to ensure the continued security, availability, integrity, confidentiality, and privacy of Axon Cloud Services and Customer Data stored within.

Service Provider shall impose these measures on all subcontractors used by Service Provider.

7.2 Service Provider shall endorse ITS' requirement to adhere to the University of Nebraska's (ITS) IT Security Standards (http://idm.unl.edu/authentication-services-policy). ITS is required to assess risks, ensure data integrity, and determine the level of accessibility that must be maintained. Specific activities include:

B. Assessment of the Service Provider's security and privacy controls.
C. Including ITS' security and privacy requirements in the agreement.
D. Periodic reassessment of Service Provider services provisioned to ensure all contract obligations are being met and to manage and mitigate risk.

Service Provider software and its components are equipped and/or designed with systems intended to prevent industry known system attacks (e.g., hacker and virus attacks) and unauthorized access to Confidential Information.

7.4 For the purposes of this article, a "Breach" has the meaning given to it under relevant Nebraska or federal law, for example; the Nebraska Financial Data Protection and Consumer Notification of Data Security Breach Act of 2006 (codified at Neb. Audits will be at ITS' sole expense which includes operational charges by Service Provider, except where the audit reveals material noncompliance with contract specifications, in which case the cost, inclusive of operational charges by Service Provider, will be borne by the Service Provider. In lieu of ITS or its appointed audit firm performing their own audit, if Service Provider has an external audit firm that performs a review, ITS has the right to review the controls tested as well as the results and has the right to request additional controls to be added to the certified report for testing the controls that have an impact on ITS data.

Such review will be conducted at the Service Provider's expense and in accordance with the AICPA's Statements on Standards for Attestation Engagements No. 16 ("SSAE") Service Organization Controls Type 1 or Type 2 report (SOC 1/SOC 2). To the extent the SOC reports provided to ITS do not satisfy ITS' reporting or audit requirements, ITS may conduct its own audits at its expense.

7.8 The Federal Trade Commission has promulgated regulations collectively known as the "Red Flags Rule" with which ITS must comply. See 16 CFR 681. Under the Red Flags Rule, ITS must ensure that Service Provider either complies with ITS' identity theft Program or that Service Provider has its own policies and procedures in place to detect and respond to identity theft Red Flags. Service Provider represents and warrants that is has reasonable policies and procedures in place to detect, prevent and mitigate identity theft. Service Provider shall review and comply with all relevant portions of ITS' identity theft policy, if any, as well as any applicable ITS identity theft plan. Service Provider shall report any Red Flags that it detects in connection with the Agreement to ITS.

8. **CYBER INSURANCE**

The Service Provider agrees to purchase and maintain throughout the term of this Agreement a technology/professional liability insurance policy, including coverage for network security/data protection liability insurance (also called "cyber liability"), covering liabilities for financial loss resulting or arising from acts, errors, or omissions in rendering technology/professional services or in connection with the specific services described in violation or infringement of any right of privacy, including: breach of security and breach of security/privacy laws, rules or regulations globally, now or hereinafter constituted or amended; data theft, damage, unauthorized disclosure, destruction, or corruption, including without limitation, unauthorized access, unauthorized use, identity theft, theft of personally identifiable information or confidential corporate information in whatever form, transmission of a computer virus or other type of malicious code, and participation in a denial of service attack on third party computer systems; loss or denial of service; no cyber terrorism exclusion, with a minimum limit of $10,000,000 each and every claim and in the aggregate. The policy must provide coverage for wrongful acts, claims, and lawsuits anywhere in the world. Such insurance must include affirmative contractual liability coverage for the data breach indemnity in this Agreement for all damages, defense costs, privacy regulatory civil fines and penalties, and reasonable and necessary data breach notification, forensics, credit protection services, public relations/crisis management, and other data breach mitigation services resulting from a confidentiality or breach of security by or on behalf of the Service Provider.

9.1 Accessibility **(**Section 508 ADAA Compliance). If the solution includes any end-user-facing human interface, such as an end-user device software component or web site form, file upload system, etc., then the Service Provider shall conform with the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA Success Criteria to the greatest extent possible.. University of Nebraska campuses and system using the Service Provider's products or services from any third party claim arising out of its failure to comply with the aforesaid requirements.

ITS, at its discretion, may at any time test the Service Provider's products or services covered by this Agreement to ensure compliance with the requirements set forth above. If ITS has any accessibility issues, then ITS must contact it's designated Service Provider representative or accessibility@axon.com and identify the particular accessibility issue(s) with as much specificity as possible. If an accommodation is found to be necessary due to a verified accessibility issue, then Service Provider agrees to remediate the accessibility issue upon request or provide an alternative accommodation at Service Provider's cost. If the accessibility issue cannot be immediately remediated, then Axon will provide a reasonable timeline for any requested remediation or accommodation. Service Provider agrees that, upon ITS's written request, Service Provider will provide updates or reports to ITS regarding Service Provider's progress with respect to any requested remediation or accommodation. Testing that results discovery of a verified accessibility issue may, in ITS's sole discretion, result in payments for impacted products or services under the Agreement being withheld. All withheld amounts will be paid to the Service Provider upon correction of the non-compliance and acceptance by ITS. Said acceptance will not be unreasonably withheld.

Failure to comply with these requirements shall constitute a breach and be grounds for termination of this Agreement and a pro-rated refund of fees paid from ITS for the remainder of original contract period.
The parties agree that a verified accessibility issue will not include issues due to intermediary interference (e.g. virus protection software, outdated web browsers or outdated assistive technology) or a user's inability to properly utilize compliant assistive technology. Client agrees to cooperate and work with Axon to discuss options for accessibility and accommodations. If the parties cannot agree that there is a verifiable accessibility issue, then Axon reserves the right to consult with an independent and mutually agreeable accessibility expert to verify the accessibility issue, provide remediation options and/or provide an alternative accommodation. Such right shall not affect University's right to withhold payment set forth above. To the extent that Axon utilizes other third-party applications or plug-ins, now or in the future, Axon encourages third-parties to make their products and services accessible. These third-party applications and/or plug-ins are not controlled by Axon and may present challenges for individuals with disabilities that Axon may not be able to control or remedy.

a. Approve and authorize the Auditor-Controller to amend the fiscal year 2025-26 Adopted budget of the Agricultural Commissioner (001-2810-AGR001-8001) increasing appropriations and estimated revenues by $1,452,136 where the financing source are additional unanticipated revenues from State Aid to Agriculture in the amount of $1,452,136; (4/5ths Vote Required)
b. Approve and authorize the transfer of up to $1,452,136 from the Agricultural Commissioner's Budget (001-2810-AGR001-8001) to the Capital Project Fund (404-3200-PFP057-8845) for the Agricultural Commissioner's Salinas Facility Project Number 8845 on review and approval from the CAO (4/5ths Vote Required).

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Approve and authorize the Auditor-Controller to amend the fiscal year 2025-26 Adopted budget of the Agricultural Commissioner (001-2810-AGR001-8001) increasing appropriations and estimated revenues by $1,452,136 where the financing source are additional unanticipated revenues from State Aid to Agriculture in the amount of $1,452,136; (4/5ths Vote Required)
b. Approve and authorize the transfer of up to $1,452,136 from the Agricultural Commissioner's Budget (001-2810-AGR001-8001) to the Capital Project Fund (404-3200-PFP057-8845) for the Agricultural Commissioner's Salinas Facility Project Number 8845 on review and approval from the CAO (4/5ths Vote Required).

SUMMARY:
The Agricultural Commissioner received unanticipated revenue of $1,452,136 in fiscal year 2025-26. The unanticipated revenue results from the department achieving maintenance of effort (MOE) requirements for mandated agricultural services performed in FY 2024-25. The department was made aware of the amounts in letters received from the California Dept. of Food and Agriculture (CDFA) and California Dept. of Pesticide Regulations (CDPR) in December 2025 and April 2026 respectively. The amounts received were unanticipated at the time of fiscal year 2025-26 budget preparations and reflect the amount of work performed by the department in fiscal year 2024-25 and the growing revenue made available to county Agricultural Commissioners from unclaimed gas tax (UGT) and Mill tax. The Agricultural Commissioner's Office received the third highest UGT amount in the state at $4.97 million dollars. Mill tax distributed by CDPR was the highest in the state at $4.2 million. Support for the Agricultural Commissioner's request authorizes expenditures in the current fiscal year that ensures the Agricultural Commissioner maintains MOE expenditures to agriculture-related programs in fiscal year 2025-26, which will in turn ensure revenue funding for fiscal year 2026-27 while allowing agricultural programs beneficial to the County to continue.

DISCUSSION:
The recommended actions comply with Board guidelines, facilitating both continuance of agricultural programs for the public and critical infrastructure projects for the department in compliance with the Agricultural Commissioner's maintenance of effort requirement, which ensures the continued receipt of UGT revenue which totaled over $4.97 million in this current fiscal year.

OTHER AGENCY INVOLVEMENT:
The Agricultural Commissioner's Office has been working with the County Administrative Office in consultation regarding this request.

FINANCING:
The proposed action allows expenditures by the Agricultural Commissioner that otherwise would not be possible. The five-year MOE average is the basis of the UGT allocation to counties based on FAC 224. Failure to expend sufficient funds to agricultural programs in the current year will result in reduction of State revenue from UGT in FY 2026-27. This potentially will result in requests from the Agricultural Commissioner for increased General Fund Contribution in future years.

Matter Type: BoS Resolution

Adopt a resolution continuing for an additional sixty (60) days, the Proclamation of Local Emergency in response to a structure fire and hazardous materials incident at the Moss Landing Lithium-Ion Battery Energy Storage System (BESS) Power Plant that started on January 16, 2025.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Adopt a resolution continuing for an additional sixty (60) days, the Proclamation of Local Emergency in response to a structure fire and hazardous materials incident at the Moss Landing Lithium-Ion Battery Energy Storage System (BESS) Power Plant that started on January 16, 2025.

SUMMARY/DISCUSSION:
On January 16, 2025, shortly after 3:00 p.m. a fire began at the Vistra Energy ("Vistra") 300-MW Phase I battery energy storage facility located at the Moss Landing Power Plant. A Local Emergency was Proclaimed by the County Administrative Officer on January 17, 2025, and ratified by the Board of Supervisors on January 21, 2025. The Board further ratified the continuance of the proclamation on March 18, 2025, May 13, 2025, July 8, 2025, August 26, 2025, October 21, 2025, December 9, 2025, February 03, 2026, March 24, 2026 and April 28, 2026.

The Vistra operation is one of the largest lithium battery storage facilities in the world and the fire caused the lithium batteries to burn. Local fire officials could not extinguish the fire due to the extreme heat from the multiple lithium batteries burning, and as of January 17th the fire continued burning. Evacuation orders for the surrounding community were lifted on January 18, 2025. The evacuation orders were issued as a precaution due to the ongoing fire and concerns of exposure to hazardous materials. Air monitoring conducted by the United State's Environmental Protection Agency began on January 17, 2025, within and outside the fence line of the facility indicated that particulate matter posed no risk to public health.

A state led Health Assessment Team comprised of local, state, and federal agencies began soil, dust, and water sampling on January 24, 2025. County, State, and Federal regulatory agencies have and continue to conduct environmental testing for levels of toxic metals, such as nickel, manganese, and cobalt, in the surrounding area. Data from sampling conducted by the Department of Toxic Substances Control (DTSC) indicates there are no elevated metals associated with the fire in soil. DTSC obtained soil samples directly north from the location of the fire and up to four miles away, including at residences, schools, and community parks.

On February 18, 2025, a previously burned section of the Vistra Battery Facility in Moss Landing re-ignited resulting in conflagration and smoke; Unified Command indicated the fire was under control on February 19, 2025.

On February 22, 2025, Vistra Energy, under the direction of local, state, and federal regulatory agencies has initiated a lengthy and arduous hazardous material and structural debris removal process.

A Local Emergency was Proclaimed by the County Administrative Officer on January 17, 2025, and ratified by the Board of Supervisors on January 21, 2025.

Pursuant to California Government Code Section 8630, subdivision (a), and Monterey County Code section 2.68.025 the County Administrative Officer may proclaim the existence of a local emergency when the County is affected by or threatened to be affected by a public calamity. The Government Code requires that an emergency proclamation be ratified by the Board of Supervisors within 7 days of its issuance and be reviewed at least once every (60) days until the emergency is terminated.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
Numerous County departments and other state and federal agencies have participated in the response to the emergency including the Department of Emergency Management, Sheriff's Office, County Administrative Office, Public Works, Facilities, and Parks, and Housing and Community Development.

FINANCING:
The Finance Section of the Emergency Operations Center (EOC) was activated on January 17, 2025, and demobilized on January 24, 2025; Staff continues to compile costs associated with response and recovery related to this emergency. The costs and the impacts on the County will continue to be evaluated and presented under separate financial reports and requests for funding augmentations to the Board by the EOC Finance Section. The County received reimbursement for response costs from January 16- April 15, 2025, from Vistra on August 11, 2025, in the amount of $470,537.66.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This report and resolution are aligned with the Board of Supervisors Strategic Plan Goals regarding Safe and Resilient Communities. The Monterey County Corde of Ordinances, Title 2 - Administration, Chapter 2.68- Emergency Procedures and Organization, Section 2.68.060 - Power and duties of the Director of Emergency Management includes the authority to Recommend the County Administrative Officer, or the Chair of the Board of Supervisors in the absence of the County Administrative Officer, proclaim the existence or threatened existence of a "local emergency".

Matter Type: BoS Resolution

Adopt a resolution to authorize the Department of Emergency Management to receive award from the Fiscal Year (FY) 2025 Emergency Management Performance Grant (EMPG) in the amount of $199,510.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Adopt a resolution to authorize the Department of Emergency Management to receive award from the Fiscal Year (FY) 2025 Emergency Management Performance Grant (EMPG) in the amount of $199,510.

SUMMARY:
On April 17, 2026, per Resolution No. 26-128, the County of Monterey Board of Supervisors authorized the Department of Emergency Management to submit an application for the purpose of obtaining financial assistance to the Federal Emergency Management Agency (FEMA) through the California Governor's Office of Emergency Services (CalOES) for the FY 2025 EMPG. This application resulted in an award from EMPG to the County of Monterey in the amount of $199,510 with a performance period of July 1, 2025, to June 30, 2027.

The Department of Emergency Management requests authorization to receive the FY 2025 EMPG award of $199,510, funded by grant revenue from EMPG.

DISCUSSION:
EMPG is a federally funded program aimed at providing assistance to local government emergency management agencies by providing resources required for implementation of the National Preparedness System's goal of a secure and resilient nation. EMPG supports efforts to build and sustain core capabilities across the Monterey County Operational Area through prevention, protection, mitigation, response, and recovery efforts. EMPG activities range from routine administrative tasks to those of a specific and acute in nature that align with the ever-changing threats and hazards impacting the Monterey County Operational Area.

Adopt a resolution to authorize the Department of Emergency Management to receive award from the Fiscal Year (FY) 2025 Emergency Management Performance Grant (EMPG) in the amount of $199,510.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
Adopt a resolution to authorize the Department of Emergency Management to receive award from the Fiscal Year (FY) 2025 Emergency Management Performance Grant (EMPG) in the amount of $199,510.

SUMMARY:
On April 17, 2026, per Resolution No. 26-128, the County of Monterey Board of Supervisors authorized the Department of Emergency Management to submit an application for the purpose of obtaining financial assistance to the Federal Emergency Management Agency (FEMA) through the California Governor's Office of Emergency Services (CalOES) for the FY 2025 EMPG. This application resulted in an award from EMPG to the County of Monterey in the amount of $199,510 with a performance period of July 1, 2025, to June 30, 2027.

The Department of Emergency Management requests authorization to receive the FY 2025 EMPG award of $199,510, funded by grant revenue from EMPG.

DISCUSSION:
EMPG is a federally funded program aimed at providing assistance to local government emergency management agencies by providing resources required for implementation of the National Preparedness System's goal of a secure and resilient nation. EMPG supports efforts to build and sustain core capabilities across the Monterey County Operational Area through prevention, protection, mitigation, response, and recovery efforts. EMPG activities range from routine administrative tasks to those of a specific and acute in nature that align with the ever-changing threats and hazards impacting the Monterey County Operational Area.

RECOMMENDATION:
It is recommended that the Board of Supervisors:
a. Authorize the County Purchasing Agent, or designee, to enter into agreement with the California Air Resources Board as the lead applicant for the Regional Climate Project Working Group for an award of $10,019,303 for electric vehicle procurement, planning, and training; and
b. Authorize the County Purchasing Agent, or designee, to enter into agreement with the California Energy Commission as the lead applicant for the Regional Climate Project Working Group for an award of $5,688,125 for electric vehicle charging station installation; and,

d. Provide direction to staff as needed.

SUMMARY:
The State of California, California Air Resources Board (CARB) issued a Grant Solicitation on July 14, 2023, under the Advanced Technology Demonstration and Pilot Projects program. Included within this solicitation was a first-time program focused on supporting broad and creative roads to zero-emission adoption at the municipal level, called the Green Zones program. Green Zones seeks to fund zero-emission holistic projects that could be focused on almost any operations within a city, municipality, or group of cities that currently use combustion technologies in carrying out the duties of the municipality.

The Board of Supervisors authorized the Sustainability Program to apply to this grant program on October 17, 2023, in a combined application with the participating members of the Regional Climate Project Working Group (RCPWG), which included Counties of San Benito and Santa Cruz and the Cities of Santa Cruz and Watsonville. This award was successful in the amount of $15,707,428. Of the total award amount, $10,486,742 is the amount the County will receive to complete the grant scope. This is a joint grant from the California Air Resources Board and the California Energy Commission. Staff request that this committee recommend the acceptance of this award by the Board of Supervisors.

DISCUSSION:
County staff participates in a regional collaborative with the Counties of San Benito and Santa Cruz and the Cities of Santa Cruz, Salinas and Watsonville called the Regional Climate Project Working Group (RCPWG) to develop, prioritize, secure funding for, and effectively and equitably advocate for and implement regionally beneficial climate mitigation and adaptation projects and programs.

The primary scope of the grant award is focused on the installation of electric vehicle charging stations (EVCS) and the procurement of electric vehicles (EV) across participating jurisdictions. While final numbers are subject to change this includes 55 EVs and 46 EVCS for the County, 5 EVs for the County of San Benito, 9 EVs and 40 EVCS for the County of Santa Cruz, 15 EVs and 8 EVCS for the City of Santa Cruz, and 7 EVs and 1 EVCS for the City of Watsonville. As the lead applicant, the County will subcontract with each of these participating Counties and assist them in submitting reimbursement claims to the California Air Resources Board and the California Energy Commission. The County is using the ongoing solar projects at the Government Center, ITD building, and Natividad Medical Center as matching funds for this project in the amount of $12,256,171. The remaining $3,451,257 in match is being provided by RCPWG member jurisdictions.

In addition to EVCS and EV procurement, this grant includes additional scopes for EV planning, barrier identification, and problem solving through a “community of practice” forum and a workforce development scope. Staff from each jurisdiction will participate in quarterly meetings facilitated by project management professionals with special training in organizational change and transitions. This community of practice will provide a forum for fleet, maintenance, and various department staff to identify barriers to transitioning fleets from internal combustion engines to EVs. The consultants will develop a stakeholder analysis, identify impacted groups of municipal staff and what staff impacts could result from the transition to EVs. Working with staff in the community of practice and with management from each jurisdiction, the consultants will produce recommendations, vetted by the community of practice, to help transition organizational policies, staff roles and responsibilities and other behavioral aspects of municipal fleet management.

Additionally, the City of Santa Cruz recently completed a web-based tool that analyzes their existing fleet (both internal combustion and EVs), their existing EV charging infrastructure and their parking facilities (e.g., corporation yards, city halls) together with data on EV costs and available incentives, to create user-specified scenarios on transitioning fleets to EVs.

The tool’s scenarios can help a jurisdiction:
· Prioritize EV purchases and EV charging infrastructure installation;

· Estimate the total cost of a full EV transition;
· Identify incentives for any EV or EV charging purchase and many other scenarios.

This grant would expand the deployment of this tool, or similar tool, to RCPWG member agencies. The procurement process for this tool, or similar tool, will be subject to County procurement processes.

The workforce development scope of the grant includes an initial round of training for EV users, mechanics and maintenance staff. It will start with two joint training sessions across the jurisdictions (one for EV users and one for mechanics/maintenance staff) and then each jurisdiction will receive five three-hour hands-on training sessions at their sites with their EV charging stations and their EVs. The County staff time mentioned above is for County participation in the community of practice and workforce development portions of the grant.

OTHER AGENCY INVOLVEMENT:
The Alternative Energy & Environment Committee recommended that this item advance to the Board on April 27, 2026. The Budget Committee recommended that this item advance to the Board on May 26, 2026. Staff are coordinating on this project from the Sustainability Program with Public Works, Facilities, and Parks. Capital Improvement Project 4075 “Electric Vehicle Charging at Various County Facilities” will be updated in the Capital Improvement Plan to reflect this project. Departments benefiting from EV and EVCS procurement per the initial grant scoping include the Agricultural Commissioner’s Office, Communications Bureau, Public Works Facilities and Parks, the Health Department, Information Technology Department, Monterey County Free Libraries, and Social Services. These departments’ scopes were developed for the initial application, so there is potential for other County departments to participate if needs have shifted.

FINANCING:
Staff plans to take this item to the Board of Supervisors through the Budget Committee. This grant will require appropriations as a reimbursable grant in the amount of $9,230,148. Additionally, the County will receive $1,256,594 from the State for grant administration. The County is using the ongoing solar projects at the Government Center, ITD building, and Natividad Medical Center as matching funds for this project in the amount of $12,256,171. Using the solar projects as match allows the County to undertake this work having already met the match requirements under the grant awards.

The County will be responsible for the following portions of the grant scope and budget as the lead applicant that will require state reimbursement:
Task 1, Planning, barrier identification and solution development
Planning and Final Report- $216,000
Community of Practice Subcontractor- $1,797,230
Fleet Electrification Tool- $100,750
Community Engagement Subcontractor- $361,566

Task 2, Workforce Development:
Workforce Development Subcontractor- $43,435
Training Provider Subcontractor- $70,760

Task 3, Electric vehicle and charging infrastructure procurement and data collection:
Telematics installation- $55,000
Electric Vehicle Charger Installation- $3,463,408
Electric Vehicle Acquisition- $3,122,000

This brings the total scope to be reimbursed by the State to $9,230,148. Staff will return to the Board to address appropriation considerations after the budget for FY26/27 has been adopted to complete the scope of work for this grant. Additionally, the County Sustainability Program will receive $1,256,594 for completing grant administration under this grant under task 4, bringing the total grant amount accepted to $10,486,742.

While final numbers are subject to change this includes 55 EVs and 46 EVCS for the County, 5 EVs for the County of San Benito, 9 EVs and 40 EVCS for the County of Santa Cruz, 15 EVs and 8 EVCS for the City of Santa Cruz, and 7 EVs and 1 EVCS for the City of Watsonville. As the lead applicant, the County will subcontract with each of these participating Counties and assist them in submitting reimbursement claims to the California Air Resources Board and the California Energy Commission. The County is using the ongoing solar projects at the Government Center, ITD building, and Natividad Medical Center as matching funds for this project in the amount of $12,256,171. The remaining $3,451,257 in match is being provided by RCPWG member jurisdictions.

In addition to EVCS and EV procurement, this grant includes additional scopes for EV planning, barrier identification, and problem solving through a “community of practice” forum and a workforce development scope. Staff from each jurisdiction will participate in quarterly meetings facilitated by project management professionals with special training in organizational change and transitions. This community of practice will provide a forum for fleet, maintenance, and various department staff to identify barriers to transitioning fleets from internal combustion engines to EVs. The consultants will develop a stakeholder analysis, identify impacted groups of municipal staff and what staff impacts could result from the transition to EVs. Working with staff in the community of practice and with management from each jurisdiction, the consultants will produce recommendations, vetted by the community of practice, to help transition organizational policies, staff roles and responsibilities and other behavioral aspects of municipal fleet management.

Additionally, the City of Santa Cruz recently completed a web-based tool that analyzes their existing fleet (both internal combustion and EVs), their existing EV charging infrastructure and their parking facilities (e.g., corporation yards, city halls) together with data on EV costs and available incentives, to create user-specified scenarios on transitioning fleets to EVs.

The tool’s scenarios can help a jurisdiction:
· Prioritize EV purchases and EV charging infrastructure installation;

· Estimate the total cost of a full EV transition;
· Identify incentives for any EV or EV charging purchase and many other scenarios.

This grant would expand the deployment of this tool, or similar tool, to RCPWG member agencies. The procurement process for this tool, or similar tool, will be subject to County procurement processes.

The workforce development scope of the grant includes an initial round of training for EV users, mechanics and maintenance staff. It will start with two joint training sessions across the jurisdictions (one for EV users and one for mechanics/maintenance staff) and then each jurisdiction will receive five three-hour hands-on training sessions at their sites with their EV charging stations and their EVs. The County staff time mentioned above is for County participation in the community of practice and workforce development portions of the grant.

OTHER AGENCY INVOLVEMENT:
The Alternative Energy & Environment Committee recommended that this item advance to the Board on April 27, 2026. The Budget Committee recommended that this item advance to the Board on May 26, 2026. Staff are coordinating on this project from the Sustainability Program with Public Works, Facilities, and Parks. Capital Improvement Project 4075 “Electric Vehicle Charging at Various County Facilities” will be updated in the Capital Improvement Plan to reflect this project. Departments benefiting from EV and EVCS procurement per the initial grant scoping include the Agricultural Commissioner’s Office, Communications Bureau, Public Works Facilities and Parks, the Health Department, Information Technology Department, Monterey County Free Libraries, and Social Services. These departments’ scopes were developed for the initial application, so there is potential for other County departments to participate if needs have shifted.

FINANCING:
Staff plans to take this item to the Board of Supervisors through the Budget Committee. This grant will require appropriations as a reimbursable grant in the amount of $9,230,148. Additionally, the County will receive $1,256,594 from the State for grant administration. The County is using the ongoing solar projects at the Government Center, ITD building, and Natividad Medical Center as matching funds for this project in the amount of $12,256,171. Using the solar projects as match allows the County to undertake this work having already met the match requirements under the grant awards.

The County will be responsible for the following portions of the grant scope and budget as the lead applicant that will require state reimbursement:
Task 1, Planning, barrier identification and solution development
Planning and Final Report- $216,000
Community of Practice Subcontractor- $1,797,230
Fleet Electrification Tool- $100,750
Community Engagement Subcontractor- $361,566

Task 2, Workforce Development:
Workforce Development Subcontractor- $43,435
Training Provider Subcontractor- $70,760

Task 3, Electric vehicle and charging infrastructure procurement and data collection:
Telematics installation- $55,000
Electric Vehicle Charger Installation- $3,463,408
Electric Vehicle Acquisition- $3,122,000

This brings the total scope to be reimbursed by the State to $9,230,148. Staff will return to the Board to address appropriation considerations after the budget for FY26/27 has been adopted to complete the scope of work for this grant. Additionally, the County Sustainability Program will receive $1,256,594 for completing grant administration under this grant under task 4, bringing the total grant amount accepted to $10,486,742.

Exhibit A - Grant Provisions

**Grant Agreement Terms and Conditions
By and Between the California Air Resources Board And
County of Monterey**

1. Parties

This Grant Agreement ("Grant", "Grant Agreement", "Agreement") is entered into by and between the State of California acting by and through the California Air Resources Board (hereinafter referred to as "CARB", the "Grantor", the "State" or the "Board") and the County of Monterey (hereinafter referred to as the "Grantee"). Grantee is a Local Government with its principal place of business located at 168 West Alisal Street, Third Floor, Salinas, CA 93901. Grantor and Grantee are each a "Party" and together the "Parties" to this Grant Agreement. The Grant Agreement includes the Grant Cover Sheet and all exhibits attached thereto.

As referenced in this Grant Agreement, "Grantee" includes, individually and collectively, Grantee's employees, officers, directors, members (of a limited liability company (LLC) form of entity), partners (of a partnership form of entity), agents, representatives, or assigns.

A "Subgrant" means a grant or award provided by the Grantee pursuant to this Grant Agreement to a "Subgrantee" that is used to support a project that the Subgrantee carries out in support of their own program. The Subgrantee has responsibility for some programmatic implementation and does not profit from the subgrant or otherwise receive reimbursement in excess of its actual costs. In contrast, the Grantee hires a "Contractor" or "Subcontractor" under a contract to provide goods and services for items the Grantee itself needs to carry out this Grant. A Contractor or Subcontractor does not make programmatic decisions but simply provides the goods and services to the Grantee according to the terms of its agreement with the Grantee.

"Resource Entity" or "Resource Entities" means and includes, individually and collectively, Grantee's Contractors, Subcontractors, and consultants.

"Grant Recipient" or "Grant Recipients" means and includes, individually and collectively, Subgrantees, voucher recipients, awardees, sub-awardees, or any other individual or entity that receives any Grant Funds other than the Grantee or Resource Entities.

The Parties agree as follows:

iv. **Termination for Cause by Grantor.** This Grant Agreement may be terminated by CARB without advance notice at any time if CARB has determined, in its sole discretion, that the Grantee, or any of their Grant Recipients, has breached any of the terms or conditions of this

Grant Agreement, or has violated or are in violation of any of their respective obligations or responsibilities under this Grant Agreement or any other agreement where CARB is an intended third-party beneficiary.

1) **Non-performance (Breach) Provisions.** The Grantee agrees that the following is a non-exhaustive list of the circumstances that constitute non-performance (breach) under this Grant Agreement. These circumstances will be solely determined by CARB and include, but are not limited to:

v. **Transition of Funds, Data, and Property.**

Upon termination, issuance of a termination notice by either Party, cancellation, or expiration of this Grant Agreement, whichever occurs sooner, the Grantee shall immediately, and no later than 10 business days prior to the termination, cancellation, or expiration of this Grant Agreement, do all of the following:

1) Transfer to CARB all unspent Grant Funds, including any advance payment and any earned interest. Within 45 days of receipt of notice from the Grantor of Grantee non-performance, if any, provide a money transfer confirmation of the returned funds.

Unless otherwise directed in writing by CARB, upon termination of this Grant Agreement or upon issuance of the termination notice (whichever occurs sooner), Grantee shall submit a final Grant Disbursement Request Form and a final Status Report covering activities up to and including the termination date. The final Status Report shall be subject to review and approval by CARB before any final payments are disbursed. Upon receipt of the Grant Disbursement Request Form, and final Status Report, and once all intellectual property and requested data, information and property have been transferred and assigned to CARB, CARB, at its sole discretion, may make a final payment to the Grantee. This payment shall be for all CARB-approved, actually incurred costs that in the opinion of CARB are justified. However, the total amount paid shall not exceed the total authorized amount for the Grant Funds.

d. **Contingency Provision.** In the event this Grant Agreement is terminated for whatever reason, the CARB Executive Officer or designee reserves the right in their sole discretion to use or make the Grant Funds available in a manner consistent with applicable laws, policies and the applicable Funding Plan(s), which may include but is not limited to allocating the Grant Funds to other projects or awarding the Grant to the next highest scored applicant and if an agreement cannot be reached, to the next applicant(s) until an agreement is reached.

e. **CEQA.** CARB retains full discretion to consider all available information relating to California Environmental Quality Act (CEQA) compliance before determining whether to proceed with funding or authorization of any work under this Grant Agreement. No work may be initiated by the Grantee, nor will any funding be disbursed by CARB, until CARB has affirmatively notified the Grantee in writing that this CEQA condition has been satisfied. If CARB decides not to proceed with this Grant Agreement, the Grant Agreement will be terminated immediately by CARB upon written notice to the Grantee.

Within CARB's sole and absolute discretion, CARB will designate a third-party administrator to manage, oversee, or administer projects and programs, which may include any or all of CARB's responsibilities under this Grant Agreement. Upon such designation, Grantee shall respond and report to and comply with requests from CARB's third-party administrator, when requested.

Comply with all terms, provisions, and conditions of this Grant Agreement, including all incorporated documents, and fulfill all assurances, declarations, representations, and statements made by Grantee in the Grantee application materials (Exhibit D) and as reflected in the Solicitation (Exhibit C).
iv. Require Resource Entities and Grant Recipients, if any, to meet all the aforementioned requirements, as applicable.
v. Use best efforts and subject matter expertise in managing, overseeing and implementing the Project. This includes but is not limited to:
    1) Closely communicate with CARB any significant changes to Project implementation that would impact timely completion of the Statement of Work (Exhibit B).

7. Fiscal Administration

a. **Budget.**

i. The maximum amount payable to Grantee by CARB shall not exceed the total amount of Grant Funds., (Exhibit B—Attachment I: Budget Summary).

ii. Under no circumstance will CARB reimburse the Grantee for more than the allowable amount of Grant Funds. A written amendment pursuant to the General Provisions of this Grant Agreement is required whenever there is a change to the Grant Funds.

iii. The CARB Executive Officer retains the authority to terminate or reduce the amount of Grant Funds if, by March 15, 2027, seventy-five (75) percent of total Grant Funds have not been expended and accounted for in accordance with the terms and conditions of this Grant Agreement. In the event of such termination, the Term and Termination Section of this Grant Agreement shall apply.

iv. Subject to prior written approval from CARB, Budget line-item shifts of up to 10 percent of the Grant Funds may be made during the Term, provided such shifts over 10 percent are made by written amendment to the Grant Agreement. Line-item shifts may be proposed by either Grantor or the Grantee and must not increase or decrease the total amount of the Grant Funds. All line-item shifts must be consistent with Exhibit B (Attachment I—Budget Summary, and Attachment II—Project Schedule).

b. **Project Funding.**

i. **Grant Disbursement Form (Form MSCD/ISB-90).**

a) Requests for payment shall be made with the Grant Disbursement Request Form (Form MSCD/ISB-90) and conform to the instructions identified in the Fiscal Administration Section. Disbursements requesting funds from multiple funding sources shall be submitted individually by funding source.

Grant payments shall be made only for reasonable costs incurred by the Grantee and only when the Grantee has submitted to CARB a

Grant Disbursement Request Form (Form MSCD/ISB-90), a Status Report, demonstration of completion of milestones stipulated in Exhibit B, Attachment II, demonstration that the requirements of this section, Fiscal Administration, have been satisfied, and any other associated deliverables (if applicable). CARB will have the sole discretion to accelerate the allowable timeline for disbursement of Grant Funds identified in Exhibit B, Attachment II, necessary to assure the goals of the Program are met.

b) The Grantee shall initially submit an unsigned Grant Disbursement Request to the CARB Project Liaison to complete a Grant Disbursement Request package pre-review.
c) The Grantee shall submit the Grant Disbursement Requests to CARB's Accounting Section at **grants@arb.ca.gov**, with a CC to the CARB Project Liaison. The Grantee must submit Grant Disbursement Requests electronically, based on CARB's electronic submission guidance in effect at the time of the request. The Grantee must make all requests for payment by submitting the Grant Disbursement Request Form and all required documentation. Grant disbursement requests must be submitted by the Grantee to CARB no later than May 1st of each CARB fiscal year to ensure adequate time for processing prior to the end of that fiscal year. The final disbursement request for this grant must be submitted by May 1, 2028. The funds specified in this Grant Agreement must be disbursed by June 30, 2028.
d) Grant payments are, in each instance, subject to CARB's advance review and approval, including review and approval of Status Reports and any accompanying deliverables. A payment will not be made if the CARB Project Liaison determines that a milestone has not been accomplished or documented, that a deliverable meeting specification has not been provided, that claimed expenses have not been documented or accomplished or are not valid per the budget or are not reasonable, or that the Grantee has not met other terms or conditions of the Grant.
e) The Chief of the Mobile Source Control Division or designee of CARB may review the CARB Project Liaison's approval or disapproval of a Grant disbursement. No reimbursement will be made for expenses that, in the judgment of the Division Chief of the Mobile Source Control Division, are not reasonable or do not comply with the Grant Agreement.
f) CARB shall disburse funds in accordance with the California Prompt Payment Act, Government Code, Section 927, et seq.

ii. **Supporting Documentation.**

a) For reimbursement, the requesting entity must submit:

1. Valid, true and correct invoices justifying the amount requested. Invoices must reflect only actual costs incurred by the entity requesting reimbursement.
2. All documentation demonstrating cost of work completed in the following categories: 1) Direct Labor Costs; 2) External Resource Entity fees for completed work (where applicable); 3) Direct Operating Costs; and 4) Indirect Costs.
3. Any additional documentation requested by CARB.

iii. **Authorized Costs:**

Authorized Costs (if set out in Exhibit B of this Grant Agreement) may include but are not limited to the following:

a) Direct Labor Costs

Direct Labor Costs are the actual salaries and wages paid to employees of the Grantee. Direct labor costs do not include fringe benefits, indirect costs, or profit. Direct labor rates and hours/months billed must be documented for each employee to justify the expense. Billed direct labor rates must be the actual direct labor rates paid, not to exceed the direct labor rates in this Grant Agreement's Exhibit B.

b) Direct Operating Costs

Direct Operating Costs include supplies and equipment, and generally excludes capital expenditures on real property, building and facility improvements, rent, phones, computers, software or other licenses, furniture, vehicles, aircraft, and vessels. If investment in these excluded items is necessary to carry out the Grantee responsibilities for the direct benefit of the Project, then advance written approval from CARB shall be required.

Direct Operating Costs also include:

a) Telecommunications and related utilities (electricity, telephone and internet services).
b) Travel expenses and per-dem rates set at the rate specified by California Department of Human Resources (CalHR). Travel is limited to inside California, except as otherwise approved in writing by CARB.
c) Except where expressly disallowed by CARB in the Solicitation or elsewhere in this Grant Agreement, permits and other jurisdictional approvals required to directly support the Project may be authorized.
d) Printing, records retention, and mailing.

c) Indirect Costs (Overhead)

Indirect costs (also sometimes referred to as overhead, general or administrative costs) means those costs incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. Only an allocable portion of indirect costs directly benefiting the Project may be billed to CARB. Indirect costs shall not be reimbursed if they were not expressly identified in the Grantee's original application to the Solicitation and accompanied by a draft indirect cost allocation plan.

In order to claim indirect costs, the Grantee must first have in place a CARB approved indirect cost allocation plan (which must be an attachment to Exhibit B of this Grant Agreement). Indirect costs may only be claimed if it is supported by a documented cost allocation plan that details which amounts and types of costs are classified as indirect and how those costs are allocated among all of the Grantee's projects and activities.

Indirect costs will be unsupported or overclaimed under any of the following circumstances (by way of example but not limitation):

a) There is no documented support for indirect costs, such as an indirect cost allocation plan.
b) There is an indirect cost allocation plan, but it uses estimates instead of actual costs in the calculations.
c) There is an indirect cost allocation plan, which uses actual costs, but the supported rate from the plan is less than the rate that was claimed.
d) The method used to allocate costs is different than the one used to claim indirect expenditures.
e) The indirect plan includes expenditures that were also claimed as direct costs (double billing).
f) The indirect plan includes unallowable expenditures, such as fundraising or lobbying.
g) The indirect plan includes costs that are more appropriately classified as direct, such as consultants hired for a specific project.
h) The indirect plan is not updated each year with actual costs.

iv. **Funding of Grant Recipients and Resource Entities.**

a) The Grantee is responsible for making payments directly to Resource Entities and Grant Recipients, if any, upon verifying completion of milestones in the Resource Entity or Grant Recipient agreements.

The Grantee shall support, review, validate and finalize all Grant Recipient Grant Disbursement Forms (Form MSCD/ISB-90 or equivalent developed in coordination with CARB) and assist the Grant Recipients with submitting any and all needed backup documentation or reports. The Grantee shall disburse payments directly to the Grant Recipients. Grantee shall then disburse payments directly to the Grant Recipients. Grantee shall disburse payments directly to Resource Entities, as part of its Administrative Fee detailed in the Budget Section above.

c. **Suspension of Payments.**
    i. CARB may issue a suspension order (stop work order) at any time for any reason. The suspension order shall remain in effect until the dispute has been resolved, as confirmed in writing by CARB, or the Grant has been terminated. Grantee will not be reimbursed for any expenditure incurred during the suspension. Upon issuance of the suspension order, Grantee shall stop all work, unless otherwise specified in the suspension order. Failure to comply with the terms of the suspension order is a material breach of this agreement and will subject the Grantee to liquidated damages. Grantee shall resume work only upon receipt of written instructions from CARB.
d. **Grantee Match Funding.**
    i. Match funding from the Grantee, if applicable, can only be used in two ways:
        a) To reduce the cost to the State to implement the Program and,
        b) at CARB's discretion, to support active demonstration and CARB-approved projects.
    ii. Documentation that shows compliance with the guidance above must be provided to CARB in the Status Reports.
e. **In-Kind Services.** The Grantee is encouraged to contribute in-kind services to improve the Program's effectiveness. "In-kind services," for purposes of the Program, means payments or contributions made in the form of goods and services, rather than direct monetary contributions. Funds expended on in-kind services must meet all the requirements described in this Grant and must be documented in the Status Reports to CARB.
f. **Advance Payments.** CARB shall not provide advance payment, and Grantee shall not provide advance payments to Resource Entities or Grant Recipients.
g. **Financial Records and Accounts.**
    i. Grantee agrees that, at a minimum, its fiscal control and accounting procedures will be sufficient to permit tracing of all Grant Funds to a level of expenditure adequate to establish that such funds have not been used in violation of law or this Grant Agreement. Unless otherwise

prohibited by law, Grantee further agrees that it will maintain separate Grant Fund accounts as required to manage and administer the Project, including the use of generally accepted accounting principles.

ii. Grantee shall not commingle the Grant Fund account with any other accounts, revenues, grants, donations, or funds. Grantee shall maintain all Grant Funds in separate bank accounts designated specifically for the purposes of carrying out the obligations of this Grant Agreement. The bank accounts must be held in the name of the Grantee (the official entity name, and not a dba), and no other person or entity. Grant Funds are not the assets of the Grantee and shall not be used, obligated, or relied upon for any purposes other than those purposes and uses set out in this Grant Agreement. Grant Funds shall not be used as collateral for or an obligation to any debt, loan or other borrower commitments of the Grantee, Resources Entities, or Grant Recipients. All Grant Funds accounts shall adequately and accurately depict all amounts received and expended.

h. **Earned Interest.**

i. "Earned interest" means any interest generated from any and all Grant Funds provided to the Grantee and held in an interest-bearing account.
   a) Interest earned by Grantee must be reported to CARB. All interest income must be returned to CARB and/or reinvested in the Program in a manner approved by CARB. Grantee is responsible for reporting to CARB everything that is funded with interest earned on Grant Funds.
   b) Grantee must maintain accurate and complete accounting records (e.g. general ledger) that tracks interest earned and expended on Grant Funds, as follows:
      1. The calculation of interest must be based on an average daily balance or some other reasonable and demonstrable method of allocating the proceeds from the interest-generating account back into the Program.
      2. The methodology for tracking earned interest must ensure that it is separately identifiable from interest earned on non-Grant Funds.
      3. The methodology for calculating earned interest must be consistent with how it is calculated for the Grantee's other fiscal programs.
      4. Earned interest must be fully expended by March 15, 2027.

ii. Documentation of interest earned on the Grant Funds must be retained for a minimum of five (5) years after it is generated. Documentation of interest expended on CARB-approved projects must be retained for a

minimum of five (5) years after the interest has been expended.

iii. The above documentation must be provided to CARB in the monthly Status Reports and the final Status Report. CARB may, at its sole discretion, request copies of or review any of the above documentation in advance of or after receipt of any Status Reports or the final Status Report, and Grantee shall fully cooperate and comply will all such requests.

i. **Additional Remedies for Non-Compliance.**

i. Without limiting any of its other remedies, CARB may, for Grantee's noncompliance with any term or condition of this Grant Agreement, withhold future payments, demand and be entitled to repayment of past reimbursements or payments, or suspend or terminate this Grant Agreement. All Project Schedule and other tasks are non-severable, and completion of all of them is material to this Grant Agreement. Thus, without limiting its other remedies, CARB is entitled to repayment of all funds paid to Grantee if the Grantee does not timely complete all Project Schedule and other tasks to the reasonable satisfaction of CARB.

ii. Grantee understands, acknowledges and agrees that failure to comply in whole or in part with this Grant Agreement or with applicable air quality rules, regulations and laws, is, in each instance, a material breach of the Grant Agreement and such breach will result in undue hardship and damages to the State of California some or all of which is impossible to easily calculate. Grantee understands, acknowledges and agrees that Grantee's said compliance is a precondition to the award and distribution of Grant Funds (including Administrative Fees) and a continuing obligation of Grantee during the Term of the Grant Agreement and for the consecutive three (3) years following expiration, cancellation or termination of the Grant Agreement, whichever occurs later.

a) **Liquidated Damages**

1. If CARB determines, within its sole and absolute discretion, that Grantee is in breach or has breached this Grant Agreement, then Grantee, immediately upon demand, shall pay CARB, as liquidated damages, the full amount of all Grant Funds previously paid to Grantee to date, including but not limited to all Administrative Fees.
2. The Parties agree that quantifying the losses arising from Grantee's breach is inherently difficult insofar as breach may cause Grantor irreparable, serious, or substantial harm or damage to taxpayers or to the environment. The Parties further stipulate that the agreed upon amount of liquidated damages is not a penalty, but rather a reasonable measure of damages based

upon the Parties' experience and given the nature of the losses that may result from said breach. The Parties hereto have computed, estimated, and agreed upon the sum as an attempt to make a reasonable forecast of probable actual loss because of the difficulty of estimating with exactness the damages which will result.

3. This provision shall apply even if there is a concurrent noncompliance or violation of air quality rules, regulations, or laws caused by any third-party.

8. Documentation Of Expenditure Of State Funds.

Per the terms and conditions of this Grant Agreement as set out herein above and below, the Grantee must provide CARB with documentation accounting for the proper expenditure of Grant Funds and use of Administrative Fees. The documentation must be provided upon CARB request, and in Status Reports submitted monthly to CARB and in a final Status Report submitted at the completion of the Project prior to the Grantee receiving the last disbursement of funding.

9. Project Monitoring

a. **Meetings.**

i. Initial meeting: A meeting will be held between key project personnel and CARB staff before work on the project begins. The purpose of the first meeting will be to discuss the overall plan, details of performing the tasks, the project schedule, and any issues that may need to be resolved.

ii. Review meetings: Meetings to discuss progress must be held at least quarterly beginning three months after the initial meeting. Additional meetings may be scheduled at the sole discretion of the CARB Project Liaison. Such meetings may be conducted in any manner deemed appropriate by the CARB Project Liaison.

iii. Site visits: Site visits shall be established by the CARB Project Liaison during the Term of this Grant Agreement.

b. **Technical Monitoring.**

i. Any changes in the scope or schedule for the Project shall require the prior written approval of the authorized representatives of CARB (e.g. CARB Project Liaison) and will require a formal Grant amendment.

ii. The Grantee shall notify the CARB Project Liaison, immediately in writing, if any circumstances arise (technical, economic, or otherwise), which might place continued operation or completion of the Project in jeopardy. The Grantee shall also make such notification if there is a change in key project personnel (see Exhibit B, Attachment III).

iii. In addition to Status Reports (see the Reporting section), the Grantee shall provide information requested by the CARB Project Liaison that is needed to assess progress in completing tasks and meeting the objectives of the Project.
iv. Any change in budget allocations, re-definition of deliverables, or extension of the Project Schedule must be requested in writing to the CARB Project Liaison and approved by CARB, in its sole discretion, and will require a formal Grant amendment.

10. Reporting

a. Monthly Status Reports.

i. The Grantee shall submit Status Reports on a monthly basis. The Status Reports shall be provided in a format agreed upon between CARB Project Liaison and Grantee and meet the requirements specified herein. CARB may specify an electronic format for Status Reports.
ii. Grantee acknowledges, understands and agrees that any information contained in any Status Reports or other submissions provided by Grantee, or any of its Resource Entities, may be used by CARB or any of its third-party representatives to verify compliance with the provisions of this Grant Agreement. Furthermore, Grantee acknowledges, understands and agrees that Status Reports submitted to CARB must include the following certification signed by a person with authority to make such a certification on behalf of the Grantee:

> I certify, under penalty of perjury under the laws of the State of California, that I have examined and am familiar with the information in the enclosed Status Report, including all attachments thereto. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements, representations, conclusions and information are true, accurate, and complete. I am aware that there are significant penalties for knowingly submitting false statements, claims or information to the State of California, including the possibility of criminal sanctions.

iii. Grantee must provide Status Reports to CARB detailing Project activity including the status of funds used, current issues with administration or implementation. Status Reports shall contain, at a minimum:
    1) Current status of each Project milestone and deliverable, status of Grant Funds, if any match funding has been used, problems encountered and status of the Project timeline.
    2) Status of any outreach efforts being planned or completed since the last report.

3) Status of any administrative tasks required by CARB, such as report templates, translation services, or ADA remediation.
4) Status of data collection for each Project, reports on data collected so far, and plans for future data collection efforts.
5) Status of any Grant Funds disbursed to or held by the Grantee, including earned interest.

iv. The Status Report provides a mechanism for the Grantee to validate the use of funding needed to implement the Program. The Status Report must be submitted monthly, but may additionally be provided on an as-needed basis to justify additional funding from CARB. The first Status Report must be submitted one month after this Grant Agreement is fully executed or when first requesting disbursement of funds, whichever is sooner.

v. Every Grant Disbursement Request Form (Form MSCD/ISB-90) shall be accompanied by a Status Report that documents work toward completion of a milestone specified in Exhibit B, Attachment II.

vi. If the Project is behind schedule, the Status Reports must contain an explanation of reasons for delay, and how the Grantee plans to resume timely completion of milestones and deliverables in the Project Schedule (Exhibit B, Attachment II).

b. **Final Report.**

i. The Grantee must submit an ADA-compliant draft Final Report to CARB when the Project is complete or no later than March 31, 2028, before the expiration of the Term, whichever occurs sooner.

ii. The draft Final Report must include, at a minimum:
1) Total fund expenditures documentation (including but not limited to administrative fee, match and in-kind funds);
2) Status of any ongoing Project milestones, deliverables or issues;
3) Summary of all Project milestones and deliverables that have been completed;
4) Outreach and educational efforts;
5) Implementation challenges;
6) Recommendations for potential Program improvements; and,
7) Earned interest.

iii. The draft Final Report must be submitted to CARB in an appropriate format agreed upon between the CARB Project Liaison and the Grantee. The Final Report must meet the requirements specified in this Grant Agreement. Upon approval of the draft Final Report by CARB Project Liaison, the Grantee shall submit to CARB an original executed (signed) final version of the Final Report (inclusive of all supporting documentation), plus an electronic version of same, no later than 30 days before the expiration of the Term.

iv. The Final Report must also contain the same signed certification statement set out in the Monthly Status Report section above.

11. Oversight And Accountability

a. The Grantee shall comply with all oversight responsibilities identified in this Grant Agreement.
b. CARB or its designee may recoup Grant Funds due to misinformation, misrepresentation or fraud. CARB also reserves the right to prohibit any entity from participating in existing or future CARB programs, projects or grants due to non-compliance with Grant Agreement or Program requirements, or due to misinformation, misrepresentation or fraud.
c. Grantee shall, for each occurrence, document and immediately report to CARB any and all suspected or known substandard work; suspected or actual Resource Entity or Grant Recipient breach of their related agreements, fraud, misrepresentations or abuse of funds; suspected or known violations of any Grant terms or conditions; and all misrepresentations and fraud carried out by any third-parties including but not limited to any of Grantee's Resource Entities or other agents. Grantee shall fully cooperate and work with CARB to investigate, resolve and take appropriate action to enforce the terms and conditions of this Grant Agreement and all related sub-agreements, including appropriately prosecuting or litigating any civil or criminal claims as determined necessary by CARB or its representative.

12. Project Record Maintenance

a. Grantee shall establish and maintain records of the Project. As further described below, by way of example but not limitation, Project records include Grantee, Resource Entity, and Grant Recipient financial and Program records ("Project Records").
b. Grantee shall:
    i. Utilize best practices to store all records in a safe and secure storage facility that maintains confidentiality and provides fire and natural disaster protection. Files shall be retained during the Term of the Grant Agreement plus five years. Upon completion of the required record-retention period, the Grantee must submit all Project records to CARB. Hardcopy or electronic records are suitable. Acceptable forms of electronic media must be approved based on prior written concurrence from CARB.
    ii. Remediate documents and webpages, as needed, to be ADA-compliant in accordance with the Web Content Accessibility Guidelines 2.0, level AA, or a subsequent version, as provided under this Grant Agreement.
    iii. Develop a systematic process and schedule to back up Project database(s) each day, at a minimum.

iv. Develop a plan for disaster recovery of all relevant software applications, websites, and data.

Where requested by CARB, Grantee will clarify, supplement, modify, or update its Status Reports at no additional cost to CARB.
ix. Where necessary as solely determined by CARB, the Grantee shall support CARB's enforcement efforts, including the recapturing of funds from Grantee, Resource Entity or Grant Recipient, and by providing CARB with any information, documents, data, or other materials needed to investigate or carry out such efforts.
x. Support CARB in efforts to track key information about the distribution of Grant funds to support the development, deployment, and commercialization of advanced technology vehicles, equipment, and infrastructure.

c. The Grantee shall retain a combined file for the Project containing:

Hardcopy or electronic transfer of electronic records are suitable. Acceptable forms of electronic media, including hard drives and flash drives, shall be provided. Other forms of electronic media may be allowed based on prior written concurrence from CARB.

e. All Project records are subject to audit pursuant to the audit provisions of this Grant Agreement.

