## Footnotes

- 1) Unless a "deposit" is indicated, the fee is a flat fee based on the estimated reasonable cost, averaged across all applications, for processing the permit/entitlement/activity. In cases where the scope of an application is modified and exceeds the scope originally used to assign the fee tier (and other associated fees), the RMA reserves the right to re-assess the application to the appropriate fee tier (and collect associated fees).
- 2) For certain applications, a "deposit" is indicated because the cost of processing varies widely depending on the application. Where a "deposit" is indicated, the fee will be based on actual hours, measured by actual time spent on an application in quarter-hour (.25) increments. Applicant is required to pay the deposit, which is initially established based on an estimated minimum set of hours multiplied by the applicable billable rates. If during the processing of applications County staff determines that the deposit is insufficient to cover actual processing time, the applicant will be asked to increase the deposit amount based on a revised estimate provided by the County. The revised estimate will be calculated based on the established billable rate(s) multiplied by actual hours expended. Should the instance arise where the deposit is insufficient to cover the actual cost of the actual processing time, the applicant will be billed to cover the outstanding amount. All outstanding amounts must be paid prior to the County finalizing the application. On deposit applications, the applicant and Deputy Director of Land Use and Community Development may elect, on a case-by-case basis, to agree to a different deposit amount based on the estimated cost of processing a specific application. Invoices shall be provided to the applicant on a frequency dependent upon the application's progress. The fee will be calculated based on the number of hours expended by County staff multiplied by the applicable billable rate noted in the fee article. Consultants and other expenses shall be reimbursed based on actual costs incurred.
- 3) In the coastal zone, the appeal fee applies only to appeals of permits that are not appealable to the California Coastal Commission such as Administrative Permits, Design Approvals, Variances, and Tree Removal Permits in certain coastal areas. The appeal fee does not apply to appeals of Coastal Development Permits that are appealable to the Coastal Commission. No fee is charged for postage & handling.
