WE have called 911 and they came right away. For 50 years we have never had anyone NOT find our road. You can Google our road and see it on the maps etc. This is a personal 'deal' basically between Cara and Dana. Also, as I understood from you the last time we talked, there would be something for neighbors to sign if in agreement or not. We have never seen anything. Also if you change the name after nearly 70 (?) years--who is going to notify all those who service our home, phones, equipment, etc. etc. What a wasteful use of time. Hope this finds you well---Lynn Jacobson

Greetings:

Just wanted to let you know I am working on Board Report regarding this road renaming. Please inform me of any of your concern. Per our last conversation more than a month ago you were going to get back to me. Let me know if you have any questions

**Thank you**

To all, besides the gate access issues that has now been corrected along with a few other minor issues. One important one still remains. "Finding us", up here when we need first responders. If you have to call 911, hopefully not. Simply put, we don't exist. It's been an ongoing problem as everything now is guided to the whomever by GPS's. As you will see below in my writing to the county after getting an honest answer from CDF via Carmel Highlands to correct this issue.

I believe you were made aware of this possible name change a while back. This was and still is my idea, solely. No Weston's were involved in my thinking. I did ask all 3 of Cole's children that were born and raised up here, Ivor, Kim & Cara, if they would have any objection to this. Their answer was "no".

To me. Something has to change due to the confusion of the county rd. Garrapatos rd in the canyon. Again and in the below is the answer I was given.

So I'm back to my original thinking. This road needs to get us on the MAP legally and documented.

To me it's a twofold/ win-win. On the map and Honors the creator, of it.

I knew Cole fairly well and once asked him how he accomplished this feat. I wasn't asking as he knew. It wasn't about the machinery to accomplish it, more so, the "hoops" and acceptance to do so (attached).

He never really answered that directly but said without saying. "You wouldn't understand". And went on to telling me about the machinery.

I can only imagine what he had to go thru as I know all too well in my 37 years here. The difficulty just trying to maintain it.

I don't know the costs. First I'm trying to get the county costs waived, due to my documented confusion. So I don't know yet. I'll guess \$1500. Said and done.

Please comment on this.

Trust the following is helpful regarding identifying the emails and people involved on this matter:

1. Newman, Eglinton, Surman, Weston and Forsberg live on Garrapata Ridge full time.
2. Wolinsky's are our partners and use the house one week a month. We [Jacobson's] use it three weekends a month.
3. Kurteff's are divorced and have not lived there in three years. Their house is for sale and empty.
4. Lundberg lives in L.A. The house was built a couple of years ago as a vacation home.
5. Both Mari's are deceased. Their son Robert is trying to sell the house. He lives in Carmel.
6. Edingers are also deceased. Their house is also empty and up for sale.
7. Sharon Damon owns two homes on Garrapata Ridge Road along with a third large property below and immediately adjacent.
8. We have NO idea who Neafsey, DeMoe or Buchwald are.

Will try to get you more information next week.