13. Acknowledgement of CARB

Grantee agrees to acknowledge the California Air Resources Board (CARB) as a funding source for the Project and all Grant Recipient projects, when such projects are publicized in any news media, websites, brochures, publications, audiovisuals, or other types of promotional material.

Grantee shall adhere to CARB's logo usage requirements, in a manner directed by CARB. CARB logos and any additional required materials shall be provided to the Grantee by CARB staff.

14. CCI

Where applicable, Grantee agrees to also acknowledge the California Climate Investments (CCI) program as a funding source, and adhere to the *CCI Funding Guidelines* as outlined in the *California Climate Investments Messaging and Communications Guide* (http://www.caclimateinvestments.ca.gov/logo-graphics-request/). Below are specific requirements for acknowledgement.

Grantee agrees to include the CCI funding boilerplate and logo (see Figure 1) on all outreach and public facing materials whenever it publicizes (in any news media, websites, brochures, publications, audiovisuals, or other types of promotional material) projects funded in whole or in part by this Agreement. Grantee shall include this requirement in all Grant Recipient agreements, as appropriate. The acknowledgement must read as follows: "Advanced Technology Demonstrations and Pilot Projects, is part of California Climate Investments, a statewide initiative that puts billions of Cap-and-Invest, formerly

known as Cap-and-Trade, dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities." And whenever applicable, the Spanish translation acknowledgement: Programa de Demostración de Tecnología Avanzada y Proyectos Piloto forma parte de las Inversiones del Clima de California, un iniciativa estatal que destina miles de millones de dólares de Cap-and-Invest, anteriormente conocido como Cap-and-Trade para la reducción de gases de efecto invernadero, fortalecimiento de la economía y mejoramiento de la salud pública y el medio ambiente – especialmente en comunidades en desventaja.

The CCI logo and name serves to bring under a single brand the many investments whose funding comes from the GGRF. The logo represents a consolidated and coordinated initiative by the State to address climate change by reducing greenhouse gases, while also investing in disadvantaged communities and achieving many other co-benefits.

Except as required by applicable law, or as otherwise expressly authorized by this Grant Agreement, the Grantee shall not disclose to any third-party any record, data, or information which CARB has designated as confidential, in perpetuity. It is expressly understood and agreed that information the Grantee collects, generates, or acquires in performing its obligations under this Grant may be deemed confidential by CARB, and shall not be released without prior CARB approval in writing. Therefore:

i. Unauthorized use of Project Information Resources by Grantee, Resource Entities, Grant Recipients, or other third-parties is prohibited. For the purposes of this requirement, the phrase "unauthorized use" means the data mining or processing of data which has been stored or transmitted by Grantee, Resource Entities, or Grant Recipients, for unrelated or commercial purposes, advertising or advertising-related purposes, or for any purpose other than security or service delivery analysis that is not explicitly authorized by Grantor.

ii. Project information or data, including but not limited to personally identifiable information ("PII") and all records and supporting documentation that personally identifies or describes an individual or individuals, is confidential in accordance with California Civil Code sections 1798, et seq. and other relevant State or federal statutes and regulations. In performance of any of the terms or conditions of this Grant, the Grantee shall safeguard all such information, records, applications, PII and data which comes into its possession or control in perpetuity, and shall not release or publish any such information, records, data, or application records without first obtaining in each instance the advance written approval of an authorized representative of CARB.

iii. Grantee must ensure that the Grantee's employees, officers, directors, members (of a limited liability company (LLC) form of entity), partners (of a partnership form of entity), agents, representatives, assigns, Resource Entities, and Grant Recipients are informed of the confidential nature of any shared information or data; and, ensure by written agreement that such individuals and entities are prohibited from copying, revealing, or utilizing such information or data (or any parts thereof) for any purpose other than in compliance with applicable laws and in fulfillment of this Grant, and are precluded from taking any action otherwise prohibited under any provision of this Grant or applicable laws.

Grantee agrees to notify CARB immediately of any security incident involving suspected or actual release or breach of any information system, servers, data, or any other information developed or collected pursuant to this Grant. Grantee agrees that CARB has the right to participate in the investigation of a security incident involving such suspected or actual release or breach, or to conduct its own independent investigation, and that the Grantee shall cooperate fully in such investigations.
viii. Grantee agrees that it shall be responsible for all costs incurred by it and by CARB due to a security incident resulting from any act or omission of Grantee or any of their Resource Entities or Grant Recipients, including any acts or omissions resulting in an unauthorized disclosure, release, access, review, or destruction of data or information; or loss, theft or misuse of information or data developed or gathered pursuant to this Grant. If applicable law requires, or if CARB determines, that notice to the individuals whose data has been lost or breached is needed, then the Grantee shall provide all such notification and will bear any and all costs associated with the notice or any mitigation selected by CARB. These costs include, but are not limited to, staff time, material costs, postage, media announcements, credit monitoring for impacted individuals, and other identifiable costs associated with the breach or loss of data.
ix. If Grantee believes disclosure of a confidential record or information may be required by law, such as the California Public Records Act (Gov.

Code, § 7920.000, et seq.), court order, or legal process (such as a subpoena), Grantee shall first give CARB at least fourteen (14) days advance written notice prior to any planned disclosure so that CARB can seek, solely at CARB's discretion, an order preventing disclosure from a court of competent jurisdiction. Grantee agrees that it shall immediately notify and work cooperatively with CARB to respond timely and correctly to any and all public records requests. Grantee agrees that it will not challenge or authorize or endorse any challenge to any action or request by CARB to obtain a protective order or court order to prevent the release of any information.

x. Grantee assumes all responsibility and liability for the security and confidentiality of PII, sensitive and confidential information and data under its jurisdiction or control.

xi. Grantee certifies, represents, and warrants that:

17. Insurance Requirements

The Grantee, and each Resource Entity or Grant Recipient, must comply with all requirements outlined in the (a) General Insurance Provisions section and (b) Grant Insurance Requirements section below. No payments of Grant Funds (including Administrative Fees) will be made under the Grant until and unless the Grantee fully complies with all insurance requirements.

This provision does not apply to voucher recipients or similar third-parties who receive Grant Funds for the purchase or lease of vehicles or equipment for their sole and exclusive ownership and personal use, and not for performance under this Grant Agreement where such vehicle or equipment will be used by the Grantee, Resource Entities, Grant Recipients, or the general public. Such individuals must obtain any and all insurance as required by the law and must show proof of such insurance upon the request of CARB or Grantee.

a. **General Insurance Provisions.**

i. **Coverage Term**

Coverage needs to be in force for the complete Term of the Grant. If insurance is set to expire during the Term of the Grant, a new certificate must be received by the State at least ten days prior to the expiration of this insurance. Any new insurance must comply with the original Grant terms.

ii. **Policy Cancellation or Termination & Notice of Non-Renewal**

The Grantee is responsible for notifying the State within five business days of any cancellation, non-renewal, or material change that affects required insurance coverage. New certificates of insurance are subject to the approval of CARB, and the Grantee agrees no work or services will be performed prior to obtaining such approval. In the event that the Grantee fails to keep in effect at all times the specified insurance coverage, the State may, in addition to any other remedies it may have, terminate the Grant upon the occurrence of such event, subject to the provisions of the Grant.

iii. **Premiums, Assessments, and Deductibles**
The Grantee is responsible for any premiums, policy assessments, deductibles, or self-insured retentions contained within their insurance program.

iv. **Primary Clause**
Any required insurance contained in the Grant shall be primary, and not excess or contributory, to any other insurance carried by the State.

v. **Insurance Carrier Required Rating**
All insurance companies must carry an AM Best rating of at least "A–" with a financial category rating of no lower than VII. If the Grantee is self-insured for a portion or all of its insurance, review of financial information including a letter of credit may be required.

A blanket additional insured endorsement is not acceptable. A Waiver of Subrogation or Right to Recover endorsement in favor of the State of California is required and must also be attached to the certificate.

Any required endorsements requested by the State or required in this Grant Agreement must be physically attached to all requested certificates of insurance and not substituted by referring to such coverage on the certificate of insurance.

vii. **Inadequate Insurance**
Inadequate or lack of insurance does not negate the Grantee's obligations under the Grant.

viii. **Satisfying a Self-Insured Retention (SIR)**
All policies with a SIR shall be endorsed to allow the State to satisfy the SIR or deductible at the State's discretion. The State may fund the SIR or deductible by deducting that amount from any Grant Funds otherwise due to the Grantee. Policies shall not contain any provision that limits the satisfaction of the SIR or deductible to the Named Insured. Alternatively, the Grantee can obtain from its insurer, and produce to

CARB, an express elimination of the requirement to pay the SIR or Deductible for "the State of California, the California Air Resources Board, and each of its and their officers, agents, and employees as additional insureds."

ix. **Available Coverages/Limits**
All coverage and limits available to the Grantee shall also be available and applicable to the State.

x. **Resource Entities and Grant Recipients**
In the case of the Grantee's utilization of Resource Entities to complete any part of the Grant scope of work, the Grantee shall include all Resource Entities as insureds under the Grantee's insurance or supply evidence of the Resource Entity's insurance to the CARB equal to or greater than the policies, coverages, and limits required of the Grantee. Grantee shall also ensure that Grant Recipients carry the same or greater coverage for the work or services performed.

b. **Grant Insurance Requirements.**
The Grantee, each Resource Entity, and each Grant Recipient, shall display evidence of the following on a certificate of insurance which includes all the required endorsements, including but not limited to additional insured endorsements. Each entity shall maintain commercial general liability (CGL) on an occurrence form with limits not less than $2,000,000.00 per occurrence for bodily injury and property damage liability combined with a $4,000,000.00 annual policy aggregate. The entity shall maintain statutory worker's compensation, with statutory limits, and employer's liability coverage for all its employees who will be engaged in the performance of the Grant. In addition, employer's liability limits of $1,000,000.00 per claim are required.

The entity shall notify CARB in writing if they have no employees, or are otherwise exempt from worker's compensation, and therefore also exempt from this requirement for employer's liability coverage. If the entity retains employees or otherwise loses its exemption from worker's compensation at any point during the term of this Grant Agreement, it shall immediately notify CARB and comply with the worker's compensation and employer's liability insurance requirements stated herein.

iv. **Cyber Liability (If applicable)**

The entity shall maintain Cyber Liability coverage, with limits not less than $1,000,000.00 per occurrence or claim, and $2,000,000.00 aggregate. Coverage shall include but not be limited to employee dishonesty, theft, forgery, or alteration, and inside/outside money and securities coverages including first- and third-party theft for state-owned or leased property in the care, custody, and/or control of the Grantee. The policy shall include as loss payee, the State of California, and the California Air Resources Board.

vi. **Professional Liability (Errors and Omissions)**

The entity shall maintain insurance appropriate to the entity's profession, with a limit of no less than $1,000,000.00 per occurrence or claim, $2,000,000.00 aggregate.

vii. **Self-Insurance**

1) Workers' Compensation – The Grantee will provide a copy of its Certificate of Consent to Self-Insure from the Department of Industrial Relations.

2) All Other – The Grantee's Risk Manager, or comparable position holder, shall provide a written description of the plan including what is covered, what is not covered, identify the financial limits of the plan and identify the source of funds for financing the plan.

Grantee must also provide:
1) Their most recent audited annual financial statement including all accounting letters. The report must show the Grantee's owner's equity of at least $5,000,000.00 and annual profit of at least $500,000.00.
2) A signed written statement from the Grantee's certified public accountant (CPA) confirming the annual net profit for each of the prior four (4) years has been at least $500,000.00.

18. General Provisions (Alphabetical)

a. **Alternative Enforcement.**
The remedies set out in this Grant Agreement are contractual in nature. Nothing stated in this Grant Agreement in any way limits, prevents or precludes the State of California from taking any enforcement action, exercising any police power, or prosecuting any violation of law.

b. **Amendment.**
This Grant Agreement may only be amended by a written amendment to this Grant Agreement which has been fully executed by authorized representatives of both Parties. Unless otherwise approved by CARB, requests by Grantee for amendment of this Grant Agreement must be made at least sixty (60) days prior to the Grant term end date.

c. **Americans with Disabilities Act (ADA) Language.**
Grantee must ensure that all products and services submitted to, uploaded, or otherwise provided to or funded by CARB or made available to the public by the Grantee, their Resource Entities or Grant Recipients, including but not limited to data, software, plans, drawings, specifications, reports, operating manuals, notes and other written or graphic work prepared in the course of performance of this Grant Agreement, including Status Reports (collectively, the "Work"), comply with Web Content Accessibility Guidelines 2.0, level AA, and any subsequent versions, and otherwise meet the accessibility requirements set forth in California Government Code Sections 7405 and 11135, Section 202 of the federal Americans with Disabilities Act (42 U.S.C. § 12132), and Section 508 of the federal Rehabilitation Act (29 U.S.C. § 794d) and the regulations promulgated thereunder (36 C.F.R. Parts 1193 and 1194) (collectively, the "Accessibility Requirements"). For any Work provided to CARB or the public in PDF format, Grantee, along with their Grant Recipients, shall also provide an electronic version in the original electronic format (for example, Microsoft Word or Adobe InDesign). CARB may request from the Grantee documentation of compliance with the requirements

described above and may perform testing to verify compliance. Grantee agrees to respond to and resolve any complaint brought to its attention regarding accessibility of materials provided under this Grant Agreement.

i. Grantee must bring into compliance, at no cost to CARB, any Work by Grantee, Resource Entities, or Grant Recipients, not meeting the Accessibility Requirements. If Grantee fails to bring the Work into compliance with the Accessibility Requirements within five (5) business days of issuance of written notice from CARB, or within the time frame specified by CARB in its written notice, then Grantee will be responsible for all costs incurred by CARB in bringing the Work into compliance with the Accessibility Requirements. Grantee agrees to respond to and resolve any complaint brought to its attention regarding accessibility of deliverables provided under this Grant Agreement for a period of one year following delivery of the final deliverable under this Grant Agreement.
ii. Deviations from the Accessibility Requirements are permitted only by advance written consent by CARB in each instance.

d. **Assignment.**
This Grant Agreement is not assignable, in whole or in part, by the Grantee without the advance written consent of CARB in the form of a formal written amendment signed by authorized representatives of both Parties.

e. **Assurances.**
CARB reserves the right, but not the obligation, to seek further written assurances from the Grantee, Resource Entities, or Grant Recipients, that the work performed under this Grant Agreement will be performed consistent with the terms and conditions of this Grant Agreement.

f. **Audit.**
Grantee agrees that CARB, the California Department of General Services, California Department of Finance, the California State Auditor (formerly known as the California Bureau of State Audits), and any of their respective designated representatives shall have the right to review and copy any records and supporting documentation pertaining to the performance of this Grant Agreement and all Grant Funds received or expended. Grantee agrees to maintain such records for a possible audit for a minimum of five (5) years from the date of termination, cancellation, or expiration of this Grant Agreement or for 5 years after a funded incentive activity has concluded, whichever is later. The Parties may stipulate to a longer records retention period. Grantee agrees to produce all such records to CARB upon request, allow CARB and other state designated representatives (including auditors) access to such records during normal business hours, and to allow interviews of Grantee and any and all of Grantee's Resource Entities and Grant Recipients who might reasonably have information related to such records. Furthermore, Grantee agrees to include in

all agreements, contracts and subcontracts, language identical to or similar to this paragraph to ensure CARB has the ability and right to audit records and conduct interviews of any and all Grantee's employees, officers, directors, members (of a limited liability company (LLC) form of entity), partners (of a partnership form of entity), agents, representatives, assigns, Resource Entities, and Grant Recipients in relation to performance or use of the Grant Funds under this Grant Agreement.

g. **Authority.**
Each person executing this Grant Agreement on behalf of a Party represents that he or she is duly authorized to execute and deliver this Grant Agreement on that Party's behalf.

h. **Availability of funds.**
Grantee acknowledges, agrees and understands that Grantor's obligations, including but not limited to payment or reimbursement, under this Grant Agreement are contingent upon the availability of designated or legislatively appropriated funds. In the event funds are not available, Grantor shall have no obligation and no liability to pay any funds whatsoever to the Grantee or to furnish any other consideration under this Grant Agreement or for any other reason. Grantee acknowledges it has no reasonable reliance interest in receiving any funds under this Grant Agreement in the event such funds are not designated or legislatively appropriated.

i. **Compliance with Law.**
The Grantee agrees that it will, at all times, comply with, and require their Resource Entities and Grant Recipients to comply with, all applicable federal, state, and local laws, rules, guidelines, regulations, and requirements during the Term. This requirement includes, but is not limited to:
    i. Obtaining any permits or approvals necessary to undertake the activities funded by the Grant Funds, and complying with all environmental review requirements associated with such activities; and,
    ii. Compliance with federal law which prohibits employers from hiring, recruiting, or referring people who do not have the legal right to work in this country; or, hiring contractors who hire people who do not have the legal right to work in this country. (8 U.S.C. § 1324a.).

A failure of the Grantee to comply fully at all times with this section is a breach of this Grant Agreement and is cause for immediate termination of the Agreement without advance notice.

j. **Conflict of Interest.**
Grantee certifies that it is, and shall remain, in compliance with all applicable State and federal conflict of interest laws during the entire Term of this Grant Agreement. Grantee will have no interest, and shall not acquire any interest, direct or indirect, which will conflict with its ability to impartially perform under, or complete the tasks described in, this Grant. Grantee must disclose any

direct or indirect financial interest or situation which may pose an actual, apparent, or potential conflict of interest with its duties throughout the Grant Term. CARB may consider the nature and extent of any actual, apparent, or potential conflict of interest in Grantee's ability to perform the Grant. Grantee must immediately advise CARB in writing of any potential new conflicts of interest throughout the Grant Term.

Government Code Section 87104 prohibits public officials of CARB, which includes any member, officer, employee, or consultant of a CARB advisory body, from making a formal or informal appearance before, or oral or written communication to CARB for the purpose of influencing a decision by CARB on a grant or other entitlement for use, such as a contract, loan, license, or permit. Prohibited communications include grant applications, letters, emails, phone calls, meetings, or any other form of oral or written communication within or outside of a public committee meeting with CARB, or CARB staff, for the purpose of influencing a CARB decision on an application for funding submitted to CARB. A knowing or willful violation of this section may result in a member being guilty of a misdemeanor and fined up to the greater of $10,000.00 or three times the amount of an amount unlawfully received. If a court determines a violation occurred and that the official action might not otherwise have been taken or approved if not for the prohibited communication, the grant may be voided. (See Gov. Code §§ 91000, 91003.)

i. For this reason, CARB officials, including but not limited to advisory body members, may not be a signatory or administrator on a grant application, or on any resulting grant agreement. Such individuals should not be listed on the grant application except as necessary to show their role in the organization.
ii. An advisory body member's organization may continue to be eligible for a grant. However, the grant must not follow any communications for purposes of influence by the advisory body member on CARB's decision on that grant agreement. That organization would need to identify a different member of the organization to sign or be the administrator for any applications and awarded grants.
iii. Applications from organizations affiliated with CARB Board members may require additional review and CARB Board approval. This process may delay grant execution and/or distribution of funds.

k. **Construction.**
Any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be applied in interpreting this Agreement.

l. **Cumulative Remedies.**
The rights and remedies of the Parties to this Grant Agreement, whether pursuant to this Grant Agreement or in accordance with law, shall be

construed as cumulative, and the exercise of any single right or remedy shall constitute neither a bar to the exercise of nor the waiver of any other available right or remedy.

m. **Days.**
"Day" or "Days" means calendar days, unless expressly noted otherwise.

n. **Disadvantaged Communities.**
The Grantee, for the purposes of this Program, the Project and all Grant Recipient projects, will designate disadvantaged communities, as identified by CalEnviroScreen 4.0. The identified disadvantaged community census tracts are available at: https://oehha.ca.gov/calenviroscreen/report/calenviroscreen-40

o. **Disputes.**
The Grantee shall continue with the responsibilities under this Grant Agreement during any dispute between Grantee and CARB, unless otherwise directed by CARB. Grantee staff or management will work in good faith with CARB staff and management to resolve any disagreements or conflicts arising from implementation of this Grant Agreement. However, any disagreements that cannot be resolved at the management level within 30 days of when the issue is first raised with CARB staff shall be subject to final resolution by the CARB Executive Officer, or the Executive Officer's designated representative, in the Executive Officer's sole discretion. Nothing contained in this paragraph is intended to limit any of the rights or remedies that the Parties may have under law.

p. **Electric Vehicle Charging Infrastructure and Equipment Installation.**
Grantee must ensure the following requirements are included in all Grant Recipient and Resource Entity agreements for electric vehicle charging infrastructure funded with or performed using Grant Funds:

   i. In order to obtain authorization to start work from Grantee, an entity that is awarded funds to install electrical charging equipment for use by on-road transportation vehicles must provide both of the following:
      1) An "AB 841 Certification" that certifies the project will comply with all Assembly Bill (AB) 841 (Ting, 2020) (Pub. Util. Code, § 740.20) (AB 841) requirements or describes why the AB 841 requirements do not apply to the project. The certification shall be signed by the sub-grantee's authorized representative; and,
      2) EVITP Certification Numbers of each Electric Vehicle Infrastructure Training Program-certified electrician that will install electric vehicle charging infrastructure or equipment.
   ii. Evidence, such as Certification Numbers, is not required to be obtained by Grantee if AB 841 requirements do not apply to a project.
   iii. Prior to remitting payment to an entity for said installation, Grantee is responsible for collecting all AB 841 Certifications, to ensure the project did comply with all AB 841 (2020) requirements, and shall retain

Certification Numbers in accordance with the Grantee's records retention schedule.

iv. These electric vehicle requirements do not apply to any of the following:
   1) Electric vehicle charging infrastructure installed by employees of an electrical corporation or local publicly owned electric utility,
   2) Electric vehicle charging infrastructure funded by moneys derived from credits generated from the Low Carbon Fuel Standard Program (Sub article 7 (commencing with Section 95480) of Article 4 of Subchapter 10 of Chapter 1 of Division 3 of Title 17 of the California Code of Regulations), and
   3) Single-family home residential electric vehicle chargers that can use an existing 208/240-volt outlet.

q. **Electric Vehicle Charger Uptime.**
Under AB 2061 (ch. 345, stats. 2022; Pub. Resources Code, § 25231.5, as amended by AB 126 (ch. 319, stats. 2023)), the California Energy Commission (CEC) is required to develop uptime recordkeeping and reporting standards for electric vehicle chargers and charging stations (collectively, "EVCs") that will apply to all State-funded EVCs installed between January 1, 2024, and January 1, 2035. Grantee shall require Resource Entities and Grant Recipients for the installation of EVCs to comply with the CEC standards as required by AB 2061, for a minimum of 6 years, unless the CEC decides a longer time span is more appropriate. The requirements in this section do not apply to EVCs installed at residential real property containing four or fewer dwelling units.

r. **Entire Agreement.**
This Grant Agreement constitutes the entire agreement and understanding between the Parties and supersedes and replaces any and all prior negotiations and agreements of any kind, whether written or oral, between the Parties concerning this Grant Agreement.

s. **Equipment/Vehicle Ownership.**
Project Equipment means any products, objects, vehicles, computers, hardware, vessels, engines, machinery, apparatus, implements or tools purchased, licensed, or constructed by Grantee or any of their Resource Entities using Grant Funds during the Term. CARB, within its discretion, may elect to determine the normal useful life of such Project Equipment. Project Equipment is defined as having a useful life of at least one year from the date of purchase, having an acquisition unit cost of at least $5,000.00.00, and purchased with CARB funds. All such Project Equipment is, upon acquisition, the exclusive property of the entity that acquired it, and shall primarily, but need not be exclusively, be used for the purposes of carrying out the obligations of this Grant Agreement during the Term. Upon request by CARB during the Term, in the event of cancellation or termination for cause, the Project Equipment, and title thereto, shall be delivered to CARB.

t. **Environmental Justice.**
In the performance of this Grant Agreement, the Grantee shall conduct its programs, policies, and activities that substantially affect human health or the environment in a manner that ensures the fair treatment of people of all races, genders, cultures, and income levels, including minority populations and low-income populations, of the State of California. Equal access includes, but is not limited to, ensuring language barriers are fully addressed to the satisfaction of CARB and as otherwise required by local, state and federal law.

u. **Executive Order N-6-22 – Russia Sanctions.**
On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 ("EO") regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state of California ("State") agencies to terminate contracts and grants with, and to refrain from entering any new contracts and grants with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor or Grantee is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. The State shall provide Contractor or Grantee advance written notice of such termination, allowing Contractor or Grantee at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

v. **Force Majeure.**
Neither CARB nor the Grantee are liable for nor will be deemed to be in default for any delay or failure in performance under this Grant Agreement or interruption of services resulting, directly or indirectly, from acts of God, civil unrest, war, fire, flood, earthquakes, or other physical natural disasters. If either Party intends to invoke this clause to excuse or delay performance, the Party invoking the clause must provide written notice to the other Party immediately of the intent to invoke the clause and the reasons why the force majeure event is preventing that Party from, or delaying that Party in, performing its obligations under this Grant Agreement. CARB may terminate this Grant Agreement immediately, in writing and without penalty, in the event Grantee invokes this clause, in which case Grantee shall immediately return all remaining Grant Funds to CARB or a CARB designee, cease all expenditure of Grant Funds, and turn over all documents, records, deliverables, intellectual property and other information in relation to this Grant Agreement.
    i. If the Grant Agreement is not terminated by CARB pursuant to this clause, upon completion of the force majeure event, the Grantee must immediately re-commence the performance of its obligations under this Grant Agreement. The Grantee must also provide to CARB a written

proposal to revise the Project Schedule, inclusive of anticipated major milestones and timeframes for expending remaining Grant Funds, while minimizing the effects of the delay caused by the force majeure event.

ii. An event of force majeure does not relieve a Party from any of its obligations which arose before the occurrence of the force majeure event nor is any Party relieved from those obligations which survive termination or cancellation of the Grant Agreement.

w. **Funding Prohibitions for Sectarian Purposes and Non-Public Schools.** Grantee, Resource Entities, and Grant Recipients may use or authorize the use of CARB-provided funds only in a manner that is consistent with applicable laws, including California Constitution, article XVI, section 5, article IX, section 8, and federal law. CARB reserves the right to obtain additional information from Grantee and others to determine compliance with California Constitution, article XVI, section 5 and article IX, section 8. Failure to provide any requested information may result in denial of future Administrative Fees or Grant Funds or termination of this Grant Agreement or any other agreements.

x. **GenAI Technology Use & Reporting.**

i. Definitions:

1) "Generative AI (GenAI)" means "an artificial intelligence system that can generate derived synthetic content, including text, images, video, and audio that emulates the structure and characteristics of the system's training data." (Gov. Code § 11549.64.)

2) "Deliverable" means "software, services, goods, works of authorship, and any other items (e.g., reports, documentation) to be delivered pursuant to this Grant Agreement, including any incidental items."

ii. Grantee must notify CARB in writing, within 15 days or a period agreed to by CARB, and require their Resource Entities and Grant Recipients to notify CARB in writing in the same timeframe, if they:

(1) Intend to provide GenAI as a deliverable to CARB; or,

(2) Intend to utilize GenAI, including GenAI from third-parties, to complete all or a portion of any deliverable that materially impacts:

(i) Functionality of a State system;

(ii) Risk to the State; or,

(iii) Performance under this Grant Agreement.

For avoidance of doubt, the term "materially impacts" shall have the meaning set forth in State Administrative Manual (SAM) § 4986.2 Definitions for GenAI.

iii. Notification shall be provided to CARB's Project Liaison identified in this Grant Agreement.

iii. At the direction of CARB, Grantee shall discontinue, and require their Resource Entities and Grant Recipients to discontinue, the provision to CARB of any previously unreported GenAI that results in a material

impact to the functionality of a State system, risk to the State, or Grant performance, as determined by CARB.

iv. If the use of previously undisclosed GenAI is approved by CARB, then upon request by CARB, Grantee will amend the Grant Agreement accordingly, and their related agreements with Resource Entities and Grant Recipients, which may include incorporating the GenAI Special Provisions into these agreements, at no additional cost to the State.

v. CARB, at its sole discretion, may consider Grantee's failure to disclose or discontinue the provision or use of GenAI as described above, or to incorporate terms as requested in this section into their agreements with Resource Entities and Grant Recipients, to constitute a material breach of the Grant Agreement when such failure results in a material impact to the functionality of the system, risk to the State, or Grant performance. CARB is entitled to seek any and all remedies available to it under law as a result of such breach, including but not limited to termination of the Grant Agreement .

y. **Governing Law and Venue.**
This Grant Agreement is governed by, and shall be interpreted in accordance with, the laws of the State of California. CARB and the Grantee hereby agree that any action arising out of this Grant Agreement shall be filed and maintained in the Superior Court in and for the County of Sacramento, California, or in the United States District Court in and for the Eastern District of California, Sacramento location. The Grantee hereby waives any existing sovereign immunity for the purposes of this Grant Agreement.

z. **Grantee's Responsibility for Work.**
Grantee shall be responsible for all work performed pursuant to this Grant Agreement, including but not limited to work performed by any Resource Entity or Grant Recipient. Grantee shall be responsible for any and all disputes arising out of its contract for work performed in relation to, as a result of, or as a consequence of this Grant Agreement, including, but not limited to, payment disputes with Grantee's employees, officers, directors, members (of a limited liability company (LLC) form of entity), partners (of a partnership form of entity), agents, representatives, assigns, Resource Entities, or Grant Recipients. CARB will not mediate disputes between Grantee and any other entity concerning responsibility for performance of work performed pursuant to this Grant Agreement.

i. All subcontracts must be submitted to CARB upon request for review prior to execution. CARB may also request them during or after the Grant term and Grantee agrees to provide them within five (5) calendar days. For subcontracts that are listed as "to be determined" in the Budget, the Schedule or elsewhere in any attachment to this Grant Agreement, Grantee must submit a revised Budget to CARB, identifying

the subcontractor and specific items of cost expected to be incurred by that subcontractor, which in each instance shall be subject to advance approval by CARB. In addition, Grantee must have a fully executed subcontract before the subcontractor can incur any costs for which Grantee will seek reimbursement.

ii. Grantee is required, where feasible, to employ best contracting and procurement practices that promote open competition for all goods and services. Grantee shall obtain price quotes from an adequate number of sources for all subcontracts.

iii. Upon request, Grantee will provide CARB a copy of all solicitations for services or products used or needed to carry out the terms of this Grant Agreement, including copies of the proposals or bids received.

iv. Grantee is responsible for handling all contractual and administrative issues arising out of or related to any subcontracts it enters into under this Grant Agreement. No subcontract may relieve Grantee of its responsibilities under this Grant Agreement. Grantee is solely liable and responsible for the acts and omissions of its subcontractors or persons directly or indirectly employed by any of them.

v. Grantee's obligation to pay the Resource Entities and Grant Recipients is an independent obligation from CARB's obligation to make payments to the Grantee. As a result, CARB has no obligation to pay or enforce the payment of any funds to any such third-parties. Grantee is responsible for establishing and maintaining contractual agreements with and reimbursing each such third-parties for work performed in accordance with the terms of this Grant Agreement and the terms of any such third-party agreements.

vi. All Grant Recipient and third-party agreements must, at a minimum, incorporate all of the following:
    1) A clear and accurate description of the material, products, or services to be procured.
    2) A detailed budget and timeline.
    3) Provisions that allow for administrative, contractual, or legal remedies in instances where the Grant Recipient or third-party violates or breaches contract terms, and provides for such sanctions and penalties as may be appropriate.
    4) Provisions for termination by the Grantee, including termination procedures and the basis for settlement.
    5) A statement that further assignments will not be made to any third or subsequent tier subcontractor without additional advance written consent of CARB.
    6) Language conforming to all of the General Provisions of this Grant Agreement.

vii. Without limiting any of CARB's other remedies, failure to comply with the above requirements is a material breach of this Grant Agreement and grounds for immediate termination.

aa. **Indemnification & Hold Harmless.**
Grantee agrees to indemnify, defend at their own expense, and hold harmless the State of California, CARB, and CARB officers, Board members, employees, volunteers, agents, representatives, and successors-in-interest against, for and from any and all liabilities, losses, damages, claims and expenses, including reasonable attorneys' fees, arising out of, resulting from, or related to any actions or inactions of the Grantee, or any of their Resource Entities or Grant Recipients, in performance under this Grant Agreement, including but not limited to actions or inactions relating to, arising out of or resulting from the operation, design or manufacture of any equipment, vessels, vehicles or engines purchased, acquired, developed, modified, or used with Grant Funds, in whole or in part.

bb. **Independent Actor.**
The Grantee, Resource Entities, and Grant Recipients, in their performance of this Grant Agreement, shall act in an independent capacity and not as officers, employees or agents of the State of California or CARB.

cc. **Labor Compliance for Drayage and Short-Haul (AB 794)** (If applicable).
Grantee shall ensure that all agreements with any and all of their Grant Recipients who receive or use any Grant Funds to support the purchase, or lease for greater than one year, of new drayage or short-haul trucks contain a requirement to comply at all times with the applicable requirements of AB 794 (2021) and AB 2737 (2022), including all applicable provisions of California Health and Safety Code sections 39680 through 39693, as a condition of Grant Fund receipt or use and as a condition of participation in the Program.

dd. **Nondiscrimination.**

i. During the performance of this Grant Agreement, Grantee and its Resource Entities and Grant Recipients shall not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, reproductive health decision making, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age (over 40), sexual orientation, or veteran or military status, any other characteristic protected by law, or unlawfully deny family-care leave, medical-care leave, pregnancy-disability leave, or other legally-protected leave. Grantee, Resource Entities, and Grant Recipients shall ensure that the evaluation and treatment of employees and applicants for employment are free of such discrimination and harassment. Grantee, Resource Entities, and Grant Recipients shall comply with the provisions of the Fair

Employment and Housing Act (Gov. Code section 12900 et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, title 2, section 11000 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code section 12990 (a)-(f), set forth in Chapter 5 of Division 4.1 of title 2 of the California Code of Regulations, are incorporated into this Agreement by reference and made a part hereof as if set forth in full.

ii. During the performance of this Grant, Grantee and its Resource Entities and Grant Recipients shall comply with the provisions of California Government Code section 11135; Title VI of the U.S. Civil Rights Act of 1964; Section 504 of the federal Rehabilitation Act of 1973; the federal Age Discrimination Act of 1975; Section 13 of the Federal Water Pollution Control Act of 1972; and U.S. Environmental Protection Agency's implementing regulations at 40 C.F.R. Parts 5 and 7.

iii. Grantee, Resource Entities, and Grant Recipients shall give written notice of their respective obligations under this clause to labor organizations with which any may have a collective bargaining or other agreement.

iv. Grantee, Resource Entities, and Grant Recipients shall permit access by representatives of the California Civil Rights Department, CARB, or U.S. Environmental Protection Agency (U.S. EPA) upon reasonable notice to access all sources of information as required to ascertain compliance with this clause.

v. Grantee acknowledges and agrees that, pursuant to Government Code section 11136, whenever CARB has reasonable cause to believe that Grantee, Resource Entities, or Grant Recipients have violated any of the provisions of Government Code section 11135 or section 12900 et seq., or any of the provisions of California Civil Code sections 51, 51.5, 51.7, 54, 54.1, or 54.2, or any regulation adopted to implement these sections or Article 1 (commencing with Government Code section 12960) of Chapter 7 of the Government Code, then CARB will notify Grantee or, where applicable, the Resource Entity or Grant Recipient, of such violation and will submit a complaint detailing the alleged violations to the California Civil Rights Department for investigation and determination pursuant to Government Code sections 11136 and 12960 et seq.

vi. In the event of Grantee's or its Resource Entity's or Grant Recipient's noncompliance with this provision, Grantee or its Resource Entity or Grant Recipient may be subject to remedial action determined appropriate and consistent with applicable law by CARB, the California Civil Rights Department, or the U.S. EPA, including but not limited to termination of this Grant Agreement.

vii. Grantee acknowledges that CARB's Civil Rights Policy applies to this Grant Agreement and CARB will administer this Grant consistent with such policy. The policy may be found at: https://ww2.arb.ca.gov/california-air-resources-board-and-civil-rights.

viii. To the extent that the Grant includes federal funding, Grantee and its Resource Entities and Grant Recipients should refer to the U.S. EPA Civil Rights Guidance on Procedural Safeguards: Requirements and Best Practices. Though not legally required, this guidance document may assist recipients of U.S. EPA financial assistance (such as grantees) when developing and improving their legally required federal civil rights compliance efforts.

ix. Grantee shall include the nondiscrimination and compliance provisions of this clause in all contracts, subcontracts, and agreements, including but not limited to those with Resource Entities and Grant Recipients, where work is performed to fulfill any term or condition of this Grant Agreement.

ee. **Notice.**

i. Any notice, demand, request, consent, or approval that either Party desires or is required to give to the other Party under this Grant Agreement shall be in writing. Notices may be transmitted by any of the following means:

1) By delivery in person.
2) By certified U.S. mail, return receipt requested, postage prepaid.
3) By "overnight" delivery service; provided that next-business-day delivery is requested by the sender.
4) By electronic means.

ii. Notices delivered in person will be deemed effective immediately on receipt (or refusal of delivery or receipt). Notices sent by certified mail will be deemed effective seven (7) calendar days after the date deposited with the U. S. Postal Service. Notices sent by overnight delivery service will be deemed effective one business day after the date deposited with the overnight delivery service. Notices sent electronically will be effective on the date of transmission, where it is documented in writing. Notices shall be sent to the persons and addresses set forth in Section 4, Project Liaisons, of this Grant Agreement. Either Party may, by written notice to the other, designate a different address that shall be substituted for the names of persons identified under Section 4 of this Grant Agreement.

ff. **Office of Foreign Asset Control.**

Transactions may be or are prohibited if they involve the property or interests in property of an entity or individual listed on the Office of Foreign Asset

Control (OFAC) targeted lists. OFAC publishes lists of targeted individuals, groups, and entities, which can be found at *https://home.treasury.gov/policy-issues/office-of-foreign-assets-control-sanctions-programs-and-information*. Refer also to the U.S. Department of the Treasury website: *https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions.* The property and interests in property of an entity that is 50 percent or more owned, whether individually or in the aggregate, directly or indirectly, by one or more persons whose property and interests in property are blocked pursuant to any part of 31 C.F.R. chapter V are also blocked, regardless of whether the entity itself is listed.

Grantee represents, warrants, and agrees that Grantee is not, and will not become, in violation of any federal law pertaining to any entity or individual listed on any of the OFAC lists. Grantee shall include in all agreements with its Resource Entities and Grant Recipients an acknowledgment that the entity and its agents and property are not in violation of any federal law pertaining to any entity or individual listed on any of the OFAC lists. Grantee shall notify CARB within 15 calendar days if it has knowledge that Grantee, any Resource Entity, or any Grant Recipient is in violation of any federal law pertaining to any entity or individual listed on any of the OFAC lists.

gg. **Order of Precedence.**
In the event of any inconsistency between the exhibits, attachments, specifications, or provisions which constitute this Grant Agreement, the following Order of Precedence shall apply:

i. Grant Agreement Cover Sheet
ii. Exhibit A: Grant Provisions

Task 4: Grant Administration	**4.0 – Grant Administration**	
	4.1.1 – Quarterly Reports	Quarterly

TASK 1 Project Management, planning, barrier identification and solution development: Staff from each jurisdiction will serve on a Project Management Team (PMT) for the duration of the project and will participate in quarterly meetings for two and one-half years facilitated by grantee staff. The PMT will be lead points of contact between the Grantee and Subgrantees to complete the scope of work under this agreement. This work includes but is not limited to data collection and management, navigating jurisdictional and organizational differences, technical analysis, and proposing fleet transition alternatives.

The Grantee will work with the PMT to form a larger "community of practice" (COP) that will serve as a forum for fleet management staff, from managers to EV users to mechanics to maintenance staff, to identify and overcome barriers to transitioning fleets from internal combustion engines to EVs. The COP will meet on a quarterly basis and be facilitated by competitively procured change management professionals. The consultants will use a change management methodology to develop a stakeholder analysis, identify impacted groups of municipal staff, and how those staff impacts could result from a transition to EVs. The Grantee will consider a ProSci certification as an element of the procurement process to select a consultant to facilitate this task. Outcomes will include recommendations, vetted by the COP, to help transition organizational policies, standard operating procedures, staff roles and responsibilities and other behavioral aspects of municipal fleet management.

The County of Monterey, City of Watsonville, and County of Santa Cruz will also adopt the Fleet Electrification Planning Tool. The City of Santa Cruz recently completed this web-based tool that analyzes their existing fleet inventory characteristics (both internal combustion and EVs), their existing EV charging infrastructure, and their parking facilities (e.g., corporation yard, city hall) together with data on EV costs, GHG avoided and available incentives, to create user-specified scenarios on transitioning fleets to EVs. The City of Santa Cruz's initial work in establishing the tool will reduce the cost of adopting it, or a similar tool, for other jurisdictions by approximately half.

The Project Management Team and Grantee will develop a framework for participating jurisdictions to offer EV purchase subsidies for the lower paid employees of the jurisdictions. This will be evaluated as an equity consideration to

share the benefits of EV adoption with employees who may not be able to purchase an EV on their own.

The Grantee will contract with Ecology Action to engage with the Monterey Bay Area Climate Justice Collaborative during the scope of this project to best bring the benefits and opportunities of the project to DACs, LICs, and lower-income people. This includes all subtasks in Task 1 as well as the CEC funded workforce development elements of Task 2.

Background

The Budget Act of 2022 (Chapters 43, 45, and 249 of the Statutes of 2022) and Assembly Bill (AB) 211 (Chapter 574, Statutes of 2022), as amended by AB 158 (Chapter 996, Statutes of 2024), appropriated one-time funding from the General Fund to support infrastructure deployments, emerging opportunities, and manufacturing projects for zero-emission light-duty and medium- and heavy-duty vehicles.

On July 14, 2023, the California Air Resources Board (CARB) released a solicitation entitled “Advanced Technology Demonstration and Pilot Projects”. This competitive grant solicitation was to support a wide array of emerging opportunities including zero-emission off-road equipment, marine vessel, and Green Zone projects. The California

Energy Commission (CEC) would provide funding to support the purchase and installation of infrastructure in support of the resulting CARB projects. In response to the Advanced Technology Demonstration and Pilot Projects (ATDPP) solicitation, County of Monterey (Recipient) submitted application #28 which was proposed for funding in the CEC's Notice of Proposed Awards on August 5, 2025. The ATDPP solicitation and Recipient's application are hereby incorporated by reference into this Agreement in their entirety.

In the event of any conflict or inconsistency between the terms of the Solicitation and the terms of the Recipient's Application, the Solicitation shall control. In the event of any conflict or inconsistency between the Recipient's Application and the terms of this Agreement, this Agreement shall control. Similarly, in the event of any conflict or inconsistency between the terms of this Agreement and the Solicitation, the terms of this Agreement shall control.

NOTE: CEC is acting in coordination with CARB regarding the overall project, but CARB is not a party to this CEC grant agreement (Agreement). This Agreement is a companion agreement to the agreement between CARB and the Recipient. No work on this project can begin until CARB's agreement with the Recipient has been executed. Work under the agreement between CARB and the Recipient ("CARB agreement") is referenced in this Agreement as a "CARB Task" or a "CARB Sub-task;" these terms mean a task or sub-task for which (1) the CARB agreement governs; (2) where the Recipient's performance is due to CARB; and (3) where the Recipient's reimbursable costs will be funded by CARB.

Problem Statement:

Local government institutions face significant technological, financial, and institutional barriers to meeting greenhouse gas and air pollutant emissions reductions targets through the decarbonization of municipal fleets. Existing infrastructure, lack of training, utility management processes, capital improvement processes, and funding shortfalls for fleet decarbonization represent obstacles that few California jurisdictions have been able to successfully navigate. Furthermore, municipalities have been largely siloed from regional collaboration on this issue due to jurisdictional and administrative boundaries.

The availability of electric vehicle (EV) models and charging infrastructure alone has not been enough to clear the aforementioned barriers to scaled municipal fleet decarbonization in California. Significant State investment is needed to achieve rapid municipal fleet decarbonization due to the institutional inertia of municipalities and the procurement policies established over the last century that prioritize internal combustion.

Goals of the Agreement:

The goal of this Agreement is to develop a replicable model for municipal EV fleet transition.

Objectives of the Agreement:

The objectives of this Agreement are to:

- Install 390 charging ports (192 dual-port Level 2 chargers and three (3) dual-port direct current fast chargers) in parking lots at municipal facilities across the Monterey Bay area and four (4) solar photovoltaic systems to support some of these chargers.
- Understand and address organizational and planning barriers through change management techniques and use of a fleet electrification planning tool.
- Increase staff acceptance of EVs by training EV users and fleet mechanics/maintenance staff and co-developing standard operating procedures around training, maintenance, and charging.
- Reduce emissions and inform future decision-making by strategically procuring EVs and electric vehicle supply equipment (EVSE) and collecting data across the Monterey Bay area.

Task *5*.3 Reporting

The goal of this task is to provide reports on charger reliability and maintenance.

The Recipient shall:

- For **each charger**, after the charger becomes operational**,** prepare and submit to the CEC *Quarterly Reports on Charger and Charging Port Reliability and Maintenance*. This report must conform to a format approved by the CEC and is provided for six years after the charging ports are operational. Each report must include:
  - A summary of charging port downtime, including total downtime and the number and frequency of downtime events, the minimum, median, mean, and maximum duration, and the causes of downtime events. Downtime shall be determined on a per charging port basis by summing the durations of all downtime events during the reporting period. The duration of a downtime event shall be the longest of the following periods:
    - **For networked charging ports,** the time after the charger has transmitted a StatusNotificationRequest indicating that the charging port associated with that charger is in a “faulted” or “unavailable” state until a subsequent StatusNotificationRequest is transmitted by that charger indicating that the charging port has transitioned to an “available,” “occupied,” or “reserved” state. The timestamps in each StatusNotificationRequest shall be used to quantify downtime.
    - **For networked chargers,** the time between a BootNotificationResponse transmitted by the Central Management System and the last HeartbeatResponse transmitted by the Central Management System prior to the BootNotificationResponse. The timestamps in the relevant BootNotificationResponse and HeartbeatResponse shall be used to quantify downtime.
    - **For all charging ports,** the time between the earliest record that a charging port is not capable of successfully dispensing electricity or otherwise not functioning as designed and the time it is available to deliver a charge. First record that a charger is not capable of successfully dispensing electricity or otherwise not functioning as designed includes,

but is not limited to, consumer notification, internal diagnostics, or inspection, whichever is earliest.

- A summary of excluded downtime, including total excluded downtime and the number and frequency of excluded downtime events, the minimum, median, mean, and maximum duration, and the causes of excluded downtime events. 'Excluded Downtime' includes:
  - **Before Initial Installation:** Downtime before the charging port was initially installed.
  - **Grid Power Loss:** Downtime during which power supplied by a third-party provider is not supplied at levels required for minimum function of the charging port. This may include, but is not limited to, service outages due to utility equipment malfunction or public safety power shutoffs. This does not include power generation or storage equipment installed to serve the charger(s) exclusively. Documentation from power provider detailing outage is required to claim this as excluded downtime.
  - **Outage for Preventative Maintenance or Upgrade:** Downtime caused by any preventative maintenance or upgrade work that takes the charging port offline. This must be scheduled at least two weeks in advance of the charger being placed in an inoperative state. The maximum downtime that can be excluded for preventative maintenance or upgrade work is 24 hours for any 12-month period.
  - **Vandalism or Theft:** Downtime caused by any physical damage to the charger or station committed by a third party. This may include, but is not limited to, theft of charging cables, damage to connectors from mishandling, or damage to screens. A maximum of 5 days may be claimed as excluded downtime for each vandalism or theft event. A police report or similar third-party documentation is required to claim this as excluded time.
  - **Natural Disasters:** Downtime caused by any disruption of the charging port due to a natural event such as a flood, earthquake, or wildfire that causes great damage. Third party documentation such as news reporting must be provided along with a narrative of the direct impacts to the charger(s) to claim this as excluded downtime.
  - **Communication Network Outages:** Downtime caused by loss of communication due to cellular or internet service provider system outages. A Communication Network Outage can be claimed as excluded downtime provided the chargers default to a free charge state during communication losses. A free charge state is when the charger is operational and dispenses energy free of charge to any consumer.

- **Operating Hours:** Hours in which the charging port is in an operative state but that are outside of the identified hours of operation of the charging station.

- A summary and calculation of uptime. Each report shall include the uptime percentage of each charging port (Uptime) installed and operated as part of this Agreement for the reporting period. Charging port uptime shall be calculated as:

$$U = \frac{T - D + E}{T} * 100\%$$

U = Charging Port Uptime

T =

Q1 reporting period = 129,600 minutes, except for a leap year, which is 131,040 minutes.

Q2 reporting period = 131,040 minutes.

Q3 and Q4 reporting periods = 132,480 minutes.

D = Total charging port downtime for the reporting period, in minutes.

Workbook Instructions

Input Data: Enter information as required in all cells highlighted in Blue.

Restricted Editing: All cells not highlighted in Blue are locked from editing. Locked cells include: cells with formulas highlighted in Gray or Light Yellow, cells with no color fill (white), etc.

For the Agreement Budget Template ONLY: Colored Tabs:
The "**Equipment**" and "**Subrecipients & Vendors**" budget category tabs are colored **ORANGE** to indicate that line item details can be entered for these budget categories. The other budget category tabs (Direct Labor, Fringe Benefits, Travel, Materials & Misc., and Indirect Costs & Profit) only contain category totals.

Regarding Confidential Information: Avoid disclosing trade secrets and confidential information on any agreement document, since these documents are publicly accessible.

Rules for decimal places on values:

- ***Budget and Invoice values:***
  - Rounding of any values, as described below, should be performed using standard rounding practices.
  - For all currency rates (e.g., Direct Labor, and Unit Cost): Round to the cent ($0.01).
  - For all percentage rates (e.g., Fringe Benefits, Indirect Cost, and Profit): Round to a maximum of two decimal places of a percent (e.g., 25.12%). You can round to less if desired, such as one decimal place (e.g., 25.1%), or zero decimal places (e.g., 25%).
  - For all quantity values (e.g., # of hours, # of months, and # of units): Round to a maximum of two decimal places (e.g., 50.12). You can round to less if desired, such as one decimal place (e.g., 50.1), or zero decimal places (e.g., 50).
- ***Budget values:***
  - For entered and totaled (via calculation) CEC and Match share budget values: Round to the dollar ($1).
  - For all calculated currency values (e.g., rate x hours, rate x months, base amount, and rate x base amount): Round to the dollar ($1).
- ***Invoice values:***
  - For entered and totaled (via calculation) CEC and Match share expense invoice values: Round to the cent ($0.01).
  - For all calculated currency values (e.g., rate x hours, rate x months, base amount, and rate x base amount): Round to the cent ($0.01).
  - **SPECIAL CIRCUMSTANCE for calculated currency values:** ONLY if a calculated value (e.g., rate x hours = actual labor expense) does NOT equal the actual expense, because of the decimal place rules provided for rates and quantity values listed above, it is acceptable to use as many decimal places as necessary for rates and quantity values listed above to ensure that the calculated value DOES equal the actual expense.

Invoice Supporting Documentation Requirements, per Budget Category:

The list below contains the supporting documentation that is required to be submitted with an invoice. IMPORTANT: The recipient and subrecipients must still retain supporting documentation for all project expenses in case of an audit ("supporting documents" are also known as "backup documents").

- **Direct Labor** – No supporting documentation required with invoice.
- **Fringe Benefits** – No supporting documentation required with invoice.
- **Travel** - Receipts are required only for: Lodging, Airfare, Rental car (including gasoline expenses), Bus/train. Travel Form required for all travel included on an invoice
- **Equipment** – 1) For equipment that is equal to or greater than $100,000 per line item total (including both CEC and Match Funds), documentation showing the payment terms must be provided to the CAM. 2) CAM must be able to verify equipment purchases for: 1) equipment with a per line item incurred cost of $500,000 or greater; or 2) a single equipment vendor with $500,000 or more in equipment incurred costs. See Invoice Review Checklist for methods to verify.
- **Materials & Miscellaneous** – Receipt required for any line item total that is $5,000 or more.

- **Subrecipients & Vendors** – Major subrecipients (Budget of $100k or more) follow the same budget requirements as the Recipient when submitting an invoice. For Minor subrecipients and Vendors, subrecipient or vendor invoice required. The subrecipient (major) should not include retention on their invoice template, so that retention will not be double counted. Doing this puts the responsibility on the recipient to determine how much retention to retain, if any, from their subrecipients based on their contractual agreements with their subrecipients and the CEC.
- **Indirect Costs & Profit** – No supporting documentation required with invoice.

Adding Rows: If additional rows are needed within a section, unhide the hidden rows (i.e., select the row directly above and below the hidden rows, then right-click the selection and select “Unhide”). Hide any unused rows. DO NOT USE THE LAST TWO ROWS THAT ARE MARKED “CEC USE ONLY”. If all but the last 2 rows are used, and more rows are required, please contact the ECAMS Support team (ECAMS.Support@energy.ca.gov).

FOR ECAMS SUPPORT TEAM ONLY: *ADDING ROWS:*
To add additional rows and maintain the formulas within the totals, (1) unprotect the sheet, (2) copy the second to the last row in the section, (3) insert the copied row just above the last row, (4) repeat steps 2 - 3 as required, (5) correct formatting and REFERENCE IDs as required, (6) delete “CEC USE ONLY” from all but the last two rows in the section, and (7) re-protect the sheet.

Updating Modification Date on Budgets:
After making modifications to a budget file, update the modification date as described below.

- **Budget Worksheet file** – Update the "*Date of Last Budget Worksheet Modification*" to the date the modifications were completed. Update the "Date of Last Budget Worksheet Modification" in cell D1 of the "Category Budget" tab–this updates the rest of the tabs in the template.
- **Agreement Budget file** – Update the "*Date of Last Approved Agreement Budget Modification*" to the date the modifications were approved. Update the "Date of Last Approved Agreement Budget Modification" in cell D1 of the "Category Budget" tab–this updates the rest of the tabs in the template.

FOR ECAMS SUPPORT TEAM ONLY: *UPDATING "TEMPLATE VERSION" DATE:*
After making modifications to a budget or invoice template, update the "*Template Version*" date to the date the modifications were completed. For the budget templates, update the "*Template Version*" date in cell A1 of the "*Category Budget*" tab–this updates the rest of the tabs in the template. For the invoice templates, update the "*Template Version*" date in cell A1 of the "*Invoice Payment Cover Sheet*" tab–this updates the rest of the tabs in the template.

- **Materials & Miscellaneous** – Receipt required for any line item total that is $5,000 or more.

- **Subrecipients & Vendors** – Major subrecipients (Budget of $100k or more) follow the same budget requirements as the Recipient when submitting an invoice. For Minor subrecipients and Vendors, subrecipient or vendor invoice required. The subrecipient (major) should not include retention on their invoice template, so that retention will not be double counted. Doing this puts the responsibility on the recipient to determine how much retention to retain, if any, from their subrecipients based on their contractual agreements with their subrecipients and the CEC.
- **Indirect Costs & Profit** – No supporting documentation required with invoice.

Adding Rows: If additional rows are needed within a section, unhide the hidden rows (i.e., select the row directly above and below the hidden rows, then right-click the selection and select “Unhide”). Hide any unused rows. DO NOT USE THE LAST TWO ROWS THAT ARE MARKED “CEC USE ONLY”. If all but the last 2 rows are used, and more rows are required, please contact the ECAMS Support team (ECAMS.Support@energy.ca.gov).

FOR ECAMS SUPPORT TEAM ONLY: *ADDING ROWS:*
To add additional rows and maintain the formulas within the totals, (1) unprotect the sheet, (2) copy the second to the last row in the section, (3) insert the copied row just above the last row, (4) repeat steps 2 - 3 as required, (5) correct formatting and REFERENCE IDs as required, (6) delete “CEC USE ONLY” from all but the last two rows in the section, and (7) re-protect the sheet.

Updating Modification Date on Budgets:
After making modifications to a budget file, update the modification date as described below.

- **Budget Worksheet file** – Update the "*Date of Last Budget Worksheet Modification*" to the date the modifications were completed. Update the "Date of Last Budget Worksheet Modification" in cell D1 of the "Category Budget" tab–this updates the rest of the tabs in the template.
- **Agreement Budget file** – Update the "*Date of Last Approved Agreement Budget Modification*" to the date the modifications were approved. Update the "Date of Last Approved Agreement Budget Modification" in cell D1 of the "Category Budget" tab–this updates the rest of the tabs in the template.

FOR ECAMS SUPPORT TEAM ONLY: *UPDATING "TEMPLATE VERSION" DATE:*
After making modifications to a budget or invoice template, update the "*Template Version*" date to the date the modifications were completed. For the budget templates, update the "*Template Version*" date in cell A1 of the "*Category Budget*" tab–this updates the rest of the tabs in the template. For the invoice templates, update the "*Template Version*" date in cell A1 of the "*Invoice Payment Cover Sheet*" tab–this updates the rest of the tabs in the template.

TERMS AND CONDITIONS

1.Grant Agreement

This project is being funded with a grant from the California Energy Commission's (Energy Commission) Zero-emission Vehicle Infrastructure (ZVI) Program.

This Agreement is comprised of the grant funding award, the Terms and Conditions, and all attachments. These Terms and Conditions are standard requirements for grant awards. The Energy Commission may impose additional special conditions in this grant Agreement that address the unique circumstances of this project. Special conditions that conflict with these standard provisions take precedence.

The Recipient's authorized representative shall sign all copies of this Agreement and return all signed packages to the Energy Commission's Grants and Loans Office within 30 days. Failure to meet this requirement may result in the forfeiture of this award. When all required signatures are obtained, an executed copy will be returned to the Recipient.

The term of this Agreement or the Agreement Period is the length of this Agreement between the Energy Commission and the Recipient. Project means Recipient's specific project that is funded in whole or in part by this Agreement. The Recipient's project may coincide with or extend outside the Agreement Period.

All reimbursable work and/or the expenditure of funds must occur within the approved term of this Agreement. The Energy Commission cannot authorize any payments until all parties sign this Agreement.

2.Documents Incorporated by Reference

The documents below are incorporated by reference into this Agreement. These terms and conditions will govern in the event of a conflict with the documents below, with the exception of the documents in subsection (f). Where this Agreement or California laws and regulations are silent or do not apply, the Energy Commission will use the federal cost principles and acquisition regulations listed below as guidance in determining whether reimbursement of claimed costs is allowable. Documents incorporated by reference include:

Solicitation Documents (if award is made through a competitive solicitation)

a. The funding solicitation under which this Agreement was awarded

b. The Recipient's proposal submitted in response to the solicitation

Federal Cost Principles (applicable to state and local governments, Indian tribes, institutions of higher education, and nonprofit organizations)

Federal Acquisition Regulations (applicable to commercial organizations)

d. 48 CFR, Ch.1, Subchapter E, Part 31, Subpart 31.2: Contracts with Commercial Organizations (supplemented by 48 CFR, Ch. 9, Subchapter E, Part 931, Subpart 931.2 for Department of Energy grants)

Nondiscrimination

e. 2 California Code of Regulations, Section 11099 et seq.: Contractor Nondiscrimination and Compliance

General Laws

f. Any federal, state, or local laws or regulations applicable to the project that are not expressly listed in this Agreement

3.Funding Limitations

Any federal, State, and local laws and regulations applicable to your project not expressly listed in this Agreement are incorporated herein as part of this Agreement.

4.Due Diligence

The Recipient is required to take timely actions which, taken collectively, move this project to completion. The Energy Commission Agreement Manager (CAM) will periodically evaluate the Schedule of Products and Due Dates for completion of the Statement of Work tasks. If the CAM determines (1) the Recipient is not being diligent in completing the tasks in the Statement of Work or (2) the time remaining in this Agreement is insufficient to complete all project work tasks by the approved Agreement end term date, the CAM may recommend that this Agreement be terminated, and the Agreement may, without prejudice to any of the Energy Commission's remedies, be terminated.

5.Products

Products are defined as any tangible item specified in the Statement of Work. Unless otherwise directed, draft copies of all products identified in the Work Statement shall be submitted to the CAM for review and comment. The Recipient will submit an original and two copies of the final version of all products to the CAM.

6.Reports

a. Progress Reports

The Recipient shall submit progress reports to the CAM as indicated in the Special Conditions or Work Statement. At a minimum, each progress report shall include the following:

c. Electric Vehicle Charger Inventory Report

The Recipient shall submit Electric Vehicle Charger Inventory Reports as indicated in the Special Conditions or Work Statement.

If the Recipient is a charging network provider, each Electric Vehicle Charger Inventory Report shall include counts of all the chargers in the electric vehicle charging network in California. If the Recipient is not a charging network provider, each electric vehicle charger inventory report shall include all the chargers the Recipient operates in California.

"Charging network provider" is defined as the entity that operates the digital communication network that remotely manages one or more chargers. Charging network providers may also serve as charging station operators and/or manufacture chargers.

Submission of a report in compliance with a regulation promulgated by the CEC that contains substantially similar reporting requirements shall be considered to satisfy this requirement.

d. Rights in Reports

The Energy Commission reserves the right to use and reproduce all reports and data produced and delivered pursuant to this Agreement, and reserves the right to authorize others to use or reproduce such materials. Each report becomes the property of the Energy Commission.

e. Failure to Comply with Reporting Requirements

Failure to submit a product required in the Scope of Work may be considered material noncompliance with the Agreement terms. Without prejudice to any other remedies, noncompliance may result in actions such as the withholding of future payments or awards, or the suspension or termination of the Agreement.

7.Publications - Legal Statement on Reports and Products

The Recipient is encouraged to publish or otherwise make publicly available the results of the work conducted under the award.

No product or report produced as a result of work funded by this program shall be represented to be endorsed by the Energy Commission, and all such products or reports shall include the following statement:

LEGAL NOTICE

This document was prepared as a result of work sponsored by the California Energy Commission. It does not necessarily represent the views of the Energy Commission, its employees, or the State of California. The Energy Commission, the State of California, its employees, contractors, and subcontractors make no warranty, express or implied, and assume no legal liability for the information in this document; nor does any party represent that the use of this information will not infringe upon privately owned rights.

8.Changes to the Agreement

a. Procedure for Requesting Changes

The Recipient must submit a written request to the CAM for any change to the Agreement. The request must include:

- A brief summary of the proposed change;

- A brief summary of the reason(s) for the change;
- Justification for the change; and
- The revised section(s) of the Agreement, with changes made in underline/ strikethrough format.

b. Approval of Changes

No amendment or variation of this Agreement shall be valid unless made in writing and signed by both of the parties except for the Commission's unilateral termination rights in Section 13 of these terms. No oral understanding or agreement is binding on any of the parties. Changes to the Agreement must be approved at a Commission business meeting or by the Executive Director (or his/her designee).

The CAM or Commission Agreement Officer will provide the Recipient with guidance regarding the level of Commission approval required for a proposed change.

c. Personnel or Subcontractor Changes

All changes below require advance written approval by the CAM, in addition to the appropriate level of Commission approval as described in subsection (b).

1) Replacement of Key Personnel, Subcontractors, and Vendors

The CAM must provide advance written approval of the replacement of personnel, subcontractors, and vendors who are identified in the Agreement and are critical to the outcome of the project, such as the Project Manager.

2) Assignment of New Personnel to an Existing Job Classification

If the Recipient or a subcontractor seeks to assign new personnel to a job classification identified in Exhibit B, the Recipient or subcontractor must submit the individual's resume and proposed job classification and rate to the CAM for approval. The proposed rate may not exceed the maximum rate identified for the job classification. Neither the Recipient nor any subcontractor may use the job classifications or rates of their subcontractors for personnel.

If the individual performs any work prior to the effective date of the amendment documenting the change, the Recipient will bear the expense of the work.

3) Promotion of Existing Personnel (Applies to Recipients and major subcontractors)

Promotion of existing Recipient and major subcontractor personnel to rates higher than those listed for their current classification in Exhibit B will not be approved. If the actual rates (e.g., direct labor rates, fringe benefit rates, and indirect rates) exceed the approved rates in the Budget, the difference may be charged to the agreement as a match share expenditure.

4) Addition of job classifications and changes in hours.

5) Increased direct operating expenses and rates that exceed the expenses and rates identified in Exhibit B.

9.Contracting and Procurement Procedures

This section provides general requirements for an agreement between the Recipient and a third party ("subcontractor").

Subcontracts must be submitted to the CAM for review, if requested. For subcontracts that are listed as "to be determined" in the Budget, the Recipient must submit a revised Budget to the CAM, identifying the subcontractor and specific items of cost expected to be incurred by that subcontractor. In addition, Recipient must have a fully executed subcontract before the subcontractor can incur any costs for which the Recipient will seek reimbursement.

The Recipient is required, where feasible, to employ contracting and procurement practices that promote open competition for all goods and services needed to complete this project. Recipient shall obtain price quotes from an adequate number of sources for all subcontracts.

The Energy Commission will defer to the Recipient's own regulations and procedures as long as they reflect applicable state and local laws and regulations and are not in conflict with the minimum standards specified in this Agreement.

Upon request, the Recipient must submit to the CAM a copy of all solicitations for services or products required to carry out the terms of this Agreement and copies of the proposals or bids received.

The Recipient is responsible for handling all contractual and administrative issues arising out of or related to any subcontracts it enters into under this Agreement.

All subcontracts must incorporate all of the following:

- A clear and accurate description of the material, products, or services to be procured as well as a detailed budget and timeline.
- Provisions that allow for administrative, contractual, or legal remedies in instances where subcontractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.
- Provisions for termination by the Recipient, including termination procedures and the basis for settlement, and language conforming to the "Termination" provision related to Executive Order N-6-22 – Russia Sanctions.

- Language conforming to the "Nondiscrimination" provision in this Agreement.
- The Standard of Performance provisions specified in this Agreement.
- Retention of Records provisions specified in this Agreement.
- Audits provisions specified in this Agreement.
- Language conforming to the “Indemnification” provision in this Agreement.
- Language conforming to the “Receipt of Confidential Information and Personal Information” provision in this Agreement.
- Public Work -- Payment of Prevailing Wages Generally Required by Law provisions in this Agreement.
- Assembly Bill 841 (2020) provision specified in this Agreement.

Recipients who are subcontracting with University of California (UC) may use the terms and conditions negotiated by the Energy Commission with UC for their subcontracts. Recipients who are subcontracting with the Department of Energy (DOE) national laboratories may use the terms and conditions negotiated with DOE.

Without limiting any of the Commission’s other remedies, failure to comply with the above requirements may result in the termination of this Agreement.

10.Bonding and Insurance

The Recipient will follow its own bonding and insurance requirements relating to bid guarantees, performance bonds, and payment bonds without regard to the dollar value of the subcontract(s) as long as they reflect applicable state and local laws and regulations.

11.Permits and Clearances

The Recipient is responsible for ensuring all necessary permits and environmental documents are prepared and clearances are obtained from the appropriate agencies.

12.Equipment

Equipment is defined as having a useful life of at least one year, having an acquisition unit cost of at least $5,000, and purchased with Energy Commission funds. Equipment means any products, objects, machinery, apparatus, implements or tools purchased, used or constructed within the Project, including those products, objects, machinery, apparatus, implements or tools from which over thirty percent (30%) of the equipment is composed of materials purchased for the Project. For purposes of determining depreciated value of equipment used in the Agreement, the Project shall terminate at the end of the normal useful life of the equipment purchased, funded and/or developed with Energy Commission funds. The Energy Commission may determine the normal useful life of such equipment.

Title to equipment acquired by the Recipient with grant funds shall vest in the Recipient. The Recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by grant funds, and the Recipient shall not encumber the property without CAM approval. When no longer needed for the original project or program, the Recipient shall contact the CAM for disposition instructions.

13. Termination

This project may be terminated for any reason set forth below.

a. With Cause

The Energy Commission may, for cause, terminate this Agreement upon giving five (5) calendar days advance written notice to the Recipient. In this event, the Recipient will use all reasonable efforts to mitigate its expenses and obligations.

The term "for cause" includes but is not limited to the following:

- Partial or complete loss of match funds;
- Reorganization to a business entity unsatisfactory to the Energy Commission;
- Retention or hiring of subcontractors, or replacement or addition of personnel, that fail to perform to the standards and requirements of this Agreement;
- The Recipient's inability to pay its debts as they become due and/or the Recipient's default of an obligation that impacts its ability to perform under this Agreement; or
- Significant change in state or Energy Commission policy such that the work or product being funded would not be supported by the Commission.

b. Without Cause

The Energy Commission may terminate this Agreement without cause upon giving thirty (30) days advance written notice to the Recipient. In this event, the Recipient will use all reasonable efforts to mitigate its expenses and obligations.

c. Executive Order N-6-22 – Russia Sanctions

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. “Economic Sanctions” refers to sanctions imposed by the U.S. government in response to Russia’s actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Recipient is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. The State shall provide Recipient advance written notice of such termination, allowing Recipient at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

14. Stop Work

Energy Commission staff may, at any time, by written notice to Recipient, require Recipient to stop all or any part of the work tasks in this Agreement. Stop work orders may be issued for reasons such as a project exceeding budget, standard of performance, out of scope work, delay in Project schedule, misrepresentations and the like.

a. Compliance. Upon receipt of such stop work order, Recipient shall immediately take all necessary steps to comply therewith and to stop the incurrence of costs allocable to the Energy Commission.

b. Canceling a Stop Work Order. Recipient shall resume the work only upon receipt of written instructions from Energy Commission staff.

15. Travel and Per Diem

a. The Recipient shall be reimbursed for travel and per diem expenses using the same rates provided to non-represented State employees. The Recipient must pay for travel in excess of these rates. The Recipient may obtain current rates from the Energy Commission’s Web Site at: http://www.energy.ca.gov/contracts/TRAVEL_PER_DIEM.PDF.

b. For purposes of payment, Recipient's headquarters shall be considered the location of the Recipient's office where the employees’ assigned responsibilities for this award are permanently assigned.

c. Travel identified in the Budget section of this Agreement is approved and does not require further authorization.

d. Travel that is not included in the Budget section of this Agreement shall require written authorization from the CAM and Commission Agreement Officer prior to travel departure. The Energy Commission will reimburse travel expenses from the Recipient's office location.

e. The Recipient must retain documentation of travel expenses in its financial records. The documentation must be listed by trip and include dates and times of departure and return, departure and destination cities. Travel receipts, including for travel meals and incidentals, shall be submitted with payment requests requesting reimbursement from the Energy Commission.

16.Standard of Performance

Recipient, its subcontractors and their employees, in the performance of Recipient's work under this Agreement shall be responsible for exercising the degree of skill and care required by customarily accepted good professional practices and procedures used in the Recipient's field.

Any costs for failure to meet the foregoing standard or to correct otherwise defective work that requires re-performance of the work, as directed by CAM, shall be borne in total by Recipient and not the Energy Commission. The failure of a project to achieve the performance goals and objectives stated in the Work Statement is not a basis for requesting re-performance unless the work conducted by Recipient and/or its subcontractors is deemed by the Energy Commission to have failed the foregoing standard of performance.

In the event Recipient/subcontractor fails to perform in accordance with the above standard:

a. Recipient/subcontractor will re-perform, at its own expense, any task which was not performed to the reasonable satisfaction of the CAM. Any work re-performed pursuant to this paragraph shall be completed within the time limitations originally set forth for the specific task involved. Recipient/subcontractor shall work any overtime required to meet the deadline for the task at no additional cost to the Energy Commission;

b. The Energy Commission shall provide a new schedule for the re-performance of any task pursuant to this paragraph in the event that re-performance of a task within the original time limitations is not feasible; and

c. The Energy Commission shall have the option to direct Recipient/subcontractor not to re-perform any task which was not performed to the reasonable satisfaction of the CAM pursuant to application of (a) and (b) above. In the event the Energy Commission directs Recipient/subcontractor not to re-perform a task, the Energy Commission and Recipient shall negotiate a reasonable settlement for satisfactory work performed. No previous payment shall be considered a waiver of the Energy Commission's right to reimbursement.

Nothing contained in this section is intended to limit any of the rights or remedies which the Energy Commission may have under law.

17.Payment of Funds

The Energy Commission agrees to reimburse the Recipient for actual allowable expenditures incurred in accordance with the Budget. The rates in the Budget are rate caps, or the maximum amount allowed to be billed.

The Recipient can only bill for actual expenses incurred at the Recipient's actual rates not to exceed the rates specified in the Budget (e.g., direct labor rates, fringe benefit rates, and indirect rates). For example, if the Budget includes an employee's hourly rate of $50/hour but the employee is only paid $40/hour, the Recipient can only bill for $40/hour. Under the same example, if the employee earned $70/hour but the Budget only lists $50/hour, the Recipient can only bill for $50. Another example is if the maximum fringe benefit rate listed in the Budget is 20% but the Recipient's actual fringe benefit rate is only 15%, the Recipient can only bill at 15%. If the actual rates (e.g., direct labor rates, fringe benefit rates, and indirect rates) exceed the approved rates in the Budget, the difference may be charged to the agreement as a match share expenditure.

a. Payment Requests

The Recipient may request payment from the Energy Commission at any time during the term of this Agreement. The final payment request must be received by the Energy Commission by either (1) the approved agreement end term date or (2) the date specified in the Special Terms and Conditions of this agreement (if any), whichever is earlier.

Payments will generally be made on a reimbursement basis for Recipient expenditures, i.e., after the Recipient has incurred the cost for a service, product, supplies, or other approved budget item. No reimbursement for food or beverages shall be made other than allowable per diem charges.

Funds in this Agreement have a limited period in which they must be expended. All Recipient expenditures must occur within the approved term of this Agreement.

b. Documentation

All payment requests must be submitted using a completed Payment Request form. This form must be accompanied by an itemized list of all charges and copies of all receipts or invoices necessary to document these charges for both Energy Commission and match share, including backup documentation for actual expenditures, such as time cards, vendor invoices, and proof of payment. Any payment request that is submitted without the itemization will not be authorized. If the itemization or documentation is incomplete, inadequate, or inaccurate, the CAM will inform the Recipient via a Dispute Notification Form (Std. 209) and hold the invoice until all required information is received or corrected. Any penalties imposed on the Recipient by a subcontractor because of delays in payment will be paid by the Recipient.

Any documentation in foreign currency must be converted to dollars, and the conversion rate must be included in your itemization.

c. Certification

The following certification shall be included on each Payment Request form and signed by the Recipient's authorized officer:

> *I certify that this invoice is correct and proper for payment, and reimbursement for these costs has not and will not be received from any other sources, including but not limited to a government entity contract, subcontract or other procurement method.*

Additional certification required related to the payment of prevailing wages. Refer to section 26 of these terms and conditions for more information.

d. Government Entity

Government Entity is defined as a governmental agency from California or any state or a state college or state university from California or any state; a local government entity or agency, including those created as a Joint Powers Authority; an auxiliary organization of the California State University or a California community college; the Federal Government; a foundation organized to support the Board of Governors of the California Community Colleges or an auxiliary organization of the Student Aid Commission established under Education Code 69522.

e. Release of Funds

The CAM will not process any payment request during the Agreement term until the following conditions have been met:

- All required reports have been submitted and are satisfactory to the CAM.
- All applicable special conditions have been met.
- All appropriate permits or permit waivers from governmental agencies have been issued to the Recipient and copies have been received by the CAM.
- All products due have been submitted and are satisfactory to the CAM.
- Other prepayment conditions as may be required by the CAM have been met. Such conditions will be specified in writing ahead of time, if possible.

f. Fringe Benefits, Indirect Overhead, and General and Administrative (G&A)

Indirect cost rates must be developed in accordance with generally accepted accounting principles. If the Recipient has an approved fringe benefits or indirect cost rate (indirect overhead or G&A) from their cognizant Federal

Agency, the Recipient may bill at the federal rate up to the Budget rate caps if the following conditions are met:

- The Recipient may bill at the federal provisional rate but must adjust annually to reflect their actual final rates for the year in accordance with the Labor, Fringe, and Indirect Invoicing Instructions which can be accessed in this agreement.
- The cost pools used to develop the federal rates must be allocable to the Energy Commission Agreement, and the rates must be representative of the portion of costs benefiting the Energy Commission Agreement. For example, if the federal rate is for manufacturing overhead at the Recipient's manufacturing facility and the Energy Commission Agreement is for research and development at their research facility, the federal indirect overhead rate would not be applicable to the Energy Commission Agreement.
- The federal rate must be adjusted to exclude any costs that are specifically prohibited in the Energy Commission Agreement.
- The Recipient may only bill up to the Agreement Budget rate caps unless and until an amendment to the Agreement Budget is approved.

g. Retention

It is the Energy Commission's policy to retain 10 percent of any payment request or 10 percent of the total Energy Commission award at the end of the project. After the project is complete the Recipient must submit a completed payment request form requesting release of the retention. The CAM will review the project file and, when satisfied that the terms of the funding Agreement have been fulfilled, will authorize release of the retention.

h. State Controller's Office

Payments are made by the State Controller's Office.

18.Fiscal Accounting Requirements

a. Accounting and Financial Methods

The Recipient shall establish a separate ledger account or fund for receipt and disbursement of Energy Commission funds for each project funded by the Energy Commission. Expenditure details must be maintained in accordance with the approved budget details using appropriate accounting practices.

b. Retention of Records

The Recipient shall retain all project records (including financial records, progress reports, and payment requests) for a minimum of three (3) years after the final payment has been received or three years after the federal

grant term, whichever is later, unless otherwise specified in the funding Agreement.

Records for nonexpendable personal property acquired with grant funds shall be retained for three years after its final disposition or three years after the federal grant term, whichever is later.

c. Audits

Upon written request from the Energy Commission, the Recipient shall provide detailed documentation of all expenses at any time throughout the project. In addition, the Recipient agrees to allow the Energy Commission or any other agency of the State, or their designated representative, upon written request, to have reasonable access to and the right of inspection of all records that pertain to the project during the term of this Agreement and for a period of three (3) years thereafter or three years after the federal grant term, whichever is later, unless the Energy Commission notifies the Recipient, prior to the expiration of such three-year period, that a longer period of record retention is necessary. Further, the Recipient agrees to incorporate an audit of this project within any scheduled audits, when specifically requested by the State. Recipient agrees to include a similar right to audit in any subcontract.

Recipients are strongly encouraged to conduct annual audits in accordance with the single audit concept. The Recipient should provide two copies of the independent audit report and any resulting comments and correspondence to the CAM within 30 days of the completion of such audits.

d. Match Share Requirements

Match Share means cash or in-kind (non-cash) contributions provided by Recipient, subcontractors or third parties that will be used in performance of this Agreement.

The Recipient agrees to provide the Minimum Match Share Percentage of Total Allowable Project Costs, even if the Agreement is terminated early or otherwise ends before project completion. The Minimum Match Share Percentage is the Minimum Match Share Required (as specified on the CEC-146) divided by the Total of Reimbursable Amount and Minimum Match Share Required (as specified on the CEC-146). Total Allowable Project Costs is the sum of all actual, allowable costs incurred in performance of the Agreement and approved by the Energy Commission.

For example, if the CEC-146 specifies the following,

Reimbursable Amount $200,000
Minimum Match Share Required $50,000
Total of Reimbursable Amount and Minimum Match Share Required $250,000
Minimum Match Share Percentage of Total Allowable Project Costs 20%

the Recipient agrees to be liable for a minimum of 20% ($50,000 divided by $250,000) of Total Allowable Project Costs. In this example and at the end of the agreement, if Total Allowable Project Costs is $125,000, the Recipient shall have provided a minimum of $25,000 ($125,000 times 20%) as match share.

Without limiting any of the Energy Commission's other rights or remedies, the Recipient agrees that if it fails to provide the Minimum Match Share Percentage of Total Allowable Project Costs, and if requested by the Energy Commission, the Recipient shall repay an amount to ensure the Recipient provides, at a minimum, the Minimum Match Share Percentage of Total Allowable Project Costs.

For example, and building upon the previous example, if:

A. Energy Commission funds disbursed = $110,000
B. Match Share Documented and Approved = $15,000
C. Total Allowable Project Costs = $125,000 (Line A plus Line B)
D. Minimum Match Share Percentage of Total Allowable Project Costs = 20%
E. Minimum Match Share Amount Required = $25,000 (Line C multiplied by Line D)

the Energy Commission may request, and the Recipient would be required to repay upon such request, $10,000 (Line E minus Line B) to the Energy Commission.

The maximum amount to be reimbursed by the Energy Commission under this Agreement is the Reimbursable Amount specified on the CEC-146. The Energy Commission award amount is fixed and will not be augmented. If actual Total Allowable Project Costs exceed estimated Total Allowable Project Costs, the Recipient is responsible for those additional costs.

The Recipient must maintain accounting records detailing the expenditure of the Match Share and provide documentation of expenditures as described in this Agreement (e.g., under this Exhibit C “Payment of Funds” and “Fiscal Accounting Requirements”).

In the event of any conflict or inconsistency between the Minimum Match Share Required specified on the CEC-146 and the Match Share specified on other Exhibits to this Agreement, the Minimum Match Share Required specified on the CEC-146 shall control.

19.Indemnification

The Recipient agrees to indemnify, defend, and save harmless the State, its officers, agents, and employees from any and all claims and losses accruing or resulting to Recipient and to any and all contractors, subcontractors, materialmen, laborers, and any other person, firm, or corporation furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by the Recipient in the performance of this Agreement.

20.Workers' Compensation Insurance

a. Recipient hereby warrants that it carries Worker's Compensation Insurance for all of its employees who will be engaged in the performance of this Agreement, and agrees to furnish to the CAM satisfactory evidence of this insurance at any time the CAM may request.

b. If Recipient is self-insured for worker's compensation, it hereby warrants such self-insurance is permissible under the laws of the State of California and agrees to furnish to the CAM satisfactory evidence of this insurance at any time the CAM may request.

21.General Provisions

a. Governing Law

It is hereby understood and agreed that this Agreement shall be governed by the laws of the State of California as to interpretation and performance.

b. Independent Capacity

The Recipient, and the agents and employees of the Recipient, in the performance of this Agreement, shall act in an independent capacity and not as officers or employees or agents of the Energy Commission.

c. Assignment

Without the written consent of the Energy Commission in the form of a formal written amendment, this Agreement is not assignable or transferable by Recipient either in whole or in part.

d. Timeliness

Time is of the essence in this Agreement.

e. Unenforceable Provision

In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

f. Waiver

No waiver of any breach of this Agreement shall be held to be a waiver of any other or subsequent breach. All remedies afforded in this Agreement shall be taken and construed as cumulative, that is, in addition to every other remedy provided therein or by law.

g. Assurances

The Energy Commission reserves the right to seek further written assurances from the Recipient and its team that the work of the project under this Agreement will be performed consistent with the terms of the Agreement.

h. Change in Business

(1) Recipient shall promptly notify the Energy Commission of the occurrence of each of the following:

(a) A change of address.

(b) A change in the business name or ownership.

(c) The existence of any litigation or other legal proceeding affecting the project.

(d) The occurrence of any casualty or other loss to project personnel, equipment or third parties of a type commonly covered by insurance.

(e) Receipt of notice of any claim or potential claim against Recipient for patent, copyright, trademark, service mark and/or trade secret infringement that could affect the Energy Commission's rights.

(2) Recipient shall not change or reorganize the type of business entity under which it does business except upon prior written notification to the Energy Commission. A change of business entity or name change requires an amendment assigning or novating the Agreement to the changed entity. In the event the Energy Commission is not satisfied that the new entity can perform as the original Recipient, the Energy Commission may terminate this Agreement as provided in the termination paragraph.

i. Survival of Terms

It is understood and agreed that certain provisions shall survive the completion or termination date of this Agreement for any reason. The provisions include, but are not limited to:

- "Payments of Funds"
- "Equipment"
- "Change in Business"
- "Termination"
- "Audit"
- "Indemnification"
- "Fiscal Accounting Requirements"
- "Receipt of Confidential Information and Personal Information"

22. Certifications and Compliance

a. Federal, State and Municipal Requirements

Recipient must obtain any required permits and shall comply with all applicable federal, State, and municipal laws, rules, codes, and regulations for work performed under this Agreement.

b. Nondiscrimination Statement of Compliance

During the performance of this Agreement, Recipient and its subcontractors shall not unlawfully discriminate, harass or allow harassment, against any employee or applicant for employment because of sex, sexual orientation, race, color, ancestry, religious creed, national origin, disability (including HIV and AIDS), medical condition (cancer), age, marital status, and denial of family care leave. Recipient and its subcontractors shall insure that the evaluation and treatment of their employees and applicants for employment are free of such discrimination and harassment. Recipient and its subcontractors shall comply with the provisions of the Fair Employment and Housing Act (Government Code Sections 12990 et seq.) and the applicable regulations promulgated thereunder (California Code of Regulations, Title 2, Section 11000 et seq.). The applicable regulations of the Fair Employment and Housing Commission implementing Government Code Section 12990 (a-f), set forth in Chapter 5 of Division 4.1 of Title 2 of the California Code of Regulations are incorporated into this Agreement by reference and made a part of it as if set forth in full. Recipient and its subcontractors shall give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other Agreement.

The Recipient shall include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under this Agreement.

c. Drug-Free Workplace Certification

By signing this Agreement, the Recipient hereby certifies under penalty of perjury under the laws of the State of California that the Recipient will comply with the requirements of the Drug-Free Workplace Act of 1990 (Government Code Section 8350 et seq.) and will provide a drug-free workplace by taking the following actions:

(1) Publish a statement notifying employees that unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited and specifying actions to be taken against employees for violations as required by Government Code Section 8355(a)(1).

(2) Establish a Drug-Free Awareness Program as required by Government Code Section 8355(a)(2) to inform employees about all of the following:

- The dangers of drug abuse in the workplace;

(3) Provide, as required by Government Code Section 8355(a)(3), that every employee who works on the proposed project:

- Will receive a copy of the company's drug-free policy statement;
- Will agree to abide by the terms of the company's statement as a condition of employment on the project.

Failure to comply with these requirements may result in suspension of payments under the Agreement or termination of the Agreement or both, and the Recipient may be ineligible for any future State awards if the Energy Commission determines that any of the following has occurred: (1) the Recipient has made false certification, or (2) violates the certification by failing to carry out the requirements as noted above.

d. Child Support Compliance Act (Applicable to California Employers)

For any Agreement in excess of $100,000, the Recipient acknowledges that:

- It recognizes the importance of child and family support obligations and shall fully comply with all applicable State and federal laws relating to child and family support enforcement, including, but not limited to, disclosure of information and compliance with earnings assignment orders, as provided in Chapter 8 (commencing with section 5200) of Part 5 of Division 9 of the Family Code; and

23. Site Visits

The Energy Commission and/or its designees have the right to make site visits at reasonable times to review project accomplishments and management control systems and to provide technical assistance, if required. Recipient must provide and must require subawardees to provide reasonable facilities and assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations must be performed in a manner that does not unduly interfere with or delay the work.

24. Confidential Recipient Information

a. Identification of Confidential Recipient Information

For the purposes of this Section, “Confidential Recipient Information” refers to information belonging to the Recipient that the Recipient has satisfactorily identified as confidential and the Energy Commission has agreed to designate as confidential under Title 20 California Code of Regulations Section. If applicable, all Recipient information considered confidential at the commencement of this Agreement is designated in an Attachment to this Exhibit.

c. Confidential Deliverables: Labeling and Submitting Confidential Recipient Information

Prior to the commencement of this Agreement, if applicable, the parties have identified in an Attachment to this Exhibit, specific Confidential Recipient Information to be provided as a deliverable. All such confidential deliverables shall be marked, by the Recipient, as “Confidential” on each page of the

document containing the Confidential Recipient Information and presented in a sealed package to the Commission Agreement Officer. (Non-confidential deliverables are submitted to the Accounting Office.) All Confidential Recipient Information will be contained in the "confidential" volume: no Confidential Recipient Information will be in the "public" volume.

d. Submittal of Unanticipated Confidential Recipient Information as a Deliverable

The Recipient and the Energy Commission agree that during this Agreement, it is possible that the Recipient may obtain or develop additional data or information not originally indentified as a confidential deliverable. In this case, Recipient shall follow the procedures for a request for designation of Confidential Information specified in 20 CCR 2505. The Energy Commission's Executive Director makes the determination of confidentiality. Such subsequent determinations may be added to the list of confidential deliverables in an Attachment to this Exhibit.

e. Disclosure of Confidential Recipient Information

Disclosure of Confidential Recipient Information by the Energy Commission may only be made pursuant to 20 CCR 2506 and 2507. All confidential data, records or deliverables that are legally disclosed by the Recipient or any other entity become public records and are no longer subject to the above confidentiality designation.

25. Receipt of Confidential Information and Personal Information

a. For the purposes of this Section, "confidential information" refers to information the Energy Commission has designated as confidential pursuant to Title 20 CCR Section 2505 et seq., information the Energy Commission has otherwise deemed or stated to be confidential, and other information exempt from public disclosure under the provisions of the California Public Records Act or other applicable state or federal laws.

b. For the purposes of this Section, "personal information" refers to information that meets the definition of "personal information" in California Civil Code section 1798.3(a) or one of the data elements set forth in California Civil Code section 1798.29(g)(1) or (g)(2). **Personal information is a type of confidential information and is therefore subject to all requirements for confidential information provided in this Agreement and applicable law. However, there are additional requirements specific to personal information.**

c. For the purposes of this Section, "special terms for confidential information" refers to the Energy Commission's special terms and conditions for the receipt of confidential information and personal information. The Energy Commission's special terms for confidential information include, but are not limited to, having in place an Information Security Program Plan and obtaining nondisclosure agreements from all

individuals who will be provided access to confidential information or personal information.

d. If the Recipient will receive confidential information or personal information from the Energy Commission or a third-party for the performance of this Agreement, the Recipient must first agree to and comply with the Energy Commission's special terms for confidential information.

e. If any other individual or entity participating in any way with this Agreement, including but not limited to subcontractors, subawardees, vendors, and other project partners, will receive confidential information or personal information from the CEC or a third-party for the performance of this Agreement, that individual or entity must first agree to and comply with the CEC's special terms for confidential information. The Recipient must flow-down the CEC's special terms for confidential information into each subcontract, subaward, vendor agreement, or other project partner agreement that will be provided access to confidential information or personal information before the individual or entity has access to any such information. Recipient must also require all individuals and entities to flow-down this Section to any lower tier subcontractors, subawardees, vendors, project partners, and other individual or entity participating in any way with this Agreement that will be provided access to Confidential Information or Personal Information before the individual or entity has access to any such information.

f. If this Agreement does not include the Energy Commission's special terms for confidential information and the Energy Commission determines the Recipient or any other individual or entity participating in any way with this Agreement will receive confidential information or personal information from the Energy Commission or a third-party for the performance of this Agreement, the Energy Commission reserves the option to amend this Agreement to add its special terms for confidential information.

g. Except as provided in Title 20 CCR Sections 2506, 2507, and 2508, and the Energy Commission's special terms for confidential information, Recipient or any other individual or entity participating in any way with this Agreement may not disclose any information provided to it by the Energy Commission or a third party for the performance of this Agreement if the information has been designated as confidential or is the subject of a pending application for confidential designation.

26.Budget Contingency Clause

It is mutually agreed that this Agreement shall be of no further force and effect if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the work identified in the Scope of Work. In this event, the Energy Commission shall have no liability to pay any funds whatsoever to the Recipient or to furnish any other consideration under this Agreement, and the Recipient shall not be obligated to perform any provisions of this Agreement.

If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the Energy Commission shall have the option to either: 1) cancel this Agreement with no liability occurring to the Energy Commission; or 2) offer an Agreement Amendment to the Recipient to reflect the reduced amount.

27.Public Works -- Payment of Prevailing Wages

Generally Required by Law

Projects that receive an award of public funds from the Energy Commission often involve construction, alteration, demolition, installation, repair or maintenance work over $1,000.

NOTE: Projects that receive an award of public funds from the Energy Commission are likely to be considered public works under the California Labor Code. See Chapter 1 of Part 7 of Division 2 of the California Labor Code, commencing with Section 1720 and Title 8, California Code of Regulations, Chapter 8, Subchapter 3, commencing with Section 16000.

Accordingly, the Energy Commission assumes that all projects it funds are public works. Projects deemed to be public works require among other things the payment of prevailing wages.

NOTE: Prevailing wage rates can be significantly higher than non-prevailing wage rates.

By accepting this Agreement, Recipient as a material term of this Agreement shall be fully responsible for complying with all California public works requirements including but not limited to payment of prevailing wage. Therefore, as a material term of this Agreement, Recipient must either:

(a) Proceed on the assumption that the project is a public work and ensure that:

(i) prevailing wages are paid; and

(ii) the project budget for labor reflects these prevailing wage requirements; and

(iii) the project complies with all other requirements of prevailing wage law including but not limited to keeping accurate payroll records, and complying with all working hour requirements and apprenticeship obligations;

or,

(b) Timely obtain a legally binding determination from DIR or a court of competent jurisdiction before work begins on the project that the proposed project is not a public work.

NOTE: Only the California Department of Industrial Relations (DIR) and courts of competent jurisdiction have jurisdiction to issue legally binding determinations that a particular project is or is not a public work.

If the Recipient is unsure whether the project receiving this award is a "public work" as defined in the California Labor Code, it may wish to seek a timely determination from the California Department of Industrial Relations (DIR) or an appropriate court.

NOTE: Such processes can be time consuming and therefore it may not be possible to obtain a timely determination before the date for performance of the award commences.

If the Recipient does not timely obtain a binding determination from DIR or a court of competent jurisdiction that the project is not a public work, before this Agreement from the Energy Commission is executed, the Recipient shall assume that the project is a public work and that payment of prevailing wages is required and shall pay prevailing wages unless and until such time as the project is subsequently determined to not be a public work by DIR or a court of competent jurisdiction.

NOTE: California Prevailing Wage law provides for substantial damages and financial penalties for failure to pay prevailing wages when payment of prevailing wages is required.

Subcontractors and Flow-down Requirements. Recipient shall ensure that its subcontractors, if any, also comply with above requirements with respect to public works/prevailing wage. Recipient shall ensure that all agreements with its contractors/subcontractors to perform work related to this Project contain the above terms regarding payment of prevailing wages on public works projects. Recipient shall be responsible for any failure of Recipient's subcontractors to comply with California prevailing wage and public works laws.

Indemnification and Breach. Any failure of Recipient or its subcontractors to comply with the above requirements shall constitute a breach of this Agreement that excuses the Energy Commission's performance of this Agreement at the Energy Commission's option, and shall be at Recipient's sole risk. In such a case, Energy Commission may refuse payment to Recipient of any amount under this Agreement and Energy Commission shall be released, at its option, from any further performance of this award or any portion thereof. By accepting this Agreement, and as a material term of this Agreement, Recipient agrees to indemnify the Energy Commission and hold the Energy Commission harmless for any and all financial consequences arising out of or resulting from the failure of Recipient and/or any of Recipient's subcontractors to pay prevailing wages or to otherwise comply with the requirements of prevailing wage law.

Budget. Recipient's budget on public works projects must indicate which job classifications are subject to prevailing wage. For detailed information about prevailing wage and the process to determine if the proposed project is a public work, Recipient may wish to contact the California Department of Industrial Relations (DIR) or a qualified labor attorney of their choice for guidance.

Covered Trades. For public works projects, Recipient may contact DIR for a list of covered trades and the applicable prevailing wage.

Questions. If Recipient has any questions about this contractual requirement or the wage, record keeping, apprenticeship or other significant requirements of California prevailing wage law, it is recommended that Recipient consult DIR and/or a qualified labor attorney of its choice before accepting this Agreement.

Certification. Recipient shall certify to the Energy Commission on each Payment Request Form, either that (1) prevailing wages were paid to eligible workers who provided labor for work covered by the payment request and that the Recipient and all contractors and subcontractors otherwise complied with all California prevailing wage laws, or (2) that the project is not a public work requiring the payment of prevailing wages. In the latter case, Recipient shall provide competent proof of a DIR or court determination that the project is not a public work requiring the payment of prevailing wages.

Prior to the release of any retained funds under this Agreement, the Recipient shall submit to the Energy Commission the above-described certificate signed by the Recipient and all contractors and subcontractors performing public works activities on the project. Absent such certificate, Recipient shall have no right to any funds under this Agreement, and Energy Commission shall be relieved of any obligation to pay said funds.

28.Intellectual Property

The Energy Commission makes no claim to intellectual property developed under this Agreement that is not specified for delivery, except as expressly provided herein.

29.Commission Remedies for Recipient's Non-Compliance

Without limiting any of its other remedies, the Commission may, for Recipient's noncompliance of any Agreement requirement, withhold future payments, demand and be entitled to repayment of past reimbursements, or suspend or terminate this Agreement. The tasks in the Scope of Work are non-severable, and completion of all of them is material to this Agreement. Thus, the Commission, without limiting its other remedies, is entitled to repayment of all funds paid to Recipient if the Recipient does not timely complete all tasks in the Scope of Work.

30.Assembly Bill 841 (2020)

By signing this Agreement, Recipient as a material term of this Agreement shall be fully responsible for complying with this section. AB 841 (Ting, 2020) added

Public Utilities Code (PUC) section 740.20, which requires Electric Vehicle Infrastructure Training Program (EVITP) certification to install electric vehicle charging infrastructure and equipment for work performed on or after January 1, 2022, subject to certain exceptions. As a policy matter, the CEC is applying the EVITP certification requirements to project work funded under this Agreement, regardless of whether it might be performed prior to January 1, 2022, unless an exception applies.

Therefore, applying PUC 740.20 EVITP requirements to this Agreement means that all electric vehicle charging infrastructure and equipment located on the customer side of the electrical meter shall be installed by a contractor with the appropriate license classification, as determined by the Contractors' State License Board, and at least one electrician on each crew, at any given time, who holds an EVITP certification. Projects that include installation of a charging port supplying 25 kilowatts or more to a vehicle must have at least 25 percent of the total electricians working on the crew for the project, at any given time, who hold EVITP certification. One member of each crew may be both the contractor and an EVITP certified electrician. The requirements stated in this paragraph do not apply to any of the following:

(1) Electric vehicle charging infrastructure installed by employees of an electrical corporation or local publicly owned electric utility.

(2) Electric vehicle charging infrastructure funded by moneys derived from credits generated from the Low Carbon Fuel Standard Program (Subarticle 7 (commencing with Section 95480) of Article 4 of Subchapter 10 of Chapter 1 of Division 3 of Title 17 of the California Code of Regulations).

(3) Single-family home residential electric vehicle chargers that can use an existing 208/240-volt outlet.

EXHIBIT C- APPENDIX 1
STREAMLINING GRANT TERMS AND CONDITIONS

The California Energy Commission (CEC) has undergone a significant effort to improve its grant agreements across its programs. Until the CEC is able to revise all of its standard terms and conditions templates to implement these improvements, the CEC is adding this Exhibit C Appendix to new grant agreements. The CEC acknowledges that terms in this Appendix will conflict with some of the terms and other requirements in the grant agreement. Accordingly, where there is a conflict, the CEC and Recipient agree that this Appendix controls. Outside of the changes made by this Appendix, all other grant terms and requirements remain unchanged.

Acronyms and Terms Used in this Document and Their Meaning

Acronym/ Term	**Meaning**
Agreement	The grant agreement executed between the CEC and the Recipient.
Budget Categories	Means the following categories in Exhibit B, Budget: Direct Labor, Fringe Benefits, Travel, Equipment, Materials and Miscellaneous, Subrecipients and Vendors (formerly Subcontractors), and Indirect Costs and Profit.
CAM	Commission Agreement Manager
CEC	California Energy Commission
Existing Terms	The terms that might be found in any of the CEC grant agreements in any of its programs, including the terms for this Agreement.
Incurred Costs	An expense for which the Recipient has become liable (legally obligated) to pay.
MTDC	Modified Total Direct Costs, which means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, vendors, travel, and up to the first $50,000 of each subrecipient agreement. MTDC excludes equipment, capital expenditures, rental costs, tuition remission, scholarships and fellowships, and the portion of each subrecipient agreement in excess of $50,000.
Paid Costs	An expense for which the Recipient has already made payment.
Recipient	The entity that executed this Agreement with the CEC.
Subaward	For the Recipient, a Subaward means all agreements it has with Subrecipients and Vendors. For a Subrecipient, a Subaward means all agreements it has with Sub-Subrecipients and Vendors. For any lower-tiered level of Sub-Subrecipient, a Subaward means all agreements it has with its own Sub-Subrecipients and Vendors.
Subrecipient (formerly Subcontractor)	A person or entity that receives grant funds directly from the Recipient and is entrusted by the Recipient to make decisions about how to conduct some of the grant's activities. A Subrecipient's role involves discretion over grant activities and is not merely just selling goods or services.
Sub-Subrecipient	Has the same meaning as a Subrecipient except that it receives grant funds from a Subrecipient or any lower tier level of a Sub-Subrecipient.

Acronym/ Term	Meaning
Vendor	A person or entity that sells goods or services to the Recipient, Subrecipient, or any lower-tiered level of Sub-Subrecipient, in exchange for some of the grant funds, and does not make decisions about how to perform the grant's activities. The Vendor's role is ministerial and does not involve discretion over grant activities.
These Terms	The terms in this document titled "Streamlining Grant Terms and Conditions."

1.Decoupling Products from Invoices

Existing Terms typically require grant recipients to submit products with invoices. This is no longer required. Recipients can separately submit products and invoices.

2.Quarterly Instead of Monthly Reports

Most grants include within their scopes of work an administrative task requiring grant recipients to submit monthly progress reports, often concurrent with submission of an invoice. This is no longer required. Instead, Recipients will now submit progress reports quarterly instead of monthly. Unless a different arrangement is discussed with and approved by the Commission Agreement Manager (CAM) in writing, which can be done without amending these terms (e.g., as simple as an email from the CAM), quarterly means by the tenth day of each January, April, July, and October.

3.New Requirement for Monthly Calls with the CAM

Instead of monthly progress reports currently required under Task 1, Recipients shall participate in brief phone calls that will occur at least monthly and which will be initiated by the CAM to briefly discuss project progress and identify any emerging issues. Monthly calls might not be held on those months when a quarterly progress report is submitted or the CAM determines that a monthly call is unnecessary.

4.Amendments and Other Changes

Existing Terms typically require a written amendment signed by both the CEC and Recipient for any change to the grant agreement. In contrast, These Terms allow certain changes, as described in this document, to be made to this Agreement without a formal amendment.

A. Budget Reallocations

No CEC approval is needed for a Recipient, Subrecipient, or any lower-tiered level of Sub-Subrecipient to move funds **within** each of the following Budget

Categories listed in the Exhibit B: Direct Labor, Fringe Benefits, Travel, Equipment, Materials and Miscellaneous, Subrecipients, and Indirect Costs. (However, please note that per section 4.B. below, any new M&M, Equipment, Subrecipient or Vendor not listed in the budget does need to be approved prior to reimbursement.) If the Recipient wants to move funds between Budget Categories or submits an invoice that if paid would exceed a Budget Category, the Recipient has at least the following choices:

1. Request an amendment from the CEC. The CEC will not pay the invoice if and until an amendment is approved, except possibly for the final invoice per section 4.A.3 below. In its sole discretion, the CEC might pay the portion of the invoice that does not involve the amount that goes beyond the Budget Category.

2. Retract the invoice and resubmit a corrected one that keeps within Budget Categories. The Recipient can treat the amount paid beyond the Budget Category as match funds if the expenditure meets all of the applicable Agreement requirements for match funds.

3. If there is a Budget Category overage on the final invoice, the Recipient can discuss with the CAM if the invoice can be approved without needing the amendment in section 4.A.1 above. The CAM will require a written justification for the budget category overage to determine if the invoice can be approved.

This new flexibility does NOT mean the Recipient can exceed the overall Agreement amount.

Because Existing Terms may define “Budget Reallocation” to mean the movement of funds between tasks and possibly in other ways than moving funds between Budget Categories, such definitions are considered deleted and superseded by These Terms.

B. New Items under Materials and Miscellaneous, and Equipment

The CAM must approve in writing of any new materials and miscellaneous expenses of $5,000 or more or new equipment the Recipient plans to purchase and be reimbursed under this Agreement that is not already listed in Exhibit B, Budget. To accomplish this, the Recipient can submit either prior to invoicing or with its invoice a completed form titled "NEW EQUIPMENT/M&M FORM” which includes a description of the item and a brief explanation of the need for the item. The CAM will approve items that he or she determines to be necessary to the Agreement and do not exceed budgeted amounts for each Budget Category unless Recipient follows the processes in section 4.A. “Budget Reallocation” directly above.

Any restrictions in the solicitation or elsewhere in the Agreement still apply to the specific items under Materials and Miscellaneous, and Equipment that can be purchased using CEC Funds or Match Share Funds. The restrictions still apply even though the CAM does not have to approve new materials and miscellaneous expenses under $5,000.

C. An Amendment is No Longer Needed to Replace "Key Personnel."

Existing Terms typically require Recipients and their Subrecipients to obtain advance written approval, sometimes through a formal written amendment, before the Recipient added or replaced key or other personnel, or added or removed job classifications. Now, except when replacing "key personnel" the Recipient and its Subrecipients and any lower-tiered level of Sub-Subrecipient, can make change related to their respective personnel without written approval. Although changes to "key personnel" do require written approval, that approval can be requested and granted simply through an e-mail communication or other form of written communication.

These Terms clarify that Recipients may be reimbursed for actual expenses incurred by new "key personnel" during the term of the Agreement, even if written approval comes after an individual begins work on the project. However, if the replacement is not approved, then the Energy Commission will not reimburse for any expenses charged for the individual. Accordingly, Recipients are strongly encouraged to obtain **advance** written approval for "key personnel" or risk not being reimbursed for their work.

Recipient must keep the CAM informed of personnel changes through monthly calls and quarterly progress reports. In addition to any other rights and remedies available to the CEC, the Energy Commission retains its authority to issue a Stop Work Order if it becomes clear that a Recipient or Subrecipient's personnel, key or otherwise, are unable to fulfill their responsibilities under the Agreement.

Please note that the process in the Existing Terms for replacing Subrecipients and Vendors, and each tier lower of Sub-Subrecipients, may have changed. See section 7 below titled "Subrecipients and Vendors."

D. Assignment of New Personnel to an Existing Job Classification

Existing Terms might require Recipients to submit a resume and other information to the CAM to approve before assigning new personnel to existing job classifications. The Existing Terms might also require an amendment, and that an amendment must be fully executed before new personnel can begin work on the agreement. This pre-approval is no longer required. Instead, Recipient will keep the CAM informed of personnel changes and provide any information requested by the CAM during monthly calls and/or quarterly progress reports.

Please see section 5.A. below in the “Budgets and Payment of Funds” term for how direct labor rates will now be handled.

E. Promotion of Existing Personnel to an Existing Job Classification

Existing Terms might require grant recipients to execute an amendment or otherwise provide information to, and obtain approval from, the CAM before promoting existing personnel to existing job classifications. None of this is required any longer. Please see section 5.A. below in the “Budgets and Payment of Funds” term for how direct labor rates will now be handled.

5.Budgets and Payment of Funds

A. No More Capped Maximum Rates for Direct Labor and Fringe Benefits

Existing Terms typically state that rates in Exhibit B, Budget, for Direct Labor, Fringe Benefits, Indirect Costs, and Profit (for Subrecipients) are maximum rates and Recipients can invoice for actual expenses up to these capped, maximum rates.

Under These Terms, the rates in Exhibit B, Budget, for Direct Labor and Fringe Benefits are now treated as estimates and not capped rates. The Recipient can invoice at higher rates as long as it is only invoicing for actual expenditures it has made. However, the Recipient cannot invoice and be paid for more than the total amount in each Budget Category without an amendment (please see section 4.A. above in these terms), or for more than the total Agreement amount.

Please note this new flexibility only applies to rates for Direct Labor and Fringe Benefits. Except as otherwise provided in These Terms, restrictions on Indirect Costs and Profit in the Existing Terms still apply.

Please also note that rates listed in the budget are NOT “negotiated rates” that can be charged by a Recipient or Subrecipient – documentation must be made available upon request to show that the rates charged reflect actual costs incurred.

B. Options for Indirect Costs

Existing Terms typically allow grant recipients to invoice and receive reimbursement for actual Indirect Costs up to the maximum amount listed in Exhibit B, Budget. Indirect Costs are subject to audit, and recipients are required to provide backup documentation upon request proving the actual amount of their Indirect Costs. These Terms provide two additional options.
The following options may be available to any Recipient who has not yet invoiced for indirect costs at the time of this amendment. These options are not available to any Recipient that has opted not to claim indirect. A Recipient may not use these options to increase a current indirect rate on which the Recipient was

scored in the application process. Once a Recipient has been reimbursed for indirect costs, they may not switch among options.

1. De Minimis Option

   Under These Terms, the Recipient can elect to invoice and receive a de minimis amount at the set rate of 15% of the Modified Total of Direct Costs (MTDC) for Indirect Costs. This cannot be combined with any other Indirect Rate option.

   MTDC is defined for purposes of this Agreement as all direct salaries and wages, applicable fringe benefits, materials and supplies, services, vendors, travel, and up to the first $50,000 of each subrecipient agreement. MTDC excludes equipment, capital expenditures, rental costs, tuition remission, scholarships and fellowships, and the portion of each subrecipient agreement in excess of $50,000.
   If the Recipient chooses this de minimis option for Indirect Costs, the Recipient will not have to provide backup documentation for the de minimis amount and will not be audited on it. However, the Existing Term requirements, including for backup documentation and audits, still apply to any Indirect Costs invoiced by the Recipient and reimbursed by the CEC not utilizing the de minimis amount.

2. Defense Contract Audit Agency (DCAA) or other Federally Approved Indirect Rate

   An entity that has a federally approved indirect rate from DCAA or another Federal agency may use the approved indirect rate for Energy Commission grants. A copy of the Federal agency's letter must be provided.

   This rate will typically shift annually, and this shift is generally acceptable. This is the only Indirect Cost option that is not strictly subject to the max rate cap that typically applies to Indirect Costs. If the federal rate decreases from year to year, that will be a cost savings under this budget category. If the federal rate increases from year to year, this will require a budget reallocation. If the Energy Commission, in its sole discretion, determines that a budget reallocation to accommodate an increased Indirect Rate would risk the ultimate success of the project, or is otherwise not in its best interest, the Energy Commission reserves the right to either propose a smaller increase that would not risk the ultimate success of the project, or refuse to increase the Indirect Rate. For any increase the Energy Commission will not reimburse from CEC Funds, the Recipient or Subrecipient may choose to charge the increase as Match Funds.

If the Recipient chooses this option for Indirect Costs, the Recipient will not be audited on this budget category. However, the Existing Term requirements, including for backup documentation and audits, still apply to any Indirect Costs invoiced by the Recipient and reimbursed by the CEC not utilizing this option.

C. Travel and Per Diem

1. Travel not listed in Exhibit B, Budget, can be added without an amendment via CAM approval. CAM approval can come in one of two forms: written authorization from the CAM prior to the Recipient taking the trip, or through the invoice review. Outside of a budget reallocation, additional travel requests are submitted using the CEC's Travel Form. Recipient understands, however, that any travel taken that is not listed in Exhibit B, the Budget, or not pre-approved by the CAM in writing, is at the Recipient's own financial risk. The CAM might not approve the trip as part of invoice review. Please note that the Recipient cannot invoice and be paid for more than the total amount in the Travel Budget Category without an amendment (please see section 4.A. above in These Terms), or for more than the total Agreement amount.

2. Existing Terms explain what recipients can invoice for and be reimbursed for travel and per diem expenses. After this Agreement is amended to include These Terms, Recipients can instead invoice and be reimbursed using the rates listed on the ECAMS Resources webpage. Because the rates maintained on the ECAMS Resources webpage can change over time, the Recipient will be allowed to be reimbursed for the rates in place when the trip expenses become an Incurred Cost. The CEC shall notify the Recipient in writing by way of the Active Agreements listserve if the travel rates change. Please sign up for the Active Agreements listserve to stay informed of all updates.

3. Lodging

   The Recipient can invoice at standard room rates. The CEC will not reimburse for luxury accommodations.

4. Airfare

   The Recipient can invoice at coach rates on commercial carriers. The CEC will not pay for upgrades on flights.

5. Rental Car

   The Recipient can invoice for vehicles appropriate for the purpose of the travel. The CEC will not reimburse expenses for luxury vehicles.

6. Bus/Train

The Recipient can invoice for standard coach rates. The CEC will not reimburse for upgrades.

7. Per Diem

Per diem is allowable for actual costs incurred up to the total daily maximum for the following combined expenses:

- Meals
- Incidentals (i.e. tips for hotel staff and taxi/ride share drivers)
- Parking
- Tolls
- Taxi/ride share

The CEC will not reimburse any expenses under this Agreement for alcoholic beverages. In addition, the daily per diem is for the individual expenses of those traveling and working on the Agreement only. It cannot be used to pay for expenses of others (e.g., it cannot be used to buy a meal for someone else).

D. Payment Request Format

Existing Terms may list specific items the Recipient must include in its invoices. These requirements in the Existing Terms is no longer required. Instead, the CAM will provide an invoice template, and any further modifications to it, that the Recipient shall use.

E. Rounding

Under These Terms, the only exception to the CEC paying actual expenses is rounding to the nearest cent. Recipient, Subrecipients, and each lower-tiered level of Sub-Subrecipients shall round invoiced amounts to the nearest cent ($0.01) using standard rounding, which is rounding down for $0.000 through $0.004, and rounding up for $0.005 through $0.009. Rounding cannot be used to exceed the amount in any Budget Category (see section 4.A. above in These Terms) or exceed the total Agreement amount.

F. New Certification for Payment Requests

Existing Terms may require recipients to include and sign a certain certification in its payment requests. These Terms instead require the Recipient to include and sign the certification provided by the CAM in the Invoice Template. The CAM can change this certification without amending this Agreement.

G. The CEC No Longer Must Use a Specific Dispute Notification Form to Dispute Invoices

Existing Terms may require the CEC to use a Dispute Notification Form, Std. 209 Form, or other specific form when disputing invoices. These requirements no longer apply. Under These Terms, the CEC can now dispute an invoice in any manner it chooses as long as it is provided in writing to the Recipient.

6.Incurred Costs

Existing Terms may not allow recipients to be reimbursed for Incurred Costs. Accordingly, These Terms change that and allow the CEC to reimburse the Recipient for Incurred and Paid Costs that are (1) incurred during the Agreement Term; (2) invoiced within the required timeframes of this Agreement; (3) made in accordance with the Agreement's Budget; and (4) actual and allowable expenses under this Agreement.

The Recipient shall pay ALL Incurred Costs for which it has invoiced the CEC within 14 calendar days of receiving payment under this Agreement for the Incurred Costs. For example, if the Recipient invoices the CEC and then receives payment on September 15 for an Incurred Cost of $10,000, the Recipient shall pay the entire $10,000 by September 29. This requirement is needed to prevent Recipient from creating long lead times for Incurred Costs (e.g., invoicing and receiving payment from the CEC but not paying for the Incurred Costs for weeks or months).

The Recipient shall only invoice the CEC for Incurred Costs the Recipient will pay within 14 calendar days of receiving payment. For example, assume the Recipient has an Incurred Cost for a piece of equipment that costs $300,000 and will pay in three installments of $100,000 each over three months. The Recipient shall only invoice the CEC for $100,000 each month. The Recipient shall not invoice for the entire $300,000 and retain the balance over the three months.

For any Incurred Costs for which the Recipient received funds from the CEC and does not pay within 14 calendar days, the Recipient shall on the very next business day after the 14 calendar days submit repayment of the unpaid amount back to the CEC. Repaid funds will be placed back into the Agreement and will be available to reimburse allowable costs in accordance with this Agreement. When making a repayment under this provision, the Recipient shall specify "Repayment of Unspent Funds under Agreement ZVI-25-009." Recipient shall remit the repayment to:

California Energy Commission
Accounting Office
715 P Street, MS-2
Sacramento, CA 95814

This repayment requirement of the Recipient is in addition to any other rights the CEC can enforce relative to this Agreement. Recipient agrees and acknowledges that time is of the essence in paying Incurred Costs and submitting repayments, and the CEC can treat the Recipient's breach of either requirement as a material breach. Recipient can contact the CAM for any questions about the logistics of making repayments.

7.Subrecipients and Vendors

Existing Terms typically only distinguish between the Recipient and any lower tier of subcontractors. But not all subcontractors are the same. Some are entrusted with significant responsibility to meet the Agreement's objectives, and others are merely suppliers of goods and services.

These Terms allow the Recipient with CAM written approval to divide subcontractors into Subrecipients and Vendors. If this distinction is not made between Subrecipients and Vendors, all entities currently deemed subcontractors will be treated as Subrecipients.

A Subrecipient is defined as a person or entity that receives grant funds directly from the Recipient and is entrusted by the Recipient to make decisions about how to conduct some of the grant's activities. A Subrecipient's role involves discretion over grant activities and is not merely just selling goods or services.

Characteristics which support the classification of the entity as a subrecipient include when the entity:

(1) Has its performance measured in relation to whether objectives of a CEC program were met;
(2) Has responsibility for programmatic decision-making;
(3) Is responsible for adherence to applicable CEC program requirements specified in the CEC award agreement;
(4) In accordance with its agreement, uses the CEC funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the recipient or subrecipient; or,
(5) Provides match share funding contributions to the CEC-funded project.

A Sub-Subrecipient has the same meaning as a Subrecipient except that it receives grant funds from a Subrecipient. There can also be further levels below of Sub-Subrecipients.

A Vendor is defined as a person or entity that sells goods or services to the Recipient, Subrecipient, or any lower-tiered level of Sub-Subrecipient, in exchange for some of the grant funds, and does not make decisions about how to perform the Agreement's activities. The Vendor's role is ministerial and does not involve discretion over Agreement activities. A vendor is an entity selected through a competitive process or is otherwise providing a product or service at a

fair and reasonable price. Characteristics indicative of a procurement relationship between the Recipient, Subrecipient, and any lower-tiered level of Sub-Subrecipient and a Vendor are when the Vendor:

(1) Provides the goods and services within normal business operations;
(2) Provides similar goods or services to many different purchasers;
(3) Normally operates in a competitive environment;
(4) Provides goods or services that are ancillary to the operation of the CEC program; and
(5) may not be subject to compliance with all of the requirements of the CEC program as a result of the agreement, though similar requirements may apply for other reasons.

A. Subrecipient and Sub-Subrecipient Flow-Down Terms

For Recipient's agreements with Subrecipients, the Recipient shall follow any flow-down requirements in the Existing Terms for subcontractors, except the Recipient does not need to include the following terms if they are not applicable to a given Subrecipient:

1. The Legal Statements on Products term does not have to be included if the Subrecipient will not generate any Products.

2. The Travel and Per Diem term does not have to be included if the Subrecipient will not be reimbursed for travel with CEC funds.

3. The Equipment term does not have to be included if the Subrecipient will not be reimbursed for equipment with CEC funds.

4. The Confidential Recipient Information term does not have to be included if the Subrecipient will not have access to or generate Confidential Recipient Information as defined in Section 24.

B. Vendor Requirements

The flow-down requirements in the Existing Terms either come from the CEC or the law. Recipient does not have to include any CEC-created requirements in agreements with its Vendors unless it is necessary for the Recipient to meet its obligations to the CEC under the Agreement. But the Recipient is still required to make sure the Vendor complies with all applicable laws. For example, the Recipient still must ensure any Vendor complies with applicable Public Work Requirements, including the payment of prevailing wage, and also with the Nondiscrimination clause. These are requirements under the law.

The Recipient does not have to include in its Vendor agreements CEC-created terms, such as Equipment, Confidential Recipient Information, Travel and Per

Diem, Retention of Records, and Audits, if the Recipient does not need them to fulfill its obligations to the CEC. An example where the Recipient might need to include a CEC-created term in a Vendor agreement is intellectual property. The Recipient must ensure the CEC has the intellectual property rights required under this Agreement. If a Vendor creates intellectual property that the Recipient provides to the CEC as part of the Agreement, the Recipient shall ensure its Vendor agreement secures the appropriate rights. Another example is the receipt of confidential information of personal information. If a vendor will have access to confidential information of personal information provided by the Energy Commission or a third-party for the performance of this Agreement, the Recipient must ensure its agreement with the vendor includes the Energy Commission's special terms and conditions for the receipt of confidential information and personal information before the vendor has access to any such information.

C. Replacing Subrecipients or Vendors

Under These Terms, all changes to Subrecipients and Vendors require advance written approval by at least the Commission Agreement Manager. A higher level of approval may be required based upon Energy Commission policy. Required approvals are included in the "Changes to Grants - Level of Approval and Notification Chart" commonly referred to as the "Changes Chart."

These Terms clarify that Recipients may be reimbursed for actual expenses incurred by a new **Vendor** during the term of the Agreement, even if written approval comes after the entity has completed work on the project. However, if the new Vendor is not approved, then the Energy Commission will not reimburse for any expenses charged for the entity. Accordingly, Recipients are strongly encouraged to obtain **advance** written approval for new Vendors or risk not being reimbursed for their work.

However, any work completed by an entity that may replace an existing **Subrecipient** WILL NOT BE REIMBURSED for any work completed prior to advance written approval. If a Subrecipient expends funds prior to approval, they can only be claimed as Match Funds.

8.Match Fund Timing

Existing Terms typically require recipients to proportionally spend match funds concurrently or in advance of CEC funds. But this timing does not always work, especially if the CEC funds are used for expensive equipment early in the project.

These Terms allow a CAM, in writing and with Supervisor approval, to authorize a Recipient to spend CEC funds in advance of Match Funds pursuant to Match Fund Spending Plan. The Plan must estimate how Match Funds and CEC funds will be spent over each quarter and briefly explain why it is not practical to spend Match Funds concurrent with CEC Funds. While These Terms allow additional

flexibility, the Recipient agrees to spend the agreed match funds as soon as practicable during the Agreement in order to resume proportionality between CEC funds and Match funds spent.

Exhibit D

Special Terms and Conditions

1. INSOLVENCY, BANKRUPTCY OR RECEIVERSHIP

The Recipient shall immediately, but no later than five calendar days, notify the CEC if the Recipient, the Recipient's parent, a subrecipient, a vendor, or a site host is planning for any of the following events: (1) the entity's filing of a voluntary case seeking liquidation or reorganization under the Bankruptcy Act or similar applicable law; (2) the entity's consent to the institution of an involuntary case under the Bankruptcy Act or similar applicable law; (3) the filing, or planning of filing, of any similar proceeding for or against the entity, or the entity's consent to the dissolution, winding-up or readjustment of its debts, appointment of a receiver, conservator, trustee, or other officer with similar powers over the entity, under any other applicable law; or (4) the entity's insolvency due to its inability to pay debts generally as they become due.

Such notification shall be in writing and shall: (1) specifically set out the details of the occurrence of the event; (2) provide the facts surrounding that event; and (3) provide the impact such event will have on the project being funded by this Agreement.

Upon the occurrence of any of the four events described above, the CEC reserves the right to conduct a review of the Agreement to determine the Recipient's compliance with the required elements of the Agreement (including such items as match share, progress towards project objectives, and submission of required products). If the CEC review determines that there are significant deficiencies or concerns with the Recipient's continued performance under the Agreement, the CEC reserves the right to take any action available under this Agreement including, but not limited to, issuing a Stop Work Order or terminating the Agreement.

Failure of the Recipient to comply with this term may be considered a material breach of this Agreement.

This term shall be flowed-down to all subawards and site host agreements.

Deborah Paolinelli
Assistant County Administrative Officer
County of Monterey
168 West Alisal Street
Salinas, California 93901

Dear Ms. Paolinelli:

Thank you for your response to the Fiscal Year (FY) 2021-22 and FY 2022-23 Advanced Technology Demonstration and Pilot Projects Solicitation (Solicitation). The County of Monterey and the project partners submitted a well-crafted proposal that meets the objectives and goals of the Solicitation. The Monterey Bay Municipal Fleet Electrification and Workforce Accelerator (Fleet Accelerator) project will couple electric vehicles (EV) and EV supply equipment (EVSE) purchases with change management, training, planning tools and data collection to create a model project for municipal EV fleet transition.

California Air Resources Board (CARB) is pleased to preliminarily offer a grant award in the amount of $10,019,303 to implement the project with the commitment of $1,998,161 in match contributions. This award includes funding from the California Energy Commission (CEC) that will focus on infrastructure and implementation. This preliminary award is to the County of Monterey for its project milestones/tasks as included in the Fleet Accelerator project application.

Before the project's grant agreement can be executed there are a few items that need to be resolved:

- Proceed with the California Environmental Quality Act (CEQA) process, providing the State Clearinghouse number and the final CEQA determination.
- Provide updated letters of commitment (include updated match from each City/County)
- Provide an updated letter from the County of Monterey on meeting the insurance requirement, for effective years of 2025-2026
- Submit Payee Date Record form - signed and dated for 2025

CARB's grant agreement can be executed between CARB and County of Monterey in advance of its execution of a grant agreement with the CEC. The preliminary CEC grant award coupled with this is in the amount of $5,688,125 to implement the project with the commitment of $13,709,267 in match contributions. CARB will not reimburse the grantee or project participants for any costs incurred before the execution of the CARB Grant Agreement. However, costs incurred by the County of Monterey after the issuance of this

preliminary award letter and before the execution of the grant agreement can be counted toward the project's in-kind match requirement.

If you have any questions or need further clarification, please contact Nathan Dean, Air Resources Supervisor I, by email at *Nathan.Dean@arb.ca.gov*.

Sincerely,

Nathan Dean

ADDENDUM TO PRELIMINARY AWARD LETTER

Update to Reflect August 7, 2025 Preliminary Award Letter

On August 7, 2025, the California Air Resources Board (CARB) preliminarily awarded the County of Monterey $10,019,303 to implement the Monterey Bay Municipal Fleet Electrification and Workforce Accelerator (Fleet Accelerator) project with the commitment of $1,998,161 in match contributions. CARB has a modification to the preliminary award letter. The modification is as follows:

Costs incurred by the County of Monterey after the issuance of this preliminary award letter and before the execution of the grant agreement can be counted toward the project's in-kind match requirement. CARB will not reimburse the grantee or project participants for any costs incurred before the execution of the CARB Grant Agreement except project participants will be able to place purchase orders for the vehicles and equipment after the issuance of the preliminary award letter and prior to the execution of the grant agreement. The vehicle costs would then be reimbursable only upon execution of the CARB grant agreement and when proper milestones are completed.

v. **Indemnification:**

(1) The following provision applies only if Contractor is a governmental entity: Pursuant to Section 895.4 of the California Government Code, each party agrees to indemnify and hold the other party harmless from all liability for damage to persons or property arising out of or resulting from acts or omissions of the indemnifying party.

(2) The following provision applies only if the Contractor is a non-governmental entity: The Contractor agrees to the extent permitted by law, to indemnify, defend and hold harmless the MCWDB, its officers, agents and employees from any and all claims and losses accruing or resulting to any and all Contractors, subcontractors, materials persons, laborers and any other persons, firms or corporations, furnishing or supplying work, services, materials, or supplies in connection with the performance of this agreement, and from any and all claims and losses accruing or resulting to any persons, firms or corporations which may be injured or damaged by the Contractor in the performance of this Agreement.

w. **Salary and Bonus Limitations:** Pursuant to P.L. 118-47, Division D, Title I, Section 105, award recipients and Contractors shall not use funds to pay the salary and bonuses of an individual, either as direct costs or as indirect costs, at a rate in excess of Executive Level II. The Executive Level II salary may change yearly and is located on the OPM.gov website. (https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/)
The salary and bonus limitation does not apply to contractors (vendors) providing goods and services as defined in 2 CFR 200.331. Where States are recipients of such funds, States may establish a lower limit for salaries and bonuses of those receiving salaries and bonuses from Contractors, taking into account factors including the relative cost-of- living in the State, the compensation levels for comparable State or local government employees, and the size of the organizations that administer Federal programs involved including DOL programs. See TEGL 10-24 for further clarification.

The incurrence of costs and receiving reimbursement for these costs under this Agreement certifies that Contractor has read the above special condition and is in compliance.

x. **Federal Funding Accountability and Transparency Act (FFATA):** As required by FFATA, recipients of Federal awards are required to report sub-award and executive compensation information. By signing this Agreement, Contractor hereby assures and certifies to comply with the provisions of FFATA, which includes requirements referenced in Uniform Guidance 2 CFR Part 200, DOL Exceptions 2 CFR Part 2900, and requirements implementing FFATA at 2 C.F.R. part 25 and 2. C.F.R. part 170.

y. **Clean Air Act:** Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387).

z. **Air or Water Pollution Violation:** Under State laws, Contractor shall not be: (1) in violation of any order or resolution not subject to review promulgated by the State Air Resources Board or an air pollution control district; (2) subject to any cease and desist order not subject to review issued pursuant to Section 13301 of the Water Code for violation of waste discharge requirements or discharge prohibitions; or (3) finally determined to be in violation of provisions of Federal law relating to air or water pollution.

3. STANDARDS OF CONDUCT

Contractor hereby assures that in administering this Agreement, it shall comply with the standards of conduct hereinafter set out, for maintaining the integrity of the Agreement and avoiding any conflict of interest in its administration.

a. **General Assurance:** Every reasonable course of action will be taken by Contractor in order to maintain the integrity of the expenditure of public funds and to avoid favoritism and questionable or improper conduct. This Agreement will be administered in an impartial manner, free from efforts to gain personal, financial, or political gain. Contractor agrees to conform to the non-discrimination requirements as referenced in WIOA Section 188.

b. **Conflict of Interest:** An executive or employee of Contractor, an elected official in the area or a member of the MCWDB will not solicit or accept money or any other consideration from a third person, for the performance of an act reimbursed, in whole or in part, by Contractor or the MCWDB: supplies, materials, equipment or services purchased with Agreement funds will be used solely for purposes allowed under this Agreement. No member of Contractor or the MCWDB will cast a vote on the provision of services by that member (or any organization, which that member represents) or vote on any matter which would provide direct financial benefit to that member (or immediate family of the member) or any business or organization which the member directly represents. For the purpose of this Agreement, a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein has a financial interest in or a tangible personal benefit from a firm considered for a contract, subcontract, or Agreement. (Reference 2 CFR Part 200.318(c)(1)(2) – Conflict of Interest) If a non-Federal entity, has a parent, affiliate, or subsidiary organization that is not a State, local government, or Indian tribe, the non-Federal entity must also maintain written standards of conduct covering organizational conflicts of interest. Organizational conflicts of interest mean that because of relationships with a parent company, affiliate, or subsidiary organization, the non-Federal entity is unable or appears unable to be impartial in conducting a procurement action involving a related organization. (Reference 2 CFR Part 200.318(c)(2))

c. **Buy American:** The recipient or Contractor should, to the greatest extent practicable and consistent with law, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of 2 CFR 200.322 must be included in all subawards, contracts, and purchase orders under this award.

   These funds must be expended consistent with the requirements of 41 U.S.C. 8301- 8303, commonly referred to as the Buy American Act (BAA). See WIOA section 502(a), 29 U.S.C. 3342(a). In the case of any equipment or product that may be authorized to be purchased with financial assistance provided using funds made available under WIOA title I or the Wagner-Peyser Act (29 U.S.C. 49 et seq.), it is the sense of Congress that entities receiving the assistance should, in expending the assistance, purchase only American-made equipment and products.

d. **Nepotism:** Contractor certifies that it shall not hire nor permit the hiring of any person in a position funded under this Agreement if a member of the person's immediate family is employed in an administrative capacity. For the purpose of this Agreement, the term "immediate family" means spouse (common law or otherwise), child, mother, father, brother, sister, brother/sister-in-law, son/daughter-in-law, mother/father-in-law, aunt, uncle, niece, nephew, step-parent, step-child, or such other relationship which would give rise to a substantial appearance of impropriety if the person were to be hired by Contractor. The term "administrative capacity" means persons who have overall administrative responsibility for a program, including but not limited to, selection, hiring, or supervisory responsibilities.

e. **Procurement:** As appropriate and to the extent consistent with law, Contractor should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of 2 CFR 200.322 must be included in all subawards including all contracts and purchase orders for work or products under this award. Contractor must additionally comply with the MCWDB procurement policy and procedures which reflect applicable local, State and Federal laws and regulations, and the standards identified in Uniform Guidance 2 CFR Part 200.318 – General Procurement Standards. (Reference MCWDB Policy 2019-02 – Procurement Standards and policy attachments; https://www.montereycountywdb.org.)

f. **Flood Insurance**: The Flood Disaster Protection Act of 1973, as amended, 42 U.S.C. 4001 *et seq*., provides that no Federal financial assistance to acquire, modernize, or construct property may be provided in communities in the United States identified as flood-prone, unless the community participates in the National Flood Insurance Program and flood insurance is purchased within 1 year of the identification. The flood insurance purchase requirement applies to both public and private applicants for the DOL support.

g. **Architectural Barriers**: The Architectural Barriers Act of 1968, 42 U.S.C. 4151 et seq., as amended, the Federal Property Management Regulations (see 41 CFR 102-76), and the Uniform Federal Accessibility Standards issued by the U.S. General Services Administration (GSA) (see 36 CFR 1191, Appendixes C and D) set forth requirements to make facilities accessible to, and usable by, the physically handicapped and include minimum design standards. All new facilities designed or constructed with grant support must comply with these requirements.

h. **Publicity:** Pursuant to P.L. 119-4, Division D, Title V, Section 503, the Contractor is not authorized to use any funds provided under this award—other than for normal and recognized executive–legislative relationships—for publicity or propaganda purposes, for the preparation, distribution or use of any kit, pamphlet, booklet, publication, electronic communication, radio, television, or video presentation, designed to support or defeat legislation pending before the Congress or any state or local legislature or legislative body, except in presentation to the Congress or any state or local legislature itself, or designed to support or defeat any proposed or pending regulation, administrative action, or order issued by the executive branch of any state or local government, except in presentation to the executive branch of any state or local government itself.

i. **Telecommunications Prohibition:** Contractors must adhere to 2 CFR 200.216 - Prohibition on certain telecommunications and video surveillance services or equipment (effective August 13, 2020). Contractors are prohibited from obligating or expending loan or grant funds to: procure or obtain; extend or renew a contract to procure or obtain; or enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

   For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, any use of video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities) is prohibited, including telecommunications or video surveillance services provided by such entities or using such equipment and telecommunications or video surveillance

equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

j. Waste, Fraud, and Abuse: No entity receiving federal funds under this award may require employees or Contractors of such entity seeking to report fraud, waste, or abuse to sign internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or Contractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a Federal department or agency authorized to receive such information.

k. Whisteblower Protection: All employees working for Contractors, grantees/grant recipients, subcontractors, subgrantees/Contractors, and recipients of cooperative agreements working on this Federal award are subject to the whistleblower rights and remedies established at 41 U.S.C. 4712. The Contractor shall insert the substance of this clause in all subawards and contracts over the Simplified Acquisition Threshold (currently $350,000).

l. Historically Black Colleges and Universities, Other Minority Institutions: Pursuant to Executive Order (EO) 12928, the Contractor is strongly encouraged to provide subcontracting opportunities to Historically Black Colleges and Universities and other Minority Institutions such as Hispanic-Serving Institutions and Tribal Colleges and Universities; and to Small Businesses Owned and Controlled by Socially and Economically Disadvantaged Individuals.

m. n. Health Benefits Coverage for Contraceptives: Federal funds received under this award may not be used to enter into or renew a contract which includes a provision for prescription drug coverage unless the contract also includes a provision for contraceptive coverage. This requirement does not apply to contracts with 1) the religious plan's Personal Care's HMO and OSF Health Plans, Inc. and 2) any existing or future plan if the carrier for the plan objects to such coverage on the basis of religious beliefs.

(d)(1) None of the funds made available in this Act may be made available to a Federal agency or program, or to a State or local government, if such agency, program, or government subjects any institutional or individual health care entity to discrimination on the basis that the health care entity does not provide, pay for, provide coverage of, or refer for abortions. (WIOA sec.194(7)(B)(iii)) Accordingly, these funds may be retained by Contractor to underwrite additional training or training related services pursuant to the project or program that generated them, consistent with the purposes of WIOA. When Contractor ultimately discontinues the provision of all WIOA training and/or services described in this AGREEMENT, program income remaining shall be returned to the MCWDB.

k. Contractor shall make available to the MCWDB, upon request, a complete and detailed record or cost allocation of any expenses that are, in whole or in part, supported with program funds. This detailed account shall include percentages and total contributions from both WIOA and non-WIOA sources. Shared expenses may include, but are not necessarily limited to the following: staff salaries, facilities, equipment, etc.

Late submission of financial reports and invoices are subject to withholding of payment due to non-compliance with Contractor's AGREEMENT to submit timely and accurate reports and invoices. The MCWDB's Fiscal Unit shall pay the certified invoice within 45 days of receiving the certified invoice. Financial information reported on claims must be

directly linked to records maintained by Contractor which support actual delivery of services as outlined in the existing AGREEMENT between Contractor and the MCWDB. The MCWDB shall be the sole judge of what constitutes adequate supporting documentation.

b. Contractor shall be paid in accordance with the AGREEMENT and budget, not to exceed the maximum Agreement specified. Any cost incurred by Contractor over and above the maximum Agreement obligated by the AGREEMENT and budget shall be at the sole risk and expense of Contractor.

11. REQUIRED FUNDING INFORMATION IN PUBLIC COMMUNICATIONS

b. The dollar amount of Federal funds for the project or program; and
c. The percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources. The requirements of this term are separate from those in 2 CFR Part 200 and, when applicable, both must be complied with.

12. PERFORMANCE ACCOUNTABILITY

a. Contractor, commencing as of the date of execution of this AGREEMENT by both parties, shall perform all the functions set forth in the AGREEMENT scope of services. Adequate performance under this AGREEMENT is essential and Contractor shall measure its performance results against goals and performance standards provided by this AGREEMENT. Measured performance below goals standards will constitute noncompliance with the terms of this AGREEMENT.

b. It is the responsibility of Contractor to bring to the attention of the MCWDB areas of performance which are below goals and standards and, with respect to each such area, prepare a corrective action plan or a statement justifying modification of operational plans. In addition, upon receipt of any monitoring report or other communication identifying areas of concern, a corrective action plan must be submitted to the MCWDB within the time frame identified in the report. A corrective action plan shall consist of the following:

(1) Specific Actions to be taken
(2) The objective of each action
(3) Completion dates
(4) Person(s) responsible
(5) Result(s) to be accomplished

c. Contractor shall submit all corrective plans to the MCWDB for written approval. If approved, Contractor shall keep the MCWDB aware of progress, on a continuing basis, until the corrective action plan results are accomplished. The MCWDB reserves the right to require modifications to the corrective action plan, satisfactory to the MCWDB, in the event of failure by Contractor to achieve the specified results.

d. Failure of Contractor to satisfy administrative standards and/or performance goals may result in the immediate reduction of service levels to new applicants and/or enrollees by MCWDB. Such reduction will be accompanied by a proportionate decrease in obligated AGREEMENT funds.

13. MAINTENANCE OF EFFORT

Contractor shall comply with the following maintenance of effort requirements:

a. Contractor warrants that participant positions funded through this AGREEMENT are in addition to those that would otherwise be financed by Contractor without assistance under WIOA.

b. c. Contractor will not terminate, layoff or reduce the working hours of an employee for the purpose of hiring an individual with funds available under WIOA.

This AGREEMENT may be unilaterally modified by the MCWDB, under the following circumstances:

a. There is a decrease in Federal or State funding levels.

b. Funds awarded to Contractor have not been expended in accordance with the budget included in the approved Contractor's plan. This will occur if, after consultation with Contractor, the MCWDB has determined, in a manner consistent with State and Federal law, regulations and policies, that funds will not be spent in a timely manner.

c. There is a change in State and Federal law or regulation requiring a change in the provisions of this AGREEMENT.

Except as provided above, the AGREEMENT may be amended only in writing by the mutual AGREEMENT of both parties.

15. REPORTING

a. Contractor will compile and submit reports of activities, performance and expenditures by the specified dates prescribed by the MCWDB. All expenditure reports must be submitted upon the accrual basis of accounting. Failure to adhere to the reporting requirements of this AGREEMENT will result in funds not being paid to Contractor by the MCWDB.

b. Contractor shall submit to the MCWDB all required reports on a timely basis as delineated by the MCWDB. Contractor shall submit written monthly status reports covering such items as progress of work being performed, milestones attained, resources expended, problems encountered and corrective action taken or other reports determined to be necessary by the MCWDB. These reports are due to the MCWDB, as requested in writing. Contractor also shall submit on a timely basis all required AGREEMENT supplemental documents.

16. TERMINATION

In the event of early termination of this AGREEMENT, the MCWDB's liability to Contractor is limited to the value of services and/or goods provided to the date of termination. This AGREEMENT may be terminated, in whole or in part, for either of the two following circumstances:

a. **Termination for Convenience:** The MCWDB may, in its sole discretion, terminate this Agreement for convenience, including but not limited to, insufficient funding, lack of program participants, change in focus of WIOA program priorities, and similar. The MCWDB shall provide Contractor with ninety (90) days advance notice of termination of this Agreement for convenience.

b. **Termination for Cause:** The MCWDB may terminate this Agreement, in whole or in part, if it determines that Contractor has substantially breached this agreement or violated WIOA, WIOA regulations, the Uniform Guidance, implementing state legislation, and/or guidance and directives issued by the State Employment Development Department or the federal Department of Labor. In the event of Contractor's breach of this Agreement or in the event of Contractor's violation of WIOA and related laws, regulations, guidance and directives, the MCWDB may pursue all legal remedies available to it under federal and state law, including injunctive relief and restitution of WIOA funds previously disbursed to Contractor.

    (1) In the event of breach of this Agreement by Contractor or in the event of Contractor's violation of WIOA and related laws, regulations, guidance and directives, the MCWDB may also seek to impose administrative sanctions such as, but not limited to, a bar on Contractor's future receipt of WIOA funds and/or a bar on Contractor's future provision of WIOA program services.

    (2) The MCWDB may, in its sole discretion, afford Contractor the opportunity to take corrective action prior to terminating this Agreement and/or pursuing legal remedies/administrative sanctions.

All notices of termination must be in writing and be delivered personally or by deposit in the U.S. Mail postage prepaid, "Certified Mail-Return Receipt Requested", and will be deemed to have been given at the time of personal delivery or of the date of postmark by the U.S. Postal Service.

If, at the end of three (3) years, there is litigation or an audit involving those records, Contractor will retain the records until the resolution of such litigation or audit. (Refer to Uniform Guidance, Subpart D, Part 200.333-200.337.)

For purposes of this section, "access to" means that Contractor shall at all times maintain within the State of California a complete set of records and documents related to programs funded by this AGREEMENT. Contractor shall comply with this requirement regardless of whether it ceases to operate or maintain a presence within the State of California before the expiration of the AGREEMENT. Contractor's performance under the terms and conditions herein specified will be subject to an evaluation by the MCWDB of the adequacy of the services performed, timeliness of response and a general impression of the competency of Contractor's organization and its staff.

d. Portable Document Format (PDF), electronic, machine readable information or paper documentation is allowed for the purpose of records maintenance and retention, as long as there are appropriate and reasonable internal controls in place to safeguard against any inappropriate alteration of records. (Reference Uniform Guidance 2 CFR 200.335 – Methods for Collection, Transmission and Storage of Information) To the extent possible, Contractors should use the Virtual Job Center and/or CalJOBS systems as prescribed by the MCWDB, as both a reporting and a case management tool.

18. AUDITS

a. If Contractor expends $1,000,000 or more in a year in federal funds, CONTRACTORs shall submit an audit report that conforms to the requirements of 2 CFR part 200.501, subpart F (Single Audit.) As such, for-profit and foreign entities that are recipients/Contractors of a DOL award must adhere to the Uniform Guidance at 2 CFR 200, including Subpart F. Funds may be set aside in Contractor's budget in an amount equal to MCWDB'S fair share of the Contractor's cost of an A-133 independent audit, if required.

b. The audit report shall ascertain and determine that no services provided by the Contractor under this AGREEMENT are duplicative of services provided to another agency from which Contractor receives funding and are not being reimbursed from funding received from another agency.

c. Contractor shall enter into an agreement with an outside auditor no later than sixty (60) days before the end of each Fiscal Year calling for the financial and compliance audit of the Fiscal Years that are covered by this AGREEMENT. The written agreement may be in the form of an engagement letter prepared by the auditor and approved by Contractor.

d. The audit report must be completed and sent to the MCWDB within six months of the end of each Fiscal Year covered by this AGREEMENT. Acceptable forms include: (i) an original, bound copy signed by the certified public accountant responsible for the work, OR (ii) a protected document file format (.pdf) emailed from the certified public accountant. If this AGREEMENT expires or is terminated on a date that occurs after the period covered by the foregoing audit, the Contractor shall deliver an audit report within two hundred and fifty (250) days after the expiration or termination of this AGREEMENT auditing the period not covered by the prior audit.

e. Should Contractor not enter into an agreement with an outside auditor or should an audit not be performed on a timely basis, the MCWDB, at its discretion, may enter into an agreement with an independent auditor to perform the audit at Contractor's expense.

f. The Contractor shall submit to the MCWDB copies of management letters the auditor prepares for the Contractor as part of the audit engagement.

g. All audits must be performed by Certified Public Accountants currently certified and licensed to practice in the State of California. Contractor must have auditor's proof of current licensing on file in Contractor's office. Contractor must submit a copy of the auditor's certification to practice in California to the MCWDB.

h. Contractor will maintain and make available to auditors, at all levels, accounting and program records including supporting source documentation and cooperate with all auditors. Contractor must follow the audit requirements (single audit or program-specific audit requirement) of Uniform Guidance 2 CFR, Part 200 and DOL Exceptions 2 CFR Part 2900.

i. Auditors performing monitoring or audits of Contractor will immediately report to the MCWDB any incidents of fraud, abuse or other criminal activity in relation to this AGREEMENT, the WIOA or its regulations.

Such repayment will be from funds (Non-Federal), other than those received under the WIOA. Payment of any disallowed costs must be made within 30 days of notification of the disallowed costs, unless otherwise specified by the MCWDB.

b. Contractor shall be notified of all final determinations made by the MCWDB regarding audit reports, independent monitoring reports, and MCWDB administrative findings by a final determination letter.

c. If Contractor fails to refund any disallowed cost within 30 days, the MCWDB may, at its sole discretion, terminate any and all AGREEMENTs with Contractor effective immediately thereon.

20. CONFLICTS

a. Contractor will cooperate in the resolution of any conflict with the MCWDB that may occur from the activities funded under this AGREEMENT.

b. In the event of a dispute between the MCWDB and Contractor over any part of this AGREEMENT, the dispute may be submitted to non-binding arbitration upon the consent of both the MCWDB and Contractor. An election for arbitration pursuant to this provision will not preclude either party from pursuing any remedy for relief otherwise available.

This product is copyrighted by the institution that created it*."

(4) Additionally, pursuant to 2 CFR 2900.13, Intellectual Property developed under this subgrant will be licensed under a Creative Commons Attribution license, and must be in a format readily accessible and available for open licensing to the public, which allows subsequent users to copy, distribute, transmit and adapt the copyrighted work and requires such users to attribute the work in the manner specified by the Pass-through Entity.

(5) All small business firms, and non-profit organizations (including Institutions of Higher Education) must adhere to the Bayh-Dole Act, which requirements are provided at 37 CFR 401.3(a) and Bayh-Dole Act Required ETA Grant Term. In addition, any tools and/or equipment furnished to Contractor by the MCWDB and/or purchased by Contractor with funds pursuant to this AGREEMENT, will be limited to the use within the activities outlined in this AGREEMENT and will remain the property of the DOL and/or the MCWDB. Upon termination of this AGREEMENT, Contractor will immediately return such tools and/or equipment to the MCWDB or dispose of them as prescribed by the

MCWDB.

c. All non-expendable property acquired with program funds provided, in whole or in part, under this AGREEMENT shall become property of the MCWDB at the time of acquisition and shall be returned to the MCWDB upon termination of the AGREEMENT and completion of the program or at such time as the MCWDB makes a request for such property. Non-expendable property is defined as property which will not be consumed or lose its identity during the AGREEMENT term, has a unit value in excess of $1,000 at the time of purchase, and is expected to have a useful life of one year or more.

d. Contractor shall obtain advance written approval of MCWDB for purchase of any non-expendable equipment having a unit purchase price of $1,000 or more, and use expectancy in excess of one year.

22. CONFIDENTIALITY REQUIREMENTS

The MCWDB and Contractor will exchange various kinds of information pursuant to this AGREEMENT. That information will include data, applications, program files, and databases. These data and information are confidential when they define an individual or an employing unit. b. Each party shall keep all information that is exchanged between them in the strictest confidence and make sure information available to their respective employees is only on a “need-to-know” basis.

c. Each party shall provide sufficient security to ensure protection of confidential information from improper use and disclosures, including sufficient administrative, physical, and technical safeguards to protect this information from reasonable unanticipated threats to the security or confidentiality of the information.

d. Contractor agrees that information obtained under this AGREEMENT will not be reproduced, published, sold or released in original or in any other form for any purpose other than those specifically identified in this AGREEMENT.

   (1) Aggregate Summaries: All reports and/or publications developed by Contractor based on data obtained under this AGREEMENT shall contain confidential data in aggregated or statistical summary form only. “Aggregated” refers to a data output that does not allow identification of an individual or employer unit.

   (2) Publication: Prior to publication, Contractor shall carefully analyze aggregated data outputs to ensure the identity of individuals and/or employer units cannot be inferred pursuant to Unemployment Insurance Code Section 1094(c). Personal identifiers must be removed. Geographic identifiers should be specified only in large areas and as needed, and variables should be recorded in order to protect confidentiality.

   (3) Minimum Data Cell Size: The minimum data cell size or derivation thereof shall be three participants for any data table released to outside parties or to the public.

e. Each party agrees that no disaggregate data, identifying individuals or employers, shall be released to outside parties or the public.

Information security incidents include, but are not limited to, any event (intentional or unintentional), that causes the loss, damage, or destruction, or unauthorized access, use, modification, or disclosure of information assets. Contractor shall cooperate with the MCWDB in any investigation of security incidents. The system or device affected by an information security incident and containing confidential data obtained in the administration of this program shall be immediately removed from operation upon confidential data exposure or a known security breach. It shall remain removed from operation until correction and mitigation measures are applied. If Contractor learns of a breach in the security of the system which contains confidential data obtained under this AGREEMENT, then Contractor must provide notification to individuals pursuant to Civil Code Section 1798.82.

g. Contractor shall provide for the management and control of physical access to information assets (including personal computer systems, computer terminals, mobile computing devices, and various electronic storage media) used in performance of this AGREEMENT. This shall include, but is not limited to, security measures to physically protect data, systems, and workstations from unauthorized access and malicious activity; the prevention, detection, and suppression of fires; and the prevention, detection, and minimization of water damage.

h. At no time will confidential data obtained pursuant to this AGREEMENT be placed on a mobile computing device or on any form of removable electronic storage media of any kind unless the

data are fully encrypted.

j. Each party shall (where it is appropriate) store and process information in electronic format, in such a way that unauthorized persons cannot reasonably retrieve the information by means of a computer.

k. Each party shall promptly return to the other party confidential information when its use ends, or destroy the confidential information utilizing an approved method of destroying confidential information: shredding, burning, or certified or witnessed destruction. Magnetic media are to be degaussed or returned to the other party.

l. If the MCWDB or Contractor enters into an AGREEMENT with a third-party to provide WIOA services, the MCWDB and Contractor agree to include these data and security and confidentiality requirements in the AGREEMENT with that third-party. In no event, shall said information be disclosed to any individual outside of that third-party's authorized staff, subcontractor(s), service Contractors, or employees.

m. Contractor may, in its program operations, allow an individual to register for resume-distribution services at the same time the individual enrolls in the Virtual Job Center or CalJOBS. Contractor shall ensure that it and all subcontractors comply with the confidentiality requirements of this AGREEMENT and any other terms of this AGREEMENT that may be applicable. In addition, the following requirements must be adhered to by Contractor and its subcontractors:

   (1) All client information submitted over the Internet to Contractor and/or subcontractor(s) databases must be protected, at a minimum, by 128-bit Secure Socket Layer (SSL) encryption. Client's social security numbers must be stored in a separate database within Contractor and/or subcontractor(s) network of servers, and protected by a firewall and a secondary database server firewall or AES1 data encryption. If a Contractor and/or subcontractor(s) obtain confidential information, the AGREEMENT between Contractor and its subcontractor(s) must specifically state the purpose for the data collection and the term of records retention must be stated, and directly related, to the purpose and use of the information. In accordance with Uniform Guidance 2 CFR Part 200 and DOL Exceptions 2 CFR Part 2900, social security numbers and other client specific information shall not be retained for more than three years after a client completes services. Contractor and/or subcontractor(s) should extend this period, only if any litigation, claim, negotiation, audit, or other action involving the records has been started before the end of the three-year retention period. In this case, the records should be maintained until completion of the action and resolution of all issues arising from it, or until the close of the three-year retention period, whichever is later.

   (2) Client information (personal information that identifies a client such as name and social security number) and/or demographic information of a client (such as wage history, address, and previous employment) shall not be used as a basis for commercial solicitation during the time the client or agency is using Contractor and/or subcontractor(s) services. Client information and/or demographic information shall not be used for any purposes other than those specific program purposes set forth in Contractor and subcontractor(s) AGREEMENT scope of services.

(3) Contractor must give an America's Job Center of California (Job Center) or One-Stop Career Center (One-Stop) client the option to use the Job Center or One-Stop services, including Virtual Job Center or CalJOBS, even if he or she chooses not to use any services of Contractor and/or subcontractor(s). This option shall be prominently, clearly, and immediately communicated to the client upon registration within the Job Center or One-Stop for the Virtual Job Center or CalJOBS. This obligation applies even if Contractor's and/or subcontractor's resume-distribution services, or any other services are offered to the client.

(4) Contractor and/or subcontractor(s) must clearly disclose all of its potential and intended uses of the client's personal and/or demographic information for the services the client seeks and for any other services Contractor and/or subcontractor(s) offers. Contractor and/or subcontractor(s) shall not use a client's personal and/or demographic information without the client's prior permission. A link to Contractor and/or subcontractor(s) privacy policy shall appear prominently on the registration screens that list the potential and intended uses of the client's personal and/or demographic information.

(5) When the MCWDB modifies State automated systems such as the CalJOBS or VOS systems, it shall provide reasonable notice of such changes to Contractor and/or subcontractor(s). Contractor shall be responsible to communicate such changes to its subcontractor(s) in the local area.

n. Each party shall designate an employee who shall be responsible for overall security and confidentiality of its data and information systems and each party shall notify the other of any changes in that designation.

RECOMMENDATION:

a. Approve and authorize the Agricultural Commissioner to sign a Memorandum of Understanding (MOU) with the Monterey County Agricultural and Rural Life Museum (MCARLM), for one time funding not to exceed $75,000 to provide support of agricultural education efforts in Monterey County.
b. Authorize the Auditor-Controller to make payments in accordance with the terms of the MOU.

SUMMARY/DISCUSSION:
The Board of Supervisors of the County of Monterey (County) has a long history of recognizing the importance of agriculture in our County and the importance of supporting agricultural education efforts that provide youth with an appreciation for the bounty of produce grown in our area and the opportunities that exist in pursuing careers in agriculture. The County's support of agricultural education efforts has the mutual benefit of being directly related to programs implemented locally by the Agricultural Commissioner's Office to protect agriculture and our communities related to pest management and control, invasive species monitoring, fruit and vegetable standardization, and crop statistics. Support of agricultural education efforts is an investment in our communities.
MCARLM is a nonprofit organization that provides educational program opportunities to teachers, students and the public through the preservation of agricultural landmarks at various museums and exhibits located in San Lorenzo County Park in King City. The exhibits include the irrigation museum and tractor shed which track the evolution of agriculture in our County, innovation and transformation into one of the most productive agricultural counties in the nation. This one-time funding support to MCARLM will expand their agricultural educational program serving K-12 students countywide, enhance knowledge of agriculture to schools throughout the County by developing a mobile outreach program, and increase access and transportation equity to schools in rural communities where transportation costs for a field trip to visit the agricultural museums and exhibits located at San Lorenzo Park in King City can be a barrier.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:

The MCARLM supports this action.

FINANCING:
The funds are contained in the Agricultural Commissioner's Budget for FY 2025-2026. This one-time funding for the MOU between the County and MCARLM is sourced by General Fund contribution at 28% and state revenues to the County Agricultural Commissioner at 72%.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The MCARLM is a nonprofit organization that provides educational programs. Agricultural education programs support the economic vitality of the County by exposing children to the importance of agriculture in our County, how food is produced, and careers in agriculture.

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

First Aid/Incident Only	12	1.0
Medical Only	125	10.4
Indemnity	0	0.0
Total	215	17.9

b. **Average Caseload:**
The average caseload used in determining the staffing model is 135 Indemnity claims per Adjuster and assumes Medical Only and Future Medical Claims were given half the weight of 1 Indemnity claim or 2:1 ratio.

c. Economic and Market Considerations
The proposed fees reflect economic conditions in our industry, including but not limited to increases in medical benefit costs and labor market pressures. Intercare adjusted its internal compensation range during the preceding contract year to maintain competitive positioning and ensure the recruitment, retention, and continued availability of qualified adjusting personnel. We anticipate ongoing

adjustments in the next couple of years. An increase of 5.9% in year 1 reflects the adjustments due to wage pressure to ensure staff retention.

d. **Staffing Model:**
Although the claim volume supports 1 dedicated plus a partial Supervisor, it is the County's desire to maintain a dedicated Supervisor only. To ensure Intercare can properly deliver all required services, we have added one half of an Adjuster to the program model.

e. Adjustment for Claim Volume Changes
In the event the annual claim volume increases or decreases by more than ten percent (10%), and such variance necessitates an upward or downward adjustment in staffing levels, the Parties agree to negotiate in good faith an equitable adjustment to the fees. Any such modification shall be documented through a written amendment executed by both Parties.

Matter Type: BoS Resolution

Adopt a resolution approving the County of Monterey Capital Improvement Program Five-Year Plan (CIP) for Fiscal Years 2026-27 through 2030-31.

RECOMMENDATION:
It is recommended that the Board of Supervisors adopt a resolution approving the County of Monterey Capital Improvement Program Five-Year Plan (CIP) for Fiscal Years 2026-27 through 2030-31.

SUMMARY:
The County of Monterey Capital Improvement Program Five-Year Plan (CIP) is a planning document that includes capital projects with a value over $100,000 and a useful life of more than one year which are managed by Public Works, Facilities and Parks (PWFP), Natividad Medical Center (NMC) and technology upgrade project managed by Information Technology Department (ITD). The attached FY 2026-27 CIP includes “active” projects with full or partially-secured funding which are anticipated to start or continue in FY 2026-27. Staff will return at a later date for further discussion and comment on unfunded project needs and potential funding as a supplement to the adopted CIP.

DISCUSSION:
The CIP sets forth public projects essential to maintain and improve County public facilities and facilitate the orderly implementation of the County General Plan. Each year, the CIP is updated and reviewed considering County needs, priorities, and available funding. A long-term CIP provides several benefits:

- Prioritizes needs and establishes an orderly basis for sound budgetary decisions
- Focuses attention on both mandated and community goals, needs, and capabilities for best use of public funds and establishes a long-term plan to address future needs
- Improves the likelihood of obtaining State and Federal financing assistance for projects
- Encourages project coordination between the County and public agencies which serves to reduce scheduling conflicts
- Allows private enterprise to relate and/or align their projects to the CIP

CIP Summary: FY 2026-27 Work Plan + Future Planned Work
PWFP is working closely with the County Administrative Office (CAO) to improve the usefulness of CIP reports. This first draft CIP includes “Active” projects expected to start or continue into Fiscal Year (FY) 2026-27, as well as future projects with approved or projected funding through FY 2030-31. This new comprehensive report is intended to give the Board better visibility of the

magnitude of capital work departments are planning for the next five years.

As drafted, the CIP identifies 120 projects planned over the next 5 years. Some projects underway in the current FY and expected to close by June 30, 2026, may extend in FY 2026-27 due to unforeseen circumstances such as weather or supply chain issues. The project list will be updated in coordination with departments and the CAO Budget Office as the fiscal year progresses. The final list of projects will be presented to the Board in June as part of the budget adoption process.

Estimated cost for FY 2026-27 is $179 million, with total project costs across all five years estimated at $944 million. Note: the estimate across all five years includes design and development projects with placeholder construction costs and does not reflect actual project costs as they will be realized once design work is completed. The majority of funding for these projects is held in either Fund 404 Capital Projects Fund or Fund 002 Road Fund. Departments may also hold specific project funding such as grant funds in their own department budgets.

FY 2026-27 Unfunded Project Requests and Fund 478 - BIR Allocation. Proposed Updated Process

Historically, the County has relied almost exclusively on “Fund 478” Building Improvement and Replacement Subfund (BIR) to fund this list of requests. PWFP is working closely with CAO to develop a plan for Fund 478 - BIR allocations over the next five years. A narrative and copy of the draft workflow are attached to this report as Attachment B. The draft workflow was presented to the Capital Improvement Committee in March 2026, and the Budget Committee in May 2026. A report on supplemental Fund 478 - BIR allocations is expected to come back to the CIC, BC and Board in August/September 2026.

Unfunded Project Requests - Developing Scope and Cost Estimates

Unfunded projects which departments wish to have considered for discretionary funding range from an identified need with no formal scoping or cost estimating to projects with professional programming, scoping, and estimating, which provide more accurate cost estimates. For project funding requests without formal scoping and estimating, departments have three options in preparing their project requests:

Option 1: Departments may request a smaller amount of funding be allocated to projects prior to full funding, so that more accurate scoping and estimating can be done which may include engaging services of specialized consultants. This provides the Board with a more realistic project estimate for full funding consideration in subsequent years. **PWFP Project Managers recommend this process.**

Option 2: Departments may use internal funding sources to retain PWFP scoping and estimating services. Once scoping and estimating is complete, the CIP project is updated with the more realistic cost estimate and funding request. As with Option 1, this allows the Board to make more informed decisions with fewer and smaller add-on funding requests once the project starts.

Option 3: Departments may reference historical data from previous projects to develop an estimate or use a standard square foot cost calculator provided by PWFP as part of the CIP update process to create a potential project budget. Departments may engage PWFP Project Managers through a

Reimbursable Service Agreement (RSA) to review the CIP request and historical costs. These estimates are known as Rough Order of Magnitude estimates (ROMs). ROMs vary significantly from actual costs. To account for the many unknown factors in a ROM, a cost estimate will typically include placeholders of 20% design/engineering, 20% construction management and 35% contingency based the County's cost estimating procedures. The Board may elect to award funding based on a ROM to quickly initiate work, however there is significant risk that the initial funding allocation will not cover actual project costs once the true scope is determined.

OTHER AGENCY INVOLVEMENT:
PWFP worked closely with County departments and CAO to identify capital needs, related costs, and funding sources. The draft CIP included with this report was previously presented to the CIC on May 11, 2026 and the BC on May 26, 2026. The Planning Commission is reviewing the draft CIP for consistency with the Monterey County General Plan on June 10, 2026. To meet report submittal deadlines, this report was prepared prior to the Planning Commission meeting. The findings of the Planning Commission will be added to this report through Additions and Corrections by the Clerk as Exhibit C once available.

FINANCING:
The CIP is funded by multiple funding sources including local, state, and federal grants, Highway Users Tax Account (HUTA, or Gas Tax), SB 1, Measure X, Measure AA, impact fees, and capital funds. PWFP staff costs allocated to prepare the CIP this FY are budgeted in Fund 404. Available cash flow is considered when determining the timing and implementation of individual projects.

Executive Summary

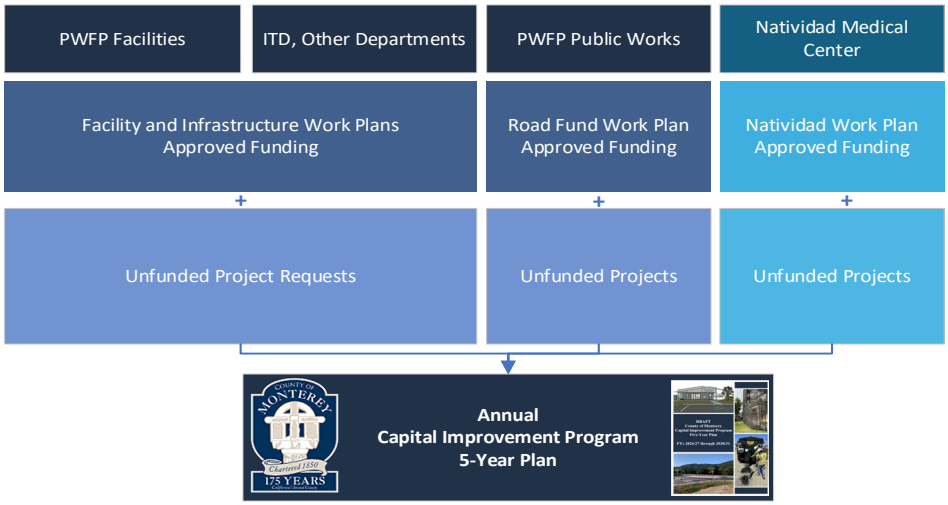
Capital Improvement Program Five-Year Plan Defined

The County of Monterey Capital Improvement Program Five-Year Plan (CIP) sets forth capital projects essential to maintain and improve County public facilities and facilitates the orderly implementation of the County General Plan. Public facilities include buildings, major equipment, telecommunications infrastructure, parks, and transportation systems. CIP projects are those projects that cost more than $100,000 and provide long term assets to Monterey County.

Each year, the CIP is reviewed and updated considering available funding to address County infrastructure needs. A long-term CIP provides several benefits:

- Prioritizes needs and establishes an orderly basis for sound budgetary decisions.
- Focuses attention on both mandated and community goals, needs, and capabilities for best use of public funds and establishes a long-term plan to address future needs.
- Improves the likelihood of obtaining State and Federal financing assistance for projects.
- Encourages project coordination between the County and public agencies which serves to reduce scheduling conflicts.

The CIP consists of funded capital projects managed by the Public Works, Facilities & Parks Department (PWFP), Natividad Medical Center (NMC) and Information Technology Department (ITD). Select projects and capital purchases managed directly by County Departments are also included. “Active” projects are those projects with secured funding expected to start or continue in the coming Fiscal Year, as well as future projects with approved or projected funding in the next five fiscal years. In addition to funded projects, the CIP includes a list of unfunded project requests submitted by County departments. Including a list of unfunded projects into the CIP creates opportunities for departments to pursue grant opportunities, as well as keeping the Board appraised on the amount of deferred maintenance and capital needs throughout the County. Figure 1 below represents the various work plans and projects which make up the CIP.



Summary of CIP Projects and Costs

As drafted, the CIP identifies 120 Active projects planned over the next 5 years. Some projects underway in the current FY and expected to close by June 30, 2026, may extend in FY 2026/27 due to unforeseen circumstances such as weather or supply chain issues. The project list will be updated in coordination with departments and the CAO Budget Office as the fiscal year progresses. This comprehensive report provides visibility on the magnitude of capital work departments are planning for the next five years.

Summary of CIP Projects and Estimated Costs

Project Status	Number of Projects	FY 2026/27 Cost	Total Estimated Cost
"Active" Work Plans	120	$182 Million	$947 Million
Unfunded Project Requests	212	N/A	$501 Million

CIP Development Process

Development Lead

County of Monterey Ordinance 5391 created Public Works, Facilities and Parks (PWFP) as a comprehensive County department responsible for the administration, coordination, and oversight of policies and regulations, and related services concerning facilities maintenance and capital planning in support of County owned and leased facilities in compliance with all applicable local, State, and Federal laws and regulations. Monterey County Code 2.28.010 assigns PWFP the responsibility of delivering infrastructure and capital planning which provide for the public health and safety in transportation, public works, and utility services. Monterey County Code 2.25.050 outlines the PWFP Director duties, including development and recommendation of capital improvement programs and presentation and justification of such programs to the County Administrative Officer and the Board of Supervisors.

Annual Project Updates

The annual CIP Development process begins with a request to County departments for project updates and new project submittals at the beginning of the calendar year. Projects with approved funding which are anticipated to start or continue in the upcoming fiscal year are incorporated into draft "Active" 5-Year Work Plans for Public Works, Facilities and Parks, Information Technology Department, and Natividad Medical Center. These Work Plans become the basis for the annual CIP update. Special projects directly managed by County Departments are also included in the draft CIP. In addition to Active projects, the final CIP includes unfunded project requests, as discussed below.

Project Priorities and Condition Assessments

Road projects are prioritized in a Pavement Management Plan ("PMP") based on criteria such as road pavement condition, traffic volumes, and economic importance. Studies completed along specific corridors (Carmel Valley Road, G-12 Pajaro to Prunedale, etc.) identify projects that are folded into the roads program. Projects which were promised if Measure X passed, take priority using that funding source. PWFP collaborates with other agencies to leverage each other's limited funding to perform regional projects.

Critically, an objective Facility Condition Assessment (FCA) index is not currently available for facilities and vertical infrastructure, as the PWFP does not have a computerized maintenance management system (CMMS) to track asset lifespans, repair history and potential asset replacement cost. Funding a CMMS is a reoccurring funding priority for PWFP – Facilities Division.

Unfunded Project Requests

During annual CIP development, County departments submit on average approximately 100 unfunded project requests, totaling more than $200 million in estimated costs. The actual project costs are likely to be significantly higher, as preliminary estimates tend to underestimate required scope, soft costs, contingencies, and hard costs.

The final CIP includes a list of unfunded and future project requests which are not expected to become active over the next five years due to any combination of factors, including County prioritization and strategic/master planning goals, planning and/or scheduling conflicts, increased scope due to unforeseen conditions, regulatory and permit delays, lack of funding for both project costs and associated staff support to implement the CIP projects. Projects may become active if the previously stated factors are resolved and the project can be incorporated into the approved work plan. Including a list of unfunded projects into the CIP creates opportunities for departments to pursue grant opportunities, as well as keeping the Board appraised on the amount of deferred maintenance and capital needs throughout the County.

Unfunded projects range from an identified need with no formal scoping or cost estimating to projects with professional programming, scoping, and estimating, which provide more accurate project cost estimates. For projects without scoping and estimating, project managers use historical data such as previous similar projects, or square foot estimates using a standard cost estimate calculator to determine potential costs. These are known as Rough Order of Magnitude estimates (ROMs). ROMs may be anywhere from 50% over to 100% under actual costs and typically include placeholders of 20% design/engineering, 20% construction management and 35% contingency based on estimated construction cost.

CIP Approvals

The CIP Program involves multiple phases of development, and review by the Capital Improvement Committee, Budget Committee, Planning Commission and finally Board of Supervisors.

Capital Improvement Committee

The Capital Improvement Committee (CIC) was established in 2005 to plan for future capital projects and make recommendations to the Board on major capital projects and expenditures, including review and recommendations concerning the annual update for the CIP. The CIC also establishes priorities between competing capital project needs. Each year the CIC reviews the proposed list of funded projects for the annual CIP update and provides recommendations for prioritizing unfunded and partially funded projects, should additional funding become available.

Budget Committee

The Budget Committee (BC) reviews the CIP for fiscal matters, including proposed funding sources for projects in the upcoming fiscal year. The BC may make recommendations to the Board of Supervisors on funding for currently unfunded projects or adjustments to funding sources for budgeted projects.

Planning Agency

Government Code section 65401 requires the list of proposed public works recommended for planning, initiation, or construction during the ensuing fiscal year be submitted to the designated planning agency for review and report to the designated official agency as to conformity with the adopted general plan or part, thereof. The County of Monterey Board of Supervisors has designated PWFP as the appropriate department to prepare the CIP per Monterey County Code section 2.28.010.B. Monterey County Code section 2.29.010 defines the County's "Planning Agency" as consisting of the Board of Supervisors, the Planning Commission ("Commission"), the Housing and Community Development Department ("HCD"), and such other hearing officers and bodies as are designated in County's zoning and subdivision ordinances as Appropriate Authorities. The Planning Commission has historically acted in the capacity of the Planning Agency for the purposes of fulfilling the requirements of Government Code section 65401.

Board of Supervisors

The final draft CIP is presented to the Board of Supervisors for adoption with the budget in June of each year.

Fees and Funding

Road Fund

Capital Projects under the Public Works Road Fund Work Plan utilize multiple sources. Annual allocations include: Highway Users Tax Account ("HUTA", aka Gas Tax), Senate Bill 1 ("SB 1", aka, Road Maintenance and Rehabilitation Account), Measure X (annual allocation-based sales tax divided with a split of 40% Transportation Agency for Monterey County ("TAMC") and 60% local agencies in the County, which is calculated on 50% population / 50% lane miles – this local road maintenance tax sunsets in 2047), and Transient Occupancy Tax ("TOT,"). Board policy to allocate 25% of TOT for road maintenance as part of the County's Maintenance of Effort ("MOE") obligation through SB 1 and Measure X. In addition, PWFP applies for funding from various

sources: Federal Highway Administration ("FHWA"), State/Regional Transportation Improvement Program ("STIP/RTIP"), Active Transportation Program ("ATP"), Highway Safety Improvement Program (HSIP), and other one-time funding when a project qualifies. Projects completed under emergency declarations may be eligible for reimbursement through the Federal Emergency Management Agency ("FEMA") and/or the Governor's Office of Emergency Services ("CalOES").

Fund 478 - Building Improvement and Replacement (BIR)

The Building Improvement and Replacement (BIR) unit is a component of the Resource Planning Internal Service Fund (ISF). This unit is composed of the allocation of building depreciation overhead recovered through the County's annual Countywide Cost Allocation Plan (Cost Plan). Depreciation is allocated among the County departments based on the square footage occupied. Historically, the County has relied almost exclusively on "Fund 478" Building Improvement and Replacement sub fund (BIR) for discretionary capital project revenue. BIR has averaged $13 million each year for deferred maintenance, new construction and other vertical construction capital projects.

Other Funding Sources

Capital projects are funded through capital funds budgeted in Funds 002 (Road Fund) and 404 (Facilities Master Plan Projects) and by individual department budgets. Funding may come from multiple sources including local, state, and federal grants, Gas Tax, SB 1, Measure X, impact fees, and capital funds.

Project name: Electric Charging Stations at Various County Facilities
Project address: Countywide

Type	Equipment	**Department**	Administration
Funding Status	Active	**Project Phase**	Design/Planning
Useful Life	20 Years	**Fund**	TBD
Contact	Cora Panturad, 831-755-5338	**Dept. Priority**	1

Description

This project is to install multiple EV charging stations across the County facilities to provide vehicle charging for County fleet, employees, and the public in certain scenarios. The Sustainability Program is engaging with multiple departments to site EV charging stations across the County with the goal to install at least 55 stations. These sites will likely require more extensive site preparation. Site readiness would typically be performed through JOC contractors with EV hardware and installation provided through cooperative contracts. Previously tracked as Project Admin 2021-01 EV.

Justification

The County Fleet and employee commute make up the two largest sources of emissions for County operations. To meet the goals of our Municipal Climate Action Plan and the targets of SB32, the County needs to electrify their fleet and encourage the use of electric vehicles by County staff. The County can save money by switching to electric and hybrid vehicles because the cost of fuel can be 60% less than the cost of fuel for a regular internal combustion engine vehicle, more than making up for the difference in vehicle price. Stations should be installed strategically to coordinate with other parking lot projects. Free EVCS hardware becomes available to the County annually, and the County can leverage tens of thousands of dollars of funding by taking advantage of these free hardware opportunities if installation can be funded.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

EV charging station site construction planned to be estimated and begin construction in FY 26/27. Construction will continue and complete in FY 26/27 to align with the grant term from the California Energy Commission.

Description

The project is to repair the Agricultural Center Conference Room and modify the existing building footprint of the Agricultural Commissioner's office (AC). The Agricultural Center Conference Room is used by the AC, the University of California Cooperative Extension (UCCE), other County departments, and community groups. The AC needs to add and/or modify workstations/offices and infrastructure within our existing building to accommodate operational needs. The separate scope of work under the project includes repairs to prevent water intrusion located at the Weights & Measures testing warehouse is being assessed by JOC contractors for potential fixes. Additional scopes of work include replacement of the EV charging station and required ADA parking stalls, repair of the Conference Room building fire riser, and repainting and replacing carpet within the administration office.

Justification

An engineering report and soil analysis concluded that due to dry conditions, the soil beneath the foundation is shrinking and causing structural damage. Extensive repairs are required to maintain the use of the facility. The continued use of this facility is critical to the mission of the Agricultural Commissioner and UCCE. Other County departments and other groups, such as TAMC, depend on the use of this facility. In addition, the ability to increase or decrease the number of workstations and/or storage areas and infrastructure within and around the main building necessary to maintain the varying needs of the department.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Identify, assess, and plan mitigation for soil conditions under the Agricultural Center Conference Room. Implement water-intrusion prevention for the Weights & Measures building (complete). Identify electric vehicle fleet needs and replace existing EV charging station and improve adjacent parking stalls. Repair fire riser at Conference Room Building (complete). Implement interior renovations (paint and carpet) within the administration building.

Project name: General Repairs- 1270 Roof Maintenance Repair
Project address: 1270 Natividad Road, Salinas

Type	Preventative Maintenance	**Department**	Health
Funding Status	Active	**Project Phase**	Design/Planning
Useful Life	20 Years	**Fund**

Description

The roof at 1270 Natividad Road, commissioned in 2009, has experienced normal wear and tear over its service life. A recent inspection by a certified roofing professional recommends resealing the roof to extend its useful life by an estimated 20 years. Performing this preventive maintenance now will help avoid accelerated deterioration and defer the significantly higher cost of a full roof replacement. This project ensures the County's continued investment in the facility is protected and maximizes the roof's service life in a cost-effective manner.

Justification

Resealing the roof at 1270 Natividad Road is a proactive measure to preserve the building's structural integrity and extend the roof's lifespan by an estimated 20 years. Addressing normal wear and tear now prevents accelerated deterioration, reduces the risk of leaks or damage to interior spaces, and avoids the significantly higher cost and operational disruption associated with a full roof replacement in the future.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Detailed Roof Assessment: Conduct a comprehensive inspection to confirm areas needing resealing, identify any underlying damage, and document roof conditions. Engage certified roofing professionals to validate recommendations and ensure compliance with County and building standards. Design and Specification Development: Develop detailed project plans, including materials selection, sealing methods, and work sequence. Prepare technical specifications and scope of work for contractors. Budgeting and Funding Approval: Finalize cost estimates based on inspection and design findings. RFP issued and construction to begin FY 26 27 and finish by 27 28

Description

The interior spaces at 299 12th Street are showing signs of wear, including scuffed walls, faded paint, and minor surface damage. This project will refresh the interior paint throughout the facility, improving appearance, protecting surfaces, and maintaining a professional and welcoming environment. The work will include preparation, painting, and any minor surface repairs necessary to ensure a long-lasting finish.

Justification

Over time, interior walls and surfaces naturally degrade due to daily use. Refreshing the paint now preserves the facility's interior, protects surfaces from further damage, and avoids higher costs associated with deferred maintenance or extensive wall repairs. This proactive approach maintains a safe, functional, and visually appealing environment for staff and visitors while maximizing the life of existing materials.

Description

Expand or relocate the Alisal Family Health Center (AFHC) to meet community services needs. The current leased building is outdated and needs updating to improve the quality of care and employee function. The structure needs upgrading to improve health and safety, and to maintain ADA accessibility. The limited square footage is not sufficient to meet patient demands resulting in longer wait times for appointments. This planned strategic expansion is particularly timely since we anticipate lasting lingering economic impact on our patient population as our community recovers from COVID. Health anticipates a significant increase in Medicaid enrollment and we need to be ready to meet the upcoming increase in demand for primary care.

Justification

The AFHC is a Federally Qualified Health Center (FQHC) clinic required to provide health care to medically underserved populations in the greater East Salinas area. Currently Alisal Health Center serves approximately 12,000 unique patients generating almost 38,000 patient visits. The Alisal Health Center current condition is affecting quality of care, employee function, and turnover. Alisal Health Center in its current configuration has no expansion capabilities to meet increased patient needs. While the facility has been well used, the building doesn't have enough exam rooms to accommodate the current patient load without longer than adequate wait-times. Other facilities issues include inability to open windows, flooring not compatible with recommended infection control practice, lack of an adequate waiting area, and extremely limited capacity to move workstations due to antiquated electrical and IT network systems. A well-equipped, optimal and safe clinical space is critical to attract and retrain mu

Description

Expand or relocate Marina Health Center to better serve low-income residents of City of Marina adjacent service area. construct a new-14,000-square-foot clinic consisting of 10,000 Square Feet Primary Care Clinic and 4,000 Square Feet Dental Clinic. Primary Care Clinic will have 12 exam rooms, and office space to deliver expanded general family practice, obstetrics and gynecology, and mental health integration services to better support the Medi-Cal and uninsured population in this community. The Dental Clinic would meet a critical service need for our 8,000+ residents in addition to approximately 20,000 veteran residents. Construction estimate of $8.5 million is based on $608 per square foot calculation.

Justification

The Marina Clinic service area is zip code 93933. In this service area there are 8,906 residents who are low income (below 200 percent of the Federal Poverty Level [FPL]). Out of these Marina Health Clinic serves only 2,617 patients every year due to limited staffing and capacity restricted by lack of clinic space. This translates to a penetration rate of 30% leaving 70% of the low-income population without access to affordable primary and preventive care. The Marina Clinic is also designated as a Medically Underserved Area (MUA), Dental and Mental Health - Health Professional Shortage Area (HPSA). To better meet the needs of the city of Marina residents and surrounding areas, Monterey County needs to construct a new-14,000 square foot clinic consisting of 10,000 Square Feet Primary Care Clinic and 4,000 Square Feet Dental Clinic. Primary Care Clinic will have 12 exam rooms, and office space to deliver expanded general family practice, obstetrics and gynecology, and mental health integration services to bet

Description

This project would design and build a separate public entrance area for the current spay/neuter clinic. In March of 2020, under a partnership with the City of Salinas, the Veterinary and RVT moved to full time status. Clinic staff have identified an increased capacity to offer spay/neuter services to the community on a regular basis. Current design requires clients to come through the shelter, requiring shelter staff assistance. A separate, standalone entrance to the clinic is a critical component to increase spay/neuter opportunities. Other possible expansion areas include: resizing existing recovery and prep spaces; Lobby/Clerical workspace increase; Field Services/dispatch office increase; additional dog kennel wing and 25 dog runs; remodel of cat rooms to accommodate minimum of 16 more cat cages; addition of separate public access for stray animal intake.

Justification

Current and possible animal services partnerships with the City of Salinas and other cities will require facility expansion in order to humanely house and care for an increased number of animals and related staffing and supplies. This project estimates an approximated 35% increase in animal housing capacity. Possible additional staffing needs with increased animal housing may include: 1.0 RVT, 1.0 Veterinary Assistant; 2.0 ACT; 2.0 OAII,1.0 Office Supervisor. Low cost spay/neutering is a much needed service within Monterey County. By having a standalone, front facing entrance for the clinic, spay/neuter opportunities are not dependent on having shelter staff accept animals in or expose owned pets to any diseases that stray animals may bring into the facility. It will allow for a more sterile, controlled environment that maximizes existing workflow efficiencies and procedures.

Description

To construct a new primary Care Clinic- in Salinas by entering build-to-suit (construction on the improved property). The Health Center will be approximately 8,000 square feet consisting of 12-15 exam rooms, a conference room, a patient education area, a patient waiting area, ADA compliant patient and staff restrooms.

Justification

Clinic Services Bureau has seven clinics in Salinas Service Area. The Salinas Service Area consists of six zip codes (93905,93906,93901,93912,93915 and 93908) from which 26,000 low-income residents call these seven clinics as their primary medical home for them and their families. As result of COVID Pandemic there has been increase in demand for preventive primary care services in our service area. In addition, our existing physician patient panels have been full for all our providers since last 12 months resulting in lack of access to new patients including same day access for our existing patients. This has been evident to us by the fact that the next available appointment for NEW patients in these clinics is not available for less than 4 months in future. This lack of critical access to primary care has led to our residents postponing preventive care, seeking expensive care at urgent cares or emergency departments- neither of these options are good medical care. The proposed addition of new clinic location in North Salinas will create much needed access point to more than 6,000 additional low-income residents.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Clinic Services is currently in the initial stages of lease negotiation to secure a shell suite in North Salinas. Upon securing the suite Clinic Services intends to negotiate build to a suite construction on improved property. The project is fully/ partially funded.

Description

Laboratory is requesting to construct a Unidirectional Workflow inside the lab for specimen testing and safety. This project involves construction of walls, new plumbing, electrical, airflow testing and installing new laboratory equipment. Epidemiology and Laboratory Capacity for Infectious Diseases Cooperative Agreement (ELC) funding is pending. ELC provides crosscutting and disease-specific funding support for public health laboratories through the CDC.

Justification

The Monterey County Public Health Laboratory requests approval for renovations of molecular testing areas for compliance with CLIA regulations. Molecular testing such as COVID-19 PCR requires separate areas in the laboratory to be designated for each phase of the testing process to achieve unidirectional workflow.

We are currently in a holding pattern, waiting to determine if the grantor will provide the necessary funds before utilizing the allocation from CIC. Once confirmation is received, either through the grant or CIC awards, the project can commence.

Description

Conduct a feasibility study at the existing County Facilities located at 1220 Natividad Road. The study will encompass an analysis of the current footprint, setbacks, and potential for a new facility at this location. This comprehensive assessment will involve engaging with an architect to conduct the study and deliver a detailed report outlining the possibilities and recommendations for development at the specified site.

Justification

In response to homelessness, Behavioral Health Bureau is looking to assess exisiting facilty at 1220 Natividad road and assess this feasiblity of this facility and how it can be repurposled. the location is close to the share center which is for homeless and this new site if feasiblyt will provide an ongoing environment in addressing homeless needs.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

In response to the homelessness issue, the Behavioral Health Bureau aims to evaluate the existing facility at 1220 Natividad Road and assess its feasibility for repurposing. The proximity of this location to the Share Center, dedicated to serving the homeless, makes it an ideal site for addressing ongoing homeless needs. This assessment seeks to justify the potential repurposing of the facility as a means to enhance efforts in meeting the needs of the homeless population.

Description

This project involves the installation of multiple electric vehicle (EV) chargers at 1270 Natividad Road to support the growing demand for EV charging infrastructure. Installation of EV chargers in designated parking spaces. Electrical upgrades and necessary infrastructure to support the new charging units, including circuit installations and potential panel upgrades. Placement of clear signage for parking and usage instructions, ensuring compliance with local regulations and safety standards. The installation will be conducted in phases to minimize disruption to normal parking lot operations. This project will help promote sustainability by encouraging the adoption of electric vehicles and providing convenient charging options.

Justification

The installation of multiple EV chargers at 1270 Natividad Road is essential to meet the growing demand for electric vehicle (EV) charging infrastructure and to support the organization's sustainability goals. As electric vehicle adoption continues to increase, providing accessible charging options will: Support Sustainability Efforts: Installing EV chargers aligns with the organization's commitment to sustainability by promoting the use of electric vehicles and reducing the carbon footprint of employees and visitors. Enhance Employee and Visitor Convenience: Providing charging stations will improve convenience for employees and visitors who own electric vehicles, promoting a greener and more efficient commuting option. By investing in this infrastructure, the project will contribute to a more sustainable, efficient, and forward-thinking environment at 1270 Natividad Road. Support County Vehicles Transitioning to EVs: Several county vehicles would like to transition to electric models as part of sustainability initiatives, but currently, there is no accessible charging infrastructure at the site. Installing EV chargers would provide the necessary facilities to support the county's fleet transition and ensure that vehicles are properly maintained and charged.

Description

Previous Project name: Replace Laboratory Exhaust Fans Project to Lab HVAC PROJECT (Replace Exhaust Fans and Install New Mini Splitter. This project involves the replacement of existing laboratory exhaust fans to improve air quality, ventilation efficiency, and compliance with safety regulations. The current fans have reached the end of their operational lifespan and no longer meet the required performance standards. The new fans will be selected based on optimal airflow capacity, energy efficiency, and noise reduction to enhance the overall functionality of the laboratory environment. The scope includes the removal of outdated equipment, installation of upgraded exhaust fans, and any necessary modifications to ductwork and electrical systems. The project aims to ensure that the laboratory meets updated air handling standards and provides a safe and comfortable workspace for all personnel.

Justification

The existing laboratory exhaust fans have reached the end of their service life and are no longer operating at optimal efficiency. Continued use of these outdated fans poses potential risks to both safety and air quality in the laboratory, as they fail to maintain the necessary airflow and ventilation standards required for a controlled environment. In addition, these fans are energy-inefficient and costly to maintain, contributing to higher operational expenses. Replacing the fans with modern, energy-efficient models will ensure compliance with safety regulations, improve air quality, and reduce energy consumption, ultimately enhancing the overall functionality and safety of the laboratory. This upgrade is essential to provide a safe, comfortable, and efficient workspace for staff and to maintain compliance with current environmental and safety standards.

Description

The Animal Services facility at 160 Hitchcock Road in Salinas currently has 7 HVAC units that are approximately 22 years old. Their age is such there are no parts available for repair and all show significant signs of erosion and wear. These units are considered specialty units due to the fact they run off of propane, which is the power source for Animal Services. They often have a long lead time so it is a concern that these units can be procured in a timely manner, before extreme weather and before more units expire completely. These units are needed to maintain the comfort of both the humans and animals in the facility seven days a week. Previously tracked in CIP as Project 1803-2

Justification

Without funding from this request, MC Animal Services will not be able to replace the aging HVAC system. If not replaced and failure occurs, it will result in employee, animal and/or customer dissatisfaction as well as some operations having to cease. Some animals and/or employees may have to be relocated elsewhere if the environments are not able to have adequate temperature controls. Cost estimate was based on estimate for 299 12th street estimate from 2020 and sized to match footprint of Animal Services.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Project required additional time due to extremely long lead times. As a result of changing to energy-efficient HVAC units to reduce emissions, the functionality of heating for the animal spaces required additional design and scope to be completed by FY 25/26.

Description

This project consists of interior wall patching, surface preparation, and repainting at the Health Department facility located at 1270 Natividad. The project may also include limited incidental repairs and minor adjustments to support restoration activities and maintain functional workspace configurations. The work is an extension of Project 1802-1, General Repairs, originally commissioned in 2009, and addresses accumulated interior wear resulting from ongoing operational changes over the life of the building.

Justification

This project is an extension of Project 1802-1, 1270 Natividad General Repairs, originally commissioned by the Health Department in 2009. Over approximately 17 years of operation, the building has undergone multiple furniture replacements to meet evolving ergonomic standards, as well as the replacement of outdated equipment. These changes have required frequent reconfiguration of interior spaces, resulting in wall damage from activities such as mounting and removing televisions, removal of system furniture anchored to walls for stability, and the temporary removal of furniture to support separate projects, including water intrusion remediation. As a result of ongoing furniture reconfigurations and general wear since the building's commissioning, several wall surfaces are now in need of refresh and improvement. While limited repair work is anticipated in Calendar Year End (CYE) 2025, the majority of wall patching and painting restoration is projected for Fiscal Years 2026–2027.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

FY 2026 Goals Complete detailed assessment of interior wall conditions throughout the facility Finalize scope of work for wall patching, surface preparation, and repainting Develop cost estimates and secure funding authorization Coordinate work sequencing with building operations to minimize disruption Begin priority patching and repainting in high-use and most visibly impacted areas FY 2027 Goals Complete remaining wall patching and surface repairs throughout the building Perform full interior repainting in remaining offices, corridors, and common areas Ensure consistency of finishes and compliance with Health Department standards Conduct final inspections and address punch-list items Achieve project closeout with restored, uniform, and maintainable interior wall conditions

Description

Focused on installation of new 3000 sq. ft., modular storage facility for various pieces of laboratory equipment. Unit requirements: Temperature controlled, security, fire, and electrical connections. Modular landing is currently being investigated as well as transfer of trash enclosure to alternate location. Replaced Title from Lab Modular storage to HD Modular Storage.

Justification

Due to the pandemic, the Health Department administration has surpassed its staffing capacity, requiring an expansion of its current facilities. Consequently, conference rooms and various areas within the headquarters have been repurposed to accommodate additional staff. This growth has also necessitated the laboratory within the headquarters to augment its supply storage. The proximity required for these supplies is the primary reason for establishing modular storage adjacent to the Health Department headquarters.

Description

In response to the growing need for supportive sheltering for individuals experiencing homelessness while recovering from illness or hospital stays, the project aims to develop a community of 30 non-congregate modular units, each consisting of a single restroom and a single bed. These units are designed to create a supportive and healing environment for individuals on their journey to recovery while offering them an opportunity to get on a path towards permanent housing.

Justification

Our unhoused residents do not have a safe and secure place to recover after a hospital stay and no longer meet medical necessity to be hospitalized. Creating a recuperative center would provide these individuals a clean, safe, and secure place to fully recover from their hospital stay.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

1. Conduct an assessment near the Share Center located at 845 E. Laurel Drive, Salinas, CA 93906, to determine the feasibility of installing 30 individual homes. 2. Obtain costs for these types of homes and refine the CIP as information becomes available. The rough estimated assembly cost for each home is $60k, totaling $300k. 3. Issue a Request for Proposals (RFP) for the installation of 30 homes at Share Center. 4. Issue a Notice to Proceed if the proposal meets the budget.

Description

The clay tile roof at 299 12th Street has experienced normal wear and tear over its service life and currently exhibits significant areas that may require partial tile replacement. This project will address the damaged sections of the roof to maintain its structural integrity and protect the building from water intrusion and other damage. Completing these repairs now will help prevent accelerated deterioration and avoid the much higher cost of a full roof replacement in the future.

Justification

The clay tile roof has areas of damage that, if left unaddressed, could compromise the building's structure and lead to water intrusion, impacting facility operations. By repairing the damaged tiles as needed, the County can extend the roof's lifespan, prevent costly emergency repairs, and defer a full roof replacement. This approach protects County assets in a cost-effective and sustainable manner while minimizing disruption to building operations.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

The goal of this project is to complete all necessary repairs to the clay tile roof at 299 12th Street, Marina, within FY 26 27 but may extend depending on several unknown factors. This includes assessing and identifying damaged tiles, procuring materials and contractors, replacing all damaged tiles, and ensuring the roof is restored to full structural integrity. The project will be completed in a safe, efficient, and environmentally responsible manner, extending the roof's lifespan and protecting the building from water intrusion.

Description

This project implements targeted capital improvements to the Health Department facility commissioned in 2017. Work includes upgrading security systems, patching and repainting interior walls, improving HVAC controls, and addressing isolated water intrusion. These improvements enhance safety, functionality, and long-term value while supporting a secure and comfortable environment for occupants.

Justification

This project addresses ongoing improvements to this building located at 1156 Fremont Blvd., Seaside CA 93955, commissioned in November 2017. Over time, building systems, interior finishes, and safety equipment have experienced normal wear and operational aging. Proactively addressing these areas supports occupant health, safety, and comfort, while preserving the facility's long-term value and operational efficiency. Planned improvements include: Safety and security enhancements: Upgrading card readers and security cameras to strengthen controlled access and monitoring capabilities. Interior finish restoration: Patching and repainting walls to maintain a professional appearance and extend the lifespan of finishes. HVAC system optimization: Upgrading control systems to improve climate management, energy efficiency, and occupant comfort. Water intrusion mitigation: Addressing isolated leaks, whether originating from interior or exterior sources, to prevent structural damage and protect building integrity. By implementing these capital improvements, the facility will continue to meet evolving operational needs and safety standards, reduce long-term maintenance costs, and ensure a functional, secure, and welcoming environment for all occupants.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Facility Assessment Conduct a comprehensive evaluation of interior finishes, building systems, and safety/security equipment to document current conditions. Identify areas of wear, damage, or inefficiency, including walls, HVAC, water intrusion, and security systems. Planning and Design Develop detailed scope of work for repairs, patching, painting, HVAC upgrades, and safety/security enhancements. Establish priorities for repairs based on safety, operational needs, and long-term cost efficiency. Initial Repairs and Upgrades Begin addressing the most critical safety and security needs, such as card readers and cameras. Perform preliminary patching and painting in high-use or visibly worn areas. Address any urgent water intrusion issues that could impact building integrity.

Description

The Carmel River Floodplain Restoration and Environmental Enhancement (CRFREE) Project (Project) is a comprehensive effort to improve flood control and restore native riparian habitat, floodplain habitat, and hydrologic function to a portion of the lower floodplain along the Carmel River. Key aspects of the project are to: 1) Create notches in the levees along the south bank of the lower Carmel River, 2) Restore the south lower Carmel River floodplain, and 3) Build a causeway under Highway 1, connecting the south lower Carmel River Floodplain with the south arm of the Carmel Lagoon. The project is reported in this CIP under Housing and Community Development for general planning purposes with construction with construction implementation managed under PWFP. Specific roles and responsibilities are coordinated between the two departments internally. This project is funded through the following grant programs: Wildlife Conservation Board, National Fish and Wildlife Foundation, Dept. of Water Resources Flood Corridor, Coastal Flood and Urban Streams grant programs, California State Coastal Conservancy. Funding from the FEMA/Cal OES Hazard Mitigation Program is pending a decision from FEMA, expected in 2025.

Justification

The lower reach of the Carmel River Basin was the site of multiple expensive and severe flooding incidents in 1995 and 1998. Funding comes from state and federal grants supporting reducing repetitive flood damage loss and environmental restoration. The project has a very significant habitat restoration component, which includes reverting existing levee farm fields to non-levee riparian and floodplain habitat and providing habitat continuity from the previously restored lands on the west side of the highway to the proposed restoration area to the east of the highway.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Final EIR was certified by the Monterey County Board of Supervisors in January 2020. The Board of Supervisors approved the CRFREE Project in June 2021. The Project is currently in the final design, permitting, and right of way coordination phase, and waiting to begin pending a decision from FEMA on funding the Hazard Mitigation Grant.

Description

The NGEN Upgrade project is a major hardware and software upgrade to current L3Harris system release configurations. This project will include the equipment and services needed to upgrade primary and secondary virtual core components, an upgrade of all radio frequency software, current security hardware and software components with upgraded operating system, upgraded dispatch console software, additional dispatch consoles, and phone system integration to the dispatch consoles. An additional site at Greenfield will be constructed as part of the vendor L3Harris' mobilization and fully funded by a grant received and managed by the City of Greenfield.

Justification

Without this upgrade, the operating systems and hardware components are reaching end of life and end of support which exposes this critical public safety communications system to component failure risk as well as network security vulnerabilities that can be exploited. Additionally, maintenance of out-of-date software and hardware is increasingly difficult.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Project commenced in FY24-25. NGEN Executive Board approved a 5-year NGEN Capital Fee collection on 2.22.24 commencing FY24-25 and have further approved maintaining the fee on 2.13.25 through FY25-26 which is subject to BOS approval. The County of Monterey and City of Greenfield have entered into an MOU to facilitate the buildout of the Greenfield site during L3Harris' mobilization for the Core Upgrade. The project share of cost is allocated as 77% for the County of Monterey (NGEN Capital Fee) and 23% for the City of Greenfield.

Description

The NGEN system has serious County-wide in-building coverage issues, and outdoor coverage gaps around unincorporated areas including north Salinas, Bolsa Knolls, Prunedale, Pajaro, San Benancio, Carmel Valley Village, Green Bridge, King City, Bryson, San Ardo Oil field, and Big Sur areas. This project will implement Motorola SmartConnect, which will provide seamlessly switching between NGEN system and broadband network including LTE cellular networks and WiFi, for supported Motorola mobiles and portables. It will help areas where there is LTE coverage by FirstNet or other providers, and where LMR coverage is poor or non-existent. First responders will be able to maintain critical LMR features with improved in-building and outdoor coverage.

Justification

The NGEN system will not be operating effectively due to lack of coverage which can lead to officer safety issues. Public safety communications will be greatly enhanced with the expanded coverage and extra system resilience introduced. This system implementation is a newer technology that will be integrated with the the existing NGEN system and provides an opportunity for better interoperability with State, Federal, and other mutual aid partners using the Nationwide FirstNet System comprised of thousands of AT&T LTE towers.

Description

Planning, design and construction of a new library facility in East Garrison. Current planning is for a stand-alone branch building of roughly 4,000 square feet, with a community room and Sheriff substation. Interior furniture, fixtures and equipment (FF&E) for the future East Garrison Library includes all staff and public furniture, all library shelving, and all library technology (connectivity, wireless, public and staff computers, telephones and other branch systems). This also includes signage, an "opening day" materials collection, and interior finishes. Planning has begun for services in this community. This project estimate is based on that size estimate and recent projects. As this is a new facility, there are no elements that can be moved from an existing facility, service will have to be established from scratch. This project anticipates a mixture of developer and tax increment funding for construction, and is not expected to have an impact on the County General Fund.

Justification

The Community of East Garrison has a public library facility in the plan for Phase 3. The community is actively interested in and vested in bringing a branch library to completion in their community.

Description

The County Board of Supervisors allocated $200,000 to investigate the feasibility of acquiring a new site for a replacement Bradley Library. The school is very interested in working with the Library to support the creation of a replacement facility which will serve the residents and students of Bradley. FY22/23 Feasibility completed. FY23/24 Budget is based on preliminary construction estimates conducted during the feasibility stage including, real estate acquisition, design and construction. Project previously reported in the CIP as "New Bradley Branch Library Feasibility Study & Future Development"

Justification

Bradley is a remote community far from all County services. There is a strong need for library services. The library serves the community as well as the local elementary school. Since the library lost its rented facility during FY 2016-17, the bookmobile has been used to provide service once a week to the local school and community as a temporary solution. However, the distance of Bradley from the larger libraries, makes it difficult and highly inefficient to serve this community through bookmobile services. The community and the school have expressed a strong desire to have a new library built in the community. No rental locations are available suitable for a library, and constructing a facility is the most feasible option at this time.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Design Development to be completed by March 2025 and Construction Documents/Plan Set completion by June 2025. Continue property acquisition process through FY 24/25.

Description

The City of Gonzales is constructing a new Community Center which will house the Gonzales Branch Library, operated by Monterey County Free Libraries. This is not a County project, but the County is providing support since the center will include a new Library. In response to Referral 2022.10, Library staff submitted an augmentation request for $1.8 million to support the community center construction. Library Fund Balance planned for FY 23/24 covers the interior Furniture, fixtures and equipment (FF&E) for the new Gonzales Branch Library. The FF&E includes public and staff furniture, shelving and displays, interior finishings, computers, printers, wireless equipment, and other technology. Some elements such as public and staff furniture, some shelving, and current technology can be moved from the current Gonzales Branch. Costs to operate will be roughly the same as the current Gonzales Branch, pending lease negotiations with the City of Gonzales.

Justification

With the construction of the new Gonzales Community Center (anticipated ground-breaking Spring of 2023), the Library will move from a leased commercial space to the new Center. This will be a better location for student foot-traffic to the Library, and the Library will be able to take advantage of the Center's many amenities, such as outdoor programming space and adjacent complementary spaces. The entire facility will be more sustainable, and better able to serve the community in an emergency, with Library staff already trained in serving as Temporary Evacuation Points, and other Disaster Service Worker needs.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Small amount of Library funding to cover furniture and equipment purchased in FY 26/27. Additional purchases are anticipated once the library's traffic patterns and resource needs have been evaluated over a period of time.

Description

This project is one of two CIP projects at the Porter Vallejo Mansion, 29 Bishop Street, Pajaro. This Project 4072 is a project to upgrade the Pajaro Mansion by providing expanded use of second and third floors with added stairs, lift, exterior play area and improvements to interior spaces. PWFP project managers worked in consultation with design professionals and the Historical Resources Review Board to finalize design of alterations to these historic resources (the Porter Vallejo Mansion and the Water Tower), including a new stairway egress with new fire exits on the second and third floors; new outdoor space with new shade structures and picnic tables; and new sustainable landscaping. The project also includes adding 4 EV Charging stations and infrastructure for up to 6 additional charging stations. The project also includes an interior re-design for the Library services space. Design is complete, and will result in a reconfigured public library space, maximizing safe and effective use, workflow, and preserving the beauty of the historic elements of the house. This requires new furniture, shelving, wiring for moving the public computers and staff work areas, and new floor coverings. A separate CIP Project 723218 is a post storm restoration and repair project that addresses repairs to roof, siding, windows, HVAC and mechanical systems that were impacted by Flood. That project was funded through emergency strategic reserve allocations and is seeking allocation of AB-102 funding as well as reimbursements through Insurance and FEMA.

Justification

The Pajaro Library is in a unique space, sharing the small and scattered historic rooms of this mansion with many other community groups, resulting in a community gathering place. Both the safety needs of the building and the operational needs of the library can be addressed with this project.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

In FY24, PWFP Facilities Department staff engaged consultants to complete space programming to address ADA and Life and Safety upgrades on the first floor and reuse of the second and third floor including adding an elevator or lift. Design is complete and plans have been submitted to the Building Services Department for permit review in December 2024. Construction is expected to start after the post storm repairs project is completed. The Department of Emergency Services AB-102 grant program had initially allocated $3,500,000 to the upgrade project 4072. Due to the incomplete funding of Emergency Repair Project 723218, and the necessity of ensuring the facility's exterior, including roofing, windows, and siding, is intact before proceeding with interior upgrades, staff recommends reallocating $3,155,412 of AB-102 funding from Upgrade Project 4072 to the Emergency Repair Project 723218. This reallocation will also help ensure the AB-102 funds are fully expended within the grant deadline of December 2025. Staff will continue to seek other funding sources for this project including funding through CDBG grant program and funding through recently passed measure AA tax fund. PWFP is also working with the County Sustainability Division to identify available grants and rebates that can help offset cost of EV Charging infrastructure and other green building elements such as high efficiency heat pumps.

Description

This project is to complete the landscaping around the San Lucas Library. Phase I consisted of grading and putting down decomposed granite in the intended project area. This phase will complete with amenities, trees, shade structures, and a play area.

Justification

San Lucas does not have a public park, and the library is frequently used as a community hub, both during library hours and outside of library hours. The community is in need of outdoor play areas, shade, and a place to gather.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Cost estimates in 2024-25 were anticipated to be around $200,000 total to complete this project, and the Department's request will be to take the remaining cost from Library Fund Balance, and complete the project. Delays included working on bringing EV charging to the San Lucas Library, which would require construction of additional parking, and in 2025 the County acquired the parcel next to the property. This project can be rescoped to be in accordance with future plans for EV charging, and to work in harmony with any plans for the adjacent parcel. For FY 2026-27, the Library will simply carry the Fund Balance allocation forward.

Description

Replace the South County Bookmobile with a new vehicle. The vehicle is a fully mobile mini-branch library with a collection, technology, and connectivity. It serves communities without a branch library, and can be used in emergencies as a mobile hot spot, and an outreach vehicle. The South County area includes widespread and remote geography, with limited EV charging opportunities and long distances, so entirely EV is not an option at this time.

Justification

The current vehicle is nearing the end of its useful life. In addition, as with the replacement of the North Bookmobile, we can extend the mobility and technology with solar panels and batteries, removing the need for a stand-alone generator or requirement to shoreline to a facility for an extended stop. Proposal is to fund from Library Fund Balance, as no open grants or funding opportunities have emerged at this time.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Complete an RFP for a vehicle, select a vendor, pay deposit requirement, start build process.

Description

Rehabilitate and restripe the parking lot of the Greenfield Library to add ADA compliance and EV parking (see project 4075). Plan is completed by an ADA consultant, and this project would be funded from Library Fund Balance for the ADA and rehabilitation portions, the EV parking funded from Project 4075. Simultaneously, replace the fence between the County property and the adjacent City parcel housing the Tom Rogers Museum, and sign the parking lot for parking enforcement.

Justification

The public library serves a variety of patrons, including those with disabilities. The lot is not in ADA compliant condition. The lot is also worn and the pavement needs rehabilitation. The simultaneous project to bring EV charging to the Greenfield branch library parking lot will also require work and restriping, so doing these simultaneously for efficiency and less disruption to the public is the goal.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Project went through updated cost estimate in December 2025 with expanded scope and changes in the EV charger situation from initial plans. The expanded scope includes replacing the fence and the sign as a part of the overall contract and simultaneously, vs. separately and after the parking lot is complete. Library will request additional funds appropriation from Library Fund Balance in January, to either complete or fully encumber and contract for the project by July 2026.

Description

Interior renovation project consisting of carpet, public restroom remodel, repainting. Carpet goes up the walls and service desk at points so may also involve wall covering replacement. Painting will involve removing and replacing interior art and custom murals attached to the walls. Restroom includes two public restrooms - replacement of tile floor, all fixtures, ADA compliance, Initial assessment will also include examining HVAC needs for air and odors.

Justification

Carpet overall is aging, has stains that cannot be removed. The public restrooms have only been marginally renovated over the 30+ years of building use, to achieve ADA compliance the stalls were removed. Fans and odors require examination.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

This initial funding from Library Fund Balance will cover scoping and estimating to better accomplish a realistic project scope and cost.

Description

Demolish and replace built in service desk at the Buena Vista Library. Service desk is original to the building, over 30 years old. Not ergonomic for use of technology. Built on a curve so inefficient for storage. Goal is to get updated modular furniture that sits on top of carpet. Project will involve recarpeting the entire library as well.

Justification

The desk was original to the building, constructed on a curve so not efficient for storage, and not ergonomic for use of computers or other technology.

Description

Demolition of the Old Hospital on the NMC campus.

Justification

The old hospital was to be demolished during the construction of the new facility. Unfortunately, SB 1953 went into effect during construction, and many costly seismic retrofits needed to be implemented. As a result, the demolition of the old hospital was value engineered out of the construction of the new NMC facility.

Description

Purchase software and tools to monitor and keep secure data and systems at Natividad Medical Center. Required to meet HIPAA Compliance and Healthcare standards.

Justification

Ongoing investment in Information Security is needed to maintain our level of system and data protection, and to keep technology up-to-date to address new emerging threats. This is a HIPAA mandated compliance requirement and allows us to exercise healthcare best practice standards. Not investing in information security is not an option. NMC must comply with HIPAA laws or we risk fines and exclusion from the Meaningful Use Program. The project improves any potential impacts to system availability related to unmanaged IT, which results in potential impacts to the delivery of patient care, our financial sustainability, and the hospitals reputation.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Depending on tools purchased, additional support and maintenance may be needed. Costs for the maintenance would be included in the purchase or part of Natividad's Operational Expense Budget. Natividad projects are managed separately and are not scored with other department projects. Natividad capital projects are included as informational only.

Description

Fire Alarm Command Center Bld. 400

Justification

Fire Alarm will need to be replaced in near future. It was identified on Kitchell report as well as inherent problems we are starting to see with a 20 year old system: Electronic glitches that trigger an alarm but can't find record of why, devices becoming harder to find so when a duct detector fails it is sometime weeks before another one can be located.

Description

This project will refresh (new floor, paint, and new restrooms to meet current code) the existing SEA conference room located in Building 600.

Justification

The SEA conference room is the hospital's old cafeteria and the largest conference room at the hospital. The space still resembles a cafeteria, and NMC desires to improve the space. The adjacent bathrooms will also need to be redone and brought up to current building code.

Fire Alarm Replacement Campus Wide

Justification

Fire Alarm will need to be replaced in near future. It was identified on Kitchell report as at end-of-life and inherent problems were starting to see with a 20 year old system: Electronic glitches that will trigger an alarm, but can't find record of why, devices are becoming harder to find so when a duct detector fails, it is sometime weeks before another one can be located.

Description

The project is located at Building 800 on Natividad Medical Center's campus. The current building was used at a central Plant and Laundry facilities for the old Monterey County Hospital, which has since been decommissioned. The project is budget over two fiscal years (FY) $4,000,000 for FY 21-22 and $2,800,000 for FY 22-23.

Justification

The scope of the project consists of demolition of the existing building and construction of a new single story pre-engineered metal building of approximately 15,400 square feet (SF). Approximately 11,000 SF would be utilized for storage items and 4,400 SF would be used for office area. A feasibility study has been received and it is estimated that the project would cost $6,800,000 in which $800,000 would be used for demolition of the old building.

Description

Replacement workstation on wheels (WOWs) devices used for patient documentation and telemedicine programs at Natividad. WOWs are critical for the documentation and providing system information to the clinical staff. Many of the WOWs are end-of-life or do not exist, so these need replacement across the hospital.

Justification

Current version of Workstation on Wheels (WOWs) are outdated and no longer supported by vendor. WOWs are required for patient documentation and patient medical record access in patient care areas. They streamline the workflow processes at Natividad, maintain compliance with mandates for electronic health record-keeping, promote more time for patient engagement, reduce the spread of bacterial infection, and provide optimal utilization of hospital infrastructure. WOWs have also support telemedicine programs implemented for COVID.

Description

Senate Bill (SB) 1953 amends the Alfred E. Alquist Seismic Safety Act to ensure that hospital buildings can withstand and continue to operate after earthquakes. SB 1953 introduces Structural and Nonstructural Performance Categories (SPC and NPC) for hospital facilities, requiring both new and existing facilities to meet certain seismic performance ratings. By January 1, 2030, all acute care buildings on a hospital campus must achieve SPC 3, 4, or 5 and NPC 4, 4D, or 5 to continue providing acute care services. Facilities failing to meet these standards by the 2030 deadline will not be allowed to offer acute care services.

Justification

Implementing Senate Bill (SB) 1953 is crucial for public safety, as it ensures that hospital buildings can withstand and remain operational after seismic events. Hospitals are vital during disasters, providing essential medical services and emergency care. By enforcing strict seismic performance standards for both structural and nonstructural components, SB 1953 aims to prevent building collapses, reduce casualties, and maintain healthcare services during and after an earthquake. The 2030 deadline compels hospital facilities to prioritize seismic safety and invest in necessary upgrades, ultimately safeguarding patients, staff, and the community.

Description

NMC is seeking funding to construct a modular building to expand the Emergency Department (ED). This new modular building will help alleviate the current pressure on the ED, which often experiences overload due to high patient volumes. The additional space will enable the hospital to provide timely and efficient care to patients during peak times, improving overall patient experience and outcomes.

Justification

Expanding the Emergency Department is essential to address the increasing demand for emergency medical services. The current ED is often overwhelmed, leading to longer wait times and potential delays in critical care. By constructing a modular building, we can swiftly expand our capacity to accommodate more patients, ensuring timely and high-quality emergency care. This investment will not only enhance patient safety and satisfaction but also support the community's growing healthcare needs.

Description

This project summarizes facility repair and maintenance tasks identified in the 2015 Kitchell Facility Assessment. The bathroom tiles/fixtures and facility VCT flooring needs to be replaced. Toilet partitions and sink areas have excessive rust. Restrooms tile walls and tile flooring are damaged/ deteriorating. The sinks, urinal, and toilets are constantly in need of service and are unsightly/unclean. The building is a two-story structure consisting of approximately 22,565 square feet. Originally built around 1971, the building is used by the Probation Department for Juvenile Court and Juvenile Services. The building is located adjacent to the County Juvenile Hall. Costs are taken from the 2015 assessment and escalated for FY 25/26 using the DGS California Construction Cost Index CCCI.

Justification

To maintain hygienic conditions and upgrade existing County-owned facilities to comply with any updated Federal ADA guidelines and to reduce maintenance and utility costs. The number of incidents requiring toilet, drainage and sink repairs has increased significantly, along with consistent complaints from County staff, Superior Court personnel and the public on the need for improvement. The public and staff restrooms in the building are unsightly and below standards and continue to deteriorate. The public restrooms on the first floor are constantly in need of service and members of the public have to use the employee restrooms.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Use funding to refine scope, develop construction documents for ADA compliance/requirements for all 7 existing bathrooms, perform hazmat survey, obtain building permit and construction JOC proposal and perform repairs as funding allows.

The tenant improvements would also allow for reconfiguration of space use to meet best practices for operations and separation of various youth populations at the facility. The project will bring the Youth Center into compliance with the current fire life safety code.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Complete programming level design and cost estimate. Future CIP years will request funding for full design drawings and construction.

Description

Project consists of the design, permitting and construction restoration activity at 29A (Clinica) & 29B Bishop (Ag Commissioner) & 29 Bishop (Pajaro Mansion and Library & Tower) following damage from the March 2023 storm and flooding. Restoration work includes replacement of impacted heating ventilation and air conditioning (HVAC) systems at the Clinica & Ag Commissioner as well as replacement of damaged HVAC system, Fire Panel, windows, siding, roofing , porch and interior finishes at Pajaro Mansion Library & Tower. The implementation of repairs at the Library will require scaffolding and tarping of building during construction activities as well as careful monitoring of construction activity in accordance with Historical Resources Review Board (HRRB) and Secretary of Interior Standards for restoration of Historical facilities. This restoration work is a separate project from Project L-1602/4072 for improvements to the building and public access to second and third floors of the Mansion.

Justification

The recent storms and flood event in Pajaro caused an unprecedented level of driving rain, flood water, mud and silt around the campus and to enter the basement of buildings 29A&B Bishop (Clinica and Ag Commissioner building) and at 29 Bishop (Pajaro Mansion and Library and water tower). The PWFP team worked in collaboration with the Insurance agency to hire environmental consultants, architects, mechanical, electrical and plumbing engineers to assess the damage and develop a plan for debris cleanup, remediation, and restoration. The restoration scope of work is in accordance with approved building permit, plans and specifications and Historical Resources Review Board (HRRB) and Secretary of Interior Standards for Historical facilities.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Debris removal, remediation, design and permitting and bidding is complete. HVAC equipment has been ordered in anticipation of long lead times for receiving equipment. A Contractor has been selected, and a construction proposal has been received and vetted through the Job Order Contract program. After a full review of storm damage and completing design, permitting and recent construction bidding, the total project cost is $7,146,650. Project 723218 was initially allocated $3,200,000 in strategic reserves. An additional $3,155,412 in AB-102 grant funding is recommended to be allocated to the project leaving funding shortfall of $791,238 for the Emergency Repair Project 723218. Staff is proceeding with implementing selected scope items at the Mansion and Tower that can be funded with remaining strategic reserve appropriation and added AB102 Grant funding. To date, the project has received $917,700 insurance reimbursements and staff is waiting for final determination of additional reimbursements from the insurance company.

Description

Install replacement generators at 1441 and 1488 Schilling Place. Existing generators have exceeded their useful life and are non-operable due to current air quality regulations. This project will purchase and install new generators which meet California Air Quality Control Board requirements.

Justification

County departments rely on backup generator power to ensure public services are maintained in the event of a disaster or power outage. This critical equipment currently serves 10 different departments/units at the Schilling Campus.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Generators have very long lead times. Goal is to purchase and install generators by June 30, 2025. Due to the emergency need to keep the Schilling Campus operational, PWFP used Unscheduled Maintenance funds to cash flow temporary generator rentals. At the time of mid-February, PWFP staff is preparing a Board Report to reimburse Unscheduled Maintenance.

Description

This project covers a range of HVAC repairs and improvements based on a 2023 HVAC System Assessment. Work is prioritized as high (Category 1a, 1b, 1c…) through Low (Category 5a, 5b, 5c…). Ranking is based on the condition of equipment, potential for labor and energy savings, improved comfort, and impact on the unexpected failure of a device on the building comfort. Funding request for FY 2024/25 would cover all work designated Category 1 New VAV box retrofits and converted to electronic to eliminate the pneumatic system completely. Other work is divided out across fiscal years. Project costs are divided 50/50 with State Courts.

Justification

HVAC repairs and replacement is critical to maintaining public safety and legal services, including Sheriffs Office and State Courts.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Categories ranked by priority could not be broken up, Engineer designed a cost-effective solution to retrofit majority of the system from original design to a more efficient system (constant volume double duct mixing boxes to variable air volume, new fan motors, and upgrading digital controls). Requesting mid year augmentation 3/2025 to implement completed design. Due to work affecting facility operations (abatement and testing required would shut down HVAC) only limited scope involving the penthouse mechanical VFD, Exhaust Fans, and Supply Fans, and related controls is being executed. VAV box work will be on hold until after the Courts move out of building.

Description

This project implements various repair and improvement projects in County Parks, including repairs to the Toro Park Buckeye BBQ structure, bathroom roof replacement at Jacks Park, and campsite improvements and removal of unusable modular units at Lake San Antonio and Lake Nacimiento. Proposition 68 authorized $4 billion in general obligation bonds to finance drought, water, parks, climate, coastal protection, and outdoor access for all programs. The Per Capita Grant is a non-competitive funding grant in which the County has been allocated $631,430.

Justification

The unique funding guidelines for the Per Capita program allow the County to use this funding for improvements and repairs that are otherwise ineligible for competitive grants.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Project is 90% complete. Lake San Antonio work will continue into FY 26/27.

Description

This project is to develop a Countywide Parks Master Plan for the day use parks and Lake San Antonio (Laguna Seca Recreation Area and Lake Nacimiento Resort will be separate Master Plans). This funding will be used to hire a consultant to complete a number of tasks needed to develop a comprehensive plan for operations, maintenance and park use. The Parks Master Plan will establish a long-range vision for the County Parks, which will help prioritize future park system improvements and services based on constituent needs and funding opportunities. The Parks Master Plan will provided the basis for future actions and will be a strong resource to support development of competitive applications for grant funding opportunities. Without a Parks Master Plan, the County will not have a community-based roadmap to guide future operational and capital planning decisions to best manage and guide the County Parks system.

Justification

On July 28, 2020, the Board of Supervisors accepted a report and recommendations prepared by Citygate Associates to evaluate the former Resources Management Agency. One of the Citygate recommendations was to accelerate the completion of a Parks Master Plan. The adopted FY2021-22 budget include approval of a new position in the Public Works, Facilities & Parks (PWFP) Department to work on this effort and other related projects (e.g. facility condition assessments). However, the development of a master plan for County parks will require substantial effort to assess the condition existing parks facilities, conduct an inclusive public parks needs assessment, analyze service and staffing levels, identify funding streams and develop an implementation plan. PWFP requested master plan funds during the FY 2023 budget process but funding was not allocated. In addition, on September 14, 2021, the Board of Supervisors approved numerous Prop 68 projects to move forward in the application process. During the discussions, it was stated by multiple Supervisors that they desired a Parks Master Plan, specifically for Toro Park and the County-owned former Fort Ord open space parcels.

Description

The Project is to extend the service life of Elkhorn Road, a County-maintained road, from Hall Road to Kirby Road, near the community of Las Lomas. Project will rehabilitate the roadway pavement utilizing pavement reconstruction recycling techniques, and place hot-mix-asphalt. When complete, Elkhorn Road will continue to provide transportation mobility for the residents, businesses, and visitors of Monterey County. The project is Categorically Exempt under CEQA as the project is to rehabilitate/maintain an existing public highway/roadway. The project is fully funded by Measure X and SB 1, and was identified as a pavement project during the Measure X campaign. Maintenance on the facility will be minimal since the roadway will be newly rehabilitated. As the pavement facility ages, routine maintenance will be required as normally performed by Public Works Maintenance forces. Previously listed as PW 2019-06.

Justification

Proposed project will extend the pavement life of the roadway so that it will continue to provide transportation mobility for the residents, businesses, and visitors of Monterey County.

Description

Project to implement traffic calming/road diet on Porter Dr and Salinas Rd, in Pajaro. The Transportation Agency of Monterey County (TAMC) in partnership with the County of Monterey and California Department of Transportation (Caltrans) conducted a study of the G12 Corridor, extending from Pajaro to Prunedale, to identify improvements that will provide safer access to all modes of travel. The Corridor Study evaluated current and future travel patterns between the US101/ San Miguel Canyon Road Interchange in Prunedale, to the State Route 1 (SR1) / Salinas Road Interchange, to the end of Main Street in Pajaro. This project is for the Project Area 6 on the northern end of the G-12 corridor in Pajaro, approximately 1.6 miles long. The proposed improvements include: Implement a Road Diet on Salinas Road, Reduce from 4 lanes to 2 lanes, Install a Buffered Bike Lane (8' Class II Bike Lane with 6' Buffer); South of the Railroad Crossing, install a raised median on Salinas Road and an overhead arch sign with "Welcome to Pajaro," to provide entry features and an improved transition into Pajaro; Install 5' Class II Bike Lanes and 3' Buffer where feasible within Pajaro; Construct 5' Sidewalk where needed to fill in gaps in the pedestrian network, between Railroad Avenue and San Juan Road; Install Rectangular Rapid Flashing Beacons (RRFB) at existing mid-block crossing south of Bishop Street (in current County plans); Reconfigure the parking north of Bishop Street on the west side of G12 (Salinas Road) to be off-street, Adjacent to roadway, construct curb, gutter, 5' minimum sidewalk with 3' landscaped buffer, Provide diagonal front-end parking, Provide a 13' one-way Aisle for parking maneuvers, entry and exit, Provide a 5' minimum buffer adjacent to the building face, Provide entrance on Salinas Road, and exit on Bishop Street; Convert Salinas Road east leg approach at Porter Drive to be right turn only (outbound); Reconfigure the southbound approach of Porter Drive/Main Street at San Juan Road to include: 1 Right Turn Pocket, 1 Thru Lane, 2 Left Turn Lanes (1 trap left turn lane and 1 left turn pocket), 1 Receiving Lane southbound

Justification

The goal of the Pajaro to Prunedale Corridor Study Project is to facilitate critical multimodal transportation improvements that will reduce congestion, improve safety and operations, support the regional economy, and protect the North Monterey County environment.

In partnership with the Monterey County Health Department (MCHD), Monterey County Department of Public Works, Facilities & Parks (PWFP) proposes to add a mile of sidewalk and improve curb, gutter, ADA ramps and bulb outs along key destination routes to home, school, work, and critical goods, and services. This project will connect sidewalks in at least 24 locations, construct 15 curb and gutters, and improve 36 ADA ramps. In addition, Class III Bike Lanes will be added to Seymour Street, Union Street and Mead Street connecting to key destinations, and bicycle facilities. The proposed project includes both infrastructure and non-infrastructure components designed to increase walking opportunities in the Castroville community, promote multimodal transportation, enhance safety and mobility of on-motorized users, and enhance public health.

Description

The Project is to extend the service life of Jolon Road, a County maintained road, from the southern US-101 interchange to 5.7 miles north of Mission Road, near the community of Lockwood, approximately 27 miles in length. Project will rehabilitate the roadway pavement by performing localized pavement repairs and resurfacing the road with hot-mix-asphalt. When complete, Jolon Road will continue to provide transportation mobility for the residents, businesses and visitors of Monterey County. The project is Categorically Exempt under CEQA as the project is to rehabilitate/maintain an existing public highway/roadway. The preliminary engineering/planning phase of the project is fully funded by Measure X, as it was identified as a pavement project during the Measure X campaign. Due to the length of the project, PWPF is pursing the Defense Community Infrastructure Program grant to the fund the construction phase of the project. Maintenance on the facility will be minimal since the roadway will be newly constructed. As the pavement facility ages, routine maintenance will be required as normally performed by Public Works Maintenance.

Justification

Proposed project will extend the pavement life of the roadway and continue to provide transportation mobility for the residents, businesses and visitors of County of Monterey.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Commence preliminary engineering/design in FY26.

Description

Replacement of the existing Nacimiento Lake Drive Bridge over San Antonio River with a new 34-foot wide and 297-foot-long bridge.

Justification

The existing one-lane bridge (17 feet wide and 292 feet long) constructed in 1921 does not meet current design/seismic standards. The existing bridge is functionally and structurally deficient. Not constructing the project will leave a functionally obsolete and structurally deficient bridge in place.

Description

Replacement of an existing two-lane, low-level bridge with a high-level, four-lane bridge, approximately 74-feet wide and 1,700-feet long with 8-foot shoulders. Widen Davis Road to four lanes from Blanco and Reservation roads.

Justification

The scope consists of construction of an all-weather crossing, which will accommodate high flow levels of the Salinas River and widen Davis Road as described in the Regional Transportation Plan (RTP). The existing bridge, originally built in 1949, typically closes during higher flow periods of the Salinas River. The duration of the closure depends on amount of yearly rainfall and could last for weeks. Davis Road is an existing two-lane facility. To meet regional travel demands projected in the area, TAMC has designated this section of Davis Road part of the Multimodal Corridor.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Project is in the Final Design and Right-of-Way phases. Continue to complete easement purchases and obtain the project's regulatory permits. Work is partially funded in FY 24.

Description

Project involves placement of scour countermeasures to protect two exposed bridge pier footings. The countermeasures consist of placing rock slope protection (RSP also known as riprap), sheet pile, or other scour-control measures to reduce scour and undermining of structure footing. The footprint of the RSP, sheet pile, or other scour-control measures will extend no farther than 100 feet from each bridge face.

Justification

The bridge has been evaluated by Caltrans Structural engineers and determined to be scour critical. The Caltrans Bridge Maintenance Bridge Inspection Report recommended the County "implement properly engineered scour countermeasures to protect the piers from scour." The project will prevent further undermining of piers/pile caps. Not constructing the project will leave the bridge at potential risk from scouring by the Carmel River.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

As of November 2024, construction substantially complete, except for post-construction environmental mitigation activities.

Description

The existing Gonzales River Road Bridge will be replaced with a new bridge approximately 44-feet wide and 1,661-feet long and will be elevated to provide for adequate clearance during high-flow storm events. Just the design and environmental documentation for the project is listed, the right-of-way and construction costs will be estimated and budgeted at future date.

Description

This is an annual program to perform to perform traffic striping maintenance work, mainly funded by Measure X and/or SB 1. In years past, County Road Maintenance deployed a maintenance striping program consisting of an application for paint striping to multiple County roads, performed per Caltrans Standards. The County's striper truck is no longer operational which impacted the striping project in fiscal year 19/20. To continue the striping program next year, restriping of County roads is proposed to be performed by a striping contractor, while the County purchases a new striper truck to initiate this previous routine program. Note that this program does not include the thermoplastic striping. This is for the paint striping, which is the majority of County roads that are centerline-striped.

Justification

Essential traffic safety program throughout the County.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Stripe various County roads. This is an Annual Program.

Funding Status	Active	**Project Phase**	Design/Planning
Useful Life	50 Years	**Fund**	TBD

Description

The Chualar Canyon Road Bridges project would replace the existing Chualar Canyon Road Bridges Co. No. 302, Co. No. 303, Co. No. 304, and Co. No. 305 as recommended by the Chualar Bridges Planning Memorandum conducted by Moffatt & Nichol engineering consultant under contract with Monterey County PWFP. Previously tracked as Project 500302.

Justification

The Chualar Canyon Road Bridges Co. No. 302, Co. No. 303, Co. No. 304, and Co. No. 305 were inspected by Moffatt & Nichol. The load ratings of the four bridges were also conducted to determine the load capacity of each bridge. The inspection identified deteriorating and "soft" concrete abutments and insufficient structural capacity under legal loads due to limited superstructure capacity and substructure deterioration. The bridge superstructure capacities do not meet current legal load requirements for all four bridges. Presently emergency vehicle access is restricted due to the below legal capacity of the four bridges.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Preliminary design, type selection and environmental studies are essentially complete. Received proposal from designer (Moffatt & Nichol) for final design services. Awaiting funding to proceed with these services.

Description

The local roads rehabilitation program is a 10-year pilot program that functions on a 'pay as you go' (PAYGo) basis. The primary dedicated funding source is the Road Fund's share of the County Transient Occupancy Tax (TOT), currently approximately $10 million per year that is allocated to mandated roads maintenance work. TOT funding is supplemented by approximately $1.4 million in Measure X funding for smaller communities. TOT funding is allocated into individual program components in the following approximate proportions: $2.0 million – Annual Seal Coat Program (Project 5522); $1.0 million – Maintenance crew needs; County Road Maintenance Program (CRMP, Project 5101) - $1.5 million to address smaller road maintenance items in Supervisorial Districts that are outside of budgeted/planned activities, which do not rise to the level of a capital project; $5.5 million - Other planned projects in the Local Road Rehabilitation Program. The Seal Coat Program provides vital maintenance for the longevity of roads throughout the County. Generally, the PWFP Pavement Management Program keeps the majority of wear-damaged roads usable by employing light maintenance, such as slurry seal, chip seal or thin overlay processes. At the same time, a small amount of road segments are overhauled using large dig-outs or total section reconstruction because maintenance has been neglected for too long. The latter is a more expensive proposition per linear length of road. The balance of regular light maintenance routine and gradual reconstruction of road segments prolongs the replacement of good to moderately worn roads at a lower overall cost.

Justification

This 10-year program is funded primarily with TOT funds to improve local roads. By utilizing TOT funding, this program allows other funds, such as Measure X and SB1, to be dedicated to major maintenance and road improvement projects consistent with what was originally envisioned and approved by voters in 2016 and 2017 (i.e., for improvements to higher-volume County roads that strengthen the economic backbone of the region).

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Annual local roads projects are determined by PWFP - Roads and Bridges staff based on highest need consistent with the priorities set by the Local Roads Rehabilitation Program policy. Work planned for FY 26/27 includes road segments in Spreckels, San Ardo, and Carmel Valley Village.

Description

The Project is to extend the service life of San Benancio Road, a County maintained road, from State Route 68 to 1.3 miles south of Harper Canyon Road, near the city of Salinas. Project will rehabilitate the roadway pavement utilizing pavement reconstruction recycling techniques and/or place hot-mix-asphalt concrete. When complete, San Benancio Road will continue to provide transportation mobility for the residents, businesses and visitors of Monterey County. The project is Categorically Exempt under CEQA as the project is to rehabilitate/maintain an existing public highway/roadway. Maintenance on the facility will be minimal since the roadway will be newly constructed. As the pavement facility ages, routine maintenance will be required as normally performed by Public Works Maintenance. Recommended for Measure AA funding.

Justification

Proposed project will extend the pavement life of the roadway and continue to provide transportation mobility for the residents, businesses and visitors of Monterey County.

Description

This project is part of the Local Road Rehabilitation Program. Throughout the year, Supervisorial Districts request services to address smaller road maintenance items that are outside of the budgeted/planned activities, and do not rise to the level of a capital project. The County Road Maintenance Program (CRMP) intends to allocate a specific amount of Measure X funding for Supervisorial Districts to prioritize and address road maintenance services in their areas.

Justification

Monterey County PWFP preserves the product-to-market infrastructure for the County's transportation needs, and addresses issues in the right-of-way.

Description

State mandate requires the County to comply with the Federal Clean Water Act - Stormwater National Pollution Discharge Elimination System (NPDES) permits. The permit requires a Stormwater Pollution Prevention Plan (SWPPP) which includes: 1. perform scheduled sweeping efforts for all urban areas with curb and gutters; 2. stenciling of drain inlets; 3. monitoring of storm drain outfall; 4. code enforcement of private construction to conform with area SWPPP; 5. inspection of industrial and commercial sites for conformance of on-site SWPPP; 6. provide public education especially for industries and commercial establishments; 7. detection of illicit discharge and elimination; 8. provide staff training for NPDES stormwater inspection; and other permit requirements. Funding under this Capital Project will meet a portion of the permit requirements by performing streetsweeping at various locations throughout the County.

Justification

One way to control roadway runoff is to use streetsweeping to remove pollutants before they are transported in stormwater runoff. Urban runoff or stormwater, is the largest source of water pollution in California. Urban runoff carries toxics, oil, grease, bacteria, viruses, and other pollutants and dumps them, untreated, into local waterways.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Complete scheduled street sweeping. This is an Annual Program.

Description

The 2017 Winter Storms caused severe storm damage to different locations along Palo Colorado Road, near Big Sur. Approximately 3.5 miles of roadway experienced "slip out" failure. This project will rebuild the road by importing suitable fill, installing soil nail walls (or other soil retaining method), and improving stormwater drainage. This is a FEMA eligible reimbursement project.

Justification

FEMA reimbursable project from the 2017 Winter Storms.

Description

Viejo Road is a two-way, non-striped paved asphalt road used by residents and emergency vehicles. The proposed project will repair the roadway to pre-storm conditions. The project consists of pavement and slope repair. Included in FY18/19 CIP as 2017 Storm Damage project MTMOC88. Also tracked in previous years as Project PW 2020-13.

Justification

Torrential rainfall came down the upslope and overwhelmed the culvert, used to carry water under the road and out to the downslope side. Rainwater then poured over the low spot on the road, over the edge onto the culvert below. This enormous amount of flooding eroded under the support of the culvert, causing it to break. The water rose, filling the downslope valley and began swirling, eroding away a section of embankment.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Commence construction phase of the project.

Description

This project is expected to result in an 8-mile-long sewer line and pump stations to connect wastewater from Chualar to the City of Salinas sewer system for treatment at the Monterey One regional treatment plant. The State Water Quality Control Board has provided $2.5 million in funding to analyze options for treating Chualar's wastewater and eliminating the oxidation ponds along the Salinas River which were overwhelmed by flooding in 2023.

Justification

Eliminate the risk of ground and surface water contamination in the event of severe flooding as well as contaminant infiltration.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Complete a preliminary project report and preliminary project design with funding provided by the State Water Board in a $2.5 million planning grant. Construction funding of approximately $25 million is expected to be awarded by the State Water Board after a preferred project has been identified.

Description

The goal of this project is to address existing wastewater system deficiencies to minimize negative impacts of severe winter storms, including potential failures of the aging lift station and to add resiliency to the community sewer collection system.

Justification

Repairs and improvements are necessary to improve the wastewater infrastructure system capacity and resilience, to reduce long-term risks in future disasters, and to provide reliable service to the residents of Pajaro County Sanitation District. Specifically, this grant will fund gravity sewer repairs in Las Lomas, and the pump station that serves all of PCSD (Bay Farms, Las Lomas, and Pajaro). GRANT AMOUNT: $4,075,000: This USDA Grant will permit the County to make critically needed near-term improvements, which must be completed within 3 years.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Finalize funding agreement with USDA and retain design consultant under USDA guidelines. Begin project design and environmental permitting for construction which is expected to begin FY 2027/28.

Description

This project designates a portion of the County's anticipated American Rescue Plan Act (ARPA) funding to water and sewer system improvement projects in the County's County Service Areas and County Sanitation Districts. Project funds must be encumbered by December 31, 2024 and expended by December 31, 2026.

Justification

Many of the CSA/CSD water and sewer systems are very old and in urgent need of replacement. Setting aside ARPA funding for water and sewer systems would allow the County to provide drinking water and more reliable sanitation systems and facilities for residents.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Continue construction progress. All work is planned to be completed by the program deadlines.

Maintenance on the facility will be minimal since the roadway will be newly constructed. As the pavement facility ages, routine maintenance will be required as normally performed by Public Works Maintenance.

Justification

Proposed project will extend the pavement life of the roadway and continue to provide transportation mobility for the residents, businesses and visitors of Monterey County.

Contact	Enrique Saavedra 755-8970	**Dept. Priority**	TBD

Description

The project objective is for Monterey County to assist San Lucas County Water District (SLCWD) with developing an affordable and reliable long-term drinking water supply. SLCWD is an independent special district serving approximately 325 people through 97 service connections. The current proposal is to install two new wells with wellhead treatment as the first phase of a larger, multi-phased project. A previous proposal to install an 8-mile pipeline between San Lucas and the King City water system was unable to be funded by the State Water Board (2015). Grant funding for this initial phase of the project has been allocated by US EPA ($ 959,000) and the State Water Board's Division of Financial Assistance (DFA, $4 million). Funding for the first phase will be released after a detailed scope of work from Monterey County has been approved by both funding agencies, and an agreement for assistance between SLCWD and Monterey County has been executed. Additional grant funding is needed to complete future phases of the project and construction, currently estimated to be approximately $18 million.

Justification

The San Lucas community has been under two "Do Not Drink" orders since 2011 for two separate wells. Due to San Lucas' remote location and small population, finding a reliable and affordable water supply has been a challenge that Monterey County has been seeking to solve since 2012. For the past several years, the State Water Board has been providing technical assistance under their Safe and Affordable Funding for Equity and Resilience (SAFER) Drinking Water Technical Assistance Program, established in 2021.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Complete a work plan for Monterey County's scope of work under the EPA and State Water Board grants, collaborating with SLCWD, the San Lucas community, and California Water Co, expected operator of the new system. Secure grant funding that has been allocated for Phase 1 of this project and begin preliminary design and environmental permitting for the preferred project alternative. Submit grant application(s) for subsequent construction funding.

Description

Multiple tasks and projects to address BSCC and Hernandez Settlement compliance work, and deferred maintenance throughout the Jail facilities. Key items identified at this time include ADA improvements, adding mesh safety wire to J Pod, improving wayfinding and signage, and rewiring. There are multiple tasks which require scoping and estimating. This first year Phase I will allow staff to address some issues while further developing the complete project needs list.

Justification

The jail facilities requires extensive maintenance and repair due to age and use. Upgrades and changes mandated by Board of State and Community Corrections (BSCC) and resulting from the Hernandez Settlement must be completed by the County to meet legal requirements.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Depending on funding allocated by the Board of Supervisors, a portion of the scope will be developed and implemented. Sheriff identified the infirmary restrooms as a key portion of work to be completed. Other portions of work may be done as funding is available. Further scope and design work will lead to more accurate cost estimates. Work may be completed under the Job order Contracting program.

Description

This approximately 5,520 sq.ft. facility provides housing for Monterey County women and children involved in Domestic violence and homeless situations. The project would address several repair and renovation needs including replacing worn out stovetop burners and kitchen sinks/cabinetry, and upgrading cold storage with two additional commercial refrigerators for clients of the shelter to store food (estimated $353,500). Other work includes: Electrical panel upgrades; water heater and furnace replacement; fire alarm upgrades; upgrade restroom partition stalls, sinks, showers, and water damage repair; replace old cracked flooring throughout building; repair/upgrade HVAC system; seal and repaint cracks in stucco; new landscaping in backyard to provide children an outside play area; landscaping; resurface and stripe parking lot. Previously tracked as Project DSS-17-01.

Justification

The families staying in the shelter are required to purchase and prepare meals for their families. The shelter needs to have a commercial grade kitchen due to the number of families using the equipment. This equipment needs to last for some years and be energy efficient. Appliances need upgrading, starting with the stovetop electric burners as some are inoperable. County facilities has worked hard to repair them as much as possible.

Description

This project plans and designs a new multi-service facility at 1281 Broadway for the Department of Social Services (DSS) Community Benefits Branch, with space for additional DSS programs, a library, and community partners. On January 27, 2026, PWFP presented several development options to the Board of Supervisors. Option 4 was the preferred development approach and BOS directed County staff to continue planning for inclusion in the FY 2026–27 Capital Improvement Program. The project will involve the collaboration with the City of Seaside and ensure the project aligns with local standards and downtown goals, including parking strategies. PWFP and CAO staff were also directed to explore funding options to complete the project within 10 years, plan for DSS's return after its temporary lease, and prepare a reuse or disposition plan for the existing facility. During FY 2025–26 and FY 2026–27, PWFP will advance planning and design of the project to be consistent with Option 4, while PWFP and CAO will work jointly to refine the funding approach for the Project. Option 3 remains a contingency option should Option 4 prove to be infeasible for a variety of reasons.

Justification

The current building needs a new roof, elevator upgrade, exterior painting, interior painting, parking lot upgrade, exterior lighting, interior lighting, and electrical upgrades. In FY24, through the CIP process, the project was allocated funding to proceed with the design and permitting of a multi-service facility to include DSS program, Library, District Attorney, other community programs and parking structure. Design for this concept is 75% complete. In October of 2024, staff provided a status report on the project design and estimated project cost. In November of 2024, the CAO's budget office presented funding options for Priority County projects including the 1281 Broadway Community Benefits Replacement Program. During this meeting, the project was not prioritized for funding and staff were directed to review alternate lower cost design options focused on either renovating the existing facility or construction of a smaller scale new facility focused on DSS programming needs.

Project Status and Goals/Tasks to be Completed in the 1st Year of the CIP:

Options will be presented to the Board in Summer 2025 and remaining design funding may be redirected to new design option. FY26 goal is completion of Design and Engineering and cost estimating based on final design option, allowing for DSS to seek construction funding during the standard CIP cycle for FY27.

RECOMMENDATION:
It is recommended that the Board of Supervisors adopt a resolution:
a. Authorizing the Auditor-Controller to amend the Fiscal Year 2025-26 Adopted Budget to increase revenues and appropriations by $2,982,347 for General Fund 001, Facility Services Appropriation Unit PFP054, to reappropriate unspent AB-102 grant revenues (BSA 001-2720-WSFR) from the prior fiscal year for the 29 Bishop Pajaro Mansion Emergency Repair Project (4/5ths vote required);
b. Authorizing the reallocation of any remaining AB-102 funds previously allocated to the Safe Streets and Department of Emergency Management Preparedness Projects to the 29 Bishop Pajaro Mansion Emergency Repair Project (4/5ths vote required); and
c. Authorizing the Auditor-Controller to amend the Fiscal Year 2025-26 Adopted Budget to increase revenues and appropriations by up to $60,842 for General Fund 001, Facility Services Appropriation Unit PFP054, related to the reallocation of AB-102 grant revenues (BSA 001-2720-WSFR) for the 29 Bishop Pajaro Mansion Emergency Repair Project (4/5ths vote required).

SUMMARY:
Approval of the recommended budget amendment will: (1) reappropriate the remaining AB-102 grant funding for the 29 Bishop Pajaro Mansion Emergency Repair Project in FY 2025-26; and (2) reallocate any remaining AB-102 funds previously allocated to the Safe Streets and Department of Emergency Management Preparedness Projects to support continued emergency repairs at the historic facility following damage caused by the March 2023 Pajaro Flood.

DISCUSSION:
On April 15, 2025, the Board of Supervisors approved the reallocation of $3,155,412 in AB-102 grant funding to support the 29 Bishop Pajaro Mansion Emergency Repair Project. An additional $50,000 was subsequently allocated by the Department of Emergency Management (DEM), bringing the total AB-102 funding available for the project to $3,205,412.

The project addresses damage resulting from the March 2023 Pajaro Flood and includes replacement of damaged roofing, siding, and windows; repair and relocation of mechanical equipment and fire systems; repairs to the front porch; and related remediation and site improvements necessary to restore and protect the historic facility.

During FY 2024-25, $223,065 of the AB-102 funding was expended for project activities, leaving an unspent balance of $2,982,347. Approval of the recommended budget amendment will recognize the remaining grant revenue and increase appropriations in FY 2025-26 to allow Public Works, Facilities and Parks to continue implementation of the emergency repair project.

In addition, staff is requesting authorization to reallocate any remaining AB-102 funding previously allocated to the Safe Streets and Department of Emergency Management Preparedness Projects to the 29 Bishop Pajaro Mansion Emergency Repair Project.

The Safe Streets Project was originally allocated $2,000,000 of AB 102 funds. To date, $1,983,093 has been expended, leaving a remaining balance of $16,907 available for reallocation. The project focused on improving vehicle and pedestrian safety throughout the Pajaro community and included ADA-compliant sidewalk and crosswalk enhancements, installation of additional street lighting, upgraded roadway signage, roadway striping along San Juan Road, and traffic signal equipment and operational improvements at the intersections of Porter Drive and San Juan Road, as well as Salinas Road adjacent to Pajaro Middle School.

The Emergency Response, Preparedness, and Digital Message Board projects were originally allocated $900,000 of AB 102 funds and have expended $856,065, leaving a remaining balance of $43,935 available for reallocation.

The Pajaro Park Project was originally allocated $1,200,000 of AB 102 funds. To date, $1,044,189 has been expended on park improvements. In February 2025, the Board directed staff to investigate placing remaining funds in trust for operations and maintenance expenses. Based on grant expenditure goals and the cost of a creating a trust relative to the amount of money remaining, staff determined use of a trust to be infeasible. Additional equipment is currently being purchased for the park to support operations and maintenance. There is anticipated to be a balance remaining after these purchases are complete. Staff will return to the Board to request the reallocation of any remaining funds in FY 2026-27.

Approval of the recommended actions will allow any remaining balances from Safe Streets and Department of Emergency Management Preparedness Projects, estimated not to exceed $60,842 to be reallocated and appropriated in FY 2025-26 for the emergency repairs at the 29 Bishop Pajaro

Mansion facility.

OTHER AGENCY INVOLVEMENT/COMMITTEE ACTIONS:
PWFP staff conferred with the Department of Emergency Management (DEM) on the reallocation of AB-102 Funds. The County Administrative Office Budget & Analysis Division and DEM reviewed this report.

FINANCING:
The AB-102 grant funds have been received by the County. Approval of this recommendation will increase the revenues and appropriations by $2,982,347 in General Fund, Facility Services to reappropriate unspent AB-102 grant revenues from the prior fiscal year for the 29 Bishop Pajaro Mansion Emergency Repair Project. Approval of the recommended actions will also authorize an additional increase in revenues and appropriations of up to $60,842 related to the reallocation of any remaining AB-102 funding previously allocated to the Safe Streets and Department of Emergency Management Preparedness Projects.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
This recommendation advances the Board's Strategic Plan Goal of Sustainable Infrastructure for the Present and Future by providing funding necessary to continue repairs to the historic Pajaro Mansion following damage from the 2023 Pajaro Flood. Completion of the project will preserve a County-owned facility and protect a valuable community asset for future use.

b. Approve the Performance and Payment Bonds executed and provided by Granite Rock Company;

California Environmental Quality Act (CEQA) Action: The Project has been determined to be categorically exempt (Class 1) because the Project is to perform repair and maintenance of existing streets and similar facilities which involve no expansion of an existing use (See CEQA Guidelines, California Code of Regulations (CCR) Section 15301 Existing Facilities).

RECOMMENDATION:

It is recommended that the Board of Supervisors:
a. Award a contract to Granite Rock Company, the lowest responsible bidder for Carmel Valley Road Resurfacing, Project No. 1185, in the total amount of $4,551,418;
b. Approve the Performance and Payment Bonds executed and provided by Granite Rock Company;
c. Authorize a contingency, not to exceed 10% of the contract amount or $455,142 to provide funding for approved contract change orders;
d. Authorize the Director of Public Works, Facilities and Parks to execute the contract subject to the provisions of the Public Contract Code and Board Policies as applicable, approve change orders to the contract that do not exceed 10% of the original contract amount ($455,142), do not significantly change the scope of work, not to exceed the maximum contract amount of $5,006,560; and
e. Authorize the Director of Public Works, Facilities and Parks to execute a Certificate of Completion and record a Notice of Completion with the County Recorder when the Director determines that the contract is complete in all respects in accordance with the Plans and Special Provisions for the construction of the Carmel Valley Road Resurfacing, Project No. 1185.

SUMMARY:
Awarding the contract to Granite Rock Company will allow the Public Works, Facilities and Parks Department (PWFP) to commence with the construction of the Carmel Valley Road Resurfacing Project (Project).

DISCUSSION:
The Carmel Valley Road Resurfacing Project, in general, consists of overlaying the existing pavement with hot-mix-asphalt from Carmel Rancho Boulevard to Via Petra, approximately 1.5 miles in length. The project is to extend the pavement life of the road.

On April 14, 2026, the Board of Supervisors adopted the Plans and Special Provisions for the Carmel Valley Road Resurfacing, Project No. 1185. The Project was subsequently advertised, and bids were received and opened on May 13, 2026. Six (6) bids were received. The apparent lowest bidder was Precision Grade Inc. in the amount of $4,437,052. However, upon review of their bid, PWFP determined Precision Grade's bid to be non-responsive due to Precision Grade listing two subcontractors for Contract Item No. 17. Listing two subcontractors for this item, each performing 100% violates Public Contract Code section 4104(b). Public Contract Code section 4104(b) states, "The prime contractor shall list only one subcontractor for each portion as is defined by the prime contractor in his or her bid." Moreover, the bidder submitted a bid withdrawal request for their bid. Therefore, PWFP recommends awarding the Project to the second lowest responsible, responsive bidder, Granite Rock Company in the amount of $4,551,418, which is 7.5% under the Engineer's Estimate of $4,921,109. The third lowest bidder was Cato's General Engineering Inc. in the amount of $4,597,286. Construction is expected to begin in July 2026.

On February 27, 2025, in accordance with the California Environmental Quality Act (CEQA), PWFP filed a Notice of Exemption (NOE) for the Project with the County Clerk. On February 23, 2026, PWFP filed an NOE with the State Clearinghouse (SCH), a division of the Governor's Office of Land Use and Climate Innovation (LCI) which coordinates State-level review of environmental documents prepared pursuant to CEQA. The project has been determined to be categorically exempt (Class 1) because the Project is to perform repair and maintenance of existing streets and similar facilities which involve no expansion of an existing use (See CEQA Guidelines, California Code of Regulations [CCR] Section 15301 Existing Facilities).

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel-Risk Management and the Auditor-Controller's Office have reviewed and approved the proposed contract as to form, insurance and indemnification provisions and fiscal provisions, respectively. The Office of the County Counsel concurs with PWFP's determination regarding the bid protest.

FINANCING:
The total estimated Project cost, including engineering, construction management, and construction is $6.5 million. The Project is mainly funded by Measure X, and SB 1.

The construction phase of the Project is estimated to be $5.7 million. The recommended budget for

FY2026-27 Road Fund 002, which will be presented to the Board of Supervisors, will include $5.7 million in appropriations to fund the construction phase of this Project.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The Project will resurface Carmel Valley Road, extending the life of the infrastructure. The recommended action supports the following Board of Supervisors' Strategic Plan Goals:
X Well-Being and Quality of Life
X Sustainable Infrastructure for the Present and Future
__ Safe and Resilient Communities
__ Diverse and Thriving Economy

On February 27, 2025, in accordance with the California Environmental Quality Act (CEQA), PWFP filed a Notice of Exemption (NOE) for the Project with the County Clerk. On February 23, 2026, PWFP filed an NOE with the State Clearinghouse (SCH), a division of the Governor's Office of Land Use and Climate Innovation (LCI) which coordinates State-level review of environmental documents prepared pursuant to CEQA. The project has been determined to be categorically exempt (Class 1) because the Project is to perform repair and maintenance of existing streets and similar facilities which involve no expansion of an existing use (See CEQA Guidelines, California Code of Regulations [CCR] Section 15301 Existing Facilities).

OTHER AGENCY INVOLVEMENT:
The Office of the County Counsel-Risk Management and the Auditor-Controller's Office have reviewed and approved the proposed contract as to form, insurance and indemnification provisions and fiscal provisions, respectively. The Office of the County Counsel concurs with PWFP's determination regarding the bid protest.

FINANCING:
The total estimated Project cost, including engineering, construction management, and construction is $6.5 million. The Project is mainly funded by Measure X, and SB 1.

The construction phase of the Project is estimated to be $5.7 million. The recommended budget for FY2026-27 Road Fund 002, which will be presented to the Board of Supervisors, will include $5.7

million in appropriations to fund the construction phase of this Project.

BOARD OF SUPERVISORS STRATEGIC PLAN GOALS:
The Project will resurface Carmel Valley Road, extending the life of the infrastructure. The recommended action supports the following Board of Supervisors' Strategic Plan Goals:
X Well-Being and Quality of Life
X Sustainable Infrastructure for the Present and Future
__ Safe and Resilient Communities
__ Diverse and Thriving Economy

NOW, THEREFORE, we Granite Rock Company, as Principal, and The Continental Insurance Company as Surety, are held and firmly bound unto the County of Monterey, a political subdivision of the State of California (hereinafter called "County"), in the penal sum of Four Million Five Hundred Fifty-One Thousand Four Hundred Eighteen and 00/100 Dollars ($ 4,551,418.00----------), for the payment of which sum in lawful money of the United States, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT:

If the Principal, as Contractor, or Principal's heirs, executors, administrators, successors, or assigns, (1) shall in all things stand to and abide by and well and truly keep and perform the covenants, conditions, and agreements in said Contract and any alteration thereof made as therein provided, on Principal's part to be kept and performed, at the time and in the manner therein specified and in all respects according to their true intent and meaning, and (2) shall defend, indemnify and save harmless the County, the members of its board of supervisors, and its officers, agents and employees as therein stipulated, then this obligation shall become null and void; otherwise, it shall be and remain in full force and virtue.

Surety hereby stipulates and agrees that no change, extension of time, alteration, or addition to the terms of the Contract or the call for bids, or to the work to be performed thereunder, or the specifications accompanying the same, shall in any way affect its obligation under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of said Contract or the call for bids, or to the work, or to the specifications.

Whenever the Principal, as Contractor, is in default, and is declared in default, under the Contract by the County of Monterey, the County of Monterey having performed its obligation under the Contract, Surety may promptly remedy the default, or shall promptly:

ADDITIONAL INSURED

This endorsement modifies insurance provided under the following:

BUSINESS AUTO LIABILITY COVERAGE PART

Any person or organization you are required by contract to include as an additional insured on this policy is an "insured" but only with respect to liability arising out of the ownership, maintenance or use of an "auto" in the operations incidental to the contract and to the extent set forth below:

(1) The limit of insurance will not be greater than that required by such contract.

(2) The coverage provided to the additional insured will not be greater than that customarily provided by the policy forms specified in and required by the contract.

(3) All insuring agreements, exclusions and conditions of this policy will apply.

(4) In no event shall the coverage or limit of insurance in this coverage form be increased by such contract.

This insurance is excess to any other insurance, whether primary, excess, contingent or on any other basis, available to the additional insured unless a written contract requires that this insurance be primary or primary and non-contributing. However, this insurance is always excess to other insurance, whether primary, excess, contingent or on any other basis, when the additional insured has been added to the other insurance as an additional insured.

Nothing herein contained shall be held to vary, alter, waive or extend any of the terms, conditions, provisions, agreements or limitations of the mentioned Policy, other than as above stated.

This endorsement changes the policy to which it is attached and is effective on the date issued unless otherwise stated.
(The information below is required only when this endorsement is issued subsequent to preparation of the policy.)

ADDITIONAL INSURED – AUTOMATIC STATUS AS REQUIRED BY CONTRACT – BLANKET

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

SCHEDULE

Any person or organization that you are required by written contract to include as an additional insured on this policy if the contract is executed prior to the loss.

A. Section II, Who Is An Insured is amended to include as an additional insured any person or organization shown in the above SCHEDULE (called additional insured), but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" arising out of your premises or your operations for the additional insured, and only to the extent and for the minimum limits required in the written contract.

B. The insurance provided to the additional insured is subject to the following limitations:

1. Unless a written contract specifically requires additional insured coverage for your completed operations, this insurance does not apply to "bodily injury" or "property damage" occurring after "your work" for the additional insured has been completed or after that portion of "your work" out of which the "bodily injury" or "property damage" arises has been put to its intended use by any person or organization, whichever occurs first.

2. Unless broader coverage is specifically required by written contract, this insurance provides additional insured coverage only for liability for "bodily injury", "property damage" or "personal and advertising injury" to the extent caused by the named insured's acts or omissions or the acts or omissions of those acting on the named insured's behalf. If broader coverage is specifically required by written contract, this insurance does not apply to "bodily injury" or "property damage" or "personal and advertising injury" arising out of the sole negligence, act, or omission of the Additional Insured unless additional insured coverage for an Additional Insured's sole negligence, act, or omission is specifically required by written contract.

3. This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" for which the additional insured is obligated to pay damages by reason of the assumption of liability in a contract or agreement except to the extent that the additional insured would have been obligated to pay such damages in the absence of the contract or agreement.

4. This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering or failure to render any professional services by any insured or on any insured's behalf, including:

   a) The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders, drawings or specifications; or
   b) Supervisory, inspection, architectural, or engineering services.

   This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of, or the failure to render, any professional architectural, engineering or surveying services.

5. This endorsement shall not apply to a person or organization if any other additional insured endorsement attached to this policy specifically applies to that person or organization.

6. The insurance afforded herein only applies to the extent permitted by applicable state law, including statutes governing additional insured coverage in the construction industry.

7. The insurance afforded to the additional insured shall not exceed the minimum limits required in the written contract.

C. In no event shall the insurance provided to the additional insured exceed the minimum coverage required by the written contract, including but not limited to minimum limits, minimum scope of coverage, or minimum duration of coverage. If a written contract or agreement requires that additional insured status be provided by the use of specified edition dates of the ISO CG2010 and/or CG2037, then the terms of that endorsement are incorporated into this endorsement as respects such additional insured and shall supersede the coverage grant and limitations in Sections A. and B. of this endorsement. In the event that CG2010 and/or CG2037 are required but no edition dates are specified, the 04/13 editions shall apply.

D. This insurance is excess to any other insurance, whether primary, excess, contingent or on any other basis, available to the additional insured unless a written contract requires that this insurance be primary or primary and non-contributing. However, this insurance is always excess to other insurance, whether primary, excess, contingent or on any other basis, when the additional insured has been added to the other insurance as an additional insured.

Nothing herein contained shall be held to vary, alter, waive or extend any of the terms, conditions, provisions, agreements or limitations of the mentioned Policy, other than as above stated.

PERFORMANCE BOND

WHEREAS, the County of Monterey has awarded to Principal, Granite Rock Company as Contractor, a Contract for the following project:

CARMEL VALLEY ROAD RESURFACING
PROJECT NO. 1185

WHEREAS, Principal, as Contractor, is required to furnish a bond in connection with said Contract, to secure the faithful performance of said Contract.

NOW, THEREFORE, we Granite Rock Company, as Principal, and The Continental Insurance Company as Surety, are held and firmly bound unto the County of Monterey, a political subdivision of the State of California (hereinafter called "County"), in the penal sum of Four Million Five Hundred Fifty-One Thousand Four Hundred Eighteen and 00/100 Dollars ($ 4,551,418.00----------), for the payment of which sum in lawful money of the United States, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT:

If the Principal, as Contractor, or Principal's heirs, executors, administrators, successors, or assigns, (1) shall in all things stand to and abide by and well and truly keep and perform the covenants, conditions, and agreements in said Contract and any alteration thereof made as therein provided, on Principal's part to be kept and performed, at the time and in the manner therein specified and in all respects according to their true intent and meaning, and (2) shall defend, indemnify and save harmless the County, the members of its board of supervisors, and its officers, agents and employees as therein stipulated, then this obligation shall become null and void; otherwise, it shall be and remain in full force and virtue.

Surety hereby stipulates and agrees that no change, extension of time, alteration, or addition to the terms of the Contract or the call for bids, or to the work to be performed thereunder, or the specifications accompanying the same, shall in any way affect its obligation under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of said Contract or the call for bids, or to the work, or to the specifications.

Whenever the Principal, as Contractor, is in default, and is declared in default, under the Contract by the County of Monterey, the County of Monterey having performed its obligation under the Contract, Surety may promptly remedy the default, or shall promptly:

(1) Complete the Contract in accordance with its terms or conditions, or

(2) Obtain a bid or bids for submission to County of Monterey for completing the Contract in accordance with its terms or conditions, and upon determination by County of Monterey and Surety of the lowest responsible and responsive bidder, arrange for a Contract between such bidder and County of Monterey, and make available as work progresses (even though there should be a default or a succession of defaults under the Contract or Contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the balance of Contract price.

This endorsement modifies insurance provided under the following:

BUSINESS AUTO LIABILITY COVERAGE PART

Any person or organization you are required by contract to include as an additional insured on this policy is an "insured" but only with respect to liability arising out of the ownership, maintenance or use of an "auto" in the operations incidental to the contract and to the extent set forth below:

(1) The limit of insurance will not be greater than that required by such contract.

(2) The coverage provided to the additional insured will not be greater than that customarily provided by the policy forms specified in and required by the contract.

(3) All insuring agreements, exclusions and conditions of this policy will apply.

(4) In no event shall the coverage or limit of insurance in this coverage form be increased by such contract.

This insurance is excess to any other insurance, whether primary, excess, contingent or on any other basis, available to the additional insured unless a written contract requires that this insurance be primary or primary and non-contributing. However, this insurance is always excess to other insurance, whether primary, excess, contingent or on any other basis, when the additional insured has been added to the other insurance as an additional insured.

Nothing herein contained shall be held to vary, alter, waive or extend any of the terms, conditions, provisions, agreements or limitations of the mentioned Policy, other than as above stated.

This endorsement changes the policy to which it is attached and is effective on the date issued unless otherwise stated.

ADDITIONAL INSURED – AUTOMATIC STATUS AS REQUIRED BY CONTRACT – BLANKET

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

SCHEDULE

Any person or organization that you are required by written contract to include as an additional insured on this policy if the contract is executed prior to the loss.

A. Section II, Who Is An Insured is amended to include as an additional insured any person or organization shown in the above SCHEDULE (called additional insured), but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" arising out of your premises or your operations for the additional insured, and only to the extent and for the minimum limits required in the written contract.

B. The insurance provided to the additional insured is subject to the following limitations:

1. Unless a written contract specifically requires additional insured coverage for your completed operations, this insurance does not apply to "bodily injury" or "property damage" occurring after "your work" for the additional insured has been completed or after that portion of "your work" out of which the "bodily injury" or "property damage" arises has been put to its intended use by any person or organization, whichever occurs first.

2. Unless broader coverage is specifically required by written contract, this insurance provides additional insured coverage only for liability for "bodily injury", "property damage" or "personal and advertising injury" to the extent caused by the named insured's acts or omissions or the acts or omissions of those acting on the named insured's behalf. If broader coverage is specifically required by written contract, this insurance does not apply to "bodily injury" or "property damage" or "personal and advertising injury" arising out of the sole negligence, act, or omission of the Additional Insured unless additional insured coverage for an Additional Insured's sole negligence, act, or omission is specifically required by written contract.

3. This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" for which the additional insured is obligated to pay damages by reason of the assumption of liability in a contract or agreement except to the extent that the additional insured would have been obligated to pay such damages in the absence of the contract or agreement.

4. This insurance does not apply to "bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering or failure to render any professional services by any insured or on any insured's behalf, including:

   a) The preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders, drawings or specifications; or
   b) Supervisory, inspection, architectural, or engineering services.

   This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of, or the failure to render, any professional architectural, engineering or surveying services.

5. This endorsement shall not apply to a person or organization if any other additional insured endorsement attached to this policy specifically applies to that person or organization.

6. The insurance afforded herein only applies to the extent permitted by applicable state law, including statutes governing additional insured coverage in the construction industry.

7. The insurance afforded to the additional insured shall not exceed the minimum limits required in the written contract.

C. In no event shall the insurance provided to the additional insured exceed the minimum coverage required by the written contract, including but not limited to minimum limits, minimum scope of coverage, or minimum duration of coverage. If a written contract or agreement requires that additional insured status be provided by the use of specified edition dates of the ISO CG2010 and/or CG2037, then the terms of that endorsement are incorporated into this endorsement as respects such additional insured and shall supersede the coverage grant and limitations in Sections A. and B. of this endorsement. In the event that CG2010 and/or CG2037 are required but no edition dates are specified, the 04/13 editions shall apply.

D. This insurance is excess to any other insurance, whether primary, excess, contingent or on any other basis, available to the additional insured unless a written contract requires that this insurance be primary or primary and non-contributing. However, this insurance is always excess to other insurance, whether primary, excess, contingent or on any other basis, when the additional insured has been added to the other insurance as an additional insured.

Nothing herein contained shall be held to vary, alter, waive or extend any of the terms, conditions, provisions, agreements or limitations of the mentioned Policy, other than as above stated.

B. The mission of the County is to excel at providing quality services for the benefit of all Monterey County residents while developing, maintaining and enhancing the resources of the region.

C. County and Institution recognize the opportunity for meaningful learning experiences for student participants and the County. Institution supports the goals and objectives of the County program in which the student participants will participate.

The parties agree as follows:

The maximum number of student participants shall be mutually agreed by the parties. The starting date and length of each Program training period shall be mutually agreed by the parties.

Docusign Envelope ID: 07CABF9C-FC89-8DA1-8337-F2412C393249

E. Student Participant Qualifications. Institution shall ensure appropriate health and safety training is provided to all participating students on a regular basis, in accordance with prevailing Federal and State laws and regulations. Institution shall require that each student participant designated by Institution for clinical and/or practicum experience under this Agreement shall meet the minimum qualifications for a student participant in the designated Program. Additionally, if the student participant's placement is in a setting where he or she is occupationally exposed to blood or other potentially infectious materials, Institution shall ensure that: (i) all student participants have documented training to meet Occupational Safety and Health Administration (OSHA) Regulations on occupational Exposure to Blood-borne Pathogens prior to the beginning of the internship experience; and (ii) each student participant assigned to the County meet the County's requirements, see Exhibit A. Where Institution maintains any and all records of such testing, such records shall be made available to County upon request.

   a. No student participant shall have access to or have the right to receive any medical record, except when necessary, in the regular course of the practicum experience. The discussion, transmission, or narration in any form by student participants of any individually identifiable patient information, medical or otherwise, obtained in the course of the Program is forbidden except as a necessary part of the practical experience.

   b. Neither the Institution nor its employees or agents shall be granted access to individually identifiable information unless the patient has first given consent using a form approved by County that complies with applicable state and federal law and its implementing regulations.

Docusign Envelope ID: 07CABF9C-FC89-8DA1-8337-F2412C393249

This Agreement is made by and between the County of Monterey, a political subdivision of the State of California (hereinafter "County") and Capella University (hereinafter "Institution").

I. GENERAL DESCRIPTION

A. Institution is committed to service in the community and applied learning experiences for student participants. This is accomplished both through field education and service-learning requirement. B. The mission of the County is to excel at providing quality services for the benefit of all Monterey County residents while developing, maintaining and enhancing the resources of the region.

C. County and Institution recognize the opportunity for meaningful learning experiences for student participants and the County. Institution supports the goals and objectives of the County program in which the student participants will participate.

TERM AND TERMINATION

Subject to earlier termination as provided below, this Agreement shall be renewed for additional periods of the same duration as the Term as specified in the Order Form with agreement from both parties unless either party requests termination at least thirty (30) days prior to the end of the then-current term.

In addition to any other remedies it may have, either party may also terminate this Agreement upon thirty (30) days' notice (or without notice in the case of nonpayment), if the other party materially breaches any of the terms or conditions of this Agreement. Customer will pay in full for the Services up to and including the last day on which the Services are provided. All sections of this Agreement which by their nature should survive termination will survive termination, including, without limitation, accrued rights to payment, confidentiality obligations, warranty disclaimers, and limitations of liability.

MISCELLANEOUS

All parties must agree in writing to be bound by all terms of this Agreement, including but not limited to data security, confidentiality, privacy, and compliance obligations, which shall be no less protective than those in effect prior to the assignment.

In the event Customer data is transferred or hosted by a different entity or in a different environment as a result of such assignment, Company shall disclose in writing the identity of the assignee and any third-party hosting providers, the location(s) where Customer data will be stored or processed, and confirmation that such environment meets applicable security and compliance requirements. This Agreement is the complete and exclusive statement of the mutual understanding of the parties and supersedes and cancels all previous written and oral agreements, communications and other understandings relating to the subject matter of this Agreement, and that all waivers and modifications must be in a writing signed by both parties, except as otherwise provided herein. No agency, partnership, joint venture, or employment is created as a result of this Agreement and Customer does not have any authority of any kind to bind Company in any respect whatsoever. In any action or proceeding to enforce rights under this Agreement, the prevailing party will be entitled to recover costs. All notices under this Agreement will be in writing and will be deemed to have been duly given when received, if personally delivered; when receipt is electronically confirmed, if transmitted by e-mail; the day after it is sent, if sent for next day delivery by recognized overnight delivery service; and upon receipt, if sent by certified or registered mail, return receipt requested. SECURITY STATEMENT

The Pace Scheduler is a cloud-based software solution, which therefore poses little risk to any internal IT networks. Further, no highly sensitive data is stored anywhere within the Pace Scheduler databases. We do not collect social security numbers, payment information, health information, or external passwords. For all of the data that we do collect, we keep it secure in the following ways:

The Pace Scheduler uses 256-bit secure sockets layer encryption for all communications with our servers.

All data is password protected and multiple security and permission layers are enforced at the application level to ensure only the proper users view the data they are entitled to view. Passwords are encrypted using the PBKDF2 algorithm with a SHA256 hash, a password stretching mechanism recommended by NIST. This means even members of the Pace Scheduler development team cannot gain access to a user's password.

The data is physically stored on the highly secured AWS technology infrastructure. The AWS data center operations have been accredited under ISO 27001, SOC 1 and SOC 2/SSAE 16/ISAE 3402 (Previously SAS 70 Type II), PCI Level 1, FISMA Moderate, Sarbanes-Oxley (SOX). These centers also provide environmental/disaster safeguards, network security safeguards, and system security safeguards that all comply with industry standards.

Database backups are taken and stored at regular intervals, no less than once per day, and are stored within the secure AWS technology infrastructure. Every change to your data is written to write-ahead logs, which are shipped to multi-datacenter, high-durability storage. In the unlikely event of unrecoverable hardware failure, these logs can be automatically 'replayed' to recover the database to within seconds of its last known state.

UPTIME AND AVAILABILITY

Uptime

The Pace Scheduler application is hosted on Amazon Web Services servers, which guarantees a 99.99% uptime. To date, Pace Scheduler has kept a historical 99.996% uptime (including both planned and un-planned outages), while frequently releasing features and making many improvements on the application.

Scheduled Maintenance

When Pace releases new functionality that may require downtime, releases updates to existing features that may require downtime, or needs to bring the website down for maintenance for any other reason, Pace will schedule these updates or outages between 12:00AM CST and 5:00AM CST unless extenuating circumstances exist. Releases that require 0 seconds of downtime may happen at alternate times. During the vast majority of releases there will be no downtime. The reason for scheduling certain releases in the night is to ensure that if downtime happens it will not affect users during normal business hours. There may occasionally be exceptions when the Pace team may need to do maintenance during business hours, and in these instances the Pace Scheduler team will communicate as appropriate to any affected clients.

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

Health Insurance Portability & Accountability Act (HIPAA) Certification

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

Docusign Envelope ID: 20E857A0-D603-80F2-8118-395A0EFDF9A7

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. (Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. 9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: F4A56E6B-694A-880C-8374-25520A0B9226

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: F4A56E6B-694A-880C-8374-25520A0B9226

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

HOUSING FIRST MANDATE

This Exhibit I ("Exhibit") is hereby incorporated into and made part of the Agreement ("Agreement") by and between the County of Monterey and Central Coast Center for Independent Living ("CONTRACTOR"). The purpose of this Exhibit is to establish requirements under Senate Bill (SB) 1380, which mandates all state-funded housing programs to utilize Housing First principles (WIC § 8255). Housing First is an evidence-based, client-centered approach that recognizes housing as necessary to make other voluntary life changes, such as seeking treatment or medical care. This approach is in contrast with the traditional model of rewarding "housing readiness." The goal of Housing First is to provide housing to individuals and families quickly with as few obstacles as possible, along with voluntary support services according to their needs.

According to Housing First law, the "Core components of Housing First" means all of the following:

a. Tenant screening and selection practices that promote accepting applicants regardless of their sobriety or use of substances, completion of treatment, or participation in services.
b. Applicants are not rejected on the basis of poor credit or financial history, poor or lack of rental history, criminal convictions unrelated to tenancy, or behaviors that indicate a lack of "housing readiness."
c. Acceptance of referrals directly from shelters, street outreach, drop-in centers, and other parts of crisis response systems frequented by vulnerable people experiencing homelessness.
d. Supportive services that emphasize engagement and problem solving over therapeutic goals and service plans that are highly tenant-driven without predetermined goals.
e. Participation in services or program compliance is not a condition of permanent housing tenancy. Tenants have a lease and all the rights and responsibilities of tenancy, as outlined in California's Civil, Health and Safety, and Government codes.
f. The use of alcohol or drugs in and of itself, without other lease violations, is not a reason for eviction.
g. In communities with coordinated assessment and entry systems, incentives for funding promote tenant selection plans for supportive housing that prioritize eligible tenants based on criteria other than "first-come-first-serve," including, but not limited to, the duration or chronicity of homelessness, vulnerability to early mortality, or high utilization of crisis services. Prioritization may include triage tools, developed through local data, to identify high-cost, high-need homeless residents.
h. Case managers and service coordinators who are trained in and actively employ evidence-based practices for client engagement, including, but not limited to, motivational interviewing and client-centered counseling.
i. Services are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses.

Docusign Envelope ID: F4A56E6B-694A-880C-8374-25520A0B9226

j. The project and specific apartment may include special physical features that accommodate disabilities, reduce harm, and promote health and community and independence among tenants.

These components are the minimum efforts required by California State law, however, it is encouraged that all contracted agencies seek trainings to discover other ways you can embed a true Housing First philosophy into your program.

Non-Compliance and Remedies

Failure to comply with Housing First requirements may result in corrective actions, including but not limited to:

- Required remedial training;
- Withholding of funding until compliance is achieved;
- Termination of this Agreement for repeated non-compliance.

     - **5.1.3.** Withholding of funding until compliance is achieved;

COORDINATED ENTRY REQUIREMENTS

This Exhibit K ("Exhibit") is hereby incorporated into and made part of the Agreement ("Agreement") by and between the County of Monterey and Central Coast Center for Independent Living ("CONTRACTOR"). The purpose of this Exhibit is to establish mandatory requirements for the use of the Coordinated Entry System in accordance with federal, state, and local regulations.

Coordinated Entry is a standardized process used by homeless service systems to ensure that people experiencing or at risk of homelessness are quickly and equitably connected to available housing and services. It is required by the U.S. Department of Housing and Urban Development (HUD) and some State of California homeless programs and aims to prioritize assistance based on vulnerability and need rather than on a first-come, first-served basis.

Key Components of Coordinated Entry:

1. **Standardized Assessment:** Uses a common tool identified by the Coalition of Homeless Services Providers, as the lead Continuum of Care ("CoC") lead agency, to evaluate individuals' and families' needs and vulnerabilities.
2. **Prioritization:** Allocates housing and services based on established criteria, often prioritizing people who are chronically homeless, highly vulnerable, or have the highest needs.
3. **Referral Process:** Matches individuals to the most appropriate available housing and services, such as Permanent Supportive Housing (PSH), Rapid Rehousing (RRH), or Transitional Housing.
4. **Accessibility:** Ensures that all populations, including those with disabilities or language barriers, can access services equitably.
5. **Streamlined Entry System:** Reduces the need for individuals to navigate multiple agencies by centralizing access to resources.

Coordinated Entry is designed to improve the efficiency of homelessness response systems, reduce barriers to housing, and ensure that limited resources are used effectively. In Monterey and San Benito Counties, Coordinated Entry, locally known as the Coordinated Assessment and Referral System ("CARS"), is managed through the local Homeless Management Information System ("HMIS").

For the purposes of this agreement, CONTRACTOR is hereby mandated to: (Check all that apply.)

☒ Enter all clients experiencing homelessness into CARS for consideration of housing options made available through the program.

☐ Receive client referrals solely through CARS.

☐ Receive client referrals through CARS and other means established in EXHIBIT A of this Agreement.

All work performed under this Agreement that is required by law to be performed or supervised by licensed personnel shall be performed in accordance with such licensing requirements.

6.03 Invoice amounts shall be billed directly to the ordering department.

6.04 CONTRACTOR shall submit such invoice periodically or at the completion of services, but in any event, not later than 30 days after completion of services. The invoice shall set forth the amounts claimed by CONTRACTOR for the previous period, together with an itemized basis for the amounts claimed, and such other information pertinent to the invoice. The County shall certify the invoice, either in the requested amount or in such other amount as the County approves in conformity with this Agreement and shall promptly submit such invoice to the County Auditor-Controller for payment. The County Auditor-Controller shall pay the amount certified within 30 days of receiving the certified invoice.

7.0 TERMINATION:

7.01 During the term of this Agreement, the County may terminate the Agreement for any reason by giving written notice of termination to the CONTRACTOR at least thirty (30) days prior to the effective date of termination. 7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: EF3B0954-5660-84B7-804F-D0DCA73736ED

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these Workers' Compensation Insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: EF3B0954-5660-84B7-804F-D0DCA73736ED

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

CONTRACTOR shall ensure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. CONTRACTOR and any subcontractor shall, in the performance of this Agreement, fully comply with all federal, state, and local laws and regulations which prohibit discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be prohibited discrimination.

Health Insurance Portability & Accountability Act (HIPAA) Certification

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: EF3B0954-5660-84B7-804F-D0DCA73736ED

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: EF3B0954-5660-84B7-804F-D0DCA73736ED

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

7.02 The County may cancel and terminate this Agreement for good cause effective immediately upon written notice to CONTRACTOR. "Good cause" includes the failure of CONTRACTOR to perform the required services at the time and in the manner provided under this Agreement. If County terminates this Agreement for good cause, the County may be relieved of the payment of any consideration to CONTRACTOR, and the County may proceed with the work in any manner, which County deems proper. The cost to the County shall be deducted from any sum due the CONTRACTOR under this Agreement.

7.03 The County's payments to CONTRACTOR under this Agreement are funded by local, state and federal governments. If funds from local, state and federal sources are not obtained and continued at a level sufficient to allow for the County's purchase of the indicated quantity of services, then the County may give written notice of this fact to CONTRACTOR, and the obligations of the parties under this Agreement shall terminate immediately, or on such date thereafter, as the County may specify in its notice, unless in the meanwhile the parties enter into a written amendment modifying this Agreement.

8.0 INDEMNIFICATION:

CONTRACTOR shall indemnify, defend, and hold harmless the County, its officers, agents, and employees, from and against any and all claims, liabilities, and losses whatsoever (including damages to property and injuries to or death of persons, court costs, and reasonable attorneys' fees) occurring or resulting to any and all persons, firms or corporations furnishing or supplying work, services, materials, or supplies in connection with the performance of this Agreement, and from any and all claims, liabilities, and losses occurring or resulting to any person, firm, or corporation for damage, injury, or death arising out of or connected with the CONTRACTOR's performance of this Agreement, unless such claims, liabilities, or losses arise out of the sole negligence or willful misconduct of the County. "CONTRACTOR's performance" includes CONTRACTOR's action or inaction and the action or inaction of CONTRACTOR's officers, employees, agents and subcontractors.

9.0 INSURANCE REQUIREMENTS:

9.01 **Evidence of Coverage:** Prior to commencement of this Agreement, the Contractor shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the Contractor upon request shall provide a certified copy of the policy or policies.

This verification of coverage shall be sent to the County's Contracts/Purchasing Department, unless otherwise directed. The Contractor shall not receive a "Notice to Proceed" with the work under this Agreement until it has obtained all insurance required and the County has approved such insurance. This approval of insurance shall neither relieve nor decrease the liability of the Contractor.

9.02 **Qualifying Insurers:** All coverages, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A- VII, according to the current A.M. Best's Rating Guide or a company of equal financial stability that is approved by the County's Purchasing Agent.

9.03 **Insurance Coverage Requirements:** Without limiting CONTRACTOR's duty to

Docusign Envelope ID: D8C81C2C-5F99-458A-907A-B6D0BE265975

indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

Commercial General Liability Insurance: including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broad form Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.
(Note: any proposed modifications to these general liability insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Auto Liability Coverage: must include motor vehicles, including scheduled, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit or Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.
(Note: any proposed modifications to these auto insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Workers' Compensation Insurance: if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's Liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.
(Note: any proposed modifications to these workers' compensation insurance requirements shall be attached as an Exhibit hereto, and the section(s) above that are proposed as not applicable shall be lined out in blue ink. All proposed modifications are subject to County approval.)

Professional Liability Insurance: if required for the professional services being provided, (e.g., those persons authorized by a license to engage in a business or profession regulated by the California Business and Professions Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three years following the expiration or earlier termination of this Agreement.
(Note: Professional liability insurance coverage is required if the contractor is providing a professional service regulated by the state. Examples of service providers regulated by the state are insurance agents, professional architects and engineers, doctors, certified public accountants, lawyers, etc. However, other professional Contractors, such as computer or software designers, technology services, and services providers such as claims administrators, should also have professional liability. If in doubt, consult with your risk or contract manager.)

If the contractor maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or higher limits maintained by the contractor.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).

Primary Coverage:

For any claims related to this contract, the CONTRACTOR'S insurance coverage shall be primary and non-contributory and at least as broad as ISO CG 20 01 04 13 as respects the County, its officers, officials, employees, agents, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Waiver of Subrogation:

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials,

Docusign Envelope ID: D8C81C2C-5F99-458A-907A-B6D0BE265975

employees, agents, or volunteers.

Prior to the execution of this Agreement by the County, CONTRACTOR shall file certificates of insurance and endorsements with the County's contract administrator and County's Contracts/Purchasing Division, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. ADDITIONAL PROVISIONS

I. PAYMENT BY COUNTY:

1.01 Monthly claims/invoices by CONTRACTOR: Not later than the tenth (10th) day of each month, CONTRACTOR shall submit to COUNTY a signed invoice setting forth the amount claimed. All invoices (monthly and final) shall be submitted in the form set forth in **Exhibit D**.

1.02 Final Invoice; forfeiture for late invoice: CONTRACTOR's final month and end of fiscal year invoice is due, and must be received by COUNTY, no later than close of business on **July 10th. If the Final Invoice is not received by COUNTY by close of business on July 10th. 1.03 Allowable Costs:
a) Allowable costs shall be the CONTRACTOR's actual costs of developing, supervising and delivering the services under this Agreement, as set forth in **Exhibit C**. Only the costs listed in **Exhibit C** as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of 45 Code of Federal Regulations, Part 74, Sub-Part F and 48 Code of Federal Regulations (CFR), Chapter 1, Part 31.

CONTRACTOR shall submit an amended budget with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this contract. Therefore, an increase in one-line item will require corresponding decreases in other line items.

2.05 Remedies for Inadequate Service Levels:

a) For each month that service falls below 80% of the contracted level, CONTRACTOR shall submit to the COUNTY an analysis of the causes of the problem and any necessary actions to be taken to correct the problem. WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and

E. PURPOSE

The purpose of this agreement is to provide administrative and wage subsidy funding to CONTRACTOR (Goodwill Central Coast) to provide an Expanded Subsidized Employment (ESE) training program and unsubsidized job coordination for CalWORKs Employment Services (CWES) customers referred to ESE by County of Monterey Department of Social Services (MCDSS) CWES staff.

F. PROGRAM DESIGN

Goodwill Central Coast (GCC) will provide expanded subsidized employment, training, supervision, intensive case management, job performance evaluations, and unsubsidized job coordination for 300 eligible CWES Welfare-To-Work customers for each fiscal/contract year. ESE will be offered at Goodwill stores throughout the county, developed non-profit and private sector sites, and County of Monterey departmental sites.
GCC Employment Specialists assist 'work-ready' customers with transitioning to unsubsidized employment with no lapse in that employment. The unsubsidized employment placement may start with an ESE Training placement.

a. Work-ready is determined by the GCC Employment Specialist's assessment of the customer based upon interviews as well as GCC ESE Training and Development Associate and non-GCC ESE Site Supervisor's input into each customer's ESE Monthly Evaluations and Weekly Progress Report **(EXHIBIT I)**.

1. Target Population is all eligible CWES customers.
2. The targeted number of customers: 300 customers for each contract year.
3. Performance Goals:
    a. 95% of referred customers are scheduled for an orientation within three (3) business days from the referral date.
    b. 100% of customers who attend and complete orientation leave with an assigned worksite.
    c. 55% of customers who participate in the program meet their minimum participation hours requirement each month.
    d. 95% of customers who successfully complete the program obtain and/or improve on five (5) transferable skills.
    e. 40% of customers who complete the program obtain full-time, unsubsidized employment, which assists customers in moving towards self-sufficiency and off cash aid.
4. Subsidized Wages:

Docusign Envelope ID: 928BADDE-BCAD-8F1E-8282-20B791E984B0

a. Each Goodwill ESE customer shall receive at least the California State minimum wage per hour while in subsidized employment and attending any Goodwill training or workshops such as Digital Literacy.

b. Customers who do not meet their minimum required Work Participation Rate (WPR) hours each month may be dropped from the program. Some site locations may require more hours than the customer's WPR hours. In order to participate in ESE at those sites, the customers must agree to work the number of hours required by the site. *For example, a customer is only required to work thirty-five (35) WPR hours, but the site requires forty (40) hours per week.*

5. Duration of Subsidized Employment Positions:

   a. Subsidized payments are authorized initially for four (4) months.

   b. Customers are dismissed from ESE by the Site Supervisor for unsatisfactory performance.

   c. Site Supervisors are required to notify GCC and the COUNTY Contract Manager of any terminations.

   d. When the customer approaches the three (3) month mark of employment, the Employment Specialist and CWES Case Manager confer to determine if an extension is appropriate.

6. Extensions of Subsidized Employment Positions:

   a. GCC must obtain written authorization *in advance* from the COUNTY Contract Manager to extend a placement.

   b. Extensions may be granted if funding is available and additional time will increase the likelihood of either of the following:

      i. The participant obtaining unsubsidized employment with the participating employer.

      ii. The participant obtaining skills and experiences relevant to unsubsidized employment in an employment field.

7. ESE positions are exempt from unemployment insurance per section 634.5 of the Unemployment Insurance Code.

8. GCC will provide Worker's Compensation for ESE customers.

b. Develop a process for establishing subsidized employment reimbursement agreements with private employers. WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

9.04 **Other Requirements:**

All insurance required by this Agreement shall be with a company acceptable to the County and issued and executed by an admitted insurer authorized to transact Insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the County shall be given notice in writing at least thirty days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for Contractor and additional insureds with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Additional Insured Status:

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the auto liability policy for liability arising out of automobiles owned, leased, hired or borrowed by or on behalf of the Contractor. Auto liability coverage shall be provided in the form of an endorsement to the CONTRACTOR'S insurance.

The County of Monterey, its officers, officials, employees, agents, and volunteers are to be covered as additional insureds on the commercial general liability policy with respect to liability arising out of work or operations performed by or on behalf of the CONTRACTOR including materials, parts, or equipment furnished in connection with such work or operations. Any insurance or self-insurance maintained by the County, its officers, officials, employees, agents, or volunteers shall be excess of the CONTRACTOR'S insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

Workers' Compensation Insurance Waiver of Subrogation:

The Workers' Compensation Insurance policy required hereunder shall be endorsed to state that the Workers' Compensation Insurance carrier waives its right of subrogation against County, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for Workers' Compensation Insurance, CONTRACTOR hereby agrees to waive its right of subrogation against County, its officers, officials, employees, agents, or volunteers.

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect. CONTRACTOR shall always during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by County, annual certificates to County's Contract Administrator and County's Contracts/Purchasing Division. If the certificate is not received by the expiration date, County shall notify CONTRACTOR and CONTRACTOR shall have five calendar days to send in the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance is a default of this Agreement, which entitles County, at its sole discretion, to terminate this Agreement immediately.

10.0 RECORDS AND CONFIDENTIALITY:

10.01 **Confidentiality:** CONTRACTOR and its officers, employees, agents, and subcontractors shall comply with any and all federal, state, and local laws, which provide for the confidentiality of records and other information. CONTRACTOR shall not disclose any confidential records or other confidential information received from the County or prepared in connection with the performance of this Agreement, unless County specifically permits CONTRACTOR to disclose such records or information. CONTRACTOR shall promptly transmit to County any and all requests for disclosure of any such confidential records or information. CONTRACTOR shall not use any confidential information gained by CONTRACTOR in the performance of this Agreement except for the sole purpose of carrying out CONTRACTOR's obligations under this Agreement.

10.02 **County Records:** When this Agreement expires or terminates, CONTRACTOR shall return to County any County records which CONTRACTOR used or received from County to perform services under this Agreement.

10.03 **Maintenance of Records:** CONTRACTOR shall prepare, maintain, and preserve all reports and records that may be required by federal, state, and County rules and regulations related to services performed under this Agreement. CONTRACTOR shall maintain such records for a period of at least three years after receipt of final payment under this Agreement. If any litigation, claim, negotiation, audit exception, or other action relating to this Agreement is pending at the end of the three-year period, then CONTRACTOR shall retain said records until such action is resolved.

10.04 **Access to and Audit of Records:** The County shall have the right to examine, monitor and audit all records, documents, conditions, and activities of the CONTRACTOR and its subcontractors related to services provided under this Agreement. CONTRACTOR shall not publish any such material without the prior written approval of County.

10.06 **Format of Deliverables:** For this section, "Deliverables" shall mean all electronic documents CONTRACTOR provides to the County under this Agreement. E. BACKGROUND:

The CalWORKs Employment Services (CWES) program requires that the COUNTY offer a learning disability screening to all adult CWES participants. Those who score "12" or more on a standardized and normed screening tool are then offered a learning disability evaluation that identifies the specific learning disabilities and recommended accommodations. This agreement

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

is for the provision of learning disability evaluations and related services for the CWES Welfare-to-Work (WTW) program, including, but not limited to, direct instruction to individuals and groups to relieve identified disabilities that prevent success in meeting WTW goals and the participation in Multidisciplinary Team (MDT) meetings to assist customers in the CalWORKs Family Stabilization program.

F. TARGET POPULATION

F.1 The target population is recipients who are 18 years of age or older, who are participating in the CWES Welfare-to-Work (WTW) program, and referred by the COUNTY, who:

F.1.1 Are identified as having potential learning disabilities based on:

F.1.1.a The California State Department of Social Services approved Learning Needs Screening (WTW 18), or

F.1.1.b Being previously identified as having learning problems (for example, were in Special Education classes during all or part of grades kindergarten through 12), or

F.1.1.c The statewide Online CalWORKs Appraisal Tool (OCAT), Section B4, Learning Disabilities.

F.1.2 Are suspected of having a learning disability, even though the results of the learning disabilities screening (WTW 18 or OCAT, Section B4) did not indicate a potential learning disability, or

F.1.3 Are limited-English proficient (LEP) and therefore have not been screened with the screening tool but have indicators of a potential learning disability.*

**The State of California learning disability screening tool (WTW 18) is validated and normed only for English speakers. Customers with Limited English Proficiency (LEP) may be referred for an evaluation based on other indicators of a possible learning disability.*

G. DESCRIPTION OF SERVICES:

CONTRACTOR shall provide services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

G.1 Provide learning need evaluations to referred customers in both English and Spanish, depending on the customer's preferred language.

Only the costs listed in **Exhibit C-1, Exhibit C-2** and **Exhibit C-3** as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of 45 Code of Federal Regulations, Part 74, Sub-Part F and 48 Code of Federal Regulations (CFR), Chapter 1, Part 31.

b) Allowable costs for travel expenses incurred while providing services under this Agreement, as set forth in **Exhibit C-1, Exhibit C-2** and **Exhibit C-3**, must follow the Monterey County Auditor/Controller's Travel Policy https://www.countyofmonterey.gov/government/departments-a-h/auditor-controller/policies-and-procedures and should be invoiced the current per diem rates for lodging, meals, and mileage up to the rates listed online at https://www.irs.gov/tax-professionals/standard-mileage-rates.

1.04 Cost Control: CONTRACTOR shall not exceed by more than twenty (20) percent any contract expense line-item amount in the budget without the written approval of COUNTY, given by and through the Contract Administrator or Contract Administrator's designee. CONTRACTOR shall submit an amended budget with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this contract. Therefore, an increase in one-line item will require corresponding decreases in other line items.

1.05 Payment in Full:
a) If COUNTY certifies and pays the amount requested by CONTRACTOR, such payment shall be deemed payment in full for the month in question and may not thereafter be reviewed or modified, except to permit COUNTY's recovery of overpayments.

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

b) If COUNTY certifies and pays a lesser amount than the amount requested, COUNTY shall, immediately upon certification of the lesser amount, notify CONTRACTOR in writing of such certification. If CONTRACTOR does not protest the lesser amount by delivering to COUNTY a written notice of protest within twenty (20) days after CONTRACTOR's receipt of the certification, then payment of the lesser amount shall be deemed payment in full for the month in question and may not thereafter be questioned by CONTRACTOR.

1.06 Disputed payment amount: If COUNTY pays a lesser amount than the amount requested, and if CONTRACTOR submits a written notice of protest to COUNTY within twenty (20) days after CONTRACTOR's receipt of the certification, then the parties shall promptly meet to review the dispute and resolve it on a mutually acceptable basis. No court action may be taken on such dispute until the parties have met and attempted to resolve the dispute in person.

II. PERFORMANCE STANDARDS & COMPLIANCE

2.01 Outcome objectives and performance standards: CONTRACTOR shall for the entire term of this Agreement provide the service outcomes set forth in **Exhibit A**. CONTRACTOR shall meet the contracted level of service and the specified performance standards described in **Exhibit A**, unless prevented from doing so by circumstances beyond CONTRACTOR's control, including but not limited to, natural disasters, fire, theft, and shortages of necessary supplies or materials due to labor disputes.

2.04 Termination for cause: Notwithstanding Section 7.02 of the Agreement, if the corrective actions required above are not completed and the report to the COUNTY not made within thirty (30) days, the COUNTY may terminate this Agreement by giving five (5) days' written notice to CONTRACTOR.

2.05 Remedies for Inadequate Service Levels:

a) For each month that service falls below 80% of the contracted level, CONTRACTOR shall submit to the COUNTY an analysis of the causes of the problem and any necessary actions to be taken to correct the problem. If the problem continues for another month, the COUNTY shall meet with CONTRACTOR to explore the problem and develop an appropriate written corrective action plan with appropriate time frames.

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

c) Notwithstanding Section 7.02 of the Agreement, if, after the COUNTY notifies CONTRACTOR of any sanctions to be imposed, CONTRACTOR continues in its failure to take corrective action, then COUNTY may terminate this contract by giving CONTRACTOR five (5) days' written notice.

d) If all appropriate corrective actions are taken but service still falls 80% or more below contracted level, COUNTY and CONTRACTOR may renegotiate the contracted level of service.

2.06 Training for Staff: CONTRACTOR shall insure that sufficient training is provided to its volunteer and paid staff to enable them to perform effectively on the project, and to increase their existing level of skills. Additionally, CONTRACTOR shall ensure that all staff completes Division 21 Civil Rights training.

  4) the penalties that may be imposed upon employees for drug abuse violations;
  5) requiring that each employee engaged in the performance of the contract or grant be given a copy of the company's drug-free policy statement and that, as a condition of employment on the contract or grant, the employee agrees to abide by the terms of the statement.

Health Insurance Portability & Accountability Act (HIPAA) Certification

WHEREAS, Sections 261 through 264 of the federal Health Insurance Portability and Accountability Act of 1996, Public Law 104-191, known as "the Administrative Simplification provisions," direct the Department of Health and Human Services to develop standards to protect the security, confidentiality and integrity of health information; and

WHEREAS, pursuant to the Administrative Simplification provisions, the Secretary of Health and Human Services has issued regulations modifying 45 CFR Parts 160 and 164 (the "HIPAA Privacy Rule"); and

WHEREAS, CONTRACTOR and COUNTY have entered into an Agreement ("the Agreement") to which this Certification is an attachment whereby CONTRACTOR will provide certain services to COUNTY; and

WHEREAS, CONTRACTOR may have access to Protected Health Information (as defined below) in fulfilling its responsibilities under the underlying Agreement.

THEREFORE, in consideration of the Parties' continuing obligations under the Agreement, compliance with the HIPAA Privacy Rule, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, CONTRACTOR agrees to the provisions of this Certification and of the HIPAA Privacy Rule and to protect the interests of COUNTY.

I. DEFINITIONS

Except as otherwise defined herein, any and all capitalized terms in this Section shall have the definitions set forth in the HIPAA Privacy Rule. In the event of an inconsistency between the provisions of this Certification and mandatory provisions of the HIPAA Privacy Rule, as amended, the HIPAA Privacy Rule shall control. Where provisions of this Certification are different than those mandated in the HIPAA Privacy Rule, but are nonetheless permitted by the HIPAA Privacy Rule, the provisions of this Certification shall control.

The term "Protected Health Information" means individually identifiable health information including, without limitation, all information, data, documentation, and materials, including without limitation, demographic, medical and financial information, that relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and that identifies the individual or with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

CONTRACTOR acknowledges and agrees that all Protected Health Information that is created or received by COUNTY and disclosed or made available in any form, including paper record, oral communication, audio recording, and electronic display by COUNTY, or its operating units, to CONTRACTOR or is created or received by CONTRACTOR on COUNTY's behalf shall be subject to this Certification.

II. CONFIDENTIALITY REQUIREMENTS

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

(a) CONTRACTOR agrees:
(i) to use or disclose any Protected Health Information solely: (1) for meeting its obligations as set forth in any agreements between the Parties evidencing their business relationship or (2) as required by applicable law, rule or regulation, or by accrediting or credentialing organization to whom COUNTY is required to disclose such information, or as otherwise permitted under this Certification, or the underlying Agreement ,(if consistent with this Certification and the HIPAA Privacy Rule), or the HIPAA Privacy Rule, and (3) as would be permitted by the HIPAA Privacy Rule if such use or disclosure were made by COUNTY; and
(ii) at termination of the Agreement, (or any similar documentation of the business relationship of the Parties), or upon request of COUNTY, whichever occurs first, if feasible CONTRACTOR will return or destroy all Protected Health Information received from or created or received by CONTRACTOR on behalf of COUNTY that CONTRACTOR still maintains in any form, and retain no copies of such information, or if such return or destruction is not feasible, CONTRACTOR will extend the protections of this Agreement to the information and limit further uses and disclosures to those purposes that make the return or destruction of the information not feasible; and
(iii) to ensure that its agents, including a subcontractor(s), to whom it provides Protected Health Information received from or created by CONTRACTOR on behalf of COUNTY, agrees to the same restrictions and conditions that apply to CONTRACTOR with respect to such information. In addition, CONTRACTOR agrees to take reasonable steps to ensure that its employees' actions or omissions do not cause CONTRACTOR to breach the terms of the Agreement.

(b) Notwithstanding the prohibitions set forth in this Certification or the Agreement, CONTRACTOR may use and disclose Protected Health Information as follows:
(i) if necessary, for the proper management and administration of CONTRACTOR or to carry out the legal responsibilities of CONTRACTOR, provided that as to any such disclosure, the following requirements are met:
(A) the disclosure is required by law; or
(B) CONTRACTOR obtains reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and used or further disclosed only as required by law, or for the purpose for which it was disclosed to the person, and the person notifies CONTRACTOR of any instances of which it is aware in which the confidentiality of the information has been breached;
(ii) for data aggregation services, if to be provided by CONTRACTOR for the health care operations of COUNTY pursuant to any agreements between the Parties evidencing their business relationship. For purposes of this Certification and the Agreement, data aggregation services means the combining of Protected Health Information by CONTRACTOR with the protected health information received by CONTRACTOR in its capacity as CONTRACTOR of another COUNTY, to permit data analyses that relate to the health care operations of the respective covered entities.

(c) CONTRACTOR will implement appropriate safeguards to prevent use or disclosure of Protected Health Information other than as permitted in this Certification. The Secretary of Health and Human Services shall have the right to audit CONTRACTOR's records and practices related to use and disclosure of Protected Health Information to ensure

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

COUNTY's compliance with the terms of the HIPAA Privacy Rule. CONTRACTOR shall report to COUNTY any use or disclosure of Protected Health Information which is not in compliance with the terms of this Certification of which it becomes aware. In addition, CONTRACTOR agrees to mitigate, to the extent practicable, any harmful effect that is known to CONTRACTOR of a use or disclosure of Protected Health Information by CONTRACTOR in violation of the requirements of this Certification or the Agreement.

III. AVAILABILITY OF PHI

CONTRACTOR agrees to make available Protected Health Information to the extent and in the manner required by Section 164.524 of the HIPAA Privacy Rule. CONTRACTOR agrees to make Protected Health Information available for amendment and incorporate any amendments to Protected Health Information in accordance with the requirements of Section 164.526 of the HIPAA Privacy Rule. In addition, CONTRACTOR agrees to make Protected Health Information available for purposes of accounting of disclosures, as required by Section 164.528 of the HIPAA Privacy Rule.

IV. TERMINATION

Notwithstanding anything in this Certification or the Agreement to the contrary, COUNTY shall have the right to terminate the Agreement immediately if COUNTY determines that CONTRACTOR has violated any material term of this Certification and/or the Agreement. If COUNTY reasonably believes that CONTRACTOR will violate a material term of this Certification and/or the Agreement and, where practicable, COUNTY gives written notice to CONTRACTOR of such belief within a reasonable time after forming such belief, and CONTRACTOR fails to provide adequate written assurances to COUNTY that it will not breach the cited term of this Certification and/or the Agreement within a reasonable period of time given the specific circumstances, but in any event, before the threatened breach is to occur, then COUNTY shall have the right to terminate the Agreement immediately.

V. MISCELLANEOUS

Except as expressly stated herein or the HIPAA Privacy Rule, the parties to the Agreement do not intend to create any rights in any third parties. The obligations of CONTRACTOR under this Section shall survive the expiration, termination, or cancellation of this Certification and/or the Agreement, and/or the business relationship of the parties, and shall continue to bind CONTRACTOR, its agents, employees, contractors, successors, and assigns as set forth herein.

The parties agree that, in the event that any documentation of the arrangement pursuant to which CONTRACTOR provides services to COUNTY contains provisions relating to the use or disclosure of Protected Health Information which are more restrictive than the provisions of this Certification or the Agreement, the provisions of the more restrictive documentation will control. The provisions of this Certification and the Agreement are intended to establish the minimum requirements regarding CONTRACTOR's use and disclosure of Protected Health Information.

In the event that either party believes in good faith that any provision of this Certification and/or the Agreement fails to comply with the then current requirements of the HIPAA Privacy Rule, such party shall notify the other party in writing. For a period of up to thirty (30) days, the parties shall address in good faith such concern and amend the terms of this Certification and/or the Agreement, if necessary to bring it into compliance. If, after such thirty-day period, the Certification and/or the Agreement fails to

Docusign Envelope ID: D5048F0E-64E7-8FF7-81C8-ED2DDDE0D83C

comply with the HIPAA Privacy Rule, then either party has the right to terminate upon written notice to the other party.

Participation Agreement
EXHIBIT A – PROGRAM DESCRIPTION, FUNDING AND FEES

I. Name of Program: Psychiatric Inpatient Concurrent Review ("PICR")

II. Program Overview:

Objective

CalMHSA shall administer this Program to assist participating counties in conducting concurrent review and authorization for all psychiatric inpatient hospital and psychiatric health facility services on behalf of participating California County Mental Health Plans ("MHPs").

Per the Department of Health Care Services ("DHCS") Behavioral Health Information Notice ("BHIN") 19-026 and BHIN 22-017, MHPs are required to conduct concurrent review and authorization for all psychiatric inpatient hospital services and psychiatric health facility services. These BHINs outline policy changes implemented to ensure an MHPs' compliance with the Parity in Mental Health and Substance Use Disorder Services Final Rule (Parity Rule; Title 42 of the CFR, part 438.910).

By utilizing a technology-assisted concurrent review process, a consistent and efficient review process will support MHP compliance with BHINs 19-026, 22-017, 26-001, 26-002 (and any additional or superseding BHIN), and the Parity in Mental Health and Substance Use Disorder Services Final Rule (Parity Rule; Tittle 42 of the CFR, part 438.910).

Services

CalMHSA has entered into a services contract ("Service Agreement") with Acentra Health, LLC (formerly known as Kepro/Keystone Peer Review Organization, Inc. ("Contractor")) to provide participating counties a web-enabled utilization review platform and clinical services to carry out psychiatric inpatient concurrent review and authorization services on behalf of multiple California County MHPs.

CalMHSA shall work closely with Contractor to coordinate implementation and onboarding of participating counties. Participants shall submit their Monthly MEDS Extract File ("MMEF") to Contractor via secure transfer utilizing Dropbox or a successor application, as determined by CalMHSA. For Participants utilizing the SmartCare electronic health record, Participant authorizes CalMHSA to import Participant's MMEF data from Participant's CalMHSA SmartCare instance, or any other data sources as otherwise agreed upon between CalMHSA and Participant, directly to Dropbox.

MHPs delegating concurrent review and authorization services to Contractor will range in size from small/rural to large counties and will be located throughout California. Although the review and authorization requirements are uniform, the communication practices may vary, as agreed upon, to accommodate the operational needs of the participating counties or inpatient psychiatric hospitals where county beneficiaries are hospitalized.

Docusign Envelope ID: AC9EBB5D-CE94-4051-BC5A-2BCF949B8EA6

III. Service Fee:

Table A.

Applicable Period	Service Fee Per Review
07/01/2026 – 06/30/2028	$168

IV. Program Funding

Maximum program funding under this Agreement shall not exceed the Not to Exceed ("NTE") amount set forth below for all the stated services during the term of the Agreement:

Table B.

"CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.

XV. INSURANCE

A. Evidence of Coverage. Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

accompany the certificate. In addition, the CONTRACTOR upon request shall provide a certified copy of the policy or policies.
This verification of coverage shall be sent to the COUNTY'S Contracts/Purchasing Office, unless otherwise directed. The CONTRACTOR shall not receive approval for services for work under this Agreement until all insurance has been obtained as required and approved by the COUNTY. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

B. Qualifying Insurers. All coverage, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current A. M. Best's Key Rating Guide or a company of equal financial stability that is approved by the COUNTY'S Contracts/Purchasing Officer.

C. Insurance Coverage Requirements. Without limiting CONTRACTOR'S duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

1. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

2. Business automobile liability insurance, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

3. Workers Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

4. Professional Liability Insurance, if required for the professional service being provided, (e.g., those persons authorized by a license to engage in business or profession regulated by the California Business and Professional Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

D. Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the COUNTY and issued and executed by an admitted insurer

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Each liability policy shall provide that the COUNTY shall be given notice in writing at least thirty (30) calendar days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

XVI. BUDGET

CONTRACTOR shall submit the Budget and Expenditure Report provided as Exhibit H, identifying CONTRACTOR'S allowable costs and program revenues. COUNTY shall identify program revenues for COUNTY funds, and CONTRACTOR shall identify allowable costs and other program revenues as defined in Exhibit B, Section VI, paragraph B of this Agreement, if applicable. The budget shall be the basis for payment reimbursements, cost settlement activities, and audits.

XVII. ACCESS TO AND AUDIT OF RECORDS

A. Right to Inspect Records. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State laws including, but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., the COUNTY or its representative, Federal or State governments may conduct an audit, review or other monitoring procedures of the CONTRACTOR regarding the services/activities provided under this Agreement. The COUNTY or its representative, Federal or State governments shall have the right to inspect any and all books, records, and facilities maintained by CONTRACTOR during normal business hours and without advance notice to evaluate the use of funds and the cost, quality, appropriateness, and timeliness of services.

B. Maintenance of Records. CONTRACTOR shall maintain any and all records documenting all services set forth under this Agreement for a period of ten (10) years from the end of the fiscal year in which such services were provided or until three (3) years after final resolution of any audits, or appeals, whichever occurs later. CONTRACTOR shall maintain such records in a form comporting with generally accepted accounting and auditing standards and all applicable laws.

C. Overpayment. If the results of any audit show that the funds paid to CONTRACTOR under this Agreement exceeded the amount due, then CONTRACTOR shall pay the excess amount to COUNTY in cash not later than thirty (30) calendar days after the COUNTY notifies the CONTRACTOR of such overpayment; or, at COUNTY'S election, COUNTY may recover the excess or any portion of it by offsets made by COUNTY against any payment(s) owed to CONTRACTOR under this or any other Agreement or as set forth in Exhibit I, if made part of this Agreement.

D. Responsibility for Audit Exceptions. Any and all audit exceptions by COUNTY or any Federal or State agency resulting from an audit of CONTRACTOR'S performance of this Agreement, or actions by CONTRACTOR, its officers, agents, and employees shall be the sole responsibility of the CONTRACTOR.

E. Availability of Records for Grievances and Complaints by Recipients of Service. CONTRACTOR shall ensure the availability of records for the prompt handling of

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

During the performance of this Agreement, CONTRACTOR shall not unlawfully discriminate against any person because of race, religion, color, sex, gender, gender identity, genetic information, national origin, ethnic group identification, ancestry, mental or physical handicap, medical condition, health status or need for health care services, marital status, age (over 40), or sexual orientation, either in CONTRACTOR'S employment practices or in the furnishing of services to recipients. CONTRACTOR shall insure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be unlawful discrimination. In addition, CONTRACTOR'S facility access for the disabled shall comply with § 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

The term also includes any act of retaliation.

C. Application of Monterey County Code Chapter 2.80. The provisions of Monterey County Code Chapter 2.80 apply to activities conducted pursuant to this Agreement. CONTRACTOR and its officers and employees, in their actions under this Agreement, are agents of the COUNTY within the meaning of Chapter 2.80 and are responsible for ensuring that their workplace and the services that they provide are free from discrimination, as required by Chapter 2.80. Complaints of discrimination made by recipients of services against CONTRACTOR may be pursued by using the procedures established by or pursuant to Chapter 2.80. CONTRACTOR shall establish and follow its own written procedures for prompt and fair investigation and resolution of discrimination complaints made against CONTRACTOR by its own employees and agents or recipients of services pursuant to this Agreement, and CONTRACTOR shall provide a copy of such procedures to COUNTY on demand by COUNTY.

Santa Ana, CA 92705
Phone: (714) 543.5437

II. PROGRAM GOALS AND OBJECTIVES

A. PROGRAM NARRATIVE

CONTRACTOR is licensed by the California State Department of Social Services as a Short-Term Residential Therapeutic Program (STRTP) and maintains Mental Health Program Approval and Medi-Cal certification to provide an integrated program of specialized and intensive care, services and supports, specialty mental health services, and 24-hour supervision on a short-term basis for children and youth with complex and severe needs. The STRTP is intended for children whose behavioral and therapeutic needs are not able to be met in a home-based family setting, even with the provision of supportive services, and who require the level of supervision and clinical interventions provided by a STRTP.

Children and youth requiring STRTP care need a multi-faceted approach of care. It is expected that services will be provided within the context and implementation of the Integrated Core Practice Model (ICPM) as outlined in the Katie A. Settlement. The ICPM is a comprehensive model for serving children and youth in need. The ICPM Guide publication in the Medi-Cal Manual available through the Department of Health Care Services defines the ICPM as, "a set of practices and principles that promotes a set of values shared by all who seek to support children, youth, and families involved in child-serving agencies including, but not limited to, the child welfare system, special education, probation, drug and alcohol, and other health and human services agencies or legal systems with which the child or youth is involved".

B. PROGRAM GOALS

a. Provide trauma-informed therapeutic interventions and integrated programming designated to treat and ameliorate the behavioral health symptoms and improve functioning.
b. Provide a range of services, of varying intensity, tailored to the individual needs of the child, which can be adjusted during his or her stay in the program as they are meeting goals and improving functioning.
c. Provide mental health interventions so that children and adolescents may move to less restrictive/intensive treatment settings.
d. Child/youth develop effective problem-solving and coping skills to resolve behavioral and emotional problems, improving relationships, and overall functioning.

   ii. After January 1, 2017, a child or youth is required to have a CFT within the first sixty (60) days of entering into the child welfare or probation foster care placement. As defined in Welfare and Institutions Code (WIC), Section 16501, a CFT is also required for those children and youth residing in a group home or STRTP placement with an existing Case Plan. Best practice dictates that meetings should occur as soon as possible for purposes, including but not limited to, case planning, placement determination, emancipation planning and/or safety planning. The CONTRACTOR providing mental health services to children in the child welfare or probation system may participate in the CFT.
   iii. CONTRACTOR shall provide client progress for the CFT to determine appropriate or ongoing placement, if necessary.

5. To facilitate care coordination, CONTRACTOR will request a HIPAA and California law compliant client authorization to share client information with and among all other providers involved in the client's care, in satisfaction of state and federal privacy laws and regulations.

F. Co-Occurring Treatment and No Wrong Door

1. Per BHIN 22-011, Specialty and Non-Specialty Mental Health Services can be provided concurrently, if those services are clinically appropriate, coordinated, and not duplicative. When a client meets criteria for both NSMHS and SMHS, the client should receive services based on individual clinical need and established therapeutic relationships. Clinically appropriate and covered SMHS can also be provided when the client has a co-occurring mental health condition and substance use disorder.

2. Under this Agreement, CONTRACTOR will ensure that clients receive timely mental health services without delay. Services are reimbursable to CONTRACTOR by COUNTY even when:

3. CONTRACTOR shall respond to COUNTY in a timely manner when consultation is necessary for COUNTY to make appropriate authorization determinations.

4. COUNTY shall provide CONTRACTOR with written notice of authorization determinations within the timeframes set forth in BHINs 22-016 and 22-017, or any subsequent DHCS notices.

5. CONTRACTOR shall alert COUNTY when an expedited authorization decision (no later than 72 hours) is necessary due to a client's specific needs and circumstances that could seriously jeopardize the client's life or health, or ability to attain, maintain, or regain maximum function.

IV. PAYMENT CONDITIONS

A. If CONTRACTOR is seeking reimbursement for eligible services funded by the Short-Doyle/Medi-Cal, Mental Health Services Act ("MHSA"), SB 90, Federal or State Grants, and/or COUNTY funds provided pursuant to this Agreement, reimbursement for such services shall be based on actual cost of providing those services less any deductible revenues collected by the CONTRACTOR from other payer sources. In order to reduce COUNTY costs, the CONTRACTOR shall comply with all applicable provisions of the California Welfare and Institutions Code (WIC), the California Code of Regulations, the Code of Federal Regulations, and the federal Social Security Act related to reimbursements by non-County and non-State sources, including, but not limited to, collecting reimbursements for services from clients (which shall be the same as patient fees established pursuant to WIC section 5710) and from private or public third-party payers.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

CONTRACTOR shall not claim reimbursement from COUNTY for (or apply sums received from COUNTY with respect to) that portion of its obligations which has been paid by another source of revenue. If CONTRACTOR is seeking reimbursement for mental health services provided pursuant to this Agreement, reimbursement for such services shall be based upon the actual allowable costs of providing those services less any deductible revenues, as stated above. Notwithstanding any other provision of this Agreement, in no event may CONTRACTOR request a rate that exceeds the COUNTY'S Maximum Rate, which is based on the most recent State's Medi-Cal Behavioral Health Service Fee Schedules established by the State's Department of Health Care Services. In no case shall payments to CONTRACTOR exceed County's Maximum Rates. In addition to the rate limitation, in no event shall the maximum reimbursement that will be paid by COUNTY to CONTRACTOR under this Agreement for any Program Amount be more than the amount identified for each Program Amount for each Funded Program, as identified in this Exhibit B, Section III. Said amounts shall be referred to as the "Maximum Obligation of County," as identified in this Exhibit B, Section V.

B. To the extent a recipient of services under this Agreement is eligible for coverage under Short-Doyle/Medi-Cal or Medicaid or Medicare or any other Federal or State funded program ("an eligible beneficiary"), CONTRACTOR shall ensure that services provided to eligible beneficiaries are properly identified and claimed to the Funded Program responsible for such services to said eligible beneficiaries. For the Short-Doyle/Medi-Cal Funded Program, CONTRACTOR assumes fiscal responsibility for services provided to all individuals who do not have full-scope Medi-Cal or are not Medi-Cal eligible during the term of this Agreement.

C. CONTRACTOR shall be responsible for delivering services to the extent that funding is provided by the COUNTY. To the extent that CONTRACTOR does not have funds allocated in the Agreement for a Funded Program that pays for services to a particular eligible beneficiary, CONTRACTOR shall, at the first opportunity, refer said eligible beneficiary to another CONTRACTOR or COUNTY facility within the same geographic area to the extent feasible, which has available funds allocated for that Funded Program.

D. In order to receive any payment under this Agreement, CONTRACTOR shall submit reports and claims in such form as General Ledger, Payroll Report and other accounting documents as needed, and as may be required by the County of Monterey Department of Health, Behavioral Health Bureau. Specifically, CONTRACTOR shall submit its claims on Behavioral Health Invoice Form provided as Exhibit G, to this Agreement, along with backup documentation, on a monthly basis, to COUNTY so as to reach the Behavioral Health Bureau no later than the thirtieth (30^{th}) day of the month following the month of service. See Section III, above, for payment amount information to be reimbursed each fiscal year period of this Agreement. The amount requested for reimbursement shall be in accordance with the approved budget and shall not exceed the actual net costs incurred for services provided under this Agreement.

CONTRACTOR shall submit via email a monthly claim using Exhibit G, Behavioral Health Invoice Form in Excel format with electronic signature along with supporting documentation, as may be required by the COUNTY for services rendered to:

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

E. CONTRACTOR shall submit all claims for reimbursement under this Agreement within thirty (30) calendar days after the termination or end date of this Agreement. All claims not submitted after thirty (30) calendar days following the termination or end date of this Agreement shall not be subject to reimbursement by the COUNTY. Any claim(s) submitted for services that preceded thirty (30) calendar days prior to the termination or end date of this Agreement may be disallowed, except to the extent that such failure was through no fault of CONTRACTOR.

F. If CONTRACTOR fails to submit claim(s) for services provided under the terms of this Agreement as described above, the COUNTY may, at its sole discretion, deny payment for that month of service and disallow the claim.

G. COUNTY shall review and certify CONTRACTOR'S claim either in the requested amount or in such other amount as COUNTY approves in conformity with this Agreement, and shall then submit such certified claim to the COUNTY Auditor. The County Auditor-Controller shall pay the amount certified within thirty (30) calendar days of receiving the certified invoice.

H. To the extent that the COUNTY determines CONTRACTOR has improperly claimed services to a particular Program Amount, COUNTY may disallow payment of said services and require CONTRACTOR to resubmit said claim of services for payment from the correct Program Amount, or COUNTY may make corrective accounting transactions to transfer the payment of the services to the appropriate Program Amount.

I. If COUNTY certifies payment at a lesser amount than the amount requested COUNTY shall immediately notify the CONTRACTOR in writing of such certification and shall specify the reason for it. If the CONTRACTOR desires to contest the certification, the CONTRACTOR must submit a written notice of protest to the COUNTY within twenty (20) calendar days after the CONTRACTOR'S receipt of the COUNTY notice. The parties shall thereafter promptly meet to review the dispute and resolve it on a mutually acceptable basis. No court action may be taken on such a dispute until the parties have met and attempted to resolve the dispute in person.

V. MAXIMUM OBLIGATION OF COUNTY

A. Subject to the limitations set forth herein, COUNTY shall pay to CONTRACTOR during the term of this Agreement a maximum amount of **$694,544** for services rendered under this Agreement.

B. Maximum Annual Liability:

FISCAL YEAR LIABILITY	AMOUNT
January 1, 2026 – June 30, 2026	$189,421
July 1, 2026 – June 30, 2027	$505,123
TOTAL MAXIMUM COUNTY OBLIGATION:	**$694,544**

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

C. If, as of the date of signing this Agreement, CONTRACTOR has already received payment from COUNTY for services rendered under this Agreement, such amount shall be deemed to have been paid out under this Agreement and shall be counted towards COUNTY'S maximum liability under this Agreement.

D. If for any reason this Agreement is canceled, COUNTY'S maximum liability shall be the total utilization to the date of cancellation not to exceed the maximum amount listed above.

E. As an exception to Section D. above with respect to the Survival of Obligations after Termination, COUNTY, any payer, and CONTRACTOR shall continue to remain obligated under this Agreement with regard to payment for services required to be rendered after termination.

VI. BILLING AND PAYMENT LIMITATIONS

B. Provisional Payments: COUNTY payments to CONTRACTOR for performance of eligible services hereunder are provisional until the completion of all settlement activities and audits, as such payments are subject to future Federal, State and/or COUNTY adjustments. COUNTY adjustments to provisional payments to CONTRACTOR may be based upon COUNTY'S claims processing information system data, State adjudication of Medi-Cal claims files, contractual limitations of this Agreement, annual cost and MHSA reports, application of various Federal, State, and/or COUNTY reimbursement limitations, application of any Federal, State, and/or COUNTY policies, procedures and regulations, and/or Federal, State, or COUNTY audits, all of which take precedence over monthly claim reimbursements.

C. Allowable Costs: Allowable costs shall be the CONTRACTOR'S actual costs of developing, supervising and delivering the services under this Agreement, as set forth in the Budget provided in Exhibit H and 2 C.F.R. § 230. Only the costs listed in Exhibit H of this Agreement as contract expenses may be claimed as allowable costs. Any dispute over whether costs are allowable shall be resolved in accordance with the provisions of applicable Federal, State and COUNTY regulations.

D. Cost Control: CONTRACTOR shall not exceed by more than twenty (20%) percent any contract expense line-item amount in the budget without the written approval of COUNTY, given by and through the Contract Administrator or Contract Administrator's designee. CONTRACTOR shall submit an amended budget using Exhibit H, or on a format as required by the COUNTY, with its request for such approval. Such approval shall not permit CONTRACTOR to receive more than the maximum total amount payable under this Agreement. Therefore, an increase in one line item shall require corresponding decreases in other line items.

E. Other Limitations for Certain Funded Programs: In addition to all other limitations provided in this Agreement, reimbursement for services rendered under certain Funded Programs may be further limited by rules, regulations and procedures applicable only to that Funded Program. CONTRACTOR shall be familiar with said rules, regulations and procedures and submit all claims in accordance therewith.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

F. Adjustment of Claims Based on Other Data and Information: The COUNTY shall have the right to adjust claims based upon data and information that may include, but are not limited to, COUNTY'S claims processing information system reports, remittance advices, State adjudication of Medi-Cal claims, and billing system data.

VII. LIMITATION OF PAYMENTS BASED ON FUNDING AND BUDGETARY RESTRICTIONS

A. This Agreement shall be subject to any restrictions, limitations, or conditions imposed by State which may in any way affect the provisions or funding of this Agreement, including, but not limited to, those contained in State's Budget Act.

B. This Agreement shall also be subject to any additional restrictions, limitations, or conditions imposed by the Federal government which may in any way affect the provisions or funding of this Agreement.

C. In the event that the COUNTY'S Board of Supervisors adopts, in any fiscal year, a COUNTY Budget which provides for reductions in COUNTY Agreements, the COUNTY reserves the right to unilaterally reduce its payment obligation under this Agreement to implement such Board reductions for that fiscal year and any subsequent fiscal year during the term of this Agreement, correspondingly. The COUNTY'S notice to the CONTRACTOR regarding said reduction in payment obligation shall be provided within thirty (30) calendar days of the Board's approval of such action.

D. Notwithstanding any other provision of this Agreement, COUNTY shall not be obligated for CONTRACTOR'S performance hereunder or by any provision of this Agreement during any of COUNTY'S current or future fiscal year(s) unless and until COUNTY'S Board of Supervisors appropriates funds for this Agreement in COUNTY'S Budget for each such fiscal year. In the event funds are not appropriated for this Agreement, then this Agreement shall terminate as of June 30 of the last fiscal year for which funds were appropriated. COUNTY shall notify CONTRACTOR of any such non-appropriation of funds at the earliest possible date and the services to be provided by the CONTRACTOR under this Agreement shall also be reduced or terminated.

VIII. BILLING PROCEDURES AND LIMITATIONS ON COUNTY'S FINANCIAL RESPONSIBILITY FOR PAYMENT OF SERVICES UNDER FEDERAL SOCIAL SECURITY ACT, TITLE XIX SHORT-DOYLE/MEDI-CAL SERVICES AND/OR TITLE XXI HEALTHY FAMILIES

The Short-Doyle/Medi-Cal (SD/MC) claims processing system enables California county Mental Health Plans (MHPs) to obtain reimbursement of Federal funds for medically necessary specialty mental health services provided to Medi-Cal-eligible beneficiaries diagnosed as Seriously Emotionally Disturbed (SED). The Mental Health Medi-Cal program oversees the SD/MC claims processing system. Authority for the Mental Health Medi-Cal program is governed by Federal and California statutes.

A. If, under this Agreement, CONTRACTOR has Funded Programs that include Short-Doyle/Medi-Cal services, CONTRACTOR shall certify in writing annually, by August 1

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

of each year, that all necessary documentation shall exist at the time any claims for Short-Doyle/Medi-Cal services are submitted by CONTRACTOR to COUNTY.
CONTRACTOR shall be solely liable and responsible for all service data and information submitted by CONTRACTOR.

B. CONTRACTOR acknowledges and agrees that the COUNTY, in undertaking the processing of claims and payment for services rendered under this Agreement for these Funded Programs, does so as the Mental Health Plan for the Federal, State and local governments.

C. CONTRACTOR shall submit to COUNTY all Short-Doyle/Medi-Cal claims or other State required claims data within the thirty (30) calendar daytime frame(s) as prescribed by this Agreement to allow the COUNTY to meet the time frames prescribed by the Federal and State governments. COUNTY shall have no liability for CONTRACTOR'S failure to comply with the time frames established under this Agreement and/or Federal and State time frames, except to the extent that such failure was through no fault of CONTRACTOR.

D. COUNTY, as the Mental Health Plan, shall submit to the State in a timely manner claims for Short-Doyle/Medi-Cal services only for those services/activities identified and entered into the COUNTY'S claims processing information system which are compliant with Federal and State requirements. COUNTY shall make available to CONTRACTOR any subsequent State approvals or denials of such claims upon request by the CONTRACTOR.

E. CONTRACTOR acknowledges and agrees that COUNTY'S final payment for services and activities claimed by CONTRACTOR Short-Doyle/Medi-Cal services is contingent upon reimbursement from the Federal and State governments and that COUNTY'S provisional payment for said services does not render COUNTY in any way responsible for payment of, or liable for, CONTRACTOR'S claims for payment for these services.

F. CONTRACTOR'S ability to retain payment for such services and/or activities is entirely dependent upon CONTRACTOR'S compliance with all laws and regulations related to same.

G. Notwithstanding any other provision of this Agreement, CONTRACTOR shall hold COUNTY harmless from and against any loss to CONTRACTOR resulting from the denial or disallowance of claim(s) for or any audit disallowances related to said services, including any State approved Title XIX Short-Doyle/Medi-Cal and/or Medi-Cal Administrative Activities, by the Federal, State or COUNTY governments, or other applicable payer source, unless the denial or disallowance was due to the fault of the COUNTY.

H. CONTRACTOR shall repay to COUNTY the amount paid by COUNTY to CONTRACTOR for Title XIX Short-Doyle/Medi-Cal and/or Medi-Cal Administrative Activities subsequently denied or disallowed by Federal, State and/or COUNTY government.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

I. Notwithstanding any other provision of this Agreement, CONTRACTOR agrees that the COUNTY may off set future payments to the CONTRACTOR and/or demand repayment from CONTRACTOR when amounts are owed to the COUNTY pursuant to Subparagraphs G. and H. above. Such demand for repayment and CONTRACTOR'S repayment shall be in accordance with Exhibit I, Section II (Method of Payments for Amounts Due to County) of this Agreement.

J. CONTRACTOR shall comply with all written instructions provided to CONTRACTOR by the COUNTY, State or other applicable payer source regarding claiming and documentation.

K. Nothing in this Section VIII shall be construed to limit CONTRACTOR'S rights to appeal Federal and State settlement and/or audit findings in accordance with the applicable Federal and State regulations.

IX. PATIENT/CLIENT ELIGIBILITY, UMDAP FEES, THIRD PARTY REVENUES, AND INTEREST

A. CONTRACTOR shall comply with all Federal, State and COUNTY requirements and procedures relating to:

2. The eligibility of patients/clients for Short-Doyle/Medi-Cal, Medicaid, Medicare, private insurance, or other third-party revenue, and the collection, reporting and deduction of all patient/client and other revenue for patients/clients receiving services hereunder. CONTRACTOR shall pursue and report collection of all patient/client and other revenue.

B. All fees paid by patients/clients receiving services under this Agreement and all fees paid on behalf of patients/clients receiving services hereunder shall be utilized by CONTRACTOR only for the delivery of mental health service/activities specified in this Agreement.

C. CONTRACTOR may retain unanticipated fee for service program revenue, under this Agreement, provided that the unanticipated revenue is utilized for the delivery of mental health services/activities specified in this Agreement.

D. CONTRACTOR shall not retain any fees paid by any sources for, or on behalf of, Medi-Cal beneficiaries without deducting those fees from the cost of providing those mental health services for which fees were paid.

E. CONTRACTOR may retain any interest and/or return which may be received, earned or collected from any funds paid by COUNTY to CONTRACTOR, provided that CONTRACTOR shall utilize all such interest and return only for the delivery of mental health services/activities specified in this Agreement.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

1. CONTRACTOR'S submission of a revised claim statement and/or Annual Report(s) showing all such non-reported revenue.
2. A report by COUNTY to State of all such non-reported revenue including any such unreported revenue paid by any sources for or on behalf of Medi-Cal beneficiaries and/or COUNTY'S revision of the Annual Report(s).
3. Any appropriate financial adjustment to CONTRACTOR'S reimbursement.

C. CFA shall consist of, and shall be payable only from, the Maximum Contract Amount for the particular fiscal year in which the related services are to be rendered and upon which the request(s) is (are) based.

D. CFA is intended to provide cash flow to CONTRACTOR pending CONTRACTOR'S rendering and billing of eligible services/activities, as identified in this Exhibit B, Sections III. and V., and COUNTY payment thereof. CONTRACTOR may request each monthly Cash Flow Advance only for such services/activities and only to the extent that there is no reimbursement from any public or private sources for such services/activities.

E. Cash Flow Advance (CFA) Invoice. For each month for which CONTRACTOR is eligible to request and receive a CFA, CONTRACTOR must submit to the COUNTY an invoice of a CFA in a format that is in compliance with the funding source and the amount of CFA CONTRACTOR is requesting. In addition, the CONTRACTOR must submit supporting documentation of expenses incurred in the prior month to receive future CFAs.

F. Upon receipt of the Invoice, COUNTY, shall determine whether to approve the CFA and, if approved, whether the request is approved in whole or in part.

G. If a CFA is not approved, COUNTY will notify CONTRACTOR within ten (10) business days of the decision, including the reason(s) for non-approval. Thereafter, CONTRACTOR may, within fifteen (15) calendar days, request reconsideration of the decision.

EXHIBIT E:
ASSURANCE OF COMPLIANCE WITH MONTEREY COUNTY'S CULTURAL COMPETENCY POLICY

In a culturally competent system, each provider organization shows respect for and responds to individual differences and special needs. Services are provided in the appropriate cultural context and without discrimination related to race, national origin, income level, religion, gender, sexual orientation, age, or physical disability, to name a few. Culturally competent caregivers are aware of the impact of their own culture on their relationships with consumers/families and know about and respect cultural and ethnic differences. They adapt their skills to meet each individual's/family's values and customs. Cultural competence is a developmental and dynamic process – one that occurs over time.

Organizations in a Culturally Competent Service System Promote:

Quality Improvement
- Continuous evaluation and quality improvement
- Supporting evidence-based, promising, community defined, and emerging practices that are congruent with ethnic/racial/linguistic group belief systems, cultural values and help-seeking behaviors.

Collaboration
- Collaborating with Behavioral Health and other community programs
- Resolving barriers to partnerships with other service providers

Access
- Providing new services to unserved and underserved children, youth, adults and/or older adults
- Reducing disparities in access to, and retention in, care as identified in the Mental Health Services Act Plan
- Ensuring representation of mental health services consumers, family members of a mental health services consumer, and/or representatives from unserved communities on their advisory/governance body or committee for development of service delivery and evaluation (with a minimum target of 40%).
- Developing recruitment, hiring, and retention plans that are reflective of the population focus, communities' ethnic, racial, and linguistic populations.

Cultural Competent Services:

- Are available, accessible and welcoming to all clients regardless of race, ethnicity, language, age, and sexual orientation.
- Provide a physical environment that is friendly, respectful and inclusive of all cultures.
- Provide information, resources and reading materials in multilingual formats.
- Promote and foment culturally accepted social interactions, respect and healthy behaviors within the family constellation and service delivery system.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

- Provide options for services, which are consistent with the client's beliefs, values, healing traditions, including individual preferences for alternative, spiritual and/or holistic approaches to health.
- Offer services in unserved and underserved communities.
- Have services available in the evening and on weekends to ensure maximum accessibility.
- Offer services in Spanish and other necessary languages (such as Tagalog, Vietnamese, Oaxacan, Trique and other languages spoken of Monterey County residents).

Definitions for Cultural Competency

"Cultural Competence" is defined as a set of congruent practice skills, knowledge, behaviors, attitudes, and policies that come together in a system, agency, or among consumer providers, family members, and professionals that enables that system, agency, or those professionals and consumers, and family member providers to work effectively in cross-cultural situations.
(Adapted from Cross, et al., 1989; cited in DMH Information Notice No.02-03).

"Cultural Competence" is a means to eliminating cultural, racial and ethnic disparities. Cultural Competence enhances the ability of the whole system to incorporate the languages, cultures, beliefs and practices of its clients into the service. In this way all clients benefit from services that address their needs from the foundation of their own culture. Strategies for elimination of these disparities must be developed and implemented. Cultural Competence must be supported at all levels of the system.
(CMHDA Framework for Eliminating Cultural, Linguistic, Racial and Ethnic Behavioral Health Disparities)

[Cultural Competency] A set of congruent behaviors, attitudes, and policies that come together in a system, agency or amongst professionals and consumers and enables that system, agency or those professionals and consumers to work effectively in cross-cultural situations.
(Cross, Bazron, Dennis & Issacs, 1989)

The ability to work effectively with culturally diverse clients and communities.
(Randall David, 1994)

CONTRACTOR hereby agrees that it will comply with the principles and guidelines set forth in Monterey County's Health Department – Behavioral Health's Cultural Competency Policy (as outlined above), and will:

1. Develop organizational capacity to provide services in a culturally and linguistically competent manner. This may include: hiring staff with the linguistic capabilities needed to meet the diverse language needs in Monterey County (for example, Spanish, Tagalog, Vietnamese, Oaxacan, Trique, American Sign Language (ASL), Middle Eastern languages); providing staff with training in cultural competency; making services accessible at locations and times that minimize access barriers, and ensuring that staff have an open, welcoming and positive attitude and feel comfortable working with diverse cultures.

2. Create a physical environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: decorating waiting and treatment areas with pictures that reflect the diverse cultures of Monterey County; providing reading materials,

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

resources and magazines in varied languages, at appropriate reading levels and suitable for different age groups, including children and youth; consideration of cultural differences and preferences when offering refreshments; ensuring that any pictures, symbols or materials on display are not unintentionally disrespectful to another culture.

3. Provide a services delivery environment that ensures people of all cultures, ages and sexual orientation feel welcome and cared for. This may include: respect for individual preferences for alternative, spiritual and/or holistic approaches to health; a reception staff that is competent in the different languages spoken by consumers/families; staff that is knowledgeable of cultural and ethnic differences and needs, and is able and willing to respond an appropriate and respectful manner.

4. Support the county's goal to reduce disparities to care by increasing access and retention while decreasing barriers to services by unserved and underserved communities.

5. Include the voice of multi-cultural youth, client and family members, including: monolingual and bilingual clients and family members and representatives from unserved and underserved communities, in the advisory/governance body or committee for development of service delivery, planning and evaluation (County Goal: 40%).

6. Participate in outcome evaluation activities aimed at assessing individual organizations as well as countywide cultural competency in providing mental health services.

7. As requested, meet with the Monterey County Health Department - Behavioral Health Director or designee to monitor progress and outcomes of the project.

8. Ensure that 100% of staff, over a 3 year period, participate in cultural competency training including, but not limited to, those offered by Monterey County Behavioral Health.

Dissemination of these Provisions. CONTRACTOR shall inform all its officers, employees, agents, and subcontractors providing services hereunder of these provisions.

By my signature below, as the authorized representative of the CONTRACTOR named below, I certify acceptance and understanding for myself and the CONTRACTOR of the above provisions.

2. PERMITTED USES AND DISCLOSURES OF PHI

(a) Use or Disclose PHI to perform Services for, or on behalf of, Covered Entity, provided that such Use or Disclosure would not violate the Privacy or Security Rules, this BAA, or California Confidentiality Laws if done by Covered Entity;

(b) Use PHI to provide Data Aggregation Services for the Health Care Operations of Covered Entity, if required by the Services Agreement and as permitted by 45 C.F.R. § 164.504I(2)(i)(B);

breached; and

(e) Use PHI to report violations of law to appropriate Federal and state authorities, consistent with 45 C.F.R. § 164.502(j)(1).

3. RESPONSIBILITIES OF THE PARTIES WITH RESPECT TO PHI

3.1. Responsibilities of Business Associate. Business Associate shall:

(a) Notify the Privacy Officer of Covered Entity, in writing, of: (i) any Use and/or Disclosure of the PHI that is not permitted by this BAA; (ii) any Security Incident of which Business Associate becomes aware; and (iii) any suspected Breach. Such notice shall be provided within five (5) business days of Business Associate's discovery of such unauthorized access, acquisition, Use and/or Disclosure, Security Incident, or suspected Breach. Notwithstanding the foregoing, the Parties acknowledge the ongoing existence and occurrence of attempted but ineffective Security Incidents that are trivial in nature, such as pings and other broadcast service attacks, and unsuccessful log-in attempts. The Parties acknowledge and agree that this Section 3.1(a) constitutes notice by Business Associate to Covered Entity of such ineffective Security Incidents and no additional notification to Covered Entity of such ineffective Security Incidents is required, provided that no such Security Incident results in unauthorized access, acquisition, Use or Disclosure of PHI. For the avoidance of doubt, a ransomware attack shall not be considered an ineffective Security Incident and shall be reported to Covered Entity, irrespective of whether such Security Incident results in a Breach. Business Associate shall investigate each Security Incident or unauthorized access, acquisition, Use, or Disclosure of PHI, or suspected Breach that it discovers and shall provide a summary of its investigation to Covered Entity, upon request;

(i) If Business Associate or Covered Entity determines that such Security Incident or unauthorized access, acquisition, Use, or Disclosure, or suspected Breach constitutes a Breach, then Business Associate shall provide a supplemental written report in accordance with 45 C.F.R. § 164.410I, which shall include, to the extent possible, the identification of each individual whose PHI has been, or is reasonably believed by the Business Associate to have been, accessed, acquired, Used or Disclosed during the Breach, to Covered Entity without unreasonable delay, but no later than five (5) business days after discovery of the Breach;

(ii) In consultation with Covered Entity, Business Associate shall promptly mitigate, to the extent practicable, any harmful effect that is known to the Business Associate of such improper access, acquisition, Use, or Disclosure, Security Incident, or Breach; and

(iii) Covered Entity shall have sole control over the timing and method of providing notification of such Breach to the affected individual(s), the appropriate government agencies, and other persons required by law to be notified. Business Associate shall assist with any notifications, as requested by Covered Entity. Business Associate shall take prompt corrective action, including any action required by applicable State or federal laws and regulations relating to such Security Incident or non- permitted access, acquisition, Use, or Disclosure. Business Associate shall reimburse Covered Entity for its reasonable costs and expenses in providing notification to affected individuals, appropriate government agencies, and any other persons required by law to be notified (e.g., without limitation, the media or consumer reporting agencies), including, but not limited to, any administrative costs associated with providing notice, printing and mailing costs, public relations costs, attorney fees, and costs of mitigating the harm (which may

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

include the costs of obtaining up to one (1) year of credit monitoring services and identity theft insurance) for affected individuals whose PHI or other PII has or may have been compromised as a result of the Breach.

(b) Implement appropriate administrative, physical, and technical safeguards and comply with the Security Rule and industry best practices to prevent Use and/or Disclosure of EPHI other than as provided for by this BAA;

(c) Obtain and maintain a written agreement with each of its Subcontractors that creates, receives, maintains, or transmits PHI that requires each such Subcontractor to adhere to restrictions and conditions that are at least as restrictive as those that apply to Business Associate pursuant to this BAA. Upon request, Business Associate shall provide Covered Entity with copies of its written agreements with such Subcontractors;

(d) Make available all internal practices, records, books, agreements, policies and procedures and PHI relating to the Use and/or Disclosure of PHI received from, created, maintained, or transmitted by Business Associate on behalf of Covered Entity to the Secretary of the Department of Health and Human Services ("Secretary") in a time and manner designated by the Secretary for purposes of determining Covered Entity's or Business Associate's compliance with HIPAA. Business Associate shall immediately notify Covered Entity of any such requests by the Secretary and, upon Covered Entity's request, provide Covered Entity with any copies of documents Business Associate provided to the Secretary. In addition, Business Associate shall promptly make available to Covered Entity such practices, records, books, agreements, policies and procedures relating to the Use and Disclosure of PHI for purposes of determining whether Business Associate has complied with this BAA or maintains adequate security safeguards, upon reasonable request by Covered Entity. The fact that Covered Entity has the right to inspect, inspects, or fails to inspect Business Associate's internal practices, records, books, agreements, policies and procedures does not relieve Business Associate of its responsibility to comply with this BAA, regardless of whether Covered Entity detects or fails to detect a violation by Business Associate, nor does it constitute Covered Entity's acceptance of such practices or waiver of Covered Entity's rights under this BAA;

(e) Document Disclosures of PHI and information related to such Disclosure and, within twenty (20) days of receiving a written request from Covered Entity, provide to Covered Entity such information as is requested by Covered Entity to permit Covered Entity to respond to a request by an individual for an accounting of the Disclosures of the individual's PHI in accordance with 45 C.F.R. § 164.528 and the HITECH Act. At a minimum, the Business Associate shall provide Covered Entity with the following information: (i) the date of the Disclosure; (ii) the name of the entity or person who received the PHI, and if known, the address of such entity or person; (iii) a brief description of the PHI Disclosed; and (iv) a brief statement of the purpose of such Disclosure which includes an explanation of the basis for such Disclosure. In the event the request for an accounting is delivered directly to the Business Associate, the Business Associate shall, within ten (10) days, forward such request to Covered Entity. The Business Associate shall implement an appropriate recordkeeping process to enable it to comply with the requirements of this Section;

(f) Subject to Section 4.4 below, return to Covered Entity in a mutually agreeable format and medium, or destroy, within thirty (30) days of the termination of this BAA, the PHI in its possession and retain no copies, including backup copies;

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

(g) Use, Disclose to its Subcontractors or other third parties, and request from Covered Entity, only the minimum PHI necessary to perform or fulfill a specific function required or permitted hereunder;

(h) If all or any portion of the PHI is maintained in a Designated Record Set;

(i) Upon ten (10) days' prior written request from Covered Entity, provide access to the PHI to Covered Entity, or to the individual, if so directed by Covered Entity, to meet a request by an individual under 45 C.F.R. § 164.524 or California Confidentiality Laws. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for access to PHI from an individual; and

(ii) Upon ten (10) days' prior written request from Covered Entity, make any amendment(s) to the PHI that Covered Entity directs pursuant to 45 C.F.R. § 164.526. Business Associate shall notify Covered Entity within five (5) days of its receipt of a request for amendment of PHI from an individual.

(i) If applicable, maintain policies and procedures to detect and prevent identity theft in connection with the provision of the Services, to the extent required to comply with the Red Flag Rules;

(j) To the extent that Business Associate carries out one or more of Covered Entity's obligations under the Privacy Rule, Business Associate shall comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligations;

(k) Unless prohibited by law, notify Covered Entity as soon as possible and in no case later than five (5) days after the Business Associate's receipt of any request or subpoena for PHI. To the extent that Covered Entity decides to assume responsibility for challenging the validity of such request, the Business Associate shall cooperate fully with Covered Entity in such challenge; and

(l) Maintain policies and procedures materially in accordance with HIPAA and California Confidentiality Laws and industry standards designed to ensure the confidentiality, availability, and integrity of Covered Entity's data and protect against threats or vulnerabilities to such data.

3.2 <u>Business Associate Acknowledgment</u>.

(a) Business Associate acknowledges that, as between the Business Associate and Covered Entity, all PHI shall be and remain the sole property of Covered Entity.

(b) Business Associate is not permitted to Use PHI to create de- identified information except as approved in writing by Covered Entity.

(c) Business Associate further acknowledges that it is obligated by law to comply, and represents and warrants that it shall comply, with HIPAA. Business Associate shall comply with all California Confidentiality Laws, to the extent that such state laws are not preempted by HIPAA.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

(d) Business Associate further acknowledges that Uses and Disclosures of PHI must be consistent with Covered Entity's privacy practices, as stated in Covered Entity's Notice of Privacy Practices. The current Notice of Privacy Practices can be retrieved online from the Covered Entity's webpage. Business Associate agrees to review the Notice of Privacy Practices at this URL at least once annually while doing business with Covered Entity to ensure it remains updated on any changes to the Notice of Privacy Practices Covered Entity may make.

3.3 Responsibilities of Covered Entity. Covered Entity shall notify Business Associate of any (i) changes in, or withdrawal of, the authorization of an individual regarding the Use or Disclosure of PHI provided to Covered Entity pursuant to 45 C.F.R. § 164.508, to the extent that such changes may affect Business Associate's Use or Disclosure of PHI; or (ii) restrictions on Use and/or Disclosure of PHI as provided for in 45 C.F.R. § 164.522 agreed to by Covered Entity, to the extent that such restriction may affect Business Associate's Use or Disclosure of PHI.

4. TERM AND TERMINATION

4.1 Term. This BAA shall become effective on the Effective Date and shall continue in effect until all of the PHI provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or if it is infeasible to return or destroy PHI, protections are extended to such PHI, in accordance with the termination provisions in Section 4.4. Certain provisions and requirements of this BAA shall survive its expiration or other termination as set forth in Section 5 herein.

4.2 Termination. If Covered Entity determines in good faith that Business Associate has breached a material term of this BAA, Covered Entity may either: (i) immediately terminate this BAA and any underlying Services Agreement without penalty; or (ii) terminate this BAA and any underlying Services Agreement within thirty (30) days of Business Associate's receipt of written notice of such breach, if the breach is not cured to the satisfaction of Covered Entity.

4.3 Automatic Termination. This BAA shall automatically terminate without any further action of the Parties upon the termination or expiration of all Services Agreements between Covered Entity and Business Associate that would necessitate having this BAA in place.

4.4 Effect of Termination. Upon termination or expiration of this BAA for any reason, Business Associate shall return or destroy all PHI pursuant to 45 C.F.R. § 164.504I(2)(ii)(J) if, and to the extent that, it is feasible to do so. Prior to returning or destroying the PHI, Business Associate shall recover any PHI in the possession of its Subcontractors. Business Associate shall certify in writing that all PHI has been returned or securely destroyed, and no copies retained, upon Covered Entity's request. To the extent it is not feasible for Business Associate to return or destroy any portion of the PHI, Business Associate shall notify Covered Entity in writing of the condition that makes return or destruction infeasible. If Covered Entity agrees that return or destruction of the PHI is infeasible, as determined in its sole discretion, Business Associate shall: (i) retain only that PHI which is infeasible to return or destroy; (ii) return to Covered Entity the remaining PHI that the Business Associate maintains in any form; (iii) continue to extend the protections of this BAA to the PHI for as long as Business Associate retains PHI; (iv) limit further Uses and Disclosures of such PHI to those purposes that make the return or destruction of the PHI not feasible and subject to the same conditions as set out in Sections 2 and 3 above, which applied prior to termination; and

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

(v) return to Covered Entity the PHI retained by Business Associate when such return is no longer infeasible.

5. MISCELLANEOUS

5.1 Survival. The obligations of Business Associate under the provisions of Sections 3.1, 3.2, and 4.4 and Article 5 shall survive termination of this BAA until such time as all PHI is returned to Covered Entity or destroyed.

5.2 Amendments; Waiver. This BAA may not be modified or amended, except in a writing duly signed by authorized representatives of the Parties. To the extent that any relevant provision of HIPAA or California Confidentiality Laws is materially amended in a manner that changes the obligations of the Parties, the Parties agree to negotiate in good faith appropriate amendment(s) to this BAA to give effect to the revised obligations. Further, no provision of this BAA shall be waived, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event shall not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events.

5.3 No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors or assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

EXHIBIT I: AUDITS AND AUDIT APPEALS

I. AUDITS AND AUDIT APPEALS

A. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State law including but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., authorized representatives from the Federal governments, State or COUNTY may conduct an audit of CONTRACTOR regarding the services/activities provided under the fiscal year(s) for which the audit is outstanding. In addition, contract compliance audits or reviews may be conducted by the County of Monterey Auditor-Controller's Office or designated representative. Furthermore, the California State Controller Office performs audits of the mandated cost claims for the seriously emotionally disturbed pupils for the Out-of-State Mental Health Services Program and Handicapped and Disabled Students Programs. The Centers for Medicare and Medicaid Services (CMS) also perform audits of the Certified Public Expenditure (CPE) processes, negotiated rate audit information, and other issues.

B. Settlement of audit findings shall be conducted according to the auditing party's procedures in place at the time of the audit.

C. In the case of a Federal Government or State audit, COUNTY may perform a post-audit based on Federal or State audit findings. Such post-audit shall take place when the Federal Government or State initiates its settlement action, which customarily is after the issuance of the audit report by the Federal Government or State and before the Federal Government or State's audit appeal process.

    1. If the Federal Government or State stays its collection of any amounts due or payable because of the audit findings, COUNTY shall also stay its settlement of the same amounts due or payable until the responsible auditing party initiates its settlement action with COUNTY.

    2. COUNTY shall follow all applicable Federal, State and local laws, regulations manuals, guidelines and directives in recovering from CONTRACTOR any amount due to the COUNTY.

    3. COUNTY shall issue an invoice to CONTRACTOR for any amount due to the COUNTY no later than ninety (90) calendar days after the Federal or State issues its audit settlement letter to the COUNTY. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

D. CONTRACTOR may appeal any such audit findings in accordance with the audit appeal process established by the party performing the audit.

    1. For Federal audit exceptions, Federal audit appeal processes shall be followed.

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

2. CONTRACTOR may appeal the State audit findings in conformance with provisions of Sections 51016 et seq. of Title 22 of the California Code of Regulations. Such appeals must be filed through COUNTY. COUNTY shall notify CONTRACTOR of State appeal deadlines after COUNTY'S receipt from State of the audit report.

3. If at any time the Appeal process results in a revision to the audit findings, and the Federal Government or State recalculates the final settlement with COUNTY, COUNTY may perform a post-audit based on the Federal or State revised findings after the Federal Government or State has issued its revised settlement with the COUNTY, based on such re-computed final settlement.

   a. If the re-computed final settlement results in amounts due to CONTRACTOR by the COUNTY, COUNTY shall make such payments to CONTRACTOR within thirty (30) calendar days of issuing the revised settlement amount to the CONTRACTOR.

   b. If the re-computed final settlement results in amounts due from CONTRACTOR to the COUNTY, CONTRACTOR shall make payment to the COUNTY within thirty (30) days that the COUNTY issues its invoice to the CONTRACTOR.

E. Notwithstanding any other provisions of this Agreement, if CONTRACTOR appeals any audit report, the appeal shall not prevent the COUNTY from recovering from CONTRACTOR any amount owed by CONTRACTOR that the Federal Government or State has recovered from COUNTY.

F. Should the auditing party be the COUNTY, CONTRACTOR shall have thirty (30) calendar days from the date of the audit report with in which to file an appeal with COUNTY. The letter providing the CONTRACTOR with notice of the audit findings shall indicate the person(s) and address to which the appeal should be directed. COUNTY shall consider all information provided by CONTRACTOR with its appeal, and shall issue its decision on the appeal after such consideration. Such decision is final. COUNTY shall issue an invoice for any amount due COUNTY fifteen (15) calendar days after COUNTY has notified CONTRACTOR of the COUNTY'S audit appeal findings. CONTRACTOR shall make payment to the COUNTY in accordance with the terms of Section II (Method of Payments for Amounts Due to COUNTY) of this Exhibit I. Said payment shall be submitted to the person and at the address identified in the COUNTY invoice.

II. METHOD OF PAYMENTS FOR AMOUNTS DUE TO COUNTY

A. Within ten (10) business days after written notification by COUNTY to CONTRACTOR of any amount due by CONTRACTOR to COUNTY, CONTRACTOR shall notify COUNTY as to which of the following five (5) payment options CONTRACTOR requests be used as the method by which such amount shall be recovered by COUNTY.

   Any such amount shall be:

   1. Paid in one cash payment by CONTRACTOR to COUNTY;

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

2. Deducted from future claims over a period not to exceed six (6) months;

3. Deducted from any amounts due from COUNTY to CONTRACTOR whether under this Agreement or otherwise;

4. Paid by cash payment(s) by CONTRACTOR to COUNTY over a period not to exceed six (6) months; OR

5. A combination of any or all of the above.

B. If CONTRACTOR does not so notify COUNTY within such ten (10) days, or if CONTRACTOR fails to make payment of any such amount to COUNTY as required, then Director, in his sole discretion, shall determine which of the above five (5) payment options shall be used by COUNTY for recovery of such amount from CONTRACTOR.

Purpose: Demonstrate CONTRACTOR's telehealth compliance with federal & state telehealth laws

A. Federal Telehealth Law

There are no specific federal laws governing the delivery of telehealth related to compliance, but there are numerous laws requiring telehealth reimbursement parity with face-to-face services. However, in parity with on-ground mental health services, Telehealth 'covered entities' are required to uphold federally-established HIPAA regulations according to the Health Insurance Portability and Accountability Act of 1996.

HIPAA Regulations: In addition to standard operations, HIPAA security guidelines for the electronic delivery of telehealth services have been established by HITECH (Health Information Technology for Economic and Clinical Health) as part of the American Recovery and Reinvestment Act of 2009 (ARRA). Specifically, CONTRACTOR Telehealth technologies and operational standards conform to HITECH guidelines for HIPAA compliance through:

1. **Technology Security**
    a. IETF-standard Secure Sockets Layer (SSL) and Transport Layer Security (TLS) protocols are used to protect all communication between endpoints. To provide maximum protection against eavesdropping, modification, or replay attacks, the only SSL cipher suite supported for non-Web-site TCP connections is 1024-bit RSA with 128-bit AES-CBC and HMAC-SHA1
    b. End-to-end 128 bit encryption that protects both ends of the connection
    c. Multi-layer cryptography, server, certificate, and user authentication prevent unauthorized access
2. **Role-based Security Features**
    a. Platform user permissions are centrally assigned to approved providers by the CONTRACTOR's Director of Operations only (controlled access to platform)
    b. Each session has a uniquely coded session ID that is not reusable
    c. No one else can enter the session uninvited (including staff members)
3. **Security Monitoring**
    a. occurs simultaneously on three levels, 1) CONTRACTOR Provider; 2) Facility; and 3) Behavioral Health
    b. Provider has on-screen monitoring tools to see who is connected to the session at all times
    c. Facility and BH monitors daily activity plus comprehensive data logs to ensure appropriate, secure use of system
    d. CONTRACTOR Data Centers are physically guarded and continually monitored for security and performance, guarding against cyber attacks
4. **Information Access**
    a. Communications and user identities are NEVER visible to any third party

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

b. User logs and activity is not visible to anyone but the CONTRACTOR Director of Operations

c. Sessions are not recorded

d. Contingency and Emergency Operations Plan

5. **Stringent Policies and Procedures**

a. Extensive training plus CONTRACTOR policies and procedures for clinicians governing use of the platform, their behavior online, and how they access and manage client information.

b. We also work closely with clients to ensure their compliance to HIPAA confidentiality measures (such as confirming no one can overhear their session, confirming they are in a secure and private location, etc.

B. **California Telehealth Law**

California was one of the earliest adopters of a state telehealth policy with the passing of The Telemedicine Development Act of 1996, which established a legal requirement to recognize telehealth services as equivalent to face to face services, and for such services to be reimbursable by both Medi-Cal and Medicare, as well as commercial insurers.

Current and relevant CA telehealth codes/laws include:

• **Cal. Health & Safety Code § 1374.13. (c)** - On and after January 1, 1997, no health care service plan contract that is issued, amended, or renewed shall require face-to-face contact between a health care provider and a patient for services appropriately provided through telemedicine, subject to all terms and conditions of the contract agreed upon between the enrollee or subscriber and the plan.

• **Cal. Health & Safety Code § 14132.72. (a)** - It is the intent of the Legislature to recognize the practice of telemedicine as a legitimate means by which an individual may receive medical services from a health care provider without person-to-person contact with the provider.

• **AB 415 (2012)** – Was passed to facilitate the advancement of telehealth as way of providing health services. The law established that telehealth services may consist of a real-time (synchronous) interaction between a patient and a health care provider located at a distant site or may involve the transmission of a patient's medical information from patient's site to a distant site without the presence of the patient ("asynchronous store and forward"). The law also affirmed that the use of telehealth includes allied health professions such as mental health practitioners. (See Cal. Bus. & Prof. Code § 2290.5).

• **AB 809 (2015)** - Provided that informed consent for telehealth services may be verbal only, although USCTH still obtains written consent and acknowledgement of telehealth service delivery as a "best practice".

Additional Important Telehealth Facts:

California law considers telehealth equivalent to in-person services ... Regulations established by The Telemedicine Development Act of 1996 focus on the prompt and equivalent payment for telemedicine services by contracting entities to uphold the law's intention that **telemedicine/telehealth be recognized as a legitimate means of service delivery the same as face-to-face services for all services that are possible through a telehealth platform.**

Docusign Envelope ID: 46B0A82A-711F-8E3D-83CD-81A6B037CF7A

Allied health professions are covered under the law ... Please note that the language from the Telemedicine Development Act of 1996 (Senate Bill 1665) was updated in 2012 to "**telehealth**" instead of telemedicine and covers **allied health** professions in addition to medical services.

CMS has a history of paying for telehealth services ... For informational purposes, a recent article in *healthitoutcomes.com – May, 28, 2015* – states "Total reimbursements for telemedicine by the Centers for Medicare & Medicaid Services reached $13.9 million in 2014."

"CONTRACTOR'S performance" includes CONTRACTOR'S action or inaction and the action or inaction of CONTRACTOR'S officers, employees, agents and subcontractors.

XV. INSURANCE

A. Evidence of Coverage. Prior to commencement of this Agreement, the CONTRACTOR shall provide a "Certificate of Insurance" certifying that coverage as required herein has been obtained. Individual endorsements executed by the insurance carrier shall accompany the certificate. In addition, the CONTRACTOR upon request shall provide a certified copy of the policy or policies.
This verification of coverage shall be sent to the COUNTY'S Contracts/Purchasing Office, unless otherwise directed. The CONTRACTOR shall not receive approval for

Docusign Envelope ID: A17BE9AA-0F70-896E-82AD-76A96C5A7E86

services for work under this Agreement until all insurance has been obtained as required and approved by the COUNTY. This approval of insurance shall neither relieve nor decrease the liability of the CONTRACTOR.

B. Qualifying Insurers. All coverage, except surety, shall be issued by companies which hold a current policy holder's alphabetic and financial size category rating of not less than A-VII, according to the current A. M. Best's Key Rating Guide or a company of equal financial stability that is approved by the COUNTY'S Contracts/Purchasing Officer.

C. Insurance Coverage Requirements. Without limiting CONTRACTOR'S duty to indemnify, CONTRACTOR shall maintain in effect throughout the term of this Agreement a policy or policies of insurance with the following minimum limits of liability:

1. Commercial general liability insurance, including but not limited to premises and operations, including coverage for Bodily Injury and Property Damage, Personal Injury, Contractual Liability, Broadform Property Damage, Independent Contractors, Products and Completed Operations, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence, and $2,000,000 in the aggregate.

2. Business automobile liability insurance, covering all motor vehicles, including owned, leased, non-owned, and hired vehicles, used in providing services under this Agreement, with a combined single limit for Bodily Injury and Property Damage of not less than $1,000,000 per occurrence.

3. Workers Compensation Insurance, if CONTRACTOR employs others in the performance of this Agreement, in accordance with California Labor Code section 3700 and with Employer's liability limits not less than $1,000,000 each person, $1,000,000 each accident and $1,000,000 each disease.

4. Professional Liability Insurance, if required for the professional service being provided, (e.g., those persons authorized by a license to engage in business or profession regulated by the California Business and Professional Code), in the amount of not less than $1,000,000 per claim and $2,000,000 in the aggregate, to cover liability for malpractice or errors or omissions made in the course of rendering professional services. If professional liability insurance is written on a "claims-made" basis rather than an occurrence basis, the CONTRACTOR shall, upon the expiration or earlier termination of this Agreement, obtain extended reporting coverage ("tail coverage") with the same liability limits. Any such tail coverage shall continue for at least three (3) years following the expiration or earlier termination of this Agreement.

D. Other Insurance Requirements. All insurance required by this Agreement shall be with a company acceptable to the COUNTY and issued and executed by an admitted insurer authorized to transact insurance business in the State of California. Unless otherwise specified by this Agreement, all such insurance shall be written on an occurrence basis, or, if the policy is not written on an occurrence basis, such policy with the coverage required herein shall continue in effect for a period of three (3) years following the date CONTRACTOR completes its performance of services under this Agreement.

Docusign Envelope ID: A17BE9AA-0F70-896E-82AD-76A96C5A7E86

Each liability policy shall provide that the COUNTY shall be given notice in writing at least thirty (30) calendar days in advance of any endorsed reduction in coverage or limit, cancellation, or intended non-renewal thereof. Each policy shall provide coverage for CONTRACTOR and additional insured with respect to claims arising from each subcontractor, if any, performing work under this Agreement, or be accompanied by a certificate of insurance from each subcontractor showing each subcontractor has identical insurance coverage to the above requirements.

Commercial general liability and automobile liability policies shall provide an endorsement naming the County of Monterey, its officers, officials, employees, and volunteers as Additional Insured with respect to liability arising out of the CONTRACTOR'S work, including ongoing and complete operations, and shall further provide that such insurance is primary insurance to any insurance or self-insurance maintained by the COUNTY and that the insurance of the Additional Insured shall not be called upon to contribute to a loss covered by the CONTRACTOR'S insurance.

The workers' compensation policy required hereunder shall be endorsed to state that the workers' compensation carrier waives its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers, which might arise by reason of payment under such policy in connection with performance under this Agreement by CONTRACTOR. Should CONTRACTOR be self-insured for workers' compensation, CONTRACTOR hereby agrees to waive its right of subrogation against COUNTY, its officers, officials, employees, agents, or volunteers.

Prior to the execution of this Agreement by the COUNTY, CONTRACTOR shall file certificates of insurance and endorsements with the COUNTY'S contract administrator and the COUNTY'S Contracts/Purchasing Office, showing that the CONTRACTOR has in effect the insurance required by this Agreement. The CONTRACTOR shall file a new or amended certificate of insurance within five (5) calendar days after any change is made in any insurance policy, which would alter the information on the certificate then on file. Acceptance or approval of insurance shall in no way modify or change the indemnification clause in this Agreement, which shall continue in full force and effect.

CONTRACTOR shall at all times during the term of this Agreement maintain in force the insurance coverage required under this Agreement and shall send, without demand by COUNTY, annual certificates to COUNTY'S Contract Administrator and COUNTY'S Contracts/Purchasing Office. If the certificate is not received by the expiration date, CONTRACTOR shall have five (5) calendar days to send the certificate, evidencing no lapse in coverage during the interim. Failure by CONTRACTOR to maintain such insurance coverage is a breach of this Agreement, which entitles COUNTY, at its sole and absolute discretion, to (1) immediately disallow claim(s) for payment and/or withhold payment(s) by COUNTY to CONTRACTOR, pursuant to Section IV (A), for services rendered on or after the effective date of termination, reduction, non-renewal, or cancellation of the insurance coverage maintained by CONTRACTOR, and/or (2) terminate this Agreement pursuant to Section V.

XVI. BUDGET

Docusign Envelope ID: A17BE9AA-0F70-896E-82AD-76A96C5A7E86

CONTRACTOR shall submit the Budget and Expenditure Report provided as Exhibit H, identifying CONTRACTOR'S allowable costs and program revenues. COUNTY shall identify program revenues for COUNTY funds, and CONTRACTOR shall identify allowable costs and other program revenues as defined in Exhibit B, Section VI, paragraph B of this Agreement, if applicable. The budget shall be the basis for payment reimbursements, cost settlement activities, and audits.

XVII. ACCESS TO AND AUDIT OF RECORDS

A. Right to Inspect Records. At any time during the term of this Agreement or after the expiration or termination of this Agreement, in accordance with Federal and State laws including, but not limited to the California Welfare and Institutions Code (WIC) Sections 14170 et seq., the COUNTY or its representative, Federal or State governments may conduct an audit, review or other monitoring procedures of the CONTRACTOR regarding the services/activities provided under this Agreement. The COUNTY or its representative, Federal or State governments shall have the right to inspect any and all books, records, and facilities maintained by CONTRACTOR during normal business hours and without advance notice to evaluate the use of funds and the cost, quality, appropriateness, and timeliness of services.

B. Maintenance of Records. CONTRACTOR shall maintain any and all records documenting all services set forth under this Agreement for a period of ten (10) years from the end of the fiscal year in which such services were provided or until three (3) years after final resolution of any audits, or appeals, whichever occurs later. CONTRACTOR shall maintain such records in a form comporting with generally accepted accounting and auditing standards and all applicable laws.

C. Overpayment. If the results of any audit show that the funds paid to CONTRACTOR under this Agreement exceeded the amount due, then CONTRACTOR shall pay the excess amount to COUNTY in cash not later than thirty (30) calendar days after the COUNTY notifies the CONTRACTOR of such overpayment; or, at COUNTY'S election, COUNTY may recover the excess or any portion of it by offsets made by COUNTY against any payment(s) owed to CONTRACTOR under this or any other Agreement or as set forth in Exhibit I, if made part of this Agreement.

D. Responsibility for Audit Exceptions. Any and all audit exceptions by COUNTY or any Federal or State agency resulting from an audit of CONTRACTOR'S performance of this Agreement, or actions by CONTRACTOR, its officers, agents, and employees shall be the sole responsibility of the CONTRACTOR.

E. Availability of Records for Grievances and Complaints by Recipients of Service. CONTRACTOR shall ensure the availability of records for the prompt handling of grievances or complaints filed by recipients of services. Release of records shall be subject to the confidentiality provisions set forth in this Agreement.

F. Reports. CONTRACTOR shall prepare any reports and furnish all information required for reports to be prepared by the COUNTY as may be required by the State of California or applicable law, including, but not limited to Budgets, Cost Allocation Methodologies,

CONTRACTOR shall insure that the evaluation and treatment of its employees and applicants for employment and all persons receiving and requesting services are free of such discrimination. The provision of services primarily or exclusively to such target population as may be designated in this Agreement shall not be deemed to be unlawful discrimination. In addition, CONTRACTOR'S facility access for the disabled shall comply with § 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794).

B. Discrimination defined. The term "discrimination," as used in this Agreement, is the same term that is used in Monterey County Code, Chapter 2.80 ("Procedures for Investigation and Resolution of Discrimination Complaints"); it means the illegal denial of equal employment opportunity, harassment (including sexual harassment and violent harassment), disparate treatment, favoritism, subjection to unfair or unequal working conditions, and/or discriminatory practice by any Monterey County official, employee or agent, due to an individual's race, color, ethnic group, sex, national origin, ancestry, religious creed, sexual orientation, age, veteran's status, cancer-related medical condition, physical handicap (including AIDS) or disability. The term also includes any act of retaliation.

C. Application of Monterey County Code Chapter 2.80. The provisions of Monterey County Code Chapter 2.80 apply to activities conducted pursuant to this Agreement. CONTRACTOR and its officers and employees, in their actions under this Agreement, are agents of the COUNTY within the meaning of Chapter 2.80 and are responsible for ensuring that their workplace and the services that they provide are free from discrimination, as required by Chapter 2.80. Complaints of discrimination made by recipients of services against CONTRACTOR may be pursued by using the procedures established by or pursuant to Chapter 2.80. CONTRACTOR shall establish and follow its own written procedures for prompt and fair investigation and resolution of discrimination complaints made against CONTRACTOR by its own employees and agents or recipients of services pursuant to this Agreement, and CONTRACTOR shall provide a copy of such procedures to COUNTY on demand by COUNTY.

(b) COUNTY will provide CONTRACTOR with written notification (via email) of acceptance of each deliverable within five (5) business days upon acceptance; however, failure to reject a deliverable after said five day period shall be deemed acceptance.

criteria and detail any deficiencies to CONTRACTOR in writing within 10 business days after resubmission of the deliverable.

After completion of the series of trainings, the COUNTY will be able to administer the Relias site for Learning to their User base.

(2) The IC will furnish training materials the COUNTY can use to train and these resources remain available, so the COUNTY will have them for new staff joining its organization.

(3) The Go Live plan will cover how and when the Relias site for Learning will be rolled out to COUNTY's Users and will include templates for welcome letters and other documents to help ensure a smooth rollout.
